About California Coast University

California Coast University was founded in 1973 to meet the needs of professional men and women from all areas of business, industry, education, and individuals whose geographic, professional, or personal time limitations kept them from completing their education. The University's goal is to offer distance learning undergraduate and graduate educational programs to working adults who are looking for a realistic method for completing their education without returning to the traditional classroom setting.

The study programs offered at California Coast University provide students with all the necessary materials and guidance to assist them in organizing and focusing their efforts for optimum results within a reasonable period of time. Close personal communication is maintained during all stages of the study programs. This personalized faculty-student interaction has helped to make California Coast University a leader in Distance Learning Education.

Experienced adults with an interest in completing an accredited University program which awards appropriate recognition for prior occupational and educational achievements will find that California Coast University can assist them in meeting their personal educational goals and objectives within a timetable limited only by their own time and ability.

Since earning its accreditation the University has continued to grow and expand its offerings to include certificate, associate, bachelor's, master's and doctoral educational programs in varying majors including Business Administration, Management, Marketing, Psychology, Health Care Administration, Criminal Justice and Education. A complete list of educational programs offered by the University is listed in this catalog.

California Coast University operates as an Employee Stock Ownership Plan (ESOP) and is owned by the California Coast University Employee Stock Ownership Trust (ESOT).

(REV. 11/19)

Welcome from the President

To a California Coast University Prospective Student,

Welcome and thank you for considering California Coast University to help you reach your educational goals! We know there are many choices and the decision to complete an educational program is one of the most important and exciting steps you will take in your life. If you have enrolled in one of our programs or are still considering the best course for yourself, we have prepared this catalog to help you successfully understand what our University has to offer.

First, let me give you a little background. In 2013, California Coast University (CCU) celebrated its fortieth anniversary. The past decades have seen many changes in the field of education. With this, the programs at CCU have continued to evolve and meet those changes. Under the direction of our faculty and staff, our programs are uniquely designed to meet the needs of busy students, who are both highly motivated and capable of completing an accredited educational program through distance learning. Through this, we understand the characteristics and challenges common to successful students in this unique educational environment and have helped thousands of students reach their educational goals.

In closing, we hope that you will find one of our programs to fit your needs and we look forward to assisting you to meet your goal.

Best regards,

Thomas M. Neal

President

Accreditation - State Approval

California Coast University is a private university accredited by the Accrediting Commission of the Distance Education Accrediting Commission (DEAC). The DEAC (formerly the Distance Education and Training Council - DETC) was founded in 1926 in Washington, D.C. The independent Accrediting Commission of the DETC was established in the mid 1950s. By 1959, it gained the approval of the U.S. Department of Education as a “nationally recognized accrediting agency” under the terms of public law.

Distance Education Accrediting Commission
1101 17th Street, N.W., Suite 808, Washington, D.C. 20036
Web: www.deac.org Tele: 202-234-5100 Fax: 202-332-1386

As an accredited institution, CCU is eligible to participate in federal educational entitlement programs, including government tuition reimbursement programs and the Department of Veteran Affairs Montgomery GI Bill, as well as many corporate education assistance programs. Credits and degrees earned through CCU are recognized for promotion, assignment and position qualification standards within the U.S. military and Federal government.

Accreditation within higher education is a voluntary process that gives public recognition to institutions that meet certain published standards of academic and administrative quality. The purpose of accreditation is to assure the public of the quality of an institution and its commitment to high standards through a system of continuous improvement.

The U.S. Department of Education formally recognizes accrediting commissions that meet all federal standards. The Secretary of Education is required by law to publish a list of nationally recognized accrediting agencies that have been determined to be reliable authorities as to the quality of education provided by the institutions of higher education. Further, the Council on Higher Education Accreditation (CHEA) extends recognition to accrediting bodies and their institutions that meet established quality standards.

STATE APPROVAL

California Coast University holds Institutional Approval by the Bureau of Private Postsecondary Education (BPPE) of the State of California. Institutional Approval to operate requires an educational institution to be in compliance with state standards. Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the:

Bureau for Private Postsecondary Education
2535 Capitol Oaks Drive, Ste. 400, Sacramento, CA 95833
www.bppe.ca.gov, toll-free telephone number (888) 370-7589 or by fax (916) 263-1897

Note: Per the Bureau for Private Postsecondary Education code, this institution must disclose the following: This institution does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

Mission, Goals, and Objectives

Mission

California Coast University's mission is to offer quality, affordable, flexible, online undergraduate and graduate educational programs that are valuable both personally and professionally to our students. With programs that are comprehensive, current and supported by qualified faculty and staff, we are committed to keeping pace with the needs of an everchanging marketplace.

Goals

In developing and evaluating programs of study, the University seeks to continually improve its existing nontraditional programs. To ensure ongoing program excellence, responsibilities are shared between qualified faculty and administrative staff.

All degree programs at California Coast University share the following common goals:

- To enable students to acquire a body of knowledge in a specific discipline.
- To think critically.
- To improve student abilities to make significant contributions to the missions of their employers.
- To use student knowledge to improve the functioning of the communities in which they live and work.
- To enhance student personal satisfaction.
- To improve a student's level of confidence and self-esteem through the accomplishment of long term academic goals.
- To provide a pathway for students to continue the pursuit of additional life-long learning experiences.

Objectives

All programs offered at California Coast University share the following common objectives. These objectives have evolved over time and are continually shaped by students, faculty, staff, employers, other constituencies, and the ever-changing socioeconomic climate.

- To allow students to complete educational requirements at their own pace.
- To enable students to successfully meet coursework requirements without classroom attendance.
- To develop an individualized program of study for each student.
- To provide students with the most comprehensive and current information available in their field of study.
- To utilize evaluation materials which require the student to demonstrate the effective integration of concepts and skills.

Objectives - cont.

- To make available to students all materials necessary to successfully complete their program requirements, and to give students access to faculty members who can provide assistance and guidance when necessary.
- To develop students' understanding of the language and information specific to their discipline.
- To enable students to effectively integrate concepts and skills across functional areas.
- To instill in students the value of life-long learning.
- To encourage students to take advantage of life-long learning opportunities.

All programs at California Coast University use Measurable Learning Outcomes to meet program objectives and goals. Students must demonstrate satisfactory levels of performance on objective and essay examination questions throughout their course of study.

Grade Policy

- All undergraduate students must achieve an overall G.P.A. of at least 2.0 on a 4.0 scale. Students who do not meet the overall G.P.A. requirement by the end of their program must repeat courses until they improve their overall G.P.A.
- An undergraduate student who receives a failing grade must repeat the course to raise his or her course grade to a passing level.
- All graduate students must achieve an overall G.P.A. of at least 3.0 on a 4.0 scale. Students who do not meet the overall G.P.A. requirement by the end of their program must repeat courses until they improve their overall G.P.A.
- A graduate or doctoral student who receives a grade of "D" or "F" must repeat the course to raise his or her grade to a passing level.
- Failing course grades will be posted on the official transcript and count as "0" units completed.
- To repeat a course, students must pay the current tuition for the course, in full to the Accounting Department, prior to repeating the course.

Research Methods Course, Master's Thesis, and Doctoral Dissertation

- All master's and doctoral degree students must successfully complete a course focused on research methods.
- All doctoral degree students must successfully complete a Comprehensive Examination prior to beginning the research phase.
- All doctoral degree students must develop a proposal and dissertation, which is refined under faculty supervision and approved by the Dissertation Committee.
- All doctoral degree students must appear before their Dissertation Committee for the purpose of orally responding to questions as they pertain to the student's dissertation.

Academic Administration

Dr. Murl D. Tucker
Chief Academic Officer
Vice President, Student Affairs
Dean, School of Arts and Sciences

B.A. California State University, Fullerton
M.A. Alliant International University
Ph.D. Alliant International University

Dr. Tucker's professional career spans a wide range of areas in the fields of education, mental health and business. In education, he has considerable experience working with undergraduate and graduate students in a variety of capacities including administration, counseling and teaching. At the community college level, he counseled students to help them identify academic and career goals and to formulate academic plans to help them realize those goals. In addition, he has served as a professor for undergraduate psychology and applied psychology courses. At California Coast University, Dr. Tucker has been actively involved in the accreditation process, program and policy development, program research, counseling students, curriculum development and the supervision of master's and doctoral research. Some of his research interests include program design and development, organizational behavior, health psychology, creativity, personal narrative, media studies, wellness and environmental psychology. In the mental health field, Dr. Tucker was responsible for providing therapy, clinical coordination, treatment planning and quality improvement and program development for both in-patient and out-patient mental health programs. In addition, he was active in marketing and administering the programs he worked in. In these varying capacities, Dr. Tucker worked extensively with children, adolescents, adults and the elderly. Prior to enrolling in graduate school, Dr. Tucker worked in the advertising, public relations and real estate development fields.

Dr. Peng Chan
Dean, School of Administration
and Management
Professor of Administration
and Management

LL.B. University of Malaya, Malaysia
M.B.A. University of Texas, Austin
Ph.D. University of Texas, Austin

Dr. Chan holds a Law degree with top honors, an M.B.A. in Corporate Strategy & Finance, and a Ph.D. in Strategic Management. He has a vast amount of experience teaching at both the undergraduate and graduate levels, and is a tenured Full Professor of Management at California State University Fullerton, the third largest business school in the United States. Besides his academic achievements, Dr. Chan is also a successful consultant, entrepreneur, and businessman. He has over 20 years of consulting experience and has advised and trained thousands of CEOs, business owners, executives, and managers. Dr. Chan is recognized as a pioneer and leading authority on strategy and franchising in the Asia-Pacific region, has sat on the Board of the Asia Academy of Management, and was a founding member of the International Association for Chinese Management Research (IACMR), the largest professional academic organization that focuses on management research in China. He is a Fulbright Scholar and has been granted the Distinguished International Scholar Award by Phi Beta Delta (the International Honor Society) for his extensive contribution to international business. He is listed in "Who's Who Among Outstanding Young Men of America," "Who's Who Among Asian Americans," and "Who's Who Among Global Leaders." He is fluent in multiple languages including English, Chinese (several dialects), Malay, Indonesian, and some Thai.

Dr. Cynthia Teeple
Dean, School of Behavioral Science
Professor of Behavioral Science

B.A. California State University,
Los Angeles
M.A. California School of
Professional Psychology
Ph.D. California School of
Professional Psychology

Dr. Teeple brings a variety of professional experiences to her position as Dean of the School of Behavioral Science. She has been active in settings that range from treating severely ill psychiatric patients to serving upper level managers in industrial and organizational settings. Areas of special interest include the utilization of clinical methods and systems dynamics in the understanding of large organizations. Such methods are incorporated into the infrastructure of business as a means to ensure organizational health and vitality. The focus is on helping organizations improve teamwork and develop more effective interaction among individual performers. Dr. Teeple helps prepare organizations to face the demands and challenges that lead to ongoing success in business. Additional areas of special interest include the blending of social and clinical psychology. Dr. Teeple has researched social expressions of violence and its relationship to individual's self-esteem and group identification. Finally, she has developed and taught a variety of courses in psychology at a number of other universities.

Dr. Patricia Insley
Dean, School of Education
Professor of Education

B.A. Miami University, Oxford, Ohio
 M.A. California State University, Long Beach
 Ed.D. University of Southern California

Dr. Insley brings to California Coast University a variety of professional experiences in her education career that has spanned over 40 years. After graduating with her B.A. in Spanish and German, she began her career as a Spanish and English Second Language Teacher in Southern California. She later went on to complete two master's degrees and a doctorate degree, all with an emphasis in Curriculum and Instruction and Educational Administration. In addition to her classroom teaching, Dr. Insley has also served as an administrator in the public school setting. Her administrative experience includes having served as a school Principal and as a District Coordinator of federal and state projects, services for second language learners, and curriculum and instruction. In addition to her teaching and administrative credentials, she holds the Bilingual Cross-cultural Specialist credential. She has also taught postgraduate classes for teachers working on the Cross-cultural Language and Academic Development credential. She is also currently serving as a facilitator at the Institute for Leadership Development for students working on preliminary and clear California administrative credentials. As a school Principal, she successfully led staff through a program improvement process resulting in significant improvement in student achievement. Her school was recognized for these achievements with the Title 1 Academic Achievement Award (2007) and the Business for Educational Excellence Award (2006). As a Site Administrator, she was especially interested in creating a positive school environment and in fostering student success and the professional development of all staff. Dr. Insley maintains a special interest in working with programs that support culturally diverse populations, especially the English Language Learners. She was active in her local administrators' organization, serving in several officer roles, including President.

Dr. Mohamad Khatibloo
Dean, School of Criminal Justice
Professor of Criminal Justice

B.A. Chapman University
 M.A. Chapman University
 Ph.D. University of Hertfordshire, United Kingdom

Dr. Khatibloo has a highly diverse background in both academics and the private sector. Working as a faculty member for several colleges and universities, he has both developed curriculum and taught in a variety of educational programs including: Homeland Security; Domestic Security Management; and Criminal Justice programs. In addition, Dr. Khatibloo has published research in the areas of Gang Activity, Police Training, Homeland Security and Terrorism; and Suicide Bombing. Besides his degrees, he also has certificates and/or training through the Center for Homeland Security and Defense, Association for Certified Fraud Examiners, Veteran Affairs, National Institute of Justice, the U.S. Department of Defense, National Council for Community Behavioral Healthcare, and the Federal Emergency Management Agency. In the private sector, Dr. Khatibloo has been involved in Offender Services, Private Investigations, Loss Prevention, and Private Security. He is also a member of a number of professional organizations.

Dr. Rachel Stein
Assistant Dean, School of Behavioral Sciences

B.A. San Diego State University

M.Ed. Springfield College

M.A. California School of Professional Psychology-Los Angeles

Psy.D. California School of Professional Psychology-Los Angeles

Dr. Stein has over 23 years of experience in the field of psychology, both clinically and academically. She was awarded the only full time teaching fellowship in her department during her master's program at Springfield College. She has worked within several in-patient facilities where she conducted mental health and chemical dependency triage intakes and assessments. She was the lead therapist, supervising two treatment teams providing therapeutic services within a level 12 residential treatment facility for high-risk adolescents referred by the Department of Probation and the Department of Children's Services. She completed her clerkship at the UCLA Office for Students with Disabilities, where she was an advocate for student rights, worked to help students receive their accommodations, and where she conducted diagnostic and character pathology assessments. She finished her pre-doctoral training at Children's Hospital Los Angeles, in their High Risk Youth program and Division of Adolescent Medicine. Dr. Stein has authored a manual developed for a therapist to conduct group intervention for female adolescents who have been victims of acquaintance rape, and has stayed actively involved within the arena of domestic violence and violence against women as an invited panelist, educating and speaking on the "Link" for various symposiums nationwide. She was the founder and facilitator of a Positive Parenting program within several cities in the Orange County area. She's held positions on boards of local foundations and school councils, working with administrators, teachers, community leaders and local school districts, remaining active in the realm of public education. Dr. Stein is Associate Faculty and a designated Subject Matter Expert for University of Phoenix, online campus, where she instructs courses in both their Psychology and their Applied Psychology with a concentration in Media and Technology programs. She is also currently a Trainer and Curriculum Designer for Law Enforcement Training Solutions (LETS), LLC, which offers corporate courses for professional development as well as a variety of BSCC-STC and POST certified courses for law enforcement personnel to help keep them current with their knowledge, skills & abilities.

Faculty

The faculty of California Coast University is composed of qualified, experienced, and respected educators who serve as counselors and educational advisors for the students enrolled in programs at the University.

Since the University's programs are centered around the student's total life-learning accomplishments, which include work experience, prior academic classroom experience and self-directed learning outside the classroom, the members of the faculty of the University have been selected for their expertise in recognizing and evaluating these elements. The faculty members are drawn from appropriate academic disciplines and function as a catalyst to assist and guide students in their learning programs. All of our educators have demonstrated unique abilities to function in the alternative learning mode which has made California Coast University a leader in alternative education.

In addition to faculty responsibilities at California Coast University, some faculty members also serve on the faculty or administrative staff of other local colleges, universities, or public school districts.

Dr. Cindy C. Brownell
Professor of Education

B.S. University of California, Davis
 M.A. California State University, Sacramento
 Ed.D. University of the Pacific

Dr. Brownell has considerable experience in both elementary and post-secondary education. During her career, she taught child and adolescent development courses, completed Foundations for Teaching Performance Assessment training, and completed training for the Educational Administration Program. With her extensive experience working with multicultural, multilingual students, she planned and implemented standards based programs which included literacy centers, assessment, and classroom learning communities. She participated as a school leadership team member and grade level leader, as well as being a team member for the school's monitoring and accountability visit, and her district's English Language Arts Advisory Committee. In addition, she undertook language arts instruction, training, and implementation of new programs, and co-facilitated site literacy meetings on reading assessment and writing across the grade levels. At the district level, she was Assistant Director of Teacher Development. In this position, she acted as a liaison between Teacher Development Department Programs and partner districts, wrote state reports and grants, maintained the program budget, supervised and guided pre-intern and intern teachers, organized and facilitated faculty retreats, hired faculty/instructors, and worked with program participants to develop individualized program action plans. Dr. Brownell holds a California Professional Multiple Subject Teaching Credential, a California Language Acquisition Development Specialist Credential, and a Professional Clear Administrative Services Credential.

Angela Cenina
Professor of General Education

B.F.A. California State University,
 Long Beach
 M.A. California State University,
 Dominguez Hills

Professor Cenina has an extensive background with degrees in Fine Arts and Humanities and a professional certificate in BioMedical Art from California State University, Long Beach. In addition, she earned a graduate certificate in Science Illustration from the prestigious University of California, Santa Cruz program. As a part of her training, she completed art internships in both Southern and Northern California. Professionally, she oversaw the activities and instruction for a private arts school. In her position, she supervised faculty, participated in marketing and other special events for the art studio, and conducted institutional research on student retention and business efficiencies. As a volunteer, she provided art lessons to individuals with life threatening illnesses within hospital settings.

Dr. Martin Cooper
Professor of General Education

B.S.E. University of Michigan
 M.S. University of Michigan
 Ph.D. Brandeis University

Dr. Cooper brings a variety of experience to his position. Following over 15 years of experience as a Senior Scientist, Policy Advisor, and White House Exchange Fellow in the federal government, Dr. Cooper became Director of Research Planning at a major oil company. He later served as a consultant in engineering management to a wide variety of companies from electronic firms to oil field equipment companies and engineering material producers. Dr. Cooper continues to advise the federal government on the commercial feasibility of research and development programs.

Dr. David Crum

Professor of General Education

B.S. Tennessee Temple University
M.A. Liberty University
M.A. Wayland Baptist University
Ph.D. University of the Free State

With degrees in history and theological studies, Dr. Crum has a broad and varied background in academics. With his teaching, he utilizes a variety of different instructional methods to interact and provide feedback to students regarding their assigned work. He has taught courses in history, philosophy, and religious studies. In addition, he has a professional experience in business and criminal justice. He is also a member of several historical associations and is involved in a number of community organizations.

Dr. Daniel Elias

Professor of General Education

B.S. La Molina National Agrarian University,
Lima, Peru
M.S. Washington State University
Ph.D. Ball State University

Dr. Elias has a strong background in the areas of teaching and research. He has taught courses in both environmental science, biology, and agriculture. In addition, he has published research in the areas of pesticide use in agriculture, animal diversity, and environmental science. Dr. Elias is also affiliated with a number of professional organizations including: Ohio Valley Society of Environment Toxicology and Chemistry; Indiana Academy of Science; and the Society for Freshwater Sciences. Dr. Elias worked with the Indiana State Department of Health - Environmental Laboratories and has been a reviewer for both environmental science research and pollution research.

Dr. Sarah L.M. Svengalis Fraley

Professor of Psychology

Professor of General Education

B.A. Brown University, Providence, RI
B.S. University of Iowa, Iowa City, IA
Ph.D. University of Iowa, Iowa City, IA

Dr. Svengalis Fraley is a staff psychologist with extensive experience. She developed and directed the SCI Peer-Mentor Program for the Veterans Administration Healthcare System. She served as a staff psychologist with a primary focus on rehabilitation psychology and inpatient psychiatric services. She has completed clinical rotations in neuro-stroke/gerontology, adult brain injury, neurology spinal injury, and pediatric inpatient rehabilitation. Dr. Svengalis Fraley has extensive teaching and supervision experience. She taught courses in statistical methods and counseling psychology. In addition, she is a clinical supervisor for the Veterans Administration Psychology Internship program. Her activities include the provision of clinical supervision and didactic presentations to doctoral level psychology trainees. She has broad research interests and has published her research extensively and presented at numerous professional conferences. She is a member of the American Psychological Association and the American Association of Spinal Cord Injury Psychologists and Social Workers.

Adam K. Franklin
Professor of Administration
and Management
Professor of General Education

B.S. California Polytechnic State University, San Luis Obispo, CA
M.B.A. California Polytechnic State University, San Luis Obispo, CA

Professor Franklin is a mechanical engineer. His duties include the specification and optimization of cost effective solutions. He is also responsible for the calculation and verification of energy compliance with the State Energy Code. In addition, Professor Franklin has extensive experience with Autodesk Revit which allows systems to be designed in 3D. He also serves as project manager on numerous projects and is part of the marketing team utilizing his master's in business administration degree. He is a member of the United States Green Building Council and the American Society of Mechanical Engineers.

Dr. S. Jeannette Guignard
Professor of Administration and Management
Professor of Education

B.S. California State Polytechnic University, Pomona
M.B.A. California State Polytechnic University, Pomona
Ed.D. Pepperdine University

Dr. Guignard has over 20 years' experience in Sales, Marketing and Management. She is the Vice President of Sales and Client services for a Los Angeles-based consulting and corporate training company. She is responsible for identifying clients' organizational development needs and designing training and consulting solutions that enhance organizational effectiveness. In addition, to her experience within organizational training and development, her background was in marketing and specialized in developing and training sales executives, developing marketing strategies, and developing operational management strategies. Dr. Guignard has a doctorate in Organizational Leadership from Pepperdine University, an M.B.A., and a Bachelor's of Science in Business Administration and Marketing from California State Polytechnic University, Pomona. She is a Certified Project Manager and has completed Adult Teaching training. She currently enjoys being an Adjunct Professor teaching business and M.B.A courses as well as consulting for universities on the development and design of curriculum for doctoral and master's courses in Organizational Behavior. Her subject area of focus within Organizational Leadership includes Gender Issues in the workplace and research surrounding gender-role congruity theories.

Brigid Miraglia
Professor of Behavioral Sciences

B.A. California State University, Dominguez Hills
 M.S. California State University, Fullerton

Ms. Miraglia has served in the nonprofit sector assisting residents in preparing for job interviews and as an abuse hotline operator at the Women’s Transitional Living Center in Southern California. She has also worked as a mental health counselor for The Center O.C. and Turning Point Center for Families, serving clients who were diagnosed with moderate to severe depression, dysthymia or bipolar disorder. As a counselor, she has conducted group counseling sessions for children at elementary schools and high school students enrolled in a court school, focusing on anger management and socialization skills. She has also worked for the Saddleback Unified School District on the Resource Specialist Program which focused on education plans for children with limited learning disabilities and later served as a substitute teacher for various subjects in grades K-12. Ms. Miraglia is a member of the California Association of Marriage and Family Therapists and has attended workshops that promote increased understanding and knowledge of the mental health field.

Dr. Shawn Moustafa
Professor of Administration and Management
Professor of Education
Professor of General Education

B.A. University of California, Riverside
 M.B.A. New York Institute of Technology
 Ed.D. University of Southern California

Dr. Moustafa brings experience, skills, and education in sociology, business development, marketing, entrepreneurship, and project management. Prior to obtaining his M.B.A. in Management from the New York Institute of Technology, he received his B.A. in Sociology and Law & Society at the University of California, Riverside. Dr. Moustafa earned his Doctorate of Education in Educational Leadership at the University of Southern California. Additionally, Dr. Moustafa holds certification in applied project management program from California State University, Fullerton. As an entrepreneur and consultant, Dr. Moustafa’s prior experiences include overseeing business development and marketing for a Fortune 500 sales consulting firm, restructuring key business processes at a healthcare services company, and providing strategic marketing for a specialty tile company. In 2004, he founded Specialty Retail, LLC a consumer electronic business with five retail locations in Southern California. He continues to serve as a specialty retail consultant and has worked with many small businesses in establishing shopping center retail operations. As an educator, he has extensive experience working with on ground and online institutions and has worked in various departments from academic affairs to curriculum development. Dr. Moustafa has developed business and education curriculum for several universities and serves as adjunct faculty at several universities including the Carson College of Business at Washington State University. His research interests include building leadership capital, distance education, specialty retail, and learning technology.

Douglas Petrikat

Professor of Administration and Management

B.A. Hunter College of the
City University of New York
M.A. New York University
M.B.A. University of California, Irvine

Mr. Petrikat was born and raised in New York where he earned a B.A. in Communications and German Literature at Hunter College of the City University of New York. He worked in retirement planning for six years at TIAA-CREF (the largest pension fund for university instructors in the U.S.). While employed there, he earned an M.A. in International Relations from New York University. Mr. Petrikat moved to Japan and taught at LADO International College (affiliated with Georgetown University) in Tokyo for six years. After returning to the U.S., he moved to Orange County, CA and earned an M.B.A. from the University of California, Irvine Graduate School of Management. Since then Mr. Petrikat has worked as a consultant, freelance writer, and instructor. He is currently the Director of Academic Affairs at California Coast University and also teaches for Webster University, the University of Phoenix, and has appeared as a guest speaker at several universities. Courses he has taught include Management, Introduction to Business, Cultural Diversity in the Workplace, Business Ethics, Critical Thinking, American Culture, U.S. Government, and Cross Cultural Management. His published work has covered international business, culture, and politics.

Elizabeth Ramsey

Professor of General Education

B.A. California Polytechnic University, San Luis Obispo
M.A. National University

Professor Ramsey has a strong background in English, the Humanities and the Arts. As a professional writer, she has covered such diverse areas as fashion, the music world, and international culture. She wrote and edited text for films, websites, and educational, marketing and media materials. She provided editorial and content for the arts in a number of different settings. In addition, she has worked in the nonprofit sector with event planning, fundraising and as a regular writer and editor for a monthly newsletter focused on patrons and donors. With Professor Ramsey’s background in writing and editing, she is a valuable member of the curriculum development team.

Dr. Lakeleia Robinson
Professor of Administration and Management

B.S.W. South Carolina State University
 M.A. Webster University
 D.H.A. Capella University

Dr. Lakeleia Robinson received her undergraduate degree in Social Work from South Carolina State University. She earned a Master of Arts degree in Human Resources from Webster University and a Doctorate in Healthcare Administration from Capella University. Dr. Robinson professional experience includes over fifteen years in human resources, research, finance, healthcare and education. She has held positions in medical research, records management, compensation analysis, and human resources management. Dr. Robinson’s teaching experience and interests includes healthcare administration, human resources management, and organizational behavior. Her philosophy is helping others is a way of life that has been instilled in her because the generosity that she has received from others throughout life. She believes her role is to deliver quality student services to accomplish personal and professional goals. Throughout her career, she has been introduced to different facets of healthcare from both a professional and academic vantage point. Her primary areas of interest include business intelligence and health disparities in healthcare. Today, she continues to expand her experience in the healthcare field and believes her initiatives will provide positive outcomes and effective teaching and learning strategies.

Carl Rushmeyer
Professor of Criminal Justice

B.A. California State University, Sacramento
 M.S. California Coast University

Professor Rushmeyer has a broad and varied professional background in the criminal justice field. He has served as public safety officer, lieutenant, captain, and deputy chief for a municipal public safety department. In his positions, he has been responsible for a variety of administrative, leadership and field responsibilities. He has extensive experience working with community agencies and organizations, conducting departmental research, and planning bureau activities. In addition, he has been active in professional development activities including completing a number of POST certifications and leadership training. Professor Rushmeyer also has extensive experience in the recruitment, selection, and training of new officers. At California Coast University, Professor Rushmeyer is a professor in the School of Criminal Justice and an active member of the curriculum development team.

Dr. Linda B. Smith
Professor of Education

B.A. University of California
 M.Ed. University of Arizona
 Ed.D. California Coast University

Prior to her association with California Coast University, Dr. Smith maintained a leadership role in the development of innovative education in various public school systems in the United States. She was selected Outstanding Young Educator of Fairfax County, Virginia, served as president of a local Toastmaster’s International, and has been active in the American Association of University Women, as well as Chi Omega Sorority. Dr. Smith has served on the Board of the National Association of Private, Nontraditional Schools and Colleges and as Secretary/ Treasurer of the Alumni Association of California Coast University. During her educational career, she has researched nontraditional education systems, culminating in her dissertation entitled “Nontraditional Degree Granting Institutions and Their Attempts at Legitimacy Through Accreditation.” Dr. Smith has distinguished herself as an educational leader, capable of assisting students in achieving their professional and educational goals.

Patricia D. Stubban
Professor of Administration and Management

B.S. California State University, Long Beach
M.B.A. University of LaVerne

Professor Stubban has over 20 years of experience in executive level positions in Operations and General Management that she brings to her academic work. She most recently served as General Manager for Melles-Griot Photonics, a high-technology optics manufacturer. Prior to that, she was the North American Director of Operations for a major laser manufacturer. Professor Stubban has been involved in the implementation and training for various “Lean/Just-in-Time” operations programs and implemented several executive training and mentoring initiatives at companies such as Alcoa and Fairchild. She has also earned CPIM designation by the American Production & Inventory Control Society (APICS).

Dr. Mario Tovar
Professor of Behavioral Sciences
Professor of General Education

B.S. The University of Texas - Pan American
M.A. The University of Texas - Pan American
M.A. The University of Texas - Pan American
Ph.D. Walden University

Dr. Tovar has a broad background in both academics and mental health. As a faculty member, he teaches various courses in anthropology, including cultural anthropology, anthropology of war, and linguistic anthropology. In psychology, he teaches counseling, psychotherapy, group counseling, abnormal psychology, psychology and the law, adult development, cognitive psychology and social psychology. As a licensed psychologist, he maintains a part-time private practice and is director of a mental health clinic overseeing the general functioning of psychological services in an inpatient psychiatric facility. He conducts psychological assessments and evaluations for a wide variety of purposes. In addition, he supervises an internship site for master’s degree programs from different educational institutions. Dr. Tovar has multiple professional presentations and trainings in his areas of specialization.

Christina Trujillo
Professor of Criminal Justice

B.S. University of La Verne
J.D. Whittier Law School

Professor Trujillo works as a member of the faculty and the curriculum development team including course reviews, curriculum development, and editing. In addition, she has considerable experience in the legal field as a litigation specialist and a legal compliance officer. Professor Trujillo worked in both the Los Angeles and Orange County District Attorney’s Offices. She was involved with the “Innocence Project” preparation, reviewing and summarizing case documents and depositions. Together, this gives her a background in the criminal justice system.

Marlene A. Woodworth
Professor of Administration and Management

RN, Holy Name Hospital, School of Nursing
M.B.A. Pepperdine University

Professor Woodworth is a Board Member, CEO, and Business Coach who engages people to improve the performance of their boards and companies. With her extensive board and management experience, her board coaching practice focuses on improving board effectiveness to build enterprise value. Her CEO coaching builds competencies for growing and improving companies. Ms. Woodworth developed and coordinated a Governance Elective for EMBA students at the Merage School of Business at UCI and mentors students in the MBA and EMBA programs. She is a three-time hospital CEO with a track record of over twenty-five years in C-level positions. She has developed healthcare markets to market dominance and led the acquisition and consolidations of hospitals and medical groups. She is also known for leading groups of hospitals to greater profitability by implementing operational improvement plans resulting in significant bottom line improvement. Ms. Woodworth has served on the advisory boards of two start-up companies. She was a board member of the Forum for Corporate Directors for 10 years and currently serves on the board of Providence Speech and Hearing. She has served on thirteen hospital boards as a corporate member and on three hospital and medical group boards as the CEO. She has also been active on ten nonprofit boards including the UC Riverside School of Management Advisory Board. Internationally, she has consulted with hospitals in Laos and the Cook Islands and with companies at the high tech incubator in Xian, China.

THE ASSOCIATE OF SCIENCE DEGREE IN HEALTH CARE ADMINISTRATION

GENERAL EDUCATION COURSES - (30 Units)

Satisfy the University's 10 General Education Course requirements, which are 3 units each. The University's General Education Course requirements are patterned after the California State University System and include the following categories: Natural Sciences, Humanities Fine Arts, Social Sciences, Mathematics, Government, United States History, and English. These courses may be satisfied using a combination of previously earned Transfer Credit, CLEP® or DSST Examinations, Challenge Exams, or Study Guides.

Natural Sciences

- GED 101 Introduction to Life Science
- GED 108 Environmental Science

Social Sciences

- GED 215 Psychology of Adjustment
- GED 216 Introduction to Sociology

Humanities/Fine Arts

- GED 120 Introduction to Humanities
- GED 240 Art History

Basic Subjects

- GED 132 United States Government
- GED 150 Mathematics
- GED 155 English
- GED 232 Early United States History

GENERAL ELECTIVE COURSES - (12 Units)

Satisfy the University's 4 General Elective Course requirements, which are 3 units each. These requirements are also typical for any Associate's degree awarded in the United States and are also required by any college or university that is fully accredited and/or approved by the Bureau for Private Postsecondary Education, State of California.

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The Final Assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

THE BACHELOR OF SCIENCE DEGREE IN BUSINESS ADMINISTRATION

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Examine various theories relevant and applicable to the field of business administration based on industry specific research and best practices.
- Compare and contrast theories and research related to relevant models of business administration.
- Identify the practical applications needed to integrate management, marketing, accounting and finance concepts to improve short-term and long-term organizational performance.
- Examine various forms of technology currently used within the business administration field.
- Express key concepts and theories related to business administration, in written form, utilizing prescribed essay criteria.
- Demonstrate knowledge in the areas of science, social sciences, arts and humanities, and basic subjects including mathematics, English, U.S. history and government.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must be at least 18 years of age and have successfully obtained a high school diploma, GED, or its equivalent. It is recommended, but not required, that an applicant should offer evidence of successful completion of at least one year of college-level courses completed at other colleges and universities or its equivalent.

COURSEWORK REQUIREMENTS FOR GRADUATION

14 Core Courses	42 semester units
14 General Education Courses	42 semester units
14 Elective Courses	42 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Standardized Examinations, Challenge Exams, Study Guides, Specialized Training Credit, or Experiential Learning Credit. Please see the University’s policy regarding transfer credit for more information.

Bachelor of Science degree students are required to complete a minimum of 33 units (11 courses) with California Coast University.

**THE BACHELOR OF SCIENCE DEGREE IN
BUSINESS ADMINISTRATION**

CORE COURSES - (42 Units)

Satisfy the 13 Major Courses, which are all 3 units each.

- BAM 501 Human Relations
- BAM 509 Management Information Systems
- BAM 510 Human Resource Management
- BAM 511 Marketing Management
- BAM 514 International Business Management
- BAM 515 Organizational Behavior
- BAM 530 Business Ethics
- BAM 535 Advanced Human Resource Management
- BAM 545 Strategic Compensation
- BAM 550 Leadership
- BAM 554 Employee Training and Development
- BAM 560 Strategic Management
- GRM 597 The Research Process
- BAM 597 Final Comprehensive Examination

OPTIONAL MASTER’S THESIS (9 Units)

Students who wish to pursue additional research related to the major, may elect to add a Master’s Thesis (9 units) to the degree program. To add a Master’s Thesis to the degree plan, a request in writing must be submitted to the Student Services Department. At the time the request is received, information on the requirements for the Master’s Thesis, the additional tuition for the 9 units, and an application to add the Master’s Thesis will be sent to the student.

The Master’s Thesis requires the following nine units be successfully completed:

- GRM 698 Proposal for the Master Thesis
- GRM 699 The Master Thesis

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

**THE MASTER OF BUSINESS ADMINISTRATION DEGREE IN
MANAGEMENT**

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Examine strategy formulation, implementation, and evaluation concepts and techniques based on professional research in the field of management.
- Analyze different industries and make objective strategic decisions based on established management theories.
- Evaluate traditional and contemporary management theories, along with practical applications, to develop a strategic plan to improve organizational efficiency.
- Examine electronic commerce, how it is being conducted and managed around the world.
- Analyze the strategic management importance of compensation to the achievement of organizational goals.
- Express key concepts and theories related to management, in written form, utilizing prescribed essay criteria.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must have earned a bachelor's degree awarded by a college or university recognized by the U.S. Department of Education. The degree should be in Business Administration, Leadership, Management or Marketing. A bachelor's degree in another field may be considered if the Admissions Committee evaluation indicates that the applicant has the necessary foundation to succeed in the program.

COURSEWORK REQUIREMENTS FOR GRADUATION

13 Core Courses 39 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Challenge Exams and Study Guides. Please see the University's policy regarding transfer credit for detailed information.

Master of Business Administration degree in Management students are required to complete a minimum of 33 units (11 courses) with California Coast University.

THE MASTER OF BUSINESS ADMINISTRATION DEGREE IN MANAGEMENT

TOTAL UNITS REQUIRED (39 Units)

Satisfy the 13 Major Courses, which are all 3 units each.

- BAM 501 Human Relations
- BAM 509 Management Information Systems
- BAM 510 Human Resource Management
- BAM 513 Financial Management
- BAM 515 Organizational Behavior
- BAM 530 Business Ethics
- BAM 540 Project Management
- BAM 550 Leadership
- BAM 554 Employee Training and Development
- BAM 560 Strategic Management
- BAM 562 Modern Management
- BAM 570 E-Commerce Management
- GRM 597 The Research Process
- BAM 598 Final Comprehensive Examination

OPTIONAL MASTER'S THESIS (9 Units)

Students who wish to pursue additional research related to the major, may elect to add a Master's Thesis (9 units) to the degree program. To add a Master's Thesis to the degree plan, a request in writing must be submitted to the Student Services Department. At the time the request is received, information on the requirements for the Master's Thesis, the additional tuition for the 9 units, and an application to add the Master's Thesis will be sent to the student.

The Master's Thesis requires the following nine units be successfully completed:

- GRM 698 Proposal for the Master Thesis
- GRM 699 The Master Thesis

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

The School of Art and Sciences

The School of Arts and Sciences offers programs leading to the following degrees:

A.S.Associate of Science in General Studies

B.S.Bachelor of Science in General Studies

THE ASSOCIATE OF SCIENCE DEGREE IN GENERAL STUDIES

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Demonstrate knowledge in the human body and environmental science.
- Review the social sciences in the areas of cultural anthropology, psychology of adjustment, and sociology.
- Identify major themes, systems, and movements in the history of philosophy, art, and humanity.
- Review the historical roots and the establishment of government in the United States.
- Demonstrate knowledge in the subjects of mathematics and English.
- Express key concepts and theories explored in the course work, in written form, utilizing prescribed essay criteria.

PREREQUISITES TO ADMISSION:

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must be at least 18 years of age and have successfully obtained a high school diploma, GED, or its equivalent.

COURSEWORK REQUIREMENTS FOR GRADUATION

12 General Education Courses	36 semester units
8 Elective Courses	24 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Standardized Examinations, Challenge Exams, Study Guides or Specialized Training Credit. Please see the University’s policy regarding transfer credit for more information.

Associate of Science Degree students are required to complete a minimum of 30 units (10 courses) with California Coast University.

THE ASSOCIATE OF SCIENCE DEGREE IN GENERAL STUDIES

GENERAL EDUCATION COURSES - (36 Units)

Satisfy the University's 12 General Education Course requirements, which are 3 units each. The University's General Education Course requirements are patterned after the California State University System and include the following categories: Natural Sciences, Humanities Fine Arts, Social Sciences, Mathematics, Government, United States History, and English. These courses may be satisfied using a combination of previously earned Transfer Credit, CLEP® or DSST Examinations, Challenge Exams, or Study Guides.

Natural Sciences

- GED 101 Introduction to Life Science
- GED 108 Environmental Science

Social Sciences

- GED 210 Introduction to Cultural Anthropology
- GED 215 Psychology of Adjustment
- GED 216 Introduction to Sociology

Humanities/Fine Arts

- GED 120 Introduction to Humanities
- GED 130 Introduction to Civilization
- GED 240 Art History

Basic Subjects

- GED 132 United States Government
- GED 150 Mathematics
- GED 155 English
- GED 232 Early United States History

GENERAL ELECTIVE COURSES - (24 Units)

Satisfy the University's 8 General Elective Course requirements, which are 3 units each. These requirements are also typical for any Associate's degree awarded in the United States and are also required by any college or university that is fully accredited and/or approved by the Bureau for Private Postsecondary Education, State of California.

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The Final Assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

**THE BACHELOR OF SCIENCE DEGREE IN
GENERAL STUDIES**

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Examine various theories relevant to business, behavioral science, and criminal justice.
- Identify key research conducted in the business, behavioral science, and criminal justice fields.
- Identify the individual, their values, attitudes, needs, abilities, traits and motivations within an organizational setting.
- Examine various forms of technology currently used within the business, behavioral science, and criminal justice fields.
- Express key concepts and theories across the disciplines of business, behavioral science, and criminal justice, in written form, utilizing prescribed essay criteria.
- Demonstrate knowledge in the areas of science, social sciences, arts and humanities, and basic subjects including mathematics, English, U.S. history and government.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must be at least 18 years of age and have successfully obtained a high school diploma, GED, or its equivalent. It is recommended, but not required, that an applicant should offer evidence of successful completion of at least one year of college-level courses completed at other colleges and universities or its equivalent.

REQUIREMENTS FOR GRADUATION

14 Core Courses	42 semester units
14 General Education Courses	42 semester units
14 Elective Courses	42 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Standardized Examinations, Challenge Exams, Study Guides or Specialized Training Credit. Please see the University’s policy regarding transfer credit for more information.

Bachelor of Science degree students are required to complete a minimum of 33 units (11 courses) with California Coast University.

**THE BACHELOR OF SCIENCE DEGREE IN
GENERAL STUDIES**

CORE COURSES - (42 Units)

Satisfy the 14 Core Courses, which are all 3 units each.

- BAM 105 Introduction to Business
- BAM 225 Information Management
- BAM 312 Business Communications
- BAM 315 Principles of Management
- BAM 350 Project Management
- BAM 410 Organizational Theory and Behavior
- BCJ 100 Introduction to Criminal Justice

- BCJ 563 Criminal Justice Policy
- BCJ 565 Deviant Behavior
- BCJ 575 Terrorism and Homeland Security
- BCJ 582 Correctional Counseling
- GRM 597 The Research Process
- BCJ 598 Final Comprehensive Examination

OPTIONAL MASTER'S THESIS (9 Units)

Students who wish to pursue additional research related to the major, may elect to add a Master's Thesis (9 units) to the degree program. To add a Master's Thesis to the degree plan, a request in writing must be submitted to the Student Services Department. At the time the request is received, information on the requirements for the Master's Thesis, the additional tuition for the 9 units, and an application to add the Master's Thesis will be sent to the student.

The Master's Thesis requires the following nine units be successfully completed:

- GRM 698 Proposal for the Master Thesis
- GRM 699 The Master Thesis

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

The School of Education

The School of Education offers programs leading to the following degrees:

M.Ed.Master of Education in Administration

M.Ed.Master of Education in Curriculum and Instruction

Ed.D.Doctor of Education in Educational Administration

Ed.D.Doctor of Education in Educational Psychology

Ed.D.Doctor of Education in Organizational Leadership

**THE MASTER OF EDUCATION IN
ADMINISTRATION**

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Examine the theoretical foundation of educational administration based on professional research in the field.
- Evaluate the different models of teaching, the historical context within which the various models were developed, and the importance of individual differences and diversity in the selection of appropriate teaching models.
- Analyze the various social and political forces that impact effective relations between schools and the communities they serve.
- Evaluate new technology trends in learning environments, data collection tools, productivity software, the use of modern technology in professional development, and the legal and ethical issues regarding educational technology.
- Analyze the multitude of legal and ethical issues faced by school administrators today including the cultural and socioeconomic factors within the school environment.
- Express key concepts and theories related to education administration, in written form, utilizing prescribed essay criteria.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program:

An applicant must have earned a bachelor’s degree awarded by a college or university recognized by the U.S. Department of Education. The degree should be in education.

A bachelor’s degree in another field may be considered if the Admissions Committee evaluation indicates that the applicant has the necessary foundation to succeed in the program.

COURSEWORK REQUIREMENTS FOR GRADUATION

13 Core Courses 39 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Challenge Exams and Study Guides. Please see the University’s policy regarding transfer credit for detailed information.

Master of Education in Administration students are required to complete a minimum of 33 units (11 courses) with California Coast University.

THE MASTER OF EDUCATION IN ADMINISTRATION

TOTAL UNITS REQUIRED (39 Units)

Satisfy the 13 Core Courses, which are all 3 units each.

- EDU 501 Integrating Technology into Teaching
- EDU 507 Cultural Issues in Education
- EDU 510 Models of Teaching
- EDU 520 Leadership and Organizational Behavior
- EDU 523 Strategic Issues Management
- EDU 526 Supervision of Instruction
- EDU 529 Educational Personnel Management
- EDU 532 School - Community Relations
- EDU 536 Ethics in Education
- EDU 545 Leadership and Technology
- EDU 546 Public Policy
- EDU 547 Legal Aspects of Education
- GRM 597 The Research Process
- EDU 597 Final Comprehensive Examination

OPTIONAL MASTER'S THESIS (9 Units)

Students who wish to pursue additional research related to the major, may elect to add a Master's Thesis (9 units) to the degree program. To add a Master's Thesis to the degree plan, a request in writing must be submitted to the Student Services Department. At the time the request is received, information on the requirements for the Master's Thesis, the additional tuition for the 9 units, and an application to add the Master's Thesis will be sent to the student.

The Master's Thesis requires the following nine units be successfully completed:

- GRM 698 Proposal for the Master Thesis
- GRM 699 The Master Thesis

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

THE MASTER OF EDUCATION IN CURRICULUM AND INSTRUCTION

PROGRAM OBJECTIVES:

Upon successful completion of the program, students will be able to:

- Examine the theoretical foundation of curriculum and instruction based on the philosophical, historical, psychological, and social foundations of the field.
- Examine how curriculum models are utilized in the educational environment.
- Compare and contrast the similarities and differences in conceptions of culture, race, ethnic groups, and minority groups related to curriculum and instruction.
- Evaluate the various models of teaching, the historical context within which the models were developed, and the importance of individual differences and diversity in the selection of appropriate teaching models.
- Examine curriculum development, measurement, policies of inclusion, and the effects of culture to improve educational programs in diverse classrooms.
- Express key concepts and theories related to curriculum and instruction, in written form, utilizing prescribed essay criteria.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must have earned a bachelor’s degree awarded by a college or university recognized by the U.S. Department of Education. The degree should be in education. A bachelor’s degree in another field may be considered if the Admissions Committee evaluation indicates that the applicant has the necessary foundation to succeed in the program.

COURSEWORK REQUIREMENTS FOR GRADUATION

13 Core Courses 39 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Challenge Exams and Study Guides. Please see the University’s policy regarding transfer credit for detailed information.

Master of Education in Curriculum and Instruction students are required to complete a minimum of 30 units (11 courses) with California Coast University.

THE MASTER OF EDUCATION IN CURRICULUM AND INSTRUCTION

TOTAL UNITS REQUIRED (39 Units)

Satisfy the 13 Core Courses, which are all 3 units each.

- EDU 501 Integrating Technology into Teaching
- EDU 507 Cultural Issues in Education
- EDU 510 Models of Teaching
- EDU 521 Psychology Applied to Teaching
- EDU 523 Strategic Issues Management
- EDU 524 Curriculum Design and Evaluation
- EDU 526 Supervision of Instruction
- EDU 536 Ethics in Education
- EDU 545 Leadership and Technology
- EDU 546 Public Policy
- EDU 547 Legal Aspects of Education
- EDU 548 Global Perspectives in Curriculum
- GRM 597 The Research Process
- EDU 598 Final Comprehensive Examination

OPTIONAL MASTER'S THESIS (9 Units)

Students who wish to pursue additional research related to the major, may elect to add a Master's Thesis (9 units) to the degree program. To add a Master's Thesis to the degree plan, a request in writing must be submitted to the Student Services Department. At the time the request is received, information on the requirements for the Master's Thesis, the additional tuition for the 9 units, and an application to add the Master's Thesis will be sent to the student.

The Master's Thesis requires the following nine units be successfully completed:

- GRM 698 Proposal for the Master Thesis
- GRM 699 The Master Thesis

FINAL ASSESSMENT

The Final Assessment offers the Graduate Review Committee an opportunity to review and assess all degree program requirements. The assessment is intended to determine whether the student has completed all graduation requirements and has demonstrated an appropriate level of competence in the program. The Final Assessment is conducted as a University function and does not require student participation.

THE DOCTOR OF EDUCATION DEGREE PROGRAM**PROGRAM OBJECTIVES: Doctor of Education in Educational Administration**

- Develop knowledge of learning theory, philosophical and historical foundations, and public policy in the procurement of education administration.
- Develop a comprehensive understanding of a variety of educational leadership strategies to enhance learning using vision, missions, goals and objectives, strategic planning and sound decision-making in a wide range of learning environments.
- Apply the skill of interpreting, gathering and conducting educational research coupled with developing educational standards and accountability of school systems.
- Analyze educational environments so that decision-making and leadership can be developed to manage human resources, motivate people and train and develop through different learning modalities to make effective decisions about appropriate uses of educational finance in learning communities.
- Synthesize both knowledge and application of educational administration by incorporating leadership techniques to lead educational organizations in both domestic and multicultural learning communities.
- Evaluate the larger political, social, economic, legal and cultural influences of education through research supported by theoretical foundations to change, alter and expand educational initiatives in school systems.

PROGRAM OBJECTIVES: Doctor of Education in Organizational Leadership

- Develop knowledge of learning theory, philosophical, historical, legal foundations, and public policy toward providing effective educational leadership.
- Develop a comprehensive understanding of a variety of educational leadership strategies to enhance institutional adaptation to change in a wide range of learning environments.
- Apply the skill of interpreting, gathering, and conducting educational research coupled with the skills needed to lead educational organizations.
- Analyze educational environments so that decision making and leadership can be developed to manage change and conflict in educational organizations, including those that are domestic, global and diverse.
- Synthesize both knowledge and application of educational leadership strategies to facilitate positive change within educational organizations.
- Evaluate the larger political, social, economic, legal and cultural influences of education through research supported by theoretical foundations to lead, change, alter and expand educational initiatives in school systems.

THE DOCTOR OF EDUCATION DEGREE PROGRAM

PROGRAM OBJECTIVES: Doctor of Education in Educational Psychology

- Develop knowledge of philosophical, historical, and legal foundations, public policy, and legal aspects of education toward providing positive environments for student success.
- Develop a comprehensive understanding of a variety of educational theories and current issues to improve the environments in which students think, study and learn effectively.
- Apply the skills of measurement theory to the scientific inquiry of interpreting, gathering, and conducting educational research.
- Analyze educational environments so that strategies and skills related to decision-making, handling controversy, and managing conflicts lead to productive learning environments.
- Synthesize both knowledge and application of trends in cognitive development to facilitate the development of positive and productive learning environments.
- Evaluate the larger political, social, economic, legal and cultural influences of educational settings through research supported by the theoretical foundations of effective personal and social development.

PREREQUISITES TO ADMISSION

The applicant should meet the following prerequisites in order to be admitted to the program: An applicant must have earned a Master's degree awarded by a college or university recognized by the U.S. Department of Education. The degree should be in education or a Master's degree in another field may be considered if the Admissions Committee evaluation indicates that the applicant has the necessary foundation to succeed in the program.

If an applicant has earned a master's degree in a field other than education and the Admissions Committee evaluation indicates that the applicant has the necessary foundation to succeed in the program, the applicant must then complete a total of 5 prerequisite courses before beginning the Doctor of Education program curriculum.

Prerequisite Courses (15 Semester Units)

- EDU 510 Models of Teaching (3 units)
- EDU 532 School-Community Relations (3 units)
- EDU 545 Leadership and Technology (3 units)
- EDU 546 Public Policy (3 units)
- EDU 547 Legal Aspects of Education (3 units)

THE DOCTOR OF EDUCATION DEGREE PROGRAM

REQUIREMENTS FOR GRADUATION

The Doctor of Education Degree is comprised of 66 semester units of credit.

3 Qualifying Courses.....	12 semester units
1 Qualifying Examination.....	Pass/No pass
4 Core Courses.....	14 semester units
4 Specialization Courses.....	16 semester units
2 Research Courses.....	8 semester units
Comprehensive Examination.....	2 semester units
Proposal.....	2 semester units
Dissertation and Oral Defense.....	12 semester units

Course requirements may be completed using a combination of previously earned transfer credits (not to exceed 2 courses) or Study Guides.

Doctor of Education degree students are required to complete a minimum of 10 courses in addition to a qualifying examination and a comprehensive examination.

DISSERTATION

Upon successful completion of all course and examination requirements, students complete a doctoral dissertation. For the dissertation, students complete original research in an area related to the major. First, students complete and submit a formal proposal and dissertation, followed by the Oral Defense. The dissertation process is conducted under the supervision of the California Coast University the Dissertation Committee.

The Dissertation Committee consists of three faculty members assigned by the University. Each member possesses a doctoral level degree in the field of education and has experience and practice in the field of education. The Dean of the School of Education serves as the Chairperson for the dissertation research and the student will work closely with the committee to formulate and conduct his or her research.

ONLINE LIBRARY RESOURCES

To assist students with their research, the University contracts with The Library and Information Resources Network, Inc. (LIRN) library database. LIRN provides students with access to multiple research databases through one portal. These resources will be essential at the dissertation stage and will also provide students with information to reference throughout their program.

THE DOCTOR OF EDUCATION IN EDUCATIONAL ADMINISTRATION

Qualifying Courses (12 Semester Units)

- EDU 602 Philosophical Foundations of Education (4 units)
- EDU 610 Learning Theory (4 units)
- EDU 614 History of Education (4 units)
- EDU 615 Qualifying Examination (Pass/No pass)

Core Courses (14 Semester Units)

- EDU 618 Analysis of Current Issues in Education (4 units)
- EDU 621 Organizational Behavior and Adaptive Leadership (4 units)
- EDU 591 Public Policy (3 units)
- EDU 592 Legal Aspects of Education (3 units)

Specialization Courses (16 Semester Units)

- EDU 627 Managing Human Resources (4 units)
- EDU 630 Educational Finance (4 units)
- EDU 645 Advanced Curriculum Development (4 units)
- EDU 647 Educational Standards and Accountability (4 units)

Research Courses (8 Semester Units)

- EDU 652 Educational Research (4 units)
- EDU 653 Quantitative Methods in Educational Research (4 units)

Comprehensive Examination (2 Semester Units)

- EDU 687 Comprehensive Examination (2 units)

Research and Dissertation Phase (14 Semester Units)

- GRM 712 Proposal (2 units)
- GRM 715 Dissertation and Oral Defense (12 units)

FINAL ASSESSMENT

The Final Assessment of each doctoral degree candidate's records offers the Doctoral Review Committee an opportunity to review and assess the results of all completed course work assignments, the Comprehensive Examination and the dissertation portion of the candidate's program. The Final Assessment is intended to determine whether the candidate's demonstrated level of competence and learning outcomes are, in fact, comparable to those expected from a doctoral candidate in a more traditional setting.

As a vital part of the Final Assessment process, the doctoral candidate will be asked to present himself/herself before their Dissertation Committee for the purpose of orally responding to committee member questions as they pertain to the candidate's dissertation.

Upon successful completion of the oral defense, the candidate will receive immediate acknowledgement, by letter, of satisfaction of all graduation requirements. A formal Final Assessment Committee Report will be placed in the candidate's portfolio. The doctoral degree and an official transcript will be mailed to the graduate in approximately 4 to 6 weeks.

THE DOCTOR OF EDUCATION IN EDUCATIONAL PSYCHOLOGY

Qualifying Courses (12 Semester Units)

- EDU 602 Philosophical Foundations of Education (4 units)
- EDU 610 Learning Theory (4 units)
- EDU 614 History of Education (4 units)
- EDU 615 Qualifying Examination (Pass/No pass)

Core Courses (14 Semester Units)

- EDU 618 Analysis of Current Issues in Education (4 units)
- EDU 621 Organizational Behavior and Adaptive Leadership (4 units)
- EDU 591 Public Policy (3 units)
- EDU 592 Legal Aspects of Education (3 units)

Specialization Courses (16 Semester Units)

- EDU 624 Group Dynamics (4 units)
- EDU 640 Motivation and Learning (4 units)
- EDU 646 Educational Measurement (4 units)
- EDU 649 Advanced Educational Psychology (4 units)

Research Courses (8 Semester Units)

- EDU 652 Educational Research (4 units)
- EDU 653 Quantitative Methods in Educational Research (4 units)

Comprehensive Examination (2 Semester Units)

- EDU 689 Comprehensive Examination (2 units)

Research and Dissertation Phase (14 Semester Units)

- GRM 712 Proposal (2 units)
- GRM 715 Dissertation and Oral Defense (12 units)

FINAL ASSESSMENT

The Final Assessment of each doctoral degree candidate's records offers the Doctoral Review Committee an opportunity to review and assess the results of all completed course work assignments, the Comprehensive Examination and the dissertation portion of the candidate's program. The Final Assessment is intended to determine whether the candidate's demonstrated level of competence and learning outcomes are, in fact, comparable to those expected from a doctoral candidate in a more traditional setting.

As a vital part of the Final Assessment process, the doctoral candidate will be asked to present himself/herself before their Dissertation Committee for the purpose of orally responding to committee member questions as they pertain to the candidate's dissertation.

Upon successful completion of the oral defense, the candidate will receive immediate acknowledgement, by letter, of satisfaction of all graduation requirements. A formal Final Assessment Committee Report will be placed in the candidate's portfolio. The doctoral degree and an official transcript will be mailed to the graduate in approximately 4 to 6 weeks.

THE DOCTOR OF EDUCATION IN ORGANIZATIONAL LEADERSHIP

Qualifying Courses (12 Semester Units)

- EDU 602 Philosophical Foundations of Education (4 units)
- EDU 610 Learning Theory (4 units)
- EDU 614 History of Education (4 units)
- EDU 615 Qualifying Examination (Pass/No pass)

Core Courses (14 Semester Units)

- EDU 618 Analysis of Current Issues in Education (4 units)
- EDU 621 Organizational Behavior and Adaptive Leadership (4 units)
- EDU 591 Public Policy (3 units)
- EDU 592 Legal Aspects of Education (3 units)

Specialization Courses (16 Semester Units)

- EDU 625 Foundations in Leadership (4 units)
- EDU 629 Diversity in Global and Multicultural Organizations (4 units)
- EDU 642 Managing Conflict in Organizations (4 units)
- EDU 650 Leading Through and By Change (4 units)

Research Courses (8 Semester Units)

- EDU 652 Educational Research (4 units)
- EDU 653 Quantitative Methods in Educational Research (4 units)

Comprehensive Examination (2 Semester Units)

- EDU 688 Comprehensive Examination (2 units)

Research and Dissertation Phase (14 Semester Units)

- GRM 712 Proposal (2 units)
- GRM 715 Dissertation and Oral Defense (12 units)

FINAL ASSESSMENT

The Final Assessment of each doctoral degree candidate's records offers the Doctoral Review Committee an opportunity to review and assess the results of all completed course work assignments, the Comprehensive Examination and the dissertation portion of the candidate's program. The Final Assessment is intended to determine whether the candidate's demonstrated level of competence and learning outcomes are, in fact, comparable to those expected from a doctoral candidate in a more traditional setting.

As a vital part of the Final Assessment process, the doctoral candidate will be asked to present himself/herself before their Dissertation Committee for the purpose of orally responding to committee member questions as they pertain to the candidate's dissertation.

Upon successful completion of the oral defense, the candidate will receive immediate acknowledgement, by letter, of satisfaction of all graduation requirements. A formal Final Assessment Committee Report will be placed in the candidate's portfolio. The doctoral degree and an official transcript will be mailed to the graduate in approximately 4 to 6 weeks.

The Master's Thesis

THE MASTER'S THESIS

As an additional option to the required program, Master's Degree students have the option to develop a traditional graduate level thesis. The thesis constitutes (9) additional graduate level units to the required 12 - 13 required core courses (36 - 39 units). The student must submit a request in writing to add a thesis to the degree plan. At that time, additional current tuition charges will be assessed and information regarding the thesis requirements will be sent to the student.

THE RESEARCH PHASE

When all required coursework has been satisfactorily completed, and the appropriate grade point average requirement for the level of the degree has been met, the student will receive a letter confirming completion of the coursework. All Master's students who have elected to develop a thesis will be provided the appropriate manual produced by the University to guide them in the development of the research.

The research manual for graduate students, "Guidelines for Writing the Thesis," provided to students at no cost, guides students in the preparation of:

- The Research Topic Approval Form
- The Proposal
- The Thesis

THE RESEARCH TOPIC APPROVAL FORM (RTAF)

Students choose their own thesis research topics within the major. To assist in this process, the Graduate Review Committee requests students to answer a brief series of questions to help focus their interests. A member of the Graduate Review Committee will work with students to help determine appropriate research topics. Students may choose to do research that is either empirical or non-empirical in nature with topics that are supported by sufficient theory and professional research. It is the intention of the Graduate Review Committee to assist students in choosing topics that may be completed in a reasonable period of time and ones that will be beneficial to them in achieving their professional goals. The RTAF functions only as a topic approval process; no data may be collected at this stage. Once the RTAF has been approved, the student will develop a formal proposal which must be presented according to the Formal Research Proposal Section of the University's research manual.

THE FORMAL PROPOSAL

This comprehensive manual guides the student, step-by-step, through the organization and writing of the formal proposal. It simplifies much of the complexity commonly associated with this style of writing and research. It provides complete descriptions of each section, as well as sample models to follow for organization, style, and format. Verbal discussion, advice, or instruction with an advisor or the Committee Chairperson pertaining to the formal proposal cannot be construed as an approval. The formal proposal must be submitted in written and completed form. After the Graduate Review Committee has had an opportunity to review the submission, a written response will be sent to the student regarding acceptance. No data may be collected at this stage.

WRITING THE THESIS

After the proposal has been approved, the student may begin the formal research and writing of the thesis. The University's research manual will provide the student with the details required to present their research in the style and format required by the University. Students must periodically write or telephone the Chairman of their Committee to discuss their progress.

THE BOUND COPY

When the thesis has been approved, the student will be provided with a signed signature approval page, which the student must insert into the master copy. The student will then have one copy bound in a hardback, library-style binding, with the title and the student's name embossed in gold on both the spine and the cover. The bound copy will be presented to the University for permanent inclusion in the University's Thesis Library. The bound copy will serve as permanent evidence of the student's ability to conduct professional and scholarly research.

The Doctoral Dissertation

THE DOCTORAL DISSERTATION

RESEARCH & DISSERTATION PHASE

The Doctor of Education (Ed.D.) is a professional doctoral degree awarded after demonstrating the ability to conduct original research, which advances the body of knowledge in education. Through the process of completing research, it is expected that the student will develop an original idea, become an expert in both the theory and published research in the area of interest and master the objective, scholarly writing style used by researchers in education.

When all required coursework has been satisfactorily completed, the appropriate grade point average of 3.0 (B) or better has been met and the student has received a passing grade on the Comprehensive Examination, they will receive approval to move on to the research phase of the doctoral program.

The dissertation process is conducted under the supervision of the California Coast University the Dissertation Committee. The Dissertation Committee consists of three faculty members assigned by the University. Each member possesses a doctoral level degree in the field of education and has experience and practice in the field of education. The Dean of the School of Education serves as the Chairperson for the dissertation research and the student will work closely with the committee to formulate and conduct his or her research.

Candidates will be provided a RTAF in addition to Guidelines for Writing the Dissertation, Topic Approval, where they will be instructed on selecting a research topic. Students may fulfill the doctoral dissertation requirement by using either empirical or critical analysis research methods. Empirical methods involve the collection and analysis of data to identify relationships between variables; critical analysis methods involve a review of current theory and research with the goal of creating a model program. Once a student has chosen which method they will be using and submit their RTAF, they will be sent either Guidelines for Writing the Dissertation, Empirical Research, or Guidelines for Writing the Dissertation, Critical Analysis Research, which will outline the research guidelines and instruct students on how to submit an appropriate formal proposal.

All dissertations are completed in 3 stages:

1. Submission and approval of the research topic
2. Submission and approval of the formal proposal
3. Submission and approval of the completed dissertation manuscript

Each stage requires the approval of the Dissertation Review Committee before proceeding to the next.

RESEARCH TOPIC APPROVAL FORM (RTAF)

Students are requested to describe their general thoughts about possible topics for investigation and how they may want to proceed. Topics may be related to the student's occupation or work experience if it is an appropriate topic for education. Students will determine which method of research they will use to complete their proposal and dissertation. Brief answers to a few simple questions provide the faculty with information to provide assistance in determining the most appropriate topic and offer guidance that can save the student time, energy and effort.

THE FORMAL PROPOSAL

Once the research topic has been approved, the doctoral candidate will develop and submit a formal proposal. The University's Guidelines for Writing a Dissertation contains detailed instructions on development and presentation of research. In addition, the manual has models in the Appendix to serve as examples of how the proposal is to be presented.

This comprehensive manual guides the student, step-by-step, through the organization and writing of the formal proposal. It simplifies much of the complexity commonly associated with this style of writing and research. It provides complete descriptions of each section, as well as sample models to follow for organization, style and format.

The formal proposal must be submitted to the student's Dissertation Committee Chairperson and be approved before any work and research may commence.

While the University encourages all candidates to have regular interaction with their advisor or Committee Chairperson, verbal discussion, advice or instruction pertaining to the proposal cannot be constructed as an approval. The proposal must be submitted in written form to the University.

WRITING THE DISSERTATION

After the research topic and proposal have been approved, the doctoral candidate may begin their formal research and writing. The University's dissertation manual will provide them with the details required to present their research in the style and format required by the University. Students are encouraged to contact their advisor and/or Committee Chairperson to review and discuss their progress.

THE BOUND COPY

When the dissertation has been approved, the student will be provided with a signed signature approval page. The student must then have two copies of the dissertation bound in a hardback, library-style binding, with the title and the student's name embossed in gold on both the spine and cover. One bound copy will be presented to the University for permanent inclusion in the University's Dissertation Library. This will serve as permanent evidence of the student's ability to conduct professional and scholarly research. The second bound copy is for the doctoral candidate to keep for his or her personal use.

General Information

COMPLETING COURSEWORK REQUIREMENTS

Certificate Programs - (Undergraduate and Graduate)

4 Core Courses 12 semester units

Associate's Degrees*

6 Core Courses 18 semester units

10 General Education Courses 30 semester units

4 Elective Courses 12 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Standardized Examinations, Challenge Exams, Study Guides, Specialized Training Credit, or Experiential Learning Credit.

*Please note that the Associate Degree in General Studies includes 12 General Education Courses (36 semester units) and 8 Elective Courses (24 semester units). In addition, Experiential Learning Credit is not available for this degree program.

Bachelor's Degrees

14 Core Courses 42 semester units

14 General Education Courses 42 semester units

14 Elective Courses 42 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Standardized Examinations, Challenge Exams, Study Guides, Specialized Training Credit, or Experiential Learning Credit.

Master's Degrees

13 Core Courses 39 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit, Challenge Exams and Study Guides.

Doctoral Degrees

3 Qualifying Courses 12 semester units

1 Qualifying Examination Pass/No pass

4 Core Courses 14 semester units

4 Specialization Courses 16 semester units

2 Research Courses 8 semester units

Comprehensive Examination 2 semester units

Proposal 2 semester units

Dissertation and Oral Defense 12 semester units

Total course requirements may be completed using a combination of previously earned Transfer Credit (not to exceed 2 courses) or Study Guides.

ACADEMIC CREDIT

Each course is measured in semester units of credit. One semester unit is equivalent to 15 contact hours of student engagement plus 30 hours of student preparation. The following grades and corresponding grade points are used to calculate the grade point average.

A = Excellent	4 grade points
B = Above Average	3 grade points
C = Average	2 grade points
D = Poor	1 grade point
F = Fail	0 grade points

TRANSFER OF CREDIT

The University will accept transfer credit from applicable courses completed at colleges or universities accredited by an agency recognized by the U.S. Department of Education or foreign equivalent. To be eligible for transfer credit, each course must be an equivalent three-semester unit course, with a grade of "C" or better. For doctoral transfer credit, each course must be an equivalent of four-semester units where the CCU requirement is four semester units.

Students have 45 days from the date of enrollment to transfer credit from other institutions. Any credit transferred after 45 days will be awarded if applicable, but course fees are still charged. There will also be a charge of \$75 for additional evaluations done after the allotted 45 days from the date of enrollment.

- Certificate students may receive transfer credit for up to 6 semester units of previously completed coursework. Students may transfer up to 9 semester units of credit completed at California Coast University.
- Associate of Science students may receive transfer credit for up to 30 semester units of previously completed coursework.
- Bachelor of Science students may receive transfer credit for up to 93 semester units of credit of previously completed coursework.
- Master degree students may receive transfer credit for up to 6 semester units of previously completed coursework.
- Doctor of Education students may receive transfer credit for up to two courses (up to 8 semester units) of previously completed coursework.

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credits you earn at California Coast University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the credits or degree you earn in your educational program is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending California Coast University to determine if your credits or degree will transfer.

EXPERIENTIAL LEARNING CREDIT (Associate's or Bachelor's degrees only)

Students with a substantial amount of professional experience may receive credit based on experiential learning. Eligibility for experiential credit is determined at the application stage of the enrollment process. For this, the applicant's educational background and work history are reviewed and an assessment is made indicating which core courses may be eligible for experiential credit.

Experiential credit may only be awarded based on the following established criteria:

- The prior learning is equivalent to a college or university level of learning.
- The learning experience demonstrates a balance between theory and practice.
- The credit awarded for the prior learning experience directly relates to the student's degree program and is applied in satisfaction of some of the degree requirements (core courses).
- Associate level students may receive up to 15 semester units of credit for core courses.
- Bachelor level students may receive up to 30 semester units of credit for core courses - not to exceed 15 units in the first 60 semester units and not to exceed 15 units in the second 60 semester units awarded.
- No experiential credit is awarded to students enrolled in a certificate, master's or doctoral program.

After enrollment, a Request for Experiential Credit form must be submitted by the student for each course under consideration. On the form, the student must provide a detailed explanation of experience, an inventory of completed seminars, lectures, military schools, government or company sponsored training programs, and any other formal learning which may be relevant. In addition, a bibliographical reference of any reading the candidate may have done will be considered.

After the Request for Experiential Credit form and supporting documents have been submitted to the University, a qualified member of the faculty then reviews the submitted materials to determine if full credit should be awarded. A second review is conducted by the Director of Academic Affairs. This is done to ensure continuity of the process and to verify compliance with state and accrediting regulations. Based on the two reviews, a determination is made to grant the academic credit or not. If there appears to be sufficient justification for granting the academic credit, the credit is awarded and posted to the transcript. If there is not sufficient justification to warrant full course credit, the student is assigned a Challenge Examination for the course.

If a student does not agree with the decision made by the reviewers, he or she may appeal the decision, in writing, to the Dean. The student may provide additional information or documentation for consideration. The Dean's will then review the appeal. The Dean's decision will be final.

If a student is initially provided the opportunity to request experiential credit, and later changes his or her mind and would prefer to complete a Challenge Examination, he or she may do so. To request a Challenge Examination in lieu of experiential credit, a student should submit a request in writing addressed to the Director of Academic Affairs requesting the change be made to the student's approved degree plan.

SPECIALIZED TRAINING

- Specialized training allows undergraduate students to receive credit in the General Elective Category only.
- Specific training programs which a student may have completed through their employer, company, organization, military training experiences, professional or personal licensure requirements or other documented training experiences may be eligible for academic credit.
- Eligibility for specialized training is assessed at the application stage of the enrollment process. All supporting documentation of prior training is reviewed for equivalent elective credit.
- Students have 45 days from the date of enrollment to submit documents for specialized training. If applicable, credits will be awarded and tuition will be adjusted accordingly. If specialized training documents are received after the initial 45 days, then there is a re-evaluation fee of \$75 and credits may be awarded, if applicable, but course fees still apply.

CHALLENGE EXAMINATIONS

- During the admissions process, all professional experience is reviewed to determine if an applicant has sufficient occupational experience to warrant taking a Challenge Examination in lieu of completing the Study Guide for a particular course.
- An applicant may be offered an opportunity to complete a Challenge Examination if the candidate's occupational expertise appears to be comparable to the objectives identified for a particular course. Successfully passing a Challenge Examination will demonstrate an acceptable level of competence for that course. If a student does not pass a Challenge Examination, they are assigned a Study Guide for completion.
- Challenge Examinations will not be offered to students enrolling in the Doctor of Education degree programs.

STUDY GUIDES

- California Coast University has developed comprehensive Study Guides for each course that are designed to coordinate and sequence the learning materials for the student. Study Guides are based on specific college level textbooks, which may be obtained from local bookstores, the publisher, or the University's Rental Library which is available by telephone, fax, email, or online via the Coast Connection Student Portal.
- Study Guides are organized in such a way that a student receives a complete syllabus for each course, along with instructional materials which guide the student chapter by chapter through the corresponding textbook.
- Each Study Guide contains an overview and summary of each textbook chapter, along with a listing of important key words (with definitions), self-tests (with answers) and critical analysis questions (with solutions) on key points.
- Study Guides include four multiple-choice Unit Examinations equally spaced throughout the instructional materials, a brief writing assignment per unit, and the Final Examination Scheduling Form. Examinations are designed to test the student on the preceding chapters. All tests are untimed and may be completed as open book tests.
- Master of Education and Doctor of Education students are required to answer four written assignments for each Unit Examination in lieu of multiple-choice questions.

PROCTORED FINAL EXAMINATIONS

Each educational program requires that a Proctor administer Final Examinations in the major (or Core) courses and in all General Education courses.

The purpose of the Proctored Examination is to verify that you are, in fact, the person who enrolled in the course of study. During Proctored Examinations, you may use your course textbook and any notes that you have taken during the completion of your Study Guide. The individual who will serve as the Proctor is selected by the student and approved by the University. Typical examples include members of the clergy, job supervisor, co-worker, librarian, counselor, etc. A Proctor can be any reputable person, other than a relative, someone that resides with you, or a former/current CCU student. Additional instructions will be provided to the Proctor at the time he or she is proctoring a student's final examination.

RESPONSE TIME FOR TEST AND PROJECT REVIEWS

When students submit work for review and evaluation, the typical time required for the University to respond is two weeks for coursework essays and tests, and six to eight weeks for review of the thesis and dissertation formal proposal.

THE UNIVERSITY'S RENTAL LIBRARY

To assist students to manage the costs of textbooks, California Coast University offers a rental library for course textbooks. Student requests to rent a book will be accepted by letter, fax, email, telephone or via the Coast Connection online portal. A security deposit and a rental fee will be charged for each book. The rental fee will not be refunded; the security deposit is transferred to the next book rented and will be refunded when all coursework has been satisfactorily completed, and the final textbook is returned on time and in the same condition in which it was provided to the student, or upon written request to withdraw from the University. Students may also obtain textbooks in their local areas or through online sources if they do not wish to utilize the California Coast University rental library.

LIBRARY SERVICES

California Coast University provides the Library and Information Resources Network, Inc. (LIRN) to offer library access to our students. LIRN provides a centralized management of electronic information resources that allow students to access multiple research databases through one portal. Detailed information on the Library and Information Resources Network, Inc. is available on the California Coast University website under the Resources Tab. For additional information on using the network, LIRN provides a User Guide to help students search for the needed information. This helpful resource is available on the LIRN website - (LIRN.net).

For information on accessing LIRN, please contact California Coast University - library@calcoast.edu or (714) 547-9625.

Tuition

TUITION FEES

Tuition at California Coast University is based on a cost per unit of credit or cost per course. Textbooks are not included in tuition fees. Enrollment at CCU is for complete certificate or degree programs; we do not offer single course enrollment at this time.

Undergraduate students	\$150 per unit
Graduate students	\$230 per unit
Doctoral degree students	\$290 per unit

Estimated Program Requirements:

Undergraduate students	
Certificate programs.....	12 units
Associate’s degrees.....	60 units
Bachelor’s degree.....	126 units
Graduate students	
Certificate programs.....	12 units
Master’s degrees.....	39 units
Doctoral degree students.....	66 units

Estimated Total Tuition Charges:

Undergraduate certificates.....	\$ 1,800 (12 units)*
Associate’s degrees.....	\$ 9,000 (60 units)*
Bachelor’s degrees.....	\$18,900 (126 units)*
Graduate certificates.....	\$ 2,760 (12 units)*
Master’s degrees.....	\$ 8,970 (39 units)*
Doctoral degrees.....	\$19,140 (66 units)*

*Approximate required units and tuition charges do not include credit for prior learning and/or transfer credit.

FINANCIAL AID

California Coast University does not participate in federal or state financial aid programs.

TUITION OBLIGATIONS

A student may not be granted, nor receive any degree or transcript, until all unpaid financial accounts, current or delinquent, have been satisfied. This includes tuition and all library fees. Any degree will be retained and not released by the University until such obligations are satisfied.

Tuition Discounts: The following groups receive a 10% tuition discount:

- CCU Graduates: Students who have previously received a degree from CCU.
- Active Duty Military Service Members, Reservists and Veterans.
- Government employees including law enforcement and firefighters.
- Employees of organizations that have a formal partnership agreement with CCU.

Tuition discounts may not be used or applied in conjunction with any other offer, discount, or promotion.

Additional and Optional Non-Refundable Fees

ADDITIONAL FEES AND CHARGES (Non-Refundable)

The following fees and charges are costs that students may incur beyond the basic tuition fees for specific degree programs. These costs are **NON-REFUNDABLE**.

Registration Fee: Enrolled students wishing to withdraw from an educational program have a right to a pro-rata refund of all monies paid to the University, less the \$75 registration fee, if the student has completed at least one lesson assignment in a course. However, newly registering students have the right to request a refund of all monies paid, less a Registration Fee of \$75 within 7 days after initial coursework has been sent to the student.

Textbooks: Students have the option of acquiring the textbook on their own or renting from the University's Library for a fee of \$30 per book for 120 days and a refundable security deposit of \$50 per book. Students outside the contiguous U.S. will be charged postage for shipping. The security deposit is refundable upon successful completion of all coursework or upon request to withdraw from the University provided that the textbooks have been returned on time and in good condition. Textbook costs vary depending on whether students rent the textbook, purchase them new or purchase them used. As an example, for a program with 10 courses the cost of textbooks will be approximately \$300, plus return shipping, if the student uses the University's rental library.

Phone Calls and Postage Costs: In order for the University to maintain its reasonable tuition rates, the costs for all phone calls and postage must be assumed by the student. Each student can then control this portion of the expenses for his or her program. In addition, the University does not accept collect calls, nor can tollfree calls to the Admissions Office be transferred to other offices of the University.

Library Fees and Research Costs: Each student is responsible for any costs incurred related to the research portion of the program including: obtaining access to local or college libraries or outside databases, or any costs for mentors/specialists/editors, etc.

Bindery Charges: Students must have a copy of their approved thesis or dissertation hard-bound according to the specifications in the University's Guidelines for Writing the Thesis or Dissertation. Students may utilize a bindery of their choice in their local area. The average cost for binding is about \$75 per copy.

Re-Evaluation Fee: A student has 45 days from their enrollment date to submit any additional items for evaluation, such as transcripts, CLEP, AP or DSST scores or documentation of specialized training in an attempt to earn course credit. However, after the 45 day grace period, any additional items submitted for evaluation will be charged a \$75 re-evaluation fee and any credit transferred will be awarded if applicable, but course fees are still charged.

Repeat Examinations: Students have the option of repeating the Unit Exams to achieve a better grade. Each Unit Exam within a course may only be repeated once. For each course, students can repeat one Unit Exam free of charge. The cost for each additional, repeated exam will be \$90. Payment must be paid in full to the Finance Department before exams are released. Requests to retake a Unit Exam will only be honored if the Final Exam has not been sent. If a student should receive an overall course grade of "F," "D" or "F" for graduate or doctoral courses, then the student must pay the current cost of tuition to repeat the course to receive a passing grade.

Additional and Optional Non-Refundable Fees

Reinstatement Fee: If a student is placed on hold from his/her program because of failure to meet financial or academic requirements, and wishes to be reinstated to an active status, he/she will be assessed a \$75 non-refundable reinstatement fee. In addition, the student will only be reinstated into a program that is currently offered plus any tuition increases that have occurred since the original enrollment tuition.

Program Changes: After a student is officially enrolled, a \$250 fee is assessed to execute any requested changes to the original educational program. Tuition increases may also be assessed if applicable.

Voluntary Courses: Current tuition will be assessed for each course a student voluntarily elects to complete that is not required in a student's academic plan. All voluntary courses must be approved first by the Director of Academic Affairs.

Transcript Fees: A complimentary copy of an official transcript is provided to each graduate with his or her diploma or certificate. There is a \$10 fee for each additional copy. All requests for transcripts must be submitted in writing, signed by the student or graduate, to the Registrar of the University. Transcripts will not be released unless all courses listed on the transcript have been paid in full. The Registrar's Office has the right to decline sending a transcript if the student has not met financial or academic standards.

Late Fees: Late fees will be assessed on all unpaid or late payments.

Returned Payment Fees: A \$15 fee will be assessed for any check, electronic funds transfer or credit card returned for non-payment.

Student Tuition Recovery Fund (STRF): Complete policy on STRF located on Page 167 of this catalog.

SERVICES NOT PROVIDED BY THE UNIVERSITY

The University does not participate in federal or state financial aid programs. If the student has received federal student financial aid funds, the student is entitled to a refund of the monies not paid from federal student financial aid program funds. If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

The University does not provide job placement services, transportation, supplies and materials. There are additional equipment costs, shop or studio fees, or any other costs not described in the University's Tuition Schedule.

This institution does not have dormitory or housing facilities under its control. Rents in the zip code 92701 (California Coast University's zip code) range from \$850 - \$3,150 per month. This information was located through the Renter's Guide on www.zillow.com, the online real estate resource.

The University does not provide, pay for, or reimburse students for the acquisition of, or use of, any electronic tools and/or services such as, but not limited to, computers, access to online database services, or database consultants fees and/or services.

Admission and Enrollment Policies

ADMISSION REQUIREMENTS

In order to be admitted to any educational program offered by California Coast University, all prospective students must submit an Application for Admission and Enrollment with the following information and documents for evaluation:

- **Application for Admission and Enrollment.** Complete all pages of the application.
- **Occupational Resume.** Though not required for all educational programs, the resume can be an important component for Undergraduate applicants in helping the Admissions Committee determine which courses may be eligible for Experiential Learning Credit or Challenge Examinations. For master's degree applicants, a resume may help the Admissions Committee award opportunities for Challenge Examinations. A resume is required for all doctoral degree applicants and must be received prior to evaluation.
- **Official Transcripts.** Official transcripts are required for college level work completed since graduating high school, including credits completed at all colleges and universities and any credits completed by examination (CLEP, DSST, AP, etc.). You may submit personal copies for evaluation purposes. Official copies must be received directly from the issuing college, university or program prior to official enrollment. You may download the Transcript Request Form from our website at www.calcoast.edu.
- **Students who have earned less than 12 college-level semester credits** at an appropriately accredited postsecondary institution must provide official documentation of high school completion (i.e., high school transcript, GED certificate, military DD Form 214, a signed attestation form, etc.).
- **Evaluation of Foreign Transcripts.** Applicants with non-U.S. educational degrees, courses, or credentials must first obtain a foreign credential evaluation from an independent U.S. evaluation service approved by the University. Students with foreign transcripts which are in a language other than English are required to submit those transcripts for evaluation to a credible credential evaluation service. A listing of approved organizations may be found through the National Association of Credential Evaluation Services (NACES) at www.naces.org.
- **Specialized Workshops, Seminars and Training Programs.** Students should present documentation of additional specialized occupational or life-learning experiences that may be related to his or her proposed program and major.
- **Application Fee.** An application will not be reviewed unless the proper fee is provided.

PERSONAL INTERVIEW

An applicant may request a personal interview with a member of the Admissions staff, or an interview may also be conducted via telephone after an Admissions staff member has reviewed a candidate's application and documents.

NEW APPLICANTS

Newly applying students must be graduates of appropriately accredited high schools or their equivalent, and be at least 18 years of age. The University retains the right to decline admission to its programs for any reason.

TRANSCRIPTS OF PREVIOUS WORK

Transcripts of previous academic college or university work must be provided with the Application for Admission and Enrollment. Photocopies of transcripts in your personal possession are acceptable for evaluation purposes. An official transcript must be forwarded to the University for each college or university listed on the Application for Admission and Enrollment. If you do not have copies of your transcripts in your possession, request that each college send one copy to you and one copy to the University. Students who have earned less than 12 college-level semester credits at an appropriately accredited postsecondary institution must provide official documentation of high school completion (i.e., high school transcript, GED certificate, military DD Form 214, etc.).

THE ACCEPTANCE PROCESS

After the application and all supporting documentation has been evaluated by the Admissions Committee, an applicant will be notified of the acceptance or rejection of his or her application. If accepted, the applicant will be informed of the enrollment fee which must be provided to the Accounting Office before the official enrollment process can be completed. In addition, the applicant will also be informed of any other documents that must be provided before the official enrollment process can be completed and the student provided the first set of learning materials. If the application is not accepted, the applicant will be informed by telephone or email.

California Coast University reserves the right to refuse admission or continuation to any student.

NON-DISCRIMINATION POLICY

California Coast University is dedicated to providing equal opportunity for outstanding men and women of every race, creed and background.

The University is also firmly committed to complying with all applicable laws and governmental regulations at the federal, state and local levels which prohibit discrimination, or which mandate that special consideration be given, on the basis of race, religion, national origin, gender, age, veteran status, disability, sexual orientation, or any other characteristic which may from time to time be specified in such laws and regulations. This good faith effort to comply is made even when such laws and regulations conflict with each other.

RESIDENCE REQUIREMENTS

California Coast University does not require traditional classroom attendance or on campus residence requirements. Students complete all course requirements using the latest online learning programs under the guidance and supervision of outstanding faculty and learning facilitators. Students outside the contiguous U.S. (includes AK, AS, FM, GU, HI, MH, MP, PR, PW, and U.S. VI) may only receive coursework and grades electronically.

LICENSES AND CREDENTIALS

Licensure and credentialing requirements vary from district to district and state to state. California Coast University's educational programs and coursework requirements have not been designed to meet any particular local, state, or national licensing or credentialing requirements. Students interested in any type of licensing or credentialing are advised to check with their respective state agencies, school districts or professional associations and agencies before enrolling with any distance learning university.

TIME REQUIREMENTS

California Coast University programs are self-paced, with students completing their programs as rapidly as their own schedule and ability permits.

- The earliest an undergraduate or master's student may be awarded a degree is one academic year (nine months) from the date of enrollment. For certificate programs, a minimum of sixteen weeks is required.
- All undergraduate and master's degree programs must be completed within five years. All certificate programs must be completed within two years.
- All doctoral degree programs must be completed in no fewer than three years and no longer than 10 years from the initial date of enrollment.
- Although the degree programs offered are self-paced, students are expected to demonstrate reasonable progress toward completion of their study program. Reasonable academic progress is defined as:
 - The successful completion of a minimum of (1) course every six months.
 - Students completing a thesis or dissertation must submit evidence of progress in writing at least once a year.

ENROLLMENT STATUS

Enrollment status is defined as the following:

Undergraduate Programs

- Full-time status is the completion of a minimum of (8) courses per year.
- Half-time status is completion of a minimum of (4) courses per year.

Graduate Programs

- Full-time status is the completion of a minimum of (6) courses per year.
- Half-time status is the completion of a minimum of (3) courses per year.

Doctoral Programs

- Full-time status is the completion of a minimum of (4) courses per year.
- Half-time status is the completion of a minimum of (2) courses per year.

SATISFACTORY ACADEMIC PROGRESS POLICY

To help students gauge their time for completing their educational programs and to remain active and able to submit course work, please review the following program guidelines regarding time limits and required timelines:

- Students enrolled in certificate programs have a maximum of two years to complete their coursework.
- Students enrolled in associate, bachelor's and master's degree programs have five years from their enrollment date to complete their coursework.
- Doctorate students have ten years to complete all program requirements.
- If a student needs more than the maximum number of years allowed, a request for a one-year extension may be submitted. If approved, the University will allow the student an additional twelve months to complete their program. Failure to complete all required coursework prior to the extension deadline will result in Academic Dismissal from the program.
- To help keep students on track and remain on good academic standing through their program, the University requires students to complete a minimum of one course every six months.
- Students who need more than the allotted six-month time frame can request a ninety-day extension.
- Students are eligible for a maximum of three consecutive extensions before being placed on Academic Hold.
- While the one course every six-months guideline would not generally be enough to complete the entire program in the allotted time frame, it provides some structure to help the student reach the end goal. Students are encouraged to design a schedule for course completion, within the maximum time frame, based on their individual academic plan.
- In addition to keeping up with their coursework, students are required to make their monthly tuition payments to the University in a timely manner and remain in good financial standing to complete academic coursework. Missing any four payments throughout the program will result in the University placing students on Financial Hold.
- Students can remain on academic or financial hold for up to one year. During this time students who are on academic hold are contacted by the University's Student Success Advisors in an attempt to get them back on good standing and back on track to graduation.
- Students on financial hold are contacted by the Accounting Department.
- If students are unable to reinstate back into their program within one year, the University will place the student on Academic Dismissal from their program.

MONITORING ACADEMIC PROGRESS

Student progress is monitored through a variety of means:

- Each student is assigned a Student Success Advisor who will support and monitor student progress from enrollment to graduation.
- Through automated systems, student progress is reviewed every sixty days to identify students falling below acceptable progress benchmarks.
- Students are contacted via reminder letters and phone calls to help keep them on track.
- Student Success Advisors schedule student contact as needed to provide student support.

COURSE EXTENSION POLICIES

As the educational programs offered by the University are self-paced, there are no specific term limits for the majority of students. For students not bound by any type of tuition assistance programs, and not requiring academic terms, the following policies apply regarding course extensions:

- Educational programs offered by the University are self-paced. With that, students are required to complete a minimum of one course every six months to remain active in their education programs and stay on good standing. Student progress is monitored regularly through system generated reports. From this, the University's Student Success Advisors are in contact with students prompting them to complete and submit academic work.
- If a student does not stay active and on good standing, he or she will be placed on Academic Hold. A student may be on academic hold for up to twelve months. During the academic hold period, they will need to be reinstated to active status to resume their program, complete, and submit course work.
- After this period, and if they have failed to reinstate, they are academically dismissed from the University. At that time, they will need to submit a new application for enrollment and go through the admissions process again – meeting all current requirements at the time of the re-enrollment.

For students participating in V.A. programs, tuition assistance programs, and in company-paid tuition assistance, the following policies apply:

- V.A. students are given a sixteen-week period to complete his or her course(s). Within the sixteen-week term, students are prompted to submit their course requirements and complete their examinations. At the end of the term, and if the student has not completed all requirements, the University's V.A. Certifying Official will work with the student to give him or her up to 30 days to complete and submit all course requirements. If the student fails to complete the course requirements, the certification is terminated and the University and the student receive a debt letter.
- For students participating in company-paid tuition assistance, the student is given a sixteen-week period to complete his or her course(s). Within the sixteen-week term, students are prompted to submit their course requirements and complete their examinations. At the end of the term, and if the student has not completed all requirements, the University will work with the student to give him or her extra time to complete and submit all course requirements – consistent with the student's company requirements for tuition assistance.

INCOMPLETE GRADE POLICIES

Students must complete all course requirements to receive a course grade. The educational programs offered by the University are self-paced, with no specific term limits for the majority of students. For students not bound by any type of tuition assistance programs, and not requiring academic terms, the following policies related to incomplete grades apply:

- A student who has completed a portion of the course requirements may maintain an incomplete course grade as long as they remain in good standing. If the student has to reinstate, he or she is subject to current course requirements

INCOMPLETE GRADE POLICIES - cont.

For students participating in V.A. tuition assistance programs, and students participating in company-paid tuition assistance, the following policies related to incomplete grades apply:

- Students who must complete a course utilizing a term limit are contacted by the University regarding his or her term limit and the completion of the course. V.A. students have up to 30 additional days to complete the course. Students receiving company-paid tuition must complete the course in the designated time frame. If students in either category fail to complete the course requirements in the designated time, they will receive a failing grade for the course.

REQUEST FOR REINSTATEMENT

Students must maintain an active status in their programs, as noted in the previous section. This includes maintaining good standing both academically and financially. If a student is placed on hold from his/her program for failure to meet financial or academic requirements and wishes to be reinstated to an active status, he/she will be assessed a \$75 non-refundable fee, plus any tuition increases that may have occurred since their original enrollment. Students will be required to meet the current academic requirements and standards established by the University. Any previously completed coursework may be transferred into the current program, when possible and applicable. Students seeking reinstatement will need to write the University and request an Application for Reinstatement. California Coast University reserves the right to refuse admission or continuation to any student.

IN-SCHOOL DEFERMENT

While CCU does not participate in the National Student Loan database system, students who meet the above listed enrollment status may apply for an In-School Deferment. In-School Deferment requests can be submitted to the Registrar upon enrollment by email to the registrar@calcoast.edu or by fax to 714-547-5777. Students can download the In-School Deferment forms on the lenders website. Sections 1-3 must be filled out by the student, and section 4 should be left blank for the school to complete. They must be submitted each year and the student must complete the required amount of courses (as noted above) to be eligible for half-time or full-time status. Academic extensions do not apply to deferments. The In-School deferment date starts from the date of your enrollment. For certificate programs you must have a minimum of four courses to complete and you can apply for half-time status for the first year only.

*Please note that any academic extension posted on your behalf, will not apply to any In-School Deferment requests and may adversely affect your ability to defer any student loan payments.

TAX DEDUCTIONS FOR EDUCATIONAL EXPENSES

U.S. Treasury Regulation 1.162.5 permits an income tax deduction for educational expenses (registration fees, costs of travel, meals and lodging) undertaken to:

- Maintain or improve skills required in one's employment or trade or business, or
- Meet specific requirements of an employer or law imposed as a condition to retention of employment, job status or rate of compensation. Please check with your tax preparer/ advisor/CPA and/or the Internal Revenue Service.

TECHNOLOGY/FACILITIES/EQUIPMENT REQUIREMENTS

Courses are based on standard textbooks available from the University or through a vendor of the student's choice.

California Coast University programs do not require any specific type of software and/or hardware, specialized facilities or equipment to complete. However, internet access is recommended, as a variety of functions, designed to enhance student learning, are offered through the student portal - Coast Connection. However, students are able to complete their programs without Internet access.

STUDENT RECORDS

The California Code of Regulations, Title 3, Division 10, Private Postsecondary Education requires an institution to maintain student records for a minimum of five years and a transcript of grades will be maintained indefinitely.

VERIFICATION OF STUDENT IDENTITY - RIGHT TO PRIVACY

The following measures are taken to maintain and protect the confidentiality of student records:

- Students are issued a unique student identification number upon enrollment. This ID number acts as a verification of student identity when the student communicates with the University in any way.
- Students may be asked to verify name, program, date of birth, address, telephone number, and/or last four numbers of the social security number, etc.
- Students must provide the University with written authorization for information to be released to any third party.
- The University's student portal requires students to log in with a unique username and password. All information in the student portal is protected.
- In order to protect the privacy of students' and graduates' records and to remain in compliance with the Family Educational Rights and Privacy Act of 1974. No additional information will be provided unless a release statement, signed by the student or graduate, is attached to the request for information.

ANNUAL NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students who are 18 years of age or older certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day California Coast University receives a request for access.

Students who wish to inspect their education records should submit to the Registrar a written request (including student's signature) that identifies the records they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.

ANNUAL NOTIFICATION OF RIGHTS UNDER FERPA - cont.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

Students who wish to ask California Coast University to amend their education record should write the Registrar, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the student, the school will notify the student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's annual notification for FERPA rights. A school official typically includes a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student’s enrollment or transfer. [NOTE: FERPA requires a school to make a reasonable attempt to notify the student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the student.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by California Coast University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
 U.S. Department of Education
 400 Maryland Avenue, SW
 Washington, DC 20202

FOREIGN STUDENT POLICY

Foreign Transcripts

Students who have completed coursework or graduated from institutions outside of the United States are required to have their transcripts pre-evaluated by one of the recognized foreign credential evaluation services. A listing of approved organizations may be found through the National Association of Credential Evaluation Services (NACES) at www.naces.org.

Visa Services (I-20)

California Coast University does not provide any type of visa services, nor does it vouch for the immigration status of any student's relationship with the United States Government.

English Language Fluency

Applicants whose native language is not English and who have not earned a degree from an appropriately accredited institution where English is the principal language of instruction must demonstrate college-level proficiency in English through one of the following for admission:

- Undergraduate: A minimum score of 500 on the paper-based Test of English as a Foreign Language (TOEFL PBT), or 61 on the Internet Based Test (iBT), a 6.0 on the International English Language Test (IELTS) or 44 on the Pearson Test of English Academic Score Report; 50 on the Duolingo English Proficiency Test.
- Master's Degree: A minimum score of 530 on the paper-based Test of English as a Foreign Language (TOEFL PBT) or 71 on the Internet Based Test (iBT), 6.5 on the International English Language Test (IELTS) or 50 on the Pearson Test of English Academic Score Report; 50 on the Duolingo English Proficiency Test.
- Professional Doctoral Degree: a minimum score of 550 on the paper-based Test of English as a Foreign Language (TOEFL PBT), or 80 on the Internet Based Test (iBT), a 6.5 on the International English Language Test (IELTS), or 58 on the Pearson Test of English Academic Score Report.
- A minimum score on the College Board Accuplacer ESL Exam Series as follows: ESL Language Use: Score of 85 ESL Listening: Score of 80 ESL Reading: Score of 85 ESL Sentence Meaning: Score of 90 ESL Writeplacer: Score of 4
- A minimum grade of Pre-1 on the Eiken English Proficiency Exam;
- A minimum B-2 English proficiency level identified within the Common European Framework of Reference (CEFR) standards and assessed through various ESOL examinations, including the University of Cambridge; (6/13)
- A transcript indicating completion of at least 30 semester hours of credit with an average grade of "C" or higher at an appropriately accredited* accredited college or university where the language of instruction was English; "B" or higher for Master's, First Professional Degree or Professional Doctoral Degree.
- Undergraduate only: A high school diploma completed at an appropriately accredited/recognized high school (where the medium of instruction is English).

STUDENT RIGHTS

Students may appeal decisions of faculty and staff of the University and its policies by filing a formal grievance petition in the form of a letter addressed to the Director of Academic Affairs. The Director will review and research all facets of the student's concerns and prepare a report for the President and the Grievance Committee. The Director coordinates all review meetings and provides the student with a report of the findings of the Grievance Committee.

STUDENT LEAVE OF ABSENCE

A student may request a leave of absence by contacting the Registrar of the University, in writing and stating the reason and the expected date of reactivation. However, the student must continue to make tuition payments until the account is paid in full. All leaves of absence must be approved by the University in advance.

COAST CONNECTION

The University provides a web portal called Coast Connection, available to all active students and alumni. Coast Connection provides students with access to their records, including their Academic Plans identifying which courses have been completed and which course(s) remain in each student's academic program. Students can submit examinations and essays and can contact faculty or Student Services personnel. Coast Connection also provides links to the University's Rental Library, allowing students to request and rent course textbooks. Information links to discipline or course specific information and research sources are also available. Students can access archived e-newsletters, join the CCU Alumni Association or purchase CCU giftware or graduation memorabilia.

STUDENT SERVICES

Upon enrollment, students are provided additional information on the University through a new student orientation presentation available through Coast Connection. In addition, students have access to a Student Handbook with information on updating records, obtaining ID cards, attending graduation ceremonies, and joining the Honor Society.

COUNSELING AND/OR PLACEMENT

The University does not offer job placement services. Academic counseling is available on an as-needed basis. Students may contact the Student Services department for additional information.

GRADUATION

Petition for Graduation form

When a student is ready to graduate, he or she must submit a Petition for Graduation form. This form is available on-line by logging in to Coast Connection - the Student Portal. The Petition for Graduation form is also available in the Student Handbook.

Requirements for Graduation

A student may be awarded his or her certificate, associate, bachelor, master or doctorate degree when the following conditions have been met:

- The petition for graduation has been received by the Registrar's office.
- All official transcripts listed on the student's application has been received by California Coast University.
- All academic requirements in the program of study – as noted on the academic plan, i.e., courses, thesis, dissertation, etc., have been successfully completed.
- The student has an overall grade point average of:
 - C (2.0) at the undergraduate level; or
 - B (3.0) at the graduate level.
- The student has been enrolled a minimum of:
 - Sixteen weeks for a certificate program; or
 - One academic year (9 months) for a degree program(excluding doctorate's); or
 - Three years for a doctorate degree.
- The student has satisfied all financial obligations. *Please note: No transcript or diploma will be ordered or released unless all financial obligations have been met.*

When all the above listed conditions have been met, the student must complete and submit a Petition for Graduation form via mail, email, or fax to:

Registrar, California Coast University
 925 N. Spurgeon Street
 Santa Ana, CA 92701
 Fax: 714-547-5777
registrar@calcoast.edu

If the above requirements have not been met, CCU will not hold the Petition Form. Students will be required to resubmit this form once all requirements have been met.

VA TUITION ASSISTANCE

California Coast University is classified as an Institution of Higher Learning. This allows students to use their VA benefits and receive the maximum tuition reimbursement amounts. Students wishing to use his or her VA educational benefits must enroll in the Academic Term Program. Students may also be eligible to receive credit for their military training and prior learning experiences that have been evaluated by the American Council on Education (ACE). For more information about academic terms please view our academic calendar, which can be found on our website at www.calcoast.edu or you may contact your CCU Admissions Representative.

Undergraduate or graduate certificate programs do not qualify for VA tuition assistance.

Eligibility

For answers to questions regarding eligibility for various entitlement categories, simply phone the VA at 1-(888)-GIBILL1 - 888-442-4551.

Admissions

Veterans will only be certified for VA benefits once they are considered a registered student and have completed the application and enrollment process, including the payment of tuition and fees. Once CCU receives a certificate of eligibility a VA Form 22-1999 form will be submitted to the appropriate regional VA office. The VA office normally requires 6-8 weeks to complete their processing procedures.

Certification

If you are using Chapter 30, 33, 35, or 1606 benefits, the VA Certifying Official at CCU will electronically certify your enrollment in the next available VA term. This certification verifies the number of credits you are taking and the term dates.

Dropped Courses/Uncompleted Courses

Students who drop courses or do not complete their courses by the term end date may be required by the VA to repay benefits received.

Academic Credit Transcripts

California Coast University accepts transfer credit from accredited/approved academic institutions when the course content is deemed to be the equivalent to our own. For evaluation purposes unofficial copies of transcripts are acceptable. Official transcripts must be on file at CCU before students can begin their coursework.

PLEASE NOTE: VA does not pay for repeated course(s). Examples: Course(s) when credit may be awarded from another college; academic course credit(s) obtained through a military evaluation; academic credit(s) earned at technical school(s); or any other source where academic credit was granted.

YELLOW RIBBON PROGRAM PARTICIPANT

The Yellow Ribbon GI Education Enhancement Program (Yellow Ribbon Program) is a provision of the Post-9/11 Veterans Educational Assistance Act of 2008. This program allows institutions of higher learning (degree granting institutions) in the United States to voluntarily enter into an agreement with the VA to fund tuition expenses that exceed the highest public in-state undergraduate tuition rate. The institution contributes a portion of those expenses and the VA will match the same amount as the institution. California Coast University contributes up to \$2,000 and the VA will match that amount.

The Institution of Higher Learning (IHL) must agree to:

- Provide contributions to eligible individuals who apply for the Yellow Ribbon Program on a first-come first-served basis, regardless of the rate at which the individual is pursuing training in any given academic year.
- Provide contributions during the current academic year and all subsequent academic years in which the IHL is participating in the Yellow Ribbon Program and the student maintains satisfactory progress, conduct, and attendance.
- Make contributions toward the program on behalf of the individual in the form of a grant, scholarship, etc.
- State the dollar amount that will be contributed for each participant during the academic year.
- State the maximum number of individuals for whom contributions will be made in any given academic year.

How Does the Yellow Ribbon Program Benefit Me?

The Post-9/11 GI Bill pays up to the highest public in-state undergraduate tuition and fees. You may have tuition and fees that exceed that amount if you are attending a private institution, graduate school or attending as a nonresident student. If you are enrolled at a Yellow Ribbon participating institution and the tuition and fees exceed the highest public in-state undergraduate tuition or fees, additional funds may be available for your education program without an additional charge to your entitlement. Institutions that voluntarily enter into a Yellow Ribbon Agreement with the VA choose the amount of tuition and fees that will be contributed. The VA will match that amount and issue payment directly to the institution.

Am I Eligible for the Yellow Ribbon Program?

Only individuals entitled to the maximum benefit rate (based on service requirements) may receive this funding. Therefore, you may be eligible if:

- You served an aggregate period of active duty after September 10, 2001, of at least 36 months;
- You were honorably discharged from active duty for a service connected disability and you served 30 continuous days after September 10, 2001;
- You are a dependent eligible for Transfer of Entitlement under the Post-9/11 GI Bill based on a veteran's service under the eligibility criteria listed above.

How will I Know My School is Participating in the Yellow Ribbon Program?

You must be enrolled in an approved program offered by an IHL. You may search for institutions that are participating in the Yellow Ribbon Program.

When Will Benefits under the Yellow Ribbon Program Be Available?

Benefits are payable for training pursued on or after August 1, 2009. No payments can be made under this program for training pursued before that date.

How Much Money Will I Receive Under the Yellow Ribbon Program?

- Question: What portion of tuition and fees charges will be considered under the Yellow Ribbon Program?
- Answer: The difference of the amount charged to the student and what has been paid by the VA as educational assistance.

The following steps are provided to determine the difference for one student:

1. Student’s enrolled credit hours reported by the institution to the VA Maximum Credit Hour Charge for the State = Maximum Tuition Payable.
2. Compare the Maximum Tuition Payable with the amount charged the student the VA will pay the institution the lesser amount.
3. Compare the Maximum Single Term Fees for your State with what the institution has charged the student. The VA will pay the institution the lesser amount
4. Add the amounts the VA has paid for tuition and fees and compare that with the total amount charged to the student. Institution charges that exceed what has already been paid by VA are the difference that could be applied to the Yellow Ribbon Program.
5. California Coast University will contribute up to \$2,000 and the VA will match that amount.

Example: The student enrolled in 12 credit hours during the Fall term and the institution charged the student \$5,000 for tuition and \$1,200 in fees. The Maximum Charge Per Credit Hour for the State = \$250 and the Maximum Fees for a single term = \$1,000:

- 12 credit hours x \$250 = \$3,000 - VA will pay \$3,000 of the \$5,000 tuition charged
- VA will pay \$1,000 of the \$1,200 fees charged
- VA has paid \$4,000 of the \$6,200 charged the student. \$2,200 could be applied to the Yellow Ribbon Program
- Your institution can choose to contribute up to \$1,100 of this amount and VA will match that contribution.

How do I apply for the Yellow Ribbon Program?

Schools that intend to participate in the Yellow Ribbon Program will establish application procedures for eligible students. The school will determine the maximum number of students that may participate in the program and the percent of tuition that will be contributed. VA is currently accepting agreements from institutions for participation in the Yellow Ribbon Program. You may wish to inquire at your school about their intent to participate and the application procedures they plan to establish for the Yellow Ribbon Program. Please remember that you must be eligible for the Post-9/11 GI Bill at the 100% rate to be considered for the Yellow Ribbon Program.

How Do I Apply for Benefits under Post-9/11 GI Bill?

The Department of Veterans Affairs is now accepting and processing applications for the Post-9/11 GI Bill. You should complete and submit the application form available online and will receive written notification explaining VA's decision regarding your eligibility for the program. If you are eligible, your Certificate of Eligibility will also advise you if your service meets the requirements for the Yellow Ribbon Program. If your school has volunteered to participate in the Yellow Ribbon Program, you should take your Certificate of Eligibility to your school and ask your school to certify your enrollment to VA, including Yellow Ribbon. You cannot certify your participation in the Yellow Ribbon Program directly to the VA. Your school must report this information on your enrollment certification.

Remember, to receive benefits under the Yellow Ribbon Program:

- You must be eligible for the maximum benefit rate under the Post-9/11 GI Bill;
- Your school must agree to participate in the Yellow Program;
- Your school must have not offered Yellow Ribbon to more than the maximum number of individuals stated in their participation agreement;
- Your school must certify your enrollment to VA, including Yellow Ribbon program information.

Visit www.gibill.va.gov for additional information on the Yellow Ribbon Program or other benefits.

VA BENEFITS STEP-BY-STEP PROCEDURES FOR FIRST TIME BENEFITS

- Complete VA Form 22-1990 (Application for Benefits).

VA Form 22-1990 may be downloaded, completed, and mailed to the Muskogee Oklahoma VA Office. The Muskogee VA office will confirm benefits and include the Chapter ID the veteran will be receiving benefits from. VA Form 22-1990 may also be completed and submitted online through the Department of Veterans Affairs Online Application Website (VONAP).

VA Regional Office
 PO Box 8888
 Muskogee, OK 74402-8888

- Complete the California Coast University Application for Admission.

Reserves and members of the National Guard will normally supply Form DD 2384 or NOBE (Notice of Basic Eligibility). Veterans who are eligible for Chapter 34 entitlements must include VA Form 21 - 686C - Declaration of Status of Dependents.

- California Coast University will conduct a comprehensive evaluation of all prior academic credit and will contact the applicant to notify them of acceptance, then will forward the student a detailed Evaluation Report.
- Included with the CCU Evaluation Report will be an Enrollment Packet.
- Sign the CCU Enrollment Agreement included in the Enrollment Packet and return the form to the CCU Admission Department. In addition, applicants must follow the guidelines listed below regarding payment at the time of enrollment:
 - Chapter 30 - Student pays a down payment and enrolls in a monthly payment plan with CCU.
 - Chapter 33 - If benefits received are at 100%, student does not pay out-of-pocket.
 - Chapter 33 - If benefits are less than 90%, student pays down payment and enrolls in a monthly payment plan with CCU.
 - Chapter 34 - Student pays a down payment and enrolls in a monthly payment plan with CCU.
 - Chapter 35 - Student pays a down payment and enrolls in a monthly payment plan with CCU.
 - Chapter 1606 - Student pays a down payment and enrolls in a monthly payment plan with CCU.

All Chapters are responsible for paying an application fee

CCU will submit Form 22-1999 (Enrollment Certificate) to the appropriate Regional VA Office. The VA office normally requires 6-8 weeks to complete their processing procedures. Be sure to complete all forms accurately. Errors can make a difference in the amount of benefits you receive.

CCU must hold VA enrollment forms for a period of 10 days to comply with the “10 day cooling off” requirement.

STUDENTS WHO HAVE PREVIOUSLY USED VA BENEFITS

1. Complete the CCU Enrollment Agreement and return it to the CCU Admission Department, along with your CCU VA Supplement form. Students must also submit VA Form 22-1995 if the student is requesting a school transfer; or the student is requesting a change of programs.
2. Complete the California Coast University Application for Admission.
3. California Coast University will conduct a comprehensive evaluation of your prior academic credit and forward a detailed Evaluation Report in the Enrollment Packet.

Once CCU has received and processed all forms, and once the student has enrolled, a CCU Certifying Officer will forward the student’s paperwork to the appropriate VA Regional Office. The VA normally requires 6-8 weeks to complete their processing procedures. Be sure to complete all forms accurately. Errors can make a difference in the amount of benefits you receive. Benefit checks can be mailed to the veteran’s home address.

Chapter 30 and Chapter 1606 recipients now have the option of having their monthly checks deposited directly into their checking accounts. If you receive Chapter 30 or Chapter 1606 Benefits call 1-888-442-4551 to establish direct deposit.

General Policies

WITHDRAWAL AND TERMINATION POLICIES

STUDENT'S RIGHT TO CANCEL: If you cancel this Agreement within 7 days of enrollment, the University will refund any money that you have paid, less a registration fee of \$75 within 30 days after your notice is received. If you cancel this Agreement after 7 days of enrollment but prior to submitting any coursework, the University will refund any money that you have paid, less any registration fees and enrollment down payment totaling \$200 within 30 days after your notice is received. Cancellation occurs when written notice is sent to California Coast University at studentcancellation@calcoast.edu or 925 N. Spurgeon Street Santa Ana, California 92701. This notification need not take any particular form; it needs only to state you wish to cancel this Agreement. Withdrawal may be effectuated by the student's written notice or by the student's conduct, including, but not necessarily limited to, a student's lack of attendance. Although California Coast University does not participate in federal financial aid programs, California regulations require that we notify students that if the student has received federal student financial aid funds, the student is entitled to a refund of monies not paid from federal student financial aid program funds.

Distance Educational Programs (Specific Provision for Instruction Not in Real Time)

An institution offering a distance educational program where the instruction is not offered in real time shall transmit the first lesson and any materials to the student within seven days after the institution accepts the student for admission.

The student shall have the right to cancel the agreement and receive a full refund before the first lesson and materials are received. Cancellation is effective on the date written notice of cancellation is sent. If the institution sent the first lesson and materials before an effective cancellation notice was received, the institution shall make a refund within 30 days after receipt of the student's request.

(1) An institution shall transmit all of the lessons and other materials to the student if the student:

- a. has fully paid for the educational program; and
- b. after having received the first lesson and initial materials, requests in writing that all of the material be sent.

(2) If an institution transmits the balance of the material as the student requests, the institution shall remain obligated to provide the other educational services it agreed to provide, such as responses to student inquiries, student and faculty interaction, and evaluation and comment on lessons submitted by the student, but shall not be obligated to pay any refund after all of the lessons and material are transmitted.

REFUNDS:

The University's refund policy is in compliance with the guidelines prepared by the Distance Education Accrediting Commission (DEAC) and the Bureau of Private Postsecondary Education and is as follows:

When a student cancels after submitting at least one unit assignment but less than 60 percent of all graded assignments required for the program and has overpaid the tuition amount due, the institution may retain the application fee and enrollment down payment totaling \$200 and a percentage of tuition paid per course in accordance with the following schedule:

Percentage completed by the student	Percentage of the refundable tuition returned to the student minus the application and/or registration fee	Percentage of the refundable tuition retained by the institution
Up to 10% (no coursework submitted)	100%	0%
>10% - 25% (of course submitted, 1 unit)	75%	25%
>25% - 50% (of course submitted, 2 units)	50%	50%
>50% - 100% (of course submitted, 3+ units)	0%	100%

The amount of the course completed shall be the ratio of submitted lesson assignments received by the institution to the total lesson assignments required for the course.

No refund will be given after the Enrollment Agreement period has expired.

Sample refund calculations for undergraduate students who have submitted coursework, but completed less than 60% of the program. Sample based on one course only.

Tuition Charged* Undergraduate (\$150.00/unit)	Percentage of Course Completed	Total Amount Paid to Date by Student**	Non-Refundable Fees***	Total Amount of Refund Due
\$450.00	Up to 10%	\$650.00	\$200.00	\$450.00
\$450.00	10 – 25%	\$650.00	\$200.00	\$337.50
\$450.00	25 – 50%	\$650.00	\$200.00	\$225.00
\$450.00	>50%	\$650.00	\$200.00	\$0.00

*Sample is undergraduate tuition only. Graduate tuition is \$230.00/unit and Doctoral tuition is \$290.00/unit.

** Tuition payments may vary by student and are calculated upon withdrawal.

*** Non-refundable fees may vary by student and are calculated upon withdrawal.

Withdrawal may be effectuated by the student's written notice or by the student's conduct, including, but not necessarily limited to, a student's lack of attendance. If tuition has not been paid then the University may continue to collect tuition until submitted assignments are paid in full.

Refunds will be processed within 30 days upon receipt of written request.

Student residing in the State of Maryland: The minimum refund that an institution shall pay to a Maryland student who withdraws or is terminated after completing only a portion of a course, program, or term within the applicable billing period is as follows:

Proportion of Total Course, Program, or Term Completed as of Date or Withdrawal of Termination	Tuition Refund
Less than 10%	90% refund
10% up to but not including 20%	80% refund
20% up to but not including 30%	60% refund
30% up to but not including 40%	40% refund
40% up to but not including 60%	20% refund
More than 60%	No refund

A refund due to a Maryland student shall be based on the date of withdrawal or termination and paid within 30 days from the date of withdrawal or termination.

DISPUTE RESOLUTION

The University encourages students to contact staff and faculty directly with questions or concerns in regard to their program and/or course materials. The University is committed to resolving any complaints that may arise during the educational program completion process. It is the policy of the University to address student complaints in an objective and timely fashion. It is also the policy of the University to resolve all student concerns and complaints at the department level whenever possible.

All student complaints that cannot be resolved at the department level are classified into the general categories of academic issues, student service issues, or administrative issues, and an internal investigation is initiated. If the Chief Academic Officer deems it appropriate, a meeting of the Grievance Committee may be held to discuss alternatives and to suggest a course of action. When a decision has been reached, the Chief Academic Officer communicates, in writing, to the student and retains material related to the complaint in a student complaint file.

Students have the right to appeal decisions made by the Academic Department and Student Services Department. To appeal a decision, students must file a formal grievance petition in the form of a letter addressed to the Chief Academic Officer who will review and research all facets of the student’s concern, coordinate all review meetings, and provide the student with a report of the findings of the Grievance Committee.

Students who feel the University is not complying with accreditation standards may contact:

Distance Education Accrediting Commission
1101 17th Street NW, Suite 808, Washington, D.C. 20036
Phone 202-234-5100.

Students will find additional information on filing a formal complaint on the DEAC website - www.deac.org.

Students may also contact the Bureau for Private Postsecondary Education regarding any compliance concerns by calling (888) 370-7589 toll-free or by completing a complaint form which can be found at www.bppe.ca.gov.

Any dispute concerning any matter under a student Enrollment Agreement and any courses and services provided by California Coast University shall be governed by California law and any proceedings, judicial or arbitration, shall take place in the County of Orange, State of California.

Students residing in the state of Maryland should direct complaints to:

Maryland Attorney General
Consumer Protection Division
200 St. Paul St.
Baltimore, MD 21202
410-528-8662/888-743-0023 (toll free)

The University is subject to investigation of complaints by the Office of the Attorney General or the Maryland Higher Education Commission.

STUDENT TUITION RECOVERY FUND (STRF)

The Student Tuition Recovery Fund (STRF) was established by the California State Legislature to protect any California resident who attends a private postsecondary institution from suffering a loss of prepaid tuition as a result of a school closing, failing to live up to its enrollment agreement, or refusing to pay a court judgment.

You must pay the state-imposed assessment for the Student Tuition Recovery Fund (STRF) if all of the following applies to you:

1. You are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all of part of your tuition either by cash, guaranteed student loans, or personal loans, and;
2. Your total charges are not paid by any third-party payer such as an employer, government program or other payer unless you have a separate agreement to repay the third party.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment if either of the following applies:

1. You are not a California resident, or are not enrolled in a residency program, or
2. Your total charges are paid by a third party, such as an employer, government program or other payer, and you have no separate agreement to repay the third party.

STUDENT TUITION RECOVERY FUND (STRF) - cont.

The State of California created the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic losses suffered by students in educational programs who are California residents, or are enrolled in a residency program attending certain schools regulated by the Bureau for Private Postsecondary Education.

You may be eligible for STRF if you are a California resident or are enrolled in a residency program, prepaid tuition, paid STRF assessment, and suffered an economic loss as a result of any of the following:

1. The school closed before the course of instruction was completed.
2. The school's failure to pay refunds or charges on behalf of a student to a third party for license fees or any other purpose, or to provide equipment or materials for which a charge was collected within 180 days before the closure of the school.
3. The school's failure to pay or reimburse loan proceeds under a federally guaranteed student loan program as required by law or to pay or reimburse proceeds received by the school prior to closure in excess of tuition and other costs.
4. There was a material failure to comply with the Act or the Division within 30-days before the school closed or, if the material failure began earlier than 30-days prior to closure, the period determined by the Bureau.
5. An inability after diligent efforts to prosecute, prove, and collect on a judgment against the institution for a violation of the Act."

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

- Students should retain copies of enrollment agreements, receipts, financial aid documents or any other information that documents monies paid to an institution.
- Questions regarding STRF may be directed to the Bureau for Private Postsecondary Education, 1625 North Market Boulevard • Suite S202, Sacramento, CA 95834

CIVILITY POLICY

As Students, Faculty and Staff must work together in a professional manner, the California Coast University expects that it will present a culture of civility at all times. Faculty, Staff and Students are expected to exhibit polite and courteous behavior in all interactions. Differences of opinion or concerns related to programs, coursework, etc. are welcome and should be presented in a mature, professional, ethical and respectful manner. Student behavior or communication that is clearly disrespectful will not be tolerated and may result in the student being disenrolled from the program. In turn, Faculty and Staff will also adhere to this policy - presenting themselves in a polite, courteous manner adhering to the same mature, professional, and ethical manner noted for students.

STUDENT INTEGRITY AND ACADEMIC HONESTY

Student integrity and academic honesty is a cornerstone for any educational institution and paramount to the integrity and quality of the programs offered. The University has established policies published in the catalog and student handbook and listed on the student portal regarding student integrity and academic honesty. Students are provided with the University's policies and the consequences should those policies be violated. Students must be responsible to behave in an ethical manner demonstrating integrity and honesty. The University will respond with the same behavior. When the University discovers instances of questionable behavior or blatant infractions of the rules, actions are taken.

To help students understand the expectations the University has for them, California Coast University publishes clear, specific, policies related to student integrity and academic honesty. The following are a list of some common types of infractions:

Cheating

Examples would include:

- Copying the work of another student or examination materials that should not be in the possession of the student.
- Taking an examination for another student
- Providing examination answers to another student
- Having someone take an examination for you
- Sharing answers
- Attempting to alter an examination
- Allowing someone else to write a paper for you

Misconduct:

Examples of academic dishonesty would include:

- Submitting the same work for multiple courses or assignments
- Tampering with grading in some way.
- Attempting to obtain answers to examination questions.
- Fabrication or falsification
- Bribery
- Inventing data
- Citing a false source

Collusion:

- Acting with another student to perform any of the infractions noted above.

Plagiarism:

Plagiarism can take a number of forms including:

- Intentional
- Inadvertent
- Paraphrased
- Improper citations

What is Plagiarism?

- Plagiarism consists of taking and using the ideas, writings, or inventions of another, without giving credit to that person and presenting it as one's own. This is an offense that the University takes very seriously.

The Council of Writing Program Administrators (WPA) defines plagiarism as:

“In an instructional setting, plagiarism occurs when a writer deliberately uses someone else's language, ideas, or other original (not common-knowledge) material without acknowledging its source.”

Academic writing in American institutions is filled with rules that students often don't know how to follow. A working knowledge of these rules, however, is critically important; inadvertent mistakes or the unacknowledged use of somebody else's words or ideas can lead to charges of plagiarism. While other cultures may not insist so heavily on documenting sources, American institutions do. A charge of plagiarism can have severe consequences, including expulsion from a university. This section is designed to help writers develop strategies for knowing how to avoid accidental plagiarism. Since teachers and administrators may not distinguish between deliberate and accidental plagiarism, the best way to avoid plagiarism is to make sure you give credit where it is due. This may be credit for something somebody said, wrote, emailed, drew or implied. If you do use a direct quotation from one of the sources you review, be sure to properly cite where the information was obtained.

Choosing When to Credit a Source

Give credit by documenting a source when:

- You are using or referring to somebody else's words or ideas from a magazine, book, newspaper, song, TV program, movie, website, letter, advertisement or any other medium.
- You use information gained through interviewing another person.
- You copy the exact words or a “unique phrase” from a source.
- You reprint any diagrams, illustrations, charts and pictures.
- You use ideas that others have given you in conversations or through email.

Do not give credit when:

- You are writing your own experiences, observation, insights, thoughts or conclusions about a subject.
- You are using “common knowledge” – folklore, common sense observations or shared information within your field of study or cultural group.
- You are compiling generally accepted facts.
- You are writing about your own experimental results.

As you can see, providing references and being careful not to have any instances of plagiarism in your work is very important. When there is a problem, the University will take action.

The University has an established process enforcing any violation to its student integrity and academic honesty policies.

- The first line is for the faculty member to handle the infraction when appropriate, while making a notation of the violation.
- If necessary, the faculty member may need to escalate the violation up through the Director of Academic Affairs and on to the Chief Academic Officer.

To give an idea of a type of violation and the action taken:

An example of an infraction would be a student submitting a writing assignment with substantial amounts of “paraphrasing” from the text or from an internet source without proper citations. The faculty member would first notify the student of the infraction, reject or fail the submitted work and direct the student to review information on plagiarism and have the student resubmit the work making sure it is free of any appearance of plagiarism – i.e. all proper citations, written in the student’s own words, etc. If this was a problem again, the issue would be taken up to a higher academic official who would contact the student for further discussion.

A second example might be two students submitting work very similar to each other – writing assignments. The faculty member identified this and contacted both students. In this case, the Chief Academic Officer would be notified and also would become involved. A letter would be sent to the students reminding them that studying together was permitted, but all work must be completed independent of each other and original to the student submitting the work. The students would then be asked to submit their own original work.

Finally, serious infractions may include disciplinary action including and up to probation, suspension, or dismissal

TERMINATION OF ENROLLMENT -

Students are expected to conduct themselves in a mature, professional, and ethical manner. Students may be terminated or disqualified from their program of study for any of the following reasons:

- Deceit, fraudulence, cheating, unethical or disruptive behavior, forgery or vandalism.
- Falsification of records, transcripts, or coursework documents submitted for review or credit.
- Plagiarism of other’s work.
- Failure to demonstrate reasonable and successful academic progress. Students completing coursework must complete a minimum of one course every six months for a minimum of two courses per year. Students completing a thesis or dissertation must submit evidence of progress in writing at least once a year. A waiver may be requested by writing to the Director of Academic Affairs stating the reason for the request and the specific time when progress will resume.
- Failure to submit work according to the standards specified in the manuals and instructions provided by the University.
- Failure to maintain the tuition payment agreement.

Administration and Management Course Descriptions

BAM 105 INTRODUCTION TO BUSINESS - 3 Units

Introduction to Business introduces the business world and the contemporary environment in which it operates. How business operations are managed and organized will be explored and the basic ideas of marketing processes and consumer behavior will be discussed. Additionally, students will become aware of the changing face of business, with its current technological and management information system advances.

BAM 110 INTRODUCTION TO ACCOUNTING - 3 Units

Introduction to Accounting reviews the basic approach to accounting with an emphasis on recording, measuring, and communicating the accounting data of a business. Basic accounting concepts will be explored, including the effects of transactions on financial statements, payroll accounting, accounting for professional and merchandising operations, and state and federal income tax deductions.

BAM 223 PRINCIPLES OF ECONOMICS - 3 Units

This foundational course demonstrates the relevance of economics through real-world business examples. The first part of the course presents microeconomic analysis such as consumer behavior, market structure, firm strategy, and corporate governance. The latter part of the course provides a comprehensive coverage of macroeconomic models, theory and policy issues including GDP, payroll employment, long-run growth, and business cycles.

BAM 225 INFORMATION MANAGEMENT - 3 Units

This is an introductory course designed to provide in-depth coverage of essential concepts and important terminologies. Course material covers cache memory, OS/2 and Macintosh OS, CD-ROM, CAD/CAM, desktop publishing, computer viruses and graphics. Topics include robotics, decision support systems, fifth-generation computers, expert systems, and artificial intelligence.

BAM 306 PRINCIPLES OF MARKETING - 3 Units

Principles of Marketing examines the various functions of modern marketing including the market, product and price systems, distribution structure and promotional activities. Specialty field marketing, planning and evaluation of the marketing effort, and socially responsible global marketing are also explored.

BAM 312 BUSINESS COMMUNICATIONS - 3 Units

Business Communications covers the fundamental dimensions of communication: language and behavior. Alternatives for conveying messages are discussed. The course also covers, in detail, the various channels and media for business communication, with guidelines for effective and successful use of each.

BAM 313 INTRODUCTION TO FINANCIAL MANAGEMENT - 3 Units

This course introduces students to the elementary principles and motives of financial management, and covers basic fundamental principles of short-term financing, time value of money, risk and value, and cost. Students will understand the interrelationships underlying the various data and techniques in which financial decisions are based, and will be able to analyze financial data and apply basic concepts to make confident financial decisions in their respective business futures.

BAM 315 PRINCIPLES OF MANAGEMENT - 3 Units

Principles of Management serves as an introduction to the discipline of management. It is designed to integrate the accepted theories in the area with real world applications to provide students with the basic knowledge and skills needed for managing others. This course covers the traditional functions of management: planning, organizing, leading, and controlling. Additionally, the course examines current issues in management, emerging trends in management, and changing workplaces in the United States and around the world.

BAM 317 BUSINESS LAW - 3 Units

The concept of preventive law is central to a law course designed for business students. Business Law discusses law in a business context rather than in the abstract, employing the practical approach that using the law makes it easier to reach business objectives.

BAM 350 PROJECT MANAGEMENT - 3 Units

Project management will introduce students to critical components of project environments. Through numerous examples, students will be able to understand how project management concepts and techniques can be skillfully applied to real-world scenarios. Topics include project management life cycle and process, developing a project proposal, techniques for planning, scheduling, resource assignment, budgeting, and controlling project performance, project risks, project manager responsibilities and skills, project team development and effectiveness, project communication and documentation, and project management organizational structures.

BAM 401 INTERNATIONAL BUSINESS - 3 Units

This course reviews the key concepts of international trade and the way it affects the nature of global economic activity. Concepts such as globalization, cultural and political environments, world financial environments, and global strategies are all explored to help students gain a global perspective and to be confident and familiar with international business operations.

BAM 402 PUBLIC RELATIONS - 3 Units

Public relations is the values-driven management of relationships with groups of people that can influence an organization's success. This course will examine how organizations can ethically and systematically build productive, mutually beneficial relationships with such groups.

BAM 406 BUSINESS AND SOCIETY - 3 Units

Business and Society explores both market and nonmarket components of the business world. While interrelated, managers must understand how the market and nonmarket environments interact and address those issues to achieve superior performance. To do this, the course combines the disciplines of economics, political science, and law to provide students with a deeper understanding of the complex managerial issues involved. The focus is on strategy and its implementation within the context of social, governmental and legal constraints.

BAM 410 ORGANIZATIONAL THEORY AND BEHAVIOR - 3 Units

This course emphasizes the relationships among individuals, groups, organizations, and society. It presents a dynamic, systems approach to understanding and facilitating work relationships. Emphasis is given to the interaction of individual values, attitudes, needs, abilities, traits, and motivation within teams and organizations.

BAM 411 HUMAN RESOURCE MANAGEMENT - 3 Units

Human Resource Management explores the fundamentals of human resource management and its significance to a company's success. Examined, in detail, are HR functions such as recruitment, retention, appraisal, compensation, labor relations, development, and current trends in the field. Practical skills-oriented concepts and techniques are highlighted throughout the course, as is the emphasis on building and maintaining an engaged and productive workforce.

BAM 418 SMALL BUSINESS MANAGEMENT - 3 Units

This course presents an overview of entrepreneurship, including launching a new venture, managing an on-going venture, financial planning, taxation, and other topics specific to entrepreneurs. Students will learn the necessary elements to successfully start, run, and manage a small business and will be able to apply those concepts and ideas within their business careers, even if they do not choose the entrepreneurial route.

BAM 421 OPERATIONS MANAGEMENT - 3 Units

Operations Management introduces the theory and practice of operations management and explores the systems approach to tie information together. The course explores issues in operations strategy, development and implementation. Students will be able to apply various management tools such as inventory management and supply-chain management to effectively contribute to managing business operations.

BAM 501 HUMAN RELATIONS - 3 Units

Human Relations reviews the basics of human interaction, the organizational framework, organizational activity, and strategies for improving organizational behavior and performance. Business and organizational leaders repeatedly stress the need for increased worker education and preparedness in communication, interpersonal skills, teamwork, leadership, and ethics.

BAM 509 MANAGEMENT INFORMATION SYSTEMS - 3 Units

Management Information Systems is designed for business students who want an in-depth look at how business firms use information technologies and systems to achieve corporate objectives. Information systems are one of the major tools available to business managers for achieving operational excellence, developing new products and services, improving decision-making, and achieving competitive advantage.

BAM 510 HUMAN RESOURCE MANAGEMENT - 3 Units

This course examines the concepts, models, procedures, tools, and techniques of human resource management. Aspects of the individual and how the work environment influences people at work is explored, and the emphasis on recent and relevant findings from the behavioral sciences and other disciplines is discussed to help students apply appropriate human resource approaches in their organizational settings.

BAM 511 MARKETING MANAGEMENT - 3 Units

Marketing Management explores various marketing theories and practices with emphasis on four key dimensions of holistic marketing: internal marketing, integrated marketing, relationship marketing, and performance marketing. We will also discuss today's economic, environmental, and technological changes in marketing, as well as address the topics of corporate social responsibility, business ethics, sustainability, and the importance of growth to organizations.

BAM 513 FINANCIAL MANAGEMENT - 3 Units

Financial Management is intended to be a practical guide for students, with little to no prior knowledge in financial management. Through the use of real-world examples and case studies, financial concepts are applied and reviewed as they relate to various areas of business. Finally, the course is designed to help aspiring nonfinancial managers and executives to communicate better with financial managers, accountants, and controllers within their organizations.

BAM 514 INTERNATIONAL BUSINESS MANAGEMENT - 3 Units

This course examines a variety of international business issues. Topics include national economic and cultural differences, international trade policies and institutions, foreign direct investment, global competition, outsourcing, and current international business trends and developments. New theories of international trade are explored and the unique challenges organizations face in the global marketplace are discussed.

BAM 515 ORGANIZATIONAL BEHAVIOR - 3 Units

This course provides students an in-depth review of available theory and research on the behavior, structure, and process of organizations. Formal organizations and their structure will be critically examined, and human motivations and their constructive application to oneself and others will be discussed. Applicable behavioral science theories will be explored and students will be able to effectively apply the relevant concepts to the management of organizations.

BAM 521 BUSINESS LAW - 3 Units

Business Law provides coverage of traditional business law topics and addresses the legal environment in which business must operate. The study of ethics, social responsibility, policy, diversity, economics, and technology are integrated as they support the study of the legal environment of business.

BAM 530 BUSINESS ETHICS - 3 Units

Business Ethics provides a managerial framework for integrating ethics into strategic business decisions. The framework provides an overview of the concepts, processes, and best practices associated with successful business ethics programs. This course also prepares students for the ethical dilemmas they may face in their business careers.

BAM 532 ORGANIZATIONAL THEORY - 3 Units

Business is changing at break-neck speed, so managers must be increasingly active in reorganizing their firms to gain a competitive edge. This course will provide you with the most up-to-date and contemporary treatment of the way managers attempt to increase organizational effectiveness. This course will also focus on organizational theory, organizational design and organization change. The origins of organizational culture, stakeholder approach to organizations, and recent developments in organizational structure will also be covered.

BAM 535 ADVANCED HUMAN RESOURCE MANAGEMENT - 3 Units

Advanced Human Resource Management covers the contexts of human resource management, staffing, employee development, and compensation with emphasis on developing employee relations, working with organized labor, managing workplace safety and health, and international human resource management challenges.

BAM 540 PROJECT MANAGEMENT - 3 Units

Project Management takes a decision-making, business-oriented approach to the management of projects, which is reinforced with current examples of project management in action. It emphasizes not only individual project execution but also provides a strategic perspective, demonstrating means to manage projects at the program and portfolio levels. This course also addresses project management within the context of a variety of successful organizations, whether publicly held, private, or not-for-profit.

BAM 545 STRATEGIC COMPENSATION - 3 Units

This course examines the importance of employees as a key element of strategic compensation programs. More specifically, the course explores how human resource professionals, along with other business professionals, design strategic compensation programs to promote companies' success in competitive markets.

BAM 547 CONFLICT MANAGEMENT - 3 Units

Conflict Management examines the dynamics of everyday conflicts across a variety of settings, from personal relationships to the workplace. Both theory and application will be reviewed, with an emphasis on their interrelation. This course aims to enhance and strengthen skills in managing conflict.

BAM 550 LEADERSHIP - 3 Units

The course focuses on leadership theories that seek to explain how traits, behaviors, or situational factors influence leadership style and effectiveness. Students will develop the competencies and skills to immediately start using these principles in their personal and professional lives. The course also explores the critical question of how well a leader is able to influence followers to achieve group objectives—this is what distinguishes effective from ineffective leaders.

BAM 554 EMPLOYEE TRAINING AND DEVELOPMENT - 3 Units

Employee Training and Development provides students with insight into the different methods of training and development for company—as well as personal—success. New technologies, such as virtual learning and big data, allow for greater accessibility to various training content and revision of traditional training and development techniques. There are effective and relevant training and development methods for every stage of an employee's career.

BAM 560 STRATEGIC MANAGEMENT - 3 Units

Strategic Management explores new strategy formulation, implementation, and evaluation concepts and techniques in business organizations. Utilizing this new knowledge, coupled with knowledge acquired from other business courses, students will be able to chart the future direction of different organizations. Knowledge of strategic management will enable students to analyze firms in different industries and make objective strategic decisions for companies.

BAM 562 MODERN MANAGEMENT - 3 Units

Modern Management provides insight into current management trends. Today, managers have more responsibility than ever. Meeting the needs of a growing customer base, a diverse workforce, and production challenges all pose unique problems for managers. Through new technology, there is more information available to help managers plan, control, and organize their business.

BAM 570 E-COMMERCE MANAGEMENT - 3 Units

E-Commerce Management provides students with an in-depth introduction to e-commerce. Students will examine different concepts ranging from infrastructure, business models, marketing, security, and social networks.

BAM 595 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Arts in Organizational Leadership degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

BAM 596 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Business Administration degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

BAM 597 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the M.B.A. in Human Resource Management degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

BAM 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the M.B.A. in Management degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

HCA 200 THE UNITED STATES HEALTH CARE SYSTEM - 3 Units

This course is designed to introduce students to the organization, structure, and operation of the nation's health care system. This is done to help students identify more effectively their present and future roles as consumer, provider, manager, decision maker, and analyst. The class examines an overview of the health care system, causes and characteristics of health service utilization, nature of wellness and disease, individual provider settings, financial and nonfinancial resources used and needed, measurement of quality of care, and current issues in delivery.

HCA 305 INTRODUCTION TO COMMUNITY HEALTH - 3 Units

This course will allow the student to reflect on the latest trends and statistics in community health in an effort to effectively address the health issues facing today's communities. With emphasis on developing the knowledge and skills necessary for a career in health care. The course covers such topics as epidemiology, community organization, program planning, minority health, health care, mental health, environmental health, drugs, safety, and occupational health.

HCA 310 INFORMATION TECHNOLOGY FOR HEALTH PROFESSIONS - 3 Units

Information Technology for Health Professionals provides a general introduction to computer literacy and information technology at a level appropriate for health care students. It includes discussions of hardware and software, communications and networking, ethical issues, and privacy concerns. In addition, it discusses how IT is transforming every aspect of health care—from administrative applications (such as the electronic medical record), to clinical systems involved in direct patient care, to special-purpose applications (such as simulation software used in the education of health care professionals).

HCA 320 ESSENTIALS OF MANAGED HEALTH CARE - 3 Units

Essentials of Managed Health Care focuses on health insurance as it impacts the management of healthcare organizations. This course provides a systematic overview of the history of managed healthcare and health insurance in the United States, types of health plans and available payers, the provider network, utilization management, quality management, accreditation, Medicare Advantage, Medicaid managed care, and laws and regulations in health insurance and managed care.

HCA 340 CULTURAL DIVERSITY IN HEALTH & ILLNESS - 3 Units

Cultural Diversity in Health and Illness promotes an awareness of the dimensions and complexities involved in interactions between health professionals and patients from diverse socio-cultural backgrounds. It examines different cultural perspectives regarding health, illness and health care that exists within American society by demonstrating traditional health beliefs and practices among selected populations. Emphasis is placed on the importance of having culturally competent health care professionals to better serve an increasingly diverse population.

HCA 420 MEDICAL LAW AND ETHICS - 3 Units

Medical Law and Ethics explores the study of medical ethics, or applied ethics, for healthcare professionals who often face dilemmas that are not experienced by the general population. The fast-paced growth of medical technology has made the study of ethics even more relevant. The study of bioethics, or biomedical ethics, refers to moral dilemmas due to advances in medicine and medical research. Since medical law and ethics are often inter-related, students need to have a clear understanding of both in order to protect themselves, their employer, and the patient. The study of ethics includes many questions for which there is no one right answer.

HCA 501 HEALTH CARE IN AMERICA - 3 Units

Health Care in America provides a comprehensive overview of the basic structures and operations of the U.S. health system, from its historical origins and resources, to its individual services, cost, and quality. Using a unique “systems” approach, it brings together an extraordinary breadth of information and a solid overview of how the various components fit together.

HCA 503 ETHICAL AND LEGAL ISSUES FOR HEALTH CARE PROFESSIONALS - 3 Units

Ethical and Legal Issues for Health Care Professionals will help students prepare for the ethical issues they will experience on the job and teach them how to evaluate the right and wrong courses of action when faced with complicated legal problems. Through contemporary topics presented with a real-world perspective, students will develop the critical thinking skills needed for the moral decisions they will encounter in the health care environment.

HCA 505 MULTICULTURAL HEALTH CARE - 3 Units

Multicultural Health Care uses a historical perspective to explore multicultural models of health, illness, and treatments or therapies to deepen the student’s understanding of the scientific, sociocultural, philosophical, psychological, and spiritual foundations of various unconventional healing systems and their approaches to prevention, health promotion, healing, and maintenance of well-being. These multicultural or alternative approaches to health care and to modern conventional medicine are seen as complementary to the bio-medical model as they blend body/mind/ spirit, science, tradition, and cross-cultural avenues of diagnosis.

HCA 507 ORGANIZATIONAL BEHAVIOR IN HEALTH CARE - 3 Units

Organizational Behavior in Health Care integrates the study of organizational behavior and organizational theory within the dynamic context of the healthcare industry. Students will explore healthcare organizations from both the micro-level (individual behavior in leadership, intrapersonal and interpersonal issues, groups and teams, and managing organizational change), as well as the macro-level (the organization as a whole). Future and practicing healthcare managers alike will benefit from this course.

HCA 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the M.B.A. in Health Care Management degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

MKT 121 CUSTOMER SERVICE - 3 Units

Customer Service focuses on building career success by applying proven principles that create customer satisfaction and loyalty. The text is skills-based and offers practical, immediately applicable information. It provides clear and concise guidance for developing the skills, attitudes, and thinking patterns needed to overcome many customer service challenges.

MKT 230 CONSUMER BEHAVIOR - 3 Units

Consumer Behavior explores not only the act of buying, but it also investigates how having or not having a product, service, idea, or experience affects our lives, how we view ourselves, and how we view others. This course examines consumer behavior as an ongoing process and includes discussions about current marketing trends—how consumers and technology have affected marketing, and how new marketing has affected consumers and their social environment.

MKT 310 ADVERTISING AND PROMOTIONS - 3 Units

This course will allow students to see a collective picture of integrated marketing communications. Focus is placed on business-to-business marketing concepts, international marketing discussions, brand management and various advertising and promotional tactics.

MKT 333 MARKETING MANAGEMENT - 3 Units

Marketing Management offers a streamlined approach to current marketing management practices and theory, with a focus on helping companies, groups, and individuals adapt their marketing strategies and management practices to the marketplace of the twenty-first century. Outside cases and simulations are presented to help students utilize their marketing knowledge for successful marketing practices and to effectively solve marketing problems with the latest tools and techniques.

MKT 425 SOCIAL MEDIA MARKETING - 3 Units

Social Media Marketing explores the growing popularity of using digital technologies to reach consumers. This course aims to further students' working knowledge on the four zones of social media (community, publishing, entertainment and commerce). We explore how social media can be employed to build brands, conduct business, support causes, rally the masses, and forge and maintain relationships.

MKT 512 SALES MANAGEMENT - 3 Units

Sales Management provides a thorough, up-to-date and integrated overview of accumulated theory and research relevant to sales management. The course highlights how real managers apply this knowledge in their own organizations to the issues and decisions companies face in developing and managing an effective sales force in the real world. The course covers the formulation, implementation, evaluation and control of a sales program. We will examine a range of topics including the strategic role of information in sales management, the recruitment, training, and development of a sales force, the vital role of customer relationship management (CRM), the development of territories, determining potentials and forecasts and setting quotas.

MKT 542 GLOBAL MARKETING - 3 Units

Global Marketing takes an environmental and strategic approach to exploring business marketing on a worldwide scale. Topics of discussion include social and cultural environments, global information systems and market research, importing, exporting and sourcing, global market-entry strategies, pricing decisions and the digital revolution. By the end of this course, students should have a better understanding of the scope of global marketing, its impact on most—if not all—businesses, and how to strategize and work through the challenging and ever-changing landscape of global marketing.

MKT 552 VALUE MARKETING - 3 Units

This course focuses on essential marketing concepts including creating, planning, strategies, research, consumer behavior, target marketing and evaluation. The role of marketing in the organization and the role of marketing in society are also explored with an emphasis on helping students learn how to develop responsive and effective marketing strategies that meet customer needs.

MKT 555 RETAIL MANAGEMENT - 3 Units

Retail Management focuses on the exciting and dynamic aspects of retailing. The course is designed to seamlessly meld the traditional framework of retailing with the realities of the competitive environment and the emergence of high technology as a backbone for retailing in the twenty-first century. Key retail management concepts are reinforced with current, real-world examples that bridge the gap between theory and practice.

MKT 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the M.B.A. in Business Marketing degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

Behavioral Science Course Descriptions

PSY 102 INTRODUCTION TO PSYCHOLOGY - 3 Units

Introduction to Psychology introduces the methods and findings of contemporary psychology. Emphasizing the need for scientific and critical thinking, topics include a survey of biology and behavior, sensory process, human development, perception, learning and motivation. Emotion, personality, psychological disorders, therapy and social interaction are also examined to provide students with a solid understanding of the facts, principles, and theories which make up the field of psychology.

PSY 116 PSYCHOLOGY OF GENDER - 3 Units

This course examines the biological, cultural, and historical factors that influence the development of gender roles and identities. Stereotypes of masculinity and femininity are examined, and the impact that these ideas have on our lives at the personal, social, and institutional levels are explored.

PSY 150 HEALTH PSYCHOLOGY - 3 Units

Health Psychology examines the correlation between health, illness, and optimal health care from a behavioral science approach. The relationship between health and behavior is explored through an integration of foundational theories, relevant research, and “real-world profiles.”

PSY 180 INTRODUCTION TO ORGANIZATIONAL PSYCHOLOGY - 3 Units

This course provides an introduction to industrial/organizational psychology and emphasizes the connections between theory and practice across the full spectrum of organizational behavior. Students will examine personnel issues including job analysis, employee selection, and training and performance appraisal. Common worker issues are covered including motivation, job satisfaction, and stress. Group dynamics in the workplace including communication and group processes are explored, and topics such as leadership and power are considered as they relate to organizational structure.

PSY 220 DEVELOPMENTAL PSYCHOLOGY - 3 Units

This course introduces students to the scientific study of patterns of change and stability that occur as we move through the process of human development from conception to death. Various theories of development will be presented, and an emphasis on physical, emotional, cognitive, and psychosocial changes throughout the life span will be discussed.

PSY 228 SOCIAL PSYCHOLOGY - 3 Units

This course offers students an in-depth look at how people come to understand themselves and others in a social context, with considerable emphasis on sociology’s role in social psychology. Students will be given detailed examples of current research studies relating to each of the topics covered in this course such as stratification, deviance, mental health and illness. Each chapter of the text covered in this course will also introduce students to key sociological social psychologists whose research has made a significant contribution to the field.

PSY 270 LEARNING THEORIES - 3 Units

This course offers a presentation of learning and behavior theory, methodology, and research relating to how and why humans and animals learn and behave as they do. Classical conditioning, instrumental conditioning, verbal learning, encoding, retention and various learning styles will all be explored to help students confidently understand the learning process and its effect on behavior.

PSY 280 MARRIAGE AND FAMILY - 3 Units

Marriage and Family presents a representative summary of the literature on the complex and changing social unit known as the family. Contemporary theories and issues in marriage and family therapy including communication, gender identity, love, choosing a partner, parenting, divorce, remarriage, and stepfamilies are all covered in order to familiarize students with the ever-evolving context of the American family.

PSY 312 TESTS AND MEASUREMENTS IN PSYCHOLOGY - 3 Units

Tests and Measurements in Psychology introduces students to the study of psychological tests. The basic concepts and operations of testing are explored, and the theoretical considerations and applications of testing data are discussed. Students will become familiar with the various types of psychological tests and will have a basic understanding of how to administer and effectively apply them in their careers.

PSY 330 HISTORY AND SYSTEMS OF PSYCHOLOGY - 3 Units

History and Systems of Psychology offers a biographical approach to the history, methods, and theories in the field of psychology. The philosophical and scientific roots of psychology are explored to provide students with a solid foundation and understanding of modern psychology's early beginnings.

PSY 380 PERSONALITY THEORIES - 3 Units

Personality Theories presents an in-depth look at a number of classical and current personality theories, providing an explanation and interpretation of personality development from several different theoretical approaches. Classical theory is integrated with the latest research and current topics, preparing students to apply theoretical approaches to better understand the particular individuals and personalities they may encounter in their professional and personal lives.

PSY 408 ABNORMAL PSYCHOLOGY - 3 Units

This course offers students an eclectic, multicultural approach to abnormal behavior, drawing on contributions from various disciplines and theoretical stances. The psychosocial and psychophysiological factors of abnormal behavior are examined, and the causes and classifications are discussed. Case vignettes and client experiences will be explored and combined with research based explanations of abnormal behavior.

PSY 418 COUNSELING PSYCHOLOGY - 3 Units

Counseling Psychology addresses the history of counseling and the theory behind its practice, explores the multicultural, ethical, and legal environments in which counselors operate, and examines the variety of skills today's counselors are expected to utilize.

PSY 430 EDUCATIONAL PSYCHOLOGY - 3 Units

Educational Psychology focuses on the principles and theories related to human learning and motivation, child and adolescent development, individual and group differences, and psychological assessment related to classroom practice. The emphasis is placed on identifying, discussing, and summarizing core concepts and principles relevant in the American education system today.

PSY 501 DEVELOPMENTAL PSYCHOLOGY - 3 Units

This course utilizes current research and examples from around the world to help students understand how culture impacts human development over the life span and why it matters. Students will be challenged to think culturally about their own development and see how it applies to their own lives and future careers. Whether you travel the globe or remain in your home towns, in a culturally diverse and globalized world, you will benefit from being able to think culturally about human development.

PSY 503 HUMAN SEXUALITY - 3 Units

Human sexuality presents the role of sexuality in all aspects of human development. We will take a look at how sexuality is perceived and conveyed in various cultures. Methods of addressing sexual problems, sexual communication, evaluation of research, child-rearing practices, life-cycle sexuality, and cross cultural variations will also be discussed.

PSY 505 PSYCHOPATHOLOGY - 3 Units

This course offers students the chance to investigate the causes of abnormal behavior and to learn various methods for therapeutic change. The nature of knowledge is explored, experimental design is examined, and the interplay between theory and data is discussed.

PSY 509 THEORIES OF MARRIAGE AND FAMILY - 3 Units

This course explores all major schools and developments in family therapy, and includes brief biographies of some of the leading family therapists of the twentieth century. Current research and developments in the field are covered and trends in family therapy are presented. Ethical standards for the practice of marriage and family therapy are also included.

PSY 511 PROFESSIONAL ETHICS AND THE LAW - 3 Units

Professional Ethics and the Law helps current and future professionals deal with ethical issues they may encounter at various stages in their career. Central issues in ethical practices are presented, diverse views on these issues are explored, and students are encouraged to refine their own thinking and to actively develop their own positions. The role of the therapist's personal values in the counseling relationship is discussed, the ethical responsibilities and rights of clients and therapists are presented, and the considerations involved in adapting counseling practices to diverse client populations are explored.

PSY 517 ALCOHOL AND CHEMICAL SUBSTANCE ABUSE - 3 Units

Based on major counseling theories, this course focuses on practical treatment techniques used by professionals working in the field of substance abuse and addiction. Utilizing a case study approach, the course will examine basic concepts of substance abuse, addiction counseling, and intervention from a variety of theoretical perspectives. Each theory is examined based on its strengths and limitations, with consideration given to multicultural and ethical issues.

PSY 525 COUNSELING SYSTEMS AND TECHNIQUES - 3 Units

Counseling Systems and Techniques explores emerging and well-established counseling theories and practices. With a strong multicultural focus and skill development sections that connect counseling theories with clinical practice, we will examine various theories that have been grouped into four broad themes—background, emotions, thoughts, and actions.

PSY 527 ASSESSMENT TECHNIQUES - 3 Units

Assessment Techniques teaches the principles of psychological tests and measurements with an emphasis on psychometric theories and principles. The course provides comprehensive coverage of the full array of the assessment techniques commonly used in modern psychological settings. This course also addresses prominent assessment issues such as test bias and assessment accommodations. In the process, this course takes every opportunity to illustrate the course material by providing practical, “everyday” examples of the principles and procedures at work.

PSY 530 PSYCHOLOGY OF AGING - 3 Units

This course takes a multidisciplinary perspective on highlighting the diversities of the aging experience related to the cultural, biological, physiological, emotional, cognitive, economic, and social aspects of aging. Special emphasis is given to understanding the dynamic interactions between older people and their physical and social environments.

PSY 540 PHYSIOLOGICAL PSYCHOLOGY - 3 Units

Physiological Psychology is an introductory survey of physiological processes underlying behavior, with an emphasis on the impact that physiological psychology has within the larger realm of psychology. Contemporary research in the role of hormonal and neurotransmitter influences in behavior are discussed to help students gain a solid understanding of the biological influences which effect and determine behavior.

PSY 550 GROUP PSYCHOTHERAPY - 3 Units

Group psychotherapy introduces students to the current theories, research, and trends specific to working with groups. The unique values of group counseling for special populations is explored and the issues and cases which deal with the ethics of group work are addressed. Additionally, various theories are explored as they relate to group goals and process. The course provides conceptual frames of reference for the psychoanalytic, Adlerian, psychodramatic, existential, person-centered, Gestalt, transactional analysis, behavior therapy, rational emotive behavior therapy, and reality therapy perspectives.

PSY 560 CLINICAL PSYCHOLOGY - 3 Units

This course presents the theories, research, prevention, assessment, and clinical applications of the field of clinical psychology. The diagnostic and therapeutic strategies employed by clinical psychologists are examined, and students will be challenged to engage in a critical analysis of the theories and research that provide the foundation for effective treatments of various mental disorders.

PSY 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Science in Psychology degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

Criminal Justice Course Descriptions

BCJ 100 INTRODUCTION TO CRIMINAL JUSTICE - 3 Units

Introduction to Criminal Justice aims to provide students with a general understanding of the criminal justice system's response to crime in society. It is important to note that the general theme of this course involves the delicate balance between community interests and individual rights that criminal justice decision-making requires. This theme will be explored by examining the criminal justice process in some detail, focusing on how the system is structured to respond to crime.

BCJ 210 JUVENILE JUSTICE - 3 Units

This course explores the history of juvenile justice, the juvenile justice system and special populations. It focuses on the system itself, the processes within it and the young people who become involved in it. A historical view of the juvenile justice system and how it relates to the entire criminal justice system is also presented.

BCJ 230 CRIMINAL INVESTIGATION - 3 Units

Criminal Investigation aims to provide students with an overview of the criminal investigation field. Course topics include the fundamentals of criminal investigation, follow-up investigative processes, methods for obtaining information, and how to approach investigation of different types of crimes.

BCJ 240 PROCEDURES IN THE JUSTICE SYSTEM - 3 Units

Procedures in the Justice System covers the fundamental principles and procedures employed in the investigation of crimes. The course connects criminal procedure cases to the real world through innovative pedagogy and encourages critical thinking. This course is designed to help students develop a working knowledge of the steps of investigation, beginning with the initial security of the crime scene and concluding with the presentation of evidence and proper testimony in court in such a way as to make the concepts easy to apply to any state's specific procedural laws.

BCJ 245 COMPUTER FORENSICS AND CYBER CRIME - 3 Units

Computer Forensics and Cyber Crime discusses computer crime in non-technological language while presenting all basic modern procedures needed to investigate and prosecute it. It covers both forensic and legal issues, addressing the First and Fourth Amendments, U.S. Patriot Act, international collaborations, identity theft, and much more.

BCJ 303 TERRORISM - 3 Units

Terrorism examines terrorist events and groups, analyzes responses to terrorism and the resulting changes in terrorist strategies, and looks at current and future trends for each continent. We will explore the current threat from global jihadist groups, analyze the increase in suicide bomber attacks and assess profiles of prominent individuals involved in terrorism and terrorist networks. In addition, we will also explore ways to mitigate risks and manage incidents.

BCJ 340 CRIMINAL BEHAVIOR - 3 Units

This course provides a detailed look at crime, what may lead to it, and how criminal behavior may be prevented—all from a psychological perspective. This course offers a comprehensive look at this complex field by focusing on serious crimes, particularly those involving violence.

BCJ 351 FORENSIC SCIENCE - 3 Units

Forensic Science explores the forensic investigation process and procedures. Students will learn how to identify, gather, and analyze multiple types of evidence through contemporary case studies. This course is designed to make the subject of forensic science comprehensible to a wide variety of students who are, or plan to be, aligned with the forensic science profession.

BCJ 355 HOMELAND SECURITY - 3 Units

Homeland Security reviews basic issues of homeland security, the history and context of the field, and what the future of the field might hold. Central issues surrounding homeland security including policy concepts and political and legal responses will be covered.

BCJ 360 CRIMINAL LAW - 3 Units

This course provides students with an appreciation for the fundamental nature of law, an overview of general legal principles, and a special understanding of the historical development of criminal law and its contemporary form and function in American society today.

BCJ 400 THEORY AND PRACTICES OF LAW ENFORCEMENT - 3 Units

Theory and Practices of Law Enforcement discusses the historical background and development of the law enforcement field as we know it today. The course presents a detailed view of law enforcement philosophies, operations, tactics, strategies, and processes and highlights the essential critical thinking, problem-solving, and communication skills necessary for law enforcement practitioners as they provide services to increasingly diverse communities. The course emphasizes the multi-jurisdictional complexities of policing in the United States and abroad and the need for inter-agency cooperation in sharing accurate, timely, and relevant information in a post-9/11 world.

BCJ 403 THEORY AND PRACTICES OF CORRECTIONS - 3 Units

Theory and Practices of Corrections provides students with an overview of our past and present corrections system, the evolving manner in which inmates have been treated, and the controversies that still remain in the corrections system today. By the end of this course, students should be more knowledgeable about the corrections system and its participants, as well as more aware of the different perspectives of various members of society regarding the U.S. corrections system.

BCJ 450 DOMESTIC VIOLENCE - 3 Units

This course serves as an introduction to the field of family violence. It focuses on the criminal justice perspective, bringing together the causes and consequences of family violence and the criminal justice response.

BCJ 470 - RESEARCH METHODS IN CRIMINAL JUSTICE AND CRIMINOLOGY - 3 Units

This course provides an introduction to the techniques used in criminal justice research. The goal of this course is to help students develop an understanding of the kinds of research conducted in the criminal justice field, the role of the researcher, general steps in the research process, and research design and statistical analysis. In addition, attention will be given to the ethical issues the researcher must consider when designing research. Finally, the course will explore the application of research findings to real world situations.

BCJ 501 CRIMINOLOGICAL THEORY - 3 Units

Criminological Theory examines crime and criminological theory by taking a direct approach to the question of why people commit crimes. It begins with an overview of the key elements of the study of crime and criminology including law, public policy, research literature and the philosophical origins of crime theories. These theories are then broken down to their basic elements and causal processes in order to be explored.

BCJ 510 DRUGS, JUSTICE AND SOCIETY - 3 Units

Drugs, Justice and Society is a study of substance abuse in our society. Topics include the history and classification of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

BCJ 515 CRIMINAL JUSTICE ADMINISTRATION - 3 Units

Criminal Justice Administration explores the field from a systems perspective that looks at administrative issues and practices for all three branches: police, courts and corrections. In addition to addressing the practical aspects of justice administration, the course will examine technological advances and future trends. Issues faced by the courts and justice system will also be examined.

BCJ 530 MULTICULTURAL ISSUES IN LAW ENFORCEMENT - 3 Units

Multicultural Issues in Law Enforcement examines the multitude of racial, ethnic and cultural issues related to law enforcement in society. In addition, the course addresses strategies for refining law enforcement attitudes, behaviors, methods and tools for social advancement, community betterment and conflict reduction.

BCJ 545 COMPUTER CRIME - 3 Units

Computer Crime surveys the nature and characteristics of the many dimensions of digital crime and digital terrorism, terms which have emerged and grown rapidly since the World Wide Web has become the basis for global information, business, and government transactions.

BCJ 553 SUPERVISION IN LAW ENFORCEMENT - 3 Units

Supervision in Law Enforcement focuses on leadership theories and practices in police supervision. Students will develop the competencies and skills to confidently utilize these principles in their personal and professional lives. This course also emphasizes methods and techniques in leadership for successful and effective supervision in law enforcement.

BCJ 562 POLICE ADMINISTRATION AND MANAGEMENT - 3 Units

Police Administration and Management examines the evolution of American policing and modern organizational issues. Students will be exposed to the procedures, politics, and human relations issues that police supervisors and administrators must understand in order to succeed.

BCJ 563 CRIMINAL JUSTICE POLICY - 3 Units

Criminal Justice Policy addresses crime control and/or prevention and the policies that arise from the need to address crime and deliver justice. The course examines each of the various actors in the public policy process at the federal, state and local level. By the end of the course, students will be able to comprehend the justification, logic, and evidence for specific crime policies, as well as analyze the factors that influence policymaking.

BCJ 565 DEVIANT BEHAVIOR - 3 Units

Deviant Behavior examines deviance from key sociological perspectives and theories. The course provides real-world examples of deviance throughout to encourage critical thinking about deviant behavior and its impact at the personal level and on society as a whole.

BCJ 575 TERRORISM AND HOMELAND SECURITY - 3 Units

This course provides a theoretical and conceptual framework that enables students to understand how terrorism arises and how it functions. The most sophisticated theories by the best terrorist analysts in the world are discussed, while still focusing on the domestic and international threat of terrorism and the basic security issues surrounding terrorism today.

BCJ 582 CORRECTIONAL COUNSELING - 3 Units

This course offers a strong practitioner orientation, enabling students to become proficient in providing basic correctional counseling services to the offender population. This course provides basic information on underlying theoretical perspectives among a variety of counseling approaches and addresses the details of the counseling and treatment process itself, explaining exactly how correctional counseling is done in the field.

BCJ 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Science in Criminal Justice degree program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

Education Course Descriptions

EDU 501 INTEGRATING TECHNOLOGY INTO TEACHING - 3 Units

Integrating Technology into Teaching reflects the need for a new kind of teaching resource in which the perspective is not just on the electronic technologies, which change rapidly, but on the principles underlying the teaching strategies they make possible, which are more stable. The emphasis is on learning both the skills in using equipment and software, as well as on how to integrate these resources into daily classroom activities. In addition, this discussion of technology integration strategies is linked to both learning theories and effective classroom practices.

EDU 507 CULTURAL ISSUES IN EDUCATION - 3 Units

Cultural Issues in Education focuses on essential questions and theoretical concepts about becoming a multicultural educator. Specifically, this course will address the impact of diversity in education that goes beyond race to include gender, sexual orientation, poverty, class, and religion.

EDU 510 MODELS OF TEACHING - 3 Units

This course explores a variety of teaching models and curriculum theories to help increase student capacity for personal growth, social growth, and academic learning. Application of theories to classroom utilization is emphasized to help educators be able to construct vital and effective learning environments for their students.

EDU 520 LEADERSHIP AND ORGANIZATIONAL BEHAVIOR - 3 Units

Leadership and Organizational Behavior examines major leadership behavior patterns and strategies that promote effectiveness in organizations. Focus will be placed on the principles of school leadership, as well as specific theories behind organizational behavior. Students will be challenged to become more self-aware of their personal leadership style and will be able to develop their abilities to influence others.

EDU 521 PSYCHOLOGY APPLIED TO TEACHING - 3 Units

Psychology Applied to Teaching provides an overview of theories and research in educational psychology. Students will develop an understanding of the personal paradigms of teachers and students. Learning theories, stages of human development, educational opportunities, and teaching strategies that support a diverse student population are covered in detail.

EDU 523 STRATEGIC ISSUES MANAGEMENT - 3 Units

Strategic Issues Management integrates the important and diverse topics in the field of sociology of education by showing how these topics are related to one another. This course emphasizes the diversity of theoretical approaches and issues in the field and the application of this knowledge to the understanding of education and schooling.

EDU 524 CURRICULUM DESIGN AND EVALUATION - 3 Units

Curriculum Design and Evaluation provides a comprehensive analysis of the process of curriculum development. It begins with an examination of the theoretical dimensions of curriculum development, looks at the roles of various personnel who have primary responsibility for developing curriculum, and describes a number of models of curriculum development. The process of curriculum development is examined beginning with stating the philosophical beliefs and broad aims of education, specifying curriculum and instructional goals and objectives, implementing curriculum and instruction, and evaluating curriculum and instruction.

EDU 526 SUPERVISION OF INSTRUCTION - 3 Units

Supervision of Instruction reviews ways to improve educational programs in diverse classrooms through the use of supervision and leadership. Basic concepts of curriculum development, measurement, policies of inclusion, the achievement gap, and the effects of culture are explained. Administrative skills that promote equal learning opportunities in the classroom are also reviewed.

EDU 529 EDUCATIONAL PERSONNEL MANAGEMENT - 3 Units

This course utilizes a management approach that examines the processes and procedures necessary for implementing effective human resources administration in an educational setting. In particular, this course will cover the essential dimensions of the human resources function from planning to performance evaluation and compensation.

EDU 532 SCHOOL - COMMUNITY RELATIONS - 3 Units

School-Community Relations explores how various social and political forces impact effective interactions between schools and the communities they serve. With an emphasis on diversity, methods of implementing educational change with community support and cultural pluralism and its effects on school-community dynamics are also explored.

EDU 536 ETHICS IN EDUCATION - 3 Units

Ethics in Education provides tools and concepts for understanding and dealing with significant ethical issues within education and society. Students will learn how to evaluate the philosophical ideas of others, as well as develop their own way of approaching ethical issues within educational leadership. The following are overarching concepts of this course: ethical leaders, ethical practices, equity issues, and human communication.

EDU 545 LEADERSHIP AND TECHNOLOGY - 3 Units

Leadership and Technology explores various ways in which teachers and students can utilize technology to create a more interactive, inquiry-based teaching and learning experience. This course will focus on day-to-day classroom objectives in elementary and secondary schools with thoughtful perspectives, instructional examples, description of technology tools and apps, and technology-integrated lesson plans from across the curriculum for all grade levels.

EDU 546 PUBLIC POLICY - 3 Units

This course reviews educational policy from a micro and macro perspective. It reviews the general concepts of public policy, and looks at the socioeconomic context of the school, as it relates to economics, demographics, politics, culture and values. It also analyzes the policy process, the key players, and the typical issues involved, as well as a historical perspective to aid in understanding the current education reform climate.

EDU 547 LEGAL ASPECTS OF EDUCATION - 3 Units

This course covers the historical and contemporary legal issues affecting the organization and administration of schools in America. School safety, cyberbullying, copyright law and use of media are covered extensively. Additionally, isolation and restraining laws involving students with disabilities, landmark cases involving equal pay, strip searches, and freedom of expression, truancy and school vouchers—virtually every topic of concern to today’s educators—is covered with integrated cases.

EDU 548 GLOBAL PERSPECTIVES IN CURRICULUM - 3 Units

Global Perspectives in Curriculum emphasizes diversity within and across ethnic groups to help educators understand the interactions between students’ cultural and individual differences. This course will include discussions about diversity theory, history, and social science in order to provide a more inclusive and comprehensive look at what multicultural education is—and could be—in the United States.

EDU 591 PUBLIC POLICY - 3 Units

This course reviews educational policy from a micro and macro perspective. It reviews the general concepts of public policy, and looks at the socioeconomic context of the school, as it relates to economics, demographics, politics, culture and values. It also analyzes the policy process, the key players, and the typical issues involved, as well as a historical perspective to aid in understanding the current education reform climate.

EDU 592 LEGAL ASPECTS OF EDUCATION - 3 Units

This course covers the historical and contemporary legal issues affecting the organization and administration of schools in America. School safety, cyberbullying, copyright law and use of media are covered extensively. Additionally, isolation and restraining laws involving students with disabilities, landmark cases involving equal pay, strip searches, and freedom of expression, truancy and school vouchers—virtually every topic of concern to today’s educators—is covered with integrated cases.

EDU 597 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Education in Administration program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

EDU 598 FINAL COMPREHENSIVE EXAMINATION - 0 Units Pass/No Pass

Students enrolled in the Master of Education in Curriculum and Instruction program will complete a Final Comprehensive Examination. The final examination is a combination of essay, short answer and multiple choice examination questions, requiring students to integrate knowledge acquired across the educational program. The Final Comprehensive Examination is graded on a pass/no pass basis. Students may repeat any portion until they receive a passing score.

EDU 602 PHILOSOPHICAL FOUNDATIONS OF EDUCATION - 4 Units

This course provides an overview of the dominant philosophical perspectives which have framed the evolution of education, from the time of Plato to the present day. The major philosophers throughout history have included the nature and purpose of education in their writings. This course illustrates the historical, social, cultural, and educational contexts of the most prominent of those writings, and discusses their implications for the evolution of education.

EDU 610 LEARNING THEORY - 4 Units

This course examines theories of learning and the functions of the human brain which have evolved over the past century. Information processing, memory, conditioning, motivation, developmental characteristics, transfer, problem-solving, social aspects of learning, and classroom applications are covered comprehensively.

EDU 614 HISTORY OF EDUCATION - 4 Units

This course provides an overview of the history of American education, including the most important persons, dates, events, and movements that shaped the nation's system of education. Students are introduced to historical research through engaging historical studies. The basic concepts and theories that underlie current educational practice are presented in comprehensive form. Also included is treatment of new educational delivery systems such as distance learning, online resources, computer based research, emerging educational technologies, as well as international and global influences and trends in education.

EDU 615 QUALIFYING EXAMINATION - Pass/No Pass

Upon completion of the three qualifying courses, candidates will complete a written Qualifying Examination based on materials covered in the three qualifying courses.

EDU 618 ANALYSIS OF CURRENT ISSUES IN EDUCATION - 4 Units

Analysis of Current Issues in Education explores a wide range of topics in education such as governance, teaching and learning, student life, faculty, finances, public policy, fundraising, and innovations. Emphasis is placed on uncovering the underlying social and ideological philosophies that lie below the surface of each issue.

EDU 621 ORGANIZATIONAL BEHAVIOR AND ADAPTIVE LEADERSHIP - 4 Units

Organizational Behavior and Adaptive Leadership is the study of organizational behavior, how it impacts educational leadership, and how leaders can embrace the challenges of school reform. The course highlights the paradigms of the evolution of educational thought, organizational theory, human capital and decision-making that educational leaders face in a hypercompetitive, global educational environment.

EDU 624 GROUP DYNAMICS - 4 Units

Group Dynamics provides a comprehensive analysis of theory and research related to group dynamics. It begins with an examination of the current theory and research findings needed in order to make groups function effectively and provides exercises to practice the skills required to apply that knowledge in practical situations. Throughout the course there is an emphasis on the integration of knowledge and skills toward the goal of developing expertise in working with groups. This course provides a balanced approach to group dynamics and focuses on the characteristic dynamics found in virtually all groups and in all walks of life.

EDU 625 FOUNDATIONS IN LEADERSHIP - 4 Units

Foundations in Leadership is designed to provide a foundational overview of the leadership and administrative issues with which educational leaders are confronted. This course treats leadership as a complex process having multiple dimensions. It provides in-depth descriptions and applications of many different approaches to leadership.

EDU 627 MANAGING HUMAN RESOURCES - 4 Units

Managing Human Resources involves the management of people in school organizations. The human resource function, including staffing and recruiting top talent, re-recruitment, professional development, retention of talent, and change management will be explored in order to enable educational leaders to plan the day-to-day utilization of people as organizational resources to achieve optimal productivity, satisfaction, and continuous improvement. Performance management, measuring teacher performance, strategic management for principals, and the policy and political environment for change will also be addressed.

EDU 629 DIVERSITY IN GLOBAL AND MULTICULTURAL ORGANIZATIONS - 4 Units

Diversity in Global and Multicultural Organizations aims to expand and deepen awareness for the educational leader of the global and multicultural society in which we live. Educational leaders must be prepared to deal with issues of cultural diversity, racism, global consciousness and the challenges raised by individuals and groups whose roots lie in countries, cultures and belief systems which increasingly define the American experience. Understanding these areas will enhance the effectiveness of an educational leader.

EDU 630 EDUCATIONAL FINANCE - 4 Units

Educational finance is concerned with the process of understanding that resources, social progress, technological advancement and wealth are created through a sound and continuously improving educational system. Such a system itself depends upon many kinds of inputs, one of the most important of which is adequate funding. This course examines the sources of educational funding, and the issues surrounding how that funding is acquired, administered, and dispersed by the federal government, states, communities and local school districts.

EDU 640 MOTIVATION AND LEARNING - 4 Units

Motivation and Learning is designed as an overview of motivational research in psychology and education. The course focuses specifically on different theories of motivation and how classroom, school, work, and social environments shape and influence individuals' motivation. Students explore what motivates individuals to learn and examine strategies, techniques, and interventions that promote and sustain learner motivation.

EDU 642 MANAGING CONFLICT IN ORGANIZATIONS - 4 Units

This course deals with the dynamics of conflict as a phenomenon. The management of conflict has developed into an interdisciplinary synthesis of human relations skills and strategies, which can be used to more effectively deal with dysfunctional interactions in the workplace, and in society itself. This course explores the specific dimensions of managing conflict, using a variety of models which have been developed to explore the causes and resolution of discord among individuals and groups.

EDU 645 ADVANCED CURRICULUM DEVELOPMENT - 4 Units

Advanced Curriculum Development examines the principles and practices essential to developing and administering curricular programs, including knowledge and understanding about measurability, scope and sequence, taxonomy, program designs, and the fit between a planned program and a taught or implemented one.

EDU 646 EDUCATIONAL MEASUREMENT - 4 Units

Educational Measurement aims to provide a balanced perspective on educational testing, assessment, and measurement through the exploration of foundational theories, practical applications, and the political landscape and its effect on testing policy and practice.

EDU 647 EDUCATIONAL ACCOUNTABILITY, GOVERNANCE, AND REFORM - 4 Units

Educational Accountability, Governance, and Reform is designed to provide a comprehensive analysis of the accountability movement, its dimensions and its implications. It is designed to facilitate leadership in the promotion of educational accountability and in the development of further research and scholarship in the accountability movement.

EDU 649 ADVANCED EDUCATIONAL PSYCHOLOGY - 4 Units

This course provides a comprehensive analysis of the concepts and theories of psychology related to instructional practice and offers a wide variety of classroom strategies to help students of all ages succeed in the classroom. The course focuses on aspects of psychology such as thinking, learning, human development, motivation, and assessment that have particular relevance to classroom practice. Emphasis is placed on the importance of the use of research evidence in planning, implementing, and assessing instruction.

EDU 650 LEADING THROUGH AND BY CHANGE - 4 Units

This course is concerned with understanding and facilitating the change process in organizational and educational settings. While change occurs naturally in the world, through economic, demographic, political, and technological shifts over which there is little control, this course deals with those elements of anticipating and adapting to those external changes, which organizations can design and implement internally.

EDU 652 EDUCATIONAL RESEARCH - 4 Units

Educational Research is a required course completed by all Doctoral students to prepare them for the development and writing of a Proposal and Dissertation. The course presents a balanced presentation of quantitative and qualitative research. It examines the fundamental issues of research so that students learn how to begin to conduct research as well as to read and evaluate research studies. By using the concepts and research techniques presented in this course, students and faculty will work together to develop the student's knowledge of the Dissertation process.

EDU 653 QUANTITATIVE METHODS IN EDUCATIONAL RESEARCH - 4 units

This course is designed to prepare students to understand the elements of research from the standpoint of both design and data analysis. To do this, the course presents information enabling students to judge the research of others and to design their own high-quality investigations. This course will also enable students to read, interpret, and critically evaluate quantitative results. From this, students will be able to solve problems and make knowledge-based decisions.

EDU 687 COMPREHENSIVE EXAMINATION - 4 Units

Candidates enrolled in the Doctor of Education in Educational Administration will complete a written Comprehensive Examination. This final requirement will be in the form of an essay examination, based upon major areas of education. Students are asked to integrate course information, professional experience and outside source materials into a comprehensive framework, reflecting their accumulated knowledge in the field of education.

EDU 688 COMPREHENSIVE EXAMINATION - 4 Units

Candidates enrolled in the Doctor of Education in Organizational Leadership will complete a written Comprehensive Examination. This final requirement will be in the form of an essay examination, based upon major areas of education. Students are asked to integrate course information, professional experience and outside source materials into a comprehensive framework, reflecting their accumulated knowledge in the field of education.

EDU 689 COMPREHENSIVE EXAMINATION - 4 Units

Candidates enrolled in the Doctor of Education in Educational Psychology will complete a written Comprehensive Examination. This final requirement will be in the form of an essay examination, based upon major areas of education. Students are asked to integrate course information, professional experience and outside source materials into a comprehensive framework, reflecting their accumulated knowledge in the field of education.

General Education Course Descriptions

GED 101 INTRODUCTION TO LIFE SCIENCE - 3 Units

Introduction to Life Science explores the fundamentals of biology and includes discussions on high-interest topics such as genetic testing, climate change, and the effects of the human footprint on the environment. This course aims to instill basic scientific knowledge that students can reference in order to form well-reasoned, ecologically responsible, fact-based opinions about personal, social, and ecological issues in everyday life.

GED 108 ENVIRONMENTAL SCIENCE - 3 Units

This course is an interdisciplinary approach to environmental science, focusing on the interrelatedness of humans and the natural world. Historical perspectives, economic and political realities, varied social experiences and ethnic backgrounds are integrated into the identification of major issues and the search for possible solutions.

GED 120 INTRODUCTION TO HUMANITIES - 3 Units

Introduction to Humanities explores human values through an examination of the arts including painting, architecture, literature, cinema, photography, and the performing arts. Along with the study of history and philosophy, the study of various artistic genres—from different time periods—should also be seen as important resources to a better understanding of human society, its values, and even the values of individuals and groups who participate in artistic outlets and experiences.

GED 130 INTRODUCTION TO CIVILIZATION - 3 Units

Introduction to Civilization is a presentation of civilization's major happenings including the cultural, social, political and economic development of the world from the 1400's to present. A survey of world civilizations is explored, and interactions between or among civilizations are stressed, leading to a better understanding of where man has been and where he is now.

GED 132 UNITED STATES GOVERNMENT - 3 Units

United States Government reviews and examines the institutions of the American political system: the presidency, Congress, the judiciary and state and local governments. It also examines political parties and the roles they have played in the development of the American polyarchy.

GED 150 MATHEMATICS - 3 Units

Mathematics provides an introduction to college mathematics by building essential skills one at a time. The course starts with the basics of whole numbers, fractions, and decimals and moves into ratio and proportion, graphs, statistics, and basic geometry. This course is complete with examples, exercises, and practice problems to ensure your success.

GED 155 ENGLISH - 3 Units

This course will help students to develop the key skills that will make them good communicators and valued member of the workforce: reading and comprehending, building a substantial vocabulary, using grammatically correct English and speaking and writing the language that is necessary for success in the workplace. This course is designed to help all levels of students from those with language skill deficiencies, or English as a second language to professionals and businesspeople.

GED 210 INTRODUCTION TO CULTURAL ANTHROPOLOGY - 3 Units

Introduction to Cultural Anthropology presents observations and inferences about the human experience and the corresponding role of anthropology. Specifically, it will emphasize the diversity of human societies and cultural patterns, as well as highlight similarities that make all humans fundamentally alike.

GED 215 PSYCHOLOGY OF ADJUSTMENT - 3 Units

Psychology of Adjustment explores major perspectives on psychology and provides opportunities for students to apply useful concepts to their personal lives. Content is drawn from theory and research in different areas of psychology and covers personality development, stress management, health issues, relationships, work, lifespan development and other areas of life.

GED 216 INTRODUCTION TO SOCIOLOGY - 3 Units

Introduction to Sociology is the study of how society influences the way people act, think and feel. Culture, society, social interactions, social class, and gender stratification all influence every part of who people are, how they behave, and how they participate in their existence on this earth. An introduction to social problems including minority inequality, aging and death, women's rights, and urban problems, in general, are also explored in this course.

GED 232 EARLY UNITED STATES HISTORY - 3 Units

Early U.S. History explores the history of the United States from Native American societies before 1492 to the year 1877, with an in-depth analysis of the transition in United States history from pre-colonial beginnings to an independent national state. This course will survey the historical, cultural, political and economic events that shaped early United States history.

GED 240 ART HISTORY - 3 Units

Art History examines the development of the visual arts from prehistory to fourteenth-century art in Europe. The course introduces students to diverse artistic traditions in drawing, painting, sculpture, architecture, and printmaking while simultaneously exploring social implications of—and response to—various individuals and their creations.

GED 250 WORLD RELIGIONS - 3 Units

This is an introductory course in world religions. It places the world's religions in historical context, illustrating the complex dynamic of each religion over time, while also presenting current beliefs, practices, and group formations. Conceptual, worship and social factors of religious experiences from the past to present are examined. Religion's role in the environment of present and future crises is explored, as well as the challenges of ecology, technology, and globalization, all which have an impact on spirituality.

GED 260 CRIMINOLOGY - 3 Units

This course emphasizes the wide and interdisciplinary variety of academic perspectives that contribute to a thorough and well-informed understanding of the crime problem. It addresses the latest social issues and discusses innovative criminological perspectives within a well-grounded and traditional theoretical framework. Students will learn to think critically about the causes of crime and will discover the correlations between crime theory, crime policy, and crime prevention.

General Elective Courses

For each undergraduate degree program, students complete a combination of core courses, general education, and general elective courses to earn their degrees. After a student submits an application, an evaluation is done.

General elective transfer credit is awarded based on the following:

- Course work that was previously completed at other recognized colleges or universities. Students need to provide official transcripts to earn transfer credit. All transfer credit is noted on the student's academic plan.
- As previously noted, students may also earn elective credit based on documented specialized training, i.e. corporate training, P.O.S.T., professional development courses, certificate trainings hours, professional continuing education, etc.

If a student is required to complete elective courses at California Coast University, the academic plan completed during the evaluation will reflect the total number of elective courses needed. To satisfy this requirement, each student will receive a list of available elective courses to meet this requirement - based on his or her specific degree program. Available elective courses are comprised of a combination of courses from the schools of administration and management, behavioral science, and criminal justice.

Students are required to choose their electives prior to receiving their first course work.

Master's Level Research Course Descriptions

GRM 597 THE RESEARCH PROCESS - 3 Units

The Research Process is a required course for all of the master's degree programs offered at the University. This course provides an overview of the various research methods, research design, guidance in planning research strategy and documentation of research data. It also explores and analyzes examples of research from many different disciplines, the development and use of computer-aided research, writing skills and logical argumentation techniques required in the research field.

GRM 698 THE PROPOSAL FOR THE THESIS (Optional) - 3 Units

This course focuses on the preparation of a proposal for research: conceptual tools and techniques for conducting scientific research; evaluation of the value of research proposals; planning and executing research projects. The student will learn how to organize knowledge within his or her field for presentation in a standardized, scholarly fashion. The course requires that the student present an acceptable proposal for review and analysis in lieu of a final course examination.

GRM 699 THE MASTER THESIS (Optional) - 6 Units

The proposal (GRM 698) must have been successfully completed and approved before a student is permitted to begin work on this course. The candidate will develop and compile an original work demonstrating ability to add to the body of knowledge in his or her field for presentation to and acceptance by the University.

Doctoral Level Research Course Descriptions

GRM 712 PROPOSAL - 2 Units

This course focuses on the preparation of research. This includes conceptual tools, techniques for conducting scientific research, evaluation of the value of research proposals and planning and executing research projects. The student will learn how to organize knowledge within his/her field for presentation in a standardized, scholarly fashion. The student will develop the formal proposal based on established doctoral guidelines and under the supervision of the graduate review committee. This course requires that the student present an acceptable proposal for review and analysis in lieu of a final course examination.

GRM 715 DISSERTATION AND ORAL DEFENSE - 12 Units

The proposal (GRM 712) must have been successfully completed and approved before a student is permitted to begin work on the dissertation. The candidate will develop and compile an original work, demonstrating ability to add to the body of knowledge in his or her field for presentation to and acceptance by the University. After the student's dissertation is approved and bound, the candidate is responsible for appearing before their Dissertation Committee in person for the purpose of orally responding to committee member questions as they pertain to the candidate's dissertation.

Recognition of the University's Degrees

BUSINESS AND PROFESSIONAL RECOGNITION

The true recognition of any educational program comes from its voluntary acceptance by the business, the professional and the academic communities. The University has many substantial, affirmative testimonials from graduates and leaders in business, industry, and in the professions on file. Many of these attest to promotions, new positions, and salary increases directly related to completion of a course of study and receipt of a degree from the University.

Many corporations are continually seeking programs that will allow their supervisory, middle and top management personnel to improve and continue their education without sacrificing the productivity of the employee. Dozens of corporations have evaluated the University's Programs through their Personnel and Employee Relations Departments and have recognized the work and the Degree for advancement, salary increases, and entry qualifications for new positions.

MISCELLANEOUS - GENERAL INFORMATION

ACADEMIC CALENDAR

The University utilizes an open entry/open exit system. Students may enroll during anytime of the year and finish educational programs based on established time limits. For undergraduate and master's programs, students may complete a degree program in a minimum of one academic year. For certificate programs, students may complete program requires in a minimum of sixteen weeks. For the doctoral program, students may complete a program in a minimum of three years.

Students work at their own pace and submit assignments on their own schedule, with a minimum of one course every 6 months required to remain active.

Faculty are available via email or by phone consultation throughout the week based on their individual schedules. Students are encouraged to contact the Testing Department to find out the best time to contact a faculty member.

ARCHIVED CATALOGS

The University maintains archived records of past catalogs. For additional information, students or graduates may contact the Registrar's office.

THE ALUMNI ASSOCIATION

The California Coast University Alumni Association, in which all graduates and students are invited to actively participate, publishes a newsletter informing members of the association and public at large of the growth and changes occurring at the University, and the accomplishments of students and graduates. The Alumni Association also encourages the publication of research related to alternative education.

HOURS OF OPERATION

The University's hours of operation are Monday through Friday, 8:00am to 4:30pm Pacific Standard time.

The University is closed for the following holidays: New Years Day, President's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the Friday after Thanksgiving Day, and Christmas Day.

Right to change - In an effort to provide the most current and up to date instructional materials, the University retains the right to change course materials, titles, tuition, and textbook charges at any time without notice.
