

Pacific Coast Horseshoeing School, Inc. is a privately owned vocational school. The program is eight weeks in duration for 320 hours of instruction. This is a Certificate program.

Graduates of this program will be self-employed. **100% of all past, present and future graduates of this program have been and will be self-employed.** There are no employers who will hire a graduate of this school. Each graduate will have to establish a clientele in the area where they wish to practice. Students will learn how to market themselves, advertising and relationships with veterinarians, trainers and horse-owners. They will be taught how to set up a shoeing rig, scheduling clients, pricing for their area, bookkeeping that is required of self-employed business owners.

If you decide to attend Pacific Coast Horseshoeing School and if you desire to obtain income as a horseshoer, the following will apply

1. You will be 100% self-employed.
2. You will not derive any income unless you develop a clientele in your area.
3. The number of hours a day you work, or if you work, is totally dependent upon you.
4. There will be no (zero) placement opportunities provided by this school.
5. There will be no promise, spoken or implied, about the income you will make from shoeing horses, particularly within six months of graduation.
6. There are **no** employers that hire a horseshoer right out of an eight-week school.
7. Your income is 100% dependent upon your work ethic, the area you have chosen to live and work, the number of horses in that area, your physical condition and health, your desire to work hard, the personal pride you show in your business and work, the weather and many more considerations too numerous to list.

The school has been open since 1991 and its reputation of excellence in farrier training has kept Pacific Coast Horseshoeing School as the top farrier training school in the United States. If our program was fraudulent we would not have been open for this long nor would we continue to receive awards for excellence in education from our industry.

The program is taught in what is now considered “old fashion” methods, contrary to the mainstream education in most of America’s public schools. Students are required to work hard, study and master skills that are taught. Students receive grades based upon their performance, not their feelings. Their success or failure, will be based upon their willingness to work hard and devote themselves to the training. The instructors are dedicated to the success of any student who is willing to work toward that goal.

Unfortunately, the Bureau Private Postsecondary Education (BPPE) regulates Pacific Coast Horseshoeing School, Inc. The BPPE is a Bureau within the California Department of Consumer Affairs. The laws governing private schools in California have been written and passed into law by the California government, which is dominated by far-left Democrat activists who believe that “for profit” is synonymous with evil. The far left believes that ALL education should be performed by the public school sector, even though the public school sector does not offer this type of training. The Bureau does not recognize that many people desire self-employment as a way of life or as supplemental income. The government and the Bureau are either incapable or unwilling to see the difference between large private institutions, with hundreds of students offering degree programs and federal student loans and small vocational schools.

Anyone else teaching at this institution, is here because Bob Smith, sole owner, deemed him or her to be beneficial to his school.

Tiffany Gardner has been shoeing horses for over 10 years. Tiffany sometimes works at the school and Bob likes Tiffany's shoeing. Jonathan Lambert has been shoeing horses for over 10 years. Jonathan sometimes works at the school, Bob likes Jonathan's shoeing. There may be other horseshoers that stop by the school. If the owner, Bob Smith, feels that they can benefit the students as a whole or one student in particular, then they will instruct. Bob Smith has hired the above-mentioned horseshoers to work part-time at the school as their schedule and the school's schedules dictate. Since horseshoeing in a non regulated activity the requirements to shoe horses is nothing more than the desire to shoe, so those employed as instructors at Pacific Coast Horseshoeing School, Inc. have to satisfy Bob Smith, since he, not the state of California is paying them. The main and only full time instructor is Bob Smith.

(8) A detailed description of institutional policies in the following areas:

(A) Admissions policies, including the institution's policies regarding the acceptance of credits earned at other institutions or through challenge examinations and achievement tests, **Admission policy is on a first come first**

serve basis. Before credit earned at other institutions is accepted (for Veteran's only per VA requirements) at this institution the students will have to have successfully passed the American Farriers Association's Certification examination. No fees required for Pacific Coast Horseshoeing School. The American Farrier's Association may require fees as they see fit,

admissions requirements for ability-to-benefit students, there are no reading requirements for the program so the ability to benefit test is the first five days of the program. If, in the opinion of either the student or the faculty the student cannot be trained in the following seven weeks the student is given a full refund, minus the registration fee and any tools not returned.

The decision that the student cannot benefit from the course of instruction is made solely by the owner of Pacific Coast Horseshoeing School and it not subject to review.

If the student feels that they can benefit from the course of instruction but the owner feels that they cannot benefit from the course of instruction they will not be accepted into the program. The owner will refuse to allow the student to try because failure is not acceptable to the Bureau.

Trying and not succeeding is held against the school. The Bureau does not recognize that the potential student has the right to try and fail as much as he/she has the right to try and succeed. The Bureau does not see failure as an educational tool in the life of the student.

If the student's parents think that the student will benefit from this course of instruction and are willing to pay the tuition fees from their own private funds, but the owner feels that the student will not be successful as a farrier, from the course of instruction the student will not be allowed to enroll.

The Bureau does not recognize that some students may benefit from eight weeks of discipline and hard work and that the seeds of taking control of their lives may be planted to sprout later in life.

If the student's grandparents think that the student will benefit from this course of instruction and are willing to pay the tuition fees from their own private funds, but the owner feels that the student will not be successful as a farrier, the student will not be allowed to enroll.

The Bureau does not recognize that some students my benefit from eight weeks of discipline and hard work and that seeds of taking control of their lives may be planted to sprout later in life.

This institution is not desirous of entering into a losing discussion with the Bureau as to why a private citizen, using their own private funds has the right to make a decision about their own life or their child's life without government involvement, therefore acceptance into this program is at the sole discretion of the owner.

This institution does not accept an ability-to-benefit examination (one that was approved by the Department of Education). This has been acceptable to the CPPVE and the Bureau since 1991 as a valid "ability to benefit" test. and a list describing any transfer or articulation agreements between the institution and any other college or university that provides for the transfer of credits earned in the program of instruction. If the institution has not entered into an articulation or transfer agreement with any other college or university, the institution shall disclose that fact. **This institution is disclosing that this institution has not entered into an articulation or transfer agreement with any other college or university. This institution does not allow students to challenge any aspects of the eight-week program, any exams any forge requirements and attendance policies, and shoeings.**

(B) Cancellation, withdrawal, and refund policies, including an explanation that the student has the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. **You have the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later.**

The text shall also include a description of the procedures that a student is required to follow to cancel the enrollment agreement or withdraw from the institution and obtain a refund consistent with the requirements of Article 13 (commencing with Section 94919). **Withdrawal from the program must be submitted in writing and presented to Bob Smith, the instructor, at 5225 Carbondale Road, Plymouth, CA 95669 between the hours of 8 am and 5 pm, Monday through Friday.**

(C) Probation since this program is only 320 hours of instruction, and more than 60% of the grades are

accomplished in the final two weeks, there is no probation available and therefore there is no policy. and dismissal policies. Dismissal from the program is at the discretion of the CEO.

(D) Attendance policies. Not attending will greatly reduce your chance of graduation. If the student misses an assignment, of which there is none, or missed a lecture or missed a grade shoe or missed a shoeing without an excused absence then they have missed that opportunity for those points, no makeup will be given. If the absence is excused every effort will be made to give the student additional time to accomplish the task. Excused absences consist of appointments that cannot be canceled or moved, illness, or other special circumstances. An excused absence is at the discretion of the owner, CEO of Pacific Coast Horseshoeing School. Three unexcused absences may be grounds for dismissal.

(E) Leave-of-absence policies. Leave of absence is at the discretion of the owner of Pacific Coast Horseshoeing School. Leave of absence has to be in writing. The student will receive a response within 24 hours of the receipt of the request.

(9) The schedule of total charges for a period of attendance and an estimated schedule of total charges for the entire educational program. Total charges for the current period of attendance is \$6,000. Estimated total charges for the entire educational program is \$6,000. Dormitory are available to students for a fee of \$560 for the eight weeks and payable to Gardners Equine, LLC, not the school. The total charges the student is obligated to pay upon enrollment is \$6,000

(10) A statement reporting whether the institution participates in federal and state financial aid programs, and if so, all consumer information that is required to be disclosed to the student pursuant to the applicable federal and state financial aid programs. This institution does not participate. in federal and state financial aid programs.

(11) A statement specifying that, if a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds. If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds. If the concept of repaying a loan is unfamiliar to the prospective student this institution would strongly caution them about becoming self-employed.

(12) A statement specifying whether the institution has a pending petition in bankruptcy, is operating as a debtor in possession, has filed a petition within the preceding five years, or has had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.). This institution does not a pending petition in bankruptcy, is operating as a debtor in possession, has filed a petition within the preceding five years, or has had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

(13) If the institution provides placement services, a description of the nature and extent of the placement services. This institution **does not** provide placement services. 100% of all graduates will be self-employed. 100% of all graduates will need to develop their own clientele.

**NOTE: ALL (100%)GRADUATES ARE SELF-EMPLOYED!
THERE IS NO PLACEMENT.
THERE ARE NO JOBS.
YOU WILL HAVE TO DEVELOP YOUR OWN CLIENTELE.**

STUDENT'S RIGHT TO CANCEL

You have the right to cancel the enrollment agreement and obtain a refund of charges paid through the attendance of the first class session, or the seventh day after enrollment which ever is later.

The institution's refund policy is a pro-rata refund to the 60% point of the program.

Example: If you withdraw from the program after attending only 20% of the course length, you will receive an 80% refund on your full tuition, minus the registration fees and any tools not returned.

Withdrawal from the program must be submitted in writing and presented to Bob Smith, the instructor, at 5225 Carbondale Road, Plymouth, CA 95669 between the hours of 8 AM. and 5 PM, Monday through Friday.

If the student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both the following may occur: (1) The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan. (2) The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

If the student has received federal student financial aid funds, the student is entitled to a refund of moneys not paid from federal student financial aid program funds.

There are no fees. There is no appeal.**

(8) The institution's standards for student achievement. **This institution's standards for student achievement is based upon completion of written or oral exams (student choice), the grading of forged horseshoes and the grading of shoeing and trimming horses.**

The state of California requires schools to explain, in detail, what the above paragraph means to the students and provide examples.

Students will be taught equine anatomy. At the end of the anatomy discussions there will be an anatomy exam, which may be taken verbally or written, whichever the student prefers. The Bureau for Private Postsecondary Education requires I present you, the reader with examples because you may not understand the concept of losing points for wrong answers. So, if the student gets the answer correct then he/she is awarded points for that question. However, if the student gets the answer incorrect then he/she is not awarded points for that question! Your feelings are not a consideration when evaluating your answer. If you got it wrong, you lose points. Every question has points awarded for the correct answer. All points awarded for correct answers are added up and the student is given the total points awarded for all the correct answers given. If, for example the student is awarded 82 points, for correct answers, then he/she would be told, by returning the test to the student and the awarded points written in red (most of the time but sometimes in may be in orange or pink depending upon the writing instruments available to the test proctor. In fact, it could even be in pencil or ink), on the cover sheet, that they have 82 points toward graduation. The student will not be awarded 81 points or 83 points. The student will not be awarded more than 82 points nor will the student be awarded less than 82 points. The student will be awarded the actual points they received from correct answers.

If the student is awarded 95 points, for correct answers, then he/she would be told that they have 95 points, for correct answers, then he/she would be told, by returning the test to the student and the awarded points written in red (most of the time but sometimes in may be in orange or pink depending upon the writing instruments available to the test proctor. In fact, it could even be in pencil or ink), on the cover sheet, that they have 95 points toward graduation. The student will not be awarded 96 points or 94 points. The student will not be awarded more than 95 points nor will the student be awarded less than 95 points. The student will be awarded the actual points they received from correct answers that they have 95 points toward graduation. The test will be returned to the student so they may review the material and ask any questions.

Students will be taught **equine conformation**. At the end of the conformation discussions there will be a conformation exam, which may be taken verbally or written, whichever the student prefers. correct answer.

WARNING! Students may actually be asked questions. They may have to think and draw conclusions based upon the training they receive. If they provide the wrong answer the staff will actually tell the student that they are not correct! They will not be rewarded for wrong answers! A discussion will explain where the thinking was flawed and why their answer was wrong!

The grading of forged horseshoes will be based upon a criteria of five categories, nail, appearance, outline, level and modification for a maximum of 10 pints for each shoe graded. Nails: the forepunch and pritchel holes must fit a Liberty 5 combo nail that is assigned to students. The score for nails will be based upon the size of the nail head and nail shank that the student produces on that shoe. Too large of a hole makes the nail sloppy and leads to lost horseshoes. Nail hole too small will make it impossible for the nail head to seat properly in the shoe. The maximum points for nails is 10. Appearance will be graded based upon the physical appearance of the horseshoe. Shoes left in the forge too long will oxidate and produce slag. The excessive slag will reduce the points awarded for appearance. Excessive hammer marks will reduce the score on appearance. The maximum points for

appearance is 10. Outline is based upon either a symmetrical shape, front or hind pattern, or based upon a specific foot or foot template provided to the student. If the outline of the shoe turned in does not meet the outline of the foot, template or not symmetrical points will be deducted from the maximum total of 10 awarded for outline. Level is based upon how level the shoe is that is turned in for grade. The more out of level the shoe is the less points the student will receive. The maximum points for level is 10. Modification is based upon the modification assigned to that horseshoe for that week. For example, the shoes for the week may require side clips or quarter clips. Modification is the score assigned for the modification required. A maximum of 10 points is awarded for modifications. All shoes will be graded on a score sheet that the student has in his/her grade shoe box located in the forge area. The student will be able to see the scores assigned for each of the five categories. The points awarded for that shoe will be the lowest score on the five categories. Example, if the student is assigned an 8 for nails, an 8.5 for appearance, an 8 for outline, a 7.5 for level and an 8.5 for modifications then the student will be awarded 7.5 points toward graduation.

On week 1 the student will turn in one plain stamped, front pattern shoe with six nail holes and one hind pattern shoe, plain stamped, with six nail holes for grade based upon the above criteria. One week 2 the student will turn in one front pattern shoe, plain stamped, six nail holes with a rocker toe and one hind pattern, plain stamped, six nail hole shoe with heels cut with a heel cut hardy and a synthetic pad attached. These shoes will be graded by the criteria listed. On week three the student will be required to turn in on front pattern, plain stamped, six nail hole shoe with side clips and one hind pattern, plain stamped, six nail hole shoe with quarter clips. The shoes will be graded on the above criteria. On week 4 the student is required to turn in a front pattern, plain stamped, six nail-hole, forge welded egg bar shoe and a hind pattern, plain stamped, six nail hole shoe with a square toe and a trailer, with quarter clips. The shoes will be graded on the above criteria. On week 5 the student is required to turn in on front pattern, plain stamped, six nail-hole, straight bar shoe, forge welded and a hind pattern, plain stamped, six nail hole egg bar shoe that is brazed. The shoes will be graded on the above criteria. On week 6 the student will be required to turn in a front pattern, plain stamped, six nail hole shoe with borium and a hind pattern, plain stamped, six nail hole lateral heel extension shoe. Shoes will be graded on the above criteria. On week 7 the student is required to turn in a front pattern, plain stamped, six nail hole aluminum shoe with a toe clip and a hind pattern, plain stamped, six nail hole slider. On week 8 the student will have to make two shoes for the final exam forge. The shoes will be worth 100 points each and graded on the above criteria. The student will make a front pattern, plain stamped, six nail hole, bar shoe of their choice that must fit a front foot (provided) and a hind pattern, plain stamped, six nail hole square toe with quarter clips shoe. The trimming and shoeing of horses will be graded using twenty-two categories with a value of 10 for each category. The categories are hoof angle, hoof length, the lateral medial balance of the hoof, level, how the sole is knifed, how the frog is knife, how the dishes and flares of the hoof are addressed, how level the shoe is, how well the shoe is forged, how well the shoe fits the foot, if there is sole pressure, how much wall/shoe contact, if the shoe fits the foot once nailed on, the shoe position on the foot once the shoe is nailed on, the expansion of the shoe in the heel area once the shoe is nailed on, the heel length once the shoe is nailed on, the height of the nails, the alignment of the clinches, both lateral and medial, the quality and uniformity of the clinch, the finish of the clinch and the overall presentation of the foot. Each one of these categories are assigned a score from 0 to 9. All the categories are added together and then divided by 220 (maximum points) to give a percentage score. That percentage score is added to the points awarded the student. The top three scores will be given for the overall shoeing points awarded. Students will receive a copy of the grade sheet for review.

(9) A description of the facilities and of the types of equipment and materials that will be used for instruction; The facility consists of a forge and shoeing area, an office and a classroom. The forge area is equipped with forges, anvils and stands. Each student is assigned a set of hand tools for the duration of the program. All hand tools must be turned in at the end of their program. The classroom has desk and chairs.

(10) A description of library and other learning resources and the procedures for student access to those resources; The BBPE requires that the school include a detailed list of all videos, books, magazines, CD's, articles and research papers and their value and the lost or damaged video fees, lost or damaged book fees, lost or damaged CD fees, lost and damaged magazine fees, lost or damaged articles and research papers in the

enrollment agreement and catalog. Articles and research papers constantly change as well as in influx of books, CD's and magazines to the school. Because of the ever-growing addition to this resource, making and monitoring a detailed list becomes unmanageable and financially not viable. Prior to this requirement this institution had available to all students over 40 years of the American Farrier's Journal magazine, 30 years of the Professional farrier magazine, 30 years of the Anvil magazine, over 120 books on horseshoeing, equine lameness, equine conformation, over 100 CD's and VCR's that were trade specific, equine anatomy plus hundreds of research papers and articles. Because of the enormity of the items and the complexity of listing all items on the enrollment agreement and catalog and their replacement cost, the school has removed all books, magazines, videos and CD's and closed the library. Students will no longer have access to these educational items. Because of the BPPE's draconian requirements, this institution does not allow students access to this information any more. The school "library" consists of anatomical displays and samples of horseshoes which students may access, in the classroom, from the hours of 8Am to 5PM, Monday through Friday, during their course of instruction.

(11) If the institution offers distance education, the approximate number of days that will elapse between the institution's receipt of student lessons, projects, or dissertations and the institution's mailing of its response or evaluation. **This institution does not offer distance education.**

(12) A description of all student services; **None**

(13) Housing information including all of the following:

(A) Whether the institution has dormitory facilities under its control; **The dormitory is owned and under the control of Ms. Dorothy Stiegler who is not an employee of the school.**

(B) The availability of housing located reasonably near the institution's facilities and an estimation of the approximate cost or range of cost of the housing; **the housing is walking distance to the school at a cost of \$560 for the program.** and

(C) If the institution has no responsibility to find or assist a student in finding housing, clear and conspicuous statement so indicating. A statement that the program is "nonresidential" does not satisfy this subparagraph. **This institution has no responsibility to find or assist a student in finding housing outside of what is available through Ms. Dorothy Stiegler. This institution is located in a very rural area where rental houses, motels and apartments do not exist.**

(a) As a condition of doing business in this state, each postsecondary educational institution governed by Chapter

7 (commencing with Section 94700), and each organization that administers educational testing for use in the admissions process by any public or private postsecondary educational institution, shall, in administering any test or examination, permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed.

(b) This requirement shall not apply in the event that impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship that could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution.

94367. (a) No private postsecondary educational institution shall make or enforce a rule subjecting a student to disciplinary sanctions solely on the basis of conduct that is speech or other communication that, when engaged in outside the campus or facility of a private postsecondary institution, is protected from governmental restriction by the First Amendment to the United States Constitution or Section 2 of Article I of the California Constitution.

(b) A student enrolled in a private postsecondary institution at the time that the institution has made or enforced any rule in violation of subdivision (a) may commence a civil action to obtain appropriate injunctive and declaratory relief as determined by the court. Upon motion, a court may award attorney's fees to a prevailing plaintiff in a civil action pursuant to this section.

(c) This section does not apply to a private postsecondary educational institution that is controlled by a religious organization, to the extent that the application of this section would not be consistent with the religious tenets of the organization.

(d) This section does not authorize the prior restraint of student speech.

(e) This section does not prohibit the imposition of discipline for harassment, threats, or intimidation, unless constitutionally protected.

(f) This section does not prohibit an institution from adopting rules and regulations that are designed to prevent hate violence, as defined in subdivision (a) of Section 4 of Chapter 1363 of the Statutes of 1992, from being directed at students in a manner that denies them their full participation in the educational process, so long as the rules and regulations conform to standards established by the First Amendment to the United States Constitution and Section 2 of Article I of the California Constitution for citizens generally.

(c) This section shall become operative on January 1, 1997. The institutions refund policy is a pro-rata refund to the 60% point of the program. including the procedure for addressing student grievances; Students are to air their grievances to Bob Smith, CEO, either orally or written between the hours of 8 am to 5 pm Monday through Thursday and Friday between the hours of 8am and 4 pm. (15) Policies on the retention of student records.

94900. (a) An institution shall maintain records of the name, address, e-mail address, and telephone number of each student who is enrolled in an educational program in that institution.

(b) An institution shall maintain, for each student granted a degree or certificate by that institution, permanent records of all of the following:

(1) The degree or certificate granted and the date on which that degree or certificate was granted.

(2) The courses and units on which the certificate or degree was based.

(3) The grades earned by the student in each of those courses. 94900.5. An institution shall maintain, for a period of not less than five years, at its principal place of business in this state, complete and accurate records of all of the following information:

(a) The educational programs offered by the institution and the curriculum for each.

(b) The names and addresses of the members of the institution's faculty and records of the educational qualifications of each member of the faculty.

(c) Any other records required to be maintained by this chapter, including, but not limited to, records maintained pursuant to Article 6 (commencing with Section 94928).

71705. Mission and Objectives.

An institution shall have a written statement of its mission and the objectives for each educational program. There is only one educational program, Horseshoeing. The mission statement is to teach people to trim and shoe horses. The mission and the objectives shall indicate the kind of education offered, Education is hands on education in the trimming of horses feet, the making of horseshoes and their application.

71770. Admissions Standards and Transferred Credits Policy.

(a) The institution shall establish specific written standards for student admissions for each educational program. These standards shall be related to the particular educational program. An institution shall not admit any student who is obviously unqualified or who does not appear to have a reasonable prospect of completing the program. In addition to any specific standards for an educational program, the admissions standards must specify as applicable that:

(1) Each student admitted to an undergraduate degree program, or a diploma program, shall possess a high school diploma or its equivalent, or otherwise successfully take and pass the relevant examination as required by section 94904 of the Code. **This institution does not offer an undergraduate degree program, or a diploma program therefore this institution does not require a high school diploma or its equivalent or require potential students of take and pass the relevant examination as required by section 94904 of the Code.**

(2) Each student admitted into a post-baccalaureate degree program shall possess a bachelor's degree or its equivalent. If a graduate program leads to a profession or an occupation requiring state licensure and the licensing agency does not require that a member of the profession or occupation possess a Bachelor's degree or its equivalent, this subdivision does not apply. **This institution does not offer a post-baccalaureate degree program therefore the prospective student does not have to possess a bachelor's degree or its equivalent. This institution does not have a program that leads to a profession or an occupation requiring state licensure and therefore there is no licensing agency that has educational requirements for the prospective student.**

(b) The institution shall specify the maximum credit it will transfer from another institution for each educational program, and the basis upon which the transferred credit will be awarded. **This institution offers 0 credits that it will transfer from another institution for its program, horseshoeing, therefore there is no basis required for the transfer of the 0 credits. This institution does not accept credits earned at another institution and does not allow students to challenge any examinations or achievement test.**

(1) Except as limited by subdivision (c) of this section, a maximum of 75 percent of the units or credit that may be applied toward the award of a bachelor's degree may be derived from a combination of any or both of the following: **This institution does not offer a bachelor's degree.**

(A) Units earned at institutions approved by the Bureau, public or private institutions of higher learning accredited by an accrediting association recognized by the U. S. Department of Education, or any institution of higher learning, including foreign institutions, if the institution offering the undergraduate program documents that the institution of higher learning at which the units were earned offers degree programs equivalent to degree programs approved by the Bureau or accredited by an accrediting association recognized by the U.S. Department of Education; **Before credit earned at other institutions is accepted at this institution the students will have to have successfully passed the American Farriers Association's Certification examination, This institution does not allow students to challenge any examinations or achievement test. No fees**

(B) Challenge examinations and standardized tests such as the College Level Placement Tests (CLEP) for specific academic disciplines. **Before credit earned at other institutions is accepted at this institution the students will have to have successfully passed the American Farriers Association's Certification examination, This institution does not allow students to challenge any examinations or achievement test. No fees**

(2) No more than 20% of graduate semester units or the equivalent in other units awarded by another institution may be transferred for credit toward a Master's degree. An institution may accept transfer credits only from the institutions of higher learning described in subsection (1)(A). **Before credit earned at other institutions is accepted at this institution the students will have to have successfully passed the American Farriers Association's Certification examination, This institution does not allow students to challenge any examinations or achievement test. No fees**

(3) No more than 30 graduate semester credits or its equivalent awarded by another institution may be credited toward a doctoral degree. This subdivision does not apply to graduate programs that lead to a profession or an occupation requiring state licensure where the licensing agency has a regulation permitting a different standard.

(c) If credit for prior experiential learning is to be granted, the policy for granting such credit shall be included in

the institution's catalog. Before credit earned at other institutions is accepted at this institution the students will have to have successfully passed the American Farriers Association's Certification examination, This institution does not allow students to challenge any examinations or achievement test. Sorry you had to read all the garbage that has nothing to do with my school.

By the way, in case you missed this:

NOTE: ALL (100%)GRADUATES ARE SELF-EMPLOYED!

THERE IS NO PLACEMENT.

THERE ARE NO JOBS.

YOU WILL HAVE TO DEVELOP YOUR OWN CLIENTELE.

Traits of the self-employed

The point of this disclosure is to make you aware of how you have to readjust your thinking to make the transition from employee to self-employed business owner. Every one of the traits I've listed here is an attitude or behavior that can be learned, and when it comes to being self-employed, awareness is more than half the battle.

1. Self-discipline. Entering into the horseshoeing profession will not afford you overnight success. It takes hard work, patience, self-discipline and self-confidence. It may take years to build a successful client base that provides the income needed to buy a house and support a family.

Self-discipline is required in large doses. Every minute of every day requires that you exhibit qualities that are not necessary if you are an employee.

2. Self confidence requires that you be prepared for failures and setbacks particularly in the first couple of years. If failure is a roadblock the freezes you and creates a negative environment that haunts you all day and into the next, you will have problems.

For many ex-employees who are used to having a paycheck arrive regularly every two weeks, the uncertainty of being self-employed is very difficult to deal with.

3. You have to be a self-motivated initiator.

When you're an employee, other people tell you what to do, either directly or indirectly. You get used to having your actions directed by others. But you have to direct your own actions as a small business owner. You can't just sit there and hope that maybe some clients will call. No one's going to point out what needs to be done.

4. Consistent effort.

We've all seen employees who are just going through the motions, or who were just "putting in the time" until their shift is over and retirement arrives. You don't need to work there to know who these people are. As a customer or client you can tell, too. As an employee, you may be used to operating in a "head-down" position; if you're going to start a business and become successfully self-employed, you need to start operating in the "head-up" position.

You can't afford to just coast along, or go through the motions, if you're running a business. Your customer and/or clients need to know that you are devoting 100 percent of your talent or skill or attention to **them** - and will go elsewhere if they don't feel this is the case.

5. Dedication and sacrifice

You need to deliver this constant and consistent effort without the employee safety net. Many employees are used to being able to "call in sick" and have someone else cover their job, for instance. As a self-employed business owner, you'll have to go in and give it your best effort no matter how you feel.

You can also say goodbye to the holidays that many employees enjoy, both the annual x number of weeks and the statutory holidays, at least until your business is established to the point that you can manage your own time.

Many employees are used to having days filled with predictable activities; self-employed people don't.

6. Decision Making

And once you start a business, there's nowhere to pass the buck. As an employee, you may be used to passing problems up along the food chain or not be very involved in decision making. As a self-employed business owner, you're the one who will have to deal with whatever the crisis is and solve the problem. You're the one who will have to make the decisions.

The two biggest obstacles to successful self-employment are:

- 1. You and your failure to embrace these traits.**
- 2. Some government agency local, state and/or federal**

SELF-EMPLOYMENT DISCLOSURE STATEMENT

I understand that if I elect to pursue horseshoeing for money I will be totally self-employed. There are no employers. There are no jobs.

I understand that Pacific Coast Horseshoeing School has made no claims as to income or to length of time it will take me to derive income from shoeing horses.

I understand that being self-employed carries inherent risks concerning income. Factors that will affect my ability to derive income are, but not limited to: the number of horses in the area I have selected to work, the number of farriers in that area, the price paid to farriers in that area, the number of months I can work outdoors (length of winter, general weather, etc.), and how hard I am willing to work at developing a clientele.

I further understand that as a self-employed farrier it will take time (sometimes years) for me to generate the clientele necessary for me to approach full time work (32 or more hours per week). Factors include those listed in the paragraph above.

I understand that my physical health will have a direct effect upon income. I know that being self-employed means there is no 'sick leave' or other benefits to help me financially when, or if I become injured or sick, unless I specifically provide for them myself (i.e. private medical and disability insurance).

I further state that I am capable of making decisions concerning my own life without government oversight or interference.

I understand that it will be extremely unlikely I will be shoeing horses 32 hours per week within six months of graduation.

As a Horseshoer you will be self-employed.

Private sector businesses sell either a product or a service. They take the money they receive from their customers and pay salaries, run their business and expand if they are successful. As a horseshoer you will provide a service for payment and the money you receive will be directly related how well you provide a necessary service. Your clients will voluntarily pay if your services are professional and needed.

Government, however, produces nothing. To pay employees and expand, Government must use force and the threat of violence to steal money from those that work in the private sector.

Before a Federal, State, County or City employee receives a paycheck the government has to, under the threat of violence, steal money from hard working Americans.

After only 20 years of work and contributing very little to their own retirement fund, this same government employee demands that the public support them with a paycheck and benefits for LIFE! To do this the government has to confiscate more money from hard working Americans.

After 20 years of shoeing and not investing in your own retirement you will not be able to threaten your clients and steal their money so you can be paid even though you no longer shoe their horses. You will go to prison.

As Government grows larger and larger, this unfunded liability is carried by the working, men and women of American, which will be you.

I understand the basic economic principle that to support Government spending and growth I must make more money every year. That the money I make working hard is not entirely mine to do with as I feel is necessary to provide for my family and myself.

100% of all graduates of this program since 1991 have been self-employed.

This program will result in **100% of graduates** pursuing work in self-employment.

This type of work may not be consistent.

The period of employment can range from one hour to several hours.

Hours worked in a day or week may be more or less than the traditional 8-hour workday or 40-hour workweek.

You can expect to spend unpaid time expanding your networks, advertising, promoting your services, or honing your skills.

If you decide to attend Pacific Coast Horseshoeing School and if you desire to obtain income as a horseshoer, the following will apply

8. You will be 100% self-employed.
9. You will not derive any income unless you develop a clientele in your area.
10. The number of hours a day you work, or if you work, is totally dependent upon you.
11. There will be no (zero) placement opportunities provided by this school.
12. There will be no promise, spoken or implied, about the income you will make from shoeing horses, particularly within six months of graduation.
13. There are **no** employers that hire a horseshoer right out of an eight-week school.
14. Your income is 100% dependent upon your work ethic, the area you have chosen to live and work, the number of horses in that area, your physical condition and health, your desire to work hard, the personal pride you show in your business and work, the weather and many more considerations too numerous to list.
