## **200 Hour Practitioner Course**

Our 200 Hour Practitioner Program is where everyone begins their training in massage here at CHI. Students begin learning Swedish Massage Therapy which is fundamental to learning a variety of other therapeutic modalities. We begin with the essential methods of healing: gentle movement, massage, deep breathing and deep relaxation for benefit to self and others. Students are guided through a succession of body mechanics that deepen their capacity to transfer force, flow energy and hold presence. Once established in a state of presence, students engage in the giving and receiving of massage techniques: using gentle, fluid pushing strokes, and warming, squeezing strokes. Students learn to flow progressively through each area of the body, penetrating the tissues and inducing states of deep relaxation. Building on the relaxation techniques, students learn to warm, stretch and knead tissues with effective use of pressure to assist nutrient absorption, removal of metabolic wastes, and tissue mobilization. Concurrent with their developing massage skills, students are guided through an applied understanding of the body systems emphasizing the nervous, circulatory, lymphatic, digestive, respiratory and musculoskeletal systems. Students learn how to modulate Swedish techniques based on body type, presenting patterns and contraindications. As students gain proficiency with their massage skills and potency with their touch, they can effectively address a range of pain and tension profiles in preparation for their internship time at the school. After evaluation, students satisfy their internship requirement working with the general public within our clinic setting. This internship time provides valuable experience to the student and preparation for their future practice or employment. The second half of the program, students are introduced to a variety of modalities such as Deep Tissue massage, Trigger Point therapy, Myofascial massage, acupressure, energy work, and side-lying work. Students are then allowed time to integrate these therapies into their foundation work of Swedish Massage. ## **500 Hour Class Descriptions:**

### **Acupressure (24 Hours)**

**Prerequisite: None**

Acupressure is the application of pressure to the body to enhance the flow of energy (commonly referred to as 'Chi' or 'Ki') in the 12 main bi-lateral Meridians, according to the principles of Chinese medicine. These Meridians run throughout the body and give our body the "life force."

Our bodies can have too much of this energy ('Chi') or not enough in particular areas that create an imbalance which eventually may progress to disease. Think of a river where debris has collected and dammed up the flow of water. There is "too much" water above the dam, and "not enough" water below the dam. If you put pressure on the blocked area, the river's waters flow again, and balance is restored.

Acupressure is believed to be the 'Mother of Acupuncture,' in that it predates the use of needles to stimulate the body's energy flow. It has the same principles as Acupuncture, but the pressure is applied directly to the Acupoints of the body mainly by using the hands, fingers, thumbs or knuckles. Stimulation of the body's meridian system by touch is perhaps one of the oldest and most effective healing systems.

### **Advanced Face and Scalp (4 Hours)**

**Prerequisite: Swedish massage and basic anatomy.**

The face and head are often overlooked in massage. We know that most people hold tension in their neck and shoulders. Many times, that tension is also being held in the face and head and can even be where it is originating from. In this class you will learn techniques from Swedish, Acupressure and Lymphatic massage. The use of hot towels in both therapeutic and spa techniques will also be taught. By relieving tension and reducing inflammation you can help to restore balance. Since many headaches can be relieved by these techniques, it is a wonderful addition to your skill set.

Upon completion of this class the student will have knowledge of the muscles and attachments in the face and head that tend to hold tension. Students will learn various styles to achieve stress release, reduced inflammation and headache relief.

Areas covered in Anatomy and Kinesiology Upper Extremity will include the pectoral girdle, the neck and spine, the bony thorax and the arms and hands.

**Prerequisite: None**

In TFH we use muscle testing as a method of biofeedback to identify imbalances in the body’s energy system. Utilizing a holistic approach, we re-balance the body’s energies and activate the body’s intrinsic healing process so that the body can better heal itself.

You will learn the art of muscle testing and the basic procedure to balance the body’s muscles and acupuncture meridians as presented in Dr. John Thie’s book, Touch for Health. Learn skills to increase your energy level, reduce stress and pain, increase mental clarity and enhance immune system function. The basic balancing system includes how to test and correct 14 muscles/meridians, including the spinal reflexes, neurolymphatic reflexes, neurovascular points, and meridians. You will also learn how to assess nutritional support for the muscles, how to effectively reduce emotional stress and pain by touch.

Touch for Health can be used as a stand-alone method or it can be used with other healing modalities such as massage, chiropractic, acupuncture, cranio-sacral, psycho-emotional counseling, etc. Professionals using Touch for Health may be able to find and unlock their patient’s “stuck” conditions, often enabling their clients to become more self-maintaining.

## **Touch for Health – Level 2 (16 Hours)**

**Prerequisite: Touch for Health – Level 1**

In Touch for Health level - 2, students learn 14 more muscles to test to balance the system. We review the 14 main Chinese Meridians from level -1, discuss the “Chinese Clock” by learning the peak energy cycle of these Meridians.

We assess energy patterns in the 24-hour cycles & Five Element (seasonal) cycles and find a single key-point to balance the energy system working with charts. We continue with learning food testing and discuss foods that are energizing and draining to our system. Also, acupressure holding points and a variety of other balancing techniques are covered in this level.

We will explore how to stay present in our work and to take care of ourselves so that we don't suffer from burn out. COME AND GET RECHARGED AND INSPIRED!

## **Trigger Point (Back/Hip; Neck/TMJ & Shoulder/Torso) - (16 Hours each class)**

**Prerequisite: Completion of 200 - hour program**

Do you want to be a “Rock Star” Deep Tissue Therapist? Do you want to learn how to break up the “viscous cycle” of sciatica, thoracic outlet syndrome, carpal tunnel, low back pain, headaches, TMJ? This class will offer you a modality to address soft tissue dysfunction in the body from stress, injuries, repetitive/overuse, and restore hyper-contracted short muscles into a healthy restorative state. You will learn how to detect what and where a Trigger Point is and disperse them using a combination of specific techniques.

The foundation of this work is releasing the fascia, stimulating the pro-receptors in the origin, insertion and belly of the muscles with a specific intention. These deep tissue moves will always be addressed by “making nice” (lymph drainage) to the tissue addressed, passive stretches, traction, PIR, CTR and follow up care for your clients to take home after treatment.

## **Zen Thai Touch (20 Hours)**

**Prerequisite: None**

Learn Seymour's unique approach to Asian Bodywork that combines palm, thumb, elbows, knees, feet and hand movement techniques derived from Japanese, Chinese and Thai methods.

In contrast to the typical faster massage style of these traditional forms.

Zen-Touch™ approach created by Seymour pays attention to energy flow while holding and listening to the “Sen” (Thai) /“Meridian” (Chinese & Japanese) lines. This deeply nourishing and sensitive approach allows the client’s energy flow to do the healing in contrast to the manipulation approach of the traditional Thai, Shiatsu and Tui Na styles. Client’s report how they can receive the stretches and pressure with complete comfort in comparison to the often intrusive traditional Thai and Shiatsu methods.

Assessment, Recommendations and Therapy based on Chakras, Yin/Yang and 5 Elements comparing Ayurveda and Chinese Medicine is also included in the class. Upon completion and after continued practice of all the techniques, participants will have the skills necessary to practice both Shiatsu and Thai massage.

### **Zen Touch Shiatsu (16 Hours)**

**Prerequisite: None**

ZT shiatsu, a form of energy meridian acupressure, is both an effective form of health assessment and therapy as well a nurturing form of body/energy work that mutually enhances the health of both the receiver and practitioner..... Yes, Zen-Touch™ Shiatsu is equally beneficial for both practitioner and client. The theoretical background is founded on balancing or integrating our health condition with the *forces of nature* described in Eastern Philosophy as t Yin/Yang and the 5 Movements or Elements. People most frequently report enhanced vitality, pain relief, and heightened health awareness accompanied by a sense of freedom and peacefulness.

ZT practitioners draw from a wide range of improvised techniques that make each session a uniquely personalized experience. When appropriate, a session can resemble a yoga- like dance that is choreographed by the practitioner to initiate increased range of movement for body mind spirit. At the opposite extreme a session may look very simple and passive when the practitioner finds it necessary to hold "points" for extended periods of time.

If the student is required to tutor with the instructor or make-up classroom time, the fee is \$ 40.00 per hour. A student can make arrangements with the instructor to attend another class schedule during the 200 - hour program for make-up.

Absence- Absence will be considered as excused if the student contacts the school or instructor under the following circumstances: illness, death or birth in the immediate family and other cases where the school approves the absence. However, it is the student's responsibility to arrange with the instructor regarding make-up of any time missed. **All missed time must be made up.** Absence from the first day of instruction could result in a dismissal from the class.

Tardiness- Tardiness is a disruption of a good learning environment and is to be discouraged. Tardiness beyond 5 minutes on four occasions will result in probation for 3 weeks and potential to be dropped from the program. A tardy of 15min or later requires make-up time and possible write up.

Probation for Unsatisfactory Attendance- Students with excessive absences in any class will receive a verbal notification and or written notifications of academic probation, any absences during such probationary period will be cause for dismissal of the student from the training program.

If a student should have a grievance or complaint that cannot be resolved, the student should contact the Assistant Director Paulette Brown. ## Refund Policies

### 200 & 500 Hour Program

The student has the right for a full 100 percent refund of all charges less the amount the non-refundable registration fee, if he/she cancels the enrollment agreement **in writing** prior to or on the first day of instruction, or the seventh day after enrollment, whichever is later.

In addition, a student may withdraw from the course, in writing, after instruction has started and receive a pro-rated refund for the unused portion of the tuition and other refundable charges if the student has completed 60% or less of the instruction. Malpractice insurance, student tuition recovery fund fee and registration fee are non-refundable. Textbooks can be returned and refunded only if they are in perfect condition. Students who completed more than 60% of the course are not entitled to a refund of tuition paid to the date of withdrawal.

### A la Carte Courses:

#### **One day, 4- & 8-hour courses:**

The student has the right to a full 100 percent refund of all the charges less the non-refundable fees if he/she cancels this agreement **in writing** on or prior to the first day of instruction.

**These courses require 100% attendance.** If the course is not completed, there is no hour credit or refund that will be given. There is no make-up or tutorial time available for these classes.

#### 12, 16, 20, 24- & 28-hour courses:

The student has the right to a full 100 percent refund of all the charges less the non-refundable fees if he/she cancels this agreement **in writing** on or prior to the first day of instruction or within 24 hrs. of enrollment, whichever is later.

In addition, the student may withdraw in writing, from a course after instruction has started and receive a pro rata refund for the unused portion of the tuition and other refundable charges if the student has completed 30% or less of the instruction (registration fees are non-refundable.)

### Pro Rata Refund Policy Example:

#### 200 & 500 Hour Program

If the student completed 60% or less of the course before withdrawing, the refund shall be a pro rata refund. For example, the tuition fee of \$2,200.00 divided by the 200 class hours is a quotient of \$11.00, this is the hourly charge for this program. The amount owed by the student for the purposes of calculating a refund is derived by multiplying the total hours attended by the hourly charge for instruction plus the amount of the non-refundable registration fee.

#### **Example:**

If 100 hours are completed, then  $100 \times \$11.00 = \$1,100.00 + \$200.00$  (registration fee) = **\$1,300.00**. This is the amount the student owes the school. Refunds will be made no later than 45 days after the cancellation date.

#### A la Carte Course:

If the student has completed 30% or less of the instruction the refund shall be pro rata refund. For example, if the student completes 7 hours of a 24 - hour course and paid \$450.00 for tuition, the student would receive a refund of \$318.75, less any non-refundable charges. Refunds will be made no later than 45 days after the cancellation date.

### **Withdrawal Procedure**

**A student must terminate his/her enrollment in writing.** The actual day of cancellation is the date the school received the cancellation form in person or the date postmarked (if mailed). The effective date for the refund calculation will be the date the notice was received in the office, or by the postmarked date if mailed (not the date of the notice), **WHETHER OR NOT THE STUDENT WAS IN ATTENDANCE.** Any refunds due will be sent no later than 45 days from cancellation notice.

### **Additional Charges**

Any Student who does not complete a course within the allotted contract enrollment period will be charged at the same hourly rate for any additional time required for completion. Normal enrollment periods provide arguable allowance for limited excused absences.

### **Student Tuition Recovery Fund Disclosures**

**The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.**

**You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program. It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school.**

Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

### **Student Loans / Financial Aid**

California Holistic Institute is not accredited by an accrediting agency recognized by the United States Department of Education. Therefore, our students are not eligible for federal financial aid loan programs. However, CHI does participate in the federal and state financial aid program through California

Department of Vocational Rehabilitation. This agency usually pays tuition directly to the school and any refunds for incomplete training are returned directly to the agency.

If a student obtains an outside loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If a student receives federal student financial aid funds, the student is entitled to a refund of the money not paid from federal financial aid funds.

## **INTERACTIVE DISTANCE LEARNING (IDL):**

The current COVID-19 climate has invited all of us to bring flexibility and creativity into our lives. For a limited time we are able to offer our 200 and 500-hour programs online through Interactive Distance Learning (IDL) allowing students to learn from the safety of their own home.

We will be utilizing the Zoom platform for both lecture and hands-on portions of the program. If you are not familiar with this platform, we will be happy to help you with the process. We will utilize Class Marker to distribute quizzes and exams which will allow for an immediate turn around time of your grade.

Any student who falls behind due to difficulties with IDL will have the opportunity to be tutored by their instructor. If difficulties continue a student will have the opportunity to put their program on hold and complete the program when onsite classroom instruction is able to commence.

### **What you need to know:**

Per CAMTC's guidelines we are able to offer 425 hours of your 500-hour program through Interactive Distance Learning (IDL). The remaining 75 hours will be done in person when we are permitted to return to an onsite classroom environment.

Tuition, fees, class hours and all school requirements and policies remain the same although there are additional requirements. The following are additional requirements that have been implemented to allow for smooth and successful learning through IDL.

### **REQUIREMENTS OF STUDENTS – All students will need the following:**

- Laptop or tablet or cell phone (with tilt adjust tripod). Device must have functioning speaker and microphone.
- Internet connection that will support the Zoom platform and allow for smooth video streaming
- Massage table (we can provide you with places to purchase a reasonably priced table)
- Quiet private environment for class time with enough room for student to move around their massage table and adequate lighting for instructor to easily observe student.
- Students are responsible for having a friend or family member of their choosing to be available for all hands-on portions of the program. Students who do not have a body to work on will not be able to pass the program.

Any person wishing to enroll into one of our programs may contact the school via phone at (805) 786-4808. Or by completing the application located on the Enrollment page of our website.

We will continue to provide the quality instruction that our students and our community have come to expect from our school. We look forward to welcoming you into our new distant learning program.
