Revised August 31, 2021

Intentionally Left Blank

Letter from the Provost

August 2021

I am proud to say that in spite of a worldwide pandemic and all of the many challenges of operating a brand new graduate school we have done it. **We are doing it.**

It has been three years since we opened our doors to parents, educators and community leaders with a mission to:
“Celebrate the transformative power of strengths, interests, and talents”, to advance the quality and equity of education, to support extraordinary diversity in human learning, to cultivate knowledge and diverse world views and to assume leadership roles.”

We are doing it.

In 2018 we were licenced by the State of California and began with a beta group of students.

In 2019 we enrolled 37 students in our first ever Summer residency and began our program.

In 2020 we enrolled 21 new students as our second summer residency went online in the first year of the global pandemic, and we awarded 32 certificates in Twice Exceptional Education.

In 2021 we enrolled an additional 26 students, awarded an additional 14 certificates in Twice Exceptional Education and we awarded 11 Master of Education degrees. **We are doing it.**

In 2022 we will graduate with more certificates and more Master of Education Degrees and we will graduate our first ever cohort of Doctors of Education.

If you are one of us: a student, a staff member or a faculty member you already know how immensely proud we are of the work that you and we are doing. If you are considering joining the Bridges Graduate School I would encourage you to read through this catalog. Learn about our program, our learning community and our philosophy of education. Read about our mission and vision. And then if you would like to celebrate strengths and talents, advance education, support diversity and cultivate knowledge to assume leadership talk to us.

We are doing it!

Susan Baum

Dec		December Break	

I. Bridges Graduate School of Cognitive Diversity in Education

Bridges Graduate School is a private institution approved to operate by the Bureau of Private Postsecondary Education in the State of California. This approval means compliance with California State Standards CEC and 5, CCR. Most of the classes and instruction is conducted online. Summer residency programs and some classes are held at our campus at 3921 Laurel Canyon Blvd., Studio City, California 91604.

A. Mission of the Bridges Graduate School

“Celebrating the transformative power of strengths, interests, and talents”

The mission of the Bridges Graduate School of Cognitive Diversity in Education is to advance the quality and equity of education for all. We promote and support the extraordinary diversity in human learning, educating students, parents, educators, and field leaders by promoting strengths and talents, and we unlock individual potential through our graduate programs. To achieve these ends, we cultivate knowledge of diverse worldviews and perspectives, as well as the skills, insights, and imagination required of scholars who will assume leadership roles as instructional leaders, researchers, administrators, and policymakers.

B. Vision Statement of the Bridges Graduate School

The Graduate School inspires and cultivates innovative leaders of positive change. The program will empower leaders to build nurturing educational environments and effective systems of support. Our graduates will also be well-prepared to use leadership and learning to enhance equity and quality of life for all.

C. Goals and Outcomes

To achieve the mission and vision of the Bridges Graduate of Cognitive Diversity in Education, the following goals and outcomes are offered:

Goal 1. Mastery of Content

This goal embraces the breadth and depth of ideas, theories, approaches, and information that graduate students will encounter through and beyond their studies.

Outcomes: Graduates will demonstrate and be able to apply:

- general knowledge of cognitive diversity and strength-based, talent-focused philosophical approach to support growth and development of persons who learn differently.
- specialized knowledge and skills from within a specific discipline or field.

Goal 2. Intellectual and Creative Skills

Graduates of The Bridges Graduate School programs will be expected to develop the ability to think critically and imaginatively, formulate their own understanding, and effectively communicate their ideas. This goal articulates specific skills that comprise these broader abilities.

Outcomes: Graduates will be able to

- systematically access, analyze, and evaluate information and ideas from multiple sources in order to identify underlying assumptions, and formulate conclusions.
- use appropriate methodologies to solve quantitative and qualitative problems.
- create and support arguments using a variety of approaches.
- use existing knowledge to generate and synthesize ideas in original ways.
- communicate clearly in speech and writing.

Goal 3. Personal and Social Responsibility

This goal supports the Mission and Vision of The Bridges Graduate School because it is the expectation that graduates will embrace the philosophy of social responsibility to advance the strength-based, talent-focused philosophy embedded within course work and requirements.

Outcomes: Graduates will be able to:

- articulate their own beliefs and convictions, as well as others' beliefs, about what it means to be human and to create a just society.
- articulate what is entailed in becoming a self-directed, ethical decision-maker and living a life of personal integrity in terms of valuing what others can do as opposed to focusing on deficits.
- use multiple perspectives to consider ethical issues and resulting actions.
- take leadership roles in advocating for tolerance and respect within professional communities.

Goal 4. Cultivation of Emotional Intelligence

The Bridges Graduate School is committed to the idea that emotional intelligence undergirds an individual's ability to lead a successful and satisfying life. This goal implies that through the coursework and experiences with faculty and cohort members, the graduates of this institution will become: self-aware; develop empathy; be able to regulate emotionally; demonstrate self-motivation and be able to manage relationships.

Outcomes: The Bridges Graduate will:

- understand themselves, their strengths, talents, and interests and use this knowledge to make personal and professional decisions.
- be sensitive to the needs and situations of others.
- be resilient and use problem-solving strategies to confront emotionally charged issues, problems, or events within their personal and professional lives.
- be lifelong learners and willing to embark upon creative pursuits to make a difference in the world.
- use their personal skills to develop healthy professional and personal relationships.

D. Our Programs - Method of Instruction & Standards

The three programs offered by The Bridges Graduate School of Cognitive Diversity in Education take place primarily online with required summer residencies with in-person classes. All program goals, objectives, and learning outcomes are aligned to either California Professional Standards for Educational Leaders (CPSEL) or the Council for Exceptional Children (CEC) Professional Standards in Special Education or Education of the Gifted and Talented. These alignments are shown in each course syllabi.

Course Hour Calculations:

This is a hybrid program in which instruction is provided in real-time by a professor who is present online via video conferencing tools with the students in remote locations. One semester credit requires 15 hours of interaction and instructor contact. A three-credit online course will occur over 10 modules of 4.5 hours each, for a total of 45 hours. This occurs through interactions with the instructor and colleagues each week on the class discussion board and through feedback on assignments. It is expected that students will spend an additional nine to ten hours a week reading and reviewing content, preparing thoughtful postings, responses, and completing a variety of performance tasks and other assignments equaling 90 additional hours.

[Link to the complete Credit Hours Policy](#)

Practicum

All graduate students will participate in a 3-credit, 135-hour practicum experience which will include an on-campus or similar experience where they will work with twice-exceptional individuals. Different program requirements for the certificate and two degree levels are stated in the course descriptions for the individual programs.

Internship

All doctoral students are expected to engage in an internship experience. The internship will be a minimum of 3 credits and a maximum of 9 credits, depending on the goals set by the doctoral candidate. One credit requires 45 hours of work.

Internship experiences are designed by students after they receive their Certificate in Twice Exceptional Education and attend an internship workshop overview given once a semester. Students discuss their goals and a concentration area in which they are developing expertise with their academic advisor. Together they discuss possibilities and available opportunities.

Residency

Research has shown that a residency program has many positive outcomes in Graduate Education. Mainly:

- To have the chance to bond with classmates in a real-life setting.

- To participate in classroom activities such as hands-on labs and other group work that cannot be replicated online.
- To provide time for face-to-face networking with professors and department faculty.

These benefits align to the Mission, Vision, and Goals for our School and those of the Individual programs. These in-person experiences are an integral part of the BGS experience.

Residency requires that students attend a two week summer residency for one of more summers depending on their individual program. Attendance is defined as in-person participation for all sessions of a class.

Far different from the rest of our online program, which does not have the same synchronous requirement, residency is about being together in the learning community and participating in live class activities for the required number of class hours where you are working under the guidance of your professor. Some of this time may be spent listening to a lecture, engaging in class discussions, participating in breakout rooms in small groups, meeting with others and working on learning tasks.

In-person classes occur through summer residencies that take place on the campus of Bridges Academy, a school for twice-exceptional students.

- Certificate students complete their two-week residency at the end of Year 1.
- Masters of Education degree students complete their two required two-week residencies at the end of Years 1 and 2.
- Doctor of Education students are expected to attend three two-week residencies, each at the beginning of Years 1, 2, and 3.

Course work for these residencies is described in the program description sections.

Highly Qualified Faculty

Highly qualified faculty teach courses, direct internships, and oversee practica and research projects. They also serve as advisors based on a match between their areas of expertise and the graduate students' interests and goals for their programs. These faculty members come from a variety of institutions and represent expertise in one or more of the areas of study described in the course descriptions. Details about the faculty can be found in the Faculty and Staff section of the catalog.

Kinds of Educational Experiences

All of the programs offered at Bridges Graduate School provide varied learning experiences from theoretical foundations to opportunities for authentic opportunities to convert theory to practice. All three programs require a practicum. The two degree programs not only have traditional classes but also have carefully planned seminars with visits by expert practitioners and scholars in the field. Doctoral candidates will participate in self-designed internship programs to enhance their knowledge and skills for real-world use. Students in both degree programs are required to engage in an inquiry project following courses in research design and methodology.

Capstone Project: Masters level

All candidates for the M.Ed. program must complete a final project, which consists of completing an action research study designed and approved in their research course. A full description is found in the M.Ed. program description.

Comprehensive Exam

Students enrolled in the Doctoral Program will need to take comprehensive exams before they can submit their proposal for their Problem of Practice Dissertation and apply for candidacy. A description of the Comprehensive Exam process is found in the Ed.D. Program description.

Capstone Project: Doctoral level

All doctoral students must complete a final Capstone Project which is a problem of practice relating to the interest area of the candidate. Students will submit a proposal for their project upon completion of the comprehensive exams. A full description of the Capstone Project is found in the Ed.D Program description.

Time Limits

There are time limits for each program.

1. Certificate in Twice-Exceptional Education must be completed in two years from the date of the completion of the first course.
2. Masters in Education (M.Ed.) in Cognitive Diversity must be completed in four years from the date of completion of the first class.
3. Doctorate in Education in Cognitive Diversity (Ed.D.) must be completed in six years from the date of completion of the first class.

Opportunities for Gainful Employment

Although Bridges Graduate school does not license or accredit individuals for specific or particular professions, an education in Cognitive Diversity will add helpful skills and knowledge to individuals desiring or already possessing jobs in the following United States Department of Labor Standard Occupational Classification codes. Some of these classification codes include:

25-1000 Post Secondary Educators

25-2000 Pre School

25-2020 Elementary, Middle School Teachers

25-2030 Secondary School Teachers

25-2050 Special Education Teacher

21-1010 Counselors

21-1020 Social Workers

Note: None of the three Bridges Graduate School programs prepare students for any license or certification.

E. Steps for Students to Complete Their Programs

- 1. Acceptance into the Graduate Program**
- 2. Completion of Plan of Study with approval from the advisor**
- 3. Application to Candidacy**

For the degree programs, graduate students must apply for candidacy after their proposals for their capstone projects are completed and they meet the following criteria:

Advancement to Candidacy represents the formulation of an official program of study for degree programs at Bridges Graduate School of Cognitive Diversity in Education. It is the process that establishes a student's rights and forms the basis of the degree audit when the student is ready to graduate. Please note that the phrase "Advancement to Candidacy" is used to refer to both the process of advancing to candidacy and to the form used for advancing to candidacy.

When to apply to Candidacy

While there is no specific deadline to advance to candidacy, it is important to advance to candidacy as soon as you are eligible. Advancement to candidacy is a prerequisite for enrollment in certain advanced courses and must occur at least one semester prior to the semester in which you will graduate. Students must meet the following requirements before they may submit the Advancement to Candidacy Form:

1. Have an approved Plan of Study (form) with dates of course completion up to the date of candidacy submission. Changes in the plan can be made with the approval and signature of your advisor.
2. Resolve incomplete grades, if applicable.
3. Maintain a minimum 3.0 cumulative and program grade point average, with no course receiving a less than B- grade.
4. Complete program prerequisites (acceptance of Capstone Proposal; defense off comprehensive exams) and any other program requirements for advancement to candidacy.

What are the steps to Advance to Candidacy?

1. Access the online version of the Advancement to Candidacy form for your program (link to form can be found in the catalog).
2. Complete all information:
 - a. Name, student ID number, phone number, and email.
 - b. Semester/year you started the program.
 - c. Semester/year you are submitting the Advancement to Candidacy Form.
3. Take the completed form to your program advisor and obtain his or her signature.
4. Submit the signed form to the Dean.

5. The Dean's Office will review your Advancement to Candidacy, contact you and/or your advisor for any clarifications, and obtain the Associate Dean's signature.
6. The Dean's Office will file the official Advancement to Candidacy document to be used to verify the completion of your degree.
7. A copy of the signed Advancement to Candidacy will be emailed to you.

Filing for Graduation

All candidates must complete a Graduation Application form one semester before the graduation date and submit it to the Dean's Office. This form may be obtained from the registrar or the Dean an online version of this form is contained at the back of this catalog.

This page intentionally left blank.

II. Faculty & Staff

The Bridges Graduate School for Cognitive Diversity in Education has some of the world's most talented faculty and staff. Included are experts in their field of study and practice, authors, researchers, international speakers, and presenters with a wide variety of experience. Many of the faculty are visiting from other institutions of higher learning and have agreed to share their particular areas of expertise by teaching at Bridges. Their areas of expertise align to the content areas of our graduate programs that include special education, education of the gifted and talented, creativity and innovation, educational psychology (individual differences), clinical psychology, educational theory, leadership, policy development, curriculum, evaluation, and research methods and statistics.

Faculty for Bridges Graduate School

Armstrong,
Thomas Ph.D.

Degree from
The California
Institute of
Integral Studies

Thomas Armstrong, Ph.D. is the author of 19 books on learning and human development which have been translated into 28 languages, including *The Power of Neurodiversity*, *If Einstein Ran the Schools*, *Multiple Intelligences in the Classroom*, and *Neurodiversity in the Classroom*. He served as a learning disabilities specialist in public and parochial schools in the U.S. and Canada, as an educational consultant to several New York State public school districts, as an adjunct professor of courses on human development at five San Francisco Bay Area graduate schools, and as a keynote speaker and seminar leader to over 250,000 educators in more than 1000 presentations in 29 countries worldwide. He has written a dystopian novel entitled *Childless* (for which he is currently seeking an agent), and is working on a second novel--a screwball historical narrative--entitled *Buddhamitra's Saga*.

Areas of Expertise: Multiple intelligences, neurodiversity, the natural genius of kids, alternative paradigms and drug-free interventions for ADHD, psycho-spiritual approaches to human development, progressive school reform, adolescent brain development, and the educational applications of mindfulness practices in the classroom.

Affiliation: Adjunct Professor, Bridges Graduate School of Cognitive Diversity in Education, Studio City, CA

Baum, Susan M.
Ph.D.

Degree from the
University of
Connecticut

Professor
Emeritus from
College of New
Rochelle

Susan Baum, Ph.D. is co-director of the International Center for Talent Development and Director of the 2e Center for Research and Professional Development at Bridges Academy. Professor Emeritus from The College of New Rochelle, and an international consultant, Susan has published a multitude of books, chapters, and articles in the areas of twice-exceptional students, primary-aged gifted students, social and emotional factors affecting gifted students, and multiple intelligences. She served on the Board of Directors of the National Association for Gifted Children (NAGC) and is past president and co-founder of the Association for the Education of Gifted Underachieving Students (AEGUS). She is the recipient of the Weinfeld Group's Lifetime Achievement Award for her work in educating the twice-exceptional child.

Areas of Expertise: Special Education and Learning Disabilities, Education of the Gifted and Talented, Twice-Exceptional Education, Research Methodology, Creativity

Affiliation: Director, 2e Center for Research and Professional Development at Bridges Academy
Bridges Graduate School, Provost for Academics

Daniels, Susan,
Ph.D.

Professor
Emerita,
California State
University - San
Bernardino

Susan Daniels, Ph.D., is Associate Dean of Doctoral Programs at Bridges Graduate School of Cognitive Diversity. Professor Emerita of educational psychology at California State University - San Bernardino, Susan now teaches IEC 621: Foundations of Creativity and CAP 991: Directed Research Part 1: Proposal development at Bridges. She enjoys advising students in the doctoral program and supporting students in developing culminating capstone projects and applied dissertation research. Susan is also a Cofounder and Educational Director of the Summit Center, where she conducts strengths-based assessments of gifted, creative, and 2e youth. Further, Susan has written several articles, chapters, and books in the field. Her most recent book, co-authored with Dr. Dan Peters, is "Boosting Your Child's Natural Creativity" and will soon be released by Gifted Unlimited.

Areas of Expertise: Creativity, Educational Psychology, Gifted and 2e Youth, Program Development

Affiliation: Associate Dean, Bridges Graduate School of Cognitive Diversity in Education and Educational Director of the Summit Center

Dobyns, Sally,
Ph.D.

Degree from
University of
Connecticut

Sally M. Dobyns, Ph.D. is a nationally regarded educator in the field of gifted education and talent development. Prior to completing her doctoral degree in gifted education and talent development at the University of Connecticut in 1992, she was a classroom teacher in Kentucky and South Carolina. For 21 years, Dr. Dobyns served as Professor, Program Coordinator of the M. Ed. Program in Gifted Education, and Director of the Center for Gifted Education, and is noted for her contributions to teaching and learning on a variety of topics, including curriculum design, higher order thinking skills, differentiating curriculum and instruction, talent development, and other aspects of gifted education. She has served as a consultant to over 100 schools in the United States, Mexico, and South America.

Areas of Expertise: Curriculum, Education of the Gifted and Talented, Teacher training, Creativity

Affiliation: Adjunct faculty at SUNY at Buffalo State College
Retired professor, University of Louisiana at Lafayette

Housand, Brian,
Ph.D.

Degree from
University of
Connecticut

Dr. Brian Housand, is the coordinator of the Academically or Intellectually Gifted program at University of North Carolina Wilmington. Dr. Housand earned a Ph.D. in educational psychology at the University of Connecticut with an emphasis in both gifted education and instructional technology. He served two terms on the National Association for Gifted Children's Board of Directors as a Member-At-Large. Along with his wife Dr. Angela Housand and Dr. Joe Renzulli, he co-authored Using the Schoolwide Enrichment Model with Technology. He is also the author of Fighting Fake News! Teaching Critical Thinking and Media Literacy in a Digital Age. Brian has worked in education as a classroom teacher, a teacher of the gifted, and a university professor for over twenty years. As a speaker and consultant, he has presented in 40 states, Canada, Australia, South Korea, Kuwait, and Chile. Brian is a lover of technology, Star Wars, all things Disney, video games, and fonts. He proudly identifies himself as a geek. You can learn more on his website at brianhousand.com and by following him on Twitter @brianhousand

Areas of Expertise: Gifted and Talented Education, Instructional Technology, Creativity, Curiosity, Critical Thinking, and Media Literacy

Affiliation: University of North Carolina Wilmington

Kaufman, Scott
Barry, Ph.D.

Degree from Yale
University

Scott Barry Kaufman is an author, researcher, and speaker who is interested in using psychological science to help all kinds of minds live a creative, fulfilling, and meaningful life. Curious about the mind, brain, and behavior, Dr. Kaufman likes to share his enthusiasm for these topics through his teaching, writing, and podcasts. His writing has appeared in *The Atlantic*, *Scientific American*, *Psychology Today*, and *Harvard Business Review*. He contributes a regular column called “Beautiful Minds” to *Scientific American*, and hosts *The Psychology Today Podcast*. Named as one of “50 Groundbreaking Scientists who are changing the way we see the world” by *Business Insider*, his books include *Ungifted: Intelligence Redefined*, *The Complexity of Greatness: Beyond Talent or Practice*, *Wired to Create: Unraveling the Mysteries of the Creative Mind*, and, as editor, *Twice Exceptional: Supporting and Educating Bright and Creative Students with Learning Difficulties*.

Dr. Kaufman received a Ph.D. in cognitive psychology from Yale University, and an M. Phil in experimental psychology from the University of Cambridge under a Gates Cambridge Scholarship

Areas of Expertise: Creativity, Intelligence, Research

Lawson-Davis,
Joy Ed.D.

Degree from The
College of William
& Mary

I am a career educator focusing the last four decades on working to increase equity in gifted programs for underrepresented students, with a particular focus on culturally diverse students. I have served in multiple roles over my career including in higher education, State Agency, regional school for Gifted students. I have worked with school districts across the nation, and presented at conferences in Dubai, Istanbul, South Africa & the Caribbean.

2019 Special Populations Award (NAGC); 2019 Lifetime Achievement Award (SENG)

Areas of Expertise: Gifted Education Equity & Diversity; Thrice Exceptional students; Parent & Family advocacy

Affiliation: Bridges Graduate School; Johns Hopkins; Creating Positive Futures

Leppien, Jann,
Ph.D.

Degree from
University of
Connecticut

Jann Leppien, Ph.D. is an associate professor and the Margo Long Endowed Chair in Gifted Education at Whitworth University in Spokane, Washington. Whitworth's Center for Gifted Education supports and develops policies and practices that encourage the diverse expressions of gifts and talents in children and youth from all cultures, racial and ethnic backgrounds, and socioeconomic groups. Whitworth offers educators a specialty endorsement and a Master degree in gifted education. Dr. Leppien conducts professional staff training for educators in the areas of differentiated instruction, curriculum design, and assessment for advanced students, thinking skills, and gifted program development, both nationally and internationally. She has served on the board of the National Association for Gifted Children (NAGC), and currently serves on the board of the Association for the Education of Gifted Underachieving Students (AEGUS), the 2e Center for Research and Professional Development, NAGC's Diversity and Equity and Awards Committees, and Washington State's Gifted and Talented Advisory Board. She is the co-author of *The Multiple Menu Model: A Practical Guide for Developing Differentiated Curriculum* and *The Parallel Curriculum: A Design to Develop High Potential and Challenge High-Ability Students*.

Areas of Expertise: Curriculum, Differentiated Instruction, Leadership, Research and evaluation, Gifted and Talented, Underachievement, Twice-Exceptional Education

Affiliation: Whitworth University

Lim, Lin, Ph.D.

Degree from
Boston University

Lin Lim, Ph.D., holds a doctorate in psychology from Boston University, an Academic Graduate Certificate in Mind, Brain and Education (Johns Hopkins University Graduate School of Education), and an Academic Graduate Certificate in Twice-exceptional Education (Bridges Graduate School). Her parenting journey with her two profoundly gifted children, one neurodiverse and the other radically accelerated, drives her to create better understanding and nurturance for such children. She is a founding board member of two Texas non-profits, Gifted Education Family Network and Teaching Up. With a diverse academic background and wide experiences across fields, Dr. Lim is very interested in interdisciplinary embodied thinking and work around parenting, education, and human development.

Areas of Expertise: Embodied Cognition, Multi-systems Framework, Brain-targeted Teaching@ (BTT), Attitudes and Beliefs, Interdisciplinary Studies, Translational Neuroscience, Psycho-Linguistics, Parenting, Diversity

Affiliation: Bridges Graduate School - Associate Dean, Gifted Education Family Network (founding board member), Teaching Up (founding board member)

Olenchak, F.
Richard "Rick,"
Ph.D., P.C.

Degree from The
University of
Connecticut

F. Richard "Rick" Olenchak is Professor of Educational Psychology and Research Methodology, Professor of Gifted/Creative/Talented Education, and Professor of Higher Education at Purdue University. Previously, Rick was Associate Provost at the University of Houston and Chair of Special Education and then Teacher Education at the University of Alabama. Having taught grades 2-11, he served as P-12 Director of Talent Development Education in two school districts and as principal at elementary and middle schools, including a forerunning twice exceptional school. He also was a consulting psychologist for students whose talent is inhibited by socioeconomic, psychosocial, or other challenges.

Having served as President of the National Association for Gifted Children (NAGC), President of the International Future Problem Solving Program, President of the Association for the Education of Gifted Underachieving Students, he is a member emeritus of the Board of Directors of SENG (Supporting the Emotional Needs of the Gifted). Publications number over 100, including the award-winning books, *Social-Emotional Curriculum with Gifted* (2009) and *Misdiagnosis and Dual Diagnoses of Gifted Children and Adults* (2005 and 2016). Awards include: Distinguished Service from NAGC; John Gowan from NAGC; leadership from four states; Special Education from Mexico; Lily Endowment Teaching Fellow; and Leadership for Students with Talents and Disabilities from the University of Houston.

Areas of Expertise: Gifted, Creative, Talent Development Education; Twice Exceptional Education; Leadership Development; Educational Leadership; Psychosocial Development; Research Methodology

Affiliation: Purdue University Main Campus: Professor of Educational Psychology and Research Methodology, Professor of Gifted/Creative/Talented Education, and Professor of Higher Education

Peters, Dan,
Ph.D.

Degree from
Pacific Graduate
School of
Psychology

Dr. Dan Peters, a licensed psychologist, is Co-founder and Executive Director of the Summit Center, specializing in the assessment and treatment of children, adolescents, and families. Dr. Peters is author of *Make Your Worrier a Warrior: A Guide to Conquering Your Child's Fears* and *From Worrier to Warrior: A Guide to Conquering Your Fears*. He is also co-author of *Raising Creative Kids* and writes for the *Huffington Post* and *Psychology Today*. He is also Co-Founder of *Parent Footprint*, an on-line interactive parent training community.

Areas of Expertise: Assessment and treatment of children with stress and anxiety, Twice-Exceptional Education, Social and Emotional Needs of Gifted and Twice-Exceptional Learners

Affiliation: Summit Center, Walnut Creek, CA

Robinson,
George J., Ph.D.

Degree from
The University
of Connecticut

George J. Robinson Ph.D. teaches Creating Strength-based Talent-focused Schools. George has published journal articles on Gifted Ed, Differentiation, and Science Programs. He is a young adult author focusing on Environmental Issues and History. He has presided as Middle School Chair for the National Association for Gifted Children. George, a retired middle school and high school English and Gifted and Talented instructor, served as the assistant Dean of the College of New Rochelle's Graduate School, a differentiation Instructor for Renzulli Learning, a Director of a gifted elementary school, and an evaluator for multiple-year grants.

Areas of Expertise: Gifted Ed, Differentiation, Writing, Program Development, Evaluation, Funding

Affiliation: Professor Bridges Graduate School, Adjunct Professor of Writing Western Connecticut State University
New York State Teachers of English: Teacher of the Year

Tetreault, Nicole
A. Ph.D.

Degree from
California
Institute of
Technology,
Ph.D., UCLA,
M.A. in
coursework,
UCD, B.S.

Nicole A. Tetreault, Ph.D., is a compassionate neuroscientist, author, meditation teacher, and international speaker on topics of neurodiversity, neurodevelopment, creativity, mental health, and wellness. Her book, *Insight into a Bright Mind*, explores groundbreaking research examining the experiences of unique, creative, and intense brains through interviews, storytelling, and literary science, while advocating for new directions of human diversity and neurodiversity. Nicole received her Ph.D. from Caltech in biology specializing in neurodevelopment and neurodegenerative disorders. As the founder of Awesome Neuroscience, she translates the most promising neuroscience and positive psychology for people to live their best life. Nicole has authored numerous academic papers on intelligence, autism, brain evolution, neuroinflammation, and behavior. She is a dean at Bridges Graduate School of Cognitive Diversity in Education and teaches the complexities of neurodiversity, meditation, and neuroscience. Nicole leads a new generation of meditation practices by fusing modern discoveries in neuroscience with the ancient art of meditation. As recipient of the Milton Career Exploration Prize from Caltech, she founded the novel non-profit Beyond the Cell, a transformative program to rehabilitate incarcerated women through guided meditation, neuroscience, literature, and expressive writing. Nicole believes we have the ability to wire our minds for positive plasticity through compassion and wisdom and live the life we dream. For more about Nicole, please visit nicoletetreault.com and beyondthecell.org.

Areas of Expertise: Neuroscience, Neurodiversity, Neurodevelopment, Physiology, Mental Health, Wellness, Meditation, Creativity, Writing, Research, and Complexities of Twice Exceptionality

Milton Career Exploration Prize Fellow

Affiliation: Awesome Neuroscience, Beyond the Cell. PEN Los Angeles Committee

Westberg,
Karen, Ph.D.

Degree from
University of
Connecticut

Dr. Karen L. Westberg is professor emerita from the University of St. Thomas (UST), MN, where she taught graduate coursework in gifted education and research methodology. Before joining the faculty at UST, she was a principal investigator at The National Research Center on the Gifted and Talented and a faculty member at the University of Connecticut. She has published articles in several journals including the *Journal of Creative Behavior* and *Gifted Child Quarterly*. Earlier in her career, she was a public school teacher.

Areas of Expertise: Research methodology, Program evaluation and Measurement, Curriculum, Education of the Gifted and Talented

Affiliation: Professor emerita from University of St. Thomas

Wiebe,
Christopher
Ed.D.

Degree from
California State
University, Los
Angeles

Chris Wiebe studied philosophy and literature before spending seven years in print journalism. He began teaching high school English in 2008, developing an interest in multimodal literacy and curriculum design. He has been the high school director at Bridges Academy for three years and received his doctorate in education in 2016. His paper comparing technology policy and teacher belief was a finalist for an AERA "Best Paper" award in 2016 and he is a co-author of a chapter in the book *Twice Exceptional: Supporting and Educating Bright and Creative Students with Learning Difficulties*.

Areas of Expertise: Leadership and change, Policy in Education, Twice Exceptional Education, Qualitative Research Methods

Affiliation: Assistant Head: Director of Coordinated Programs and Services
Bridges Educational Group

III. Graduate School Course Catalog by Category

Course Number Code

- CAP** Capstone Projects
- CDL** Cognitively Diverse Learner
- EXA** Experiential Application (including Practicum and Internships)
- IEC** Innovative Education & Curriculum
- IEL** Innovative Educational Leadership
- RES** Applied Research

Course numbers are determined by the following formulaic code. There may be exceptions.

**CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences. =
COGNITIVELY DIVERSE LEARNER
LEVEL 5 , YEAR 1, SEQUENCE #1**

Area	Level	Year	Sequence
CDL	5*	1	1

*5= Foundation Graduate Course

*6 & *7 =Advanced Graduate Course

A complete list of the course offerings by category is available below. Full course details are available within each program description.

A. Cognitively Diverse Learner

CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences. (Cert. Program)
CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences. (M.Ed. Program)
CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences. (Ed.D. Program)
CDL 512: Conceptions of Giftedness: Theory to Practice (Certificate Program)
CDL 512: Conceptions of Giftedness: Theory to Practice (M.Ed. Program)
CDL 512: Conceptions of Giftedness: Theory to Practice (Ed.D. Program)
CDL 513: Complexities of Twice Exceptional Students (Certificate Program)
CDL 513: Complexities of Twice Exceptional Students (M.Ed. Program)
CDL 513: Complexities of Twice Exceptional Students (Ed.D. Program)
CDL 621: Social and Emotional Diversity (Ed.D.)
CDL 703: Mindfulness Theory and Its Application to the 2e Student
CDL 731 / IEC 731: Talent Development for Diverse Minds: Programs and Strategies
CDL 700: Independent Study

B. Innovative Education & Curriculum

IEC 511: Cognitive Diversity and Strength-Based, Talent-Focused Education (Certificate Program)
IEC 511: Cognitive Diversity and Strength-Based, Talent-Focused Education (M. Ed. Program)
IEC 511: Cognitive Diversity and Strength-Based, Talent-Focused Education (Ed.D program)
IEC 621: Foundations of Creativity (M.Ed.)
IEC 621: Foundations of Creativity (Ed.D. Program)
IEC 622: Innovative uses for Technology
IEC 731 / CDL 731: Talent Development for Diverse Minds: Programs and Strategies
IEC 732 / IEL 731: Educational Leadership and Organizational Management Theory for Dynamic Schools Curriculum Leadership
IEC 700: Independent Study

C. Innovative Educational Leadership

IEL 731: Educational Leadership and Organizational Management Theory for Dynamic Schools (CW)
IEL 732 / IEC 732: Curriculum Leadership
IEL/IEC 722: Creating Strength-Based, Talent-Focused Schools
IEL 734: Program Evaluation and Modification
IEL 700: Independent Study

D. Experiential Applications

**All Practica and internship credits are calculated based on 45 hours per credit unit.
A three-credit course requires 135 work hours.**

EXA 511: Practicum (Certificate Program)

EXA 511: Practicum (M.Ed. Program)

EXA 600: Clinical Practicum

EXA 800: Clinical Practicum

E. Applied Research and Research Methodology

RES 621: Methods & Techniques of Educational Research

RES 711: Principles of Research Design

RES 721: Quantitative Methods

RES 722: Qualitative Methods

F. Seminars and Capstone Projects

SEM 610: Masters Seminar

SEM 710: Doctoral Seminar #1

SEM 720: Doctoral Seminar #2

CAP 621: Capstone Project (M.Ed.)

CAP 991: Directed Research Part 1 - Proposal Development (1) (Ed.D.)

CAP 992: Directed Research Part 2: Data Collection and Chapters 1- 3) (Ed.D.)

CAP 993: Directed Research Part 3: Data Analysis and Chapters 4-5 (Ed.D.)

CAP 994: Directed Research Part 4: Oral Defense - Paperwork Completion (Ed.D.)

CAP 995: Directed Research Part 4: Continuing Registration if needed (Ed.D.)

IV. Program Descriptions and Admission Requirements

All of our courses are taught using a hybrid program where instruction is provided in real-time by a professor who is present online via video conferencing tools with the students in remote locations. Additionally, each of our three programs requires a summer residency at our campus in California. Since there is a great dependency on online and internet resources and tools, applicants are required to submit to an online interview with the Dean of Graduate programs for an assessment and review of their technology and skills. For a more detailed discussion on the specific skills required please see **Section VII. General Policies and Information X: Computer Literacy Assessment**.

A. The Certificate in Twice-Exceptional Education: Program and Curriculum

This 15-credit program is designed to be completed in one year. It is for individuals who have a background in an education-related field and who wish to augment and enhance their understanding of students who have gifts in specific areas and simultaneously have cognitive, behavioral, or social challenges. This degree will provide the participant with knowledge of and skills to advocate for these students, modify instruction to meet their needs, and to be on a team of professionals who desire to personalize approaches to meet the unique needs of twice-exceptional students. While 12 credits are taken online, the program includes a practicum and two-week residency program during which courses are taken at the Bridges Graduate School campus. All program goals, objectives, and learning outcomes are aligned to either California Professional Standards for Educational Leaders (CPSEL) or the Council for Exceptional Children (CEC Professional Standards) in Special Education or Education of the Gifted and Talented. These alignments are shown in each course syllabi.

Admission to the Certificate Program in Twice-Exceptional Education

Entry into the program to earn a certificate in twice-exceptional education requires a Bachelor's degree from an accredited university. Additionally, applicants must display a special interest in Strength-Based, Talent-Focused Education for twice-exceptional and cognitively diverse learners and must describe that interest in their online letter of application. They must also submit three letters of recommendation from academic sources and complete the online application form found at the end of this catalog or on our website. There is a non-refundable application fee of \$125.

Overview and Program Requirements

The Mission, Vision, and Program Outcomes of this Certificate Program align to the Mission, Vision, and Program Outcomes found in the Graduate School Overview Section.

Mission

The mission of the Graduate Certificate in Twice-Exceptional Education Program is to support teachers and other professionals in gaining knowledge and skills in curriculum, instruction, and

assessment to meet the needs of high-ability students whose cognitive diversity places them at risk for school success in traditional settings.

Vision

To be a national leader in developing knowledgeable professionals who can advocate for a strength-based, talent-focused approach to meeting the needs of twice-exceptional learners to promote optimal growth and development.

Program Outcomes

The outcomes of the program are to prepare students who are able to:

1. Recognize cognitive patterns of students with diverse minds (gifted and talented, attention deficit, Asperger syndrome, and specific learning disabilities)
 - a. Be able to see strengths associated with different kinds of minds
 - b. See the impact of strengths, dispositions, personalities, and advanced abilities
 - c. Describe the twice-exceptional student in terms of strengths and challenges
 - i. Using intellectual assessments such as the *Wechsler Scale of Intelligence*
 - ii. Understand the complexity of dual diagnosis of twice-exceptional learners--intellectually, socially, and emotionally.
2. Understand the importance of identifying and assessing strengths, talents, and interests as foundational to program development
 - a. Realize the influence of positive psychology on diagnosis and treatment
 - b. Become familiar with research supporting strength-based learning
 - c. Gain skill in identifying and assessing strengths, talents, and interests.
3. Design learning environments based on theories of strength-based, talent-focused education
 - a. Recognize and respond to the intellectual needs of high-ability students
 - b. Implement strategies to create learning environments that are appropriate for twice-exceptional students in terms of intellectual, social-emotional, and physical needs.
4. Employ creative problem-solving practices and skills to develop innovative solutions that support diverse learning and cognitive profiles
 - a. Participate in problem-solving meetings using the Multi-Perspectives Model
 - b. Use reflection to adapt instruction of twice-exceptional youngsters within an enriched environment
 - c. Acquire the knowledge and skills necessary to effectively advocate for the needs of twice-exceptional learners in a professional and ethical manner
 - d. Participate in a team meeting around students and advocating for their needs
 - e. Develop talent plans for individual students
 - f. Respect confidentiality and show empathy and sensitivity when communicating information with families, other educators, and related services.

Program Design

This online program, with its two-week summer residency, provides an 18-credit sequence of courses designed specifically for classroom and resource teachers who work with twice-exceptional students in gifted settings, special education settings, or the regular classroom. Courses include assignments to observe cognitive strengths and individual talents in students and to use this information to develop their skills and advance their individual interests and talents.

Faculty Qualifications and responsibilities for Certificate Program

Qualifications: Doctorate or terminal degree in their discipline in one or more of these fields: Education of the Gifted and Talented, Special Education, and Curriculum and Instruction. In addition, faculty members must have professional experience in college teaching, have professional experiences within their fields such as publications, presentations, and curriculum development, and program coordination. Faculty must have had experience working with cognitively diverse students and/or families of students who are considered twice-exceptional (high ability with learning, behavioral, or attention difficulties).

The faculty has ongoing responsibility or has been involved in defining the Vision and Mission of the Certificate Program and selecting, designing, and refining the courses required to complete the program. Faculty members submit drafts of syllabi in their area of expertise and seek out critical feedback from other core faculty of the Certificate Program. These faculty members will have one or more of the following responsibilities to implement and evaluate the program:

- Teach courses
- Supervise Practicum
- Advise students
- Revise curriculum at a yearly retreat
- Development program assessment tools
- Attend annual 5-day retreat for program development and evaluation

Program Specifics

This program uses a cohort model where cohorts of 8-15 students take the majority of courses together and engage as a learning community both online and in the required residency experience. They share their thinking and writing with one another. They may use online tools to communicate and collaborate over their time in the program.

- In order to maintain a low student-to-faculty ratio, cohort sizes are small.
- Classes are scheduled to accommodate the needs of the working educator as online modules are primarily asynchronous and residencies are scheduled each summer (completing 6 credits) and the opportunity to interact in person with their cohorts, advisors, and doctoral committee.
- Students have an academic advisor to support them during their progression of courses and their practicum experience.

- Our outstanding faculty is diverse, representing different institutions of higher learning. They all have made major contributions to the fields of special education, education of the gifted, and talented, leadership, and research in evaluation.

Plan of Study

Courses represent three areas: the Cognitively Diverse Learner, Innovation in Education Curriculum, and Experiential Application. All courses build knowledge and skills in working with twice-exceptional students.

The pursuit of this degree program proceeds through two phases: Coursework and in-residence experience include some practicum requirements.

Phase I: Upon acceptance to the program students will complete a Plan of Study with their advisor consisting of required core courses and a practicum experience.

Phase 2: Upon completion of the courses, students will participate in a two-week summer experience at Bridges Academy, a school for twice-exceptional students in Studio City, California, where they will implement strategies approved during their coursework in partial fulfillment of the Practicum requirements and complete final coursework. Students will receive their certificate after the successful completion of all coursework and the Practicum. Credits from the certificate program can be applied to both the M.Ed. and the Ed.D. programs.

Plan of Study Certificate

Here is a link to the student's plan of study form.

Course Descriptions for Certificate Program

Cognitively Diverse Learner

CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences.

This course offers an exploration of how minds differ by looking at the cognitive diversity movement and the implications of cognitive differences among students with respect to intellectual profiles, learning styles, and personality preferences. Special emphasis is given to how diverse minds struggle in some areas but bring strengths and advanced abilities to others. An examination of learning and where it breaks down for exceptional students often falling under the umbrella of Special Education will reveal how cognitive differences impact learning. Candidates will critique categories of special education and resulting approaches typically found in individual educational plans. **3 credits**

CDL 512: Conceptions of Giftedness: Theory to Practice

Course content and activities focus on current research, trends, and practices within the field of gifted and talented education. Topics include an introduction to the historical and philosophical context of gifted education and theories of intelligence; characteristics of gifted behaviors across cultures;

overview of curricular options for enhancing and accelerating instruction; and identification techniques and program services. **3 credits**

CDL 513: Complexities of Twice Exceptional Students

The focus of the course describes the unique characteristics of students who have high abilities and simultaneous learning and attention challenges, known as twice-exceptional students. Particular attention is given to the impact coincidence has on the social, emotional, and cognitive world of twice-exceptional students. Exploration of the research on this population will illustrate the complexities of both diagnosis and program development for this population of learners. We will explore how to identify these students and assess their unique learning needs. Using a case study approach, candidates will look at students who are gifted with learning disabilities, attention deficit disorder, autism, and social and emotional issues and develop a comprehensive plan to meet their needs. **3 credits**

Innovative Education Curriculum

IEC 511: Cognitive Diversity and Strength-Based, Talent-Focused Education

This course provides candidates with an overview of strength-based, talent-focused education with particular attention given to how students differ and the strengths and talents they bring to the classroom. Candidates will gain skills in identifying and using students' strengths, interests, and talents to help cognitively diverse students succeed in the classroom, develop executive function, social skills, and productivity. Understandings will conclude with procedures for curriculum development using a strength-based, talent-focused model. **3 credits**

Experiential Application

All Practica and internship credits are calculated based on 45 hours per credit unit. A three-credit course requires 135 work hours.

EXA 511: Practicum (Certificate Program)

The Practicum is designed to apply theory and skills from coursework deemed necessary to show emerging expertise in the area of twice exceptional education. The Practicum includes both assignments completed before arrival on campus and specific activities on campus during the residency experience. Candidates will present a study of a twice exceptional individual using the Suite of Tools Process during a study session, develop a personalized talent plan, report findings and recommendations to school or family. In addition, when on campus, candidates will attend seminars, observations, and workshops as well as develop and present a workshop to other professionals. Candidates will record insights, questions, and observations in the Practicum reflection log. **3 credits (135 hours)**

Total 15 credits for Certificate Program

B. The Masters in Education (M.Ed.) in Cognitive Diversity: Program and Curriculum

Overview

This 30 credit, two-year, hybrid, online program is for educators or others who have a background or interest in cognitively diverse learners and who are interested in exploring issues related to meeting their needs. Graduation requirements include a Practicum experience, completion of a Capstone project (action research), and participation in a Master Seminar where the action research project is shared and discussed with faculty and their student cohort. While the majority of the courses are online, there are two mandated 2-week summer residencies required. During the first summer, students will fulfill partial requirements for their required practicum--working directly with twice-exceptional students participating in a summer program on campus as well as completing some coursework requirements. During the second summer, students will complete their coursework and participate in their Masters Seminar which includes presenting their Capstone Action Research project.

The program will prepare educators to be instructional leaders within their districts. They will be able to assist with many decisions related to the development of personalized plans for cognitively diverse students with high abilities and be prepared to lead teams in identifying instructional strategies that address the paradoxical needs of high-ability, cognitively diverse students. Graduates of this program will be able to apply strength-based, talent-focused curricular systems and strategies in classrooms and schools and use action research methodology to measure the effectiveness of strategies. All program goals, objectives, and learning outcomes are aligned to either California Professional Standards for Educational Leaders (CPSEL) or the Council for Exceptional Children (CEC Professional Standards) in Special Education or Education of the Gifted and Talented. These alignments are shown in each course syllabi.

Admission to The Masters in Education Program (M.Ed.)

Entry into the Masters in Education Program at The Bridges Graduate School of Cognitive Diversity in Education requires a Bachelor's degree from an accredited university with a collegiate GPA of 3.0. Additionally, applicants must display a special interest in strength-based, talent-focused education for twice-exceptional and cognitively diverse learners and must describe that interest in their online letter of application. They must also submit three letters of recommendation from academic or professional sources and complete the online application form found at the end of this catalog or on our web site. There is a non-refundable application fee of \$125.

Mission

The Mission of the M.Ed. program in Cognitive Diversity is based on a commitment to students who are interested in the cognitive diversity movement and in deepening their understanding of individuals whose cognitive profiles reveal advanced abilities as well as areas of challenge in learning,

self-regulation, or social skills. This graduate program prepares practicing professionals in education, educational therapy, counseling, and psychology to adopt strategies that view bright but cognitively different individuals through strength-based, talent-focused lenses with the belief that creating positive environments for cognitively diverse individuals will foster optimal development.

Vision

We envision a world where professionals advocate for promoting individuals' strengths, talents, and interests in classrooms as well as in work environments while offering support for challenges.

Program Outcomes

The M.Ed. Program in Cognitive Diversity is dedicated to the development of the following learning outcomes in its students. These outcomes are consistent with the latest research and best practices for meeting the needs of individuals whose cognitive profiles reveal advanced abilities and areas of challenge in learning, self-regulation, or social skills.

- A. Can recognize cognitive patterns of students with diverse minds (gifted and talented, attention deficit, Asperger syndrome, and specific learning disabilities)
 - a. Be able to see strengths associated with different kinds of minds
 - b. See the impact of strengths, dispositions, personalities, and advanced abilities
 - c. Describe the twice-exceptional students in terms of strengths and challenges using intellectual assessments such as the *Wechsler Scale of Intelligence*
 - d. Understand the complexity of dual diagnosis of twice-exceptional learners--intellectually, socially, and emotionally.
- B. Understand the importance of identifying and assessing strengths, talents, and interests as foundational to program development
 - a. Realize the influence of positive psychology on diagnosis and treatment
 - b. Become familiar with research supporting strength-based learning
 - c. Gain skill in identifying and assessing strengths, talents, and interests.
- C. Design learning environments based on theories of strength-based, talent-focused education
 - a. Recognize and respond to the intellectual needs of high ability students
 - b. Implement strategies to create learning environments that are appropriate for twice-exceptional students in terms of intellectual, social-emotional, and physical needs.
- D. Employ creative problem-solving practices to develop innovative solutions that support diverse learning and cognitive profiles
 - a. Conduct problem-solving meetings using the Multiple Perspectives Model
 - b. Develop a comprehensive strength-based plan to advance talents and support problematic weaknesses.
- E. Use systematic inquiry in evaluating the effectiveness of strength-based and talent-focused education
 - a. Conduct Action Research Studies

- b. Interpret data and make recommendations based on systematic inquiry
 - c. Examine information collected on students to interpret needs, challenges, and appropriate environments.
- F. Acquire the knowledge and skills necessary to effectively advocate for the needs of twice-exceptional and neurodiverse learners in an ethical and professional manner
- a. Conduct a team meeting around students and advocating for their needs
 - b. Develop written reports and student plans for individual students
 - c. Respect confidentiality and show empathy and sensitivity when communicating information with families, other educators, and related services.

Faculty for Masters in Education Program in Cognitive Diversity in Education

The core faculty members are qualified to teach in the Masters of Education Program. They helped define the Vision and Mission of the Masters in Education Program Program and the courses required to complete the program. Once in place, these faculty members submitted drafts of syllabi in their area of expertise, which were examined by the group with revisions suggested and made. These faculty members will have one or more of the following responsibilities to implement and evaluate the program:

- Teach courses
- Supervise Practicum
- Advise students
- Revise curriculum at a yearly retreat
- Development program assessment tools
- Attend an annual faculty retreat for program review and development

Program Design

This is a two-year 30-credit minimum online program with two required two-week summer residencies at Bridges Graduate School, Studio City, CA.

This program uses a cohort model where cohorts of 8-15 students take the majority of courses together and engage as a learning community both online and in the required residency experience (2 summers). They share their thinking and writing with one another. They may use online tools to communicate and collaborate over their time in the program.

- In order to maintain a low student-to-faculty ratio, cohort sizes are small.
- Classes are scheduled to accommodate the needs of the working educator as online modules are primarily asynchronous and residencies are scheduled each summer (completing 3 credits per summer) and the opportunity to interact in person with their cohorts, advisors, and doctoral committee.
- Students have an academic advisor to support them during their progression through their course work, Practicum, and Action Research Project culminating in a Master's Seminar.

- Our outstanding faculty is diverse, representing different institutions of higher learning. They all have made major contributions to the fields of special education, education of the gifted and talented, leadership, and research in evaluation.

The M.Ed. Program in Cognitive Diversity - Requirements

Courses represent four areas of concentration: the Cognitively Diverse Learner, Innovation in Education Curriculum, Experiential Application, and Research. All courses build knowledge and skills in working with students who have high ability and are cognitively diverse—also known as twice exceptional.

The pursuit of this degree program proceeds through four phases:

Phase I: Upon acceptance to the program, students will complete a Plan of Study with their advisor and complete the four core courses in the cognitively diverse learner and innovative curriculum.

Phase 2: Upon completion of the core courses, students will participate in a two-week summer experience in partial fulfillment of their Practicum. The Practicum is designed to apply theory and skills from coursework deemed necessary to show emerging expertise in the area of twice exceptional education. The Practicum includes both assignments completed before arrival on campus and specific activities on campus during the residency experience. Candidates will present a study of a twice exceptional individual using the Suite of Tools Process during a study session, develop a personalized talent plan, report findings and recommendations to school or family. In addition, when on campus, candidates will attend seminars, observations, and workshops as well as develop and present a workshop to other professionals. Candidates will record insights, questions, and observations in the Practicum reflection log. They will participate in a mini conference as workshop presenter and participant. Finally they will contribute to an advocacy initiative. These activities are designed for students to apply strategies and curriculum introduced during their four courses. Students will receive their Certificate in Twice Exceptional Education after successful completion of all core coursework and the Practicum usually at the end of Year One.

Phase 3: Upon receipt of the 15-credit Certificate in Twice-Exceptional Education, students complete advanced level courses in innovative curriculum and research. Upon completion of RES 601 students will present their proposal to their classmates and to their faculty committee consisting of their academic advisor, Capstone advisor and Practicum supervisor. When their proposal is approved by their committee, it is submitted to the IRB for approval. submit their Masters Project proposal to their capstone advisor for approval. Upon receiving approval from the IRB students must file for candidacy.

Phase 4: This phase begins with enrollment in CAP 621 Action Research Capstone Project and Master Seminar. Under the guidance of their Capstone Advisor , students will implement their study, analyze results, draw conclusions, The students will write An Action Research Report and present their findings during the Masters Seminar held during Summer Residency 2, followed by

graduation if all conditions are met. A description of the Capstone Project can be found here [Description of Capstone](#)

Course Descriptions for The Masters in Education (M.Ed.) in Cognitive Diversity

CDL 511: Introduction to Cognitively Diverse Minds: A world of learning differences. (M.Ed. Program)

This course offers an exploration of how minds differ by looking at the cognitive diversity movement and the implications of cognitive differences among students with respect to intellectual profiles, learning styles, and personality preferences. Special emphasis is given on how diverse minds struggle in some areas but bring strengths and advanced abilities to others. An examination of learning and where it breaks down for exceptional students often falling under the umbrella of Special Education will reveal how cognitive differences impact learning. Candidates will critique categories of special education and resulting approaches typically found in individual educational plans. **3 credits**

CDL 512: Conceptions of Giftedness: Theory to Practice (M.Ed. Program)

Course content and activities focus on current research, trends, and practices within the field of gifted and talented education. Topics include an introduction to the historical and philosophical context of gifted education and theories of intelligence; characteristics of gifted behaviors across cultures; overview of curricular options for enhancing and accelerating instruction; and identification techniques and program services. **3 credits**

CDL 513: Complexities of Twice Exceptional Students (M.Ed. Program)

The focus of the course describes the unique characteristics of students who have high abilities and simultaneous learning and attention challenges known as twice-exceptional students. Particular attention is given to the impact coincidence has on the social, emotional, and cognitive world of twice-exceptional students. Exploration of the research on this population will illustrate the complexities of both diagnosis and program development for this population of learners. We will explore how to identify these students and assess their unique learning needs. Using a case study approach, candidates will look at students who are gifted with learning disabilities, attention deficit disorder, autism, and social and emotional issues and develop a comprehensive plan to meet their needs. **3 credits**

IEC 511: Cognitive Diversity and Strength-Based, Talent-Focused Education (M. Ed. Program)

This course provides candidates with an overview of strength-based, talent-focused education with particular attention given to how students differ and the strengths and talents they bring to the classroom. Candidates will gain skills in identifying and using students' strengths, interests, and talents to help cognitively diverse students succeed in the classroom, develop executive function, social skills, productivity, develop executive function, social skills, and productivity. Understandings will conclude with procedures for curriculum development using a strength-based, talent-focused model. **3 credits**

EXA 511: Practicum (M.Ed. Program)

The Practicum is designed to apply theory and skills from coursework deemed necessary to show emerging expertise in the area of twice exceptional education. The Practicum includes both assignments completed before arrival on campus and specific activities on campus. Candidates will present a study of a twice exceptional individual using the Suite of Tools Process during a child study session, develop a personalized student talent plan, report findings and recommendations to school or family. In addition, when on campus, candidates will attend seminars, observations, and workshops as well as develop and present a workshop to other professionals. Candidates will record insights, questions, and observations in the Practicum reflection log. **3 credits**

IEC 621: Foundations of Creativity (M.ED.)

The major purpose of this course is to study the theoretical and practical aspects of creativity—what is creativity, how do we develop it in ourselves and in our students. The course is an overview of major definitions, theories, and research related to the study of creativity and the creative individual. Class members will learn techniques for stimulating creative thinking as well as strategies for adapting existing curricula to develop creative thinking abilities in students. Topics also include the assessment of creative thinking, methods for enhancing personal creative abilities, and techniques for examining the creative process. **3 credits**

RES 621: Methods & Techniques of Educational Research

This course focuses on the teacher as a researcher. The content provides strategies to evaluate programs and students for the purpose of conducting action research projects to inform instruction. To that end, students will examine basic tools, materials, designs, and statistical techniques used in researching effective methods in the classroom. In addition, they will be able to design an action research project and implement it in their classrooms in preparation for the Master Project (CAP 621: Master's Capstone Project). **3 credits**

IEC 622: Innovative uses for Technology

An introduction to the integration of technology in the schools, focusing on how instructional technology affects and advances K-12 learning especially for students who have challenges accessing information, organizing ideas, and communicating what they know. Topics include principles of integrating technology to strengthen standards-based curricula, instruction, and assessment; selection of software and other technological materials; uses of technology for collaboration with school-related audiences; issues of digital equity and ethics; and strategies for using digital technology with special needs populations. **3 credits**

CDL 621: Social and Emotional Diversity

Students will explore the biological and environmental factors that contribute to cognitive diversity, with an emphasis on the social and emotional implications for twice-exceptional individuals in the classroom and in life. This course will be a broad overview of the most prevalent categories of special education. Case studies will be reviewed in order to gain an in-depth understanding of how social and emotional challenges impact interpersonal relationships, academic performance, and the ability to attain personal goals. Non-academic factors will be reviewed as they relate to the population

including topics of resilience, motivation, and grit. Learners will use the multifaceted social-emotional model to maximize growth, development, and achievement in the 2e populations with which they work. **3 credits**

CAP 621: Master Capstone Project

This course is done independently throughout the semester following the completion of RES 621. Participants work on implementing their proposal approved in RES 621 and by Bridges Graduate School's Institutional Review Board (IRB).

All data must be collected and organized before arriving on campus for Summer Residency 2 with their Action Research papers written up to the results section.

During class students will analyze their data and complete their paper and presentation for the Masters Seminar held week 2 of the Summer Residency prior to graduation ceremony. At the meeting they will analyze their data with their professor and discuss their conclusions. They will then complete their paper and participate in a Master Seminar where they will present their action research project. Complete description of Capstone is here [Description of Capstone](#) **3 credits**

Notice to Prospective Masters Degree Program Students

This institution is provisionally approved by the Bureau for Private Postsecondary Education, 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589 to offer degree programs. To continue to offer this degree program, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.
- Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by 2021, and full accreditation by 2024.

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
- Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

This statement is printed several times in this catalog and is required by the Bureau Of Private Postsecondary Education. A signed dated copy is included in the enrollment agreement.

C. Doctor of Education in Cognitive Diversity (Ed.D.): Program and Curriculum

This 60-credit hybrid program is specially designed for professionals who already have a Master's degree in fields like education, counseling, or psychology and who would like to become empowered to take an active role in the cognitive and neurodiversity movements. Appropriate for this degree are administrators, special education directors, coordinators of programs for gifted and talented, educational therapists, counselors, classroom teachers, counselors, psychologists, and service providers who want to advance their understanding of cognitive diversity and twice exceptional learners and take an active role in promoting educational opportunities away from remediation to a more strength-based, talent-focused approach. The program is designed to be completed in four years and includes three summer residencies, a clinical practicum, an internship, comprehensive exams, and a Problem of Practice dissertation. Students can choose an area of concentration: twice exceptionality and cognitive diversity, strength-based, talent-focused curriculum, or leadership for innovation. All program goals, objectives, and learning outcomes are aligned to either California Professional Standards for Educational Leaders (CPSEL) or the Council for Exceptional Children (CEC Professional Standards) in Special Education or Education of the Gifted and Talented. These alignments are shown in each course syllabi.

Admission to The Doctor in Education Program (Ed.D.)

Applicants to Ed.D. programs are expected to demonstrate outstanding ability and provide evidence of previous scholarship and experience indicating that they are likely to do superior creative work in their fields. Holding a Master's degree from this or any institution does not render the applicant automatically admissible to the doctoral program. In general, doctoral applicants must meet all admission requirements for the Master's degree and must present evidence that they are capable of doing independent work of distinction. Entry into the Bridges Graduate School of Cognitive Diversity in Education to earn an Ed.D. requires a minimum of a Master's degree with a collegiate GPA of 3.0 from an accredited institution. Applicants must have a special interest in strength-based, talent-focused education, leadership, and cognitive diversity and must describe that interest and supporting experiences in their online letter of application. They must also submit three letters of recommendation from academic sources and complete the online application form found at the end of this catalog or on our website. There is a non-refundable application fee of \$125.

Overview and Program Requirements for the Ed.D. in Cognitive Diversity.

The Ed.D. Program in Cognitive Diversity aligns with the mission and vision of Bridges Graduate School. To that end, the program offers the following.

Mission of the Ed.D. Program

The Ed.D. program in Cognitive Diversity will communicate and create knowledge about cognitive diversity and strength-based, talent-focused curricula. The program will create professionals to take an active role in supporting the neurodiversity movement in schools and in the workplace. This program achieves its mission through innovative and engaging instruction, scholarship, and professional service. The uniqueness of our positive framework is that we work to transform education from a deficit-based model to strength-based, talent-focused approaches that enhance the quality of life for all.

Vision

To create scholars and educational leaders who will create policies and innovative programs to advance the cognitive diversity movement and the growth of positive psychology.

Program Philosophy and Guiding Principles

To achieve this mission, the design of the Ed.D. program is guided by five principles based on the Professional Doctorate in Education (Carnegie Project, 2000), which focuses on equity, ethics, and social justice to bring about solutions to complex problems of practice. Our hope is to create scholar-practitioners who

1. Construct and apply knowledge to make a positive difference in the lives of cognitively/neurodiverse individuals, their families, and the organizations and communities in which they live and work.
2. Develop and demonstrate collaboration and communication skills that allow them to work with diverse communities and to advocate for neurodiversity within their communities with the understanding that cognitive diversity is the cornerstone for innovation and productivity in all organizations.
3. Use relevant pedagogical skills, educational psychology, and knowledge in the planning, development, delivery, and assessment of professional services in support of relevant educational and professional goals, reflecting a strength-based, talent-focused philosophy.
4. Creatively solve problems in field-based situations to analyze problems of practice and use multiple frames to develop meaningful solutions.
5. Are grounded in research and develop a professional knowledge base that integrates both practical and research knowledge, that links theory with systemic and systematic inquiry.

Values

The selection and preparation of the scholarly practitioner in the Graduate School are guided by four values: pursuing ideas, developing expertise, cultivating commitments, and engaging imagination. In particular, we recruit and support doctoral students who are committed to the:

Pursuit of Ideas

- in-depth inquiry within a discipline or field
- synthesis of concepts and principles across disciplines and fields
- openness to new ideas that are beyond one's perspectives, languages, and cultures

Development of Expertise

- as designers of new research, policy, and practice
- as negotiators in areas of complexity, uncertainty, and diversity
- as communicators among diverse audiences

Cultivation Commitments

- to expand intellectual pursuits
- to ensure professional ethics and responsibility
- to address evolving issues in the education of underserved learners

Engagement of Imagination

- to identify novel ideas and important questions that shape the field
- to generate innovative methods, practices, and solutions
- to visualize future directions

Program Outcomes

The Doctorate in Education Program focuses on the development of knowledge, skills, and expertise in understanding, supporting, and advocating for persons with unique skills and abilities whose cognitive neurodiversity creates certain limitations. To this end, the program identifies these outcomes for each of the candidates. Candidates will

1. Take a leadership role in recognizing, celebrating, and promoting positive education in response to the unique needs of cognitively neurodiverse (twice-exceptional) learners.
 - Provide expertise recognizing the unique profiles of cognitively diverse learners, especially for twice-exceptional (high ability with specific learning disabilities, attention deficits, behavior, and social challenges), focusing on how they learn and understanding how they view the world.

- Design innovative learning environments and curriculum based on theories of positive education and talent development to promote intellectual, social, and emotional growth.
 - Acquire the knowledge and skills necessary to effectively advocate for the needs of cognitively diverse learners.
 - Communicate through publications, professional development workshops, and conference presentations.
2. Facilitate a paradigm shift from remediation to talent development as an educational approach, especially for diverse learners, based on theoretical paradigms and research support.
 - Create innovative learning environments based on theories of positive education and talent development to promote intellectual, social, and emotional growth.
 - Effect positive change in diverse educational contexts by applying advanced theoretical perspectives to problems of practice.
 3. Lead multi-disciplinary teams to collect evidence and creatively problem solve approaches to meet the needs of cognitively neurodiverse students.
 - Lead team meetings to analyze data to create meaningful and personalized strength-based, talent-focused plans for cognitively diverse persons.
 - Employ creative problem-solving practices and skills to develop innovative solutions to support diverse learning styles and cognitive profiles.
 - Participate with colleagues in broadening perspectives and improve educational outcomes for neurodiverse learners through a positive lens.
 4. Critique, understand, and conduct high-quality educational research and link it to policy and practice.
 - Use systematic inquiry to evaluate the effectiveness of innovative approaches and address problems of practice.
 - Identify issues of social justice and fairness within a learning environment and conduct inquiries to examine causes and suggest strategies for improvement.
 - Develop policy to support strength-based, talent-focused approaches to education.
 - Empower a community of professionals to effect innovative change for institutions that serve cognitively neurodiverse learners.
 - Submit grant proposals to sponsor research and program development.

Three Frames of Study

The Ed.D. program is a blend of three disciplines:

1. **Equity and social justice** in schools and society focusing on the celebration of cognitive / neurodiversity
2. **Leadership** in policy development for innovative schools and programs
3. **Curriculum and Instruction--** Implementation of strength-based, talent-focused pedagogy

These frames serve as lenses for understanding varying dimensions of issues facing the educational system. Students' coursework, readings, and assignments develop an understanding of these frames and their interconnection. Most students' Capstone Projects relate to one or more of the frames. Candidates will choose one of the frames as an area of specialization.

Faculty Qualifications

Doctorate or terminal degree in their discipline in one or more of these fields: Education of the Gifted and Talented, Social and Emotional Learning, Counseling, Psychology, Special Education, Curriculum and Instruction, Educational Psychology, and Educational Leadership.

In addition, faculty members must have professional experience in college teaching and online instruction*. They must have demonstrated productivity within their fields of expertise such as scholarly publications, conference presentations, and/or have developed or administered specialized programs for cognitively diverse students who are considered twice exceptional (high ability with learning, behavioral, or attention difficulties).

Faculty members will need to demonstrate capability in conducting online courses according to our standards or have conducted online courses that were highly rated.

*Those not experienced in online teaching will be required to participate in a three-day workshop on online teaching provided by the Dean's office or be provided a teaching assistant to support course delivery.

The core faculty members for the Doctor of Education Program have helped define the Vision and Mission of the Doctorate in Education Program, develop program outcomes, and curriculum. Once these were determined, faculty members submitted drafts of syllabi in their area of expertise and made revisions according to the criteria established by the Academic Affairs Committee. Members of the core faculty will teach at least one course a year in the program and serve on the Advisory Committee for the Ed.D. Program.

Program Design

This is a three- to four-year 60-credit minimum online program with three required two-week summer residencies on the Bridges Graduate School campus. This program uses a cohort model in which cohorts of 8-15 students take the majority of courses together and engage as a learning community both online and in the required residency experience. They share their thinking and writing with one another. They will use online tools to communicate and collaborate over their time in the program.

The highlights of the design include the following:

- In order to maintain a low student to faculty ratio, cohort sizes are small.
- Classes are scheduled to accommodate the needs of the working educator as online modules are both synchronous and asynchronous and residencies are scheduled each summer (completing 6 credits) to provide the opportunity to interact in person with their cohorts, advisors, and doctoral committee.
- Guided support for the development and identification of the Problem of Practice, the inquiry, and scholarly reporting of the project is provided for each student throughout the four-year, sixty-credit program.
- We boast an outstanding faculty who represent different institutions of higher learning. They all have made major contributions to the fields of special education, education of the gifted and talented, leadership, and research and evaluation.

The Doctor of Education Program: Phases (I - III) and Benchmarks

The pursuit of this degree program proceeds through four phases as outlined below.

Phase I: Doctoral planning and completion of core competencies in the education of twice exceptional students with cognitive/neurodiversity.

Benchmarks: Phase I Review (18 credits).

- Personal statement of goals and desired internship experiences
- Awarded Certificate of Specialization in Twice Exceptional Education by successfully completing four core courses and a clinical practicum
- Plan of study submitted and approved through Year 2

Phase II: Completion of the research sequence (Years 2-3) and advanced courses in understanding neurodiverse minds in terms of social and emotional concomitants and creative abilities. Upon completion of these required courses, doctoral students will earn an additional six credits at the

600-700 level an area of specialization through related elective courses, independent study(ies), or advanced internship as approved by their advisor.

This stage concludes with students completing CAP 991 and CAP 992, earning approval for their Proposal for the Problem of Practice by their committee and the IRB and passing the comprehensive exam.

Benchmarks: Phase II Review

- Completion of internship (3-9 credits as approved by advisor)
- Defense of Comprehensive Exams
- Selection of Doctoral Committee
- Proposal accepted by committee including positive review by the Institutional Review Board of the Graduate School (IRB)
- Course work completed except for CAP 993 & CAP 994 (Directed Research).

Phase III: Completion of the Capstone Problem of Practice Dissertation

This phase begins with advancement into dissertation candidacy and continues through the candidate's implementation of their Problem of Practice Capstone accordance the Guidelines set forth by the Bridges Graduate School. They will be guided by their Capstone advisor to complete the objectives stated in CAP 993 & CAP 994. At the conclusion of this phase, the candidate will defend the research before their committee for approval. Problem of Practice is defined by the Carnegie Project for the Educational Doctorate and described in the Problem of Practice Capstone Guidebook

Benchmarks: Phase III Review

- Completion of (CAP 993 & CAP 994) Problem of Practice
- Oral defense of project
- Final approval by Committee
- Upload project to dissertation site
- Review of transcript and requirement by Academic Provost for approval for graduation.
- Graduation

Curriculum Design

The curriculum design of the Bridges Graduate School in Cognitive Diversity in Education offers varying levels of graduate courses. All graduate students complete the core foundational courses listed at the 600 level. Doctoral students will have additional requirements in each of these foundational courses to acculturate them to more advanced outcomes. These assignments may include, readings, preparing a manuscript for publication, or creating an annotated bibliography of scholarly work related to the course objectives.

The Plan of Study outlines the coursework, professional experiences, and research requirements that a doctoral student will undertake. The degree is never awarded solely for a required period of study or the completion of a prescribed program of coursework. Although minimum credit requirements are established to ensure a common ground for graduate students to develop emerging expertise, the Plan of Study is a means for cultivating these values and patterns of professional and scholarly engagement, not a mechanism for tallying credits.

General Features

The Plan of Study is developed between the doctoral student and her academic advisor as required by the Graduate School. The plan should reflect the goals of the doctoral student. Thus, there are choices that the student must decide upon. The student may:

1. Select an area of concentration within the program, which will require at least three courses. This will require two additional courses at the 600-700 levels in one of the three areas of specialization.
2. Elect not to have a concentration but rather engage in a more extensive internship experience by designing up to 9 credits of experiences with the help of the major advisor.
3. Pursue additional areas of interest by registering for independent study working with an advisor or other faculty member for up to 9 credits.

Plan of Study

- Must be submitted when the student has completed no more than 18 credits of coursework.
- Must be submitted to the Graduate Records Office for approval by Academic Affairs Committee of the Graduate School
- Must be submitted before the student takes Comprehensive exams
- Must include a minimum of 60 credits beyond the Master's degree.
- Must include at least 9 credits of advanced work (courses at 700 level) in a specialty area related to the three alternatives listed above **or** an advanced internship experience **or** independent study work with a faculty member or a combination of the three.
- Must include a minimum of 12 credits of CAP 999: Directed Research.
- May include credits from other institutions, as well as non-matriculated credits, so long as they are post-Master degree credits and relate to the focus of the program. Transfer of credit toward the Ed.D. degree requires the approval of both the Advisory Committee and the Graduate School.

Specific Requirements

Specifically, the Plan of Study in Cognitive Diversity in Education is designed to cultivate beginning expertise in three areas central to scholarly work as a leader in the advancement of a strength-based,

talent-focused philosophy to meet the needs of high ability, cognitively diverse populations. These areas include courses in disciplinary understandings, theory into practice experiences, and research and inquiry skills.

Disciplinary Understanding

- **Knowledge of Equity and Social justice [JL1] in Schools and Society focusing on the Celebration of Cognitive /neurodiversity. (CDL).** To assure all doctoral students have a baseline knowledge of the growing field of cognitive and neurodiversity as a state of being to be celebrated not fixed, all doctoral students will take four core graduate courses at the 600 level (**12 credits**) in the areas of cognitive diversity and a practicum experience (**3 credits**).
- **Innovative Educational Curriculum (IEC).** To acculturate doctoral colleagues into the field of positive education where methodology turns from remediation to strength-based, talent-focused learning, scholar practitioners take a minimum of three required courses in this specialty area. These **nine credits** are typically taken during the first two years of doctoral study.
- **Leadership for Innovative Education (IEL).** To provide professional skills in leadership all students will be required to take a minimum of 3 credits to introduce leadership possibilities in the field. Most importantly, they will learn how to develop programs that are strength-based, talent-focused as well as how to secure funding for innovative initiatives. This course will include professional skills such as writing grants, white papers, and manuscripts for publication. **3 credits.**

Theory into Practice

To assure that doctoral students can apply theory to stellar practice, there is both a clinical practicum (**3 credits**) and internship (**3 to 9 credits**) experiences for up to **12 credits**.

Research Methods and Performance

- To prepare doctoral students to use tools and procedures for collecting, analyzing, and reporting data, a required three course sequence is provided: Research Design, Quantitative Methods, and Qualitative Methods. These courses should be completed by the end of the 2nd year of the program. **9 credits**
- To acculturate new scholars into the practice of academic research and inquiry doctoral students will take the CAP 999 in a four-course series in Directed Research. **12 credits.**

Plan Of Study Ed.D.

(Should be completed this semester)</p> <p>Comprehensive Exams completed (All coursework completed)</p> <p>File for Candidacy (Comprehensive exams passed and proposal approved)</p> <p>CAP 992: Directed Research: Implementation/data collection: Chapters 1-3 (3)</p> <p>Total Credits: 6</p>
---	---	--	--

At the end of Year 3
Ed.D. Students = 54 Credits
All courses completed except for Directed Research

4	CAP 993: Directed Research Part 3: Data Analysis and Chapters 4-5 (3)	CAP 994: Directed Research Part 4: Oral Defense - Paperwork Completion (3)	CAP 995: Directed Research Part 4: Continuing Registration if needed (3)
At the end of Year 4 Ed.D. Students = 60 credits minimum Graduation			

The Capstone Project

The Capstone Project for the Ed.D. Program in Cognitive Diversity in Education is an applied dissertation or Problem of Practice Inquiry. Based on the criteria established by the Carnegie Project on Educational Doctorate. The Problem of Practice approach aligns to the Guiding Principles of the Graduate School, the Values of the Graduate School and the Outcomes of the Ed.D. Program as shown below.

Carnegie Standards	Graduate School Guiding Principles	Graduate School Values	Ed.D. Program Outcomes (See alignment of Program Outcomes to National Standards in Appendices A-D of Curriculum Overview Section)
Problem of Practice is based on an area of concern within the domain of cognitive diversity within the doctoral candidate's context.	1. Construct and apply knowledge to make a positive difference in the lives of cognitively/ neurodiverse individuals, their families, and the organizations and communities in which they live and work.	<i>Pursuit of Ideas</i> • in-depth inquiry within a discipline or field <i>Development of Expertise</i> • as designers of new research, policy, and practices <i>Cultivation Commitments</i> • to address evolving issues in the education of underserved learners <i>Engagement of Imagination</i> • to identify novel ideas and important questions that shape the field	4 Critique, understand, and conduct high-quality education research and link it to policy and practice.

Problem is addressed by using relevant theories of leadership and review of literature of related issues, constructs, and theories.	Are grounded in research and develops a professional knowledge base that integrates both practical and research knowledge, [JL5] that links theory with systemic and systematic inquiry.	<p>Pursuit of Ideas</p> <ul style="list-style-type: none"> • synthesis of concepts and principles across disciplines and fields <p>Cultivation Commitments</p> <ul style="list-style-type: none"> • to expand intellectual pursuits • to ensure professional ethics and responsibility 	4. Critique, understand, and conduct high-quality education research and link it to policy and practice.
Application of appropriate models to address the Problems of Practice.	4. Creatively solve problems in field-based situations to analyze problems of practice and use multiple frames to develop meaningful solutions.	<p>Pursuit of Ideas</p> <ul style="list-style-type: none"> • in-depth inquiry within a discipline or field <p>Development of Expertise</p> <ul style="list-style-type: none"> • as designers of new research, policy, and practice <p>Cultivation Commitments</p> <ul style="list-style-type: none"> • to ensure professional ethics and responsibility <p>Engagement of Imagination</p> <ul style="list-style-type: none"> • to generate innovative methods, practices, and solutions • to visualize future directions 	4. Critique, understand, and conduct high-quality education research and link it to policy and practice.
Use of appropriate data collection methods and analysis techniques.	3. Use relevant pedagogical skills, educational psychology, and knowledge in the planning, development, delivery, and assessment of professional services in support of relevant educational and professional goals, reflecting a strength-based, talent-focused philosophy.	<p>Pursuit of Ideas</p> <ul style="list-style-type: none"> • in-depth inquiry within a discipline or field <p>Development of Expertise</p> <ul style="list-style-type: none"> • as designers of new research, policy, and practice <p>Cultivation Commitments</p> <ul style="list-style-type: none"> • to ensure professional ethics and responsibility 	4. Critique, understand, and conduct high-quality education research and link it to policy and practice.

<p>Explain findings and issues that underlie problems and solutions.</p>	<p>4. Develop and demonstrate collaboration and communication skills that allow them to work with diverse communities and to advocate for neurodiversity within their communities with the understanding that cognitive diversity is the cornerstone for innovation and productivity in all organizations[JL6].</p>	<p><i>Pursuit of Ideas</i></p> <ul style="list-style-type: none"> • synthesis of concepts and principles across disciplines and fields • openness to new ideas that are beyond one's perspectives, languages, and cultures <p><i>Development of Expertise</i></p> <ul style="list-style-type: none"> • as designers of new research, policy, and practice • as negotiators in areas of complexity, uncertainty, and diversity • as communicators among diverse audiences <p><i>Cultivation Commitments</i></p> <ul style="list-style-type: none"> • to expand intellectual pursuits • to ensure professional ethics and responsibility • to address evolving issues in the education of underserved learners <p><i>Engagement of Imagination</i></p> <ul style="list-style-type: none"> • to identify novel ideas and important questions that shape the field • to generate innovative methods, practices, and solutions • to visualize future directions 	<p>4. Critique, understand, and conduct high-quality education research and link it to policy and practice.</p>
--	---	---	---

<p>Suggest an action plan that is acceptable to stakeholders[JL7]</p>	<p>Develop and demonstrate collaboration and communication skills that allow them to work with diverse communities and to advocate for neurodiversity within their communities with the understanding that cognitive diversity is the cornerstone for innovation and productivity in all organizations</p>	<p><i>Development of Expertise</i></p> <ul style="list-style-type: none"> • as negotiators in areas of complexity, uncertainty, and diversity • as communicators among diverse audiences <p><i>Cultivation Commitments</i></p> <ul style="list-style-type: none"> • to expand intellectual pursuits • to ensure professional ethics and responsibility • to address evolving issues in the education of underserved learners <p><i>Engagement of Imagination</i></p> <ul style="list-style-type: none"> • to identify novel ideas and important questions that shape the field • to generate innovative methods, practices, and solutions • to visualize future directions 	<p>4 Critique, understand, and conduct high-quality education research and link it to policy and practice.</p>
---	--	---	--

Course Descriptions of the Ed.D. Program

SEM 710: Doctoral Seminar #1

Doctoral seminar expands over a two-year period through two phases SEM 710 and SEM 720 and meets one full day per month over the course of fall and spring semesters. The seminar consists of two components: explorations of critical issues in the field of cognitive diversity and twice exceptional education and skill development laboratory. Seminar topics are introduced by guest speakers and the professor who will engage students in lively discussions as they explore, critique, and synthesize critical issues in the fields of cognitive diversity, neuroscience, psychology, and education such as advocacy, mental health, social, emotional, and cognitive development, positive and humanistic psychology. The writing laboratory component will support students in the development of their writing and communication skills, professional portfolio development, and identification of a problem of practice in the field of cognitive diversity over the course of two years. The expectation is that all

students will have at least two manuscripts that they submit for publication by the end of the two years. **3 credits**

RES 711: Principles of Research Design

This course provides an introduction to the design of research studies in applied educational settings. The design and implementation of research studies are contextualized in current educational issues and takes into account the practical constraints of the real world. Topics covered include the formulation of research questions/hypotheses, operational definitions of research constructs, sampling methods, experimental and quasi-experimental designs, threats to internal and external validity. **3 credits**

CDL 611: Introduction to Cognitively Diverse Minds: A world of learning differences. (Ed.D. Program)

This course offers an exploration into how minds differ by looking at the cognitive diversity movement and the implications of cognitive differences among students with respect to intellectual profiles, learning styles, personality preferences. Special emphasis is given on how diverse minds struggle in some areas but bring strengths and advanced abilities to others. An examination of learning and where it breaks down for exceptional students often falling under the umbrella of Special Education will reveal how cognitive differences impact learning. Candidates will critique categories of special education and resulting approaches typically found in individual educational plans. **3 credits**

CDL 612: Conceptions of Giftedness: Theory to Practice (Ed.D. Program)

Course content and activities focus on current research, trends, and practices within the field of gifted and talented education. Topics include an introduction to the historical and philosophical context of gifted education and theories of intelligence; characteristics of gifted behaviors across cultures; overview of curricular options for enhancing and accelerating instruction; and identification techniques and program services. **3 credits**

CDL 613: Complexities of Twice Exceptional Students (Ed.D. Program)

The focus of the course describes the unique characteristics of students who have high abilities and simultaneous learning and attention challenges known as twice-exceptional students. Particular attention is given to the impact coincidence has on the social emotional, and cognitive world of twice-exceptional students. Exploration of the research on this population will illustrate the complexities of both diagnosis and program development for this population of learners. We will explore how to identify these students and assess their unique learning needs. Using a case study approach, candidates will look at students who are gifted with learning disabilities, attention deficit disorder, autism, and social and emotional issues and develop a comprehensive plan to meet their needs.

3 credits

IEC: 611 Cognitive Diversity and Strength-based, Talent-focus strategies

This course provides candidates with an overview of strength-based, talent-focused education with particular attention given to how students differ, and the strengths and talents they bring to the classroom. Candidates will gain skills in identifying and using students' strengths, interests, and talents to help cognitively diverse students succeed in the classroom, develop executive function, social skills, and productivity. Understandings will conclude with procedures for curriculum development using a strength-based, talent-focused model. **3 credits**

EXA 800: Clinical Practicum

Doctoral students will engage in a clinical experience under the supervision of an educational therapist and expert in gifted education. The Practicum is designed to apply theory and skills from coursework deemed necessary to show emerging expertise in the area of twice exceptional education. The Practicum includes both assignments completed before arrival on campus and specific activities on campus. Candidates will present a study of a twice exceptional individual using the Suite of Tools Process during a child study session, develop a personalized student talent plan, report findings and recommendations to school or family. In addition, when on campus, candidates will attend seminars, observations, and workshops as well as develop and present a workshop to other professionals. Through observations, reflections, and discussions students will write an educational plan as part of a multidisciplinary team. The plan including a talent goals for that student. Requirements also include adapting IEP or 504 plans to meet the needs of twice exceptional learners as appropriate. This course is completed independently and in residence for a total of 135 hours. **3 credits**

SEM 720: Doctoral Seminar 2

Doctoral seminar expands over a two-year period through two phases SEM 710 and SEM 720 and meets one full day per month over the course of fall and spring semesters. The seminar consists of two components: explorations of critical issues in the field of cognitive diversity and twice exceptional education and skill development laboratory. Seminar topics are introduced by guest speakers and the professor who will engage students in lively discussions as they explore, critique, and synthesize critical issues in the fields of cognitive diversity, neuroscience, psychology, and education such as advocacy, mental health, social, emotional, and cognitive development, positive and humanistic psychology. The writing laboratory component will support students in the development of their writing and communication skills, professional portfolio development, and identification of a problem of practice in the field of cognitive diversity over the course of two years. The expectation is that all students will have at least two manuscripts that they submit for publication by the end of the two years.

3 credits

RES 721: Quantitative Methods

This course provides the basis for understanding, applying, and interpreting univariate statistics in educational settings and introduces multiple correlational research. The student will relate specific

quantitative research questions and hypotheses to appropriate statistical procedures as well as analyze each procedure using appropriate software. Students will use data sets that apply directly to educational research. **3 credits**

IEC 621: Foundations Of Creativity (Ed.D. Program)

The major purpose of this course is to study the theoretical and practical aspects of creativity—what is creativity, how do we develop it in ourselves and in our students. The course is an overview of major definitions, theories, and research related to the study of creativity and the creative individual. Class members will learn techniques for stimulating creative thinking as well as strategies for adapting existing curricula to develop creative thinking abilities in students. Topics also include the assessment of creative thinking, methods for enhancing personal creative abilities, and techniques for examining the creative process. **3 credits**

RES 722: Qualitative Methods

This course conveys the history and characteristics of qualitative methodology used in educational settings. A theoretical and practical examination of qualitative methods will include the use of qualitative research as students gain experience in employing qualitative techniques and analyses. **3 credits**

IEL/IEC 733: Creating Strength-Based, Talent-Focused Schools

This course delves deeply into strength-based, talent-focused approaches in schools with cognitively diverse populations. Course material will address major tenants of innovative schools including those who are strength-based philosophy before exploring several models for strength-based programs and explore appropriate models that support this approach. Students will create a vision for an innovative school that is founded on developing creativity, talent, and interests and write a grant proposal to fund it. **3 credits**

CAP 991: Directed Research Part 1 - Proposal Development (1)

This is the first of a 4-course sequence leading to the completion of the capstone project. Dissertation preparation. This in-person course is designed to have students complete Chapters 1 and 2 of their Capstone Problem of Practice Dissertation or Project After completion of CAP 991, students meet independently with their Capstone advisor and committee to complete each of the following courses. There is a syllabus for each course. The advisor submits a grade of P, I, or F at the completion of the requirements in the syllabus for that course. Each of the courses should not exceed one semester (A & B) but may be completed earlier. **3 Credits**

CDL 723: Social-Emotional Diversity:

Understanding the Social and Emotional Issues of Twice-Exceptional Learners - (Ed.D.) Exploration of the biological and environmental factors contributing to cognitive diversity with an emphasis on the

social and emotional implications for the twice-exceptional individual in the classroom and in life is the focus of this course. The course will include a broad overview of the most prevalent categories of special education in order to provide the foundation for advanced conceptualization. Through a case study approach, students will gain an in-depth understanding of how their social and emotional challenges impact interpersonal relationships, academic performance, and ability to attain personal goals. The concepts of motivation, resilience, and grit will be considered in the context of this population. Students will be able to apply this multifaceted social-emotional model for maximizing individual growth, development, and achievement. **3 Credits**

PROBLEM OF PRACTICE PROPOSAL DEFENSE--THIS IS DONE ONLINE WITH A COMMITTEE

CAP 992: Directed Research Part 2: Data Collection and Chapters 1- 3)

This is the second of a 4-course sequence leading to the completion of the Capstone Project. A focus is on the completion of the Proposal Completion, Proposal Defense, and IRB approval. **3 credits**

EXA 850: Doctoral Internship

Internship experiences are designed by students after they receive their Certificate in Twice Exceptional Education and attend an internship workshop overview given once a semester. Students discuss their goals and a concentration area in which they are developing expertise with their academic advisor. Together they discuss possibilities and available opportunities. When the student has a focus or an idea, he or she makes an appointment with the Internship coordinator who will apprise the student of the process to be followed in securing the internship, completing the internship contract, and engaging in the internship. Specific information is found in the Internship Classroom.

** Note students can extend their internship for a more in depth experience earning from 6 to 9 credits and use those credits as a replacement for one or two elective courses. Consult with your advisor and the Dean of Graduate programs for assistance.*

CAP 993: Directed Research Part 3: Data Analysis and Chapters 4-5

This is the third of a 4-course sequence leading to the completion of the problem of practice Research Study. This course should focus on Implementation, data collection, and Chapters 1-3 completed/ PoP project- implementation of project. **3 Credits**

CAP 994: Directed Research Part 4: Oral Defense - Paperwork Completion

This is the fourth of a 4-course sequence leading to the completion of the Problem of Practice Capstone dissertation or project including the Oral Defense. In this course students are to focus on data analysis and synthesis of findings. The candidate should work with the doctoral committee to flesh out the results and discuss implications. Chapters 4 & 5 should be completed by the end of this

phase. With committee's approval students will schedule and participate in their oral defense of their Problem of Practice Capstone. **3 credits**

If more than a semester is needed to complete this requirement, students will need to register for CAP 995.

CAP 995: Directed Research Part 4: Continuing Registration if needed

This is a repeat of CAP 994 if more than a semester is needed for the completion of the Problem of Practice Capstone dissertation or project including the Oral Defense. In this course students are to focus on data analysis and synthesis of findings. The candidate should work with the doctoral committee to flesh out the results and discuss implications. Chapters 4 & 5 should be completed by the end of this phase. With committee's approval students will schedule and participate in their oral defense of their Problem of Practice Capstone. **3 credits**

ELECTIVES

SOCIAL JUSTICE AND EQUITY IN COGNITIVELY DIVERSE LEARNERS AND TWICE EXCEPTIONALITY (CDL).

CDL 703: Mindfulness Theory And Its Application To The 2e Student

Mindfulness is a mental state achieved by focusing one's awareness on the present moment, while calmly acknowledging and accepting one's feelings, thoughts, and bodily sensations. In recent years, mindfulness has become a cornerstone of many therapeutic interventions with a variety of populations. This course will explore the benefits of mindfulness for a 2e population. In general, the benefits of mindfulness include stress reduction, greater focus, emotional balance, and enhanced cognitive flexibility. These areas of emotional regulation are often problematic for 2e children and adolescents; therefore, we will examine the different styles of mindfulness and their applications to various 2e populations in order to achieve the aforementioned benefits within this group. In addition, the interface between mindfulness and resilience will be explored. There is considerable evidence indicating that mindfulness techniques lead to greater resilience, which in turn leads to greater overall success for the individual. We will examine that research and its applications to the 2e population.

3 credits

CDL 700: Independent Study

Topics for exploration are decided between the candidate and the advisor relating to a specific area of interest in cognitive diverse learners. **1- 6 credits**

INNOVATION & CURRICULUM IN EDUCATION

IEC 622: Innovative uses for Technology in the Classroom for Cognitively Diverse Learners

An introduction to the integration of technology in the schools focusing on how instructional technology affects and advances K-12 learning especially for students who have challenges accessing information, organizing ideas, and communicating what they know. Topics include principles of integrating technology to strengthen standards-based curricula, instruction, and assessment; selection of software and other technological materials; uses of technology for collaboration with school-related audiences; issues of digital equity and ethics; and strategies for using digital technology with special needs populations. **3 credits**

IEC 731/CLD 731: Talent Development for Diverse Minds: Programs and Strategies

This course will provide a more critical understanding of models purposefully designed to develop specific kinds of talents and creative abilities in students. Based on the knowledge of the different kinds of minds (artistic, creative, scientific) candidates will identify programs that align to the way these individuals see the world. A survey of specific programs both in and outside of the school environment will reveal authentic opportunities for talent development. Attention will be paid to their authenticity to the discipline and to the kinds of minds typically aligned to expertise and creative productivity in varied disciplines. A major requirement will be interviews with creators from different disciplines. **3 credits**

IEC 732 / IEL 732* Curriculum Leadership

Curriculum Leadership is the study of theoretical and practical aspects of designing curriculum for advanced students. This course has been designed to familiarize educators with the various theories, principles, and models of curriculum development for gifted and talented students. A variety of curricular models will be explored, including the Multiple Menu Model and the Parallel Curriculum Model, which will be used as a framework for developing differentiated and defensible curriculum for gifted students. Additionally, the course will explore curriculum modification techniques, methods for enrichment teaching, and assessment techniques that support the principles underlying curriculum design for advanced students. As a final project, each participant will choose a content area field of study and design a comprehensive unit following best-evidence research in curriculum design for the gifted and aligned to the appropriate state standards or Common Core State Standards (CCSS). **3 credits**

IEC 700: Independent Study

Topics for exploration are decided between the candidate and the advisor relating to a specific area of interest in cognitive diverse learners. **1-6 credits**

Innovative Educational Leadership

IEL 731: Educational Leadership and Organizational Management Theory for Dynamic Schools

This course introduces theories and approaches to organizational management, utilizing Gareth Morgan's text *Images of Organization* to explore and examine a variety of institutional management strategies and approaches. Candidates will also survey important current perspectives of management theory and assess the potential impacts of these perspectives for programs in action. Candidates will grapple with Morgan's organizational metaphors to develop their own perspectives about how to lead and manage an institution with a cognitively diverse population. By the end of the course, students will craft a leadership statement and a strategic plan for program development.

3 credits

IEL 734: Program Evaluation and Modification

This course introduces theories and approaches to program evaluation, also providing practical models and tools for planning and conducting an evaluation. Candidates will survey a variety of qualitative, descriptive, and inferential methodologies that can be applied in formative and summative evaluation contexts. Candidates will work with logic models to identify information needs, create evaluation questions, and develop a system for data collection, analysis, and reporting. By the end of the course, students will produce a draft of a hypothetical evaluation proposal. **3 credits**

CDL 700: Independent Study

Topics for exploration are decided between the candidate and the advisor relating to a specific area of interest in cognitive diverse learners. **1-6 credits**

COMPREHENSIVE EXAMINATION

The purpose of the comprehensive examination is to (a) build professional capacity, (b) evaluate your preparedness to conduct an inquiry in a problem of practice, and (c) assess the breadth and depth of important content knowledge in your field of study. The examination assesses capacity, preparedness, and content knowledge in a manner that is relevant, authentic, and formative.

As such, the exam will consist of a production of artifacts for the examination that are germane to becoming a scholar-practitioner. These artifacts will demonstrate that you have:

- an ability to reason across disparate stances and research
- an insightful and respectful understanding of the debates and tensions within the field and a clear ability to articulate your stance within them
- an ability to express your ideas in the academic formats expected for wider dissemination

- an ability to evaluate and critique research that reflects a range of research traditions and
- a deep regard for the potential and limitations of the research and its relationship to theory and practice.

The examination is a written and oral assessment that must be passed before the presentation of a dissertation proposal. The comprehensive exam will be the responsibility of a committee of three faculty members most connected to the goal and vision of the doctoral student. The committee is responsible for administering and overseeing the comprehensive examination process and is responsible for evaluating all components. The examining committee participants will be required to evaluate all portfolio components and submit written feedback to the major advisor by the completion of the oral.

There are two components for the examination: a written portfolio and an oral defense.

1. Written Portfolio Component

The written portfolio will consist of a minimum of five elements:

A. Publishable Manuscript and Book Review. The student must complete a publishable manuscript. For multiple author manuscripts, the student must be the first author. In such cases, the manuscript must be accompanied by a brief explanation of the student's role in the manuscript. A second manuscript is a critical review of a book relevant to the field.

B. Critical Synthesis. The student must write a critical synthesis of the research literature in their area of study. The synthesis should be single authored and demonstrate the student's knowledge of the research literature, his/her ability to synthesize and critique that research literature, and skill at communicating these abilities in writing.

C. Two or More Additional Products. The student, in collaboration with the Advisory Committee, must design at least two additional scholarly products that demonstrate expertise and competence in the field of cognitive diversity and strength-based, talent-focused education.^[JL8]

These products must provide evidence that the student can (a) construct a clear, evidence-based argument for a scholarly position, (b) demonstrate depth and breadth of knowledge when analyzing and synthesizing a body of literature, (c) compose scholarly prose that is genre-appropriate and clearly written for the intended audience., and produce materials that can advocate for cognitive diversity by creating awareness.

Products could include, but are not limited to:

- Philosophy of Education and implications for leadership or advocacy

- Case study analysis including gathering data to establish learning profiles with recommendations for strength-based, talent-focused support
- Program design for a strength-based school
- Grant proposal for a pilot study of an innovative program
- Workshop presentation to increase awareness of cognitive diversity and the benefits of cognitive difference
- Conference presentations

2. Oral Defense Component

The comprehensive examination includes an oral examination that focuses on the student's portfolio products. The date for the oral examination will be set by the student and his/her Advisory Committee. At a minimum, the one-hour examination will be attended by the Advisory Committee and two outside readers. This should occur during the Summer Residency (Year 3).

Capstone Project: Problem of Practice Research

The Problem of Practice (PoP) should be a pressing issue from the doctoral candidate's perspective that affects their professional experience and that is related to some of the program's three areas: cognitive diversity and twice exceptionality, leadership, and strength-based, talent-focused curriculum within in the context of Cognitive Diversity in Education. The PoP should resonate with a larger audience, such as other educational leaders, policymakers, or researchers interested in educational leadership and policy.

In the 2nd summer of their program (beginning of Year 2), the doctoral student will register for Doctoral Seminar II where they will be guided in choosing a problem to be approved by their advisor and the course instructor. Coursework from the first year should help to frame issues that may be used to identify a PoP.

Capstone Proposal Structure

The proposal begins with a description of the PoP and why it is a compelling problem (2-3 pages). The next section is a review of the literature (about 6-8 pages). Then students detail their methods and plans for analysis as well as limitations and possible implications (6-8 pages). The proposal should include draft protocols for data collection.

Students should collaborate with their advisor regarding the proposal and should expect to complete several rounds of revisions. Students should also share the draft proposal with other advisors to receive ideas around framework and methods.

Proposal Oral Defense Meeting

The Proposal Oral Defense Meeting is a 60-minute meeting with the primary advisor and two associate advisors. The student provides a 15-minute overview of the proposal. The student may create a slide presentation and verbally convey key ideas and methodological decisions. Then the committee members will ask clarifying questions and make suggestions for revisions. The committee members will deliberate and inform the student of any necessary revisions. The decision at the proposal defense can include required revisions. If this is the case, the student has 30 days to complete the revisions and gain final approval from the primary advisor. The Proposal is then filed with the Dean of the Graduate School. Once approved, it is the responsibility of the doctoral candidate to submit their proposal protocol for research to the PoP Institutional Review Board (IRB) through the Office of the Dean.

The student's primary advisor will be listed as the primary investigator, though the student will write the IRB protocol for the advisor to review. Data collection cannot begin until the IRB has approved the capstone protocol. After the protocol passes the IRB review, the official approval letter should be forwarded to the major advisor and the Dean as it must be filed with the Proposal Approval Form.

Capstone Project

Students typically spend 2-4 months collecting data on their PoP. Data collection may include interviewing participants, administering surveys, observing meetings, instruction, leadership work, and collecting documents. Then students analyze the data to respond to research questions.

The Capstone commonly incorporates the literature review and methods from the proposal, though the literature review may need to be updated based on advisor recommendations. The Capstone's findings section describes the empirical findings from the student's inquiry activities. The student provides implications for practice and should explain the strengths and limitations of several responses to the findings. Some students, in consultation with their advisor, may use a different structure for the Capstone, such as a 3-product model.

Similar to the PoP Proposal development, it is highly recommended that students work closely with their advisor to develop the ideas and structure of the Capstone. Students should periodically meet with each member of their committee to gain feedback and advice on various areas of the PoP.

Problem of Practice Defense Meeting

The defense meeting is scheduled for 90 minutes. The committee of three advisors, as well as two readers, should be involved. The student does a 20-30 minute presentation of methods, major findings, and implications. The student should also share concrete ideas on how these findings could shape or support improvement within a particular context either through informing policy, leadership practices, etc. The committee asks questions and engages in discussion around the implications and next steps for the work and the student.

Notice to Prospective Doctoral Degree Program Students

This institution is provisionally approved by the Bureau for Private Postsecondary Education 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589 to offer degree programs. To continue to offer this degree program, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.
- Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by 2021, and full accreditation by 2024.

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
- Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

This statement is printed several times in this catalog and is required by the Bureau Of Private Postsecondary Education. A signed dated copy is included in the enrollment agreement.

V. Admissions

Application Requirements

Criteria for admission to graduate study at The Bridges Graduate School include both qualitative and quantitative requirements to ensure that applicants possess the educational preparation to succeed academically at the graduate level. The criteria are established by the Board of Trustees and the Provost. No applicant is denied admission on the basis of sex, race, creed, or national origin.

Application Procedures

Students may register for graduate classes on a matriculated (degree-seeking) or non matriculated (non-degree-seeking) basis. All students registering for graduate classes must hold a baccalaureate degree or its equivalent and must demonstrate the ability to pursue graduate studies.

Prior to registration, prospective students must apply to the Director of Admissions. Applicants must provide:

- a completed application, along with the application fee
- official transcripts from all colleges and universities attended
- proof of all prerequisite requirements, including minimum grade point average
- proof of immunization form for all students born after 1956

Application materials may be requested from the Director of Admissions, (818-506-1091) Or, prospective students may visit the website and apply online.

Prospective students are encouraged to read the relevant sections of this catalog, including the portions that describe the degree program in which they are interested. General questions should be addressed to the Dean of Graduate Programs.

International Applicants

Students who have earned any degree in a country other than the United States or Canada must have their transcripts and or program assessed by an appropriate educational service for a comprehensive course-by-course evaluation. This report will determine if the student completed the equivalent of a U.S. degree. Prospective international applicants should contact the Dean of Graduate Programs with questions and for assistance.

Application Deadline

Application for graduate admission is ongoing, although prospective students are encouraged to apply *at least one month* prior to the start of any given semester. See the Calendar in this catalog. Generally speaking, Doctoral students start their program of study in June of each year and Certificate and Masters students start in July.

Transfer of Credit

Students who wish to use transfer credits toward any of the graduate programs must make this request at the time of the initial application. The amount of graduate credit transferable into a Master's degree program from other accredited institutions is limited to nine-semester credits.

All transfer credits must represent satisfactory work (a grade of B or better) at the institution where the work was completed and must be in accordance with a planned program of study. Transfer credits older than 10 years are not accepted toward any graduate program. Courses used to earn a degree for another program are not transferable to any graduate program. Transfer of courses completed after a student is admitted to a graduate program must be approved in advance in writing by the Dean of Graduate Programs.

Transfer credits are not included in a determination of cumulative GPA's for graduate students.

Notice:

1. The Bridges Graduate School of Cognitive Diversity in Education has not entered into an articulation or transfer agreement with any other college or university.
2. The institution does not award credit for prior experiential learning and does not use an "Ability to Benefit" exam as an alternative to enrollment.

Acknowledgement of Prior Coursework Competencies

If an applicant's previous graduate coursework includes any of the basic required courses in a plan of study, the applicant may request to substitute an elective course or courses for the same amount of credit. These requests are to be submitted in writing with the application and may be approved by the Academic Affairs Committee upon demonstration of competency in that area.

Admission of Candidate with a prior Doctoral Degree

Students who already hold a doctoral level degree are not admitted and duplication of degree or admission to a lesser degree is not permitted. However, in extraordinary circumstances, the candidate may request an exception from the Dean of the Graduate School. The candidate must demonstrate that the second degree field of study and program are distinctly different from that of the original degree and that there is a professional or scholarly purpose that requires this second degree.

Student Status

Graduate students may be full-time or part-time students according to the number of credits for which they are enrolled in a semester. Full-time enrollment consists of six semester hours or more.

Matriculated Student

To matriculate in a degree program, students must complete an application and meet the general requirements for admission. For program requirements, students should read the section of this catalog describing the program. General questions should be addressed to the Office of Dean of Graduate Programs.

Non-matriculated Student

Students who complete an application and meet the general requirements for admission to the Office of Graduate Admissions may complete one semester of graduate study with a maximum of six credits as non-matriculated students. To enroll for further study, students must apply and be admitted to a degree or certificate program. Bridges reserves the right to exclude non-degree students from graduate courses offered to students in degree or certificate programs.

Special Student

Students who wish to register for a course but who are not seeking a graduate degree must complete an application and meet the general requirements for admission to the Office of Graduate Admissions. Permission to take a course is given on a space-available basis, and some programs may not allow students to register for courses unless they have been admitted to the program. Special students who wish to continue their studies must apply and be admitted to a degree or certificate program.

International Students and Visas

Generally, a citizen of a foreign country who wishes to enter the United States must first obtain a visa, either a nonimmigrant visa for temporary stay, or an immigrant visa for permanent residence. You must have a student visa to study in the United States. Your course of study and the type of school you plan to attend determine whether you need an F-1 visa or an M-1 visa. At The Bridges Graduate School, we may be able to help provide documentation for graduate students to obtain an F-1 visa. For assistance in obtaining this visa contact the admissions office. There is a recovery-based fee service of costs + \$125 to obtain a visa. For more information contact GradAdmissions@Bridges.edu and the United States Department of State web site at <https://travel.state.gov/content/visas/en/study-exchange/student.html>

Language Proficiency

The language of instruction is English. The Bridges Graduate School may require the Test of English as a Foreign Language (TOEFL). All candidates to any educational program at The Bridges Graduate School are expected to be fluent in the English Language. They are expected to understand the English language at an advanced level of proficiency, able to read and comprehend graduate level text independently. They must be able to write well-organized paragraphs at a level that approximates native English-speaking graduate students who are meeting graduate level standards. Any student who applies with English as a second language without an advanced degree from an accredited English-speaking university will be asked to provide proof in both a written and oral interview prior to admission and with the results of a TOEFL exam. See the Admissions Policy for more information. Any applicant with questions about English Language proficiency is encouraged to contact GradSchoolDean@bridges.edu or GradAdmissions@Bridges.edu for more information. Prospective students whose native language is not English and who have not earned a degree from an appropriately accredited institution where English is the principal language of instruction must demonstrate college-level proficiency may be required to demonstrate proficiency through the use of the Test of English as a Foreign Language. (TOEFL.) See the Admissions Policy for additional information.

English language services, including instruction such as ESL, are not provided.

Recommendation for Prospective Students

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the school's Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

- B. This *Enrollment Agreement* is a legally binding instrument when signed by the student and accepted by the school. Your signature on this agreement acknowledges that you have been given a reasonable time to read and understand it. You have been provided two copies of this *Enrollment Agreement*; the second copy is for your records.
- C. This agreement is for the period of time shown on the top of this page and covers the program initialed below. (*Initial the correct program & cross out the other two programs.*)
- a. A one year Certificate Program offered online and at BRIDGES Graduate school. A total of 15 Credits is required to complete the certificate program. **Initials** _____
 - b. A two-year, Master’s program offered to qualified Bachelor’s students. The program is offered online and at The BRIDGES Graduate school. A total of 30 additional approved graduate credits is required to complete the Master of Education (M.Ed.) program. **Initials** _____
 - c. A three + -year, Doctoral program offered to qualified Master’s students. The program is offered online and at The BRIDGES Graduate school. An additional 60 credits of approved Graduate work is required to complete the Doctor of Education(Ed.D.) program. **Initials** _____

Anticipated Start Date: _____ End Date: _____

D. STUDENT’S RIGHT TO CANCEL

- 1) A student has the right to cancel his or her agreement for a course of instruction, without any penalty or obligations, through attendance at the first class session, or the seventh day after enrollment, whichever is later. After the end of the cancellation period, you will have the right to stop school at any time; and you have the right to receive a pro rata refund if you have completed sixty (60) percent or less of the course. Your cancellation date will be on:

Seven Days after enrollment which is ____ - ____ - _____
MM - DD - Y Y Y Y

Or through the first class session ____ - ____ - _____ Whichever date is later.
MM - DD - Y Y Y Y

- 2) If you are requesting to withdraw from the program after it has started, or a withdrawal is caused by you violating conduct as per the Catalog or Graduate School policies, you will be returned any unearned charges by receiving a pro-rated refund based on a calculated cost per day of your program, minus the \$125 non-refundable application & administration fee, provided this withdrawal happens no later than 60% into your online-class program (week 6), or day number 6 of 10 of the summer residency program. After 60% of the in-class program is complete, tuition is considered “earned” and no refund is allowed.
- 3) Cancellation occurs when the student provides a written notice of cancellation at the following address: Bridges Graduate School, 3921 Laurel Canyon Blvd. , Studio City, CA 91604. This can be done by email or by hand delivery.
- 4) The written notice of cancellation, if sent by mail, is effective when deposited in the mail properly addressed with the proper postage.
- 5) The written notice of cancellation need not take any particular form, and, however expressed, it is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.

This enrollment agreement will be valid for the length of the program that the student is enrolled, (Certificate Program: 2 years, Master’s Program: 4 years, Doctoral Program: 6 years) and may be extended for no more than 1.5 the required time to complete your program provided that the student has requested and received approval for those extensions.

Any questions a student may have regarding this Enrollment Agreement that have not been satisfactorily addressed by the institution may be directed to the Bureau for Private Postsecondary Education, P.O. Box 980818, West Sacramento, CA 95798-0818, (916) 574-8900. The website is www.bppe.ca.gov.

Bridges Graduate School complies with California state education regulations and federal requirements regarding procedures in place for filing complaints and seeking resolution of perceived problems. For additional information, please refer to the graduate school catalog or the graduate school complaint policy.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education, by calling (888) 370-7589

or by completing a complaint form, which can be obtained on the bureau's Internet Website, www.bppe.ca.gov.

E. NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credit you earn at Bridges Graduate School is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree or certificate that you earn at Bridges Graduate School is also at the complete discretion of the institution to which you seek to transfer. Enter your program title here:

If the degree or certificate that you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at the institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Bridges Graduate School to determine if your degree will transfer.

F. STUDENT TUITION RECOVERY FUND

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.”

(b) In addition to the statement required under subdivision (a) of this section, a qualifying institution shall include the following statement in its school catalog:

“It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the

closure of the institution or location of the institution or were enrolled in an educational program within the 120 day period before the program was discontinued.

3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary awards by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

- G. Prior to signing this enrollment agreement, you must be given a catalog or brochure and a School Performance Fact Sheet, which you are encouraged to review prior to signing this agreement. These documents contain important policies and performance data for this institution. This institution is required to have you sign and date the information included in the School Performance Fact Sheet relating to completion rates, placement rates, license examination passage rates, salaries or wages, and the most recent three-year cohort default rate, if applicable, prior to signing this agreement.

Date: ___-___-____ Catalog/Brochure **Initials** _____

"I certify that I have received the catalog, School Performance Fact Sheet, and information regarding completion rates, placement rates, license examination passage rates, salary or wage information, and the most recent three-year cohort default rate, if applicable, included in the School Performance Fact sheet, and have signed, initialed, and dated the information provided

Date: __-__-____ Catalog/Brochure Initials _____

You have been provided two copies of this Catalog/Brochure, the second copy is for your records.

H. NOTICE TO PROSPECTIVE DEGREE PROGRAM STUDENTS

This institution is provisionally approved by the Bureau for Private Postsecondary Education, 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589 to offer degree programs. To continue to offer this degree program, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.
- Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by 2021, and full accreditation by 2024.

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
- Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

Institutional Representative Initials: _____ Student Initials: _____

Date: _____ Date: _____”

(b) The student and an institutional representative shall initial and date the notice prior to executing an enrollment agreement. An initialed copy of the notice shall be given to the student and the original shall be retained in the enrolled student's records.

(c) The notice shall also be posted immediately preceding or following as to clearly pertain to the description of the degree program, including, but not limited to, one or more of the following; admissions requirements, length of program, courses offered or areas of focus. Such notice shall be included, at a minimum, in the following locations:

- (1) The institution's catalog where each degree program is described.
- (2) The institution's website where each degree program is described.
- (3) The institution's degree program brochures.

I. REFUND INFORMATION

- 1) If a student cancels their enrollment prior to attending class, they are entitled to a full refund of all monies paid.
- 2) If the *Enrollment Agreement* is canceled, the school will refund the student any monies he/she paid, less a registration or administration fee not to exceed \$125, and less any deduction for equipment not returned in good condition, within 45 days after the notice of cancellation is received.
- 3) The student may withdraw from the school at any time after the cancellation period (described above) and receive a pro-rata refund if they have completed 60 percent or less of the period of

attendance. The amount of that refund is to be “pro-rated” according to the not-completed portion of the program, less the cost of any equipment returned in good condition (good condition does not include equipment that a seal is broken, logon occurred, or is marked or damaged in any way). The refund is to be paid within 45 days of withdrawal.

For example, if the student completes only 45 hours of a 90-hour course and paid \$500 tuition, the student would receive a refund of \$200, the computation is as follows:

$$\begin{aligned} (\text{Tuition}) \times (\% \text{ of clock hours remaining}) &= \text{Refund} \\ (\$500) \times (.50) &= \$200 \end{aligned}$$

For the purposes of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- a. The student notifies the institution in writing of the student’s withdrawal in accordance with the terms of Section D of this *Enrollment Agreement*.
- b. The institution notifies the student in writing of the termination of the student’s enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absence in excess of the maximum set forth by the institution; and/or failure to meet the financial obligations to the school.
- c. The student has failed to attend class for three (3) class weeks without discussion with the institution and agreement of a plan for completing the work missed.
- d. For the purposes of determining the amount of the refund, the date of the student’s withdrawal shall be deemed the last date of recorded attendance.
- e. For the purposes of determining when the refund must be paid, the student shall be deemed withdrawn when three (3) class weeks have been missed without contact from the student.
- f. The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

J. Loans :

- a. If the student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur:
 - i. The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
 - ii. The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

K. FEES AND CHARGES

The student is responsible for the following fees and charges:

Tuition:	\$ 500 / Credits X 3 Credits / Course = \$1500
Technology Fee	\$ 30 / Credits X 3 Credits / Course = \$90
Administrative Fee	\$25 / Credits X 3 Credits / Course = \$75
	One Credit = \$555
Housing Fee / Room & Board	Charged on a cost recovery as utilized
Graduation Fee	Included
Textbooks (estimated cost)	\$75 / Course Estimated
Student Tuition Recovery Fund	\$0.00 / Estimated at this time.
	This fee is NOT REFUNDABLE

Charges for Current Period of Attendance (Fall, Spring, Summer /trimester)

Total Credits Enrolled _____ X \$555 = _____

THE TOTAL AMOUNT FOR ALL FEES, CHARGES, AND SERVICES THE STUDENT IS OBLIGATED TO PAY FOR THE COURSE OR EDUCATIONAL SERVICE IS ESTIMATED TO BE:

Estimated Total Cost Due for entire program: (circle one)

Certificate	\$8,325 + texts (1 year)
M.Ed.	\$16,650 + texts (2 years)
Ed.D	\$33,300.00 + texts (3 years)

TOTAL CHARGES FOR THE CURRENT PERIOD OF ATTENDANCE: \$ _____

ESTIMATED TOTAL CHARGES FOR THE ENTIRE EDUCATIONAL PROGRAM: \$ _____

THE TOTAL CHARGES THE STUDENT IS OBLIGATED TO PAY UPON ENROLLMENT: \$ _____

- L. This agreement is a legally binding contract when signed by the student and authorized by Bridges Graduate School. It is not operative until the student makes an initial in person visit to the institution or receives an online tour with the Dean of Graduate programs and or attends the first class or session of instruction.

_____ (Date of Tour, Visit, or First Class)

I UNDERSTAND THAT THIS IS A LEGALLY BINDING CONTRACT. MY SIGNATURE BELOW CERTIFIES THAT I HAVE READ, UNDERSTOOD, AND AGREED TO MY RIGHTS AND RESPONSIBILITIES, AND THAT THE INSTITUTION’S CANCELLATION AND REFUND POLICIES HAVE BEEN CLEARLY EXPLAINED TO ME.

Signature of Student

Date

I accept this agreement and certify that Bridges Graduate School has met the disclosure requirements of the Education § 94902 of the California Private Postsecondary Education Act of 2009.

VI. Grade Policies (GPA)

Purpose

This policy will provide information on Satisfactory Academic Progress, our system for assigning letter grades, calculating Grade Point Averages (GPAs), changing grades, incomplete courses, and repeating courses.

Satisfactory Academic Progress

Satisfactory Academic Progress standards ensure that you are successfully completing your coursework and may continue to receive financial aid. All students receiving financial aid are required to meet SAP standards.

Federal regulations require the Graduate School to establish, publish, and apply standards to monitor your progress toward completing your degree program. If you fail to meet the SAP standards, you will be placed on financial aid warning or suspension. Your academic performance must meet the SAP standards below.

Bridges Graduate School's Satisfactory Academic Progress Policy evaluates both the quality (grade-point average) and quantity (credit hours completed) of the student's academic work. Students are evaluated at the end of each term.

There are three requirements that must be met to maintain Satisfactory Academic Progress – minimum cumulative grade-point average, maximum time frame, and pace of completion.

Graduate students must maintain a minimum cumulative GPA of 3.0 for the entire enrollment in their program.

There are time limits for each program:

Certificate in Twice-Exceptional Education must be completed in two years from the date of the completion of the first course.

Masters in Education (M.Ed.) in Cognitive Diversity must be completed in four years from the date of completion of the first class.

Doctorate in Education in Cognitive Diversity (Ed.D.) must be completed in six years from the date of completion of the first class.

Auditing a Course

With the permission of the Dean and a faculty member teaching the class it is possible for a student to Audit a class. Auditing a course means that the student can attend class meetings and have access to course materials, but will not receive credit for the course. The instructor may request the auditing student to limit participation in class depending on the needs of the instructor. Auditing students should be BGS admitted and in good standing.

Letter Grading System

Letter grades (including plus/minus) are awarded to indicate the scholarly achievement of a student at the completion of a course. All grades are awarded at the sole discretion of the faculty member in charge of the course. A grade must be submitted for each student on the course roster at the end of the semester. Students are apprised of class evaluation policies in each class at the beginning of the semester and on the syllabus. Questions regarding grading policies or a grade received in a particular course should be addressed to the instructor or the academic advisor.

Standards for Student Achievement

Candidates for graduate programs must achieve a cumulative grade point average of at least a 3.0 on a 4.0 scale for all courses taken as part of the approved graduate degree. No course may drop lower than B- to receive credit. Courses are given letter grades and qualitative and quantitative equivalents as described below in the table below.

Grading System		
May be used to Fulfill Degree Requirements	May not be used to Fulfill Degree Requirements	Status
A= Superior	Candidates for Graduate programs must achieve a cumulative grade point average of at least a 3.0 on a 4.0 scale for all courses taken as part of the approved graduate degree. No course may drop lower than B- to receive credit.	I = Incomplete
A- = Above Average		IP = In Progress
B+ = Above Average		NR = Grade not required
B = Average		X = Grade not submitted
B- = Below Average		W = Withdrawn
C+ = Unacceptable		J = Academic Misconduct
C = Unacceptable		N = Administratively Pending
D+ = Unacceptable		U = Unsatisfactory
D = Unacceptable		S = Satisfactory
D- = Unacceptable		
F = Failure or unofficial withdrawal		
SD = Satisfactory with Distinction	FV = Failure never attended	

Explanation of Grades

S (Satisfactory), and U (Unsatisfactory) or grades of Pass / Fail grades are reserved for graduate theses, internships, or other field experience that is not suitably evaluated using standard letter grades. SD (Satisfactory with Distinction) is reserved for graduate theses. S, SD, and U grades may be given only for courses so designated in the syllabus.

Incomplete (I) Grades: An instructor may submit a grade of I (Incomplete) only when circumstances leading to a student's failure to complete course requirements are known to be beyond the student's control (e.g., serious illness or unavailability of material or other conflicts) and only when the instructor and the academic advisor or dean has been properly notified and approve. The student must complete course requirements and the instructor must submit a grade change by the 10th week of the following semester or under special circumstances approved by the Dean and requested by the student, the student may choose to complete the course at the next regularly scheduled opportunity. There will be no additional tuition charge but the student will be required to pay fees for the second attempt at the same course. If these conditions are not met the grade automatically converts to an F (Failure). In the event that the instructor who granted the I grade is unable to evaluate whether the student has fulfilled the course requirements during the stipulated time period, the dean takes responsibility for evaluating the student's work and changing the grade.

A grade of IP (In Progress) is reserved for graduate students who have not completed their thesis or project requirement. When work is completed, the instructor submits a grade change, replacing the IP with a final grade.

A grade of W (Withdrawn) may be submitted only when a student has officially withdrawn from a course.

Grade Point System

The grade point system is used to determine all cumulative GPAs. A student receives four grade points for each A earned; three points for each B; two points for each C; one point for each D; and zero points for each F or FV. Instructors may choose to assign plus or minus grades as well. No other letter grades carry grade-point value. The possible grades and corresponding grade points are as follows:

Quality Point System		
A = 4.0	B- = 2.67	D+ = 1.33
A- = 3.67	C+ = 2.33	D = 1.0
B+ = 3.33	C = 2.0	F = 0.0
B = 3.0	C- = 1.67	FV = 0.0

A student's cumulative GPA is computed by dividing the total number of grade points awarded by the total number of semester hours attempted in which a grade carrying grade points is earned.

Change of Grade

Grades submitted at the end of the semester are considered final. In case of a clerical error or other extenuating circumstances resulting in an incorrect grade, a request for a grade change must be submitted by the instructor, with full written justification, to the dean. In the event that the original instructor is incapacitated or otherwise unavailable, a change of grade may be submitted by a designee selected by the dean. The dean must approve all grade changes and file the change in the student's record.

Repeating Courses

A student may repeat a given course once for which a grade of less than B- was earned. The repeated course must have the same prefix, number, title, and credit. The repeated course must be taken at The Bridges Graduate School. Only the passing grade and those credit hours completed will be used to calculate the GPA. Graduate students may repeat a maximum of two courses in the total degree program.

All grades remain on the permanent record. A passing grade will not replace a U grade, since the U is not computed in the GPA. Courses with letter grades A through B- cannot be repeated. Illegally repeated courses are not used to calculate the cumulative GPA.

Practicum courses may differ. Contact the dean for decision-making assistance.

Repeating courses may affect financial aid. Contact funding agencies for information.

Once a student has completed a Master's degree a final average for that degree or certificate is computed. Courses for that degree or certificate may not be repeated, and that final average is not affected by any subsequent graduate coursework completed at The Bridges Graduate School of Cognitive Diversity in Education

Feedback to students

Typically students will receive feedback from their professors within one week or seven days from the time the work is received by the professor. The response will either be an evaluation of student work or acknowledgment that the work was received with a further indication of when it will be reviewed and returned. Communications are most often online but may be through online video conferencing. Feedback on capstone projects is usually both formative and summative and students are expected to have regular scheduled monthly appointments with their advisors and colleagues to interact. A Final official evaluation of completed capstone work will be within 10 days. Notification of a certificate or degree is typically 6 weeks from program completion. To earn a graduate degree, a student must maintain a minimum cumulative GPA of 3.0 (B grade) on a 4.0 scale in all graduate courses completed at the graduate school. Transfer credits are not included in the average.

Transfer Credit

There is no automatic transfer of credit toward a graduate degree. The Bridges Graduate School has not entered into an articulation or transfer agreement with any other college or university. A maximum of 12 graduate-level credit hours of transfer work from an approved regionally or nationally accredited institution may be applied to a degree program upon academic adviser and the approval of the Dean of the Graduate School. The institution reserves the right to allow fewer transfer credits.

Specific restrictions:

1. Transfer work must be a coherent part of the required program of study.
2. Transfer work must be completed within the six-year period immediately preceding the date of graduation.
3. Only grades of B (3.0) or better are acceptable for transfer. Grades of S (satisfactory) or P (pass) are not acceptable.
4. Coursework taken to fulfill degree requirements for one degree may not be applied toward another degree.
5. Official transcripts must be submitted to the Graduate School (in a sealed envelope) from the institution at which the coursework being requested for transfer was completed. The institution must be accredited by an approved regional or national accrediting agency.
6. Transfer credit requested from institutions using the quarter system will be converted to semester hours using the following equation:

1 quarter hour = $\frac{2}{3}$ (.66) semester hour

2 quarter hours = 1- $\frac{1}{3}$ (1.33) semester hours

3 quarter hours = 2 semester hours

Transfer credit requests should be presented for consideration at the time the student applies for admission to the graduate school (see Candidacy section) or as soon as the coursework is completed. Approved transfer credit(s) will be included in the graduate student's academic record.

Transferability of Credits

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION - The transferability of credits that you earn at The Bridges Graduate School of Cognitive Diversity in Education is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the educational program that you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending The Bridges Graduate School of Cognitive Diversity in Education to determine if your Certificate in Twice Exceptional Education, the Master in Education (M.Ed.), or the Doctorate in Education (Ed.D.) will transfer.

VII. General Policies and Information

A. Academic Appeals: Waiver of Academic Regulations

Students are expected to adhere to all regulations of the School. However, unusual and extenuating circumstances may warrant a modification of certain regulations.

Students should not request a waiver of any regulations without very strong evidence to justify the waiver. Requests for waivers are made by completing an Academic Appeals Petition in the forms section in the back of the catalog. The dean for the graduate school makes decisions on requests for waivers. The dean's decision is final. A minimum of one month is necessary to process academic appeals.

B. Student Integrity, Academic Honesty, and Academic Misconduct

Student Code of Conduct

Bridges Graduate School of Cognitive Diversity in Education strives to be an institution of academic excellence. The Graduate School community is diverse by nature and those who choose to become a member of the school's community accept the responsibility of collaborating in order to attain the Graduate Schools' mission as an institution of higher learning. Each member of the community is expected to demonstrate respect for the objectives of the institution and the views shared within the Graduate School's community. In the work and drive to accomplish its goals, community members of Bridges Graduate School members aspire to maintain the following expectations:

1. Maintain and preserve academic integrity by avoiding all forms of intellectual and academic dishonesty.
2. Treat all others with dignity and respect.
3. Demonstrate respect towards the property and rights of others.
4. Demonstrate interest for the well-being and safety of all collaborators (Act with concern for the safety and well-being of all associates.)

Academic Honesty and Misconduct

All graduate students are expected to display honesty and integrity in completing course requirements and following college academic regulations. "Academic misconduct" refers to any form of plagiarism or cheating on examinations or assignments, and is inconsistent with the aims and

goals of The Bridges Graduate School for Cognitive Diversity in Education. Instances of academic misconduct include but are not limited to:

- Prior acquisition or possession of an examination and submission of false data
- Submission of the work of another individual without proper acknowledgment
- Performance of work in a course for another individual while registered in the same course
- Failing to demonstrate academic integrity by not upholding the individual's basic share of responsibility for collaborative coursework and/or assignments.

PROCEDURES & DUE PROCESS IN CASES OF ALLEGED ACADEMIC MISCONDUCT

Throughout the following description of the possible steps in the review process, the term “regular business day” is to be defined as a day upon which classes are held at the college, with the exception of Saturdays and Sundays.

The Academic Misconduct Committee serves as the final level of appeal in the review process. It is composed of four (4) committee members:

- The Provost of the Graduate School
- The Dean of the Graduate School
- The two appointed faculty members

No penalty for any alleged instance of academic misconduct may be imposed unless the student has been apprised of the allegation, the penalty, and the procedures of due process that are available under this policy. Neither the instructor nor the student should be represented or accompanied by an attorney.

I. For Alleged Academic Misconduct in Connection with a Course.

Throughout the entire process, the student is expected to continue attending classes and complete all coursework. At any point in the process, the student has two choices: to accept the allegation of academic misconduct and the stipulated consequences indicated below in the Statement of Resolution or continue the Formal Procedure as detailed below:

Statement of Resolution

The Statement of Resolution is a written record of an allegation of academic misconduct and the resolution of the allegation in keeping with the institution’s Policy on Academic Misconduct.

The Resolution of the allegation consists of two sections: Section A which provides documentation of a student being found not to have engaged in an act of academic misconduct, and Section B which details the sanctions imposed if it is found that a student has engaged in academic misconduct.

If the student admits academic misconduct, the instructor has the authority to impose any of the following sanctions:

- 1) Issue a written warning
- 2) Allow the student to repeat or resubmit academic work, telling the student what grade penalty, if any will be assessed
- 3) Submit a recalculated grade for the course Full-time status: Full-time academic status typically consists of a course load of 9 graduate-level credit hours per semester.
- 4) Submit a failing grade for the course. Note that the “J” or misconduct component of the “FJ”, or “UJ” assigned for academic misconduct will be recorded on the student’s “internal” audit, but will not appear on the student’s official transcript and quality points will be averaged, if applicable, even if the student repeats the course

If the student feels he/she has not engaged in an act of academic misconduct or disputes the allegation or sanctions, then the student has the right to appeal and will follow the procedure outlined below.

If the student withdraws from a course while academic misconduct allegations are being addressed, the student will receive a “W” at the time of withdrawal. If it is substantiated through the academic misconduct due process procedure that the student engaged in academic misconduct during the course, the grade will be converted to a “WJ”. The “J” component of the grade will be recorded on the student’s “internal” audit but will not appear on the student’s official transcript. If the charges are not substantiated, the grade will remain a “W.”

A. PRELIMINARY PROCEDURE

1. Preliminary discussion between the student and the instructor should be the first course of action in resolving the question of academic misconduct. When an instructor suspects that a student has cheated on a paper, exam, project, or any assignment, the instructor shall consult with the student first within a reasonable period of time (after the suspected misconduct is discovered but before the end of the following semester [spring or fall]). As part of this preliminary process, the instructor will inform the Dean of the Graduate School and the student of the allegation and set up a time to discuss the allegations with the student. The student-faculty advisor may also be present at the meeting. The instructor will provide the student with a copy of the Academic Misconduct Policy and procedures prior to this meeting. The student will have the opportunity to explain any supposed or alleged misconduct, to present evidence of innocence, or give information relevant to the investigation. If this meeting occurs after the semester has ended, the student will receive an “N” grade for the course until the matter is resolved.

2. If this matter is unresolved in the preliminary discussion or the student disputes the sanctions, then the student has the right to appeal and will follow the formal procedure. If this is the case, then the original grade will remain on the transcript until the student has completed the due process.

3. If a student is found not to have engaged in academic misconduct during the preliminary discussion, the instructor completes a written statement containing the resolution and retains a copy of it. The student will be provided with a copy and a second copy of this form will remain on file in the Provost's Office for a period of seven (7) years. The written statement of resolution finalizes the preliminary procedure.

B. FORMAL PROCEDURE

1. In the case of an allegation of academic misconduct where the preliminary procedure fails to resolve the situation, the instructor must notify the Dean in writing explaining the alleged misconduct and steps taken to resolve it *within five (5) working days* of the conclusion of the preliminary procedure.

2. *Within five (5) working days* of the receipt of the instructor's written notification, the Dean will send a registered letter to the student's local address or address of record informing the student of the allegations and possible consequences, enclosing a copy of this policy, thereby informing the student of his/her right to due process.

3. The student must submit to the Dean a written request for review of the allegation of academic misconduct *within five (5) working days* of receipt of the Dean's written notification.

4. The Dean, *within five (5) working days* of receipt of the student's request, will forward copies of the request to the members of the Academic Misconduct Committee.

5. The chair of the Academic Misconduct Committee, *within five (5) working days of the receipt of the documents* will schedule a meeting as soon as possible with the student, the instructor/exam supervisor, and the members of the Academic Misconduct Committee. Prior to the meeting, copies of all previous correspondence concerning the allegation of academic misconduct will be forwarded to all committee members for review. At the meeting of the Academic Misconduct Committee, testimony will be received from all parties in the presence of the student, instructor/exam supervisor, and the Dean. The student has the right to cross-examine any witnesses who have presented evidence against him/her. The committee has the right to schedule further meetings and/or seek further evidence as necessary. The Academic Misconduct Committee's final judgment will be reached in private conference, with two-thirds majority vote being required for the binding decision.

6. *Within five (5) working days* following the meeting, the chair of the Academic Misconduct Committee will prepare a written decision which will stand as the final determination of the allegation of academic misconduct. The chair of the Academic Misconduct Committee will send copies to the Provost's Office, the student (via registered mail), the instructor/exam supervisor, the Dean, and all members of the committee.

a. If the Academic Misconduct Committee determines that the allegation of academic misconduct is not substantiated, the chair of the committee, after consultation with the exam supervisor, will require the exam supervisor to submit a score. The student and exam supervisor will receive a copy of a written letter of resolution.

b. If the Academic Misconduct Committee determines that the allegation of academic misconduct is substantiated, the sanctions will be outlined in the written letter of resolution. Sanctions may be determined with input from the supervisor. The written resolution will be kept on file in the Provost's office for a period of seven (7) years.

c. If it is determined that a student engages in a second academic misconduct offense the penalty may be academic dismissal from the college.

7. Students shall be informed of their right to appeal in the Academic Misconduct Committee's written decision. Students must appeal, in writing, to the Provost within five (5) working days of receipt of the decision

III. COMPLICITY IN ACADEMIC MISCONDUCT

When it has been determined by an instructor that another student(s) in the class has been involved or assisted with the alleged misconduct of a student, the alleged accomplice will meet with the instructor to discuss his/her role in the incident. If the instructor feels that there is sufficient evidence to indicate complicity in the misconduct, the procedures outlined above will be followed. If the accomplice is not a member of the class, the accomplice will be referred directly to the student judicial system for formal resolution.

IIII. RECORD KEEPING & ACCESS

1. A student file containing all relevant materials to the academic misconduct proceedings will be kept on file in the Provost's office for seven (7) years.

2. These records may be accessed in accordance with the Family Educational Rights and Privacy Act guidelines as outlined by the college. Any college employee asked for assistance in obtaining a student's academic misconduct records will be responsible for assisting the student until the student's records have been obtained.

C. GRADING & COURSE REPEAT A failing grade with a "J" designation which is given as a result of a charge of academic misconduct which is substantiated throughout the review process will become a permanent part of the student's "internal" audit (but will not appear on the student's official transcript) and may not be changed by repeating the course. The student will be allowed to repeat the course only with written permission of the dean. Copies of written permission must be filed in the Office of the Dean. Quality points will be computed using the average of the two grades.

II. For Alleged Academic Misconduct in Other Settings Not Related to a Course

A. PRELIMINARY PROCEDURE

1. A staff member will meet with the student within five (5) working days of the date of the allegation to discuss the incident and attempt resolution. The student will have the opportunity to explain his/her behavior and to present relevant information.
2. If this matter is unresolved in the preliminary discussion or the student disputes the sanctions, then the student has the right to appeal and will follow the formal procedure as outlined in the Academic Misconduct procedures.
3. If a student is found not to have engaged in misconduct during the preliminary discussion, the supervisor composes a written letter of resolution and retains a copy. The student receives a copy. A file containing all materials relevant to the misconduct proceedings will be kept on file in the Provost's Office for seven (7) years.

Academic Probation and Dismissal

All graduate students are required to maintain a minimum cumulative GPA of 3.0 (4.0 scale). A student is automatically placed on probation if the GPA falls below 3.0.

Matriculated full-time students are given one semester to achieve a 3.0 GPA, while matriculated part-time students are given 9 credit hours, provided total credit hours do not exceed the degree program by more than 6. Failure to achieve a 3.0 GPA within the specified time results in academic dismissal. In addition, failure to maintain a minimum 3.0 GPA during each semester of academic probation results in academic dismissal.

Students must have a 3.0 GPA by the completion of 12 or more credit hours. Failure to achieve a 3.0 GPA by the completion of 12 or more credit hours of graduate-level coursework results in academic dismissal. A student with fewer than 12 credit hours is automatically placed on academic probation should the GPA fall below 3.0. Failure to achieve a 3.0 GPA by the completion of 12 credit hours results in academic dismissal. In addition, failure to maintain a minimum 3.0 GPA during each semester of academic probation results in academic dismissal.

Non-degree students have until the completion of the next semester in which enrolled to bring his or her GPA to 3.0 after being placed on academic probation. Failure to do so renders the student ineligible for further registration.

A student who has been academically dismissed must wait one full year from the time of dismissal before applying for readmission.

A student may be readmitted to the college only once after academic dismissal. If readmitted, the student is automatically returned to academic probation if his or her cumulative GPA is below 3.0. The student then has one full-time semester or 9 credits of part-time study to achieve a 3.0 cumulative GPA and must maintain a minimum of 3.0 GPA during each semester of academic probation. Failure to do so results in final academic dismissal.

Non-Academic Misconduct and Dismissal Policy

The Graduate School respects the right of students to conduct their own personal lives. This policy governs conduct only to the extent necessary to protect the integrity and proper functioning of the academic and non-academic activities of the Graduate School, the peaceful and safe enjoyment of Graduate School facilities by other members of the Graduate School and the public, the freedom of members of the Graduate School to participate reasonably in the programs of the Graduate School and in activities in or on the Graduate School's premises or to protect the property of the Graduate School or its members.

Professional standards and non-academic conditions that potentially limit admission or could result in dismissal from an Academic unit must be overseen by the Student Affairs Committee and approved by the Office of the Dean.

Students found in violation of the Student Code of Conduct will be considered for dismissal by the appropriate administrative body of the academic unit. Students under consideration for dismissal will be notified, in writing, of the time, date, and location where they may be heard by and present information to the decision making body. The student will be notified of the decision and, if dismissed, of their right to appeal the decision.

The Graduate School may also define standards of professional conduct for students in programs where these are appropriate, and this policy does not replace or supersede such standards. Where alleged conduct is prohibited conduct under this policy and standards of professional conduct in a program, the Graduate School will determine how the allegations will be addressed, which may include under this policy, the standards of professional conduct, or both with such modification to the procedure as appropriate provided they meet the requirements of procedural fairness in the Graduate School context.

Any conduct on the part of a student that has, or might reasonably be seen to have, an adverse effect on the integrity or the proper functioning of the Graduate School, or the health, safety, rights, or property of the University or its members and visitors, is subject to discipline under this policy.

C. Advisement

Bridges Graduate School uses an advisement team model using a combination of faculty and peer advisors. The Dean designates a member of the graduate faculty or a second year doctoral student to serve as an advisor to each of the students and to assist in planning and placement within the course of study of the academic program. The initial academic advisor will be either the Provost or the Dean. Additionally each student is then assigned a peer advisor. This peer advisor is a carefully

selected second year doctoral student. It is the student's responsibility to seek a conference with the assigned advisor before registration, approval of a plan of study, application to degree candidacy, and application for graduation. If students have questions about their advisor they should contact the Dean.

D. Program Advisory Boards

The program advisory boards consist of three advising boards, one for each of the three programs (Certificate, Master's, and Doctorate programs). Each board is chaired by the Provost, and contains faculty advisors, staff and designated advisors selected by the senior administrative staff. These boards will meet at the request and convenience of the Provost and will offer recommendations and suggestions to and about the respective programs as requested.

E. Attendance Policy / Required Registration

The Bridges Graduate School of Cognitive Diversity in Education requires registration in each semester by all graduate degree and certificate students, with the exception of those students on an approved leave of absence. The Bridges Graduate School recognizes the correlation between attendance and both student retention and achievement. Because of the unique nature of online courses and the degree of collaboration required by individuals with their classmates, it is the policy of The Bridges Graduate School that no student who falls behind more than two (2) modules in a course will receive credit for that course and they must repeat the course at their own expense.

It is imperative that students contact the instructor immediately if they find themselves in a situation beyond their control where it is likely that they will miss assignment deadlines.

It is the responsibility of the student to arrange to make up all course work missed because of legitimate class absences and to notify the instructor when an absence will occur. Failure to make up missed work will be reflected in the grade as described in each course syllabus. Excessive absence may be cause for failure in a course and for being dropped from the program.

F. Change of Name, Address

Students are responsible for notifying the dean's office of the Bridges Graduate School of any change of name or address so that registration information and other mailings can be properly directed. The change of address form can be found at the end of this catalog and at the admissions office and at this link <http://tinyurl.com/BGSCD-ChangeAddress>.

G. Confidentiality and Privacy Policy

Members of the Graduate School community are the creators and guardians of many types of information. Such information may relate to students, employees, alumni, donors, research sponsors,

and others. Members of the Graduate School community are expected to comply with applicable legal, contractual, and policy obligations to maintain the confidentiality of such information, protect it from improper disclosure, and protect the privacy interests of individuals. To meet these responsibilities, members of the Graduate School community are expected to follow document preservation and retention guidelines, and maintain data security using electronic and physical safeguards.

H. Doctoral Committee Selection Policy & Recommendations

During the first year as a Doctoral Student, the Provost serves as a primary academic advisor to all Doctoral Students.

During the second year or after the student has completed a minimum of 15 Graduate Credits, with the approval of the Provost and the Dean of Graduate Programs, Students are assigned a Doctoral advisor based on their interests, studies, and planned future work. Advisors are chosen partially based on the student's interest in curriculum, psychology, or leadership.

Working with that newly assigned advisor, each doctoral student will select a doctoral committee of at least three faculty members that must be approved by both the provost and the Doctoral Advisor. Doctoral committee members must possess the appropriate credentials, scholarship, experience, and practice in the field of study and should be aligned with the student's interest in curriculum, psychology, or leadership.

At least one and no more than two members of the doctoral committee should be members of the Bridges Graduate School faculty.

At least two members of the doctoral committee will have earned doctoral degrees from appropriately accredited institutions other than Bridges Graduate School.

All committee members must be qualified in the subject area of the dissertation or research project topic or the problem of practice. It is the responsibility of the Provost and the Dean to ensure that doctoral committee members possess the appropriate credentials, scholarship, experience, and practice in the field of study.

Bridges Graduate School has final approval for students who nominate faculty or other members to the doctoral committee, which must be approved by the Provost and Dean of Graduate Programs.

The faculty member who has served as your advisor is considered the chair of the Committee. The chair will supervise your thesis, dissertation, or problem of practice work and will typically provide the facilities, support, and supervision necessary to conduct your research.

Students typically have a lot of flexibility when it comes to selecting members of the Committee. Any member of any graduate field may serve on the Committee, with occasional limits imposed on the faculty by the Provost. The Committee Chair must be from your graduate field curriculum, psychology, or leadership. The two other “minor” committee members may come from the Faculty of Bridges Graduate school or may serve as guest or adjunct faculty members. Of these two minor members, both should have a relationship with your field of study and one of them must also have a terminal degree in a related field of study. So, your committee could look like this:

- Committee Chair: Doctorate in your field of study
- Member #2: Doctorate in your field of study
- Member #3: Terminal degree or not in your field of study

[Doctoral Committee Policy and Handbook.](#)

I. Dropping Courses

Students may drop courses online via the form found in the back of this catalog through the first two sessions of any online course or the first two days of a Summer Session without financial penalty. Officially dropping a course removes all record of the course from the student’s transcript, and no financial penalty is assessed. Students who wish to discontinue a course after the first two sessions but before the final withdrawal date at the end of the 5th week of the semester may do so by notifying the Registrar's office. A course from which a student has officially withdrawn remains on the transcript recorded as W but does not count in credit hours or GPAs. Instructors are required to apprise students of their academic standing no later than the midpoint of the class or session. If a student stops attending but does not officially withdraw from a class, a grade of F (Failure or unofficial withdrawal) is recorded. An exception may be made for unusual circumstances beyond the student’s control. Withdrawal from a course may affect eligibility for financial aid in current and future semesters. Students withdrawing from a course are entitled to a full refund through attendance of the first class session or seven days after signing the enrollment agreement, whichever is later. No refunds are issued beyond the end of the refund period. A student who does not register for any course or withdraws from all courses during his or her first semester should inform the Graduate School.

J. Facilities

The Bridges Graduate School of Cognitive Diversity in Education uses the physical campus located at 3921 Laurel Canyon Blvd. Studio City, CA 91604. There are multiple buildings on-site including administrative / classroom and dormitory. Although the majority of programs are offered online there is a summer residency requirement for students to complete a field experience/practicum working with students and faculty from the Bridges Academy and the 2e Center for Research and Professional Development. The Bridges Graduate School does have dormitory facilities on campus. Most rooms contain two twin beds and share a bathroom with another room. Students who are

attending our summer resident programs may either be housed in the dormitory where the number of rooms is very limited during their summer program or they will be given assistance in locating nearby lodging. The Graduate School is conveniently located in Studio City, California where there are many nearby hotels, motels, and other lodging facilities. There are excellent restaurants and food stores in easy walking distance and parking is available on site. Most students will need to stay off campus. Reasonable accommodations can be found nearby for \$65 - \$150 / night. Students are responsible for their own housing and living expenses while studying at Bridges.

K. Classrooms, Equipment and Computers

Classrooms on campus include the most up to date technological classroom tools and communications equipment. Rooms are air-conditioned and have excellent lighting and wifi access. Additional Equipment provided by the Graduate School for residence sessions includes:

- Chairs - 20 Minimum / Classroom (Multiple Classrooms are available)
- Overhead projector
- Video Projector w/ Mac and PC connections
- Mac Air loaner computer if desired by Instructor
- Whiteboards w/ Markers
- Flipcharts w/ markers
- Copy Paper & Copiers
- Fax Machines if necessary
- File cabinets in the Graduate Office, Finance office, Admissions office
- Wifi Connection with high-speed internet

Faculty & Students are expected to provide their own laptop computers.

(Technology is reviewed and the technology interview is a part of the online interview by the Dean or an Admissions officer during the interview and application process.)

L. Finances

1. Fees & Expenses

The schedule of fees published in this catalog is expected to prevail during any given academic year, but The Bridges Graduate School of Cognitive Diversity in Education reserves the right, at any time, to authorize changes in fees and to establish new fees applicable to all currently enrolled students. Fee bills, covering the semester's charges, are computed by and are payable to the Finance Office no later than the first (1st) day of the semester (See "Academic Calendar.").

2. Financial Responsibility

Graduate students are permitted to register, to modify their course registrations without penalty, and to pay their fee bills through the first (1st) day of the semester. Graduate students become liable for payment of tuition and other required course-related fees beginning with the first (1st) day of classes

of the semester or session whether or not they have attended any classes or have paid their fee bills as of that date.

Failure to receive a bill does not relieve a student of responsibility for payment of fees by the specified due date. A student who fails to make timely payment of an outstanding balance may be barred from all privileges normally accorded to a student in good standing. If there is a question concerning a bill, it is the student's responsibility to contact the Business Office directly for clarification and resolution.

If a graduate student does not meet her/his financial obligations by the first (1st) day of a given semester, an enrollment and service restricting hold is placed on the student's record.

3. Student Loans

The Bridges Graduate School does not offer a Student Loan Program. If a student obtains a loan to pay for our educational program, the student will have to repay the full amount of the loan plus interest, less the amount of any refund, and that if the student receives federal student financial funds, the student is entitled to a refund of the monies not paid from federal financial aid funds.

4. Financial Aid

The Bridges Graduate School does not participate in Federal or State Financial Aid programs. The Graduate School does not require disclosure of any outside financial aid obtained by students. Although Bridges does not directly participate, students are encouraged to pursue individual funding sources, opportunities, scholarships, and grants. Here are two possible sources:

FEDERAL PERKINS LOAN PROGRAM (PERK) - This program uses both federal and state funds. Annual loan limits are established at \$4,000 for undergraduate students and \$6,000 for graduate students. Aggregate borrowing limits are set at \$20,000 for undergraduate students and \$40,000 for graduate and professional students. Students must provide their driver's license number at the time of application. The monthly minimum repayment is set at \$40. There will be no repayment of principle or interest until nine months after the completion of the grace period. Students awarded a Federal Perkins Loan may complete their loan requirements at www.signmyloan.com. **Note:** There are a variety of reasons why Perkins Loan payments may be deferred such as economic hardship, military service, etc. For more complete information please refer to the promissory note that is a part of your loan agreement.

FEDERAL DIRECT LOAN PROGRAM - Direct Loans are low-interest loans for students and parents to help pay for the cost of a student's education after high school. The lender is the U.S. Department of Education (the Department), though the entity you deal with, your loan servicer can be a private business.

Federal Financial Aid

Unaccredited institutions are not eligible for federal financial aid programs.

5. Cost Estimates

The Bridges Graduate School of Cognitive Diversity in Education offers quality education programs while keeping its costs as low as possible for the students. Tuition is \$500 per Credit hour + \$30 / hour technology fee, + \$25 / hour Administrative fees. The chart below will help to explain the estimated program fees.

Estimated Programmatic Costs And Fees			
	Certificate - 1 year* 15 Credits	Masters - 2 years* 30 Credits	Doctorate - 3+ years* 60 credits
Total Credits @ \$500 / credit hour	\$7,500	\$15,000	\$30,000
Technology Fee \$30 / credit hour	\$450	\$ 900	\$1,800
Administrative fees \$25 / credit hour	\$375	\$750	\$1,500
Total Costs	\$8,325	\$16,650	\$33,300
Residency Program costs	You are responsible for your own transportation and housing costs during the summer residency program.		
Total Estimated cost per semester. 3 Semesters / Year	\$3,330 2.5 semesters to completion.	\$3,330 5 semester minimum to completion.	\$3,330 10 Semesters minimum to completion.
Total Minimum Estimated Program costs	\$8,325	\$16,650	\$33,300

* - Individual costs may vary depending on the time to complete the program.

* - textbooks are an additional cost that varies from course to course and program to program.

6. Application Processing Fee

A non-refundable fee of \$125 must accompany an application to The Bridges Graduate School for Cognitive Diversity in Education. It may not be applied toward other charges. Fees are waived for

current students in good standing who are applying to another program at this institution.

7. Required Registration and Reinstatement Fee

The Bridges Graduate School of Cognitive Diversity in Education requires registration in each semester by all graduate degree and certificate students, with the exception of those students on an approved leave of absence. All graduate students who fail to complete initial course registration by the end of the tenth (10th) day of classes of any semester will be dropped from active status and will be required to pay a penalty fee of \$65. The reinstatement fee is added to a student's bill along with any registration fee that has accrued. Students who do not register for longer than a year will be required to reapply for admission. A letter from the academic advisor justifying the use of previous coursework to satisfy current degree requirements is required to count previous coursework towards the new enrollment.

8. Refunds and Cancellations of Charges

In order to be eligible for a refund or cancellation of charges, a student must officially drop all courses currently being taken for credit. The Bridges Graduate School for Cognitive Diversity in Education grants a full refund of fees to any student dismissed for academic deficiency or other cause, Students withdrawing from a course are entitled to a full refund through attendance of the first class session or seven days after signing the enrollment agreement, whichever is later. In certain other instances, including illness, full refunds or cancellations of charges may be made at the discretion of the Dean. A student who is (or is the spouse of) a member of a military unit called into active service will receive a prorated refund or cancellation of charges based on her/his date of separation. The student in this situation must furnish a copy of the orders to active duty, showing this to be the reason for leaving the academic program.

If a student cancels their enrollment prior to attending class, they are entitled to a full refund of all monies paid. If the *Enrollment Agreement* is canceled, the school will refund the student any monies he/she paid, less a registration or administration fee not to exceed \$125.

REFUND INFORMATION

- 1) If a student cancels their enrollment prior to attending class, they are entitled to a full refund of all monies paid.
- 2) If the *Enrollment Agreement* is canceled, the school will refund the student any monies he/she paid, less a registration or administration fee not to exceed \$125, and less any deduction for equipment not returned in good condition, within 45 days after the notice of cancellation is received.
- 3) If you have received federal student financial aid funds and you cancel you will be entitled to a refund of the monies not paid from those federal student financial aid funds.
- 4) If you are requesting to withdraw from the program after it has started, or a withdrawal is caused by you violating conduct as per the Catalog or Graduate School policies, you will be returned any unearned charges by receiving a pro-rated refund based on a calculated cost per day of your program, minus the \$125 non-refundable application fee, provided this

withdrawal happens no later than 60% into your online-class program (week 6), or day number 6 of 10 of the summer residency program. After 60% of the class program is complete, tuition is considered “earned” and no refund is allowed.

For example, if the student completes only 45 hours of a 90-hour course and paid \$500 tuition, the student would receive a refund of \$250, the computation is as follows:

$$\begin{array}{rcl} \text{(Tuition)} & \times & \text{(\% of clock hours remaining)} = \text{Refund} \\ (\$500) & \times & (.50) & = & \$250 \end{array}$$

For the purposes of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- a. The student notifies the institution in writing of the student’s withdrawal in accordance with the terms of Section D of this *Enrollment Agreement*.
- b. The institution notifies the student in writing of the termination of the student’s enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absence in excess of the maximum set forth by the institution; and/or failure to meet the financial obligations to the school.
- c. The student has failed to attend class for three (3) class weeks without discussion with the institution and agreement of a plan for completing the work missed.
- d. For the purposes of determining the amount of the refund, the date of the student’s withdrawal shall be deemed the last date of recorded attendance.
- e. For the purposes of determining when the refund must be paid, the student shall be deemed withdrawn when three (3) class weeks have been missed without contact from the student.
- f. The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

M. Immunization Requirement

All students born on or after January 1, 1957, are required to submit proof of immunization against measles, mumps, and rubella. All students must submit proof of immunization or decision not to obtain immunization. Students who do not submit proof of immunizations are not permitted to register. Contact Admissions to submit proof of immunizations.

N. Leave of Absence / Withdrawal from College

The Application for Leave of Absence form can be obtained in the administrative office or by emailing the Dean of Graduate programs at GradSchoolDean@Bridges.edu . Matriculated students who wish to leave the school for personal or financial reasons may be granted leaves of absence up to two full years beyond the semester in which they were last registered. Leaves of Absence are approved by the office of the Dean. Leave will not be granted to study at another college or university. If withdrawing, or if the leave should extend beyond two years, the student will need to reapply for admission into his/her desired program. To withdraw without penalty after the second session or second week of a class students need to file a petition with the office of the Dean.

O. Library / Learning Resources

The Bridges Graduate School of Cognitive Diversity in Education offers a hybrid learning program using both residency with in-person instructor-led instruction and distance learning to optimize student learning. The majority of student learning and the majority of instruction is offered remotely using online resources. As such a physical library is not practical for most of the students most of the time. Thus, Bridges Graduate School provides library services through a contract with Library Information & Resources Network (LIRN). Student registration for the network library will be provided in course materials. Our contract includes General Education (aka Multidisciplinary) resources. And Core bundles, including Gale Virtual Reference Library (2500+ ebooks), Ebook Central Academic Complete (134,000+ ebooks), and Statista (a source for Infographics and Statistics).

Online Library Resources include Education Information Resources Center (ERIC <https://eric.ed.gov/>), American Psychological Association (APA <http://www.apa.org>), and EBSCO Information Services (<https://www.ebscohost.com/academic>) can also be used by graduate students. Specific library recommendations may be found in the course syllabus and instructor directions. Although our library is comprehensive and well stocked and funded we do not have the capacity to have access to every journal or article. At times it may be necessary for specific students to pay at a “PayWall” for individual access to some articles.

Suggestions and requests for the addition of journals and collections may be made through the Dean or the Bridges Graduate School Library google classroom.

Additionally, a qualified librarian is available. This librarian will assist students in finding relevant resources, appropriate books, and journals and be available to answer questions that they may have about searching for materials. This service is provided by the contract between the Bridges Graduate School and Library Information and Resources Network (LIRN). This service will be provided to enrolled students who will be given a link to the library with a username and password.

P. Records Policy

It is the policy of The Bridges Graduate School of Cognitive Diversity in Education to maintain business, student, and institutional records in accordance with Article 9 and all appropriate sections of the California codes. General guidelines for The Bridges Graduate School include:

The following things are prohibited:

In any manner make an untrue or misleading change in, or untrue or misleading statement related to, a test score, grade or record of grades, attendance record, record indicating student completion, placement, employment, salaries, or financial information, including any of the following:

1. A financial report filed with the bureau.
2. Information or records relating to the student's eligibility for student financial aid at the institution.
3. Any other record or document required by this chapter or by the bureau.
4. Willfully falsify, destroy, or conceal any document of record while that document of record is required to be maintained by this chapter.

The following are required Student Records:

1. The Bridges Graduate School shall maintain records of the name, address, e-mail address, and telephone number of each student who is enrolled in our institution.
2. The Bridges Graduate School shall maintain, for each student granted a degree or certificate by that institution, permanent records of all of the following:
 - a. The degree or certificate granted and the date on which that degree or certificate was granted.
 - b. The courses and units on which the certificate or degree was based.
 - c. The grades earned by the student in each of those courses.

The following are required Institutional Records:

The Bridges Graduate School shall maintain, for a period of not less than five years, at its principal place of business in this state, complete and accurate records of all of the following:

1. Page information:
 - a. The educational programs offered by the institution and the curriculum for each.
 - b. The names and addresses of the members of the institution's faculty and records of the educational qualifications of each member of the faculty.
 - c. Any other records required to be maintained by this chapter, including, but not limited to, records maintained pursuant to Article 16 (commencing with Section 94928).

Required Student Records

(a) The Bridges Graduate School shall maintain a file for each student who enrolls in the institution whether or not the student completes the educational service.

(b) Each student file shall contain all of the following pertinent student records:

(1) Written records and transcripts of any formal education or training, testing, or experience that are relevant to the student's qualifications for admission to the institution or the institution's award of credit or acceptance of transfer credits including the following:

(A) Verification of high school completion or equivalency or other documentation establishing the student's ability to do college level work, such as successful completion of an ability-to-benefit test;

(B) Records documenting units of credit earned at other institutions that have been accepted and applied by the institution as transfer credits toward the student's completion of an educational program;

(C) Grades or findings from any examination of academic ability or educational achievement used for admission or college placement purposes;

(D) All of the documents evidencing a student's prior experiential learning upon which the institution and the faculty base the award of any credit;

(2) Personal information regarding a student's age, gender, and ethnicity if that information has been voluntarily supplied by the student;

(3) Copies of all documents signed by the student, including contracts, instruments of indebtedness, and documents relating to financial aid;

(4) Records of the dates of enrollment and, if applicable, withdrawal from the institution, leaves of absence, and graduation; and

(5) In addition to the requirements of section 94900(b) of the Code, a transcript showing all of the following:

(A) The courses or other educational programs that were completed, or were attempted but not completed, and the dates of completion or withdrawal;

(B) Credit awarded for prior experiential learning, including the course title for which credit was awarded and the amount of credit;

(C) Credit for courses earned at other institutions;

(D) Credit based on an examination of academic ability or educational achievement used for admission or college placement purposes;

(E) The name, address, website address, and telephone number of the institution.

(6) For independent study courses, course outlines or learning contracts signed by the faculty and administrators who approved the course;

(7) The dissertations, theses, and other student projects submitted by graduate students;

(8) A copy of documents relating to student financial aid that is required to be maintained by law or by a loan guarantee agency;

(9) A document showing the total amount of money received from or on behalf of the student and the date or dates on which the money was received;

(10) A document specifying the amount of a refund, including the amount refunded for tuition and the amount for other itemized charges, the method of calculating the refund, the date the refund was made, and the name and address of the person or entity to which the refund was sent;

(11) Copies of any official advisory notices or warnings regarding the student's progress; and

(12) Complaints received from the student.

Maintenance of Records.

(a) The Bridges Graduate School shall maintain all records required. The records shall be maintained in the State of California. (b)(1) In addition to permanently retaining a transcript as required by section 94900(b) of the Code, Likewise The Bridges Graduate School shall maintain for a period of 5 years the pertinent student records described in Section 71920 from the student's date of completion or withdrawal.

(2) Notwithstanding (b)(1), Bridges shall maintain records relating to federal financial aid programs as provided by federal law. As Required.

(c) A record is considered current for three years following a student's completion or withdrawal. A record may be stored on microfilm, microfiche, computer disk, or any other method of record storage only if all of the following apply:

(1) The record may be stored without loss of information or legibility for the period within which the record is required to be maintained by the Act;

(2) For a record that is current, the institution maintains functioning devices that can immediately reproduce exact, legible printed copies of stored records. The devices shall be maintained in reasonably close proximity to the stored records at the institution's primary administrative location in California. For a record that is no longer current, the institution shall be able to reproduce exact, legible printed copies within two (2) business days.

(3) Bridges will have personnel scheduled to be present at all times during normal business hours who know how to operate the above described devices and can explain the operation of the devices to any person authorized by the Act to inspect and copy records; and

(4) Any person authorized by the Act or this chapter to inspect and copy records shall be given immediate access to the document reproduction devices for the purpose of inspecting and copying stored records and shall, upon request, reimburse the institution for the reasonable cost of using the institution's equipment and material to make copies at a rate not to exceed ten cents (\$0.10) per page.

(d) The Bridges Graduate School shall maintain all academic and financial records required by the Act and this chapter in a manner secure from damage or loss. An acceptable manner of storage is in lockable fire resistant cabinets.

(e) All records that the institution is required to maintain by the Act or this chapter shall be made immediately available by the institution for inspection and copying during normal business hours by the Bureau and any entity authorized to conduct investigations.

(f) If The Bridges Graduate School were to close, the institution and its Board are jointly and severally responsible to arrange at their expense for the storage and safekeeping in California of all records required to be maintained by the Act and this chapter for as long as those records must be maintained. The repository of the records shall make these records immediately available for inspection and copying, without charge except as allowed under subdivision (c)(4) of this section, during normal business hours by any entity authorized by law to inspect and copy records.

Additional Record-Keeping Requirements.

(a) The Bridges Graduate School shall collect and maintain records of student information to substantiate the data reported on the STRF Assessment Reporting Form and records of the student's eligibility under the Fund. Such records shall include the following for each student:

(1) Student identification number,

- (2) First and last names,
- (3) Email address,
- (4) Local or mailing address,
- (5) Address at the time of enrollment,
- (6) Home address,
- (7) Date enrollment agreement signed,
- (8) Courses and course costs,
- (9) Amount of STRF assessment collected,
- (10) Quarter in which the STRF assessment was remitted to the Bureau,
- (11) Third-party payer identifying information,
- (12) Total institutional charges charged, and
- (13) Total institutional charges paid.

(b) The Bridges Graduate School shall maintain the data required under this section in an electronic format that is readily available and open to inspection by the Bureau upon request. The institution shall make the records immediately available to a Bureau representative conducting a site inspection or, upon written request, shall provide a copy within 14 calendar days of the request. All records shall be provided to the Bureau in an intelligible and orderly manner and in an electronic format.

Custodian of Records:

Henry J. Nicols - Dean of Graduate Programs

Henry.Nicols@bridges.edu

Location of Records:

Bridges Graduate School

3921 Laurel Canyon Blvd.

Studio City, California 91604

818 506 1091

1. Financial Records are maintained in the Business Office in both an electronic version backed up in a duplicate hard drive in a lockable fire resistant cabinet.
2. Academic Records are maintained in the Office of the Dean in both an electronic version backed up in a duplicate hard drive in a lockable fire resistant cabinet.

Q. Nondiscrimination Policy

Bridges Graduate School admits qualified students of any race, color, national or ethnic origin, sex, age, disability, religion, sexual orientation, gender identity, veteran status, or marital status to all the rights, privileges, programs, and activities generally accorded or made available to students at the

Graduate School. Consistent with its obligations under the law, in the administration of the Graduate School's programs and activities, Bridges Graduate School prohibits unlawful discrimination on the basis of race, color, national or ethnic origin, sex, age, disability, religion, sexual orientation, gender identity or expression, veteran status, marital status or any other characteristic protected by applicable law; Bridges Graduate School also prohibits unlawful harassment including sexual harassment and sexual violence. This policy applies to Bridges Graduate School programs and activities both on and off-campus, and in online forums.

The following person has been designated to handle inquiries regarding this nondiscrimination policy:

Bridges Graduate School's Dean, Henry Nicols
3921 Laurel Canyon Blvd, Studio City, CA 91604, United States
GradSchoolDean@bridges.edu
818.506.1091 x208

R. Registration

Students are expected to complete registration within two weeks after they become eligible to register and to attend the first meeting of all classes in which they have enrolled.

S. Student Identity Verification

In compliance with the provisions of the United States Federal Higher Education Opportunity Act (HEOA) of 2008, Public Law 110-315, concerning the verification of student identity in distance learning, Bridges Graduate School has established and will periodically evaluate its process to confirm that a person who has accepted admission to the university is the same student that participates in, completes, and receives credit for the course. To authenticate identities, Bridges Graduate School will use one or more of the following methods for verification:

- Secure login with username and password.
- New or emerging technologies and practices that are effective in verifying student identification.
- Additional personal identification is required at the time of the student's first summer residency program which is a required in-person session.

All methods of verifying student identity must protect the privacy of student information in accordance with the Family Educational Rights and Privacy Act (FERPA) and any other applicable laws or regulations regarding the confidentiality of personally identifiable information, and the Bridges Graduate School's Confidentiality and Privacy Policy.

Personally identifiable information collected by the Graduate School may be used as the basis for identity verification. This information may include a combination of the following:

- Student ID number

- Student Driver's License or passport
- Student Birth Certificate
- Last 4 digits of the student's Social Security Number
- At least 2 other pieces of information such as the student's email address on file, date of birth, address, or user name
- Identity verification process

Each student at Bridges Graduate School is assigned a unique username and password to log into the Graduate School's online platforms and services. Students are responsible for providing their complete and true identity information in any identification verification process.

All users of the Graduate School's platforms are responsible for maintaining the security of usernames, passwords, and other access credentials as required. An account is given to an individual for the exclusive use by that individual. Attempting to discover another user's password or attempts to gain unauthorized access to another person's files or mail is prohibited. It is against the Graduate School's policy for a user to give someone his or her password or allow others to use his or her account. Users are responsible for any and all users of their account. Users are responsible for all activity on their accounts.

Faculty: Faculty teaching courses through distance education methods hold primary responsibility for ensuring that students comply with the Graduate School's identity verification policy. As technology and personal accountability are not absolute in determining a student's identity, faculty members are encouraged to design courses that use assignments and evaluations that support academic integrity.

T. School Email Account

Each student is assigned a school email account. Check your school mail account regularly, especially during registration. All correspondence to faculty members or Graduate School staff should be sent from your Bridges student Email account.

U. Student Rights and Responsibilities

NOTICE OF NONDISCRIMINATORY POLICY AS TO STUDENTS

The Bridges Graduate School for Cognitive Diversity in Education admits students of any race, color, national and ethnic origin, sexual preference, and gender identification to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, national and ethnic origin, sexual preference, or gender identification in the administration of its educational policies, admissions policies, scholarship and loan programs, and other school-administered programs.

V. Complaints, Grievances, and Appeals

The Bridges Graduate School of Cognitive Diversity in Education complies with California State Education regulations requiring that campuses have procedures in place for filing complaints and seeking resolution of perceived problems.

1. Student Complaints Regarding Discrimination

If the complaint involves alleged harassment or discrimination based on race, sex, ethnicity, national origin, sexual orientation, religion, age, disability, or marital or veteran status, the student should report the alleged acts of discrimination immediately to the Dean's office for a confidential discussion of the alleged acts. Students have 90 days from the alleged act of discrimination or 90 days after receipt of a grade to file a complaint. See the Bridges Nondiscrimination Policy for more information.

2. Student Complaints Regarding Academic Issues

The Bridges Graduate School seeks to resolve student grievances as promptly and informally as possible. No adverse action will be taken against any student initiating a complaint. Students who feel aggrieved regarding any aspect of the academic program have a right to request a resolution by bringing the matter to the attention of the Dean. If the perceived problem pertains to a grade or the conduct of a particular course, students should follow the student academic grievance procedures explained below. The procedures that follow pertain to alleged violations or misapplication of graduate school and/or course policies. They are also directed at a student grievance alleging that the student has been treated unfairly, in violation of established academic policy or practice. These procedures reflect the graduate school's commitment to a fair and prompt resolution of student academic grievances. These procedures begin with an informal process but include a formal process that centers on hearings and recommended resolution of the grievance in a way that maximizes the opportunity for a full and impartial solution. Request to waive or otherwise alter the school's academic policies shall continue to be the province of the Dean of the Bridges Graduate School. The procedures below do not deal with grievances that are based on issues of sexual harassment or discrimination. Such grievances are handled through the office of the Provost.

GradSchoolProvost@Bridges.edu. Complaints that deal with other non-academic issues are administered by the Dean's Office GradSchoolDean@Bridges.edu.

For academic grievances, students are advised to retain all documentation from the course, including (but not limited to) the syllabus, tests, quizzes, papers, and any graded evaluations. These materials are required to substantiate any grievance.

1. *Jurisdiction* - A grievance shall include, but not be restricted to, a complaint by a student:
 - a. That graduate school regulations and/or policies have been violated or misapplied to him or her.
 - b. That he or she has been treated unfairly, defined in terms of established academic policy or practice governing or affecting students at the graduate school.
2. *Time Limit* At the informal level before the fifth week of the following semester.
 - a. At the formal level before the 10th week of the following semester.
3. *Grievance Resolution Process* The process includes the possibility of hearings at two levels: the department and the school.

- a. A student with a complaint should attempt to resolve the complaint informally with the faculty or staff member involved. The assistance of the dean may be sought to resolve the dispute to the satisfaction of both parties.
 - b. If a complaint is not resolved informally, a student must initiate the process no later than five weeks into the following semester. The student who is not able to achieve resolution with the instructor may initiate a formal grievance or grade appeal process no later than 10 weeks into the following semester by preparing a written statement, which includes:
 1. A statement of the case in detail.
 2. All information about the conference with the instructor.
 3. A statement of the reasons the student believes he or she is aggrieved or, in the case of a grade, why it should be reconsidered.
 4. All relevant supporting materials, which should be identified and listed in an index.
4. *Review Process:* The student shall submit complete copies of the written statement and attachments to the chair of the department and the faculty member identified in the grievance. The dean shall carefully review the statement, confer with the student and instructor, and attempt to reach a resolution of the dispute. The dean may ask members of the department to serve as a committee to review the materials and assist him or her in reaching a decision. The dean's response must be made within 10 days of the date of the student's request.
- a. If the matter is not resolved to the student's satisfaction, he or she may request a hearing at the provost level by writing to the provost of the school and forwarding the documentation to that office. The request must be made within 10 academic days of the receipt of the recommendation of the dean.
 1. The provost or designee shall convene a three-person committee drawn from a panel of available faculty within 10 days. After the committee is constituted, the faculty member and the student have the right to review the committee membership and request alternate members in the event it is believed a member of the committee is not neutral. The committee shall meet and review the materials presented and solicit a response from the instructor to each count of the student's case. In the case of a grade appeal, the committee will familiarize itself with the standards and objectives of the course and evaluative material presented. Concerns shall be limited to consideration of the fairness of the application of the standards and objectives, and whether the standards and objectives were made known to the student in a reasonable manner. The difficulty of the standards shall not be an issue.
 2. The burden of proof shall be on the student, who may be asked to appear before the committee.
 - b. In the case of a grade appeal, if the majority of the committee feels no case can be made, the original grade will remain. If it finds that the standards and objectives were not reasonably known to the student or were unfairly applied, it may recommend a different grade and give its reasons for that recommendation. The committee shall report its findings in writing to the student, the instructor, and the dean.

1. If the panel recommends a different grade, the instructor shall have 10 working days from receipt of the panel's report to inform the dean of the school of the intent to change the grade. If necessary, the dean may direct that the grade be changed. A change of grade shall not be interpreted as an admission of unfairness in grading.
- c. In the case of a grievance, if the majority of the committee members adjudge the grievance to be without foundation, written notification of their findings will be forwarded to the student, the instructor, and the dean of the school. If in the judgment of the committee, there is a basis for the grievance, a written report will be forwarded to the dean of the school with specific recommendations for redress. Copies shall be forwarded to the student and the instructor.
 1. The dean of the school will notify all parties the final decision regarding the grievance within 10 working days of receipt of the committee's findings and recommendations.
 2. The dean's office shall maintain adequate documentation about each formal complaint and its disposition for at least six years after the final disposition of the complaint.
5. *Committees* - Committee members shall be drawn from a list of faculty. In naming the committee to hear a grievance, the dean shall take care to ensure that no member has an interest in the case being heard.
6. *Confidentiality* - Once the grievance committee has been convened to hear a complaint, principals and committee members shall have the obligation to maintain the confidentiality of the proceedings and of all materials presented.
7. *Review*- This procedure must be reviewed after two years. The review process should identify any irregularities in grade changes. To facilitate this review, a copy of all documentation/findings at the formal level shall be retained in the department office.
8. *Record retention*: The graduate school shall maintain adequate documentation about each formal complaint and its disposition for at least six years after the final disposition of the complaint. If the dean chair is the party against whom the grievance is brought, the student should initiate a review at the provost's level, which follows.

3. Student Complaints Regarding Non-academic Issues

If the complaint involves non-academic issues, the student should deal with other procedures by making a complaint to the Dean, who will refer the case to an appropriate committee. However, students are encouraged to seek resolution of the perceived problem directly before initiating processes that are more formal.

The student who is not able to achieve resolution may file a grievance to initiate the formal process no later than 30 days after the occurrence of the alleged grievance by preparing a written statement, which includes:

- a. A statement of the reasons the student believes he or she is aggrieved or, why the issue should be reconsidered.
- b. All information about the prior meetings with the other party(ies).
- c. Supporting materials, which should be identified and listed in an index.

The Dean will then refer the grievance to be heard by the Student Affairs Committee who will review the supporting evidence and may interview witnesses.

Following the review, the Student Affairs Committee will send a written recommendation to the Provost who will consider the grievance and the recommendations of the committee and will make the determination.

The Provost of the school will notify all parties of the decision regarding the grievance within 10 working days of receipt of the committee's findings and recommendations.

If the student disagrees with the decision of the Provost, an appeal may be requested by letter to the Chief Executive Officer who will review the supporting documentation and will make a final decision.

Confidentiality - Once the Student Affairs Committee has been convened to hear a complaint, principals and committee members shall have the obligation to maintain the confidentiality of the proceedings and of all materials presented.

4. Student or Staff Complaints Regarding Sexual Harassment

Such grievances are handled through the office of the Provost. GradSchoolProvost@Bridges.edu

Where sexual harassment has occurred or is alleged to have occurred, the Graduate School will act to stop the harassment, prevent its recurrence, and discipline or take other appropriate action against those responsible. Please refer questions, issues, and complaints to the Provost for immediate action.

5. Complaints about this institution

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet Web site: www.bppe.ca.gov

6. Rights and Responsibilities of Students with Learning Disabilities (LD)

Academic accommodations are required by law for eligible college students with Learning Disabilities (LD). The Americans with Disabilities Act and its amendments require reasonable accommodations be made available to students who have current documentation of learning disabilities and who

request learning and/or testing accommodations. Our courses are rigorous and require a commitment and ability to manage time and meet deadlines. We are flexible and will make all reasonable accommodations for personal family and work conditions, and for issues typically referred to as learning disabilities or differences. Please note that we are not a therapeutic college program. Students who require significantly extra time, one on one instruction, or other accommodations due to severe anxiety, depression, or other condition, might be best served in an online, asynchronous, self-paced course.

Student Responsibilities include:

1. To self-identify as a person with a disability to the Disability Services Officer managed by the Dean of Graduate Programs.
2. To provide up to date documentation of the disability to the office of the Dean.
3. To request academic accommodations to ensure access to information and testing on an equal level with students who do not have disabilities.
4. To self-identify to faculty as a student with a disability and provide them with a copy of the Individual Student Profile developed with the disability services office.
5. To accept responsibility for his or her successful education. This includes maintaining satisfactory academic levels, attending and participating in classes, completing assignments, behaving appropriately and communicating regularly with appropriate offices and individuals regarding specific needs.

Disability Services Officer (Managed by the Dean of Graduate Programs)

1. Will assess student's requests for accommodations using the current disability documentation provided by the students.
2. Will provide information regarding policies, procedures, rights and responsibilities to students with disabilities in accessible formats upon request.
3. Will recommend appropriate learning and testing accommodations.
4. Will provide reasonable and appropriate accommodations, academic adjustments, and or auxiliary aids for students with disabilities who meet the criteria for eligibility.
5. Will ensure the confidentiality of all information pertaining to student's disabilities.
6. Will assist students in communicating with faculty about their disabilities and required accommodations, if needed.

Faculty Responsibilities

If students request instructional and or testing accommodations in a class, they must disclose the need for accommodations to the instructor and give the instructor any documentation provided by the Disability Services Officer through the office of the Dean of Graduate Programs. Students need not specify or disclose their disability to their instructor, only the need for accommodations. The instructors' responsibilities then include:

1. Allowing students to disclose their disabilities in an appropriate and confidential place and manner.
2. Acknowledging the rights of students with dignity and respect.
3. Maintaining the integrity of academic standards.
4. Maintaining student confidentiality at all times.
5. Providing reasonable instructional and testing accommodations.

W. Student Support Services and Job Placement

The Bridges Graduate School is truly a family-like community. We are small enough to know everyone and to pay attention to the needs of our colleagues and students. We do provide a variety of student services mostly through the Dean's Office and the other on-campus administrators. In general, the administrative staff interacts with students and provides them with administrative or personal guidance. Faculty and Administrators may meet with students who are struggling academically or who have other issues in their lives that they need to discuss with faculty or other staff. Administrators communicate information to students and work with them to solve problems related to their education. For further information or direction contact the Dean. Each student is assigned a faculty advisor who acts as a personal, professional, and academic coach as needed. Students with technology issues are encouraged to contact the technology department for immediate assistance. Finally, Bridges Academy specializes in individuals with learning differences. Thus, Bridges Graduate School has a wide variety of resources and the ability to provide expert services in almost all learning strategy issues.

Bridges Graduate school does not provide job placement services. However, because our faculty has a wide network of professional colleagues it is our pleasure to assist and inform students of potential job and career opportunities. Bridges uses job placement in the field of Twice-Exceptional education as a marker of our success. Student advisors play a key role in counseling advisees in employment potential and opportunities.

For information about Student Services, please contact the Registrar at GradSchoolRegistrar@Bridges.edu

X. Computer Literacy & Technology Requirements

Computer Literacy

You need to have a basic knowledge of computer and Internet skills in order to be successful in an online course. Here are some of the highlights:

- Knowledge of terminology, such as *browser*, *IMHO*, *application*.
- Understanding of basic computer hardware and software; ability to perform computer operations, such as:
 - Using a keyboard and mouse

- Managing files and folders: save, name, copy, move, backup, rename, delete, check properties
- Software installation, security, and virus protection
- Using software applications, such as Word, PowerPoint, Excel, email clients
- Knowledge of copying and pasting, spell-checking, saving files in different formats
- Sending and downloading attachments
- Internet skills (connecting, accessing, using browsers) and the ability to perform online research using various search engines and library databases.
- Ability to use online communication tools, such as email (create, send, receive, reply, print, send/receive attachments), discussion boards (read, search, post, reply, follow threads), chats, and messengers.
- Strong reading and writing skills. You need to have strong reading skills and be able to communicate effectively through writing. Most of the material in the online environment will come from your textbooks and written lectures, therefore strong reading and critical thinking skills are very important for success in an online course. Online students communicate through such text-based tools, as emails, discussion forums, chats, and instant messaging. You need to feel comfortable expressing yourself in writing.
- Self-motivated and independent learner. While online courses can offer more flexibility in scheduling, they require more self-discipline and independence than on-campus courses. Some students can find this uncomfortable and not suitable for their learning style. They may miss the more typical face-to-face interaction with an instructor and peers, which helps to keep them on track. In the online environment, you have to be able to start and to work on tasks on your own, without someone keeping you focused, and you have to be self-disciplined in order to follow the class schedule and meet deadlines.
- Time commitment - Online classes take as much time as regular on-campus classes. You need to set aside sufficient time for study. Plan to spend at least as much time working on the assignments and studying as you would with a traditional course. Note that some students report spending even more time on online classes than for traditional ones. The time that you need to devote to a 3-credit course will be approximately 12 hours a week.
- Time management: log-in frequently and develop study schedules. Even though you may not have to "be" in class on some specific day and time, you still have to follow the course schedule provided by your instructor. Remember that online classes are not independent study courses; you are still required to "show up" and participate actively.
- Since online courses are both real-time and asynchronous, they will continue developing and changing even if you are not online. You need to be online frequently enough and log in at least three to four times per week in order to keep up with the content flow, complete assignments, follow discussions, and communicate with your classmates and instructor. Some courses may even require you to log in every day.
- Never wait until the last minute to complete your assignments. You may have a technical problem or run out of time which will cause frustration. One of the major reasons for failing online classes is procrastination since it is very easy to fall behind in the online environment. Make sure to set aside specific time on a regular basis to participate in your course. Schedule specific times to log in and to study.

- Active learner - Online students must be active learners, self-starters who are not shy or afraid to ask questions when they do not understand. Remember that you, not the instructor, must be in control of your learning process.
- Although you and your instructor will interact in person (online) on a regular basis, you need to "speak up" right away if you have problems and be as explicit as possible; otherwise, there is no way others will know that something is wrong.
- Remember that your instructor is not the only source of information. Most of the time you will be able to post your question in the discussion forum and your classmates will help you as well.
- If you have technical difficulty, problems understanding course content, or difficulty meeting the deadline, seek help right away, and contact your instructor to make arrangements for additional support and help.

Technology Requirements & Readiness Assessment

Test

Since our Instruction is provided via distance, online, real-time synchronous and asynchronous learning, technology and self-regulation skills are very important.

This is a hybrid program, where instruction may be provided in real-time by a professor who is present in person or online via video conferencing with the students in remote locations. The program may include materials that are archived or recorded that are shared asynchronously with students attending on their individual schedules.

All students must have a computer capable of running the minimum required software and a reliable Internet service provider. The Bridges Graduate School will assist you in accessing the online platform used to support online classroom instruction.

Our online platform is Google Classroom, and we make extensive use of Google applications including Google Apps for Educators. The online platform is supplemented with additional applications and resources as technology continues to rapidly change. All students are required to have an online meeting with the Dean of Graduate programs to assess their appropriate level of skill and support.

The Dean will contact you on application to schedule this meeting if it was not done during your pre-application meeting.

Netiquette Guide For Online Programs

In an online learning program, it is essential that the environments be welcoming sites where groups of participants share ideas and learn from the professor as well as from one another. It should be a place where everyone is encouraged to contribute and produce creative and thoughtful work. To make this happen we might be reminded of Abraham Maslow's.

Hierarchy of Needs necessary for Self-Actualization

As Maslow explains, people are not able to thrive unless certain needs are met. The bottom three shown on the chart above are basic and require attention. For example, if we are exhausted, hungry or thirsty, we will not be able to do our best work. If we are not in a physical environment that has the appropriate internet connection, we are challenged to even consider engaging. Meeting the physiological needs is obvious and should need no further discussion.

Finally, let us consider safety, especially psychological safety. To feel psychologically safe in an environment, it should be free from bullying, sarcasm, humiliation, rudeness, or comments of disrespect between and among faculty and students. There should be trust where questions can be asked without fear of ridicule, where mistakes are forgiven, and where everyone has a voice.

When the environment exudes a sense of safety, the activities required should give participants a sense of belonging. In such an environment, personal needs are considered such as illness preventing a posting; such as common decency among participants showing concern for one another's welfare. Where group griping is discouraged and encouragement preferred, we experience a sense of belonging and loyalty.

We envision our learning community as one where all members of discussion groups are cordial to each other, complementary in their remarks and helpful in their suggestions. Only then can we expect the next level described by Maslow, which is a need of being -- one that all of us require -- the need for esteem. Each of us needs to feel respected and valued as a member of the class.

In our graduate school, we have the luxury of expertise from individuals coming from so many different backgrounds with diverse personal and professional experiences. **We are all enriched because each of us is here.** We expect all of us to contribute our gifts, knowledge, and wealth of experience to the class assignments and discussions. We, as a group, understand that the contributions of each of us will be woven together to form a group tapestry of understanding and creativity.

When this happens each of us is free to self-actualize, contribute, create, and grow.

CREATING THE LEARNING ENVIRONMENT

To enable this vision of self-actualization to occur, we have established these guidelines. It is important to recognize that the online classroom is in fact a classroom, and certain behaviors are expected when you communicate with your peers and your instructors. These guidelines for online behavior and interaction are known as netiquette.

SECURITY

Remember that your password is the only thing protecting you from pranks or more serious harm. Always use your Bridges Email Account to sign in to the course and to communicate with the instructors and administrators at Bridges Graduate School

- Don't share your password with anyone
- Change your password if you think someone else might know it
- Always log out when you are finished using the system

GENERAL GUIDELINES

When communicating online, you should always:

- Treat instructor with respect, even in email or in any other online communication
- Understand that the professor is there for you and will answer any questions
- Please always use your professors' proper title: Dr. or Prof., or if you in doubt use Mr. or Ms. unless specifically invited, don't refer to them by first name.
- Use clear and concise language
- Remember that all college level communication should have correct spelling and grammar
- Avoid slang terms such as "wassup?" and texting abbreviations such as "u" instead of "you"
- Try to use standard fonts such as Times New Roman and use a size 12 or 14 pt. font
- Avoid using the caps lock feature AS IT CAN BE INTERPRETED AS YELLING
- Limit and possibly avoid the use of emoticons like :) or
- Be cautious when using humor or sarcasm as tone is sometimes lost in an email or discussion post and your message might be taken seriously or be offensive
- Be careful with personal information (both yours and others)

- Do not send confidential information via email

EMAIL NETIQUETTE

When you send an email to your instructor, teaching assistant, or classmates, you should:

- Use a descriptive subject line
- Be brief
- Avoid attachments unless you are sure your recipients can open them
- Avoid HTML in favor of plain text
- End your message with your name and return email address
- Think before you send the email to more than one person. Does everyone really need to see your message? When an email is widely shared try to use the Bcc: to avoid inadvertently sharing other's emails.
- Be sure you REALLY want everyone to receive your response when you click, "reply all" The Use of Bcc: will help reduce unnecessary people being copied.
- Before you click the "forward" button be sure that the author intended that the information be shared.

MESSAGE BOARD NETIQUETTE AND GUIDELINES

When posting on the Discussion Board in your online class, you should:

- Make posts that are on-topic and within the scope of the course material
- Take your posts seriously and review and edit your posts before sending
- Be as brief as possible while still making a thorough comment
- Always give proper credit when referencing or quoting another source
- Be sure to read all messages in a thread before replying and be timely. Posts that have aged may no longer be applicable when you reply.
- Don't repeat someone else's post without adding something of your own to it
- Avoid short, generic replies such as, "I agree." You should include why you agree or add to the previous point
- Always be respectful of others' opinions even when they differ from your own
- When you disagree with someone, you should express your differing opinion in a respectful, non-critical way
- Do not make personal or insulting remarks
- Be open-minded
- Be flexible
- Be professional

Finally - Sharing Sensitive, Confidential or Secret information

A discussion board in a secure online course is not like a chat room, in that your colleagues, professors, and others have been accepted to an approved program by presenting much information and validating their credentials and their professional backgrounds. The discussion boards and classroom environments are under the scrutiny of fellow students, the professor(s), and the administrative team. However, if you have angst, or are feeling uncomfortable in any way **do not share anything that makes you feel vulnerable**. The discussion boards and classroom environments are not a therapy session nor a substitute for counseling, where private information

may be up for discussion. There is no demand for saying, writing, or recording anything with which you are not comfortable.

If you have questions please contact the Dean of Graduate Programs at gradschooldean@bridges.edu

Y. Transcripts

Official transcripts are not issued directly to students but are forwarded, upon request, to authorities whom the student designates. Student copies may be ordered for personal use. A \$5 fee is charged for each transcript request. Photo identification is required when picking up student copies. Transcript request forms are available online at the address at the back of this catalog and in the Dean's office.

Transcripts will not be furnished for students who have incurred a financial obligation to the Graduate School.

Transcript requests sent by mail must include the student's name, current address, social security number, dates of attendance, graduation date (if applicable), name and address of the party to whom the transcript is to be sent, the student's signature authorizing the release of the transcript, and a \$5 check or money order payable to The Bridges Graduate School. All checks or money orders must include the last four digits of the student's social security number.

Transcript requests by telephone or fax cannot be honored. Requests are filled in the order they are received. Sufficient time is necessary for processing. Requests for transcripts should be made well in advance (usually at least two weeks) of the date needed.

Z. Licensure & Accreditation

There are no licensure exams for 2e or Twice Exceptional in the State of California. None of our Graduate programs lead to licensure or certification. Neither this institution or any of its degree programs are accredited by an accrediting agency recognized by the United States Department of Education. Unaccredited institutions are not recognized for some positions including but not limited to positions with the State of California. At this time the Bridges Graduate School is not accredited. A student in an unaccredited institution is not eligible to receive federal funds.

AA. Complaints about this Institution

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 (916) 574-8900 or (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet web site: www.bppe.ca.gov

BB. Questions Regarding this Catalog

“Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the:

Bureau for Private Postsecondary Education

1747 N. Market Blvd. Ste 225

Sacramento, CA 95834

(916) 574-8900 or (888) 370-7589

Web site Address: www.bppe.ca.gov

Telephone And Fax #s: (888) 370-7589 or by fax (916) 263-1897

(916) 574-8900 or by fax (916) 263-1897

CC. Online forms

These forms can be printed out and completed by hand, or they can be downloaded for completion on your computer and submitted to the Graduate School via email.
