However, by signing First Lady Permanente Education Center Enrollment Agreement, the student affirms that they have not been convicted of any Penal Code violations.

It is the student's responsibility to make his/her disability known and to present certified documentation of the disability. The student record will be updated to ensure the student is accommodated accordingly. The Vice President of Student Services will notify the student to discuss the recommended accommodations to determine a reasonable means for delivering a specific accommodation. **Document of recommended accommodations from a physician or other healthcare professional will be required prior to provision of accommodation.**

At First Lady Permanente we understand and agree with the notion that student learning disability or learning disorder/difficulty is a situation where a student has difficulty learning using a typical approach. The causes vary however usually the causing factor is usually a disorder that affects the brain's ability to receive and process information. In other words, learning disabilities are neurologically-based conditions that get in the way of proper attainment, management and use of skills and knowledge. Every effort is put forth to ensure that students, faculty and staff with disabilities at First Lady Permanente receive the services and accommodations to which they are entitled.

The diagnosis of a learning disability in an adult requires documentation of at least average intellectual functioning along with deficits in such areas as:

- Auditory processing
- Visual processing
- Information processing speed
- Abstract reasoning
- Memory (long-term, short-term, visual, auditory) • Spoken and written language skills
- Reading skills
- Mathematical skills
- Visual spatial skills
- Motor skills
- Executive functioning (planning)

Students are required to submit documentation verifying the nature and extent of the disability prior to receiving any accommodations. In this case the documentation must be provided to the college on professional letterhead and contain dates of assessment, signatures, titles, and license/certification numbers of the diagnosing professionals. Diagnoses and disabilities that do not contain the required information may not be used for determining eligibility for academic accommodations.

Sponsored Versus Non-Sponsored Students

Any student who does not pay 100% of the tuition for the enrolled program and has part, or all of their tuition paid by an employer, a government agency or a non-profit group is considered a Sponsored Student. Sponsored Students will be treated in the same fashion, and must meet the same enrollment and performance standards. Enrollment into a program requires a non-refundable enrollment fee, and tuition is due by the due date; sponsored students that are waiting for funds are responsible for these program costs. Once sponsorship pays students program costs, the school will reimburse the student accordingly for the fees they paid awhile waiting their sponsorship. In the event a sponsorships does not pay out, student is responsible for the fees. FLP regularly has students for whom part, or all of their tuition is sponsored by someone other than their selves, or their families. Common examples of Sponsoring Agencies include Workforce Investment Agencies, Public Education Agencies, Other Public Entities and Employers.

Similarities Between Sponsored Versus Non-Sponsored Students

1. All students, whether they are sponsored or not, must conduct their enrollment and eligibility screening in the exact same fashion. This includes enrolling via the www.firstladypermanente.com web site, taking the required "Ability to Benefit" skills test, submitting LiveScan fingerprinting for a DOJ Criminal Background Check, receiving a Physical Exam, Negative Drug Test, Immunization records and a Tuberculosis Test.

Differences Between Sponsored Versus Non-Sponsored Students

1. Sponsored programs that have 15 or more contracted students are required to submit full payment regardless of the final completion rates. (This policy applies to all contracted satellite sites conducting program minimums of 15 students).

2. Non-Sponsored Students must pay the BPPE Student Tuition Recovery Fund (STRF) fee, and may be eligible for protection and tuition reimbursement from the STRF under certain circumstances. Sponsored students do not have to pay the STRF fee, and are not eligible for STRF benefits.
3. Non-Sponsored Students will receive an IRS Form 1098T detailing the tuition they paid in the prior tax year. In many cases the full amount of their tuition, minus certification exam fees, may be tax deductible. Sponsored Students do not qualify for this tax deduction.
4. Some Sponsored Students may be required by their Sponsoring Agency to Co-Enroll in another program in order to qualify for the funding they receive. For example, students sponsored by Workforce Development Agencies must Co-Enroll as a client of that agency in order to receive funding. Students sponsored by Adult Schools or ROP program must Co-Enroll as a student in that program. Co-Enrollment is strictly an issue between Sponsored Students and their Sponsoring Agencies. FLP is never a party to such agreements and commits to treating all students in the same manner regardless of whether they are sponsored or not.

If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. This option means that the student agrees to attend and complete all classes, clinical assignments, and competencies in a manner consistent with her peers within the guidelines set forth by the instructors and First Lady Permanente. The student must present a letter from a physician releasing the student to continue in the training with First Lady Permanente reserving the right to contact the physician to verify student physical activity level and ability to complete all requirements of the clinical experience.
2. The student may take up to 180 days leave of absence from the didactic and clinical components of the program and be allowed readmission to the program, reinstatement fees apply. The student is required to make up all clinical and didactic hours missed and to complete all the necessary competencies. This option timing is contingent upon an available student position in an appropriate clinical facility.
3. Students may also continue the training with a modification of clinical assignments. This option means the student would have the choice to delay clinical assignments and/or competencies in areas high in potential hazardous exposure. However, in order to accomplish this successfully, the training may need to be extended. The student is required to make up all clinical and didactic hours missed and to complete all the necessary competencies. The student will present a letter from a physician releasing the student to continue in the training. Private training hours are an additional fee.

STUDENT INFORMATION

Student's Right to Privacy

The privacy and integrity of student records is a fundamental concern at this institution. To this end, no student records will be released to any party without the prior written authorization of the student. The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C... 1232g) and the regulations adopted thereunder (34 C.F.R... 99) and California Education Code 6100 Et. Seq. set out the requirements designed to protect the privacy of students concerning their records maintained by the campus. Several aspects are of particular importance: 1) access to student records, 2) the release of the records or data contained in the records, and 3) the rights of a student to a hearing to challenge the contents of the student's records. There are specific exceptions to the privacy rights of students. This college may be required to make student records available to authorized auditors of various oversight agencies. These agencies include, at the time of this writing, the Bureau for Private Postsecondary Education and (if this institution applies for accreditation) the official representatives of the accrediting agency.

Any student or employee who engages in conduct which directly or indirectly violates, or infringes upon, the privacy rights of an employee or student will be subject to disciplinary action up to and including expulsion/termination from First Lady Permanente.

Student Records

First Lady Permanente maintains student records in individual student folders according to the privacy regulations. Student records are stored in a fire-resistant file cabinet for up to one year after student separation from the college. The documents contained in the files will be the registration form, enrollment agreement, transcripts, and other official information. These records shall be considered strictly confidential and the exclusive property of First Lady Permanente Education Center. The following documents will be maintained for each student:

Student Grievance Procedures – Student Rights

First Lady Permanente Education Center will make every attempt to resolve any student grievance that is not frivolous or without merit. Grievance procedures will be included in new student orientation so that all students know the steps to follow should they desire to register a grievance at any time. Evidence of final resolution of all grievances will be retained in school files in order to determine the frequency, nature, and patterns of grievances for the institution.

The following procedure outlines the specific steps of the grievance process.

1. If possible, address your grievances to your instructor at the first opportunity. Instructors maintain an “open door policy” whenever they are not actively involved in instruction, and will provide you with their e-mail and cell phone numbers to contact them at other times.
2. If your instructor does not resolve your grievance, or if your grievance is against your instructor, you should fill out a grievance form, and submit it to the FLP Admissions Office. The Admissions Office will route your grievance to the appropriate representative. If you are an NA student, this will be the program director for your campus. For all other programs, this will be the Chief Operating Officer of FLP.

 - d. If the grievance is of such nature that it cannot be resolved by the management, it will be referred to an appropriate agency if applicable.
 - e. Depending on the extent and nature of the grievance, interviews with appropriate staff and other students may be necessary to reach a final resolution of the grievance.

Student Appeals

If a student believes that he or she is deserving of an exception to the regulations and policies of this institution, that student may write to the Chief Executive Officer at the main address of the institution. The

written communication should state the nature of the circumstances which the student believes should be considered by the administration in the application of its policies and regulations regarding dismissal, academic probation, administrative drops, extensions for the time needed to complete a grade, or other matter of concern.

Placement Services

The institution does not provide placement assistance.

Educational Assistance

Although First Lady Permanente Education Center does not offer job placement assistance to its students, educational assistance is readily available. If any student wishes to pursue a degree in higher education, either after completing their courses or during their enrollment, FLP will assist the student by providing useful materials to them, such as university brochures, catalogs, and registration materials. In addition, we will arrange appointments for the student to meet with the appropriate counselor to discuss admission and transfer requirements.

Student Orientation

Student orientation is a mandatory process to ensure the student is informed about the program in its entirety, program fees, and expectations. Students are required to attend a private orientation meeting at the office to review program information and fill out enrollment documents. All enrolled students are required to attend a second orientation meeting with the accepted students in order to meet the Administrator, and the Instructors. A scrub sizing and paperwork is filled out along with review of the student catalog.

Student Advising

The Student Service Staff is present during school hours to assist students with any issues/questions.

Evaluation of Student Progress

Evaluation of student progress will be ongoing and based upon meeting both theory and clinical objectives. Progress in theory is defined as maintaining a grade of “C” or better (75% or higher). Progress in clinical is defined as maintaining a grade of “Satisfactory”. A failure in either area will cause the student to fail the semester or specialty.

Theory: Points will be given for each component of the course, such as tests, papers, and projects. To pass, the student must receive a minimum grade of the total points. Each instructor will grade and review results of required work with students and allow them time for discussion.

There are times throughout the program when a student’s progress may fall below minimum grade. Students who are experiencing difficulty meeting theory or clinical objectives may be issued a document of concern and subsequently be placed on a Learning Contract. The Learning Contract specifies the expectations that are not being met; the behaviors that are expected; and the date by which this must occur. As soon as a student’s learning and/or performance problems have been identified, the student will be notified regarding the concern and will be asked to meet with the instructor and Program Director.

Any time the student feels in jeopardy, she/he should consult with the instructor regarding the problem, following the grievance process as outlined.

Grades will follow this scale:

Score	Grade	GPA
95-100%	A	4.0
90%-94%	B+	3.5
85%-89%	B	3.0
80%-84%	C+	2.5
75%-79%	C	2.0

Note: A grade of “Incomplete” will only be given in the event that, due to extraordinary circumstances, a student has not been able to complete all the course work by the end of the semester. An “Incomplete” must be removed within two weeks of the end of a semester or it will default to an “F”. **Incompletes past 3 months of program completion date will result in an “F”, failing the program.**

Clinical: The clinical instructor is responsible for all student clinical assignments and evaluations. It is recognized that an exact match between theory and clinical are not always possible. Student assignments will include documented preparation to care for assigned patients along with documentation of assessment, care planning, and medication administration. Other assignments may be given as appropriate. Problems will be handled initially by the instructor and include the Program Director when indicated.

*^ Clinical Agreements will be given to the student with a student signature required in order to attend clinical sessions. ALL POLICIES AND PROCEDURES OF THE CLINICAL SITE ARE REQUIRED TO BE MET BY THE STUDENT.

Evaluations for both theory and clinical will be discussed with each student as an on-going, continuous part of the class and written assessments will be made for each student at least once during each semester. Final evaluations are discussed with each student during the last week of each semester and then filed in the student’s record.

Remediation Policy:

Any student who has not maintained at least a 75% grade average in theory and/or a Satisfactory rating in clinical performance will be referred to the Program Director for a conference. At the conference, the student and the Program Director and instructor will:

1. Discuss the identified learning/performance problems;
2. Draw up a written contract specifying actions that will result in improved performance and are agreeable to the student, instructor, and Program Director;
3. Determine a date by which the contracted goals are to be satisfied; and
4. Schedule a second meeting.

At the second meeting, the Program Director and instructor will determine if the contract goals have been met. If the contract goals have not been met, the student may be dismissed from the program.

Understanding that students have different learning styles and may need additional assistance, students are encouraged to use the services of First Lady Permanente Education Center to increase the chance of success within the program. These include:

- a) Tutoring
- b) School library
- c) Study and test taking consultation

The student must demonstrate proficiency in each semester before being permitted to progress onto the next semester. If the student continues to demonstrate insufficient preparation for the subject content of the course, has developed a pattern of neglect of class assignments, or has not met specific objectives set forth in the plan for remediation, the student will be considered for dismissal.

Classroom and Clinical Behavior Policy

Plagiarism

“Plagiarism is copying another person’s text or ideas and passing the copied material as your own work. ... You must both delineate (i.e., separate and identify) the copied text from your text and give credit to (i.e., cite the source) the source of the copied text to avoid accusations of plagiarism. Plagiarism is considered fraud

and has potentially harsh consequences including loss of job, loss of reputation, and the assignation of reduced or failing grade in a course.

This definition of plagiarism applies for copied text and ideas:

- (i) regardless of the source of the copied text or idea;
- (ii) regardless of whether the author(s) of the text or idea which you have copied actually copied that text or idea from another source;
- (iii) regardless of whether or not the authorship of the text or idea which you copy is known;
- (iv) regardless of the nature of your text (journal paper/article, webpage, book chapter, paper submitted for college course, etc) into which you copy the text or idea;
- (v) regardless of whether or not the author of the source of the copied material gives permission for the material to be copied; and
- (vi) regardless of whether you are or are not the author of the source of the copied text or idea (self plagiarism).

Every instructor has the responsibility and authority for dealing with such instances of cheating and plagiarism as may occur in class. An instructor who determines that a student has cheated or plagiarized has a range of many options, which may be as severe as giving the student a failing grade for the course. Furthermore, the student may face other penalties as stated in the college's Student Conduct Policy. Finally, it must be understood that a student who knowingly aids in another student's cheating e.g., permitting the other student to copy a paper or examination question, is as guilty as the other of the offense.

Warning: Perjury/ Fraud

Falsifying information about citizenship, California residency, financial aid and/or military status could result in the following: Criminal charges for perjury and/or fraud and if convicted, imprisonment and student disciplinary action, and/or. accumulated monetary charges for restitutions.
