## HISTORY AND MISSION

---

The San Francisco School of Massage & Bodywork (SFSM) first opened its doors in October of 1969 – making it one of the oldest massage schools in the United States. SFSM was founded through the hard work and vision of its founder, Dr. Uli Brix, who believed in the positive and healthful benefits of therapeutic massage. Frustrated with conventional medicine’s “hands off” approach, he opened the SF School of Massage on the Van Ness corridor of San Francisco. The school blossomed and remained under his direction and guidance until the early 1980s.

During the 1980s, massage therapy was in demand and was gaining considerable respectability as a viable health alternative. It was about this time that Paulette Bergess began working at the school as an instructor and administrator. After several years as a faculty member, Paulette and her husband Richard, purchased the school in 1986 and led its programs to their greatest growth. Paulette and Richard ran the school for 24 years, moving the campus from the Van Ness Corridor of San Francisco to the bustling Marina District in 2000. Even to this day SFSM retains the warm, open, and familial spirit that the Bergess’ introduced and has long since been recognized as one of the top massage schools in California.

In January of 2010, SFSM experienced another change in ownership, only the third such transition in its 55+ year history, when Gary and Jennifer Witt took over the reins. Gary was previously a faculty member at SFSM and is the founder and owner of MassageLab, a professional massage clinic; his wife Jennifer Witt, DPT, is a licensed physical therapist. With Gary as the acting School Director and Jennifer in an active health and science advisory role, they have vowed to continue the legacy of the San Francisco School of Massage & Bodywork and prepare students to excel in the current professional massage and bodywork industry. In January 2011, SFSM moved to its current location in San Francisco’s vibrant Mission District along the Valencia Corridor.

Our Mission at the San Francisco School of Massage & Bodywork is to provide quality training and affordable education in the art and science of massage therapy and bodywork modalities. SFSM continually strives to offer balanced and challenging curricula and is committed to graduating highly trained practitioners who are expertly qualified and well prepared to gain immediate employment in the field of therapeutic massage and bodywork.

### **NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION**

The transferability of credits you earn at San Francisco School of Massage & Bodywork is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the certificate you earn in the Massage Therapist Program is also at the complete discretion of the institution to which you may seek to transfer. If the certificates that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending the San Francisco School of Massage & Bodywork to determine if your certificate will transfer.

### **RECOGNITION OF CREDITS TRANSFERRED FROM OTHER INSTITUTIONS**

The San Francisco School of Massage & Bodywork will only recognize clock hours from other California Massage Therapy Council (CAMTC) approved schools where the curriculum is substantially similar in scope and content to one or more Modules of the Massage Therapist Program. Incomplete hours from other programs not held at the San Francisco School of Massage & Bodywork shall not be recognized or constitute hours of credit towards SFSM programs. Students Transfer hours will not be absorbed into the hours received from the San Francisco School of Massage & Bodywork. Applicants must submit transcripts from all schools attended when applying for state certification through the CAMTC. Please note; the CAMTC reserves the right, in its sole discretion, to not accept any or all transfer hours. Transferred clock hours will be rounded down to the nearest equivalent SFSM module and the student shall begin at the subsequent module in the program of study. For example, a student who received 300 hours of substantially similar training would be credited academically for 279 hours of training at SFSM and credited with having completed Modules 1 & 2 at SFSM. Similarly, financial credit shall be awarded equivalent to the portion of clock hours transferred. Therefore, a student who transferred 150 hours from another institution would be discounted 150 hours of tuition at SFSM. Transfer hours may not make up more than 50% of the 500 hours required by the CAMTC for certification therefore SFSM may not allow students to transfer into the Massage Therapist program starting any later than Module 3.

To receive transfer of clock hours, students must complete a written exam/ exams comparable to those required for passing an individual module. Hands-on examinations are administered at an additional expense of \$75 to ensure basic hands-on competencies. However, "testing out" is otherwise not applicable. SFSM does not grant credit for professional experience, non-credit classes, or classes or programs completed from institutions not recognized by the state of California or an appropriate accrediting bureau recognized by the Department of Education or by the National Certification Board for Therapeutic Massage & Bodywork. This institution has not entered into an articulation or transfer agreement with any other college or university.

Tuition adjustments for transferred clock hours will be based on the clock hour value of the program tuition charged. Financial credit will be equal to the hours transferred multiplied by the tuition per-hour for the program of study at SFSM less books, registration, and Student Tuition Recovery Fund fees (when applicable). Due to the integrated nature of SFSM's programs, transfer of clock hours will not exempt students from attending specific classes. All transfer students are expected to attend every class as scheduled for their program of study. The acceptance of transfer credits may affect the amount of Financial Aid for which you are eligible.

### **NO GUARANTEE OF EMPLOYMENT OR LICENSURE EXPRESSED OR IMPLIED**

Attendance and/or graduation from a California Massage Therapy Council approved school does not guarantee certification by CAMTC. Applicants for certification shall meet all requirements as listed in California Business and Professions Code section 4600 et. seq. Completing training at the San Francisco School of Massage & Bodywork is NOT a guarantee of licensure. Other factors such as, but not limited to, conviction of a felony or misdemeanor substantially related to the field, conviction of a sexual crime, revocation of a previous license in another state or municipality, immigration status or other issues may prevent or substantially inhibit graduates from completing a residential or distance learning program, or from obtaining proper licensure or permit. Further, completion of training at SFSM does not guarantee employment upon completion of requisite course work and licensure.

At the time of publication, licensure is not a requirement for employment in the field of Massage Therapy in the state of California. Voluntary Certification (CMT) is recommended, however each city and county has its own unique requirements. Applicants for voluntary certification must be 18 years of age or older, pay a \$200 fee, submit fingerprints and pass a criminal background check, have successfully completed a minimum of 500 hours of training at a CAMTC approved school and have not violated any of the provisions of the California Massage Therapy Act or any policy, procedure, or regulation of CAMTC. Upon re-enrollment, a new start date, anticipated completion date and maximum time to completion shall be set and any existing academic probations reset as though the student were a new enrollee. However, copies of any academic warnings issued will exist within that student's permanent academic record and will have bearing on any future academic deficiencies that may arise in subsequent programs.

#### **WITHDRAWALS, INCOMPLETES AND REPEATED COURSES**

All completed hours, including hours from a partially completed program, will be reflected on academic transcripts. Students who withdraw before program completion shall have the notation of DROP/ WITHDRAWAL reflected on their academic transcript. Students with an incomplete program due to withdrawal will have the option to restart classes at the appropriate level, that level being equivalent to the module following the last satisfactorily completed module within their program of study. For example, if a student has completed modules 1 and 2 of the 600 Hour Massage Therapist program but withdrew several classes into module 3, the student may restart back at the beginning of module 3 at the next opportunity to do so in their chosen schedule, not to exceed 24 months from the original start date. Students who drop or are dismissed from the program may appeal to restart or retake a module from any program if extenuating circumstances such as health problems, pregnancy, surgery or family tragedy had a severe impact on attendance and prevented the student from effectively engaging in the classroom. **Students who are not receiving Title IV aid:** Students who are not receiving Title IV aid may appeal to repeat or restart one or more modules of the Massage Therapist program. If the appeal is approved the student will accrue no additional cost for the repeated classes, however they will not receive any additional clock hours for coursework that has been retaken. If a student who is repeating coursework drops the program, their transcript will reflect clock hours earned for the module which has a majority of completed coursework. Example: A student who is in module 3 is approved to re-start the program from module 2. This student re-enters the program at Module 2, then drops the program in the middle of the Module. If s/he accrued more clock hours in Modules 2 and 3 before dropping and returning, the clock hours from the original enrollment will be shown on the student's transcript.

**Students who are receiving Title IV aid:** Students who are receiving Title IV aid may appeal to repeat or retake one or more modules of the Massage Therapist program. If the appeal is approved the student will be required to pay tuition for repeated coursework and will receive clock hours for all coursework that has been completed. Federal student aid may only pay for one repeat of a previously passed course for a full-time student. All attempted hours are included in the evaluation under the maximum time frame.

#### **TRANSFERRING BETWEEN TRACKS**

- There is a \$50 administrative fee to change tracks.
- The track must not have a scheduled completion date beyond the Max Completion date shown on the student's original Enrollment Agreement.
- Student should not change tracks in the middle of a Module.
- If a student wishes to transfer to a different track and needs to stop attending their track of enrollment in the middle of a Module due to a change in work schedule or for other unforeseen reasons, they can restart the new track from the beginning of their current Module.

If the above conditions are met, the student must complete a Request to Change Tracks form which can be obtained from a school administrator. If the student wishes to transfer into a track with a scheduled completion date beyond the Maximum Completion date shown on the student's original Enrollment Agreement, the student must drop the program and re-enroll as a returning student. Returning students will be subject to a \$100 reinstatement fee.

#### **LEAVE OF ABSENCE**

A student may request a leave of absence from any program for reasons such as health problems, pregnancy, surgery, family tragedy, extended travel or work commitments that prevent the student from effectively engaging in the classroom. Students taking a leave of absence must complete all of their course requirements within 150% of the original program length, as noted next to the Maximum Completion Date on the Enrollment Agreement signed at

registration. For example, if a student is enrolled in a 6-month program, and they take a leave of absence, they must complete all program requirements within 9 months from the start date of the original track of enrollment. If a student fails to satisfy these course requirements within the allotted time, the student will be subject to any changes in requirements, policy and/or tuition and may be responsible for paying a \$100 reactivation fee.

**ATTENDANCE AND MAKEUP POLICY**

The San Francisco School of Massage and Bodywork programs are clock-hour programs. **All** classroom hours and clinical hours must be completed in order for students to qualify for graduation. A single class is defined as one 4-hour block of instruction or one clinic block. As a result, students who miss a full day (8 hours) in the PART-TIME DAYS, or DAYS program schedules will have missed two (2) 4 hour classes. A student's commitment to regular attendance is paramount to their successful completion of the Massage Therapist Program. In the event that a student is unable to attend a particular class or day of classes due to illness or other unforeseen circumstances, that student will be required to make up the missed class(es) in one of three possible ways, listed in order of efficacy below, at the direction of the administrative staff:

1. **Repeat the class in another schedule:** This is the best way to make up a missed class as it allows the student to attend the same class with a different program schedule. For example, a student who misses a class in the DAYS program schedule may be able to makeup the same class in the EVENINGS Schedule shortly thereafter. This option may not always be possible due to the class or student's availability or because the proximity of the makeup class to the missed class would not effectively support a student's learning. There is no additional charge to make up a class through this method.
2. **Complete a class makeup tutorial with an instructor:** The next best way to make up a class is via a tutorial with one of the instructors. Tutorials allow students to receive direct instruction and feedback in place of the missed class. Makeup tutorial sessions will include a mix of one-on-one instruction, hands-on practice when applicable, and post-tutorial assignments. Tutorials are available at an additional expense of \$75 per hour not to exceed \$150 per class tutorial. If multiple students miss the same class, they can split the cost of the tutorial between them. All tutorial fees must be paid directly to the instructor immediately following the completion of the tutorial. All tutorials must be completed on campus.
3. **Complete a written and/or practical assignment:** This is the least desirable way to make up a missed class and is only available for specific classes. Additionally, students may only make up a maximum of three (3) classes by written assignment per module. Subsequent absences will be required to be made up through one of the other two above listed methods, unless otherwise approved by an administrator. All written makeups/ practical assignments must be completed under the supervision of a qualified instructor.

**TARDINESS**

Please arrive to class ten (10) minutes early. This will allow you time to get your materials together, use the restroom, and get settled in for class. SFSM programs are clock-hours based and therefore promptness is necessary to avoid missing any essential material. Students who arrive to class ten (10) to thirty (30) minutes late or who leave class ten (10) to thirty (30) minutes early will be marked tardy. A student is allowed three (3) tardy marks per module. For any tardy marks subsequent to the third (3rd), the student will receive an absence towards their overall program attendance and will be required to complete a makeup assignment to account for class hours missed. Students marked absent due to tardiness will be subject to the academic probation policies in the next section below. Students who arrive more than thirty (30) minutes late for a class or who leave more than thirty (30) minutes early - even if you're allowed to stay for the remaining class hours - will be marked absent and will be subject to the makeup policy outlined above. Tardiness applies to the entire class period. This includes coming back from classroom breaks in a timely manner. Excessive failure to return from break at the time specified by the teacher will result in a tardy without the 10 minute grace period mentioned above.

**GRADING**

All program modules are graded in three essential categories:

**Attendance – 33.3% of total grade**

- Class attendance
- Class participation
- Clinical attendance

**Assignments – 33.3% of total grade**

- Practicums
- Reading assignments
- Projects & presentations

**Testing – 33.3% of total grade**

- Midpoint practical exams
- Final written exams
- Final practical exams

The San Francisco School of Massage maintains a pass/fail grading system. Each program module contains assignment, attendance and testing requirements. The total results of each are combined to achieve either a pass or fail grade for the module. Module grades are combined to attain a program score; therefore, a student must achieve a passing grade in each module to constitute a passing grade for an individual program.

A passing attendance grade requires that all required class and clinic hours are attended or made up through one of the methods listed in the attendance and makeup policy above. Failure to complete all required classroom or clinical hours, or their equivalent makeups, constitutes a fail of the attendance section. Students are also required to actively participate during both hands-on and lecture classes. Hands-on participation includes giving and receiving massage. Lecture participation includes attentiveness, providing answers when called upon, and engaging in class or small group activities and discussions. Failure to participate in any one class will result in an absence for that class. Excessive failure to participate throughout any particular module will result in overall failure of the attendance section for that module. Students who fail to meet the attendance requirements for a module will not meet our standards of satisfactory academic progress (SAP), and will be required to retake the module pending any subsequent appeal.

A passing assignments score requires that all assignments are completed to their individual standards as defined in the syllabus. Failure to complete all assignments constitutes a fail of the assignments section. Students must attain a score of 70% or above to receive a passing score on tests and practical evaluations. A score of 69% or below constitutes a failing score for any hands-on or written examination.

Hands-on examinations may be retaken by performing the exam outside of scheduled classes with an instructor or qualified staff member at an additional expense of \$75 to cover the additional time required for individual examinations. Should a student fail to attain a passing score after retaking a hands-on examination they will be required to meet with the instructor and the school director to develop an action plan for retaking coursework in areas that need improvement, followed by a repeat of the hands-on examination. Failure to attain a passing score on a 3rd attempt will constitute a failure to maintain SAP and the student will be required to retake the corresponding Module.

Failure of any individual area; attendance, assignments or testing, will constitute a failure of that individual module. Students must satisfactorily complete and receive a passing grade for each module within the maximum time to completion in order to complete subsequent modules within a program. Failure to attain a passing grade within that time results in the student being dismissed from the program.

Students who are dismissed may re-enroll in the program they were dismissed from with the assessment of a \$100 reactivation fee. Any existing unearned tuition shall be applied as credit towards the student's new enrollment and any hours scheduled but not paid for by existing credit shall be the sole responsibility of the student. Students who dispute their dismissal may appeal the decision, as noted above.

### NOTICE OF NON-DISCRIMINATION

## **STRF – STUDENT TUITION RECOVERY FUND**

It is a state requirement that a student who pays his or her tuition is required to pay a state-imposed assessment for the Student Tuition Recovery Fund.

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd., Suite 225, Sacramento, CA 95834 (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

- 1.The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
- 2.You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
- 3.You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
- 4.The institution has been ordered to pay a refund by the Bureau but has failed to do so.
- 5.The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
- 6.You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
- 7.You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.

SFSM also provides a variety of flexible payment plans to suit different needs and preferences. Payment plan options may vary by program length. Students may also choose to seek private educational lending through alternative sources. The San Francisco School of Massage & Bodywork takes no responsibility for loan agreements made privately between students and their lending institutions.

## **DISTANCE EDUCATION**

The San Francisco School of Massage & Bodywork is authorized to deliver distance education opportunities within the state of California. A prospective student's physical location will be determined at the time of enrollment as indicated by the prospective student's physical address as listed of a government issued identification.. Enrolled students must inform the school of any change in physical location. Any physical address change outside the state of California in which SFSM does not have approval to operate may adversely impact the student's ability to complete the program.

## CANCELLATION, WITHDRAWAL AND REFUND POLICIES

**STUDENT'S RIGHT TO CANCEL:** The student has the right to cancel and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. The \$75 registration fee is non-refundable after 3 days from the date of enrollment. If the student has received federal student financial aid funds, the student is entitled to a refund of moneys not paid from federal student financial aid program funds.

**REFUND POLICY:** The student has the right to cancel and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. The \$75 registration fee is non-refundable after 3 days from the date of enrollment. The date of withdrawal for cancellations shall be the date the notice of cancellation was received, or the date of last academically related activity completed at the school, which may include clinical experience, whichever is earlier. This date shall be considered the date of determination, which will be counted as the date of withdrawal from the program. If the school cancels an educational program, the school will make a full refund of all charges. When a student withdraws from the program, a refund shall be issued, if applicable, either by check or credit within 45 days following the date of determination.

**STUDENT'S RIGHT TO WITHDRAW:** Under California law (CEC §94920), a student may withdraw from a course after instruction has started and receive a pro rata refund for the unused portion of the tuition and other refundable charges. Students who exceed 60% of the total hours of instruction shall not be entitled to a refund. Eligible withdrawing students shall be entitled to a pro rata refund, less registration, books and fees, based on the following:

### **(HOURS PAID) – (HOURS TAKEN, REGISTRATION, BOOKS, AND FEES) = AMOUNT OF YOUR REFUND**

The student has a right to cancel this enrollment agreement, withdraw from classes and obtain a refund (when applicable) by providing a written, dated and signed notice of cancellation stating the reason for withdrawal to Gary Witt, Director of San Francisco School of Massage, 475 Valencia Street 3rd Floor, San Francisco, CA 94103. Withdrawal may also be effectuated by student conduct including, but not limited to, a lack of attendance. Students who miss the maximum number of classes noted in the attendance policy consecutively will be considered withdrawn automatically. All refunds shall be remitted within 45 days of the date of withdrawal. Any monies paid by a third party lender or institution shall be refunded to that party. Any monies not paid from a lender or third party shall be returned to the student. The date of withdrawal for cancellations shall be the date the notice of cancellation was received, or the date of last academically related activity completed at the school, which may include clinical experience, whichever is earlier. This date shall be considered the date of determination, which will be counted as the date of withdrawal from the program. If the school cancels an educational program, the school will make a full refund of all charges. When a student withdraws from the program, a refund shall be issued, if applicable, either by check or credit within 45 days following the date of determination.

#### RETURN OF TITLE IV FUNDS POLICY:

The Federal Return of Title IV funds formula (R2T4) dictates the amount of Federal Title IV aid that must be returned to the federal government by the school and/or the student. The federal formula is applicable to an eligible student receiving federal aid when that student withdraws at any point during the enrollment period.

If a student did not start or begin attendance at the school, the R2T4 formula does not apply. For official withdrawals, a student's withdrawal date is the last day of attendance in an academically related activity such as class or student clinic. The date when the school receives written notice from the student of their intent to withdraw is the Determination Date. The Determination Date is used when calculating the time frame of refunds for Official and Unofficial Withdrawals.

**Official Withdrawal Process:** The student has a right to withdraw from classes and obtain a refund (when applicable) as shown under STUDENT'S RIGHT TO WITHDRAW, above. All refunds shall be remitted within 45 days of the Determination Date as outline above. Any monies paid by a third party lender or institution shall be refunded to that party. Any monies not paid from a lender or third party shall be returned to the student.

**Unofficial Withdrawal Process:** Withdrawal may also be effectuated by student conduct including, but not limited to, a lack of attendance. Students who miss the maximum number of classes noted in the attendance policy consecutively or cumulatively will be considered withdrawn automatically. Students who are dismissed/ unofficially withdraw will receive a Notification of Un-enrollment by email within 7 business days of their dismissal and will receive a hard copy of the notification by mail after the email has been sent. The Determination Date shall be the date the notice of withdrawal was sent by email to the student. All refunds shall be remitted within 45 days of the Determination Date. Any monies paid by a third party lender or institution shall be refunded to that party. Any monies not paid from a lender or third party shall be returned to the student.

The federal formula requires a Return of Title IV calculation if the student received or could have received (based on eligibility criteria) federal financial assistance in the form of Pell Grants, Direct Loans or Direct PLUS Loans, FSEOG, TEACH, and Iraq Afghanistan Service Grants (IASG) during the payment period. The percentage of Title IV aid earned is equal to the percentage of the payment period that was completed as of the withdrawal date if this occurs on or before the 60% point of time. After the 60% point of the payment period the

## » »» LEGAL DISCLOSURES, RULES AND ACADEMIC STANDARDS

student is considered to have earned 100% of the aid for the period. The percentage that has not been earned is calculated by subtracting the percentage of Title IV aid earned from 100%.

The percentage of the payment period completed is calculated by the hours scheduled in the payment period as of the withdrawal date divided by the scheduled hours in the payment period. The amount to be returned is calculated by subtracting the amount of Title IV assistance earned from the amount of Title IV aid that was or could have been disbursed as of the withdrawal date. If a credit balance still exists on the student's account after the R2T4 and institutional refund calculations are done, that credit balance must be used to pay any grant overpayment that exists based on the current withdrawal within 14 days from the date that the R2T4 calculation was performed. The overpayment must be eliminated prior to offering a credit balance to a student.

The following Title IV return distribution is used for all FSA students.

1. Unsubsidized Direct Loan
2. Subsidized Direct Loan
3. Direct PLUS Loan (Parent)
4. Federal Pell Grant
5. Iraq Afghanistan Service Grant

Returns must be made as soon as possible to the federal programs but no later than 45 days after the date of determination. The law requires that a student is responsible for all unearned Title IV program assistance that the school is not required to return. This is determined by subtracting the amount returned by the school from the total amount of unearned Title IV funds to be returned.

A title IV, HEA credit balance occurs whenever the amount of title IV, HEA program funds credited to a student's ledger account for a payment period exceeds the amount assessed the student for allowable charges associated with that payment period. If a credit balance still exists on the student's account after the R2T4 and institutional refund calculations are done, that credit balance must be used to pay any grant overpayment that exists based on the current withdrawal within 14 days from the date that the R2T4 calculation was performed. The overpayment must be eliminated prior to offering a credit balance to a student.

If the R2T4 calculation results in a credit balance on the student's account it will be disbursed in the form of a check issued by the institution as soon as possible, and no later than 14 days after the calculation of R2T4. If a check sent to a student or parent is not returned to the institution but is not cashed, the institution must return the funds to the Secretary no later than 240 days after the date it issued the check.

If the R2T4 calculation results in an amount to be returned that exceeds the school's portion, the student must repay some funds. Any overpayment resulting from the R2T4 calculations will require repayment of the full amount of the overpayment within two years of the date of determination.

**Post Withdrawal Disbursements:** If the student or parent (in the case of PLUS loans) did not receive all Title IV funds that were earned prior to withdrawing, a post-withdrawal disbursement may be due. A post-withdrawal disbursement must be made from available grant funds before available loan funds. If the post-withdrawal disbursement includes loan funds, the student must give permission before the funds can be disbursed. Grants must be disbursed within 45 days. Students will be notified of post-withdrawal disbursement eligibility for loans within 30 days of the date of withdrawal determination, and will have a minimum of 14 days to respond.

A credit balance that occurs as the result of a post-withdrawal disbursement will be refunded to the student or parent (PLUS loans) as soon as possible, but no later than 14 days after the credit balance occurs on the student account. A check will be mailed to the address on record .

A student who becomes ineligible qualifies for a late disbursement, and the parent qualifies for a parent Direct PLUS Loan disbursement if, before the date the student became ineligible, (1) The Secretary processed a SAR or ISIR with an official expected family contribution for the student for the relevant award year; and (2) For a loan made under the Direct Loan program the institution originated the loan or award.
