History

Dolphin Trucking School was founded in October of 1999 by Lincoln and Carla Galvez. Together, they noticed the great need for professional Class “A” Commercial drivers. Lincoln knew that with his experience as an over-the-road truck driver and instructor he would be able to better prepare individuals for the trucking industry in the United States; Carla noticed a need for more helpful service toward students in the trucking industry. She knew that she could provide individuals with the best service possible in Southern California.

It all started with a dream and a truck, as the school has grown over the years, new vehicles and training programs have been added to the school. With a convenient school location it is simple for aspiring commercial drivers to train for their license.

Dolphin Trucking School, Inc. Is a family owned and operated business that strives to educate individuals for the Class “A” Commercial and Class “B” Commercial license, so that they may better their future and achieve their dreams. For this reason the school has different modalities of payment and very economic prices, so that all may be able to be a part of the growing transportation industry. The trucking school works with unemployment offices to train individuals for their Class “A” or Class “B” Commercial License. The school’s training and lifetime job placement assistance program guarantee the success of its graduates in the transportation industry.

Language Proficiency

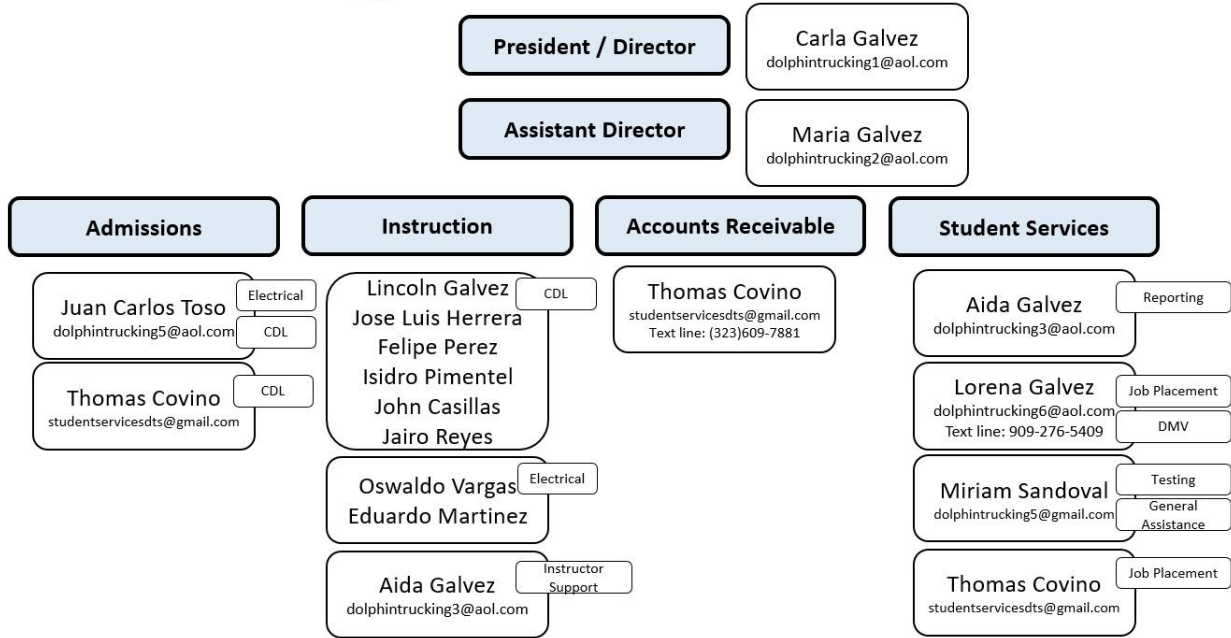

Dolphin does not provide English as a second language (ESL) instruction for the CDL courses. A person must be able to read road signs and minimally communicate in English to train at Dolphin for the Commercial Driver’s License Courses.

The Electrical Wiring Technician program may also be taught in Spanish. The school has contracted an instructor who is sufficiently qualified to teach the course in English and Spanish. To take the course in Spanish, a participant must have a Professional Working Proficiency in the Spanish language so they could benefit from the instruction.

Student Protection Policies/ Student Tuition Recovery

76215. Student Tuition Recovery Fund Disclosures

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, CA 95834, (916)574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Placement Assistance

Job Placement Services: include resume preparation, career development classes, and job leads.

- If you fail to attend a minimum of 2 job interviews/appointments, the school will stop providing placement services due to lack of participation.

Although the school does provide Job placement assistance, it cannot guarantee placement or level of income or wages. Students are encouraged to attend recruiter presentations when they become available.

Recruiter presentations: Recruitment orientations will be announced in advance on our website and notices. These presentations will give students/graduates the opportunity to get company information and speak to the company recruiters.

Job Fairs: The school invites companies that hire school graduates. Everyone, including current students and graduates, is encouraged to attend. These presentations will give students/graduates the opportunity to get company information and speak to the company recruiters.

Please note that the school will request job information from all graduates. The information is used to complete the school's performance fact sheets, and is only provided to the BPPE upon request. The information will also be provided to any 3rd party funders who have paid for one's course.
