BIO 191	GENERAL BIOLOGY I FOR SCIENCE MAJORS	4
BIO 192	GENERAL BIOLOGY II FOR SCIENCE MAJORS	4
BIO 193	GENERAL BIOLOGY III FOR SCIENCE MAJORS	4
Select one of the following:		4-6
CHE 130 & CHE 131	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	
CHE 120 & CHE 131	GENERAL CHEMISTRY IP and GENERAL CHEMISTRY I LABORATORY	
Select one of the following:		4-6
CHE 132 & CHE 133	GENERAL CHEMISTRY II and GENERAL CHEMISTRY LABORATORY II	
CHE 122 & CHE 133	GENERAL CHEMISTRY IIP and GENERAL CHEMISTRY LABORATORY II	
CHE 134 & CHE 135	GENERAL CHEMISTRY III and GENERAL CHEMISTRY LABORATORY III	4
Select one of the following:		4-6
MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 150	CALCULUS I	
MAT 170	CALCULUS FOR LIFE SCIENCES I	
Select one of the following:		4-6
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 151	CALCULUS II	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
Select one of the following:		4-6
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
MAT 152	CALCULUS III	
MAT 172	CALCULUS III WITH DIFFERENTIAL EQUATIONS	
Alternatively, to complete the calculus sequence, select both of the following:		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
PHY 150	GENERAL PHYSICS I	4
PHY 151	GENERAL PHYSICS II	4
PHY 152	GENERAL PHYSICS III	4
Select three courses from within one discipline in consultation with your advisor:		12
Biology		
BIO 210	MICROBIOLOGY	
BIO 235	EVOLUTION	
BIO 260	GENETICS	
BIO 315	TOPICS IN ECOLOGY	
BIO 317	AQUATIC BIOLOGY	

BIO 318	FIELD STUDIES IN MARINE AND ESTUARINE BIOLOGY	
BIO 321	MOLECULAR METHODS IN ECOLOGY AND EVOLUTION	
Chemistry		
CHE 230 & CHE 231	ORGANIC CHEMISTRY I and ORGANIC CHEMISTRY LABORATORY I	
CHE 232 & CHE 233	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY II	
CHE 234 & CHE 235	ORGANIC CHEMISTRY III and ORGANIC CHEMISTRY LABORATORY III	
CHE 204 & CHE 205	ANALYTICAL CHEMISTRY and ANALYTICAL CHEMISTRY LABORATORY	
CHE 264 & CHE 265	ATMOSPHERIC CHEMISTRY and ATMOSPHERIC CHEMISTRY LABORATORY	
CHE 268 & CHE 269	SOLID WASTE CHEMISTRY and SOLID WASTE CHEMISTRY LABORATORY	
CHE 340 & CHE 341	BIOCHEMISTRY I and EXPERIMENTAL BIOCHEMISTRY I	
Geography (GIS)		
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING	
GEO 242	GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS	
GEO 243	EARTH OBSERVATION	
GEO 343	EARTH OBSERVATION II	
GEO 344	GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY	

¹ Students in the University Honors Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

² Each quarter one or more versions of ENV 390 are offered. Some might be applicable to your major requirements. Please contact your advisor for details.

Environmental Science (BS) students are not eligible to earn a double major in Environmental Studies (BA)

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Environmental Science (BS) + Secondary Education Environmental Science (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These

12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Environmental Science major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Environmental Science Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework : 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 414	THE NATURE OF SCIENCE	4
TCH 424	INQUIRY & APPLICATION IN DEVELOPING SCIENCE PEDAGOGY	4

All coursework in the content area must earn a grade of C or better.

- General Biology I
- General Biology II
- General Biology III
- General Chemistry I
- General Chemistry II
- General Chemistry III
- General Physics I
- General Physics II
- General Physics III

- Ecology
- Earth System Science
- Human Impacts on the Environment
- Environmental Rhetoric and Politics
- Environmental Data Analysis
- Environmental Science Seminar
- Environmental Impact Analysis

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Environmental Science at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1145)
Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Environmental Science (Minor)

The Environmental Science minor offers students the strongest background in the science behind environmental issues. Students will understand and explore the natural world and our interactions within the natural and built environment.

Course Requirements

Course	Title	Quarter Hours
ENV 102	INTRO TO ENVIRONMENTAL SCIENCE WITH LAB (may be replaced with an upper-level course; check with an ENV advisor or the department chair)	4
ENV 216	EARTH SYSTEM SCIENCE	4
ENV 217	HUMAN IMPACTS ON THE ENVIRONMENT	4
ENV 250	APPLIED ECOLOGY (WITH LAB)	4
Select two of the following. At least one must be a 300-level course:		8
ENV 200	CITIES AND THE ENVIRONMENT	
ENV 204	ENERGY AND THE ENVIRONMENT	
ENV 205	BIOLOGY FOR ENVIRONMENTAL STUDIES	
ENV 230	GLOBAL CLIMATE CHANGE	
ENV 300	PLANT IDENTIFICATION (WITH LAB)	
ENV 305	ANIMAL DIVERSITY	
ENV 310	ENVIRONMENTAL SOIL SCIENCE (WITH LAB)	
ENV 315	PLANT ECOLOGY (WITH LAB)	
ENV 316	CHEMISTRY OF EARTH SYSTEMS (WITH LAB)	
ENV 320	CONSERVATION BIOLOGY (WITH LAB)	
ENV 322	ECOSYSTEM ECOLOGY (WITH LAB)	
ENV 340	URBAN ECOLOGY (WITH LAB)	
ENV 344	ENVIRONMENTAL JUSTICE AND ADVOCACY	

ENV 355	INTRODUCTION TO ENVIRONMENTAL HEALTH
ENV 390	SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE ¹

¹ See your advisor to determine where ENV 390 classes fit into your DPR.

Environmental Science majors and environmental studies majors cannot earn a minor in Environmental Science.

Environmental Science (MS)

DePaul's innovative MS program in Environmental Science provides a theoretically-grounded and professionally-oriented preparation for careers in environmental science. The degree will prepare students for a variety of environmental professions, including research careers. We envision that graduates will focus especially on careers in land management, including restoration ecology, species and landscape conservation, biodiversity management, green infrastructure management, urban ecology and a variety of ecological consultancy services.

Consistent with DePaul University's Departmental of Environmental Science and Studies expertise in urban biodiversity and associated management techniques, foundational courses introduce a range of novel ideas and methods that are employed in metropolitan conservation programs. Students are required to take advanced-level classes in data analysis and sustainability science. Through our partnerships with organizations throughout the region, students will witness how successful conservation is instituted in practice. Although there is an urban focus to the program, the balanced theoretical and hands-on emphasis of this degree will ensure that students can be creative problem solvers in a wide variety of ecological situations from wilder areas to the city core.

Students can choose between a professional track and a thesis track depending upon the career objectives. A suite of upper-level electives and allied field courses will ensure that students in the program are prepared for the next stages in their environmental careers.

Program Requirements	Quarter Hours
Degree Requirements	52
Total hours required	52

Learning Outcomes

Students will be able to:

- Develop an interdisciplinary base in environmental science with breadth in applied ecology, physical science, and natural resource management.
- Synthesize data, perspectives, and theories from the natural and social sciences to inform an integrated understanding of environmental challenges.
- Evaluate possible solutions to environmental problems by engaging in dialog across stakeholder groups (e.g. communities, government, nonprofits, private sector, scientists) and collaboratively achieve ethical compromise.
- Create oral and written products to communicate scientific findings and/or management outcomes to a wide audience, especially at the interface of science, policy, and the public.

Degree Requirements

Core (5 courses)

Course	Title	Quarter Hours
ENV 401	INTRODUCTION TO URBAN BIODIVERSITY MANAGEMENT	4
ENV 402	URBAN ECOLOGY	4
ENV 403	ECOLOGICAL DATA ANALYSIS WITH R	4
ENV 404	APPLIED ECOLOGICAL MANAGEMENT PRACTICUM	4
ENV 506	SUSTAINABILITY SCIENCE: ENVIRONMENTAL LIMITS, HUMAN NEEDS, & SYSTEMS THINKING	4

Students Select Either the Professional Track or Thesis Track

Professional Track (2 courses)

Course	Title	Quarter Hours
ENV 405	INTERNSHIP	4
ENV 406	INDEPENDENT PROJECT	4

Thesis Track (3 courses)

Course	Title	Quarter Hours
ENV 407	RESEARCH FOR MASTER THESIS	4
ENV 450	THESIS RESEARCH (take twice)	4

Electives (4 courses for Professional track, 3 courses for Thesis track)

Course	Title	Quarter Hours
Select 4 courses for Professional track, 3 courses for Thesis track:		12-16
ENV 400	PLANT IDENTIFICATION	
ENV 410	ENVIRONMENTAL SOIL SCIENCE	
ENV 415	PLANT ECOLOGY	
ENV 420	CONSERVATION BIOLOGY	
ENV 425	ANIMAL DIVERSITY	
ENV 422	ECOSYSTEM ECOLOGY	
ENV 441	URBAN FORESTS AS SOCIAL-ECOLOGICAL SYSTEMS	

Allied Fields (2 courses)

Course	Title	Quarter Hours
Select two of the following:		8
BIO 415	TOPICS IN ECOLOGY	
BIO 417	AQUATIC BIOLOGY	
BIO 420	ADVANCED MICROBIOLOGY	
BIO 421	MOLECULAR METHODS IN ECOLOGY AND EVOLUTION	
BIO 432	POPULATION ECOLOGY	
BIO 435	CONCEPTS IN EVOLUTION	
BIO 445	TOPICS IN PALEOBIOLOGY	

BIO 489	RESEARCH IN FIELD BIOLOGY
ENV 490	SPECIAL TOPICS
ENV 499	INDEPENDENT STUDY
GEO 440	PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS
GEO 441	GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT
GEO 442	GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT
GEO 445	PROGRAMMING IN PYTHON FOR GIS
GEO 446	GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH
GEO 447	WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB
GEO 491	STATISTICAL DATA ANALYSIS FOR GIS
SUD 402	SUSTAINABLE URBAN DEVELOPMENT II: APPLIED ANALYSIS OF URBAN ENVIRONMENTAL POLICY
WRD 526	GRANT AND PROPOSAL WRITING

Students must take GEO 441 or document a comparable competency in Geographical Information Systems.

Program Graduate Student Handbook

Academic Probation

A student will be placed on academic probation at the time when their cumulative GPA falls below 2.70.

Academic Dismissal

A graduate student may be academically dismissed under one or more of the following violations of satisfactory progress: their cumulative GPA remains below 2.70 after one year of coursework while being on academic probation or lack of progress toward degree completion.

Conditional Admission

Students whose undergraduate degrees were in majors other than environmental science, ecology, or related fields may be conditionally admitted provided they complete the following minimum prerequisites as conditions: applied ecology [equivalent to ENV 250], earth system science [equivalent to ENV 216] or climate change [equivalent to ENV 230], statistics [equivalent to ENV 260 or BIO 206] and math up to and including precalculus [equivalent to MAT 130].

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit

No more than two graduate courses (8 quarter hours or its semester equivalent) may be transferred from another program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree at DePaul or another institution. Written approval must come from the Graduate Program Director and the Associate Dean for Graduate Studies.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, thirteen graduate courses (52 credit hours) at a minimum cumulative GPA of 2.70.

Graduation with Distinction

A minimum cumulative GPA of 3.70 for coursework applied toward the Environmental Science degree and high performance - as determined by the Environmental Science and Studies Department - on the thesis or independent project are required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of six years.

Environmental Science (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Environmental Science (MS)

This combined degree program will give DePaul undergraduate students an accelerated pathway into the Environmental Science (MS) degree.

For students in ENV, these classes could count towards their majors requirements. For students seeking the Environmental Science (BS) degree, the ENV classes could count towards their three required ENV upper-level electives and the GEO classes could count towards their three Allied Field requirements. For students seeking the Environmental Studies (BA) degree, the ENV classes could count towards their three Natural Science electives. Students from other departments should work with their college advising office for including these classes in their major or could take the classes as electives.

Admission

The universal combined degree will be open to all DePaul undergraduate students with

- At least 88 credits (juniors and seniors)
- GPA of 3.0 or higher in courses taken at DePaul University
- Successful completion (with a grade of C- or better) of the following undergraduate coursework:
 - Ecology (Equivalent of ENV 250 or BIO 215)
 - Earth System Science (equivalent of ENV 216)
 - Math up to and including pre-calculus (equivalent of MAT 130)

Students may apply for admission into the combined degree program in Environmental Science during their junior or senior year of study. To apply, students should submit the following materials to the Office of Graduate Admissions (graddepaul@depaul.edu)

- CSH Combined Program Application form (<https://csh.depaul.edu/student-resources/advising-student-services/graduate-advising/forms/Pages/combined-degree-program-application.aspx>)
- Official copy of undergraduate transcript
- Two letters of recommendation from science professors or professional supervisors
- A personal statement that explains your interest in the Environmental Science graduate program at DePaul. The statement should specify your career goals and any specific area of interest.

Students enrolled in the universal combined degree program will be awarded their Bachelor's degrees upon completion of their undergraduate degree requirements. They need to apply for undergraduate degree conferral when they reach the required credit hours and meet all other criteria for the baccalaureate degree.

Course	Title	Quarter Hours
ENV 403	ECOLOGICAL DATA ANALYSIS WITH R

SUD 402	SUSTAINABLE URBAN DEVELOPMENT II: APPLIED ANALYSIS OF URBAN ENVIRONMENTAL POLICY	

Environmental Studies (BA)

The BA degree in Environmental Studies provides students with a holistic education on environmental topics that includes the natural and social sciences as well as the humanities. The degree allows students to connect with present and emerging environmental problems in a uniquely interdisciplinary manner, and will prepare them for positions in environmental management and in environmentally themed non-profit organizations, to bring an environmental perspective to any career, as well as preparing them for further studies. The degree is focused on the comprehensive study of human interaction with the natural environment.

The BA degree offers students a choice of two concentrations: A standard concentration and a sustainability concentration. Within the sustainability concentration, students can further choose an urban sustainability focus. Students selecting the sustainability concentration will recognize the concept of "sustainability" as a dynamic condition characterized by the interdependency among physical, biological, economic, and social systems.

Students choosing the urban sustainability focus will be able to identify the concepts and methods of environmental economics, environmental politics, ethics, design, and human geography relevant to the sustainability of environmental resources and social institutions in urban settings; as well as recognize and understand the functions of sustainable institutions created for water, land, air, and urban management at multiple spatial and temporal scales.

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	38
Major Concentration Requirements	36
Open Electives	38
Total hours required	192

Learning Outcomes

Students will be able to:

- Discuss how the four spheres of the natural world (biosphere, hydrosphere, atmosphere, and lithosphere) are interconnected for a given environmental issue.
- Demonstrate how humans impact the natural world and how the natural world impacts humans, including in the context of social and environmental justice.
- Identify and communicate the causes of and solutions to environmental issues from the social science, natural science, and humanities perspectives.
- Design, conduct, and evaluate environmental research using qualitative, quantitative, and mixed methods.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language

- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4

Junior Year

Experiential Learning

Required	4
----------	---

Senior Year

Capstone

ENV 350	ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE ^{1,3}	4
---------	--	---

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

³ Students with a primary major in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Environmental Studies are required to complete the Capstone offered by the Environmental Studies department. Environmental Studies students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
ENV 150	FOUNDATIONS OF ENVIRONMENTAL STUDIES	4
ENV 152	ECOLOGICAL AND SOCIAL ECONOMICS	4
ENV 205 or BIO 193	BIOLOGY FOR ENVIRONMENTAL STUDIES GENERAL BIOLOGY III FOR SCIENCE MAJORS	4
ENV 216	EARTH SYSTEM SCIENCE (WITH LAB)	4
ENV 217	HUMAN IMPACTS ON THE ENVIRONMENT	4
ENV 250	APPLIED ECOLOGY (WITH LAB)	4
ENV 261	MIXED METHODS IN ENVIRONMENTAL STUDIES (WITH LAB)	4
ENV 294	SECOND YEAR SEMINAR	2
ENV 203 or CHE 103	CHEMISTRY FOR ENVIRONMENTAL STUDIES (WITH LAB) ¹ ENVIRONMENTAL CHEMISTRY	4
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING	4
ENV 350	ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE (Liberal Studies Program Capstone) ²	4

¹ Students can also complete CHE 134 with CHE 135 in place of ENV 203.

² Students in the University Honor Program and students with a double major may be required to take a different Capstone. If this is the case, they may choose to substitute ENV 350 as one of their required 300-level ENV courses or as an open elective.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard or Sustainability. Students are limited to only declaring one concentration.

Environmental Studies (BA) students are not eligible to earn a double major in Environmental Science (BS)

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Standard Concentration, Environmental Studies (BA) (p. 491)
- Sustainability Concentration, Environmental Studies (BA) (p. 491)

Environmental Science/Studies (BA/BS) + Master of Science in Sustainable Management (MSSM)

The combined degree provides environmental science/studies students with advanced knowledge of business systems and practices, focusing

on environmental sustainability, to create leaders for business, government and civic organizations. For more information on the full Master of Science in Sustainable Management curriculum, go to MSSM degree requirements found within the graduate programs section of the University Catalog.

Admission Requirements

Current DePaul Environmental Science or Studies majors who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.300

Admission to the combined program does not require the GMAT, essays, or letters of recommendation.

Classes During Senior Year

If accepted into the combined program, students will take three graduate classes during the senior year. These three graduate classes at 12 quarter hours will count toward the bachelor's degree - as indicated below - and toward the master's degree.

Students must apply for degree conferral in order to be eligible to graduate with either the BA in Environmental Studies or the BS in Environmental Science before matriculating into the MSSM program. Students are limited to applying a maximum of three graduate courses as 12 quarter hours toward both the bachelor's and master's degrees. Students should note that expectations for graduate classes are typically more rigorous than for undergraduate classes. Students can choose from the following list of core MSSM courses; other options available upon consultation with the MSSM advisor.

Course	Title	Quarter Hours
MGT 515	SUSTAINABILITY MANAGEMENT ¹	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS ²	4
FIN 559	SUSTAINABLE VALUE CREATION ³	4

¹

- Place in ENV-BA curriculum: MGT 515 would count as an ENV Social Science elective.

- Place in ENV-BS curriculum: Free elective.
- Place in MSSM curriculum: Core course.

²

- Place in ENV-BA curriculum: Free elective.
- Place in ENV-BS curriculum: Free elective.
- Place in MSSM curriculum: Business foundation elective.

³

- Place in ENV-BA curriculum: FIN 559 would count as an ENV Social Science elective.
- Place in ENV-BS curriculum: Free elective.
- Place in MSSM curriculum: Core course.

Final Quarter of Senior Year

During the final quarter of the bachelor's degree, students must petition for formal admission into the Kellstadt Graduate School of Business. The admission criteria are as follows:

- Completion of the Bachelor of Arts in Environmental Studies or Bachelor of Science in Environmental Science
- A minimum cumulative DePaul grade point average of 3.300
- A minimum grade point average for graduate courses of 3.000.
- Student must apply for undergraduate degree conferral of their Environmental Science or Studies program in anticipation of completing their fourth year of study.

After Senior Year

After completion of the undergraduate degree including the three graduate courses, students take nine additional graduate classes to complete the graduate degree, for a total of twelve graduate classes. Information on the MSSM degree can be found in the graduate program degree requirements section of the University Catalog.

For an application to the combined program (at the end of your junior year) or to learn more about it, please contact the chair of the Environmental Science and Studies department.

Standard Concentration, Environmental Studies (BA)

Course Requirements

Course	Title	Quarter Hours
Select three of the following Natural Sciences courses. At least two must have labs and at least one must be non-SI:		12

HST 270	U.S. HISTORICAL LANDSCAPE	
REL 222	(Only "Change in an Era of Sustainability" or "Sustainable Development" or "Industrial Diseases in Comparative Perspective" or "Sweatshops and Sacraments" or "Animals in the Bible")	
REL 262	RELIGION AND GLOBALIZATION	
WRD 283	ENVIRONMENTAL WRITING	
Others by approval		

Each quarter one or more versions of ENV 390 are offered. Some might be applicable to your major requirements. Please contact your advisor for details.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Sustainability Concentration, Environmental Studies (BA)

Course Requirements

Course	Title	Quarter Hours
ENV 151	INTRODUCTION TO SUSTAINABILITY	4
PPS 330	SUSTAINABLE DEVELOPMENT	4
Select seven courses from the following categories:		28
Select at least two Natural Science courses from the following. At least one must have a lab:		

ENV 200	CITIES AND THE ENVIRONMENT ¹
ENV 204	ENERGY AND THE ENVIRONMENT
ENV 230	GLOBAL CLIMATE CHANGE
ENV 310	ENVIRONMENTAL SOIL SCIENCE (WITH LAB)
ENV 320	CONSERVATION BIOLOGY (WITH LAB)
ENV 340	URBAN ECOLOGY (WITH LAB)
ENV 341	URBAN FORESTS AS SOCIAL-ECOLOGICAL SYSTEMS (WITH LAB)
ENV 350	ENVIRONMENTAL SCIENCE AND STUDIES CAPSTONE
ENV 355	INTRODUCTION TO ENVIRONMENTAL HEALTH
Select at least two of the following Social Sciences courses:	
ENV 245	URBAN AND COMMUNITY AGRICULTURE
ENV 344	ENVIRONMENTAL JUSTICE AND ADVOCACY
CSS 320	COMMUNITY FOOD SYSTEMS
CMNS 325	PROMOTING SUSTAINABILITY ¹
CMNS 326	ENVIRONMENTAL POLITICS AND RHETORIC
GEO 205	RACE, JUSTICE, AND THE URBAN ENVIRONMENT ¹
PPS 333	GREEN CITIES ¹
Select at least two of the following Humanities courses:	
ENV 160	IDEAS OF NATURE
ENV 165	NATIONAL PARKS HISTORY
ENV 170	ENVIRONMENTAL ETHICS
ENV 180	ISSUES IN ENVIRONMENTAL DESIGN
ENV 181	LANDSCAPE ARCHITECTURE
REL 222	(Only "Change in an Era of Sustainability" or "Sustainable Development" or "Sweatshops and Sacraments")

¹ Students with an interest in Urban Sustainability are encouraged to select these courses.

Each quarter one or more versions of ENV 390 are offered. Some might be applicable to your major requirements. Please contact your advisor for details.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Environmental Studies (Minor)

The Environmental Studies minor offers students a broad, interdisciplinary overview of topics linking environmental science to human behavior and society.

Course Requirements

Course	Title	Quarter Hours
ENV 102	INTRO TO ENVIRONMENTAL SCIENCE WITH LAB	4
ENV 150	FOUNDATIONS OF ENVIRONMENTAL STUDIES	4
Select one of the following:		4
ENV 160	IDEAS OF NATURE	
ENV 170	ENVIRONMENTAL ETHICS	
PHL 235	ENVIRONMENTAL PHILOSOPHY	
Select one of the following:		4
CMNS 325	PROMOTING SUSTAINABILITY	
CMNS 326	ENVIRONMENTAL POLITICS AND RHETORIC	
CMNS 363	CLIMATE CHANGE COMMUNICATION	
Select two of the following:		8
ENV 151	INTRODUCTION TO SUSTAINABILITY	
ENV 152	ECOLOGICAL AND SOCIAL ECONOMICS	
ENV 180	ISSUES IN ENVIRONMENTAL DESIGN	
ENV 181	LANDSCAPE ARCHITECTURE	
ENV 200	CITIES AND THE ENVIRONMENT	
ENV 204	ENERGY AND THE ENVIRONMENT	
ENV 205	BIOLOGY FOR ENVIRONMENTAL STUDIES	
ENV 230	GLOBAL CLIMATE CHANGE	
ENV 300	PLANT IDENTIFICATION	
ENV 310	ENVIRONMENTAL SOIL SCIENCE	
ENV 315	PLANT ECOLOGY	
ENV 316	CHEMISTRY OF EARTH SYSTEMS	
ENV 320	CONSERVATION BIOLOGY	
ENV 322	ECOSYSTEM ECOLOGY	
ENV 340	URBAN ECOLOGY	
ENV 344	ENVIRONMENTAL JUSTICE AND ADVOCACY	
ENV 355	INTRODUCTION TO ENVIRONMENTAL HEALTH	
ENV 390	SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE	

Environmental Science majors and Environmental Studies majors cannot earn a minor in Environmental Studies.

Event Planning (Minor)

The minor in Event Planning provides DePaul students across the university with a complete understanding of successful event executions that are relevant to their major fields. The course offerings in event planning cover a wide range of subject areas pertinent to successful planning, implementation and evaluation of special events. In addition, students learn to consider event planning processes from multiple perspectives, including logistics, programming, promotions, finance, and sponsorships.

Course Requirements

A minor in Event Planning requires students to complete a total of 24 credit hours (six courses). To complete the minor, students must take:

Course	Title	Quarter Hours
PRAD 255	PUBLIC RELATIONS	4
PRAD 320	EVENT PLANNING	4
PRAD 321	ADVANCED EVENT PLANNING	4
Select three of the following:		12
PRAD 244	PRINCIPLES OF ADVERTISING	
PRAD 256	WRITING FOR PUBLIC RELATIONS AND ADVERTISING	
PRAD 291	RESEARCH, DATA AND INSIGHTS	
PRAD 292	DESIGN APPLICATIONS FOR PRAD PROFESSIONALS	
PRAD 335	DIVERSITY & CURRENT ISSUES IN ADVERTISING AND PUBLIC RELATIONS	
PRAD 336	ADVERTISING CAMPAIGNS	
PRAD 337	PUBLIC RELATIONS CAMPAIGNS	
PRAD 339	INTEGRATED COMMUNICATION CAMPAIGNS	
PRAD 340	BRAND ACTIVATION AND CONSUMER PROMOTION	
PRAD 351	COPYWRITING	
PRAD 352	DIGITAL ADVERTISING	
PRAD 356	ADVANCED WRITING FOR PUBLIC RELATIONS	
PRAD 357	ADVERTISING PORTFOLIO	
PRAD 362	ENGAGING LATINX COMMUNITIES	
PRAD 373	PUBLIC RELATIONS & ADVERTISING ENTREPRENEURS	
PRAD 374	MEDIA RELATIONS	
PRAD 375	COMMUNICATION LAW	
PRAD 376	CRISIS COMMUNICATION MANAGEMENT	
PRAD 378	CREATIVITY IN ADVERTISING	
PRAD 379	ADVERTISING MEDIA PLANNING	
PRAD 382	NON-PROFIT PUBLIC RELATIONS	
PRAD 383	BRANDED CONTENT	
PRAD 384	INTERNATIONAL PUBLIC RELATIONS	

Students majoring in Public Relations and Advertising can earn this minor.

Exceptionality and Learning (Minor)

The needs of children and youth with disabilities are met by a variety of professionals working in contexts inside and outside of schools, including backgrounds such as psychology, nursing, health science, and public health studies. The Exceptionality and Learning Minor is designed to prepare candidates in fields outside of education to understand and effectively work with children and youth with disabilities. Course content within the minor includes typical and atypical development, characteristics of individuals with disabilities, collaborative practices, and behavior management, all considered within and beyond the classroom

setting. This minor is designed to appeal to candidates from fields outside of education.

Course Requirements

The Exceptionality and Learning Minor requires 20 credit hours (5 courses).

Course	Title	Quarter Hours
SER 300	INTRO TO SPECIAL EDUCATION I: EXCEPTIONALITY & LEARNING	4
SER 301	INTRO TO SPECIAL EDUCATION II - FOUNDATIONS AND CHARACTERISTICS	4
SER 303	CLASSROOM AND BEHAVIOR MANAGEMENT	4
SER 320	COLLABORATION IN SCHOOLS	4
Select one additional course from the following:		4
SER 302	INSTRUCTION AND DIFFERENTIATION IN SPECIAL EDUCATION	
SER 310	TEACHING MATHEMATICS TO EXCEPTIONAL STUDENTS	
SER 314	TEACHING LITERACY TO EXCEPTIONAL STUDENTS	
SER 321	FORMAL ASSESSMENT IN SPECIAL EDUCATION	
SER 322	TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES I: ACADEMICS, LIFE SKILLS, & TRANSITION	
SER 323	TEACHING STUDENTS WITH SIGNIFICANT DISABILITIES II: COMMUNICATION & SOCIAL SKILLS	

Note: Students in DePaul's College of Education program in Special Education cannot select the Exceptionality and Learning Minor. Likewise, College of Education students pursuing the Special Education Minor cannot select the Exceptionality and Learning Minor. This minor does not lead to credentials with the Illinois State Board of Education.

Executive Master of Science in Human Resource Management (EMSHRM)

The Executive Master of Science in Human Resources Management (EMSHRM) is for high potential, experienced human resource professionals who want to move into senior HR leadership roles. In this program you'll acquire the skills and knowledge necessary to develop and execute effective human capital strategies that drive change in organizations. The curriculum has been designed to highlight the importance of business acumen, leading at the executive level, professional development, self-awareness, professional ethics, and core HR knowledge in the areas of talent acquisition, talent management and development, total rewards, global HR, and diversity and inclusion. You'll progress through this accelerated program with a cohort of peers. Courses are primarily delivered online, with three four-day on-campus sessions, providing you the flexibility to meet professional and family responsibilities while earning your degree.

Program Requirements	Quarter Hours
Required Courses (13)	42
Required Residencies (3)	6
Total hours required	48

Learning Outcomes

Students will be able to:

- Understand and apply information that contributes to an organization's strategic plan.
- Apply analytical and problem-solving skills to make decisions based upon best practices or research.
- Value and consider the perspectives and backgrounds of individuals from different cultures, understand the differences in rules and business operations in different cultures, and approach decisions with an openness to various cultural perspectives.
- Understand how to direct and contribute to initiatives and processes throughout an organization.
- Exhibit sophisticated knowledge of HR practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that lead to professional HR career-related success.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively exchange information with others via a coherent written statement and oral presentation of the analysis of a complex business issue.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders.

Degree Requirements

The curriculum requires 13 courses and 3 in-person residencies (48 credit hours)

Course	Title	Quarter Hours

Exercise Science (BS)

The Exercise Science (EXS) degree program includes a knowledge base in the scientific principles that underlie human movement and requires the development of basic skills in exercise assessment, prescription and programming in healthy and special populations, performance enhancement, prevention and treatment of sports injuries, nutritional principles applied to exercise and sport, patient/client interpersonal relations and professional ethics and behavior.

Students receiving this degree are qualified to pursue careers in areas such as cardiopulmonary rehabilitation, strength and conditioning, corporate fitness, sports medicine, community health and wellness, and personal training or can pursue graduate work in numerous fields related to the health, fitness, exercise sciences, and physical therapy.

The American College of Sport Medicine (ACSM), as the professional organization that establishes guidelines and competencies for the field of Exercise Science, serves as the guiding professional organization for program academic quality. The American Physical Therapy Association was the guiding professional organization used to establish the courses included for the Pre-Physical Therapy concentration.

Students should meet early and regularly with their advisor to design and monitor their program of study.

BS Concentrations

The Exercise Science (BS) program has two concentrations:

- Exercise Science General Concentration
- Exercise Science Pre-Physical Therapy Concentration

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Program Requirements	Quarter Hours
Liberal Studies Requirements	78
Exercise Science General Concentration Requirements	98
Open Electives	16
Total hours required	192

Program Requirements	Quarter Hours
Liberal Studies Requirements	78
Exercise Science Pre-PT Concentration Requirements	114
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe and apply physiological principles related to skillful movement, physical activity, and fitness.
- Describe and apply psychological/behavioral theory related to skillful movement, physical activity, and fitness.
- Describe and apply motor development theory and principles related to skillful movement, physical activity, and fitness.

- Demonstrate their understanding of how the human body moves, based on the knowledge of muscles, bones, connective tissues, and the related physical laws of movement.
- Evaluate and prescribe exercise as a therapeutic modality based on concepts and theories of exercise physiology.
- Ensure that programs they may work in are comprehensive and follow professional standards based on their understanding of the central aspects of exercise science program design.
- Demonstrate their knowledge of how racism and culture impacts their professional goal of ensuring that all individuals become “physically literate individuals”.
- Provide high quality fitness evaluations and goal setting for a variety of individuals based on knowledge and skills of assessment.
- Demonstrate their knowledge and appreciation of appropriate safety issues and injury prevention protocols.
- Demonstrate their knowledge of disease prevention as it relates to healthy individuals as well as those involved in sports and exercise.
- Demonstrate their knowledge of nutrition as it relates to healthy individuals as well as those involved in sports and exercise.
- Participate in activities that enhance collaboration and lead to professional growth and development.
- Demonstrate behaviors that are consistent with the professional ethics of qualified professionals.
- Identify historical, philosophical, social, and ethical perspectives of kinesiology issues and related legislation.
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

College Core Requirements Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

The following dispositions apply to Special Education majors only:

Field Experiences

Each student must complete s field experiences in appropriate settings in conjunction with courses. The field experiences must include a variety of settings, multicultural experiences, and thirty hours upon completion of coursework. All field experiences must be completed prior to final approval for internship. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Exercise Science Requirements

Internship is the culminating clinical experience in the student’s program. All students must meet the following requirements before applying for internship:

Academic Requirements:

- Completion of all Liberal Studies and content Exercise Science courses.
- Overall cumulative GPA of 2.00 or better
- Meet designated program standards

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory faculty recommendations
- Attend mandatory meeting for internship candidates
- Application for internship, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for internship and complete internship and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter in which they complete their internship.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to

individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: <http://education.depaul.edu/>.

Internship Requirement

Consult with Physical Education faculty members and the office of student teaching for procedures for the internship. The internship experience is done at the very end of the program and requires all coursework for the major and liberal studies to be completed.

Internship: 10 quarter hours required, grade of B- or better require
Registration in internship requires completion of all requirements and procedures above. All students also take PE 387, Capstone Seminar with the internship (listed in the Liberal Studies section).

- PE 380 INTERNSHIP IN EXERCISE SCIENCE (10 quarter hours)

Notes

Courses offered in the student's major cannot be taken to fulfill LSP Domain requirements.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

As an Exercise Science major (EXS) you have the choice between the general concentration (EXS) and the Pre-PT concentration (EXS-PT). Both these concentrations prepare you for the same career options, but the curriculum included in the Pre-PT concentration will also include those courses required to apply to a Physical Therapy graduate program.

Specific degree requirements are determined according to the Concentration chosen by the student. Please review the concentration requirements pages for more information.

- General Concentration, Exercise Science (BS) (p. 498)
- Pre Physical Therapy Concentration, Exercise Science (BS) (p. 498)

General Concentration, Exercise Science (BS)

Major Requirements

Course Requirements

Exercise Science Core: 62 quarter hours required, grade of C- or better required

Course	Title	Quarter Hours
SCU 336 or SCU 337	ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT HUMAN GROWTH AND DEVELOPMENT	4
PE 311	MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN	4
PE 206	PERSONAL AND COMMUNITY HEALTH	4

ANI 356	EXPERIMENTAL ANIMATION	
ANI 357	HYBRID ANIMATION	
POST 306	EDITING STYLES AND TECHNIQUES	
POST 322	ABLETON LIVE WORKSHOP	
POST 364	MAX CYCLING 74 WORKSHOP	
POST 329	SOUND DESIGN AND SCORING STUDIO	

Family Nurse Practitioner Certificate Online

The certificate option will allow for licensed registered nurses holding a graduate degree to complete the coursework necessary to sit for certification as a nurse practitioner. Upon completion of the program, graduates are eligible to take certification exams provided by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP). Those seeking certification in the population specific options offered by the School are able to take an exam through either certifying body.

The population targeted by the program consists of graduates of the entry to practice program at DePaul University as well as other programs in the State of Illinois. Additionally, this program allows any registered nurse with a graduate degree to pursue nurse practitioner training. Alumni have often communicated the desire for nurse practitioner training without immediately pursuing the doctorate. This certificate offering will provide that training, allowing experienced nurses to practice at an advanced level prior to completing the terminal degree.

Students in the Family Nurse Practitioner Certificate program must follow the academic standing, probation and dismissal guidelines, among the other guidelines, found in the Program Graduate Academic Student Handbook for the Doctor of Nursing Practice program.

Students in the Family Nurse Practitioner Certificate program must apply for degree conferral via Campus Connection in advance of their final

quarter in the program in order to have their coursework audited for the awarding and delivery of their certificate.

Course	Title	Quarter Hours
NSG 428	PATHOPHYSIOLOGY FOR ADVANCED PRACTICE	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 473	PRIMARY CARE OF THE INFANT, CHILD, AND THE ADOLESCENT	4
NSG 474	PRIMARY CARE OF THE ADULT AND OLDER ADULT	4
NSG 475	WOMEN'S REPRODUCTIVE HEALTH AND GYNECOLOGY	4
NSG 478	CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE	4

NSG 487	PRACTICUM IN POPULATION-BASED NURSING PRACTICE II	4
NSG 488	PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING	4
NSG 490	PRACTICUM IN POPULATION-BASED NURSING PRACTICE III	4

Total Credit Hours: 46

This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

Fandom, Cult Media and Subculture (Minor)

The College of Communication currently features multiple classes across many programs and curricula that all focus on the idea of "cult" media or subcultural audiences—that is, aspects of culture that are separate from, or differentiate themselves from the mainstream, or that present new ways of examining consumers and the emotional resonance of various media products on contemporary audiences. Courses that focus on genre films and television, audience analysis, affect, and cult products span the Media and Cinema Studies program, the Journalism program, the Public Relations and Advertising program, and the Communication Studies program. The Fandom, Cult Media, and Subcultural Studies minor will unite these courses under one banner in order to provide interested students with a focused concentration on fandom and cult media. The purpose of this minor is to allow students to understand how audiences and media producers design media texts to confront and challenge contemporary ideologies, to offer alternatives to the mainstream, and to engineer deliberate affective reactions in audiences.

A minor in Fandom, Cult Media, and Subcultural Studies requires students to complete a total of six courses (24 credit hours).

Course Requirements

Course	Title	Quarter Hours
MCS 261	INTRODUCTION TO FAN STUDIES	4
MCS 271	MEDIA AND CULTURAL STUDIES	4
Select four of the following:		16
CMNS 330	TOPICS IN PERFORMANCE (requires departmental approval)	
JOUR 377	SPECIAL TOPICS IN JOURNALISM (requires departmental approval)	
MCS 260	TRANSMEDIA STORYTELLING: BUILDING A NARRATIVE WORLD	
MCS 275	COMICS STUDIES	
MCS 280	BAH HUMBUG! CHRISTMAS MOVIES/TV AND MEDIA METHODS	
MCS 348	TOPICS IN FILM GENRE (requires departmental approval)	
MCS 351	TOPICS IN TELEVISION STUDIES (requires departmental approval)

PRAD 335	DIVERSITY & CURRENT ISSUES IN ADVERTISING AND PUBLIC RELATIONS	
PRAD 340	BRAND ACTIVATION AND CONSUMER PROMOTION	
PRAD 383	BRANDED CONTENT	

Film & Television (BA)

The BA in Film & Television provides students with a generalist approach to film and television production. The degree will cover the primary media in which directors, cinematographers, documentarians, editors, producers, production designers, screenwriters, sound designers, and visual effects artists work.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	92
Open Electives	16
Total hours required	192

Learning Outcomes

Students will be able to:

- Write a screenplay in proper format employing standard narrative conventions.
- Demonstrate an understanding of visual style.
- Demonstrate an understanding of the pre-production process.
- Perform all basic tasks of all crew positions.
- Direct a crew and talent on location.
- Show a working knowledge of visual composition, cinematic exposure standards and basic semiotics.
- Use the principles of invisible editing and montage.
- Understand all the basic tasks of the post-production sound process.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 1 CR Course or 1 SR Course Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Students must take one of the following ethics courses: FILM 228/GAM 228/IT 228 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Eight (8) Credit Hours of Open Electives		8

Open Electives

Open Elective Credit Hours are required to meet the minimum graduation requirement of 192 hours. Open electives may be taken from any unit at DePaul.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Film & Television (BFA)

The BFA in Film & Television provides students with the ability to specialize in a specific area of film and television production by choosing one of 11 concentrations: cinematography, comedy filmmaking, creative producing, directing, documentary, editing, production design, screenwriting, showrunner, sound design, and visual effects.

Concentrations**Cinematography Concentration**

The cinematography concentration will provide a strong technical foundation for cinematographers enabling students to focus on lighting, color correction, or special effects while facilitating the creation of more portfolio pieces.

Comedy Filmmaking Concentration

This robust four-year comedy filmmaking concentration will enable students to have sufficient time to develop a methodology for creating, developing and showcasing their comedic writing and directing, from the script to the screen. Additionally, these students will have access to Second City's Master Seminar classes.

Creative Producing Concentration

The creative producing concentration allows students to achieve competency in multimedia streaming, creative financing structures, international distribution, intellectual property and original content acquisition. This concentration will enable students to oversee more portfolio pieces.

Directing Concentration

The directing concentration lays a strong foundation for students who wish to direct coupled with a strong technical and storytelling foundation.

Documentary Concentration

The documentary concentration provides students with the opportunity to experience different documentary modes of production, dig deeper into issues that interest them, and experiment with the styles of documentary creation that are best suited to their personal vision.

Editing Concentration

The editing concentration will provide a solid foundation in managing media during production to editing and finishing a project. This includes picture, sound, titles, color correction, and mastering workflows. The concentration will allow students to specialize in both the technical and creative aspects of editing.

Production Design Concentration

The production design concentration was developed in conjunction with DePaul's Theater School and provides students with a strong foundation in production design across several media. Students can specialize in various crafts including art direction, scene design, costume design, property, hair and makeup.

Screenwriting Concentration

The screenwriting concentration enables students to enhance their creative voice and spec portfolio which will prepare them to become professional screenwriters.

Showrunner Concentration

The showrunner concentration will allow students to hone and showcase their voice within the web series format. Showrunners have become the most sought-after producers in an ever-changing television landscape, as studios and networks. Emphasis will be placed on branding and marketing in addition to cultivating innovative storytelling techniques.

Sound Design Concentration

The sound design concentration provides a solid foundation in sound design for the visual image. The concentration will provide deep

exploration of all elements of sound design including audio engineering, field recording, dialogue recording, dialogue and sound effects editing, sound mixing, re-recording mixing, deliverables, and film scoring.

Visual Effects Concentration

In the visual effects concentration students learn digital composition, motion capture, match moving techniques, and other ways to acquire and combine various elements into fully realized VFX sequences.

Program Requirements	Quarter Hours
Liberal Studies Requirements	52
Concentration Requirements	116-124
Open Electives	15-24
Total Hours Required	192

Learning Outcomes

Students will be able to:

- Write a short screenplay in proper format employing standard narrative conventions.
- Direct a crew and talent/subject in a fiction or non-fiction film.
- Employ the principles of invisible/continuity cutting and montage in picture editing.
- Perform basic tasks of the post-production sound process including sound editing and mixing.
- Use compositional rules, lighting/exposure techniques, and visual design elements in the filming of shots and scenes.
- Apply basic functions of the pre-production process, including scheduling and budgeting.
- Identify major genres, figures, and works in contemporary and historical film and television.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Note

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Concentration Requirement

Students in the BFA Film & Television major must declare a concentration and complete the requirements from the declared concentration. Concentrations include: Cinematography, Comedy Filmmaking, Creative Producing, Directing, Documentary, Editing, Production Design, Screenwriting, Showrunner, Sound Design, and Visual Effects. See the concentration page for a full list of required courses.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours.
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Cinematography Concentration, Film & Television (BFA) (p. 504)
- Comedy Filmmaking Concentration, Film & Television (BFA) (p. 505)
- Creative Producing Concentration, Film & Television (BFA) (p. 505)
- Directing Concentration, Film & Television (BFA) (p. 506)
- Documentary Concentration, Film & Television (BFA) (p. 506)
- Editing Concentration, Film & Television (BFA) (p. 507)
- Production Design, Film & Television (BFA) (p. 508)
- Screenwriting Concentration, Film & Television (BFA) (p. 509)
- Showrunner Concentration, Film & Television (BFA) (p. 509)
- Sound Design Concentration, Film & Television (BFA) (p. 510)
- Visual Effects Concentration, Film & Television (BFA) (p. 511)

Eight (8) Credit Hours of Open Electives		8

Open Electives

Open elective credit hours are required to meet the minimum graduation requirement of 192 hours. Open electives may be taken from any unit at DePaul.

Film & Television (MS)

The Master of Science in Film and Television emphasizes technical and creative proficiency in the areas of cinematography, editing, sound, and visual effects for the screen. This intensive program is designed for students looking to acquire and further professional career skills in film and television. The degree is well-suited for career-changers as well as experienced professionals who want to add new technologies and creative workflows to their expertise.

Concentrations

Cinematography Concentration

Students develop a foundation in production for film, TV and the Web, while specializing in camera and lighting.

Editing Concentration

Students develop the skills needed for careers in editing for all media. Advanced courses investigate picture editing, sound, and post production techniques.

Sound Concentration

Students develop the skills necessary to work in sound for cinema. Coursework includes advanced classes in location sound recording, dialogue editing, sound mixing, and scoring.

Visual Effects Concentration

Program Requirements	Quarter Hours
Degree Requirements	52
Total hours required	52

Learning Outcomes

Students will be able to:

- Design film content that exhibits a cohesive creative perspective.
- Identify pre-production, production, and post-production workflows.
- Edit film content to meet professional standards.

- Demonstrate proficiency in the basic tasks of post-production sound process.
- Employ color correction processes and advanced compositing techniques in finishing a film.
- Illustrate a mastery of visual composition, cinematic exposure standards, and basic semiotics.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Course requirements are determined by the concentration chosen.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 52 graduate credit hours in the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses in the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master’s degree must complete a minimum of 52 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul’s policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the degree. In addition to any degree requirements, students are required to choose one of the following:

- Cinematography Concentration, Film & Television (MS) (p. 512)
- Editing Concentration, Film & Television (MS) (p. 512)
- Sound Concentration, Film & Television (MS) (p. 513)
- Visual Effects Concentration, Film & Television (MS) (p. 513)

¹ Optional Los Angeles Quarter (See below).

Major Electives

Major Electives may be chosen from any 400-level or higher ANI, CP, DOC, FILM, GD, POST, SCWR, or VFX courses.

Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their second year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and videogame world. If selected to participate in the LA program, MS in Film and Television - Cinematography students would take SCWR 446 and FILM 499 in Los Angeles.

MS in Film and Television - Cinematography students who are not selected to participate in the LA program, would take FILM 499 in Chicago and POST 444 or FILM 425 .

Film & Television Directing (MFA)

Program Requirements	Quarter Hours
Degree Requirements	96-100
Total hours required	96-100

Learning Outcomes

Students will be able to:

- Write short or feature screenplays in proper format employing standard narrative.
- Demonstrate a mastery of directing and casting actors in a fiction film.
- Express picture editing, visual effects, and sound design preferences to post-production crew members using proper terminology.
- Employ advanced functions of the producing process, including scheduling, budgeting, pitching, packaging, and distribution.
- Communicate short setup and framing preferences using proper cinematographic and visual design terminology.
- Create short filmic works in a variety of genres and processes, such as documentary, experimental, and television.
- Identify major genres, figures, and works in contemporary and historical short and feature films.

Degree Requirements

Course Requirements

No Introductory Course in any other program may be substituted for any other course at any level.

Introductory Courses

Course	Title	Quarter Hours
FILM 401	FUNDAMENTALS OF CINEMA PRODUCTION	4

Note: Students who are required to take this course must take the course during the Fall quarter of their first year and consult their advisor about their course sequence for their first year in the program.

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

² Optional Los Angeles Quarter (See below).

Major Electives

Students must choose any graduate level ANI, CP, DOC, FILM, POST, SCWR, or VFX courses or MCS 502.

Optional Los Angeles Quarter

Students may apply to participate in the Los Angeles Quarter Program for the spring of their third year; they will spend 12 weeks in Hollywood doing industry internships, living with their fellow DePaul classmates, and having twice-weekly classes on an industry lot where they will have intimate question and answer sessions with industry professionals in all aspects of the film, TV, and video game world. If selected to participate in the LA program, MFA in Film and Television Directing students would take SCWR 446 and FILM 499 in Los Angeles.

MFA in Film and Television Directing students who are not selected to participate in the LA program, would take FILM 499 in Chicago and one (1) Major Elective.

MFA Thesis

The MFA Thesis should be a significant work that demonstrates a mastery of cinematic storytelling technique to convey the filmmaker's unique voice and vision. This project may be a short film or television/web series pilot. Feature films may be permitted with approval from the student's thesis committee.

Thesis Committee

Students will be asked to submit five preferences for full-time faculty members to serve on their thesis committees. Two committee members and one thesis chair will be assigned to each student by the Production-MFA Committee. During the thesis phase, the thesis committee supervises a student's project. Approval to proceed to the thesis classes is at the sole discretion of the thesis committee. If the thesis committee denies approval, students may appeal to the Production-MFA Committee. If appeals are denied, students are dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

Thesis Classes

There are four crucial milestones a student must pass in order to proceed with thesis classes:

1. *Script Approval*
The thesis committee must approve a student's thesis screenplay before admission will be granted to FILM 501. The thesis committees will notify the instructor of FILM 501 of approved students.
2. *Principal Photography*
MFA students should complete principal photography prior to taking POST 500. Only instructor approval (not thesis committee approval) is necessary to register for this class. If the instructor deems the student not ready to register for POST 500, the student must wait until the class is offered again, and must again seek instructor approval to register.
3. *Picture Lock*
MFA students must edit and picture lock their films prior to taking POST 520 and POST 580. Thesis committees will notify the instructors of POST 520 and POST 580 of approved students, and the instructors will grant approval to register. If the thesis committee deems the student not ready to register for POST 520 and POST 580, the student must wait until the classes are offered again, and must again seek committee approval to register.
4. *Final Thesis Delivery, Screening and Defense*
MFA students will deliver their finished projects their thesis committees for exhibition at a culminating screening of all thesis films. After the screening, students will schedule a formal defense of their thesis films. If the film passes and upon completion of the required 96/100 credits of coursework, the student will be awarded an MFA. If the film does not pass, the student may revise it and re-define. If the film does not pass again, the student will be dismissed from the MFA program. Students in good academic standing may choose to complete an MS in Film and Television.

FILM 701 THESIS CONTINUATION

This zero-credit course is for students who do not continue with the thesis classes as scheduled. A student's MFA thesis committee chair may enroll a student in FILM 701 a maximum of six times. Failure to enroll in a course for three straight quarters will lead to a student

becoming inactive at the university, and will require the student to reapply to the program should they wish to finish their degree. Re-admission cannot be guaranteed, and the student will be subject to follow the curriculum in place when they return.

Time Limit to Finish Degree

Students must complete all required coursework and defend their finished thesis projects in no more than five years from their first enrollment in the program. If the student does not complete the above requirements in the required five years, the student will be dismissed from the MFA program. As per University policy, during their college career, students may be allowed one medical/personal approved administrative withdrawal and one college office administrative withdrawal, each for one or more courses in a single term. Such withdrawals do not count towards the time limit to finish the degree.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 96 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all graduate courses of the designated degree program.
- Maintain a cumulative GPA of 3.0 or higher.
- Satisfactorily complete the MFA thesis as determined by the student's MFA Advisor Committee.
- Students cannot count credit earned towards a previously awarded master's or MFA degree toward the completion of this MFA program.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Sample Schedule

The representation of these course requirements on a year-by-year basis is just a suggestion. Students are free to take these courses in any order they choose, provided they have mastered the course-specific prerequisites.

Film Production (Minor)

The minor in Film Production provides students with hands-on experience utilizing the latest digital technology in motion picture production while incorporating classic cinema narrative theory and aesthetics.

Course Requirements

Course	Title	Quarter Hours
FILM 101 or FILM 102	FOUNDATIONS OF CINEMA FOR MAJORS FOUNDATIONS OF CINEMA FOR NON-MAJORS	4

Finance (BSB)

DePaul's Finance program will provide you with a solid foundation in financial management and an understanding of public and private financial processes, financial markets, analysis and investments.

As a Finance major, you will take courses in:

- Corporate finance
- [Analytics](#)
- Investment theory and practice

You will also take multiple elective courses. Depending on your career goals, you may take a series of courses that focus on one of the following areas:

- Banking and financial services
- Corporate financial management
- Investment analysis/ management
- Risk management

DePaul's Driehaus College of Business is located in downtown Chicago, in the heart of the city's financial district, providing you with countless opportunities to intern and work professionally with leading companies in the business industry. You are encouraged to complete an internship with a Chicago-area business during the summer preceding either your junior or senior year.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	34
Open Electives	26
Total hours required	192

Learning Outcomes:

- Understand financial theory and how it can be applied to financial decision making. Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks). Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty. Understand the role of agents and impact of governance.
- Understand the structure of the financial markets and the roles of institutions in those markets. Understand the flow of funds in the private and public markets. Know the determinants of the cost of

funds. Understand how derivative instruments work and can be used for risk management.

- Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).
- Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
- Understand the role of agents and the impact of governance.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4
FIN 310	INTRODUCTION TO FINANCE	4
MAT 137	BUSINESS STATISTICS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	4
MKT 301	PRINCIPLES OF MARKETING	4
Business Technology ²		
Select one of the following:		4
BUS 202	BUSINESS TECHNOLOGY	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	
MIS 360	SYSTEMS ANALYSIS AND DESIGN	
Business Communication ³		
Select one of the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	
Global Business Perspective ⁴		

Select one of the following:

4

ECO 316	EUROPEAN ECONOMIC HISTORY
ECO 330	RADICAL RESPONSES TO CAPITALISM
ECO 333	TOPICS IN GLOBAL ECONOMIES
ECO 334	UNDERSTANDING CHINA'S ECONOMY
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES
ECO 361	INTERNATIONAL TRADE
ECO 362	INTERNATIONAL MONETARY ECONOMICS
ECO 363	ECONOMICS OF THE EUROPEAN UNION
FIN 340	INTERNATIONAL FINANCE
FIN 355	GLOBAL IPOs & VENTURE CAPITAL
IB 350	INTERNATIONAL BUSINESS SEMINAR
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 357	INTERNATIONAL BUSINESS
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT
MKT 360	INTERNATIONAL MARKETING
SOC 217	WORK IN A GLOBALIZED WORLD

A course taken as part of a term-long study abroad program

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective

If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Finance Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, FIN 310, MAT 137, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to FIN 310, a student majoring in Finance is required to complete the following courses totaling at least 34.0 hours:

Course	Title	Quarter Hours
FIN 250	CAREER EXPLORATION & PROFESSIONAL DEVELOPMENT	2
FIN 311	CORPORATE FINANCE	4
FIN 315	DATA ANALYTICS IN FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
Select five elective courses from the following: A maximum of one may be a non-FIN course:		20
ACC 304	FINANCIAL REPORTING I	
ACC 307	FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS	
DSC 341	FOUNDATIONS OF DATA SCIENCE	
ECO 305	INTERMEDIATE MICROECONOMICS	
ECO 306	INTERMEDIATE MACROECONOMICS	
FIN 313	INVESTMENT BANKING	
FIN 320	MONEY AND BANKING	
FIN 323	COMMERCIAL BANKING	
FIN 324	BANKING & CREDIT ANALYSIS	
FIN 333	FINANCIAL STATEMENTS ANALYSIS	
FIN 335	PORTFOLIO MANAGEMENT	
FIN 336	EQUITY RESEARCH	
FIN 340	INTERNATIONAL FINANCE	
FIN 350	REAL ESTATE ANALYSIS ¹	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
FIN 362	ENTERPRISE RISK MANAGEMENT	

FIN 363	DERIVATIVES: PRICING & APPLICATIONS
FIN 365	PRINCIPLES OF RISK & INSURANCE
FIN 366	FINANCIAL MODELING
FIN 380	CASES IN FINANCIAL DECISION MAKING
FIN 381	BEHAVIORAL FINANCE
FIN 393	FINANCE INTERNSHIP (see note below)
FIN 395	INVESTMENT SEMINAR
FIN 398	SPECIAL TOPICS (multiple topics may be used)
FIN 399	INDEPENDENT STUDY
IT 211	INTRODUCTION TO APPLIED PROGRAMMING
MAT 341	STATISTICAL METHODS USING SAS
MAT 349	APPLIED PROBABILITY
RE 300	REAL ESTATE LAW
RE 320	URBAN PLANNING AND PUBLIC POLICY
RE 325	PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
RE 350	REAL ESTATE ANALYSIS ¹
RE 352	REAL ESTATE FINANCE
RE 353	REAL ESTATE INVESTMENT
RE 354	REAL ESTATE VALUATION
RE 398	SPECIAL TOPICS
RE 399	INDEPENDENT STUDY

¹ RE 350 and FIN 350 are cross listed and may only be completed once for credit.

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Students are encouraged to seek an internship with a Chicago-area business during the summer preceding either their junior or senior year.

Open Electives

Open elective credit (26.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied. Students should take the Career Course as soon as possible.

Experiential Learning

If FIN 393 or FIN 324 is completed in the Finance major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Curricular Specializations

The Department offers four recommendations for students who would like to focus their studies on one area of expertise. These areas are optional; no curricular specialization is required for the major.

Banking

Course	Title	Quarter Hours
FIN 313	INVESTMENT BANKING	
FIN 320	MONEY AND BANKING	
FIN 323	COMMERCIAL BANKING	
FIN 324	BANKING & CREDIT ANALYSIS

FIN 363	DERIVATIVES: PRICING & APPLICATIONS	
FIN 366	FINANCIAL MODELING	
FIN 381	BEHAVIORAL FINANCE	
FIN 395	INVESTMENT SEMINAR	

Finance (Minor)

Available to students majoring outside the Driehaus College of Business, a minor in Finance provides a student with a basic foundation in financial management, along with an understanding of financial markets, analysis, and investments.

Prerequisite Requirements

Students must meet the prerequisites of ACC 101, ECO 105, ECO 106 and MAT 137 (or a course in statistics) prior to some courses in the minor.

Course Requirements

A non-Driehaus student minoring in Finance is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
FIN 310	INTRODUCTION TO FINANCE	4
FIN 311	CORPORATE FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
Select two Finance elective courses to be chosen from the following. A maximum of one may be a non-FIN course:		8

ACC 304	FINANCIAL REPORTING I	
ACC 307	FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS	
DSC 341	FOUNDATIONS OF DATA SCIENCE	
ECO 305	INTERMEDIATE MICROECONOMICS	
ECO 306	INTERMEDIATE MACROECONOMICS	
FIN 313	INVESTMENT BANKING	
FIN 320	MONEY AND BANKING	
FIN 323	COMMERCIAL BANKING	
FIN 324	BANKING & CREDIT ANALYSIS	
FIN 333	FINANCIAL STATEMENTS ANALYSIS	
FIN 335	PORTFOLIO MANAGEMENT	
FIN 336	EQUITY RESEARCH	
FIN 340	INTERNATIONAL FINANCE	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
FIN 362	ENTERPRISE RISK MANAGEMENT	
FIN 363	DERIVATIVES: PRICING & APPLICATIONS	
FIN 365	PRINCIPLES OF RISK & INSURANCE

RE 320	URBAN PLANNING AND PUBLIC POLICY	

RE 325	PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
RE 350	REAL ESTATE ANALYSIS
RE 352	REAL ESTATE FINANCE
RE 353	REAL ESTATE INVESTMENT
RE 354	REAL ESTATE VALUATION
RE 398	SPECIAL TOPICS
RE 399	INDEPENDENT STUDY

The Department of Finance enforces all course prerequisites; exceptions will not be made.

RE 350 is cross-listed with FIN 350.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Finance (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to round out their courses of study with a deeper understanding of financial management, investment banking, financial markets and investment strategy, may choose to minor in Finance.

Course Requirements

In addition to FIN 310, a Driehaus student minoring in Finance is required to complete the following courses of 16.0 hours (totaling at least 20.0 hours):

Course	Title	Quarter Hours
FIN 311	CORPORATE FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
Select two Finance electives to be chosen from the following.		8
A maximum of one may be a non-FIN course:

RE 352	REAL ESTATE FINANCE
RE 353	REAL ESTATE INVESTMENT
RE 354	REAL ESTATE VALUATION
RE 398	SPECIAL TOPICS
RE 399	INDEPENDENT STUDY

The Department of Finance enforces all course prerequisites; exceptions will not be made.

RE 350 is cross-listed with FIN 350.

Graduation Requirements

All Finance (FIN) courses and any other courses used toward the Finance minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Finance (MSF)

The Master of Science in Finance program provides students with the real-world skills necessary to succeed as finance professionals. Students develop a deep understanding of modern financial markets along with the instruments and tools used in the industry. In addition to acquiring a conceptual foundation, students learn to develop strategic financial objectives, improve investment decisions, design financial instruments, manage corporate risk and seize new business opportunities.

Program Features

- Through the MS in Finance program, students will develop skills in:
- Financial decision-making techniques and strategies.
 - Creating and developing solutions to complex financial problems.
 - Designing, using and evaluating financial tools and instruments.
 - Developing proposals for profitability and productivity.
 - Outlining and identifying strategic financial objectives.
 - Risk analysis.

Program Requirements

Introductory Requirements (waived with applicable prior credit): Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core classes.

Degree Requirements 48

Total hours required 48

Learning Outcomes

Students will be able to:

- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment management, risk management, and in corporate finance.
- Produce a coherent written statement of the analysis of a complex business issue.
- Understand and solve problems encountered by a multinational business.
- Develop the foundation to think about and address ethical issues in the context of financial markets and institutions.

Degree Requirements

Course Requirements

The MS in Finance program requires a minimum of 48 credit hours subject to the prerequisite requirement.

Prerequisites for the MSF Program

Students complete the Master of Science in Finance by taking six core courses and six elective courses in addition to the program prerequisites.

Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core courses.

Core Courses

Course	Title	Quarter Hours
FIN 555	FINANCIAL MANAGEMENT	4
FIN 617	TOOLS OF FINANCIAL ANALYTICS	4
FIN 523	INVESTMENT ANALYSIS	4
FIN 524	FINANCIAL STATEMENT ANALYSIS	4
FIN 553	ADVANCED CORPORATE FINANCE	4
FIN 662	DERIVATIVES VALUATION	4

Elective Requirement

Six elective courses are required. At least three of these required electives must be Finance courses. The other three required elective courses are considered *free electives* and may be satisfied in **one** of the following ways:

- another finance course
- a graduate course in Accounting, Computer Science (CDM), Data Science (CDM), Data Analytics (Management), Economics, Mathematics, or Real Estate (other disciplines or courses may be considered but require the permission of the faculty program director). The following classes are recommended:

Course	Title	Quarter Hours
Courses in Accounting		
ACC 635	INTRODUCTION TO FRAUD EXAMINATION	
ACC 638	ADVANCED IT AUDITING	
ACC 645	FORENSIC AND INVESTIGATIVE ACCOUNTING	
ACC 646	FORENSIC FINANCIAL STATEMENT ANALYSIS AND VALUATION	
Courses in Computational Methods		
CSC 401	INTRODUCTION TO PROGRAMMING	
DSC 430	PYTHON PROGRAMMING	
CSC 521	MONTE CARLO ALGORITHMS	
Courses in Data Science		
DSC 425	TIME SERIES ANALYSIS AND FORECASTING	
DSC 441	FUNDAMENTALS OF DATA SCIENCE	
DSC 465	DATA VISUALIZATION	
Courses in Economics		
ECO 525	GAME THEORY AND STRATEGY	
ECO 526	BUSINESS STRATEGY	
ECO 529	STRATEGY AND ANTITRUST	
ECO 531	BUSINESS MODELS AND INNOVATION STRATEGY	
ECO 540	THE BUSINESS OF HEALTH	
Courses in Real Estate		
RE 530	REAL ESTATE INVESTMENT AND FINANCE	
RE 531	REAL ESTATE CAPITAL MARKETS AND FINANCE	
RE 570	ADVANCED REAL ESTATE ANALYSIS WITH ARGUS	
RE 535	INSTITUTIONAL REAL ESTATE INVESTMENT	

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 6 required courses and 6 elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose

of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program and the Kellstadt Graduate School of Business.

Finance (MSF), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree + Finance (MSF)

The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry. Courses in the program develop expertise in corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

Admission

This program is available to all DePaul Undergraduates with a strong academic record. For admission to the combined program, applicants will need to provide:

- A completed application submitted to the Kellstadt Graduate School of Business (application fee will be waived),
- A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
- A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.
- A complete transcript of undergraduate courses.

The admissions committee may require applicants to participate in a personal interview.

Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

Course	Title	Quarter Hours
FIN 555	FINANCIAL MANAGEMENT	4
FIN 524	FINANCIAL STATEMENT ANALYSIS	4
FIN 617	TOOLS OF FINANCIAL ANALYTICS	4

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

Finance (MSF) Online

The Master of Science in Finance program provides students with the real-world skills necessary to succeed as finance professionals. Students develop a deep understanding of modern financial markets along with the instruments and tools used in the industry. In addition to acquiring a conceptual foundation, students learn to develop strategic financial

objectives, improve investment decisions, design financial instruments, manage corporate risk and seize new business opportunities.

Program Features

Through the MS in Finance program, students will develop skills in:

- Financial decision-making techniques and strategies.
- Creating and developing solutions to complex financial problems.
- Designing, using and evaluating financial tools and instruments.
- Developing proposals for profitability and productivity.
- Outlining and identifying strategic financial objectives.
- Risk analysis.

The MS in Finance program is offered at DePaul's Loop Campus, in the heart of Chicago's financial district, allowing students to learn in the setting in which they will be working. Students will be encouraged to complete an internship and participate in extracurricular activities and seminars around Chicago.

Program Requirements	Quarter Hours
Introductory Requirements (waived with applicable prior credit): Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core classes.	
Degree Requirements	48
Total hours required	48

Learning Outcomes

- Acquire both knowledge and skills that are broad, deep, and necessary to fulfill their professional goals.
- Use analytical and decision-making skills to solve problems encountered by business and investors.
- Apply financial theory to solve a variety of problems in investment management, risk management, and in corporate finance.
- Produce a coherent written statement of the analysis of a complex business issue.
- Understand and solve problems encountered by a multinational business.
- Develop the foundation to think about and address ethical issues in the context of financial markets and institutions.

Degree Requirements

Course Requirements

The MS in Finance program requires a minimum of 48 credit hours subject to the prerequisite requirement.

Prerequisites for the MSF Program

Students complete the Master of Science in Finance by taking six core courses and six elective courses in addition to the program prerequisites.

Candidates are expected to demonstrate competency in principles of financial accounting, economics, and statistics prior to enrollment in the program. Students who have not demonstrated these competencies through previous coursework are required to achieve these competencies prior to registration for the core courses.

Core Courses

Course	Title	Quarter Hours
FIN 555	FINANCIAL MANAGEMENT	4
FIN 617	TOOLS OF FINANCIAL ANALYTICS	4
FIN 523	INVESTMENT ANALYSIS	4
FIN 524	FINANCIAL STATEMENT ANALYSIS	4
FIN 553	ADVANCED CORPORATE FINANCE	4
FIN 662	DERIVATIVES VALUATION	4

Elective Requirement

Six elective courses are required. At least three of these required electives must be Finance courses. The other three required elective courses are considered *free electives* and may be satisfied in one of the following ways:

- another finance course
- a graduate course in Accounting, Computer Science (CDM), Data Science (CDM), Data Analytics (Management), Economics, Mathematics, or Real Estate (other disciplines or courses may be considered but require the permission of the faculty program director). The following classes are recommended:

Course	Title	Quarter Hours
Courses in Accounting		
ACC 635	INTRODUCTION TO FRAUD EXAMINATION	
ACC 638	ADVANCED IT AUDITING	
ACC 645	FORENSIC AND INVESTIGATIVE ACCOUNTING	
ACC 646	FORENSIC FINANCIAL STATEMENT ANALYSIS AND VALUATION	
Courses in Computational Methods		
CSC 401	INTRODUCTION TO PROGRAMMING	
DSC 430	PYTHON PROGRAMMING	
CSC 521	MONTE CARLO ALGORITHMS	
Courses in Data Science		
DSC 425	TIME SERIES ANALYSIS AND FORECASTING	
DSC 441	FUNDAMENTALS OF DATA SCIENCE	
DSC 465	DATA VISUALIZATION	
Courses in Economics		
ECO 525	GAME THEORY AND STRATEGY	
ECO 526	BUSINESS STRATEGY	
ECO 529	STRATEGY AND ANTITRUST	
ECO 531	BUSINESS MODELS AND INNOVATION STRATEGY	
ECO 540	THE BUSINESS OF HEALTH	
Courses in Real Estate		
RE 530	REAL ESTATE INVESTMENT AND FINANCE	

RE 531	REAL ESTATE CAPITAL MARKETS AND FINANCE
RE 570	ADVANCED REAL ESTATE ANALYSIS WITH ARGUS
RE 535	INSTITUTIONAL REAL ESTATE INVESTMENT

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 6 required courses and 6 elective courses.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree without the written approval of the director of the program and the Kellstadt Graduate School of Business.

Finance (MSF) Online, Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Undergraduate DePaul Degree + Finance (MSF) Online

The Master of Science in Finance program will provide you with the skills necessary to succeed as a financial management professional. You will develop a detailed understanding of modern financial markets and the instruments and tools used in the industry. Courses in the program develop expertise in corporate finance, derivatives valuation, ethics, financial management, investment analysis, quantitative methods and risk management.

Admission

This program is available to all DePaul Undergraduates with a strong academic record. For admission to the combined program, applicants will need to provide:

- A completed application submitted to the Kellstadt Graduate School of Business (application fee will be waived),
- A current resume/curriculum vitae summarizing their work experience and educational background, no more than 2 pages in length, and
- A personal statement outlining their personal goals in pursuing the MS degree program, no more than 2 pages in length.
- A complete transcript of undergraduate courses.

The admissions committee may require applicants to participate in a personal interview.

Upon admission to the program students will take the following three courses while still enrolled as undergraduate students:

Course	Title	Quarter Hours
FIN 555	FINANCIAL MANAGEMENT	4
FIN 524	FINANCIAL STATEMENT ANALYSIS	4
FIN 617	TOOLS OF FINANCIAL ANALYTICS	4

Upon successful completion of the undergraduate degree and the three courses above, students complete the Master of Science in Finance by taking 36 additional credit hours at the graduate level.

Finance Honors (BSB)

The honors program in finance is reserved for students of high promise and exceptional ability. Students admitted to this program are characterized by outstanding academic performance, exceptional leadership capability, high aptitude for superior academic work and exceptional ability for making meaningful contributions during a professional career.

Honors students in finance proceed through the program together in a cohort system with peers who have similar exceptional abilities. Courses reserved for honors students are advanced in nature, student-oriented, and small. Students in the program are afforded the opportunity to interact with leaders from finance and business communities in small settings.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	34
Open Electives	26
Total hours required	192

Learning Outcomes

Students will be able to:

- Use analytical and reflective skills in decision making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.
- Understand financial theory and how it can be applied to financial decision making.\\n Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).\\n Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.\\n Understand the role of agents and impact of governance.
- Understand the structure of the financial markets and the roles of institutions in those markets.\\n Understand the flow of funds in the private and public markets.\\n Know the determinants of the cost of funds.\\n Understand how derivative instruments work and can be used for risk management.
- Develop appropriate cash flows and discount rate analysis of projects, and financial instruments (e.g. bonds and stocks).

- Apply and interpret the appropriate risk measures (e.g. beta, standard deviation) to situations under uncertainty.
- Understand the role of agents and the impact of governance.
- Understand the flow of funds in the private and public markets.
- Know the determinants of the cost of funds.
- Understand how derivative instruments work and can be used for risk management.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4
FIN 310	INTRODUCTION TO FINANCE	4
MAT 137	BUSINESS STATISTICS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	4
MKT 301	PRINCIPLES OF MARKETING	4
Business Technology ²		
Select one of the following:		4
BUS 202	BUSINESS TECHNOLOGY	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	
MIS 360	SYSTEMS ANALYSIS AND DESIGN	
Business Communication ³		
Select one of the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	
Global Business Perspective ⁴		
Select one of the following:		4
ECO 316	EUROPEAN ECONOMIC HISTORY	
ECO 330	RADICAL RESPONSES TO CAPITALISM	
ECO 333	TOPICS IN GLOBAL ECONOMIES	

ECO 334	UNDERSTANDING CHINA'S ECONOMY
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES
ECO 361	INTERNATIONAL TRADE
ECO 362	INTERNATIONAL MONETARY ECONOMICS
ECO 363	ECONOMICS OF THE EUROPEAN UNION
FIN 340	INTERNATIONAL FINANCE
FIN 355	GLOBAL IPOs & VENTURE CAPITAL
IB 350	INTERNATIONAL BUSINESS SEMINAR
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 357	INTERNATIONAL BUSINESS
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT
MKT 360	INTERNATIONAL MARKETING
SOC 217	WORK IN A GLOBALIZED WORLD
A course taken as part of a term-long study abroad program	

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective

If a FIN course is shared between Global Business Perspective and the Finance major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Finance Major

A minimum grade of B+ is required in FIN 310. A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, and any FIN course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements

In addition to FIN 310, a student majoring in Finance Honors is required to complete the following courses totaling at least 34.0 hours:

Course	Title	Quarter Hours
One Required Course (not taken as Honors Section)		
FIN 315	DATA ANALYTICS IN FINANCE	4
Seven Required Courses (must be taken as Honors sections)		
FIN 311	CORPORATE FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
FIN 333	FINANCIAL STATEMENTS ANALYSIS	4
FIN 380	CASES IN FINANCIAL DECISION MAKING	4
FIN 396	HONORS SEMINAR	2
FIN 397	HONORS SEMINAR CONTINUATION	0
ACC 307	FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS	4
Select two Finance electives to be chosen from the following. A maximum of one may be a non-FIN course:		8
DSC 341	FOUNDATIONS OF DATA SCIENCE	
ECO 305	INTERMEDIATE MICROECONOMICS	
ECO 306	INTERMEDIATE MACROECONOMICS	
FIN 313	INVESTMENT BANKING	
FIN 320	MONEY AND BANKING	
FIN 323	COMMERCIAL BANKING	
FIN 324	BANKING & CREDIT ANALYSIS	
FIN 335	PORTFOLIO MANAGEMENT	
FIN 336	EQUITY RESEARCH	
FIN 340	INTERNATIONAL FINANCE	
FIN 350	REAL ESTATE ANALYSIS ¹	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
FIN 362	ENTERPRISE RISK MANAGEMENT	
FIN 363	DERIVATIVES: PRICING & APPLICATIONS	
FIN 365	PRINCIPLES OF RISK & INSURANCE	

FIN 366	FINANCIAL MODELING
FIN 381	BEHAVIORAL FINANCE
FIN 393	FINANCE INTERNSHIP (see note below)
FIN 395	INVESTMENT SEMINAR
FIN 398	SPECIAL TOPICS (multiple topics may be used)
FIN 399	INDEPENDENT STUDY
IT 211	INTRODUCTION TO APPLIED PROGRAMMING
MAT 341	STATISTICAL METHODS USING SAS
MAT 349	APPLIED PROBABILITY
RE 300	REAL ESTATE LAW
RE 320	URBAN PLANNING AND PUBLIC POLICY
RE 325	PROJECT MANAGEMENT: DESIGN & CONSTRUCTION
RE 350	REAL ESTATE ANALYSIS ¹
RE 352	REAL ESTATE FINANCE
RE 353	REAL ESTATE INVESTMENT
RE 354	REAL ESTATE VALUATION
RE 398	SPECIAL TOPICS
RE 399	INDEPENDENT STUDY

¹ RE 350 and FIN 350 are cross listed and may only be completed once for credit.

The Department of Finance enforces all course prerequisites; exceptions will not be made.

Financial Reporting Course

Students who have taken the financial accounting courses ACC 304 FINANCIAL REPORTING I are exempt from taking ACC 307 FINANCIAL REPORTING I FOR FINANCE HONORS STUDENTS

Expectations

A cumulative GPA of 3.000 is required to remain in the program.

Once admitted, students will begin the curriculum in the spring quarter of the current academic year, and will complete the curriculum in the spring quarter of the following year. The honors student cohort will be exposed to rigorous and challenging courses in corporate finance, risk management, financial statement analysis, and financial accounting. Analytical writing and teamwork skills will be emphasized throughout the program.

Open Electives

Open elective credit (26.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If a FIN course is shared between Global Business Perspective and the Finance Honors major, additional hours of Open Elective credit are required. Any FIN course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course

Finance Honors students must take FIN 396 and are exempt from FIN 250. Finance Honors Students who double major may substitute FIN 396 in place of the career course (250) in the double major.

Experiential Learning

If FIN 393 or FIN 324 is completed in the Finance Honors major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

A minimum grade of B+ is required in FIN 310 (<https://catalog.depaul.edu/search/?P=FIN%20310>). All other Finance (FIN) courses and any courses used toward the Finance major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Food Studies (Minor)

The Food Studies minor brings together the social and natural sciences to explore urban and sustainable agriculture, scientific aspects of food, food security issues, and topics related to food cultures, food politics and food access. The Food Studies minor will enable students to pursue an interdisciplinary minor that complements their major field of study. This minor will give students the practical expertise in Geographic Information Systems (GIS), horticulture, urban agriculture and scholarship in issues of food access and food justice to engage in and contribute to debates about urban and community food systems, both locally and globally. In addition, the Food Studies minor will offer students the opportunity to pursue service-learning facilitated by the Steans Center for Community-based Service Learning.

Course Requirements

Course	Title	Quarter Hours
ENV 240	INTRODUCTION TO HORTICULTURE	4
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING	4
Select two of the following:		8
CSS 320	COMMUNITY FOOD SYSTEMS	
ENV 245	URBAN AND COMMUNITY AGRICULTURE	
GEO 351	GEOGRAPHY, FOOD AND JUSTICE	
Select two of the following electives:		8
ANT 109	FOOD AND CULTURE	
ANT 342	ANTHROPOLOGY OF FOOD MOVEMENTS AND PRACTICES	
BIO 156	FOOD, FUEL FOR LIFE	
CHE 105	EXPLORING NUTRIENTS/SCIENCE OF NUTRITION	
CSS 320	COMMUNITY FOOD SYSTEMS	
ENV 245	URBAN AND COMMUNITY AGRICULTURE	
ENV 310	ENVIRONMENTAL SOIL SCIENCE	
GEO 242	GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS	
GEO 260	GLOBALIZATION AND RESOURCES	
GEO 269	CULTURAL AND POLITICAL ECOLOGY	
GEO 350	WORLD OF WINE	
GEO 351	GEOGRAPHY, FOOD AND JUSTICE	

CMNS 325	PROMOTING SUSTAINABILITY
ITA 260E	EAT ITALY: THE HISTORY, CULTURE AND POLITICS OF ITALIAN FOOD
SOC 370	SOCIOLOGY OF FOOD

Please note that no more than two courses from any department may count for the minor. Questions about the minor should be directed to Professor Maureen Sioh (Department of Geography).

French (BA)

In DePaul's French program, students will study French language, literature and culture. Because French is a major world language with more than 200 million speakers in more than 50 countries, having the ability to communicate in French will provide students with many career opportunities around the world.

Courses in the French major will cover a variety of topics, including:

- Business
- Cinema
- Civilization
- Communication
- Grammar
- Historical literary periods
- Phonology and phonetics
- Translation

For students interested in pursuing careers in education, the French department partners with the College of Education to award teaching degrees at the middle school and high school levels.

As French majors, students are encouraged to participate in one of DePaul's study abroad programs in order to grow linguistically and expand their cultural understanding of French-speaking societies. DePaul sponsors two study abroad programs in Paris: one at Alliance Française and another at the Institute for the International Education of Students. It also has an exchange program with Sciences Po, an elite institution in the social sciences.

Chicago is a culturally diverse city, providing many opportunities to attend French lectures and festivals, dine out at French restaurants and see the work of French artists.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	48
Open Electives	60
Total hours required	192

Learning Outcomes

Students will be able to:

- Communicate in French at the Advanced Low proficiency level.
- Analyze cultural products in French and English.
- Explain features of French and its use.
- Navigate cultural differences effectively.
- Apply their language and cross-cultural skills to other domains.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in

high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

-----------------------	--	---

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains**Arts and Literature (AL) (p. 1322)**

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

FCH 202	ADVANCED COMMUNICATION II	4
FCH 203 or FCH 204	ADVANCED COMMUNICATION III ADVANCED COMMUNICATION IV	4
Select five additional 300-level FCH courses		20
Concentration Requirements*		

*Students must complete 16 credit hours of requirements from one of the following two concentrations: Commercial French or Standard (<https://catalog.depaul.edu/programs/french-ba/#concentrationrequirements>). Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Study Abroad Requirements**Year-Long Program**

Students on a year-long study abroad program would most likely complete 10 courses, 5 of which may be applied to their French Major or Minor provided the courses are at the B1 level or higher for FCH 200 level credit and B2 level for FCH 300 level credit. The remaining courses might fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 5 French courses completed on a year-long program will most likely generate more than 5 courses worth of credit (30 vs. 20); the excess credits could be used toward the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

Semester-Long Program

Students on semester-long study abroad program would most likely complete 5 courses, 3 of which may be applied to their French Major or Minor provided the courses are at the B1 level or higher for FCH 200 level credit. The remaining courses might fulfill various learning domains or other major/minor requirements. They could also potentially be counted as general electives. Note that the 3 French courses taken on a semester-long program will most likely generate more than 3 courses worth of credit (18 vs. 12); the excess credits could be used toward the fulfillment of domain requirements, if possible, or applied to general electives, as appropriate.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements

and major requirements, students are required to choose one of the following:

- Commercial French Concentration, French (BA) (p. 530)
- Standard Concentration, French (BA) (p. 531)

Commercial French Concentration, French (BA)

As an alternative to the traditional major, the French program also offers a concentration in Commercial French. Students choosing this Commercial concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (FCH 320 and MGT 300) integrate students’ knowledge across disciplines, and the two additional electives allow them to further explore their area of interest in business.

Students are encouraged to meet regularly with the French Program Director and the MOL staff advisor to discuss electives for this concentration.

Course Requirements (8 quarter hours)

Course	Title	Quarter Hours
FCH 320	FRENCH FOR BUSINESS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4

Electives (8 quarter hours)

Course	Title	Quarter Hours
MGT 302	ORGANIZATIONAL BEHAVIOR	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 357	INTERNATIONAL BUSINESS	
MGT 360	LEADERSHIP	
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING	
MGT 373	CREATIVITY & ENTREPRENEURSHIP	

Note: MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, MGT 373.

French 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger

merit scholarships. College of Law students are not eligible for the Double Demon discount.

Standard Concentration, French (BA)

Core Requirements

Course	Title	Quarter Hours
FCH 341	INTRODUCTION TO FRENCH LITERATURE I	4
FCH 342	INTRODUCTION TO FRENCH LITERATURE II	4
FCH 350	FRENCH PHONOLOGY AND PHONETICS	4
Select one additional 300-level FCH course		4

Students who begin their study of French at DePaul with FCH 202 or higher may substitute a 300-level French elective course for any of the required 200-level courses.

French (MA)

DePaul's MA program in French provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the "global village" of today's world or in multi ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in French may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- French + Digital Humanities Certificate
- French + Teaching English to Speakers of Other Languages (TESOL) Certificate
- French + Translation and Interpreting Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of

paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.

- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in French consists of twelve graduate courses (48 quarter credit hours) in French (i.e. courses with the FCH prefix). With the approval of the student's advisor and the director of the graduate program, a student may count one or two relevant courses taught in English among their twelve courses.

Additional Requirements

Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate High" on two standardized tests from the American Council on the Teaching of Foreign

Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

French (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + French (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate High") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48-quarter hour credits of coursework. This coursework consists of:

- 1. 12-quarter hour credits of required courses:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

- 2. 36-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual

interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

French (Minor)

A minor in French is customizable to fit the goals of each student, with an aim of general proficiency in writing, reading and speaking French. The student may choose to focus on a specific area to complement the course of study.

The minor consists of a total of 5 courses in French language at the 200/300-level. Courses taught in English will not be counted toward this minor unless Program Director permission is secured.

Students majoring in French (BA) or minoring in Commercial French or French Translation are restricted from earning this minor.

French Translation (Minor)

Course Requirements

- 12 credits of advanced (200-level) coursework in French language, selected to develop appropriate levels of proficiency in the language and to provide an introduction to translation
- 12 credits of advanced (300-level) coursework in translation classes

Depending on their level of prior expertise with French, students may need to complete courses at the Basic and Intermediate levels before enrolling in 200 or 300-level language courses.

Students majoring in French (BA) or minoring in French or Commercial French are restricted from earning this minor.

Fundamentals of Psychology (Minor)

The Fundamentals of Psychology minor will give you a foundation in the major topic areas in psychology. This minor is good for people who want to round out their current major with core courses in psychology or think they might want to pursue a psychology oriented major in graduate school (e.g., social work).

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Fundamentals of Psychology.

Six psychology courses are required, including:

Course	Title	Quarter Hours
PSY 105	INTRODUCTORY PSYCHOLOGY I	4
PSY 106	INTRODUCTORY PSYCHOLOGY II	4
Select two of the following:		8
PSY 333	CHILD PSYCHOLOGY	
PSY 334	ADOLESCENT PSYCHOLOGY	
PSY 347	SOCIAL PSYCHOLOGY	
PSY 351	THEORIES OF PERSONALITY	
PSY 360	THEORIES OF LEARNING AND COGNITION	
PSY 361	HISTORY AND SYSTEMS OF PSYCHOLOGY	
PSY 373	HAPPINESS, JUDGMENT AND DECISION MAKING	

Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required

8

Game Design (BS)

A game designer conceives and crafts the rules, structure and experience of a game. The Game Design degree equips students to become the next generation of creative leaders in the growing field of games. Throughout the program students will explore and push the boundaries of games as expressive and artistic media. They will develop skills for each phase of the game design and development cycle including ideation, iteration through the creation of multiple playable game builds (including prototypes), and reflection on the effectiveness of their designs using playtesting and written evaluations. Students will also develop skills and confidence in reading, writing, and modifying computer programs and scripts. Students will collaborate in interdisciplinary teams with programmers, artists, producers, writers, and audio designers. This program has an emphasis on building a portfolio of games and advancing the medium of games through experimentation and innovation.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	100
Open Electives	16
Total hours required	192

Learning Outcomes

Students will be able to:

- Collaboratively generate ideas, share them and assess their inherent risks and scope.
- Translate game ideas into prototypes; iteratively develop prototypes until they are viable and playable.
- Evaluate games with users using multiple common games user research methods.
- Manage the pipeline for games, effectively evaluating the impact of potential changes.
- Develop a foundational literacy and confidence in reading, writing, and modifying computer programs and scripts.
- Clearly communicate and establish the vision for a game's experiential goal by taking formal and dramatic game elements into account.
- Intentionally craft experiences that leverage and develop the unique affordances of games as an artistic medium.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Note

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Electives

Major elective courses must meet the following criteria:

- Eight (8) credit hours of Major Electives must be selected from GAM courses at the 300-level
- Twelve (12) credit hours of Major Electives must be selected from any 200-level ANI, CP, DOC, FILM, GAM, GD, GPH, POST, SCWR, UXD, or VFX courses or from any 300-level CDM course

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Game Design (MFA)

Program Requirements	Quarter Hours
Degree Requirements	64
Total hours required	64

Learning Outcomes

Students will be able to:

- Situate their creative practice within historical, aesthetic, and social contexts; design and develop games that are significant in those contexts.
- Leverage the affordances of games to intentionally evoke specific emotions and experiences, purposefully communicate ideas as well as have the desired social impact.
- Critique games from a variety of perspectives including historical, aesthetic, and social.
- Iteratively build projects up from simple prototypes to increasingly complex systems.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Course	Title	Quarter Hours
GAM 420	CREATIVE COMPUTATION	4
GAM 424	GAME DESIGN WORKSHOP	4
GAM 430	ART GAMES BOOTCAMP	4
GAM 440	GAMES WITH A PURPOSE BOOTCAMP	4
GAM 520	GAME DESIGN PROSEMINAR	4
GAM 530	GAMES STUDIES PROSEMINAR	4
GAM 540	GAME DEVELOPMENT PRACTICUM	4
GAM 550	INCUBATION STUDIO	4
Select five from any graduate level GAM, ANI, CP, DOC, FILM, POST, SCWR, GD, EXP, UXD, GPH, or VFX courses ¹		20
GAM 600	THESIS STUDIO ²	12

¹ Focus Area Electives include any graduate level GAM, ANI, CP, DOC, FILM, POST, SCWR, GD, EXP, UXD, GPH, or VFX courses. Students should work with their faculty advisor to select a grouping of Focus Area Electives that will best serve the student's professional trajectory.

² Students must take GAM 600 THESIS STUDIO three (3) times, over three consecutive quarters. Twelve (12) credit hours are required.

MFA Thesis Proposal and Development

In parallel to taking Incubation Studio in Winter quarter of their second year to prepare their Thesis proposal, students must solicit a Thesis committee consisting of 2-3 members. At the end of the Incubation Studio each student's Thesis committee assesses their progress and provides feedback and guidance on the Thesis proposal. By the beginning of Spring quarter the Thesis committee will have given feedback and students will have had the opportunity to revise their Thesis proposal. With their Thesis committee's approval candidates can enter Thesis Studio Spring quarter to begin their Thesis project. Candidates continue Thesis development through Thesis Studio courses taken in the Fall and Winter quarters of their third year. In addition to work completed in the Thesis Studio courses students are required to provide quarterly evidence of progress, iteration, and refinement to their Thesis committee in the form of playable prototypes, proof of concept papers, or other appropriate means. The forum to present progress is in an end-of-quarter critique

with the entire third-year cohort and all Thesis committee faculty in attendance.

MFA Thesis Showcase and Defense

Candidates will turn in a final draft of their completed Thesis project by the end of the Winter quarter of the third year and be required to publicly show their work in the annual MFA showcase or exhibit their work in a juried venue. The candidate will defend the Thesis before the Thesis committee who will review the Thesis project to decide whether the candidate should be awarded the degree. If the committee does not deem the project ready for approval, the student will be given notes and asked to resubmit their project. Students may resubmit up to three times. If a student’s project is not deemed passable after the fourth time, the student will not receive the MFA. Students have eighteen months from the submission of their first draft to obtain the committee’s approval or the degree will not be awarded.

Game Design (Minor)

The minor in Game Design exposes students to the three areas of game development — animation design, writing and production.

Course Requirements

Course	Title	Quarter Hours

SCWR 349	STORYTELLING FOR VIDEO GAMES	

Game Programming (BS)

Students in this program engage in the rigorous study of computer science basics, and then apply this knowledge to the demanding specialization of game programming. Programmers bring their technical understanding of game internals to the problem of delivering engaging game experiences to players. Areas of study include level design, game scripting, computer graphics development, game physics, and artificial intelligence programming.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	100
Open Electives	16
Total hours required	192

Learning Outcomes

Students will be able to:

- Demonstrate proficiency with C++ programming language.
- Create and design large software systems using design pattern techniques.
- Design and implement real-time game engine.
- Apply graphics and rendering techniques to support game engine operations.
- Create and manage the development schedule of a large software project.

GAM 312	PLAYTESTING	

Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Game Programming (MS)

The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.

Program Requirements	Quarter Hours
Introductory Courses	0-24
Degree Requirements	48
Total hours required	48-72

Learning Outcomes

Students will be able to:

- Demonstrate mastery of the C++ programming language.
- Use design patterns to create and design large-scale real-time software systems.
- Architect and implement real-time Game Engine.
- Implement and apply advanced rendering techniques for real-time graphics simulation.
- Create and manage a development schedule of a complex software projects.

Degree Requirements**Course Requirements**

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Course	Title	Quarter Hours
CSC 400	DISCRETE STRUCTURES FOR COMPUTER SCIENCE	4

CSC 401	INTRODUCTION TO PROGRAMMING	4
CSC 402	DATA STRUCTURES I	4
CSC 403	DATA STRUCTURES II	4
CSC 406	SYSTEMS I	4
CSC 407	SYSTEMS II	4

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

Course	Title	Quarter Hours
GAM 425	APPLIED 3D GEOMETRY	4
CSC 461	OPTIMIZED C++	4
SE 456	ARCHITECTURE OF REAL-TIME SYSTEMS	4
GPH 469	COMPUTER GRAPHICS DEVELOPMENT	4
or GAM 470	RENDERING AND GRAPHICS PROGRAMMING	

Advanced Courses

Course	Title	Quarter Hours

GAM 691	GAME DEVELOPMENT STUDIO II	
GAM 695	MASTER'S GAME RESEARCH STUDY	

¹ Students who take GAM 690 GAME DEVELOPMENT STUDIO I to fulfill their Major Elective Requirements MUST take GAM 691 GAME DEVELOPMENT STUDIO II.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Game Programming (MS) Online

The MS in Game Programming is designed for those interested in game development programming at the highest level, including computer science and computer graphics professionals retooling for the game industry.

ANI 346	GAME ART PIPELINE	4
GAM 325	APPLIED 3D GEOMETRY	4
GAM 370	RENDERING AND GRAPHICS PROGRAMMING	4
Choose 12 Credit Hours from the following list:		12
ANI 310	MOTION CAPTURE	
ANI 332	3D RIGGING	
ANI 333	ADVANCED 3D RIGGING	
ANI 336	3D MODELING STUDIO	
ANI 337	ENVIRONMENT MODELING	
ANI 338	3D ORGANIC MODELING	
ANI 339	3D TEXTURING AND LIGHTING	
ANI 351	ADVANCED MOTION CAPTURE STUDIO	
ANI 378	3D DYNAMICS	

General Psychology (Minor)

The General Psychology minor enables students to select courses in psychology tailored to their particular interests or career goals. This minor allows students maximum flexibility to complement a variety of majors and areas of interest.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology students cannot earn a minor in General Psychology.

Six psychology courses are required, including:

Course	Title	Quarter Hours
PSY 105	INTRODUCTORY PSYCHOLOGY I	4
PSY 106	INTRODUCTORY PSYCHOLOGY II	4
Select four psychology courses ¹		16

¹ At least two must be numbered PSY 317 and above.

Generalist Nursing (MSN)

Designed for the college graduate who wants to become a registered nurse, the Master's Entry to Nursing Practice (MENP) program provides the advanced education for general professional nursing practice and eligibility for the RN licensure examination (NCLEX-RN).

Program Goals

The purpose of the MENP program is to prepare qualified individuals for:

- Licensure by examination (NCLEX-RN) required for entry into professional nursing practice
- Advanced professional nursing practice and leadership in health promotion and illness care
- Collaboration and scholarship with others to meet the present and future health needs of society

- Community service for vulnerable populations in the Vincentian tradition
- Continuing academic and clinical education at the post-graduate and doctoral levels

Program Requirements	Quarter Hours
Degree Requirements	107
Total hours required	107

Learning Outcomes

Students will be able to:

- Analyze nursing concepts, theories, and research to design, implement, and evaluate culturally appropriate family-centered and community-based models of professional nursing.
- Develop a personal philosophy of professional nursing through analysis of a professional code of ethics and exploration extant philosophies, nursing's history and its evolution as a discipline.
- Demonstrate excellence in patient care and nursing knowledge across the lifespan through advanced health assessment, evidence-based professional practice, systematic inquiry, planned innovation, competent use of information systems and technology, and dissemination of information.
- Practice as an ethical leader within nursing and interprofessional health care teams acting with accountability, integrity and social justice for safe, quality and affordable health care for individuals, families, communities.

Degree Requirements

Course Requirements

Level I (Basic Graduate Generic) - 35 credits

Course	Title	Quarter Hours
NSG 301	INTRODUCTION TO THE ART AND SCIENCE OF NURSING I	5
NSG 302	INTRODUCTION TO THE ART & SCIENCE OF NURSING II	8
NSG 303	INTRODUCTION TO THE ART & SCIENCE OF NURSING III	8
NSG 307	ART AND SCIENCE OF NURSING IV: PSYCHIATRIC MENTAL HEALTH	6
NSG 322	BASIC PATHOPHYSIOLOGY AND PHARMACOLOGY	4
NSG 332	HEALTH ASSESSMENT	4

Level II (Advanced Graduate Generic) - 40 credits

Course	Title	Quarter Hours
NSG 431	HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES ¹	4
NSG 434	COMMUNITY ENGAGEMENT SEMINAR I	1
NSG 435	COMMUNITY ENGAGEMENT SEMINAR II	1
NSG 440	MATERNAL HEALTH NURSING	6
NSG 441	INFANT, CHILD AND ADOLESCENT NURSING	6
NSG 442	COMMUNITY HEALTH NURSING	4
NSG 443	CLINICAL IMMERSION AND INTERNSHIP	6

NSG 445	NURSING PROFESSIONALISM, ADVOCACY, AND LEADERSHIP	4
NSG 472	CRITICAL CARE NURSING	8

¹ DePaul students who complete NSG 431 as DePaul undergraduates and who subsequently enroll in and complete the MENP program are not required to complete 4 additional quarter hours of coursework. They are considered to have completed all requirements of the MENP program and the requirement to take 4 additional quarter hours is waived for these students.

Level III (Graduate Core Courses) - 20 credits

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 401	NURSING RESEARCH I	4
NSG 481	BIostatISTICS AND EPIDEMIOLOGY	4
NSG 540	CULTURE, ETHICS, AND POLICY ANALYSIS	4
NSG 598	GRADUATE RESEARCH SYNTHESIS	4
or NSG 599	THESIS RESEARCH	

Level IV (Graduate Practice Core Courses) - 12 credits

Course	Title	Quarter Hours
NSG 422	APPLIED PATHOPHYSIOLOGY	4
NSG 426	PHARMACOLOGY II	4
NSG 460	HEALTH ASSESSMENT II	4

Student Handbook

A complete list of policies specific to the nursing programs of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete MENP handbook can be found here (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>).

Mission of the DePaul University School of Nursing

The Mission of the School of Nursing is the preservation, enrichment and transmission of nursing science as a discipline and its application to promote the health and well-being of individuals, families and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship and research that has the potential to enhance nursing knowledge, scientific inquiry, teaching and health. The School of Nursing maintains a commitment to serving persons with diverse talents, qualities, interests and socioeconomic backgrounds in its education programs and professional practice. It seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

Philosophy of the DePaul University School of Nursing

Nursing is a learned profession with a distinct science and art. Students learn the practice of nursing through research and the study of diverse human and environmental patterns of health behavior as they affect individuals, families, and communities. Students incorporate scientific knowledge and the nursing process in their delivery of safe, ethical and quality care with deep regard for the differences along the dimensions of race/ethnicity, gender, class, sexuality, religion, heritage and language. The focus of the faculty of the School of Nursing is the education and preparation of students for leadership roles in healthcare. Education is centered on providing care for persons and communities in both health

and illness while conducting scientific research to generate knowledge that strengthens these endeavors. Critical thinking is emphasized, along with an insightful examination of society, thus affording students the opportunity to apply the science and art of nursing to promote and maintain health while upholding human dignity for the betterment of the community and society. In keeping with the Vincentian values of DePaul University, students treat all human beings equally and with respect, and by doing so, are acting in the interest of the common good. The School of Nursing faculty is committed to education that will provide the foundation for a professional career as a caregiver, educator, leader, servant and scholar. A professional level of nursing practice is best achieved through master's degree education in nursing and requires appropriate licensure through examination (NCLEX-RN). Advanced professional nursing practice education integrates specialization into the master's degree curriculum or at the post-master's level providing eligibility for professional certification as a nurse anesthetist; clinical specialist in community, acute or long-term care areas; nurse practitioner in primary care; or nursing scholarship in practice or the academy. The master's degree provides the foundation for doctoral education in nursing science.

Accreditation

The baccalaureate degree program in nursing/master's degree program in nursing/Doctor of Nursing Practice program and/or post-graduate APRN certificate program at DePaul University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>) (<http://www.ccnaccreditation.org/>).

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the DePaul Academic Integrity Policy (<https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx>).

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

Program Summary

Designed for the college graduate who wants to become a registered nurse, the MENP Program provides the foundation for generalist nursing practice and eligibility for the RN licensure examination (NCLEX- RN).

Admissions Policies

1. Students must meet the minimum admissions requirements listed on the University website (<https://csh.depaul.edu/academics/nursing/graduate/nursing-menp/Pages/admission.aspx>).
2. The School of Nursing is committed to the principles of non-discrimination and equal opportunity for all persons. Students are evaluated and admitted to the program without regard to race, color, religion, gender, sexual orientation, age, or national origin.
3. The School of Nursing is committed to providing equal access for all students with disabilities. Eligibility for services and accommodations is determined by the Center for Students with Disabilities (CSD). Students with disabilities who wish to receive services and accommodations at DePaul University must have their disability on record with CSD.
4. Applications are evaluated and students are selected for admission by the Admission, Progression, and Retention (APR) Committee based on their potential to successfully complete program objectives.
5. MENP students must have earned a BA or BS from an accredited institution. They must have a minimum cumulative GPA of 3.0/4.0, although a cumulative GPA of 3.2/4.0 is preferred. Cumulative GPA is derived from baccalaureate degree and other pre/post baccalaureate coursework completed. GRE scores may be submitted and may be factored into admission decision. Please note meeting minimum admission criteria does not guarantee admission.
6. Non-native English speakers must have a TOEFL score of 590 (PBT) or higher or 96 (iBT) or higher.
7. MENP students must have completed:
 - a. Two courses of chemistry (organic and inorganic) with labs OR one course of chemistry and one course of microbiology, both with labs.
 - b. Two courses of human anatomy/physiology with labs.
8. Applications must include:
 - a. Two letters of reference from former faculty or employer.
 - b. Curriculum vitae or resume.
- c. Short answer responses to the following prompts:
 - i. How will your prior background contribute to your ability to fulfill the daily responsibilities of an entry-level registered nurse? (200-word max)
 - ii. St Vincent DePaul observed the needs of impoverished people with disparities to access to healthcare. He ultimately dedicated himself to answering a single question: "What must be done?" How will you utilize a nursing degree obtained from DePaul University? (200-word max).
 - iii. Please address the strengths and opportunities for growth in your application (i.e., explanation for GPA below 3.2, repeated coursework, gaps in academic history and performance on standardized tests). (200-word max)
9. Applicants may submit applications online at www.depaul.edu/apply with an application fee or through Nursing CAS, an online centralizes application service for nursing programs nationwide (<http://nursingcas.org/>).
10. The student is responsible for meeting all conditions of admission and for notifying the Office of Graduate Admissions once all conditions have been fully met.

Retention Policies

The retention policy is subject to change at any time. Please check the student handbook (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>) for the most updated policy.

1. Students must maintain a cumulative GPA of 3.0 or greater to remain in good standing. A student will be placed on academic probation if the GPA falls below 3.0. and must enroll in the School of Nursing Success Coaching program. If the GPA is raised to at least 3.0 at the end of the next academic quarter, the student is no longer on probation. If the GPA

has not risen to 3.0 at the end of the next academic quarter, the student will be eligible for dismissal from the program.

2. If a student earns a C or C- in any course, the student is placed on academic probation. A grade of C or C- is not considered a satisfactory grade; as such the student must re-take course and receive a C+ grade or better in the following academic quarter. Moreover, the student must enroll in the School of Nursing Success Coaching program. If the student is able to earn a C+ or better in all classes AND earn a cumulative GPA of 3.0 or greater in the next academic quarter, the student will no longer be on academic probation and will be considered as "out of sequence students" for the remainder of their stay in the MENP program. If the student does not achieve this criteria, the student will be dismissed from the program.
3. A student who earns a D+ or lower in any course will be dismissed from the program.
4. A student may be placed on probation a maximum of two times during their program.
5. In accordance with the nursing licensing regulations, students found to be convicted of a crime will be reviewed by the APR Committee and may be suspended or dismissed from the program. It is the student's responsibility to disclose any arrests or convictions while enrolled in their program. Degree conferral from the University does not guarantee licensure eligibility in the event the student is convicted of a crime. It is the student's responsibility to be knowledgeable of the licensure requirements for the state in which they intend to apply for RN licensure. The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
6. The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
7. Appropriate student conduct is outlined in detail in the Professional Development Guidelines (see handbook).
8. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with written contract and placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the APR Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. See handbook for additional information.

Progression Policies

1. All students must attend an orientation session before beginning the MENP program.
2. The student is responsible for reading the Student Handbook. Students are responsible for signing and submitting the Student Handbook Agreement Statement to affirm they have read and fully understand the policies therein.
3. Students are assigned an academic advisor. Students should consult with the academic advisor for any program-related concerns.
4. A student may not register for any course that has a prerequisite that has not been completed.
5. Students may not attend classes for a class in which they are not enrolled.

6. Students are responsible for maintaining and updating all required records. Failure to have all records submitted and up to date at the beginning of each course will result in inability to attend the clinical component of the course.

7. Leave of Absence:

a) Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the Program and the Coordinator of Clinical Placements and APR Committee should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student's academic advisor may recommend additional action to complete the request process.

b) Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the APR Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become "out-of-sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out-of-sequence students" cannot displace in-sequence students from a clinical spot.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the University. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the APR Committee in consultation with both the Director of the School of Nursing or Associate Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is "not in good standing" (with a grade of "C+" or lower or on probation) at the time of withdrawal, will be referred to the APR Committee. The APR Committee will review the student's past and current performance and elicit recommendations from the course faculty. A representative of the APR Committee may then meet with the course faculty, Associate Director of the Program, and student, to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course "not in good standing" (with a grade of "C+" or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. All out-of-sequence students will be placed in clinical on a space/faculty-available basis. Scheduling priority will be given to students who are out of sequence for military service, illness, or family leave before

students who are out of sequence for failure or withdrawal "not in good standing."

13. A student who has a grade of B (83% or less) at mid-quarter may be placed on contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

14. Failure to meet all of the agreed upon terms outlined in the student contract will result in the consequences identified in the contract which may include program dismissal.

15. In accordance with DePaul University policy, students must complete their program within 6 years of matriculation.

Procedure for Reinstatement after Dismissal

Students in the Master's Entry to Nursing Program who wish to apply for reinstatement after having been dismissed shall contact the APR Committee within 72 hours from their notification of dismissal. Their application for reinstatement should describe the nature of the circumstances leading to their dismissal and their corrective plan of action for future success in the MENP program. The APR Committee will review their application and decide to whether or not to reinstate. During the time the APR committee reviews the student's application for reinstatement, the student shall remain responsible for any coursework/ assignments/deadlines/compliance issues related to their classes in that quarter. Students under dismissal/reinstatement review will NOT be allowed to participate in any clinical activity where direct patient care is involved. In lieu of attending clinical, the student shall be offered an equivalent assignment at the discretion of the APR Chairperson and/or MENP Director. In the event the student is reinstated, the student will be notified via e-mail of their reinstatement. The student shall henceforth be responsible for adhering to the conditions set forth by the APR Committee. In the event the APR Committee decides to deny reinstatement, the student shall be immediately removed from all class rosters and will no longer be allowed to attend any classes/clinical or any other related activity virtually or in-person. The student has the right to petition for reinstatement within a week of notification directly to the Director of the School of Nursing, who may decide to reinstate the student. In the event the Director of the School of Nursing denies reinstatement, the student shall be dismissed immediately. In the event the Director of the School of Nursing reinstates the student, they will be eligible to enroll in classes the following academic quarter. The student will be responsible for adhering to the conditions set forth by the Director of the School of Nursing. If the student fails to comply with the conditions set forth by the director of the school of nursing, the student will be eligible for immediate dismissal. The decision of the Director of the School of Nursing is final. Moreover, a student may only be reinstated once.

Transfer Credit

The MENP program follows the College of Science and Health Transfer Credit Approval (TCA) policy (<https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/transfer-credit.aspx>) for graduate students. Students who wish to transfer credit should follow the TCA submission guidelines stipulated in the CSH policy.

Community-based Service Learning in DePaul University School of Nursing's MENP Program

Community-based service learning (CbSL) is consistent with the mission of the University and the School of Nursing. CbSL is a dynamic, collaborative process whereby faculty, students and community-based organizations partner to link learning with service to the community.

Students are involved in meeting community needs while applying the experience to their personal and academic development as well as applying their academic learning to their community experience (bi-directional).

- In the classroom the CbSL experience has intentional learning objectives for service learning and structured reflection on what is being learned that can mesh with the course learning goals. In this graduate education model, the outcome of the service learning should be enhanced by student learning in the classroom.
- At the community partner site students will get real-life experience and perspective different than the world view to which they are accustomed. They will also learn about the challenges and barriers to running a service organization. They tie these actual experiences and relationships to the content they are learning in the classroom.

School of Nursing Simulation Lab Mission Statement

The DePaul Simulation Lab (DSL) is committed to facilitating experiential learning opportunities for students. In order to promote a safe interactive learning environment that fosters collaboration, teamwork, and the synthesis of didactic and clinical knowledge, the DSL employs cutting edge technology in addition to the simulation standards of best practice.

Student Clinical Requirements

It is mandatory for students to complete and upload all clinical requirements to their Student Immunization Tracker via Castle Branch. See health requirement guidelines (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>) for more detailed instructions about requirements. All clinical requirements must be submitted and approved prior to the first day of the quarter of clinical attendance. Updates and renewals (e.g., updated lab 29 results, renewed coverage, yearly immunizations) must be submitted to Castle Branch PRIOR to the expiration date. It is the responsibility of the student to ensure that all clinical requirements are kept current.

Graduation Requirements

DePaul University awards the Master's of Science degree with a major in nursing to students who successfully completed the MENP program. All degree requirements of the University, College, and School of Nursing must be met as outlined in the current catalog, including but not limited to maintaining a minimal cumulative GPA of 3.0. The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar. Students are responsible for changes reflecting new program requirements if the department gives sufficient notice. Upon successful completion of graduation requirements, MENP students are eligible to apply to take the National Council of Licensing Examination (NCLEX). (See Legal Limitations below.) The Illinois Department of Financial and Professional Regulation requires that graduating MENP students submit to a fingerprinting processing from the Illinois Department of State Police or its designated agent. Licensure by the IDFPR will require a separate complete background check with fingerprinting prior to being given permission to sit for NCLEX. If criminal activity is noted, such activity MAY BE grounds for the student to not be given permission to take the NCLEX exam. Legal Limitations for Licensure Completion of the nursing education program does not guarantee eligibility to take the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nurse Practice Act. Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside

Illinois are advised to check with their state's licensure requirements early in the academic program.

Graduating with Distinction

Students must have a cumulative GPA of at least 3.75 in Master's Entry to Nursing Practice courses to graduate with distinction.

Time Limitation

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.

Legal Limitation for Licensure

Completion of the nursing education program does not guarantee eligibility to take the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nurse Practice Act. Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state's licensure requirements early in the academic program.

Geographic Information Systems Graduate Certificate

Geographic Information Systems (GIS) are now used in fields such as urban planning, environmental monitoring, marketing, business and retail analytics, law enforcement, public health, disaster management, data journalism, and numerous other careers and professional fields.

In the Graduate GIS Certificate, students will learn to make maps, manipulate and query tabular data, work with GPS data, conduct spatial analysis, and propose, define, and implement GIS projects. Courses integrate lectures and hands-on exercises using ArcGIS at one of three specialized computer lab locations on campus.

The Graduate GIS Certificate Program requires 16 credit hours of instruction. It provides a broad education in GIS and serves as a basis for entry-level employment opportunities in the geotechnology industry. Four courses are required to complete the Graduate GIS Certificate:

Course	Title	Quarter Hours
Required		
GEO 441	GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT	4
Select three of the following:		12
GEO 440	PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS	
GEO 442	GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT	
GEO 443	EARTH OBSERVATION II	
GEO 445	PROGRAMMING IN PYTHON FOR GIS	
GEO 446	GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH	
GEO 447	WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB	
GEO 448	SPATIAL DATA SCIENCE	
GEO 491	STATISTICAL DATA ANALYSIS FOR GIS	

For more information, please contact the Department of Geography:
geography@depaul.edu (geography@depaul.edu)

Geographic Information Systems Undergraduate Certificate

Geographic Information Systems (GIS) are now used in fields such as urban planning, environmental monitoring, marketing, business and retail analytics, law enforcement, public health, disaster management, data journalism, among others.

In the GIS Certificate, students will learn to make maps, manipulate and query tabular data, work with GPS data, conduct spatial analysis, and propose, define, and implement GIS projects. Courses integrate lectures and hands-on exercises using ArcGIS at one of three specialized computer lab locations on campus.

The Undergraduate GIS Certificate Program requires 20 credit hours of instruction. It provides a broad education in GIS and serves as a basis for entry-level employment opportunities in the geotechnology industry. Five courses are required to complete the Undergraduate GIS Certificate:

Course	Title	Quarter Hours
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING	4
GEO 242	GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS	4
GEO 243	EARTH OBSERVATION	4
Select two of the following:		8
GEO 343	EARTH OBSERVATION II	4-4.5
GEO 344	GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY	4-4.5
GEO 345	PROGRAMMING IN PYTHON FOR GIS	4-4.5
GEO 346	GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH	4-4.5
GEO 347	WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB	
GEO 348	SPATIAL DATA SCIENCE	4-4.5
GEO 391	STATISTICAL DATA ANALYSIS FOR GIS	

GEO 241 and GEO 242 must be taken in sequence. GEO 241 is a pre-requisite for all 300-level GIS classes. GEO 243 may be taken at any time, but taking GEO 241 first is recommended. Geography majors with a GIS & Geotechnology Concentration will automatically earn the GIS certificate. Other students interested in pursuing the GIS Certificate should contact the Department of Geography (geography@depaul.edu).

In order to earn a certificate in GIS, a student must:

- Earn at least a grade of C- in each Certificate course.
- Earn at least a cumulative GPA of 2.0 for all courses applied to the Certificate.
- Earn a letter grade. The pass / fail option may not be selected for courses in the Certificate.

A student completing a GIS Certificate is eligible to simultaneously complete a Geography minor. No more than three GIS Certificate courses can be applied to a Geography minor. A student wishing to complete a GIS Certificate and a Geography minor will complete a minimum of eight

Geography courses. Please see a faculty advisor in the Department of Geography for further details.

Geography (BA)

Geographers examine the spatial relationships between people, places, environments and economies using innovative conceptual and technological approaches. Exciting technological changes, from computer mapping software like Google Earth, to satellite image processing, and global positioning systems (GPS), make geography a fascinating discipline to study. DePaul's geographers share a commitment to 'hands on' teaching and research that makes a world of difference for the people, places, environments and processes that we study. Geographers apply methods such as observation, visualization, analysis, and modeling to explain the spatial organization of human and physical environments. Geographical perspectives foster skills that have broad applications in public policy, research and the private sector. The Department of Geography teaches students to reason spatially by applying geographic techniques and information technologies, including new technologies such as Geographic Information Systems (GIS). This helps students produce sophisticated understandings of the world, its people, environments, economic structures and cultures.

Geospatial analysis and Geographic Information Systems (GIS) continues to be a rapidly-growing, technologically diverse, multi-billion dollar industry. Geotechnology is consistently identified by the U.S. Bureau of Labor as a "hot" area for job growth and it is estimated that over the next ten years, demand for geospatial analysts will exceed supply. Geography holds a comparative advantage as a discipline that straddles fields in the social, natural, and computer sciences and, as a result, Geography has courses in every DePaul learning domain. This breadth of courses makes Geography the ideal double major at DePaul and the range of classes offered means that geography is an exceptional foundation for a variety of careers that explore questions of spatial organization and require regional knowledge. The study of geography builds a unique spatial perspective that sits at the intersection of "natural" and "social" science, and it addresses both "human" and "physical" domains of knowledge, examining the interactions between them through space.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major (Core + Concentration) Requirements	56
Open Electives	52
Total hours required	192

Learning Outcomes

Students will be able to:

- Use key concepts, theories, and vocabulary to interpret how socio-cultural, political, economic, and/or environmental phenomena may construct a "space," a "place," a "landscape," a "location," or a "region" as a complex material or symbolic structure.
- Use qualitative and/or quantitative methodologies to analyze spatial phenomena, and collect, identify, and apply spatial data from either primary or secondary sources to interpret the spatial character of a physical, socio-cultural, or environment-society problem.
- Interpret spatial patterns of economic inequalities and social injustices and their relation to urban, built, and natural environments.
- Demonstrate competence in one or more of several geospatial technologies (i.e. remote sensing, geographical information systems,

global navigation satellite systems, etc.) and articulate effectively the results of that use in speech, text, image, or map.

- Describe and differentiate processes of globalization and their effects on cities, regions, physical systems, cultures, and political divisions.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High

or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		

LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
GEO 300	GEOGRAPHICAL INQUIRY ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

³ A student whose only major is in Geography is required to complete the Capstone offered by the Department of Geography. A student who is double majoring (or pursuing dual degrees) with Geography as the primary major (or primary degree) may substitute the Capstone of the secondary major or degree. A Geography major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Geography Capstone.

Learning Domains
Arts and Literature (AL) (p. 1322)
• 3 Courses Required

Historical Inquiry (HI) (p. 1326)
• 2 Courses Required

Math and Computing (MC) (p. 1328)
• 1 Course Required
[1 SR Course]

Philosophical Inquiry (PI) (p. 1329)
• 2 Courses Required

Religious Dimensions (RD) (p. 1330)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1332)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)
• 1 Course Required

Notes
Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students

who choose to take an experiential learning course offered by the major may count it either as a general elective or the JYEL requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Core Requirements

Course	Title	Quarter Hours
GEO 101	ENVIRONMENTAL GEOGRAPHY	4
GEO 103	URBANIZATION	4
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING	4
GEO 299	KNOWLEDGE, PLACE AND POWER	4
As part of the Core students must engage in FOUR credit hours of internship (GEO 398) or other practical professional experience, including DePaul CLD courses (https://catalog.depaul.edu/course-descriptions/cld (https://catalog.depaul.edu/course-descriptions/cld/)), or equivalent.		4
Total Hours		20

Concentration Requirements
Students must complete the requirements from one of the following concentrations: Standard; Urban Development and Planning; GIS and Geotechnology; or Environment and Society.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Environment and Society Concentration, Geography (BA) (p. 548)
- GIS and Geotechnology Concentration, Geography (BA) (p. 550)
- Standard Concentration, Geography (BA) (p. 551)
- Urban Development and Planning Concentration, Geography (BA) (p. 552)

Environment and Society Concentration, Geography (BA)
Course Requirements

Concentration Core		
Course	Title	Quarter Hours
Select 7 courses from the following, at least one of which must be at the 300-level:		28
GEO 200	SUSTAINABLE URBAN DEVELOPMENT	
GEO 205	RACE, JUSTICE, AND THE URBAN ENVIRONMENT	
GEO 210	INTERNATIONAL ENVIRONMENTAL CONSERVATION	
GEO 211	BIOGEOGRAPHY	

GEO 215	INTERNATIONAL DEVELOPMENT AND REGIONAL INEQUALITY
GEO 219	WOMEN AND SCIENCE
GEO 220	OCEANOGRAPHY
GEO 225	EARTH'S CHANGING CLIMATE
GEO 260	GLOBALIZATION AND RESOURCES
GEO 269	CULTURAL AND POLITICAL ECOLOGY
GEO 310	GREEN INFRASTRUCTURE
GEO 315	THE STATE AND ECONOMIC GROWTH
GEO 351	GEOGRAPHY, FOOD AND JUSTICE
Any other 300-level Geography course with consent of advisor	

Methods and Techniques (2 courses)

Course	Title	Quarter Hours
GEO 243	EARTH OBSERVATION	4
Select one of the following:		4
GEO 242	GEOGRAPHIC INFORMATION SYSTEMS II: COMMUNITY GIS	
GEO 340	PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS	
GEO 343	EARTH OBSERVATION II	
GEO 344	GEOGRAPHIC INFORMATION SYSTEMS III: SPATIAL ANALYSIS FOR SUSTAINABILITY	
GEO 345	PROGRAMMING IN PYTHON FOR GIS	
GEO 346	GIS ANALYSIS OF ENVIRONMENTAL AND PUBLIC HEALTH	
GEO 347	WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB	
GEO 348	SPATIAL DATA SCIENCE	
GEO 391	STATISTICAL DATA ANALYSIS FOR GIS	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Geography (BA) + Secondary Education Social Science (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework: 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 412	THE NATURE OF HISTORY AND THE SOCIAL SCIENCES	4
TCH 422	INQUIRY & APPLICATION IN DEVELOPING HISTORY AND SOCIAL SCIENCES PEDAGOGY	4

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 3 United States History courses
- 2 Non-United States History courses
- 6 from the geography major
- Additional licensure requirements: (one course in each area required)
 - Economics (ECO 106 recommended)
 - Political Science (PSC 120 recommended)
 - Psychology (PSY 105 recommended)
 - Sociology (SOC 101 recommended)
 - Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1160)
Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Geography 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

GIS and Geotechnology Concentration, Geography (BA)

GEO 348	SPATIAL DATA SCIENCE	
GEO 391	STATISTICAL DATA ANALYSIS FOR GIS	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Geography (Minor)

In the Geography minor program you can explore spatial relationships at the local, regional, national and global scales. From learning how to apply methods such as GIS data visualization and analyses, to urban development and planning, and international environmental, geopolitical

and economic policies and processes, the five course (20 credit hour) Geography minor offers students an introduction to this dynamic and exciting discipline.

Course Requirements

- Any **five** Geography courses, selected with the approval of the student's Geography faculty advisor.

A student completing a Geography minor is eligible to simultaneously complete a GIS Certificate. No more than 2 Geography minor courses can be applied to a GIS Certificate. A student wishing to complete a Geography minor and a GIS Certificate will complete a minimum of 8 Geography courses. Please see a faculty advisor in the Department of Geography for further details.

German (BA)

The German Program at DePaul offers students an extensive background in German and Austrian culture, language, and literature, and prepares them to think and work in an increasingly globalized world. German is the most widely spoken first language in the European Union, and German-speaking countries are among the most influential engines driving culture, business, and politics today. The German-speaking world is rich and multifaceted – these are the cultures of Mozart, Goethe, Freud, Kafka, and Marx – and the study of German also explores the crucial questions of memory and history particular to the German past. A degree in German from DePaul offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Several of our German students have been awarded prestigious grants and scholarships, including multiple Fulbright grants and Congress-Bundestag Youth Exchange scholarships. Our graduates have gone on to pursue careers in government, business, the public humanities, scientific research, and education, both in the US and abroad, while others have enrolled in prestigious graduate programs in the humanities, medicine, and law.

The courses in DePaul's German program give students the opportunity to attain advanced language proficiency while studying all aspects of German literature and culture. Topics of our regular GER course offerings include:

- Language and Culture
- Film
- History and Politics
- Business
- Art and Music
- Literature
- Current Events
- Translation
- Creative Writing

Students expand upon the fundamental skills learned in the German core by choosing one of three concentrations: German Studies, German Language and Literature, or Commercial German. Many German students pair German with another major, and several courses from these double majors can potentially be double-counted with the concentrations in the German major.

The German Program offers its students two study abroad options: a long-term study abroad program to Vienna, and a short-term, human rights-oriented program in Berlin. German students are encouraged to

participate in one of these programs, both in order to grow linguistically and also to expand their cultural understanding of the German-speaking world and culture today. The German Program also has its own chapter of the German Honorary Society Delta Phi Alpha and is affiliated with the student-led organization DePaul Deutsch Club.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	48
Open Electives	60
Total hours required	192

Learning Outcomes

Students will be able to:

- Communicate in German at the Advanced Low proficiency level.
- Analyze cultural products in German and English.
- Explain features of German and its use.
- Navigate cultural differences effectively.
- Apply their language and cross-cultural skills to other domains.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO

LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
Required ¹		4

¹ Students must earn a C- or better in this course.
² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1322)
• 1 Course Required

Historical Inquiry (HI) (p. 1326)
• 2 Courses Required

Math and Computing (MC) (p. 1328)

Scientific Inquiry (SI) (p. 1332)
• 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)
• 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Majors in German must complete a total of 12 courses (48 quarter hours), comprised of an 8-course core at the Intermediate and Advanced levels and a 4-course concentration in "German Studies," "German Language and Literature," or "Commercial German."

Core Requirements

Course	Title	Quarter Hours
GER 105	INTERMEDIATE GERMAN II	4
GER 106	INTERMEDIATE GERMAN III	4
Six 300-level GER electives		24

GER 395	FOREIGN LANGUAGES ACROSS THE CURRICULUM
GER 397	SPECIAL TOPICS IN GERMAN
GER 398	STUDY ABROAD
GER 399	INDEPENDENT STUDY

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. Majors in German should select these courses in consultation with the German Program Director and Modern Languages Staff Advisor. Students can use their open electives to pursue a double major or one or more minors.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Commercial German Concentration, German (BA) (p. 555)
- German Language and Literature Concentration, German (BA) (p. 556)
- German Studies Concentration, German (BA) (p. 557)

In addition to the German core courses, German majors must choose one of these three concentrations. Each of these concentrations allows German majors to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that could be applied toward the respective concentrations. Students are encouraged to meet with the German Program Director and the MOL staff advisor upon declaration of

the major and concentration in order to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations below with consultation/permission of the German Program Director.

Commercial German Concentration, German (BA)

Students choosing the Commercial German concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (GER 320 and MGT 300) integrate students' knowledge across disciplines, and the two additional electives in the concentration (chosen from the list of MGT courses below) allow them to further explore their area of interest in business management.

After declaring the German major with the Commercial concentration, students should meet with the German Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses (when possible) in order to efficiently achieve their postgraduate career goals.

Course Requirements (8 quarter hours)

Course	Title	Quarter Hours
GER 320	ADVANCED COMMERCIAL GERMAN	4
MGT 300	PRINCIPLES OF MANAGEMENT	4

Electives (8 quarter hours)

Course	Title	Quarter Hours
MGT 302	ORGANIZATIONAL BEHAVIOR	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 357	INTERNATIONAL BUSINESS	
MGT 360	LEADERSHIP	
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING	
MGT 373	CREATIVITY & ENTREPRENEURSHIP	

MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, and MGT 373.

German 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger

merit scholarships. College of Law students are not eligible for the Double Demon discount.

German Language and Literature Concentration, German (BA)

Students choosing the Language and Literature concentration will likely fall into one of two categories:

- Students who choose to complete a majority, if not all, of their coursework in the German language and through German program offerings (i.e. courses with the “GER” designation), which are largely culture-, literature-, history-, and film-oriented.
- Students who have an academic or professional interest in the structures and mechanics of language, along with questions of second language acquisition and cognition. The “Language” part of this concentration allows students to take elective courses in Linguistics and/or Second Language Acquisition from departments and programs around the university.

After declaring the German major with the Language and Literature concentration, students should meet with the German Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.

Electives (16 quarter hours)

One additional GER 300-level elective - choose from GER 330, 331, 332, or 321

and

3 courses from MOL, GER, or affiliated departments, from the list below.

German Studies Concentration, German (BA)

Students who choose the German Studies concentration will have tremendous flexibility in building their own cluster of courses to align with a particular facet of German, based on their academic interests or intended career path. In the case of double majors, the German Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors. Students with German as a secondary major may also be able to double-count their Studies concentration courses with courses taken for the learning domains.

After declaring the German major with the Studies concentration, students should meet with the German Program Director to discuss ideas and options for crafting a tailor-made German Studies concentration that best fits their college and post-graduate goals.

Electives (16 quarter hours)

One additional GER 300-level elective - choose from GER 330, 331, 332, or 321 and

3 courses from MOL, GER, or affiliated departments, from the list below.
No more than two of the four courses shall be taken in the same department unless German Program Director permission is secured.

Course	Title	Quarter Hours
Select 4 courses from the following:		16

German (MA)

The MA program in German provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the "global village" of today's world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in German may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the

certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- German + Digital Humanities Certificate
- German + Teaching English to Speakers of Other Languages (TESOL) Certificate
- German + Translation and Interpreting Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in German consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three required courses (12 quarter credit hours), and
2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student's program (i.e. courses with prefixes GER). In exceptional cases, with the approval of the student's advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine "language area" courses in the student's program.

Core Curriculum

The core curriculum consists of the following three courses:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

In addition, all 300-level language courses are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

Additional Requirements

Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate High" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees “with distinction” if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

German (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + German (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate High") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability. The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

- 1) 12-quarter hour credits of required courses:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

German (Minor)

The German minor at DePaul University provides students with a linguistic and cultural background, develops their creative and critical thinking skills, and helps to prepare them for citizenship in a multilingual world.

The minor consists of a total of 5 courses in German language: GER 105, GER 106, and three 300-level electives. Courses taught in English (GER 272E, GER 274E, GER 277E, GER 278E) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in German (BA) or minoring in German Studies are restricted from earning this minor.

German Studies (Minor)

The German Studies minor offers a basic proficiency in the German language along with a more in-depth exploration of the cultural landscape and history of German-speaking nations.

Course Requirements

- Three quarters of college-level German language (at any level).
- HST 222
- Four additional courses associated with the German-speaking world, chosen in consultation with the German Program Advisor from the list of German Studies Allied Courses below. Please note that while this list of courses is extensive, it is not exhaustive. Other courses not listed here could also be included in the German Studies minor after approval by the German Program Director.

Global Educational Leadership Online (PhD)

The Doctor of Philosophy of Education (PhD) in Global Educational Leadership is a fully online doctoral program that engages educators in examining global leadership and global education from social justice and critical democracy perspectives. Students engage in rigorous inquiry and analysis of the globalization of policy, pedagogy, and practice in different contexts. The Global Educational Leadership PhD terminates in a comprehensive dissertation of original research.

The Doctor of Philosophy (PhD) in Global Educational leadership consists of three concentrations: Standard, International Baccalaureate (IB) Leadership Practices, and Global Catholic Educational Leadership. These three concentrations support candidates working in a variety of environments. The Standard Concentration provides candidates preparation to engage in leadership positions within any educational context. The IB concentration offers candidates the opportunity to earn the International Baccalaureate Leadership Practices Education Certificate from the International Baccalaureate Organization along with the PhD degree. Candidates in this program are then equipped

to lead IB schools or organizations. Candidates in the Global Catholic concentration are equipped to lead within Catholic organizations across the globe.

The program's schedule allows students to attend full-time or part-time. Graduates of the program may wish to enter into a new career or strengthen their knowledgebase for their current position. Career options may include leadership positions in PK-12 or related fields in education agencies, faculty positions in higher education, leaders in Catholic educational organizations, International Baccalaureate organizations, or other educational institutions.

Concentrations

Standard

The Global Educational Leadership Standard Concentration provides theoretical and practical knowledge in global education leadership, informed by theory and the experience of successful school leaders. This program engages students in rigorous study of practices of leadership within educational or other cultural organizations that have an international dimension as students work toward a dissertation of original research.

International Baccalaureate Leadership Practices

The Global Educational leadership with a focus on International Baccalaureate leadership provides a focus on leadership within the context of International Baccalaureate schools as students work toward a dissertation of original research. This program of study includes coursework meeting the requirements of IB leadership practices from the International Baccalaureate Organization (IBO).

Global Catholic Educational Leadership

The Global Catholic Educational Leadership concentration provides students a focus on Catholic context of global educational leadership as they work toward a dissertation of original research. Candidates in the Global Catholic Leadership concentration will be prepared for leadership in Catholic educational institutions at all levels, grounded in the philosophy and theology of Catholic education and the research needed to be an agent of transformation in a Catholic educational.

Program Requirements	Quarter Hours
Degree Requirements	80
Total hours required	80

Standard Concentration

Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
- Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
- Demonstrate the ability to design and conduct original research in their chosen fields of concentration.

- Apply a rich knowledge base to analyze global leadership practices with a focus on global minded education.
- Engage in critical study and discourse of global educational policy and practices.

Catholic Concentration

Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
- Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
- Demonstrate the ability to design and conduct original research in their chosen fields of concentration.
- Understand and apply Catholic social teachings within the context of leadership practices from a global lens
- Expand perspective and take action as an ally and activist for Catholic educational reform and social justice.

International Baccalaureate Leadership

Students will be able to:

- Facilitate, develop, and implement a shared notion of learning and curriculum from input of all stakeholders.
- Identify, understand, and apply relevant theory to create a professional learning community of growth for all stakeholders.
- Understand, utilize, and assess processes and policies for procedures with respect to efficient operations and management.
- Identify, understand, and apply legal standards to prevent, mitigate, and redress harm to all stakeholders.
- Understand, implement, and evaluate all practices to ensure success of all students through integrity and fairness.
- Demonstrate the ability to design and conduct original research in their chosen fields of concentration.
- Apply the practices and principles to serve as leader within an IB school
- Demonstrate the habits of mind and leadership which are the foundation of the IB school
- Engage in research and analysis of current contexts of International Baccalaureate educational practices.

College Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

PhD Degree Requirements

Specific degree requirements are determined according to the concentration chosen by the student. Doctorate of Philosophy (PhD) concentrations are available in Standard Concentration, International Baccalaureate, and Global Catholic.

Please review the concentration requirements pages for more information.

Please note: a dissertation of original research is completed for all Global Educational Leadership PhD concentrations in conjunction with faculty advisement. Preparation for the writing of the dissertation includes a Candidacy Paper and Dissertation Proposal. Oral examination for Candidacy, Dissertation Proposal and Dissertation are required. Consult the Doctoral Program Handbook for additional information.

Academic Standards

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements and major requirements, students are required to choose one of the following:

- Global Catholic Educational Leadership, Global Educational Leadership (PhD) (p. 563)
- Global Educational Leadership with International Baccalaureate, Global Educational Leadership (PhD) (p. 564)
- Global Educational Leadership, Global Educational Leadership (PhD) (p. 565)

Global Catholic Educational Leadership, Global Educational Leadership (PhD)

Degree Requirements

Students must maintain an overall GPA of 3.0 prior to the completion of 36 credit hours and 3.3 after the completion of 36 credit hours. Students are allowed no more than two grades of "C." Upon receiving a third grade of "C," students must retake the class in which the grade was received. Grades of "D" and "F" require that the course be retaken.

Global Fluency Certificate

DePaul University provides a wide array of opportunities for students to be exposed to global, international, intercultural issues, through curricular and co-curricular offerings. The Global Fluency Certificate is offered to officially recognize undergraduate students who elect to pursue a global emphasis in their studies. Any undergraduate student is eligible to obtain the Global Fluency Certificate, which will be recorded on transcripts, if they satisfy ALL of the requirements below:

1. Language Proficiency: Proficiency (beginning) in a language other than English that can be satisfied by successfully completing with a C or better language courses up to 103 (i.e. one year of a foreign

language) or by taking an assessment test, administered by the Modern Languages Department.

2. Completion of one global experiential component among:
 - a. Study abroad
 - b. Global Learning Experience (GLE)
 - c. International Campus Ministry service trip
 - d. Global Brigades trip
 - e. International Internship
3. Successful completion of 4 globally themed courses: At least 4 (four) GL tagged courses, excluding those that satisfy either 1 or 2, with at least 2 (two) that do not count toward requirements of the student's major (outside of the Liberal Studies Program). These courses are identified in the Class Search and Enroll function in Campus Connect.
4. Overall GPA of 2.67 or better.

A student wishing to complete the Global Fluency Certificate should apply using the following webform (<https://offices.depaul.edu/university-registrar/about/Pages/Global-Fluency-Certificate-Application.aspx>). For more information, please contact globalfluency@depaul.edu.

Global Health Certificate

The Certificate in Global Health prepares professionals to work collaboratively with communities to prioritize and investigate health concerns to achieve lasting social change, and foster health equity to promote the health and well-being of populations in diverse global contexts. The four-course certificate trains students in key aspects of global health, using a multidisciplinary approach to analyze the underlying determinants of health, the relationship between public health and development, and public health practice.

Course Requirements

Required Courses (3 Courses, 12 Credit Hours)

Course	Title	Quarter Hours
MPH 502	INTRODUCTION TO EPIDEMIOLOGY	4
MPH 551	GLOBAL HEALTH INEQUITIES	4
MPH 554	GLOBAL PUBLIC HEALTH PRACTICE	4

Elective Course (1 Course, 4 Credit Hours)

Course	Title	Quarter Hours
Select one of the following:		4
MPH 515	PUBLIC HEALTH ETHICS AND POLICY	
MPH 552	MATERNAL AND CHILD HEALTH	
MPH 553	PUBLIC HEALTH AND FORCED MIGRATION	
MPH 556	WOMEN'S HEALTH	
MPH 595	SPECIAL TOPICS IN PUBLIC HEALTH	
MPH 599	INDEPENDENT STUDY IN PUBLIC HEALTH	

Admission Requirements

Applications are accepted at any time, and students may begin the program at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's

degree. To apply to the program, prospective students must submit the following materials:

- An LAS graduate admission on-line application [application fee is waived for current DePaul students]
- Transcripts from all schools attended
- A personal statement of 300-500 words describing their professional interests and goals in the certificate

Governance, Risk Management, and Compliance Post-Master's Certificate

This post-master's certificates provide opportunities for master's degree holders to sharpen their skills. Students who earned their master's degree from DePaul CDM automatically qualify for a scholarship.

Course	Title	Quarter Hours
IS 444	IT AUDITING	4
CSEC 440	INFORMATION SECURITY MANAGEMENT (FORMERLY CNS 440)	4
CSEC 533	ENTERPRISE SECURITY INFRASTRUCTURE CONTROLS AND REGULATORY COMPLIANCE (FORMERLY CNS 533)	4
IS 505	BUSINESS CONTINUITY/DISASTER RECOVERY THEORIES AND STRATEGIES	4
IS 506	BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS	4

A student in a certificate program may not use a course already taken as part of an MS program. In particular, students with a MS from CDM may not reuse, for certificate credit, any course already taken for the MS. A faculty advisor can make an appropriate substitution. A student in a certificate program may substitute a maximum of two courses.

A student must earn at least B- in each of the five courses and earn a cumulative GPA of at least 3.0 to receive the certificate.

Admission Requirements

Applicants must hold a master's degree in any IT field or business subject or a master's degree in any subject plus three or more years of IT experience. Applicants must submit transcripts from their master's degree and a resume for consideration. Choose non-degree seeking programs on the DePaul Application.

Double Demon Scholarship

Any newly admitted student who has graduated from DePaul (has a degree conferred—bachelor's, master's or doctorate) will be eligible to receive a Double Demon Scholarship, as a 25% automatic discount, for any GRADUATE coursework they take after the degree is conferred. This includes degree coursework, certificate coursework and non-degree coursework. It does not include coursework from the Center for Professional Education (CPE), Institute for Professional Development (IPD), coursework in a doctoral program or a master of fine arts (MFA), Music, Theatre, Law and a few other select programs. The Double Demon Scholarship cannot be used in conjunction with any other institutional aid or discount.

Governance, Risk Management, and Compliance Post-Master's Certificate Online

This post-master's certificates provide opportunities for master's degree holders to sharpen their skills. Students who earned their master's degree from DePaul CDM automatically qualify for a scholarship.

Course	Title	Quarter Hours

IS 506	BUSINESS CONTINUITY/DISASTER RECOVERY MANAGEMENT AND TACTICS	4

A student in a certificate program may not use a course already taken as part of an MS program. In particular, students with a MS from CDM may not reuse, for certificate credit, any course already taken for the MS. A faculty advisor can make an appropriate substitution. A student in a certificate program may substitute a maximum of two courses.

A student must earn at least B- in each of the five courses and earn a cumulative GPA of at least 3.0 to receive the certificate.

Graphic Art (Minor)

The Graphic Art minor is designed to develop artistic skills and abilities in primarily two-dimensional media. It focuses on an intersection of art and design in the following areas: photography, drawing, printmaking, text, digital imaging, web art, the graphic novel, and the artist book and poster. Six courses are required.

Course Requirements

Course	Title	Quarter Hours
Select one of the following:		4
ART 101	DIGITAL FOUNDATIONS	
ART 105	TWO-DIMENSIONAL FOUNDATIONS	
ART 106	BEGINNING DRAWING	
Select any two of the following:		8
ART 200	ART & ARTISTS IN CONTEMPORARY CULTURE	
or ART 104	CREATING ART	
or ART 220	THINKING PHOTOGRAPHY	
ART 224	BEGINNING DIGITAL PHOTOGRAPHY	
or ART 225	BEGINNING PHOTOGRAPHY	
ART 229	BEGINNING PRINTMAKING	
or ART 206	INTERMEDIATE DRAWING	
Select any three of the following:		12
ART 204	VISUAL COMMUNICATION	

	or ART 227	DIGITAL ART
	or ART 360	ILLUSTRATION
ART 260	INTERMEDIA STUDIO	
ART 264	TEXT IN THE VISUAL ARTS	
ART 292	COMMUNITY VIDEO PRODUCTION	
	or ART 382	STUDENTS TEACHING ART IN THE ELEMENTARY CLASSROOM
	or ART 383	SERVICE LEARNING IN THE ARTS INTERNSHIP
ART 321	INTERMEDIATE DIGITAL PHOTOGRAPHY	
	or ART 323	INTERMEDIATE PHOTOGRAPHY
ART 324	INTERMEDIATE PRINTMAKING	
	or ART 218	FIGURE DRAWING
	or ART 226	VIDEO ART
ART 332	TOPICS IN PHOTOGRAPHIC PRACTICE	
	or ART 209	DRAWING SPECIAL TOPICS
	or ART 395	SPECIAL TOPICS IN ART
ART 334	PORTFOLIO	
	or ART 393	SENIOR PROJECT STUDIO
	or ART 394	PROFESSIONAL PRACTICE IN THE STUDIO
ART 348	GRAPHIC ART IN THE PUBLIC REALM	
ART 358	GRAPHIC ART	
ART 359	PRINT MEDIA	
ART 385	WEB ART & DESIGN I	

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

Graphic Design (BFA)

Graphic design integrates a range of media and technologies—from web, interaction, and coding to typography, illustration, branding, and packaging—to communicate to diverse audiences. Students engage with both theory and practice, and develop skills to research, concept, prototype, design and document their work.

Program Requirements	Quarter Hours
Liberal Studies Requirements	52
Major Requirements	140
Open Electives	16
Total hours required	208

Learning Outcomes

Students will be able to:

- Address social, ethical, and user-centered concerns related to visual communication.
- Generate a design portfolio blending typography with graphic imagery that demonstrates technical skill, conceptual strategy, and aesthetic direction.
- Engage in graphic design discourse and critique, referencing graphic design history and theory.
- Use research, inquiry, and iteration to organize and transform complex visual information across a range of visual and interactive platforms.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.
² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.
³ GD 380 recommended.

Learning Domains

Arts and Literature (AL) (p. 1322)
• 2 Courses Required

Historical Inquiry (HI) (p. 1326)
• 1 Course Required

Math and Computing (MC) (p. 1328)
• Not Required

Philosophical Inquiry (PI) (p. 1329)
• 1 Course Required

Religious Dimensions (RD) (p. 1330)
• 1 Course Required

Scientific Inquiry (SI) (p. 1332)
• 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)
• 1 Course Required

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

Select 28 Major Elective Credits ¹		28

¹ Students must complete 28 Major Elective credit hours from any undergraduate courses in CDM or the College of Business, or from PRAD in the College of Communication. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 208 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 208 credit hours (generally 54 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Graphic Design (Minor)

DePaul's minor in Graphic Design provides a foundation in both traditional and computer-based forms of graphic design with a balanced focus on conceptual, creative and technical skills.

MPH 513	PUBLIC HEALTH ADMINISTRATION ³

¹ MPS 531 is recommended for students not pursuing an MPH degree.
MPH 513 is recommended for students pursuing the MPH degree.

² If not taken as required course.

³ If not taken as required course.

Health Communication (MA)

The MA in Health Communication prepares students to apply knowledge of communication in health care settings. The program includes critical and theoretical courses as well as highly applied courses in a range of health communication topics including cultural awareness and health disparities, healthcare systems and policy, training and development, provider communication, and health education and promotion.

Graduates of the program will:

- Recognize health care disparities
- Identify the social and multicultural dimensions of health care delivery
- Describe the relationship between effective communication and the quality of care that patients receive
- Enhance health literacy across diverse audiences
- Design and deliver health communication campaigns that provide knowledge to individuals hoping to understand contemporary health care issues
- Implement and evaluate health service delivery programs

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Apply theory in order to address problems or make improvements to communication in the health care environment.
- Critique current health communication practices as they impact health across the population, including contributing to health disparities.
- Create messages that demonstrate effective application of communication principles in the health care environment.

- Interpret and synthesize current health communication research published in scholarly journals.

Degree Requirements

Course Requirements

The Master of Arts in Health Communication requires 12 courses (48-credit hours) — three core courses, one methods course, five Health Communication electives, and three graduate electives inside or outside the program.

Core Courses

Students are required to take all of the following:

Course	Title	Quarter Hours
CMNS 500	FOUNDATIONS IN GRADUATE COMMUNICATION STUDIES	4
HTHC 515	INTRO TO HEALTH COMMUNICATION	4
HTHC 517	COMMUNICATION, HEALTH DISPARITIES, AND CULTURE	4

Methods Requirement

Course	Title	Quarter Hours
HTHC 516	RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS	4

Elective Courses

Course	Title	Quarter Hours
Select eight courses from the following list: ¹		32
HTHC 519	ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS	
HTHC 521	HEALTH AND FAMILY COMMUNICATION	
HTHC 523	TOPICS IN HEALTH COMMUNICATION	
HTHC 524	HEALTH CARE TEAMS & LEADERSHIP	
HTHC 525	NARRATIVES IN HEALTH CARE	
HTHC 526	SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS	
PRAD 515	WRITING FOR A COMMUNICATION CAREER	
PRAD 536	ADVERTISING AND HEALTH CAMPAIGNS	
PRAD 540	CRISIS COMMUNICATION MANAGEMENT	
PRAD 594	COMMUNICATION CAMPAIGNS FOR SOCIAL CHANGE	
CMN 591	INTERNSHIP	
CMN 592	INDEPENDENT STUDY	
CMN 593	RESEARCH PRACTICUM	
CMN 598	STUDY ABROAD	
CMNS 590	COMMUNICATION WORKSHOP (VARIABLE TOPICS)	

¹ With approval of the graduate program director, students can take up to three relevant elective courses from other College of Communication graduate programs or relevant elective courses from other graduate departments/programs outside of the College of Communication.

Comprehensive Final Examination

Students in the Master of Arts in Health Communication complete their degree requirements by passing a comprehensive final examination.

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses

Students are required to take three courses (12 credits) from the following list:

Course	Title	Quarter Hours
CMNS 509	SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION ¹	
CMNS 542	MULTICULTURAL COMMUNICATION IN THE WORKPLACE	
JOUR 515	SPECIAL TOPICS IN JOURNALISM ¹	
MCS 521	TOPICS IN CINEMA STUDIES ¹	
MCS 533	LATIN AMERICAN CINEMA/MEDIA	
PRAD 511	CONSUMER INSIGHTS	
PRAD 512	ENGAGING LATINX COMMUNITIES	
PRAD 514	CONTEMPORARY ISSUES IN PUBLIC RELATIONS AND ADVERTISING ¹	
PRAD 595	SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING ¹	
CMN 591	INTERNSHIP ¹	
CMN 598	STUDY ABROAD ¹	

¹ Topic must be related to Latino Media and Communication.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student's cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student's cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Health Communication (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates.

These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Health Communication (MA)

The Health Communication (MA) combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor's program and the Master of Arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0 GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Example Schedule for Students in the Combined Degree Program

Course	Title	Hours

Spring Quarter	
Take three courses	12

Double Demon Scholarship

Alumni from any of DePaul's colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. *Combined degree program students are eligible.*

This scholarship covers 25% of the tuition for a master's degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

Health Communication Certificate

The graduate certificate in Health Communication provides communication education for professionals in the healthcare field and health industry education for communication professionals. The six-course (24 credit hour) certificate will prepare students to work alongside clinicians and public health officials to improve the quality and effectiveness of communication in health care settings.

Course Requirements

Course	Title	Quarter Hours
HTHC 515	INTRO TO HEALTH COMMUNICATION	4
Select five of the following:		20
HTHC 516	RESEARCH METHODS FOR HEALTH CARE PRACTITIONERS	
HTHC 517	COMMUNICATION, HEALTH DISPARITIES, AND CULTURE	
HTHC 519	ASSESSMENT AND INTERVENTION FOR HEALTH CARE ADMINISTRATORS	
HTHC 521	HEALTH AND FAMILY COMMUNICATION	
HTHC 523	TOPICS IN HEALTH COMMUNICATION	
HTHC 524	HEALTH CARE TEAMS & LEADERSHIP	
HTHC 525	NARRATIVES IN HEALTH CARE	
HTHC 526	SOCIAL CONSTRUCTION OF HEALTH AND ILLNESS	
PRAD 536	ADVERTISING AND HEALTH CAMPAIGNS	
PRAD 594	COMMUNICATION CAMPAIGNS FOR SOCIAL CHANGE	
CMN 591	INTERNSHIP	

With approval of the graduate program director, students can take up to two relevant elective courses from other College of Communication graduate programs. Course examples include:

Course	Title	Quarter Hours
PRAD 515	WRITING FOR A COMMUNICATION CAREER	
PRAD 540	CRISIS COMMUNICATION MANAGEMENT	

PRAD 595	SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING
CMNS 548	TEAMS, DIVERSITY AND LEADERSHIP
CMNS 552	RELATIONSHIPS AND INFLUENCE IN THE WORKPLACE
JOUR 507	VISUAL COMMUNICATION
JOUR 522	MULTI-PLATFORM NEWS EDITING
JOUR 532	THE PRESS AND THE PRESIDENCY
JOUR 542	SOCIAL MEDIA AND THE NEWS

This graduate certificate program is approved as a Gainful Employment Program through the U.S. Department of Education and is, therefore, eligible for Federal Student Aid.

Health Informatics (MS)

Program Requirements	Quarter Hours
Introductory Courses	4
Degree Requirements	48
Total Hours Required	48-52

The master's degree program will provide students with the necessary skills and knowledge needed to implement and support information technology solutions for health sector organizations. Graduates will obtain technical knowledge and management skills for the design and support of IT systems and will develop a deep understanding of health IT processes to support health care delivery management. Graduates will also gain knowledge in areas of health information management including health information processing and exchange, health care analytics, enterprise management and information storage and security management.

Learning Outcomes

Students will be able to:

- Identify and analyze elements of a sociotechnical health system.
- Define and evaluate the quality and effectiveness of a health informatics technology.
- Accurately identify and analyze elements of the U.S. health care financial system.
- Conduct a systems analysis for a healthcare problem.
- Identify errors that affect patient safety and develop solutions to promote safer systems.
- Identify features of a functioning health information exchange.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Course	Title	Quarter Hours
IT 403	STATISTICS AND DATA ANALYSIS	4

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Foundation Courses

Course	Title	Quarter Hours
HIT 421	HEALTH INFORMATICS	4
MGT 559	HEALTH SECTOR MANAGEMENT	4
HIT 451	ACCOUNTING AND FINANCIAL MANAGEMENT IN HEALTHCARE	4
IS 421	SYSTEMS ANALYSIS AND DESIGN	4
IS 451	DATABASE DESIGN FOR INFORMATION SYSTEMS (FORMERLY CSC 451)	4
HIT 422	SYSTEM DESIGN FOR HEALTH CARE	4
HIT 440	HEALTH INFORMATION EXCHANGE AND NETWORKING	4

Major Elective Courses

Students must take 20 credit hours of Major Elective courses selected among a list of selected areas below. There is no restriction on the number of areas from which electives may be selected. Students may choose to take the Major Elective courses from a single area or from multiple areas, depending on their career interests.

Database Processing

Course	Title	Quarter Hours

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.

- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Health Informatics (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates.

These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Health Informatics (MS)

The Health Informatics (MS) combined degree program is open to all undergraduate majors across the university.

Students who are interested in this program and meet the following criteria

- Sophomore status (at least 44 quarter hours earned)
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (<https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx>) for that program
- Faculty endorsement from a CDM full-time faculty member

Student should discuss their interest in this combined degree program with a CDM Health Informatics faculty advisor prior to submitting the application for admission.

If accepted, a student can take up to three graduate courses (12 credits). These three courses count towards both the bachelor's program and the Master of Science degree. Students will pay the current undergraduate tuition rate for these three courses.

Maintaining Good Standing

- Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter
- The student and Faculty Advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course

- If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional BA/BS.
- Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 13 new graduate courses to earn a master's degree.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

Registering for Master's Degree Courses

The student's advisor must complete the BS/MS Request form, under the Faculty tab on the CDM Intranet, to request the student's enrollment in the three graduate courses. The form will require the following data: student's full name, graduate course and section, and the undergraduate course to be substituted for. The CDM dean's office will process the enrollment.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements (<http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx>). Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

Double Demon Scholarship

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master's degree or select certificate programs. Combined degree program students are eligible.

Alumni from any of DePaul's colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master's degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

Health Informatics (MS) Online

Program Requirements	Quarter Hours
Introductory Courses	4
Degree Requirements	48
Total hours required	48-52

Learning Outcomes

- Identify and analyze elements of a sociotechnical health system.
- Define and evaluate the quality and effectiveness of a health informatics technology.
- Accurately identify and analyze elements of the U.S. health care financial system.
- Conduct a systems analysis for a healthcare problem.
- Identify errors that affect patient safety and develop solutions to promote safer systems.
- Identify features of a functioning health information exchange.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Course	Title	Quarter Hours
IT 403	STATISTICS AND DATA ANALYSIS	4

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies, see the DePaul Graduate Handbook.

Health Law (LLM)

Established in 1986, DePaul's LLM in Health Law is considered one of the most competitive programs in the nation. Guided by outstanding full-time faculty and leading attorneys, the health law curriculum evolves as health care law and technology change, addressing the demand for lawyers with specialized credentials in this field. You may also earn course credit while gaining valuable practice experience through field placements. Additionally, you may participate in programs conducted by the Mary and Michael Jaharis Health Law Institute.

Program Requirements	Semester Hours
Core Requirements	3
Elective Requirements	21
Total hours required	24

Learning Outcomes

- Domestic students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Domestic students will be able to conduct advanced legal research and analysis in the student's area of specialization.
- International students will be able to identify structures of the U.S. legal system and government institutions.
- International students will be able to demonstrating understanding of how a common law system operates in a constitutional democracy.
- International students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- International students will be able to identify and apply relevant legal authority.
- International students will be able to communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul's faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Health Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LLM program, credits earned as part of the JD program do not count toward the LLM degree. No credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Courses must be selected from the LLM in Health Law courses listed below. Students wishing to substitute a course must speak with their advisor.

Course Requirements

Required Courses

Choose one from the list below:

Course	Title	Semester Hours
LAW 250	SENIOR RESEARCH SEMINAR (Topic must be health care law related)	3
LAW 428	INDEPENDENT STUDY	3
LAW 715	MASTERS ESSAY	3-6

Health Sciences (BS)

The mission of DePaul University's Department of Health Sciences is to educate and train students who will collaboratively address human health

from interdisciplinary natural and social scientific perspectives in order to promote health and to improve the lives of individuals and communities.

The Health Sciences major offers concentrations in 'BioScience' and 'Public Health Sciences' that enable future health care and public health professionals to engage in cross-disciplinary conversations. Students interested in many health-related professions take a common set of core courses and then choose from a variety of electives as their interests grow and evolve. The flexibility of this major allows students to meet the requirements for entry into a wide range of graduate and professional programs.

Program Requirements	Quarter Hours
Liberal Studies requirements	64-80
Major Core requirements	20
Major Concentration requirements	44-64
Major Concentration electives	0-8
Open electives	32-48
Total hours required	192

Learning Outcomes

Upon completing the Health Sciences degree, students will be able to:

- Evaluate scientific research and evidence-based approaches to human health on an individual and population level.
- Identify the core concepts and principles of public health and explain how they promote health and prevention of disease.
- Explain the foundational biological principles related to human health.
- Identify and analyze ethical issues in research, health, and public health.
- Explain how social determinants influence an individual's health and create health disparities.
- Demonstrate effective communication skills and work collaboratively with individuals of varied perspectives.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language

- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required for Bioscience Concentration		
MAT 120	QUANTITATIVE REASONING ²	4

Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4

Junior Year**Experiential Learning**Required ³ 4**Senior Year****Capstone**Required ¹ 4¹ Students must earn a C- or better in this course.² (for Public Health Studies Only) Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.³ Students taking the Public Health Studies - Combined Occupational Therapy (MS) concentration must complete this requirement by taking OT 412 and OT 422.**Learning Domains****Arts and Literature (AL) (p. 1322)**

- 3 Courses Required
(See notes below)

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 1 Course Required (Not Required for Bioscience Concentration)
[1 CR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required
(See notes below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required
(See notes below)

Scientific Inquiry (SI) (p. 1332)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required
(See notes below)

Notes

Students must complete one approved health ethics course: REL 229 (RD) or PHL 229 (PI) within their liberal studies program or a track elective in the major, HLTH 229.

Students taking the Public Health Studies - Combined Occupational Therapy (MS) concentration have a one course reduction in the Arts and Literature (AL), Philosophical Inquiry (PI), and Social, Cultural and Behavioral Inquiry (SCBI) domains.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Students double majoring or pursuing dual degrees with the primary

major or primary degree in Health Sciences are required to complete the Capstone offered by the Health Sciences department. Health Sciences students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Core Course Requirements**

Course	Title	Quarter Hours
HLTH 200	FOUNDATIONS OF HEALTH SCIENCES	4
HLTH 210	INTRODUCTION TO PUBLIC HEALTH (not required for some Accelerated Program concentrations)	4
HLTH 250	HEALTH CARE POLICY IN THE UNITED STATES	4
HLTH 350	HEALTH SCIENCES CAPSTONE	4
BIO 191	GENERAL BIOLOGY I FOR SCIENCE MAJORS	4

All majors will also complete one approved health ethics course, which can apply to the Religious Dimensions or Philosophical Inquiry learning domains (REL 229 or PHL 229) within their liberal studies program, or to their track electives in the major (HLTH 229).

Concentration Requirements

Students must select a concentration within the major and complete the requirements. A maximum of one concentration may be selected. Health Sciences concentrations include: BioScience and Public Health Sciences.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Concentration Requirements

Concentrations provide an opportunity for students to narrow the focus of their major. In addition to the college core requirements, liberal studies requirements and major requirements, student are required to choose one of the following concentrations.

- BioScience Concentration - Accelerated Program, Health Sciences (BS) (p. 580)
- BioScience Concentration, Health Sciences (BS) (p. 582)
- Public Health Sciences Concentration, Health Sciences (BS) (p. 585)

- Public Health Studies Concentration - Occupational Therapy Combined, Health Sciences (BS) (p. 586)

BioScience Concentration - Accelerated Program, Health Sciences (BS)

The Accelerated Program is only for qualified Pathways Honors students who are majoring in the Health Sciences with a BioScience concentration, and who have been accepted into an accelerated 3+ College of Science and Health pre-professional program. In order to pursue one of the pre-professional Accelerated Programs, a student must coordinate carefully with the Pre-Health Advisor and Pre-Health Advising Committee's (PAC) Accelerated Program advisor (email CSHPreHealth@depaul.edu for information). Once accepted to an Accelerated Program, students may declare one of the concentrations below. There are pre-professional Accelerated Programs in Nursing (3+2) at DePaul University and in Medicine (3+4), Pathologists' Assistant (3+2), Pharmacy (3+4), Physical Therapy (3+3), Physician Assistant (3+2), and Podiatry (3+4) at Rosalind Franklin University.

Students formally accepted into an Accelerated Program will complete their fourth year of coursework at their professional school and apply the credit toward their Bachelor of Science in Health Sciences at DePaul. Students must apply for degree conferral via Campus Connect by the deadline outlined in the Student Handbook in order to be considered a candidate for earning their Bachelor of Science degree at the conclusion of their fourth year of study. Depending on the program in question, some Liberal Studies Program courses, Health Sciences major requirements, and open electives will be fulfilled by professional degree courses. To avoid earning duplicate credit for some courses, students must meet regularly with the Pre-Health Advisor and the Health Sciences departmental academic advisor. Please visit the Pathways Honors Program (<https://csh.depaul.edu/academics/pre-health-program/pathways-honors-program/Pages/default.aspx>) site for more information about eligibility requirements.

Courses from the first year of the RFUMS program will be automatically transferred to the student's degree as a block of credit and applied to either the LSP or major elective equivalent. When the transfer courses exceed fulfilling the outstanding major elective equivalents, they will next populate outstanding open electives. More significant changes in RFUMS curricula that would change course content would be identified and result in curriculum modification at DePaul. Given the nature of the 3+ Accelerated Program, most, if not all, of a student's complete first year or coursework at RFUMS will transfer back to DePaul during what would be considered their fourth year or 'senior year'. The senior residency requirement will continue to be automatically waived for them, and they will earn at least 192 credit hours.

PHY 151	GENERAL PHYSICS II
PHY 152	GENERAL PHYSICS III
PSY 105	INTRODUCTORY PSYCHOLOGY I
or PSY 106	INTRODUCTORY PSYCHOLOGY II
PSY 303	HUMAN DEVELOPMENT
PSY 353	INTRODUCTION TO PSYCHOPATHOLOGY AND CLINICAL SCIENCE
SOC 373	PUBLIC HEALTH AND HIGH RISK BEHAVIOR

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Health Sciences (BS) + Generalist Nursing (MSN) Master's Entry to Nursing Practice

Combined Bachelor's + Master's degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The combined BS in Health Sciences + Master's Entry to Nursing Practice (MENP) allows strong students with an interest in nursing to complete both degrees in 5 years, saving both time and significant tuition dollars. To be eligible to apply, students must be members of the Pathways Honors Program in the College of Science and Health (p. 1453) and should begin working with their academic advisor by the end of their freshman year to ensure that their coursework is completed properly. Due

to the restrictive nature of the program, students with significant transfer credit are not eligible.

Eleven courses are double-counted between the BS in Health Sciences + Master's Entry to Nursing Practice.

Course	Title	Quarter Hours
NSG 301	INTRODUCTION TO THE ART AND SCIENCE OF NURSING I	5
NSG 302	INTRODUCTION TO THE ART & SCIENCE OF NURSING II	8
NSG 322	BASIC PATHOPHYSIOLOGY AND PHARMACOLOGY	4
NSG 332	HEALTH ASSESSMENT	4
NSG 393	FOUNDATIONS FOR SUCCESS IN NURSING	3
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 422	APPLIED PATHOPHYSIOLOGY	4
NSG 431	HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES	4
NSG 445	NURSING PROFESSIONALISM, ADVOCACY, AND LEADERSHIP	4
NSG 481	BIostatISTICS AND EPIDEMIOLOGY	4
NSG 540	CULTURE, ETHICS, AND POLICY ANALYSIS	4

Please see the Accelerated BioScience Concentration requirements (p. 580) for a complete list of courses needed.

Health Sciences (BS) + Master of Public Health (MPH)

Combined Bachelor's + Master's degree programs allow especially strong and motivated students to complete both degrees on an accelerated timeline by sharing a pre-determined limited number of credits between the undergraduate and graduate degree programs.

The 3+2 combined program ([https://las.depaul.edu/academics/public-health/combined-bachelor-master/Pages/Health-Sciences-\(BS\)-Master-of-Public-Health-\(MPH\).aspx](https://las.depaul.edu/academics/public-health/combined-bachelor-master/Pages/Health-Sciences-(BS)-Master-of-Public-Health-(MPH).aspx)) maintains the rigor and value of both the undergraduate degree in Health Sciences from the College of Science and Health and the Master of Public Health program from the College of Liberal Arts and Social Sciences, giving students exceptional education and training at the undergraduate and graduate level. The advantage of this program is that students can earn their BS in Health Sciences and their MPH in as few as five years. There is also a Universal Pathway to the MPH (<https://las.depaul.edu/academics/public-health/combined-bachelor-master/Pages/combined-bachelors-MPH.aspx>) as an option for students who are not eligible for the 3+2 combined degree program.

Interested students may apply to the BS in Health Sciences + Master of Public Health 3+2 combined degree program during their junior year at DePaul. Eligible students must be declared Health Sciences majors in the Public Health Sciences concentration with a minimum cumulative GPA of 3.5. Application to the MPH program is competitive and includes several personal statement essays and a current CV. The GRE requirement will be waived for application to this program. Students are responsible for planning their remaining quarters at DePaul to confirm that they can complete all degree requirements.

In year four, accepted students take undergraduate courses toward the BS, graduate courses towards the MPH, and graduate courses that will count towards both degrees. The students will be awarded the BS in Health Sciences when all requirements have been met, by the end of year 4 at the latest. The fifth year will consist solely of courses for the MPH.

Because this program requires careful planning of courses, students in their sophomore year are encouraged to work with the Health Sciences academic advisor and a faculty advisor from the MPH program. While students are enrolled as undergraduates in the College of Science and Health, they must apply for undergraduate degree conferral in anticipation of completing the BS in Health Sciences. Once students are matriculated as graduate students in the College of Liberal Arts & Social Sciences they will be responsible for applying for degree conferral in anticipation of completing the Master of Public Health.

In the event that they are not accepted to the program, applicants would take the remaining coursework for the BS in Health Sciences and would be encouraged to apply for traditional entry into the MPH program.

The MPH curriculum will be completed in its entirety and is unaltered by this program. A maximum of 5 courses/20 quarter hours may be applied toward both the BS in Health Sciences and the Master of Public Health. The courses below will apply toward both degrees. All other graduate coursework counts solely towards the MPH.

Course	Title	Quarter Hours
MPH 501	INTRODUCTION TO PUBLIC HEALTH	4
MPH 502	INTRODUCTION TO EPIDEMIOLOGY	4
MPH 511	HEALTH AND BEHAVIOR THEORY	4
MPH 515	PUBLIC HEALTH ETHICS AND POLICY	4
MPH 541	BIostatISTICS	4

If the student is admitted to the combined program and completes some MPH coursework but then decides not to complete the MPH, the completed graduate courses will apply to the undergraduate degree and any remaining Health Sciences requirements will be finished at the undergraduate level. Also, students will be advised carefully as to the financial implications of this program as the timing of courses affects when the students will be in their undergraduate or graduate career for the purposes of tuition and financial aid eligibility.

Once the 5 courses/20 quarter hours of graduate coursework has been completed and applied toward the BS and MPH degrees, the student will take their remaining undergraduate courses as part of their undergraduate career and remaining graduate courses as part of their graduate career. Once the undergraduate degree is conferred, the student is eligible for the Double Demon Scholarship for remaining graduate-only terms. See DePaul's Scholarship website for details.

Health Sciences (BS) + Occupational Therapy (MS)

Students interested in pursuing degrees in Health Sciences and Occupational Therapy may do so through this unique combined program which may be completed in just over five years. Interested students apply to enter DePaul's Occupational Therapy program in their first year of study and if accepted, they begin coursework in Occupational Therapy in their fourth year. Students must choose the Public Health Studies concentration in Health Sciences to pursue this path. See the Health

Sciences (BS) (p. 577) and the Occupational Therapy (MS) (p. 876) catalog pages for more detail.

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Healthcare Administration (BA)

The Bachelor of Arts in Healthcare Administration from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of health and the “business of health,” in preparation for further education and careers in the administration of healthcare services and delivery systems. The degree offers an interdisciplinary liberal arts and professional studies curriculum to students who are new to the healthcare administration industry and those who are already working in this environment and seek to advance their careers.

This major advances student’s knowledge and professional skills related to health communications, biomedical ethics, global health issues, career planning, writing, critical thinking, research, community engagement in a variety of integrative formats. In addition to a core of health science subjects, students also study general business, management and leadership topics related to the health care industry including public health, health care administration, and eldercare all within a liberal arts framework.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and **special adult student tuition pricing**
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor’s and master’s programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Program Requirements	Quarter Hours
Core Requirements	74
Major Requirements	84
Open Electives	34
Total hours required	192

Learning Outcomes:

Students will be able to:

- Analyze and apply knowledge and theories of health care management.
- Explain legal and regulatory requirements applicable to health care organizations.
- Apply skills for effective decision-making in health care organizations.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Apply methods of communication in multiple settings.
- Analyze and apply different liberal arts perspectives.

College Core (74 credits, 16 credits in residence)

Lifelong Learning Requirements (28 credits, 12 credits in residence)

Course	Title	Quarter Hours
LL 201 or RPL 101	REFLECTIVE LEARNING ¹ PRIOR LEARNING ASSESSMENT	2
LL 305	ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD	4
MAT 130	FUNCTIONS AND MATHEMATICAL MODELS	4
LL 261	ESSAY WRITING	4
LL 270	CRITICAL THINKING	4
LL 290	RESEARCH WRITING ¹	4
LL 301	RESEARCH METHODS ¹	6

Liberal Learning Requirements (46 credits, 4 credits in residence)

- Liberal Arts in Action Requirement: CCA 281, CCH 281, CCS 281 or courses with LA1 designation, 6 credits
- CORE CURRICULUM ARTS & IDEAS, courses with the CCA, AL, PI, or RD requirement designations, 12 credits
- CORE CURRICULUM HUMAN COMMUNITY, courses with the CCH, SCBI, or HI requirement designations, 12 credits
- CORE CURRICULUM SCIENTIFIC WORLD, courses with the CCSW, SI, SILB, or SISK requirement designations, 12 credits
- IN 307 INTEGRATIVE LEARNING, 4 credits ¹

¹ Must be completed in residence.

Major Requirements (84 credits)

44 credit hours must be completed in residence in the major, including FA 199 and LL 303.

Professional Studies Core (20 credits, 8 credits in residence)

Course	Title	Quarter Hours
CAREER ASSESSMENT AND PLANNING		
FA 199	CAREER ASSESSMENT AND PLANNING ¹	2
PROFESSIONAL COMMUNICATIONS		
CMNS 315	HEALTH COMMUNICATION	4
ETHICS AND SOCIAL JUSTICE IN THE PROFESSIONS, Courses with the PSES requirement designation, choose one of the following:		
PHL 229	BIOMEDICAL ETHICS	4
HLTH 229	ETHICS FOR HEALTH SCIENCES	4
REL 229	MEDICINE, ETHICS AND SOCIETY	4
GLOBAL PERSPECTIVES, Courses with the PSGP requirement designation, choose one of the following:		
CCS 328	GLOBAL INFECTIOUS DISEASES AND HEALTH	4
ANT 362	GLOBAL HISTORY OF HEALTH	4
HLTH 380	TOPICS IN HEALTH SCIENCES	4
CAPSTONE PROJECT		
LL 303	CAPSTONE PROJECT ¹	6

¹ Must be completed in residence.

Health Sciences Core (20 credits)

Course	Title	Quarter Hours

Open Electives (34 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

History (BA)

As the American Historical Association has noted, “We all interpret and narrate the past, which is to say that we all participate in making history. It is among our most fundamental tools for understanding ourselves and the world around us.” The History Department at DePaul University embraces this idea, and is committed to engaging with students, the university, and the wider community in an ongoing effort to understand the past and its varied meanings, the critical and scholarly debates through which we gain such understanding, and the relationship of the past to the problems of the present.

The history program at DePaul combines a breadth of chronological and geographical coverage with the opportunity to develop a concentration in a student’s fields of interest. Instruction emphasizes the humanistic as well as the social scientific dimension of the field. One-hundred and two-hundred-level courses (lower division) provide surveys of Asian, African, European, Latin American, North American and World and Comparative History. A main focus of these lower division courses is teaching students how to evaluate primary sources. Three-hundred-level courses (upper division) concentrate on historical debates within specific fields. All courses stress development of research, writing and oral communications skills.

The history major gives students a broad base of knowledge and skills applicable to a variety of careers. Many of our graduates go on to work in the fields of education and law. Others pursue jobs in government and politics; museums, historical societies, and libraries; and business and commercial ventures. A wide range of employers find that history majors have honed critical analytical and communications skills, making them ideal candidates for positions of requiring responsibility and independent work habits.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements (Core + Concentration)	56
Open Electives	52
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe and discuss historical facts, themes, and ideas.
- Identify, analyze, evaluate, and synthesize primary and secondary source evidence.
- Analyze an event, source, idea or person within its historical context.
- Critically evaluate change over time.
- Identify different perspectives on the past, whether those be historical, interpretive, or methodological in nature.
- Conduct research independently using primary and secondary source evidence.
- Express knowledge and reason effectively in writing.

College Core Requirements Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common

purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Required		4
----------	--	---

Senior Year

Capstone

HST 390	CAPSTONE IN HISTORICAL RESEARCH AND WRITING ^{1,3}	4
---------	--	---

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- Not Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
- [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

A student majoring in History (HST) is required to complete the Capstone offered by the History Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HST major in the University Honors Program shall take the University Honors Capstone and the HST Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain

courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Core

Course	Title	Quarter Hours
HST 298	INTRODUCTION TO HISTORICAL SOURCES AND METHODS ¹	4
HST 299	CRAFT OF HISTORY	4
HST 390	CAPSTONE IN HISTORICAL RESEARCH AND WRITING	4

¹ Important note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: standard, pre-law, public history, or secondary-education.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Pre-Law Concentration, History (BA) (p. 592)
- Public History Concentration, History (BA) (p. 593)
- Standard Concentration, History (BA) (p. 594)

History (BA) + Secondary Education History (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) Master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework: 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 412	THE NATURE OF HISTORY AND THE SOCIAL SCIENCES	4
TCH 422	INQUIRY & APPLICATION IN DEVELOPING HISTORY AND SOCIAL SCIENCES PEDAGOGY	4

Secondary History Education Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 4 United States History courses
- 4 Non-United States History courses (*A minimum of four History courses must be at the upper division level (300-level) with at least one of those courses in non-US History).
- Additional licensure requirements: (one course in each area required)
 - Geography (GEO 101 recommended)
 - Economics (ECO 106 recommended)
 - Political Science (PSC 120 recommended)
 - Sociology (SOC 101 recommended)
 - Psychology (PSY 105 recommended)
 - Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1148)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

History 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Pre-Law Concentration, History (BA)

Course Requirements

Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement.

Core

Course	Title	Quarter Hours
HST 298	INTRODUCTION TO HISTORICAL SOURCES AND METHODS ¹	4
HST 299	CRAFT OF HISTORY	4
HST 390	CAPSTONE IN HISTORICAL RESEARCH AND WRITING	4

¹ Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

Upper Division Courses

Once they have completed HST 298, students take six HST courses at the 300 level. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300 level HST courses. For those in the pre-law concentration, four of those six 300-level classes must be the following:

Course	Title	Quarter Hours
Select two of the following:		8
HST 329	SPECIAL TOPICS IN HISTORY (Race, Gender and the Law)	
HST 343	CRIME AND PUNISHMENT	
HST 388	THE COURT AND THE U.S. BILL OF RIGHTS	
Select two of the following:		8
HST 308	EUROPE FROM CONFLICT TO CONSENSUS	
HST 312	LATINOS IN THE UNITED STATES	
HST 328	ENGLISH CONSTITUTIONAL HISTORY	
HST 331	THE NATION AND NATIONALISM IN EUROPE	
HST 332	FRENCH REVOLUTION AND NAPOLEON	
HST 335	THE AGE OF ENLIGHTENMENT IN EUROPE	
HST 371	THE AMERICAN REVOLUTION	
HST 375	THE GREAT DEPRESSION AND THE NEW DEAL ERA	
HST 379	RECONSTRUCTION AND THE RISE OF JIM CROW	
HST 385	UNITED STATES CONSTITUTIONAL HISTORY TO 1865	
HST 386	UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865	
Any 300-level HST Topics course with a relevant topic		

History majors cap off their studies with HST 390 a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the “gateway course”). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

Additional Course

Students will take one additional HST course in either the lower or upper division.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Public History Concentration, History (BA)

Course Requirements

Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement. Please see the list below for the public history offerings.

Core

Course	Title	Quarter Hours
HST 298	INTRODUCTION TO HISTORICAL SOURCES AND METHODS ¹	4
HST 299	CRAFT OF HISTORY	4
HST 390	CAPSTONE IN HISTORICAL RESEARCH AND WRITING	4

¹ Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

Upper Division Courses

Once they have completed HST 298, students take six HST courses at the 300 level. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300-level HST courses.

Course	Title	Quarter Hours
Of the five lower division and six upper division courses, four must come from the following list:		
HST 269	MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY	
HST 360	DOING DIGITAL HISTORY	
HST 382	CHICAGO HISTORY MUSEUM EXPERIENCE	
HST 389	TOPICS IN PUBLIC HISTORY	
HST 391	DOING LOCAL AND COMMUNITY HISTORY	
HST 392	PUBLIC HISTORY INTERNSHIP	
HST 396	ORAL HISTORY: MEMORY, METHOD AND PRACTICE	

History majors cap off their studies with HST 390, a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the “gateway course”). Students are strongly encouraged to take this sequence either in their junior or senior year

bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

One Additional Course

Students will take one additional HST course in either the lower or upper divisions.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Standard Concentration, History (BA) Course Requirements

Lower Division Courses

Students must take five courses at the 100- or 200-level. Note that the 200-level courses are not more difficult than the 100. The 100-level indicates that the course examines global history or large regions of the world. The 200-level indicates that the course has a narrower national or thematic focus. Note: HON 102 may be counted toward this lower division requirement.

Core

Course	Title	Quarter Hours
HST 298	INTRODUCTION TO HISTORICAL SOURCES AND METHODS ¹	4
HST 299	CRAFT OF HISTORY	4
HST 390	CAPSTONE IN HISTORICAL RESEARCH AND WRITING	4

¹ Important Note: Students must complete WRD 103 and WRD 104 or HON 101 prior to enrolling in HST 298. For all concentrations, HON 102 may be counted toward lower division requirements.

History majors should take HST 298 at the beginning of their sophomore year, after they have completed two or three of their lower-division courses as well as WRD 103 and WRD 104. Transfer students should plan on registering for HST 298 as soon as possible.

Upper Division Courses

Once they have completed HST 298, students take six HST courses at the 300 level. For the Standard Concentration, these classes can be on any historical subject. One of the 300 level classes must be a gateway course linked to HST 390. Note that HST 390 counts as a capstone and not as one of the six 300 level HST courses.

History majors cap off their studies with HST 390, a course in deep and sustained historical research and writing. To prepare for this capstone, one of the six 300-level HST classes must be part of a two-quarter linked sequence (called the “gateway course”). Students are strongly encouraged to take this sequence either in their junior or senior year bearing in mind that the gateway HST 390s are reliably offered only in Autumn-Winter and Winter-Spring. Not all 300-level HST courses are gateways to the HST 390 capstone, so students should refer to the

History Department web page and postings in SAC 420 for applicable offerings. HST 299 is a prerequisite for HST 390.

One Additional Course

Students will take one additional HST course in either the lower or upper division.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

History (MA)

The MA in History offers students the opportunity to explore the breadth and depth of the Historical Discipline. Students take a total of 12 courses, with all students taking History 421 “The Historical Discipline.” Students may enter the program in Autumn, Winter, or Spring.

The MA in History may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- History + Digital Humanities Certificate
- History + Women’s and Gender Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Evaluate the breadth and complexity of the discipline of history.
- Compare and differentiate the range of topics historians explore.
- Apply and interpret the variety of methodologies historians employ.
- Identify, analyze, and evaluate historical arguments effectively.
- Communicate, in writing and orally, complex historical, historiographical, and methodological issues effectively.

Degree Requirements

Course Requirements

The Core

Course	Title	Quarter Hours
HST 421	THE HISTORICAL DISCIPLINE	4

The Graduate Colloquia

All graduate students need to complete 12 courses (48 hours) of graduate work in order to complete the MA. HST 421 is required for all students. For those students who were conditionally admitted, HST 421 is a prerequisite for all 400-level history courses. In addition, students take eleven courses from the list of graduate colloquia. These colloquia share the programmatic emphasis of the curriculum with their emphasis on the historiographical aspects of their respective topic. Note that that every colloquium, when offered, has a subtitle which identifies the

specific sub-topic to be addressed that particular quarter. (For example: HST 431: The New Deal. As long as the topics (as reflected in the subtitle) of any colloquium are different, students may take more than one of any of the above courses. In order to ensure that students realize the curricular goals of breadth of exposure to the historical discipline, however, in no case is a student to take more than four colloquia bearing the same number. Thus, at the minimum, students will take courses in at least three different areas (as defined by colloquia titles).

Course	Title	Quarter Hours
HST 422	SEMINAR IN PRIMARY SOURCE ANALYSIS	4
HST 431	COLLOQUIUM IN AMERICAN HISTORY	4
HST 432	COLLOQUIUM IN LATIN AMERICAN HISTORY	4
HST 433	COLLOQUIUM IN AFRICAN HISTORY	4
HST 434	COLLOQUIUM IN ASIAN HISTORY	4
HST 435	COLLOQUIUM IN EUROPEAN HISTORY	4
HST 436	COLLOQUIUM IN ISLAMIC HISTORY	4
HST 437	COLLOQUIUM IN WORLD HISTORY	4
HST 438	COLLOQUIUM: SPECIAL TOPICS IN HISTORY	4

With the permission of the Graduate Director, students may substitute up to eight quarter hours of Independent Study or Graduate Internship for two colloquia.

Course	Title	Quarter Hours
HST 492	GRADUATE INTERNSHIP	4
HST 497	INDEPENDENT STUDY	4-8

In addition, upon consultation with the Graduate Director and with his/her approval, students may count up to eight quarter hours from another DePaul graduate program toward their MA. Such courses would reduce the number of required colloquia by two.

Student Handbook

Probation and Dismissal

A graduate student goes on probation when his/her graduate GPA falls below 3.0. If the GPA goes under 3.0, the student will have one quarter in which to raise it. At the end of this quarter, if the student has failed to bring his/her GPA back up to 3.0, the student may be dismissed and prohibited from registering for additional coursework.

Conduct

Faculty retain the right to define and enforce appropriate etiquette for the promotion of collegiality and civility. Instructors have the right to remove any offender(s) from the classroom. In cases of serious or repeated misconduct, the program director in consultation with the instructor and the chairperson may remove the student(s) from a course and/or the graduate program.

Conditional Admission

In some cases, strong candidates who have not completed the REQUIRED undergraduate credit hours in history and/or students who have not yet demonstrated their strengths in the field may be considered for conditional admission. Students admitted in this category may only take one course (HST 421) during the Autumn quarter. A student who passes

HST 421 with a grade of B or above may then continue in the program but must receive grades of B or above in the next two graduate colloquia that he or she attempts. If the student does NOT receive a B or above in EACH of these three classes, he or she must leave the program.

Readmission

If a student is dismissed from the program, he or she may be reapply through the formal application process. All students considering applying for readmission are strongly encouraged to contact the Graduate Director.

Transfer Credit

Upon consultation with the Graduate Director and with his or her approval, students may request that up to 12 units (three courses) of graduate credit earned in other DePaul departments or at other graduate degree-granting institutions be counted toward the MA degree. The Graduate Director will handle such requests on a case-by-case basis. In no circumstances will graduate credit be given for undergraduate coursework or for courses that have been applied toward fulfillment of another degree. Transfer grades from other institutions do not count in the calculation of the DePaul grade point average.

Undergraduate Courses

Undergraduate courses are not applicable toward the degree, but it is sometimes possible (at the discretion of the graduate director) for students to apply foreign language courses toward degree requirements. Students interested in taking foreign language courses that complement their historical studies should contact the graduate instructor prior to enrolling in any foreign language courses.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements satisfactorily. Note that the coursework must be completed with a minimum cumulative GPA of 3.0.

Graduation with Distinction

Distinction is based on two criteria: (1) A record of consistent excellence in graduate coursework, generally interpreted as a cumulative GPA of 3.75 or higher; and (2) Exemplary work on the final paper produced within the capstone seminar as judged by the course instructor and the department's graduate committee, or (for thesis students), exemplary work on the thesis as judged by the thesis director and the department's graduate committee.

Program Time Limitation

Students in an MA program are expected to complete degree requirements within a six-year period from the first registration date for a course in the program. For students who do not, the department or program director may recommend, on receipt of the student's petition, in writing, an extension of time with or without additional courses, examinations, or other conditions.

History (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degrees.

Students interested in the applying to the combined BA + MA (History) program should contact the History Graduate Director, Scott Bucking (sbucking@depaul.edu).

DePaul undergraduates interested in the BA + MA (History) should apply to the program by April 15 of their junior year. The department will consider students from any major and they must maintain a GPA of 3.0 in their undergraduate courses and in the three graduate courses taken in their senior year. In addition, grades in the graduate-level courses must be at least a C or higher to count for the combined degree.

Undergraduate students will take HST 421 and two HST 400-level electives in their senior year. If they are a History major, the History Gateway course and its linked practicum course may be substituted for the two HST 400-level electives.

History (Minor)

DePaul’s **History minor** is designed to help students develop a critical understanding of the past, as well as its impact on the present and the future. Students may pick a specific focus area of interest to complement their major.

Course Requirements

- HST 298
- Two lower division HST courses (100 or 200 level)—note HON 102 may be counted toward lower division requirements
- Two upper division HST courses (300 level)
- One course in either the lower or upper level

Students majoring in History (BA) are restricted from earning this minor.

History of Art and Architecture (BA)

The Department of the History of Art and Architecture familiarizes DePaul students with works of art that define civilizations around the world from their emergence to the present day. The study of art is integral to the development of human knowledge and thus consistent with the academic goals of DePaul University as well as a liberal arts education. We extend the Vincentian mission in our particular focus on comparative culture and art in its urban setting. In an increasingly interconnected world, art history encourages a critical engagement with the visual and its role in individual and social formation.

The study of art and architectural history prepares students for a wide variety of careers and post-graduate pursuits. Thus, all of our classes foster critical thinking by developing visual literacy, close reading, persuasive writing, research skills and oral communication. Taking advantage of the rich cultural resources of Chicago through classroom lectures, discussions and site visits to exhibits, museums, and architectural monuments, students come to understand how art is produced and how it operates in its social and historical moment. In more advanced classes, students become well-versed in the nature of the field and its current and traditional theoretical issues. In these classes, too, consideration is given to the professional world, including museums, galleries, cultural institutions, and the global art market.

All of these goals are consistent with our professional aspirations, not only as faculty, but as scholars who distinguish ourselves by the breadth of our geographical and chronological interests and through our record of publishing and professional achievements. Although our approaches

vary widely, we are united in our shared interest in the creative, social, and political forces that both determine and emanate from all works of art.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	56
Open Electives	52
Total hours required	192

Learning Outcomes

Student will be able to:

- Demonstrate an understanding of the ways in which works of art and architecture are products of their unique historical, geographical, social, and/or religious context.
- Use correctly art history’s specialized vocabulary.
- Identify the salient features of a work of visual culture and argue in writing for the ways in which they acquire meaning.
- Analyze and apply major methodological and/or interpretative issues that belong to a given course’s subject.
- Demonstrate an engagement with original works of art at the Art Institute of Chicago or other regional institutions (when possible).

College Core Requirements Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
HAA 390	SENIOR CAPSTONE ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in History of Art and Architecture (HAA) is required to complete the Capstone offered by the HAA Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An HAA major in the University Honors Program shall take the University Honors Capstone and the HAA Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 1 Course Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
Select two 100-level HAA introductory courses of the following:		8
HAA 101	INTRODUCTION TO AFRICAN ART	
HAA 115	INTRODUCTION TO ASIAN ART	
HAA 130	INTRODUCTION TO EUROPEAN ART	
HAA 145	INTRODUCTION TO ARTS OF THE AMERICAS	
Select five 200-level HAA courses selected from five categories focused on Asia and the Middle East, Africa and Latin America, Premodern Europe and the Mediterranean to 1453, Early Modern Europe to 1800, and Modern Europe and the U.S. Students must complete one course from each category. (p. 598)		20
HAA 290	ART HISTORICAL THEORY AND METHODOLOGY	4

Select five 300-level HAA courses with three selected from each of the following three categories as well as two additional 300-level courses of the student's choice, selected from any category. The categories are Asia, Africa and Latin America, Early Europe and the Mediterranean, and Later Europe and the U.S. (p. 599)

Select one additional HAA course at any level		4
HAA 390	SENIOR CAPSTONE	4

200-Level Categories

Asia and the Middle East

Course	Title	Quarter Hours
HAA 200	SPECIAL TOPICS ON THE ART INSTITUTE (When Approved)	
HAA 215	CHINESE ART	
HAA 216	JAPANESE ART	
HAA 218	ARTS OF THE SILK ROAD	
HAA 219	JAPANESE FILM ARTS	
HAA 220	BUDDHIST ART	
HAA 222	ISLAMIC ART	
HAA 273	ANIME AND MANGA	
HAA 297	SPECIAL TOPICS IN HISTORY OF ART & ARCHITECTURE (When Approved)	

Africa and Latin America

HAA 380	CHICAGO ARCHITECTURE AND URBANISM (WORLD CITIES)	
HAA 391	THE EVOLVING MUSEUM: HISTORIES AND CONTEMPORARY CHALLENGES	
HAA 397	SPECIAL TOPICS/HISTORY OF ART & ARCHITECTURE (When Approved)	
HAA 399	NEWBERRY LIBRARY SEMINAR (When Approved)	

Junior Experiential Learning

Course	Title	Quarter Hours
HAA 394	MUSEUM STUDIES INTERNSHIP	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

History of Art and Architecture 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration

of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law’s median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

History of Art and Architecture (Minor)

The minor program helps students develop visual literacy by critically thinking about how art and architecture affect individuals and societies. Students may focus on a particular area of art history or architecture.

Course Requirements

Course	Title	Quarter Hours
Select one of the following:		4
HAA 101	INTRODUCTION TO AFRICAN ART	
HAA 115	INTRODUCTION TO ASIAN ART	
HAA 145	INTRODUCTION TO ARTS OF THE AMERICAS	
Select five additional 200- or 300-level history of art and architecture courses ¹		20

¹ HAA 130 may be substituted for one 200 or 300 level course in the minor.

Students wishing to group their minor courses around a specialty should confer with the History of Art and Architecture professor in that specialty.

Students majoring in History of Art and Architecture (BA) are restricted from earning this minor.

History of Law (Minor)

The History of Law minor provides an opportunity for non-history majors to gain a solid introduction to historical study related to law and legal history. This minor will give non-history majors training in basic historical skills and specific knowledge about histories related to criminal justice and law. A History of Law minor provides students with valuable skills that are developed in History courses in addition to the specific content focus on the history and evolution of the law and legal history.

Required: Five History Courses

Course	Title	Quarter Hours
HST 298	INTRODUCTION TO HISTORICAL SOURCES AND METHODS	4

HST 388	THE COURT AND THE U.S. BILL OF RIGHTS	4
Select one history course at any level (must be approved by Director)		4
Select two of the following:		8
HST 308	EUROPE FROM CONFLICT TO CONSENSUS	
HST 312	LATINOS IN THE UNITED STATES	
HST 328	ENGLISH CONSTITUTIONAL HISTORY	
HST 329	SPECIAL TOPICS IN HISTORY	
HST 331	THE NATION AND NATIONALISM IN EUROPE	
HST 332	FRENCH REVOLUTION AND NAPOLEON	
HST 335	THE AGE OF ENLIGHTENMENT IN EUROPE	
HST 343	CRIME AND PUNISHMENT	
HST 371	THE AMERICAN REVOLUTION	
HST 373	THE CIVIL WAR ERA	
HST 374	EMERGENCE OF MODERN AMERICA, 1877-1914	
HST 375	THE GREAT DEPRESSION AND THE NEW DEAL ERA	
HST 379	RECONSTRUCTION AND THE RISE OF JIM CROW	
HST 385	UNITED STATES CONSTITUTIONAL HISTORY TO 1865	
HST 386	UNITED STATES CONSTITUTIONAL HISTORY SINCE 1865	
HST 395	ISSUES IN NON-U.S. LEGAL HISTORY	
Or select a relevant 300-Level HST topics course, per Director approval		

Hospitality Leadership (BSB)

The heart and soul of any academic program is the curriculum and the faculty who deliver it. We have developed our unique curriculum with the strong involvement of local Chicago hospitality industry leaders and the members of our national advisory board. We have also asked senior faculty at four of the nation's top ranked hospitality programs to review it and advise us how to strengthen it. By incorporating this input, we created a powerful curriculum that distinguishes us from other hospitality programs. Our curriculum blends two primary concepts: hospitality industry knowledge and key business skills. Additionally, woven throughout the courses are five central themes: leadership, ethics, human resources, globalization and sustainability. By including these themes in many of our courses, we strive to deeply instill within students a sense of personal and corporate social responsibility embedded within an awareness of the larger world around them.

We have three primary curricular goals:

1. Embed a true sense of hospitality within our students; that is, to create a bedrock belief that hospitality is about serving others
2. Create industry leaders prepared to deliver hospitality to anyone who needs it, whenever or wherever
3. Embrace the Vincentian mission: to share hospitality with the underprivileged and disenfranchised members of our communities

The Hospitality Leadership major is comprised of three components: the Liberal Studies Program (the broad, general education of members of our

society), the College of Business core (foundational business skills), and the specific requirements of the School of Hospitality Leadership.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	46
Open Electives	14
Total hours required	192

Learning Outcomes

Core Outcomes

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Describe the parallel concepts of service and experience management.
- Demonstrate hospitality service through voluntarism at community event using hospitality skills.
- Demonstrate functional knowledge about hospitality business applications and operations.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4

FIN 310	INTRODUCTION TO FINANCE	4
MAT 137	BUSINESS STATISTICS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	4
MKT 301	PRINCIPLES OF MARKETING	4
Business Technology ²		
Select one of the following:		4
BUS 202	BUSINESS TECHNOLOGY	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	
MIS 360	SYSTEMS ANALYSIS AND DESIGN	
Business Communication ³		
Select one of the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	
Global Business Perspective ⁴		
Select one of the following:		4
ECO 316	EUROPEAN ECONOMIC HISTORY	
ECO 330	RADICAL RESPONSES TO CAPITALISM	
ECO 333	TOPICS IN GLOBAL ECONOMIES	
ECO 334	UNDERSTANDING CHINA'S ECONOMY	
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES	
ECO 361	INTERNATIONAL TRADE	
ECO 362	INTERNATIONAL MONETARY ECONOMICS	
ECO 363	ECONOMICS OF THE EUROPEAN UNION	
FIN 340	INTERNATIONAL FINANCE	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT	
MKT 360	INTERNATIONAL MARKETING	
SOC 217	WORK IN A GLOBALIZED WORLD	
A course taken as part of a term-long study abroad program		

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.

- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Grade Minimum Requirements for Hospitality Leadership Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, and any IB course used for the Hospitality Leadership major and Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4

Senior Year		
Capstone		
BUS 392	SENIOR SEMINAR ¹	4

¹ Students must earn a C- or better in this course.

² Students majoring in Hospitality Leadership are required to complete the sequence of HSP 303 and HSP 304 in order to receive Experiential Learning credit.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to HSP 303 and HSP 304 in the Liberal Studies Program, a student majoring in Hospitality Leadership is required to complete the following courses totaling at least 46.0 hours:

Course	Title	Quarter Hours
HSP 100	INTRODUCTION TO HOSPITALITY	4
HSP 200	HOSPITALITY SERVICES AND EXPERIENCE MANAGEMENT	4
HSP 203	HOSPITALITY LEADERSHIP & SELF DEVELOPMENT	2

HSP 204	HOSPITALITY LEADERSHIP & TEAMS	2
HSP 207	HOSPITALITY LAW, ETHICS & RISK	2
HSP 208	MANAGING PEOPLE & THE CHICAGO UNION ENVIRONMENT	2
HSP 250	MANAGING YOUR HOSPITALITY CAREER	2
HSP 301	LEADERSHIP SPEAKER SERIES I (Taken Pass/Fail)	1
HSP 302	LEADERSHIP SPEAKER SERIES II (Taken Pass/Fail)	1
HSP 309	ADVANCED HOSPITALITY METRICS AND ANALYTICS	4
HSP 330	RESTAURANT OPERATIONS	4
HSP 340	LODGING PROPERTY MANAGEMENT	4
HSP 350	EVENT PLANNING	4
HSP 396	HOSPITALITY STRATEGY	4
Select two elective courses from the following:		6
HSP 320	PRIVATE CLUB MANAGEMENT	
HSP 321	FOOD PRODUCTION MANAGEMENT	
HSP 322	QUANTITY FOODSERVICE MANAGEMENT	
HSP 323	ADVANCED PRIVATE CLUB MANAGEMENT	
HSP 331	FOODSERVICE PURCHASING	
HSP 332	BEVERAGE MANAGEMENT	
HSP 333	INTERNATIONAL WINE EDUCATION & MANAGEMENT	
HSP 341	RESORT & SPA MANAGEMENT	
HSP 342	TIME SHARE MANAGEMENT	
HSP 343	CASINO MANAGEMENT	
HSP 351	EVENT TOURISM	
HSP 352	EVENT PRODUCTION	
HSP 353	EVENT SALES, SERVICE & PROMOTION	
HSP 355	ADVANCED EVENT MANAGEMENT	
HSP 362	REVENUE, PRICING & DISTRIBUTION	
HSP 372	BRANDING & CUSTOMER LOYALTY	
HSP 386	HOSPITALITY ACCOUNTING I: REVENUES & EXPENSES	
HSP 398	SPECIAL TOPICS IN HOSPITALITY (multiple topics may be used)	
HSP 399	INDEPENDENT STUDY	
IB 350	INTERNATIONAL BUSINESS SEMINAR (Hospitality-led programs only)	

Open Electives

Open elective credit (14.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Experiential Learning

Hospitality Leadership majors must complete HSP 303 and HSP 304. The completed sequence satisfies the requirement for Experiential Learning in the Liberal Studies Program (or University Honors Program) Requirements.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for

graduation are satisfied. Students should take the Career Course as soon as possible.

Global Business Perspective

If an IB or HSP course is shared between Global Business Perspective and the Hospitality major, additional hours of Open Elective credit are required. Any IB or HSP course must be passed with C- or higher.

Combined Bachelor’s + Master’s Program Participants

Students admitted to the Hospitality Leadership and Operational Performance Combined Bachelor’s + Master’s program may apply approved graduate course(s) towards undergraduate Hospitality Leadership major electives.

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the major must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership (Minor)

Available to all students, the focus of this minor is to give broad exposure to the scale and scope of the hospitality industry, and to enable students to explore major sectors, such as lodging, event management, restaurant operations & ownership, or private club management in some depth.

Course Requirements

A student minoring in Hospitality Leadership is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
Select twelve credit hours from courses in the Hospitality Business Foundation:		12
HSP 100	INTRODUCTION TO HOSPITALITY	
HSP 101	INTRODUCTION TO GLOBAL TOURISM	
HSP 200	HOSPITALITY SERVICES AND EXPERIENCE MANAGEMENT	
HSP 203	HOSPITALITY LEADERSHIP & SELF DEVELOPMENT ¹	
HSP 204	HOSPITALITY LEADERSHIP & TEAMS ¹	
HSP 207	HOSPITALITY LAW, ETHICS & RISK ¹	
HSP 208	MANAGING PEOPLE & THE CHICAGO UNION ENVIRONMENT ¹	
HSP 250	MANAGING YOUR HOSPITALITY CAREER ¹	
HSP 301	LEADERSHIP SPEAKER SERIES I ²	
HSP 302	LEADERSHIP SPEAKER SERIES II ²	
HSP 303	HOSPITALITY INTERNSHIP I ¹	
HSP 304	HOSPITALITY INTERNSHIP II ¹	
HSP 396	HOSPITALITY STRATEGY	
Select eight credit hours from any HSP courses between HSP 305 through HSP 399		8

¹ These courses are each 2.0 quarter hours
² These courses are each 1.0 quarter hour

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Revenue Management (Minor)

The hospitality industry has an ongoing need for managers skilled in the science and art of forecasting demand. Similar to the tactics of the airlines in pricing and seat allocation, Revenue Management is a business practice that applies theories of pricing and statistics to patterns of lodging room sales and advance reservations. Knowledge of pricing theory, trend analysis, distribution channels, and customer relationship management (CRM) are key tenets.

Course Requirements

A student minoring in Revenue Management is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
HSP 100	INTRODUCTION TO HOSPITALITY	4
HSP 309	ADVANCED HOSPITALITY METRICS AND ANALYTICS	4
HSP 340	LODGING PROPERTY MANAGEMENT	4
HSP 362	REVENUE, PRICING & DISTRIBUTION	4
HSP 372	BRANDING & CUSTOMER LOYALTY	4

Graduation Requirements

All Hospitality Leadership (HSP) courses and any other courses used toward the minor must be completed with a minimum grade of C- (or PA where specified) and with a combined GPA of 2.000 or higher.

Hospitality Leadership and Operational Performance (MS)

The Master of Science in Hospitality Leadership and Operational Performance combines critical business theories and skills with innovative hospitality leadership practices. The unique curriculum addresses current trends in the industry, providing you with a necessary skill set focusing on customer relationship management and service delivery. This degree program is designed for career-changers seeking entry into the hospitality industry and industry professionals with a strong desire to enhance their knowledge and skills.

Program Features

Through the MS in Hospitality Leadership and Operational Performance program, you will be exposed to:

- Business courses and concepts that specifically apply to the hospitality industry, including finance, marketing and management strategies
- Cutting-edge hospitality technologies
- Data analysis and financial metrics concepts
- A service leadership foundation and how it relates to the guest experience

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Develop an understanding of key hospitality operational performance metrics found in the hospitality industry and apply them to various service delivery and financial return components.
- Apply hospitality principles of service leadership and innovation in the guest experience through a conceptual understanding of operational policies/procedures, financial benchmarks, and service delivery.
- Evaluate and comprehend hospitality technology systems and articulate complex service system framework and financial data collection processes commonly used in the industry.
- Acquire business, employee relations and hospitality specific skills that are broad, deep and necessary to fulfill their professional goals.

Degree Requirements

Course Requirements

Students complete the MS in Hospitality Leadership and Operational Performance by taking the following 12 courses for a total of 48 credits:

Course	Title	Quarter Hours
HSP 502	MANAGING THE GUEST/EMPLOYEE EXPERIENCE	4
HSP 503	ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE	4
HSP 505	SERVICE & INNOVATION IN TOURISM DEVELOPMENT	4
HSP 506	HOSPITALITY STRATEGY & OPERATIONAL PERFORMANCE	4
HSP 561	MANAGING REVENUE TO MAXIMIZE FINANCIAL PERFORMANCE	4
HSP 562	HOSPITALITY DISRUPTORS, CURRENT TRENDS, AND THEIR IMPLICATIONS FOR LEADERS	4
HSP 563	HOSPITALITY RESEARCH ANALYSIS & FINANCIAL METRICS	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS	4
MKT 555	MARKETING MANAGEMENT	4

Elective Requirements (3 courses)

Choose any graduate course in economics, management and marketing and any 700 to 799 course in Hospitality Leadership and Operational Performance.

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the 12 required courses, or their substitutes as approved by the Director of the School of Hospitality Leadership.

- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Hospitality Leadership and Operational Performance (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 of the 48 required graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Hospitality Leadership and Operational Performance (MS)

The MS degree in Hospitality Leadership and Operational Performance is a unique program that integrates critical business theory and skills with cutting-edge hospitality leadership practices. Designed for career-changers interested in the hospitality industry as well as for current industry professionals who want to enhance their skills, the program focuses on developing leadership skills and operational capabilities in a broad array of hospitality service enterprises.

DePaul degree-seeking undergraduate students interested in earning a Master of Science degree in Hospitality Leadership and Operational Performance may apply to the bachelor's degree/Hospitality Leadership and Operational Performance (MS) combined program. Students may be able to obtain both degrees in as few as five years.

Admission

Students must formally apply and be admitted to the Kellstadt Graduate School of Business before beginning their graduate coursework. Undergraduate students who meet the following criteria will be considered:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 2.50

Students participating in this program will typically take the following three graduate level courses during their senior year:

Course	Title	Quarter Hours
HSP 502	MANAGING THE GUEST/EMPLOYEE EXPERIENCE	4
HSP 503	ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE	4
HSP 505	SERVICE & INNOVATION IN TOURISM DEVELOPMENT	4

These three courses may double-count (up to 12 credits) towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS degree in

Hospitality Leadership and Operational Performance will be awarded upon completion of the remaining graduate level work.

For students pursuing their BSB-Hospitality, these three courses replace their Specialization requirements. For students in other majors, these three courses will be free electives.

Human Computer Interaction (MS)

The MS in Human Computer Interaction focuses on user research, design, implementation, and evaluation to create technologies that are useful, easy to use and accessible for diverse users.

Program Requirements	Quarter Hours
Introductory Courses	0-16
Degree Requirements	48
Total hours required	48-64

Learning Outcomes

Students will be able to:

- Plan and conduct ethical user research with human participants using appropriate data collection methods, and analyze the data using both qualitative and quantitative methods.
- Create, justify, and critique interface designs using appropriate theoretical and methodological HCI frameworks.
- Create prototypes that simulate the interactivity of user interfaces and have enough functionality for usability testing with human participants.
- Design and conduct usability tests for an existing or prototyped product or service.

Degree Requirements

Course Requirements

No Introductory course (a course numbered 400 through 419) may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- The student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Course	Title	Quarter Hours
IT 411	SCRIPTING FOR INTERACTIVE SYSTEMS	4
HCI 406	WEB SITE DESIGN FOR HCI	4
HCI 412	HCI DESIGN FUNDAMENTALS I	4
IT 403	STATISTICS AND DATA ANALYSIS	4

Foundation Courses

The following Foundation Courses are listed in the suggested sequence for the program.

Course	Title	Quarter Hours
HCI 440	INTRODUCTION TO USER-CENTERED DESIGN	4
HCI 450	FOUNDATIONS OF HUMAN-COMPUTER INTERACTION	4
HCI 430	PROTOTYPING AND IMPLEMENTATION	4

Students currently taking Foundation Courses may also register for Major Elective Courses if they have successfully completed the prerequisites for those courses.

Advanced Courses

The following Advanced Courses are listed in the suggested sequence for the program.

Course	Title	Quarter Hours
HCI 445	USER RESEARCH METHODS	4
HCI 454	INTERACTION DESIGN AND INFORMATION ARCHITECTURE	4
or HCI 457	INFORMATION ARCHITECTURE AND CONTENT STRATEGY	
HCI 460	USABILITY EVALUATION METHODS	4
HCI 472	HCI DESIGN FUNDAMENTALS II	4

Course	Title	Quarter Hours
At least one of the following major electives is also required:		4
HCI 511	ACCESSIBILITY CONSIDERATIONS IN HCI	
HCI 514	GLOBAL USER RESEARCH	
HCI 515	DESIGN ETHNOGRAPHY	
HCI 516	BEHAVIORAL SCIENCE & UX	
HCI 520	LEARNER-CENTERED DESIGN	

Major Elective Courses

Students must complete 12 credit hours of Major Elective courses from the lists below:

HCI Electives

Course	Title	Quarter Hours
HCI 421	DESIGNING FOR CONTENT MANAGEMENT SYSTEMS	
HCI 422	MULTIMEDIA	
HCI 511	ACCESSIBILITY CONSIDERATIONS IN HCI	
HCI 512	INFORMATION VISUALIZATION AND INFOGRAPHICS	
HCI 514	GLOBAL USER RESEARCH	
HCI 515	DESIGN ETHNOGRAPHY	
HCI 516	BEHAVIORAL SCIENCE & UX	
HCI 520	LEARNER-CENTERED DESIGN	
HCI 522	UX STRATEGY AND WEB ANALYTICS	
HCI 530	MOBILE DESIGN	
HCI 545	EMBODIED INTERACTION	
HCI 553	SOCIAL INTERACTION DESIGN	
HCI 580	USER EXPERIENCE DESIGN PRACTICUM	

HCI 590	TOPICS IN HUMAN-COMPUTER INTERACTION
HCI 596	HCI RESEARCH CAPSTONE

NON-HCI Electives Open to All HCI students

Course	Title	Quarter Hours
CSEC 440	INFORMATION SECURITY MANAGEMENT (FORMERLY CNS 440)

SE 482	REQUIREMENTS ENGINEERING	

Capstone

Course	Title	Quarter Hours
HCI 594	HUMAN-COMPUTER INTERACTION CAPSTONE	4

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of B- or better in each introductory course of the designated degree program.

- Earn a grade of C- or better in all courses beyond the introductory courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Human Computer Interaction (MS) Online

The MS in Human Computer Interaction focuses on user research, design, implementation, and evaluation to create technologies that are useful, easy to use and accessible for diverse users.

Program Requirements	Quarter Hours
Introductory Courses	0-16

Capstone

Course	Title	Quarter Hours
HCI 594	HUMAN-COMPUTER INTERACTION CAPSTONE	4

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of B- or better in each introductory course of the designated degree program.
- Earn a grade of C- or better in all courses beyond the introductory courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Human Resources (MSHR)

The Master of Science in Human Resources (MSHR) degree prepares students to manage the modern organizational workforce. Students develop skills necessary to succeed in specific areas of human resources, such as benefits, compensation, labor relations, recruitment and workforce training programs. Students gain a real-world education in HR management in a stimulating program that combines high-quality teaching with evidence-based recommendations from leading scholars in the field.

Faculty members have won numerous teaching awards and have many years of professional experience in a range of management-related fields, which helps students understand the connection between science and practice. Industry guest speakers, business cases, simulations and internships enhance students' practical understanding of the HR field. The program leverages DePaul's wide-ranging network of alumni and HR business leaders to create opportunities for students to engage in professional activities and community outreach via service learning. The program also is aligned with the curriculum standards set by the Society for Human Resource Management (SHRM), the most influential human resources association.

Program Features

In this program, students develop the skills to manage core HR functions, including workforce planning, staffing, performance management, total rewards, talent management, and training and development. Classes address current topics encountered by human resource professionals, such as:

- Change management, downsizing/rightsizing and mergers and acquisitions
- Internal consulting and organizational development
- Employment law, ethics, and employee and labor relations
- Globalization, outsourcing and managing a diverse workforce
- Metrics, data analytics and human resource information systems
- Organizational succession planning and personal career growth and development

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and will understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of HR/business management practices leading to applicable skills in relevant areas (e.g., selection, training, compensation, and performance management) that leads to professional HR career-related success.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders

Degree Requirements**Course Requirements**

Students complete the MS in Human Resources by taking 12 courses across three groups: 1) six core Human Resource courses, 2) three Human Resource electives, and 3) three Business electives.

Required Core Human Resource Courses

Course	Title	Quarter Hours
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS	4
MGT 523	RECRUITMENT AND SELECTION	4
MGT 525	TRAINING AND CAREER DEVELOPMENT	4
MGT 526	COMPENSATION AND BENEFITS	4
MGT 555	HUMAN CAPITAL STRATEGY AND SCIENCE	4
MGT 591	FUNDAMENTALS OF PEOPLE ANALYTICS	4

Human Resource Electives

Course	Title	Quarter Hours
Select three of the following		12
ECO 526	BUSINESS STRATEGY	
MGT 529	LIFE AND CAREER COACHING	
MGT 530	LEADERSHIP IN ORGANIZATIONS	
MGT 535	CHANGE MANAGEMENT AND CONSULTING	
MGT 551	GLOBAL WORKFORCE MANAGEMENT	
MGT 552	MANAGING DIVERSITY AND INCLUSION	
MGT 562	RESOLVING CONFLICT IN ORGANIZATIONS	
MGT 563	NEGOTIATION SKILLS	
MGT 565	EMPLOYMENT LAW	
MGT 566	HEALTH INSURANCE & BENEFITS	
MGT 584	CONSULTING SKILLS	
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	
MGT 592	ADVANCED PEOPLE ANALYTICS	
MGT 793	MANAGEMENT INTERNSHIP (Strongly recommended for students without HR experience)	
MGT 798	SPECIAL TOPICS (When related to human resources; approval required)

MPS 515 NONPROFIT FINANCIAL ADMINISTRATION

MPS 529 STRATEGIC MANAGEMENT AND PLANNING

¹ Students choose three electives from these general business courses at the Kellstadt Graduate School of Business (and may substitute an HR elective if an equivalent course was taken elsewhere).

² GSB 420 or GSB 519 is a prerequisite

If you are interested in an HR career that specializes in compensation and benefits, please consider taking the following courses: ACC 500 or ACC 502, FIN 555, and MGT 566.

Career Tracks and Certificates

Completion of a career track will earn the student a Certificate in the designated area.

Compensation and Benefits

This career track and certificate aims to deepen knowledge and skills specific to compensation and benefits. The compensation and benefits career track builds on the foundational and required course *MGT 526: Compensation and Benefits*. Presently, this career track is listed as a recommendation for MSHR students who wish to specialize in compensation and benefits. The O*Net OnLine job description database (<https://www.onetonline.org/link/summary/13-1141.00>) describes several knowledge (Personnel and Human Resources, Administration and Management, Law and Government, Economics and Accounting) and skill (Management of Personnel Resources, Complex Problem Solving, Critical Thinking) areas for Compensation, Benefits, and Job Analysis Specialists and Compensation and Benefits Managers. To support students interested in developing knowledge and skills pertaining to compensation and benefits specialists and managers, and thus, become more competitive for such positions, we recommend this career track and certificate.

Course	Title	Quarter Hours
ACC 500	FINANCIAL ACCOUNTING	4
or ACC 502	FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING	
FIN 555	FINANCIAL MANAGEMENT	4
MGT 566	HEALTH INSURANCE & BENEFITS	4

Coaching and Leadership

This career track and certificate aims to deepen knowledge and specific skills specific to coaching and leadership. The coaching and leadership track builds on the foundational and required courses MGT 500: Leading Ethical and Effective Organizations and MGT 525: Training and Career Development. Organizations increasingly rely on coaching as a method to develop managers and leaders to improve workplace effectiveness (e.g., SHRM's Coaching in a Business Environment (<https://www.shrm.org/resourcesandtools/tools-and-samples/toolkits/pages/coachinginabusinessenvironment.aspx>)). To support students interested in developing knowledge and skills pertaining to coaching and leadership, we recommend this career track and certificate.

Course	Title	Quarter Hours
MGT 529	LIFE AND CAREER COACHING	4
MGT 798	SPECIAL TOPICS (For this career track and certificate, you must take MGT 798: The Mindful Leader)	4
or MGT 530	LEADERSHIP IN ORGANIZATIONS	
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	4

Diversity, Equity, and Inclusion

This career track and certificate aims to deepen knowledge and specific skills specific to diversity, equity, and inclusion. The diversity, equity, and inclusion track builds on the foundational and required courses MGT 523: Recruitment and Selection and MGT 555: Human Capital Strategy and Science. The job description for diversity managers (<https://www.shrm.org/ResourcesAndTools/tools-and-samples/job-descriptions/Pages/Diversity-Manager.aspx#:~:text=Collects%20and%20analyzes%20statistical%20data,aid%20diversity%20and%20retention%20initiatives>) from the Society for Human Resource Management describes the need to create strategies to foster organizational diversity goals, develop training and development programs to aid diversity and retention initiatives, and maintain knowledge of employment legislation. To support students interested in developing knowledge and skills pertaining to diversity, equity, and inclusion, and thus, become more competitive for such positions, we recommend this career track and certificate.

Course	Title	Quarter Hours
MGT 551	GLOBAL WORKFORCE MANAGEMENT	4
MGT 552	MANAGING DIVERSITY AND INCLUSION	4
MGT 562	RESOLVING CONFLICT IN ORGANIZATIONS	4
or MGT 565	EMPLOYMENT LAW	

HR/People Analytics

This career track and certificate aims to deepen knowledge and skills specific to HR/people analytics. The HR/people analytics career track builds on the foundational and required course MGT 591: Fundamentals of People Analytics. The job description for human resource analysts (<https://www.shrm.org/resourcesandtools/tools-and-samples/job-descriptions/pages/human-resource-analyst.aspx>) from the Society for Human Resource Management describes the need to understand HR metrics, analyze data on recruitment, staffing, and other practices, create reports based on analytical results, work with databases, and make recommendations for policies and activities. To support students interested in developing knowledge and skills pertaining to people analytics, and thus, become more competitive for such positions, this career track and certificate is recommended.

Course	Title	Quarter Hours
MGT 550	CRITICAL THINKING AND APPLIED ANALYTICS	4
or MGT 588	DATABASE MANAGEMENT SYSTEMS	
MGT 586	DATA VISUALIZATION	4
MGT 592	ADVANCED PEOPLE ANALYTICS	4

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (six HR core courses, three HR related electives, and three Business electives).
- All courses for credit toward the degree must be completed with satisfactory grades within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Human Resources (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Human Resources (MS)

The Master of Science in Human Resources addresses the need for strategic and business-minded professionals to manage today's organizational workforce issues. Students gain proficiency in a wide range of human resources areas including employee attraction and retention, diversity, the global economy, employee training, career development, new technology, incentives, total rewards and performance management.

The program prepares students for careers such as compensation consultant, benefits consultant, trainer, HR analyst, recruiter, labor relations representative and HR director.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Human Resources may apply to the bachelor's degree/Human Resources (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Students participating in this program will typically take the following three graduate level courses during their senior year:

Course	Title	Quarter Hours
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS ¹	4
MGT 555	HUMAN CAPITAL STRATEGY AND SCIENCE ²	4
Select one of the following:		4
MGT 523	RECRUITMENT AND SELECTION ³	

MGT 525	TRAINING AND CAREER DEVELOPMENT ⁴
MGT 526	COMPENSATION AND BENEFITS ⁵

- ¹ Replaces MGT 302 ORGANIZATIONAL BEHAVIOR
- ² Replaces MGT 307 HUMAN RESOURCES MANAGEMENT
- ³ Replaces MGT 330 RECRUITMENT AND SELECTION
- ⁴ Replaces MGT 320 TRAINING AND CAREER DEVELOPMENT
- ⁵ Replaces MGT 335 COMPENSATION & BENEFITS

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MSHR will be awarded upon completion of the remaining graduate level work.

Human-Centered Design (PhD)

Program Requirements	Quarter Hours
Degree Requirements	60
Total hours required	60

Learning Outcomes

Students will be able to:

- Design and conduct research studies including determining the appropriate research methodology for the context and implementing research protocols, and analyzing data.
- Engage in academic research discussions, including, but not limited to, conducting literature reviews and engaging in academic writing.
- Translate research findings into principles to design human-centered experiences.
- Create design-based artifacts and experiences in a chosen disciplinary area.

Degree Requirements

The PhD in Human-Centered Design prepares students to advance the field of digital technology and media design by taking a transdisciplinary and collaborative approach that blends theory with practice. The program embraces a broad diversity of scholarly traditions and creative practices that include design, learning sciences, computer science, human-computer interaction, game design and development, and psychology.

Overview

The Foundation Phase

Students entering the program will begin by completing the necessary foundation courses and participating in small-scale research projects led by their faculty advisors. The purpose of the foundation phase is to ensure that students have the appropriate breadth and depth of knowledge necessary to formulate relevant research questions as well as develop skills for conducting research.

Course	Title	Quarter Hours
HCD 421	DESIGN AND HUMAN EXPERIENCE	4
HCD 450	THEORIES AND METHODS IN HUMAN-CENTERED DESIGN	4
HCD 510	RESEARCH METHODS AND PRACTICE OF SCHOLARSHIP	4
Select two of the following core studio courses:		8

EXP 442	DESIGNING INTERFACES FOR EMERGING TECHNOLOGIES	
EXP 440	DESIGNING PLAYFUL EXPERIENCES	
EXP 441	DESIGNING LEARNING EXPERIENCES	
Select one of the following additional research methods courses:		4
CMNS 582	QUANTITATIVE RESEARCH METHODS	
HCI 445	USER RESEARCH METHODS	
PSY 420	QUANTITATIVE RESEARCH DESIGN (with instructor approval)	

Students can substitute a course for which they can prove equivalent course experience. Substitutions are the replacement of one (1) course for another. To request a substitution, students should present evidence of the equivalent course taken (with a minimum of B-) to their faculty advisor, who will then request approval from the HCD Committee. In rare cases, students may request a substitution due to extensive work experience. The HCD Committee will make the final decision on whether a course can be waived or substituted because of course equivalency or work experience.

Design and Production Phase

During this phase, there is one (1) required course and students will work with their advisors to select at least eight (8) specialized courses to develop their design and production skills. Additional electives not listed below may be selected after students receive written approval from both their faculty advisor and the HCD Committee.

Course	Title	Quarter Hours
CMNS 545	COMMUNICATION AND TECHNOLOGY	4
Select at least eight of the following:		32
CSC 500	RESEARCH COLLOQUIUM	
CMNS 570	INTRODUCTION TO DIGITAL CMN	
DMA 415	AUDIO WORKSHOP	
DMA 425	STILL IMAGE WORKSHOP	
DMA 475	MOVING IMAGE WORKSHOP	
DMA 480	WEB/MEDIA DELIVERY WORKSHOP	
GAM 424	GAME DESIGN WORKSHOP	
HCI 430	PROTOTYPING AND IMPLEMENTATION	
HCI 440	INTRODUCTION TO USER-CENTERED DESIGN	
HCI 450	FOUNDATIONS OF HUMAN-COMPUTER INTERACTION	
HCI 460	USABILITY EVALUATION METHODS	
HCI 470	DIGITAL DESIGN	
HCI 511	ACCESSIBILITY CONSIDERATIONS IN HCI	
HCI 515	DESIGN ETHNOGRAPHY	
HCI 520	LEARNER-CENTERED DESIGN	
HCI 530	MOBILE DESIGN	
HCI 553	SOCIAL INTERACTION DESIGN	
HIT 421	HEALTH INFORMATICS	
IS 511	SOCIAL ISSUES OF COMPUTING	
JOUR 504	MULTIMEDIA NEWS PRODUCTION	
JOUR 520	DATA JOURNALISM	
JOUR 529	ONLINE NEWS BUREAU	
MCS 530	NEW MEDIA AND CULTURE	

MCS 575	DIGITAL MEDIA ETHICS
PSY 404	PERCEPTION AND COGNITION
PSY 430	SOCIAL PSYCHOLOGY OF THE SELF
PSY 567	SPECIAL TOPICS IN COMMUNITY PSYCHOLOGY
SOC 463	SOCIAL PSYCHOLOGY
SOC 464	SOCIAL INEQUALITY AND STRATIFICATION

Research Phase

During the research phase, students will focus on completing their qualifying examinations, candidacy, and dissertation.

- **Breadth Examination:** By the end of the second year in the program, students will take the breadth examination to assess their knowledge of core concepts and principles.
- **Depth Examination:** Under the supervision of their faculty advisor and assisted by two additional faculty members, students will lead a small research project from inception to publication of the results in one of the following areas: human-centered design, learning sciences, game design and development, or interactive media.
- **Candidacy Phase:** This phase begins with successful defense of the dissertation proposal based on a focused research project. Students will enroll in HCD 699 until complete.
- **Dissertation Phase:** All students must complete a dissertation that provides a significant contribution to the student's intended area of expertise. Students will enroll in HCD 701 until complete. The doctoral dissertation must demonstrate the student's ability to engage in significant research that is recognized by an academic community as exhibited by:
 - Relevant and significant research question(s) to a technology-based field
 - In-depth literature review of relevant research
 - A conceptual framework that serves as the foundation for the research
 - Significant research findings and contribution

The designated courses for the research phase are:

Course	Title	Quarter Hours
HCD 599	INDEPENDENT STUDY	8
HCD 699	RESEARCH	8
HCD 701	CANDIDACY DISSERTATION RESEARCH	0

Course Requirements

PhD students are expected to complete at least 60 credits of graduate-level courses. The length of time students spend in the program will vary depending on the student's background. We anticipate that students will finish on average in 4-5 years.

Illustration (Minor)

Required Courses

Select four courses from the following list:

Course	Title	Quarter Hours
ART 106	BEGINNING DRAWING	4
ART 218	FIGURE DRAWING	4

GD 210	DIGITAL ILLUSTRATION I	4-4.5
or ILL 220	MAKING COMICS	
ILL 200	ILLUSTRATION FOUNDATIONS	4

Electives

Select three courses from the following list, one must be on the 300 level:

Course	Title	Quarter Hours
ANI/GD 105	MOTION GRAPHICS FOUNDATIONS	
or ART 105	TWO-DIMENSIONAL FOUNDATIONS	
ART 110	BEGINNING PAINTING	
ART 206	INTERMEDIATE DRAWING	
ART 210	INTERMEDIATE PAINTING I	
ART 218	FIGURE DRAWING	
ART 227	DIGITAL ART	
ART 229	BEGINNING PRINTMAKING	
ART 231	SCREEN PRINTING	
ART 245	PAINTING: MIXOLOGY	
ART 304	THE PHOTOGRAPHIC BOOK	
or ART 331	INTERMEDIATE PRINTMAKING: SCREEN PRINTING	
ART 306	ADVANCED DRAWING	
or ART 376	DRAWING PROJECTS	
ART 310	ADVANCED PAINTING I	
or ART 395	SPECIAL TOPICS IN ART	
ART 318	ADVANCED FIGURE DRAWING	
or ART 338	FIGURE DRAWING IN CONTEXT	
ART 345	ADVANCED PAINTING: MIXOLOGY	
or ART 358	GRAPHIC ART	
GD 210	DIGITAL ILLUSTRATION I	
ILL 206	HISTORY OF COMICS	
ILL 211	INTERMEDIATE DIGITAL ILLUSTRATION	
ILL 220	MAKING COMICS	
ANI 220	STORYBOARDING I	
ANI 345	CHARACTER DESIGN	
GD 150	ILLUSTRATOR WORKSHOP	
& GD 151	and PHOTOSHOP WORKSHOP ¹	

¹ Students must complete both courses to fulfill one elective.

Industrial Design (BFA)

The BFA in Industrial Design integrates drawing, graphic design, and experience design with courses in science, math, computer science, physics and computer-aided design/manufacturing/engineering. Unique to the program are required classes in marketing, management and sustainability. Students create under the constraints of what is possible and practical using established manufacturing techniques. Graduates of the program learn to design, make and scale through an iterative process from prototyping to manufacturing.

Program Requirements	Quarter Hours
Liberal Studies Program	52
Required Courses	134
Major Electives	12

Open Electives	10
Total hours required	208

Students will be able to:

- Analyze a system through reconfiguration and sensory awareness.
- Design objects through the intentional use of template systems and geometric principles.
- Evaluate the generative nature of material as it informs design.
- Utilize principles of interconnectedness and modularity in the design of objects.
- Create objects or systems that explore extreme scales.
- Determine the broader impact of an object within its environment.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
Not Required		
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
Required ¹		4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 1 Course Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 1 Course Required

Religious Dimensions (RD) (p. 1330)

- 1 Course Required

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
ID 100	INTRODUCTION TO INDUSTRIAL DESIGN	4
ID 101	METAPHYSICS OF OBJECTS	4
ID 104	HAPTICS	4
ID 105	DIGITAL MANUFACTURING	4
ID 210	PROCESSES AND MATERIALS (This is a 2 hour course that must be taken 5 times for 10 hours total)	10
ID 250	DRAWING TECHNIQUES FOR INDUSTRIAL DESIGN	4
ID 300	HISTORY OF INDUSTRIAL DESIGN	4
ID 391	INDUSTRIAL DESIGN STUDIO I (This course must be taken three times for 12 hours total)	12
ID 392	INDUSTRIAL DESIGN STUDIO II (This course must be taken three times for 12 hours total)	12
ID 395	SPECIAL TOPICS IN INDUSTRIAL DESIGN	4

or MKT 352	NEW PRODUCT DEVELOPMENT	

Sustainability

Course	Title	Quarter Hours
ENV 151	INTRODUCTION TO SUSTAINABILITY	4

Major Electives

Any ID, EXP, PHY, ANI, or ART class can be taken for major elective credit.

Senior Capstone Requirement

ID 396 INDUSTRIAL DESIGN SENIOR CAPSTONE

Industrial Design (Minor)

The INDD minor will introduce the pedagogical framework of object-oriented ontology by exploring the nature of objects and perception. Students will craft objects that build on traditional constructionist thinking while also foregrounding newer maker-centered learning concepts already supported at DePaul through institutions like the Idea Realization Lab (IRL) and the Richardson Library makerspace. They will also explore the systems underlying the objects and devices that they interact with on a daily basis. Through constructing a deeper understanding of these otherwise hidden frameworks students will develop self-efficacy and agency over them.

Required Courses

Course	Title	Quarter Hours
ID 100	INTRODUCTION TO INDUSTRIAL DESIGN	4
ID 101	METAPHYSICS OF OBJECTS	4
ID 210	PROCESSES AND MATERIALS	2
PHY 110	BASIC ELECTRONICS: PRINCIPLES & TECHNIQUES	4
Select eight (8) Credit Hours of electives		8

Electives

Elective courses may be selected from the following list. Note that ID 210 may be taken twice for the minor, once as a required course and a second time as an elective.

ID 250	DRAWING TECHNIQUES FOR INDUSTRIAL DESIGN	
EXP 210	DESIGN AND FABRICATION FOR PHYSICAL SPACE WORKSHOP	
EXP 250	HARDWARE DESIGN BASICS WORKSHOP	
UXD 210	INTRODUCTION TO USER EXPERIENCE DESIGN	

Industrial-Organizational Psychology (MA)/(PhD)

The Industrial-Organizational (I-O) Psychology Program prepares students for careers in industry, government and university settings and focuses on the theory and techniques of selecting, evaluating, and developing individuals within an organization. Topics include personnel selection, performance appraisal, training and development, employee attitudes, motivation, leadership, and organizational theory. The program also allows considerable flexibility for the advanced student to pursue related disciplines such as management, information systems and marketing. The MA in I-O Psychology is a non-terminal degree. For a terminal master's degree in I-O Psychology please visit our Combined Degree Programs page. Please note that the combined BA/MS degree is for current DePaul undergraduate students only.

The curriculum is based on the scientist/practitioner model of graduate education and follows two basic principles:

1. The I-O psychologist must have a solid foundation in general psychological theory, research methodology and philosophy of science, in addition to knowledge in the content area of I-O psychology.
2. The I-O psychologist must be aware of the contributions of other disciplines to the study of organizations and must have practical experience in working with formal organizations as a psychologist.

Program Requirements	Quarter Hours
MA Degree Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
PhD Degree Requirements	24
Total hours required	24

MA Learning Outcomes

- Identify major theoretical concepts in Industrial Organizational psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Industrial Organizational psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed Industrial Organizational scholarly journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Industrial Organizational psychology.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in Industrial Organizational psychology.
- Demonstrate competence in the practice of Industrial and Organizational Psychology.

PhD Learning Outcomes

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Industrial-Organizational Psychology currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly Industrial-Organizational Psychology journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Independently develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Industrial-Organizational Psychology.
- Independently describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of

procedures needed for IRB approval of research projects and apply these ethical practices in research.

- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in Psychological Science. Demonstrate competence in Industrial-Organizational Psychology applications.

MA/PhD Degree Requirements

The Industrial-Organizational (I-O) MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements

The MA degree requires a minimum of 76 quarter hours beyond the completion of a bachelor's degree, including four quarter hours of thesis research.

Statistics and Methodology Courses

Course	Title	Quarter Hours
PSY 410	ADVANCED STATISTICS I	4
PSY 411	ADVANCED STATISTICS II	4
PSY 419	FACTOR ANALYSIS AND STRUCTURAL EQUATION MODELING	4
PSY 420	QUANTITATIVE RESEARCH DESIGN	4
PSY 450	PSYCHOLOGICAL MEASUREMENT	4

Psychology Core Courses

Course	Title	Quarter Hours
Select one of the following:		4
PSY 404	PERCEPTION AND COGNITION	
PSY 426	LANGUAGE AND COGNITION	
PSY 473	THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING	
Select one of the following:		4
PSY 430	SOCIAL PSYCHOLOGY OF THE SELF	
PSY 435	SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE	
PSY 556	PREJUDICE AND INTERGROUP RELATIONS	
PSY 560	SOCIAL COGNITION	

I-O Psychology Core Courses

Course	Title	Quarter Hours
PSY 559	SEMINAR IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of the overall program)	4
PSY 587	PRACTICUM IN ADVANCED RESEARCH IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of the overall program)	4
Select six of the following:		24
PSY 440	PSYCHOLOGY OF WORK AND MOTIVATION	
PSY 441	PSYCHOLOGY OF LEADERSHIP	
PSY 442	PERSONNEL PSYCHOLOGY	

PSY 444	PERFORMANCE APPRAISAL AND PERFORMANCE MANAGEMENT
PSY 445	ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS
PSY 446	PSYCHOLOGICAL THEORIES OF ORGANIZATIONS
PSY 447	ORGANIZATIONAL CONSULTATION
PSY 448	CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY
PSY 449	ADVANCED SEMINAR IN WORK TEAMS AND COLLABORATION

Research Course

Course	Title	Quarter Hours
PSY 597	MASTER'S THESIS RESEARCH	4

Electives

Additional coursework of at least 16 quarter hours is required to attain the minimum of 76 quarter hours. These courses may include the I-O Psychology Core courses listed above or any graduate-level course. The courses must be taken with the consent of the student's faculty advisor.

Master's Thesis Research

Complete a thesis on a topic approved by the department.

Master's Thesis Examination

Either written or oral, the examination may be, but is not necessarily limited to, a defense of the student's thesis.

PhD Course Requirements

I-O Psychology Core Courses

Course	Title	Quarter Hours
PSY 559	SEMINAR IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of the overall program)	4
PSY 587	PRACTICUM IN ADVANCED RESEARCH IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (Can be taken during the MA or PhD portion of the overall program)	4
Select three courses from the following list which were not taken during the MA Program:		12
PSY 440	PSYCHOLOGY OF WORK AND MOTIVATION	
PSY 441	PSYCHOLOGY OF LEADERSHIP	
PSY 442	PERSONNEL PSYCHOLOGY	
PSY 444	PERFORMANCE APPRAISAL AND PERFORMANCE MANAGEMENT	
PSY 445	ADVANCED TRAINING AND DEVELOPMENT IN ORGANIZATIONS	
PSY 446	PSYCHOLOGICAL THEORIES OF ORGANIZATIONS	
PSY 447	ORGANIZATIONAL CONSULTATION	

PSY 448	CONCEPTS, METHODS, AND ETHICS FOR INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY
PSY 449	ADVANCED SEMINAR IN WORK TEAMS AND COLLABORATION

Research Course

Course	Title	Quarter Hours
PSY 599	DOCTORAL DISSERTATION RESEARCH	4

Doctoral Candidacy Examination (Comprehensive Examinations)

Designed to assess the student's knowledge of psychology and the student's area of specialization. The examination is given in two sections. The first section consists of a written examination related to I-O psychology. The second section is an oral examination in the area of I-O psychology.

Admission to Doctoral Candidacy

Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis and passed the Doctoral Candidacy Examination; the candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program.

Dissertation

Departmental committee approval and acceptance of topic and outline of dissertation given only after admission to candidacy. Dissertation research should be completed during the student's fourth year in the program.

Oral Examination

Student to defend their dissertation and to show competence in the general field of psychology and in the area of specialization.

Time Limitation

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

Program Graduate Academic Student Handbook

Minimum Grades

- The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.
- If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can (a) gain competence in the course material, and (b) demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a

substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.

- 3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student’s record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student’s advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
- 4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program. The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student’s program to hear the appeal. Depending on the student’s academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master’s degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Academic Probation

Students are expected to maintain a minimum cumulative grade point average (GPA) of 3.20. If a student’s cumulative GPA falls below this minimum, the student will be put on academic probation and will have one quarter of coursework to raise their cumulative GPA to at least a 3.20 or face academic dismissal from the program. If the student raises his/her cumulative GPA to at least a 3.20, but it falls below the minimum a second time, he or she will be dismissed from the program before the next term begins.

Academic Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program (i.e., successful completion of the doctoral candidacy examination/project), and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation Requirements

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

Graduation with Distinction for MA

The criteria for graduating "with distinction" are a minimum cumulative GPA of 3.75 and the recommendation of "with distinction" by the thesis committee.

For topics not listed above, please consult the Graduate Student Handbook of the Department of Psychology, your program manual or the Psychology Graduate Program Assistant.

Industrial-Organizational Psychology (Minor)

The Industrial-Organizational Psychology minor allows you to explore the behaviors that contribute to a successful or problematic work environment. This minor complements a major course of study tied closely with businesses.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in Industrial-Organizational Psychology.

Six psychology courses are required, including:

Course	Title	Quarter Hours
PSY 105	INTRODUCTORY PSYCHOLOGY I	4
PSY 106	INTRODUCTORY PSYCHOLOGY II	4
PSY 380	INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (Offered at least twice a year.)	4
Select at least one course from the I-O approved list:		4
PSY 355	GROUPS AND ORGANIZATIONS	
PSY 381	PERSONNEL PSYCHOLOGY	
PSY 382	ORGANIZATIONAL BEHAVIOR	
PSY 385	TRAINING AND DEVELOPMENT IN ORGANIZATIONS	
PSY 388	TOPICAL SEMINAR IN INDUSTRIAL - ORGANIZATIONAL PSYCHOLOGY	
Select any two additional psychology courses. It is recommended that they be from the above list, but it is not required		8

Information Systems (BS)

The BS in Information Systems focuses on the organizational and business application of computers and related technologies. It prepares students for careers in IT project management, systems analysis & design, database administration, help desk, enterprise systems administration, and user training.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	88
Open Electives	28
Total hours required	192

Learning Outcomes

Students will be able to:

- Identify four different types of information systems.
- Identify five phases of systems development life cycle.
- Identify two best practices in IS project management.
- Describe the characteristics and implementation requirements for enterprise-level information systems.
- Identify the key elements of two commonly used diagrams for IS requirements and conceptual design specifications (e.g., data flow diagram, use case diagram, entity relationship diagram).

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
IS 376	INFORMATION SYSTEMS PROJECT ¹	4

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	4
CSEC 340	FUNDAMENTALS OF INFORMATION ASSURANCE (FORMERLY CNS 340)	4

Select twenty-eight (28) credit hours of Open Electives		28

Major Electives

Major Electives may be selected from any 200- or 300-level CSEC, CSC, ECT, IS, IT, SE, NET, or UXD courses. Students are encouraged, but not required, to select all Major Elective courses from one of the following competency lists:

Competency in Management Applications

Course	Title	Quarter Hours
DSC 341	FOUNDATIONS OF DATA SCIENCE	
IS 331	FUNDAMENTALS OF DIGITAL PRODUCT MANAGEMENT	
IS 379	VIRTUAL SOFTWARE TEAMS	
IT 320	CONTENT MANAGEMENT SYSTEMS	

Competency in Government, Regulation, and Compliance

Course	Title	Quarter Hours
CSEC 228	LEGAL, ETHICAL AND SOCIAL ISSUES IN INFORMATION SECURITY (FORMERLY CNS 228)	
CSEC 342	CYBERSECURITY OPERATIONS (FORMERLY CNS 342)	
CSEC 345	HUMAN-CENTERED CYBERSECURITY (FORMERLY CNS 345)	
CSEC 366	CRITICAL INFRASTRUCTURE AND CONTROL SYSTEMS CYBERSECURITY (FORMERLY CNS 366)	
IS 382	INTRODUCTION TO LEGAL ISSUES IN INFORMATION TECHNOLOGY	
IS 386	INTRODUCTION TO CYBERSECURITY LAW	

Competency in User Interaction

Course	Title	Quarter Hours
UXD 220	PROTOTYPING METHODS I	
UXD 222	INTRODUCTION TO DATA VISUALIZATION DESIGN	
UXD 225	CODING DESIGN FRAMEWORKS	
UXD 260	USER EXPERIENCE RESEARCH AND EVALUATION	
UXD 270	USER-CENTERED WEB DESIGN	

Competency in Software Development

Course	Title	Quarter Hours
IT 211	INTRODUCTION TO APPLIED PROGRAMMING	
IT 212	APPLIED OO PROGRAMMING	
IT 313	ADVANCED APPLICATION DEVELOPMENT	
IT 330	USER INTERFACE DEVELOPMENT FOR INTERACTIVE SYSTEMS	

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses).
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses.
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses.
- Maintain a cumulative GPA of 2.0 or higher.

Information Systems (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (<https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx>) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office

(advising@cdm.depaul.edu) if interested in a combined degree with a CDM master's degree.

If you are currently a CDM student and interested in combining your CDM bachelor's degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (<https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx>) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Information Systems (Minor)

DePaul's Information Systems minor will help you acquire the technological skills needed to address the operational, tactical and strategic challenges facing business, governmental and non-profit organizations.

Course Requirements

Open Elective

Students must complete four (4) credit hour of Open Electives.

- Any CSEC, CSC, DSC, ECT, GAM, GPH, HCI, HIT, IS, IT, NET, PM, or SE course in the 421-699 range qualifies.

Capstone Options

Four (4) credit hours are required for the capstone. Students have the option of completing either (a) IS 577 (Information Systems capstone course), (b) a Graduate Internship (4 credits), (c) two quarters of CSC 500 (a Research Colloquium course), (d) IS 696 (a Master's Project course), or (e) a Master's Thesis.

- Capstone Course**
 - IS 577
- Graduate Internship**
 - An internship offers students the opportunity integrate their academic experience with on-the-job training in information systems. Students must enroll in CSC 697 for four (4) credit hours to satisfy the practicum requirement. These are the steps:
 - Secure an internship with a focus in information systems.
 - International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval (<http://oiss.depaul.edu/Requests/Forms/index.asp> (<http://oiss.depaul.edu/Requests/Forms/>)).
 - Login to MyCDM and click the "MyInternships" link on the left to start the course enrollment process.
- Research Options**
 - CSC 500 This is a course for two (2) credit hours therefore students must enroll in the course in each of two (2) separate quarters.
 - Master's Research
 - Up to eight (8) credit hours with Major Elective substitutions.
 - IS 696
 - Master's Thesis
 - A student who has made an original contribution to the area may choose to complete a Master's Thesis. The process is:
 - Complete IS 590 as a Major Elective substitution.
 - The student and the student's research advisor form a Master's Thesis Committee of three (3) faculty.
 - The student enrolls in IS 698 for two (2) consecutive quarters. In the event, the student has not completed the thesis within these two (2) quarters, the student will be allowed to register for the zero (0) credit hour course CSC 698 and the transcript will show the thesis title as the course topic.
 - The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.

- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applies toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Information Systems (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Information Systems (MS)

The Information Systems (MS) combined degree program is open to all undergraduate majors across the university.

Students who are interested in this program and meet the following criteria

- Sophomore status (at least 44 quarter hours earned)
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (<https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx>) for that program
- Faculty endorsement from a CDM full-time faculty member

Student should discuss their interest in this combined degree program with a CDM Information Systems faculty advisor prior to submitting the application for admission.

If accepted, a student can take up to three graduate courses (12 credits). These three courses count towards both the bachelor's program and the Master of Science degree. Students will pay the current undergraduate tuition rate for these three courses.

Maintaining Good Standing

- Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter
- The student and Faculty Advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course
- If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the

student will be dismissed from the combined program and resume the traditional BA/BS.

- Graduate courses passed before dismissal will not be counted and may not be retaken. If the student pursues graduate study, other graduate courses must be substituted. To apply to a CDM graduate degree program, following dismissal from the combined degree, students must follow regular CDM Admission procedures, and will be required take 12 new graduate courses to earn a master's degree.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study may include which undergraduate classes to avoid taking in order to take the graduate version. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

Registering for Master's Degree Courses

The student's advisor must complete the BS/MS Request form, under the Faculty tab on the CDM Intranet, to request the student's enrollment in the three graduate courses. The form will require the following data: student's full name, graduate course and section, and the undergraduate course to be substituted for. The CDM dean's office will process the enrollment.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. Learn more about master's degree admission requirements (<http://www.cdm.depaul.edu/Prospective%20Students/Pages/MastersDegreeStudents.aspx>). Students will follow the master's degree program requirements for the term they are admitted to the master's degree program.

Double Demon Scholarship

The Double Demon scholarship, offered exclusively to DePaul alumni, covers 25 percent of the tuition for a master's degree or select certificate programs. Combined degree program students are eligible.

Alumni from any of DePaul's colleges who are admitted into a graduate degree program from one of these programs automatically qualify for the Double Demon Scholarship. This scholarship is available for new part-time or full-time students who began a master's degree in CDM in winter 2012-2013 or later and the other colleges beginning in winter 2013-2014. It cannot be applied retroactively.

There is no limit to the amount of courses that can be taken by eligible students. However, students may not take more than four courses in any quarter without permission from the college. The scholarship cannot be applied to cover fees or other non-tuition costs.

 - An internship offers students the opportunity integrate their academic experience with on-the-job training in information systems. Students must enroll in CSC 697 for four (4) credit hours to satisfy the practicum requirement. These are the steps:
 - Secure an internship with a focus in information systems.
 - International Students must obtain the appropriate practical training form and meet with an advisor in the CDM Academic Center for approval (<http://oiss.depaul.edu/Requests/Forms/index.asp> (<http://oiss.depaul.edu/Requests/Forms/>)).
 - Login to MyCDM and click the "MyInternships" link on the left to start the course enrollment process.
- Research Options**
 - CSC 500 This is a course for two (2) credit hours therefore students must enroll in the course in each of two (2) separate quarters.
 - Master's Research
 - Up to eight (8) credit hours with Major Elective substitutions.
 - IS 696
 - Master's Thesis
 - A student who has made an original contribution to the area may choose to complete a Master's Thesis. The process is:

- Complete IS 590 as a Major Elective substitution.
- The student and the student's research advisor form a Master's Thesis Committee of three (3) faculty.
- The student enrolls in IS 698 for two (2) consecutive quarters. In the event, the students has not completed the thesis within these two (2) quarters, the student will be allowed to register for the zero (0) credit hour course CSC 698 and the transcript will show the thesis title as the course topic.

4. The student will need to submit to the committee a thesis detailing the results of the research project. After a public defense, the committee will decide whether to accept the thesis.

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applies toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same course but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

Information Technology (BS)

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology has three concentrations:

- Media Engineering
- Standard
- Web Development

The BS in Information Technology can be completed online by transfer students if they meet the following requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see www.cdm.depaul.edu (<http://www.cdm.depaul.edu>).

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	28
Concentration Requirements	84
Total hours required	192

Learning Outcomes

Students will be able to:

- Design an application using principles of user-centered design.
- Construct a web application using best practices.
- Write computer programs that interact with software systems such as file systems, databases, web servers, and browsers.
- Participate in the design, implementation, and management of a software development project or activity.
- Communicate orally and in written form, their recommendations to instructors, clients, and other students.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required ²		4
Senior Year		
Capstone		
Required ^{1, 3}		4

¹ Students must earn a C- or better in this course.

² IT 394 required for Standard and Web Development concentrations.

³ IT 395 required for Standard and Web Development concentrations; FILM 398 required for Media Engineering concentration.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Students must take one of the following ethics courses: CSC 208 (PI), PHL 248/MGT 248 (PI) or REL 228/MGT 228 (RD).

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements**

Course	Title	Quarter Hours
IT 211	INTRODUCTION TO APPLIED PROGRAMMING	4
IT 212	APPLIED OO PROGRAMMING	4
IT 223	DATA ANALYSIS	4
IT 240	INTRODUCTION TO DATABASES	4
IT 263	APPLIED NETWORKS AND SECURITY	4
IT 313	ADVANCED APPLICATION DEVELOPMENT	4
UXD 210	INTRODUCTION TO USER EXPERIENCE DESIGN	4

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Media Engineering, Standard, or Web Development.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Media Engineering, Information Technology (BS) (p. 628)
- Standard Concentration, Information Technology (BS) (p. 629)
- Web Development Concentration, Information Technology (BS) (p. 629)

Information Technology (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (<https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx>) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master's degree.

If you are currently a CDM student and interested in combining your CDM bachelor's degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (<https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx>) joint

degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the student receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Media Engineering, Information Technology (BS)

¹ BS IT Major Electives can be chosen from any 200-level or 300-level CDM course. Appropriate non-CDM courses will be accepted as major electives if approved by the student's advisor. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective Credit Hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu/>) to see sample schedule of course requirements on a year-by-year basis.

Information Technology (BS) Online

The BS in Information Technology focuses on preparing graduates who are able to configure software to meet the needs of organizations. Students acquire skills related to the selection, creation, application, integration and administration of computing technologies. This degree prepares you to become skilled in problem solving and programming, networks and communications systems, databases, Internet and Web technologies, security and project management, and have a strong grasp of business concepts and technical communications.

The BS in Information Technology online has two concentrations:

- Standard
- Web Development

The BS in Information Technology can be completed online by transfer students if they meet the following requirements:

- Have a minimum of 45 quarter/30 semester hours of transfer credit
- Have a minimum cumulative 2.0 GPA
- Be in good standing at the last school they attended

Note - The lab science requirement and the pre-calculus prerequisite for the Data Analysis (IT 223) requirement are not available online at DePaul and will need to be completed on campus or transferred in from another institution.

For more information on this option and a sample schedule please see www.cdm.depaul.edu (<http://www.cdm.depaul.edu>).

Intellectual Property Law & Information Technology (LLM)

DePaul's LLM in Intellectual Property Law is regarded as one of the most extensive programs in the country, and the Center for Intellectual Property Law & Information Technology (CIPLIT®), which oversees the program, is an innovative leader in the field. With numerous course offerings, the program addresses the need for specialized training in intellectual property and information technology law.

Courses must be selected from the LLM in Intellectual Property courses. Candidates must complete three required courses and five electives. The LLM program may be completed on either a full- or part-time basis but must be completed within five years.

Program Requirements	Semester Hours
Core Requirements	9
Elective Requirements	15
Total hours required	24

Learning Outcomes

- Domestic students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Domestic students will be able to conduct advanced legal research and analysis in the student's area of specialization.
- International students will be able to identify structures of the U.S. legal system and government institutions.
- International students will be able to demonstrating understanding of how a common law system operates in a constitutional democracy.
- International students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- International students will be able to identify and apply relevant legal authority.
- International students will be able to communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul's faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in a special course introducing them to the Socratic teaching method, the differences between civil and common law systems, and the foundations of the U.S. legal system.

To earn the LLM in Intellectual Property Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LLM program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD/LLM program, credits earned as part of the JD program do not count toward the LLM degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LLM program.

Course Requirements

Courses must be selected from the LLM in Intellectual Property Law courses listed below.

Required Courses

Course	Title	Semester Hours
LAW 250	SENIOR RESEARCH SEMINAR (approved topic)	3
Select at least one of the following:		3
LAW 447	PATENT LAW	
LAW 344	COPYRIGHT LAW	
LAW 271	TRADEMARK & UNFAIR COMPETITION LAW	
Select at least one of the following:		2-3
LAW 341	INTERNET LAW	
LAW 924	DATA PRIVACY LAW: US & EU	
LAW 925	CYBERSECURITY LAW: LITIGATION AND NEGOTIATION	

Additional Required Courses for International Lawyers

Course	Title	Semester Hours
LAW 322	INTRODUCTION TO AMERICAN LAW AND LEGAL SYSTEMS	3
LAW 556	INTRODUCTION TO LEGAL WRITING AND RESEARCH	3

Elective Courses

Course	Title	Semester Hours
LAW 246	PATENT & TRADEMARK SEARCHING	
LAW 250	SENIOR RESEARCH SEMINAR (Advanced Intellectual Property; Advanced Patents; Cultural Heritage; or other approved topic)	

LAW 271	TRADEMARK & UNFAIR COMPETITION LAW
LAW 301	SPECIAL TOPICS IN LAW (IP Valuation in Tech, Health, and Other Industries; other approved topic)
LAW 333 or LAW 293	MUSIC LAW MUSIC TRANSACTIONS: REPRESENTING TALENT
LAW 338	INTELLECTUAL PROPERTY FOR CORPORATE TRANSACTIONAL LAWYERS
LAW 341	INTERNET LAW
LAW 344	COPYRIGHT LAW
LAW 357	ENTERTAINMENT LAW
LAW 402 or LAW 508	ANTITRUST ADMINISTRATIVE LAW
LAW 428	INDEPENDENT STUDY (approved topic)
LAW 441	SPORTS LAW
LAW 447	PATENT LAW
LAW 454	INTERNATIONAL INTELLECTUAL PROPERTY
LAW 455	LEGAL DRAFTING (Art Market Transactions; IP Licensing & Negotiations; Trademark & Copyright; Trademark & Patent; Patents; or other approved topic)
LAW 469	LITIGATION STRATEGY: INTELLECTUAL PROPERTY
LAW 489	INTELLECTUAL PROPERTY SURVEY
LAW 524	EXTERNSHIP PROGRAM (approved placement in IP/IT)
LAW 564	EXTERNSHIP SEMINAR (in conjunction with approved LAW 524 placement above)
LAW 535	ART AND THE LAW
LAW 728	FOOD AND DRUG LAW
LAW 924	DATA PRIVACY LAW: US & EU
LAW 925	CYBERSECURITY LAW: LITIGATION AND NEGOTIATION

Students may count one of the following courses offered through CDM:

LAW 920	INFORMATION SECURITY MANAGEMENT
LAW 921	DISASTER RECOVERY THEORY STRATEGIES
LAW 922	INTRODUCTION TO PROGRAMMING
LAW 923	LEGAL RESPONSIBILITIES IN INFORMATION TECHNOLOGY
LAW 927	IT AUDITING

Intercultural Communication (Minor)

In the Intercultural Communication minor program, you will study the theories and methods necessary to analyze communication among and between diverse communities and ethnic groups within the United States.

Course Requirements

A minor in Intercultural Communication requires students to complete six courses (24 credits).

Course	Title	Quarter Hours
CMN 103	INTERCULTURAL COMMUNICATION	4
CMN 104 or CMNS 230	PUBLIC SPEAKING PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY	4
Select four of the following:		16
CMN 394	MAKING THE MOST OF YOUR COMMUNICATION INTERNSHIP	
CMN 398	STUDY ABROAD	
CMNS 205	COMMUNICATION, CULTURE AND COMMUNITY	
CMNS 221	HOW LANGUAGE WORKS: INTRODUCTION TO LINGUISTICS	
CMNS 308	TOPICS IN INTERCULTURAL COMMUNICATION	
CMNS 309	INTERNATIONAL/GLOBAL COMMUNICATION	
CMNS 321	CULTURAL AND SYMBOLIC CRITICISM	
CMNS 330	TOPICS IN PERFORMANCE	
CMNS 333	CULTURES IN CONVERSATION	
CMNS 334	URBAN COMMUNICATION	
CMNS 337	ASIAN-AMERICAN MEDIA REPRESENTATIONS	
CMNS 338	ASIAN CULTURE AND COMMUNICATION	
CMNS 339	PERFORMANCE OF GENDER & SEXUALITY	
CMNS 361	GENDER AND COMMUNICATION	
CMNS 382	APPLIED RESEARCH METHODS IN COMMUNICATION STUDIES	

Students majoring in Intercultural Communication (BA) are restricted from earning this minor.

Interdisciplinary Studies (MA)

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students' academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs.

Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MA in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women's and Gender Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48-52
Total hours required	48-52

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
- Analyze the social and/or historical context of phenomena and value systems in social and institutional settings.

Degree Requirements

Portfolio

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

Midpoint Essay

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB must be done through the IDS office.
- No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six courses may be taken in the Jarvis College of Computing and Digital Media (CDM). Special permission must be sought for courses taken in the School of Continuing and Professional Studies (formerly SNL). Only non-performance courses may be taken in School of Music or the Theatre School.
- Prerequisites within Departments and Schools apply.
- Certain individual courses may be not be open to IDS students.
- To support the student's program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

Program Completion (Capstone) Steps

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 if they require an additional quarter of research and other preparation for MLS 499.

Both 498 and 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the ISD director sign a Culminating Project Completion Form.

Program Completion (Capstone) Options

The IDS program may be completed in one of four ways:

Thesis Option (12 Courses)

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499 the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

Practicum Option (12 Courses)

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option (13 Courses)

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student's 13th and final course.
- Requires formal proposal and approval of committee.

Exit Course Option (13 Courses)

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

Determination of Degree

If the majority of courses completed for the master's degree are drawn from programs that award the Master of Arts degree, then the student will earn the MA. If the number is equal the student can choose the MA or the MS.

Student Handbook

Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete Core Courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502 or IDS 502) during the three quarters of the academic school year. After three consecutive terms of Candidacy Continuation, students should enroll in Active Status (MLS 501 or IDS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced

status may result in dismissal from the program if the student has not formally withdrawn from the program.

Readmission

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student's overall interdisciplinary program.
2. The department does not offer courses in the same area on the graduate level.
3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. A full description of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of "distinction" on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are

taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed here.

Interdisciplinary Studies (MS)

The Interdisciplinary Studies Program (IDS) is an innovative, flexible, and highly individualized graduate program designed to meet students' academic and professional goals. The program gives students the opportunity to design a program of study tailored to their own needs and interests. When students choose IDS, they take on the exciting challenge of creating their own curriculum and unique plan for learning. Creating an individualized program requires maturity, self-motivation, and independence. Students seeking a combination of flexible options and academic challenges are natural IDS candidates. IDS is a creative alternative to more rigid traditional, discipline-specific programs. Students can build their particular academic or professional interests and concentrate on specialized fields that are not available in traditional graduate programs.

The program offers students individualized cross-disciplinary majors, incorporating courses drawn from social sciences, humanities, business, computer and information science, and public service. The IDS Program is jointly administered with the Master of Arts in Liberal Studies Program (MALS) by the Interdisciplinary Self-Designed Program (ISD). IDS students are welcome to enroll in MALS Core Courses and cross-lists.

The program offers the following:

- Individual, self-designed graduate program of study that builds on specific academic and professional interests.
- Ability to combine various academic disciplines in chosen areas of study.
- Choice of courses in most colleges and schools.

The MS in Interdisciplinary Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Interdisciplinary Studies + Community Development Certificate
- Interdisciplinary Studies + Digital Humanities Certificate
- Interdisciplinary Studies + Global Health Certificate
- Interdisciplinary Studies + Metro Planning and Development Certificate
- Interdisciplinary Studies + Public Health Certificate
- Interdisciplinary Studies + Social Research Certificate
- Interdisciplinary Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Interdisciplinary Studies + Women's and Gender Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48-52
Total hours required	48-52

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and/or inter-disciplinary approaches in research and writing in their capstones and other major writing projects.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic or technical writing projects.
- Analyze and interpret discourse and media in a variety of academic, literary, professional, and popular genres.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone, analyzing and incorporating a variety of academic and technical resources in appropriate scholarly and professional formats.
- Analyze value systems in social, professional, and institutional settings.

Degree Requirements Portfolio

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At the culminating point there will be work from a total of at least six courses in the portfolio.

Midpoint Essay

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Maximum of 8 quarter hours of credit in approved 300-level courses, and remainder of credit hours from 400/500/600-level courses.
- No more than five courses may be taken in the Kellstadt Graduate School of Business (KGSB), including courses which are cross-listed in other programs and courses transferred from other institutions which are business courses. Registration for courses in the KGSB in the must be done through the IDS office.
- No more than six courses may be taken in any single discipline within the College of Liberal Arts and Social Sciences, no more than six courses may be taken in the College of Education, and no more than six courses may be taken in the Jarvis College of Computing and Digital Media (CDM). Special permission must be sought for courses

taken in the School of Continuing and Professional Studies (formerly SNL). Only non-performance courses may be taken in School of Music or the Theatre School.

- Prerequisites within Departments and Schools apply.
- Certain individual courses may be not be open to IDS students.
- To support the student's program plan, the IDS advisor may require that the student take certain courses in areas such as writing, statistics, disciplinary methodologies, foreign languages, etc., when appropriate.

Program Completion (Capstone) Steps

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498 if they require an additional quarter of research and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS/IDS director sign a Culminating Project Completion Form.

Program Completion (Capstone) Options

The IDS program may be completed in one of four ways:

Thesis Option (12 Courses)

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA lower than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499 the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal and approval of committee.

Practicum Option (12 Courses)

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA lower

than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option (13 Courses)

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student's 13th and final course.
- Requires formal proposal and approval of committee.

Exit Course Option (13 Courses)

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall IDS Program. The instructor will grade the paper, and another reader suggested by the IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

Determination of Degree

If the majority of courses completed for the master's degree are drawn from programs that award the Master of Science degree, then the student will earn the MS. If the number is equal the student can choose the MS or the MA.

Student Handbook

Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain

courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. Readmission

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances:

1. The course is necessary as a part of the student's overall interdisciplinary program.
2. The department does not offer courses in the same area on the graduate level.
3. The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course.

Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a midpoint and culminating point essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of "distinction" on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

International Business (Minor: Business Students Only)

Students in the Driehaus College of Business who demonstrate a proficiency in a modern language may minor in International Business. Students will learn about factors affecting international trade, monetary economics, and political economy with a special focus on a particular economic hot spot.

The International Business minor is available to Driehaus College of Business students only. A student must be able to demonstrate that he or she has modern language proficiency through the intermediate level of college coursework to complete the minor.

Course Requirements

The minor consists of six to ten courses totaling 24.0-36.0 hours:

Course	Title	Quarter Hours
Select one economics course from the following:		4
ECO 333	TOPICS IN GLOBAL ECONOMIES	
ECO 361	INTERNATIONAL TRADE	

ECO 362	INTERNATIONAL MONETARY ECONOMICS	
PSC 344	INTERNATIONAL POLITICAL ECONOMY	
Select eight hours of International business courses from:		8
ECO 316	EUROPEAN ECONOMIC HISTORY	
ECO 330	RADICAL RESPONSES TO CAPITALISM	
ECO 333	TOPICS IN GLOBAL ECONOMIES	
ECO 334	UNDERSTANDING CHINA'S ECONOMY	
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES	
ECO 361	INTERNATIONAL TRADE	
ECO 362	INTERNATIONAL MONETARY ECONOMICS	
ECO 363	ECONOMICS OF THE EUROPEAN UNION	
FIN 340	INTERNATIONAL FINANCE	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT (available only to Marketing Honors majors)	
MKT 360	INTERNATIONAL MARKETING	
Select three to six modern language and/or area studies courses (related to the language being studied)		12-24

Modern Language and Area Studies

The exact mix of language and area studies courses is determined by the student's starting level in the modern language.

1. For a student with limited language background who does not place out of any college level language course, two years of college level language instruction (six courses through the intermediate level) are required.
2. For a student who places out of one or more of the college language courses, he/she will start the language sequence at the appropriate placement and continue it through the intermediate level of instruction. If the student needs fewer than three language courses to complete the intermediate sequence, the student will take either advanced language or area studies courses to complete the minimum three course language/area studies requirement.

Examples of language/area studies mix:

1. A Driehaus student wishing to pursue the IB minor tests out of SPN 101 and SPN 102. The student begins language instruction in SPN 103 (which completes the introductory sequence), and then continues with the intermediate sequence of SPN 104/SPN 105/SPN 106. The student completes the minor with the 3 international economics/business requirements plus the 4 language courses, for a total of seven courses.
2. A Driehaus student wishing to pursue the IB minor tests out of SPN 101/SPN 102/SPN 103/SPN 104. The student begins language instruction in SPN 105 and completes the intermediate sequence with SPN 106. Because the student has taken only two courses to complete the intermediate sequence, he/she will take an additional advanced language or area studies course to complete the minimum

3 course language/area studies requirement. Along with the 3 international economics/business requirements, this student can complete the minor with a total of six courses.

Economics/International Business Courses

The three courses taken for the Economics/International Business requirements must be chosen from at least two different departments. The one course taken for the economics requirement may not be used again for the two course international business requirement; course sharing is not allowed.

Graduation Requirements

All courses used toward the International Business minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Communication (Minor)

The interdisciplinary minor in International Communication draws from the College's rich curricular offerings in Journalism, Public Relations and Advertising, Media and Cinema Studies, Relational, Organizational, and Intercultural Communication. Focusing on contemporary international and global issues and debates, the courses will examine the intersections of culture, identity, politics, education, labor, media, technology, and global information flows. Thus, this minor will develop international understanding, cultural intelligence, inclusivity and sensitivity, critical and analytical skills that teach different ways of being and doing in diverse settings. It will also enhance the cross-cultural appreciation required to compete in an increasingly multicultural, multiethnic, and global workplace. The courses may focus on one or more countries beyond the United States. They may focus on a region, a continent or consider global issues more generally. The interdisciplinary depth of courses, faculty expertise and industry connections, as well as the theoretical and practical knowledge acquired in this minor will enable students to become globally competitive candidates ready to engage in the 21st century job market.

Course Requirements

A minor in International Communication requires a student to complete six courses (24 credits) from the following:

Course	Title	Quarter Hours
Select six of the following: ¹		24
CMN 398	STUDY ABROAD	
CMNS 303	TOPICS IN ORGANIZATIONAL AND GROUP COMMUNICATION	
CMNS 309	INTERNATIONAL/GLOBAL COMMUNICATION	
CMNS 311	TOPICS IN RELATIONAL COMMUNICATION	
CMNS 338	ASIAN CULTURE AND COMMUNICATION	
JOUR 367 or JOUR 519	INTERNATIONAL REPORTING	
MCS 251	SPACES OF CINEMA IN ROME	
MCS 252	CONTEMPORARY ITALIAN CULTURE THROUGH FILM	
MCS 257	MEXICAN CINEMA	
MCS 350	TOPICS IN GLOBAL CINEMA	
MCS 375	LATINO/A TELEVISION AND MEDIA	

MCS 376	LATIN AMERICAN CINEMA
PRAD 384	INTERNATIONAL PUBLIC RELATIONS
PRAD 385	INTERNATIONAL ADVERTISING
PRAD 393	SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING

¹ Each course should have at least 50 percent or more of the content related to international or global issues. Such content may include issues pertaining to the United States as long as they are discussed within an international or global context.

International Law (LLM)

The DePaul Master of Laws (LLM) in International Law provides an intensive course of study that emphasizes the theoretical background and practical skills lawyers need to excel in international law practice.

There are concentrations in five key areas of global practice:

- International Business, Commercial & Trade Law
- International Cultural Heritage Law
- International Governance & Rule of Law
- International Human Rights Law & Policy and Criminal Justice

The DePaul international law program is designed for both experienced attorneys and recent law school graduates from the United States and abroad who wish to:

- Earn an advanced law degree to assist in the pursuit of a career with law firms, governmental and nongovernmental agencies, and academic institutions worldwide
- Obtain practical and theoretical knowledge of international law and its interaction with the laws of the United States and other countries
- Learn the research, analytical and communication skills required to succeed in international law practice
- Represent clients engaged in international transactions and relationships
- Establish a network of professional international contacts and clients
- Work with faculty experts in international and U.S. law
- Interact with students from diverse legal cultures

Additionally, foreign lawyers and graduates will improve English language skills and gain a deep and sophisticated understanding of the U.S. legal system.

With the exception of students admitted to and enrolled in the joint JD +LLM program, credits earned as part of the JD program do not count toward the LLM degree.

Program Requirements	Semester Hours
Core Requirements	6
Elective Requirements	18
Total hours required	24

Learning Outcomes

- Domestic students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Domestic students will be able to conduct advanced legal research and analysis in the student's area of specialization.

- International students will be able to identify structures of the U.S. legal system and government institutions.
- International students will be able to demonstrating understanding of how a common law system operates in a constitutional democracy.
- International students will be able to demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- International students will be able to identify and apply relevant legal authority.
- International students will be able to communication clearly in speech and writing.

Degree Requirements

The Master of Laws program begins with an orientation that introduces graduate students to DePaul's faculty, staff, library, computer and research facilities. Students who received legal training outside the United States also will participate in special courses introducing them to the differences between civil and common law systems, the foundations of the U.S. legal system, the methods of legal reasoning and analysis, and the basics of legal writing in the U.S. legal system.

To earn the LL.M. in International Law, a student must complete 24 semester hours of credit with a minimum cumulative grade point average (GPA) of 2.0. A summer term is counted as a semester for this purpose. Students who complete 24 credit hours with a GPA below the 2.0 GPA required to earn the degree will not be permitted to continue taking classes to improve their GPA. A student is automatically dismissed if he or she has a cumulative GPA below 2.0 for any three consecutive semesters.

The LL.M. program may be completed on either a full- or part-time basis but it must be completed within five years. With the exception of students admitted to and enrolled in the joint JD+LL.M. program, credits earned as part of the JD program do not count toward the LL.M. degree. In addition, no credit is given for law courses taken before a student is admitted to and enrolled in the LL.M. program.

Course Requirements

Courses must be selected from the LL.M. in International Law courses listed below. Candidates must complete the required courses and additional elective courses in their area of concentration, to meet the total requirement of 24 credit hours.

Required Courses for International Students

Course	Title	Semester Hours
LAW 322	INTRODUCTION TO AMERICAN LAW AND LEGAL SYSTEMS	3
LAW 556	INTRODUCTION TO LEGAL WRITING AND RESEARCH	3

Core Courses

Course	Title	Semester Hours
LAW 422	INTERNATIONAL LAW	3
LAW 448	INTERNATIONAL BUSINESS TRANSACTIONS	3

Students must successfully complete the required core coursework and complete the additional credit hours in one of the following areas of concentration:

International Business, Commercial & Trade Law

Course	Title	Semester Hours
Select from the following:		18
LAW 230	UNITED STATES FOREIGN RELATIONS LAW	
LAW 250	SENIOR RESEARCH SEMINAR	
LAW 290	ANATOMY OF A DEAL: FROM INCEPTION TO CLOSING	
LAW 460	BUSINESS PLANNING	
LAW 513	INTERNATIONAL CRIMINAL LAW	
LAW 522	U.S. CUSTOMS LAW AND INTERNATIONAL TRADE

LAW 522	U.S. CUSTOMS LAW AND INTERNATIONAL TRADE
LAW 524	EXTERNSHIP PROGRAM
LAW 608	INTERNATIONAL TAXATION

International Politics (Minor)

The minor in international politics is designed to provide the non-major with an opportunity to develop a specialty in the domestic and international politics of regions outside the United States.

Course Requirements

Course	Title	Quarter Hours
PSC 140	INTRODUCTION TO INTERNATIONAL RELATIONS	4
PSC 150	INTRODUCTION TO COMPARATIVE POLITICS	4
Select two of the following 200-level courses:		8
PSC 242	AMERICAN FOREIGN POLICY	
PSC 243	RUSSIAN-AMERICAN RELATIONS	
PSC 244	LATIN AMERICAN-UNITED STATES RELATIONS	
PSC 246	ASIAN FOREIGN POLICY	
PSC 247	U.S. - AFRICA RELATIONS	
PSC 249	TOPICS IN INTERNATIONAL RELATIONS	
PSC 250	EUROPEAN POLITICS	
PSC 251	RUSSIAN POLITICS	
PSC 252	LATIN AMERICAN POLITICS	
PSC 253	ASIAN POLITICS	
PSC 254	AFRICAN POLITICS	
PSC 255	MIDDLE EAST POLITICS	
PSC 257	CYBER WARFARE AND CYBER POLITICS	
PSC 258	GENDER, RESISTANCE & LABOR: COMPARATIVE POLITICAL DEVELOPMENT	
Select two of the following 300-level courses:		8
PSC 340	THE EUROPEAN UNION	
PSC 341	POLITICAL ISLAM AND AMERICAN FOREIGN POLICY	
PSC 342	ARMS, SECURITY, AND WAR	
PSC 343	INTERNATIONAL POLITICAL ECONOMY OF THE PACIFIC RIM	
PSC 344	INTERNATIONAL POLITICAL ECONOMY	
PSC 345	THE CATHOLIC CHURCH IN WORLD POLITICS	
PSC 346	THE UNITED NATIONS AND WORLD PROBLEMS	
PSC 347	ETHICS IN WORLD POLITICS	
PSC 348	GLOBAL ENVIRONMENTAL POLITICS	
PSC 349	ADVANCED TOPICS IN INTERNATIONAL RELATIONS	
PSC 350	JAPANESE POLITICS	
PSC 351	REVOLUTION AND TERRORISM	
PSC 352	CHINESE POLITICS	

PSC 353	COMPARATIVE DEMOCRACY AND DICTATORSHIP
PSC 358	GLOBAL GENDER POLITICS
PSC 359	ADVANCED TOPICS IN COMPARATIVE POLITICS
PSC 361	INTERNATIONAL LAW

Students majoring in Political Science (BA) or minoring in American Politics or Public Law/Political Thought are restricted from earning this minor.

International Public Service (MS)

The Master of Science in International Public Service (IPS) prepares students interested in public policy to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The IPS degree educates professionals to the field of international development and global humanitarian affairs. It provides the essential competencies and skills for managing international projects and leading international nongovernmental organizations. The curriculum offers a balanced education in international leadership (ethical, theoretical and practical), project management (for organizations, sectors, institutions) and evaluation (assessment, monitoring and impact analysis). Through study abroad programs, international internships and applied research projects with nongovernmental and intergovernmental organizations, the IPS degree is required for a professional career in international development.

Mission Statement

The Master of Science in International Public Service (IPS) degree prepares students to work in governmental, nongovernmental and business organizations that seek to reduce disparities in resources and opportunities in locations across the globe. We believe that such work requires an understanding of cross-sector relations, management skills and first-hand experiences in strengthening community capacity using ethical reasoning and sustainable approaches. We promote compassion for marginalized communities and service to all with sensitivity, professionalism, accountability, transparency, and justice.

Program Requirements	Quarter Hours
Core Requirements	44
Elective Courses	8
Total hours required	52

The MS in International Public Service may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MS/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (<https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx>) for additional information.

- International Public Service + Community Development Certificate
- International Public Service + Critical Ethnic Studies Certificate
- International Public Service + Emergency Management Administration Certificate
- International Public Service + Geographic Information Systems Certificate

- International Public Service + Global Health Certificate
- International Public Service + Health Care Administration Certificate
- International Public Service + Metropolitan Planning and Development Certificate
- International Public Service + Strategic Writing and Advancement for Nonprofits Certificate
- International Public Service + Social Research Certificate
- International Public Service + Sustainable Urban Food Systems
- International Public Service + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Public Service + Translation and Interpreting Certificate
- International Public Service + Women's and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Critically assess the global consideration and implications of issues/concerns to multiple audiences in the appropriate written and oral formats.
- Apply an ethical and empirical framework to organizational decisions.
- Analyze the leadership and management skills essential to sustaining international public service organizations.

Degree Requirements

Students are required to complete a total of 13 courses (52 credit hours): eleven core courses (44 credit hours), two elective courses (8 credit hours).

Core Courses

Course	Title	Quarter Hours
MPS 500	INTRODUCTION TO PUBLIC SERVICE MANAGEMENT	4
MPS 510	INTERNATIONAL DIMENSIONS OF PUBLIC SERVICE	4
MPS 511	SUSTAINABLE INTERNATIONAL DEVELOPMENT	4
MPS 533	APPLIED STATISTICS FOR PUBLIC SERVICE (USING EXCEL)	4
or MPS 536	APPLIED STATISTICS FOR PUBLIC SERVICE (USING SPSS)	
MPS 575	STUDY ABROAD SEMINAR	4
MPS 583	RESEARCH METHODS FOR PUBLIC SERVICE	4
MPS 593	INTEGRATIVE SEMINAR	4
MPS 594	ETHICAL LEADERSHIP IN PUBLIC SERVICE	4
MPS 611	MANAGEMENT OF INTERNATIONAL NGOS	4
MPS 612	INTERNATIONAL POLITICAL ECONOMY	4
MPS 616	INTERNATIONAL RELATIONS AND CONFLICT MANAGEMENT	4

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Elective Courses

Course	Title	Quarter Hours
Choose two of the following:		8
MPS 501	CROSS-SECTOR ANALYSIS	
MPS 513	VOLUNTEERISM IN GLOBAL CIVIL SOCIETY	
MPS 514	GOVERNMENT FINANCIAL ADMINISTRATION	
MPS 515	NONPROFIT FINANCIAL ADMINISTRATION	
MPS 518	PROGRAM DEVELOPMENT AND EVALUATION FOR NONPROFIT ORGANIZATIONS	
MPS 519	RESOURCE DEVELOPMENT	
MPS 521	LEADERSHIP IN PUBLIC SERVICE	
MPS 522	FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT	
MPS 524	MARKETING FOR SERVICE ORGANIZATIONS	
MPS 525	WORKING WITH NONPROFIT BOARDS	
MPS 529	STRATEGIC MANAGEMENT AND PLANNING	
MPS 535	HEALTH CARE POLICY	
MPS 537	COMPARATIVE HEALTHCARE SYSTEMS	
MPS 541	ECONOMIC FOUNDATIONS OF PUBLIC SERVICE	
MPS 542	POLICY DESIGN AND ANALYSIS	
MPS 543	POLICY IMPLEMENTATION	
MPS 546	ADVOCACY AND LOBBYING	
MPS 552	GIS FOR COMMUNITY DEVELOPMENT	
MPS 561	LAW AND NONPROFIT ORGANIZATIONS	
MPS 563	LAW AND PUBLIC POLICY	
MPS 573	HOUSING AND COMMUNITY DEVELOPMENT	
MPS 576	ENERGY POLICY AND THE ENVIRONMENT	
MPS 577	ENVIRONMENTAL CONFLICTS AND MEDIATED SOLUTIONS	
MPS 578	URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY	
MPS 579	SUSTAINABLE DEVELOPMENT POLICY AND INTERNATIONAL INSTITUTIONS	
MPS 600	INDEPENDENT STUDY	
MPS 601	PROFESSIONAL DEVELOPMENT AND INTERNSHIP	
MPS 604	SPECIAL TOPICS	
MPS 614	INTERNATIONAL ORGANIZATIONS SEMINAR	
MPS 615	MANAGEMENT OF INTERCULTURAL DIVERSITY	
MPS 618	MIGRATION AND FORCED MIGRATION	
MPS 619	INTERNATIONAL LAW	

Study Abroad Requirement

Students are required to take the MPS 575 study abroad course. This one week study abroad trip allows both full-time and part-time students

to participate. Students should apply for the competitive study abroad scholarships to help with travel costs.

Internship Option

Students have the option to complete substantial professional experience in an international or intercultural setting for course credit. Students without substantial professional experience in an international or intercultural setting, are strongly encouraged to pursue an internship with an approved organization. To pursue this option, students enroll in MPS 601 while completing the internship. For more information contact SPSAdvising@depaul.edu.

Foreign Language Proficiency

Students are *not* required to demonstrate proficiency in a foreign language as a graduation requirement. However, please note that a second language is critical to helping a resume stand out and for constructing an effective career in international public service. Therefore all students are strongly encouraged to build and demonstrate proficiency in at least one other language appropriate to their field or geographical interests.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

International Public Service (MS), Combined Bachelor's + Master's Degree

The combined bachelor's + master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + International Public Service (MS)

Students completing any undergraduate degree at DePaul are eligible to apply for the bachelor's + master's in International Public Service no later than the end of the spring quarter of their junior year if they have completed at least 88.0 credit hours of their undergraduate degree with a cumulative undergraduate GPA of 3.0 or higher.

The student admitted to the bachelor's + master's degree program will take, in their senior year, three courses in International Public Services in consultation with the School of Public Service Academic Advisor (spsadvising@depaul.edu). These three courses will serve as electives in the undergraduate program (unless the student's undergraduate college applies them to major or minor field requirements) and double-count for the MS degree.

Through the combined Bachelors/MS program, the student is responsible for working with both their undergraduate advisor to manage their undergraduate degree progress and the SPS academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to plan a graduate program of study that includes the MS courses as open electives or major field electives. Undergraduates are advised to meet with a faculty member once per quarter during their senior year as an undergraduate to ensure that they are on track to graduate and transition into the master's program. They also must maintain at least a 3.0 GPA in their graduate-level courses in order to matriculate into the graduate program.

The student's bachelor's degree will be awarded upon the completion of their undergraduate degree requirements. The master's degree will be awarded upon completion of the graduate degree requirements.

Click on DEGREE REQUIREMENTS (<https://catalog.depaul.edu/programs/international-public-service-ms/#degreerequirementstext>) for descriptions of the required MS in International Public Service coursework.

International Studies (BA)

Our undergraduate program equips students with interdisciplinary knowledge, critical analytical skills and international perspectives on real world challenges. Students study a range of critical social theory, international political economy and cultural analysis. The undergraduate core consists of seven classes that examine culture, migration, conflict, governance, popular movements, and identities. Through these courses, students acquire critical reading, writing, research, and problem-solving skills. In addition to the core, students take a set of five courses that forms their concentration. The five courses can be from international studies and from other disciplines.

The BA program is unique for its interdisciplinary approach to international studies. It focuses on how power and inequality lie at the

heart of academic inquiry. Unlike conventional programs that focus on international security and economics, our program addresses the economic in conjunction with the political and social. Our undergraduates develop strong writing skills, and second-language proficiency through two years of intensive language study, and we encourage study abroad in a country where the second language is spoken. Many of our students have studied abroad with Boren, Fulbright, and other fellowships. Our majors present at national conferences like the MWSA, and ISA. We have an exchange fellowship with Sciences-Po in Menton, France, for students who want to study about the Middle East and North Africa. Our majors graduate with a range of international and interdisciplinary skills, an ability to negotiate social and cultural complexity, and to question conventional wisdom. Additionally, our students are often engaged in activism, writing and social justice work locally and internationally.

Internships

Students in the INT Department pursue internship opportunities to gain job experience, investigate career possibilities, earn academic credit, and round out their concentrations. We work with the University Internship Program and the Steans Center to help students find or create an internship that suits their particular interests. Our students have worked at non-profit organizations, consulates, government offices, international businesses, and cultural institutions, including RefugeeOne, the Council for American-Islamic Relations, the Puerto Rican Cultural Institute, and the European Community Commission's Office in Brussels, which offers a unique research internship.

Study Abroad Programs

All International Studies majors are encouraged, but not required, to participate in study abroad programs. Study abroad challenges students to develop cultural competency, expand their education through diverse intellectual perspectives, and engage with local and global challenges. DePaul University sponsors study abroad opportunities with a range of course offerings, including intensive language-learning classes, cultural and historical studies, public service, and business. Some INT students pursue study abroad programs outside of DePaul that match their particular interests.

Employers of Graduates

The combination of language training with rigorous preparation in interdisciplinary social sciences and political economy opens doors to careers in nonprofits and community organizations, international non-governmental organizations, international diplomatic entities, international law, international commerce and cross cultural communications.

Combined Bachelor's + MA Option

The Department of International Studies offers a combined degree program that allows academically outstanding students the opportunity to complete their current bachelor's degree and a master's degree in International Studies in only one additional year. This also allows majors to take advantage of the Double Demon Scholarship worth a 25% discount on tuition. This program is open to all INT majors. Students must apply in the spring of their junior year. Students interested in the bachelor's + MA program in International Studies should contact the INT academic advisor.

Graduate School

Students who complete the major in International Studies are prepared with the writing and critical thinking skills necessary to go on to graduate school and many choose to pursue advanced degrees in the political, economic, anthropological, sociological, geographical, historical, linguistic, or literary fields. We have placed students in prestigious graduate programs with membership in the Association of Professional Schools of International Affairs, including those at Johns Hopkins University, Tufts University, University of Maryland, Georgetown University, University of California at San Diego, and University of Colorado at Boulder. Additionally, our students have entered University of California at Berkeley, University of Chicago, Emory University, University of Illinois, Indiana University, University of Michigan, Northwestern University, University of Wisconsin at Madison, and Yale University in languages or the social sciences.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	52
Open Electives	56
Total hours required	192

Learning Outcomes

Students will be able to:

- Identify and critically analyze environmental, social, geopolitical, cultural, and/or economic factors that produce global inequality, and how these present and/or are experienced at various scales.
- Identify and differentiate relevant primary and/or secondary sources for research projects and create appropriately formatted bibliographies and citations using accepted scholarly styles.
- Communicate effectively in writing, speaking or through other media.
- Identify and use relevant sources in languages other than English in research projects and papers.
- Undertake rigorous collaborative research projects and convey the findings in written work, presentations, or other media.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult

an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
INT 301	SENIOR SEMINAR ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who

complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in International Studies (INT) is required to complete the Capstone offered by the INT Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An INT major in the University Honors Program shall take the University Honors Capstone and the INT Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 1 Course Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required
[GEO 201 recommended]

Notes

See an advisor to utilize the modern language option.

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
INT 100	INTRODUCTION TO INTERNATIONAL STUDIES (*INT 100 is waived and open electives increased by 4 credits for students with 30+ transfer credits (excluding test credits))	
INT 200	INTRODUCTION TO POLITICAL ECONOMY (prerequisite to INT 205)	4
INT 201	NATION STATES, NATIONALISM, EMPIRE	4
INT 202	THEORIES OF INTERNATIONAL RELATIONS	4
INT 203	INTERNATIONAL MOVEMENTS AND SOCIAL CHANGE	4
INT 204	CULTURAL ANALYSIS	4
INT 205	INTERNATIONAL POLITICAL ECONOMY	4
INT 206	IDENTITIES AND BOUNDARIES	4
INT 301	SENIOR SEMINAR (counts for the LSP Capstone)	4
Select five courses in an individualized concentration		20
Second language proficiency		

Individualized Concentration (5 Courses)

All international studies majors are required to complete a twenty-credit individualized concentration designed in consultation with their faculty advisors. This concentration provides students with a depth of knowledge on a particular theme, approach, region, and/or question of some international importance. **The concentration is restricted to 300-level INT courses** (including cross-listed courses), with the following exceptions:

- Study Abroad: Up to eight credits (two courses) from Study Abroad may be counted toward the concentration, if approved in advance by the student's faculty advisor.
- Double Majors/Minors: Up to eight credits (two courses) in a double major or minor can be applied to the concentration, if approved in advance by the student's faculty advisor.

Second Language Proficiency

Proficiency in a language other than English is required and can be demonstrated through passing grades in college coursework through the intermediate (second-year) level, up to and including 106. Students with second language proficiency in a language taught at DePaul (go.depaul.edu/languages) may complete the language placement test through D2L. To request access, go to Campus Connect > New Student Homepage (select center title bar where it says Student Homepage) > Next Steps > Modern Language Placement Test. You'll be directed to a new web browser tab and prompted to log into D2L. For languages not taught at DePaul, students may pay a fee to an external language test provider to demonstrate language proficiency in another language. Please visit go.depaul.edu/proficiency for additional instructions.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours. International Studies majors have 56 open elective credit hours. Courses taken to meet the second language

proficiency requirement may count as electives, Honors Program language requirement or learning domain classes in the Liberal Studies Program per the Modern Language Option.

History (BA) + International Studies (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shailja Sharma ssharma@depaul.edu.

History majors apply to this program by April 15th of their junior year. Applicants must have an overall GPA of 3.5 or above.

History students in this program take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count toward open electives in the history major as well as requirements in the MA degree. Whenever possible, HST majors will begin their thesis research during their senior year in HST 390, the History Senior Seminar. If this is not possible (e.g. a student's thesis interests do not fit within the theme of HST 390 for that year), then HST majors will be required to take INT 301 as an elective in order to begin their thesis research.

International Studies (BA) + International Studies (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shailja Sharma ssharma@depaul.edu.

INT majors apply to this program by April 15th of their junior year. Applicants must have completed INT 201, INT 202, and INT 203 with a grade of B+ or higher and have an overall GPA of 3.5 or above.

INT students in this program take INT 401 and two other 400-level courses in their senior year. For students admitted to the five-year program, the three graduate-level INT courses taken in the senior year will count toward their individualized concentrations in the INT major as well as their graduate degree. Additionally, BA/MA students will begin their thesis research during their senior year in INT 301, the International Studies Senior Seminar.

International Studies (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs. This opportunity is available to students from any undergraduate major at DePaul.

DePaul Undergraduate Degree + International Studies (MA)

Students interested in applying to one of the BA + MA programs in International Studies should contact the chair of the INT Department, Dr. Shailja Sharma ssharma@depaul.edu.

Students in any undergraduate major at DePaul University are invited to apply to the combined degree program in order to complete the MA in International Studies as early as their fifth year at DePaul. Applications are due by April 15th of the student's junior year. Applicants must have an overall GPA of 3.5 or above.

Students in this program will take INT 401 and two other INT 400-level courses in their senior year. These three graduate-level courses will count as undergraduate electives as well as requirements in the MA degree. Students are also required to take INT 301 in their senior year in order to begin their thesis research.

International Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law.

They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

International Studies (MA)

The Master of Arts (MA) in International Studies is an academically rigorous, broadly interdisciplinary, two-year program focused on social analysis, research, and the skills necessary for contemporary challenges. The world is confronted by a complex climate crisis, growing authoritarianism, the failure of neoliberal globalization, recurrent economic crises, and unregulated technology. The most vulnerable among us suffer stigma, violence, and systematic discrimination. Mainstream economics and IR theory has failed to offer insightful analyses or solutions these problems. At INT DePaul, we offer tools for students to analyze this increasingly complex world, challenge conventional wisdom, and to find creative solutions.

The MA curriculum allows the flexibility of integrating multiple disciplines along with the training in critical theory and a program that offers the choice of a **scholarly thesis** or an **internship report** or a **creative project** on a subject that is chosen by you. Students can investigate the underlying assumptions and histories of complicated issues, constructing their analysis from critical social and cultural theories, and international political economy, and internship work.

Program Features

Interdisciplinary Curriculum

Our curriculum includes content across disciplines, from economics, political science, world history, cultural analysis, geography, area studies, sociology and anthropology. Our courses explore topics like mining, climate change, gender, colonialism, race, racism and law. While our program has full-time faculty dedicated to international studies, we also

draw on faculty members from other departments to provide students with a rich, varied, and robust curriculum.

Project Driven

Our program has been carefully structured to provide our students with the best possible preparation for in-depth project development or thesis research during their second year of study, a rare opportunity in masters programs. We mentor our graduate students so that they work closely with 1-3 faculty members and develop a tutorial relationship with their faculty advisor. This program is ideal for self-motivated students who are driven by interest in a topic, an area or methodology. The final project, which can be podcast, or an internship report, or a thesis, is the culmination of individual research work, supervised by your committee.

Analysis, Writing and Social Justice

Our coursework challenges students to analyze the multiple ways in which inequality and oppression operate and to strategize for social change, bridging academic theory and practice. As the program progresses, students are expected to develop socially responsible ethical frameworks that are informed by history, analytical skills, and experiential learning in transnational contexts; these, in turn, inform their research.

Post-Graduate Opportunities

The program's broad range of disciplines, boost our student's skills in research, teamwork, analysis, writing, and in finding creative solutions. This increases employment opportunities available to our graduates in diverse fields. Students who want to work in research and policy work go on to PhDs work, well-prepared for research and writing at the doctoral level. Other graduates find jobs with start-ups, with nonprofits, international non-governmental organizations, and a range of international diplomatic entities. Still others enter government service with the Foreign Services or other government agencies.

As a student in International Studies, our students can augment their degree by selecting graduate certificate programs covering other areas of interest. A combined MA/certificate program is easy to complete as some coursework can count towards both the degree and the certificate. Certificates usually consist of 4-6 courses and a separate application. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- International Studies + Global Health Certificate
- International Studies + Metropolitan Planning and Development
- International Studies + Community Development
- International Studies + Social Research Certificate
- International Studies + Teaching English to Speakers of Other Languages (TESOL) Certificate
- International Studies + Women's and Gender Studies Certificate
- International Studies + Social and Cultural Foundations in Education Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Analyze the multiple ways in which inequality and oppression work and strategize for social change.
- Work with different partners in order to produce collaborative intellectual work.
- Develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts.
- Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.
- Carefully read texts, research independently, and write clearly.

Degree Requirements

Course Requirements

Foundation Courses

Course	Title	Quarter Hours
INT 401	CRITICAL SOCIAL THEORY	4
INT 402	INTERNATIONAL POLITICAL ECONOMY	4

Students with no previous coursework in International Political Economy enroll in INT 402. Students who enter the program with some background in International Political Economy take a placement exam which will either place them in or out of INT 402.

Core Courses (16 hours)

Course	Title	Quarter Hours
Choose four from the following:		16
INT 404	MIGRATION AND FORCED MIGRATION	
INT 405	CULTURE AND INEQUALITY	
INT 406	GLOBAL EMPIRES	
INT 407	RACE, SEX, DIFFERENCE	
INT 408	NATURE, SOCIETY, AND POWER	
INT 409	CRITICAL DEVELOPMENT THEORY	
INT 410	INTERNATIONAL LAW	

Thesis Colloquia (12 hours)

Course	Title	Quarter Hours
INT 590	DIRECTED RESEARCH SEMINAR	4
INT 591	MASTERS RESEARCH I	4
INT 592	MASTERS RESEARCH II	4

Elective Courses (12 credit hours)

Students are free to select three elective courses in support of their thesis. The electives should be selected in consultation with the thesis advisor. Permission of the advisor must be obtained before taking courses outside of the International Studies Department.

Graduate Certificate Options

The MA in International Studies may also be expanded to include one of the following graduate certificate programs. The combined MA/certificate program requires careful selection of elective courses to fulfill all requirements. A separate application process is required. Students who are interested in the combined MA/certificate program should contact the program office for additional information.

- Certificate in Women and Gender Studies
- Certificate in Teaching English to Speakers of Other Languages (TESOL)
- Certificate in Global Health
- Certificate in Social Research
- Certificate in Social and Cultural Foundations in Education
- Certificate in Community Development
- Certificate in Metropolitan Planning and Development

International Studies (Minor)

For students who do not wish to or are unable to pursue a major in International Studies, the minor offers the opportunity to gain a basic grounding in a rigorous, interdisciplinary approach to international affairs. Students who pursue this minor will benefit from an introduction to theories of nationalism, international relations, social movements, cultural studies, international political economy, and critical geography.

The minor can complement traditional disciplines, as well as other interdisciplinary programs, by providing students with the theoretical tools necessary to critically analyze pressing global issues. Additionally, students will build their writing, reading, and research skills through the coursework required for the minor.

Course Requirements

Course	Title	Quarter Hours
INT 200	INTRODUCTION TO POLITICAL ECONOMY	4
INT 201	NATION STATES, NATIONALISM, EMPIRE	4
INT 202	THEORIES OF INTERNATIONAL RELATIONS	4
INT 203	INTERNATIONAL MOVEMENTS AND SOCIAL CHANGE	4
INT 204	CULTURAL ANALYSIS	4
INT 205	INTERNATIONAL POLITICAL ECONOMY	4
INT 206	IDENTITIES AND BOUNDARIES	4

Students majoring in International Studies (BA) are restricted from earning this minor.

International Studies Certificate

GRADUATE CERTIFICATE IN INTERNATIONAL STUDIES

OVERVIEW

The International Studies certificate is designed to provide students with key competencies in critical thinking, research and data gathering in international contexts. The certificate is an option for people who want to cultivate their ability to engage in critical analysis of international issues and apply that critical analysis in their places of employment.

PROGRAM FEATURES

Social justice. Our course work challenges students to analyze the multiple ways in which inequality and oppression work, and to strategize for social change in ways that bridge theory and practice. Students are expected to develop socially responsible, ethical frameworks for their work that are informed by historical consciousness of transnational contexts.

Curriculum. Students begin this program by enrolling in two foundation courses, Critical Social Theory and International Political Economy, which provide the critical frameworks for subsequent classes. Building on this foundation, students select from a series of core courses that reflect topical debates and highlight themes of race, class, gender, power and inequality.

Evening Courses. Classes are offered primarily in the evening at the Lincoln Park campus.

Certificate Requirements

Students complete four courses for a total of 16 quarter hours.

Core Courses

(Two courses, 8 quarter hours)

Course	Title	Quarter Hours
INT 401	CRITICAL SOCIAL THEORY	4
INT 402	INTERNATIONAL POLITICAL ECONOMY	4

Elective Courses

(Two courses, 8 quarter hours)

Course	Title	Quarter Hours
Choose 2 Courses:		8
INT 404	MIGRATION AND FORCED MIGRATION	
INT 405	CULTURE AND INEQUALITY	
INT 406	GLOBAL EMPIRES	
INT 407	RACE, SEX, DIFFERENCE	
INT 408	NATURE, SOCIETY, AND POWER	
INT 409	CRITICAL DEVELOPMENT THEORY	
INT 410	INTERNATIONAL LAW	

ADMISSION REQUIREMENTS

Applications are accepted at any time and students may begin the certificate at the start of any academic quarter. The program is open to both non-degree seeking students and students concurrently enrolled in a DePaul graduate degree program. All applicants must hold a bachelor's degree from a regionally-accredited institution.

HOW TO APPLY

Students enrolled in other DePaul graduate degree programs

Submit a letter of intent to the Office of Graduate Admission (graddepaul@depaul.edu (las@depaul.edu)).

Non-degree seeking students

Complete a College of Liberal Arts and Social Sciences graduate application (go.depaul.edu/apply (https://www.depaul.edu/apply/Pages/default.aspx)).

Please submit the following materials:

- Official transcript(s) from all college/universities attended
- A letter of intent

Application materials can be submitted through the online application or by email to graddepaul@depaul.edu. Official electronic transcripts must be sent directly from the issuing institution and can be emailed

to graddepaul@depaul.edu. Please make sure your name is on all documents.

Students educated outside of the U.S. must provide a credential evaluation and proof of English proficiency by submitting a TOEFL or IELTS score. Visit the program website or go.depaul.edu/lasinternational (<https://las.depaul.edu/admission-and-aid/graduate/Pages/international-admission.aspx>) for more information.

Transcripts and other required credentials also can be mailed to:

The Office of Graduate Admission
College of Liberal Arts and Social Sciences
DePaul University
2400 N. Sheffield Ave.
Chicago, IL 60614

FOR MORE INFORMATION

Web: las.depaul.edu (<https://las.depaul.edu/Pages/default.aspx>)
Email: graddepaul@depaul.edu
Phone: (773) 325-7315

Please note the information provided is current as of March 2020 and is subject to change.

Irish Studies (Minor)

The Irish Studies minor is an interdisciplinary academic program focused on Ireland and its place in the world. Our courses offer students the opportunity to study the unique experience of Ireland and the Irish to enhance their understanding of the role of culture in human society.

The study of Ireland is compelling for many reasons, including its rich history, culture, music and literature. In addition, the Irish experience illustrates processes it shares with other cultures that can shed light on many global issues today. These include:

1. colonialism and post colonialism
2. the search for national identity
3. emigration and diaspora
4. integration into the European Union and an increasingly globalized world
5. the impact of intercommunal political conflict and violence
6. the evolution of women's roles in society
7. the changing place of Catholicism in Ireland

Ireland has long had a close relationship with the United States, and it is impossible to study modern Ireland without discussing American influences. At the same time, Irish immigration into the United States has influenced the development of American society. The study of Ireland, a small, now modern country at the western edge of Europe, leads to a wide exploration of international issues and historical developments.

Course Requirements

Students can complete the 6 course Irish Studies Minor by completing one of the following two tracks:

1. For students who complete courses at DePaul University Chicago campus (i.e. do not participate in the Dublin Internship):

- IRE 100
- 5 additional approved elective courses in Irish Studies. Courses must be taken from at least three separate departments/programs and should represent a range of topics/issues.

2. For students who participate in DePaul's Parliamentary Internship in Dublin:

The College of Liberal Arts and Social Sciences offers a study abroad program in Dublin, Ireland, twice each year. It provides an excellent opportunity for students to get to know Ireland at first hand. It is not a required part of the minor in Irish Studies. Students taking part in the Study Abroad Program in Dublin may, however, gain credit for four courses that count towards completion of the minor. Thus, for students who successfully complete the Dublin Internship, the requirements for the IRE minor are as follows:

- IRE 100
- 1 additional approved elective courses in Irish Studies

For further information on the Dublin Parliamentary Internship courses please contact the Director of the Irish Studies Program.

Irish Studies Courses

General Irish Studies

Course	Title	Quarter Hours
IRE 100	IRELAND AND THE IRISH EXPERIENCE	

History

Course	Title	Quarter Hours
IRE 101	IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION	
or CTH 288	IRELAND, 1450-1800, CONQUEST, COLONIZATION & REBELLION	
or HST 266	IRELAND, 1450 - 1800, CONQUEST, COLONIZATION & REBELLION	
IRE 102	HISTORY OF IRELAND FROM 1800 TO THE PRESENT	
or CTH 289	IRELAND, 1800 - 2000

or PSC 392	INTERNSHIP	
PSC 395	TRAVEL/STUDY	

¹ Courses marked ¹ only count for the Irish Studies minor when focused on a pertinent topic (as in the examples in parentheses in the list of courses above). When a student registers for such a course it will not automatically place as an Irish Studies course in the Degree Progress Report (DPR). The student needs to email the Director of Irish Studies with their name, ID number, and the course(s) at issue to ask for a DPR update.

Independent Study

Course	Title	Quarter Hours
IRE 379	INDEPENDENT STUDY	

Islamic World Studies (BA)

Islamic World Studies (IWS) offers a unique and interdisciplinary study of Muslim majority and minority societies. The program explores the politics, geographies, histories, and cultures of these societies, and provides students with an education that matches the complexity of its subject. This education is drawn from a variety of disciplines, including

Finance, Geography, History, History of Art and Architecture, International Studies, Modern Languages, Philosophy, Political Science, Religious Studies, and Women's and Gender Studies. The regional focus of these courses includes Africa, the Middle East, South Asia, Southeast Asia, Central Asia, Europe, and the Americas.

With nearly 2 billion adherents—approximately 3.5 million of whom are in the United States and 300,000 in Chicago—Islam is the world's second largest and fastest growing religion. Despite these impressive facts Islam, Islamic societies, and Islamic history remain poorly understood in the United States. The IWS curriculum aims to remedy this. Its students will be able to ask questions that are historically situated, regionally specific, analytically rich, and grounded in urgent contemporary realities. In short, IWS is structured to produce engaged and informed citizens of a world that is affected by Islam in ways big and small and graduates who are better prepared for careers in politics, public policy, diplomacy, social services, medicine, education, finance, development, law, cultural heritage, academia, museums, or the arts.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	52
Open Electives	64
Total hours required	192

Learning Outcomes

Students will be able to:

- Articulate the central beliefs of the religion of Islam, recognizing its various interpretations and practices and how they change across time and place.
- Identify, evaluate, and synthesize primary and secondary sources related to Islam, Islamic history, Islamic culture, and/or the politics of Muslim societies.
- Recognize and describe the ways in which Muslim societies have impacted other cultures and communities around the world.
- Recognize and describe the ways in which Muslim societies have been shaped by wider social, geographic, political, economic, and/or cultural factors and processes.
- Describe the historical and contemporary tensions around pluralism within societies that have both Muslim majority and Muslim minority populations.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

(Note: Course must be in an area other than the study of Islam)

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Notes

Please consult an advisor about using the Modern Language Option.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Islamic World Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.

- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Islamic World Studies (Minor)

A minor in Islamic World Studies introduces students to Muslim majority and Muslim minority societies through some combination of religious, political, historical, cultural, geographical, and social lenses.

Course Requirements

Core

Course	Title	Quarter Hours
IWS 192	ISLAMIC WORLD STUDIES	4
IWS 266	ISLAM IN THE UNITED STATES	4

Electives

Students must also complete four electives from amongst IWS offerings, or related courses as approved by the Program Director.

Course	Title	Quarter Hours
Select four of the following:		
IWS 201	GEOPOLITICS	4
IWS 203	RELIGIOUS GEOGRAPHY	4
IWS 204	CULTURAL ANALYSIS (with Director approval)	4
IWS 215	MUSLIMS IN AMERICAN FICTION AND FILM	4
IWS 217	ISLAMIC CULTURES AND SOCIETIES	4
IWS 230	ISLAMIC FINANCE	4
IWS 231	INDIA FROM 900-1750 - SULTANS, MUGHALS, AND ISLAMIC EMPIRES	4
IWS 232	INDIA FROM 1700-1950 - RISE AND FALL OF THE BRITISH RAJ	4
IWS 233	THE ART OF CRUSADING	4
IWS 234	COMPARATIVE URBANISM	4

IWS 303	ARABIC PRINT MEDIA	4
IWS 306	GLOBAL EMPIRES (with Director approval)	4
IWS 307	WOMEN IN THE MIDDLE EAST: BEYOND THE VEIL	4
IWS 308	NATURE AS RESOURCE: MINING & EXTRACTION'S IMPACT ON ENVIRONMENT & SOCIETY	4
IWS 311	ARABIC SHORT STORIES	4

IWS 313	ARABIC FILM	4
IWS 316	RELIGION, NATIONALISM AND POLITICS (with Director approval)	4
IWS 318	SOCIETY, POLITICS AND CULTURE IN THE MIDDLE EAST	4
IWS 340	SPECIAL TOPICS IN ISLAMIC WORLD STUDIES	4
IWS 341	POLITICAL ISLAM AND AMERICAN FOREIGN POLICY	4
IWS 350	ARABIC LITERATURE	4
IWS 372	CAIRO: MOTHER OF THE WORLD (WORLD CITIES)	4
HST 364	PALESTINE UNDER THE BRITISH MANDATE	4
HST 365	THE CRUSADES	4
MOL 340	ARAB CULTURE	4
MOL 341	MEDIA IN THE ARAB WORLD	4
MOL 342	MODERN ARABIC LITERATURE IN TRANSLATION	4

Students majoring in Islamic World Studies (BA) are restricted from earning this minor.

Italian (BA)

From ancient Rome to the European Union, Italy has always been at the core of the humanist tradition and the heart of world affairs. A degree in Italian offers a broad-based humanities education with crucial skills in reading, writing, critical thinking, and intercultural communication useful for any number of pursuits after college. Our majors have gone on to career paths in teaching, government, and business both in the US and abroad. Others have enrolled in prestigious graduate programs in linguistics, literature, and law.

DePaul's Italian program gives students the opportunity to attain advanced language proficiency while studying all aspects of Italian literature and culture. Topics of our regular course offerings include:

- Language and Culture
- Film
- History and Politics
- Geography
- Food and Wine
- Business
- Literature
- Linguistics
- Translation

Students expand upon the fundamental skills learned in the Italian core by choosing one of three concentrations: Italian Studies, Italian Language and Literature, and Commercial Italian. DePaul majors in world language education, management, marketing, environmental studies, history of art and architecture, international studies, political science and many other disciplines often choose to double major in Italian.

Each Fall DePaul's study abroad program in Rome offers students the opportunity to study at Italiaidea, a small, student-centered language institute with a superb record and reputation for high quality instruction, and at St. John's University campus in Rome, a university, like DePaul,

driven by its Vincentian mission. Students can also spend a semester or year in Milan through DePaul's partnership with Università Cattolica del Sacro Cuore. The Italian Program has a chapter of the National Italian Honor Society Gamma Kappa Alpha and routinely partners with Italian agencies, businesses, and community organizations to offer its students quality internship opportunities locally and abroad. Home to one of the largest Italian-American communities in the US, Chicago also offers a dazzling array of resources—the Italian Cultural Institute, museums, galleries, film centers, restaurants and cafés—that allow students to immerse themselves in Italian language and culture right here in the city.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	48
Open Electives	60
Total hours required	192

Learning Outcomes

Students will be able to:

- Communicate in Italian at the Advanced Low proficiency level.
- Analyze cultural products in Italian and English.
- Explain features of Italian and its use.
- Navigate cultural differences effectively.
- Apply their language and cross-cultural skills to other domains.

College Core Requirements Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility

of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Majors in Italian must complete a total of 12 courses (48 quarter hours), comprised of an 8-course core at the Intermediate and Advanced levels and a 4-course concentration in "Italian Studies," "Italian Language and Literature," or "Commercial Italian."

Core Courses (32 quarter hours)

Additional Domain Course Listings

Course	Title	Quarter Hours
ITA 260E	EAT ITALY: THE HISTORY, CULTURE AND POLITICS OF ITALIAN FOOD	4
ITA 262E	STYLE MATTERS: ITALIAN FASHION THROUGH LITERATURE	4

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. Majors in Italian should select these courses in consultation with the Italian Program Director and Modern Languages Staff Advisor. Students can use their open electives to pursue a double major or one or more minors.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements

and major requirements, students are required to choose one of the following:

- Commercial Italian Concentration, Italian (BA) (p. 660)
- Italian Language and Literature Concentration, Italian (BA) (p. 661)
- Italian Studies Concentration, Italian (BA) (p. 662)

Each of these concentrations allows Italian majors to develop their broad intercultural communicative skills through a rigorous interdisciplinary education tailored to their academic and professional interests. While the course listings for each concentration are not exhaustive, they represent a substantial sampling of courses from around the university that can be applied toward the respective concentrations. Students are encouraged to meet regularly with the Italian Program Director and the Modern Languages staff advisor to discuss elective course options for whichever concentration they choose. Other relevant courses may count as electives for the concentrations with consultation/permission of the Italian Program Director.

Commercial Italian Concentration, Italian (BA)

Students choosing the Commercial Italian concentration are interested in complementing their advanced intercultural language study with a foundation in international business skills. The bridge courses in the concentration (ITA 320 and MGT 300) integrate students' knowledge across disciplines, and the two additional electives allow them to further explore their area of interest in business.

After declaring the Italian major with the Commercial concentration, students should meet with the Italian Program Director, who will work together with advisors in the College of Business to ensure that students are maximizing opportunities to double count their chosen concentration courses in order to efficiently achieve their postgraduate career goals.

Course Requirements (8 quarter hours)

Course	Title	Quarter Hours

MGT 357	INTERNATIONAL BUSINESS	
MGT 360	LEADERSHIP	
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING	
MGT 373	CREATIVITY & ENTREPRENEURSHIP	

Note: MGT 300 is a prerequisite for MGT 302, MGT 354, MGT 355, MGT 360, MGT 361, MGT 373.

Italian 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Italian Language and Literature Concentration, Italian (BA)

Students choosing the Language and Literature concentration have an academic and professional interest in deepening their expertise in the target language, literature, and culture and/or in linguistics. Students may choose to either take a majority, if not all, of their coursework in Italian or take one additional 300-level elective and three courses in linguistics and related disciplines (such as anthropology, bilingual-bicultural education, second-language acquisition, communication, philosophy, psychology, and semiotics) beyond those offered in the Italian Program.

After declaring the Italian major with the Language and Literature concentration, students should meet with the Italian Program Director to discuss which of these two pathways best fits their interests and academic/postgraduate goals.

Italian Studies Concentration, Italian (BA)

Students who choose the Italian Studies concentration have tremendous flexibility in building their own cluster of courses to align with a particular facet of Italian, based on their academic interests or intended career path. In the case of double majors, the Italian Studies concentration allows students to meaningfully align their two programs of study so that one complements the other, with the concentration courses potentially double-counting between both majors.

After declaring the Italian major with the Studies concentration, students should meet with the Italian Program Director to discuss ideas and options for crafting a tailor-made Italian Studies concentration that best fits their college and post-graduate goals.

² PSC 281 is a 2 quarter hour class

Italian (MA)

The MA program in Italian provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the “global village” of today’s world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers, healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Italian may be expanded also to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Italian + Digital Humanities Certificate
- Italian + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Italian + Translation and Interpreting Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.
- Use communicative strategies such as rephrasing and circumlocution, and contribute to a conversation with sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion.
- Combine and link sentences into texts of paragraph length and structure, and use minimal control of common structures and vocabulary.
- Listen and comprehend (albeit unevenly) short conventional narrative and descriptive texts with a clear underlying structure.
- Understand conventional narrative and descriptive texts with clear underlying structure (though their comprehension may be uneven).

Degree Requirements

Course Requirements

The curriculum of the MA in Italian consists of twelve courses (48 quarter credit hours), divided into two parts:

1. A core curriculum of three required courses (12 quarter credit hours), and
2. Nine courses (36 quarter credit hours) in the language area. All courses in the language area must be courses taught in the target language of the student’s program (i.e. courses with prefixes ITA). In exceptional cases, with the approval of the student’s advisor and the director of the graduate program, a student may count one or two courses taught in English from allied fields (such as art history, economics, education, geography, health sciences, management, philosophy, political science, religion, sociology, etc.) among the nine “language area” courses in the student’s program.

Core Curriculum

The core curriculum consists of the following three courses:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

In addition, all 300-level language courses are offered simultaneously as 400-level electives to complete the MA program. The 400-level courses have additional requirements.

Additional Requirements

Additional requirements include:

- Portfolio

The portfolio (completed while enrolled in MOL 496) consists of a compilation and critical assessment of select work done throughout the program and a capstone project. Capstone projects may include a community service experience, internship, performance or creative work, teaching portfolio, thesis, or translation.

Graduation Grade Point Average Requirement

In order to graduate from the program, students must complete all program requirements with a minimum GPA of 3.000.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate High" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Italian (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These

12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Italian (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate High") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability.

The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

12-quarter hour credits of required courses:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

36-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

Italian (Minor)

The Italian minor gives students the opportunity to develop basic linguistic and cultural skills, to train in creative and critical thinking, and prepare for a career in our multicultural society.

The minor consists of a total of five courses in Italian language, ITA 105 and above. Courses taught in English (ITA 260E, ITA 262E, ITA 307E, ITA 308E) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Italian (BA) are restricted from earning this minor.

Japanese (MA)

The MA program in Japanese provides students a customizable, flexible curriculum to develop advanced linguistic and cultural expertise in a language and to apply that expertise in the disciplinary or professional contexts of their choice. Whether in the "global village" of today's world or in multi-ethnic communities such as Chicago, this advanced expertise is an increasingly valuable personal and professional asset, requiring appropriate training and credentials. The MA program especially seeks to serve adult professionals (government employees, social workers,

healthcare providers, business people, or certified K-12 teachers) whose careers require this applied expertise.

The MA in Japanese may be expanded to include also select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- Japanese + Digital Humanities Certificate
- Japanese + Teaching English to Speakers of Other Languages (TESOL) Certificate
- Japanese + Translation and Interpreting Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Speak and participate in most informal and some formal conversations from topics related to school, home, and leisure activities, to many related to employment, current events, and matters of public and community interest.
- Narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect, as well as combine and link sentences into connected discourse of paragraph length; although these narrations and descriptions tend to be handled separately rather than interwoven.

Thesis Option

A thesis option will be available for students who attain a GPA of at least 3.7 in the program after completing 24 credit hours of coursework.

Student Handbook

Students in a graduate program offered through Modern Languages follow the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in a Modern Language graduate program.

Language Proficiency for Admission

In order to be eligible for admission to a Modern Language graduate program a student must have successfully completed at least 20 quarter credit hours (or the equivalent in semester credit hours) of advanced college-level coursework in the language (this is the equivalent of an undergraduate "minor" at most colleges or universities in the United States).

Students who lack 20 quarter credit hours (or the equivalent in semester credit hours) of coursework must demonstrate proficiency in the language by attaining a rating of at least "Intermediate Mid" on two standardized tests from the American Council on the Teaching of Foreign Languages (ACTFL): the Oral Proficiency Interview (OPI) and the Writing Proficiency Test (WPT).

Transfer Credit

Students may apply ("transfer") toward their MA programs in Modern Languages no more than eight quarter hours of graduate-level credit completed at another college or university, with approval from the

departmental director of graduate programs. Students may not transfer credits already used to satisfy the degree requirements of any program at another college or university.

Students seeking to apply "transfer" credit toward their MA programs in Modern Languages must complete the college transfer request form.

Graduation with Distinction

Students from the MA programs in Modern Languages earn their degrees "with distinction" if they graduate with a cumulative grade point average (GPA) of 4.0 (on a scale where 4.0=A). To verify eligibility, students and their faculty advisors should contact the departmental advisor and the departmental director of graduate studies before the deadline to apply for graduation.

Japanese (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Japanese (MA)

Admission to this combined Master of Arts program is based on a minimum level of language proficiency (ACTFL rating of "Intermediate Mid") rather than on prior coursework. Therefore, it is open to students with any undergraduate majors with the accompanying language ability.

The program is designed to prepare students for advanced use of their linguistic skills in any area of professional interest (from business, government, and education to further graduate study).

The program requires 48 quarter hour credits of coursework. This coursework consists of:

Course	Title	Quarter Hours
MOL 401	PROFESSIONAL FOUNDATIONS	4
MOL 402	LANGUAGE, SELF AND SOCIETY	4
MOL 496	MAMOL CAPSTONE	4

1. 36-quarter hour credits of elective coursework, specifically relevant to each individual student's professional interests and language, and chosen in consultation with the student's faculty advisor.

The required courses (MOL 401, MOL 402, and MOL 496) are each worth 4-quarter hour credits. Elective courses may vary in credit. Because each student pursues a highly customized selection of coursework, it may include independent study, practicum, study abroad, or transfer credits that allow students to complete in any term additional credits toward satisfaction of degree requirements. Depending on individual interests, a student may (with approval of their advisor) also take as electives courses taught in English by other DePaul units, provided that the students satisfy any relevant prerequisites for those courses.

Japanese (Minor)

The Japanese language minor prepares students to speak and read with a basic proficiency in one of the world's most important languages for business.

The minor consists of a total of 5 courses in Japanese language at the 200/300-level. Courses taught in English (JPN 240E, JPN 241E, JPN 242E) will not be counted toward this minor unless Program Director permission is secured.

Students majoring in Japanese Studies (BA) or minoring in Japanese Studies are restricted from earning this minor.

Japanese Studies (BA)

The Japanese Studies (JPS) program at DePaul engages students in Japanese language and culture to cultivate cultural, historical, linguistic, and ethical values while developing the skills to lead in business, arts, diplomacy, education, and digital media.

Japan is America's most important Asian ally, the 3rd strongest economy in the world, the second largest investor in the United States in business, and a global soft-power leader in digital media and popular consumer goods. At DePaul, students explore Japanese language and culture through an interdisciplinary approach. Our faculty offer classes in literature, history, religion, art history, ethics, political science, business, anime, and film studies. Students learn transferable, marketable skills in the areas of advanced language study and translation, and hone their critical thinking and writing skills by studying Japanese culture and society with experts in the fields of Japanese ethical and environmental studies, gender studies, and visual and material culture.

JPS encourages opportunities outside the classroom to strengthen linguistic and cultural competency through quarter-long or full-year exchange programs to Osaka (Kansai Gaidai) and Kyoto (Ritsumeikan). Special DePaul faculty-led short-term programs are offered every year, such as Peace Studies in Hiroshima-Nagasaki, Diaspora and Politics in Okinawa, and Digital Media in Tokyo-Kyoto.

On campus, JPS hosts numerous cultural and academic events, such as film screenings, Japanese language table, and cultural showcases. Off campus, students benefit from the many Japan-related activities at local Japanese organizations (e.g., the Japanese Consulate General in Chicago, Japanese American Service Committee, Japanese Culture Center, Japanese Chamber of Commerce and Industry in Chicago), and at local museums and theaters (e.g., the Art Institute of Chicago, the Museum of Contemporary Art, and the Gene Siskel Film Center).

The Japanese Studies curriculum allows students to take courses from many academic departments, including:

- Art History
- History
- Literature
- Political Science
- Religious Studies

Japanese Studies students are encouraged to participate in one of DePaul's Study Abroad programs in Kyoto or Osaka, in order to grow linguistically and expand their understanding of the Japanese culture.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	52
Open Electives	56
Total hours required	192

Learning Outcomes

Students will be able to:

- Communicate in Japanese at the Intermediate proficiency level.
- Analyze cultural products in Japanese and English.
- Explain features of Japanese and its use.
- Navigate cultural differences effectively.
- Apply their language and cross-cultural skills to other domains.
- Apply interdisciplinary methods to the analysis of Japanese-speaking communities.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be

obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

A student whose only major is in Modern Languages is required to complete the Capstone offered by the Department of Modern Languages (MOL). A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in MOL may substitute the Capstone of the secondary major or degree. An MOL major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the MOL Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

- Six 4-credit courses (24 credit hours) of 200/300-level Japanese with a minimum of three 300-level courses
- Five 4-credit courses (20 credit hours) of 200/300-level Allied Courses from at least three different departments
- Two 4-credit courses (8 credits) of 200/300-level Japanese or Allied Courses

No English-language ("E-designation") courses can be applied toward the "Six Advanced Level Courses in Japanese Language" requirement of the major. Please note the following course sequence for Japanese courses:

First Year		Hours
Japanese I textbook is completed in one year

Japanese Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Japanese Studies (Minor)

The Japanese Studies minor focuses on Japanese language, literature and culture through an interdisciplinary combination of language, culture, politics and history courses.

Course Requirements

- Three quarters of college-level Japanese language study (at any level).
- Five additional courses from at least two different disciplines, chosen in consultation with an advisor or faculty member, from the current approved Japanese Studies Allied Course List.

Jazz Studies (BM)

The Bachelor of Music in Jazz Studies degree prepares students for careers as jazz professionals. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers, and arrangers. The program is comprised of applied jazz lessons, jazz ensembles and combos, jazz improvisation, jazz theory and history, arranging and composition, and pedagogy.

CURRENT Credit hour distribution (scroll down for newly-proposed distribution)

Program Requirements	Quarter Hours
Music Core Requirements	82
Liberal Studies Requirements	52
Specialization Requirements	42
Electives	16
Total hours required	192

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one's primary instrument.
- Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.
- Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

Course	Title	Quarter Hours
Music Theory Sequence:		
MUS 110A	MUSIC THEORY I	2
MUS 120A	MUSIC THEORY II	2
MUS 130A	MUSIC THEORY III	2
MUS 212A	MUSIC THEORY IV ¹	2
To satisfy the remaining requirements in music theory, students should enroll in one of the following courses:		
MUS 222-A	MUSIC THEORY V - A ¹	2
MUS 222-B	MUSIC THEORY V - B ¹	2
MUS 222-C	MUSIC THEORY V - C ¹	2
And one of the following courses:		
MUS 232A	MUSIC THEORY VI-A: CONCEPTS AND MATERIALS IN CONTEMPORARY MUSIC ¹	2
MUS 232B	MUSIC THEORY VI-B: ANALYSIS OF MUSICAL FORM ¹	2
Musicology Sequence- Students should complete three of the following four classes to satisfy their musicology requirements:		
MUS 224	MUSIC, HISTORY, AND CULTURE I	4
MUS 225	MUSIC, HISTORY, AND CULTURE II	4
MUS 226	GLOBAL MUSIC CULTURES	4
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	4
Aural Training Sequence:		
MUS 111	AURAL TRAINING I	1
MUS 121	AURAL TRAINING II	1
MUS 131	AURAL TRAINING III	1
MUS 211	AURAL TRAINING IV ²	1
MUS 221	AURAL TRAINING V ²	1
MUS 231	AURAL TRAINING VI ²	1
Group Piano Sequence:		
MUS 113	GROUP PIANO I	1
MUS 123	GROUP PIANO II	1
MUS 133	GROUP PIANO III	1
MUS 213	GROUP PIANO IV ³	1
MUS 223	GROUP PIANO V ³	1
MUS 233	GROUP PIANO VI ³	1

- ¹ Students in the BM- Jazz Studies program are not required to take MUS 222a, MUS222b, MUS222c, or MUS 232a, MUS 232b
- ² Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.
- ³ Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.
- ⁴ Students in the BM-Jazz Studies program are not required to take MUS 323

Additional Courses

Course	Title	Quarter Hours
MUS 303	BASIC CONDUCTING PRACTICUM	0
MUS 304	BASIC CONDUCTING	4
MUS 323	MUSICOLOGY SEMINAR ⁴	2

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, audio technology track, does not require applied lessons.

Except for performance majors, students may enroll in additional applied credits, which will count toward music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

- 1 Course Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Undergraduate Jazz Studies majors will perform a checkpoint audition at the end of their freshman year. The student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Jazz Studies (MM)

The graduate jazz studies program provides students a comprehensive education in jazz, allowing students to specialize in either performance or composition. Drawing upon the resources of the Chicago jazz scene, faculty members are highly celebrated performers, teachers, composers,

and arrangers. In addition to applied jazz lessons, jazz ensembles, and jazz combos, Master of Music students enroll in courses such as jazz theory, history, pedagogy, improvisation, composing, and/or arranging. Throughout the program, jazz students have multiple opportunities to record performances and compositions in professional recording studios. The Master of Music degree is a two-year program.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Perform solo and ensemble works with appropriate techniques and musicality.

Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization. Prior to the conclusion of each degree program, graduate students must pass a written comprehensive examination, administered by each department/program.

MUS 485	ROMANTIC MUSIC	
MUS 486	MUSIC SINCE WORLD WAR II	
MUS 487	20TH CENTURY MUSIC BEFORE WWII	

Specializations

Students must choose one of the following specializations:

Performance Specialization

Course	Title	Quarter Hours
15 credits of Applied Jazz Lessons:		15
JZZ 402	ADVANCED JAZZ COMPOSITION I	2
JZZ 404	ADVANCED JAZZ COMPOSITION II	2
JZZ 411	JAZZ PEDAGOGY	2
JZZ 430	ADVANCED JAZZ IMPROVISATION I	2
JZZ 431	ADVANCED JAZZ IMPROVISATION II	2
6 quarters of Ensembles: 3 quarters at 1 credit; 3 quarters at 0 credits		3
4 credits of Electives		4
Graduate Recitals: two are required at 0 credits each		0
JZZ 407	JAZZ GRADUATE RECITAL	

Composition Specialization

Course	Title	Quarter Hours
9 credits of Applied Jazz Composition Lessons:		9
JZZ 402	ADVANCED JAZZ COMPOSITION I	2
JZZ 404	ADVANCED JAZZ COMPOSITION II	2
JZZ 411	JAZZ PEDAGOGY	2
JZZ 403	ADVANCED JAZZ ARRANGING AND ORCHESTRATION	4
JZZ 425	JAZZ RHYTHM SECTION TECHNIQUES	2
6 quarters of Ensembles: 3 quarters at 1 credit; 3 quarters at 0 credits		3
8 credits of Electives		8
JZZ 410	JAZZ COMPOSITION FINAL PROJECT	0

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- Performance track, the presentation of a public recital; composition track, the completion of a final writing project.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

A full-time graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master's degree program has been granted.

Journalism (BA)

Journalism majors are distinguished by their ability to research, interview and write under deadline pressure across a variety of platforms using the most appropriate forms of audio, photo and video to best tell stories that inform communities. As a journalism major, you learn from practitioners in the field and researchers with journalism backgrounds about how to share information, engage communities and make where you live a better place.

DePaul's Journalism Program features an array of courses in reporting, writing, multimedia production, broadcast journalism, photography and social media to prepare you to dig into content areas of your choice such as politics, sports, arts and entertainment, and community news.

The Journalism program is located in downtown Chicago, at DePaul's Loop campus, giving you access to many surrounding media outlets and allowing you to meet and work professionally with leading companies in the industry. You will have access to DePaul's state of the art equipment, recording studios, and student media spaces. Students gain experience in national award-winning co-curricular student organizations and can complete multiple competitive internships at news outlets in the city during the regular school year as part of their regular coursework.

Program Requirements	Quarter Hours
College Core Requirements	16
Liberal Studies Requirements	84
Major Requirements	44
Open Electives	48
Total hours required	192

Learning Outcomes

Students will be able to:

- Write, interpret and report the news of the day.
- Evaluate the journalism profession and media industry many of them will be entering.
- Demonstrate the role technology, social media and repurposing stories for multimedia platforms are playing in the current and future world of newsgathering and dissemination.
- Analyze journalism's relationship to society, power, politics, locally and globally.

College Core Requirements (p. 676) Modern Language Requirement (p. 676) Modern Language Option (p. 676)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements

Four core courses are required of all College of Communication students:

Course	Title	Quarter Hours
CMN 101	INTRODUCTION TO HUMAN COMMUNICATION	4

CMN 102	INTRODUCTION TO MASS COMMUNICATION	4
CMN 103	INTERCULTURAL COMMUNICATION	4
CMN 104	PUBLIC SPEAKING	4

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
JOUR 396	JOURNALISM CAPSTONE	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
- [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

FILM 110	DIGITAL CINEMA PRODUCTION I
POST 100	VIDEO EDITING FOR NON-MAJORS
POST 110	EDITING I

8

¹ Students may take up to 4 hours of credit in this course toward graduation requirements.

² A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internship Credit

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Journalism 3+3 (BA+JD)

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of

undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 247)
- Communication and Technology (p. 256)
- Communication Studies (p. 259)
- Journalism (p. 676)
- Media and Cinema Studies (p. 807)
- Organizational Communication (p. 879)
- Public Relations and Advertising (p. 969)
- Sports Communication (p. 1116)

For admission requirements and information, contact the Office of Admission (<https://www.depaul.edu/admission-and-aid/Pages/default.aspx>).

Journalism (MA)

The MA in Journalism Program at DePaul prepares graduates for careers as multimedia news producers and visual storytellers in journalism's new digital landscape. Our graduates are now content producers at more than 400 sites in the webbed universe. Concentrations in: Multimedia Reporting; Reporting Metro Chicago; Sports Journalism; and Data Journalism helped establish their brands as socially responsible reporters, editors, and producers.

DePaul's program brings Chicago into the classroom and moves the classroom out into the third largest media market in the country. Internships and experiential learning opportunities enable students to develop the networks and e-portfolios that advance their careers. Our award-winning team of journalism professionals partners with students in producing first-rate news stories across platforms, aided by DePaul's downtown Media Center and Green Screen Studio.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Explain and evaluate the social responsibility of journalists to serve citizens with news worth knowing.
- Use digital story-telling techniques to be competitive in the new journalism marketplace.
- Experiment in how to best handle and present the news of the day..

Degree Requirements

Course Requirements

The Master of Arts in Journalism requires 12 courses (48-credit hours) — three core courses, a minimum of six elective courses in Journalism, and a maximum of three outside electives.

Core Courses

Students are required to take all of the following:

Course	Title	Quarter Hours
JOUR 501	THE SOCIAL RESPONSIBILITY OF JOURNALISM	4
JOUR 502	NEWS NOW: JOURNALISM IN THE INFORMATION AGE	4
JOUR 503	REPORTING FOR CONVERGED NEWSROOMS	4

Combined degree students who took JOUR 280 during their undergraduate program can substitute any of the following courses for JOUR 503:

JOUR 504	MULTIMEDIA NEWS PRODUCTION
JOUR 505	TELEVISION NEWS REPORTING
JOUR 506	NEWSCAST PRODUCING
JOUR 507	VISUAL COMMUNICATION
JOUR 521	SPORTS PRODUCING
JOUR 522	MULTI-PLATFORM NEWS EDITING
JOUR 587	SOUND AND VISION

Journalism Electives

CMN 598	STUDY ABROAD

¹ Students who wish to earn one of the three concentrations should see "Concentration Requirements" page to help guide their elective course choices.

Outside Electives

With approval from the graduate program director, students can take up to three relevant elective courses from other Communication graduate programs, or relevant graduate elective courses from outside of Communication.

Optional Latino Media & Communication Concentration

The graduate concentration in Latino Media & Communication is comprised of at least three graduate courses drawn from the areas of advertising, journalism, media and cinema studies, multicultural

communication, organizational communication and public relations. Graduate students in any of the College of Communication Master of Arts programs can elect to complete the Latino Media & Communication concentration. Students may need to use outside electives to complete this concentration.

Students who complete the concentration will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally and globally
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the U.S.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations and other sites of engagement
- Recognize the impact of the movement of Latinos across the globe and develop the skills to critically consume and produce media, public relations and advertisement representations that communicate to and about Latino communities
- Develop field-specific knowledge of Latino media and communication along with an understanding of how Latino studies shapes other fields of communication

Courses

Students are required to take three courses (12 credits) from the following list:

Course	Title	Quarter Hours
CMNS 509	SPECIAL TOPICS IN MULTICULTURAL COMMUNICATION ¹	
CMNS 542	MULTICULTURAL COMMUNICATION IN THE WORKPLACE	
JOUR 515	SPECIAL TOPICS IN JOURNALISM ¹	
MCS 521	TOPICS IN CINEMA STUDIES ¹	
MCS 533	LATIN AMERICAN CINEMA/MEDIA	
PRAD 511	CONSUMER INSIGHTS	
PRAD 512	ENGAGING LATINX COMMUNITIES	
PRAD 514	CONTEMPORARY ISSUES IN PUBLIC RELATIONS AND ADVERTISING ¹	
PRAD 595	SPECIAL TOPICS IN PUBLIC RELATIONS & ADVERTISING ¹	
CMN 591	INTERNSHIP ¹	
CMN 598	STUDY ABROAD ¹	

¹ Topic must be related to Latino Media and Communication.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student's cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of

this time period, the student may be dismissed from the program. The student's cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Concentration Requirements

Students pursuing a graduate Journalism degree can select specific elective classes to earn a concentration.

- Data Journalism Concentration, Journalism (MA) (p. 681)
- Multimedia Journalism Concentration, Journalism (MA) (p. 681)
- Reporting Metro Chicago Concentration, Journalism (MA) (p. 682)
- Sports Journalism Concentration, Journalism (MA) (p. 682)

Data Journalism Concentration, Journalism (MA)

The concentration in Data Journalism at DePaul focuses on reporting stories through data and non-linear storytelling. It enables students to cover many of our major social problems—crime, poverty, access to health care, homelessness, and various forms of abuse—through social science reporting, data mining and visualization. The concentration's objectives are to find and report important stories by integrating classic journalistic values of fairness, balance and impartiality with the values of digitalization and open-source culture. Graduates will be prepared to find jobs in the rapidly growing marketplace of publications that combine journalism and cutting-edge technology. Students must take two core courses (8 credits) and two elective courses (8 credits).

Core Courses

Course	Title	Quarter Hours
Students must take 2 core courses.		8
JOUR 520	DATA JOURNALISM	
JOUR 531	JOURNALISM BY NUMBERS	

Elective Courses

Course	Title	Quarter Hours
Select two of the following:		8
GEO 440	PLACES, HUMANITIES AND GEOGRAPHIC INFORMATION SYSTEMS	
GEO 441	GEOGRAPHIC INFORMATION SYSTEMS (GIS) FOR COMMUNITY DEVELOPMENT	
GEO 442	GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR SUSTAINABLE URBAN DEVELOPMENT	
GEO 443	EARTH OBSERVATION II	
GEO 447	WEB GIS AND SPATIAL DATA VISUALIZATION ON THE WEB

DSC 450	DATABASE PROCESSING FOR LARGE-SCALE ANALYTICS
DSC 465	DATA VISUALIZATION
DSC 480	SOCIAL NETWORK ANALYSIS
IT 403	STATISTICS AND DATA ANALYSIS

Multimedia Journalism Concentration, Journalism (MA)

Multimedia Journalism is a concentration that focuses on the multimedia storytelling and narrative strategies used to engage a wide readership. Coursework shows students how to combine text, photographs, video clips, audio, and graphics that encourage interactivity. Students will learn the strategies for multimedia storyboarding, planning, and delivery systems that successfully integrate mobile, tablet and desktop platforms. The concentration guides students into a better understanding of the evolving media landscape and its digital communities in helping students produce professional-grade multimedia stories. Students must take two core courses (8 credits) and two elective courses (8 credits).

Core Courses

Students will take the following courses as part of their major program requirements:

Course	Title	Quarter Hours
Students must take 2 core courses.		8
JOUR 502	NEWS NOW: JOURNALISM IN THE INFORMATION AGE	
JOUR 503	REPORTING FOR CONVERGED NEWSROOMS	

Elective Courses

Course	Title	Quarter Hours
Select two courses from the following:		8
JOUR 504	MULTIMEDIA NEWS PRODUCTION	
JOUR 506	NEWSCAST PRODUCING	
JOUR 507	VISUAL COMMUNICATION	
JOUR 517	EXPERIENTIAL LEARNING IN JOURNALISM	
JOUR 522	MULTI-PLATFORM NEWS EDITING	
JOUR 523	ONLINE SPORTS REPORTING	
JOUR 528	REPORTING FOR GOOD DAY DEPAUL	
JOUR 529	ONLINE NEWS BUREAU	
JOUR 533	JOURNALISM & FREEDOM OF INFORMATION	
JOUR 534	TOPICS IN PHOTOJOURNALISM	
JOUR 539	CURRENT ISSUES IN THE JOURNALISM INDUSTRY	
JOUR 542	SOCIAL MEDIA AND THE NEWS	
JOUR 546	PHOTOJOURNALISM FOR STUDENT MEDIA	
JOUR 551	ADVANCED REPORTING I	
JOUR 552	ADVANCED REPORTING II	

JOUR 553	SOCIAL JUSTICE REPORTING I
JOUR 554	SOCIAL JUSTICE REPORTING II
JOUR 588	REPORTING FOR 14 EAST MAGAZINE

Reporting Metro Chicago Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Reporting Metro Chicago prepares students for work in urban reporting by introducing them to the communities, institutions, and decision-makers that impact citizens across the metro area. Students will learn how to cover critical urban issues through a variety of print and online platforms that serve citizens with fascinating stories drawn from across the city. Students must take 1 core course (4 credits) and 3 elective courses (12 credits).

Core Courses

Course	Title	Quarter Hours
Select one of the following courses:		
JOUR 513	POLITICAL REPORTING	4
JOUR 525	URBAN AFFAIRS REPORTING	4

Elective Courses

Course	Title	Quarter Hours
Select three of the following courses:		
JOUR 509	JOURNALISM LAW AND ETHICS	12
JOUR 512	BUSINESS WRITING AND REPORTING	
JOUR 513	POLITICAL REPORTING	
JOUR 514	OPINION AND COLUMN WRITING	
JOUR 515	SPECIAL TOPICS IN JOURNALISM	
JOUR 517	EXPERIENTIAL LEARNING IN JOURNALISM	
JOUR 524	WRITING FOR THE DEPAULIA	
JOUR 525	URBAN AFFAIRS REPORTING	
JOUR 526	POLITICAL COMMUNICATION	
JOUR 528	REPORTING FOR GOOD DAY DEPAUL	
JOUR 529	ONLINE NEWS BUREAU	
JOUR 533	JOURNALISM & FREEDOM OF INFORMATION	
JOUR 535	RADIO DEPAUL	
JOUR 540	THE INTERNET, TECHNOLOGY, AND POLITICS	
JOUR 541	MASS MEDIA & AMERICAN POLITICS	
CMN 591	INTERNSHIP	

Sports Journalism Concentration, Journalism (MA)

Course Requirements

The graduate concentration in Sports Journalism trains students to write, report, and produce multimedia sports packages while giving them an understanding of the unique role of sports in American life. Experiential learning opportunities are emphasized in game coverage, sports

blogging, and building sports communities through print, broadcast, and social media. Students will learn the perspective and context that makes for truly exceptional work in sports journalism. Students must take one core course (4 credits) and 3 elective courses (12 credits).

Core Courses

Students are required to take one of the following:

Course	Title	Quarter Hours
JOUR 510	SPORTS REPORTING	4
JOUR 523	ONLINE SPORTS REPORTING	4

Elective Courses

Course	Title	Quarter Hours
Select three courses from the following:		12
JOUR 510	SPORTS REPORTING	12
JOUR 514	OPINION AND COLUMN WRITING	
JOUR 515	SPECIAL TOPICS IN JOURNALISM ¹	
JOUR 517	EXPERIENTIAL LEARNING IN JOURNALISM	
JOUR 521	SPORTS PRODUCING	
JOUR 523	ONLINE SPORTS REPORTING	
JOUR 524	WRITING FOR THE DEPAULIA	
JOUR 528	REPORTING FOR GOOD DAY DEPAUL	
JOUR 529	ONLINE NEWS BUREAU	
JOUR 535	RADIO DEPAUL	
JOUR 536	SPORTS BLOGGING	
CMN 591	INTERNSHIP	

¹ Topic must be sports journalism related.

Journalism (MA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Journalism (MA)

The Journalism (MA) combined degree program is open to all undergraduate majors across the university. Students who are interested in this program must apply to the Graduate Admission Office in their junior year, and if accepted, can take up to three graduate courses (12 credits) in their senior year. These three courses count towards both the bachelor's program and the master of arts degree. Students will pay the current undergraduate tuition rate for these three courses. Once students earn their Bachelor of Arts or Bachelor of Science degree from DePaul, they matriculate as a graduate student and complete the remaining required courses for their Master of Arts degree. Students should work with their undergraduate advisor to see how the graduate classes will fulfill undergraduate degree requirements. Students must maintain a 3.0

GPA (B or better) in each graduate class taken in the senior year in order to continue in the program.

Example Schedule for Students in the Combined Degree Program

Course	Title	Hours
Senior Year		
Fall Quarter		
Take one graduate course		4
Winter Quarter		
Take one graduate course		4
Spring Quarter		
Take one graduate course (student completes undergraduate degree requirements and matriculates as a graduate student for fall quarter.)		4
Fifth Year		
Fall Quarter		
Take three courses		12
Winter Quarter		
Take three courses		12
Spring Quarter		
Take three courses		12

Double Demon Scholarship

Alumni from any of DePaul's colleges who are admitted into a graduate degree program in the College of Communication automatically qualify for the Double Demon Scholarship. **Combined degree program students are eligible.**

This scholarship covers 25% of the tuition for a master's degree in the College of Communication. Both full-time and part-time students are eligible. No scholarship application is required. (DePaul University employees are eligible for other employee tuition benefits through the university, and therefore are not eligible for the Double Demon Scholarship.)

Journalism (Minor)

The Journalism minor provides an overview of reporting skills and methods. The flexible, hands-on curriculum offers courses that focus on a variety of topics, allowing you to take the courses that are most appealing to you.

Course Requirements

A minor in Journalism consists of a total of 24 credit hours (six courses).

Course	Title	Quarter Hours
JOUR 275	INTRODUCTION TO JOURNALISM	4
JOUR 278	NEWS REPORTING	4
Select one of the following:		4
JOUR 301	REPORTING FOR 14 EAST MAGAZINE	
JOUR 357	PHOTOJOURNALISM FOR STUDENT MEDIA	
JOUR 380	REPORTING FOR GOOD DAY DEPAUL	

JOUR 390	WRITING FOR THE DEPAULIA	
Select three courses that begin with JOUR ¹		12

¹ Any of these three JOUR courses may be replaced with CMN 394 or CMN 395, if those internships are journalism-related.

Students majoring in Journalism (BA) are restricted from earning this minor.

Language Proficiency Certificate

The Department of Modern Languages offers two certificates to current students and to non-degree seeking students/students-at-large: intermediate (low, mid, or high) language proficiency and advanced (low, mid, or high) language proficiency. Upon completion of the required classes and Written Proficiency Test, the student's certificate will be posted to their DePaul transcripts. Language proficiency certification will allow students to show future employers they are ready to compete in today's global workplace.

To declare the certificate, students must contact Anna Souchuk (asouchuk@depaul.edu).

Students will register and pay a fee to complete the Writing Proficiency Test (<http://www.languagetesting.com/actfl-writing-proficiency-test-wpt/>) (WPT) through Language Testing International (<http://www.languagetesting.com/>), proctored by the Department of Modern Languages, and will receive a nationally recognized level of proficiency based on the standards developed by the American Council on the Teaching of Foreign Languages (<http://www.actfl.org/>) (ACTFL). Please refer to the Department of Modern Languages website for more information.

The department offers certificates in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Russian, and Spanish. Certificates require a varying number of courses, depending on the student's incoming language placement and desired level of proficiency.

Test credit and transfer credit are not applicable toward the certificate. All courses to be applied toward the certificate must be completed at DePaul.

Intermediate

- Students are required to successfully complete a minimum of three courses at DePaul (level 104 and above - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis) in order to earn the certificate.
- Student readiness for intermediate level (104 and above) courses will be established by the language placement exam (<http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx>), transfer credit (<http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx>), or test credit (<http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx>).
- The number of courses necessary to achieve an intermediate level certificate of proficiency (low, mid or high) will depend on the student's entering proficiency level (based on previous study/knowledge; courses required may be determined by the language placement exam (<http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language->

advising-faq.aspx), transfer credit (<http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx>), ACTFL Written Proficiency Test (WPT) (<http://www.languageproficiency.com/writing-proficiency-test/>), or test credit (<http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx>) and student effort (time spent studying the language, the following recommendations (<http://las.depaul.edu/academics/modern-languages/student-resources/resources/Pages/default.aspx>) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).

- At the end of the required number of courses, students must register and pay to take the ACTFL Written Proficiency Test (WPT) (<http://www.languageproficiency.com/writing-proficiency-test/>) or the American Sign Language Proficiency Interview (<https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/>) to certify proficiency level. The level of proficiency, per ACTFL test results (Advanced low, or higher), will be posted onto the student's DePaul transcripts.
- If students test below an intermediate level certificate, they may opt to
 - take additional language courses,
 - work with the free language tutors through the Language Learning Center (<http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx>) until the desired level of proficiency is achieved, and then retake the test, or
 - drop the certificate program by emailing their advisor or college advising office.
- Students should familiarize themselves with the ACTFL proficiency standards for intermediate-level speakers in order to better understand how much time they may need to dedicate to language study for the certificate.

Advanced

- Students are required to successfully complete five courses at DePaul (200 and 300 level language courses - no transfer or test credit; DePaul study abroad program credit will be reviewed on a case-by-case basis).
- Student readiness for advanced level courses will be established by the language placement exam (<http://las.depaul.edu/academics/modern-languages/student-resources/academic-advising/Pages/language-advising-faq.aspx>), transfer credit (<http://www.depaul.edu/admission-and-aid/types-of-admission/transfer-student/transferring-your-courses/Pages/default.aspx>), or test credit (<http://www.depaul.edu/admission-and-aid/test-credit-and-placement/Pages/default.aspx>).
- Degree-seeking students taking the certificate may also complete one of several minors (<http://www.depaul.edu/university-catalog/degree-requirements/Pages/default.aspx>) in the language simultaneous to the certificate.
- The number of courses necessary to achieve an advanced level certificate of proficiency (low, mid or high) will depend on the student's entering proficiency level and student effort (time spent studying the language, the following recommendations (<http://las.depaul.edu/academics/modern-languages/student-resources/resources/Pages/default.aspx>) for language proficiency development outside of the classroom, how well students perform in their language classes, etc.).

- At the end of the required number of courses, students must register and pay to take the ACTFL Written Proficiency Test (WPT) (<http://www.languageproficiency.com/writing-proficiency-test/>) or the American Sign Language Proficiency Interview (<https://www.gallaudet.edu/the-american-sign-language-proficiency-interview/aslpi/>) to certify proficiency level. The level of proficiency, per ACTFL test results (Advanced low, or higher), will be posted onto the student's DePaul transcripts.
- If students test below an advanced level certificate, they may opt to
 - a. change their certificate program (intermediate low, mid, or high),
 - b. take additional language courses,
 - c. work with the free language tutors through the Language Learning Center (<http://las.depaul.edu/academics/modern-languages/student-resources/Pages/language-labs-and-tutors.aspx>) until the desired level of proficiency is achieved, and then retake the test, or
 - d. drop the certificate program by emailing their advisor or college advising office.
- Students should familiarize themselves with the ACTFL proficiency standards for advanced-level speakers in order to better understand how much time they may need to dedicate to language study for the certificate.

Latin American and Latino Studies (BA)

The Department of Latin American and Latino Studies (LALS) explores the myriad contributions of Latin Americans and Latinx people to the global community. The department's programs emphasize the profound linkages that have emerged between Latin America and the United States, particularly through the construction of Latinx communities in the U.S. We also critically analyze the complex intersections with Indigenous, African, European, Semitic, Arab, and Asian communities throughout the Americas.

This interdisciplinary department cultivates critical thinking on gender, sexuality, language, race, ethnicity, class, religion and indigeneity, and it emphasizes community engagement and social justice pedagogies and scholarship. Our programs equip students with much needed cultural competences that will prepare them well for leadership positions in both the public and private sectors and/or for work in graduate education.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major (Core + Concentration) Requirements	48
Open Electives	60
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe and discuss the historical trajectories of the diverse communities of Latin America emerging from centuries of interactions among Indigenous, African and European peoples, as well as Arabic, Asian, Semitic and other diasporas.
- Describe and discuss the historical linkages between Latin America and the United States and the experiences of Latin American migrants and their descendants within the US.

- Critically engage with the historical legacies of hierarchy and inequality that shape imbalances of power within Latin America and structure its relations with the US.
- Apply theoretical approaches, interdisciplinary concepts, and appropriate methods to interrogate practical problems and issues of inequity in the Americas.
- Develop in self-reflection and critical analysis an ethos and practice of social justice.
- Develop professional skills and cultural competences through the following activities: creating and delivering live presentations, and completing independent and team research and writing. Following the same learning outcome, the LALS program also encourages students to engage in the following high impact practices: conducting community engagement projects, participating in internships in public service and the professions, participating in cultural exchanges and study abroad in Latin America.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be

obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
LST 390	SENIOR SEMINAR ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in Latin American and Latino Studies (LST) is required to complete the Capstone offered by the LST Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. An LST major in the University Honors Program shall take the University Honors Capstone and the LST Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 1 Course Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and 1 SRCourse]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Notes

See an advisor to utilize the modern language option.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Core Requirements (5 courses / 20 credit hours)

Course	Title	Quarter Hours
LST 200	FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA	4
LST 201	STRUGGLE AND RESISTANCE IN LATIN AMERICA	4
LST 202	CONSTRUCTING LATINO COMMUNITIES	4
LST 203	MEDIA AND CULTURAL STUDIES ACROSS THE AMERICAS	4
LST 390	SENIOR SEMINAR (taken for Liberal Studies requirement)	4

Spanish Requirement (2 courses / 8 credit hours)

- Two 200/300-level Spanish courses

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Cultural Studies of the Americas, Individualized Concentration, Latina/o/x Studies, Transformations Over Time in the Americas Concentration.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements

and major requirements, students are required to choose one of the following:

- Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA) (p. 687)
- Individualized Concentration, Latin America and Latino Studies (BA) (p. 688)
- Latina/o/x Studies Concentration, Latin America and Latino Studies (BA) (p. 689)
- Transformations Over Time in the Americas Concentration, Latin America and Latino Studies (BA) (p. 690)

Cultural Studies of the Americas Concentration, Latin America and Latino Studies (BA)

This concentration includes the study of cultural productions - e.g. art, film, television, literature - and the major theoretical and ideological trends of cultural studies in the Americas. This concentration takes a hemispheric or Inter-American approach to the study of cultural productions, taking into account the impact of social, economic, and political exchanges on the circulation of culture across the hemisphere. Courses in this concentration explore issues relating to the representation of transnational migration, race, ethnicity, sexuality, gender, class, and indigeneity.

Course Requirements

Course	Title	Quarter Hours
Select six courses from the following: ¹		24
LST 113	LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES

LST 310	SPECIAL TOPICS: LATINOS IN THE U.S. (LATINOS AND FILM)
LST 310	SPECIAL TOPICS: LATINOS IN THE U.S. (POETRY AND HIP)
LST 310	SPECIAL TOPICS: LATINOS IN THE U.S. (LATINO THEATER)
LST 321	GLOBALIZATION IN THE AMERICAS
LST 322	MEXICAN CINEMA
LST 336	EXPERIENCING MEXICAN ART
LST 338	COLONIAL LATIN AMERICAN ART
LST 375	MEXICO CITY (WORLD CITIES)
LST 389	LATIN AMERICAN PHILOSOPHY

¹ Courses from other departments may count towards this concentration; consult your LALS advisor for more information.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Individualized Concentration, Latin America and Latino Studies (BA)

Course Requirements

Students in the Individualized concentration will consult with their faculty advisor to determine the six elective courses.

Latin American and Latino Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year’s worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law’s online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant’s third undergraduate year. The LSAT score will only be used for consideration

of merit scholarships; it will not be a factor in the admission of the participant to the program. In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Latina/o/x Studies Concentration, Latin America and Latino Studies (BA)

The Latina/o/x Studies concentration allows students to choose from an array of intellectually challenging, multidisciplinary courses that introduce cutting-edge scholarship on the Latina/o populations of the United States. Our courses familiarize students with the nation's fast-growing, diverse, transnational Latina/o populations, including their histories, ongoing connections to Latin America, cultures, and social conditions. Courses offer students the opportunity to focus on individual Latina/o communities in the country and to engage in comparative analysis of the various Latina/o communities. Students can select courses that concentrate on current socioeconomic and political issues facing Latinos in the U.S., as well as others that capture Latina/o expression in literature, music, and the arts. Some courses in this concentration involve students in collaborative projects with Chicago based Latina/o community organizations, civic programs, and other service learning opportunities.

Course Requirement

Course	Title	Quarter Hours
Select six courses from the following: ¹		24
LST 113	LATINO RELIGIOUS EXPERIENCE IN THE UNITED STATES

LST 330	LATINOS IN EDUCATION

¹ Courses from other departments may count towards this concentration; consult your LALS advisor for more information.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Transformations Over Time in the Americas Concentration, Latin America and Latino Studies (BA)

This concentration focuses on the political, economic, and socio-cultural transformations that have profoundly shaped the Americas over time. In addition, it explores the historical processes that have created and continue to shape the diverse people living in the Americas throughout the centuries, focusing specifically on the peoples of Latin American origins and calling attention to the complex interplay among Indigenous, African, European, Arab, Asian, and Semitic societies in the region. This concentration provides the methodological and theoretical tools to analyze longitudinally and comparatively key historical issues such as colonization, imperialism, militarism, revolution, the struggles for liberation and self-determination, nationalism, and the creation of borders and boundaries, as well as the development of unique art and literary expressions. Courses in this concentration also address issues such as authoritarian and democratic regimes of governance, state-interventionist and neoliberal economies, national and transnational forms of belonging, as well as the new modes of institutional exclusion and socio-cultural formation. In choosing this concentration, students will grapple with key figures, events, and movements in the Americas.

Course Requirements

Course	Title	Quarter Hours
Select six courses from the following:		24
LST 121	LATIN AMERICA TO 1765: LIFE BEFORE AND AFTER COLUMBUS	
LST 122	LATIN AMERICA, 1765-1914: THE LONG 19TH CENTURY	
LST 123	LATIN AMERICA, 1914-2010	
LST 205	MEXICO AFTER INDEPENDENCE	
LST 206	MEXICO: FROM THE OLMECS TO INDEPENDENCE	
LST 243	MAYA ART AND ARCHITECTURE	
LST 244	ART OF MESOAMERICA	
LST 246	ART IN THE SPANISH AMERICAN EMPIRE	
LST 300	SPECIAL TOPICS IN LATIN AMERICAN STUDIES	
LST 321	GLOBALIZATION IN THE AMERICAS	
LST 323	URBAN LATIN AMERICA: LABOR, HOUSING, ENVIRONMENT AND GENDER	
LST 348	INDIGENOUS POLITICAL STRUGGLES	
LST 358	REVOLUTIONS AND PEASANT REBELLIONS	
LST 389	LATIN AMERICAN PHILOSOPHY	

Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

In the spring of their junior year, majors can apply for the combined Latin American and Latino Studies (BA) + Critical Ethnic Studies (MA). Students in this program take twelve graduate credit hours in their senior year; these graduate courses may apply toward both undergraduate Latin American/Latino Studies major field and graduate Critical Ethnic Studies requirements. Interested students should contact the Critical Ethnic Studies (CES) graduate director.

A variety of other combined degree options are available for majors within the College of Liberal Arts and Social Sciences as well as other colleges at DePaul. These options generally offer double-counting of undergraduate open elective credit with graduate program credit.

Latin American and Latino Studies (Minor)

The Latin American and Latino Studies minor will help you explore the cultural contributions of the Latin American community to the global community and the traditions that developed in the region.

Course Requirements

Core Requirements (2 courses / 8 credit hours)

Course	Title	Quarter Hours
Select two of the following:		8
LST 200	FOUNDING MYTHS AND CULTURAL CONQUEST IN LATIN AMERICA	
LST 201	STRUGGLE AND RESISTANCE IN LATIN AMERICA	
LST 202	CONSTRUCTING LATINO COMMUNITIES	
LST 203	MEDIA AND CULTURAL STUDIES ACROSS THE AMERICAS	

Areas of Concentration (4 courses / 16 credit hours)

- Four elective courses, to be chosen in consultation with a program advisor. Minors are encouraged to take LST 390. Minors are suggested to focus in one of the four Areas of Concentration:
 - Cultural Studies of the Americas
 - Individualized
 - Transformations Over Time in the Americas
 - Latina/o/x Studies

Study Abroad Experience

Students are strongly encouraged to participate in DePaul's quarter abroad program in Merida, Mexico or one of the university's other short-term study abroad programs in Latin America.

Internship Experience

Students are strongly encouraged to include an internship as part of their academic experience. Internships may be arranged with either a Latino

community organization, a U.S.-based organization that focuses on Latin America, or, as part of a study abroad experience, with a public service organization in a Latin American country.

Students majoring in Latin American and Latino Studies (BA) are restricted from earning this minor.

Latino Media and Communication (Minor)

The minor in Latino Media and Communication is comprised of six courses. The minor allows students within the college and from other colleges, who have a strong interest in focusing their interest in Latino Studies, to develop them within the communication field. Students opting to pursue a minor in Latino Media and Communication may not pursue a concentration in the same subject area.

Minor Goals

The program educates students to think critically about all aspects of media and communication, with a particular focus on Latino media and Latino communities. Coursework will provide students with the applied skills necessary to create communication strategies which effectively reach the Latino segment of the population, based on an understanding of Latino cultures in the US and grounded in an understanding of its cultural, economic and sociological aspects.

Learning Goals

Students who complete the minor will:

- Develop an understanding of the heterogeneous and rapidly changing Latino communities locally, nationally, and globally.
- Ground their knowledge of intercultural studies within a more extensive and concrete knowledge of a particular (even though diverse), rapidly growing, and increasingly important population within the US—Latino communities.
- Increase their cross-cultural competence (understanding and ability to dialogue across difference, develop cultural sensitivity and awareness) with Latino communities.
- Develop insights into the needs and motivations of Latino populations in the workplace, in community situations, and other sites of engagement, and develop communications tools and strategies to address those needs and motivations.
- Enhance their capacity to communicate with and learn from Latino populations in the workplace, in community situations, and other sites of engagement.
- Recognize the impact of the movement of Latinos across the globe and to develop the skills to critically consume and produce media, public relations, and advertisement representations that communicate to and about Latino communities.
- Both engage and demonstrate their interest in Latino Studies within and across diverse areas of knowledge production in the Communication field.

Course Requirements

Course	Title	Quarter Hours
LST 202 or CMNS 335	CONSTRUCTING LATINO COMMUNITIES LATINX COMMUNICATION, ADVOCACY AND COMMUNITY BUILDING	4-4.5

Select five additional courses from:

20

CMN 394	MAKING THE MOST OF YOUR COMMUNICATION INTERNSHIP (for credit in this concentration, the internships must focus on Latino media and communication)
CMN 395	COMMUNICATION INTERNSHIP SPECIAL TOPICS (for credit in this concentration, the internships must focus on Latino media and communication)
CMNS 308	TOPICS IN INTERCULTURAL COMMUNICATION
CMNS 335	LATINX COMMUNICATION, ADVOCACY AND COMMUNITY BUILDING
CSS 201	CRITICAL COMMUNITY ENGAGEMENT
CSS 390	SPECIAL TOPICS IN COMMUNITY SERVICE STUDIES ¹
JOUR 377	SPECIAL TOPICS IN JOURNALISM (Topic requires departmental approval)
LST 202	CONSTRUCTING LATINO COMMUNITIES
LST 300	SPECIAL TOPICS IN LATIN AMERICAN STUDIES
MCS 350	TOPICS IN GLOBAL CINEMA (Topic requires departmental approval)
MCS 353	TOPICS IN MEDIA STUDIES (Topic requires departmental approval)
MCS 375	LATINO/A TELEVISION AND MEDIA
MCS 376	LATIN AMERICAN CINEMA
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
PRAD 362	ENGAGING LATINX COMMUNITIES
PRAD 393	SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING
PSY 220	LATINX PSYCHOLOGY
SPN 198	STUDY ABROAD
SPN 298	STUDY ABROAD
SPN 393	LATINO MEDIA AND DIGITAL CULTURE LITERACY
SPN 398	STUDY ABROAD

¹ Cross-listed with LST 300 Transnational Communities: Puerto Rico/ ABD Fall Quarter.

Latino/a Culture and Communication (BA)

This curriculum would provide students with a deeper understanding of current affairs, history, economics, identities, and culture of diverse groups in the U.S., as well as a skill for effective and culturally relevant communication and media production. Therefore, this major requires substantive study in both areas.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Core Courses	32
Major Requirements	44

Open Electives	32
Total hours required	192

Learning Outcomes

- Recognize the cultural diversity of the Latino/a population in the United States and their history
- Appreciate the significance (historical and contemporary) of Latino/a communities in the United States
- Identify, interpret and differentiate interdependence, power, and privilege among dominant groups and Latino/s within tDemonstrate awareness, knowledge, and understanding of international and cultural groups other than their own, through opportunities to interact with others with differing world views
- Compare and contrast media and communication practices as they relate to diverse populations and contexts
- Communicate ideas and values clearly and effectively in multiple contexts, with diverse audiences and via appropriate media and formats
- Research and analyze Latino/a literatures, media, cultures and/or texts to understand the communication dynamics and how they are shaped by history
- Inquire and analyze cultural traditions and practices, as they are represented in the media

College Core Requirements Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility

of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
LST 390	SENIOR SEMINAR ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in Latino/a Culture and Communication is required to complete the Capstone offered by the Latin American and Latino Studies (LST) Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A Latino/a Culture and Communication major in the University Honors Program shall take the University Honors Capstone and the LST Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Course Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
- [1 CR Course and 1 SRCourse]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required

Notes

See an advisor to utilize the modern language option.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Degree Requirements

Core Courses (32 credit hours)

Composed of five introductory core courses offered by the Latin American and Latino Studies Department, plus three additional introductory courses which are also required for all College of Communication majors.

Course	Title	Quarter Hours
Core Courses		32
LST 201	STRUGGLE AND RESISTANCE IN LATIN AMERICA

Open Electives - 32 credit hours Law (JD)

As a lawyer, you will face a unique set of challenges every day, from negotiating complex agreements to successfully arguing motions in court. That's why DePaul University College of Law offers you theoretical instruction as well as creative approaches to professional skills training. Whether in the classroom or in the field, DePaul's comprehensive curriculum prepares you to succeed.

Program Requirements	Semester Hours
Core Requirements	44
Elective Requirements	42
Total hours required	86

Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Degree Requirements

Law School Full-Time Day and Evening Program Options

The College of Law has both a full-time day and an evening program option. At the end of their first year, students may change from the evening program to full-time day or vice versa by filing a program change request form with the Office of Student Affairs. The form is available on the College of Law website under Registration. Students may only change their status once while they are enrolled in law school.

Students are advised that a program change may affect their financial aid. For financial aid information, they should see a financial aid counselor in the Office of Financial Aid on the 9th floor of the DePaul Center.

Note that, after JD Day students complete their first-year required courses and after JD Evening students complete their first three semesters of required courses, students may take day or evening courses, regardless of the student's program.

Credit Hour Requirements

Graduation with a JD requires that the student complete 86 credit hours. Under the College of Law's semester system, one credit hour is granted for 50 minutes of classroom or direct faculty instructional time per week, multiplied by 15, and at least 120 minutes of additional out-of-class student work each week, or an equivalent amount of work for other courses and activities, multiplied by 15. The standard course extends over a fourteen-week semester, followed by a final examination period. Courses or other credit-bearing activities that occur over a different time period must incorporate the same total amount of instructional time and additional assigned work per credit hour as a standard course. At a minimum, students must complete 42.5 hours for 1 unit of credit; 85 hours for 2 units of credit; 127.5 hours for 3 units of credit; and 170 hours for 4 units of credit.

Credit is earned if a student receives an A through a D, or PA grade.

Time to Degree Limitation

JD Day students are expected to complete the degree in three years. JD Evening students are expected to complete the degree in four years. The maximum time to complete the JD program, if a student takes an approved leave of absence, is five years. Students who are unable to complete the degree within this time frame are required to confer with the Assistant Dean for Student Affairs in the College of Law. Pursuant to the American Bar Association Standards of Accreditation, all JD students must complete their degree no later than 84 months after commencing law study.

Maximum and Minimum Credit Hours

First-year JD Day students take 14-15 credit hours per semester. First-year JD Evening students take 9-11 credit hours per semester.

Upper level JD Day students may register for a maximum of 16 credit hours per semester. After their third semester, JD Evening students may register for a maximum of 12 credit hours per semester.

JD Day students must take a minimum of 12 credit hours per semester except that JD Day graduating seniors in their final semester need only take the number of credit hours necessary for them to graduate. JD Evening students must register for a minimum of 9 credit hours per semester except that graduating seniors need only take the number of credit hours necessary for them to graduate.

No Credit for Course Work Taken Prior to Matriculation in the JD Program

The American Bar Association Standards provide that credit for a JD degree shall only be given for course work taken after the student has matriculated in a law school. A law school may not grant credit toward the JD degree for work taken in a pre-admission program.

* Courses that are counted toward the BA for students in the 3+3 (BA/JD) program. These courses will be completed in the combined final year of the undergraduate degree and first year of the law degree.

Experiential Education Requirement

Students must complete at least six credit hours of experiential education courses from the list of approved courses below. Most, but not all, courses are offered for three credit hours.

Course	Title	Semester Hours
Select at least six credit hours of the following:		6
LAW 121	ADVANCED BRIEF WRITING	
LAW 213	DOMESTIC VIOLENCE PRACTICUM	
LAW 246	PATENT & TRADEMARK SEARCHING	
LAW 286	INTERNATIONAL HUMAN RIGHTS LAW PRACTICUM (Spring Only)	
LAW 287	ADVANCED INTERNATIONAL HUMAN RIGHTS LAW PRACTICUM (Spring Only)	
LAW 288	INTERNATIONAL HUMAN RIGHTS LAW FIELD WORK	
LAW 290	ANATOMY OF A DEAL: FROM INCEPTION TO CLOSING	
LAW 312	TRIAL ADVOCACY II	
LAW 319	PROSECUTING & DEFENDING CRIMINAL CASES	
LAW 363	RESTORATIVE JUSTICE	
LAW 369	LITIGATION LAB	
LAW 400	BUSINESS TRANSACTIONS AND DOCUMENTATION	
LAW 419	LITIGATION STRATEGY: PRE-TRIAL, CIVIL	
LAW 429	LEGAL CLINIC I	
LAW 438	MEDIATION	
LAW 450	TRIAL ADVOCACY I	
LAW 453	COMMERCIAL ARBITRATION	
LAW 460	BUSINESS PLANNING	
LAW 469	LITIGATION STRATEGY: INTELLECTUAL PROPERTY	
LAW 475	NEGOTIATIONS	
LAW 514	LEGAL CLINIC II	
LAW 524	EXTERNSHIP PROGRAM	
LAW 538	NATIONAL TRIAL TEAM	
LAW 555	ADVANCED LEGAL RESEARCH	
LAW 564	EXTERNSHIP SEMINAR	
LAW 566	FIELD CLINIC SEMINAR	
LAW 567	FIELD CLINIC PRACTICE	
LAW 641	PRACTICAL LEGAL RESEARCH	
LAW 712	THE PRACTICE OF HEALTH CARE LAW	
LAW 751	HEALTH LAW MOOT COURT	

Advanced Writing Requirement

Course	Title	Semester Hours
Select one of the following:		
LAW 250	SENIOR RESEARCH SEMINAR	
LAW 227	CHILDREN'S HUMAN RIGHTS UNDER INTERNATIONAL LAW	
LAW 258	WOMEN'S HUMAN RIGHTS UNDER INTERNATIONAL LAW	

LAW 379	TAX RESEARCH AND WRITING
LAW 427	APPELLATE TECHNIQUE
LAW 428	INDEPENDENT STUDY
LAW 429	LEGAL CLINIC I (Advanced Criminal Appeals)
LAW 455	LEGAL DRAFTING
LAW 514	LEGAL CLINIC II (Advanced Criminal Appeals)
LAW 559	FOREIGN EXCHANGE: MADRID, SPAIN (Master's Thesis)

Diversity, Equity and Inclusion Requirement

JD students matriculating Autumn 2022 or later must complete one course from the list of approved courses below. These courses include substantial engagement with the legal system's relationship with social inequality, racism, and/or other forms of bias; and/or include substantial opportunities for students to learn about and practice skills in cross-cultural competence.

Courses that meet both the Diversity Requirement and the Experiential Education Requirement can be counted for both requirements. Courses that meet both the Diversity Requirement and the Advanced Writing Requirement can be counted for both requirements.

Course	Title	Semester Hours
Select at least one of the following:		2-3
LAW 202	EMPLOYMENT DISCRIMINATION	
LAW 206	SEX, GENDER, AND THE LAW	
LAW 213	DOMESTIC VIOLENCE PRACTICUM	
LAW 227	CHILDREN'S HUMAN RIGHTS UNDER INTERNATIONAL LAW	
LAW 232	CATHOLIC SOCIAL JUSTICE & THE LAW	
LAW 250	SENIOR RESEARCH SEMINAR (Critical Race Theory; Citizenship; Crimmigration; Feminist Jurisprudence; When Justice Fails; or other approved topic)	
LAW 258	WOMEN'S HUMAN RIGHTS UNDER INTERNATIONAL LAW	
LAW 286	INTERNATIONAL HUMAN RIGHTS LAW PRACTICUM	
LAW 301	SPECIAL TOPICS IN LAW (Trauma-Informed Lawyering; Human Rights in Latin America; Transnational Criminal Law; Reproduction and the Law; or other approved topic)	
LAW 313	JUVENILE JUSTICE

LAW 702	ELDER LAW
LAW 706	HEALTH POLICY AND THE LAW
LAW 709	HEALTH EQUITY AND THE LAW
LAW 716	DISABILITY LAW

Electives

Elective courses are open to all students who meet the prerequisites for the course in question. For information on specializations, see the section on Certificates.

Credit Hour Limitations

Non-Classroom Credit Hours: 12-Credit Limit

With the exception of students enrolled in the Third Year in Practice (3YP) program, a JD student may earn a maximum of 12 credit hours for non-classroom (indirect instruction) courses. Courses that count toward the 12-credit non-classroom limit include the following:

Course	Title	Semester Hours
Limit of 12 credit hours of the following:		12
LAW 114	LEGAL ANALYSIS RESEARCH AND COMMUNICATIONS TEACHING ASSISTANTS	
LAW 204	LAW REVIEW	
LAW 217	JOURNAL FOR SOCIAL JUSTICE	
LAW 224	ASP TA	

LAW 236	JOURNAL OF SPORTS LAW AND CONTEMPORARY PROBLEMS
LAW 298	GENERAL TEACHING ASSISTANT
LAW 303	BUSINESS AND COMMERCIAL LAW JOURNAL
LAW 336	JOURNAL OF ART TECHNOLOGY & INTELLECTUAL PROPERTY EDITORIAL BOARD
LAW 411	GUIDED RESEARCH
LAW 428	INDEPENDENT STUDY
LAW 436	JOURNAL OF HEALTH CARE LAW EDITORIAL BOARD
LAW 524	EXTERNSHIP PROGRAM
LAW 536	NATIONAL MOOT COURT COMPETITION
LAW 537	INTERNATIONAL MOOT COURT COMPETITION
LAW 539	INTERSCHOLASTIC COMPETITION
LAW 567	FIELD CLINIC PRACTICE
LAW 961	INTENSIVE FIELD PLACEMENT
LAW 962	ADVANCED INTENSIVE FIELD PLACEMENT

Distance Education Credit Limit

American Bar Association rules specify that JD students may earn a maximum of 28 credit hours toward the JD degree for distance education courses. The College of Law offers both fully online and hybrid courses. A hybrid course is a course in which some, but not all, of the instructional time is online. All fully-online courses, and some hybrid courses, qualify under the ABA rule as distance education courses.

Third Year in Practice (3YP) Program

The Third Year in Practice Program (3YP) provides qualifying students with a unique third-year experience engaging in the actual and simulated practice of law. Students admitted to the 3YP program are required to complete 24 credit hours of experiential courses, including an Intensive Field Placement of 5-9 credit hours and the Third Year in Practice Seminar. In addition, students will be able to choose from an array of professional skills, practicum, legal drafting and clinic courses to create a fully immersive third year in practice.

Required Courses for 3YP Students

Course	Title	Semester Hours
LAW 960	3YP SEMINAR	2
LAW 961	INTENSIVE FIELD PLACEMENT	5-9

Optional Courses for 3YP Students

Course	Title	Semester Hours
LAW 962	ADVANCED INTENSIVE FIELD PLACEMENT	5-9
LAW 963	ADVANCED INTENSIVE FIELD PLACEMENT TUTORIAL	1

- Arts and Museum Law Certificate, Law (JD) (p. 700)
- Business Law Certificate, Law (JD) (p. 700)
- Criminal Law Certificate, Law (JD) (p. 701)
- Family Law Certificate, Law (JD) (p. 702)
- General Intellectual Property Certificate, Law (JD) (p. 702)
- Health Care Compliance Certificate, Law (JD) (p. 703)

- Health Law Certificate, Law (JD) (p. 703)
- Information Technology, Cybersecurity & Data Privacy Law Certificate, Law (JD) (p. 704)
- International and Comparative Law Certificate, Law (JD) (p. 705)
- Patent Law Certificate, Law (JD) (p. 706)
- Public Interest Law Certificate, Law (JD) (p. 706)
- Tax Law Certificate, Law (JD) (p. 707)

Joint Degree Requirements

The College of Law offers the following joint degree programs:

- JD/MBA (with Kellstadt Graduate School of Business)
- JD/MA in International Studies (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MNM in Non-profit Management (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MPA in Public Administration (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MPP in Public Policy (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MS in International Public Service (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MS in Public Service Management (with the College of Liberal Arts & Social Sciences' School of Public Service)
- JD/MS in Computer Science Technology (with the College of Computing and Digital Media)

Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

For additional requirements, please visit the pages for the corresponding degrees.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student's classification be changed from Juris Doctor candidate to candidate for the appropriate joint degree. The letter should include the student's full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrently completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a May graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for the bar examination until all degree requirements are met.

Arts and Museum Law Certificate, Law (JD)

To earn a Certificate in Intellectual Property: Arts and Museum Law, a student must complete the 86 semester hours required for the Juris Doctor degree and satisfy all JD requirements. Within the elective course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and seminars and earn a minimum GPA of 3.20 in the Certificate courses. If a student takes more than one of the non-core elective courses listed below, the student can select which course will count towards the certificate, and the grade in that course will be subject to the minimum 3.20 GPA requirement. Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval. In addition, with approval, students may substitute a different writing seminar or a three-credit independent study for the required writing assignment.

Academic credits received from law school journals, including the Journal of Art, Technology and Intellectual Property Law, do not count toward the credits required for the Certificate.

For more information, contact Faculty Certificate Director for Art and Museum Law, Patty Gerstenblith.

Information Technology, Cybersecurity & Data Privacy Law Certificate, Law (JD)

To earn a Certificate in Information Technology, a student must complete the 86 credit hours required for the Juris Doctor degree and satisfy all JD requirements. Within the course work required for the JD degree, a student must complete at least 15 credit hours from the listed courses and earn a minimum GPA of 3.20 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.20 GPA requirement for the Certificate. Students may apply for only one Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval. In addition, with approval, students may substitute a different elective course.

Academic credits received from law school journals, including the Journal of Art, Technology and Intellectual Property Law, do not count toward the credits required for the Certificate.

For more information, contact the Certificate Directors for Information Technology Law, Michael Grynberg and Ellen Gutiontov.

Required Courses

Course	Title	Semester Hours
LAW 271	TRADEMARK & UNFAIR COMPETITION LAW	3

Public Interest Law Certificate, Law (JD)

To earn a Certificate in Public Interest Law, a student must complete the 86 credit hours required for the Juris Doctor degree and satisfy all JD requirements.

Within the course work required for the JD, a student must complete at least 15 credit hours from the approved list of public interest law courses and complete the Service in Public Interest Law requirement, as listed below.

An applicant must earn a minimum GPA of 3.0 in the Certificate courses. If a student takes more than 15 hours of courses from the approved list, all grades earned in those courses will be factored into the minimum 3.0 GPA requirement for the Certificate.

Previously taught courses, courses offered in other DePaul Colleges, and new courses and seminars that may be added to the curriculum may qualify for the Certificate with approval.

Students may apply for only one Certificate.

For more information, contact Certificate Director for Public Interest Law, Shaye Loughlin.

Foundations of Public Interest Law

Law (MLS)

DePaul's Masters of Legal Studies (MLS) program is specifically designed for professionals who do not seek to practice law but who encounter legal issues in their work and would benefit from a sophisticated and nuanced understanding of legal reasoning and doctrine. With such specialized legal knowledge, MLS graduates stand out as professionals who can effectively and comfortably communicate with legal counsel and can assess the needs of their organizations as the laws and regulations change in their professions.

A great variety of professionals would benefit from the MLS credential to enhance their current positions or to advance within their organizations. Examples include:

- Doctors, nurses, public health workers and other health care administrators

- Patent and trademark assistants, engineers and other technology-related professionals
- Compliance professionals
- Contract analysts
- Business executives, supervisors, managers and entrepreneurs
- Risk and quality assurance managers
- Financial and estate planners and other investment advisors
- Tax specialists, accountants and CPAs
- Policy makers, lobbyists and government regulators
- Nonprofit professionals
- Development officers
- Journalists
- Librarians and educators
- Real estate professionals
- Human resource and employee benefits professionals
- Mediators and labor and employment negotiators
- Police officers, social workers and psychologists

Through the program, MLS students gain general and specialized legal knowledge related to their areas of interest. Students learn the process of legal analysis by examining cases, laws and regulations. They develop the abilities to conduct effective and relevant legal research as well as to communicate clearly and analytically. Students also acquire the ability to think critically about legal issues and correctly apply current legal authority.

Program Requirements	Semester Hours
Degree Requirements	30
Total hours required	30

Learning Outcomes

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrate understanding of how a common law system operates in a constitutional democracy.
- Demonstrate basic knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.

Degree Requirements

Credit Requirements

The MLS is a 30-credit hour degree program that can be completed in one and a half years of full-time study or in up to six years of part-time study. MLS students choose courses directly from the College of Law's extensive curriculum. MLS students with significant, relevant work experience may apply for a waiver of up to six credit hours, for a total degree requirement of 24 credit hours. Students must be able to demonstrate substantial professional experience of at least 12 months' duration in a relevant field of interest to qualify.

Credits earned as part of the MLS degree program are not transferable to the JD degree. Students who graduate with an MLS degree are not eligible to sit for the bar exam or to become licensed attorneys.

Enrollment Classifications and Time to Degree Completion

For MLS students a nine semester hour course load is considered full-time (6 semester hours for summer study). A six semester hour course load is considered half-time (3 hours for summer study). MLS students may opt to take only three semester hours per term.

Students who are unable to complete the MLS degree within six years are required to confer with the Associate Dean for Student Affairs in the College of Law.

Grades and Good Standing

To be considered in good standing at the College of Law, MLS students must have a cumulative GPA of 2.00 over three semesters. Grades received in the Summer session are not included in a student's GPA for the prior academic year. MLS students are not included in the grade curve that applies to JD students.

Course Requirements

At the time of application MLS students select a specialized course of legal study, and upon completion of the program they earn a concentration in the selected area, which is designated on their final transcript. All MLS students complete two required foundational courses in American law.

Required Foundational Courses

Course	Title	Semester Hours
LAW 322	INTRODUCTION TO AMERICAN LAW AND LEGAL SYSTEMS	3
LAW 556	INTRODUCTION TO LEGAL WRITING AND RESEARCH	3

Concentration Requirements

MLS students complete the required and elective courses in their chosen concentration.

Concentration Requirements

- Art and Cultural Heritage Law Concentration, Law (MLS) (p. 709)
- Business Law Concentration, Law (MLS) (p. 709)
- Data Privacy and Cybersecurity Concentration, Law (MLS) (p. 710)
- Family Law Concentration, Law (MLS) (p. 710)
- General Legal Studies Concentration, Law (MLS) (p. 710)
- Health and Intellectual Property Law Concentration, Law (MLS) (p. 711)
- Health Care Compliance Concentration, Law (MLS) (p. 711)
- Health Law Concentration, Law (MLS) (p. 711)
- Intellectual Property (IP) Law Concentration with Information Technology Law Specialty, Law (MLS) (p. 712)
- Intellectual Property (IP) Law Concentration with Patent Law Specialty, Law (MLS) (p. 712)
- Intellectual Property (IP) Law Concentration, Law (MLS) (p. 712)
- International and Comparative Law Concentration, Law (MLS) (p. 713)
- Public Interest Law Concentration, Law (MLS) (p. 713)
- Criminal Law Concentration, Law (MLS) (p. 714)

LAW 507	FEDERAL CRIMINAL LAW	
LAW 513	INTERNATIONAL CRIMINAL LAW	
LAW 557	CRIMINAL PROCEDURE II: ADJUDICATION	

¹ Denotes courses open only to Criminal Law MLS students enrolled in the FOP program at the Chicago Police Academy.

Open Electives

Students complete the remaining credit hours for the MLS degree by taking additional Criminal Law elective courses, by choosing courses from the current College of Law course catalog, or by enrolling in a combination of both.

Law - Joint Degree (JD + LLM)

DePaul's JD+LLM (Juris Doctor + Master of Laws) program gives students the opportunity to develop specialized knowledge in specific areas of law. Students can simultaneously earn a JD and an LLM, an internationally recognized postgraduate law degree, in one of four areas of concentration: Health Law, Intellectual Property Law, International Law or Taxation. The JD+LLM program is designed to provide advanced training through a personalized educational experience. Students are permitted to apply nine credit hours of qualifying courses toward both degrees, allowing them to complete both degrees in three years with summer enrollment. Students can apply to the JD+LLM program prior to starting the JD program or at any time during their JD program.

Program Requirements	Semester Hours
JD Requirements	86
LLM Requirements	15
Total hours required	101

Learning Outcomes

Juris Doctor (JD)

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.

- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession

Master of Laws (LLM)

Domestic Students

Students will be able to:

- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Conduct advanced legal research and analysis in the student's area of specialization.

International Students

Students will be able to:

- Identify structures of the U.S. legal system and government institutions.
- Demonstrating understanding of how a common law system operates in a constitutional democracy.
- Demonstrate advanced knowledge of the legal rules and policies in the student's area of specialization.
- Identify and apply relevant legal authority.
- Communication clearly in speech and writing.

Degree Requirements

Admission Requirements

Students may apply for admission to the Joint JD+LLM Program at the time of application to the JD Program (Direct Admission) or at any time prior to the last semester of the completion of the JD Program. Students applying for Direct Admission to the Joint JD+LLM Program must check the appropriate box on the JD application and submit the required essay.

Applicants admitted directly to the JD+LLM Program must achieve a minimum GPA of 2.80 at the end of their first academic year to continue their enrollment as a JD+LLM student. Students who do not meet the minimum GPA will continue their enrollment as a JD student provided they meet the requirements of that program. These students may reapply for admission to the JD+LLM Program after raising their cumulative GPA to 2.80 or higher.

College of Law students enrolled in the JD Program may apply for admission for the JD+LLM Program at any time prior to completion of the JD Program. Applicants must have a minimum cumulative GPA of 2.80 and submit the joint JD+LLM application form and required essay indicating their reason(s) for applying to the program. The application, essay, and resume should be submitted to the Office of Admissions. Upon admission, the student will receive a letter of admission to the JD+LLM Program and the student's program/plan will be changed to JD+LLM.

JD students admitted to the Joint JD+LLM Program in their final year may not be able to complete all program requirements within three years. Students electing to delay their anticipated JD program degree conferral for an additional semester to complete the requirements of the LLM will not receive certification to sit for the bar examination until the end of the semester in which they receive the Joint JD+LLM degree.

Credit and Program Requirements

JD+LLM students must complete all program requirements of the JD Program and the specific LLM Program to which they have been

admitted. Traditional JD students must complete 86 semester hours. Traditional LLM students must complete 24 semester hours after earning a JD degree. Students admitted to the joint program will be permitted to simultaneously apply 9 semester hours of qualifying courses toward both degrees. Therefore, in addition to the 86 hours required to earn the JD, Joint JD+LLM students must earn 15 semester hours to complete the LLM. With Summer enrollment, the JD+LLM may be completed in three years. JD students electing to enter the combined program in their final year who are not able to satisfy the credit requirements or complete the required courses for their LLM will enroll in an additional semester at the College of Law in order to complete the LLM requirements.

Students completing the course requirements for the JD+LLM must have a minimum grade point average (GPA) of 2.5 in order to earn the JD+LLM. Students who complete all required coursework with a GPA below 2.5, but at or above the minimum 2.00 GPA required to earn the JD, will be awarded the JD and a certificate in the area of their LLM coursework.

To receive the joint degree, students must complete the requirements of both degrees in the same semester and in the same academic year. Credits that can be applied to both degrees will be applied only after the student concurrently completes both programs. A student who graduates from the JD Program without having been admitted to the Joint JD+LLM Program prior to graduation must apply for traditional admission to the LLM Program and complete the 24 semester hours required for graduation.

Law/Business - Joint Degree (JD/MBA)

Offered jointly with DePaul's Kellstadt Graduate School of Business, the JD+MBA recognizes the growing complexity of business organizations and the increasing interaction of management and the law. The program integrates several functional areas of law and business and emphasizes the contributions each makes to the development of administrative competence.

With more than 70 years of experience in educating working professionals, the DePaul MBA program is accredited by AACSB International—the premier accreditation body for business schools—and is respected throughout Chicago, the United States and the world. Because the business world demands more cross-functional knowledge than ever, the program offers students a well-rounded curriculum of business administration with 16 concentrations in the area of their choice. The program also allows students to pursue multiple concentrations, providing them with an individualized and customized MBA experience.

Traditional MBA students must complete 60 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 52 credit hours. The Kellstadt Graduate School of Business will accept up to 8 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business.

In addition to the core requirements, specific courses are required for the various MBA concentrations. Please refer to the Kellstadt Graduate School of Business catalog for complete program requirements.

Program Requirements	Quarter Hours
MBA Core Requirements (9 -11 courses)	32 - 40
Concentration and Elective Course Requirements (5 courses)	20
Total hours required	52-60

Program Requirements	Semester Hours
JD Requirements	76
Total hours required	76

Learning Outcomes

MBA Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals

JD Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time

students earn 28 credits the first year, while part-time students must earn at least 28 credits within the first three semesters of the law program.

Traditional MBA students must complete 60 credit hours to receive the degree. However, under the joint degree program, they are required to complete a minimum of 52 credit hours. The Kellstadt Graduate School of Business will accept up to 8 credit hours for work completed in the College of Law. Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under the joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the Kellstadt Graduate School of Business. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student's program be changed from Juris Doctor to the appropriate joint degree. The letter should include the student's full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one

year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed no later than the end of the spring quarter and all law requirements no later than the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for a bar examination until all requirements are met for both degree programs.

Law/Computer Science - Joint Degree (JD/MS)

The primary goal of the joint degree JD+MS program at DePaul University College of Law and Jarvis College of Computing and Digital Media (CDM) is to prepare students for successful legal and related careers in industry, government, and other institutions that develop innovations, engage in electronic commerce, employ information technologies, and manage and protect information and data. A critical need exists for attorneys in a wide range of fields involving software development, high-technology innovations, information processing, internet and telecommunications services, digital-content, and more. Lawyers are needed to provide advice, counseling, and litigation services regarding the acquisition of and licensing of intellectual property rights; the assertion and defense of such rights; regulations governing the use, protection and preservation of information; and contractual and business practices in the high-tech sector. Graduates who have a substantive understanding of legal and technological issues regarding e-commerce, information technologies, e-discovery, computational finance, network security, digital media, or related computer science fields will have a substantial advantage in obtaining and flourishing in such positions. Graduates with the joint degree will be better prepared to be drafters, negotiators, and litigators when seeking to obtain and protect inventions, trademarks, analog and digital creations, internet websites, and domain names; advisors concerning licensing, reverse engineering, or reusing computer software, expressive, or functional media; and managers when developing policies governing the acquisition, preservation and dissemination of information for their clients and within their own institutions.

The joint JD+MS program allows students to obtain dual degrees in both law and computer science fields with only one additional year of study beyond the regular JD program and with a minimum of additional expense. The program is designed for all students who wish to deepen their technical expertise while also obtaining a law degree.

Some of the students completing the joint JD+MS degree will seek to become members of the patent bar. There are also many opportunities (including as patent litigators and licensors) for graduates who either lack the scientific or technical background required to qualify for the patent bar exam or lack the desire to practice patent law. (Membership in the patent bar is required only to file and prosecute patent applications in the United States Patent and Trademark Office; it is not a general

requirement for patent law practice.) The MS in Computer Science does not itself provide a degree that currently qualifies students to take the patent bar exam, but may provide relevant course work toward fulfilling eligibility requirements. (Applicants are advised to consult the U.S. Patent and Trademark Office's General Requirements Bulletin (https://www.uspto.gov/sites/default/files/OED_GRB.pdf)).

Program Requirements	Semester Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
MS Requirements	56
Total hours required	56

Degree Requirements

The following rules apply to this joint degree:

- Students may substitute up to 16 CDM credit hours for up to 10 of the 86 required law semester hours, reducing their law course requirements to 76 semester hours. However, students cannot substitute CDM credit hours for required courses in the College of Law, such as Legal Profession or Advanced Writing Requirement courses.
- Only CDM courses taken after enrollment in the College of Law may be substituted for law courses.
- Students may substitute up to 8 law semester hours for up to 3 CDM master's degree courses, reducing their CDM course requirements to 10 courses plus any necessary introductory courses.
- Students must graduate from both schools on the same date, in the same semester/quarter, and in the same year. Double counting of credit hours occurs only after the student concurrently completes both degree programs. Students should consult with the joint degree advisors regarding any questions about coordinating the completion of the two degrees.
- Students must adhere to CDM introductory course grade requirements as specified for their CDM major.
- Students also adhere to CDM grade and GPA requirements as specified for their CDM major in all CDM courses beyond the introductory courses.
- CDM requires that students must maintain a GPA of 2.50 or higher while pursuing their joint degrees.

Graduation Requirements

The joint degree candidate must complete all CDM requirements at the end of the fall quarter and all law requirements at the end of the fall semester to be eligible for a December degree award. Students who plan to graduate in spring must complete their CDM coursework by the end of the spring quarter and their law requirements by the end of the spring semester to be eligible for a spring degree award. Students who complete CDM requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. Students cannot be certified for admission to the Bar and sit for the bar exam until all degree requirements are completed for both degrees.

Course Requirements

Full-time students must complete the regular first year JD program with a minimum GPA of 3.0 before being admitted to the Joint Degree. Part-time students must complete at least three law semesters with a minimum

GPA of 3.0 before being admitted to the Joint Degree. The second and third years provide some flexibility to tailor a student's program. For example, students might take three law courses in the Fall Semester and two law courses in the Spring Semester, while taking one CDM course in the Fall Quarter, two CDM courses in the Winter Quarter, and two CDM courses in the Spring Quarter. The fourth year might consist of three law courses in the Fall Semester, one CDM course in the Fall Quarter, three CDM courses in the Winter Quarter, and three CDM courses in the Spring Quarter.

This schedule allows for completion of the JD as well as completion of 14 CDM courses (the MS program plus four prerequisite courses) in four years. It is possible that, because of prerequisite coursework, the program may take some students more than four years. Since each student will require a different number of CDM introductory courses and each student will select courses based on semester/quarter availability, any particular curriculum might be different from the above-described curriculum. Students are encouraged to select courses with the assistance of the program advisors at both the College of Law and CDM.

CDM Requirements for an MS Degree

For the CDM portion of the joint degree, students may major in:

- Computer Science
- Cybersecurity
- E-Commerce Technology
- Information Systems
- Network Engineering and Security

Each program listed above follows the requirements as listed on the page for that major. These requirements are divided into phases. Upon completion of the major requirements, each student will move to the Elective Phase as described below.

Students with a GPA of 3.9 or higher will graduate from CDM with distinction.

College of Law Certificate Programs

In addition to the Joint Degree, students may obtain one of the Certificates offered by the College of Law, providing that they have met the requirements for the Certificate.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

Elective Phase

Students must complete 12 additional graduate quarter hours fulfilled by courses from the IP Certificate. These courses will also be counted toward the JD degree.

Law/International Public Service - Joint Degree (JD/MS)

Program Requirements	Quarter Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
IPS Requirements	36
Total hours required	36

Learning Outcomes

JD Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Masters in International Public Service Students will be able to:

- Critically assess the global consideration and implications of issues/concerns to multiple audiences in the appropriate written and oral formats.
- Apply an ethical and empirical framework to organizational decisions.
- Analyze the leadership and management skills essential to sustaining international public service organizations.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional International Public Service students must complete 52 hours to receive the IPS degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The International Public Service Program will accept up to 16 hours of credit for work completed in the College of Law. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school.

Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student's program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student's full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/International Studies - Joint Degree (JD/MA)

The JD/MA in International Studies with the College of Liberal Arts & Social Sciences (LAS) provides you with knowledge of the political, economic and cultural environment in which international law is developing. Structured around international political economy and global culture, the program is particularly appropriate for law students with strong foreign language or social science backgrounds who wish to pursue careers as international legal specialists.

To be accepted to the joint degree program, students must complete at least 29 credits in the College of Law with a minimum grade point average of 3.00. They apply to the LAS graduate program after their first semester in law school.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Program Requirements	Semester Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
MA Requirements	36
Total hours required	36

Learning Outcomes

JD Learning Outcomes

Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

MA Learning Outcomes

Students will be able to:

- Analyze the multiple ways in which inequality and oppression work and strategize for social change.
- Work with different partners in order to produce collaborative intellectual work.
- Develop socially responsible ethical frameworks that are informed by historical consciousness of transnational contexts.
- Examine the linkages between theory and practice, scholarship and activism, research and public policy in the field of International Studies.
- Carefully read texts, research independently, and write clearly.

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional international studies students must complete 48 credit hours to receive the MA degree. However, under the joint degree program, you are required to complete a minimum of 36 credit hours. The Graduate College of Liberal Arts & Social Sciences will accept up to 12 hours of credit for work completed in the College of Law. For completion of the JD/MA degree students must meet all criteria for completion of the JD and the MA while taking a minimum of five international law electives in the College of Law. In addition, students must complete a year-long six course core sequence in International Studies. Finally, students complete a three quarter, 12-credit sequence in International Studies leading to completion of an MA thesis.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. The transcript and acceptance letter should be accompanied by a cover letter from the student requesting that the student's program be changed from Juris Doctor to the appropriate joint degree program. The letter should include the student's full name, student identification number, mailing address, email address and phone number. The joint degree candidate should also schedule a meeting with the appropriate adviser in the other college to which the student has been admitted to discuss the curriculum.

Combined Credits and Expenses

Full-time joint degree students generally complete the program in four years. Part-time applicants generally complete the joint degree program

in five years. A student may accelerate the program by taking classes in the summer or by taking more courses during the academic year. By doing so, a student may complete both programs one-half year earlier.

Once enrolled in a joint degree program, students no longer pay the College of Law package tuition; instead, students pay by the credit hour for law classes and classes taken in the other program.

Grading Standards

Joint degree students must meet the grading standards of the College of Law and the respective graduate degree program in order to remain in good standing. Grades are recorded on the transcript under the college in which the courses are taken, and the combined degree is recorded after graduation. Students who are dismissed from either program may be able to continue studies in the other program. Students must satisfy the normal program requirements of the other school to receive the degree; no double counting of credits is permitted after a dismissal from one college.

Leaves of Absence/Withdrawal

Students must receive permission from both colleges to take a leave of absence from the joint degree program or to withdraw from the joint degree program. A leave of absence is granted for a maximum of one year. If a student does not enroll in classes after one year, he or she will be permanently withdrawn from both programs and only may re-enroll by applying to the admission offices of both colleges as a new student.

Graduation

To receive the joint degree, a student must graduate from both schools on the same date, in the same semester/quarter and in the same year. Double counting of credits occurs only after concurrent completion of both programs.

For a December graduation, all requirements must be completed at the end of the fall semester and fall quarter. For a spring graduation, all non-law requirements must be completed at the end of the spring quarter and all law requirements at the end of the spring semester. Students who complete non-law requirements in the spring that they expect to graduate may not have their degrees granted in time to be certified for the July bar exam. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Non-Profit Management- Joint Degree (JD/MNM)

Program Requirements	Quarter Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
MNM Requirements	36
Total hours required	36

Learning Outcomes

JD Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.

- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Masters in Non-Profit Management Students will be able to:

- Explain relevant issues in the non-profit sector to target audiences in appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.
- Demonstrate the specific managerial and technical skillsets evident in the non-profit sector, including finance, the management of volunteers, fundraising, and advocacy.
- Apply the leadership and strategic planning skills essential to managing non-profit organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. Full-time students earn 29 credits the first year, while part-time students must earn at least 29 credits within the first three semesters of the law program.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional Non-Profit Management Students must complete 52 hours to receive the MNM degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Non-Profit Management Program will accept up to 16 hours of credit for work completed in the College of Law. Credit hours are eligible to be applied only after completion of the required first year JD curriculum described above. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Admission

Students seeking a joint degree with a college outside of the College of Law must independently apply and be admitted to the other graduate degree program. Full-time law students typically apply to the other graduate program in the summer prior to their second year of law school. Part-time law students typically apply to the other graduate degree program in the spring semester of their second year.

After admission to the other graduate program, joint degree applicants should submit a copy of the acceptance letter and law school transcript to the Assistant Dean for Student Affairs at the College of Law. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Public Administration - Joint Degree (JD/MPA)

Offered jointly with the College of Liberal Arts & Social Sciences' School of Public Service, the JD+Masters in Public Administration (MPA) promotes effective management of government agencies and fosters development of sound public policies affecting the delivery of social services. The MPA program balances theoretical and applied approaches to contemporary challenges of administration and policy analysis, and offers courses such as ethical leadership and government financial administration. Following the tradition of St. Vincent de Paul, the Public Administration program devotes special attention to policies and practices that promote social equity through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credit hours toward the JD degree for work completed in the other graduate degree program. Traditional Public Administration students must complete 52 credit hours to receive the MPA degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Administration program will accept up to 16 credit hours for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Students pursuing the JD+MPA will complete the core requirements of the MPA degree and not pursue a concentration. Please visit the Public Administration catalog for complete program information.

Program Requirements	Semester Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
MPA Requirements	36
Total hours required	36

Learning Outcomes

JD Students will be able to:

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Master of Public Administration Students will be able to:

- Apply leadership and organizational management skills and concepts in an ethical manner amidst an ever-changing public sector.
- Analyze and interact with governance structures, jurisdictional boundaries and the public policy and implementation processes.
- Analyze and synthesize data regarding an existing public affairs issue and use empirical analysis to prepare solutions for informed, decision-making in the public sector using critical thinking.
- Articulate in written or oral forms a commitment to ethical service to all people with a focus on social justice, professionalism, efficiency, cultural sensitivity, and transparency.
- Integrate the social justice lens in delivery of services and programs to a diverse public and workforce.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Public Policy - Joint Degree (JD/MPP)

Offered jointly with the School of Public Service in the College of Liberal Arts & Social Sciences, the JD+Masters in Public Policy (MPP) program gives students the skills, experience and analytical tools to help shape government policies that influence our local, regional and national agendas. The MPP program balances theoretical and applied approaches to contemporary challenges of public policy development and policy analysis, and offers courses such as ethical leadership and policy implementation. Following the tradition of St. Vincent de Paul, the Masters in Public Policy program devotes special attention to policies and practices that promote social equity through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credit hours toward the JD degree for work completed in the other graduate degree program. Traditional Masters in Public Policy students must complete 52 credit hours to receive the MPP degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Masters in Public Policy program will accept up to 16 credit hours for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

Students pursuing the JD+MPP will complete the MPP degree's core requirements. Please visit the Masters in Public Policy catalog page for complete program information.

Program Requirements	Semester Hours
JD Requirements	76
Total hours required	76

Program Requirements	Quarter Hours
MPP Requirements	36
Total hours required	36

Learning Outcomes

- Solve legal problems by applying foundational knowledge of civil procedure, constitutional law, contracts, criminal law, property law, and torts.
- Solve legal problems by applying foundational knowledge of the rules regulating the legal profession.
- Identify and apply relevant legal authority.
- Communicate clearly in speech and writing.
- Demonstrate the fundamental professional lawyering skills for competent and ethical participation as a member of the legal profession.
- Demonstrate an understanding of the importance of cross-cultural competence in the legal profession and the obligation of lawyers to promote a justice system that provides equal access and eliminates bias and all forms of invidious discrimination, including racism, in the law.

Learning Outcomes

Masters in Public Policy Students will be able to:

- Lead ethically in the field of public policy.
- Create and assess plans for citizen involvement in policy planning, advocacy, and implementation.
- Understand, apply, and consider the trade-offs in social equity, political accountability, and economic efficiency.
- Communicate effectively through oral and written media.
- Become engaged and informed citizens, active in public policy and service.

Degree Requirements

A joint degree program allows a student to complete two graduate degrees concurrently in less time than it takes to finish each program individually. As a specified number of credit hours apply toward both degrees, students also pay less in overall tuition by combining programs.

Before beginning a joint degree program, both full-time and part-time law students must complete the required first-year curriculum and achieve a minimum grade point average of 3.00 in those courses. A student will not be eligible to graduate, cannot be certified for admission to the Bar, and cannot sit for bar examinations until all degree requirements are met and degrees conferred.

Law/Public Service - Joint Degree (JD/MS)

Offered jointly with the College of Liberal Arts & Social Sciences School of Public Service, the JD+MS in Public Service Management promotes effective management of nonprofit organizations and government agencies and fosters development of sound public policies affecting the delivery of social services. The program is interdisciplinary and draws primarily on the areas of sociology, economics, political science, law and the human service professions, carefully balancing theoretical and applied approaches to contemporary challenges of administration and policy analysis. Following the tradition of St. Vincent de Paul, the Public Services Management program devotes special attention to policies and practices that promote social equality through delivery of affordable, quality services to those in greatest need.

Traditional JD students must complete 86 credit hours to graduate from the College of Law. However, under a joint degree program, a student earns the JD degree after completing a minimum of 76 credit hours. The College of Law applies up to 10 credits toward the JD degree for work completed in the other graduate degree program. Traditional public service management students must complete 52 hours to receive the MS degree. However, under the joint degree program, students are required to complete a minimum of 36 credit hours. The Public Service Management program will accept up to 16 hours of credit for work completed in the College of Law. A joint degree student may not receive credit for courses that create a redundancy in coursework.

In addition to the core requirements, specific courses are required for the various public service management concentrations. Please visit the Public Service Management catalog for complete program requirements.

Program Requirements	Semester Hours

Leadership Studies (BA)

The Bachelor of Arts in Leadership Studies from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of the theory and practice of leadership applicable to various environments. The degree offers an interdisciplinary liberal arts and professional studies curriculum that is especially suited to those who are already working and seek to advance their depth of knowledge of leadership and enhance their professionalism. The degree is equally appropriate for managers and leaders in the corporate or non-profit fields.

This major advances students' knowledge and professional skills related to effective leadership, communication, management of change and conflict, the role of technology and globalization in governance. Expertise in leadership is honed upon a solid foundation of ethics and responsibility, analysis and critical thinking, creativity and innovation. Courses are offered by School of Continuing and Professional Studies and the College of Communication with electives courses available from the Department of Psychology.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and **special adult student tuition pricing**
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Program Requirements	Quarter Hours
College Core Requirements	78
Major Requirements	76
Open Electives	38
Total hours required	192

Learning Outcomes

Students will be able to:

- Analyze and apply knowledge and theories of leadership.
- Investigate problems using qualitative and quantitative methods.
- Apply ethical principles in context.
- Explain the value of social justice in organizational contexts.
- Apply various methods of communication in multiple settings.
- Utilize principles of reflective practice in leadership studies.
- Analyze and apply different liberal arts perspectives.

Lifelong Learning (32 credits, 16 credits in residence)

Open electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

Leadership Studies (BA) Online

The Bachelor of Arts in Leadership Studies from the School of Continuing and Professional Studies (SCPS) emphasizes a multidisciplinary understanding of the theory and practice of leadership applicable to various environments. The degree offers an interdisciplinary liberal arts and professional studies curriculum that is especially suited to those who are already working and seek to advance their depth of knowledge of leadership and enhance their professionalism. The degree is equally appropriate for managers and leaders in the corporate or non-profit fields.

This major advances students' knowledge and professional skills related to effective leadership, communication, management of change and conflict, the role of technology and globalization in governance. Expertise in leadership is honed upon a solid foundation of ethics and responsibility, analysis and critical thinking, creativity and innovation. Courses are offered by School of Continuing and Professional Studies and the College of Communication with electives courses available from the Department of Psychology.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and **special adult student tuition pricing**
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

PRAD 376	CRISIS COMMUNICATION MANAGEMENT
PRAD 382	NON-PROFIT PUBLIC RELATIONS
PRAD 393	SPECIAL TOPICS IN PUBLIC RELATIONS AND ADVERTISING

¹ Relevant special topics courses and newly developed courses in Communication may be approved on a case-by-case basis.

Lesbian, Gay, Bisexual, Transgender, Queer Studies (Minor)

The LGBTQ Studies program analyzes sex, sexuality, gender identity, and queer experience within many different fields of inquiry. A minor in LGBTQ Studies will enable DePaul students to devote significant study to the experiences of people who do not conform to culturally dominant identities of sexuality and gender: lesbian, gay, bisexual, transgender, queer. Students in these courses examine the intellectual, creative, political, and personal production and presence of LGBTQ+ people throughout histories and across multiple intersections. Such an endeavor is profoundly interdisciplinary by nature and draws on university resources and faculty expertise in a wide array of disciplines. Students in this minor will have the opportunity to analyze the experiences of LGBTQ + people on their own terms, as well as through critical perspectives on sexuality and gender as complex social, cultural, biological, and historical phenomena.

Course Requirements

Course	Title	Quarter Hours
LGQ 150	INTRODUCTION TO LESBIAN, GAY, BISEXUAL, TRANSGENDER, QUEER STUDIES [SSMW]	4
Select five elective courses ¹		20

- ¹
- All LGQ 100, 200, 300-level courses count as electives
 - Other electives approved for the minor

The following is a sample of regularly-offered approved electives. This list is not exhaustive; new courses are continually created and approved. Every quarter before registration begins, the Program Director distributes a list of courses being offered the following quarter. Students should contact the Program Director to request the current list. Students may also petition the Director for approval of a course not listed. Many LGBTQ Studies courses are crosslisted and fulfill requirements in other departments and programs, including the Liberal Studies Program. LGBTQ Studies minors are encouraged to take at least one course in a variety of disciplines—film, history, literature, media, performance, philosophy, politics, religion, science, and theory.

Course	Title	Quarter Hours
AAS 325	QUEER JAPAN	
ACT 200	MAKING PLAYS: THEATER AND THE ART OF PRODUCTION

or LGQ 319	QUEER PIONEERS: CULTURE, GENDER, AND POLITICAL ACTIVISM
WGS 362	INTRODUCTION TO TRANSGENDER STUDIES
or LGQ 362	ADVANCED TRANSGENDER STUDIES
WGS 388	QUEER THEORY: AN INTRODUCTION

¹ ENG 382 or ABD 345 only satisfy an elective when the Special Topic is James Baldwin.

Liberal Studies (MA)

The Master of Arts in Liberal Studies (MALS) program is a multidisciplinary approach to graduate education which emphasizes liberal education and enhanced intellectual skills that are valuable in a wide variety of careers. It is particularly designed for serious learners, or those who wish to become serious learners, from recent college graduates to men and women in later life.

The MALS program is grounded in a set of team-designed core courses. These courses establish the aims and themes of the program, orient the student to a multidisciplinary approach to graduate education, and develop in the student advanced learning skills. These are designed to foster academic rigor, intellectual adventure, and cultural breadth. If MALS core courses are not offered, students may choose equivalent courses to be established by program advisors.

The other components of the program are electives and a variety of options for a culminating project. Electives are usually graduate and upper-level courses chosen from departmental offerings in the College of Liberal Arts and Sciences. Students select these courses with the aid of an advisor to build a program of study tailored to individual goals and interests. Included under electives are MALS special topics courses, which are especially well-suited to the needs of MALS students.

By about the midpoint of their studies (24-32 credit hours earned), students should begin discussing possible culminating project ideas with the director, associate director, or faculty advisor. The culminating project gives MALS students the opportunity to demonstrate the intellectual and creative powers that they have developed over the course of graduate study. MALS students may choose from four options for program completion, allowing greater flexibility for students to pursue their studies. These four options may take the form of a thesis, a community-based or media project, an enhanced portfolio, or a specially selected exit course and paper.

The MALS program offers a number of concentrations, including: Standard, Executive/Leadership, and Women's Studies. The Standard Concentration is based on a four-course core requirement, and may be tailored to the student's interests. The Executive/Leadership and Women's Studies Concentrations are based on a five-course core

requirement and stipulate policies for elective selection. Program advising is available to help students choose a concentration. Each of the concentrations may be pursued with any of the four program completion options. The MALS program is jointly administered with the Master of Arts/Master of Science in Interdisciplinary Studies (IDS) program by the Interdisciplinary Self-Designed Program (ISD).

The MA in Liberal Studies may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined MA/certificate program should consult with their academic advisor to determine what coursework might count toward both programs. A separate application process for the certificate is required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office for additional information.

- MALS + Digital Humanities Certificate
- MALS + Social Research Certificate
- MALS + Women's and Gender Studies Certificate

Program Requirements	Quarter Hours
Degree Requirements	48-52
Total hours required	48-52

Learning Outcomes

Students will be able to:

- Demonstrate multi-disciplinary and inter-disciplinary approaches in research and writing.
- Use their knowledge of the methods and approaches of at least one particular academic or professional discipline to complete academic writing projects.
- Analyze and incorporate a variety of academic and technical resources in appropriate scholarly and professional formats.
- Research and write in a variety of academic and/or professional genres, including expository essays, critical analysis, research papers, white papers, etc. culminating in an extended capstone.
- Analyze the social and/or historical context of phenomena and value systems in social and institutional settings.

Degree Requirements Portfolio

All students will keep a portfolio of significant work done for courses, such as final papers or special projects, with comments and grades from the professor. By the midpoint, there will be work from a total of at least three courses in the portfolio. At least two of the three pieces in the midpoint portfolio will be from the core courses. The third will be from an elective representing the student's best work. At the culminating point there will be work from at least six courses represented in the portfolio, two pieces from the core courses and four from the electives, representing the student's best work.

Midpoint Essay

After completing the sixth course but before taking the ninth course, all students in both programs will write a 3-5 page essay examining their progress to that point, using as evidence work from the portfolio. The Midpoint Essay reflects on the student's intellectual growth, and suggests directions for the second half of the student's program.

Culminating Point Essay

All students in both programs (regardless of which final option they choose) will write an essay of 3-5 pages, reflecting on their intellectual growth in the second half of the program.

Course Work

- Completion of 48 or 52 quarter hours of graduate credit, depending on the concentration and completion option (thesis, practicum, enhanced portfolio or exit course) chosen by the student.
- Cumulative grade-point average of 3.0 in the core courses: Students who have not achieved a 3.0 in the core will be warned that they will probably have serious difficulties in the elective portion of the program, and may be advised to withdraw.
- Elective courses must be selected from at least two different departments in order to preserve the multidisciplinary character of the program.
- MALS students ordinarily take no more than two approved 300-level courses for MALS degree credit unless they have sought the approval of a MALS program advisor.

Program Completion (Capstone) Steps

All students must apply and be approved for the particular option they wish to use for program completion (thesis, practicum, enhanced portfolio, or exit course). This application will include the student's portfolio. The thesis and practicum options include a Formal Proposal. Approval of the proposal is necessary before the student undertakes this final stage of the program. Enrollment in MLS 499, the culminating project independent study course, takes place after approval of the proposal has been secured. If necessary, in lieu of an elective, students may enroll in MLS 498:THESIS if they require an additional quarter of research and other preparation for MLS 499.

Both MLS 498 and MLS 499 are conducted as Independent Studies. Instructions for proposing and pursuing these are available with the Program. When the project is completed both the members of the committee and the MALS director sign a Culminating Project Completion Form, which can be found on the program's D2L site.

Program Completion (Capstone) Options

Thesis Option

In addition to the Culminating Point Essay and final portfolio submission, the student will write a paper of approximately 35-50 pages that includes 3-4 components or sections, one of which will be a research component and original exploration of the subject. (Other components might include a review of literature, a synthesis of earlier research, a reflection on various disciplinary and methodological approaches to the issue, suggestions for future research, etc.) The research component of the Master's Thesis involves reflection on primary research, or actual primary research combined with reflection on the primary research of others. The student is encouraged to make a public presentation about his or her thesis. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

Practicum Option

In addition to the Culminating Point Essay and final portfolio submission, for the Practicum Option the student will create a project aimed at developing and executing a community-based intellectual or intellectual/creative activity. Examples are a public presentation as a lecture, in broadcast or print media, or on the web. Service learning projects are also encouraged. A 15-25 page descriptive/analytic essay documenting the project is also submitted. The student is encouraged to make a public presentation about his or her practicum in addition to the primary distribution of the project. Students who have earned a GPA of less than 3.3 may in some cases be asked to complete their program with a different capstone choice.

- Ordinarily taken as MLS 499, the student's 12th and final course.
- Requires minimum cumulative GPA of 3.3, evaluation of "satisfactory" on the Midpoint Portfolio, formal proposal, and approval of committee.

Enhanced Portfolio Option

In addition to the final portfolio submission, and a Culminating Point Essay based on portfolio pieces selected from at least three courses in the second half of the program, the distinctive feature of the Enhanced Portfolio option is the writing of a new extended expository essay of 12-15 pages. This is a paper on a topic of the student's own choosing that makes an argument. (Further information on this paper and the option is available from the program.)

- Ordinarily taken as MLS 499, the student's 13th and final course.
- Requires formal proposal and approval of committee

Exit Course Option

In addition to the Culminating Point Essay and the final portfolio submission, the student proposes a particular course over and above the original 12 courses. This course should be chosen as an "exit course," in that it brings together a number of areas of interest that the student has pursued over the course of the program. By arrangement with the instructor, the student uses the final paper or final project to make connections with the goals of his or her overall MALS or IDS Program. The instructor will grade the paper, and another reader suggested by the MALS or IDS program will also review and comment on the paper.

- Requires formal proposal and approval of committee.

International Summer Programs at the University of Cambridge

DePaul's Master of Arts in Liberal Studies program has established an arrangement with the University of Cambridge, England, for students who wish to include study abroad in their programs of study. Summer programs vary in length from three to six weeks. Variable graduate credit is offered up to a maximum of eight hours. Students make their own arrangements with the University of Cambridge and apply for transfer of credit after completing the courses. Students must make sure to follow the Cambridge procedures for "Evaluation and Credit" if they wish to transfer credit to the DePaul MALS Program.

Program Time Limitation

The MALS program is essentially self-paced. However, the university has set a four year limit for the completion of degree requirements. Extensions may be granted by the Dean in unusual circumstances upon the recommendation of the program's director. Students must petition for such an extension in writing.

Concentration Requirements

- Executive/Leadership Concentration, Liberal Studies (MA) (p. 734)
- Women's and Gender Studies Concentration, Liberal Studies (MA) (p. 734)
- Standard Concentration, Liberal Studies (MA) (p. 734)

Student Handbook

Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.0. A GPA below 3.0 will result in the student being placed on warning status. If this status persists for two quarters, the student will be requested to leave the program. If he or she decides to remain in the program, the student will be placed on academic probation and be given one quarter to raise the GPA to 3.0. If the student's GPA falls to 2.5 or below, he or she will be immediately placed on academic probation and must raise the GPA to 3.0 in the next quarter or face dismissal from the program. If the GPA falls to 2.5 or below a second time the student will be dismissed from the program.

When a student is admitted to the MALS or IDS Program under the category of "Conditional Admission" he or she is considered under academic probation until the conditions are met. The conditions are usually that a student must earn a grade of B or higher in all courses taken during the first three quarters in the program. The student may request continued registration in the second and third quarters if the grades are not adequate in the first quarter. If the conditions of admission are not met by the third quarter, the student will be dismissed from the program. Other conditions may include the requirement to take certain courses, and the student must comply within the specified time period or face dismissal.

IDS students who select courses that are not on their approved List of Courses (LOC) may face warning after one quarter and probation after two quarters if they do not seek approval for their altered programs. The procedure for altering an approved List of Courses is found on the ISD D2L site.

Students whose grades fall below the minimums described above will be considered in the categories of warning or probation whether or not the program administrators are aware of the student's grades. The program administrators may apply the categories of warning or probation retroactively if the student does not self-report his or her status. Students are required to seek advisement from program administrators when facing academic warning or probation. A student who does not contact program administrators about potential warning or probation status may face dismissal from the program.

Dismissal

In addition to the minimum GPA requirement, students may be dismissed for breaches of academic honesty or breaches of the code of student responsibility. MALS students may also face dismissal for failure to complete core courses with a grade of B or higher within the first half of their academic career. Students who have completed their coursework, but who are still working on their thesis, practicum or other capstone project must be enrolled in Candidacy Continuation (MLS 502) during the three quarters of the academic school year. After three consecutive terms of candidacy continuation, students should enroll in Active Status (MLS 501) if they still require time to complete their capstone. Failure to enroll in candidacy continuation or advanced status may result in

dismissal from the program if the student has not formally withdrawn from the program.

Readmission

When a student has withdrawn from the program or has not been enrolled in classes for three or more quarters during the academic year, he or she must apply for readmission using the Readmission and Reclassification form available from the LAS Graduate website.

Transfer Credit

A student may apply to transfer up to three courses of graduate work from another accredited institution. The courses must be approved by the Program Director as part of the student's overall course of study for both MALS and IDS students. The courses must then be approved for transfer credit by the Office of Student Records.

Undergraduate Courses

Courses at the 200-level cannot be approved for graduate credit, even when a student needs to take such a course as preparation for more advanced work. Courses at the 300-level may be approved for graduate credit under the following circumstances: (1) The course is necessary as a part of the student's overall interdisciplinary program. (2) The department does not offer courses in the same area on the graduate level. (3) The student has arranged with the professor to enhance the course to graduate level by the addition or alteration of assignments, including the final project of the course. Unless approved by the Program Director, a student should take no more than two 300-level courses as part of his or her program.

Graduation Requirements

In order to graduate, students in the MALS and IDS Programs must complete the coursework specific to their programs (either 48 or 52 credit hours depending on capstone choice) with a minimum GPA of greater than 3.0, a Midpoint and Culminating Point Essay, the submission of an electronic portfolio of final and other projects from a minimum of six courses, and one of four capstone choices offered by the program. Full descriptions of the requirements for the capstones, as well as further policies and procedures for both programs, are outlined in the documents found on the ISD D2L site under Program Documents. Students in the program are expected to be familiar with these policies and procedures and to comply with them.

Graduation with Distinction

In order to have the degree conferred with distinction, students in MALS and IDS completing their programs with a thesis or practicum capstone (48 credit hours) must earn a minimum cumulative GPA of 3.75, plus earn a designation of "distinction" on their thesis or practicum by their thesis advisor and at least one of the two readers on their committee. Thesis and practicum writers eligible for distinction are required to present their projects at a ISD event within three academic quarters of completion. Students in MALS and IDS completing their programs with an exit course or enhanced portfolio essay capstone (52 credit hours) must earn a minimum cumulative GPA of 3.85 in order to graduate with distinction.

Time Limit

Students are normally expected to complete the MALS or IDS Program within four academic years. During quarters in which no courses are taken, students are required to maintain active status in the program by registering for Candidacy Continuation or Active Status. Students who have not taken courses for three consecutive quarters during the regular academic year and have not registered for Candidacy Continuation or

Active Status must apply for readmission using the Readmission and Reclassification form listed on the LAS Graduate website.

Executive/Leadership Concentration, Liberal Studies (MA)

Course	Title	Quarter Hours
MLS 401	VISIONS OF THE SELF	4
Select one of the following:		4
MLS 402	PERCEPTIONS OF REALITY	
MLS 405	REPRESENTATIONS OF THE BODY	
MLS 409	ENVIRONMENT AND SOCIETY	
MLS 403	THE AMERICAN EXPERIENCE	4
or MLS 404	THE CITY	
MLS 406	EXPLORING OTHER CULTURES (or another graduate-level course dealing with a single non-Western culture)	4
MLS 442	ETHICS AND THE ECONOMY	4
MLS 452	BUSINESS, SOCIETY AND SUSTAINABLE DEVELOPMENT	4
Select six or seven elective courses, depending on program completion option ¹		24-28
MLS 499	CAPSTONE (or a designated exit course, if the Exit Course Option is chosen) ²	4
Or select equivalent courses to be established by the program		

¹ Choose from MALS special topics courses or graduate or upper-level courses with the aid of the student's advisor. At least two electives should relate to business, the economy, or leadership in the non-profit sector.

² The topic and content of the culminating project must deal with some aspect of leadership or an issue relating to business, government, or the non-profit sector.

In lieu of MLS 442 and MLS 452 students may select, with the permission of the director, two other graduate-level courses dealing with leadership issues.

Women's and Gender Studies Concentration, Liberal Studies (MA)

Course	Title	Quarter Hours
MLS 401	VISIONS OF THE SELF	4
MLS 405	REPRESENTATIONS OF THE BODY	4
MLS 403	THE AMERICAN EXPERIENCE	4
or MLS 404	THE CITY	
MLS 440	FEMINIST THEORIES	4
MLS 441	WOMEN ACROSS CULTURES	4
Select six or seven elective courses, depending on program completion option ¹		24-28
MLS 499	CAPSTONE (or a designated exit course, if the Exit Course Option is chosen) ²	4
Or select equivalent courses to be established by the program		

¹ Choose from MALS special topics or graduate or upper-level courses with the aid of the student's advisor. Three of the six courses must meet the criteria of the Women's and Gender Studies concentration; that is, the topic, content, and approach to the course must be focused upon the study of women or gender relations. For example, MLS 445, MLS 467, MLS 474, MLS 477 and MLS 478 meet these criteria.

² The topic, content, and approach of the integrating project must be focused on the study of women or gender. A Women's Studies faculty member must advise the student throughout the project's development.

Standard Concentration, Liberal Studies (MA)

Course	Title	Quarter Hours
MLS 401	VISIONS OF THE SELF	4
Select one of the following:		4
MLS 402	PERCEPTIONS OF REALITY	
MLS 405	REPRESENTATIONS OF THE BODY	
MLS 409	ENVIRONMENT AND SOCIETY	
MLS 403	THE AMERICAN EXPERIENCE	4
or MLS 404	THE CITY	
MLS 406	EXPLORING OTHER CULTURES (or another graduate-level course dealing with a single non-Western culture)	4
Select seven or eight elective courses, depending on program completion option ¹		28-32
MLS 499	CAPSTONE (or a designated exit course, if the Exit Course Option is chosen)	4
Or select equivalent courses to be established by the program		

¹ Choose from MALS special topics or graduate and upper-level courses with the aid of the student's advisor.

Lighting Design (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Lighting Design is designed to give students the opportunity to explore and expand their artistic and visual expression and provides them the opportunity to practice their craft. The four-year curriculum in many ways simulates a lighting designer's professional experience and process. Designers learn to visualize, create and implement their designs by collaborating with directors, dramaturgs, other designers and technicians, and our professional production staff.

Program Requirements	Quarter Hours
Liberal Studies Requirements	52
Major Requirements	155
Total Hours Required	207

Program Specific Outcomes

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of visual art and architecture in the context of social and cultural development.
- Demonstrate and apply an expertise in lighting technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Other (p. 1322)

- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Linguistics (Minor)

Linguistics is the scientific study of language: how it is structured, used, and learned. The interdisciplinary Minor in Linguistics is designed to enable students interested in the nature of language and its use in society to enrich a degree in any field, including modern languages, communication, anthropology, education, English, computer science, psychology, writing and rhetoric, and more.

Requirements

Students take two core courses and four electives. In order to ensure the interdisciplinary nature of the minor, no more than two elective courses may come from the same program.

Choose Two Core Courses

Course	Title	Quarter Hours
Required course on language in the mind *		4

The following 5 classes are equivalent courses:

ANT 390	SPECIAL TOPICS IN ANTHROPOLOGY ("How Language Works" Topic Only)	
CMNS 221	HOW LANGUAGE WORKS: INTRODUCTION TO LINGUISTICS	
ENG 222	INTRODUCTION TO LINGUISTICS	
MOL 220	HOW LANGUAGE WORKS	
WRD 220	HOW LANGUAGE WORKS	
Required course on language in society		4
Choose One:		
ANT 106	LANGUAGE AND CULTURE	
ASL 354	SOCIOLINGUISTICS FOR THE DEAF COMMUNITY	
CMNS 333	CULTURES IN CONVERSATION	
SPN 354	SPANISH SOCIOLINGUISTICS	
WRD 264	LANGUAGE, SELF AND SOCIETY	

*MOL 220 is cross-listed with CMNS 221, ENG 222, WRD 220, and ANT 390. Other topics in anthropology taught as ANT 390 do not apply to this minor.

Choose Four Electives

Course	Title	Quarter Hours
ASL 352	ASL LINGUISTICS	4
ASL 354	SOCIOLINGUISTICS FOR THE DEAF COMMUNITY	4
ANT 106	LANGUAGE AND CULTURE	4
ANT 317	LANGUAGE, POWER AND IDENTITY	4

Management (BSB)

The Bachelor of Science in Business with a major in Management emphasizes tackling relevant issues for today's manager: managing in the global economy, ethical and socially responsible decision-making, managing for total quality, employee empowerment, leadership, team performance and compensation, new venture creation, and conflict resolution.

Management majors are hired typically for positions as business analysts, account executives, assistant managers, operations managers, HR managers, employment interviewers, and consultants. The entrepreneurship curriculum offers programs designed for those students interested in someday starting their own businesses.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	18
Concentration Requirements	20

Open Electives	22
Total hours required	192

Learning Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance. Differentiate between effective and ineffective personnel selection methods.
- Articulate the central elements of employment law in performance management, compensation, recruitment, and selection.
- Demonstrate skill in improving employee performance through applications of reward systems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4
FIN 310	INTRODUCTION TO FINANCE	4
MAT 137	BUSINESS STATISTICS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	4
MKT 301	PRINCIPLES OF MARKETING	4
Business Technology ²		
Select one of the following:		4
BUS 202	BUSINESS TECHNOLOGY	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	

MIS 360	SYSTEMS ANALYSIS AND DESIGN	
Business Communication ³		
Select one of the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	
Global Business Perspective ⁴		
Select one of the following:		4
ECO 316	EUROPEAN ECONOMIC HISTORY	
ECO 330	RADICAL RESPONSES TO CAPITALISM	
ECO 333	TOPICS IN GLOBAL ECONOMIES	
ECO 334	UNDERSTANDING CHINA'S ECONOMY	
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES

FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT	
MKT 360	INTERNATIONAL MARKETING	
SOC 217	WORK IN A GLOBALIZED WORLD	
A course taken as part of a term-long study abroad program		

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective

If an ICS or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required.

Grade Minimums for Management Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, and any ICS or MGT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MGT 300 and MGT 301 a student majoring in Management is required to complete the following courses totaling at least 18.0 hours and an additional four courses based on concentration chosen totaling at least 20.0 hours:

Five required courses:

Course	Title	Quarter Hours
MGT 250	CAREER MANAGEMENT SKILLS	2
MGT 302	ORGANIZATIONAL BEHAVIOR	4
MGT 303	MANAGING PROJECTS AND TEAMS	4
MGT 314	BUSINESS ANALYTICS FOUNDATION TOOLS	4
MGT 389	MANAGEMENT STRATEGY	4

Open Electives

Open elective credit (22.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Concentrations in Management

A student majoring in Management may have more than one Management concentration; except students with a General concentration cannot have a second Management concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied. Students should take the Career Course as soon as possible.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- General Management Concentration, Management (BSB) (p. 740)
- Human Resources Concentration, Management (BSB) (p. 741)
- International Management Concentration, Management (BSB) (p. 741)
- Leadership and Change Management Concentration, Management (BSB) (p. 742)
- Supply Chain Management Concentration, Management (BSB) (p. 742)

General Management Concentration, Management (BSB)

The General Management concentration is for the student who wants a broad sampling of the various management disciplines.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
MGT 307 or MGT 360	HUMAN RESOURCES MANAGEMENT LEADERSHIP	4

Select four elective courses from the following:

BLW 201	LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
MGT 270	INTRODUCTION TO ENTREPRENEURSHIP
MGT 307	HUMAN RESOURCES MANAGEMENT (if not selected above)
MGT 311	TRANSPORTATION & LOGISTICS
MGT 320	TRAINING AND CAREER DEVELOPMENT
MGT 323	SUPPLY CHAIN MANAGEMENT
MGT 325	SUSTAINABLE MANAGEMENT
MGT 330	RECRUITMENT AND SELECTION
MGT 335	COMPENSATION & BENEFITS
MGT 340	LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 344	THE BUSINESS OF ESPORTS
MGT 345	SERVICE SECTOR MANAGEMENT
MGT 347	HEALTH CARE MANAGEMENT
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 355	NEGOTIATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT
MGT 357	INTERNATIONAL BUSINESS
MGT 360	LEADERSHIP (if not selected above)
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING
MGT 370	BUSINESS PLAN DEVELOPMENT
MGT 373	CREATIVITY & ENTREPRENEURSHIP
MGT 374	ENTREPRENEURSHIP LAW
MGT 375	ENTREPRENEURSHIP PRACTICUM
MGT 385	WOMEN IN ENTREPRENEURIAL AND ORGANIZATIONAL LEADERSHIP
MGT 390	INNOVATION & TECHNOLOGY
MGT 393	MANAGEMENT INTERNSHIP
MGT 395	SOCIAL AND SUSTAINABLE ENTERPRISE
MGT 398	SPECIAL TOPICS (multiple topics may be used)
MGT 399	INDEPENDENT STUDY
BLW 202	COMMERCIAL PAPER AND SALES
BLW 203	BUSINESS ORGANIZATIONS
BLW 398	SPECIAL TOPICS (multiple topics may be used)
BLW 399	INDEPENDENT STUDY
IB 350	INTERNATIONAL BUSINESS SEMINAR

Second Concentration

Students with a General concentration cannot have a second Management concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are

required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Human Resources Concentration, Management (BSB)

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course	Title	Quarter Hours
MGT 307	HUMAN RESOURCES MANAGEMENT	4
Select four of the following:		16
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 330	RECRUITMENT AND SELECTION	
MGT 335	COMPENSATION & BENEFITS	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 393	MANAGEMENT INTERNSHIP	
MGT 360	LEADERSHIP	
MGT 398	SPECIAL TOPICS (when related to Human Resources)	

Second Concentration

A student majoring in Management may have more than one Management concentration.

Exception: students with a General concentration cannot have a second Management concentration.

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are

required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Management Concentration, Management (BSB)

Build the skills you need to be an effective manager in a globalized world. Develop an understanding of varied cultural backgrounds and values. Explore global human resource and service sector management, develop language skills and travel abroad to gain an understanding of the many nuances of international business.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
MGT 307 or MGT 360	HUMAN RESOURCES MANAGEMENT LEADERSHIP	4
Select three of the following:		12
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 345	SERVICE SECTOR MANAGEMENT	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MGT 393	MANAGEMENT INTERNSHIP	
MGT 398	SPECIAL TOPICS (when related to International Management)	
Select one from above or from the following:		4
ARB 320	BUSINESS ARABIC	
CHN 252	INTRODUCTION TO COMMERCIAL CHINESE	
CHN 320	CHINESE FOR BUSINESS	
FCH 320	FRENCH FOR BUSINESS	
GER 320	ADVANCED COMMERCIAL GERMAN	
ITA 320	ITALIAN FOR BUSINESS	
JPN 320	ADVANCED COMMERCIAL JAPANESE	
SPN 252	INTRODUCTION TO SPANISH FOR BUSINESS	
SPN 320	ADVANCED SPANISH FOR BUSINESS	

¹ IB 350 can be taken up to two times in the International Management Concentration.

Second Concentration

A student majoring in Management may have more than one Management concentration.

Exception: students with a General concentration cannot have a second Management concentration.

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Leadership and Change Management Concentration, Management (BSB)

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
MGT 360	LEADERSHIP	4
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING	4
Select three elective courses from the following:		12
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 373	CREATIVITY & ENTREPRENEURSHIP	
MGT 390	INNOVATION & TECHNOLOGY	
MGT 393	MANAGEMENT INTERNSHIP	

MGT 398

SPECIAL TOPICS (when related to Leadership and Change Management)

Second Concentration

A student majoring in Management may have more than one Management concentration.

Exception: students with a General concentration cannot have a second Management concentration.

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Supply Chain Management Concentration, Management (BSB)

The Supply Chain Management concentration prepares students to understand the big picture of supply chains while also diving into various operational functions including transportation and logistics, procurement, and operations management.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
MGT 307 or MGT 360	HUMAN RESOURCES MANAGEMENT LEADERSHIP	4
Select four of the following:		16
MGT 311	TRANSPORTATION & LOGISTICS	
MGT 323	SUPPLY CHAIN MANAGEMENT	
MGT 345	SERVICE SECTOR MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 393	MANAGEMENT INTERNSHIP	

Second Concentration

A student majoring in Management may have more than one Management concentration.

Exception: students with a General concentration cannot have a second Management concentration.

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (MBA/MPH in Public Health)

Our Master of Business Administration/Master of Public Health (MBA/MPH) degree develops students' managerial acumen and their expertise as public health professionals.

Jointly offered by the Kellstadt Graduate School of Business and the College of Liberal Arts and Social Sciences, 90-credit MBA/MPH provides you with the opportunity to earn advanced degrees in two highly complementary fields—business and public health. The landscape for healthcare managers is radically changing with advances in technology, shifts in demographics, and the aging of the population. Success in this highly competitive field not only requires skills in finance and operations, but also an in-depth understanding of disease prevention and health promotion at the organizational and community level. The joint degree is designed for committed and enterprising students who want to take advantage of the growing emphasis on public health and population health in the design and delivery of healthcare.

The MBA/MPH program allows students to obtain both degrees in as little as three years of full-time course work. This rigorous program is designed for highly motivated students who work or plan to work in management, executive, or consulting positions in community/population health. To enter this program, prospective students must complete admissions applications and be accepted for both the MBA and the MPH programs.

Program Requirements	Quarter Hours
MBA Core Requirements	40
MBA Concentration Requirements	12
MPH Requirements	38
Total hours required	90

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.

- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals.

Course Requirements for the MBA Program

The MBA portion of the joint degree requires completion of fourteen courses (52 quarter hours). In addition to the eleven core courses (40 quarter hours), students must complete three courses/electives (12 quarter hours).

Course	Title	Quarter Hours
ACC 502	FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING	4
ECO 502	ANALYSIS OF BUSINESS CONDITIONS	2
ECO 555	MANAGERIAL ECONOMICS	4
FIN 555	FINANCIAL MANAGEMENT	4

MPH 603	COMMUNITY HEALTH PROJECT DESIGN	4
MPH 604	CAPSTONE SEMINAR IN COMMUNITY PUBLIC HEALTH	4
MPH 600	PREPARATION FOR PUBLIC HEALTH PRACTICE	1
MPH 699	PUBLIC HEALTH PRACTICUM	1

Culminating Experience Requirements

In addition to successfully completing coursework, students also must complete a practicum experience that culminates in the writing of a capstone thesis. Students complete their practicum field experience during their last year in the program. Students are required to commit to 8-10 hours per week to their practicum site, for a minimum of 250 hours over the course of the nine-month placement. It is required to be physically onsite at the agency for the majority of these hours.

Management (Minor)

Available to students majoring outside the Driehaus College of Business, the Management minor presents problem-solving approaches and techniques that are necessary when working with an organization or business to achieve its goals. The student may focus on management in a specific industry, such as health care or public relations.

Course Requirements

A non-Driehaus student minoring in Management is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 302	ORGANIZATIONAL BEHAVIOR	4
MGT 307	HUMAN RESOURCES MANAGEMENT	4
Select two of the following:		8

MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	
MGT 303	MANAGING PROJECTS AND TEAMS	
MGT 311	TRANSPORTATION & LOGISTICS	
MGT 314	BUSINESS ANALYTICS FOUNDATION TOOLS	
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 323	SUPPLY CHAIN MANAGEMENT	

MGT 325	SUSTAINABLE MANAGEMENT
MGT 330	RECRUITMENT AND SELECTION
MGT 335	COMPENSATION & BENEFITS
MGT 340	LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 344	THE BUSINESS OF ESPORTS
MGT 345	SERVICE SECTOR MANAGEMENT
MGT 347	HEALTH CARE MANAGEMENT
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT
MGT 355	NEGOTIATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT
MGT 357	INTERNATIONAL BUSINESS
MGT 360	LEADERSHIP
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING
MGT 370	BUSINESS PLAN DEVELOPMENT
MGT 373	CREATIVITY & ENTREPRENEURSHIP
MGT 374	ENTREPRENEURSHIP LAW
MGT 375	ENTREPRENEURSHIP PRACTICUM
MGT 385	WOMEN IN ENTREPRENEURIAL AND ORGANIZATIONAL LEADERSHIP
MGT 390	INNOVATION & TECHNOLOGY
MGT 393	MANAGEMENT INTERNSHIP
MGT 395	SOCIAL AND SUSTAINABLE ENTERPRISE
MGT 398	SPECIAL TOPICS (multiple topics may be used)
MGT 399	INDEPENDENT STUDY
BLW 201	LEGAL & ETHICAL ASPECTS IN THE BUSINESS ENVIRONMENT
BLW 202	COMMERCIAL PAPER AND SALES
BLW 203	BUSINESS ORGANIZATIONS
BLW 398	SPECIAL TOPICS (multiple topics may be used)
BLW 399	INDEPENDENT STUDY
IB 350	INTERNATIONAL BUSINESS SEMINAR

Minor Electives Exceptions

Students may not use MGT 388 or MGT 389 in the Management minor.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (Minor: Business Students Only)

Students in the Driehaus College of Business who minor in Management will learn problem-solving approaches and techniques that are necessary when working within an organization or business to achieve its

goals. Students may focus on management in a specific industry to complement their major.

Course Requirements

In addition to MGT 300 and MGT 301, a Driehaus student minoring in Management is required to complete the following courses of 12.0 hours (totaling at least 20.0 hours):

Course	Title	Quarter Hours
Select three of the following:		12
MGT 302	ORGANIZATIONAL BEHAVIOR	
MGT 303	MANAGING PROJECTS AND TEAMS	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 314	BUSINESS ANALYTICS FOUNDATION TOOLS	
MGT 357	INTERNATIONAL BUSINESS	
MGT 360	LEADERSHIP	

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management (MS)

In the Master of Science in Management program, students develop the managerial skills necessary to advance as leaders in the private or public sector. Students gain a thorough understanding of management theory and techniques, and learn how to apply them through hands-on learning experiences. Graduates of this program emerge with the interpersonal, analytical and strategic knowledge necessary to successfully manage and implement change in today's organizations. This degree is designed for early career professionals from non-business backgrounds in liberal arts, engineering, mathematics, technology and other fields.

Most MS degrees can be completed in four quarters of full-time study or eight quarters of part-time study. The MS in Management degree offers the added benefit of providing 24 credits toward an MBA should you decide to pursue one in the future.

Program Features

In this program, you will acquire leadership skills, methods and tools to:

- Manage projects, strategy, innovation and people effectively in a variety of organizational settings.
- Think critically, analyze a wide range of information and initiate creative solutions to business challenges.
- Use current sustainable management and ethical decision-making frameworks in your role as a manager.
- Understand business fundamentals, including operations management, financial accounting and economic conditions analysis.

Students in the program have the opportunity to pursue focus areas such as project management, human resources, marketing and sales.

Degree Requirements

1. Satisfactory completion of the college residency requirement.
2. Satisfactory completion of the 13 required courses, or their substitutes as approved by the Chair of the Management Department.
3. All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years, a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Describe values, attitudes, emotions, and cultures.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Identify the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Exhibit sophisticated knowledge of management practices leading to applicable skills in relevant areas.

Degree Requirements

Students in the MS-Management program complete 12 courses (48 credit hours).

Course	Title	Quarter Hours
ACC 500 or ACC 502	FINANCIAL ACCOUNTING FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS	4
MGT 502	OPERATIONS MANAGEMENT	4
MGT 515	SUSTAINABILITY MANAGEMENT	4
MGT 530	LEADERSHIP IN ORGANIZATIONS	4
MGT 555	HUMAN CAPITAL STRATEGY AND SCIENCE	4
MGT 584	CONSULTING SKILLS	4
MGT 598	PROJECT MANAGEMENT	4
Select 4 (4-credit hour) Kellstadt electives		16

MS in Management Career Tracks

The following four career tracks enable students to pursue a specialization or focus of interest by selecting appropriate classes for electives.

Career Tracks

Management Consulting

This career track aims to deepen knowledge and skills specific to the management consulting profession. O*NET (<https://www.onetonline.org/link/summary/13-1111.00#Knowledge>) describes several foundational knowledge bases (Administration and Management, Customer and Personal Service, and Education and Training) and skills (Providing Consultation and Advice to Others, Making Decisions and Solving Problems, and Analyzing Data or Information). The following classes would support students in building these skills and knowledge, and are therefore recommended to compose the career track.

Course	Title	Quarter Hours
MGT 506	DECISION MAKING FOR MANAGERS	4
MGT 525	TRAINING AND CAREER DEVELOPMENT	4
MGT 535	CHANGE MANAGEMENT AND CONSULTING	4
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	4

Managing Personal and Professional Wellness

This Managing Personal and Professional Wellness career track aims to deepen knowledge and specific skills related to creating, reinvigorating, and preserving wellness in an occupational context, including self-regulation (e.g., stress management), the ethical leadership of others (e.g., coaching related to work-life balance), and the intentional development of programs, policies, and culture that supports well-being at work, all of which align with O*NET's (<https://www.onetonline.org/link/summary/11-1021.00>) defined work activities of a manager: guiding, directing, and motivating subordinates; establishing and maintaining interpersonal relationships; and the meta-skills of effective executive function to capably complete other important critical work activities.

Course	Title	Quarter Hours
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	4
MGT 798	SPECIAL TOPICS (Preventing & Addressing Organizational Burnout OR Stress Sleep and Performance)	4
MGT 798	SPECIAL TOPICS (The Mindful Leader)	4

Operations Management

This career track aims to deepen knowledge and skills related to strategies and practices in operations management, such as process improvement, service operations, supply chain management, analytics, and negotiation.

Course	Title	Quarter Hours
MGT 501	STRATEGIC SUPPLY CHAIN MANAGEMENT	4
MGT 545	MANAGING SERVICE OPERATIONS	4
MGT 563	NEGOTIATION SKILLS	4
MGT 585	FUNDAMENTALS OF BUSINESS ANALYTICS	4

Sports Business

This career track aims to deepen knowledge and skills that can be applied to the evolving sports business industry that is growing in size and complexity. These include leadership and coaching, sports sponsorship marketing, sports management and the opportunity to apply these skills working on projects with sports organizations.

Choose any four courses:

Course	Title	Quarter Hours
MGT 519	SPORTS MANAGEMENT	4
MGT 524	LEADERSHIP COACHING IN SPORTS AND ORGANIZATIONS	4
MKT 574	SPORTS SPONSORSHIP MARKETING	4
MGT 514	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS	4
MGT 798	SPECIAL TOPICS (Chicago Cubs Summer Consulting Project (cross-listed with MKT 798))	4
IB 750	INTERNATIONAL BUSINESS SEMINAR I (The Business of International Sports in London)	4

Sustainable Management

This career track aims to deepen knowledge and skills related to strategies and practices in sustainable management, including developing and implementing sustainable management strategies and practices for managing human, financial, and natural resources in the organization and marketplace.

O*NET (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.onetonline.org%2Flink%2Fsummary%2F11-1011.03%23Knowledge&data=04%7C01%7CLGUNDRY%40depaul.edu%7C5e3cf707e4e74d4121fb08d9f168fccb%7C750d3a3f1f464da28a647605e75ea2f9%7C0%7C0%7C637806255479223503%7C7CTWFpbGZsb3d8eyJWljojMC4wLjAwMDAiLCJQljojV2luMzliLCJBtIi6lk1haWwiLC%7C3000&sdata=PINF4ipS%2FQL3qK%2BwcwRIQTQ63QOPgmKJki2aHz8ZXoi%3D&reserved=0>) explicitly (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.onetonline.org%2Flink%2Fsummary%2F13-1199.05&data=04%7C01%7CLGUNDRY%40depaul.edu%7C5e3cf707e4e74d4121fb08d9f168fccb%7C750d3a3f1f464da28a647605e75ea2f9%7C0%7C0%7C637806255479223503%7C7CTWFpbGZsb3d8eyJWljojMC4wLjAwMDAiLCJQljojV2luMzliLCJBtIi6lk1haWwiLC%7C3000&sdata=%2Bkjc41BIARPd%2FN0r5vdP6UvwrUXMGnkY%2B0VA966LFIw%3D&reserved=0>) asks those holding jobs in sustainability to be well-versed in "Making Decisions and Solving Problems" and "Developing Objectives and Strategies," while utilizing deep knowledge of sustainability practices, methods, and outcomes for those activities. The following classes would support students in building these skills and knowledge, and are therefore recommended to compose the career track.

Course	Title	Quarter Hours
MGT 512	DEVELOPING SUSTAINABLE STRATEGIES (FORMERLY GSB 595)	4
MGT 535	CHANGE MANAGEMENT AND CONSULTING	4

MGT 595	SOCIAL AND SUSTAINABLE ENTERPRISE	4
FIN 559	SUSTAINABLE VALUE CREATION	4

Management (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These three graduate level courses will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Management (MS)

The Master of Science in Management is designed for early career professionals interested in general management of the firm.

Solutions to management problems require the ability to think critically about a wide variety of information and to integrate ideas in creative ways. Managers are called upon to perform in a variety of settings with a variety of decision-making models. Students in the Master of Science in Management will develop competencies in managing decision-making processes, managing strategy and innovation, managing human capital, and managing the task environment.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Management may apply to the bachelor's degree/Management (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Management before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.20

Course	Title	Quarter Hours
ACC 500 or ACC 502	FINANCIAL ACCOUNTING FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS ¹	4
MGT 515	SUSTAINABILITY MANAGEMENT	4
MGT 530	LEADERSHIP IN ORGANIZATIONS	4
MGT 556	ETHICS AND LEADERSHIP	4
MGT 598	PROJECT MANAGEMENT	4

¹ Replaces MGT 302 ORGANIZATIONAL BEHAVIOR

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS-Management will be awarded upon completion of the remaining graduate level work.

Management Honors (BSB)

The honors program in management is a course of study composed of advanced, accelerated and challenging beginning management courses. Using a problem-based approach, students will be asked to complete real-time projects for organizations with management-based problems, to work intensively and proactively in rotating small groups, to work on problems that span multiple courses in the program, and to refine their soft skills of communication, leading, presenting and teamwork within the program.

Concentration Requirements	20
Open Electives	22
Total hours required	192

Learning Outcomes

Core Outcomes

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Apply team effectiveness evidence to enhance individual and team performance. Differentiate between effective and ineffective personnel selection methods.
- Learn skills related to self-leadership (i.e., self-regulation), group leadership, peer leadership, and leading with and without authority.
- Demonstrate skill in analytical decision-making when solving management-based business problems.
- Apply evidence-based management knowledge and skills to effectively manage human capital.
- Describe effective approaches for dealing with a free-riding team member.
- Articulate the steps involved in running an effective meeting.
- Engage in effective team-member behavior within a project team.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4
FIN 310	INTRODUCTION TO FINANCE	4
MAT 137	BUSINESS STATISTICS	4
MGT 300	PRINCIPLES OF MANAGEMENT	4
MGT 301	PRINCIPLES OF OPERATIONS MANAGEMENT	4
MKT 301	PRINCIPLES OF MARKETING	4
Business Technology ²		
Select one of the following:		4
BUS 202	BUSINESS TECHNOLOGY	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	
MIS 360	SYSTEMS ANALYSIS AND DESIGN	
Business Communication ³		
Select one of the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	
Global Business Perspective ⁴		
Select one of the following:		4
ECO 316	EUROPEAN ECONOMIC HISTORY	
ECO 330	RADICAL RESPONSES TO CAPITALISM	
ECO 333	TOPICS IN GLOBAL ECONOMIES	
ECO 334	UNDERSTANDING CHINA'S ECONOMY	
ECO 360	ECONOMICS OF LOW-INCOME COUNTRIES	
ECO 361	INTERNATIONAL TRADE	
ECO 362	INTERNATIONAL MONETARY ECONOMICS	
ECO 363	ECONOMICS OF THE EUROPEAN UNION	
FIN 340	INTERNATIONAL FINANCE	
FIN 355	GLOBAL IPOs & VENTURE CAPITAL	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT	
MKT 360	INTERNATIONAL MARKETING	
SOC 217	WORK IN A GLOBALIZED WORLD	

A course taken as part of a term-long study abroad program

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.
MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Grade Minimum Requirements for Management Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, MGT 300, MGT 301, and any IB or MGT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MGT 300 and MGT 301, students majoring in Management Honors are required to complete the following courses totaling at least 18.0 hours and an additional five courses based on concentration chosen totaling at least 20.0 hours:

Course	Title	Quarter Hours
Four required courses (must be taken as Honors sections):		
MGT 250	CAREER MANAGEMENT SKILLS	2
MGT 302	ORGANIZATIONAL BEHAVIOR	4
MGT 303	MANAGING PROJECTS AND TEAMS	4
MGT 314	BUSINESS ANALYTICS FOUNDATION TOOLS	4
One required course (not taken as an Honors section):		
MGT 389	MANAGEMENT STRATEGY	4

Expectations

Prior to being part of the Management Honors Program, students must be admitted to the program. See Management Honors website for more information on the application process.

To earn the Management Honors designation MGT 250-H, MGT 302-H, MGT 303-H, MGT 360-H, and MGT 398-H (The Mindful Leader) and must be completed with a cumulative GPA of 3.000.

Open Electives

Open elective credit (22.0 hours) is needed to meet the minimum graduation requirement of 192 hours.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied. Students should take the Career Course as soon as possible.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management Honors major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) and any courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentration Requirements

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- General Management Concentration, Management Honors (BSB) (p. 750)
- Human Resources Concentration, Management Honors (BSB) (p. 750)
- International Management Concentration, Management (BSB) (p. 751)
- Leadership and Change Management Concentration, Management Honors (BSB) (p. 752)
- Supply Chain Concentration, Management Honors (BSB) (p. 752)

General Management Concentration, Management Honors (BSB)

The General Management concentration is for the student who wants a broad sampling of the various management disciplines.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
Student are required to take the honors section of the following two courses:		
MGT 360	LEADERSHIP	4
MGT 398	SPECIAL TOPICS (Topic: The Mindful Leader)	4
Students must select three elective courses from the following:		12
MGT 270	INTRODUCTION TO ENTREPRENEURSHIP	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 311	TRANSPORTATION & LOGISTICS	
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 323	SUPPLY CHAIN MANAGEMENT	
MGT 325	SUSTAINABLE MANAGEMENT	
MGT 330	RECRUITMENT AND SELECTION	
MGT 335	COMPENSATION & BENEFITS	
MGT 340	LEADERSHIP IN SPORTS: LESSONS FOR COACHING IN THE WORKPLACE	
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS	
MGT 344	THE BUSINESS OF ESPORTS	
MGT 345	SERVICE SECTOR MANAGEMENT	
MGT 347	HEALTH CARE MANAGEMENT	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT	

MGT 357	INTERNATIONAL BUSINESS
MGT 361	ORGANIZATIONAL CHANGE AND CONSULTING
MGT 370	BUSINESS PLAN DEVELOPMENT
MGT 373	CREATIVITY & ENTREPRENEURSHIP
MGT 374	ENTREPRENEURSHIP LAW
MGT 375	ENTREPRENEURSHIP PRACTICUM
MGT 385	WOMEN IN ENTREPRENEURIAL AND ORGANIZATIONAL LEADERSHIP
MGT 390	INNOVATION & TECHNOLOGY
MGT 393	MANAGEMENT INTERNSHIP
MGT 395	SOCIAL AND SUSTAINABLE ENTERPRISE
MGT 399	INDEPENDENT STUDY
BLW 202	COMMERCIAL PAPER AND SALES
BLW 203	BUSINESS ORGANIZATIONS
BLW 398	SPECIAL TOPICS (multiple topics may be used)
BLW 399	INDEPENDENT STUDY
IB 350	INTERNATIONAL BUSINESS SEMINAR

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Human Resources Concentration, Management Honors (BSB)

The Human Resources concentration is designed to meet the needs of students who desire to obtain entry-level positions in human resources, such as HR generalists, employment interviewers, and compensation analysts. Human resource professionals add value to their organizations by understanding how the business operates and through the design and implementation of human resource activities to meet changing organizational needs.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course	Title	Quarter Hours
Student are required to take the honors section of the following two courses:		
MGT 398	SPECIAL TOPICS (Topic: The Mindful Leader)	4
MGT 360	LEADERSHIP	4
Students must take this course:		
MGT 307	HUMAN RESOURCES MANAGEMENT	4
Students must select two elective courses from the following:		
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 330	RECRUITMENT AND SELECTION	
MGT 335	COMPENSATION & BENEFITS	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 355	NEGOTIATIONS	
MGT 393	MANAGEMENT INTERNSHIP	

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

International Management Concentration, Management (BSB)

Build the skills you need to be an effective manager in a globalized world. Develop an understanding of varied cultural backgrounds and values. Explore global human resource and service sector management, develop language skills and travel abroad to gain an understanding of the many nuances of international business.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours
Student are required to take the honors section of the following two courses:		

MGT 360	LEADERSHIP	4
MGT 398	SPECIAL TOPICS (Topic: The Mindful Leader)	4
Students must select two elective courses from the following:		8
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 307	HUMAN RESOURCES MANAGEMENT	
MGT 345	SERVICE SECTOR MANAGEMENT	
MGT 354	GLOBAL HUMAN RESOURCE MANAGEMENT	
MGT 357	INTERNATIONAL BUSINESS	
MGT 393	MANAGEMENT INTERNSHIP	
Students must select one from above or from the following:		4
ARB 320	BUSINESS ARABIC	
CHN 252	INTRODUCTION TO COMMERCIAL CHINESE	
CHN 320	CHINESE FOR BUSINESS	
FCH 320	FRENCH FOR BUSINESS	
GER 320	ADVANCED COMMERCIAL GERMAN	
ITA 320	ITALIAN FOR BUSINESS	
JPN 320	ADVANCED COMMERCIAL JAPANESE	
SPN 252	INTRODUCTION TO SPANISH FOR BUSINESS	
SPN 320	ADVANCED SPANISH FOR BUSINESS	

¹ IB 350 can be taken up to two times in the International Management Concentration.

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If an IB or MGT course is shared between Global Business Perspective and the Management major, additional hours of Open Elective credit are required. Any IB or MGT course used toward Global Business Perspective must be passed with C- or higher.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Leadership and Change Management Concentration, Management Honors (BSB)

The Leadership and Change Management concentration focuses on developing leadership and change capabilities in students at all levels in organizations. Students gain an awareness of values and the importance of vision, as well as how to empower followers to be active participants in change activities, in order to increase organizational effectiveness. A planned approach to managing all phases of the organizational change process is emphasized. This concentration will be especially useful to students who desire to move into leadership and/or change roles within organizations, such as managers, internal consultants, team leaders, or trainers, as well as external consultant roles.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours

MGT 307	HUMAN RESOURCES MANAGEMENT	8
MGT 320	TRAINING AND CAREER DEVELOPMENT	
MGT 355	NEGOTIATIONS	
MGT 373	CREATIVITY & ENTREPRENEURSHIP	
MGT 390	INNOVATION & TECHNOLOGY	
MGT 393	MANAGEMENT INTERNSHIP	

Second Concentration

While a student may complete more than one Management concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Experiential Learning

If either MGT 393 or IB 350 is completed in the Management major consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Supply Chain Concentration, Management Honors (BSB)

The Supply Chain Management concentration prepares students to understand the big picture of supply chains while also diving into various operational functions including transportation and logistics, procurement, and operations management.

If a student chooses to pursue this concentration, five courses totaling at least 20.0 hours must be taken.

Course Requirements

Course	Title	Quarter Hours

Graduation Requirements

All Management (MGT) courses and any other courses used toward the Management major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (BSB)

The program in Management Information Systems is intended for undergraduate business students who plan to start their career as information systems professionals in either information technology producing industries or with the heavy users of such technologies. If

they decide to take a minor in MIS, graduates will be able to function as liaisons representing their department or business function in information systems projects. This program is guided by several curriculum principles:

- Designed to educate management-oriented, technically proficient information systems professionals.
- Focused on requirements engineering and other stages of system life cycle requiring heavy involvement of systems analysts rather than on technical implementation stages.
- Complements a thorough understanding of business operations covered in the core undergraduate business curriculum. This combination of competencies is particularly important for systems analysts and makes this program distinct from programs in computer science.
- Designed according to current technological trends and is flexible to accommodate its adjustment as stipulated by rapidly changing and evolving information technologies.
- Includes sufficient training in technology skills in high demand to make graduates easily employable and immediately productive.

In this program, students will acquire:

- A broad understanding of information technologies and their utilization in private and governmental organizations
- An in-depth understanding of information systems life cycle and the nature of related phases and tasks from initial study through post-implementation support
- A thorough understanding of system requirements elicitation, analysis, documentation, validation, and management
- Ability to work with users and builders of information systems
- An understanding of information systems project management
- Ability to develop prototypes using visual programming technology
- Ability to identify organizational data and to design and manipulate databases
- Ability to integrate technical knowledge and understanding of business operations
- Experience working on team projects

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MIS 360, a student majoring in Management Information Systems is required to complete the following courses totaling at least 30.0 hours:

Course	Title	Quarter Hours
IT 130	INTRODUCTORY COMPUTING FOR THE WEB	4
IT 263	APPLIED NETWORKS AND SECURITY	4
MIS 140	INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING	4
MIS 250	CAREER MANAGEMENT PREPAREDNESS	2
MIS 300	DATA MINING AND ANALYTICS	4
MIS 362	INFORMATION SYSTEMS PROJECT MANAGEMENT	4
MIS 370	DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT	4
Select one elective course from the following:		4
IT 211	INTRODUCTION TO APPLIED PROGRAMMING	
IT 231	WEB DEVELOPMENT I	

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors (in the College Core).

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied. Students should take the Career Course as soon as possible.

Open Electives

Open elective credit (30.0 hours) also is needed to meet the minimum graduation requirement of 192 hours.

Graduation Requirements

All Management Information Systems (MIS) courses and any courses used toward the Management Information Systems major must be

completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (Minor)

Available to students majoring outside the Driehaus College of Business, the Management Information Systems minor presents both the business and technological foundations of information systems designed to complement the primary course of study.

Course Requirements

A non-Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
MIS 140	INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING	4
MIS 300	DATA MINING AND ANALYTICS	4
MIS 350	BUSINESS SYSTEMS ANALYSIS	4
MIS 362	INFORMATION SYSTEMS PROJECT MANAGEMENT	4
MIS 370	DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT	4

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors (in the Business College Core).

Graduation Requirements

All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Management Information Systems (Minor: Business Students Only)

Students in the Driehaus College of Business who wish to acquire skills in both the business and the technological foundations of information systems management may minor in Management Information Systems to further their skill set and marketability in technological business fields.

Course Requirements

A Driehaus student minoring in Management Information Systems is required to complete the following courses totaling at least 20.0 hours:

Course	Title	Quarter Hours
MIS 140	INTRODUCTION TO BUSINESS TECHNOLOGY AND DECISION MAKING	4
MIS 300	DATA MINING AND ANALYTICS	4
MIS 350	BUSINESS SYSTEMS ANALYSIS	4
MIS 362	INFORMATION SYSTEMS PROJECT MANAGEMENT	4
MIS 370	DATABASE MANAGEMENT SYSTEMS DESIGN AND DEVELOPMENT	4

MIS 350 is to be taken only by MIS minors; MIS 360 is to be taken only by MIS majors (in the College Core).

Graduation Requirements

All MIS courses and any courses used toward the Management Information Systems minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (BSB)

The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers' needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	10
Concentration Requirements	28
Open Electives	22
Total hours required	192

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
- Describe how external factors and demographic change affect demand for products and services.
- Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
- Create a marketing plan.
- Use marketing methodologies/tools to make strategic decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4
BUS 103	BUSINESS FOR SOCIAL GOOD	4
ECO 105	PRINCIPLES OF MICROECONOMICS	4
ECO 106	PRINCIPLES OF MACROECONOMICS	4
FIN 310	INTRODUCTION TO FINANCE	4

MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT
MKT 360	INTERNATIONAL MARKETING
SOC 217	WORK IN A GLOBALIZED WORLD
A course taken as part of a term-long study abroad program	

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Communication Requirement

Students majoring in Marketing must complete MKT 276 for the Communication requirement.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, MKT 301, MKT 276, and any MKT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MKT 301, a student majoring in Marketing is required to complete the following courses totaling 38.0 hours plus 4.0 hours to be shared with the Business Core (42.0 hours total):

- Three required courses to be taken for 10.0 hours:
 - MKT 250 NAVIGATING MARKETING CAREERS (2 hours)
 - MKT 310 CONSUMER BEHAVIOR
 - MKT 305 INTRODUCTION TO MARKETING RESEARCH
- One required course to be taken in Business Core:
 - MKT 276 EFFECTIVE BUSINESS COMMUNICATION
- One Marketing Concentration of seven courses to be taken for 28.0 hours to be chosen from:
 - Digital Marketing
 - Sales Leadership
 - Marketing Insights

Business Communication Requirement

MKT 276 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration. Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for

graduation are satisfied. Students should take the Career Course as soon as possible.

Global Business Perspective

If any MKT or IB 350 course is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 course used toward the Global Business Perspective requirement must be passed with C- or higher.

Open Electives

Open elective credit (22.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor’s + Master’s Program Participants

Students admitted to a Marketing Combined Bachelor’s + Master’s program may apply up to three approved graduate course(s) towards their undergraduate degree. Students should see academic advisor for additional information.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Digital Marketing Concentration, Marketing (BSB) (p. 759)
- Marketing Insights, Marketing (BSB) (p. 760)
- Sales Leadership Concentration, Marketing (BSB) (p. 761)

Career Orientations

Advertising and Promotion

Skills that lead to successful careers in Advertising and Promotion include: analysis of market research data; media planning; the creation of persuasive messages; strategic coordination of elements of the marketing communication mix; sales promotion strategies; public relations analysis and tactical management. You may consider the Standard concentration in Marketing to pursue this career path. Marketing elective courses for students interested in a career in advertising and promotion include the following:

Course	Title	Quarter Hours
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 321	SOCIAL MEDIA MARKETING	
MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING	

Category Management

Category Management is the practice of managing a group of related products as one category to maximize profitability. Successful companies expect their suppliers to act as partners that will help them grow their businesses, sharing industry expertise and consumer insight. We have partnered with the Category Management Association to develop a unique curriculum that will prepare students for careers in this rapidly growing field and lead to industry certification. You may consider the Sales Leadership concentration in Marketing to pursue this career

path. A student interested in category management should take the courses listed below:

Course	Title	Quarter Hours
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
MKT 377	SALES FUNDAMENTALS (required in Sales Leadership Concentration)	
MKT 380	SCIENCE OF RETAILING	
MKT 383	ANALYTICAL SALES (required in Sales Leadership Concentration)	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 387	SHOPPER INSIGHTS IN MARKETING	

International Marketing

The international area of marketing offers students the opportunity to examine the economy and business management of many countries in their political, historical, and socio-cultural context. Students who concentrate on international marketing would develop career opportunities in international sales, international product management, or international marketing management. You may consider the Standard concentration in Marketing to pursue this career path. DePaul Marketing students may combine their majors with either a minor in a commercial language through the College of Liberal Arts and Social Sciences, or with selected course work in International Studies. Students interested in international marketing benefit by enrolling in the following Marketing courses:

Course	Title	Quarter Hours
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 352	NEW PRODUCT DEVELOPMENT	
MKT 360	INTERNATIONAL MARKETING	
MKT 390	SERVICE MARKETING	

Market Research

Market research encompasses problem formulation, data gathering, data analysis, and communication of findings. An understanding of statistics, psychology and sociology as related to marketing is desirable. You may consider the Standard concentration in Marketing to pursue this career path. A student interested in market research will benefit from the following courses:

Course	Title	Quarter Hours
MKT 305	INTRODUCTION TO MARKETING RESEARCH	
MKT 315	STRATEGIC TOOLS FOR MARKETERS	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 352	NEW PRODUCT DEVELOPMENT	

Marketing Management

Many chief executives of top U.S. companies have a background in marketing. Strong marketing provides a key competitive advantage in a dynamic global economy. The marketing management emphasis is appropriate for students with a general interest in planning, development,

and introduction of products and services. You may consider the Standard concentration or the IME program in Marketing to pursue this career path. A student interested in marketing management should take the following courses:

Course	Title	Quarter Hours
MKT 315	STRATEGIC TOOLS FOR MARKETERS	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 352	NEW PRODUCT DEVELOPMENT	
MKT 360	INTERNATIONAL MARKETING	

Digital Marketing Concentration, Marketing (BSB)

Digital marketer, showing a 39% growth rate, has become one of the most important job titles in the marketing industry. Estimates are that marketers' communications budgets will exceed \$120 billion by 2021 and advertising through digital means will represent 29% of that figure. A significant point relative to DePaul's student and employment base is that the state of Illinois is the third ranked employer of people with digital backgrounds. All organizations, for-profit and not-for-profit, large and small, need digital marketing to be successful. The Marketing Department offers the Digital Marketing Concentration for students to prepare to succeed in this industry.

A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

Course	Title	Quarter Hours
MKT 321	SOCIAL MEDIA MARKETING	4
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	4
MKT 393	MARKETING INTERNSHIP	4
MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING	4
MKT 396	MOBILE MARKETING	4
Select two elective courses from the following:		8

MKT 315	STRATEGIC TOOLS FOR MARKETERS
MKT 320	PRINCIPLES OF ADVERTISING
MKT 323	CONTENT MARKETING
MKT 333	MARKETING FOR THE SOCIAL GOOD
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 342	SPORTS SPONSORSHIP MARKETING
MKT 352	NEW PRODUCT DEVELOPMENT
MKT 359	ADVANCED MARKETING MANAGEMENT
MKT 360	INTERNATIONAL MARKETING
MKT 377	SALES FUNDAMENTALS
MKT 378	SALES STRATEGY & TECHNOLOGY
MKT 380	SCIENCE OF RETAILING
MKT 383	ANALYTICAL SALES
MKT 384	CASES IN CATEGORY MANAGEMENT

MKT 385	SPORTS SALES
MKT 386	SOCIAL IMPACT SALES
MKT 387	SHOPPER INSIGHTS IN MARKETING
MKT 390	SERVICE MARKETING
MKT 398	SPECIAL TOPICS (multiple topics may be used)
MKT 399	INDEPENDENT STUDY
MKT 420	CANNABIS BUSINESS-THE SOCIAL & ECONOMIC IMPACT & PRACTICE
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT
IB 350	INTERNATIONAL BUSINESS SEMINAR

Business Communication Requirement

Driehaus students majoring in Marketing must complete MKT 276 for the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning

MKT 393 is required in the Digital Marketing Concentration. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing Insights, Marketing (BSB)

The Marketing Insights concentration provides students with the flexibility to tailor their programs to fit a wide array of career interests. Graduates with a marketing major have many career opportunities in the various areas of marketing such as advertising, market research, sales management, or marketing management. The department offers electives that focus in each area. Majors may wish to group their elective courses with a concentration or specific career orientation in mind, although this is not required.

A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

Course	Title	Quarter Hours
MKT 315	STRATEGIC TOOLS FOR MARKETERS	4
MKT 359	ADVANCED MARKETING MANAGEMENT	4
Select five elective courses from the following:		20
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 321	SOCIAL MEDIA MARKETING	
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	
MKT 323	CONTENT MARKETING	
MKT 333	MARKETING FOR THE SOCIAL GOOD	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 342	SPORTS SPONSORSHIP MARKETING	
MKT 352	NEW PRODUCT DEVELOPMENT	
MKT 360	INTERNATIONAL MARKETING	
MKT 377	SALES FUNDAMENTALS	
MKT 378	SALES STRATEGY & TECHNOLOGY	
MKT 380	SCIENCE OF RETAILING	
MKT 383	ANALYTICAL SALES	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 385	SPORTS SALES	
MKT 386	SOCIAL IMPACT SALES	
MKT 387	SHOPPER INSIGHTS IN MARKETING	
MKT 390	SERVICE MARKETING	
MKT 393	MARKETING INTERNSHIP	
MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING	
MKT 396	MOBILE MARKETING	
MKT 398	SPECIAL TOPICS (multiple topics may be used)	
MKT 399	INDEPENDENT STUDY	
MKT 420	CANNABIS BUSINESS-THE SOCIAL & ECONOMIC IMPACT & PRACTICE	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS	
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT	

Business Communication Requirement

Driehaus students majoring in Marketing must complete MKT 276 for the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning

If either MKT 393 or IB 350 is completed in the Marketing major, consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Sales Leadership Concentration, Marketing (BSB)

The demand for trained and knowledgeable sales people has never been greater. Sales careers offer independence, ample financial reward, personal growth and opportunities for rapid advancement within the organization. The Sales Leadership Program produces business graduates who can sell by joining traditional classroom education with real-world learning experience. Classes are led by faculty with extensive sales experience and by sales executives from leading corporations. Students experience rigorous classroom learning designed to deliver the knowledge and practical skills they will need to succeed during the first years of their careers including: oral and written communication, selling technique and networking, use of technology in customer strategy and identification, and development of organization leadership in a sales environment. Successful students will enjoy opportunities to visit companies, take paid internships, and interview with leading companies for entry-level positions.

A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

Course	Title	Quarter Hours
MKT 359	ADVANCED MARKETING MANAGEMENT	4
MKT 377	SALES FUNDAMENTALS	4
MKT 378	SALES STRATEGY & TECHNOLOGY	4
MKT 383	ANALYTICAL SALES	4
Select two electives from the following:		8
MKT 380	SCIENCE OF RETAILING	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 385	SPORTS SALES	
MKT 386	SOCIAL IMPACT SALES	
MKT 387	SHOPPER INSIGHTS IN MARKETING	
MKT 398	SPECIAL TOPICS (when related to Sales)	
Select one elective from above or the following:		4
MKT 315	STRATEGIC TOOLS FOR MARKETERS	

MKT 320	PRINCIPLES OF ADVERTISING
MKT 321	SOCIAL MEDIA MARKETING
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS
MKT 323	CONTENT MARKETING
MKT 333	MARKETING FOR THE SOCIAL GOOD
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 342	SPORTS SPONSORSHIP MARKETING
MKT 352	NEW PRODUCT DEVELOPMENT
MKT 360	INTERNATIONAL MARKETING
MKT 390	SERVICE MARKETING
MKT 393	MARKETING INTERNSHIP
MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING
MKT 396	MOBILE MARKETING
MKT 399	INDEPENDENT STUDY
MKT 420	CANNABIS BUSINESS-THE SOCIAL & ECONOMIC IMPACT & PRACTICE
IB 350	INTERNATIONAL BUSINESS SEMINAR
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT

Category Management Focus

For a specific focus in Category Management, Sales Leadership students should take:

Course	Title	Quarter Hours
MKT 380	SCIENCE OF RETAILING	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 387	SHOPPER INSIGHTS IN MARKETING	

Business Communication Requirement

Driehaus students majoring in Marketing must complete MKT 276 for the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning

If either MKT 393 or IB 350 is completed in the Marketing major, consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (BSB) Online

The ultimate goal of an organization is to satisfy the needs and wants of its customers profitably. The Marketing Department offers a variety of courses designed to develop and sharpen student skills to analyze and solve marketing problems. Successful marketing requires the ability to know how and when to do research, how to analyze markets and behavior, and how to develop products and services that satisfy or even anticipate customers' needs. The purpose of the undergraduate program in Marketing is to prepare students for successful marketing careers by teaching them the knowledge and skills to identify marketing problems and develop solutions that meet customer needs.

The Marketing major with a Digital Marketing Concentration is offered fully online.

Program Requirements	Quarter Hours
Business Core Requirements	60

MGT 357	INTERNATIONAL BUSINESS
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT
MKT 360	INTERNATIONAL MARKETING
SOC 217	WORK IN A GLOBALIZED WORLD
A course taken as part of a term-long study abroad program	

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

MIS majors must take MIS 360.

³ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.
- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Business Communication Requirement

Students majoring in Marketing must complete MKT 276 for the Communication requirement.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Marketing Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, MKT 301, MKT 276, and any MKT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 AL Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 HI Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 PI Courses Required¹

Religious Dimensions (RD) (p. 1330)

- 2 RD Courses Required¹

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 SCBI Course Required

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

In addition to MKT 301, a student majoring in Marketing is required to complete the following courses totaling 38.0 hours plus 4.0 hours to be shared with the Business Core (42.0 hours total):

- Three required courses to be taken for 10.0 hours:
 - MKT 250 NAVIGATING MARKETING CAREERS (2 hours)
 - MKT 310 CONSUMER BEHAVIOR
 - MKT 305 INTRODUCTION TO MARKETING RESEARCH
- One required course to be taken in Business Core:
 - MKT 276 EFFECTIVE BUSINESS COMMUNICATION
- The Digital Marketing Concentration of seven courses to be taken for 28.0 hours

Business Communication Requirement

MKT 276 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Career Management Course

Students are required to complete the Career Course (250) associated with the major. Students who double major may choose the Career Course (250) associated with either major provided that hours for graduation are satisfied. Students should take the Career Course as soon as possible. Students should take the Career Course as soon as possible.

Global Business Perspective

If an MKT or IB 350 course is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 course used toward the Global Business Perspective requirement must be passed with C- or higher.

Open Electives

Open elective credit (22.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Combined Bachelor's + Master's Program Participants

Students admitted to a Marketing Combined Bachelor's + Master's program may apply up to three approved graduate course(s) towards their undergraduate degree. Students should see academic advisor for additional information.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose the following:

- Digital Marketing Concentration, Marketing (BSB) Online (p. 764)

Digital Marketing Concentration, Marketing (BSB) Online

Digital marketer, showing a 39% growth rate, has become one of the most important job titles in the marketing industry. Estimates are that marketers' communications budgets will exceed \$120 billion by 2021 and advertising through digital means will represent 29% of that figure. A significant point relative to DePaul's student and employment base is that the state of Illinois is the third ranked employer of people with digital backgrounds. All organizations, for-profit and not-for-profit, large and small, need digital marketing to be successful. The Marketing Department offers the Digital Marketing Concentration for students to prepare to succeed in this industry.

A student majoring in Marketing with this concentration must complete the following requirements totaling at least 28.0 hours:

Course Requirements

Course	Title	Quarter Hours
MKT 321	SOCIAL MEDIA MARKETING	4
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	4
MKT 393	MARKETING INTERNSHIP	4
MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING	4
MKT 396	MOBILE MARKETING	4
Select two elective courses from the following:		8
MKT 315	STRATEGIC TOOLS FOR MARKETERS	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 323	CONTENT MARKETING	
MKT 333	MARKETING FOR THE SOCIAL GOOD	

MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS
MKT 342	SPORTS SPONSORSHIP MARKETING
MKT 352	NEW PRODUCT DEVELOPMENT
MKT 359	ADVANCED MARKETING MANAGEMENT
MKT 360	INTERNATIONAL MARKETING
MKT 377	SALES FUNDAMENTALS
MKT 378	SALES STRATEGY & TECHNOLOGY
MKT 380	SCIENCE OF RETAILING
MKT 383	ANALYTICAL SALES
MKT 384	CASES IN CATEGORY MANAGEMENT
MKT 385	SPORTS SALES
MKT 386	SOCIAL IMPACT SALES
MKT 390	SERVICE MARKETING
MKT 387	SHOPPER INSIGHTS IN MARKETING
MKT 398	SPECIAL TOPICS (multiple topics may be used)
MKT 399	INDEPENDENT STUDY
MKT 420	CANNABIS BUSINESS-THE SOCIAL & ECONOMIC IMPACT & PRACTICE
IB 350	INTERNATIONAL BUSINESS SEMINAR
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT

Business Communication Requirement

Driehaus students majoring in Marketing must complete MKT 276 for the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Insights Concentration cannot have a second Marketing Concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 used for Global Business Perspective course must be passed with C- or higher.

Experiential Learning

MKT 393 is required in the Digital Marketing Concentration. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (Minor)

Students majoring outside the Driehaus College of Business may minor in Marketing to learn the foundations of marketing research, product development, advertising and sales.

Course Requirements

A non-Driehaus student minoring in Marketing is required to complete the following courses based on concentration and totaling at least 20.0 hours:

Course	Title	Quarter Hours
MKT 301	PRINCIPLES OF MARKETING	4
MKT 305	INTRODUCTION TO MARKETING RESEARCH	4
MKT 310	CONSUMER BEHAVIOR	4
MKT 315	STRATEGIC TOOLS FOR MARKETERS	4
Select one elective course from the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 321	SOCIAL MEDIA MARKETING	
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	
MKT 323	CONTENT MARKETING	
MKT 333	MARKETING FOR THE SOCIAL GOOD	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 342	SPORTS SPONSORSHIP MARKETING	
MKT 352	NEW PRODUCT DEVELOPMENT	
MKT 359	ADVANCED MARKETING MANAGEMENT	
MKT 360	INTERNATIONAL MARKETING	
MKT 377	SALES FUNDAMENTALS	
MKT 378	SALES STRATEGY & TECHNOLOGY	
MKT 380	SCIENCE OF RETAILING	
MKT 383	ANALYTICAL SALES	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 385	SPORTS SALES	
MKT 386	SOCIAL IMPACT SALES	
MKT 387	SHOPPER INSIGHTS IN MARKETING	
MKT 390	SERVICE MARKETING

MKT 395	DIGITAL MARKETING ANALYTICS AND PLANNING	
MKT 396	MOBILE MARKETING	
MKT 398	SPECIAL TOPICS	
MKT 399	INDEPENDENT STUDY	
MKT 420	CANNABIS BUSINESS-THE SOCIAL & ECONOMIC IMPACT & PRACTICE	
IB 350	INTERNATIONAL BUSINESS SEMINAR	
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS	

MGT 356	INTRODUCTION TO SPORTS MANAGEMENT
---------	-----------------------------------

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (Minor: Business Students Only)

Students in the Driehaus College of Business who minor in Marketing will complement their major course of study with skills in marketing research, product development, advertising and sales.

Course Requirements

In addition to MKT 301, a Driehaus student minoring in Marketing is required to complete the following courses of 20.0 hours (totaling at least 24.0 hours):

Course	Title	Quarter Hours
MKT 305	INTRODUCTION TO MARKETING RESEARCH	4
MKT 310	CONSUMER BEHAVIOR	4
MKT 315	STRATEGIC TOOLS FOR MARKETERS	4
MKT 359	ADVANCED MARKETING MANAGEMENT	4
Select one elective course from the following:		4
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 321	SOCIAL MEDIA MARKETING	
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	
MKT 323	CONTENT MARKETING	
MKT 333	MARKETING FOR THE SOCIAL GOOD	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS

IB 350	INTERNATIONAL BUSINESS SEMINAR
MGT 341	BEHIND THE SCENES WITH CHICAGO SPORTS ORGANIZATIONS
MGT 356	INTRODUCTION TO SPORTS MANAGEMENT

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing (MS)

The Master of Science in Marketing prepares students with the knowledge and skills required to identify and develop products and services that meet customer needs. Taught by scholars and business leaders who bring the real world of marketing into the classroom, course work emphasizes proficiency in analysis, conceptual ability, planning and control of market activity. Upon graduating, students will be prepared for the challenges of a marketing career in an ever-changing and fast-paced business environment.

Program Features

The MS in Marketing program curriculum includes a wide range of courses that will provide you with a solid foundation in market analysis, evaluating market activity and management strategies, including:

- Marketing strategy and planning
- Research and analytical tools for marketing
- Analysis of consumer trends and business conditions
- Effective and ethical decision-making
- Business communication

Program Requirements	Quarter Hours
Core Marketing Course Requirements	28
Marketing Elective Requirements	20
Total hours required	48

Learning Outcomes

Students will be able to:

- Appropriately apply relevant concepts and knowledge to applied business problems.
- Use analytical and reflective skills in making decisions.
- Communicate effectively in writing and in oral presentations.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.

Degree Requirements

Course Requirements

Students in the MS in Marketing program must complete seven core marketing courses and five marketing electives. Please note that it is assumed that admitted students have prior coursework in statistics.

Students without prior coursework in statistics must complete GSB 420 or GSB 519 prior to registering for MKT 525.

Marketing Core (7 courses)

Course	Title	Quarter Hours
MKT 555	MARKETING MANAGEMENT	4
MKT 525	MARKET RESEARCH	4
MKT 534	ANALYTICAL TOOLS FOR MARKETERS	4
MKT 535	MARKETING STRATEGIES AND PLANNING	4
MKT 545	CONSUMER BEHAVIOR	4
MKT 576	EFFECTIVE BUSINESS COMMUNICATION	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS	4

Marketing Electives (5 courses)

Any five marketing electives.

Students are not restricted to choosing from one area of interest:

Sales Leadership

Course	Title	Quarter Hours
MKT 530	CUSTOMER RELATIONSHIP MANAGEMENT	
MKT 577	LEADING BUSINESS DEVELOPMENT	
MKT 578	SALES STRATEGY & TECHNOLOGY	

Digital Marketing

Course	Title	Quarter Hours
MKT 575	ADVERTISING AND SALES PROMOTION	
MKT 595	DIGITAL MARKETING ANALYTICS & PLANNING	
MKT 798	SPECIAL TOPICS (Interactive/Internet Marketing)	
MKT 798	SPECIAL TOPICS (Social Media Marketing)	

Marketing Strategy & Planning

Course	Title	Quarter Hours
MKT 536	PRICING STRATEGY	
MKT 540	STRATEGIC PLANNING: DEVELOPING SUSTAINABLE BUSINESS MODELS	

Please consult with a faculty member or advisor to assist with choosing the most appropriate courses to match your career goals. Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of the seven core marketing courses and five marketing electives.
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree

Marketing (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing (MS)

The Master of Science in Marketing is designed to provide hands-on marketing experience under the mentorship of faculty who are experts in the professional world. The program will provide you with a broad-based knowledge of marketing strategy, consumer trends and data analysis, effective and ethical decision making and business communications.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing may apply to the Marketing (MS) combined program. Students may be able to obtain both degrees in an expedited period, typically in five years.

Admission

Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Course	Title	Quarter Hours
MKT 555	MARKETING MANAGEMENT	4
MKT 545	CONSUMER BEHAVIOR	4
MKT 576	EFFECTIVE BUSINESS COMMUNICATION ¹	4

¹ Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Marketing will be awarded upon completion of the remaining graduate level work.

Marketing Analysis (MS)

The Master of Science (MS) in Marketing Analysis is designed for students interested in a quantitative approach to marketing. The program encompasses: marketing research; strategy and planning; mastering analytical tools; and analyzing, interpreting and applying data. Classes are taught by scholars and business leaders who bring the real world of marketing into the classroom.

Program Features

The MS in Marketing Analysis program provides students with skills and knowledge that are sought after by a wide range of organizations. Through the program, students develop an in-depth understanding of:

- The role of data in customer and market analysis
- Data analysis to detect trends, exceptions and business opportunities
- The latest marketing analytic tools
- Decision-making strategies
- How to create marketing strategies based on data collection and interpretation

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Recognize and analyze ethical problems within applied business situations, choose a resolution, and justify that ethical choice.
- Be knowledgeable about the differences among global economies, institutions, and cultures and understand the implications these have on global management.
- Demonstrate higher-order cognitive skills to analyze an unstructured problem, formulate and develop a solution using appropriate technology, and effectively communicate the results to stakeholders.

Degree Requirements

Course Requirements

Students should have sufficient knowledge in statistics to enter the program. If students need to acquire these skills one of the following courses will be required:

Course	Title	Quarter Hours
GSB 420	BUSINESS ANALYTICS TOOLS	4
or GSB 519	BUSINESS ANALYTICS TOOLS (FORMERLY GSB420)	

Students complete the MS in Marketing Analysis by taking seven required courses and five elective courses for a total of 12 courses.

Core Courses (7 courses)

Course	Title	Quarter Hours
MKT 525	MARKET RESEARCH	4
MKT 526	ADVANCED MARKET RESEARCH	4
MKT 534	ANALYTICAL TOOLS FOR MARKETERS	4
MKT 535	MARKETING STRATEGIES AND PLANNING	4
MKT 545	CONSUMER BEHAVIOR	4
MKT 555	MARKETING MANAGEMENT	4
MKT 576	EFFECTIVE BUSINESS COMMUNICATION	4

Elective Courses (5 courses)

Students select two additional courses from marketing electives and three courses from the analytical group for a total of five courses from the following list of approved electives. Please note that approved electives may have prerequisites that are not part of the MS in Marketing Analysis curriculum and will not be waived.

Marketing Electives

Course	Title	Quarter Hours
Select two of the following:		8
MKT 529	PRECISION MARKETING	
MKT 530	CUSTOMER RELATIONSHIP MANAGEMENT	
MKT 578	SALES STRATEGY & TECHNOLOGY	
MKT 595	DIGITAL MARKETING ANALYTICS & PLANNING	
MKT 793	MARKETING INTERNSHIP	
MKT 798	SPECIAL TOPICS (as approved by the Department Chair) ¹	

¹ MKT 798: Predicting Consumer Choice Behavior cannot be used as an elective for the MS in Marketing Analysis program.

The Analytical Group

Course	Title	Quarter Hours
Select three of the following:		12
ACC 637	DATA MINING AND ANALYTICS	
DSC 423	DATA ANALYSIS AND REGRESSION	
DSC 424	ADVANCED DATA ANALYSIS	
DSC 425	TIME SERIES ANALYSIS AND FORECASTING	
DSC 484	WEB DATA MINING	
ECO 511	BUSINESS AND ECONOMIC FORECASTING	
IS 549	DATA WAREHOUSING	
DSC 441	FUNDAMENTALS OF DATA SCIENCE	
MKT 798	SPECIAL TOPICS (Predicting Choice Behavior)	

Degree Requirements

- Satisfactory completion of the college residency requirement.
- Satisfactory completion of 12 courses (7 required courses and 5 elective courses: 2 from marketing electives and 3 are from the analytical group).
- All courses for credit toward the degree must be completed within six calendar years after the candidate's first term of enrollment in the Kellstadt Graduate School of Business. After a lapse of six years a course is expired. An expired course is not acceptable for the purpose of satisfaction of degree requirements and is not applicable to the degree.

Marketing Analysis (MS), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

DePaul Undergraduate Degree + Marketing Analysis (MS)

The Master of Science in Marketing Analysis is designed for early career professionals to gain a quantitative approach to real-world marketing challenges in preparation for a career in business and marketing analytics, market research, interactive marketing, or other data-driven marketing roles. The program will provide you with a broad-based knowledge of customer and market analysis, detecting trends and business opportunities, the latest marketing analytics tools, and decision-making strategies.

DePaul degree-seeking undergraduate students interested in earning a Master of Science in Marketing Analysis may apply to the Marketing Analysis (MS) combined program. Students may be able to obtain both degrees in an expedited period (as few as five years).

Admission

Students must formally apply and be admitted to the Department of Marketing before beginning their graduate coursework. Undergraduate students who meet the following criteria may apply to this program:

- Junior standing or higher (at least 88.0 credits)
- A minimum cumulative DePaul grade point average of 3.200

Course	Title	Quarter Hours
MKT 555	MARKETING MANAGEMENT	4
MKT 525	MARKET RESEARCH	4
MKT 576	EFFECTIVE BUSINESS COMMUNICATION ¹	4

¹ Students who have taken MKT 376 as undergraduates may substitute a Marketing elective for MKT 576.

These three courses may double-count up to 12 credits towards both degree programs. The undergraduate degree will be awarded at the completion of all undergraduate work while the MS in Marketing Analysis will be awarded upon completion of the remaining graduate level work.

Marketing Honors (BSB)

Integrated Marketing Education (IME), the honors sequence in Marketing, gives a select group of undergraduate students a hands-on opportunity to develop skills in marketing management while interacting with a Chicago area business. The real world focus of IME is an outgrowth of DePaul's strong links to the Chicago business community.

Instead of a series of classes that address a single marketing function, the IME curriculum features courses that address marketing issues in the way that managers are likely to encounter them. The stage is set for life-long learning in the marketing profession.

IME students are selected on a competitive basis. The evaluation is based on an interview, writing sample and performance in previous marketing and other coursework. Classes are limited in size and offered only once per year.

Program Requirements	Quarter Hours
Business Core Requirements	60
Liberal Studies Requirements	72
Major Requirements	38

Open Electives	22
Total hours required	192

Learning Outcomes

Core Outcomes

Students will be able to:

- Use analytical and reflective skills in decision-making.
- Communicate effectively both orally and in writing.
- Recognize legal and ethical issues confronting them.
- Contribute to the performance of a group within a business setting.
- Know the differences among global economies, institutions, business practices and cultures.
- Acquire knowledge of the functional areas of business and the interrelationships among the functional areas within a business.

Program Specific Outcomes

Students will be able to:

- Create a value proposition.
- Distinguish features and benefits of products and services.
- Describe how external factors and demographic change affect demand for products and services.
- Identify marketing problems and develop appropriate solutions by collecting, analyzing, and interpreting data.
- Create a marketing plan.
- Use marketing methodologies/tools to make strategic decisions.

College Core Requirements

Business Core Requirements

All undergraduate students in the Driehaus College of Business complete foundational courses in the areas of accountancy, economics, finance, management, and marketing. The core curriculum also includes courses that emphasize the increasingly quantitative and technological nature of business, the importance of the entrepreneurial mindset, and how students can use their business education to address important social challenges.

Course Requirements

For a student to complete the Bachelor of Science in Business, the following Business Core courses totaling at least 60.0 hours are required:

Course	Title	Quarter Hours
Business Core Courses		
ACC 101	INTRODUCTION TO ACCOUNTING I ¹	4
ACC 102	INTRODUCTION TO ACCOUNTING II ¹	4
BUS 101	INTRODUCTION TO DRIEHAUS: BUSINESS FUNDAMENTALS AND THE ENTREPRENEURIAL MINDSET	4
BUS 102	BUSINESS ANALYTICS	4

MKT 358	MARKETING IN A GLOBAL ENVIRONMENT	
MKT 360	INTERNATIONAL MARKETING	
SOC 217	WORK IN A GLOBALIZED WORLD	
A course taken as part of a term-long study abroad program		

¹ Strobel students take specially designated sections of all required ACC classes, including ACC 101 and ACC 102 (excluding ACC 250, ACC 300, ACC 301).

² Actuarial Science and Economic Data Analytics majors must take CSC 241.

³ MIS majors must take MIS 360.

⁴ MKT majors and Sales minors must take MKT 276.

⁴ A course taken for Global Business Perspective that is in a student's major or minor field must be completed with a minimum grade of C-.

Business Core Timeline

- BUS 101, BUS 102 and BUS 103 are intended to be completed by students during their first year of enrollment in the college.
- Business core requirements may be prerequisites to other courses.
- Planning is essential to a student's graduation timeline.

- Academic advisors work with students to co-create customized degree completion plans and assist with balancing course load.

Business Ethics

All undergraduate students in the Driehaus College of Business complete a course in Business Ethics. It is recommended students take MGT 248 or PHL 248 in Philosophical Inquiry or MGT 228 or REL 228 in Religious Dimensions in the Liberal Studies Program (or University Honors Program) Requirements.

Second Majors and Minors

The addition of a second major or minor may affect the Business Core classes required for a student. Meet with an academic advisor to confirm requirements.

Math Requirements for all business majors (except Actuarial Science majors)

- MAT 137 may be replaced by MAT 348 or MAT 351.

Business Communication Requirement

Students majoring in Marketing must complete MKT 276 for the Communication requirement.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required.

Grade Minimum Requirements for Marketing Honors Major

A minimum grade of C- is required for the following: ACC 101, ACC 102, BUS 101, BUS 102, BUS 103, BUS 202, ECO 105, ECO 106, MAT 137, MKT 301, MKT 276, and any MKT course used for Global Business Perspective.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours

¹ PHL 248 / MGT 248 is required in PI or REL 228 / MGT 228 is required in RD.**Notes**

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements**

In addition to MKT 301, a student majoring in Integrated Marketing Education (IME), Honors Marketing is required to complete the following courses totaling at least 38.0 hours plus 4.0 hours to be shared with Business Core (42.0 hours total):

Course	Title	Quarter Hours
MKT 250	NAVIGATING MARKETING CAREERS	2
MKT 276	EFFECTIVE BUSINESS COMMUNICATION (taken in Business Core)	4

MKT 310	CONSUMER BEHAVIOR	4
MKT 356	MARKETING ANALYSIS AND PLANNING	8
MKT 357	MANAGEMENT OF MARKETING	8
MKT 358	MARKETING IN A GLOBAL ENVIRONMENT	4
MKT 393	MARKETING INTERNSHIP	4

Select two elective from the following:

MKT 305	INTRODUCTION TO MARKETING RESEARCH	8
MKT 315	STRATEGIC TOOLS FOR MARKETERS	
MKT 320	PRINCIPLES OF ADVERTISING	
MKT 321	SOCIAL MEDIA MARKETING	
MKT 323	CONTENT MARKETING	
MKT 322	SEARCH ENGINE MARKETING & ANALYTICS	
MKT 333	MARKETING FOR THE SOCIAL GOOD	
MKT 340	MARKETING ACROSS CULTURES: A CULTURAL PERSPECTIVE ON MULTICULTURAL MARKETS	
MKT 342	SPORTS SPONSORSHIP MARKETING

MGT 356	INTRODUCTION TO SPORTS MANAGEMENT	

Business Communication Requirement

MKT 276 must be completed by students majoring in Marketing and serves as the Communication requirement in the Business Core.

Second Marketing Concentration

A student majoring in Marketing may have more than one Marketing concentration.

Exception: students with Marketing Standard concentration cannot have a second Marketing concentration.

While a student may complete more than one Marketing concentration, at least 50% of the courses used for the completion of a second concentration must be unique to the completion of that concentration.

Open Electives

Open elective credit (22.0 hours) is also required to meet the minimum graduation requirement of 192 hours.

Global Business Perspective

If a MKT course or IB 350 is shared between Global Business Perspective and the Marketing major, additional hours of Open Elective credit are required. Any MKT or IB 350 course must be passed with C- or higher.

Experiential Learning

MKT 393 is required in the Marketing Honors/IME major. Consult with academic advisor regarding options for Experiential Learning.

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing major must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing: Sales Leadership (Minor)

Available to students majoring outside the Driehaus College of Business, the Sales Leadership minor is for students interested acquiring skills in sales and category management: the interpretation of strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

Course Requirements

A non-Driehaus student minoring in Sales Leadership is required to complete the following courses totaling at least 24.0 hours:

Course	Title	Quarter Hours
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	4
MKT 301	PRINCIPLES OF MARKETING	4
MKT 310	CONSUMER BEHAVIOR	4
MKT 377	SALES FUNDAMENTALS	4
MKT 378	SALES STRATEGY & TECHNOLOGY	4
MKT 383	ANALYTICAL SALES	4

Category Management Focus

For a specific focus in Category Management, students should take:

Course	Title	Quarter Hours
MKT 380	SCIENCE OF RETAILING	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 387	SHOPPER INSIGHTS IN MARKETING	

Graduation Requirements

All Marketing (MKT) courses and any other courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Marketing: Sales Leadership (Minor: Business Students Only)

Driehaus College of Business students who minor in Sales Leadership will strengthen their skills in sales and category management, including interpreting strategic consumer insight to help retailers maximize profitability and create an enjoyable shopping experience.

Course Requirements

In addition to MKT 301, a Driehaus student minoring in Sales Leadership is required to complete the following courses of 20.0 hours (totaling at least 24.0 hours):

Course	Title	Quarter Hours
MKT 276	EFFECTIVE BUSINESS COMMUNICATION	4
MKT 310	CONSUMER BEHAVIOR	4
MKT 377	SALES FUNDAMENTALS	4
MKT 378	SALES STRATEGY & TECHNOLOGY	4
MKT 383	ANALYTICAL SALES	4

Category Management Focus

For a specific focus in Category Management, students should take:

Course	Title	Quarter Hours
MKT 380	SCIENCE OF RETAILING	
MKT 384	CASES IN CATEGORY MANAGEMENT	
MKT 387	SHOPPER INSIGHTS IN MARKETING	

Business Communication

Driehaus students minoring in Sales Leadership must complete MKT 276 for the Communication requirement in the Business Core.

Graduation Requirements

All Marketing (MKT) courses and any courses used toward the Marketing minor must be completed with a minimum grade of C- and with a combined GPA of 2.000 or higher.

Master of Business Administration (MBA)

DePaul Master of Business Administration

The DePaul MBA program provides you with a transformational learning experience that develops the leadership skills you need to face the business challenges of tomorrow. Through hands-on learning, we'll challenge your business perspectives. You'll see that we don't just talk about networking—we help build your network. And we don't just expose you to the theories of business thought leaders, we connect you with them. Here, it's our business to build your future.

Program Requirements	Quarter Hours
MBA Core Requirements (9 -11 courses)	32 - 40

Concentration and Elective Course 20
Requirements (5 courses)

Total hours required 52-60

Learning Outcomes

Students will be able to:

- Use analytical and problem-solving skills in decision-making.
- Apply knowledge about the differences among global economies, institutions, and cultures to understand the implications these have on global management.
- Recognize and analyze ethical and legal problems within applied business situations, choose a resolution, and justify that ethical choice.
- Effectively contribute to the performance of a group as the group addresses practical business situations, and assume a leadership role as appropriate.
- Produce a coherent written statement and oral presentation of the analysis of a complex business issue.
- Acquire broad-based knowledge and skills necessary to fulfill their professional goals

Course Requirements for the MBA Program

The MBA program requires completion of sixteen courses (60 quarter hours)¹. In addition to the eleven core course (40 quarter hours) requirements below, students must select five courses/electives (20 quarter hours) to specialize in a business area of their choice.

Core Course Requirements

Course	Title	Quarter Hours
ACC 502	FINANCIAL ACCOUNTING FOR MANAGERIAL DECISION MAKING	4
ECO 502	ANALYSIS OF BUSINESS CONDITIONS	2
ECO 555	MANAGERIAL ECONOMICS	4
FIN 555	FINANCIAL MANAGEMENT	4
GSB 519	BUSINESS ANALYTICS TOOLS (FORMERLY GSB420)	4
GSB 599	STRATEGIC MANAGEMENT CAPSTONE	4
MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS	4
MGT 504	FUNDAMENTALS OF OPERATIONS MANAGEMENT	2
MGT 555	HUMAN CAPITAL STRATEGY AND SCIENCE	4
MKT 555	MARKETING MANAGEMENT	4
GSB 525	BUSINESS INNOVATION & DESIGN (FORMERLY MGT 573)	4

¹ KGSB may waive MBA Core Course Requirements up to 8 credit hours if a student's undergraduate major was in the same discipline as these core courses and the student earned grades of "C" or better.

- Accountancy, Master of Business Administration (MBA) (p. 773)
- Applied Economics, Master of Business Administration (MBA) (p. 774)
- Business Strategy and Decision Making, Master of Business Administration (MBA) (p. 775)

- Custom, Master of Business Administration (MBA) (p. 775)
- Entrepreneurship, Master of Business Administration (MBA) (p. 776)
- Finance, Master of Business Administration (MBA) (p. 776)
- Healthcare Markets and Analytics, Master of Business Administration (MBA) (p. 777)
- Hospitality Leadership, Master of Business Administration (MBA) (p. 778)
- International Business, Master of Business Administration (MBA) (p. 778)
- Management Information Systems, Master of Business Administration (MBA) (p. 779)
- Management, Master of Business Administration (MBA) (p. 779)
- Marketing Strategy and Planning, Master of Business Administration (MBA) (p. 780)
- Marketing, Master of Business Administration (MBA) (p. 780)
- Real Estate Finance and Investment, Master of Business Administration (MBA) (p. 781)
- Strategy, Execution and Valuation, Master of Business Administration (MBA) (p. 782)

Accountancy, Master of Business Administration (MBA)

The Accountancy MBA concentration provides you with coursework that is critical to decision-making in the accounting profession. The program includes theory and concepts, technical knowledge, practical skills and familiarization with the tools and methodologies used by an accountant or a manager making accounting decisions. You will develop skills in critical thinking, problem-solving and financial management. You will gain business acumen to understand financial transactions within a company. The curriculum covers all of the accounting course areas to prepare you to sit for the CPA exam.

Highlights

You will graduate with a set of varied competencies, all of which are highly sought after in the accounting field. The structure of the concentration will provide you with:

- A comprehensive curriculum covering all important sectors of the field identified by top-ranking members of the auditing and accounting profession, including big data analysis, internal audit, fraud and forensic accounting and information systems.
- Opportunities to work with audit systems used by accounting professionals.
- Experience learning from nationally and internationally recognized faculty.
- Access to a large and active alumni group called Ledger & Quill, which supports students with scholarship opportunities, mentorship and annual networking events.
- Several accounting-related student organizations, allowing for interaction with peers, alumni and working professionals.

Concentration Requirements

This concentration requires completion of any three graduate-level accounting courses. Students select an individualized set of courses using the content areas below as a guide. Students may focus on one

area of courses or combine courses from multiple areas depending on what matches their career aspirations.

Accounting for Managers

Course	Title	Quarter Hours
ACC 542	COST AND MANAGERIAL ACCOUNTING	
ACC 535	PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS	
ACC 636	INTERNAL AUDITING, CORPORATE GOVERNANCE AND INTERNAL CONTROL	

Tax

Course	Title	Quarter Hours
ACC 548	TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS	
ACC 551	TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS	
ACC 558	TAX RESEARCH	

Accounting Data Analytics

Course	Title	Quarter Hours
ACC 535	PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS	
ACC 639	AUDIT ANALYTICS	
ACC 646	FORENSIC FINANCIAL STATEMENT ANALYSIS AND VALUATION	

Forensic Accounting

Course	Title	Quarter Hours
ACC 635	INTRODUCTION TO FRAUD EXAMINATION	
ACC 645	FORENSIC AND INVESTIGATIVE ACCOUNTING	
ACC 646	FORENSIC FINANCIAL STATEMENT ANALYSIS AND VALUATION	

CPA

In addition to ACC 502, a minimum of six graduate courses from below are required to meet the Illinois CPA educational requirements. Students are strongly advised to complete all courses below to become fully prepared to pass the exam.

Course	Title	Quarter Hours
ACC 541	FINANCIAL ACCOUNTING THEORY & PRACTICE I	
ACC 542	COST AND MANAGERIAL ACCOUNTING	
ACC 543	FINANCIAL ACCOUNTING THEORY & PRACTICE II	
ACC 547	AUDITING I	
ACC 548	TAX TREATMENT OF INDIVIDUALS AND PROPERTY TRANSACTIONS	
ACC 640	ADVANCED TOPICS IN ACCOUNTING THEORY II	

The courses above meet the minimum requirements to qualify. CPA content also includes the following courses which are recommended to be fully prepared for the exam.

Course	Title	Quarter Hours
ACC 535	PRINCIPLES OF ACCOUNTING INFORMATION SYSTEMS	
ACC 545	ADVANCED TOPICS IN ACCOUNTING THEORY	
ACC 550	AUDITING II	
ACC 551	TAX TREATMENT OF CORPORATIONS AND PARTNERSHIPS	
ACC 552	BUSINESS LAW FOR ACCOUNTANTS	

Applied Economics, Master of Business Administration (MBA)

DePaul’s MBA concentration in Applied Economics gives students a deeper understanding of the fundamentals that govern economic activity. Students study the forces that drive markets and the economics of the decision-making processes of business and consumers in a market system. This concentration is particularly ideal for analytically focused, logically minded students who want to hone their problem-solving abilities.

Highlights

In this concentration, you will gain the knowledge, competencies and skills to:

- Help businesses and organizations adapt to the ever-changing economic environment.
- Relate the domestic and global economic outlooks to your business’s or organization’s markets, as well as advanced applications for bridging strategic analysis to financial forecasts and valuation.
- Prepare and interpret forecasts for businesses regarding optimal pricing, sales and advertising, marketing policies, purchasing, industrial relations and investment and portfolio decisions.
- Conduct empirical analyses of business and consumer decision-making.
- Apply evidence-based methodology to inform decisions and policy.

Concentration Requirements

Course Requirements

To complete this concentration, students are required to complete three graduate-level Economics courses. ECO 502, ECO 509 and ECO 555 (if taken to satisfy core requirements) are not approved for use as MBA concentration electives.

Course	Title	Quarter Hours
ECO 507	DATA ANALYTICS I: REGRESSION ANALYSIS	
ECO 516	ECONOMICS OF THE PUBLIC SECTOR I	
ECO 517	THE PUBLIC POLICY, BUSINESS, AND ETHICAL ENVIRONMENT OF GOVERNMENT	

ECO 518	LABOR ECONOMICS AND LABOR RELATIONS
ECO 525	GAME THEORY AND STRATEGY
ECO 526	BUSINESS STRATEGY
ECO 528	STRATEGIES AND PROCESSES OF NEGOTIATIONS
ECO 529	STRATEGY AND ANTITRUST
ECO 531	BUSINESS MODELS AND INNOVATION STRATEGY
ECO 535	BEHAVIORAL ECONOMICS AND DECISION-MAKING
ECO 557	INTERNATIONAL TRADE THEORY & POLICY
ECO 540	THE BUSINESS OF HEALTH
ECO 541	HEALTHCARE DATA ANALYTICS
ECO 542	HEALTH ECONOMICS
ECO 798	SPECIAL TOPICS (MANAGERIAL HEALTH ECONOMICS)
ECO 798	SPECIAL TOPICS (CONGRESSIONAL RESEARCH FELLOWSHIP)

Business Strategy and Decision Making, Master of Business Administration (MBA)

- Be a clear and strategic thinker in the business world.
- Learn how to diagnose strategic positions, evaluate alternative courses of action, and make the best possible decisions.

DePaul's MBA concentration in Business Strategy and Decision Making will give you the framework for making business decisions in a disciplined and strategic way. In this concentration, you will learn how to diagnose strategic positions, evaluate alternative courses of action and make the best possible decisions based on your objectives. You will accomplish this through extensive class discussions, case-study analysis and hands-on exercises.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Create value for customers.
- Correctly diagnose a problem or position, make the best decisions to improve upon this position and sustain the improvement.
- Apply price and other strategies to gain a competitive edge and to enter or block entry to market.
- Capture value in various market settings by positioning and differentiating products for profitability.
- Innovate and reformulate entire business models based on networks, platforms and eco-systems.
- Develop negotiation skills that are important in the economic and business world, as well as in day-to-day life.
- Apply insights from psychology and behavioral sciences to understand economic and business decisions and formulate strategic plans and policies.

Concentration Requirements

Course Requirements

The concentration requires four classes. The concentration consists of two required core classes: ECO 525, which provides a general framework for strategic thinking; ECO 526, which lays out the economic foundations of strategy; and two elective courses that best matches your personal and professional objectives.

Course	Title	Quarter Hours
Required Core Courses		
ECO 525	GAME THEORY AND STRATEGY	
ECO 526	BUSINESS STRATEGY	
Select two of the following:		
ECO 529	STRATEGY AND ANTITRUST	
ECO 531	BUSINESS MODELS AND INNOVATION STRATEGY	
ECO 535	BEHAVIORAL ECONOMICS AND DECISION-MAKING	

Custom, Master of Business Administration (MBA)

The Custom MBA concentration provides you with the flexibility to create your own MBA focus based on your unique career goals. This degree is ideal if you want to combine a set of electives that are tailored to the precise skill set you need to advance in your career, or if you have multiple interests that you would like to combine. If you do not declare a specific concentration at the beginning of the program, you will be assigned the Custom MBA concentration.

Highlights

In this concentration:

- You have the freedom to choose any five Kellstadt elective courses to earn the Custom MBA concentration after completing your core MBA courses.
- Electives are available in a wide range of subjects and disciplines, from accountancy, finance, economics and real estate, to management, marketing and hospitality leadership.
- Academic advisors are available to help you design your course of study to meet your career goals.

Concentration Requirements

Students complete the concentration in Custom MBA by completing any five elective courses offered by the Kellstadt Graduate School of Business.

With this option, the student is free to choose elective courses from among the different areas of study within the graduate school of business without concern for whether these courses satisfy the requirements of a specific concentration.

If a student does not declare a specific concentration, the student will be assigned the Custom MBA concentration at the beginning of the program.

Entrepreneurship, Master of Business Administration (MBA)

DePaul's nationally ranked Entrepreneurship program will prepare you to start and grow your own business or to manage innovative processes in established firms. In the Entrepreneurship concentration, you will focus on the life-cycle issues of firms—from pre-venture and start-up to growth and maturity—as well as venture spin-offs and team and leadership issues.

The interrelated courses and learning experiences will teach you to master complex and ill-defined management issues across functional business areas. All courses are based on real-life entrepreneur issues and live case studies.

Highlights

You will gain the skills and abilities to:

- Think creatively and generate new business ideas.
- Develop your business idea through market analysis.
- Write a business plan.
- Assess your entrepreneurial leadership skills.
- Implement successful growth strategies.
- Build an entrepreneurial spirit within established firms.
- Consult for local businesses.
- Interact directly with entrepreneurs and innovators.

Students and alumni have access to DePaul's highly respected Coleman Entrepreneurship Center and Center for Innovation, as well as 1871, Chicago's premier business incubator, through DePaul's 1871 membership. The Coleman Entrepreneurship Center offers practical guidance and professional connections for launching and growing businesses through workshops, guest speakers and new venture competitions that engage DePaul with the Chicago entrepreneurial and venture capital community. The Center for Innovation fosters innovative strategies and tools for breakthrough thinking. Named one of the Top 10 innovation programs by Fortune Small Business, the center offers programs and workshops including the annual Student Innovation Awards Competition. The center's Innovation Lab offers Design Thinking projects for students and businesses and 3D printing services.

Concentration Requirements

The Entrepreneurship MBA concentration requires students to complete any four of the graduate-level entrepreneurship-related courses. To help guide your class selections, below are examples of courses you could choose by career interests, with highly recommended courses for these career paths indicated with ¹.

New Venture Management

Course	Title	Quarter Hours
MGT 530	LEADERSHIP IN ORGANIZATIONS	
MGT 563	NEGOTIATION SKILLS	
MGT 569	LEGAL ASPECTS OF ENTREPRENEURSHIP	
MGT 570	ENTREPRENEURSHIP AND NEW VENTURE MANAGEMENT ¹

MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	
MGT 590	MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE	
MGT 793	MANAGEMENT INTERNSHIP	

Finance, Master of Business Administration (MBA)

The Finance MBA concentration provides you with in-depth, applied learning that will enable you to successfully understand, analyze and navigate today's increasingly sophisticated global financial markets. Go beyond textbooks into the real world of stocks, investments, capitalization and banking while learning to use the latest high-tech financial software and market tools. You will receive a solid base of knowledge about various financial sectors and broaden your understanding of the issues that are inherent to finance decision-making, while focusing on the impact these decisions have on the public and private sectors of the global economy.

You have the choice of specializing in a particular area of finance—such as corporate finance, investments, derivatives or banking—or you may take a broad array of courses.

Highlights

In this program, you will gain the skills and knowledge to:

- Understand stock market analyses, institutional investing and portfolio management in domestic and global markets.
- Correctly value companies and markets through access to cutting-edge market research technology.
- Recognize and grasp the role and function of central banks in our economy and how their interactions with asset markets affect the larger economy.
- Develop risk management strategies.
- Apply what you learn in DePaul's Virtual Trading Room, a state-of-the-art finance lab replete with the latest in financial analysis software.

Students and alumni have access to DePaul's finance industry-related centers, including the Arditti Center for Risk Management, Center for Financial Services and Driehaus Center for Behavioral Finance. These centers provide guidance, professional networking opportunities and real-world education through conferences that feature nationally and internationally known speakers, including executives from the Federal Reserve Bank of Chicago, Chicago Mercantile Exchange and Federal Deposit Insurance Corporation, among other financial institutions.

Concentration Requirements

This concentration requires completion of four graduate-level Finance courses including one required course and three electives. RE 530 may be taken as one of the elective courses to satisfy the four course requirement.

Course Requirements

Course	Title	Quarter Hours
FIN 523	INVESTMENT ANALYSIS	

Select three electives in Finance ¹

¹ May include RE 530 but not FIN 555.

The Finance concentration requires completion of FIN523 and any three graduate-level finance courses. Students select an individualized set of courses using the content areas below as a guide. Students may focus on one area of courses or combine courses from multiple areas depending on what matches their career aspirations.

Banking Courses

Course	Title	Quarter Hours
FIN 512	COMMERCIAL BANKING	
FIN 513	MONEY AND CAPITAL MARKETS	
FIN 557	INTERNATIONAL FINANCE	
FIN 562	RISK MANAGEMENT	

Behavioral Finance Courses

Course	Title	Quarter Hours
FIN 581	BEHAVIORAL FINANCE	
FIN 582		
FIN 583		

Corporate Finance Courses

Course	Title	Quarter Hours
FIN 551	PROBLEMS IN CORPORATE FINANCIAL POLICY	
FIN 553	ADVANCED CORPORATE FINANCE	
FIN 557	INTERNATIONAL FINANCE

FIN 581	BEHAVIORAL FINANCE	
FIN 719	EQUITY RESEARCH	

Risk Management Courses

Course	Title	Quarter Hours
FIN 557	INTERNATIONAL FINANCE	
FIN 562	RISK MANAGEMENT	
FIN 617	TOOLS OF FINANCIAL ANALYTICS	
FIN 662	DERIVATIVES VALUATION	
FIN 675		

Healthcare Markets and Analytics, Master of Business Administration (MBA)

This new MBA concentration focuses on how managers analyze and use health data to make managerial decisions. The MBA concentration is based on decision-making algorithms applying data to economic models that emphasize incentives that all the players in the health care system face.

Highlights

The goal of this concentration is to provide students with a deep dive into the healthcare sector that enables students to become players in this extraordinary industry which accounts for over one-fifth of the U.S. economy. The concentration complements the general training students receive in the other business disciplines, but will be focused on the defined area of economics in the healthcare industry. The learning outcomes of this new concentration will expect students to identify and understand:

- How the healthcare sector is similar to, and different from, the rest of the economy.
- How the behavior of the healthcare sector adheres to and deviates from economic principles.
- The crucial and ever-increasing role of data in guiding the decision-making of both the healthcare industry and policy makers.

Concentration Requirements

The concentration consists of the following four courses (16 credit hours):

Course Requirements

Course	Title	Quarter Hours
ECO 540	THE BUSINESS OF HEALTH	4
ECO 541	HEALTHCARE DATA ANALYTICS	4
ECO 798	SPECIAL TOPICS (MANAGERIAL HEALTH ECONOMICS)	4
MGT 559	HEALTH SECTOR MANAGEMENT	4

Hospitality Leadership, Master of Business Administration (MBA)

The Hospitality Leadership MBA concentration will help you develop skills to become a successful leader in the business of hospitality and tourism. You will gain skills to take a leadership role within hospitality operations in the context of guest experience and quality assurance. This concentration is ideal if you are a hospitality industry professional with a strong desire to enhance your knowledge and business skills or if you are looking to change your career and want to join the business side of hospitality operations.

Highlights

In this concentration, you will:

- Develop advanced hospitality leadership practices within the various industry segments (lodging, food and beverage, events, private clubs, etc.).
- Understand current trends in the industry and acquire the necessary skill set involving customer relationship management and service delivery.
- Learn management, marketing and hospitality strategies to enhance the business.
- Engage with fellow hospitality students who will become important career contacts.
- Have access to a world-class metropolitan environment in Chicago, allowing you to supplement knowledge from the classroom with real-world skills gained from learning and working within a vibrant hospitality scene.

Concentration Requirements

Course Requirements

The Hospitality Leadership concentration requires four courses.

Course	Title	Quarter Hours
Select four of the following:		16
HSP 502	MANAGING THE GUEST/EMPLOYEE EXPERIENCE	
HSP 503	ADVANCED HOSPITALITY LEADERSHIP AND PERFORMANCE	
HSP 505	SERVICE & INNOVATION IN TOURISM DEVELOPMENT	

HSP 506	HOSPITALITY STRATEGY & OPERATIONAL PERFORMANCE
HSP 561	MANAGING REVENUE TO MAXIMIZE FINANCIAL PERFORMANCE
HSP 562	HOSPITALITY DISRUPTORS, CURRENT TRENDS, AND THEIR IMPLICATIONS FOR LEADERS
HSP 563	HOSPITALITY RESEARCH ANALYSIS & FINANCIAL METRICS
HSP 793	PRACTICUM IN APPLIED HOSPITALITY LEADERSHIP
HSP 798	SPECIAL TOPICS (WHEN RELATED TO HOSPITALITY LEADERSHIP)

International Business, Master of Business Administration (MBA)

The International Business concentration will prepare you to navigate effectively as a manager in a complex and ever-changing global business environment. With the increasing interdependence of national economies and the growth of global enterprises, understanding international business frameworks and issues is vital to decision-makers. Through a multidisciplinary curriculum that includes accounting, economics, finance, management and marketing courses, you will have a chance to explore how businesses can manage the development of international commerce.

Highlights

This program provides:

- A global approach to macroeconomics and microeconomic topics, including trade theory, international financial policy and emerging markets, as well as insight into the global business environment.
- An understanding of the international economic and socio-cultural issues vital to decision-makers.
- Basic theory and knowledge of the current issues in international economics, accounting, finance, marketing and management.
- The opportunity to gain international exposure outside of the classroom through a study abroad business seminar. This seminar provides an excellent opportunity to expand your knowledge beyond the classroom and gain exposure to other cultures. Seminars are typically one-to-three weeks long and are scheduled to coincide with breaks between quarters in the academic calendar.

Concentration Requirements

Course Requirements

To complete this concentration, students must complete four courses from the following:

Course	Title	Quarter Hours
Select four from the following:		16
ACC 557	GLOBAL STRATEGIC FINANCIAL ANALYSIS	
ECO 503	GLOBAL ECONOMY	
ECO 557	INTERNATIONAL TRADE THEORY & POLICY	
ECO 558	INTERNATIONAL MACROECONOMICS	
FIN 557	INTERNATIONAL FINANCE	

IB 750	INTERNATIONAL BUSINESS SEMINAR I
MGT 557	INTERNATIONAL MANAGEMENT
MKT 557	INTERNATIONAL MARKETING
MKT 558	MARKETING ACROSS CULTURES: A GLOBAL PERSPECTIVE
MKT 559	EMERGING MARKETS

Management Information Systems, Master of Business Administration (MBA)

The Management Information Systems concentration teaches you how to analyze and define information systems requirements in various business situations and, much like an architect; guide others to build to these requirements. You will learn how to evaluate emerging disruptive technologies, how to align information technology with business strategy and how to address information systems needs from a business perspective. This degree will prepare you for professional roles involving IT planning and strategy. The program is ideal for business-minded, technically proficient students who may not have previous coursework or experience with information systems.

Highlights

In this concentration, you will gain:

- Project management experience involving a variety of information technologies and their utilization applicable to private and governmental organizations.
- Knowledge of the information systems life cycle and the nature of related phases and tasks, from initial study through post-implementation support.
- A thorough understanding of system requirements elicitation, analysis, documentation, validation and management.
- Techniques for working with users and builders of information systems.
- Tools for developing prototypes that use visual programming technology.
- Experience with identifying organizational data to design and manipulate databases.
- Integrated technical knowledge and understanding of business operations.

Concentration Requirements

To complete the Management Information Systems concentration, students must complete four courses from the following list.

Course	Title	Quarter Hours
Select four of the following:		16
MIS 555	MANAGEMENT OF INFORMATION TECHNOLOGY	
MIS 673	DATA MANAGEMENT	
MIS 674	SYSTEMS ANALYSIS AND DESIGN	
MIS 683	INFORMATION TECHNOLOGY STRATEGY AND ARCHITECTURE	

ACC 637	DATA MINING AND ANALYTICS
MGT 598	PROJECT MANAGEMENT

Management, Master of Business Administration (MBA)

The MBA concentration in management provides you with in-depth, applied learning that will enable you to successfully organize, lead and direct others in the workplace. The program will prepare you for professional opportunities across industries, with a focus on self-awareness, leadership development, teamwork, project management and managing others.

Highlights

You have the flexibility to choose any four graduate-level management courses to fulfill your concentration after completing core MBA requirements. Depending on your goals, you could choose courses that prepare you for the following career paths:

- **Coaching and Talent Development:** Gain management coaching competencies to help others achieve change and performance improvement, and improve your individual leadership effectiveness and personal growth.
- **Consulting:** Master the process to consult with clients, including contracting, problem diagnosis, data analysis, and client feedback and evaluation.
- **Leadership and Change Management:** Learn the systematic process to design and lead change efforts that encompass diagnosing opportunities, creating change visions and developing readiness for change to improve organizational effectiveness.
- **Managing Human Capital:** Develop skills for strategically managing human resources to advance organizational goals, improve workforce performance and enhance employee satisfaction.
- **Supply Chain Management:** Increase your ability to critically evaluate supply chain design and model complex supply chain phenomena.

Concentration Requirements

The management MBA concentration (16 hours) requires students to complete any four graduate-level management courses. To help guide your class selections, below are examples of courses you could choose based on career goals.

Coaching and Talent Development

Course	Title	Quarter Hours
MGT 525	TRAINING AND CAREER DEVELOPMENT	
MGT 529	LIFE AND CAREER COACHING	
MGT 530	LEADERSHIP IN ORGANIZATIONS	
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	

Consulting

Course	Title	Quarter Hours
MGT 535	CHANGE MANAGEMENT AND CONSULTING	
MGT 562	RESOLVING CONFLICT IN ORGANIZATIONS	

MGT 563	NEGOTIATION SKILLS
MGT 584	CONSULTING SKILLS
MGT 598	PROJECT MANAGEMENT

Leadership and Change Management

Course	Title	Quarter Hours
MGT 530	LEADERSHIP IN ORGANIZATIONS	
MGT 535	CHANGE MANAGEMENT AND CONSULTING	
MGT 556	ETHICS AND LEADERSHIP	
MGT 572	CORPORATE VENTURES AND MANAGEMENT	
MGT 589	EXECUTIVE COACHING: LEADERSHIP IN A VOLATILE, UNCERTAIN, CHAOTIC AND AMBIGUOUS BUSINESS ENVIRONMENT	
MGT 590	MANAGEMENT OF INNOVATION AND TECHNOLOGICAL CHANGE	

Managing Human Capital

Course	Title	Quarter Hours
MGT 523	RECRUITMENT AND SELECTION ¹	
MGT 525	TRAINING AND CAREER DEVELOPMENT ¹	
MGT 526	COMPENSATION AND BENEFITS ¹	
MGT 529	LIFE AND CAREER COACHING	
MGT 551	GLOBAL WORKFORCE MANAGEMENT	
MGT 552	MANAGING DIVERSITY AND INCLUSION	
MGT 562	RESOLVING CONFLICT IN ORGANIZATIONS	
MGT 563	NEGOTIATION SKILLS ¹	
MGT 565	EMPLOYMENT LAW	
MGT 566	HEALTH INSURANCE & BENEFITS	
MGT 584	CONSULTING SKILLS	
MGT 591	FUNDAMENTALS OF PEOPLE ANALYTICS	
MGT 592	ADVANCED PEOPLE ANALYTICS	

¹ Courses most useful for students who want to sit for the Society of Human Resources Management (SHRM) certification exam.

Supply Chain Management

Course	Title	Quarter Hours
MGT 501	STRATEGIC SUPPLY CHAIN MANAGEMENT	
MGT 507	GLOBAL SOURCING AND PROCUREMENT	
MGT 509	PRODUCTION AND INVENTORY MANAGEMENT	
MGT 511	TRANSPORTATION AND LOGISTICS	
MGT 518	EMERGING ETHICAL ISSUES & TECHNOLOGY IN SUPPLY CHAIN MANAGEMENT	
MGT 545	MANAGING SERVICE OPERATIONS	
MGT 563	NEGOTIATION SKILLS	
MGT 598	PROJECT MANAGEMENT	

Marketing Strategy and Planning, Master of Business Administration (MBA)

The Marketing Strategy and Planning MBA concentration puts you on track for upper-level management positions as it prepares you to master the art and science of business development and marketing. The program prepares you to find and evaluate new market opportunities, build strong customer relationships and design sustainable market strategies, as well as to understand organizational structure, competitive pricing and advantage, and external factors that affect marketing.

Highlights

In this concentration, you will gain knowledge and abilities to:

- Manage customers, product lines and new product development.
- Understand the design and sustainability of innovative business models.
- Develop plans and systematic strategies to achieve firm objectives.
- Analyze consumer behavior and translate your findings into sound business decisions.

Concentration Requirements

Course Requirements

The concentration in Marketing Strategy and Planning requires the following four courses:

Course	Title	Quarter Hours
MKT 535	MARKETING STRATEGIES AND PLANNING	4
MKT 536	PRICING STRATEGY	4
MKT 540	STRATEGIC PLANNING: DEVELOPING SUSTAINABLE BUSINESS MODELS	4
Select a minimum of one additional graduate-level Marketing course ¹		4

¹ Not including MKT 555 MARKETING MANAGEMENT

Students are encouraged to consult with department faculty for related elective courses.

Marketing, Master of Business Administration (MBA)

The Marketing MBA will help you sharpen your skills in four key areas: market research, category management, business development and digital marketing. You can specialize in one area or combine areas to further enhance your skill set. The program will provide you with the knowledge and skills necessary to identify and develop programs and products that meet customer needs, and it will prepare you for assuming and successfully discharging managerial responsibilities in marketing or marketing-related positions.

Highlights

In this program you can choose to focus on a variety of practical advanced marketing skills, including the ability to:

- Develop and conduct targeted market research, which will boost your interviewing and survey creation skills while you use advanced statistics to analyzing small data sets.
- Coordinate syndicated data from various sources and use it to develop marketing plans for your business or industry.
- Translate research data into real-world business decisions.
- Thoroughly understand category management and how it helps to make better purchasing and pricing decisions.
- Develop marketing plans that work in a multicultural market to support global new business development and expansion.
- Advance key skills in digital marketing and online consumer research.

Concentration Requirements

Course Requirements

The concentration in Marketing requires the following four courses:

Course	Title	Quarter Hours
MKT 535	MARKETING STRATEGIES AND PLANNING	4
Select a minimum of three additional graduate-level marketing courses ¹		12

¹Not including MKT 555 MARKETING MANAGEMENT.

Students may take additional graduate-level marketing courses as electives and are encouraged to consult with department faculty for course recommendations.

You can focus on one area of interest or take a broad array of classes to enhance your skills.

Here are some suggested courses for specific areas of interest. If you have some other topics in mind, a faculty member or advisor can help you choose the best courses to match your interests.

Brand Management

Course	Title	Quarter Hours
MKT 541	BRAND MANAGEMENT	
MKT 542	BRAND CULTURE	
MKT 545	CONSUMER BEHAVIOR	
MKT 575	ADVERTISING AND SALES PROMOTION	
MKT 582	CATEGORY MANAGEMENT	

Business Development

Course	Title	Quarter Hours
MKT 550	BUSINESS TO BUSINESS MARKETING	
MKT 577	LEADING BUSINESS DEVELOPMENT	
MKT 578	SALES STRATEGY & TECHNOLOGY	
MKT 582	CATEGORY MANAGEMENT	

Consumer Insights

Course	Title	Quarter Hours
MKT 525	MARKET RESEARCH	
MKT 526	ADVANCED MARKET RESEARCH	
MKT 529	PRECISION MARKETING	

MKT 534	ANALYTICAL TOOLS FOR MARKETERS
MKT 545	CONSUMER BEHAVIOR
MKT 570	
MKT 798	SPECIAL TOPICS (PREDICTING CONSUMER CHOICE BEHAVIOR)

Digital Marketing

Course	Title	Quarter Hours
MKT 595	DIGITAL MARKETING ANALYTICS & PLANNING	
MKT 798	SPECIAL TOPICS (SOCIAL MEDIA MARKETING)	
MKT 798	SPECIAL TOPICS (MULTI-CHANNEL MARKETING)	

Global Marketing

Course	Title	Quarter Hours
MKT 557	INTERNATIONAL MARKETING	
MKT 558	MARKETING ACROSS CULTURES: A GLOBAL PERSPECTIVE	
MKT 559	EMERGING MARKETS	
IB 750	INTERNATIONAL BUSINESS SEMINAR I	

Real Estate Finance and Investment, Master of Business Administration (MBA)

DePaul's MBA concentration in Real Estate Finance and Investment is a multidisciplinary program that will prepare you for leadership roles in the rapidly changing world of global real estate finance and investment. Through a combination of management, marketing, finance and investment courses, you will acquire the skills necessary to navigate this diverse industry. You will gain proficiency in a wide range of commercial real estate transactions, urban planning, financing and operations.

Highlights

In this concentration, you can choose from a diverse set of competencies and skills, which encompass how to:

- Manage complex real estate transactions by learning all aspects of these transactions, including finance and real estate investing, taxation, development, investment sales and capital market analysis.
- Manage urban planning initiatives and public sector enterprises.
- Facilitate financial and investment transactions.

In addition to the core curriculum, this concentration provides an exclusive opportunity to be paired with a senior real estate executive to learn first-hand the skills necessary to succeed in this industry.

Concentration Requirements

Course Requirements

To complete the Real Estate concentration, students must complete four courses from the following list:

Course	Title	Quarter Hours
RE 530	REAL ESTATE INVESTMENT AND FINANCE	4
RE 531	REAL ESTATE CAPITAL MARKETS AND FINANCE	4
RE 535	INSTITUTIONAL REAL ESTATE INVESTMENT	4
RE 570	ADVANCED REAL ESTATE ANALYSIS WITH ARGUS	4

Strategy, Execution and Valuation, Master of Business Administration (MBA)

The Strategy, Execution and Valuation (SEV) MBA concentration is a unique and innovative program for students seeking high level positions in corporate management, management consulting, investment banking, private equity and entrepreneurship. In this program, you will study the strategy, strategy execution and valuation of real companies in real time and learn to master the latest strategy frameworks, tools and valuation methods used by leading organizations. Graduates of the program emerge with highly marketable strategic-thinking skills and a deep understanding of the seamless connection between business strategy, execution, value creation and valuation.

Courses are presented in an executive seminar format and led by a team of top professors, executives and thought leaders. In these courses, you'll create high-quality professional strategic analysis briefing reports and presentations on high performance companies, which will help you develop strategic analysis skills useful now and throughout your career. This concentration can be a valuable primary focus of your MBA studies or a secondary concentration that complements MBA concentrations in finance, entrepreneurship or other fields.

Highlights

In this concentration, you will learn:

- How to make a significant impact on the future of your organization and career by developing your strategic-thinking skills.
- How to evaluate and execute business strategies.
- Leading practices in strategic valuation and practical methods for driving valuations from strategic analysis by using the state-of-the-art tools of investment banks and research analysts.
- How to use strategy and valuation frameworks in real time to study and understand the performance of innovative high-performing companies.

Concentration Requirements

Course Requirements

The SEV concentration requires three SEV courses, focused on practical application:

Course	Title	Quarter Hours
SEV 611	RETURN DRIVEN STRATEGY	4
SEV 621	STRATEGY EXECUTION	4
One Approved Elective Chosen From:		4

SEV 641 STRATEGIC VALUATION
or ACC 542 COST AND MANAGERIAL ACCOUNTING
or ECO 525 GAME THEORY AND STRATEGY
or ECO 526 BUSINESS STRATEGY

Mathematical Sciences (BA)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Pure Mathematics
- Statistics
- Actuarial Science
- Financial Mathematics
- Quantitative Analysis and Operations Research
- Applied and Computational Mathematics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	32-36
Major Concentration Requirements	24-28
Open Electives	48-56
Total hours required	192

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, but using appropriate mathematical terminology and notation.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
MAT 398	SENIOR CAPSTONE SEMINAR ^{1,2}	4

¹ Students must earn a C- or better in this course.

² Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements

Common Core

Course	Title	Quarter Hours
Select one of the following three-course Calculus sequences:		12-18
Sequence One		
MAT 150	CALCULUS I	
MAT 151	CALCULUS II	
MAT 152	CALCULUS III	
Sequence Two		
MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
Sequence Three		
MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Four		
MAT 170	CALCULUS FOR LIFE SCIENCES I	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
and one of the following:		
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
MAT 152	CALCULUS III	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Five ¹		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
MAT 260	MULTIVARIABLE CALCULUS I	4
MAT 261	MULTIVARIABLE CALCULUS II	4
MAT 262	LINEAR ALGEBRA	4
Select one of the following options:		4-8

MAT 215	INTRODUCTION TO MATHEMATICAL REASONING	
MAT 140 & MAT 141	DISCRETE MATHEMATICS I and DISCRETE MATHEMATICS II (Discrete Mathematics Sequence)	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I (or a more advanced course in any programming language)	4
MAT 398	SENIOR CAPSTONE SEMINAR (Liberal Studies Program Capstone)	4

Data Analysis Requirement, which can be satisfied via one of the following:

AP Statistics credit (score of 3 or better)
An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341 MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that course may be taken as part of the major or as an open elective.
The following concentration areas will automatically satisfy the data analysis requirement: Actuarial Science, Financial Math, Quantitative Analysis and Operations Research, and Statistics.

¹ This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science Concentration, Mathematical Sciences (BA) (p. 785)
- Applied and Computational Mathematics Concentration, Mathematical Sciences (BA) (p. 785)
- Financial Mathematics Concentration, Mathematical Sciences (BA) (p. 786)
- Individualized Concentration, Mathematical Sciences (BA) (p. 786)

- Pure Mathematics Concentration, Mathematical Sciences (BA) (p. 788)
- Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BA) (p. 788)
- Statistics Concentration, Mathematical Sciences (BA) (p. 789)

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Actuarial Science Concentration, Mathematical Sciences (BA)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms, and government.

Course Requirements

Course	Title	Quarter Hours
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 361	THEORY OF INTEREST	4
MAT 362	LIFE CONTINGENCIES I	4
MAT 363	LIFE CONTINGENCIES II	4

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses

Course	Title	Quarter Hours
MAT 341	STATISTICAL METHODS USING SAS	
MAT 355	STOCHASTIC PROCESSES	
MAT 356	APPLIED REGRESSION ANALYSIS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 364	LOSS MODELS I	
MAT 365	LOSS MODELS II	
MAT 367	CREDIBILITY THEORY	
MAT 368	MATHEMATICS FOR FINANCE	

Additional Recommended Courses

Course	Title	Quarter Hours
ACC 101	INTRODUCTION TO ACCOUNTING I	
ECO 105	PRINCIPLES OF MICROECONOMICS	
ECO 106	PRINCIPLES OF MACROECONOMICS	

FIN 310	INTRODUCTION TO FINANCE
FIN 311	CORPORATE FINANCE
FIN 320	MONEY AND BANKING
FIN 330	INVESTMENTS: THEORY & PRACTICE
FIN 335	PORTFOLIO MANAGEMENT
FIN 362	ENTERPRISE RISK MANAGEMENT
FIN 363	DERIVATIVES: PRICING & APPLICATIONS

Applied and Computational Mathematics Concentration, Mathematical Sciences (BA)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

Course Requirements

Course	Title	Quarter Hours
CSC 242	INTRODUCTION TO COMPUTER SCIENCE II (or another approved computer science course)	4
Select three of the following:		12
MAT 302	COMBINATORICS	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	
Select two additional courses from among the above and the following:		8
MAT 335	REAL ANALYSIS I	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 381	FOURIER ANALYSIS AND SPECIAL FUNCTIONS	
MAT 386	NUMERICAL ANALYSIS II	
Select one additional course from among the above and the following:		4
MAT 303	THEORY OF NUMBERS	
MAT 310	ABSTRACT ALGEBRA I	
MAT 311	ABSTRACT ALGEBRA II	
MAT 330	METHODS OF COMPUTATION AND THEORETICAL PHYSICS I	
MAT 331	METHODS OF COMPUTATION AND THEORETICAL PHYSICS II	
MAT 336	REAL ANALYSIS II	
MAT 337	COMPLEX ANALYSIS	
MAT 340	TOPOLOGY	
MAT 341	STATISTICAL METHODS USING SAS	
MAT 353	PROBABILITY AND STATISTICS III	

MAT 355	STOCHASTIC PROCESSES	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	

Data Analysis Requirement, which can be satisfied via one of the following:
4

AP Statistics Credit (score of 3 or better)	
An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341, MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that this course may be taken as part of the major or as an open elective.	

Students interested in graduate study in applied mathematics are encouraged to take: MAT 335 and MAT 336, MAT 370, MAT 385 and MAT 386.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration, Mathematical Sciences (BA)

Financial mathematics concentration includes the set of courses that constitute the Finance Minor from the Driehaus College of Business. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in finance and their prerequisites.

Prerequisite Requirements

Students must meet the prerequisites of ACC 101 and ECO 105 prior to some courses in the Finance Minor.

Course Requirements

Course	Title	Quarter Hours
MAT 304 or MAT 385	DIFFERENTIAL EQUATIONS NUMERICAL ANALYSIS I	4
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 355	STOCHASTIC PROCESSES	4
MAT 368	MATHEMATICS FOR FINANCE	4

Finance Minor Requirements Embedded in the Financial Mathematics Concentration

Course	Title	Quarter Hours
FIN 310	INTRODUCTION TO FINANCE	4
FIN 311	CORPORATE FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
Select two electives from the following:		8

FIN 313	INVESTMENT BANKING
FIN 320	MONEY AND BANKING
FIN 323	COMMERCIAL BANKING
FIN 324	BANKING & CREDIT ANALYSIS
FIN 333	FINANCIAL STATEMENTS ANALYSIS
FIN 335	PORTFOLIO MANAGEMENT
FIN 336	EQUITY RESEARCH
FIN 340	INTERNATIONAL FINANCE
FIN 355	GLOBAL IPOs & VENTURE CAPITAL
FIN 362	ENTERPRISE RISK MANAGEMENT
FIN 363	DERIVATIVES: PRICING & APPLICATIONS
FIN 365	PRINCIPLES OF RISK & INSURANCE
FIN 366	FINANCIAL MODELING
FIN 380	CASES IN FINANCIAL DECISION MAKING
FIN 381	BEHAVIORAL FINANCE
FIN 393	FINANCE INTERNSHIP
FIN 395	INVESTMENT SEMINAR
FIN 398	SPECIAL TOPICS
FIN 399	INDEPENDENT STUDY
RE 350	REAL ESTATE ANALYSIS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
MAT 341	STATISTICAL METHODS USING SAS	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 356	APPLIED REGRESSION ANALYSIS	

Individualized Concentration, Mathematical Sciences (BA)

Advising

Students should consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics.

Course Requirements

An individualized program will normally consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement

This requirement can be satisfied via one of the following:

- AP Statistics Credit (score of 3 or better) or
- An applied statistics or data analysis course from the following list. Other data analysis courses may satisfy the requirement with departmental approval. Note that course may be taken as part of the major or as an open elective.

Course	Title	Quarter Hours
MAT 137	BUSINESS STATISTICS	4
MAT 242	ELEMENTS OF STATISTICS	4
MAT 341	STATISTICAL METHODS USING SAS	4
MAT 348	APPLIED STATISTICAL METHODS	4
MAT 353	PROBABILITY AND STATISTICS III	4
IT 223	DATA ANALYSIS	4
PSY 240	STATISTICS I	4
BIO 206	BIOSTATISTICS	4
ENV 260	ENVIRONMENTAL DATA ANALYSIS	4
SOC 279	INTRO STATS FOR THE SOCIAL SCIENCES	4
HON 180	DATA ANALYSIS AND STATISTICS	4

Mathematical Sciences (BA) + Secondary Education Mathematics (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework : 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 413	THE NATURE OF MATHEMATICS	4
TCH 423	INQUIRY & APPLICATION IN DEVELOPING MATHEMATICS PEDAGOGY	4

All coursework in the content area must earn a grade of C or better.*

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers I or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I
- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Mathematics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1152)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Pure Mathematics Concentration, Mathematical Sciences (BA)

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Course Requirements

Course	Title	Quarter Hours
MAT 216	FOUNDATIONS OF ADVANCED MATHEMATICS	4
Select three of the following:		12
MAT 310	ABSTRACT ALGEBRA I	
MAT 311	ABSTRACT ALGEBRA II	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
Select three additional mathematics courses from the following:		12
MAT 301	HISTORY OF MATHEMATICS	
MAT 302	COMBINATORICS	
MAT 303	THEORY OF NUMBERS	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 311	ABSTRACT ALGEBRA II	
MAT 312	ABSTRACT ALGEBRA III	
MAT 320	GEOMETRY I	
MAT 321	GEOMETRY II	
MAT 336	REAL ANALYSIS II	
MAT 337	COMPLEX ANALYSIS	
MAT 340	TOPOLOGY	
MAT 348	APPLIED STATISTICAL METHODS	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 372	LOGIC AND SET THEORY	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	
MAT 386	NUMERICAL ANALYSIS II	

Data Analysis requirement, which can be satisfied via one of the following:

AP Statistics Credit (score of 3 or better)

An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341 MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that course may be taken as part of the major or as an open elective.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Course Selections

For students interested in graduate study in mathematics:

Course	Title	Quarter Hours
MAT 310	ABSTRACT ALGEBRA I	
MAT 311	ABSTRACT ALGEBRA II	
MAT 312	ABSTRACT ALGEBRA III	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 337	COMPLEX ANALYSIS	

For students interested in graduate study in economics, finance, or statistics:

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	

Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BA)

This concentration provides students with the mathematical background to work in finance, computer applications, and production scheduling and forecasting

Course Requirements

Course	Title	Quarter Hours
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
Select three of the following:		12
MAT 356	APPLIED REGRESSION ANALYSIS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	

MAT 386	NUMERICAL ANALYSIS II
MAT 389	TOPICS IN OPERATIONS RESEARCH
CSC 389	THEORY OF COMPUTATION

Statistics Concentration, Mathematical Sciences (BA)

This concentration offers students a solid foundation in probability and statistics. Statisticians are employed by government, industry, marketing research companies, and consulting firms to design surveys and experiments and to analyze statistical data.

Course Requirements

Course	Title	Quarter Hours
MAT 326 or MAT 328	SAMPLE SURVEY METHODS DESIGN OF EXPERIMENTS	4
MAT 341	STATISTICAL METHODS USING SAS	4
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 356	APPLIED REGRESSION ANALYSIS	4

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 354	MULTIVARIATE STATISTICS	
MAT 355	STOCHASTIC PROCESSES	
MAT 357	NONPARAMETRIC STATISTICS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 385	NUMERICAL ANALYSIS I	
MAT 386	NUMERICAL ANALYSIS II	

Students interested in graduate study in mathematical statistics are encouraged to take the following:

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	

Mathematical Sciences (BS)

The Department of Mathematical Sciences offers courses in pure and applied mathematics to help students reach a wide variety of intellectual, academic, and career goals.

Many students come to the department to obtain the mathematical background needed to be successful in programs in the natural sciences, computer science, social sciences, and business. Such students may

choose to supplement their major in their home department by obtaining a minor in mathematics.

Other students come to the department seeking a program leading to an undergraduate or graduate degree in one of the mathematical sciences. Undergraduate students majoring in mathematical sciences may choose one of seven areas of concentration:

- Actuarial Science
- Applied and Computational Mathematics
- Financial Mathematics
- Pure Mathematics
- Quantitative Analysis and Operations Research
- Statistics
- In consultation with a mathematics faculty advisor, undergraduate students may also create an individualized program of courses leading to a degree in mathematical sciences.

A thesis option is available to mathematics majors who wish to pursue an extended independent project related to a theoretical or applied focus of the program. Students would work under the guidance of a faculty mentor. At least 4 credits must be completed over one or two quarters prior to the thesis submission. Interested students are strongly encouraged to enroll in MAT 390 during their junior year.

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	32-36
Major Concentration Requirements	24-28
Open Electives	48-56
Total hours required	192

Learning Outcomes

Students will be able to:

- Construct valid logical arguments and analyze the reasoning of others.
- Implement a variety of mathematical structures to model and analyze complex problems.
- Apply general mathematical theory to solve problems in mathematics and in the sciences.
- Communicate mathematical ideas clearly, in verbal and visual form, by using appropriate mathematical terminology and notation.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language

- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		

Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
MAT 398	SENIOR CAPSTONE SEMINAR ^{1,2}	4

- ¹ Students must earn a C- or better in this course.
- ² Students with a primary major in Mathematics are required to complete the Capstone offered by the Mathematics department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics are required to complete the Capstone offered by the Mathematics department. Mathematics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Common Core

Course	Title	Quarter Hours
Select one of the following three-course Calculus sequences:		12-18
Sequence One		
MAT 150	CALCULUS I	
MAT 151	CALCULUS II	
MAT 152	CALCULUS III	
Sequence Two		
MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
Sequence Three		
MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Four		
MAT 170	CALCULUS FOR LIFE SCIENCES I	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
Select one of the following:		
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
MAT 152	CALCULUS III	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Five ¹		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
MAT 260	MULTIVARIABLE CALCULUS I	4-4.5
MAT 261	MULTIVARIABLE CALCULUS II	4-4.5
MAT 262	LINEAR ALGEBRA	4-4.5
MAT 215	INTRODUCTION TO MATHEMATICAL REASONING	4-4.5
or MAT 140 & MAT 141	DISCRETE MATHEMATICS I and DISCRETE MATHEMATICS II	
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I (or a more advanced course in any programming language)	4-4.5
MAT 398	SENIOR CAPSTONE SEMINAR (Liberal Studies Program Capstone)	4
Select four courses from any of the following:		16
Natural Sciences		
Computer Sciences:		
All CSC courses may apply		
Data Science:		
All DSC courses may apply		

Game Development:

GAM 244	GAME DEVELOPMENT I
GAM 245	GAME DEVELOPMENT II
GAM 350	PHYSICS FOR GAME DEVELOPERS
GAM 353	TOOL PROGRAMMING FOR GAME DEVELOPMENT
GAM 368 through GAM 391 ²	
GAM 394 through GAM 398 ³	
Information Technology:	
IT 223	DATA ANALYSIS
IT 278	COMMUNITY-BASED TECHNOLOGY PROJECTS
IT 231 through IT 240	
IT 263	APPLIED NETWORKS AND SECURITY
IT 313 through IT 373	
IT topics courses may only be accepted with advanced approval from the chair	
Software Engineering:	
All SE courses may apply	
Select one of the following:	
GEO 241	GEOGRAPHIC INFORMATION SYSTEMS I: DIGITAL MAPPING
GEO 243	EARTH OBSERVATION
GEO 345	PROGRAMMING IN PYTHON FOR GIS

Data Analysis Requirement, which can be satisfied via one of the following:

AP Statistics credit (score of 3 or better)	
An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341 MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that this course may be taken as one of the four Natural or Computer Science courses required for the BS, as part of the major, or as an open elective.	
The following concentration areas will automatically satisfy the data analysis requirement: Actuarial Science, Financial Math, Quantitative Analysis and Operations Research, and Statistics.	

¹ This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

² Except CSC 382.

³ Courses may only be accepted with advanced approval from the chair.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Pure Mathematics; Statistics; Actuarial Science; Financial Mathematics; Quantitative Analysis and Operations Research; Applied and Computational Mathematics; or Individualized.

If the student chooses to declare more than one Mathematical Sciences concentration, then the student must complete the requirements for each

concentration, and take at least three additional 300-level courses overall. For example, a student earning two concentrations would have taken at least nine 300-level courses, and a student earning three concentrations would have taken at least twelve 300-level courses.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Actuarial Science Concentration, Mathematical Sciences (BS) (p. 792)
- Applied and Computational Mathematics Concentration, Mathematical Sciences (BS) (p. 792)
- Financial Mathematics Concentration, Mathematical Sciences (BS) (p. 793)
- Individualized Concentration, Mathematical Sciences (BS) (p. 794)
- Pure Mathematics Concentration, Mathematical Sciences (BS) (p. 795)
- Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BS) (p. 795)
- Statistics Concentration, Mathematical Sciences (BS) (p. 796)

Actuarial Science Concentration, Mathematical Sciences (BS)

Actuarial Science uses mathematics, statistics and financial theory to study uncertain future events, especially those that relate to risk management and insurance programs. This concentration prepares students to work for insurance or pension consulting firms and government.

Concentration Requirements

Course	Title	Quarter Hours
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 361	THEORY OF INTEREST	4
MAT 362	LIFE CONTINGENCIES I	4
MAT 363	LIFE CONTINGENCIES II	4

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses

Course	Title	Quarter Hours
MAT 341	STATISTICAL METHODS USING SAS	
MAT 356	APPLIED REGRESSION ANALYSIS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 355	STOCHASTIC PROCESSES	

MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD
MAT 364	LOSS MODELS I
MAT 365	LOSS MODELS II
MAT 367	CREDIBILITY THEORY
MAT 368	MATHEMATICS FOR FINANCE

Additional Recommended Courses

Course	Title	Quarter Hours
ACC 101	INTRODUCTION TO ACCOUNTING I	
ECO 105	PRINCIPLES OF MICROECONOMICS	
ECO 106	PRINCIPLES OF MACROECONOMICS	
FIN 310	INTRODUCTION TO FINANCE	
FIN 311	CORPORATE FINANCE	
FIN 320	MONEY AND BANKING	
FIN 330	INVESTMENTS: THEORY & PRACTICE	
FIN 335	PORTFOLIO MANAGEMENT	
FIN 362	ENTERPRISE RISK MANAGEMENT	
FIN 363	DERIVATIVES: PRICING & APPLICATIONS	

Applied and Computational Mathematics Concentration, Mathematical Sciences (BS)

The concentration in Applied and Computational Mathematics is intended for any student who enjoys mathematics, problem solving, and applications to solving practical problems in business, government, and science. The concentration is intended especially for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied or discrete mathematics at the graduate level.

Course Requirements

Course	Title	Quarter Hours
CSC 242	INTRODUCTION TO COMPUTER SCIENCE II (or another approved computer science course)	4
Select three of the following:		12
MAT 302	COMBINATORICS	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	
Select two additional courses from among the above and the following:		8
MAT 335	REAL ANALYSIS I	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 381	FOURIER ANALYSIS AND SPECIAL FUNCTIONS	
MAT 386	NUMERICAL ANALYSIS II	

Select one additional course from among the above and the following:

MAT 303	THEORY OF NUMBERS
MAT 310	ABSTRACT ALGEBRA I
MAT 311	ABSTRACT ALGEBRA II
MAT 330	METHODS OF COMPUTATION AND THEORETICAL PHYSICS I
MAT 331	METHODS OF COMPUTATION AND THEORETICAL PHYSICS II
MAT 336	REAL ANALYSIS II
MAT 337	COMPLEX ANALYSIS
MAT 340	TOPOLOGY
MAT 341	STATISTICAL METHODS USING SAS
MAT 353	PROBABILITY AND STATISTICS III
MAT 355	STOCHASTIC PROCESSES
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY

Data Analysis requirement, which can be satisfied via one of the following:

AP Statistics Credit (score of 3 or better)

An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341 MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that this course may be taken as one of the four Natural or Computer Science courses required for the BS, as part of the major, or as an open elective.

Students interested in graduate study in applied mathematics are encouraged to take:

Course	Title	Quarter Hours
MAT 335 & MAT 336	REAL ANALYSIS I and REAL ANALYSIS II	8
MAT 370	ADVANCED LINEAR ALGEBRA	4
MAT 385 & MAT 386	NUMERICAL ANALYSIS I and NUMERICAL ANALYSIS II	8

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Financial Mathematics Concentration, Mathematical Sciences (BS)

Prerequisite Requirements

Students must meet the prerequisite of ACC 101 and ECO 105 prior to some courses in the Finance Minor.

4

Concentration Requirements

This concentration is a Mathematics Major that includes the set of courses which constitute the Finance Minor. It includes courses that are relevant to contemporary financial mathematical modeling, along with courses in Finance and their prerequisites.

Course	Title	Quarter Hours
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 355	STOCHASTIC PROCESSES	4
MAT 368	MATHEMATICS FOR FINANCE	4
MAT 304 or MAT 385	DIFFERENTIAL EQUATIONS or NUMERICAL ANALYSIS I	4

Finance Minor Requirements Embedded in the Financial Mathematics Concentration

Course	Title	Quarter Hours
FIN 310	INTRODUCTION TO FINANCE	4
FIN 311	CORPORATE FINANCE	4
FIN 330	INVESTMENTS: THEORY & PRACTICE	4
Select two electives from the following:		8

FIN 313	INVESTMENT BANKING
FIN 320	MONEY AND BANKING
FIN 323	COMMERCIAL BANKING
FIN 324	BANKING & CREDIT ANALYSIS
FIN 333	FINANCIAL STATEMENTS ANALYSIS
FIN 335	PORTFOLIO MANAGEMENT
FIN 336	EQUITY RESEARCH
FIN 340	INTERNATIONAL FINANCE
FIN 355	GLOBAL IPOs & VENTURE CAPITAL
FIN 362	ENTERPRISE RISK MANAGEMENT
FIN 363	DERIVATIVES: PRICING & APPLICATIONS
FIN 365	PRINCIPLES OF RISK & INSURANCE
FIN 380	CASES IN FINANCIAL DECISION MAKING
FIN 381	BEHAVIORAL FINANCE
FIN 393	FINANCE INTERNSHIP
FIN 395	INVESTMENT SEMINAR
FIN 398	SPECIAL TOPICS
FIN 399	INDEPENDENT STUDY
RE 350	REAL ESTATE ANALYSIS

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
MAT 341	STATISTICAL METHODS USING SAS	
MAT 356	APPLIED REGRESSION ANALYSIS	

MAT 358	APPLIED TIME SERIES AND FORECASTING
MAT 370	ADVANCED LINEAR ALGEBRA

Individualized Concentration, Mathematical Sciences (BS)

Course Requirements

Students may consult with a mathematics faculty advisor and the department chair to create an individualized program of study leading to a degree in mathematics. Typically, such a program will consist of the Common Core in Mathematics plus six mathematics courses chosen from those included in the other concentrations and approved by the department chair.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Data Analysis Requirement

This requirement can be satisfied via one of the following:

- AP Statistics credit (score of 3 or better)
- An applied statistics or data analysis course from the following list. Other data analysis courses may satisfy the requirement with departmental approval. Note that this course may be taken as one of the four Natural or Computer Science courses required for the BS, as part of the major, or as an open elective.

Course	Title	Quarter Hours
MAT 137	BUSINESS STATISTICS	4
MAT 242	ELEMENTS OF STATISTICS	4
MAT 341	STATISTICAL METHODS USING SAS	4
MAT 348	APPLIED STATISTICAL METHODS	4
MAT 353	PROBABILITY AND STATISTICS III	4
IT 223	DATA ANALYSIS	4
PSY 240	STATISTICS I	4
BIO 206	BIOSTATISTICS	4
ENV 260	ENVIRONMENTAL DATA ANALYSIS	4
SOC 279	INTRO STATS FOR THE SOCIAL SCIENCES	4
HON 180	DATA ANALYSIS AND STATISTICS	4

Mathematical Sciences (BS) + Secondary Education Mathematics (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Mathematics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major

and a MEd in Education with a State of Illinois Secondary Mathematics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA.

During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework : 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 413	THE NATURE OF MATHEMATICS	4
TCH 423	INQUIRY & APPLICATION IN DEVELOPING MATHEMATICS PEDAGOGY	4

All coursework in the content area must earn a grade of C or better.*

- Calculus I
- Calculus II
- Calculus III
- Intro to Math Reasoning or Discrete Math I and Discrete Math II
- Multivariable Calculus I
- Multivariable Calculus II
- Linear Algebra
- Programming Language
- Abstract Algebra I
- Theory of Numbers I or Abstract Algebra II
- Geometry I
- Geometry II or Real Analysis I

- Probability & Statistics
- History of Mathematics
- *The secondary mathematics content advisor will collaborate with you to design and schedule your mathematics content course sequence.

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Mathematics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1152)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Pure Mathematics Concentration, Mathematical Sciences (BS)

This concentration provides a broad mathematical exposure for students who are interested in studying and/or doing mathematical research at the graduate level.

Concentration Requirements

Course	Title	Quarter Hours
MAT 216	FOUNDATIONS OF ADVANCED MATHEMATICS	4
Select three of the following:		12
MAT 310	ABSTRACT ALGEBRA I	
MAT 311	ABSTRACT ALGEBRA II	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
Select three additional mathematics courses from the following:		12
MAT 301	HISTORY OF MATHEMATICS	
MAT 302	COMBINATORICS	
MAT 303	THEORY OF NUMBERS	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 311	ABSTRACT ALGEBRA II	
MAT 312	ABSTRACT ALGEBRA III	
MAT 320	GEOMETRY I	
MAT 321	GEOMETRY II	
MAT 336	REAL ANALYSIS II	
MAT 337	COMPLEX ANALYSIS	
MAT 340	TOPOLOGY	
MAT 348	APPLIED STATISTICAL METHODS	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	
MAT 370	ADVANCED LINEAR ALGEBRA	

MAT 372	LOGIC AND SET THEORY
MAT 384	MATHEMATICAL MODELING
MAT 385	NUMERICAL ANALYSIS I
MAT 386	NUMERICAL ANALYSIS II

Data Analysis requirement, which can be satisfied via one of the following:

AP Statistics credit (score of 3 or better)

An applied statistics or data analysis course from this list: MAT 137, MAT 242, MAT 341 MAT 348, IT 223, PSY 240, BIO 206, ENV 260, SOC 279, MAT 353, HON 180. Other data analysis courses may satisfy the requirement with departmental approval. Note that this course may be taken as one of the four Natural or Computer Science courses required for the BS, as part of the major, or as an open elective.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Recommended Mathematics Courses

For students interested in graduate study in mathematics:

Course	Title	Quarter Hours
MAT 310	ABSTRACT ALGEBRA I	
MAT 311	ABSTRACT ALGEBRA II	
MAT 312	ABSTRACT ALGEBRA III	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 337	COMPLEX ANALYSIS	

For students interested in graduate study in economics, finance, or statistics:

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	

Quantitative Analysis and Operations Research Concentration, Mathematical Sciences (BS)

This concentration provides students with the mathematical background to work in finance, computer applications, and production scheduling and forecasting.

Course Requirements

Course	Title	Quarter Hours
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4

MAT 353	PROBABILITY AND STATISTICS III	4
Select three of the following:		12
MAT 356	APPLIED REGRESSION ANALYSIS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
ACC 101	INTRODUCTION TO ACCOUNTING I	
ACC 102	INTRODUCTION TO ACCOUNTING II	
ECO 105	PRINCIPLES OF MICROECONOMICS	
ECO 106	PRINCIPLES OF MACROECONOMICS	
FIN 310	INTRODUCTION TO FINANCE	
FIN 330	INVESTMENTS: THEORY & PRACTICE	
FIN 335	PORTFOLIO MANAGEMENT	

Statistics Concentration, Mathematical Sciences (BS)

This concentration offers students a solid foundation in probability and statistics. Statisticians are employed by government, industry, marketing research companies, and consulting firms to design surveys and experiments and to analyze statistical data.

Concentration Requirements

Course	Title	Quarter Hours
MAT 341	STATISTICAL METHODS USING SAS	4
MAT 351	PROBABILITY AND STATISTICS I	4
MAT 352	PROBABILITY AND STATISTICS II	4
MAT 353	PROBABILITY AND STATISTICS III	4
MAT 356	APPLIED REGRESSION ANALYSIS	4
MAT 326	SAMPLE SURVEY METHODS	4
or MAT 328	DESIGN OF EXPERIMENTS	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Additional Recommended Courses

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 354	MULTIVARIATE STATISTICS	
MAT 355	STOCHASTIC PROCESSES	
MAT 357	NONPARAMETRIC STATISTICS	

MAT 358	APPLIED TIME SERIES AND FORECASTING
MAT 370	ADVANCED LINEAR ALGEBRA
MAT 385	NUMERICAL ANALYSIS I
MAT 386	NUMERICAL ANALYSIS II

Students interested in graduate study in mathematical statistics are encouraged to take the following:

Course	Title	Quarter Hours
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	

Mathematics (Minor)

A minor in Mathematics can be developed to complement a major program in any major, with a focus on pure and applied mathematical theory.

Course Requirements

Course	Title	Quarter Hours
Select one of the following three-course Calculus sequences:		12-18
Sequence One		
MAT 150	CALCULUS I	
MAT 151	CALCULUS II	
MAT 152	CALCULUS III	
Sequence Two		
MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
Sequence Three		
MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Four		
MAT 170	CALCULUS FOR LIFE SCIENCES I	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
MAT 172	CALCULUS III WITH DIFFERENTIAL EQUATIONS	
Sequence Five ¹		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
MAT 260	MULTIVARIABLE CALCULUS I	4
MAT 262	LINEAR ALGEBRA	4
or MAT 220	APPLIED LINEAR ALGEBRA	
Choose one course from the following list:		4-8
MAT 215	INTRODUCTION TO MATHEMATICAL REASONING	

or MAT 140	DISCRETE MATHEMATICS I
& MAT 141	and DISCRETE MATHEMATICS II
MAT 216	FOUNDATIONS OF ADVANCED MATHEMATICS
MAT 304	DIFFERENTIAL EQUATIONS
MAT 348	APPLIED STATISTICAL METHODS
MAT 351	PROBABILITY AND STATISTICS I
MAT 384	MATHEMATICAL MODELING
MAT 385	NUMERICAL ANALYSIS I

¹ This Calculus sequence is offered only during the summer, in two 6-credit hour courses. Students successfully completing MAT 131, MAT 147, MAT 150 or MAT 160 should enroll in MAT 155; students who successfully complete MAT 148, MAT 151 or MAT 161 should enroll in MAT 156. Students who successfully complete MAT 155 may enroll in either MAT 151 or MAT 156.

Business students who have an exceptionally strong background in calculus, including calculus of trig functions, may be permitted by the chair to substitute MAT 135 and MAT 136 for MAT 150.

Students whose major is granted by the Department of Mathematical Sciences cannot earn a minor in Mathematics.

Mathematics and Computer Science (BS) (College of Computing and Digital Media)

The BS in Mathematics and Computer Science is designed to prepare students to compete for the more intellectually demanding jobs in software development or for graduate study in various areas of computer science and applied mathematics such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	88
Open Electives	28
Total hours required	192

Learning Outcomes

Students will be able to:

- Construct valid, logical arguments and analyze the reasoning of others.
- Model a computation problem, select appropriate algorithms and data structures for a solution, justify the correctness of the algorithm, and implement an application solving the problem.
- Use discrete and continuous mathematical structures to model problems and then solve them using appropriate techniques.
- Analyze the efficiency of a computational solution mathematically, and validate the analysis experimentally.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4

Select one of the following:		
CSC 394	SOFTWARE PROJECTS ¹	4
DSC 394	DATA SCIENCE PROJECT ¹	4
MAT 398	SENIOR CAPSTONE SEMINAR ¹	4

¹ Students must earn a C- or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required (See note below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required (See note below)

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required:

Notes

Students must take one of the following ethics courses:

Course	Title	Quarter Hours
Select one of the following:		4
CSC 208	ETHICS IN TECHNOLOGY (PI)	
PHL/MGT 248	BUSINESS ETHICS (PI)	
REL/MGT 228	BUSINESS, ETHICS AND SOCIETY (RD)	

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or as the Experiential Learning requirement.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, DSC 394, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
Choose one (1) sequence:		8
CSC 241 & CSC 242	INTRODUCTION TO COMPUTER SCIENCE I and INTRODUCTION TO COMPUTER SCIENCE II	
OR		
CSC 243	PYTHON FOR PROGRAMMERS (and one (1) major elective)	
Remaining Requirements:		
CSC 300	DATA STRUCTURES I	4
CSC 301	DATA STRUCTURES II	4
CSC 321	DESIGN AND ANALYSIS OF ALGORITHMS	4
CSC 373	COMPUTER SYSTEMS I	4
CSC 374	COMPUTER SYSTEMS II	4
MAT 140	DISCRETE MATHEMATICS I	4
MAT 141	DISCRETE MATHEMATICS II	4
or MAT 215	INTRODUCTION TO MATHEMATICAL REASONING	
MAT 260	MULTIVARIABLE CALCULUS I	4
MAT 262	LINEAR ALGEBRA	4
Select one of the following calculus sequences:		12
Calculus Sequence (option 1)		

MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
Calculus Sequence (option 2)		
MAT 150	CALCULUS I	
MAT 151	CALCULUS II	
MAT 152	CALCULUS III	
Summer Calculus Sequence (option 3)		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
Calculus Sequence (option 4)		
MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Calculus Sequence (option 5)		
MAT 170	CALCULUS FOR LIFE SCIENCES I	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
or MAT 152	CALCULUS III	
or MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Select One of the Following (Capstone)		4
CSC 394	SOFTWARE PROJECTS	
DSC 394	DATA SCIENCE PROJECT	
MAT 398	SENIOR CAPSTONE SEMINAR	
Select twelve (12) credit hours of CDM Major Electives		12
Select twelve (12) credit hours of MAT Major Electives		12
Select four (4) credit hours of CDM or MAT Major Elective		4
Select twenty-eight (28) credit hours of Open Electives		28

Note: Students may take CSC 243 and one (1) Additional Major Elective in lieu of CSC 241 and CSC 242.

Major Electives

Students must earn a grade of C- or higher in all major requirements and major elective courses.

For the major electives, it is recommended that students concentrate on one or two areas to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 (<https://catalog.depaul.edu/search/?P=MAT%20399>) or CSC 399 (<https://catalog.depaul.edu/search/?P=CSC%20399>) or IT 300 (<https://catalog.depaul.edu/search/?P=IT%20300>)) in order to explore a subject more deeply than is possible in a scheduled course.

Theory of Computation

The courses in the theory of computation area explore the mathematical and logical foundations of computer science.

Course	Title	Quarter Hours
CSC 235	PROBLEM SOLVING	
CSC 327	PROBLEM SOLVING FOR CONTESTS	
CSC 333	CRYPTOLOGY	
CSC 344	AUTOMATA THEORY AND FORMAL GRAMMARS	
CSC 347	CONCEPTS OF PROGRAMMING LANGUAGES	
CSC 348	INTRODUCTION TO COMPILER DESIGN	
CSC 358	SYMBOLIC PROGRAMMING	
CSC 376	DISTRIBUTED SYSTEMS	
CSC 389	THEORY OF COMPUTATION	
MAT 216	FOUNDATIONS OF ADVANCED MATHEMATICS	
MAT 302	COMBINATORICS	
MAT 303	THEORY OF NUMBERS	
MAT 310	ABSTRACT ALGEBRA I	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 349	APPLIED PROBABILITY	
or MAT 351	PROBABILITY AND STATISTICS I	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 372	LOGIC AND SET THEORY	

Computational Methods

The computational methods area investigates quantitative and computational methods in computer science.

Course	Title	Quarter Hours
CSC 331	SCIENTIFIC COMPUTING	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 330	METHODS OF COMPUTATION AND THEORETICAL PHYSICS I	
MAT 331	METHODS OF COMPUTATION AND THEORETICAL PHYSICS II	
MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	
MAT 386	NUMERICAL ANALYSIS II	

Artificial Intelligence

For students with an interest in the computational relations between syntax and semantics.

Course	Title	Quarter Hours
CSC 357	EXPERT SYSTEMS	
CSC 358	SYMBOLIC PROGRAMMING	
CSC 375	INTRODUCTION TO PROGRAM ANALYSIS	
CSC 380	FOUNDATIONS OF ARTIFICIAL INTELLIGENCE	

Data Science Area

For students who are interested in statistical and computational analysis of data. Many of the courses in this area require the student to take MAT 351-MAT 353.

Course	Title	Quarter Hours
DSC 323	DATA ANALYSIS AND REGRESSION	
or MAT 356	APPLIED REGRESSION ANALYSIS	
DSC 324	ADVANCED DATA ANALYSIS	
or MAT 354	MULTIVARIATE STATISTICS	
DSC 333	INTRODUCTION TO BIG DATA PROCESSING	
DSC 341	FOUNDATIONS OF DATA SCIENCE	
DSC 345	MACHINE LEARNING	
DSC 365	DATA VISUALIZATION	
MAT 341	STATISTICAL METHODS USING SAS	
MAT 349	APPLIED PROBABILITY	
or MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	
MAT 354	MULTIVARIATE STATISTICS	
MAT 355	STOCHASTIC PROCESSES	
MAT 357	NONPARAMETRIC STATISTICS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 360	GENERALIZED LINEAR MODELS	

Computer Vision

Computer vision studies the mathematical and algorithmic underpinnings of image analysis and image processing.

Course	Title	Quarter Hours
MAT 261	MULTIVARIABLE CALCULUS II	
MAT 335	REAL ANALYSIS I	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 381	FOURIER ANALYSIS AND SPECIAL FUNCTIONS	
MAT 384	MATHEMATICAL MODELING	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	
CSC 381	INTRODUCTION TO DIGITAL IMAGE PROCESSING	
CSC 382	APPLIED IMAGE ANALYSIS	

Research

Course	Title	Quarter Hours
CSC 395	RESEARCH COLLOQUIUM	
CSC 399	INDEPENDENT STUDY	
MAT 390	MATHEMATICS READING AND RESEARCH	
MAT 396	SENIOR THESIS RESEARCH	

Finance

Course	Title	Quarter Hours
MAT 349	APPLIED PROBABILITY	
MAT 368	MATHEMATICS FOR FINANCE	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Mathematics and Computer Science (BS) (College of Computing and Digital Media), Combined Bachelor's + Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul
- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and

graduate degrees. Non-CDM students can email the CDM advising office if interested in a combined degree with a CDM master's degree.

If you are currently a CDM student and interested in combining your CDM bachelor's degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses.

Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Mathematics and Computer Science (BS) (College of Science & Health)

The BS in Math and Computer Science is a joint degree between the College of Computing and Digital Media and the Department of Mathematics in the College of Science and Health. It provides challenging opportunities to exceptional students with an interest in the highly theoretical nexus of math and computer science. Mathematics is a key element to the theory and practice of computer science and technology:

- Number theory forms the basis for encryption algorithms for messages sent over the Internet.
- Facts from projective geometry and multivariable calculus underlie the computer algorithms that control computer animation.
- Properties of abstract groups are instrumental in correcting transmission errors that occur when information is sent from one computer to another.
- Graph theory and combinatorics are used to create algorithms for Internet search engines and analyze Internet routing protocols.

This program is intended to appeal to academically talented students. It is designed to prepare them for graduate study in various areas of computer science such as theoretical computer science, graphics, data analysis, artificial intelligence, and computational methods and in areas in applied mathematics such as numerical analysis or discrete mathematics. The program is also designed to prepare students to compete for the more theoretically complex jobs found in computer software development.

Students in the program will explore a broad range of fields including:

- Theory of computation
- Computational mathematics
- Artificial intelligence
- Data analysis
- Graphics

- Computer vision
- Research

It is highly recommended that students concentrate on one or two areas for their advanced classes to achieve depth, but they are not required to do so. Faculty advisors are available to assist students in their selection.

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	56
Major Concentration Requirements	28
Open Electives	28
Total hours required	192

Learning Outcomes

Students will be able to:

- Construct valid, logical arguments and analyze the reasoning of others.
- Model a computation problem, select appropriate algorithms and data structures for a solution, justify the correctness of the algorithm, and implement an application solving the problem.
- Use discrete and continuous mathematical structures to model problems and then solve them using appropriate techniques.
- Analyze the efficiency of a computational solution mathematically, and validate the analysis experimentally.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes

Students must take one of the following ethics courses:

Course	Title	Quarter Hours
<i>Select one of the following:</i>		
CSC 208	ETHICS IN TECHNOLOGY (PI)	4
PHL/MGT 248	BUSINESS ETHICS (PI)	4
REL/MGT 228	BUSINESS, ETHICS AND SOCIETY (RD)	4

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Students with a primary major in Mathematics and Computer Science (joint degree) are required to complete one of the following Capstone courses: CSC 394, GPH 395, or MAT 398. Students double majoring or pursuing dual degrees with the primary major or primary degree in Mathematics and Computer Science (joint degree) are also required to complete one of these courses. Mathematics and Computer Science (joint degree) students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Courses offered in the student’s primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student’s major and is cross-listed with a course within the student’s major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
Choose one (1) sequence:		8
CSC 241 & CSC 242	INTRODUCTION TO COMPUTER SCIENCE I and INTRODUCTION TO COMPUTER SCIENCE II	
OR		
CSC 243	PYTHON FOR PROGRAMMERS (and one (1) major elective)	
Remaining Requirements:		
CSC 300	DATA STRUCTURES I	4
CSC 301	DATA STRUCTURES II	4
CSC 321	DESIGN AND ANALYSIS OF ALGORITHMS	4
CSC 373	COMPUTER SYSTEMS I	4
CSC 374	COMPUTER SYSTEMS II	4
MAT 140	DISCRETE MATHEMATICS I	4
MAT 141	DISCRETE MATHEMATICS II	4
or MAT 215	INTRODUCTION TO MATHEMATICAL REASONING	
MAT 260	MULTIVARIABLE CALCULUS I	4
MAT 262	LINEAR ALGEBRA	4
Select one of the following calculus sequences:		12
Calculus Sequence (option 1)		
MAT 147	CALCULUS WITH INTEGRATED PRECALCULUS I	
MAT 148	CALCULUS WITH INTEGRATED PRECALCULUS II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
Calculus Sequence (option 2)		
MAT 150	CALCULUS I	
MAT 151	CALCULUS II	
MAT 152	CALCULUS III	
Summer Calculus Sequence (option 3)		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
Calculus Sequence (option 4)		
MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Calculus Sequence (option 5)		
MAT 170	CALCULUS FOR LIFE SCIENCES I	
MAT 171	CALCULUS FOR LIFE SCIENCES II	
MAT 149	CALCULUS WITH INTEGRATED PRECALCULUS III	
or MAT 152	CALCULUS III	
or MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Select One of the Following (Capstone)		4

CSC 394	SOFTWARE PROJECTS	
DSC 394	DATA SCIENCE PROJECT	
MAT 398	SENIOR CAPSTONE SEMINAR	
Select twelve (12) credit hours of CDM Major Electives		12
Select twelve (12) credit hours of MAT Major Electives		12
Select four (4) credit hours of CDM or MAT Major Elective		4
Select twenty-eight (28) credit hours of Open Electives		28

Note: Students may take CSC 243 and one (1) Additional Major Elective in lieu of CSC 241 and CSC 242.

Major Electives

Students must earn a grade of C- or higher in all major requirements and major elective courses.

For the major electives, it is recommended that students concentrate on one or two areas to achieve depth, but they are not required to do so. Students are strongly encouraged to discuss course selection with an advisor. Students may wish to arrange with a professor to take an independent study or a research experience (MAT 399 (<https://catalog.depaul.edu/search/?P=MAT%20399>) or CSC 399 (<https://catalog.depaul.edu/search/?P=CSC%20399>) or IT 300 (<https://catalog.depaul.edu/search/?P=IT%20300>)) in order to explore a subject more deeply than is possible in a scheduled course.

Theory of Computation

The courses in the theory of computation area explore the mathematical and logical foundations of computer science.

Course	Title	Quarter Hours
CSC 235	PROBLEM SOLVING	
CSC 327	PROBLEM SOLVING FOR CONTESTS	
CSC 333	CRYPTOLOGY	
CSC 344	AUTOMATA THEORY AND FORMAL GRAMMARS	
CSC 347	CONCEPTS OF PROGRAMMING LANGUAGES	
CSC 348	INTRODUCTION TO COMPILER DESIGN	
CSC 358	SYMBOLIC PROGRAMMING	
CSC 376	DISTRIBUTED SYSTEMS	
CSC 389	THEORY OF COMPUTATION	
MAT 216	FOUNDATIONS OF ADVANCED MATHEMATICS	
MAT 302	COMBINATORICS	
MAT 303	THEORY OF NUMBERS	
MAT 310	ABSTRACT ALGEBRA I	
MAT 335	REAL ANALYSIS I	
MAT 336	REAL ANALYSIS II	
MAT 349	APPLIED PROBABILITY	
or MAT 351	PROBABILITY AND STATISTICS I	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 372	LOGIC AND SET THEORY	

Computational Methods

The computational methods area investigates quantitative and computational methods in computer science.

Course	Title	Quarter Hours
CSC 331	SCIENTIFIC COMPUTING	
MAT 304	DIFFERENTIAL EQUATIONS	
MAT 330	METHODS OF COMPUTATION AND THEORETICAL PHYSICS I	
MAT 331	METHODS OF COMPUTATION AND THEORETICAL PHYSICS II	
MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 384	MATHEMATICAL MODELING	
MAT 385	NUMERICAL ANALYSIS I	
MAT 386	NUMERICAL ANALYSIS II	

Artificial Intelligence

For students with an interest in the computational relations between syntax and semantics.

Course	Title	Quarter Hours
CSC 357	EXPERT SYSTEMS	
CSC 358	SYMBOLIC PROGRAMMING	
CSC 375	INTRODUCTION TO PROGRAM ANALYSIS	
CSC 380	FOUNDATIONS OF ARTIFICIAL INTELLIGENCE	

Data Science Area

For students who are interested in statistical and computational analysis of data. Many of the courses in this area require the student to take MAT 351-MAT 353.

Course	Title	Quarter Hours
DSC 323	DATA ANALYSIS AND REGRESSION	
or MAT 356	APPLIED REGRESSION ANALYSIS	
DSC 324	ADVANCED DATA ANALYSIS	
or MAT 354	MULTIVARIATE STATISTICS	
DSC 333	INTRODUCTION TO BIG DATA PROCESSING	
DSC 341	FOUNDATIONS OF DATA SCIENCE	
DSC 345	MACHINE LEARNING	
DSC 365	DATA VISUALIZATION	
MAT 341	STATISTICAL METHODS USING SAS	
MAT 349	APPLIED PROBABILITY	
or MAT 351	PROBABILITY AND STATISTICS I	
MAT 352	PROBABILITY AND STATISTICS II	
MAT 353	PROBABILITY AND STATISTICS III	
MAT 354	MULTIVARIATE STATISTICS	
MAT 355	STOCHASTIC PROCESSES	
MAT 357	NONPARAMETRIC STATISTICS	
MAT 358	APPLIED TIME SERIES AND FORECASTING	
MAT 359	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 360	GENERALIZED LINEAR MODELS	

Computer Vision

Computer vision studies the mathematical and algorithmic underpinnings of image analysis and image processing.

Course	Title	Quarter Hours
MAT 261	MULTIVARIABLE CALCULUS II	
MAT 335	REAL ANALYSIS I	
MAT 370	ADVANCED LINEAR ALGEBRA	
MAT 381	FOURIER ANALYSIS AND SPECIAL FUNCTIONS	
MAT 384	MATHEMATICAL MODELING	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	
CSC 381	INTRODUCTION TO DIGITAL IMAGE PROCESSING	
CSC 382	APPLIED IMAGE ANALYSIS	

Research

Course	Title	Quarter Hours
CSC 395	RESEARCH COLLOQUIUM	
CSC 399	INDEPENDENT STUDY	
MAT 390	MATHEMATICS READING AND RESEARCH	
MAT 396	SENIOR THESIS RESEARCH	

Finance

Course	Title	Quarter Hours
MAT 349	APPLIED PROBABILITY	
MAT 368	MATHEMATICS FOR FINANCE	
MAT 387	OPERATIONS RESEARCH: LINEAR PROGRAMMING	
MAT 388	OPERATIONS RESEARCH: OPTIMIZATION THEORY	

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Mathematics Education (MA)

The purpose of the program leading to the degree of Master of Arts in Mathematics Education is to improve the quality of mathematics instruction in schools within the greater-Chicago area and to offer a response to the shortage of secondary school mathematics teachers. This six-quarter degree program is offered on an accelerated basis during intensive weekend sessions and may be taken while in-service at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to secondary curriculum needs and is directed toward previously or currently certified teachers with degrees in non-mathematics fields, to teachers with bachelor's degrees in mathematics who wish to upgrade their command of the field, and to bachelor's degree holders in other fields who wish to enter teaching.

Admissions Information

This program is administered by the Department of Mathematical Sciences through the College of Science and Health. Details regarding admission requirements, course schedules, and so forth, can be found by contacting the Program Director in the Department of Mathematical Sciences. Registration for Master of Arts in Mathematics Education courses is open only to students formally admitted in the program or to those students who have the written authorization from the Program Director.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Construct a valid logical argument and analyze the reasoning of others.
- Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
- Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
- Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Degree Requirements

Course Requirements

MAMEd students are required to take twelve of the seventeen courses listed below.

Course	Title	Quarter Hours
Select 12 of the following:		48
MAT 610	CALCULUS I	
MAT 611	CALCULUS II	
MAT 612	CALCULUS III	

MAT 618	TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS
MAT 620	GEOMETRY
MAT 631	HISTORY OF MATHEMATICS THROUGH PROBLEM SOLVING
MAT 640	MULTIVARIABLE CALCULUS I
MAT 642	MULTIVARIABLE CALCULUS II
MAT 644	DIFFERENTIAL EQUATIONS
MAT 660	DISCRETE MATHEMATICS
MAT 670	ABSTRACT ALGEBRA I
MAT 671	ABSTRACT ALGEBRA II
MAT 672	LINEAR ALGEBRA
MAT 680	REAL ANALYSIS
MAT 451	PROBABILITY AND STATISTICS I
MAT 452	PROBABILITY AND STATISTICS II
MAT 470	ADVANCED LINEAR ALGEBRA

Typically, MAMEd students will take:

Course	Title	Quarter Hours
MAT 610	CALCULUS I	4
MAT 611	CALCULUS II	4
MAT 612	CALCULUS III	4
MAT 618	TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS	4
MAT 620	GEOMETRY	4
MAT 631	HISTORY OF MATHEMATICS THROUGH PROBLEM SOLVING	4
MAT 640	MULTIVARIABLE CALCULUS I	4
MAT 642	MULTIVARIABLE CALCULUS II	4
MAT 660	DISCRETE MATHEMATICS	4
MAT 670	ABSTRACT ALGEBRA I	4
MAT 680	REAL ANALYSIS	4
MAT 671	ABSTRACT ALGEBRA II	4
or MAT 672	LINEAR ALGEBRA	

Program Graduate Academic Student Handbook

Academic Probation

A student will be placed on academic probation if his/her cumulative GPA falls below 2.50 after completing at least eight credit hours.

Academic Dismissal

A student may be academically dismissed under one or more of the following violations of satisfactory progress:

- student's GPA *only for the first twelve completed credit hours* after being placed on academic probation is below 2.50.
- student's *cumulative* GPA after completing the first 24 credit hours after being placed on academic probation is below 2.50.
- lack of timely progress toward degree completion.

Readmission

The same readmission standards outlined in the Graduate Student Handbook and approval of the program director are observed for students in these programs.

Transfer Credit

No more than two graduate courses (8 quarter credit hours or its semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul’s graduate program, and they did not count toward another degree either at DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, twelve graduate courses (48 credit hours) required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction

A minimum cumulative GPA of 3.75 for coursework applied toward the MAMEd degree is required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of five years.

Mathematics for Community College Teaching Certificate Course Requirements

Course	Title	Quarter Hours
MAT 451	PROBABILITY AND STATISTICS I	4
MAT 452	PROBABILITY AND STATISTICS II	4
MAT 470	ADVANCED LINEAR ALGEBRA	4
Two additional MAT 400+ courses - contact the MSMT program director for approval		8

Students in the Certificate in Mathematics for Community College Teaching ('Certificate') program must follow the academic standing, probation and dismissal guidelines, among other guidelines, found in the Program Graduate Academic Student Handbook for Master of Science in Mathematics for Teaching (MSMT).

Certificate seekers can be graduates of DePaul University’s Master of Arts in Mathematics Education (MAMEd) program. The purpose of the Certificate is to fortify the MAMEd degree for students who wish to teach at the community college level.

The Certificate is comprised of five courses at 20 credit hours, those of which are part of DePaul’s Master of Science in Mathematics Teaching (MSMT) degree but which are not part of the MAMEd degree. Students are restricted from earning both the Certificate and the MSMT.

Students in the Certificate program must apply for degree conferral via Campus Connection in advance of their final quarter in the program in

order to have their coursework audited for the awarding and delivery of their certificate.

Mathematics for Teaching (MS)

The purpose of the program leading to the degree of Master of Science in Mathematics for Teaching is to improve the quality of mathematics instruction and to offer a response to the shortage of community college mathematics teachers. This degree program is offered on an accelerated basis primarily during intensive weekend sessions and may be taken at the rate of two courses per quarter. However, students may proceed through the program at a slower pace depending upon their individual needs. The emphasis in the program is on mathematical content, but significant amounts of time are spent on methods of incorporating new teaching strategies and technologies in the classroom. The program is tied directly to community college curriculum needs and is directed toward bachelor’s degree holders in other fields who wish to enter teaching.

Admission Information

Program Requirements	Quarter Hours
Degree Requirements	68
Total hours required	68

Learning Outcomes

Students will be able to:

- Construct a valid logical argument and analyze the reasoning of others.
- Translate a variety of problems, including real world situations, into the language of mathematics thereby leading to a mathematical solution.
- Solve a variety of mathematical problems by applying multiple approaches such as algebraic, numerical, and graphic.
- Communicate mathematical arguments and ideas verbally, making appropriate use of ordinary and mathematical language.

Degree Requirements

Course Requirements

All seventeen courses from the following list:

Course	Title	Quarter Hours
MAT 451	PROBABILITY AND STATISTICS I	4
MAT 452	PROBABILITY AND STATISTICS II	4
MAT 470	ADVANCED LINEAR ALGEBRA	4
MAT 610	CALCULUS I	4
MAT 611	CALCULUS II	4
MAT 612	CALCULUS III	4
MAT 618	TOPICS IN CALCULUS AND DIFFERENTIAL EQUATIONS	4

No more than two graduate courses (8 quarter credit hours or the semester equivalent) may be transferred from another DePaul program or institution provided that they are equivalent to courses offered in DePaul's graduate program, and they did not count toward another degree from DePaul or another institution. Written approval must come from graduate program director and associate dean for graduate studies.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Graduation Requirements

Requirements include, but are not limited to, 17 graduate courses required by the program at a minimum cumulative GPA of 2.50.

Graduation with Distinction

A minimum cumulative GPA of 3.75 for coursework applied toward the MSMT is required for graduation with distinction.

Time Limitation

The degree is expected to be completed in a maximum of five years.

Media and Cinema Studies (BA)

The College of Communication, located at the Loop Campus, offers a variety of courses leading to a Bachelor of Arts degree in Media and Cinema Studies. The BA in Media and Cinema Studies strategically combines faculty expertise, cutting-edge facilities, and a variety of course offerings within Communication, the School of Cinema and

Interactive Media (CIM) (e.g., Digital Cinema), and other University units to provide students with the critical frameworks, creative opportunities, and technological expertise to become socially responsible leaders in the growing and converging areas of media studies. The major combines a rich course selection in four areas of study: film, radio, TV, and new media. Coursework combines theory and critical analysis with production courses taught at both the Lincoln Park (e.g., radio) and Loop campuses (e.g., television/video and cinema studies).

Program Requirements	Quarter Hours
College Core Requirements	16
Liberal Studies Requirements	84
Major Requirements	52
Open Electives	40
Total hours required	192

Learning Outcomes

Students will be able to:

- Explain and/or demonstrate an understanding of the complexities of human communication.
- Examine media representations across registers of nation, citizenship, class, ability, religion, labor, gender, diasporas, race, migration, and/or ethnicity.
- Explain the potential relationships between and/or ethical issues regarding media, social movements, and local, national, and/or global cultures.
- Interpret media cultures within the contexts of technology, economics, and/or industry.

College Core Requirements (p.) Modern Language Requirement (p. 807) Modern Language Option (p. 808)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements

Four core courses are required of all College of Communication students:

Course	Title	Quarter Hours
CMN 101	INTRODUCTION TO HUMAN COMMUNICATION	4
CMN 102	INTRODUCTION TO MASS COMMUNICATION	4
CMN 103	INTERCULTURAL COMMUNICATION	4
CMN 104	PUBLIC SPEAKING	4

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College's modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4

Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4

Junior Year

Experiential Learning

Required		4
Senior Year		
Capstone		
CMN 396	CAPSTONE IN COMMUNICATION ¹	4

- ¹ Students must earn a C- or better in this course.
- ² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
- [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
Required Courses:		16
MCS 271	MEDIA AND CULTURAL STUDIES	
MCS 273	STORYTELLING & STYLE IN CINEMA	
MCS 342	HISTORY OF TELEVISION & RADIO	
MCS 343	MEDIA ETHICS	
Select one of the following:		4
MCS 207	HISTORY OF CINEMA I, 1890-1945	
MCS 208	HISTORY OF CINEMA II, 1945-1975	
MCS 209	HISTORY OF CINEMA III, 1975-PRESENT	
Select four History/Criticism courses from the following:		16
CMN 394	MAKING THE MOST OF YOUR COMMUNICATION INTERNSHIP	
CMN 395	COMMUNICATION INTERNSHIP SPECIAL TOPICS	
CMN 397	RESEARCH PRACTICUM ³	
CMN 398	STUDY ABROAD	
CMN 399	INDEPENDENT STUDY ³	
CMNS 309	INTERNATIONAL/GLOBAL COMMUNICATION	
CMNS 337	ASIAN-AMERICAN MEDIA REPRESENTATIONS

Select three additional electives ²	
	12

¹ Must be taken 2x w/ different creative topics to count for Production elective.

² Select from any College of Communication course or from the Digital Cinema offerings listed above, provided that the DC classes in question have not already been taken under a MCS course number.

³ Students may take up to 4 hours of credit in this course toward graduation requirements.

⁴ A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internships

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Media and Cinema Studies 3+3 (BA+JD)

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 247)
- Communication and Technology (p. 256)
- Communication Studies (p. 259)
- Journalism (p. 676)
- Media and Cinema Studies (p. 807)
- Organizational Communication (p. 879)
- Public Relations and Advertising (p. 969)
- Sports Communication (p. 1116)

For admission requirements and information, contact the Office of Admission (<https://www.depaul.edu/admission-and-aid/Pages/default.aspx>).

Media and Cinema Studies (Minor)

The Media and Cinema Studies minor combines courses from film, television, radio and new media. You will gain a historical and critical understanding of the media industry with the option to focus on one type of media.

Course Requirements

A minor in Media and Cinema Studies requires students to complete six courses (24 credits).

Course	Title	Quarter Hours
MCS 271	MEDIA AND CULTURAL STUDIES	4
MCS 273	STORYTELLING & STYLE IN CINEMA	4
Select three History/Criticism courses from the following:		12
MCS 207	HISTORY OF CINEMA I, 1890-1945	
MCS 208	HISTORY OF CINEMA II, 1945-1975	
MCS 209	HISTORY OF CINEMA III, 1975-PRESENT	
MCS 231	INTRODUCTION TO DOCUMENTARY STUDIES	
MCS 242	TELEVISION STYLE AND NARRATIVE STRUCTURE	
MCS 254	IMAGINING ITALY: CINEMA AS A COLLECTIVE NARRATIVE OF THE ITALIAN PEOPLE	
MCS 257	MEXICAN CINEMA	
MCS 260	TRANSMEDIA STORYTELLING: BUILDING A NARRATIVE WORLD	
MCS 261	INTRODUCTION TO FAN STUDIES	
MCS 265	FAITH, REDEMPTION, & TRANSCENDENCE IN INTERNATIONAL CINEMA

FILM 210	CINEMA PRODUCTION II	
FILM 250	CINEMATOGRAPHY I	
POST 110	EDITING I	
POST 124	SOUND DESIGN I	
SCWR 100	INTRODUCTION TO SCREENWRITING	
SCWR 250	INTRODUCTION TO TELEVISION WRITING	
SCWR 302	WRITING THE FEATURE SCREENPLAY	

Students majoring in Media and Cinema Studies (BA) are restricted from earning this minor.

Medical Anthropology (Minor)

Medical Anthropology is the study of how health and illness are shaped, experienced, and understood in light of global, historical, and political forces. This area of specialization crosses two subfields in the discipline

of Anthropology – Biological and Cultural Anthropology. This minor is especially appropriate for Health Science students.

Course Requirements

Course	Title	Quarter Hours
ANT 102	CULTURAL ANTHROPOLOGY	4
ANT 104	INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY	4
ANT 272	INTRODUCTION TO MEDICAL ANTHROPOLOGY	4
Select two of the following:		8
ANT 320	HUMAN VARIATION	
ANT 360	ISSUES IN GLOBAL HEALTH	
ANT 361	GLOBAL ISSUES IN WOMEN'S HEALTH	
ANT 362	GLOBAL HISTORY OF HEALTH	
Select one 200 or 300-level Anthropology course		4

Students majoring in Anthropology (BA) or minoring in Anthropology are restricted from earning this minor.

Metropolitan Planning and Development Certificate

This certificate program is designed for individuals who want to develop analytical skills and stay current on issues of regional land use, transportation, and economic development. It provides students with a perspective on the institutions of municipal and metropolitan planning and issues affecting the delivery of public services, and it explores innovative solutions to urban and suburban development problems. This certificate is offered in conjunction with The Chaddick Institute for Metropolitan Development. The Institute offers a variety of programs regarding land use, infrastructure and transportation in the region.

This certificate requires three courses (12 credit hours).

Course Requirements

Course	Title	Quarter Hours
MPS 571	METROPOLITAN PLANNING	4
Select two of the following:		8
MPS 526	LOCAL GOVERNMENT ADMINISTRATION	
MPS 529	STRATEGIC MANAGEMENT AND PLANNING	
MPS 541	ECONOMIC FOUNDATIONS OF PUBLIC SERVICE	
MPS 542	POLICY DESIGN AND ANALYSIS	
MPS 546	ADVOCACY AND LOBBYING	
MPS 552	GIS FOR COMMUNITY DEVELOPMENT	
MPS 572	POVERTY, INEQUALITY AND PUBLIC POLICY	
MPS 573	HOUSING AND COMMUNITY DEVELOPMENT	
MPS 575	STUDY ABROAD SEMINAR	
MPS 576	ENERGY POLICY AND THE ENVIRONMENT	

MPS 578	URBAN RESILIENCE AND CLIMATE ADAPTATION POLICY
---------	--

Middle Grades Education (BS)

This program is not currently available for admission.

The Bachelor of Science program in Middle Grades Education prepares teachers for eligibility for a teaching license and two IL endorsements in grades 5-8 (ie., Math & Science; Language Arts and Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students' learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

Program Requirements	Quarter Hours
Liberal Studies Requirements	86
Major Requirements	106
Total hours required	192

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.

- Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue personal growth, and advocate for young adolescent learners and their communities.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul

- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education/ Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree.

Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: <http://education.depaul.edu/>.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged.

The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Met by successful completion of required field experience hours.		
Senior Year		
Capstone		
Required ^{1,3}		

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ This must be taken along with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required
- (Note: One must be in US History.)

Math and Computing (MC) (p. 1328)

- 2 Courses Required
- [1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required:
 - LSE 380
 - 1 Additional Course
- (Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required:
 - 1 BIO Course
 - 1 CHE/ENV/GEO/PHY Course
- (Note: One course above must be SI-LAB.)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required:
 - PSC 120
 - 2 Additional Courses

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements****First Content Area Course: 24 hours required, grade of C or better required**

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

Language Arts

- Introduction to Literature Course or a Survey of Literature Course
- Poetry course
- Grammar or Composition course
- Young adult, graphic novel, or advisor-approved course
- Diverse traditions or multicultural literature course
- Writing course

Mathematics

- Introduction to math reasoning course
- Geometry course

- History of math course
- Probability and statistics course
- Calculus course
- Math modeling, Programming language, or advisor-approved course

Science

- General biology (life science) course
- General chemistry (physical science) course
- General Earth science (Earth/space science) course
- General environmental science (Earth/space science) course
- General physics (physical science) course
- Science course (advisor-approved)

Social Science

- History course
- Geography course
- Civics/government course
- Economics course
- Social Science course (advisor-approved)
- Social Science course (advisor-approved)

Note that individuals can receive a reduction of 1 course in this area based on courses taken in the learning domains. This applies only to language arts, math, or social science. Talk to your advisor about applying the reduction.

Second Content Area: 20 hours required, grade of C or better required

A content area is a single area of study in language arts, math, science, or social science. The second content area must be a different area than the one chosen as the primary content area (cannot include coursework in Education). At least two courses must be at the 200 or higher level.

Language Arts

- Introduction to Literature Course or a Survey of Literature Course
- Poetry course
- Grammar or Composition course
- Young adult, graphic novel, or advisor-approved course
- Diverse traditions or multicultural literature course

Mathematics

- Introduction to math reasoning course
- Geometry course
- Probability and statistics course
- Calculus course
- Math modeling, Programming language, or advisor-approved course

Science

- General biology (life science) course
- General chemistry (physical science) course
- General Earth science (Earth/space science) course
- General environmental science (Earth/space science) course
- General physics (physical science) course

Social Science

- History course
- Geography course
- Civics/government course

- Economics course
- Social Science course (advisor-approved)

Introductory Courses (Junior Standing): 30 quarter hours required, grade of C or better required

MGE 374	THE TEACHING OF SCIENCE IN THE MIDDLE GRADES	
MGE 381	SUPERVISED FIELD EXPERIENCE	1

Student Teaching: 10 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures in the college core section. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take MGE 391, Student Teaching Seminar with student teaching (listed in the Liberal Studies section).

Course	Title	Quarter Hours
MGE 390	STUDENT TEACHING	10
EDU 95	CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)	0

Minors

Students are eligible to complete any minor offered at DePaul University, including those related to the four Middle Grades Education content areas and to other areas of specialization in education. The minors related to the content areas and other areas of education include:

- Bilingual Education
- Biological Science
- Chemistry
- Coaching
- Creative Writing
- Economics
- English as a Second Language
- English as a Second Language/Bilingual Education
- English Literature
- Environmental Science
- Exceptionality and Learning
- Geography
- Health
- History
- Mathematics
- Physics
- Special Education

To complete a minor, students must fulfill all of the requirements of that minor as identified by the minor's home department or program.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Middle Grades Education majors must complete the following tests:

- Content Area Test: Two tests are required before Student Teaching (deadlines apply). Students must take the test corresponding to each of their content areas – Language Arts (test #201), Math (test #202), Science (test #203), or Social Science (test #204).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Middle Grades Education (MEd)

DePaul University's Middle Grades Education Master of Education program is a cohort program administered in collaboration with the Academy for Urban School Leadership (AUSL) that requires special admission. Please contact the Graduate Admissions office for more information.

The Master of Education program in Middle Grades Education prepares teachers for eligibility for a teaching license and IL endorsement in grades 5-8 (ie., Math; Science; Language Arts; Social Science).

The mission of the DePaul University College of Education's Middle Grades Teacher Education Program is to prepare educators who have passion for, understanding of, and commitment to working with young adolescents. We prepare educators who foster equitable, intellectually rich, socially just, and compassionate learning environments for diverse middle level youth. To accomplish this goal, our program is designed to cultivate in teacher candidates the pedagogical skills, subject area understandings, and social conscience necessary to enact thoughtful teaching practice. We aim to prepare critical, creative educators who continually reflect on and inquire into their practices in order to further their own and their students' learning. Our teacher candidates develop a broad understanding of the contextual factors that impact the teaching, learning and growth of middle grade learners, including the ways in which society shapes our views of middle grades learners and the social, emotional, cognitive, spiritual, and physical dimensions of healthy adolescence. Through the integration of course work and field experiences, candidates learn about and apply interdisciplinary theories and practices that enable them to promote the intellectual curiosity, personal and academic excellence, and social and self-awareness of diverse middle level youth.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 100-110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses that require students to spend daytime hours in schools. In addition, the student must spend a minimum of 10 weeks in full-time student teaching.

Licensure

Illinois Professional Educator License with endorsement in Middle Grades Education (grades 5 - 8), an Illinois State Board of Education (ISBE) approved program.

Program Requirements	Quarter Hours
Degree Requirements	56
Total hours required	56

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative classrooms.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual understanding and disciplinary literacy.
- Plan and deliver instruction that demonstrates knowledge of young adolescent learners and content.
- Implement assessment practices to evaluate student learning and inform instruction.
- Exhibit professionalism, pursue professional growth, and advocate for young adolescent learners and their communities.
- Evaluate educational research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy
- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Each test has a state mandated timeline by which to pass the test. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 15 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements:

- Completion of all Education, Content Area, and Graduate level Content Area courses
- Overall cumulative G.P.A. of 3.00 or better
- Meet all other program requirements (e.g., residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test

Clinical Requirements:

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines:

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.

- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements must be passed one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the graduation application (degree conferral) process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for graduation (degree conferral), log on to Campus Connect. Select the Academic Progress tile, then apply for Graduation. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for graduation (degree conferral) for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website.

Licensure

Requirements for licensure include completion of the full licensure program and all licensure tests (including OPI for world

language majors). A bachelor's degree is required; a master's degree is not.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE.

Individuals seeking additional endorsements after applying for the license must contact ISBE directly for an evaluation request.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Degree Requirements

Content Area Prerequisites

Middle Grades Education teachers need to have a deep understanding of the content area they will teach in the middle grades. DePaul's program requires that students in the Middle Grades program have a minimum of 32 hours in their designated content area. Students should meet with their designated Content Area advisor at the beginning of their program for an official written content evaluation and provide a copy to their academic advisor. Requirements can be satisfied by undergraduate coursework or courses taken elsewhere. Content courses must be completed before student teaching.

Requirements for Content Area: 32 quarter hours required, grade of C or better required

A content area is a single area of study in language arts, math, science, or social science (cannot include coursework in Education).

- Eight content courses:
 - Language Arts
 - Introduction to Literature Course or a Survey of Literature Course

- Poetry course
- Grammar or Linguistics course
- Young adult, graphic novel, or advisor-approved course
- Diverse traditions or multicultural literature course
- Writing course
- Writing course, or advisor-approved course
- Teaching Language Arts in the Middle Grades course
- Mathematics
 - Introduction to Mathematics Reasoning course
 - Geometry course
 - History of math course
 - Probability and statistics course
 - Calculus course
 - Math modeling, Programming language, or advisor-approved course
 - Mathematics course (advisor-approved)
 - Mathematics course (advisor-approved)
- Science
 - General biology (life science) course
 - General chemistry (physical science) course
 - General Earth science (Earth/space science) course
 - General environmental science (Earth/space science) course
 - General physics (physical science) course
 - Science course (advisor-approved)
 - Science course (advisor-approved)
 - Science course (advisor-approved)
- Social Science
 - History course
 - Geography course
 - Civics/government course
 - Economics course
 - Social Science course (advisor-approved)
 - Social Science course (advisor-approved)
 - Social Science course (advisor-approved)
 - Social Science course (advisor-approved)

Introductory Courses: 26 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
MGE 400	INTRODUCTION TO MIDDLE GRADES EDUCATION	4
SCG 435	YOUNG ADOLESCENT DEVELOPMENT IN CONTEXT	4
MGE 401	LITERACY IN THE MIDDLE GRADES CONTENT AREAS I	4
BBE 450	ENGLISH LANGUAGE LEARNERS IN THE MIDDLE GRADES	4

English		
TCH 471	TEACHING ENGLISH IN THE MIDDLE GRADES AND HIGH SCHOOL 1	
TCH 481	TEACHING ENGLISH IN THE MIDDLE GRADES AND HIGH SCHOOL 2	
Math		
TCH 473	TEACHING MATHEMATICS IN THE MIDDLE GRADES AND HIGH SCHOOL 1	
TCH 483	TEACHING MATHEMATICS IN THE MIDDLE GRADES AND HIGH SCHOOL 2	
Science		
TCH 474	TEACHING THE SCIENCES IN THE MIDDLE GRADES AND HIGH SCHOOL 1	
TCH 484	TEACHING THE SCIENCES IN THE MIDDLE GRADES AND HIGH SCHOOL 2	
History/Social Science		
TCH 472	TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE MIDDLE GRADES AND HIGH SCHOOL 1	
TCH 482	TEACHING HISTORY AND THE SOCIAL SCIENCES IN THE MIDDLE GRADES AND HIGH SCHOOL 2	
MGE 481	SUPERVISED FIELD EXPERIENCE	1

Student Teaching: 8 quarter hours required

Registration in student teaching requires completion of all requirements and procedures listed in the college core section EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete.

Course	Title	Quarter Hours
MGE 590	STUDENT TEACHING (grade of B- or better required)	6
MGE 591	STUDENT TEACHING SEMINAR (grade of C or better required)	2
EDU 95	CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-tuition, PA grade required)	0

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. Middle Grades Education majors must complete the following tests:

- Content Area Test.
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education/ Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. All field experiences must be completed prior to final approval for student teaching. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Middle School Mathematics Education (MS)

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Students will be able to:

- Use knowledge of young adolescent learners to create safe, equitable, and meaningful learning environments and collaborative mathematics classrooms.
- Plan and deliver rigorous mathematics instruction appropriate for young adolescent learners.
- Demonstrate and apply disciplinary content and pedagogical content knowledge with an emphasis on developing students' conceptual and procedural understanding.
- Use visual, analytical, numerical, and verbal perspectives in the different content areas of mathematics in learning environments appropriate for young adolescence learners.
- Evaluate mathematics education research to support their understanding of teaching and learning and identify the theories that inform their teaching practices.

College Requirements**Dispositions**

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices

- Demonstrates a positive attitude and commitment to the profession
- Demonstrates thoughtful, effective verbal and non-verbal communication and listening skills
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates concern for and protection of safety and well-being of others

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Graduate students must be approved for student teaching and complete student teaching, seminar, and induction courses to be cleared for the degree. Student must submit graduation application for the quarter you are completing the final course (student teaching is considered a course).

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select FOR STUDENTS, then GRADUATION, then APPLY FOR DEGREE CONFERRAL. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors are not announced at the ceremony for undergraduates completing their final courses in spring quarter because a final GPA is not available at the time of the ceremony.

Additional information about degree conferral and graduation can be found on the College of Education website.

Degree Requirements

Our twelve-course (48 quarter-hour) program is designed for teachers licensed in grades K-8. The program will allow participants to meet the requirements for an endorsement in middle school mathematics. This is a cohort program with groups of teachers taking the same courses together in the same order. All courses are 4 credit hours and twelve courses are required.

Course Requirements

Required Courses: 48 quarter hours, grade of C or better required

Course	Title	Quarter Hours
MAT 600	EXPERIMENTATION, CONJECTURE, AND REASONING WITH NUMBERS	4
MMT 401	FOUNDATIONS OF MATHEMATICAL THINKING AND LEARNING IN THE MIDDLE SCHOOL	4

ANI 151	ADOBE ANIMATE WORKSHOP
GD 150	ILLUSTRATOR WORKSHOP
GD 151	PHOTOSHOP WORKSHOP

Museum Studies (Minor)

Museum Studies is an interdisciplinary endeavor that addresses the theory, organization, and management of museums and museum collections. Museums themselves are complex organizations within which a diversity of knowledge specialists work together to acquire, conserve, research, communicate and exhibit tangible and intangible evidence of people and their environment. The Museum Studies minor crosses the disciplines of Anthropology, History, and the History of Art & Architecture. The purpose of the minor is to provide students from diverse majors with knowledge about the role and function of museums in our lives as global citizens.

Interest in museums is at an all-time high as students and faculty as concerned with: (a) the role of museums in global tourism, urban economic development, multiculturalism and the creation of identities; (b) the developing importance of museums as sites of both research and employment; and (c) the way in which museums act as intersections among a broad range of academic disciplines. Additionally, as museums become more complex organizations, individuals seeking to work with or in these environments are increasingly expected to have formalized training in Museum Studies with transcript recognition of this training.

Course Requirements

Six courses are required – at least two of which must be from the Core and three-four from Electives (i.e., two Core + four Electives OR three Core + three Electives), with no more than two Electives from any one department:

Core

Course	Title	Quarter Hours
ANT 374	ANTHROPOLOGY AND MUSEUMS	4
HAA 391	THE EVOLVING MUSEUM: HISTORIES AND CONTEMPORARY CHALLENGES	4
HST 269	MUSEUMS, MATERIAL CULTURE AND MEMORY: INTRODUCTION TO PUBLIC HISTORY	4

Electives

No more than two from:

Course	Title	Quarter Hours
ANT 250	MATERIAL CULTURE OF MODERN AMERICA	

ANT 252	MATERIAL CULTURE AND DOMESTIC LIFE
ANT 256	MUSEUMS AND MATERIAL CULTURE
ANT 378	MUSEUM EDUCATION
ANT 380	INTERNSHIP IN ANTHROPOLOGY
ANT 382	HERITAGE DISPLAYS AND MUSEUMS

No more than two from:

Course	Title	Quarter Hours
HAA 200	SPECIAL TOPICS ON THE ART INSTITUTE	
HAA 291	MUSEUM AND NON-PROFIT ARTS MANAGEMENT	
HAA 394	MUSEUM STUDIES INTERNSHIP	
HAA 398	INDEPENDENT STUDY	
HAA 393	SPECIAL TOPICS IN MUSEUM STUDIES	

No more than two from:

Course	Title	Quarter Hours
HST 360	DOING DIGITAL HISTORY	
HST 382	CHICAGO HISTORY MUSEUM EXPERIENCE	
HST 389	TOPICS IN PUBLIC HISTORY	
HST 391	DOING LOCAL AND COMMUNITY HISTORY	
HST 392	PUBLIC HISTORY INTERNSHIP	
HST 396	ORAL HISTORY: MEMORY, METHOD AND PRACTICE	

Music (BA)

The Bachelor of Arts in Music degree is intended for students who wish to combine the study of music with liberal arts and sciences. In addition to music courses, the program is comprised of a broad range of liberal studies courses, along with a year of modern language. Students also take advanced courses in music, developing research skills, which culminate in a final project or paper. The Bachelor of Arts in Music degree prepares students for a variety of careers related to music.

Program Requirements	Quarter Hours
Music Core Requirements	63
Liberal Studies Requirements	76
Specialization Requirements	16
Supporting Fields	12
Electives	25
Total hours required	192

Program Specific Outcomes

Students will be able to:

- Articulate professional goals and knowledge of resources to further those goals.
- Express deepening knowledge of music and culture in both local and global contexts effectively through creative work, speaking, and writing.
- Conduct an independent creative or research project that integrates knowledge from multiple fields and makes use of library, oral/aural, textual, and primary source materials.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

Course	Title	Quarter Hours
Music Theory Sequence:		
MUS 110A	MUSIC THEORY I	2
MUS 120A	MUSIC THEORY II	2
MUS 130A	MUSIC THEORY III	2
MUS 212A	MUSIC THEORY IV ¹	2
To satisfy the remaining requirements in music theory, students should enroll in one of the following courses:		
MUS 222-A	MUSIC THEORY V - A ¹	2
MUS 222-B	MUSIC THEORY V - B ¹	2
MUS 222-C	MUSIC THEORY V - C ¹	2
And one of the following courses:		
MUS 232A	MUSIC THEORY VI-A: CONCEPTS AND MATERIALS IN CONTEMPORARY MUSIC ¹	2
MUS 232B	MUSIC THEORY VI-B: ANALYSIS OF MUSICAL FORM ¹	2
Musicology Sequence- Students should complete three of the following four classes to satisfy their musicology requirements:		
MUS 224	MUSIC, HISTORY, AND CULTURE I	4
MUS 225	MUSIC, HISTORY, AND CULTURE II	4
MUS 226	GLOBAL MUSIC CULTURES	4
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	4
Aural Training Sequence:		
MUS 111	AURAL TRAINING I	1
MUS 121	AURAL TRAINING II	1
MUS 131	AURAL TRAINING III	1
MUS 211	AURAL TRAINING IV ²	1
MUS 221	AURAL TRAINING V ²	1
MUS 231	AURAL TRAINING VI ²	1
Group Piano Sequence:		
MUS 113	GROUP PIANO I	1
MUS 123	GROUP PIANO II	1
MUS 133	GROUP PIANO III	1
MUS 213	GROUP PIANO IV ³	1
MUS 223	GROUP PIANO V ³	1
MUS 233	GROUP PIANO VI ³	1

¹ Students in the BM- Jazz Studies program are not required to take MUS 222a, MUS222b, MUS222c, or MUS 232a, MUS 232b

² Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

³ Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

⁴ Students in the BM-Jazz Studies program are not required to take MUS 323

Additional Courses

Course	Title	Quarter Hours
MUS 303	BASIC CONDUCTING PRACTICUM	0
MUS 304	BASIC CONDUCTING	4
MUS 323	MUSICOLOGY SEMINAR ⁴	2

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, audio technology track, does not require applied lessons.

Except for performance majors, students may enroll in additional applied credits, which will count toward music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 1 Course Required
- [1 CR Course or 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
- [1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Program Checkpoints

Students are admitted to a specialization at their enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Course Requirements

Course	Title	Quarter Hours
Specialization Courses		
One 4-credit Music Theory course chosen from MUS or COM 300-level or above		4
MUS 308	ANALYTICAL TECHNIQUES	
COM 305	ANALYTICAL STUDIES	
One 4-credit 300-level (or above) musicianship course beyond the music core courses (Music History, Musicology, Ethnomusicology)		4
One 4-credit Experiential Learning Requirement Course		4
MUS 395	SENIOR CAPSTONE SEMINAR	4
Ensembles		9
6 credits of Large Ensemble (in the 1st and 2nd years of the program)		
3 credits of any ensemble (in the 3rd or 4th year of the program)		
Electives		29
13 credits of Music Electives		
12 credits of non-music electives		
4 credits of free electives		
Supporting Fields		12
Select a Modern Language one year long sequence or its equivalent		

Music Education (BM)

The Bachelor of Music in music education degree prepares students to teach K-12 instrumental and vocal music. The program is comprised of a broad range of courses emphasizing both the theory and practice of music education, taught by a faculty of distinguished music educators. Throughout the junior year, students have the opportunity to refine their skills and knowledge through a partnership with a Chicago Public School. During the senior year, students work with master teachers throughout the Chicagoland area while student teaching. Upon graduation, students are eligible for Illinois music teacher certification.

Program Requirements	Quarter Hours
Music Core Requirements	71
Liberal Studies Requirements	52
Specialization Requirements	62
Electives	7
Total hours required	192

Learning Outcomes

Core Outcomes

Students will be able to:

- Perform solo and ensemble works with appropriate techniques and musicality.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.

- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Program Specific Outcomes

Students will be able to:

- Apply musical knowledge and skills, artistic expression, and contextual understanding to the development of instruction and assessment in instrumental, vocal, and general music contexts that demonstrate an understanding of child development and that enable students to engage in music through creating, responding, performing, and connecting.
- Apply pedagogical knowledge and skills appropriate to the teaching of music in a manner which demonstrates an understanding of the impact of diversity, gender equity, special needs, and socio-economic status on education..
- Utilize tools such as technology and alternative methods of teaching to enhance learning and professional growth.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

Course	Title	Quarter Hours
Music Theory Sequence:		
MUS 110A	MUSIC THEORY I	2
MUS 120A	MUSIC THEORY II	2
MUS 130A	MUSIC THEORY III	2
MUS 212A	MUSIC THEORY IV ¹	2
To satisfy the remaining requirements in music theory, students should enroll in one of the following courses:		
MUS 222-A	MUSIC THEORY V - A ¹	2
MUS 222-B	MUSIC THEORY V - B ¹	2
MUS 222-C	MUSIC THEORY V - C ¹	2
And one of the following courses:		
MUS 232A	MUSIC THEORY VI-A: CONCEPTS AND MATERIALS IN CONTEMPORARY MUSIC ¹	2
MUS 232B	MUSIC THEORY VI-B: ANALYSIS OF MUSICAL FORM ¹	2
Musicology Sequence- Students should complete three of the following four classes to satisfy their musicology requirements:		
MUS 224	MUSIC, HISTORY, AND CULTURE I	4
MUS 225	MUSIC, HISTORY, AND CULTURE II	4
MUS 226	GLOBAL MUSIC CULTURES	4
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	4
Aural Training Sequence:		
MUS 111	AURAL TRAINING I	1
MUS 121	AURAL TRAINING II	1
MUS 131	AURAL TRAINING III	1
MUS 211	AURAL TRAINING IV ²	1
MUS 221	AURAL TRAINING V ²	1
MUS 231	AURAL TRAINING VI ²	1

Group Piano Sequence:		
MUS 113	GROUP PIANO I	1
MUS 123	GROUP PIANO II	1
MUS 133	GROUP PIANO III	1
MUS 213	GROUP PIANO IV ³	1
MUS 223	GROUP PIANO V ³	1
MUS 233	GROUP PIANO VI ³	1

¹ Students in the BM- Jazz Studies program are not required to take MUS 222a, MUS222b, MUS222c, or MUS 232a, MUS 232b

² Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

³ Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

⁴ Students in the BM-Jazz Studies program are not required to take MUS 323

Additional Courses

Course	Title	Quarter Hours
MUS 303	BASIC CONDUCTING PRACTICUM	0
MUS 304	BASIC CONDUCTING	4
MUS 323	MUSICOLOGY SEMINAR ⁴	2

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, audio technology track, does not require applied lessons.

Except for performance majors, students may enroll in additional applied credits, which will count toward music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Liberal Studies Learning Domain Specifications

In the liberal studies learning domains, music education majors enroll in the following courses within the learning domains:

- LSE 380 fulfills the Philosophical Inquiry requirement
- PSC 120 fulfills Self, Society, & the Modern World
- One of the Historical Inquiry courses must be in U.S. History.

Music Education (MM)

The graduate music education program offers certified music teachers the opportunity to earn a master's degree in a little over two years with courses in the evenings and summers. Educational theory and practice merge throughout course work, and students have the flexibility to select elective areas of study. The program culminates with a final paper or project, allowing students to research an area of special interest.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes**Core Outcomes**

Students will be able to:

- Identify and analyze the elements of music in a given piece, and demonstrate an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical context.
- Demonstrate basic music research techniques and knowledge of standard reference tools and bibliographic sources, including the use of online databases.
- Develop effective writing skills for use in program notes, liner notes, abstracts, essays, or research papers.
- Develop an expanded global awareness and cultural understanding through musical study.
- Describe basic information about health and safety within the contexts of practice, performing, teaching, and listening; topics will include hearing, vocal, and musculoskeletal health and injury prevention.

Program Specific Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.
- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.
- Understand and synthesize historical and current music education issues and their impact on music teaching and learning grades K-12 and apply pedagogical knowledge and skills teaching across multiple contexts.
- Demonstrate acceptable musicianship knowledge and skills, including performance, music history and theory.
- Utilize qualitative, quantitative, historical and philosophical research procedures and practices, and be able to express ideas in writing.

Degree Requirements**Course Requirements**

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization.

Music Core Requirements (16 credits)

Course	Title	Quarter Hours
MUS 408	ANALYTICAL TECHNIQUES	4
or COM 405	ANALYTICAL STUDIES	
MUS 400	MUSIC RESEARCH	4
Select two Music History courses from the following:		8

JZZ 405	JAZZ HISTORY
MUS 420	HISTORY OF THE ORATORIO
MUS 435	18th & 19th WIND HISTORY AND LITERATURE
MUS 436	20th CENTURY WIND HISTORY AND LITERATURE
MUS 475	MEDIEVAL MUSIC
MUS 478	RENAISSANCE MUSIC
MUS 479	BAROQUE MUSIC
MUS 481	HISTORY OF OPERA
MUS 482	WORLD MUSIC CULTURES
MUS 484	CLASSICAL MUSIC
MUS 485	ROMANTIC MUSIC
MUS 486	MUSIC SINCE WORLD WAR II
MUS 487	20TH CENTURY MUSIC BEFORE WWII

Music Education Specialization (20 credits)

Course	Title	Quarter Hours
Music Education Seminars:		
MED 401	SEMINAR IN MUSIC EDUCATION I: PHILOSOPHY OF MUSIC EDUCATION	4
MED 402	SEMINAR IN MUSIC EDUCATION II: PSYCHOLOGY OF MUSIC TEACHING & LEARNING	4
MED 403	SEMINAR IN MUSIC EDUCATION III: CURRICULUM DEVELOPMENT IN MUSIC EDUCATION	4
MED 404	HISTORY OF MUSIC EDUCATION IN THE UNITED STATES	2
MED 498	MASTERS CANDIDATE RESEARCH	2
MED 492	TECHNIQUES OF RESEARCH IN MUSIC EDUCATION	4

Music Electives (12 credits)

Students may take any 400 level courses within the School of Music, selected in consultation with their advisors.

Terminal Requirements

Two terminal requirements are required of all students:

- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
- The completion of a final project.

Residency Requirements

All courses for the master's degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

The music education graduate program is designed to accommodate the schedule of working teachers, and students typically enroll part time for three summers and two intervening academic years. To earn full-time status, graduate students must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when

all deficiencies are removed and admission to the master's degree program has been granted.

Music Entrepreneurship Certificate

The Certificate in Music Entrepreneurship provides the needed foundation for students to become 21st century musicians, educators, and professionals in the field. It demonstrates the certificate holder's commitment to becoming a "holistic" musician, in artistry, preparation for the gig economy, and honing skills to become a portfolio musician. This Certificate has been designed to be an optional value add-on to all music student's undergraduate degrees, regardless of major. Students wishing to pursue a Certificate in Music Entrepreneurship must be undergraduate music students.

Course Requirements:

Course	Title	Quarter Hours
PAM 309	MUSIC ENTREPRENEURSHIP ¹	2
APM 315	THE BUSINESS OF MUSIC FROM THE PERFORMER'S PERSPECTIVE	2
MGT 270	INTRODUCTION TO ENTREPRENEURSHIP	4

¹ Students may also take APM 309, Music Entrepreneurship, as it is cross-listed with PAM 309 and is the same class.

Workshop Requirements

This Certificate requires that students attend four workshops through the School of Music Career Services. Workshops are offered once per quarter and topic examples include:

- The Freelancing Life: Networking, Booking Performances & Funding Your Projects
- Going Pro: How to Shift Your Thinking from Student to Professional Musician
- Putting Your Audience Center Stage
- Expand Your Inner Circle: Networking Your Way to Musical Success
- Wearing Many Musical Hats: Alternative Careers in Music
- Career Success Through Proactive Thinking

Degree Auditing

Students pursuing the Certificate in Music Entrepreneurship must apply for degree conferral in Campus Connect in advance of their final quarter in order to have their coursework audited for the awarding of their certificate.

Music Industry: Music Business (Minor)

The Music Business minor includes introductory music history and music theory courses as well as courses that are part of DePaul's Performing Arts Management program.

Course Requirements

Course	Title	Quarter Hours
MUS 107	GUIDE TO MUSIC THEORY	4
MUS 100	UNDERSTANDING MUSIC	4
or MUS 277	GUIDE TO MUSIC THEORY II	
REC 216	PRO TOOLS AND THE DEVELOPMENT OF THE RECORDING STUDIO	4
PAM 200	INTRODUCTION TO MUSIC BUSINESS	2
PAM 305	ARTIST MANAGEMENT IN COMMERCIAL MUSIC	2
Select one of the following:		4
MUS 102	COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS	
MUS 105	ROCK MUSIC-THE BEATLES: MUSIC, AESTHETICS AND CULTURE	
MUS 109	FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA	
MUS 108	ROCK MUSICS OF THE WORLD	
MUS 112	ROCK COMPOSITION	
MUS 140	MUSIC OF THE WORLD'S PEOPLE	
MUS 201	MUSIC OF THE UNITED STATES SINCE 1900	
MUS 202	WOMEN AND MUSIC	
MUS 203	CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA	
MUS 204	HISTORY OF THE BLUES	
MUS 205	THAT HIGH LONESOME SOUND: THE HISTORY OF BLUEGRASS MUSIC	
MUS 206	ITALIAN POPULAR SONGS IN CONTEXT: THEN AND NOW	
MUS 207	INTRODUCTION TO SONGWRITING	
MUS 208	COMMUNITY AUDIO ART PRODUCTION	
MUS 270	MUSIC FOR DANCE	
MUS 272	MUSIC AND VISUAL ART	
MUS 274	THE GOSPEL MUSIC TRADITION IN AMERICA	
MUS 278	JAZZ	
MUS 280	POPULAR MUSIC OF AFRICA	
MUS 281	OPERA	
MUS 282	LOVE SONGS	
MUS 284	CINEMATIC SOUNDS: THE ROLE OF MUSIC IN FILM	
MUS 306	PUNK ROCK THROUGH THE YEARS: ISSUES & AESTHETICS	
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	
REC 217	EDM AND THE ART OF ELECTRONIC MUSIC	
Select three of the following:		6
PAM 306	TECHNOLOGICAL TRENDS & DEVELOPMENTS IN THE MUSIC INDUSTRY	
PAM 307	LEGAL ISSUES IN THE MUSIC INDUSTRY	
PAM 308	MUSIC PUBLISHING	

PAM 309	MUSIC ENTREPRENEURSHIP
PAM 310	MUSIC FESTIVAL MANAGEMENT

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313.

Students majoring in Music are restricted from earning this minor.

Music Industry: Music Recording (Minor)

The Music Recording minor includes introductory music history and music theory courses as well as sound recording and commercial music production courses.

Course Requirements

Course	Title	Quarter Hours
MUS 107	GUIDE TO MUSIC THEORY	4
MUS 100	UNDERSTANDING MUSIC	4
or MUS 277	GUIDE TO MUSIC THEORY II	
REC 200	INTRODUCTION TO SOUND RECORDING TECHNOLOGY	2
REC 216	PRO TOOLS AND THE DEVELOPMENT OF THE RECORDING STUDIO	4
REC 307	COMMERCIAL MUSIC PRODUCTION	4
Select one of the following:		4
MUS 102	COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS	
MUS 105	ROCK MUSIC-THE BEATLES: MUSIC, AESTHETICS AND CULTURE	
MUS 108	ROCK MUSICS OF THE WORLD	
MUS 109	FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA	
MUS 112	ROCK COMPOSITION

MUS 204	HISTORY OF THE BLUES	
MUS 205	THAT HIGH LONESOME SOUND: THE HISTORY OF BLUEGRASS MUSIC	
MUS 206	ITALIAN POPULAR SONGS IN CONTEXT: THEN AND NOW	
MUS 207	INTRODUCTION TO SONGWRITING	
MUS 208	COMMUNITY AUDIO ART PRODUCTION	
MUS 270	MUSIC FOR DANCE	
MUS 272	MUSIC AND VISUAL ART	
MUS 274	THE GOSPEL MUSIC TRADITION IN AMERICA	

MUS 278	JAZZ
MUS 280	POPULAR MUSIC OF AFRICA
MUS 281	OPERA
MUS 282	LOVE SONGS
MUS 284	CINEMATIC SOUNDS: THE ROLE OF MUSIC IN FILM
MUS 305	MUSICAL ENCOUNTERS OF THE PORTUGUESE EMPIRE
MUS 306	PUNK ROCK THROUGH THE YEARS: ISSUES & AESTHETICS
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY
REC 209	ELECTRONICS FOR MUSICIANS
REC 217	EDM AND THE ART OF ELECTRONIC MUSIC

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313.

Students majoring in Music are restricted from earning this minor.

Music Performance (BM)

The Bachelor of Music in performance degree prepares students for careers in music, combining applied lessons on one's instrument with a variety of ensemble and performing experiences. Students also study literature, pedagogy, and other areas related to musical performance. The faculty is comprised of highly celebrated performers, who are committed to teaching excellence.

Program Requirements	Quarter Hours
Music Core Requirements	94-103
Liberal Studies Requirements	52
Specialization Requirements	50-69
Electives	9-24
Total hours required	192

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate a growing competence in technical aspects of performance, such as tone quality, pitch consistency, dynamic control, technical agility, accurate rhythmic concepts, and other skills particular to the area of specialization.
- Identify and analyze the elements of music in a given piece, including an understanding of its compositional processes, aesthetic properties, and artistic, social, and historical contexts for works in the Western music tradition, Contemporary periods, Jazz, and World Music Cultures.
- Demonstrate an appropriate level of aural, keyboard, and conducting skills.

Students will be able to:

- Develop an understanding of the pedagogical processes and theories that are foundational to performance practices and instruction on one's primary instrument.
- Demonstrate a growing maturity in musical concepts using tools of performance to create artistic products.
- Demonstrate increasing knowledge of repertoire and growing musical competence through participation in solo, chamber and large ensemble performances.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

Course	Title	Quarter Hours
--------	-------	---------------

Music Theory Sequence:

MUS 110A	MUSIC THEORY I	2
MUS 120A	MUSIC THEORY II	2
MUS 130A	MUSIC THEORY III	2
MUS 212A	MUSIC THEORY IV ¹	2

To satisfy the remaining requirements in music theory, students should enroll in one of the following courses:

MUS 222-A	MUSIC THEORY V - A ¹	2
MUS 222-B	MUSIC THEORY V - B ¹	2
MUS 222-C	MUSIC THEORY V - C ¹	2

And one of the following courses:

MUS 232A	MUSIC THEORY VI-A: CONCEPTS AND MATERIALS IN CONTEMPORARY MUSIC ¹	2
MUS 232B	MUSIC THEORY VI-B: ANALYSIS OF MUSICAL FORM ¹	2

Musicology Sequence- Students should complete three of the following four classes to satisfy their musicology requirements:

MUS 224	MUSIC, HISTORY, AND CULTURE I	4
MUS 225	MUSIC, HISTORY, AND CULTURE II	4
MUS 226	GLOBAL MUSIC CULTURES	4
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	4

Aural Training Sequence:

MUS 111	AURAL TRAINING I	1
MUS 121	AURAL TRAINING II	1
MUS 131	AURAL TRAINING III	1
MUS 211	AURAL TRAINING IV ²	1
MUS 221	AURAL TRAINING V ²	1
MUS 231	AURAL TRAINING VI ²	1

Group Piano Sequence:

MUS 113	GROUP PIANO I	1
MUS 123	GROUP PIANO II	1
MUS 133	GROUP PIANO III	1
MUS 213	GROUP PIANO IV ³	1
MUS 223	GROUP PIANO V ³	1
MUS 233	GROUP PIANO VI ³	1

¹ Students in the BM- Jazz Studies program are not required to take MUS 222a, MUS222b, MUS222c, or MUS 232a, MUS 232b

² Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

³ Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

⁴ Students in the BM-Jazz Studies program are not required to take MUS 323

Additional Courses

Course	Title	Quarter Hours
MUS 303	BASIC CONDUCTING PRACTICUM	0
MUS 304	BASIC CONDUCTING	4
MUS 323	MUSICOLOGY SEMINAR ⁴	2

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, audio technology track, does not require applied lessons.

Except for performance majors, students may enroll in additional applied credits, which will count toward music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 1 Course Required

Religious Dimensions (RD) (p. 1330)

- 1 Course Required

Scientific Inquiry (SI) (p. 1332)

- 1 SWK or 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Program Checkpoints

Undergraduate students in classical performance will perform a checkpoint audition at the end of their sophomore year. The student's applied instructor and/or area coordinator or director will give students specific information on content and required music. Successful completion of the checkpoint audition is required for continuation in the performance degree.

Course Requirements

- Applied lessons
- APM 205¹
- APM 305

Concentration Requirements

Additional requirements are determined by the specific performance track that students choose. Students must also complete the requirements from one of the following concentrations: Brass; Guitar; Percussion; Piano; String Bass; Violin, Viola, Cello; Voice; Woodwinds.

¹ Students in the Percussion concentration are not required to take APM 205.

Concentration Requirements

- Brass Concentration, Music Performance (BM) (p. 833)
- Guitar Concentration, Music Performance (BM) (p. 833)
- Percussion Concentration, Music Performance (BM) (p. 833)
- Piano Concentration, Music Performance (BM) (p. 833)
- String Bass Concentration, Music Performance (BM) (p. 834)
- Violin, Viola, Cello Concentration, Music Performance (BM) (p. 834)
- Voice Concentration, Music Performance (BM) (p. 834)
- Woodwinds Concentration, Music Performance (BM) (p. 835)

Music Performance (MM)

The Master of Music in performance degree prepares students for professional music careers in a supportive, collegial environment. Graduate students study with highly celebrated performers, who are committed to teaching excellence. The graduate performance program consists of applied lessons, ensembles, core studies in theory, history and research and related studies. The Master of Music degree is a two-year program.

Program Requirements	Quarter Hours
Degree Requirements	48
Total hours required	48

Learning Outcomes

Core Outcomes

Students will be able to:

- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.

- Develop an expanded global, historical, and cultural understanding of music through the in-depth study of musical elements, compositional processes, and aesthetic properties.
- Demonstrate basic music research techniques and apply knowledge of standard reference tools and bibliographic sources to the writing of a variety of professional and academic music texts.

Degree Requirements

Course Requirements

A minimum of 48 quarter hours of graduate credit is required for the Master of Music degree. This total is divided between the basic studies required of all master's degree students, and courses in the specialization.

Music Performance Core (16 credits)

Course	Title	Quarter Hours
MUS 408 or COM 405	ANALYTICAL TECHNIQUES ANALYTICAL STUDIES	4
MUS 400	MUSIC RESEARCH	4
Select two Music History courses from the following:		8
JZZ 405	JAZZ HISTORY	
MUS 420	HISTORY OF THE ORATORIO	
MUS 435	18th & 19th WIND HISTORY AND LITERATURE	
MUS 436	20th CENTURY WIND HISTORY AND LITERATURE	
MUS 475	MEDIEVAL MUSIC	
MUS 478	RENAISSANCE MUSIC	
MUS 479	BAROQUE MUSIC	
MUS 481	HISTORY OF OPERA	
MUS 482	WORLD MUSIC CULTURES	
MUS 484	CLASSICAL MUSIC	
MUS 485	ROMANTIC MUSIC	
MUS 486	MUSIC SINCE WORLD WAR II	
MUS 487	20TH CENTURY MUSIC BEFORE WWII	

Specializations

Brass Specialization (32 credits)

Course	Title	Quarter Hours

APM 447	ORCHESTRAL REPERTOIRE: PERCUSSION	
6 Quarters of Large Ensemble (0 credits each quarter)		0
6 Quarters of Percussion Ensemble (0 credits each quarter)		0
APM 405	GRADUATE RECITAL	0

Piano Specialization (32 credits)

Course	Title	Quarter Hours
Applied Piano Lessons		18
APM 461	PIANO LITERATURE	2
APM 442	COLLABORATIVE PIANO CLASS	2

Large or Chamber Ensemble (6 quarters, 1 credit each quarter) 6

Music Electives		4
APM 405	GRADUATE RECITAL	0

Strings Specialization (32 credits)

Course	Title	Quarter Hours
Applied Strings Lessons		18
APM 486	STRING PEDAGOGY	2
Orchestral Repertoire (take twice)		4
APM 429	ORCHESTRAL REPERTOIRE FOR STRINGS	
6 credits of Large Ensemble (1 credit each quarter)		6
6 quarters of Chamber Ensemble (0 credits each quarter)		0
Music Electives		2
APM 405	GRADUATE RECITAL	0

String Bass Specialization (32 credits)

Course	Title	Quarter Hours
Applied String Bass Lessons		18
APM 486	STRING PEDAGOGY	2
Orchestral Repertoire (take twice)		4
APM 429	ORCHESTRAL REPERTOIRE FOR STRINGS	
6 credits of Large Ensemble (1 credit each quarter)		6
Music Electives		2
APM 405	GRADUATE RECITAL	0

Voice Specialization (32 credits)

Course	Title	Quarter Hours
Applied Voice Lessons		18
Diction Sequence		3
APM 415	ITALIAN DICTION/LANGUAGE LAB	
APM 416	GERMAN DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS	
APM 417	FRENCH DICTION/LANGUAGE LAB FOR GRADUATE STUDENTS	
APM 400	OPERA WORKSHOP	2
APM 453	ADVANCED TECHNIQUES OF THE MUSIC STAGE	2
APM 496	VOICE PEDAGOGY	2
3 credits of Large Ensemble (1 each quarter)		3
Music Electives		2
APM 405	GRADUATE RECITAL	0

Woodwinds Specialization (32 credits)

Course	Title	Quarter Hours
Applied Woodwinds Lessons		18
APM 411	WOODWIND PEDAGOGY	2
Orchestral Repertoire Sequence:		
APM 428	ORCHESTRAL REPERTOIRE FOR WOODWINDS I: LITERATURE PERFORMANCE	2

APM 433	WOODWIND ORCHESTRAL REPERTOIRE II: AUDITION PREPARATION	2
6 credits of Large Ensemble (1 credit each quarter)		6
3 quarters of Chamber Ensemble (2 quarters for 1 credit, 1 quarter for 0 credit)		2
APM 405	GRADUATE RECITAL	0

Terminal Requirements

- Two terminal requirements are required of all students:
- A written comprehensive examination, in which the students must demonstrate a satisfactory knowledge of their major field of study. The comprehensive examination may be taken at any time after 32 quarter hours of graduate credit have been earned.
 - The presentation of a public recital.

While preparation of the terminal requirement in the major may take place within some course or activity for which a student is registered for credit, additional academic credit is not granted for the project itself.

Residency Requirements

All courses for the master’s degree must be taken at DePaul University. Graduate credit for courses completed at other institutions may not be applied toward the degree.

To retain full-time status, a graduate student must be registered for a minimum of six quarter hours in any term. All requirements for the degree must be completed within six calendar years from the time a student is first enrolled. For students removing deficiencies, this period will begin when all deficiencies are removed and admission to the master’s degree program has been granted.

Music Studies (Minor)

The Music Studies minor includes an introduction to music history course and a music theory course alongside four courses in the School of Music that are part of the Arts and Literature Domain, including topics such as rock music, world music and songwriting.

Course Requirements

Course	Title	Quarter Hours
MUS 107	GUIDE TO MUSIC THEORY	4
MUS 100	UNDERSTANDING MUSIC	4
or MUS 277	GUIDE TO MUSIC THEORY II	
Select two of the following:		8
MUS 102	COMPOSITION AND SOUND ART FOR NON-MUSIC MAJORS	
MUS 105	ROCK MUSIC-THE BEATLES: MUSIC,AESTHETICS AND CULTURE	
MUS 108	ROCK MUSICS OF THE WORLD	
MUS 109	FROM WAGNER TO YOUTUBE: THE WEDDING OF MUSIC AND DRAMA	
MUS 112	ROCK COMPOSITION	
MUS 140	MUSIC OF THE WORLD'S PEOPLE	
Select two of the following:		8
MUS 201	MUSIC OF THE UNITED STATES SINCE 1900	

MUS 202	WOMEN AND MUSIC
MUS 203	CONTEMPORARY MUSICAL IMPROVISATION: SCRATCH ORCHESTRA
MUS 204	HISTORY OF THE BLUES
MUS 205	THAT HIGH LONESOME SOUND: THE HISTORY OF BLUEGRASS MUSIC
MUS 206	ITALIAN POPULAR SONGS IN CONTEXT: THEN AND NOW
MUS 207	INTRODUCTION TO SONGWRITING
MUS 270	MUSIC FOR DANCE
MUS 272	MUSIC AND VISUAL ART
MUS 278	JAZZ
MUS 280	POPULAR MUSIC OF AFRICA
MUS 281	OPERA
MUS 282	LOVE SONGS
MUS 283	INTRODUCTION TO LYRIC WRITING
MUS 284	CINEMATIC SOUNDS: THE ROLE OF MUSIC IN FILM
MUS 305	MUSICAL ENCOUNTERS OF THE PORTUGUESE EMPIRE
REC 217	EDM AND THE ART OF ELECTRONIC MUSIC

Additional Courses

A maximum of six ensemble credits may be applied to the additional courses requirement. In addition, credit will be given for musicianship courses taken as a former music major.

Students who take both MUS 107 and MUS 277 are eligible to take COM 313.

Students majoring in Music are restricted from earning this minor.

Network Engineering and Security (BS)

The BS in Network Engineering and Security focuses on the theory and practice of designing, deploying and managing both wired and wireless networks technologies, including broadband Internet access technologies, interconnection technologies, network convergence, and network security.

Program Requirements	Quarter Hours
Liberal Studies Requirement	76
Major Requirements	84
Open Electives	32
Total hours required	192

Learning Outcomes

- Students will be able to:
- Describe and demonstrate how data packets are addressed and forwarded through switches, routers, and firewalls.
 - Compare and contrast different wide-area network (WAN) technologies to support enterprise network requirements.

- Compare and configure internal gateway routing protocols (RIP, OSPF, EIGRP) that dynamically determine data paths through networks with unreliable components.
- Define and allocate IPv4 and IPv6 address subnets to satisfy network requirements.
- Describe and contrast techniques for making use of multiple redundant paths in switched and routed networks.
- Implement firewall technologies to enforce a given access policy and assess its efficiency.
- Identify and analyze security threats in network implementations, propose remedies and prioritize action plans.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
NET 376	NETWORK PROJECT (FORMERLY TDC 376)	4

¹ Students must earn a C- or better.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required (See Note Below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required (See Note Below)

Scientific Inquiry (SI) (p. 1332)

- 1 Lab Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Students must take one of the following ethics courses:

Course	Title	Quarter Hours
CSC 208	ETHICS IN TECHNOLOGY (PI)	4
IT 228	ETHICS IN COMPUTER GAMES AND CINEMA (PI)	4
PHL/MGT 248	BUSINESS ETHICS (PI)	4
REL/MGT 228	BUSINESS, ETHICS AND SOCIETY (RD)	4

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
CMNS 212	EFFECTIVE COMMUNICATION IN TEAMS AND SMALL GROUPS	4
or CMN 104	PUBLIC SPEAKING

WRD 204	TECHNICAL WRITING	4
Select eight (8) credit hours of Major Field Electives ¹		8

¹ Major Electives can be chosen from any 300-level NET or CSEC courses. Students must earn a grade of C- or higher in all major elective courses.

Open Electives

Open Elective credit hours are required to meet the minimum graduation requirements of 192 hours. Open Electives may be taken from any unit at DePaul.

See www.cdm.depaul.edu (<http://www.cdm.depaul.edu>) to see sample schedule of course requirements on a year-by-year basis.

Degree Requirements

Students in this degree must meet the following requirements:

- Complete a minimum of 192 credit hours (generally 48 courses)
- Earn a grade of C- or higher in WRD 103, WRD 104, and all Major and Minor courses
- Earn a grade of D or higher in all other Liberal Studies and Open Elective courses
- Maintain a cumulative GPA of 2.0 or higher

Network Engineering and Security (BS), Combined Bachelor's + Master's Degree

The combined Bachelor's/Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

Students who meet the admission requirements below may choose to apply to a combined degree program. Interested students should consult their faculty advisor regarding the application procedure. This program allows students to combine many CDM bachelor's degrees with a CDM master's degree following the structure outlined below.

Admission Criteria

- Minimum of 44 quarter hours earned
- Minimum of 12 quarter hours earned at DePaul

- GPA of 3.3 or higher in courses taken at DePaul
- Full admission to the designated master's program requires meeting admission requirements (<https://www.cdm.depaul.edu/Admission-and-Aid/Pages/Grad-Program-Requirements.aspx>) for that program
- Faculty endorsement from a CDM full-time faculty member

Students should discuss their interest in a CDM combined degree program with a CDM faculty advisor. Before admission to the degree, students should work with the faculty advisor to identify a course plan for the combined degree program, including the list of courses to take and how the courses will be applied toward both the undergraduate and graduate degrees. Non-CDM students can email the CDM advising office (advising@cdm.depaul.edu) if interested in a combined degree with a CDM master's degree.

If you are currently a CDM student and interested in combining your CDM bachelor's degree with a non-CDM graduate degree, please contact the respective college for admission and application procedures.

Students enrolled in the Bachelor of Arts in Computing or the Bachelor of Arts in Professional Studies with a major in Computing (<https://www.cdm.depaul.edu/academics/Pages/BA-Computing.aspx>) joint degree programs between CDM and the School of Continuing and Professional Studies are eligible for this program. Interested students who meet the admission criteria for a combined degree should contact SCPS Academic Services (scpsadvising@depaul.edu) for more information. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Program Structure

Students in the combined degree program take a maximum of three (3) graduate level courses that count toward both their bachelor's and master's degree requirements. Students may enroll in graduate level coursework in the junior and senior year only. Students in the combined degree program will receive the bachelor's degree after meeting all graduation requirements including the minimum credit hours required for graduation.

To earn the master's degree, the student must earn as many additional graduate credit hours as needed to reach the minimum number of graduate credit hours required in that master's degree.

Only CDM courses can be taken as part of this program. Advanced programs (e.g., JD/MS, MFA, and PhD) are not eligible for the combined degree program.

Maintaining Good Standing

Cumulative GPA and course grades will be reviewed after each Autumn, Winter, and Spring Quarter.

The student and faculty advisor will be notified when the student's cumulative GPA falls below 3.3 or when the students receives less than a C- in graduate level course.

If a student's cumulative GPA falls below 3.3, the student must earn a term GPA of 3.3 or above in the following quarter to stay in good standing. If the student does not achieve a 3.3 term GPA, then the student will be dismissed from the combined program and resume the traditional B.A./B.S./B.F.A.

If dismissed from the combined degree program after graduate courses have been passed, the graduate courses may only apply to the undergraduate degree. Should the student later be admitted to a graduate program, graduate courses applied to the undergraduate degree may not apply to the graduate program and may not be repeated if they are required in the declared graduate curriculum. Other graduate courses may be substituted in this case.

Designing a Course of Study

It is extremely important that the student and faculty advisor work together on a course of study immediately upon admission to the Combined Degree Program.

This course of study should include the graduate courses to be taken and the undergraduate courses that are replaced by the graduate courses. Failure to put together a solid plan can lead to extra coursework and a lengthening of the Combined Degree program.

It is advisable for the student and the faculty advisor to enter the proposed plan of study in the student communication record in BlueStar so it is available to the student and CDM faculty and staff.

Registering for Master's Degree Courses

Combined degree students must meet regularly with their faculty advisor. The faculty advisor will initiate the registration process for all graduate level courses taken during the undergraduate career.

Bachelor's Degree to Master's Degree Transition

In order to be fully admitted to the designated master's program, the student must meet all admission requirements for that program. When preparing to complete the undergraduate portion of the combined degree, students must submit the application for degree conferral for the undergraduate degree by the application deadline. At this time, the students should contact the CDM Academic Success Center about the procedure required to be formally admitted to the declared graduate program.

Network Engineering and Security (MS)

Program Requirements	Quarter Hours
Introductory Courses	0-16
Degree Requirements	48
Total hours required	48-64

Learning Outcomes

Students will be able to:

- Describe the operations and metrics of Border Gateway Protocol (BGP) routing, including the BGP path selection process.
- Contrast IPv6 and IPv4 routing, including protocol headers, routing protocols, subnetting, tunneling and translation mechanisms.
- Describe and compare Quality of Service (QoS) techniques for providing differentiated treatment of Voice over IP (VoIP) and data packet flows.
- Design a fault-tolerant network and identity protocols to implement and manage these networks.

- Explain methods used for authentication and integrity in public-key encryptions systems, including digital signatures and PKI.
- Explain and demonstrate the operations of an Intrusion Detection System (IDS), including writing IDS rules.

Degree Requirements

Course Requirements

No Introductory Course may be substituted for any other course at any level.

Introductory Courses

Introductory courses may be waived for any of the following conditions:

- The student has the appropriate course work to satisfy an Introductory Course.
- The student has appropriate and verified professional experience to satisfy an Introductory Course.
- If an exam is available, the student passes a Graduate Assessment Examination (GAE) in the Introductory Course area.

Course	Title	Quarter Hours
NET 405	NETWORK FUNDAMENTALS (FORMERLY TDC 405)	4
NET 411	INTRODUCTION TO COMPUTER AND NETWORK SYSTEMS (FORMERLY TDC 411)	4
NET 413	INTRODUCTION TO LAN TECHNOLOGIES (FORMERLY TDC 413)	4
CSEC 418	INTRODUCTION TO HOST SECURITY (FORMERLY CNS 418)	4

Foundation Courses

Course	Title	Quarter Hours
NET 460	FOUNDATIONS OF NETWORK TECHNOLOGIES (FORMERLY TDC 460)	4
NET 463	COMPUTER NETWORKS AND DATA SYSTEMS (FORMERLY TDC 463)	4
NET 477	NETWORK SECURITY (FORMERLY TDC 477)	4
CSEC 440	INFORMATION SECURITY MANAGEMENT (FORMERLY CNS 440)	4
CSEC 450	DIGITAL FORENSIC TECHNIQUES (FORMERLY CNS 450)	4

Students who have not completed the Foundation Courses can register for a maximum of four (4) Advanced Courses.

Advanced Courses

Course	Title	Quarter Hours
NET 560	ADVANCED NETWORK TECHNOLOGIES AND DESIGN (FORMERLY TDC 560)	4
NET 563	PROTOCOLS AND TECHNIQUES FOR DATA NETWORKS (FORMERLY TDC 563)	4
NET 577	NETWORK SECURITY II (FORMERLY TDC 577)	4

Major Elective Courses

Students must complete eight (8) credit hours of Major Elective Courses, typically two 4-credit hour courses. Major Elective Courses must be in the range of 420-599 and must be chosen from NET or CSEC courses.

CDM Open Elective Courses

Students must complete four (4) credit hours of CDM Open Elective Course. The Open Elective must be in the range of 420-699 and must be chosen from CSC, CSE, CSEC, NET, SE, IS, ECT, IT, PM, IPD, HIT, HCI, or GAM courses. The Open Elective must not have been otherwise used to satisfy degree requirements. Credit for courses taken outside of the school will only be given if approved by a faculty advisor.

Capstone

Course	Title	Quarter Hours
NET 594	NETWORK CAPSTONE (FORMERLY TDC 594)	4
or CSEC 594	COMPUTER INFORMATION AND NETWORK SECURITY CAPSTONE (FORMERLY CNS 594)	

Degree Requirements

Students in this degree program must meet the following requirements:

- Complete a minimum of 48 graduate credit hours in addition to any required introductory courses of the designated degree program.
- Complete all graduate courses and requirements listed in the designated degree program.
- Earn an average GPA of 3.0 or better in the five Foundation Courses.
- Earn a grade of C- or better in all courses of the designated degree program.
- Maintain a cumulative GPA of 2.5 or higher.
- Students pursuing a second (or more) graduate degree may not double count or retake any course that applied toward the completion of a prior graduate degree. If a required course in the second degree was already completed and applied toward a previous degree, the student must meet with a faculty advisor to discuss a new course to be completed and substituted in the new degree. This rule also applies to cross-listed courses, which are considered to be the same courses, but offered under different subjects.
- Students pursuing a second master's degree must complete a minimum of 48 graduate credit hours beyond their first designated degree program in addition to any required introductory courses in their second designated degree program.

Students with a GPA of 3.9 or higher will graduate with distinction.

For DePaul's policy on repeat graduate courses and a complete list of academic policies see the DePaul Graduate Handbook.

NET 365	NETWORK INTERCONNECTION TECHNOLOGIES (FORMERLY TDC 365)	4
NET 372	WAN SERVICES (FORMERLY TDC 372)	4

Neuroscience (BS)

Neuroscience is an interdisciplinary major that incorporates existing courses from the natural, computational, and social sciences, as well as specific courses unique to the field of Neuroscience. Neuroscience has quickly become one of the fastest growing areas of study in both the natural and behavioral sciences. Its multidisciplinary nature attracts individuals not just from biology and psychology disciplines, but also from fields such as philosophy, anthropology, economics, mathematics and computer science.

Neuroscience majors are interested in studying the brain and nervous system in multiple ways. They consider fundamental concepts that underlie the function of the nervous system on a cellular and molecular level, how the nervous system produces behavior and cognition, and the role of computer science and mathematics in new technologies and therapies in neuroscience. Additionally, Neuroscience majors can apply their knowledge of the nervous system to human health and disease, as well as public health, philosophy, law, business, computer science, and related fields.

Program Requirements	Quarter Hours
Liberal Studies Requirements	68
Major Core Requirements	48
Major Electives	24-36
Concentration Requirements	12-24
Open Electives	28
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe how the cellular and systems level structure of the nervous system is responsible for neurological function, behavior, and cognition.
- Critically evaluate scientific literature in order to communicate core concepts in a clear and organized manner both verbally and in writing.

- Design and analyze scientific experiments.
- Explain challenges surrounding ethical thinking posed by advancements in neuroscience.
- Relate neuroscience content to other scientific and non-scientific disciplines.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool

described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
NEU 390	NEUROSCIENCE CAPSTONE ¹	4

¹ Students must earn a C- or better.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required
(See Note Below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required
(See Note Below)

Scientific Inquiry (SI) (p. 1332)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required

Notes

Students must complete one approved ethics course from the following:

Course	Title	Quarter Hours
CSC 208	ETHICS IN TECHNOLOGY	4
HLTH 229	ETHICS FOR HEALTH SCIENCES	4
PHL 200	ETHICAL THEORIES	4
PHL 230	CONTEMPORARY TOPICS IN ETHICS	4
PHL 228	NEUROETHICS	4
PHL 229	BIOMEDICAL ETHICS	4
REL 229	MEDICINE, ETHICS AND SOCIETY	4

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Core Requirements

Course	Title	Quarter Hours
BIO 191	GENERAL BIOLOGY I FOR SCIENCE MAJORS	4
BIO 192	GENERAL BIOLOGY II FOR SCIENCE MAJORS	4

CHE 134 & CHE 135	GENERAL CHEMISTRY III and GENERAL CHEMISTRY LABORATORY III	4
PSY 105	INTRODUCTORY PSYCHOLOGY I	4
PSY 106	INTRODUCTORY PSYCHOLOGY II	4
NEU 201	INTRODUCTION TO NEUROSCIENCE	4
NEU 202	ADVANCED NEUROSCIENCE FUNDAMENTALS	4
NEU 280	RESEARCH METHODS IN NEUROSCIENCE	4
NEU 390	NEUROSCIENCE CAPSTONE	4
Select one of the following:		4
BIO 206	BIOSTATISTICS	

PSY 240	STATISTICS I
IT 223	DATA ANALYSIS
MAT 242	ELEMENTS OF STATISTICS

Major Electives

Choose between 6 to 9 major electives (24 to 36 quarter hours) depending on the selected concentration. Please refer to concentration page for required number of major electives. If a course is listed as a concentration requirement, it cannot double count as a major elective as well.

Course	Title	Quarter Hours
NEU 228	NEUROETHICS	4
NEU 256	INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE	4
NEU 310	SEMINAR IN NEUROPSYCHOPHARMACOLOGY	4
NEU 339 or BIO 339	CELLULAR NEUROBIOLOGY	4
NEU 350	SENSORY NEUROSCIENCE	4
NEU 351	NEUROSCIENCE OF MOVEMENT	4
NEU 360	CONVERSATIONS WITH NEUROSCIENTISTS	4
NEU 380	SPECIAL TOPIC IN NEUROSCIENCE	4
NEU 399	INDEPENDENT STUDY IN NEUROSCIENCE	2-4
BIO 201	HUMAN ANATOMY	4
BIO 210	MICROBIOLOGY	4
BIO 220	BIOTECHNOLOGY	4
BIO 250	CELL BIOLOGY	4
BIO 260	GENETICS	4
BIO 301	ANIMAL BEHAVIOR	4
BIO 307 or BIO 308	ANIMAL PHYSIOLOGY	4
or HLTH 301	HUMAN PHYSIOLOGY	
or HLTH 301	INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A	
BIO 330	DEVELOPMENTAL BIOLOGY	4
BIO 340	BEHAVIORAL NEUROSCIENCE	4
BIO 341	TOPICS IN NEUROBIOLOGY	4
BIO 342	COGNITIVE NEUROSCIENCE	4
or PSY 379	COGNITIVE NEUROSCIENCE	
BIO 360	MOLECULAR BIOLOGY	4
BIO 375	INTRODUCTION TO PHARMACOLOGY	4
or HLTH 375	INTRODUCTION TO PHARMACOLOGY	
BIO 386	ENDOCRINOLOGY	4
CHE 230 & CHE 231	ORGANIC CHEMISTRY I and ORGANIC CHEMISTRY LABORATORY I	4
CHE 232 & CHE 233	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY II	4
CHE 234 & CHE 235	ORGANIC CHEMISTRY III and ORGANIC CHEMISTRY LABORATORY III	4
CHE 340 & CHE 341	BIOCHEMISTRY I and EXPERIMENTAL BIOCHEMISTRY I	4
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	4

CSC 250	COMPUTERS AND HUMAN INTELLIGENCE	4
CSC 381	INTRODUCTION TO DIGITAL IMAGE PROCESSING	4
DSC 341	FOUNDATIONS OF DATA SCIENCE	4
HLTH 302	INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-B	4
PHY 150 or PHY 170	GENERAL PHYSICS I UNIVERSITY PHYSICS I	4
PHY 151 or PHY 171	GENERAL PHYSICS II UNIVERSITY PHYSICS II	4
PHY 152 or PHY 172	GENERAL PHYSICS III UNIVERSITY PHYSICS III	4
PSY 303	HUMAN DEVELOPMENT	4
PSY 348	SOCIAL COGNITION	4
PSY 353	INTRODUCTION TO PSYCHOPATHOLOGY AND CLINICAL SCIENCE	
PSY 364	HEALTH PSYCHOLOGY	4
PSY 366	BEHAVIOR PROBLEMS OF CHILDREN	4
PSY 370	SOCIAL AND EMOTIONAL DEVELOPMENT	4

For students interested in applying to professional health programs that require Anatomy and Physiology, we recommend choosing from the combination of BIO 201 and BIO 308 or HLTH 301 and HLTH 302.

Concentration Requirements

Students must also complete the requirements from one concentration: Behavioral/Cognitive Neuroscience; Cellular/Molecular Neuroscience; Computational Neuroscience; Integrative Neuroscience. Students are limited to only declaring one concentration.

Students are advised to talk with their advisor before double majoring ~~because some major combinations are prohibited.~~ No more than 50% of the credits that apply to one major may be drawn from another major.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following concentrations:

- Behavioral/Cognitive Neuroscience Concentration, Neuroscience (BS) (p. 845)
- Cellular/Molecular Neuroscience Concentration, Neuroscience (BS) (p. 845)
- Computational Neuroscience Concentration, Neuroscience (BS) (p. 845)
- Integrative Neuroscience Concentration, Neuroscience (BS) (p. 846)

Behavioral/Cognitive Neuroscience Concentration, Neuroscience (BS)

This concentration is for students who are interested in understanding how the nervous system is involved in behaviors such as: sensation/perception, movement, and cognitive functioning which includes learning, memory and emotion.

Course Requirements

Course	Title	Quarter Hours
NEU 339 or BIO 339	CELLULAR NEUROBIOLOGY CELLULAR NEUROBIOLOGY	4
BIO 307 or BIO 308 or HLTH 301	ANIMAL PHYSIOLOGY HUMAN PHYSIOLOGY INTEGRATED HUMAN ANATOMY AND PHYSIOLOGY-A	4
BIO 342 or PSY 379	COGNITIVE NEUROSCIENCE COGNITIVE NEUROSCIENCE	4
PSY 360	THEORIES OF LEARNING AND COGNITION	4
NEU 350	SENSORY NEUROSCIENCE	4
NEU 351	NEUROSCIENCE OF MOVEMENT	4

In addition, students in the Behavioral/Cognitive Neuroscience Concentration will be required to choose 6 (24 Quarter Hours) Major Electives, and have 7 (28 Quarter Hours) Open Electives.

Cellular/Molecular Neuroscience Concentration, Neuroscience (BS)

This concentration is for students who are interested in the cellular and molecular mechanisms that are involved in the functioning of the nervous system and how they relate to the creation of behavior, or play a role in disease.

Course Requirements

Course	Title	Quarter Hours
NEU 339 or BIO 339	CELLULAR NEUROBIOLOGY CELLULAR NEUROBIOLOGY	4
BIO 250	CELL BIOLOGY	4
BIO 260	GENETICS	4
BIO 360	MOLECULAR BIOLOGY	4
Choose one of the following:		4
NEU 350	SENSORY NEUROSCIENCE	
NEU 351	NEUROSCIENCE OF MOVEMENT	
BIO 340	BEHAVIORAL NEUROSCIENCE	

In addition, students in the Cellular/Molecular Neuroscience Concentration will be required to choose 7 (28 Quarter Hours) Major Electives and have 7 (28 Quarter Hours) Open Electives.

Computational Neuroscience Concentration, Neuroscience (BS)

This concentration is for students who are interested in quantitative and computational modeling methods to understand the functions of the nervous system and behavior and/or in the design of human-made devices that duplicate nervous system functioning.

Course Requirements

Course	Title	Quarter Hours
MAT 150	CALCULUS I	4
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	4
CSC 250	COMPUTERS AND HUMAN INTELLIGENCE	4
DSC 341	FOUNDATIONS OF DATA SCIENCE	4
CSC 381	INTRODUCTION TO DIGITAL IMAGE PROCESSING	4
NEU 256	INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE	4

In addition, students in the Computational Neuroscience Concentration will be required to choose 6 (24 Quarter Hours) Major Electives and have 7 (28 Quarter Hours) Open Electives.

Integrative Neuroscience Concentration, Neuroscience (BS)

This concentration is for students who would like a more integrative approach which includes multiple sub-disciplines of neuroscience in their curriculum. This concentration is also good for students who are undecided, switch majors, transfer in with credits, are pursuing a professional or graduate program with defined prerequisites, or have an ongoing curriculum that makes it difficult to fulfill requirements of the other concentrations.

Course Requirements

Course	Title	Quarter Hours
Select three courses from the following:		12
NEU 339 or BIO 339	CELLULAR NEUROBIOLOGY	
NEU 350	SENSORY NEUROSCIENCE	
NEU 351	NEUROSCIENCE OF MOVEMENT	
BIO 342 or PSY 379	COGNITIVE NEUROSCIENCE	
NEU 256	INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE	

In addition, students in the Integrative Concentration will be required to choose 9 (36 Quarter Hours) Major Electives and have 7 (28 Quarter Hours) Open Electives.

Nonprofit Management (BA)

The Bachelor of Arts in Nonprofit Management from the School of Continuing and Professional Studies (SCPS) builds knowledge and skills for application in nonprofit settings, especially within administrative, supervisory and managerial positions. This program intentionally helps students to integrate liberal arts learning, inquiry and critical thinking skills, with a professional specialization. In this program, students have the opportunity to earn credit from prior learning from experience.

This major advances students' foundational management knowledge and skills in a range of areas critical to nonprofit organization, especially project management, program development and evaluation, fundraising, human resources, risk management, leadership, workplace law, , ethical

conduct, data analytics, finance and professional communications. With a range of courses in the major offered as electives, students may choose courses and specialize in areas of particular interest to them.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and **special adult student tuition pricing**
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Program Requirements	Quarter Hours
College Core Requirements	78
Major Requirements	72
Open Electives	42
Total hours required	192

Learning Outcomes

Students will be able to:

- Analyze and apply knowledge and theories of nonprofit management and change to real world problems within a nonprofit context
- Apply ethical principles in context
- Investigate problems using qualitative and quantitative methods.
- Apply various methods of communication to multiple settings
- Analyze data and apply skills for effective decision-making in nonprofit organizations
- Analyze and apply different liberal arts perspectives to nonprofit management

College Core (78 credits, 20 credits in residence)

Lifelong Learning Requirements (32 credits, 16 credits in residence)

Course	Title	Quarter Hours
LL 201 or RPL 101	REFLECTIVE LEARNING ¹ PRIOR LEARNING ASSESSMENT	2
LL 305	ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD	4
LL 205 or LL 206	QUANTITATIVE REASONING ADVANCED MATH FOR PROFESSIONAL STUDIES	4

CREATIVITY OR INNOVATION, courses with the PSCI requirement designation. Choose one of the following:		
CCA 170	CREATIVITY AND ENTREPRENEURSHIP	2
DCM 319	CREATIVITY AND INNOVATIVE THINKING	
GLOBAL PERSPECTIVES, courses with the PSGP requirement designation. Choose one of the following:		
CCH 239	BUSINESS, TECHNOLOGY AND OUR GLOBAL FUTURE	4
CCH 283	GLOBAL PERSPECTIVES OF WORK & FAMILY	4
CCH 300	GLOBALIZATION AND PROFESSIONAL PRACTICE	4
CAPSTONE PROJECT		
LL 303	CAPSTONE PROJECT ¹	6

¹ Must be completed in residence.

Nonprofit Management Core (40 credits)

Course	Title	Quarter Hours
DA 200	DATA ANALYTICS	4
BADM 223	ACCOUNTING AND FINANCE PRINCIPLES	4
DCM 301	EFFECTIVE LEADERSHIP IN A CHANGING PROFESSIONAL ENVIRONMENT	4
BADM 335	RISK MANAGEMENT IN THE WORKPLACE	4
PPS 308		4
PPS 318	PROGRAM DEVELOPMENT AND EVALUATION NONPROFIT ORGANIZATIONS	4
PPS 319	FUNDRAISING FOR NONPROFIT ORGANIZATIONS	4
PPS 322	FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT	4
PPS 329	STRATEGIC MANAGEMENT AND PLANNING	4
PPS 346	ADVOCACY AND LOBBYING	4

Nonprofit Management Major Electives (12 credits)

Students are encouraged to use their major elective credits to complete a thematic cluster of courses relevant to their professional goals. For example, they may wish to create a cluster relevant to the type of nonprofit they currently work for or wish to pursue. For example, students who intend to work for nonprofit organizations focusing on environmental issues, might want to take environmental studies courses.

Those who intend to work for health organizations might want to take courses concerning public health. Students can also develop a cluster around serving certain communities such as Latino, African American or LGBTQ Studies. Students also have the option of taking additional courses related to nonprofit management for their major electives.

Students should work with their academic advisors to identify an appropriate cluster theme and apply the courses to their major electives and open electives. Thematic clusters can be completed through DePaul courses, transfer courses or Prior Learning Assessment (PLA). The course list below are some major elective options.

Course	Title	Quarter Hours
ABD 100	INTRODUCTION TO AFRICAN AND BLACK DIASPORA STUDIES	4-4.5
ABD 208	AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS	4-4.5
BADM 288	MARKETING FOR THE SOCIAL GOOD	4
BADM 313	CHANGE MANAGEMENT: THEORY & PRACTICE	2
CCH 110	ESSENTIALS OF TRAINING AND DEVELOPMENT	2
CCH 220	FRAUD IN REAL WORLD ORGANIZATIONS	2
CCH 387	AFRICAN-AMERICAN STUDIES IN CRITICAL PERSPECTIVE	4
CSS 320	COMMUNITY FOOD SYSTEMS	4

DCM 312	ADVANCED LEADERSHIP THEORY & PRACTICE	4
GEO 205	RACE, JUSTICE, AND THE URBAN ENVIRONMENT	4-4.5
GEO 225	EARTH'S CHANGING CLIMATE	4-4.5
HC 326	CONTEMPORARY NATIVE AMERICAN/ AMERICAN INDIAN ISSUES	2
HLTH 335	COMMUNITY HEALTH ASSESSMENT	
LST 202	CONSTRUCTING LATINO COMMUNITIES	4-4.5
LST 307	GROWING UP LATINO/LATINA IN THE U.S.	4-4.5
PAX 200	COMMUNITIES WORKING FOR SUSTAINABLE JUSTICE AND PEACE: SERVICE IN CHICAGO AND THE U.S.	4-4.5
PPS 333	GREEN CITIES	4-4.5
PPS 350	ISSUES IN URBAN REDEVELOPMENT	4-4.5
PSY 213	LESBIAN, GAY, BISEXUAL AND TRANSGENDER PSYCHOLOGY	

Open Electives (42 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

Nonprofit Management (BA) Online

The Bachelor of Arts in Nonprofit Management from the School of Continuing and Professional Studies (SCPS) builds knowledge and skills for application in nonprofit settings, especially within administrative, supervisory and managerial positions. This program intentionally helps students to integrate liberal arts learning, inquiry and critical thinking skills, with a professional specialization. In this program, students have the opportunity to earn credit from prior learning from experience.

This major advances students' foundational management knowledge and skills in a range of areas critical to nonprofit organization, especially project management, program development and evaluation, fundraising, human resources, risk management, leadership, workplace law, , ethical conduct, data analytics, finance and professional communications. With a range of courses in the major offered as electives, students may choose courses and specialize in areas of particular interest to them.

This major is designed for working adult students and provides:

- Flexible scheduling including online options available
- Financial Aid, flexible payment options, and **special adult student tuition pricing**
- Acceleration and affordability through transfer credit and prior learning assessment (PLA) credit
- Opportunities to combine bachelor's and master's programs and apply graduate courses to both programs
- Individualized program planning, course selection and advising assistance provided
- Enhanced career opportunities through professional portfolio development, and career placement services instruction from industry practitioners, and wide-ranging Career Services support
- Degree granted by DePaul University, with its excellent academic reputation and the opportunity to join its prestigious and extensive alumni network

Program Requirements	Quarter Hours
College Core Requirements	78
Major Requirements	72
Open Electives	42
Total hours required	192

Learning Outcomes

Students will be able to:

- Analyze and apply knowledge and theories of nonprofit management and change to real world problems within a nonprofit context
- Apply ethical principles in context
- Investigate problems using qualitative and quantitative methods.
- Apply various methods of communication to multiple settings
- Analyze data and apply skills for effective decision-making in nonprofit organizations
- Analyze and apply different liberal arts perspectives to nonprofit management

College Core (78 credits, 20 credits in residence)

Lifelong Learning Requirements (32 credits, 16 credits in residence)

Course	Title	Quarter Hours
LL 201 or RPL 101	REFLECTIVE LEARNING ¹ PRIOR LEARNING ASSESSMENT	2
LL 305	ACTIVE CITIZENS: MAKING A DIFFERENCE IN THE COMMUNITY, WORKPLACE WORLD	4

PPS 346	ADVOCACY AND LOBBYING	4

Nonprofit Management Major Electives (12 credits)

Students are encouraged to use their major elective credits to complete a thematic cluster of courses relevant to their professional goals. For example, they may wish to create a cluster relevant to the type of nonprofit they currently work for or wish to pursue. For example, students who intend to work for nonprofit organizations focusing on environmental issues, might want to take environmental studies courses.

Those who intend to work for health organizations might want to take courses concerning public health. Students can also develop a cluster around serving certain communities such as Latino, African American or LGBTQ Studies. Students also have the option of taking additional courses related to nonprofit management for their major electives.

Students should work with their academic advisors to identify an appropriate cluster theme and apply the courses to their major electives and open electives. Thematic clusters can be completed through DePaul courses, transfer courses or Prior Learning Assessment (PLA). The course list below are some major elective options.

Course	Title	Quarter Hours
ABD 100	INTRODUCTION TO AFRICAN AND BLACK DIASPORA STUDIES	4-4.5
ABD 208	AFRICAN AMERICA: PEOPLES, CULTURES, IDEAS AND MOVEMENTS	4-4.5
BADM 288	MARKETING FOR THE SOCIAL GOOD	4

PPS 350	ISSUES IN URBAN REDEVELOPMENT	4-4.5
PSY 213	LESBIAN, GAY, BISEXUAL AND TRANSGENDER PSYCHOLOGY	

Open Electives (42 credits)

Open Electives can be fulfilled through courses taken in the School of Continuing and Professional Studies and other DePaul colleges, transfer courses, assessment of prior learning (PLA), and independent studies.

Nonprofit Management (MNM)

The Master of Nonprofit Management (MNM) at DePaul University prepares students interested in nonprofit management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MNM builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today's nonprofit professional.

Integrating best practices in nonprofit management with DePaul's rich, globally focused curriculum, the MNM degree was designed specifically to correspond with the curriculum goals of the Nonprofit Academic Centers Council (NACC).

Program Requirements	Quarter Hours
Core Requirements	40
Elective Courses	12
Total hours required	52

The Master of Nonprofit Management may also be expanded to include select graduate certificate programs covering particular areas of interest. Students participating in a combined NMN/certificate program should consult with their academic advisor (SPSAdvising@depaul.edu (spsadvising@depaul.edu)) to determine what coursework might count toward both programs. A separate application process for the certificate may be required. Students who are interested in any of the following combination programs should contact the Graduate Student Services Office (<https://las.depaul.edu/about/administration-staff/Pages/graduate-student-office.aspx>) for additional information.

- Nonprofit Management + Community Development Certificate
- Nonprofit Management + Critical Ethnic Studies Certificate
- Nonprofit Management + Emergency Management Administration Certificate
- Nonprofit Management + Geographic Information Systems Certificate
- Nonprofit Management + Global Health Certificate
- Nonprofit Management + Health Care Administration Certificate
- Nonprofit Management + Metropolitan Planning and Development Certificate
- Nonprofit Management + Social Research Certificate
- Nonprofit Management + Strategic Writing and Advancement for Nonprofits Certificate
- Nonprofit Management + Sustainable Urban Food Systems Certificate
- Nonprofit Management + Translation and Interpreting Certificate
- Nonprofit Management + Women's and Gender Studies Certificate

Learning Outcomes

Students will be able to:

- Explain relevant issues in the non-profit sector to target audiences in appropriate written and oral formats.
- Apply an ethical framework in making an organizational decision on a current moral dilemma.

- Demonstrate the specific managerial and technical skillsets evident in the non-profit sector, including finance, the management of volunteers, fundraising, and advocacy.
- Apply the leadership and strategic planning skills essential to managing non-profit organizations.
- Demonstrate their research competencies through a multi-step self-assessment process.

Degree Requirements

Students complete 13 courses (52 credit hours). Ten courses (40 credit hours) of core course work and three courses (12 credit hours) of electives are required.

Required Courses

Course	Title	Quarter Hours
MPS 500	INTRODUCTION TO PUBLIC SERVICE MANAGEMENT	4
MPS 508	INTRODUCTION TO NONPROFIT MANAGEMENT	4
MPS 515	NONPROFIT FINANCIAL ADMINISTRATION	4
MPS 519	RESOURCE DEVELOPMENT	4
MPS 522	FUNDAMENTALS OF HUMAN RESOURCE MANAGEMENT	4
MPS 533	APPLIED STATISTICS FOR PUBLIC SERVICE (USING EXCEL)	4
or MPS 536	APPLIED STATISTICS FOR PUBLIC SERVICE (USING SPSS)	
MPS 546	ADVOCACY AND LOBBYING	4
MPS 583	RESEARCH METHODS FOR PUBLIC SERVICE	4
MPS 593	INTEGRATIVE SEMINAR	4
MPS 594	ETHICAL LEADERSHIP IN PUBLIC SERVICE	4

Internship Capstone Option

Students may choose to replace MPS 593 with MPS 610 Internship Capstone option.

Electives

Course	Title	Quarter Hours
Select three from the following:		12
MPS 501	CROSS-SECTOR ANALYSIS	
MPS 513	VOLUNTEERISM IN GLOBAL CIVIL SOCIETY	
MPS 518	PROGRAM DEVELOPMENT AND EVALUATION FOR NONPROFIT ORGANIZATIONS	
MPS 520	VALUES-CENTERED LEADERSHIP	
MPS 521	LEADERSHIP IN PUBLIC SERVICE	
MPS 523	GROUP DYNAMICS FOR LEADERS	
MPS 524	MARKETING FOR SERVICE ORGANIZATIONS	
MPS 525	WORKING WITH NONPROFIT BOARDS	
MPS 527	BEHAVIORAL STRATEGIES FOR PUBLIC SERVICE	
MPS 528	FOUNDATION MANAGEMENT	

MPS 529	STRATEGIC MANAGEMENT AND PLANNING
MPS 530	ANALYSIS OF NONPROFIT ORGANIZATIONS
MPS 561	LAW AND NONPROFIT ORGANIZATIONS
MPS 575	STUDY ABROAD SEMINAR
MPS 600	INDEPENDENT STUDY
MPS 601	PROFESSIONAL DEVELOPMENT AND INTERNSHIP
MPS 604	SPECIAL TOPICS
MPS 611	MANAGEMENT OF INTERNATIONAL NGOS
WRD 526	GRANT AND PROPOSAL WRITING

Internship Option

Students can opt to complete an internship or professional development experience. The student would enroll in MPS 601 for course credit, which will be applied to the MNM degree by the student's adviser. Contact SPSAdvising@depaul.edu (spsadvising@depaul.edu) for more details.

Student Handbook

Students in the School of Public Service will follow many of the requirements, rules, and regulations set by the College of Liberal Arts and Social Sciences and the DePaul University Graduate Handbook. There are additional academic regulations specific to students in the School of Public Service. Please see information below.

Academic Probation

All students within the School of Public Service must maintain a minimum cumulative GPA of 2.7 or higher as part of their requirements for graduation. As a result, any student who earns a cumulative GPA below 2.7 (B-) is placed on academic probation. Students on academic probation are required to meet with the Assistant Director for Academic Advising to discuss their performance and determine a plan for improvement.

Dismissal

Students who are not able to raise their cumulative GPA to a minimum of 2.7 within two academic quarters (after being placed on academic probation) are subject to dismissal from the program.

Readmission

If a student is dismissed from the program (as outlined in the dismissal policy), he or she may reapply through the formal admission application process.

Graduation Requirements

In order to graduate from the program, students must complete all program requirements with a minimum cumulative GPA of 2.7 or higher. If a student's cumulative GPA is below a 2.7, he or she may be denied graduation.

Non-Degree Seeking Students

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nonprofit Management (MNM) Online

The Master of Nonprofit Management (MNM) at DePaul University prepares students interested in nonprofit management to serve the common good and advance a just society, in the spirit of St. Vincent de Paul. The MNM builds competencies in leadership, management, ethics and advocacy, reflecting the areas of study important to today's nonprofit professional.

Non-Degree Seeking Students

While School of Public Service courses are open to non-degree seeking graduate students, pre-requisite requirements for certain courses may be enforced.

Nonprofit Organizations (Minor)

The minor in Nonprofit Organizations requires 20 quarter credit hours (5 courses) and is available to degree seeking undergraduates. The minor is offered within the School of Public Service (%20pubserv@depaul.edu) and is designed for students interested in learning the structure, operations, and fundraising activities necessary for a successful nonprofit organization. Students may also complete an internship with a nonprofit organization as part of the minor's requirements. The minor in Nonprofit Organizations pairs well with many undergraduate majors and is structured in a manner that enables students to complete the minor as part of a combined Bachelors/Masters degree (<https://www.depaul.edu/academics/undergraduate/Pages/combined-degrees.aspx>) in conjunction with the School of Public Service (<https://las.depaul.edu/academics/school-of-public-service/Pages/default.aspx>).

** Graduate courses are available only to students in the combined degree program.

Nursing (BSN)

Program Requirements	Quarter Hours
Liberal Studies Requirements	72
Major Requirements	116
Open Electives	4
Total hours required	192

Learning Outcomes

Students will be able to:

- Be able to integrate foundational liberal arts knowledge with evidence-based nursing concepts to provide contextually relevant and culturally appropriate care to clients, families, communities, and populations.
- Apply leadership skills, healthcare informatics technologies, and intentional interdisciplinary collaboration within complex healthcare systems.
- Demonstrate professional nursing practice standards based on legal and ethical principles and commitment to self-evaluation and lifelong learning.
- Apply research, improvement science, and quality and safety frameworks to achieve equitable and socially just healthcare outcomes.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language

- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Arts and Literature (AL) (p. 1322)

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Student Handbook

A complete list of policies specific to the nursing programs of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete MENP handbook can be found here (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>).

Mission of the DePaul University School of Nursing

The Mission of the School of Nursing is the preservation, enrichment and transmission of nursing science as a discipline and its application to promote the health and well-being of individuals, families and communities. The faculty pursues this mission through excellence in teaching as the primary focus of scholarship and research that has the potential to enhance nursing knowledge, scientific inquiry, teaching and health. The School of Nursing maintains a commitment to serving persons with diverse talents, qualities, interests and socioeconomic backgrounds in its education programs and professional practice. It

seeks to provide accelerated, inquiry-based education that anticipates the rapid pace of change in health promotion and illness care.

Philosophy of the DePaul University School of Nursing

Nursing is a learned profession with a distinct science and art. Students learn the practice of nursing through research and the study of diverse human and environmental patterns of health behavior as they affect individuals, families, and communities. Students incorporate scientific knowledge and the nursing process in their delivery of safe, ethical and quality care with deep regard for the differences along the dimensions of race/ethnicity, gender, class, sexuality, religion, heritage and language. The focus of the faculty of the School of Nursing is the education and preparation of students for leadership roles in healthcare. Education is centered on providing care for persons and communities in both health and illness while conducting scientific research to generate knowledge that strengthens these endeavors. Critical thinking is emphasized, along with an insightful examination of society, thus affording students the opportunity to apply the science and art of nursing to promote and maintain health while upholding human dignity for the betterment of the community and society. In keeping with the Vincentian values of DePaul University, students treat all human beings equally and with respect, and by doing so, are acting in the interest of the common good. The School of Nursing faculty is committed to education that will provide the foundation for a professional career as a caregiver, educator, leader, servant and scholar. A professional level of nursing practice is best achieved through master's degree education in nursing and requires appropriate licensure through examination (NCLEX-RN). Advanced professional nursing practice education integrates specialization into the master's degree curriculum or at the post-master's level providing eligibility for professional certification as a nurse anesthetist; clinical specialist in community, acute or long-term care areas; nurse practitioner in primary care; or nursing scholarship in practice or the academy. The master's degree provides the foundation for doctoral education in nursing science.

Accreditation

The baccalaureate degree program in nursing/master's degree program in nursing/Doctor of Nursing Practice program and/or post-graduate APRN certificate program at DePaul University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>) (<http://www.ccnaccreditation.org/>).

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the DePaul Academic Integrity Policy (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Foffices.depaul.edu%2Facademic-affairs%2Ffaculty-resources%2Facademic-integrity%2FPages%2Fdefault.aspx&data=05%7C01%7CMNOWAKO3%40depaul.edu%7C7cd4f512dfb7496befd408db4c2f1f71%7C750d3a3f1f464da28a647605e75ea2f>).

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

The BSN program is designed for the high-achieving high-school graduate who wants to become a registered nurse (RN). It provides the foundation for generalist nursing practice and eligibility for RN licensure by examination (NCLEX- RN).

Admissions Policies

- Admission requirements include:

1. Cumulative high school unweighted GPA of 3.5 or above on a 4-point scale
2. Grades of B or higher in high school biology and chemistry
3. At least two years of high school mathematics through Algebra II (four years with pre-calculus or other math beyond Algebra II is preferred) with grades of B or higher
4. All official transcripts must be submitted
5. Testing is optional although students may submit ACT or SAT scores*
6. Non-native English speakers must have a TOEFL score of 590 (PBT) or higher or 96 (iBT) or higher.
5. Applications must include:

- a. Two letters of reference from a former teacher, faculty, high-school counselor, or employer
 - b. Short answer responses to the following prompts:
1. How will your prior background contribute to your ability to fulfill the daily responsibilities of an entry-level registered nurse? (200-word max)

Please address the strengths and opportunities for growth in your application (i.e., explanation for GPA below 3.2, repeated coursework, gaps in academic history and performance on standardized tests). (200-word max)

7. The student is responsible for meeting all conditions of admission and for notifying the Office of Undergraduate Admissions once all conditions have been fully met.

1. Students must maintain a cumulative GPA of 2.5 or greater to remain in good standing. A student will be placed on academic probation if the GPA dips below 2.5. and must enroll in the School of Nursing Success Coaching program. If the GPA is raised to at least 2.5 at the end of the next academic quarter, the student is no longer on probation. If the GPA has not risen to 2.5 at the end of the next academic quarter, the student will be eligible for dismissal from the program, but not from the university. The student may transfer to other majors as appropriate.
2. If a student earns a C or C- in any course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 2.5 or greater in the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.
3. A student who earns a D+ or lower in any course will be dismissed from the program.
4. A student may be placed on probation a maximum of two times during their program.
5. In accordance with the nursing licensing regulations, students found to be convicted of a crime will be reviewed by the APR Committee and may be suspended or dismissed from the program. It is the student's responsibility to disclose any arrests or convictions while enrolled in their program. Degree conferral from the University does not guarantee licensure eligibility in the event the student is convicted of a crime. It is the student's responsibility to be knowledgeable of the licensure requirements for the state in which they intend to apply for RN licensure.
6. The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
7. Appropriate student conduct is outlined in detail in the Professional Development Guidelines (Appendix B of student handbook).
8. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be

documented with written contract and placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the APR Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. (For additional information, please see the University Student Handbook available online, and A (p.)ppendix B of the BSN handbook).

Progression Policies

1. All students must attend an orientation session before beginning the BSN program.
2. The student is responsible for reading the Student Handbook. Students are responsible for signing and submitting the Student Handbook Agreement to affirm they have read and fully understand the policies therein.
3. Students are assigned an academic advisor. Students should consult with the academic advisor for any program-related concerns.
4. A student may not register for any course that has a prerequisite that has not been completed.
5. Students may not attend classes for a class which they are not enrolled.
6. Students are responsible for maintaining and updating all required records. See clinical guidelines section of student handbook for more information. Failure to have all records submitted and up to date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of Absence:
 - a. Students who need to interrupt their students for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the Program and the Coordinator of Clinical Placements, APR Committee and Director of School of Nursing should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student's academic advisor may recommend additional action to complete the request process.
 - b. Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the APR Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become "out-of-sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out-of-sequence students" cannot displace in-sequence students from a clinical spot.
8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the University. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.
9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments

must be completed simultaneously. Exceptions may be identified and defined by the APR Committee in consultation with both the Director of the School of Nursing or Associate Director of the Program with the course faculty.

10. A student who withdraws from a core nursing course who is "not in good standing" (with a grade of "C" or lower or on probation) at the time of withdrawal, will be referred to the APR Committee. The APR Committee will review the student's past and current performance and elicit recommendations from the course faculty. A representative of the APR Committee may then meet with the course faculty, Associate Director of the Program, and student, to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical and a didactic theory portion, both course segments must be completed simultaneously.
11. A student may withdraw from a core nursing course "not in good standing," (with a grade of "C" or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.
12. All out-of-sequence students will be placed in clinical on a space/faculty available basis. Scheduling priority will be given to students who are out of sequence for military service, illness, or family leave before students who are out of sequence for failure or withdrawal "not in good standing."
13. A student who has a grade of B- (86% or less) at mid-quarter may be placed on a contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation to progress in the program.
14. Failure to meet all of the agreed upon terms outlined in the student contract will result in the consequences identified in the contract which may include program dismissal.
15. In accordance with DePaul University policy, students must complete their program within 6 years of matriculation.

Admission, Progression and Retention (APR) Committee

Enforcement of Retention Policies

The School of Nursing (SON) has designated the Admissions, Progression and Retention

(APR) Committee as the administrative body responsible for enforcing the Retention Policies listed in the School of Nursing Student Handbook. Please consult those policies directly for more specific information. The procedures of the APR Committee regarding Retention Policies are as follows:

1. Instructors shall notify the APR Committee Chairperson (within one week of the end of the quarter) of a student who will be receiving a final grade in a course that is a C or lower. The APR Committee Chairperson will be responsible to initiate the academic action to be taken and to notify the student.
2. Retention Policies may indicate that an academic action is taken, including a) inability to receive credit for a course, b) probation, c) suspension from the program, or d) dismissal from the program. The APR Committee shall notify the student in writing of the chosen academic action. If the trigger for the academic action is academic performance, the APR Committee will notify the student in writing no later than two weeks after the end of the quarter in which the student received a final grade in any course(s) that has resulted in the academic action. If the trigger for the academic action is the conviction of a crime, the APR Committee will notify the student within two weeks of receiving notice

of the conviction. If the trigger for the academic action is a claim of unsafe behavior in the clinical setting, or other student misconduct, APR Committee notification will occur no later than two weeks after the Director of the School of Nursing has communicated the decision to the student.

3. If a student wishes to appeal a dismissal that the APR Committee has taken pursuant to the Retention Policies, the student must follow the Procedure for Appealing a Dismissal.

Procedure for Appealing a Dismissal

Requests and Appeals Related to Academic Process

Students in the BSN Program who wish to apply for reinstatement after having been dismissed shall contact the APR Committee within 72 hours from their notification of dismissal. Their application for reinstatement should describe the nature of the circumstances leading to their dismissal and their corrective plan of action for future success in the BSN program. The APR Committee will review their application and decide to whether to reinstate.

1. During the time the APR committee reviews the student's application for reinstatement, the student shall remain responsible for any coursework/assignments/deadlines/compliance issues related to their classes in that quarter. Students under dismissal/reinstatement review will NOT be allowed to participate in any clinical activity where direct patient care is involved. In lieu of attending clinical, the student shall be offered an equivalent assignment at the discretion of the APR Chairperson and/or BSN Associate Director.
2. In the event the student is reinstated, the student will be notified via e-mail of their reinstatement. The student shall henceforth be responsible for adhering to the conditions set forth by the APR Committee.
3. In the event the APR Committee decides to deny reinstatement, the student shall be immediately removed from all class rosters and will no longer be allowed to attend any classes/clinical or any other related activity virtually or in-person. The student has the right to petition for reinstatement within a week of notification directly to the Director of the School of Nursing, who may decide to reinstate the student.
4. In the event the Director of the School of Nursing denies reinstatement, the student shall be dismissed immediately. In the event the Director of the School of Nursing reinstates the student, they will be eligible to enroll in classes the following academic quarter. The student will be responsible for adhering to the conditions set forth by the Director of the School of Nursing. If the student fails to comply with the conditions set forth by the director of the school of nursing, the student will be eligible for immediate dismissal. The decision of the Director of the School of Nursing is final.
5. Moreover, a student may only be reinstated once.

Grade Challenge

The APR does not handle grade challenges. Students wishing to challenge a grade are directed to the DePaul University Student Handbook and follow the steps outlined there. The steps are summarized below.

1. The student must make an appointment to meet with the clinical instructor or course coordinator if the course involved is a clinical course, or course instructor for other courses.
2. If not resolved, the student meets with the Associate Director of the BSN program.
3. If not resolved, the student meets with the Director of the School of Nursing and must send all documentation regarding the challenge prior to the meeting.
4. If not resolved, the student may submit a completed Grade Challenge Application to the Grade Challenge Review Board. The application

can be found at: <https://csh.depaul.edu/student-resources/Pages/General%20forms/grade-challenge-application.aspx>. Additional information about grade challenges can be found in the DePaul University Undergraduate Student Handbook.

Grievance Procedure

The School of Nursing adheres to the guidelines and procedures of the DePaul University Student Handbook in matters dealing with:

1. Student rights
2. Student responsibilities
3. Policies regarding grade challenges
4. Procedures for filing a grade challenge
5. Disciplinary procedures and other related matters covered in the handbook
6. The exception is that the School of Nursing requires filing of a grievance prior to the commencement of the next academic quarter

Transfer Credit

The BSN program follows the university Transfer Credit Approval policy for undergraduate students. Students who wish to transfer credit should follow the submission guidelines stipulated in the university policy.

School of Nursing Simulation Lab Mission Statement

The DePaul Simulation Lab (DSL) is committed to facilitating experiential learning opportunities for students. To promote a safe interactive learning environment that fosters collaboration, teamwork, and the synthesis of didactic and clinical knowledge, the DSL employs cutting edge technology in addition to the simulation standards of best practice.

Student Clinical Requirements

It is mandatory for students to complete and upload all clinical requirements to their Student Immunization Tracker via Castle Branch. See health requirement guidelines for more detailed instructions about requirements. All clinical requirements must be submitted and approved prior to the first day of the quarter of clinical attendance. Updates and renewals (e.g., updated lab 29 results, renewed coverage, yearly immunizations) must be submitted to Castle Branch PRIOR to the expiration date. It is the responsibility of the student to ensure that all clinical requirements are kept current.

Graduation Requirements

DePaul University awards the Bachelor of Science degree with a major in nursing to students who successfully completed the BSN program. All requirements of the University, College, and School of Nursing must be met as outlined in the current Bulletin.

The student is responsible for completing the application for degree conferral and commencement by the deadline posted in the academic calendar.

Students are responsible for changes reflecting new program requirements if the department gives sufficient notice.

Upon successful completion of graduation requirements, BSN students are eligible to apply to take the National Council of Licensing Examination (NCLEX). (See Legal Limitations below.)

The Illinois Department of Financial and Professional Regulation requires that graduating BSN students submit to a fingerprinting processing from the Illinois Department of State Police or its designated agent.

Licensure by the IDFPR will require a separate complete background check with fingerprinting prior to being given permission to sit for NCLEX. If criminal activity is noted, such activity MAY BE grounds for the student to not be given permission to take the NCLEX exam.

Legal Limitations for Licensure

Completion of the nursing education program does not guarantee eligibility to take the NCLEX. The Illinois Department of Financial and Professional Regulation - Board of Nursing may refuse to issue a license for one or more causes stated in that section of the Nurse Practice Act.

Requirements for licensure vary from state to state. Those students wishing to take the NCLEX outside Illinois are advised to check with their state's licensure requirements early in the academic program.

Doctor of Nursing Practice (DNP)

Designed for the Baccalaureate or Master's Entry Registered Nurse graduate who wants to pursue Nurse Practitioner or Nurse Anesthesia education and training for national certification and/or experienced Certified Nurse Practitioner, Clinical Nurse Specialist, Certified Registered Nurse Anesthetist or Certified Nurse Midwife seeking a clinical doctorate to gain knowledge on the delivery of advanced nursing practice to patient populations in healthcare systems where they work, acquire competencies on clinical scholarship with a focus on translation of new knowledge to practice and evaluation of health care delivery models, develop organizational and systems leadership skills, apply clinical prevention and population health services, engage in health care policy-making as a vehicle for advocating health for all and appraise information systems/technology and patient care technology that can lead to the transformation of tomorrow's health care. The DNP Program tracks include AGNP, FNP, DNP Completion, and CRNA (in partnership with NorthShore University HealthSystem School of Nurse Anesthesia).

Program Goals

The purposes of the graduate tracks in the doctor of nursing practice program are to prepare advanced practice nurses for leadership roles in the practice setting:

1. Integrate nursing science and knowledge with the knowledge of other disciplines and implement this knowledge in order to improve healthcare.
2. Evaluate and translate evidence-based practices to improve health and healthcare outcomes at the patient, family, population, clinical unit, system, and/or community level.
3. Demonstrate collaborative and leadership skills on intra-professional and inter-professional teams to foster effective communication, enhance patient outcomes, and create change in complex health care delivery systems.
4. Contribute to the specialty of advanced practice nursing through participation in systemic inquiry and other scholarly endeavors.
5. Use information systems and technology to improve patient care outcomes in advanced nursing practice.
6. Incorporate a philosophy of social caring based upon respect for the whole person, embodied in professional practice and service activities within a multicultural society.
7. Assume a leadership role in influencing the direction of health care at the local and national level.

8. Demonstrate competencies of advanced nursing practice within a defined specialty.

Program Requirements	Quarter Hours
Core Requirements	40
Concentration Requirements	8-72
Total hours required	48-112

Learning Outcomes

Students will be able to:

- Practice as an advanced practice clinician who demonstrates knowledge of population health issues, prevention strategies, and culturally relevant approaches to improve health.
- Provide organizational leadership through systems of care that utilize interdisciplinary collaboration and consultation to deliver safe, effective, and efficient patient-centered care, which influences policy.
- Design, implement, evaluate, and promote evidence-based care in complex situations through continuous quality improvement and clinical scholarship.
- Develop, implement, and evaluate transformational patient care technologies and analytical methods focused on safety and quality standards.
- Demonstrate an awareness of global health disparities, and in the Vincentian mission of the university, advocate for social justice, equity, and ethical policies that impact the overall health of individuals and communities.

Degree Requirements

Course Requirements

Doctoral Core (40 credit hours)

Course	Title	Quarter Hours
NSG 522	FINANCE AND COSTING IN HEALTH CARE	4
NSG 540	CULTURE, ETHICS, AND POLICY ANALYSIS	4
NSG 550	HEALTHCARE ECONOMICS	4
NSG 551	LEADERSHIP AND ORGANIZATIONAL BEHAVIOR	4
NSG 552	PROGRAM EVALUATION	4
NSG 554	INFORMATICS AND TECHNOLOGY APPLICATIONS	4
NSG 580	BIOSTATISTICS & RESEARCH METHODS FOR ADVANCED PRACTICE	4
NSG 600	EVIDENCE-BASED PRACTICE RESEARCH	4
NSG 601	EVIDENCE-BASED PRACTICE RESEARCH II	4
NSG 602	DNP PROJECT PRACTICUM	4
NSG 603	DNP PROJECT CANDIDACY CONTINUATION	0

Concentration Requirements

In addition to the Doctoral Core requirements, students must complete the track requirements for their one designated concentration track.

Other Requirements

DNP Project

Students will be required to complete a DNP Project which represents the cumulating work for their DNP program. The project is expected to

be a tangible academic product that reflects the student's educational experiences and should be evaluated by an academic committee. The DNP Project for the DePaul DNP students (NSG 600, NSG 601, and NSG 602) will include:

1. a needs assessment of an aggregate population, APN practice setting, healthcare institution policies, or healthcare delivery models using an Evidence Based Practice approach;
2. development and implementation of a research project to improve the health of a population, change practice, influence health policy, or revise healthcare delivery models;
3. evaluation of the program; and
4. a publishable quality manuscript and a formal oral presentation will be presented to the student's DNP Committee for approval.

A poster representing the DNP Project will be produced by the student for presentation at the Grace Peterson Research Colloquium.

Track Requirements are expected to be taken in addition to the doctoral core requirements and the doctoral specialty requirements for completion of the DNP degree. Students are required to select from the following:

- Adult-Gerontological Nurse Practitioner Track, Nursing Practice (DNP) (p. 864)
- DNP Completion - Advanced Practice: Nurse Practitioner, Clinical Nurse Specialist, Nurse Midwife, Nursing Practice (DNP) (p. 864)
- Family Nurse Practitioner Track, Nursing Practice (DNP) (p. 865)
- Nurse Anesthetist Track, Nursing Practice (DNP) (p. 865)

Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: Post Licensure Student Handbook (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>).

Retention Policies

MS Degree, Post Graduate Certificate, and DNP Degree Seeking Students

1. To be retained in the nursing program, students must maintain a cumulative grade point average of 3.0 or greater in all academic work at the University.
2. To earn credit, students must earn a grade of B- or better in all courses. Graduate students who receive a grade between C+ to D in any nursing course will have the opportunity to repeat the course a maximum of two times only. Student who receive a grade of F will be dismissed from the program
3. Students who drop below the required cumulative GPA of 3.0 will be placed on probationary status. Students who have less than the required GPA for two consecutive quarters will be dismissed from the program.
4. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admission, Progression and Retention Committee and may be suspended or dismissed from the program.

The SON expects a respectful environment conducive to teaching and learning from all students. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University. Appropriate student conduct is outlined in detail in the *SON Professional Development Guidelines* (Appendix B). Appropriate student conduct includes, but is not limited to: being punctual for all classes; displaying

courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity; avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts. Students are expected to follow the chain of command in resolving issues. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident being placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the SON, with copies sent to the Associate Directors of the Program and the Admission, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. For additional information, please see both the University Student Handbook-available online, as well as the "Student Misconduct Process" outlined below.

5. Students are required to immediately notify the SON of any arrests or convictions during the program of study. The SON may elect to suspend the student until the criminal charge has been resolved. The SON may elect to dismiss the student for a criminal conviction.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.
2. All students must meet with their assigned academic advisor before the first quarter of their program to review their official program of studies for the current academic year. The student is responsible to sign the cover sheet of the Student Handbook and upload it to Castle Branch.
3. Students are responsible for scheduling a meeting with their assigned academic advisor or program director at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Appointments should be made via Blue Star in Campus Connect. Advisors may not be available during the months of July and August. Please plan accordingly.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, licensure, personal health insurance etc. must be kept on file in the SON. It is each individual student's responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See student health requirements (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>) for further information. Failure to have all records present and up-to-date before the start of each course will result in inability to attend the clinical component of the course.

Accreditation

The baccalaureate degree program in nursing/master's degree program in nursing/Doctor of Nursing Practice program and/or post-graduate APRN certificate program at DePaul University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) (<http://www.ccneaccreditation.org/>).

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the DePaul Academic Integrity Policy (<https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx>).

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

Student Advising/Program of Study

1. A faculty advisor will be assigned to each student upon acceptance to the program. The advisor will assist in developing an appropriate program of studies according to the student's preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following.
2. Classes are scheduled so that a full-time student can complete the typical program of studies in the designated time frame. Part-time students or students taking courses out-of- sequence, may experience delay in obtaining necessary courses for timely progression in the program
3. Students who change to their progression plan must follow the steps below. Students need to be aware that they may experience delay in obtaining necessary courses for timely progression in the program.
 - A. Meet with his/her academic advisor
 - B. The academic advisor and student will develop an adjusted program of study that the student will follow
4. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.
5. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.
6. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Associate Director of the Program and faculty advisor for modification of the planned program of studies.
7. The student is responsible for meeting all prerequisites to courses for which the student is registering
8. The student is responsible for scheduling periodic student-advisor, and student- instructor conferences.
9. The student may not register for any courses until all conditions of admission are completed. Students who are not in compliance will be

withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

The student acknowledges that all DePaul University and SON academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or SON policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her clinical instructor in the event that the student encounters problems with his/her mentor, preceptor, or staff at the site or at the site generally. Post licensure students are expected to find clinical preceptors and/or mentors at clinical sites preferably in which DePaul University has an affiliation contract with.

If none exists then a request for a clinical affiliation contract must be secured and signed by both institutions. Additionally, a request for a clinical preceptor agreement must be submitted using a Request for Letter of Agreement form along with the preceptor's CV or Preceptor Profile and copy of verification of licensure in the state.

Process for Establishing a Mentor

Please see the step-by-step process (<https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx>). Students are responsible to complete this process.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.
7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
13. Removal of patient identification.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.

16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director's office within one working day. The Assistant Director will contact the Registrar to put a hold on the student's grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the Program. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student's progression in the program. A decision is made at the meeting and communicated to the student.
6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.
7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency.

Clinical Probation/Remediation

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student's academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student's remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is sent to the Coordinator of Data Management for tracking purposes; another copy is placed in the student's file.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient's Bill of Rights.
2. Confidentiality is the protection of a client's privacy through careful use of oral and written communications. The client's right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the University Social Media guidelines found at <https://www.depaul.edu/Pages/social-media-guidelines.aspx>. Social Media policy (Appendix C) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.
3. A client's chart is a legal document. Information from the client and chart is confidential and can't be disclosed to those who are not caring for the client. All entries must be accurate and legible. No part of the client's Medical record can leave the office or clinic setting.
4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.
5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client's privacy.
6. Students should use only the initials of the client when filling out history & physical exam forms, SOAP notes and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx>).

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident¹) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety is notified, that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found here (<http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx>), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes

required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and a copy in their CastleBranch Profile account through www.CastleBranch.com (<http://www.castlebranch.com/>) **by 60 days before the start of NSG 483**. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of updated lab results, and renewed skills **PRIOR** to the anniversary of the expiration date. Non-compliance with clinical requirements will result in the student's withdrawal from their clinical course and subsequent delay progression in their program of study. Please see the Clinical Health Requirements (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>). (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>) The student must submit **COPIES** (NOT ORIGINALS) to Castle Branch.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates' requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student's drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department,

administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation

DePaul University awards degrees to students who successfully completed their program. All requirements of the University, College, and SON must be met.

The student must Apply to Graduate (<https://offices.depaul.edu/depaul-central/records/Pages/apply-for-graduation.aspx>) for degree conferral and commencement by the deadline posted in the academic calendar.

Graduation Forms (DNP Students)

All graduating DNP students must email their graduation forms to their program director no later than the last day of the quarter of their degree conferral. Send all below documents to your program director:

1. Final version of submission ready journal manuscript as a PDF
2. Abstract and Keyword form
3. Author Submission form
4. Approval of Proposal for Final Project form
5. Final Requirements Report form from program director

Adult-Gerontological Nurse Practitioner Track, Nursing Practice (DNP)

Track Requirements

Advanced Practice Core (52 credit hours)

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 428	PATHOPHYSIOLOGY FOR ADVANCED PRACTICE	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 474	PRIMARY CARE OF THE ADULT AND OLDER ADULT	4
NSG 478	CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE	4
NSG 479	ADVANCED GERONTOLOGICAL NURSING	4

NSG 615	ADVANCED ANESTHESIA PRACTICUM III	4
NSG 616	ADVANCED ANESTHESIA PRACTICUM IV	4

BSN Completion (BSN)

The RN to MSN curriculum provides for seamless progression for the Registered Nurse with an associate degree in nursing (ADN) to the master's degree (MSN) in nursing. Along the way, these students will earn the Bachelor of Science (BSN) degree in nursing; in anticipation of earning the BSN, students must apply for degree conferral. However, the focus of the program is on the attainment of the MSN degree. The program is also available for RNs with a non-nursing bachelor degree and BSN graduates; both of whom will enter the program as graduate level students and earn the Master of Science in Nursing (MSN). You can find more information at MSN Specialty (MSN). (<https://csh.depaul.edu/academics/nursing/graduate/rn-to-ms-nursing-ms/Pages/default.aspx>)

The RN to MS program will be offered online except for the clinical requirements. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local preceptor agreements.

- The Bachelor's portion of the curriculum builds on the strong theoretical and skills preparation in nursing and general education completed by the Associate Degree prepared RN.
- The Bachelor's component of the program, leading to the BS in nursing, fulfills professional nursing standards for baccalaureate education in nursing, providing for immediate career mobility and seamlessly transitions into an accelerated path to the master's degree by offering six double counted graduate level courses.
- The Master's component of the program prepares practicing nurses to meet the core expectations of graduate education in nursing and to assume the role of a nurse educator, family nurse practitioner, or adult gerontology nurse practitioner.

Program Requirements	Quarter Hours
Minimum Associate Degree Transfer Hours ¹	79
Liberal Studies	28
Professional Nursing Portfolio Credit ²	45
Major Requirements	14

Major Requirements Shared with MS Requirements	26
Total hours required	192

¹ View Undergraduate Student Handbook to learn of the maximum allowable number of transfer credit hours.

² The 45 quarter hour portfolio credit will be applied upon successful completion of NSG 330 and NSG 464 with a cumulative GPA of 3.00.

Learning Outcomes

Students will be able to:

- Synthesize knowledge from the sciences, the humanities, and nursing science to assess, plan, and provide care for individuals, families, and communities using evidence-based and values-based modalities.
- Develop a foundation for professional nursing practice emphasizing autonomy, integrity, change agency, and advocacy to social justice integrating Vincentian and altruistic values.
- Design and deliver culturally appropriate nursing care services to diverse individuals, families, and populations, in coordination with appropriate multidisciplinary providers across the continuum of care.
- Demonstrate progression in life-long learning by applying critical thinking to analyze contemporary health care, including but not limited to social determinants of health, health inequities, serving high-risk populations, technological applications in healthcare, health care policy, and health care finance.

Liberal Studies Requirements

These requirements take into account liberal studies coursework completed as part of the basic Associate Degree/Diploma Nursing program. The requirements outlined below are beyond the associate degree work and are required for the DePaul degree.

First Year Program		Hours
Chicago Quarter		
Not Required		
Focal Point		
Not Required		
Writing		
Not Required		
Quantitative Reasoning		
Not Required		
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
This requirement is met through Portfolio Credit.		
Senior Year		
Capstone		
NSG 380	UNDERGRADUATE NURSING SYNTHESIS (counted in major requirements)	4

Learning Domains

Arts and Literature (AL) (p. 1322)

- 1 Course Required

Historical Inquiry (HI) (p. 1326)

- 1 Course Required

Math and Computing (MC) (p. 1328)

- Not Required

Philosophical Inquiry (PI) (p. 1329)

- 1 Course Required

Religious Dimensions (RD) (p. 1330)

- 1 Course Required

Scientific Inquiry (SI) (p. 1332)

- Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- Not Required

Liberal Studies Electives (p. 1322)

- 2 Additional Courses Required (must be from different domains)

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Course	Title	Quarter Hours
NSG 330	FOUNDATIONS OF PROFESSIONAL NURSING PRACTICE ¹	2
NSG 376	COMMUNITY HEALTH NURSING FOR THE PROFESSIONAL NURSE ¹	4
NSG 377	PRACTICUM: THE PROFESSIONAL NURSE AND COMMUNITY HEALTH ¹	4
NSG 380	UNDERGRADUATE NURSING SYNTHESIS (Capstone required for major requirements)	4

¹ These are bridge courses for ADN with non-nursing MS pursuing the RN-MS.

Courses Counting toward BSN and MSN

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 401	NURSING RESEARCH I	4

NSG 446	ETHICAL AND POLITICAL ENGAGEMENT IN NURSING	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 554	INFORMATICS AND TECHNOLOGY APPLICATIONS	4

* Each track has a unique set of double counted courses. See individual RN-MS (MS) track pages for a full list of double counted courses specific to track.

Transfer Credit

This program builds on the strong theoretical and skills preparation in both nursing and general education that the associate degree prepared RN has completed. The learning outcomes achieved at the associate degree level are validated by the National Council Licensing Examination – Registered Nurse (NCLEX-RN), a nationally standardized exam considered to be a highly valid and reliable test of basic competence. Students will receive at a minimum 79 quarter hours of transfer credit for the associate degree. Students who have earned more than 79 quarter hours of transfer credit will receive credit based on the transferrable coursework successfully completed. Please note that some liberal studies credit has been accounted for as part of the nursing program's 79 transferrable hours. Only courses in excess of the required nursing program - and still within the restriction on the maximum number of allowable transfer credit hours - can be considered to fulfill the remaining requirements. In addition, students must meet the DePaul residency requirement. View the Undergraduate Student Handbook to learn of the restriction on the maximum number of allowable transfer credit hours and how to meet the residency requirement.

Professional Nursing Portfolio Credit

The student entering the RN to MS program will be taking more advanced coursework at DePaul; coursework that relies on a knowledge base established by the nursing courses taken at the community college and assessed by the NCLEX-RN® examination. By successfully completing the first quarter of the RN to MS program, students will have demonstrated their success in the RN to BS bridge course and a graduate level course. The 45 quarter hour portfolio credit will be applied to their degree at DePaul upon successful completion of NSG 330 (bridge course) and NSG 464 (graduate course) with a cumulative GPA of 3.0.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: BSN Student Handbook (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>)

Accreditation

The baccalaureate degree program in nursing/master's degree program in nursing/Doctor of Nursing Practice program and/or post-graduate APRN certificate program at DePaul University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) (<http://www.ccneaccreditation.org/>).

Retention Policies

1. Students must maintain a cumulative GPA of 2.5 or greater to remain in good standing. A student will be placed on academic probation if the GPA dips below 2.5. and must enroll in the School of Nursing Success Coaching program. If the GPA is raised to at least 2.5 at the end of the next academic quarter, the student is no longer on probation. If the GPA has not risen to 2.5 at the end of the next academic quarter, the student will be eligible for dismissal from the program, but not from the university. The student may transfer to other majors as appropriate.
2. If a student earns a C or C- in any course, the student is placed on probation. The student must enroll in the School of Nursing Success Coaching program. If the student is able to earn grades in all courses that are C+ or above AND earn a cumulative GPA of 2.5 or greater in the next academic quarter, the student is no longer on probation. If this does not occur, the student will be dismissed from the program.
3. A student who earns a D+ or lower in any course will be dismissed from the program.
4. A student may be placed on probation a maximum of two times during their program.
5. In accordance with the nursing licensing regulations, students found to be convicted of a crime will be reviewed by the APR Committee and may be suspended or dismissed from the program. It is the student's responsibility to disclose any arrests or convictions while enrolled in their program. Degree conferral from the University does not guarantee licensure eligibility in the event the student is convicted of a crime. It is the student's responsibility to be knowledgeable of the licensure requirements for the state in which they intend to apply for RN licensure.
6. The School of Nursing expects a respectful environment conducive to teaching and learning for all students, faculty, and staff. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University and affiliated institutions.
7. Appropriate student conduct is outlined in detail in the Professional Development Guidelines
8. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with written contract and placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the School of Nursing, with copies sent to the Associate Director of the Program, and the APR Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program.

Progression Policies

1. All students must attend an orientation session before beginning the BSN program.
2. The student is responsible for reading the Student Handbook. Students are responsible for signing and submitting the Student Handbook Agreement Statement to affirm they have read and fully understand the policies therein.
3. Students are assigned an academic advisor. Students should consult with the academic advisor for any program-related concerns.
4. A student may not register for any course that has a prerequisite that has not been completed.
5. Students may not attend classes for a class which they are not enrolled.
6. Students are responsible for maintaining and updating all required records. See Clinical Guidelines for further information. Failure to have all records submitted and up to date at the beginning of each course will result in inability to attend the clinical component of the course.
7. Leave of absence:

a) Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Associate Director of the Program and the Coordinator of Clinical Placements, APR Committee and Director of School of Nursing should be notified. Depending on circumstances and estimated length of absence, the Associate Director or student's academic advisor may recommend additional action to complete the request process.

b) Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the APR Committee. It is the student's responsibility to send a copy of such request to the Director of the School of Nursing, the student's faculty advisor, the Associate Director of the Program, and the Coordinator of Clinical Placements. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the DePaul Nursing Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the nursing course sequence. Students will be notified in writing regarding the decision concerning their re-entry to the program. Individual assessment of current knowledge and clinical skills will be made prior to placement of the student in the appropriate level within the nursing program. Students who become "out-of-sequence students" due to withdrawal, or military/medical/family leave of absence will be placed into a clinical rotation upon re-entry based upon space available and cannot be guaranteed placement in the next available clinical course needed. "Out-of-sequence students" cannot displace in-sequence students from a clinical spot.

8. Students who have taken a leave of absence from the program for greater than 12 calendar months must re-apply to the University. Their application will then be considered with all other qualified applicants applying for admission to the nursing program.

9. A student who withdraws from a core nursing course while in good standing cannot progress in the sequenced nursing curriculum until that course has been successfully completed. In courses that contain both a clinical practicum and a lecture component, both course segments must be completed simultaneously. Exceptions may be identified and defined by the APR Committee in consultation with both the Director of the School of Nursing or Associate Director of the Program and the course faculty.

10. A student who withdraws from a core nursing course who is "not in good standing" (with a grade of "C" or lower or on probation) at the time of withdrawal, will be referred to the APR Committee. The APR Committee will review the student's past and current performance and elicit recommendations from the course faculty. A representative of the APR Committee may then meet with the course faculty, Associate Director of the Program, and student, to counsel the student and to establish a contract for academic improvement. Such students may not progress in the sequenced nursing curriculum until the course has been retaken and successfully completed. In courses that contain both a clinical practicum and a didactic theory portion, both course segments must be completed simultaneously.

11. A student may withdraw from a core nursing course "not in good standing" (with a grade of "C" or lower) only once during their program of study. A second such withdrawal will result in dismissal from the program.

12. All out-of-sequence students will be placed in clinical on a space/faculty available basis. Scheduling priority will be given to students who are out of sequence for military service, illness, or family leave before students who are out of sequence for failure or withdrawal "not in good standing."

13. A student who has a grade of B- (86% or less) at mid-quarter may be placed on a contract for academic improvement by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program.

14. Failure to meet all of the agreed upon terms outlined in the student contract will result in the consequences identified in the contract which may include program dismissal.

15. In accordance with DePaul University policy, students must complete their program within 6 years of matriculation.

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the DePaul Academic Integrity Policy (<https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Foffices.depaul.edu%2Facademic-affairs%2Ffaculty-resources%2Facademic-integrity%2FPages%2Fdefault.aspx&data=05%7C01%7CMNOWAKO3%40depaul.edu%7Cca30d8bb2ae545ac502f08db3f8c9bcf%7C750d3a3f1f464da28a647605e75ea2f9%7C0%7C0%7C638173645366977198%7%7CTWFPbGZsb3d8eyJWljoicM4wLjAwMDAiLCJQljoicV2luMzliLCJBtIl6lk1haWwiLC%7C3000%7C%7C&sdata=WAivqfhnNIQqG%2B9uYLEHiUaRCleKB39C8zyN1Yhls90%3D&reserved=0>).

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

MSN Specialty (MSN) Online

- The RN to MSN curriculum provides for seamless progression for the Registered Nurse (RN) with an associate degree in nursing (ADN) to the master's degree (MSN) after completing the BS in nursing and matriculating to the MS in nursing.
- The RN with an associate degree (ADN) in nursing and a BA/BS in another field may proceed directly to pursuing the MSN in nursing while taking three bridge level nursing courses.
- The RN with a BSN may proceed directly to pursuing the MS in nursing.
- The RN to MSN program will be offered online except for the clinical component. Students will be required to complete clinical nursing experiences, which will be undertaken in their home communities with appropriate local professional mentors. The master's component of the program prepares practicing nurses to

meet the core expectations of a master's education in nursing and to assume the role of a nurse educator, nurse administrator, family nurse practitioner (FNP), or adult gerontology nurse practitioner (AGNP). Students choosing the nurse administrator track will also earn a certificate in Health Administration from Rosalind Franklin University of Medicine and Science (RFUMS) along with the MS in Nursing from DePaul University. The certificate program focuses on interprofessional collaboration and are interdisciplinary in nature. Following successful completion of the nurse practitioner tracks (FNP or AGNP), students will be able to sit for the national certification exam.

Program Requirements	Quarter Hours
Completion of Bachelor of Science Degree in Nursing at DePaul	
Degree Requirements Shared with BS Requirements	0-26
Graduate Core Courses	12
Track Requirements	16-32
Total Hours Required	28-70

Learning Outcomes

1) Develop an advanced level of patient and family care management with emphasis on interdisciplinary population health focused on a culture of safety and quality that prevents harm.

- a. NA competency: Integrate client-centered and culturally appropriate concepts and approaches in strategic planning to meet population needs for clinical prevention and appropriate care services for diverse populations.
- b. NP Competency: Synthesize data from evidence and other disciplines to improve one's practice.
- c. NP Competency: Utilize professional practice at the highest level of accountability to render care to patients while respecting patient wishes and maintaining cultural competency

2) Design, conduct, and evaluate scholarly inquiry in nursing science using nursing concepts and theories with a focus on translational science.

- a. NE competency: Synthesize findings from health professions education research within the practice of nursing education to support competency development in learners.
- b. NA competency: Apply scientific findings from nursing, physiological sciences, public health, quality improvement, and management science in an organization for the continual improvement of nursing care delivery.
- c. NP Competency: Advocate for high quality, cost-effective care by working with healthcare teams, patients and policy advocates to improve health care.
- d. NP Competency: Promote approaches to clinical practice that observes not only the interdependence of clinical practice and policy but also considers the ethics at both the legal and social context.

3) Evaluate health care systems in regard to the use of information systems technology, quality improvement, culturally relevant care models and tracking of performance outcomes.

- a. NE competency: Use current technological tools to ensure the best quality interprofessional education foundation for nursing.

- b. NE competency: Analyze current nursing education issues including but not limited to use of technology in teaching/learning, contemporary pedagogies, and measuring educational outcomes.
- c. NA competency: Use current information systems technology, quality improvement concepts, and outcomes analysis to ensure effective health systems management.
- d. NP Competency: Utilize clinical information systems in a way that allows for clinical documentation and evaluation to enhance patient safety.

4) Examine professional nursing practice roles of autonomy, integrity, social justice, and ethics in light of Vincentian heritage and values and other influences and value systems.

- a. NA competency: Participate in health policy analysis and health policy formation relative to specific health care issues relevant to practice as an administrator.
- b. NP Competency: Promote a culture of excellence by providing peer review and implementing improvement interventions proactively.
- c. NP Competency: Translates new knowledge regarding clinical guidelines to improve patient outcomes both individually and in collaborative partnerships.

Degree Requirements

As part of the master's component of the RN to MSN program, students will choose to specialize in one of four tracks:

- Adult-Gerontological Nurse Practitioner Track, Nursing (MSN) (p. 873)
- Family Nurse Practitioner Track, Nursing (MSN) (p. 874)
- Nursing Administration Track, Nursing (MSN) (p. 875)
- Nursing Education Track, Nursing (MSN) (p. 875)

Each track requires several courses plus a capstone experience and required practicum. The specific required coursework for each track can be found by navigating to the respective page. Following completion of the specialty, a graduate certificate in Health Administration is conferred by Rosalind Franklin University of Medicine and Science.

Student Handbook

A complete list of policies specific to this program of study is contained in the Student Handbook that is updated regularly on the website for the School of Nursing. The complete RN-MS student handbook can be found here: Post Licensure Student Handbook (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/student-handbook.aspx>).

Retention Policies

MS Degree, Post Graduate Certificate, and DNP Degree Seeking Students

1. To be retained in the nursing program, students must maintain a cumulative grade point average of 3.0 or greater in all academic work at the University.
2. To earn credit, students must earn a grade of B- or better in all courses. Graduate students who receive a grade between C+ to D in any nursing course will have the opportunity to repeat the course a maximum of two times only. Student who receive a grade of F will be dismissed from the program
3. Students who drop below the required cumulative GPA of 3.0 will be placed on probationary status. Students who have less than the required GPA for two consecutive quarters will be dismissed from the program.

4. In accordance with the nursing licensing regulations, students found to be convicted of serious crimes (felonies, substance abuse) will be reviewed by the Admission, Progression and Retention Committee and may be suspended or dismissed from the program.

The SON expects a respectful environment conducive to teaching and learning from all students. Inappropriate conduct is defined as any action that interferes with the creation and maintenance of an effective learning environment. Students are expected to display civility in all aspects of their educational experience at DePaul University. Appropriate student conduct is outlined in detail in *the SON Professional Development Guidelines* (Appendix B). Appropriate student conduct includes, but is not limited to: being punctual for all classes; displaying courtesy; maintaining professional standards and safe practice in the clinical areas; maintaining academic integrity; avoiding leaving the classroom/clinical area other than during designated breaks and only with the permission of the responsible faculty member; fostering a positive learning environment by respecting the ideas and opinions of others; not talking during class or engaging in activities that distract the attention of others, including keeping cell phones and pagers set on silent mode; respecting others, including not making sarcastic or disrespectful remarks, using foul language or swearing; not threatening others; and remaining emotionally calm without inappropriate outbursts. Students are expected to follow the chain of command in resolving issues. Students displaying inappropriate conduct may be asked to leave the classroom, clinical area, or meeting. Inappropriate conduct will be documented with a written copy of the incident being placed in the student's file. Such incidents of inappropriate conduct will then be reported to the Director of the SON, with copies sent to the Associate Directors of the Program and the Admission, Progression, and Retention Committee. Additional sanctions for inappropriate conduct may be imposed, including dismissal from the nursing program. For additional information, please see both the University Student Handbook-available online, as well as the "Student Misconduct Process" outlined below.

5. Students are required to immediately notify the SON of any arrests or convictions during the program of study. The SON may elect to suspend the student until the criminal charge has been resolved. The SON may elect to dismiss the student for a criminal conviction.

Progression Policies

1. All students must attend an orientation session before beginning the nursing program of studies.
2. All students must meet with their assigned academic advisor before the first quarter of their program to review their official program of studies for the current academic year. The student is responsible to sign the cover sheet of the Student Handbook and upload it to Castle Branch.
3. Students are responsible for scheduling a meeting with their assigned academic advisor or program director at the end of the first academic year and at least once during each subsequent academic year to review progress in the program and plan for the following year. Appointments should be made via Blue Star in Campus Connect. Advisors may not be available during the months of July and August. Please plan accordingly.
4. A student may not register for any course that has a prerequisite if that student has an incomplete in the prerequisite course.
5. Students may not attend classes in a course for which enrollment is blocked. No credit will be awarded for assignments completed when not officially enrolled in a course. This includes assignments previously completed and turned-in for courses taken in the past.
6. All required health records, evidence of CPR certification, criminal background checks, licensure, personal health insurance etc. must be kept on file in the SON. It is each individual student's responsibility to keep all of their records up-to-date. Drug screens are required for clinical placements. See student health requirements (<https://>

csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx) for further information. Failure to have all records present and up-to-date before the start of each course will result in inability to attend the clinical component of the course.

Accreditation

The baccalaureate degree program in nursing/master's degree program in nursing/Doctor of Nursing Practice program and/or post-graduate APRN certificate program at DePaul University is accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>) (<http://www.ccneaccreditation.org/>).

Academic Integrity Policy

Violations of academic integrity in any form are detrimental to the values of DePaul, to the students' own development as responsible members of society and to the pursuit of knowledge and the transmission of ideas. Violations of academic integrity include but are not limited to: cheating, plagiarism, fabrications, falsification or sabotage of research data, falsification of clinical data, destruction or misuse of the university's academic resources, academic misconduct, and complicity. If an instructor finds that a student has violated the Academic Integrity Policy, the appropriate initial sanction is at the instructor's discretion. An instructor may choose to file an academic integrity violation with the university. Actions taken by the instructor do not preclude the college or the university from taking further action, including dismissal from the university. Conduct that is punishable under the DePaul Academic Integrity Policy (<https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx>).

Academic Integrity Policy Extension for Clinical and Service Settings

DePaul University is committed to education that engages its students, faculty and staff in work within Chicago's institutions and communities. As DePaul representatives to our partner institutions and community organizations, we ask that you take seriously your responsibilities to these institutions during service and clinical experiences and internships. The community and its institutions are extensions of the DePaul classroom. The University's Academic Integrity Policy and Code of Responsibility apply to professional interactions as well.

Student Advising/Program of Study

1. A faculty advisor will be assigned to each student upon acceptance to the program. The advisor will assist in developing an appropriate program of studies according to the student's preferences, abilities, and anticipated course availability. Students are required to meet with their advisors during their first quarter in the program, at the end of the first academic year and once per academic year following.
2. Classes are scheduled so that a full-time student can complete the typical program of studies in the designated time frame. Part-time students or students taking courses out-of- sequence, may experience delay in obtaining necessary courses for timely progression in the program
3. Students who change to their progression plan must follow the steps below. Students need to be aware that they may experience delay in obtaining necessary courses for timely progression in the program.
 - A. Meet with his/her academic advisor
 - B. The academic advisor and student will develop an adjusted program of study that the student will follow
4. The student is responsible for setting-up an appointment with the designated advisor to develop an individualized program of studies.

5. The student is responsible for obtaining a copy of the program of studies worked out during the faculty-student advising session.
6. The student is responsible for enrolling in classes in the sequence identified in the program of studies. Should circumstances interrupt or delay registering for the designated classes, students must notify the Associate Director of the Program and faculty advisor for modification of the planned program of studies.
7. The student is responsible for meeting all prerequisites to courses for which the student is registering
8. The student is responsible for scheduling periodic student-advisor, and student- instructor conferences.
9. The student may not register for any courses until all conditions of admission are completed. Students who are not in compliance will be withdrawn from the course(s) for which they are currently registered. Students will be denied progression in the program up to and including being denied graduation until all requirements are met.

Clinical Guidelines

The student acknowledges that all DePaul University and SON academic and conduct policies remain in place during clinical experiences. The student also agrees to comply with all of the policies set forth by the clinical site. The student understands that failure to comply with university or SON policies or the policies of the clinical site may result in sanctions, including removal from the clinical site and/or the course. The student understands that it is his/her responsibility to immediately notify his/her clinical instructor in the event that the student encounters problems with his/her mentor, preceptor, or staff at the site or at the site generally. Post licensure students are expected to find clinical preceptors and/or mentors at clinical sites preferably in which DePaul University has an affiliation contract with.

If none exists then a request for a clinical affiliation contract must be secured and signed by both institutions. Additionally, a request for a clinical preceptor agreement must be submitted using a Request for Letter of Agreement form along with the preceptor's CV or Preceptor Profile and copy of verification of licensure in the state.

Process for Establishing a Mentor

Please see the step-by-step process (<https://csh.depaul.edu/academics/nursing/student-resources/requests-policies-procedures/Pages/preceptor-mentor-request.aspx>). Students are responsible to complete this process.

Unsafe Clinical Performance

A student is responsible for implementation of safe patient care during the supervised clinical practicum. Unsafe behavior can result in suspension from the clinical site, student remediation, failure of the course, and/or dismissal from the program. Unsafe practice is defined as behavior that has the potential to cause serious harm to a patient. Examples of unsafe clinical behavior in clinical practice include, but are not limited to:

Unsafe practice patterns include but are not limited to:

1. Violating HIPAA requirements
2. Violating OSHA requirements
3. Performing a procedure outside the domain of nursing
4. Performing a procedure in which he/she has not been prepared
5. Failing to use universal precautions
6. Administering treatments/medications in any form via any route without consent and/or supervision from the clinical instructor.

7. Advising patients about diagnosis or prognosis or referring patients to treatments, agencies, medications, without first discussing such with the clinical instructor.
8. Asking a staff nurse to supervise any procedure without consent of the clinical instructor.
9. Inability to correctly calculate math/medication problems
10. Knowingly exposing patients, colleagues, and others to actual or potential life threatening communicable diseases.
11. Stealing drugs, supplies, or belongings from an agency or patient.
12. Removing copies of patient care documents from healthcare agencies.
13. Removal of patient identification.
14. Failure to adhere to DePaul School of Nursing and/or clinical agency policies.
15. Falsifying patient records or fabricating patient experiences.
16. Neglecting to give appropriate care.
17. Providing patient care in a harmful manner or exhibiting careless or negligent behavior in the process of providing care to a patient.
18. Refusing to assume the assigned care of a patient, or failing to inform the instructor of an inability to care for a patient.
19. Willful or intentional physical or emotional harm to a patient.
20. Failure to report an error in assessment, treatment, or medication or failure to report an unusual occurrence or an adverse reaction.
21. Failure to comply with DePaul's Drug Free Campus policy.
22. Performance not in compliance with stated student expectations as outlined in lecture or course syllabi.
23. Failure to know proper vital sign ranges as well as failure to notify instructor or patient's nurse of critical vital sign value.

Any student whose pattern of behavior demonstrates unsafe clinical practice that endangers a patient, colleague, or self in the clinical area will be suspended immediately from the clinical experience. The faculty of record will meet with the student to discuss how the unsafe behavior came about and potential complications from said behavior and prepare written documentation of the event. This will be forwarded within 24 hours to the course coordinator. A copy of this document will be placed in the student file and forwarded to the Director of the School of Nursing, Assistant Director of the program, and Admissions, Progression and Retention Committee. If appropriate, an incident report will be filed at the clinical site.

If, in the clinical instructor's clinical judgment, a student is unsafe to continue in the clinical practicum, the clinical instructor will take the following steps:

1. Dismiss the student for the remainder of the clinical day. The instructor will follow institutional guidelines as appropriate.
2. Contact the course coordinator and the Assistant Director of the Program.
3. Submit a written report of the incident to the Assistant Director's office within one working day. The Assistant Director will contact the Registrar to put a hold on the student's grade; the student will not be allowed to withdraw from the course at this time. The clinical instructor will schedule a meeting with the student within 24 hours of the incident or as soon as is practical, and prepare a written report that describes the incident that resulted in the student's dismissal from clinical. The student will be given a copy of the report at this time.
4. The clinical instructor will advise the student that he or she will not be able to return to clinical until the meeting with the Assistant Director takes place.
5. Within 3 working days, or as soon as is practical, a meeting will be held. In attendance at the meeting will be the clinical instructor, the student, the course coordinator and the Assistant Director of the

Program. The student may have his or her advisor present at the meeting. A decision regarding the student's continuation in the program will be made. This meeting will determine whether the student will be administratively withdrawn with a grade of F or is allowed to return to complete the clinical. The clinical instructor initiating the meeting is not involved in the decision regarding the student's progression in the program. A decision is made at the meeting and communicated to the student.

6. The documentation related to unsafe clinical practice will be kept in a secured file within the SON offices.

7. The Admissions and Progression and Retention Committee (APR) reviews any administrative course withdrawal resulting in an F. The APR will determine if the student is dismissed from the program or may return in an appropriate quarter per the procedures of the APR. The student may elect to appeal this decision per procedures in the student handbook.

Clinical Performance Limitation Related to Temporary Disability

A student who incurs an injury or has any other physical limitation of a temporary nature must notify the clinical instructor and course coordinator and provide documentation from his/her health care provider that he/she is able to safely carry out the duties of a student in the clinical setting. This must occur as soon as possible and prior to attendance at clinical. The final decision as to whether the student is allowed in the clinical setting rests with the clinical agency.

Clinical Probation/Remediation

A student requires a contract when one or more course objectives are not being met. These behaviors, if not addressed, put the student at risk for receiving a non-passing final grade in the course. The process is initiated as soon as course faculty recognizes that a student's performance or behavior may jeopardize the successful completion of a course. The contract can be initiated at any time during the quarter.

The contract is documented on the Student Faculty Contract form (Appendix A in the Student Handbook) and is completed by the course faculty. The faculty will document, in writing, on the contract form, the areas of deficient student performance and identify behaviors the student will need to demonstrate in order to receive a passing grade. The student will receive a copy of this contract. The student's academic advisor will be notified as will the Assistant Director of the Program. The academic advisor will follow-up with the course coordinator regarding the student's remediation progress. By the end of the quarter (or completion of the course in the event of a withdrawal), the student must demonstrate satisfactory remediation of all areas of concern noted in the contract without further additional deficits or risk failing the course. Once the contract requirements have been met, the instructor should document this on the form and both student and instructor should sign the form. A completed copy can be given to the student; another copy is sent to the Coordinator of Data Management for tracking purposes; another copy is placed in the student's file.

Confidentiality

Patient/Client Privacy

1. The student is expected to adhere to the American Nurses Association Code for Nurses and act in accordance with the Patient's Bill of Rights.
2. Confidentiality is the protection of a client's privacy through careful use of oral and written communications. The client's right to privacy is safeguarded by judicious protection of confidential information. The student should adhere to the University Social Media guidelines found at <https://www.depaul.edu/Pages/social-media-guidelines.aspx>. Social

Media policy (Appendix C) regarding maintenance of confidentiality and protection of privacy as it relates to communication via social media.

3. A client's chart is a legal document. Information from the client and chart is confidential and can't be disclosed to those who are not caring for the client. All entries must be accurate and legible. No part of the client's Medical record can leave the office or clinic setting.

4. Information communicated by clients to students may not be repeated to anyone outside of the direct care team. Care should be taken when in the corridors, lounge, classroom, dining rooms, or other public areas, so that conversations are not overheard.

5. An individual can withhold any information about himself/herself that he/she desires. Nursing students must be especially careful regarding the invasion of the client's privacy.

6. Students should use only the initials of the client when filling out history & physical exam forms, SOAP notes and any other documents which are a part of their educational experience.

Unprotected Exposures

In the event of any unprotected exposure to blood or body fluids, the student is to follow the procedures of the DePaul University School of Nursing Bloodborne Pathogens Exposure Control Plan (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/exposure-control-plan.aspx>).

Exposure at Outside Facility while Performing Duties within Student Role

Any student incurring such an exposure should follow both DPU's post exposure policy as well as the institution's policy where the exposure occurred. All student exposure incidents while conducting learning or training activities under the SON must be reported to the Safety Officer or his/her designee as soon as possible, but no later than one business day after the incident.

Students are encouraged to speak with their health care provider about any additional follow-up post-exposure prophylaxis that may be recommended.

When possible, the Safety Officer, his/her designee, or institution where the exposure took place, will look into testing the exposure source individual for HIV, hepatitis B, and/or hepatitis C. Testing of the source individual's blood does not need to be repeated if the source individual is already known to be infected with HIV, hepatitis B, and/or hepatitis C.

Student Injury and Incident Policy

In the event that a student is injured (or involved in an untoward incident¹) while in the clinical setting, the student should immediately notify the clinical instructor. The clinical instructor should assist the student to seek immediate health assessment and response following all policies and procedures of the clinical setting that pertain to the type of injury sustained. The clinical instructor must notify the course coordinator of the event by the end of the clinical day.

If a student is injured (or involved in an untoward incident) on the campus while conducting learning or training activities, the student must notify the instructor or faculty member in charge of the activity immediately. The instructor or faculty member in charge must call 911 if the injury is serious. The instructor or faculty member is to notify DePaul Public Safety and follow university policy for all injuries.

All student injuries (or untoward incident), whether they occur at DePaul University or off campus while conducting learning or training activities under the School of Nursing require that DePaul Public Safety be notified,

that a public safety report is filed and the DePaul Environmental Health and Safety Incident Report form (DEHSIR), which can be found here (<http://offices.depaul.edu/environmental-health-and-safety/forms/Pages/incident-report.aspx>), is completed. All must be completed within 1 business day of the incident. The incident must also be reported to the School of Nursing Safety Officer or the SON Safety Officer designate as soon as possible but no later than one business day after the incident. When reporting to the SON Safety Officer, the student is to include a copy of the completed DEHSIR.

If a student reports an incident in which the harm to student is not physical but rather psychological or emotional, clinical faculty should notify the associate director of the program who will direct the student to appropriate DePaul University resources.

Once the student has been seen by a health care professional for the injury (or untoward incident) and completed all reporting processes required by the university and clinical setting, the student should contact his/her health care provider for any further treatment or health care follow-up that is needed. The student may wish to contact the DOS office if the student has concerns or questions.

Student Clinical Requirements

It is mandatory that all students have all of their clinical requirements completed and a copy in their CastleBranch Profile account through www.CastleBranch.com (<http://www.castlebranch.com/>) **by 60 days before the start of NSG 483**. It is the responsibility of the student to insure that all clinical requirements are kept current. Students must submit copies of updated lab results, and renewed skills **PRIOR** to the anniversary of the expiration date. Non-compliance with clinical requirements will result in the student's withdrawal from their clinical course and subsequent delay progression in their program of study. Please see the Clinical Health Requirements (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>). (<https://csh.depaul.edu/academics/nursing/student-resources/Pages/health-requirements.aspx>) The student must submit **COPIES** (NOT ORIGINALS) to Castle Branch.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the criminal background check. As a result, a student will not be able to complete the requirements of the program.

The School of Nursing may not be able to place students in a clinical setting if there are positive findings on the drug screen. As a result, a student will not be able to complete the requirements of the program.

Drug Use and Testing

In accordance with De Paul University policies, the School of Nursing will impose disciplinary sanctions upon any student found to be in violation of laws or policies relating to the unlawful possession, use, or distribution of drugs or alcohol. Nursing students may be required to have a ten-panel drug screen based on clinical affiliates' requirements. Release forms must be signed to have the results sent to the Clinical Placement Coordinator.

If a student's drug test is positive, secondary or confirmatory testing will be performed and the student will be expected to cooperate with interviews and follow-up procedures to ascertain and endeavor to confirm whether there was an explanation for the positive test result that did not

involve illegal conduct, e.g., ingestion of lawful drugs, food, or beverages that could cause positive results.

If the positive test is confirmed and no sufficiently credible explanation of relevant lawful conduct is forthcoming, clinical placement in a clinical course and successful completion of the program will be jeopardized due to failure to qualify for placement and/or successful completion of the program. Students with confirmed positive tests and/or no sufficiently credible explanation of relevant lawful conduct will be advised that the De Paul University School of Nursing cannot place them in a clinical setting. As a result, a student would not be able to complete the requirements of the program.

Access to Student Records

1. A student may have access to his/her personal student record upon request. Confidentiality is maintained with all student files. Release of information is granted upon written request by the student.
2. No specific or detailed information concerning specific medical diagnoses will be provided to faculty outside the department, administrators, or even parents, without the expressed written permission of the individual in each case. This position with respect to health records is supported by amendment to the Family Education Rights and Privacy Act of 1974. Health officials and other institutional officers must remember that all confidential medical/health care information is protected by statutes and that any unauthorized disclosure may create legal liability.

Graduation

DePaul University awards degrees to students who successfully completed their program. All requirements of the University, College, and SON must be met.

The student must Apply to Graduate (<https://offices.depaul.edu/depaul-central/records/Pages/apply-for-graduation.aspx>) for degree conferral and commencement by the deadline posted in the academic calendar.

Adult-Gerontological Nurse Practitioner Track, Nursing (MSN)

The Adult-Gerontological Nurse Practitioner track is designed to prepare nurses for advanced practice as an Adult Gerontology Nurse Practitioner with advanced knowledge and applicable skill in adult and gerontological primary care. In this track, the graduate will be able to pursue national certification as an Adult-Gerontology Nurse Practitioner. Contained within the coursework for the MSN degree are ten advanced practice nursing courses. The degree program culminates in 600 clinical hours.

Courses Counting Toward BSN and MSN

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 401	NURSING RESEARCH I	4
NSG 428	PATHOPHYSIOLOGY FOR ADVANCED PRACTICE	4
NSG 446	ETHICAL AND POLITICAL ENGAGEMENT IN NURSING	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 554	INFORMATICS AND TECHNOLOGY APPLICATIONS	4

The non-nursing baccalaureate ADN student does not need to complete the BS in Nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

Undergraduate Requirements

Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

In anticipation of earning the MSN, students must apply for degree conferral of the BSN.

Core Requirements

Course	Title	Quarter Hours
NSG 481	BIostatISTICS AND EPIDEMIOLOGY	4
NSG 484	PHARMACOLOGY FOR ADVANCED PRACTICE	4
NSG 598	GRADUATE RESEARCH SYNTHESIS	4

Track Requirements

Course	Title	Quarter Hours
NSG 474	PRIMARY CARE OF THE ADULT AND OLDER ADULT	4
NSG 478	CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE	4
NSG 479	ADVANCED GERONTOLOGICAL NURSING	4
NSG 483	PRACTICUM IN POPULATION-BASED NURSING PRACTICE I	4
NSG 487	PRACTICUM IN POPULATION-BASED NURSING PRACTICE II	4
NSG 488	PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING	4
NSG 490	PRACTICUM IN POPULATION-BASED NURSING PRACTICE III	4
NSG 555	PHARMACOTHERAPEUTIC IMPLICATIONS FOR THE OLDER ADULT	2

Family Nurse Practitioner Track, Nursing (MSN)

The Family Nurse Practitioner track is designed to prepare nurses for advanced practice as a Family Nurse Practitioner with advanced knowledge and applicable skill in population specific primary care. In this track, the graduate will be able to pursue national certification as a Family Nurse Practitioner. Contained within the coursework for the MS degree are ten advanced practice nursing courses. The degree program culminates in 600 clinical hours.

Courses Counting Towards BSN and MSN

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 401	NURSING RESEARCH I	4
NSG 428	PATHOPHYSIOLOGY FOR ADVANCED PRACTICE	4
NSG 446	ETHICAL AND POLITICAL ENGAGEMENT IN NURSING	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 554	INFORMATICS AND TECHNOLOGY APPLICATIONS	4

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

In anticipation of earning the MS, students must apply for degree conferral of the BSN.

Undergraduate Requirements

Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

Core Requirements

Course	Title	Quarter Hours

NSG 484	PHARMACOLOGY FOR ADVANCED PRACTICE	4
NSG 598	GRADUATE RESEARCH SYNTHESIS	4

Track Requirements

Course	Title	Quarter Hours
NSG 473	PRIMARY CARE OF THE INFANT, CHILD, AND THE ADOLESCENT	4
NSG 474	PRIMARY CARE OF THE ADULT AND OLDER ADULT	4
NSG 475	WOMEN'S REPRODUCTIVE HEALTH AND GYNECOLOGY	4
NSG 478	CLINICAL MANAGEMENT OF ACUTE AND CHRONIC ILLNESSES IN PRIMARY CARE	4
NSG 483	PRACTICUM IN POPULATION-BASED NURSING PRACTICE I	4
NSG 487	PRACTICUM IN POPULATION-BASED NURSING PRACTICE II	4
NSG 488	PROFESSIONAL ISSUES & RESEARCH IN POPULATION-BASED ADVANCED PRACTICE NURSING	4
NSG 490	PRACTICUM IN POPULATION-BASED NURSING PRACTICE III	4

Nursing Administration Track, Nursing (MSN)

The Nursing Administration track is designed to prepare a manager and leader in nursing and healthcare with advanced knowledge and applicable skills in communication and relationship building, healthcare environment, leadership, professionalism, and business management. The graduate will be able to pursue national certification as a nurse executive and a career in nursing administration. Contained within the coursework for the MS degree are four interprofessional health administration courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health administration. The degree program culminates in a capstone experience in nursing administration including a 105-hour practicum.

Courses Counting Toward BSN and MSN

Course	Title	Quarter Hours
NSG 400	THEORETICAL COMPONENTS OF NURSING	4
NSG 401	NURSING RESEARCH I	4
NSG 431	HEALTH PROMOTION FOR FAMILIES AND COMMUNITIES	4
NSG 446	ETHICAL AND POLITICAL ENGAGEMENT IN NURSING	4
NSG 464	HEALTH ASSESSMENT FOR ADVANCED PRACTICE	6
NSG 554	INFORMATICS AND TECHNOLOGY APPLICATIONS	4

The non-nursing baccalaureate ADN student does not need to complete the BS in nursing but takes three undergraduate bridge courses (NSG 330, NSG 376, and NSG 377) to meet AACN Essentials of the Baccalaureate prepared Nurse before progressing to the graduate degree portion of the program. The BSN prepared nurse immediately begins in the graduate portion of the program.

Undergraduate Requirements

Where applicable, students must also complete the Baccalaureate requirements, including any Liberal Studies requirements not already met.

In anticipation of earning the MSN, students must apply for degree conferral of the BSN.

Course	Title	Quarter Hours
NSG 429	PATHOPHYSIOLOGY & APPLIED PHARMACOLOGY	4
NSG 481	BIOSTATISTICS AND EPIDEMIOLOGY	4
NSG 598	GRADUATE RESEARCH SYNTHESIS	4

Track Requirements (4 core and 1 elective)

Course	Title	Quarter Hours
Core Requirements:		
NSG 561	EVIDENCE BASED MANAGEMENT ¹	3

NSG 564	ORGANIZATIONAL BEHAVIOR AND HUMAN RESOURCES ¹	3
NSG 566	CURRENT TOPICS IN HEALTHCARE ADMINISTRATION AND MANAGEMENT ¹	3
NSG 596	CAPSTONE IN NURSING ADMINISTRATION	4
Electives:		
NSG 565	STRATEGIC PLANNING AND LEADERSHIP IN HEALTHCARE ¹	3
NSG 567	HEALTHCARE POLICY AND DELIVERY SYSTEMS ¹	3

¹ This course is offered through a consortium agreement with Rosalind Franklin University and follows the Rosalind Franklin calendar.

Nursing Education Track, Nursing (MSN)

The Nursing Education track is designed to prepare a clinical expert with skills in nursing curriculum development, course design, instruction, and evaluation. The graduate will be able to pursue national nurse educator certification and teach in undergraduate nursing programs and/or in-service education. Contained within the coursework for the MSN degree are five interprofessional health professions education courses taught by Rosalind Franklin University of Medicine and Science which confers a graduate certificate in health professions education. The degree program has two clinical learning experiences, which culminate in a capstone experience in nursing education. A total of 225 clinical hours are in the degree.

Courses Counting Toward BSN and MSN

Occupational Therapy (MS)

The Accreditation Council for Occupational Therapy Education (ACOTE) requires programs to name curricular threads that provide the foundation and structure to the curricular design. Threads represent skills or areas of knowledge that are developed throughout the curriculum. The threads are woven throughout the curriculum and together support the mission and philosophy of the program. Each thread is addressed by courses progressively with increasing complexity as students move through the curriculum. Each thread is tied to an overall learning objective.

Program Requirements	Quarter Hours
Degree Requirements	102
Total hours required	102

Learning Outcomes

- Students will facilitate change to transform conditions necessary for access, inclusion, and social justice within health, educational, and community settings for diverse, vulnerable and underestimated individuals, groups, and populations.
- Students will demonstrate and communicate the distinct value and quality outcomes of culturally relevant occupation-based interventions across practice settings to improve health and participation for persons, groups, and communities.
- Students will demonstrate a strong sense of identity as an occupational therapist and their role across settings and on interprofessional teams.
- Students will evaluate, apply, and create evidence to provide and demonstrate effective occupational therapy evaluation, intervention, and outcomes rooted in real life situations.

Degree Requirements

The Master of Science in Occupational Therapy (MSOT) program offers a balanced curriculum grounded in the Vincentian mission to prepare future Occupational Therapists with the knowledge, skills, and experiences necessary to provide OT services to children and adults with various

developmental, physical, cognitive, and psychological conditions across different practice settings. Course elements are designed to provide students with the knowledge base pertinent to the field, while simultaneously fostering the critical thinking, problem solving, and self-confidence that contribute to effective independent clinical practice. All required courses for the MSOT program will be new courses designed to meet the requirements set forth by the ACOTE. The proposed curriculum includes both didactic and clinical requirements for graduation.

Course	Title	Quarter Hours
OT 411	THEORETICAL FOUNDATIONS OF OCCUPATIONAL THERAPY	4
OT 421	INTER-PROFESSIONAL COMMUNICATION AND TEAMS	2
OT 431	NEURO PROCESSING FOR OCCUPATIONAL PERFORMANCE	4
OT 441	MOVEMENT AND FUNCTION FOR OCCUPATIONAL PERFORMANCE	4
OT 451	POSITIONING AND TECHNOLOGY TO ENABLE OCCUPATIONAL PERFORMANCE	4
OT 461	MANAGEMENT AND LEADERSHIP ACROSS SETTINGS	4
OT 412	DISABILITY STUDIES	2
OT 422	OCCUPATIONAL JUSTICE	2
OT 432	ETHICS AND ADVOCACY	4
OT 442	THINKING IN SYSTEMS	2
OT 452	COMMUNITY PRACTICE WITH GROUPS AND POPULATIONS	4
OT 413	MENTAL HEALTH AND WELL-BEING I	3
OT 414	MENTAL HEALTH AND WELL-BEING II	4
OT 423	OT PROCESS WITH CHILDREN AND ADOLESCENTS I	3
OT 424	OT PROCESS WITH CHILDREN AND ADOLESCENTS II	4
OT 415	EVIDENCE BASED PRACTICE I	4
OT 425	EVIDENCE BASED PRACTICE II	4
OT 435	SCHOLARLY INQUIRY	4
OT 445	EVIDENCE BASED PRACTICE PROJECT READY	4
OT 455	EVIDENCE BASED PRACTICE PROJECT	4
OT 471	PRACTICE READY FOR FIELDWORK AND BEYOND	2
OT 416	LEVEL I FIELDWORK A: MENTAL HEALTH AND WELL-BEING	1
OT 426	LEVEL I FIELDWORK B: CHILDREN AND ADOLESCENTS	1
OT 436	LEVEL I FIELDWORK C: ADULTS & AGING	1
OT 417	LEVEL II FIELDWORK A	8
OT 427	LEVEL II FIELDWORK B	8
OT 433	OT PROCESS WITH ADULTS I	4
OT 434	OT PROCESS WITH ADULTS II	3
OT 453	OLDER ADULTS & AGING	4

The MSOT program is a continuous, full-time program of study that spans eight quarters, or 24 months from admission to graduation. Graduates will take the National Board Certified Occupational Therapy (NBCOT)

exam, a national assessment of discipline specific content knowledge, and then be eligible to apply for state licensure.

Master of Science in Occupational Therapy (MSOT) Program Mission

The Master of Science in Occupational Therapy (MSOT) program is guided by the Catholic Vincentian tradition which draws on diversity as a source of learning and understanding; nurtures an inclusive and welcoming community; and calls for action for the collective good. The mission of the MSOT program is to prepare occupational therapists to be effective and responsive agents of change addressing the diverse and most urgent needs of the Chicago community and beyond with a special concern for the dignity of those who have historically been and currently are underestimated by society. Grounded in occupation and evidence, students will become life-long learners ready to practice social responsibility and work for the collective good of society.

MSOT Program Vision: To be nationally known as an inclusive and innovative occupational therapy program rich in diverse ways of knowing and learning, graduating transformative leaders ready to make the world a better place.

MSOT Program Promise: The DePaul MSOT program commits to deliver an exceptional community engaged curriculum in which students will feel challenged, capable, and supported by dedicated faculty so that students are motivated and prepared to promote equity and justice for occupational participation that contribute to the health and well-being of communities.

Outcomes for DePaul MSOT Program Graduates

- Students will facilitate change to transform conditions necessary for access, inclusion, and social justice within health, educational, and community settings for diverse, vulnerable and underestimated individuals, groups, and populations.
- Students will demonstrate and communicate the distinct value and quality outcomes of culturally relevant occupation-based interventions across practice settings to improve health and participation for persons, groups, and communities.
- Students will demonstrate a strong sense of identity as an occupational therapist and their role across settings and on inter-professional teams.
- Students will evaluate, apply, and create evidence to provide and demonstrate effective occupational therapy evaluation, intervention, and outcomes rooted in real life situations.

Accreditation

The entry-level occupational therapy master's degree program has applied for accreditation and has been granted Candidacy Status by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 6116 Executive Boulevard, Suite 200, North Bethesda, MD 20852-4929. ACOTE's telephone number c/o AOTA is (301) 652-AOTA and its web address is www.acoteonline.org.

The program must have a pre-accreditation review, complete an on-site evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure in order to practice; however, state licenses are usually based on the results of the

NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure. Students must complete 24 weeks of Level II fieldwork within 12 months following completion of the didactic portion of the program.

Graduation Requirements

A well-balanced, unified, and complete program of study is required, including evidence of successful achievement of both academic and clinical skill development. The program utilizes a cohort model, suggesting that all students move through the curriculum at a similar rate. The Master of Occupational Therapy degree requires successful completion of 102 graduate credits.

- A cumulative GPA of 3.0
- A minimum of a C in all courses (students may not repeat more than two courses and no course may be repeated more than once).
- Successful completion of 24 weeks of supervised Level II Fieldwork
- Completion of all requirements within five years of initial matriculation

Graduation with Distinction

A minimum cumulative GPA of 3.75 in OT graduate coursework and successful completion of the comprehensive examination is required for graduation with distinction.

Student Probation and Dismissal

Probation

A graduate student must maintain a cumulative GPA of 3.00 or greater to remain in good standing. A student failing to maintain a minimum cumulative GPA of 3.0 will be placed on academic probation. If the cumulative GPA is raised to at least 3.00 at the end of the next academic quarter, the student is no longer on probation. If the cumulative GPA has not risen to 3.00 at the end of the next academic quarter, the student will be dismissed from the program. A student may be placed on probation a total of two times. If their GPA falls below a 3.00 a third time, the student will be dismissed from the program.

Repeating a Course

If a student receives a grade of less than C, the student will be required to repeat the course. Up to two courses can be repeated one time each. Repeating a course most likely will delay a student's ability to progress in the curriculum. Students who do not achieve a C or higher in the repeated course will be dismissed from the program.

Dismissal

Students may petition for re-entry into the OT program to the Program Director. It is recommended that the student meet with their advisor prior to submitting a petition for re-admittance into the program. The advisor may help the student prepare their petition. The petition should address why the student believes they will be successful in the program and any changes or steps they have taken to increase their likelihood for success. The OT faculty will meet to discuss the petition and respond to the petition in one of four ways:

1. request more information from the student
2. accept the petition in full
3. accept the petition with modifications
4. reject the petition

Students can be re-admitted into the OT program one time. If a readmitted student is dismissed a second time, they are not allowed to petition for re-entry.

Complaints and Grievances

DePaul University emphasizes the development of a full range of human capabilities and appreciation of higher education as a means to engage cultural, social, religious, and ethical values in service to others.

In support of this mission, DePaul University is committed to treating every member of its community with dignity, justice and respect fostering a positive learning environment and providing quality service. It is important for students to know how to address concerns and issues that may be contrary to this commitment.

Complaints or concerns that a policy or procedure has been incorrectly or unfairly applied can often be resolved through an initial conversation with the staff, faculty member or department where the issue originated and his/her supervisor if necessary.

DePaul has established a number of policies and procedures for responding to particular types of concerns. Contact information for these policies and procedures can be found below:

- Concerns about grades are addressed through the University's Grade Challenge policy. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about academic integrity are addressed through the Academic Integrity policy and process. Detailed information is available on the Academic Integrity website.
- Concerns related to student conduct are addressed through the Code of Student Responsibility, and the Student Conduct Process. Detailed information is available in the Academic Handbook section of the University Catalog.
- Concerns about discrimination or harassment on the basis of a variety of protected characteristics are addressed by the Office of Institutional Diversity and Equity through the Anti-Discrimination and Anti-Harassment Policy and Procedures
- Concerns based on sexual violence, sexual harassment, or other sex discrimination (Title IX) are addressed through the DePaul's Title IX Coordinator located in the Office of Institutional Diversity. Detailed information is available on the Office of Public Safety website or in the Code of Student Responsibility section of the University Catalog.
- Concerns about the confidentiality of education records (FERPA-Family Educational Rights and Privacy Act), are addressed through the Office of the University Registrar.

Concerns about academic issues relating to faculty or staff can often be resolved through an initial conversation with the faculty, staff member or student employee involved in the situation. Therefore, students with academic complaints or concerns should address the issue following the steps indicated below:

1. The issue should first be discussed with the faculty or staff member.
2. If this does not resolve the issue the student should then discuss the issue with the department chairperson or program director for faculty issues or the individual's supervisor for staff. If you are unsure of the appropriate college contact, please see below for a directory of College and College Dean's Offices.
3. If the issue is still not resolved, the student should then discuss the matter with the Office of the Dean of the faculty member's college for faculty issues or the department supervisor for staff issues.

4. If the issue is still not resolved, the student may discuss the issue with the Office of the Provost.

The Dean of Students Office is a central location to which students can turn with problems they have been unable to resolve. The Dean of Students Office hears student concerns and helps students understand their options for resolving the concerns and/or locating appropriate services: <http://offices.depaul.edu/student-affairs/about/departments/Pages/dos.aspx>.

In addition, the University Ombudsperson is available to provide consultation about conflict resolution, to clarify policies and procedures, and to help find the right person or department to respond to questions. Students may also always choose to report concerns or misconduct through the University's confidential reporting mechanisms: 877.236.8390 or <https://compliance.depaul.edu/hotline/index.asp>

The U.S. Department of Education requires institutions offering online education to provide contact information for students to file complaints with its accreditor and state agencies. Contact information for DePaul's regional accreditor (the Higher Learning Commission), programmatic/specialized accreditor and state agencies is available in the Handbook section of the University Catalog.

Procedure to File a Complaint with ACOTE

If all processes within DePaul University have been exhausted, a student may file a complaint with the Accreditation Council for Occupational Therapy Education (ACOTE). The student must provide evidence that they have followed the DePaul University's complaint or grievance policy and made reasonable efforts to resolve the issue. Comments or complaints about the program may be made by writing to the ACOTE Chairperson, c/o the AOTA Accreditation Department. The complaint must be submitted as an attachment to an email addressed to accred@aota.org and must include a signed complaint form, "Complaint Against a Program Subject to ACOTE Accreditation."

A complaint against an educational program must: a. describe the nature of the complaint and the related accreditation standards or accreditation policies or procedures that the complainant believes are not being met by the program, including any evidence or documents that might substantiate the complaint; b. provide documentation that the complainant has followed the academic program's complaint or grievance policy and made reasonable efforts to resolve the complaint, or alternatively information that demonstrates such efforts would be unavailing; and c. be signed by the complainant. (The confidentiality of the complaining party is protected by AOTA Accreditation staff unless release of identity has been authorized, or disclosure is required by legal action.) The ACOTE Standards can be downloaded from: <https://www.aota.org/~media/Corporate/Files/EducationCareers/Accredit/StandardsReview/2018-ACOTE-Standards-Interpretive-Guide.pdf>.

Transfer Credits

No graduate courses may be transferred from another institution for this degree.

Undergraduate Courses

No undergraduate courses shall count toward the graduate degree.

Withdrawals

Withdrawals

A student who withdraws from an occupational therapy course while in good standing cannot progress in the sequenced curriculum until that

course has been successfully completed. Exceptions may be identified in consultation with the Program Director, the course faculty, and the student's academic advisor. A student who withdraws from an OT course who is 'not in good standing' (with a grade of less than C or on probation) at the time of withdrawal, will be referred to the Program Director. The Program Director and academic advisor will review the student's past and current performance and elicit recommendations from the course faculty. The course faculty, academic advisor, and Program Director will meet to establish a contract for academic improvement. The contract will be shared with and signed by the student. Such students may not progress in the sequenced curriculum until the course has been retaken and successfully completed.

A student may withdraw from an OT course 'not in good standing' (with a grade of less than C) only once during their program of study. A second such withdrawal will result in dismissal from the program. A student who has a grade of less than C at mid-quarter may be placed on contract for an intervention plan by the instructor. The student must satisfactorily fulfill all course and contract requirements by the end of the quarter of contract initiation in order to progress in the program. A student currently enrolled in a degree program in which revisions are approved while their studies are in progress may elect to formally adopt the revised requirements.

Requesting a Leave of Absence

Students who need to interrupt their studies for personal, health or other reasons may request a leave of absence for up to one full year. The request should be made to the Program Director. Depending on circumstances and estimated length of absence, the Program Director or student's academic advisor may recommend additional action to complete the request process.

Returning from a Leave of Absence

Students who wish to return to the program following a leave of absence will need to submit a written request for resuming coursework to the Program Director. It is the student's responsibility to send a copy of such request to the Program Director and the student's faculty advisor. This written request should demonstrate the resolution of the extenuating circumstances contributing to the original need to leave the Occupational Therapy Program. This request for reinstatement must be made no less than 6 weeks prior to resuming the OT course sequence. Students will be notified in writing regarding the decision concerning their reentry to the program.

Time Limitation

The MS degree in Occupational Therapy is designed to be completed in 24 months. The maximum time to complete this degree is four years from first quarter of enrollment.

Complete Handbook

The text above represents key sections of the complete Student Handbook for the Master of Science in Occupational Therapy (<https://csh.depaul.edu/academics/occupational-therapy/graduate/occupational-therapy-ms/Pages/handbook.aspx>). The complete handbook may be accessed through the program's website.

Optimization and Operations Research Graduate Certificate

Students pursuing a graduate certificate in Optimization and Operations Research need to complete four graduate-level courses (16 credit hours). Below is the list of the three core required courses and elective courses.

Course	Title	Quarter Hours
MAT 468	MATHEMATICS FOR FINANCE	4
MAT 487	OPERATIONS RESEARCH: LINEAR PROGRAMMING	4
MAT 488	OPERATIONS RESEARCH: OPTIMIZATION THEORY	4
Select one of the following:		4
MAT 450	ADVANCED STATISTICAL COMPUTING	
MAT 451	PROBABILITY AND STATISTICS I	
MAT 455	STOCHASTIC PROCESSES	
MAT 459	SIMULATION MODELS AND MONTE CARLO METHOD	
MAT 484	MATHEMATICAL MODELING	
MAT 494	GRAPH THEORY	
MAT 644	DIFFERENTIAL EQUATIONS	

In special circumstances and with approval of the graduate program director, an elective course can be substituted with other relevant courses.

Students in this certificate program must earn a grade of C- or higher in all graduate courses and finish with a cumulative GPA of 2.0 or higher.

The requirements for admission into this certificate program are:

- Bachelor's degree from an accredited institution
- Successful completion (with a grade of C- or higher) of the following undergraduate coursework:
 - A year of single-variable calculus (equivalent of MAT 150-151-152)
 - A course in multivariable calculus (equivalent of MAT 260)
 - A course in linear algebra (equivalent of MAT 262)
 - A course in computer programming (e.g., C++, Python, Java, or R)

The admission process and review of applicants is managed by the Office of Graduate Admission via the online application and follows procedures similar to those used for existing graduate programs offered by the Department of Mathematical Sciences.

Organizational Communication (BA)

The BA in Organizational Communication explores effective and participatory communication across organizational contexts. Students are encouraged to identify and explain theoretical frameworks operative in organizational and group communication; apply multiple theoretical perspectives to a variety of organizational and group contexts and events; express ideas and information competently in written or oral form with clarity and organization; appraise similarities and differences among multicultural and global communication contexts and events; formulate appropriate communicative messages for group and organizational effectiveness.

The curriculum is both deep and broad, enabling students to gain practical expertise in their area of interest while gaining a working knowledge of related areas. The curriculum focuses on ethical practice and the convergence of traditional and new media, preparing students for professional practice in an evolving marketplace. Students learn to express themselves well in oral and written communications, to think critically about communication events all around them, to develop skills

valuable in the workplace, and to communicate effectively in a diverse world.

Program Requirements	Quarter Hours
College Core Requirements	16
Liberal Studies Requirements	84
Major Requirements	40
Open Electives	52
Total hours required	192

Learning Outcomes

Students will be able to:

- Explain group organizational communication from multiple theoretical perspectives.
- Apply group organizational concepts in explaining communication behavior.
- Design manage appropriate messages for organizational stakeholders.
- Recognize diversity as a dynamic force in group organizational contexts.

College Core Requirements (p. 880)
Modern Language Requirement (p. 880)
Modern Language Option (p. 880)

All majors in the College of Communication consist of a four-course common core plus an additional combination of program requirements and electives.

College Core Requirements

Four core courses are required of all College of Communication students:

Course	Title	Quarter Hours
CMN 101	INTRODUCTION TO HUMAN COMMUNICATION	4
CMN 102	INTRODUCTION TO MASS COMMUNICATION	4
CMN 103	INTERCULTURAL COMMUNICATION	4
CMN 104	PUBLIC SPEAKING	4

Students are encouraged to complete all four prior to taking additional coursework in the major.

Modern Language Requirement

Students who intend to graduate with a Bachelor of Arts degree in the College of Communication will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing the last course in a second year high school course work in a modern language or Latin
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language

- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language (must be completed during high school)
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement. Students with some modern language training should consult with the Modern Language Department about the course with which they should begin. Students with little or no previous work in the language will be required to complete the entire three-course introductory sequence.

Modern Language Option

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level necessary to meet the College’s modern language requirement. Students selecting the option may substitute a three-course language sequence for three learning domain courses, or two upper-level courses in the same language for two learning domain requirements. Modern language option waivers cannot be applied to courses in the Math and Computing Domain or courses in the Scientific Inquiry domain. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Required		4

Senior Year**Capstone**

CMN 396	CAPSTONE IN COMMUNICATION ¹	4
---------	--	---

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains**Arts and Literature (AL) (p. 1322)**

- 2 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required

Note

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements**

All Organizational Communication majors must complete the four core courses required of all College of Communication students. In addition, they must take two required courses and choose six classes from among the Organizational Communication course offerings. Organizational Communication majors must also take any two electives within the

College of Communication. All Organizational Communication majors must complete a total of 14 classes, or 56 credit hours.

Course	Title	Quarter Hours
CMNS 251	ORGANIZATIONAL COMMUNICATION	4
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	4
Select six of the following:		24
CMN 292	ADOBE CREATIVE CLOUD WORKSHOP (2.0 quarter hours) ²	
CMN 394	MAKING THE MOST OF YOUR COMMUNICATION INTERNSHIP	
CMN 395	COMMUNICATION INTERNSHIP SPECIAL TOPICS	
CMN 397	RESEARCH PRACTICUM ¹	
CMN 399	INDEPENDENT STUDY ¹	
CMNS 212	EFFECTIVE COMMUNICATION IN TEAMS AND SMALL GROUPS	
CMNS 291	RESEARCH METHODS	
CMNS 303	TOPICS IN ORGANIZATIONAL AND GROUP COMMUNICATION	
CMNS 315	HEALTH COMMUNICATION	
CMNS 316	COMMUNICATION AND DECISION-MAKING IN GROUPS AND TEAMS	
CMNS 329	PERSUASION	
CMNS 343	WORK/FAMILY COMMUNICATION	
CMNS 344	MINDFULNESS	
CMNS 351	EFFECTIVE COMMUNICATION FOR THE HUMAN RESOURCES PROFESSIONAL	
CMNS 352	COMMUNICATION AND THE CORPORATE CULTURE	
CMNS 353	COMMUNICATION AND ORGANIZATIONAL CHANGE	
CMNS 354	EMPLOYMENT INTERVIEWING	
CMNS 355	CONFLICT MANAGEMENT	
CMNS 356	COMMUNICATION CONSULTING	
CMNS 357	DARK SIDE OF ORGANIZATIONAL COMMUNICATION	
CMNS 358	DIVERSITY, LEADERSHIP, & TEAM BUILDING	
CMNS 359	THE FUTURE OF REMOTE AND VIRTUAL TEAMS	
CMNS 360	RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY	
CMNS 361	GENDER AND COMMUNICATION	
CMNS 382	APPLIED RESEARCH METHODS IN COMMUNICATION STUDIES	
CMNS 394	ORGANIZATIONAL COMMUNICATION PRACTICUM	
PRAD 255	PUBLIC RELATIONS	
Select two electives (8 credits) from any College of Communication offerings		8

¹ Students may take up to 4 hours of credit in this course toward graduation requirements.

² A maximum of 8 credits from two credit College of Communication courses can be applied to major requirements.

Internship Credit

Students in the major may take CMN 394 and/or CMN 395 (when work relates to the major). In order to take CMN 394 or CMN 395, students must have completed two of the four communication core classes (CMN 101, CMN 102, CMN 103, CMN 104), two courses in the chosen major and have fulfilled internship program eligibility requirements.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Organizational Communication 3+3 (BA+JD)

In the 3 + 3 BA/JD Program, high-achieving first-year incoming undergraduate students are admitted simultaneously to the College of Communication and the College of Law. Students complete their first three years in the College of Communication and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA/JD students meet regularly with advisors in both colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Communication during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Communication for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study. Students who enrolled in the BA+JD program prior to 2022 must achieve a cumulative GPA of 3.35 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.35 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal

system as well as to complement their undergraduate course of study. The courses are as follows:

- PRELAW 150 THE PRACTICE OF LAW
- PRELAW 151 RECENT CONTROVERSIES IN THE LAW
- PRELAW 152 THINKING ABOUT THE LAW

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Participating Majors

The BA/JD Program is available for students pursuing the following majors:

- Communication and Media (p. 247)
- Communication and Technology (p. 256)
- Communication Studies (p. 259)
- Journalism (p. 676)
- Media and Cinema Studies (p. 807)
- Organizational Communication (p. 879)
- Public Relations and Advertising (p. 969)
- Sports Communication (p. 1116)

For admission requirements and information, contact the Office of Admission (<https://www.depaul.edu/admission-and-aid/Pages/default.aspx>).

Organizational Communication (Minor)

After the completion of the coursework in this minor program, students should be able to:

- Identify and explain theoretical frameworks operative in organizational and group communication
- Apply multiple theoretical perspectives to a variety of organizational and group contexts and events
- Express ideas and information competently in written or oral form with clarity and organization

Course Requirements

A minor in Organizational Communication requires students to complete a total of six courses (24 credits). To complete the minor, students must take:

Course	Title	Quarter Hours
CMNS 251	ORGANIZATIONAL COMMUNICATION	4
CMNS 201	BUSINESS AND PROFESSIONAL COMMUNICATION	4
or CMN 104	PUBLIC SPEAKING	
Select four electives from the following:		16
CMNS 212	EFFECTIVE COMMUNICATION IN TEAMS AND SMALL GROUPS	
CMNS 290	COMMUNICATION WORKSHOP (VARIABLE TOPICS)	
CMNS 303	TOPICS IN ORGANIZATIONAL AND GROUP COMMUNICATION	
CMNS 315	HEALTH COMMUNICATION	
CMNS 316	COMMUNICATION AND DECISION-MAKING IN GROUPS AND TEAMS	
CMNS 343	WORK/FAMILY COMMUNICATION	
CMNS 344	MINDFULNESS	
CMNS 351	EFFECTIVE COMMUNICATION FOR THE HUMAN RESOURCES PROFESSIONAL	
CMNS 352	COMMUNICATION AND THE CORPORATE CULTURE	
CMNS 353	COMMUNICATION AND ORGANIZATIONAL CHANGE	
CMNS 354	EMPLOYMENT INTERVIEWING	
CMNS 355	CONFLICT MANAGEMENT	
CMNS 356	COMMUNICATION CONSULTING	
CMNS 357	DARK SIDE OF ORGANIZATIONAL COMMUNICATION	
CMNS 358	DIVERSITY, LEADERSHIP, & TEAM BUILDING	
CMNS 359	THE FUTURE OF REMOTE AND VIRTUAL TEAMS	
CMNS 360	RELATIONAL, GROUP, AND ORGANIZATIONAL THEORY	
CMNS 382	APPLIED RESEARCH METHODS IN COMMUNICATION STUDIES	

Peace, Justice and Conflict Studies (BA)

The Peace, Justice and Conflict Studies Program offers students a BA major curriculum that is rooted in the values of active and strategic nonviolence. It helps them reflect critically on the origins and causes of conflict and violence, whether direct, cultural, or institutional. It studies social injustice and other forms of systemic violence, introducing nonviolent strategies for resolving interpersonal, communal, and international conflicts in order to promote the common good and the healing needed for community work. The Program invites frank debate about the efficacy of nonviolent in comparison with violent approaches to social change. The inclusion of conflict theory and citizen-led nonviolent

intervention at the core of this program is distinctive. The Program emphasizes hands-on, experiential components in the introductory courses, the final seminars and internship, and the workshops, which emphasize skill training.

Students and faculty in Peace, Justice and Conflict Studies question what constitutes a just society and world and how attitudes toward social justice and violence reflect and reveal the values, beliefs, prejudices, assumptions, and perceptions of United States culture and those of other nations. Students are expected to gain competency in dealing with situations of conflict and injustice by mastering the theoretical and intellectual frameworks related to them, by learning to interpret and analyze real life situations in their complexity, by understanding how to build strategies for consensus-building and advocacy, and by understanding various research methodologies and the use of media and creative outlets.

Students whose interests and career goals revolve around strategic nonviolence, but who may not want to major primarily in Peace, Justice and Conflict Studies, can consider a minor or a secondary major. (Discussions with home college/major advisors about how this would look are highly recommended.) Students who pursue the major are well prepared for graduate work in the humanities or social sciences, as well as for professional training in law, public service, or business.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	48
Open Electives	60
Total hours required	192

Learning Outcomes

Students will be able to:

- Analyze the origins of conflict and violence and the underlying values or different theories that explain them, such as human rights or capacities discourse, and including the various levels where conflict occurs, such as the global, international, intra-national, local, and interpersonal levels.
- Evaluate nonviolent approaches to peace building, conflict resolution, and social change for the common good with the aim of protecting individuals' rights.
- Explain the theories of justice and its basic forms, such as social, distributive and contributive, environmental, restorative, post-conflict or transitional, and transformational justice, and assess them in relation to real circumstances of individual/direct and structural violence and efforts for social change and a just world.
- Integrate theories with an experientially based understanding of the realities of peace building, conflict resolution, and working for viable social change, by means of a critical recognition of the effectiveness of different intervention strategies.
- Practice effective skills and tools for resolving conflict between individuals and social groups, council circles, disciplinary and interdisciplinary research, narrative and performative approaches, and psychological assessments, to obtain depth in one or two areas of the Peace, Justice, and Conflict Studies curriculum.

College Core Requirements

Study in the Major Field

The student’s course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By “liberal education” the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized “concentration.” The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student’s choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in

high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit.

This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements**

The Peace, Justice and Conflict Studies (PAX) major requires 48 credit hours, as follows:

Course	Title	Quarter Hours
PAX 250 or PAX 251	TOPICS: TOOLS FOR SOCIAL CHANGE ¹ TOPICS: TOOLS TO SUPPORT JUSTICE, HUMAN RIGHTS, AND PEACEBUILDING	4
PAX 210	INTERNATIONAL CONFLICT AND PEACEBUILDING	4
PAX 212	SOCIAL JUSTICE AND SOCIAL CHANGE	4
PAX 214	CONFLICT: STORYTELLING, INTERVENTION, NEGOTIATION	4
PAX 218	HUMAN RIGHTS: PROMISE AND PROBLEMATICS	4
PAX 392	INTERNSHIP IN PEACE, JUSTICE, AND CONFLICT STUDIES (taken for Liberal Studies EL requirement)	4
Select 12 credit hours of Seminars at the 300-level from the following, including any courses crosslisted with them:		12
PAX 300	TOPICS SEMINAR	
PAX 301	THE THEORY AND PRACTICE OF NONVIOLENT ACTION	
PAX 304	TOPICS IN MIGRATION AND FORCED MIGRATION	
PAX 312	TRANSCENDING COEXISTENCE: TRUTH, JUSTICE, AND RECONCILIATION	
PAX 313	BEYOND CONFLICT RESOLUTION: THE EVOLUTION OF GRASSROOTS PEACEBUILDING	
PAX 321	PRINCIPLES AND PRACTICES OF RESTORATIVE JUSTICE	
PAX 330	THE UNIVERSAL DECLARATION OF HUMAN RIGHTS: ORIGINS AND CONTROVERSIES	
PAX 340	HUMAN RIGHTS IN THE GLOBAL CONTEXT: CHALLENGES AND INTERVENTIONS	
PAX 373	LITERATURE OF WAR IN THE 20TH CENTURY	
PAX 380	TOPICS IN NONVIOLENCE	
PAX 381	TOPICS IN PEACE BUILDING	
PAX 382	TOPICS IN SOCIAL JUSTICE AND SOCIAL CHANGE	
PAX 383	TOPICS IN CONFLICT INTERVENTION	
PAX 384	TOPICS IN ACTIVISM AND ADVOCACY	
PAX 385	TOPICS IN HUMAN RIGHTS	
REL 351	LIBERATION THEOLOGY	
WGS 303	GENDER, VIOLENCE AND RESISTANCE	

WGS 320	TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE	
WGS 345	WOMEN, WAR AND RESISTANCE	
WGS 364	POLITICAL AUTOBIOGRAPHY	
Select three electives approved by the PAX program (listed below)		12
PAX 350	CAPSTONE IN PEACE, JUSTICE & CONFLICT STUDIES (taken for Liberal Studies Capstone requirement)	4

¹ PAX 250 (2 courses at 2 credit hours each), PAX 251 (one course for 4 credit hours).

The four-course sequence PAX 210-PAX 212-PAX 214-PAX 218 forms the foundation of the program and should be completed in the first or second year of study. Courses do not need to be done in sequence. An internship, PAX 392, offered once a year in the fall, should be completed prior to taking PAX 350. If possible, students should take the internship prior to senior year. Seniors should plan to take the capstone, PAX 350, offered once a year, usually in winter. Students will complete either two sections of PAX 250 (for 2 credit hours each) or PAX 251 (for 4 credits hours), ideally prior to senior year.

300-Level Seminars

The courses that can be taken as 300-level seminars are approved by the PAX Program Advisory Board. These do not include all 300-level PAX courses, many of which are crosslisted from other departments. For any questions, check with the Program Director, since new ones are approved now and then.

Senior Capstone

PAX 350 is usually offered in winter quarter. Students doing study abroad during winter quarter of their senior year must do the capstone in their junior year. This is required even for a double-major who must do a capstone in the other major.

Program Approved Electives

Courses cross-listed with any course listed below are accepted as PAX electives. Check with the PAX Director for topics courses approved as PAX electives each quarter or to approve a course not on this list. PAX electives also include any courses approved for the PAX minor requirement of a community-based service learning course: See list under the PAX Minor.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Peace, Justice and Conflict Studies (BA), Combined Bachelor's + Master's Degree

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still completing their undergraduate program.

These three graduate level courses will count toward both the undergraduate and graduate degree programs. Each combined degree program has its own application process, which is usually completed during junior year. The graduate courses, taken during senior year, are paid for at the undergraduate tuition rate.

Peace, Justice & Conflict Studies (BA) suggests several options for combined programs. Consult the degree requirements as listed in the catalog under graduate degree programs/combined degrees. Some graduate programs are combinable with any DePaul bachelor's degree; others are limited. The programs that might be of interest to PAX majors would include the following:

- Peace, Justice & Conflict Studies (BA) + Refugee and Forced Migration Studies (MS) (<https://las.depaul.edu/academics/peace-justice-and-conflict-studies/combined-bachelors-masters/Pages/BAPJC-MSRefugee.aspx>) [available to PAX students only]
- Peace, Justice, & Conflict Studies (BA) + Women's and Gender Studies (MA) (<https://las.depaul.edu/academics/womens-and-gender-studies/Pages/combined-degree.aspx>)
- Peace, Justice & Conflict Studies (BA) + Sustainable Urban Development (MA) (<https://las.depaul.edu/academics/sustainable-urban-development/Pages/combined-degree-program.aspx>)

- Peace, Justice & Conflict Studies (BA) + Sustainable Management (MS) (p. 1128)
- Peace, Justice, & Conflict Studies (BA) + Critical Ethnic Studies (MA) (<https://las.depaul.edu/academics/critical-ethnic-studies/Pages/combined-bachelors-masters.aspx>)
- Peace, Justice, & Conflict Studies (BA) + International Public Service (MS) (p. 645)
- Peace, Justice, & Conflict Studies (BA) + Nonprofit Leadership (MNM) (<https://las.depaul.edu/academics/school-of-public-service/combined-degree-programs/Pages/nonprofit-management-ba-mnm.aspx>)

Peace, Justice & Conflict Studies students also have the opportunity to pursue many other combined programs in any college when these are open to all DePaul undergraduate majors, such as the combined programs offered by the College of Communication (<https://communication.depaul.edu/academics/combined-ba-ma-programs/Pages/default.aspx>) (e.g., Journalism; Communication and Media), the College of Business (<https://business.depaul.edu/academics/combined-degrees/Pages/default.aspx>), and other College of Liberal Arts and Social Sciences (<https://las.depaul.edu/academics/Pages/combined-degree-programs.aspx>) graduate programs.

Peace, Justice and Conflict Studies 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve

a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Peace, Justice and Conflict Studies (Minor)

The Peace, Justice and Conflict Studies minor is designed to help students engage in critical examination of the origins and root causes of violence, social injustice and conflict; and to foster dialogue about the efficacy of nonviolent approaches to social change and peace-building. Students may develop a specific concentration of study within the minor curriculum.

Course Requirements

Distribution

There is a total of 24 credit hours required for the minor.

Course	Title	Quarter Hours
Select two core courses from the following:		8
PAX 210	INTERNATIONAL CONFLICT AND PEACEBUILDING	
PAX 212	SOCIAL JUSTICE AND SOCIAL CHANGE	

PAX 214	CONFLICT: STORYTELLING, INTERVENTION, NEGOTIATION

REL 259	RELIGION AND SOCIAL ENGAGEMENT	
REL 351	LIBERATION THEOLOGY	
WGS 320	TRANSFORMATIVE JUSTICE: THEORY AND PRACTICE	
WGS 352	GENDER, COMMUNITY, AND ACTIVISM: COMMUNITY-BASED LEARNING IN WGS	
WGS 392	INTERNSHIP	
WRD 377	WRITING AND SOCIAL ENGAGEMENT	

¹ PAX 250 (2 courses at 2 credit hours each), PAX 251 (one course for 4 credit hours).

Students majoring in Peace, Justice and Conflict Studies (BA) are restricted from earning this minor.

Performance Program Certificate

The purpose of the program is to provide an intensive post-master's degree performance experience for a small number of highly accomplished performers. Entry into the program is based on evidence of ability to be successful in post-graduate level performance study. Other criteria include, but are not limited to:

- Completion of a Master of Music in performance degree or equivalent from an accredited institution.
- Three letters of recommendation.
- An entrance audition which demonstrates performance ability at the post-master's level.

Please check the School of Music Admission website for full requirements.

There are two primary components to the certificate in performance program. First, applied music (private instruction), and second, related studies. Related study will often consist of participation in the appropriate ensembles and additional academic classes in the School of Music. The course requirements for the certificate in performance appear below:

- Applied Music (18 credits)
- Related Study (18 credits)
- Recital (0 credits)

Gainful Employment Disclosure

This graduate certificate program is approved as a Gainful Employment Program through the US Department of Education and is, therefore, eligible for Federal Student Aid.

Performance Studies (Minor)

The Performance Studies minor provides an overview of the historical importance of performance for social, cultural and personal expression. Students will gain a critical understanding of performance across a range of disciplines.

Course Requirements

The Performance Studies Minor requires students to complete six courses (24 credits).

Course	Title	Quarter Hours
CMNS 230	PERFORMANCE: COMMUNICATION, CREATIVITY AND THE BODY	4
Select five of the following:		20
ACT 290	ACTING AND PERFORMANCE	
CMNS 308	TOPICS IN INTERCULTURAL COMMUNICATION (department approval required)	

CMNS 339	PERFORMANCE OF GENDER & SEXUALITY
CMNS 334	URBAN COMMUNICATION
CMNS 330	TOPICS IN PERFORMANCE
CMNS 367	PERFORMANCE FOR SOCIAL CHANGE
CMNS 369	PERFORMANCE OF HUMOR
CMNS 371	PERFORMANCE OF RITUAL

Performing Arts Management (BM)

The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

- Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
- Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration

Program Requirements	Quarter Hours
Music Core Requirements	68
Liberal Studies Requirements	52
Specialization Requirements	66
Electives	6
Total hours required	192

Program Specific Outcomes

Students will be able to:

- Demonstrate an understanding of the theories and principles associated with the performing arts industry such as issues facing arts managers in the areas of leadership, marketing, development, community engagement, arts advocacy and other skills particular to the area of specialization.
- Understand current music business issues and their impact on artist representation, digital music, distribution, emerging technologies, and marketing.
- Demonstrate proficiency in business skills related to accounting, finance, marketing, management, economics, and ethics.

Music Core Requirements

Course Requirements

All students in the School of Music are required to enroll in the following music courses:

Musicianship (42 Credits)

Course	Title	Quarter Hours
--------	-------	---------------

Music Theory Sequence:

MUS 110A	MUSIC THEORY I	2
MUS 120A	MUSIC THEORY II	2
MUS 130A	MUSIC THEORY III	2
MUS 212A	MUSIC THEORY IV ¹	2

To satisfy the remaining requirements in music theory, students should enroll in one of the following courses:

MUS 222-A	MUSIC THEORY V - A ¹	2
MUS 222-B	MUSIC THEORY V - B ¹	2
MUS 222-C	MUSIC THEORY V - C ¹	2

And one of the following courses:

MUS 232A	MUSIC THEORY VI-A: CONCEPTS AND MATERIALS IN CONTEMPORARY MUSIC ¹	2
MUS 232B	MUSIC THEORY VI-B: ANALYSIS OF MUSICAL FORM ¹	2

Musicology Sequence- Students should complete three of the following four classes to satisfy their musicology requirements:

MUS 224	MUSIC, HISTORY, AND CULTURE I	4
MUS 225	MUSIC, HISTORY, AND CULTURE II	4
MUS 226	GLOBAL MUSIC CULTURES	4
MUS 310	INTRODUCTION TO ETHNOMUSICOLOGY	4

Aural Training Sequence:

MUS 111	AURAL TRAINING I	1
MUS 121	AURAL TRAINING II	1
MUS 131	AURAL TRAINING III	1
MUS 211	AURAL TRAINING IV ²	1
MUS 221	AURAL TRAINING V ²	1
MUS 231	AURAL TRAINING VI ²	1

Group Piano Sequence:

MUS 113	GROUP PIANO I	1
MUS 123	GROUP PIANO II	1
MUS 133	GROUP PIANO III	1
MUS 213	GROUP PIANO IV ³	1
MUS 223	GROUP PIANO V ³	1
MUS 233	GROUP PIANO VI ³	1

¹ Students in the BM- Jazz Studies program are not required to take MUS 222a, MUS222b, MUS222c, or MUS 232a, MUS 232b

² Students in the BM-Jazz Studies program are not required to take MUS 211, MUS 221, or MUS 231.

³ Students in the BM-Jazz Studies program are not required to take MUS 213, MUS 223, or MUS 233.

⁴ Students in the BM-Jazz Studies program are not required to take MUS 323

Additional Courses

Course	Title	Quarter Hours
MUS 303	BASIC CONDUCTING PRACTICUM	0
MUS 304	BASIC CONDUCTING	4
MUS 323	MUSICOLOGY SEMINAR ⁴	2

Applied Music

Students may enroll in a maximum of 3 credits of applied study per quarter, with a maximum of 36 credits total. The requirements for applied study vary by degree program:

- BM in performance, 36 credits
- BM in jazz studies, 32 credits
- BM in composition, 12 credits
- BM in music education, 18 credits
- BM in performing arts management, 18 credits
- BA in music, 12 credits
- BS in sound recording technology, performance track, 9 credits

The BS in Performing Arts Management degree does not require applied lessons, and the BS in Sound Recording Technology, audio technology track, does not require applied lessons.

Except for performance majors, students may enroll in additional applied credits, which will count toward music electives.

Modern Language Option

If a music student wishes to study a modern language for a three-course sequence (12 credits) beyond their degree program's requirement, the three MLO substitutions must be made in three different Liberal Studies learning domains. Any substitutions must be consistent with the principle that students complete at least one course in each learning domain. In the Scientific Inquiry domain, the only MLO substitution allowed is for Scientific Inquiry-Elective. Additional language credits may be applied toward non-music electives or free electives.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Program Checkpoints

Students are admitted to a specialization at their initial enrollment. Students are then allowed to continue in specialization courses on the basis of program checkpoints. The program checkpoints differ for each specialization, and students should contact the department chairs or program directors/coordinators for more information. Students are not permitted to continue to enroll in specialization classes if they have not met the requirements of their program checkpoints.

Performing Arts Management (BS)

The Performing Arts Management Programs are comprehensive interdisciplinary programs designed to prepare students for careers in the multi-faceted and extensive industry embracing administration of not-for-profit arts organizations (symphony orchestra, opera, chamber music, dance, theatre), commercial music management (recording industry, artist representation, music publishing and distribution, product merchandising, concert promotion), music licensing, music entrepreneurship, music festival management, and related areas of cultural management and policy.

The programs have been designed to provide students a broad understanding of the performing arts management industry; insight into the theories and principles associated with arts management; and a proficiency in the practical application of necessary business skills.

There are two distinct Performing Arts Management degrees, suited for students with specific backgrounds and career objectives.

- Bachelor of Music (BM) in Performing Arts Management, Minor in Business Administration
- Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Bachelor of Science (BS) in Performing Arts Management, Minor in Business Administration

Students in the BS Performing Arts Management Program experience a significant focus on practice within the field. (This curriculum does not include applied lessons or participation in ensembles associated with Bachelor of Music programs.) Students enroll in a multi-term Performing Arts Management Practicum, where students obtain a supervised work experience within various departments of the new state-of-the-art Holtschneider Performance Center. In addition to the Practicum, those in the BS Performing Arts Management program undertake a core sequence of courses focused on the Performing Arts Management industry, as well as courses in Music Business, Music Publishing, Music Festival Management, Legal Issues in Music, and others. Additionally, in cooperation with the Driehaus School of Business, students receive a minor in business administration taking courses in Finance, Marketing, Management, Accounting, Statistics, and Economics, among others. An important component to the Performing Arts Management Program is an experiential component outside of the School of Music in the form of a Internships at any of the numerous approved companies or organizations. Internships have been completed at such places as Lyric Opera, Chicago Symphony Orchestra, Grant Park Music Festival, Ravinia Festival, Aware Records, Metro Club, Old Town School of Folk Music, ASCAP, Steppenwolf Theatre, and many other arts organizations, music labels, venues and radio stations. This program is suited for students interested in acquiring the insight and skills necessary for a career in the music industry within the environment of an active and vibrant music performance center, without the performance component associated with traditional music degree programs.

ECO 105	PRINCIPLES OF MICROECONOMICS	4

Philosophy (BA)

The Department of Philosophy serves the needs of the student who seeks an understanding of philosophical issues for personal enrichment, the student who desires a more fundamental appreciation of philosophy in support of law, medicine, business, and various academic disciplines, and the student who wishes to continue the study of philosophy at the graduate level.

Through its courses and programs, the department acquaints students with various philosophical systems and with basic problems posed by diverse thinkers. Courses have been designed to highlight both the humanistic and technical features of philosophy.

The department also recognizes the important need for skills and training. Its courses in logic and analysis have been designed to help students become more perceptive in their experiences and more critical in their thinking.

Further, the department is aware that, in our age of rapid change, society often tends to neglect the meaning and worth of the person. Courses are therefore offered that investigate and emphasize the dignity of the person. By helping students understand the nature and grounds of ethical judgments, these courses aim to promote an appreciation and ordering of human values.

The department has designed all of its course offerings with the aim of both ensuring that our Liberal Studies courses remain responsive to the needs of the student who does not plan to specialize in philosophy and offering the student who chooses to major or minor in philosophy a rich and diverse curriculum.

The department is particularly proud of its Philosophy Circle, an undergraduate philosophy club which provides a forum for the exchange of ideas between faculty and students.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	52
Open Electives	56
Total hours required	192

Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.

- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.

College Core Requirements

Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High

or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the "Modern Language Option" (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO	
Focal Point		

LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
PHL 391	SENIOR CAPSTONE SEMINAR ^{1,3}	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

³ A student majoring in Philosophy (PHL) is required to complete the Capstone offered by the PHL Department. This is the case even if a student is double majoring (or pursuing a dual degree) and the secondary major (or degree) requires its own Capstone. A PHL major in the University Honors Program shall take the University Honors Capstone and the PHL Capstone.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- Not Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Course Requirements

Please note that PHL 100 or HON 105 or any 200-level PHL course is the prerequisite for most 300-level philosophy courses and for the 200-level History Sequence courses.

Basic Prerequisite (1)

Course	Title	Quarter Hours
Select one introductory course:		4
PHL 100	INTRODUCTION TO PHILOSOPHY	
HON 105	PHILOSOPHICAL INQUIRY	

Value Studies (1)

Course	Title	Quarter Hours
Select one course from the following list of 200-level Value Studies courses:		4
PHL 200	ETHICAL THEORIES	
PHL 202	PHILOSOPHY OF GOD	
PHL 204	EXISTENTIAL THEMES	
PHL 206	TOPICS AND CONTROVERSIES	
PHL 208	WHAT IS A PERSON?	
PHL 228	NEUROETHICS	
PHL 229	BIOMEDICAL ETHICS	
PHL 230	CONTEMPORARY TOPICS IN ETHICS	
PHL 231	PHILOSOPHY AND RACE	
PHL 232	WHAT IS FREEDOM?	
PHL 233	ISSUES IN SEX AND GENDER	
PHL 234	PHILOSOPHY AND MODERN SOCIETY	
PHL 235	ENVIRONMENTAL PHILOSOPHY	
PHL 236	PHILOSOPHY AND THE CITY	
PHL 237	PHILOSOPHY, CONFLICT AND PEACE	
PHL 238	FEMINIST PHILOSOPHIES	
PHL 240	LOVE, HATRED, AND RESENTMENT	
PHL 241	ETHICS AND PUBLIC POLICY	
PHL 242	PHILOSOPHY AND TECHNOLOGY	
PHL 243	PHILOSOPHY AND FILM	
PHL 244	PHILOSOPHY OF RELIGION	
PHL 245	REASON AND SOCIETY	
PHL 246	BLACK AESTHETIC THOUGHT	
PHL 247	PHILOSOPHY AND THE VALUE OF MUSIC	

PHL 248	BUSINESS ETHICS
PHL 250	PHILOSOPHY AND SOCIAL CHANGE
PHL 263	GENDER, RACE, AND CLASS: PHILOSOPHICAL PERSPECTIVES
PHL 264	PHILOSOPHICAL CRITIQUES OF COLONIALISM
PHL 287	INTRODUCTION TO ASIAN PHILOSOPHIES

Cognitive Skills (1)

Course	Title	Quarter Hours
Select one course from the following list of Cognitive Skills courses:		4
PHL 280	CRITICAL THINKING	
PHL 281	BASIC LOGIC	
PHL 282	SYMBOLIC LOGIC I	
PHL 283	SYMBOLIC LOGIC II	

History Sequence (3)

Course	Title	Quarter Hours
Select PHL 293 plus any two of the remaining History Sequence courses.		12
PHL 293	ANCIENT PHILOSOPHY	
PHL 294	MEDIEVAL PHILOSOPHY	
PHL 295	EARLY MODERN PHILOSOPHY	
PHL 296	KANT & 19TH CENTURY PHILOSOPHY	
PHL 297	20TH CENTURY PHILOSOPHY	

Major Field Electives (7)

Course	Title	Quarter Hours
Select seven of any remaining PHL courses, at least five of which must be 300-level courses.		28

Capstone Seminar (1)

Course	Title	Quarter Hours
PHL 391	SENIOR CAPSTONE SEMINAR	4

Additional Considerations

Each student is expected to consult with their departmental advisor on course selection. With departmental permission, a senior may take one course selected from the graduate offerings in philosophy. Certain courses in other departments may be acceptable equivalents for philosophy credit. Seniors who have a superior record in philosophy may petition to do a Senior Thesis. The regular program of courses is supplemented by philosophical symposia, departmental colloquia, and mini-courses featuring prominent philosophers

Philosophy 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet

regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic

year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger merit scholarships. College of Law students are not eligible for the Double Demon discount.

Philosophy (MA/PhD)

The graduate program in Philosophy offers students the opportunity to study the history of philosophy and contemporary philosophy and to work with some of the leading scholars in:

- Contemporary Continental Thought
- German Idealism
- Social and Political Theory
- History of Philosophy and Ethics
- Feminist Philosophy
- Psychoanalytic Thought
- Latin American Philosophy

The program provides students with a rigorous course of graduate seminars in these and other areas of philosophy, as well as regular faculty consultation and guidance at every stage of the program.

The department offers the PhD in philosophy. Though students may enter the program with a BA or an MA, they all follow the same MA/PhD path.

Program Structure

Most graduate courses are taught in a series of streams organized each year under unifying titles, such as German Idealism, Ethics, Society and Politics, or Contemporary French Philosophy. These are all research courses, with no distinction being made between MA and PhD course levels, and a student does not technically have to follow the stream from beginning to end.

In their first two years in the program, students serve as Teaching Assistants. In their third through sixth year in the program, students serve as Teaching Fellows. In this role, students are expected to teach up to a maximum of four courses per academic year.

After the first year of course work is complete, students are allowed to enroll for up to three independent studies of any kind toward their degree. These courses can be any combination of language courses, independent studies in the department or in other departments at DePaul, or courses in other doctoral programs at other local universities.

Program Length

Students take a total of 28 courses (or 112 credit hours), usually over the course of four years, whether they are entering with a BA or an MA. They then complete the degree by writing and defending a dissertation, normally in their fourth through sixth years in the program.

Program Highlights

The department offers courses, seminars, mini-courses, directed research, and colloquia to stimulate students' investigation of various philosophies and philosophical problems.

Each student is required to pass two competency exams in languages pertinent to their research. In support of this requirement, the department holds informal reading groups (in French, German, Greek, and Latin) that meet regularly and emphasize reading philosophical texts in their original languages. In addition, in the spring of the second year, every student is

permitted to travel abroad in order to engage in serious and immersed language study in another country and develop academic connections and, oftentimes, contact a faculty host for an eventual dissertation research and writing fellowship, such as the Chateaubriand, DAAD, or Fulbright. Finally, we also sponsor an exclusive exchange program with the Ecole Normale Supérieure in Paris every year, where we send a second-year student from our program to study there, while we host an ENS student here in Chicago.

Because the majority of our graduates will go on to jobs in academia, we offer a carefully designed teaching practicum to support our students as they transition from serving as a Teaching Assistant, in their first two years in the program, to being a Teaching Fellow, who designs and offers their own undergraduate classes, in their third through sixth years.

Finally, there is a student-organized forum, the Frings Lecture Series, in which students present papers and discuss their work with their fellow graduate students and the graduate students also organize and host an annual national conference for graduate students each year.

Program Participants

The program is designed primarily for:

- Students on their way to careers in academia

Certificate Options

The Philosophy PhD may also be supplemented with a number of graduate certificates:

- Bioethics
- Business Ethics
- Women's and Gender Studies
- Teaching and Learning Certificate

Program Requirements	Quarter Hours
Core Requirements	112
Total hours required	112

Learning Outcomes

Students will be able to:

- Critically discuss philosophical issues (via well-grounded arguments) and questions from the perspectives of multiple methods, traditions, and historical contexts.
- Evaluate philosophical issues, questions, and problems critically and analytically.
- Write an articulate and well-ordered essay presenting philosophical positions in a way that addresses philosophical issues and questions.
- Formulate and evaluate their own understanding of a diverse range of philosophical problems, in both writing and discussion.
- Integrate a critical understanding of central philosophical ideas from the history of philosophy, broadly construed to include more than the Western tradition.
- Read and integrate into their research relevant primary and secondary texts from the history of philosophy in their original language.
- Produce a substantial piece of research (thesis or dissertation) that makes an original contribution to the field of philosophy and/or

exhibits a comprehensive grasp of the relevant scholarship on a given question, text, or figure.

Degree Requirements

A minimum of 112 quarter hours of graduate level course work (28 courses) is required for the PhD. This includes 104 quarter hours of course work (26 courses), 4 quarter hours of PHL 697 (Graduate Teaching Practicum), and 4 quarter hours of PHL 699 (Dissertation Research).

Of the 112 quarter hours (28 courses) required for the PhD, 32 quarter hours (8 courses) must be taken in accordance with the following distribution requirements:

- Four History of Western Philosophy Courses
- Two in Ancient or Medieval: 8 quarter hours
- Two in Modern or Nineteenth Century: 8 quarter hours
- Two Contemporary European Philosophy Courses: 8 quarter hours
- Two Normative Philosophy Courses: 8 quarter hours

Course Distribution List

History of Western Philosophy - Ancient or Medieval

Course	Title	Quarter Hours
PHL 400	SPECIAL TOPICS IN TRADITIONAL PHILOSOPHERS	
PHL 410	PLATO I	
PHL 411	PLATO II	
PHL 415	ARISTOTLE I	
PHL 416	ARISTOTLE II	
PHL 420	AUGUSTINE	
PHL 425	AQUINAS	
PHL 500	SPECIAL TOPICS IN THE HISTORY OF PHILOSOPHY	

History of Western Philosophy - Modern or Nineteenth Century

PHL 559	FOUCAULT	
PHL 560	THE PHILOSOPHY OF GABRIEL MARCEL	
PHL 561	LYOTARD	
PHL 565	MERLEAU-PONTY I	
PHL 566	MERLEAU-PONTY II	
PHL 570	SARTRE I	
PHL 571	SARTRE II	
PHL 577	DERRIDA I	
PHL 578	DERRIDA II	
PHL 585	RICOEUR	
PHL 586	METAPHOR AND POETIC LANGUAGE	
PHL 587	READING LEVINAS I	
PHL 588	READING LEVINAS II	
PHL 589	PHILOSOPHY, LITERATURE, COMMUNITY	
PHL 590	TRENDS IN CONTEMPORARY FRENCH PHILOSOPHY	

Normative Philosophy

Course	Title	Quarter Hours
PHL 443	MEDICAL LEGAL ETHICS	
PHL 522	SOCIAL AND POLITICAL PHILOSOPHY	
PHL 527	PHILOSOPHY, ETHICS, AND ECONOMICS	
PHL 591	CRITICAL RACE THEORY	
PHL 601	SEMINAR ON AESTHETICS	
PHL 629	SEMINAR ON CONTEMPORARY PROBLEMS	
PHL 640	PROBLEMS IN ETHICS	
PHL 641	SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS	
PHL 651	TOPICS IN BUSINESS ETHICS	
PHL 656	SEMINAR ON SOCIAL AND POLITICAL THOUGHT	
PHL 657	TOPICS IN SOCIAL AND POLITICAL THOUGHT	
PHL 660	SEMINAR IN FEMINIST ETHICS	
PHL 661	TOPICS IN FEMINIST THEORY	

Additional Requirements

Annual Reviews

The Graduate Affairs Committee conducts annual formal reviews of each student’s progress toward the doctoral degree. The purpose of the review

session is to discuss the student's experience in the program thus far, address any questions or concerns that they might have, and assess how well they are meeting the expectations relevant to their year in the program.

As part of the review process, students are required to submit a self-evaluation of their progress in the program, teaching evaluations (when serving as a Teaching Fellow) and, until all their course work is completed (typically, through their fourth year in the program), students are also required to submit two file papers for review. These papers are read by a second member of the faculty who assesses whether the papers meet relevant standards of graduate level work and thus indicate appropriate progress in the program for each student.

Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program.

Foreign Languages Requirement

The Philosophy Department places a very high priority on working with texts in original languages, rather than translations. For doctoral students, competence in two languages of research is thus required. Typically, these are Greek, Latin, French, or German. Competence in other languages may be used to fulfill the language requirements if it is deemed appropriate to the research undertaken by the student. In the latter case, prior to beginning preparation to pass a language requirement (by either of the two paths outlined below), the student must submit a short paragraph to the Director of Graduate Studies, to be reviewed by the Graduate Affairs Committee, outlining why the language in question will be important to the student's future research.

Each student must complete the requirement for one language before scheduling a Dissertation Proposal Defense, and they must complete the requirement for a second language before scheduling a Dissertation Defense.

There are two ways in which students can complete the Foreign Languages requirement:

1. Student may pass a departmentally administered Language Competency Exam, which are offered just before the start of every quarter. This usually involves asking the student to translate a selection from a philosophical text in the original language.
2. Students may, alternatively, complete a certain number of classes in the Modern Languages Department, maintaining a B+ average each quarter. For ancient languages, students must take through the first year. For modern languages, students must take through year two.

Dissertation

Students must form a dissertation committee and submit and defend a dissertation proposal before that committee. Each student must then submit a dissertation and successfully defend it before their dissertation committee.

The dissertation is a thesis, approximately 200-275 pages (60,000-85,500 words) in length, including scholarly apparatus. The precise topic, structure, and length of the dissertation is to be determined in consultation with the dissertation Director and the other members of the dissertation committee.

Optional Certificates

Graduate Certificate in Bioethics

The Graduate Certificate in Bioethics is an option for doctoral candidates in Philosophy who want (a) to cultivate their ability to engage in critical analysis of bioethical issues, and (b) to train to teach bioethics, biomedical ethics, or medical ethics to a variety of different kinds of students.

The Certificate requirements are as follows:

Course Requirements:

A minimum of 16 quarter hours including:

Course	Title	Quarter Hours
PHL 529	THE PHILOSOPHICAL FOUNDATIONS OF BIOETHICS	4
Select three other approved elective courses within the DePaul Philosophy Department's graduate offerings. The elective can be selected from the following courses:		12
PHL 416	ARISTOTLE II	
PHL 425	AQUINAS	
PHL 511	KANT II	
PHL 520	MARX I	
or PHL 521	MARX II	
PHL 641	SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS	
PHL 656	SEMINAR ON SOCIAL AND POLITICAL THOUGHT	
PHL 660	SEMINAR IN FEMINIST ETHICS	
PHL 661	TOPICS IN FEMINIST THEORY	

Training/Teaching Requirements

1. Students must participate in the Biomedical Ethics Training Program or serve as a Teaching Assistant for PHL 229 BIOMEDICAL ETHICS with a tenured or tenure-line faculty member.
2. Upon completion of the training program or assistantship, students must teach at least two sections of Biomedical Ethics (PHL 229).

Applicants apply for the Certificate by sending a letter of intent to the Director of Graduate Studies. Applicants agree to make the above required courses part of their program of study for the Ph.D and must maintain a B average in all Certificate courses.

Graduate Certificate in Business Ethics

The Graduate Certificate in Business Ethics is an option for doctoral students in Philosophy who want to gain a competency in business ethics, qualifying them to teach undergraduate and MBA courses in that subject. This Certificate does not require a dissertation in applied ethics. Rather it is designed to give students, regardless of their area of specialization, a strong background in business ethics so that they will be competent and competitive in the academic market, as well as comfortable teaching business ethics both at DePaul and in their academic careers.

A minimum of 16 quarter hours including:

Course	Title	Quarter Hours
PHL 527 or PHL 640	PHILOSOPHY, ETHICS, AND ECONOMICS PROBLEMS IN ETHICS	4

MGT 500	LEADING EFFECTIVE AND ETHICAL ORGANIZATIONS (or another graduate level course in Commerce approved by the Certificate Chair)	4
PHL 641	SEMINAR ON THE CONTINENTAL TRADITION IN ETHICS	4
Select one other approved elective course within the DePaul Philosophy Department’s graduate offerings. The elective can be selected from the following courses:		
PHL 437	LOCKE	
PHL 441	ROUSSEAU	
PHL 520 or PHL 521	MARX I MARX II	
PHL 559	FOUCAULT	
PHL 651	TOPICS IN BUSINESS ETHICS	
PHL 656	SEMINAR ON SOCIAL AND POLITICAL THOUGHT	

Other Requirements

- Students will be required to teach two Business Ethics courses (this could be in the Department of Philosophy, the Religious Studies Department or in a Management Department at DePaul or in other area universities.) Given that many PhD students in Philosophy are required to teach, this is not always an additional teaching requirement.
- Attend and participate in at least one professional conference or complete an internship in applied ethics. In terms of Conferences, students will have to present a paper at the annual meeting of the Society for Business Ethics or the annual Vincentian Conference on Business Ethics. (Expenses will be covered by the Institute for Business and Professional Ethics.) A publishable paper would be the optimal goal. In terms of internships, such opportunities will have to be directly related to Business Ethics, Sustainability or Societal Justice. This will be approved by the Certificate Chair in consultation with the Director of Graduate Studies.

Applicants can apply by sending a letter of intent to the Certificate Chair and the Director of Graduate Studies. Applicants must have at least a B average and will agree to make the above required courses as part of their program of study for the PhD.

Certificate in Women’s and Gender Studies

The Women’s and Gender Studies Graduate Certificate Program at DePaul University is offered by the Department of Women’s and Gender Studies and it is available to students in the doctoral program in the Department of Philosophy.

The Program’s requirements are:

- WGS 400 FEMINIST THEORIES
- Three additional graduate-level elective courses approved by Women’s and Gender Studies. The student should petition for approval for courses from the WGS Director of Graduate Studies.

It is highly recommended that students take the foundational course, WGS 400, prior to the other three required WGS electives. The elective courses may be taken from the Women’s and Gender Studies offerings and/or from courses in other departments and programs in the College of Liberal Arts and Social Sciences that have been approved by the

Department of Women’s and Gender Studies, but all three elective courses cannot be from one department.

Student Handbook
Probation, Dismissal, and Readmission

The Graduate Affairs Committee conducts annual formal reviews of each student’s progress toward the doctoral degree. Students deemed not to be making satisfactory progress may be placed on probation or, where the circumstances in the judgment of the Graduate Affairs Committee warrant, the student may be required to leave the doctoral program. In these cases, students may petition the Graduate Affairs Committee for readmission to the program.

Residency Requirement

Three consecutive quarters of full-time residence, i.e., registration for eight credit hours each quarter.

Time Limitations

Students are expected to defend their dissertation proposals and become ABD by the end of their fourth year, but by no later than the end of their sixth year. Students are expected to submit and successfully defend their dissertations by the end of their sixth year, but by no later than the end of their tenth year after entering the program.

Philosophy (Minor)

The minor program is designed to complement the majors of other departments. It is designed also for those who, while not wishing to specialize in philosophy, nonetheless seek to pursue enduring questions, appraise contemporary values, and critically discuss topics of general human concern. (If you wish to use this program as an academic minor, check with your Department for permission and with the Department of Philosophy for sample programs.)

Course Requirements

Any six PHL courses, at least two of which must be 300-level courses. Either PHL 100 or HON 105 can count towards the minor but not both of these introductory courses.

With permission a student may take PHL 391, our Capstone Seminar for Philosophy Majors, as part of their minor.

Transfer credit may be recognized. (Please note that PHL 100 or HON 105 or any 200-level PHL course is the prerequisite for all 300-level philosophy courses and for the 200-level History Sequence courses.)

Students majoring in Philosophy (BA) are restricted from earning this minor.

Photography (Minor)

The Photography minor is a concentrated program of study that lets students design their approaches to the photographic arts. It takes the processes of optical and mechanical reproduction as its starting points and emphasizes the role(s) of photography historically through culture. Six courses are required for a Photography minor.

Course Requirements

Course	Title	Quarter Hours
Select one course from the following list:		4
ART 101	DIGITAL FOUNDATIONS	
ART 105	TWO-DIMENSIONAL FOUNDATIONS	
ART 114	FOUR DIMENSIONAL FOUNDATIONS	
Select one course from the following list:		4
ART 104	CREATING ART	
ART 200	ART & ARTISTS IN CONTEMPORARY CULTURE	
ART 220	THINKING PHOTOGRAPHY	
HAA 265	HISTORY OF PHOTOGRAPHY	
Select four courses from the following list:		16
ART 224	BEGINNING DIGITAL PHOTOGRAPHY	
ART 225	BEGINNING PHOTOGRAPHY	
ART 226	VIDEO ART	
ART 289	EXPERIMENTAL FILM AND VIDEO	
ART 292	COMMUNITY VIDEO PRODUCTION	
or ART 383	SERVICE LEARNING IN THE ARTS INTERNSHIP	
ART 304	THE PHOTOGRAPHIC BOOK	
ART 321	INTERMEDIATE DIGITAL PHOTOGRAPHY	
ART 323	INTERMEDIATE PHOTOGRAPHY	
ART 325	ADVANCED PHOTOGRAPHY PROJECTS	
ART 326	SPECIAL TOPICS IN EXPERIMENTAL VIDEO ART	
ART 328	DOCUMENTARY PHOTOGRAPHY	
ART 329	ADVANCED DIGITAL PHOTOGRAPHY	
ART 332	TOPICS IN PHOTOGRAPHIC PRACTICE	
ART 377	PHOTOJOURNALISM	
ART 395	SPECIAL TOPICS IN ART	
ART 393	SENIOR PROJECT STUDIO	

Students majoring in Art, Media, and Design (BA) or (BFA) or Art (BA) are restricted from earning this minor.

Physical Education (BSPE)

The Physical Education program will prepare you to pursue a career in teaching Physical Education in schools for grades pre-K through high school. Graduates earn the Bachelor of Science degree and are prepared for K-12 school licensure process.

Students entering the program must be able and willing to devote themselves to a program requiring a minimum of 110 hours of daytime field experiences in schools. These school-based clinical hours are completed in conjunction with methodology courses. In addition, the student must spend a minimum of 10 weeks in full-time student teaching during their last quarter in the program.

The program includes five distinctive features:

1. Becoming a teacher is viewed as a developmental process continuing at least through the first year of teaching;
2. Multiculturalism is infused throughout the curriculum;
3. Field experiences are an integral part of the curriculum;

4. Students are exposed to a variety of educational theories;
5. The program includes a research component as a basis for further professional development.

The program in K-12 education prepares students to teach children in a variety of urban and suburban educational settings, including public and private elementary and high schools. In all cases, appropriate field experience plays an integral role.

Students should meet early and regularly with their advisor to design and monitor their program of study.

Please make sure you consult the Liberal Studies Requirements, Major Requirements, Concentration Requirements, and College Core Requirements for full degree requirements.

Licensure

Illinois Professional Educator License with endorsement in Physical Education (kindergarten-grade 12), an Illinois State Board of Education (ISBE) approved program.

Program Requirements	Quarter Hours
Liberal Studies Requirements	80
Major Requirements	96
Open Electives	16
Total hours required	192

Learning Outcomes

Students will be able to:

- Demonstrate an understanding of common and specialized content, and scientific and theoretical foundations for the delivery of an effective Pre-K-12 physical education program for all students in a variety of context or setting.
- Use physical literacy to demonstrate skillful performance in physical education content and areas, and health-enhancing levels of fitness.
- Apply content and foundational knowledge to plan and implement developmentally appropriate learning experiences aligned with local, state, and/or SHAPE America National Standards and grade-level outcomes for K-12 Physical Education through an effective use of resources, accommodations and/or modifications, technology, and metacognitive strategies to address the diverse needs of students.
- Engage students in meaningful learning experiences through effective use of pedagogical skills that incorporate feedback, technology, and instructional and managerial skills to enhance student learning.
- Select and implement appropriate assessments to monitor students' progress and guide decision making related to instruction and learning.
- Demonstrate ethical and culturally competent behaviors essential to becoming effective professional physical education teacher.
- Seek opportunities for continued professional development.
- Demonstrate knowledge of promotion/advocacy strategies for physical education and expanded physical activity opportunities that support the development of physically literate individuals.

College Core Requirements

Dispositions

The academic programs within the College of Education have set forth these dispositions as educational and professional expectations for all students. Students should be aware that failing to abide by DePaul University or College of Education policies including, under certain circumstances, these dispositions, could result in adverse consequences for the student, including removal from his or her program, the College of Education, or the University.

The following dispositions apply to Early Childhood Education, Elementary Education, Exercise Science, Middle Grades, Physical Education, Secondary Education, and World Language Education majors only:

- Reflects on progress and identifies strengths and weaknesses, including evaluating strategies for success, finding alternatives for inappropriate strategies, and modifying future practices
- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Values critical thinking, including engaging theoretical and philosophical frameworks and shows evidence of critical thinking through discussion and writing (e.g., journals, response to prompts)
- Understands the importance of and is committed to communicating clearly orally and in writing both in traditional and in new and emerging digital formats
- Values and is committed to continually developing strong content area knowledge and/or knowledge of the professional field, including pedagogical content knowledge
- Takes initiative, uses imagination and creativity, and seeks out information using a variety of human and material resources and technology to inform his or her teaching
- Is aware of the role of classroom environment and uses management procedures that reflect respect and care for learners and concern for their emotional and physical well being
- Takes the time and effort needed to understand how students learn, including discovering their interests and experiences and determining how to shape teaching acts (using technology as appropriate) that engage learners meaningfully and actively
- Values and is committed to using assessment to evaluate and ensure the continuous intellectual, social, emotional, and physical development of the learner
- Respects and considers cultural contexts in order to determine how to be responsive to learners and to proactively promote all students' learning
- Values and is responsive to diverse learners' academic, emotional, and social needs through teaching acts (including careful instructional planning, implementation, and differentiation) and through everyday interactions with students
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Recognizes and fulfills professional responsibilities and habits of conduct (e.g., dress, language, preparedness, attendance, punctuality, etc.)
- Demonstrates collegiality, honesty, good judgment, courtesy, respect, and diplomacy

- Balances self-confidence and assertiveness with respect for others' perspectives
- Respects the requirements, expectations, and procedures of both the College of Education and of our field partners and appreciates the issues of trust, fairness, and professionalism involved

The following dispositions apply to Special Education majors only:

- Is receptive to faculty feedback and acts meaningfully and professionally upon suggestions
- Reflects on his or her own progress, identifies strengths and weaknesses, and evaluates strategies for success and professional growth
- Takes initiative
- Is open to new ideas and engagement in learning
- Respects diversity and cultural contexts to determine how to be responsive to learners and to proactively promote all students' learning
- Expresses positive attitudes toward individuals with disabilities and a willingness to advocate on their behalf
- Is committed to collaboration with colleagues, families, and communities in order to promote all students' learning and development
- Demonstrates professional ethical and legal behavior as defined by the respective codes of ethics and laws
- Demonstrates consistent professional behavior across all academic settings
- Maintains appropriate interpersonal and professional boundaries
- Accepts personal responsibility for one's behavior
- Expresses feelings and opinions effectively and appropriately
- Upholds confidentiality

Skill Building Courses

Before taking any math or English courses, students must take the DePaul placement tests to determine if skill level is at the college level. If placement indicates skill level in these courses, the courses become part of degree requirements. Consult with your advisor regarding placement test results and any required classes.

Modern Language Competence Requirement

Students pursuing a Bachelor of Arts degree in the College of Education will be required to demonstrate a measure of competence in a modern language, as defined by the college. Such competence may be demonstrated in one of several ways:

- completing two years of a language sequence in high school
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language

- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: The Modern Language Competence Requirement is not required for students in the Early Childhood Education: SCPS Joint Program (BAECE) program. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact the Office of the University Registrar.

Students who complete an Inter-College Transfer (ICT) to the College of Education will abide by the COE Modern Language Requirement in place on the effective date of the ICT.

B.A. students who meet College requirements and wish to pursue further work in the language may elect the “Modern Language Option” of the Liberal Studies Program. While B.S. students are not required to demonstrate competency in a modern language, the “Modern Language Option” is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license. The Academic Success Center can provide help through tutoring, workshops, and online resources to help each student succeed.

Field Experiences

Each student seeking licensure from the College of Education/ Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements.

Endorsements

An endorsement is a statement appearing on a license that identifies the specific subjects or grade level that the license holder is authorized to teach.

The Illinois State Board of Education (ISBE) issues endorsements in various subject areas. To view the full list and requirements, visit the ISBE website.

Please note that the Illinois State Board of Education (ISBE) may change the state licensure and endorsement requirements at any time and without prior notice. Individuals are bound by the requirements in place when applying for the license or endorsement, not the requirements in place when beginning the program.

Student Teaching Requirements

Student Teaching is the culminating clinical experience in the student's program. All students in teacher preparation programs must meet the following requirements before applying for student teaching:

Academic Requirements

- Completion of all Liberal Studies, Introductory, Advanced and concentration/content area courses
- Overall cumulative GPA of 2.50 or better
- Cumulative GPA of 2.75 or better in all education courses
- Meet all other program requirements (e.g., modern language and residency requirements)
- Meet designated program standards
- Pass the required Illinois licensure content area test(s)

Clinical Requirements

- Completion of all required field experiences
- Three satisfactory evaluations in field experiences
- Three satisfactory faculty recommendations
- Attendance at mandatory meeting for student teaching
- Application for student teaching, resume, transcripts, and writing sample (check deadlines)
- Review and approval by Student Teaching Committee of the College of Education

Student Teaching Timeline and Deadlines

- Attend a Mandatory Meeting approximately 1 year prior to expected quarter of student teaching.
- Submit application for student teaching after attending Mandatory Meeting, approximately 1 year prior to student teaching.
- Academic requirements are due one quarter before expected quarter of student teaching.
- Content area tests must be passed prior to Student Teaching (deadlines apply).
- Clinical requirements are completed as course requirements. Field experience hours are entered by the student as coursework is completed.

Online Faculty Evaluations are entered by the instructor of relevant courses. All data must be entered in the Field Experience Documentation System (FEDS) due one month prior to student teaching.

Individual childcare agencies and public and private school districts may have additional requirements (application, training, background check, etc.).

Degree Conferral and Graduation

The awarding of a degree is not automatic. You must submit an application to be considered for the degree. DePaul awards and posts degrees at the end of each regular academic term (autumn, winter, spring, summer).

It is your responsibility to initiate the degree conferral application process by submitting an online application. Submitting an application means you intend to finish your degree requirements by the end of the term for which you have applied.

Undergraduate students must be approved for student teaching and complete student teaching and capstone to be cleared for the degree. Student must submit graduation application for the quarter that matches the quarter you are student teaching.

After you submit the application, you cannot register for any term after the one selected in the application.

To apply for degree conferral, log on to Campus Connection. Select STUDENT CENTER, then MY ACADEMICS. On screen instructions will take you through the application process.

Provided that all requirements and financial obligations are met, degrees are posted 30 days after the official end of the term. Official dates are listed on the Academic Calendar.

DePaul holds one commencement ceremony each year in June. If you intend to participate, you must first apply for degree conferral for the current academic year and then submit a cap and gown order. Honors announced at the ceremony for undergraduates are based on winter quarter GPAs because a final GPA is not available at the time of the ceremony. Eligibility for the June Commencement ceremony is limited to individuals that complete the entirety of their program (including student teaching) within the same academic year (prior to the ceremony).

Additional information about degree conferral and graduation can be found on the College of Education website at: <http://education.depaul.edu/>.

Licensure

Requirements for licensure include completion of full bachelor's degree program, all licensure tests (including OPI for world language majors), and awarding of bachelor's degree. A bachelor's degree is required to qualify for licensure and must be awarded before applying for the license.

Individuals must submit an application directly to the Illinois State Board of Education after completion of requirements and after DePaul has submitted notification to ISBE. Application requirements include application form, application fee, official transcripts, and registration fee.

All individuals must meet ISBE requirements in place at the time of application for the license. Requirements are subject to change per the discretion of ISBE. All coursework and requirements pertaining to licensure requirements must be completed before DePaul University can recommend an individual for the license.

Individuals seeking additional endorsements after applying for the licensure must contact ISBE directly for an evaluation request.

All coursework and requirements must be completed before DePaul University can recommend an individual for the license.

Teacher Licensure

Sept 1, 2015 begins the implementation of a new requirement for any individual seeking teaching licensure in the State of Illinois. The new requirement is the Teacher Performance Assessment ("edTPA"), which is mandated by the Illinois State Board of Education (ISBE) for anyone that completes student teaching in Fall 2015 and beyond. EdTPA is an assessment conducted during the student teaching experience. For this assessment, teacher candidates are required to create video clips of instruction, lesson plans, student work samples, analyses of student learning, and teacher candidate reflective commentaries for a learning segment and submit these components using an electronic portfolio to Evaluation Systems an outside agency that is a group of Pearson Publishing. The portfolio will be independently evaluated by a panel of trained reviewers hired by Pearson. For this service a fee is charged. The panel of scorers of edTPA are selected and trained by Evaluation Systems. DePaul University is neither affiliated with Evaluation Systems nor Pearson Publishing and by ISBE regulation cannot be involved in edTPA registration, submission of portfolios, or scoring of individual teacher candidate portfolios. Institutions of higher education are required

by the Illinois State Board of Education to provide teacher candidates with information to prepare for edTPA; however, the process of edTPA is external to DePaul University and is not monitored by DePaul University's College of Education.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110	DISCOVER CHICAGO	4
or LSP 111	or EXPLORE CHICAGO

Junior Year		
Experiential Learning		
Met by successful completion of required field experience hours		
Senior Year		
Capstone		
PE 384	PHYSICAL EDUCATION CAPSTONE	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

³ This must be taken along with student teaching. Students must earn a C or better in this course.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required
(Note: One must be US History)

Math and Computing (MC) (p. 1328)

- 1 Course Required
[1 CR Course or 1 SR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required
 - LSE 380
- 1 Additional Course
(Note: PHL 100 recommended)

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required:
 - 1 CHE/ENV/GEO/PHY
 - 1 SWK Course

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 2 Courses Required
 - PSC 120
- 1 Additional Course

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements**Course Requirements****Biology Foundations: 8 quarter hours required**

Course	Title	Quarter Hours
BIO 201	HUMAN ANATOMY	4
BIO 202	HUMAN PHYSIOLOGY	4

Introductory Courses: 8 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
SCU 207	SOCIAL AND HISTORICAL ISSUES IN EDUCATION	4
SCU 336	ADOLESCENT AND ADULT GROWTH AND DEVELOPMENT	4
or SCU 337	HUMAN GROWTH AND DEVELOPMENT	

Introductory Activity Core: 6 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
PE 121	SWIMMING	2
PE 151	GYMNASTICS	2
PE 213	FOLK & SOCIAL DANCE	2

Introductory Activity Electives: 8 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
Select four of the following:		8
PE 181	FLAG FOOTBALL	
PE 182	VOLLEYBALL	
PE 183	SOCCER	
PE 185	SOFTBALL	
PE 186	TRACK AND FIELD	
PE 187	BASKETBALL	
PE 276	TENNIS	
PE 277	GOLF	

Physical Education Core: 18 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
PE 311	MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN	4
PE 206	PERSONAL AND COMMUNITY HEALTH	4
PE 302	FIRST AID: RESPONDING TO EMERGENCIES	2
PE 303	ATHLETIC INJURIES	4
PE 341	HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION	4

Advanced Courses: 36 quarter hours required, grade of C or better required

Course	Title	Quarter Hours
PE 317	PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL	4
PE 325	LANGUAGE AND LITERACY IN THE PHYSICAL EDUCATION SETTING	4
PE 372	METHODS AND MATERIALS FOR PHYSICAL EDUC CURRICULUM/ INSTRUCTION-SECONDARY SCHL	4
PE 346	ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS	4
PE 351	KINESIOLOGY	4
PE 352	PHYSIOLOGY OF EXERCISE	4
PE 360	EDUCATIONAL PSYCHOLOGY AND MEASUREMENT OF LEARNING	4
PE 374	ADAPTED PHYSICAL EDUCATION	4
PE 390	PSYCHO-SOCIAL ASPECTS OF EXERCISE AND SPORT	4

Open Electives: 16 quarter hours are required

Open elective credit also is required to meet the minimum graduation requirement of 192 hours. The following cannot be used to fulfill an open elective: WRD 98, MAT 94, MAT 95.

Student Teaching: 12 quarter hours required, grade of B- or better required

Registration in student teaching requires completion of all requirements and procedures above. EDU 95 indicates to the Illinois State Board of Education that all field experience hours are complete. All students also take PE 384 during the spring of the senior year (listed in the Liberal Studies section).

Course	Title	Quarter Hours
PE 378	PHYSICAL EDUCATION STUDENT TEACHING IN ELEMENTARY EDUCATION	6
PE 379	PHYSICAL EDUCATION STUDENT TEACHING IN SECONDARY EDUCATION	6
EDU 95	CLINICAL EXPERIENCE WITH CHILDREN AND YOUTH (non-credit, non-tuition, PA grade required)	0

Licensure Tests

All individuals licensed by the Illinois State Board of Education (ISBE) are required to complete licensure tests specific to their teaching license.

Physical Education majors must complete the following tests:

- Physical Education Content Area Test (test #144) – assesses knowledge of health-related physical fitness, movement and skill acquisition, the role of physical education in promoting development, and the physical education program in schools. Test is required before Student Teaching (deadlines apply).
- EdTPA - assessment conducted during the student teaching experience including video clips of instruction, lesson plans, student work samples, analysis of student learning and reflective commentaries. Students will submit an electronic portfolio to an outside agency for independent evaluation and a fee will be imposed by that agency as part of the assessment.

Field Experiences

Each student seeking licensure from the College of Education / Professional Education Unit must complete supervised field experiences in appropriate settings in conjunction with education courses. The field experiences must include a variety of grade levels, multicultural experiences, and a minimum of 10 hours in special education settings. All field experiences must be completed prior to final approval for student teaching. Field experience hours should be entered by the student into the FEDS system when completing courses with field experience requirements. For details on requirements, expectations, documentation, & courses in your program that require hours, visit the College of Education website.

Physical Education (Minor)

The Physical Education minor is designed for students interested in adding teaching skills in physical education to their major course of study.

Course Requirements**Theory**

Course	Title	Quarter Hours
PE 302	FIRST AID: RESPONDING TO EMERGENCIES	2

PE 317	PHYSICAL EDUCATION AND CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL	4
PE 341	HISTORICAL AND PHILOSOPHICAL FOUNDATIONS OF PHYSICAL EDUCATION	4
PE 346	ORGANIZATION/ADMINISTRATION OF PHYSICAL EDUCATION, SPORTS & FITNESS PROGRAMS	4

Activity

Course	Title	Quarter Hours
PE 311	MOTOR DEVELOPMENT THROUGHOUT THE LIFE SPAN	4
PE 121	SWIMMING	2
PE 151	GYMNASTICS	2
Select two of the following:		4
PE 181	FLAG FOOTBALL	
PE 182	VOLLEYBALL	
PE 183	SOCCER	
PE 185	SOFTBALL	
PE 186	TRACK AND FIELD	
PE 187	BASKETBALL	

Note: Students in DePaul's College of Education program in Physical Education cannot select the Physical Education minor.

Physics (BS)

The Department of Physics offers courses and concentrations designed to teach students about the fundamental processes that govern our universe. Students interested in majoring in physics can choose from several concentrations.

The **Standard Physics** concentration provides a curriculum that highlights the core areas of theoretical and experimental physics. The **Computational Physics** concentration gives a curriculum that emphasizes the use of computer simulations as a tool to visualize and understand natural phenomena. For students who wish to apply a physics degree to a career outside of physics, the department offers a concentration entitled **Interdisciplinary Physics**. This concentration combines a major in physics with a minor in a second field of the student's choice with their advisor's consent.

In each concentration, student participation in faculty research is an important component of the program at all levels. This experience prepares students for independent work in industry or graduate study in physics or in applied sciences such as optics, photonics, scientific computing, engineering, or computer science. Participation in research can be pursued either through independent study during the academic year or full-time during the summer quarter.

For students interested in engineering, the department offers a concentration in **Engineering Physics**. Through a joint program with Illinois Institute of Technology (IIT), students can complete a five-year dual-degree program while remaining full-time DePaul students. This five-year program enables students to earn a BS degree in Physics from DePaul and a BS in Engineering from IIT in Mechanical, Aerospace, Electrical/Computer Engineering. Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be

accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program.

Additionally, students interested in engineering, but are not interested in the joint dual-degree program, will have the scientific basis to complete an engineering program at another institution after the first two years of the physics major curriculum at DePaul.

Program Requirements	Quarter Hours
Liberal Studies Requirements	76
Major Requirements	40
Major Concentration Requirements	48-56
Open Electives	20-28
Total hours required	192

Learning Outcomes

Students will be able to:

- Demonstrate critical thinking, quantitative, and mathematical skills required to answer questions about the behavior of the universe.
- Create and interpret multiple representations of physics concepts through the use of mathematics, computational code, computer simulations, as well as written, graphical, and pictorial descriptions.
- Design, execute, and analyze experiments to test physics theories and hypotheses.
- Effectively communicate their understanding of physics concepts to scientists and non-scientists.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

majoring or pursuing dual degrees with the primary major or primary degree in Physics are required to complete the Capstone offered by the Physics department. Physics students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

Learning Domains
Arts and Literature (AL) (p. 1322)
• 3 Courses Required

Historical Inquiry (HI) (p. 1326)
• 2 Courses Required

Math and Computing (MC) (p. 1328)
• Not Required

Philosophical Inquiry (PI) (p. 1329)
• 2 Courses Required

Religious Dimensions (RD) (p. 1330)
• 2 Courses Required

Scientific Inquiry (SI) (p. 1332)
• Not Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)
• 3 Courses Required

Notes

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements
Course Requirements

Common Core
Physics

Course	Title	Quarter Hours
PHY 170	UNIVERSITY PHYSICS I	4
PHY 171	UNIVERSITY PHYSICS II	4
PHY 172	UNIVERSITY PHYSICS III	4

MAT 160	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS I	
MAT 161	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS II	
MAT 162	CALCULUS FOR MATHEMATICS AND SCIENCE MAJORS III	
Sequence Four		
MAT 155	SUMMER CALCULUS I	
MAT 156	SUMMER CALCULUS II	
MAT 260	MULTIVARIABLE CALCULUS I	4

Sequencing of Coursework

Students interested in majoring in physics, applied computational physics, or pre-engineering should enroll in PHY 170 and MAT 160 in the autumn quarter of their first year, provided they are adequately prepared in mathematics.

The sequences of PHY 170, PHY 171, and PHY 172 and MAT 160, MAT 161, and MAT 162 are prerequisites to PHY 270, PHY 300 and PHY 301, and PHY 370, which should be taken in the sophomore year together with MAT 260 and MAT 261.

It is recommended that students interested in the standard concentration or pre-engineering also take the chemistry sequence (CHE 130, or CHE 120 and CHE 131 and CHE 132 or CHE 122 and CHE 133, CHE 134 and CHE 135) their first year. Because of the predominance of physics, mathematics, and chemistry sequences in the freshman and sophomore years, it is crucial that Physics and Pre-Engineering majors be advised by Physics faculty upon enrollment at DePaul.

Concentration Requirements

Students must also complete the requirements from one of the following concentrations: Standard, Computational, Engineering, or Interdisciplinary Physics. Students are limited to declaring only one concentration.

Students are advised to talk with their advisor before double majoring, because some major combinations are prohibited. No more than 50% of the credits that apply to one major may be drawn from another major.

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- Computational Physics Concentration, Physics (BS) (p. 911)
- Engineering Physics Concentration, Physics (BS) (p. 911)
- Interdisciplinary Physics Concentration, Physics (BS) (p. 912)
- Standard Concentration, Physics (BS) (p. 912)

Computational Physics Concentration, Physics (BS)

Course Requirements

Course	Title	Quarter Hours
PHY 310	MECHANICS I	4
PHY 320	ELECTRICITY AND MAGNETISM I	4
PHY 360	QUANTUM MECHANICS I	4
PHY 342	COMPUTATIONAL PHYSICS	4
PHY 390	APPLIED COMPUTATIONAL PHYSICS LABORATORY	4
Select three additional physics courses, at least one at the 300 level, as approved by a departmental advisor		12
MAT 261	MULTIVARIABLE CALCULUS II	4
Select one of the following two course sequences:		8
Programming in Java I-II Sequence		
CSC 211 & CSC 212	PROGRAMMING IN JAVA I and PROGRAMMING IN JAVA II	
Programming in Python I-II Sequence		
CSC 241 & CSC 242	INTRODUCTION TO COMPUTER SCIENCE I and INTRODUCTION TO COMPUTER SCIENCE II	
Select three 300-level CDM courses as approved by departmental faculty advisor		12

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Engineering Physics Concentration, Physics (BS)

DePaul University offers a joint program with Illinois Institute of Technology (IIT) in physics and engineering. This program allows students to enroll in courses at IIT while remaining full-time DePaul students. Students will receive a BS degree in Physics from DePaul University and a BS degree in Mechanical, Aerospace, Electrical, or Computer Engineering from IIT upon completion of the five year program.¹

Students interested in Engineering Physics or the joint program should promptly consult with a Physics Department advisor for information about scheduling, requirements, and admission to the joint program.

¹ Courses taken at an external institution such as IIT are excluded from the university's employee tuition waiver benefit program.

Course Requirements

Course	Title	Quarter Hours
Select one of the following:		4
PHY 370	ELECTRONICS (required for Mechanical/Aerospace)	
PHY 340	THERMAL PHYSICS (required for Electrical/Computer)	
Select one of the following two course sequences: ¹		8
Electromagnetism Sequence		
PHY 320 & PHY 321	ELECTRICITY AND MAGNETISM I and ELECTRICITY AND MAGNETISM II	
Quantum Mechanics Sequence		
PHY 360 & PHY 361	QUANTUM MECHANICS I and QUANTUM MECHANICS II	
Select two additional physics courses at the 300 or 400 level as approved by advisor		8

¹ Electrical Engineering students should take PHY 320 and PHY 321.

Mathematics

Course	Title	Quarter Hours
MAT 261	MULTIVARIABLE CALCULUS II	

Computer Science

Course	Title	Quarter Hours
CSC 241	INTRODUCTION TO COMPUTER SCIENCE I	
CSC 242	INTRODUCTION TO COMPUTER SCIENCE II ¹	

¹ Electrical/Computer students must also take

Chemistry

Course	Title	Quarter Hours
CHE 130 & CHE 131	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	
CHE 132 & CHE 133	GENERAL CHEMISTRY II and GENERAL CHEMISTRY LABORATORY II	

Engineering

- Approved twenty quarter hours at 300/400 level from the Mechanical, Aerospace, Electrical/Computer Engineering program at Illinois Institute of Technology (IIT). Students interested in obtaining a BS in Physics with the Engineering Physics concentration must be accepted into one of these programs at IIT as part of the DePaul-IIT Joint Engineering Program. Note that, in addition to the engineering courses mentioned above, students must take at least four courses at the 200-level and at least 10 additional 300-level and 400-level courses at IIT to earn their engineering degree. (The total number of courses will be determined by IIT). Please contact the Physics Department for details.

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Interdisciplinary Physics Concentration, Physics (BS)

Intended for students who seek to apply their scientific training in a career outside of physics, this concentration allows students to combine a core physics curriculum with a minor from another field. Possible minors include Journalism or Technical Writing for students pursuing a career in science writing, Economics for students interested in business, or Biological Sciences for students interested in biophysics.

Course Requirements
Physics

- Six physics courses, at least three at the 300 level, as approved by a departmental advisor.
- Six courses which constitute a minor in a different discipline, as approved by a departmental advisor.
- Courses from physics with mathematics common core may not be counted toward a math minor.

Open Electives

Open elective credit is also required to meet the minimum graduation requirement of 192 hours.

Standard Concentration, Physics (BS)
Course Requirements

Course	Title	Quarter Hours
Select four of the following:		16
PHY 310	MECHANICS I	
PHY 311	MECHANICS II	
PHY 320	ELECTRICITY AND MAGNETISM I	
PHY 321	ELECTRICITY AND MAGNETISM II	
PHY 360	QUANTUM MECHANICS I	
PHY 361	QUANTUM MECHANICS II	
PHY 370	ELECTRONICS	4
PHY 380	EXPERIMENTAL PHYSICS I	4
or PHY 390	APPLIED COMPUTATIONAL PHYSICS LABORATORY	
Select four additional Physics courses, at least two at the 300 level, as approved by a departmental advisor		16
MAT 261	MULTIVARIABLE CALCULUS II	4
Select one year-long sequence of courses in the sciences, mathematics, or computer science from the following sequences:		12
Biology Sequence		
BIO 191	GENERAL BIOLOGY I FOR SCIENCE MAJORS	
BIO 192	GENERAL BIOLOGY II FOR SCIENCE MAJORS	
BIO 193	GENERAL BIOLOGY III FOR SCIENCE MAJORS	

Chemistry Sequence	
CHE 130 & CHE 131	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY
CHE 132 & CHE 133	GENERAL CHEMISTRY II and GENERAL CHEMISTRY LABORATORY II
CHE 134 & CHE 135	GENERAL CHEMISTRY III and GENERAL CHEMISTRY LABORATORY III
Environmental Science Sequence	
ENV 250	APPLIED ECOLOGY
or BIO 215	ECOLOGY
ENV 216	EARTH SYSTEM SCIENCE
ENV 217	HUMAN IMPACTS ON THE ENVIRONMENT
Mathematics Sequence: Select three 300-level sequenced courses as approved by departmental advisor	
Computer Science Sequence: Select any one year-long three-course sequence of CSC courses as approved by departmental faculty advisor	

Open Electives

Open elective credit also is required to meet the minimum graduation requirement of 192 hours.

Physics (BS) + Secondary Education Physics (MEd)

The combined Bachelor's + Master's degree programs allow students to complete 12 graduate credit hours while still undergraduates. These 12 graduate credit hours will count toward both the undergraduate and graduate degree programs.

The TEACH Program combines a College of Science and Health (CSH) undergraduate Physics major or some other disciplinary major with a graduate level College of Education (COE) Master of Education (MEd) Program. Students graduate with a BS in their CSH disciplinary major and a MEd in Education with a State of Illinois Secondary Physics Certification.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320 , and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework : 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework : 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 414	THE NATURE OF SCIENCE	4
TCH 424	INQUIRY & APPLICATION IN DEVELOPING SCIENCE PEDAGOGY	4

All coursework in the content area must earn a grade of C or better.

- Physics I
- Physics II
- Physics III
- Physics IV
- Meth of Computational & Theoretical Physics I
- Meth of Computational & Theoretical Physics II
- 5 Physics Electives
- Mechanics
- Calculus I
- Calculus II
- Calculus III
- Multivariable Calculus I
- Multivariable Calculus II
- General Chemistry I
- General Chemistry II
- General Chemistry III

This combined degree program of the College of Science and Health and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Physics at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1156)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Physics (Minor)

The Physics minor curriculum focuses on scientific investigation, laboratory experience and research opportunities to give you hands-on experience in the field of physics.

Course Requirements

Course	Title	Quarter Hours
Select one of the following course sequences:		12
Sequence One		
PHY 150	GENERAL PHYSICS I	
PHY 151	GENERAL PHYSICS II	
PHY 152	GENERAL PHYSICS III	
Sequence Two		
PHY 170	UNIVERSITY PHYSICS I	
PHY 171	UNIVERSITY PHYSICS II	
PHY 172	UNIVERSITY PHYSICS III	
Select three additional physics courses		12

Physics majors cannot earn a minor in Physics.

Physics (MS)

The Graduate Physics program is intended to serve the needs of students who wish to enhance their preparation for a doctoral degree in physics or applied science, students who wish to obtain a terminal masters degree in order to work in a physics or engineering related industry, and students who wish to enhance their teaching of physics at the secondary level. To fulfill these purposes, the department offers a degree program: Master of Science in Physics.

Program Requirements	Quarter Hours
Core Requirements	20
Concentration Requirements	24
Elective Requirements	4
Total hours required	48

Learning Outcomes

Students will be able to:

- Demonstrate the mathematical, computational, or experimental expertise sufficient to carry out original research in physics.
- Apply general principles, such as conservation of energy and momentum, to complex systems that require the use of more than one branch.

Degree Requirements**Course Requirements****Core Requirements**

Course	Title	Quarter Hours
PHY 411	ELECTRODYNAMICS I	4
PHY 412	QUANTUM MECHANICS I	4
PHY 420	ELECTRODYNAMICS II	4

PHY 440	CLASSICAL MECHANICS	4
PHY 460	QUANTUM MECHANICS II	4

Thesis Requirement

Course	Title	Quarter Hours
PHY 480	THESIS RESEARCH	1-8

Six Electives

- Any physics courses with a number equal to or higher than PHY 410. A second PHY 480 is allowed as one of these six electives.
- Courses at the 300 or 400 level in biology, chemistry, mathematics, physics, computer science or other related fields can be substituted for up to two of these six elective courses with the written approval of the departmental graduate committee. Please contact the Program Director for details.

Thesis Requirement

A thesis based on independent research in theoretical or experimental physics is generally required. However, a review thesis reflecting study of a broad subject or development of an interdisciplinary, historical or educational theme is also acceptable with permission from the Graduate Committee.

As a rule, one course credit of 4 quarter-hours in PHY 480 is applicable to the thesis research. An additional PHY 480 course (4 credit hours) may be allowed with the written approval of the student's faculty advisor. While students are permitted to register for more than two 4-credit sections of PHY 480, in no case will more than two PHY 480 courses (4 credit hours each) be applied toward the Master of Science degree.

Students are advanced to candidacy upon the written approval of their thesis proposal by the graduate committee, subject to the rules and conditions given below. An oral examination on the thesis is required, eligibility and rules are given below.

Thesis Procedures and Timelines

- A committee with the advisor as Chair and two other members of the DePaul Physics department must be constituted **three months prior** to the MS Thesis Defense. Committee members (from outside the Physics Department, or outside DePaul) are allowed by permission of the Graduate Director, but cannot function as Committee Chairs.
- A written report on the thesis project must be furnished to the Committee three months prior to the planned MS Thesis Defense. The written report should include: Title of the thesis project, abstract of the research, a 1-page update on what work has been accomplished so far, and what work remains to be done. The committee members reserve the right to meet with the student and seek clarification and information orally at this time.
- Following submission of the written report described in (2) above, the committee members will sign the College of Science and Health's (CSH) *Approval of Proposal for Final Project* form found on the website for the CSH's Office of Advising and Student Services. A signature on this form does not constitute permission to defend in another three months, nor does it make any judgment in this regard. Instead, the signatures attest to the fact that the committee has been constituted, and that the committee members have received a written report on the thesis project described in (2) above from the student.
- The signed CSH *Approval of Proposal for Final Project* form found on the website for the CSH's Office of Advising and Student Services will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student **the earliest**

date on which they are eligible to schedule a thesis defense if (5) and (6) below are satisfactorily fulfilled.

- A written version of the thesis that is in reasonably final form must be furnished to all the three members of the committee by the student **two weeks prior** to the planned MS Thesis Defense. No exceptions will be granted on this rule.
- Within a week of having received the thesis mentioned in (5) above, that is, one week prior to the planned thesis defense, all committee members must sign the Physics Department *Approval of Scheduling of Thesis Defense* form giving the student permission to proceed with the thesis defense. A signature on this form does not reflect a judgment on, or acceptance of, the thesis; it constitutes only an approval for the date of the defense. If the committee members feel that the student is not ready to defend, based on their reading of the thesis (which case may be either because the thesis is not written in a satisfactory manner, or because they feel more work needs to be done on the project), they can choose to withhold their signature; the committee member(s) withholding his/her signature(s) must provide a written explanation of why they did not sign, and what changes and corrections, if any, would be required to obtain their signature. This will automatically mean that the student cannot defend during the next week. In such a case, the cycle will start from (5) again, whenever the advisor and student feel they have addressed satisfactorily the concerns of their committee member(s).
- The signed Physics Department *Approval of Scheduling of Thesis Defense* form will then be submitted to the Program Director who will, upon receipt of this form, make known to the thesis advisor and student **the earliest date** on which they are eligible to schedule a thesis defense.
- Following the thesis defense, the committee members will render a decision as to the outcome of the defense in **one of** the two following ways:
 - If they believe the student has satisfactorily defended his/her thesis and the thesis requires no modifications or only minor modifications, meaning that they wish to pass the student immediately, they will sign the CSH's *Final Requirements Report* form found on the website for the CSH's Office of Advising and Student Services.
 - In all other cases, they will sign the Physics Department *Interim Thesis Defense Report* form. Further action will be determined by the actions recommended in this form.
- The signed form (CSH *Final Requirements Report* or Physics Department *Interim Thesis Defense Report*) should be forwarded to the Program Director, the former for forwarding to the CSH's Office of Advising and Student Services, the latter for student file purposes.
- If, at any time during this period, the student and/or advisor reconstitute a committee by changing the committee members, the process will restart from (1) above. The only exception to this rule will be if a committee member (but not the Committee Chair) takes an emergency leave of absence or is otherwise unable to discharge their duties, in which case the process may be allowed to restart from (5) above with permission from the Graduate Committee.

Program Graduate Academic Student Handbook

Academic Probation

A graduate student in the Physics department is subject to academic probation as soon as his/her cumulative graduate GPA falls below 2.75.

Academic Dismissal

If a graduate student fails to raise his/her cumulative GPA to at least a 2.75 after four courses are taken while on academic probation or for more than two consecutive quarters while completing coursework on academic probation, the student may be academically dismissed for poor scholarship, and prohibited from registering for additional course work. A graduate student who is not making satisfactory progress toward the degree may be academically dismissed upon the recommendation of the Graduate Committee of the Physics Department for failing grades (below C-) in two or more graduate courses, or any other situation that has been deemed by a majority of the Graduate Committee to constitute an instance of not making satisfactory progress toward the degree.

Readmission

A student who has been dismissed may, after a period of time, petition for reinstatement. The petition, addressed to the Dean of the College of Science and Health, would provide information that would demonstrate a change in the student's circumstances to an extent that would support successful completion of the student's degree program. The Dean's decision, based upon the merits of the petition and the recommendation of the Graduate Committee of the Physics department, may, if favorable, stipulate conditions of reinstatement. The Dean has the discretion to reject the recommendation for reinstatement.

Transfer Credit

A maximum of three courses (12 quarter credit hours or the semester equivalent) may be transferred from another university or DePaul program, subject to the following: The determination of whether or not a particular course is deemed suitable for transfer will be made by the Program Director who may, at his/her discretion, consult the Graduate Committee for assistance in making this decision. Upon successful support, the request would be made to the Associate Dean for Graduate Studies for approval. Transfer credit can only be awarded for graduate level coursework which has not counted toward the completion of a degree at DePaul or any other institution.

Undergraduate Courses

Students who are deemed to have inadequate undergraduate preparation in physics may be required to take undergraduate courses in Physics. Such courses will be specified by the Program Director in consultation with the Graduate Committee. A maximum of two such courses as eight credit hours may be counted toward the graduate degree, but undergraduate courses cannot substitute for any required (core) courses in the graduate program.

Graduation Requirements

Requirements include, but are not limited to, earning a minimum cumulative GPA of 2.75, completing a minimum of 48 quarter hours as twelve graduate courses applicable toward the graduate physics program, and completing and defending a thesis.

Thesis

A thesis based on independent research in theoretical or experimental physics is generally required. An oral examination on the thesis is also required. The thesis and the defense will be evaluated by a committee consisting of three faculty members from the Physics department at DePaul, who may judge the thesis and/or oral examination to be satisfactory or may require the student to submit changes to the thesis, and go through more cycles of oral examination. Committee members

from outside the Physics department (whether DePaul faculty, or external to DePaul) are allowed only by consent of the Program Director.

Thesis Proposal

A proposal (minimum one page) stating the broad outlines of the project, and signed by both the thesis advisor (deemed Thesis Committee Chair) and the student must be completed per the schedule below. A copy of this signed proposal, together with a copy of the Approval of Proposal for Final Project must be kept on file in the Physics department for reference. The thesis advisor may, at his/her discretion, prepare a longer, more comprehensive proposal.

Student plans oral defense of thesis no earlier than	Student must submit Thesis Proposal no later than
Spring/Summer term of immediately following calendar year	Autumn term
Winter term of immediately following calendar year	Summer term
Autumn term of immediately following calendar year	Winter term

The thesis proposal is a document that records the broad outline of the project only. The determination of when a student has completed the necessary work to be able to finish and defend the thesis will rest solely with the thesis advisor, and the thesis proposal cannot be used as a basis for determining the same. Changes to the thesis proposal may be carried out at the discretion of the thesis advisor. Changes proposed by the student will only be allowed if the thesis advisor agrees to make those changes.

Graduation with Distinction

Graduating students will be deemed to have graduated with distinction if they earn a minimum cumulative GPA of 3.50 in coursework applied toward their graduate physics program and their thesis committee declares their project to have been completed with distinction (as evidenced by their signature on the Final Requirements Report form).

Time Limitation

Students pursuing a master's degree must complete all requirements for the master's degree within a maximum of six years from their first term of enrollment in the program.

Playwriting (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Playwriting focuses on helping students explore and identify their voice and unique process of working as a writer in a variety of circumstances. The four-year curriculum provides students with the primary tools of dramatic writing and the space and opportunity to use them through a variety of classroom and workshop production experiences.

Program Requirements	Quarter Hours
Liberal Studies Requirements	52
Major Requirements	164
Total hours required	216

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Create compelling dramatic texts that explore universal issues through detailed and specific characters and actions.
- Communicate their intentions to collaborators and be able to respond to and incorporate the responses of collaborators from all disciplines.
- Explain how their writing fits into contemporary and historical contexts.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

Other (p. 1322)

- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Open Electives

Open elective credit may also be required to meet the minimum graduation requirement of 192 hours.

Political Science (BA)

Political Science is the study of the organization and behavior of people, groups, and institutions which make up our government and the larger political system. The program is designed to introduce students to questions, perspectives, and arguments about the political forces that shape their lives. As such, the program has value for Liberal Studies students as well as for those who may choose the discipline as a major field of study. Students find the substance and the methods of the discipline useful in the legal, business, civic, communications, governmental, and academic professions, as well as any endeavors that draw them into public service.

Program Requirements	Quarter Hours
Liberal Studies Requirements	84
Major Requirements	56
Open Electives	52
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe and explain core concepts within the field of political science in their local, national, and international contexts (mastery of content).
- Analyze a given political issue from multiple perspectives and/or theoretical approaches (critical thinking).
- Compose clear and well-organized explanations of political phenomena and support these explanations with evidence (articulate expression).
- Evaluate political institutions, attitudes, and behavior with regards to social justice (moral reasoning).

College Core Requirements Study in the Major Field

The student's course of study in the College consists of three parts: Liberal Studies, the major field, and electives. Together these three parts contribute to the liberal education of the student which is the common purpose of all study in the College. By "liberal education" the College understands not only a deep and thorough knowledge of a particular area of study but a knowledge of the diverse areas of study represented by criticism, history, the arts, the behavioral and social sciences, philosophy, religious studies, the natural science, and mathematics.

The major field program generally is built upon a set of core courses and a specialized "concentration." The number of courses required for a major varies by department. Most students go beyond the minimum requirements, electing additional courses which both broaden and deepen their understanding of their chosen discipline.

Because no academic major program is built in isolation, students are required to pursue a number of electives of the student's choice. The inherent flexibility of this curriculum demands that the student consult an academic advisor at each stage in the total program and at least once prior to each registration.

Students will be prompted to visit the College Office for their official graduation check early in their senior year.

Declaration of Major, Minor and Concentration

All students in the College are required to declare a major field prior to beginning their junior year. The student will then be assigned a faculty advisor in the major field department or program and should make an appointment to see that advisor at his or her earliest convenience.

Students must declare or change majors, minors, and concentrations, via Campus Connection. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor in the Office for Academic Advising Support.

The Modern Language Requirement (MLR)

All students will be required to demonstrate competence in a modern language (i.e., a language other than English) equivalent to the proficiency attained from one year of college-level language study. This Modern Language Requirement (MLR) may be demonstrated by:

- placing into 104 or above on the DePaul language placement exam
- completing the last course or earning AP/IB credit for the last course in the first-year college sequence of any language (e.g. 103 for DePaul language classes)
- completing a college course or earning AP/IB credit for a college course beyond the first-year level in any language (e.g. 104 or above for DePaul language classes)
- completing the final course of a four-year sequence of the same modern language in high school*
- completing a proctored exam by BYU and passing the exam (see the Department of Modern Languages website for registration details)
- completing a proctored Written Proficiency Test (WPT) by Language Testing International (LTI) and achieving a score of Beginner High or above (see the Department of Modern Languages website for registration details)

*Students are strongly encouraged to take the DePaul language placement exam even if they have met the MLR via study of a language in high school. This will ensure continuation of language study at the proper level.

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

Students who complete an Inter-College Transfer (ICT) to the College will abide by the MLR in place on the effective date of the ICT, regardless of when they first matriculated at DePaul.

Students who have met the MLR and wish to pursue further work in the language may elect the “Modern Language Option” (see below).

The Modern Language Option (MLO)

The Modern Language Option is available to all BA students who wish to study a modern language beyond the level required by their College, and to all other undergraduate students without a modern language requirement who wish to study a language at any level.

Students selecting the MLO may substitute a sequence of three courses in the same language for three domain courses.

The three MLO substitutions must be made in three different domains, and any substitutions must be consistent with the principle that students complete at least one course in each learning domain.

MLO substitutions may not be used to replace requirements in the Math & Computing, and Scientific Inquiry, domains.

Students majoring in one modern language may use the Modern Language Option for study of a second language at the Intermediate level or above.

Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

NOTE: Please contact your college/school regarding additional information and restrictions about the Modern Language Option.

External Credit and Residency

A student who has been admitted to the College begins residency within the college as of the first day of classes of the term in which the student is registered. Students in residence, whether attending on a full-time or part-time basis, may not take courses away from DePaul University without the written permission of the college. Permission must be obtained in advance of registration to avoid loss of credit or residency in the college; see the LAS website for more information.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours

Junior Year		
Experiential Learning		
Required		4
Senior Year		
Capstone		
PSC 390	CAPSTONE SEMINAR ^{1, 2}	4

¹ A student whose only major is Political Science is required to complete the Capstone offered by the Political Science Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Political Science may substitute the Capstone of the secondary major or degree. A Political Science major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Political Science Capstone.

² Students must earn a C- or better in this course.

³ Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam. Students who complete MAT 120 and both a Computational Reasoning course and a Statistical Reasoning course in the Math and Computing Domain take one less Learning Domain course. Students may not apply the course reduction to any Domain where only one course is required, and cannot be applied to the SI Domain.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 2 Courses Required
[1 CR Course and PSC 205 or SOC 279]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required

Religious Dimensions (RD) (p. 1330)

- 2 Courses Required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required

Notes

A student whose only major is Political Science is required to complete the Capstone offered by the Political Science Department. A student who is double majoring (or pursuing dual degrees) with the primary major (or primary degree) in Political Science may substitute the Capstone of the secondary major or degree. A Political Science major in the University Honors Program shall take only the University Honors Capstone, not both the Honors Capstone and the Political Science Capstone.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major. Students who choose to take an experiential learning course offered by the major may count it either as a general elective or the Experiential Learning requirement.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Major Requirements

Political Science majors must complete the requirements for one of the following four concentrations: Standard, American Politics, International Politics, or Law and Theory. Each concentration requires courses drawn from different subfields of Political Science. The classes within each subfield are listed below. To determine the specific distribution of

courses across subfields, students should consult the concentration requirements which can be accessed via the link on the left side of this webpage.

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

PSC 392	INTERNSHIP	
PSC 393	HONORS SEMINAR	
PSC 394	SENIOR THESIS	
PSC 395	TRAVEL/STUDY	
PSC 399	INDEPENDENT STUDY	

Concentrations, tracks and specializations provide focus to the major. In addition to any college core requirements, liberal studies requirements and major requirements, students are required to choose one of the following:

- American Politics Concentration, Political Science (BA) (p. 921)
- International Politics Concentration, Political Science (BA) (p. 921)
- Law and Theory Concentration, Political Science (BA) (p. 922)
- Standard Concentration, Political Science (BA) (p. 925)

American Politics Concentration, Political Science (BA)

A concentration in American Politics focuses on American political institutions and behavior.

Course Requirements

Core Courses: 8 quarter hours

Course	Title	Quarter Hours
PSC 120	THE AMERICAN POLITICAL SYSTEM	4
Plus one other 100-level offering:		4
PSC 130	INTRODUCTION TO POLITICAL THEORY	
PSC 140	INTRODUCTION TO INTERNATIONAL RELATIONS	
PSC 150	INTRODUCTION TO COMPARATIVE POLITICS	

Intermediate Courses: 20 quarter hours

Course	Title	Quarter Hours
Select three 200-level courses of the following:		12
PSC 211	POLITICAL PSYCHOLOGY	
PSC 212	LATINO POLITICS	
PSC 213	POLITICAL SOCIALIZATION	
PSC 216	AMERICAN POLITICAL CULTURE	
PSC 217	WOMEN AND POLITICS	
PSC 218	AFRICAN-AMERICAN POLITICS	
PSC 219	TOPICS IN POLITICAL CULTURE	
PSC 220	THE AMERICAN PRESIDENCY	
PSC 221	CONGRESS AND THE LEGISLATIVE PROCESS	
PSC 222	POLITICAL PARTIES AND ELECTIONS	
PSC 223	URBAN POLITICS	

PSC 225	STATE POLITICS
PSC 226	LATINO POLITICAL BEHAVIOR
PSC 229	TOPICS IN AMERICAN POLITICS

Select two additional 200-level courses from the following areas:

Political Thought (PSC 230 through PSC 239)
International Relations (PSC 240 through PSC 249)
Comparative Politics (PSC 250 through PSC 259)

Advanced Courses: 16 quarter hours

Course	Title	Quarter Hours
Select two 300-level courses from the following:		8
PSC 310	POLITICAL CULTURE AND DEVELOPMENT	
PSC 312	LGBTQ POLITICS	
PSC 315	INTERNET, TECHNOLOGY, AND POLITICS	
PSC 316	RELIGION, NATIONALISM AND POLITICS	
PSC 319	ADVANCED TOPICS IN POLITICAL CULTURE	
PSC 321	MASS MEDIA AND AMERICAN POLITICS	
PSC 322	URBAN POLICYMAKING	
PSC 323	CHICAGO GOVERNMENT AND POLITICS	
PSC 324	INEQUALITY IN AMERICAN SOCIETY	
PSC 326	IDEOLOGY, ECONOMICS AND POLICY	
PSC 327	PUBLIC OPINION	
PSC 328	ADVANCED TOPICS IN AMERICAN POLITICS	
PSC 329	ADVANCED TOPICS IN PUBLIC POLICY	

Two Additional 300-Level Courses from the Following Areas

- Methodology (PSC 300 through PSC 309)
- Political Thought (PSC 330 through PSC 339)
- International Relations (PSC 340 through PSC 349)
- Comparative Politics (PSC 350 through PSC 359)
- Public Law (PSC 360 through PSC 369)
- Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours

- Three additional PSC courses at the 200 or 300 level

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

International Politics Concentration, Political Science (BA)

The concentration in international politics is designed to provide students with an opportunity to focus on comparative and international politics.

Course Requirements

Core Courses: 8 quarter hours

Course	Title	Quarter Hours
Select one of the following:		4
PSC 140	INTRODUCTION TO INTERNATIONAL RELATIONS	
PSC 150	INTRODUCTION TO COMPARATIVE POLITICS	
Plus one other 100-level offering:		4
PSC 120	THE AMERICAN POLITICAL SYSTEM	
PSC 130	INTRODUCTION TO POLITICAL THEORY	

Intermediate Courses: 20 quarter hours

Course	Title	Quarter Hours
Select three 200-level courses from the following:		12
PSC 242	AMERICAN FOREIGN POLICY	
PSC 243	RUSSIAN-AMERICAN RELATIONS	
PSC 244	LATIN AMERICAN-UNITED STATES RELATIONS	
PSC 246	ASIAN FOREIGN POLICY	
PSC 247	U.S. - AFRICA RELATIONS	
PSC 248	WAR, PEACE, AND CONFLICT RESOLUTION	
PSC 249	TOPICS IN INTERNATIONAL RELATIONS	
PSC 250	EUROPEAN POLITICS	
PSC 251	RUSSIAN POLITICS	
PSC 252	LATIN AMERICAN POLITICS	
PSC 253	ASIAN POLITICS	
PSC 254	AFRICAN POLITICS	
PSC 255	MIDDLE EAST POLITICS	
PSC 257	CYBER WARFARE AND CYBER POLITICS	
PSC 258	GENDER, RESISTANCE & LABOR: COMPARATIVE POLITICAL DEVELOPMENT	
Select two additional courses from the following areas:		8
Political Culture (PSC 210 through 219)		
American Politics (PSC 220 through PSC 229)		
Political Thought (PSC 230 through PSC 239)		

Advanced Courses: 16 quarter hours

Course	Title	Quarter Hours
Select two 300-level courses from the following:		8
PSC 340	THE EUROPEAN UNION	
PSC 341	POLITICAL ISLAM AND AMERICAN FOREIGN POLICY	
PSC 342	ARMS, SECURITY, AND WAR	
PSC 343	INTERNATIONAL POLITICAL ECONOMY OF THE PACIFIC RIM	
PSC 344	INTERNATIONAL POLITICAL ECONOMY	
PSC 345	THE CATHOLIC CHURCH IN WORLD POLITICS	
PSC 346	THE UNITED NATIONS AND WORLD PROBLEMS	

PSC 347	ETHICS IN WORLD POLITICS
PSC 348	GLOBAL ENVIRONMENTAL POLITICS
PSC 349	ADVANCED TOPICS IN INTERNATIONAL RELATIONS
PSC 350	JAPANESE POLITICS
PSC 351	REVOLUTION AND TERRORISM
PSC 352	CHINESE POLITICS
PSC 353	COMPARATIVE DEMOCRACY AND DICTATORSHIP
PSC 358	GLOBAL GENDER POLITICS
PSC 359	ADVANCED TOPICS IN COMPARATIVE POLITICS

Two Additional 300-Level Courses from the Following Areas

- Methodology (PSC 300 through PSC 309)
- Political Culture (PSC 310 through PSC 319)
- American Politics (PSC 320 through PSC 329)
- Political Thought (PSC 330 through PSC 339)
- Public Law (PSC 360 through PSC 369)
- Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours

- Three additional PSC courses at the 200 or 300 level.

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student’s faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Law and Theory Concentration, Political Science (BA)

This concentration allows students to focus on law and its foundations in political theory.

Course Requirements

Core Courses: 8 quarter hours

Course	Title	Quarter Hours
PSC 130	INTRODUCTION TO POLITICAL THEORY	4
Select one of the following 100-level courses:		4
PSC 120	THE AMERICAN POLITICAL SYSTEM	
PSC 140	INTRODUCTION TO INTERNATIONAL RELATIONS	
PSC 150	INTRODUCTION TO COMPARATIVE POLITICS	

Intermediate Courses: 20 quarter hours

Course	Title	Quarter Hours
Five 200-level courses:		
PSC 260	LAW AND THE POLITICAL SYSTEM	4
Select two courses from Public Theory and Public Law:		8

PSC 230	CLASSICAL POLITICAL THOUGHT
PSC 231	MODERN POLITICAL THOUGHT
PSC 232	LIBERALISM, CONSERVATISM, AND DEMOCRACY
PSC 233	POLITICAL IDEAS AND IDEOLOGIES
PSC 234	FREEDOM AND EMPOWERMENT
PSC 235	EQUALITY AND SOCIAL JUSTICE
PSC 236	LEGITIMACY AND CRISIS
PSC 239	TOPICS IN POLITICAL THOUGHT
PSC 261	CONSTITUTIONAL LAW: FIRST AMENDMENT RIGHTS
PSC 262	CONSTITUTIONAL LAW: RIGHTS OF DEFENDANTS
PSC 263	CONSTITUTIONAL LAW: EQUAL PROTECTION OF THE LAWS
PSC 264	CONSTITUTIONAL LAW: SEPARATION OF POWERS
PSC 265	LAW AND POPULAR CULTURE
PSC 266	LAW, POLITICS AND MASS INCARCERATION
PSC 267	LAW, POLITICS AND SOCIETY
PSC 268	THE POLITICS OF LAW AND SEXUALITY
PSC 269	TOPICS IN PUBLIC LAW

Select two courses from the following areas: 8

Political Culture (PSC 200 through PSC 209)
American Politics (PSC 220 through PSC 229)
International Politics (PSC 242 through PSC 249)
Comparative Politics (PSC 250 through PSC 259)

Advanced Courses: 16 quarter hours

Course	Title	Quarter Hours
Select two 300-level courses from the following: 8		
PSC 330	AMERICAN POLITICAL THOUGHT	
PSC 331	CONTEMPORARY POLITICAL THOUGHT	
PSC 333	MARXISM	
PSC 335	THEORIES OF THE CHURCH	
PSC 336	AFRICAN-AMERICAN POLITICAL THOUGHT	
PSC 337	CHRISTIAN POLITICAL THOUGHT	
PSC 339	ADVANCED TOPICS IN POLITICAL THOUGHT	
PSC 361	INTERNATIONAL LAW	
PSC 362	THE CRIMINAL JUSTICE SYSTEM	
PSC 363	WOMEN AND THE LAW	
PSC 365	VOTING, REPRESENTATION, AND THE LAW	
PSC 366	NATIONAL SECURITY AND THE U.S. CONSTITUTION	
PSC 367	IMMIGRATION LAW	
PSC 368	RIGHTS-BASED SOCIAL MOVEMENTS	
PSC 369	ADVANCED TOPICS IN PUBLIC LAW	

Two additional 300-level courses from the following areas

- Methodology (PSC 300 through PSC 309)
- Political Culture (PSC 310 through PSC 319)
- American Politics (PSC 320 through PSC 329)
- International Relations (PSC 340 through PSC 349)
- Comparative Politics (PSC 350 through PSC 359)
- Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours

- Three additional PSC courses at the 200 or 300 level

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Political Science (BA) + Secondary Education Social Science (MEd)

The TEACH Program combines a Liberal Arts and Social Sciences (LAS) undergraduate Social Science major (Anthropology, Economics, Geography, History, Political Science, or Sociology) or a Science and Health (Psychology) major with a graduate level College of Education (COE) master's in Education Program. Students graduate with a BA or BS in their disciplinary major and a MEd in Education with State of Illinois Secondary Social Science licensure.

Students may apply to the TEACH Program during the spring of their junior year. They must enroll in the Junior Year Experiential Learning course, TCH 320, and meet other application criteria; these include completion of at least 16 quarter credit hours at DePaul and a 3.0 GPA. During their senior year, students are required to complete a TEACH Program capstone course, TCH 390, and three 400-level courses that count toward both their undergraduate and graduate degrees:

Junior Year Coursework: 4 undergraduate quarter hours required

Course	Title	Quarter Hours
TCH 320	EXPLORING TEACHING IN THE URBAN HIGH SCHOOL (fulfills the Liberal Studies Program experiential learning (EL) requirement)	4

Senior Year Coursework: 4 quarter hours required

Course	Title	Quarter Hours
TCH 390	CAPSTONE: INTEGRATING EDUCATION & DISCIPLINARY FOUNDATIONS (fulfills undergraduate Capstone requirement; major area may require a separate Capstone course)	4

Undergraduate/Graduate Double-Counted Courses: 12 undergraduate/graduate quarter hours required, grade of C or better required.

Course	Title	Quarter Hours
TCH 402	INTRODUCTION TO MIDDLE GRADES AND SECONDARY EDUCATION	4
TCH 412	THE NATURE OF HISTORY AND THE SOCIAL SCIENCES	4
TCH 422	INQUIRY & APPLICATION IN DEVELOPING HISTORY AND SOCIAL SCIENCES PEDAGOGY	4

Social Science Content Area (grades of C or better required for licensure):

The following Social Science content area requirements are required. These can be taken as part of the major, liberal studies or open elective requirements:

- HST 298
- HST 299
- 3 United States History courses
- 2 Non-United States History courses
- 6 from the political science major
- Additional licensure requirements: (one course in each area required)
 - Economics (ECO 106 recommended)
 - Geography (GEO 101 recommended)
 - Psychology (PSY 105 recommended)
 - Sociology (SOC 101 recommended)
 - Anthropology (ANT 102 recommended)

This combined degree program of the College of Liberal Arts and Social Sciences and the College of Education was collaboratively developed, and is governed and taught by faculty from these units.

The Master's year comprises teacher-preparation coursework that culminates with student teaching during Spring quarter. Upon graduation and the fulfilling of State of Illinois licensure requirements (which may require some additional course work in the student's major and related fields), students are eligible to be licensed to teach Social Sciences at the 5th-12th grade levels.

A full description of the TEACH Program can be found here. (p. 1160)

Students interested in the TEACH Program should consult with the designated TEACH Program advisor in their home department.

Political Science 3+3 (BA+JD)

In the 3+3 (BA+JD) Program, high-achieving incoming first-year undergraduate students are admitted simultaneously to the College of Liberal Arts and Social Sciences and the College of Law. Students complete their first three years in the College of Liberal Arts and Social Sciences and their final three years in the College of Law. Students receive the Bachelor of Arts degree after successful completion of their first year of law school. Throughout the program, BA+JD students meet regularly with advisors in both Colleges and have access to a variety of resources to ensure their success.

Key Program Features

- Students earn a law degree (Juris Doctor) in a total of six years (three years undergraduate and three years in law school).
- Students save one year's worth of undergraduate tuition and living expenses while gaining a head start in entering the legal profession.
- Students benefit from new curricular offerings and collaborative activities created to prepare them for law school.
- Students receive early (conditional) admission to the College of Law.
- Credits earned in the first year of law school apply toward the BA degree.
- Students may opt out of the College of Law segment of the program and continue in the College of Liberal Arts and Social Sciences during their fourth year.
- If students withdraw after the first semester in the College of Law, they return to the College of Liberal Arts and Social Sciences for the winter quarter.

Program Requirements

In order to maintain status in the program, students must demonstrate satisfactory progress toward completing their undergraduate coursework in three years, including meeting the Modern Language Requirement and necessary Liberal Studies Program or Honors Program requirements. Students who enroll in the BA+JD program in 2022 or later must achieve a cumulative GPA of 3.7 by the end of their second year of undergraduate study and maintain a cumulative GPA of 3.7 in their third and final year of undergraduate study.

In addition, students must complete a series of two-credit courses, taught by College of Law faculty, prior to matriculation in the College of Law. They are designed to help students understand many aspects of the legal system as well as to complement their undergraduate course of study. The courses are as follows:

Course	Title	Quarter Hours
PRELAW 150	THE PRACTICE OF LAW	2
PRELAW 151	RECENT CONTROVERSIES IN THE LAW	2
PRELAW 152	THINKING ABOUT THE LAW	2

In order to matriculate in the College of Law, students will be required to register with the Law School Admissions Council, submit the College of Law's online application, comply with all character and fitness requirements for admission, and submit an LSAT score. The activities should be completed no later than February 1 of the participant's third undergraduate year. The LSAT score will only be used for consideration of merit scholarships; it will not be a factor in the admission of the participant to the program.

In addition to the three PRELAW classes, students will complete 11 courses (29 semester credit hours) during their final year of undergraduate study. These classes can be found in the Core Required Courses on the Law JD program page (p. 696).

Financial Aid

BA/JD students are not eligible for undergraduate scholarships once they start law school. All students will receive a merit scholarship from the College of Law, with merit scholarships beginning at \$1,500 per academic year. Students who earn an LSAT score and GPA at or above the College of Law's median LSAT and GPA are the most likely candidates for larger

merit scholarships. College of Law students are not eligible for the Double Demon discount.

Standard Concentration, Political Science (BA)

The standard concentration is for students who want to explore courses in all sub-fields offered in the political science major.

Course Requirements

Core Courses: 8 quarter hours

Course	Title	Quarter Hours
Select two of the following:		8
PSC 120	THE AMERICAN POLITICAL SYSTEM	4
PSC 130	INTRODUCTION TO POLITICAL THEORY	4
PSC 140	INTRODUCTION TO INTERNATIONAL RELATIONS	4
PSC 150	INTRODUCTION TO COMPARATIVE POLITICS	4

Intermediate Courses: 20 quarter hours

Course	Title	Quarter Hours
PSC 200	POLITICAL INQUIRY	4

Four courses: 16 quarter hours - choose one course each from four of the following five sub-fields:

- Political Culture (PSC 210 through PSC 219)
- American Institutions (PSC 220 through PSC 229)
- Political Theory (PSC 230 through PSC 239)
- International Relations (PSC 240 through PSC 249)
- Comparative Politics (PSC 250 through PSC 259)

Advanced Courses: 16 quarter hours

Four courses from at least two of the following areas:

- Methodology (PSC 300 through PSC 309)
- Political Culture (PSC 310 through PSC 319)
- American Politics (PSC 320 through PSC 329)
- Political Thought (PSC 330 through PSC 339)
- International Relations (PSC 340 through PSC 349)
- Comparative Politics (PSC 350 through PSC 359)
- Public Law (PSC 360 through PSC 369)
- Civic Engagement (PSC 380 through PSC 389)

PSC Electives: 12 quarter hours

- Three additional PSC courses at the 200 or 300 level

Open Electives

Open elective credits are required in order to meet the minimum graduation requirement of 192 hours. These courses are to be selected in consultation with the student's faculty adviser and may include courses in fields such as economics, history, English, sociology, etc. Students may choose to use their open electives as part of a minor or to complete a double major.

Professional Communication (MA) Online

The MA in Professional Communication is an accelerated, one-year online master's degree with curriculum formed around the latest industry developments and trends in external and internal communications. The program is designed for busy working professionals whose aim is to assume communication manager, director level and associated leadership positions in communication departments and teams in a range of workplaces, including companies and startups, agencies or consultancies, and non-profit organizations.

Students in this program progress through the innovative online curriculum together as a cohort, taking courses in a pre-set sequence that takes full advantage of the DePaul academic calendar. Taught by award-winning faculty with industry connections and a commitment to student success, the professional communication program begins and ends with weekend virtual or in-person residencies in Chicago, which allow students to further connect with fellow classmates, professors, college alumni and industry professionals.

For the final project in the program, students work on a real-world workplace communication challenge that benefits an organization and its stakeholders. This project also gives the student an opportunity to build their portfolio and further network within the profession. Approved project partners include world-class organizations.

Program Requirements	Quarter Hours
Degree Requirements	46
Total hours required	46

Learning Outcomes

Students will be able to:

- Enhance the effectiveness of internal and external professional communication.
- Facilitate collaboration and decision-making among organizational stakeholders.
- Apply ethical and legal principles to professional communication problems and challenges (e.g., diversity, equity, inclusivity, privacy, etc.).
- Generate relevant questions and pursue evidence-based solutions to improve professional communication practices.
- Design and adapt effective messages in face-to-face, digital and hybrid contexts.

Degree Requirements

The Master of Arts in Professional Communication (PROCMN) requires 12 courses (46 credit hours).

Course	Title	Quarter Hours
Autumn Quarter		
PROCMN 500	PROFESSIONAL COMMUNICATION ORIENTATION AND RESIDENCY I ¹	2
PROCMN 501	THE FUTURE OF PROFESSIONAL COMMUNICATION	4
PROCMN 510	DIGITAL MEDIA SKILLS FOR PROFESSIONAL COMMUNICATION	4

December Session		
PROCMN 520	WRITING FOR PROFESSIONAL COMMUNICATION CAREERS	4
PROCMN 530	PROFESSIONAL COMMUNICATION LAW, POLICY AND ETHICS	2
Winter Quarter		
PROCMN 540	RESEARCH METHODS AND INSIGHTS FOR PROFESSIONAL COMMUNICATION	4
PROCMN 550	EFFECTIVE COMMUNICATION IN TEAMS	4
Spring Quarter		
PROCMN 580	DIVERSITY, EQUITY AND INCLUSION IN PROFESSIONAL COMMUNICATION	4
PROCMN 570	EFFECTIVE COMMUNICATION WITH EMPLOYEES	4
Summer Session I		
PROCMN 560	TOPICS IN PROFESSIONAL COMMUNICATION	4
PROCMN 590	CHIEF COMMUNICATIONS OFFICER: ADVISING AND COUNSELING LEADERSHIP	4
Summer Session II		
PROCMN 599	PROFESSIONAL COMMUNICATION FINAL PROJECT AND RESIDENCY II	6
Total Hours		46

¹ The PROCMN 500 Professional Communication Orientation I and Residency occurs prior to the start of Autumn quarter.

Residencies

Students in the PROCMN program will participate in virtual or in-person weekend residencies at the beginning and end of the program. These residencies allow students to further connect with fellow classmates, professors, college alumni and industry professionals.

Grade Requirements

All students are required to maintain a cumulative GPA of 3.000 in their coursework. If a student’s cumulative GPA falls below 3.000, the student will be allowed to complete an additional 16 credits or 3 quarters (whichever comes first) to attain the 3.000 minimum GPA. If the cumulative GPA remains below a 3.000 at the conclusion of this time period, the student may be dismissed from the program. The student’s cumulative and term GPAs along with overall academic performance will be factored into the dismissal decision.

Professional Writing (Minor)

The Minor in Professional Writing, offered by the Department of Writing, Rhetoric, & Discourse (WRD), is available to any undergraduate student in the university. The department understands the term *professional writing* to refer broadly to the kinds of literate activities taken up by well-educated individuals whose work is creative, intellectually challenging, and ethically grounded. Core courses in the program are designed to prepare students as effective writers for any context in which writing is a key competency. Because nearly all professional writing today takes place in digital environments, digital writing—the combination of

alphabetic text with other modes, such as sound and image—is central to the program core and an element of many electives.

The breadth of choices within the Minor in Professional Writing makes it an excellent complement to any major and a fine choice for students pursuing graduate school in any discipline, including law. The Professional Writing Minor allows a wide range of choices: you may take courses in which your own writing—in various genres and contexts—is the focus, or you may study theories of language, rhetoric (how to make effective choices as writers), and discourse (the way writing structures human activity) to develop an understanding of the role of the individual writer within communities of writers.

The program comprises two required core courses and sixteen hours of electives, which may be chosen from among all of the department’s undergraduate offerings numbered 203-205 and 207-399.

Course Requirements

Course	Title	Quarter Hours
WRD 201	DIGITAL WRITING	4
WRD 206	PROFESSIONAL WRITING	4
Select 16 additional credit hours from WRD courses 203-205, 207-399:		16
WRD 203	STYLE FOR WRITERS	
WRD 202X	PROFESSIONAL WRITING FOR BUSINESS (FOR NON-NATIVE SPEAKERS)	
WRD 204	TECHNICAL WRITING	
WRD 205	HISTORY OF LITERACIES AND WRITING	
WRD 207	INTRODUCTION TO WRITING AND RHETORIC	
WRD 208	INTRODUCTION TO REASONED DISCOURSE	
WRD 209	GENRE AND DISCOURSE	
WRD 210	CULTURAL RHETORICS	
WRD 220	HOW LANGUAGE WORKS	
WRD 227	WRITING RESEARCH WITH IDENTITY	
WRD 228	WRITING AN ANNOTATED BIBLIOGRAPHY	
WRD 229	WRITING A LITERATURE REVIEW	
WRD 231	GOOGLING GOD: RELIGIOUS PRACTICES IN DIGITAL CULTURE	
WRD 232	THE LANGUAGE OF DISABILITY	
WRD 240	ARGUMENTATIVE WRITING	
WRD 241	THE ESSAY FROM PRINT TO NEW MEDIA	
WRD 242	WRITING WITH AI	
WRD 260	RHETORICAL ANALYSIS	
WRD 261	DIGITAL CULTURE	
WRD 262	THE RHETORIC OF EVERYDAY TEXTS	
WRD 263	READING BETWEEN THE GROOVES: THE RHETORICAL POWER OF POPULAR MUSIC	
WRD 264	LANGUAGE, SELF AND SOCIETY	
WRD 265	SOCIAL MOVEMENT, SOCIAL MEDIA, AND AMERICAN IDENTITIES	
WRD 266	LEVELING UP: THE SOCIAL RHETORIC OF VIDEO GAMES	

WRD 270	ACADEMIC READING FOR INTERNATIONAL/MULTILINGUAL STUDENTS
WRD 280	WRITING IN THE SCIENCES
WRD 281	WRITING CENSORSHIP
WRD 282	ETHICS OF PUBLIC AND PROFESSIONAL WRITING
WRD 283	ENVIRONMENTAL WRITING
WRD 284	SPORTS WRITING IN AMERICA: MYTHS, MEMORIES, HEROES AND VILLAINS
WRD 285	TRUTH IN DISGUISE: THE RHETORIC OF SATIRE
WRD 286	WRITING WITH PHOTOGRAPHS
WRD 287	THE COMIC BOOK AS VISUAL ARGUMENT
WRD 288	RHETORIC AND POPULAR CULTURE
WRD 289	WRITING ABOUT RIGHTS
WRD 290	WRITER'S TOOLS WORKSHOP
WRD 291	THE SCIENTIFIC RESEARCH POSTER
WRD 300	COMPOSITION AND STYLE
WRD 301	WORKPLACE WRITING: THEORY AND PRACTICE
WRD 306	RHETORICAL TRADITIONS
WRD 309	TOPICS IN WRITING, RHETORIC AND DISCOURSE: WRITING WITH AI
WRD 320	TOPICS IN PROFESSIONAL WRITING
WRD 321	WRITING IN THE LEGAL PROFESSION
WRD 322	WRITING AND METADATA
WRD 323	EDITING
WRD 324	WRITING FOR PUBLIC HEALTH AND HEALTH CARE
WRD 325	RHETORIC IN CRISIS CONTEXTS
WRD 327	CONTENT WRITING
WRD 330	LANGUAGE AND LINGUISTICS
WRD 340	WRITING AND REVISING
WRD 345	GHOSTWRITING
WRD 360	TOPICS IN RHETORIC
WRD 361	TOPICS IN ALTERNATIVE RHETORICS
WRD 362	SEMIOTICS
WRD 363	VISUAL RHETORIC
WRD 364	CHICAGO WOMEN RHETORS
WRD 368	GLOBAL ENGLISHES
WRD 371	MENTORING YOUTH IN COMMUNITY WRITING GROUPS
WRD 372	DIGITAL STORYTELLING
WRD 376	FIELDWORK IN ARTS WRITING
WRD 377	WRITING AND SOCIAL ENGAGEMENT
WRD 378	TEACHING ENGLISH AS A SECOND LANGUAGE IN CHICAGO
WRD 390	RHETORIC AND PUBLIC WRITING
WRD 395	WRITING CENTER THEORY & PEDAGOGY
WRD 396	WRITING FELLOWS THEORY AND PRACTICE

WRD 398	INTERNSHIP
WRD 399	INDEPENDENT STUDY

Students majoring in Writing and Rhetoric (BA) are restricted from earning this minor.

Professional Writing Minor Online

The required courses in the Professional Writing minor and many WRD electives are also offered online. Interested students may therefore complete the Professional Writing minor entirely online.

Project Management Post-Master's Certificate

This post-master's certificates provide opportunities for master's degree holders to sharpen their skills. Students who earned their master's degree from DePaul CDM automatically qualify for a scholarship.

Course	Title	Quarter Hours

Projection Design (BFA)

The Theatre School's Bachelor of Fine Arts (BFA) degree in Projection Design provides training to create, manipulate, and display digital and moving images for live performances and events. The training gives students the opportunity to explore and expand their artistic and visual expression while providing practical experience in projection design.

Students will work on various software programs and hardware to bring the content to life on-stage via digital projections, video walls, LED walls, and other emerging technologies. Designers learn to visualize, create, and implement their designs by collaborating with directors, dramaturgs, actors, other designers and technicians, and our professional production staff.

Program Requirements	Quarter Hours
Liberal Studies Requirements	52
Major Requirements	147
Total hours required	199

Learning Outcomes

Core Outcomes

Students will be able to:

- Identify and describe the historical and theoretical significance of a range of theatrical artists, works, and artistic approaches from antiquity to present.
- Synthesize and apply elements of their education and training to the preparation, rehearsal, and presentation of theatrical productions with discipline, respect, and maturity.
- Identify and explain their theatrical work in the context of the cultural and social impact of the arts.

Program Specific Outcomes

Students will be able to:

- Read and interpret theatrical text and apply research, imagination, and personalization to create a unique, insightful, and compelling design concept.
- Demonstrate an understanding of the history of visual art and architecture in the context of social and cultural development.
- Demonstrate and apply an expertise in projection in video technology in a variety of performance styles and theatrical environments.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

- 1 Lab Course or 1 SWK Course Required

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- Not Required

Other (p. 1322)

- Choose 1 course from the above learning domains as an elective

Notes

Specified required courses within Liberal Studies may have grade minimums (e.g. C- or better). Please consult your advisor or your college and major requirements.

Courses offered in the student's primary major cannot be taken to fulfill LSP Domain requirements. If students double major, LSP Domain courses may double count for both LSP credit and the second major.

In meeting learning domain requirements, no more than one course that is outside the student's major and is cross-listed with a course within the student's major, can be applied to count for LSP domain credit. This policy does not apply to those who are pursuing a double major or earning BFA or BM degrees.

Media Electives		8
Production Practice III and/or Internship		10
Select two courses from the following list:		
DES 471	DESIGN PRODUCTION PRACTICE III	
DES 472	DESIGN PRODUCTION PRACTICE III	
DES 473	DESIGN PRODUCTION PRACTICE III	
DES 490	DESIGN INTERNSHIP	

Psychological Research Methods (Minor)

The Psychological Research Methods minor allows students to obtain basic training in statistics and research methods, which can be useful in careers or graduate programs that might have a research or data analysis component.

This minor is only for non-psychology majors and a maximum of one psychology minor may be earned by a student.

Psychology majors cannot earn a minor in psychological research methods.

Six psychology courses are required, including:

Course	Title	Quarter Hours
PSY 105	INTRODUCTORY PSYCHOLOGY I	4
PSY 106	INTRODUCTORY PSYCHOLOGY II	4
PSY 240	STATISTICS I	4
Select at least one of the following:		4
PSY 241	RESEARCH METHODS I	
PSY 242	RESEARCH METHODS II	
PSY 340	STATISTICS II	
PSY 342	RESEARCH METHODS III	
PSY 343	INTRODUCTION TO PSYCHOLOGICAL MEASUREMENT	

Select two additional psychology courses ¹ 8

¹ It is recommended that they be from the above list, but it is not required.

Psychological Science (MA)/(PhD)

DePaul's Psychological Science MA/PhD program is a highly competitive program that trains students in the theories and methodologies that define the core scientific pillars of psychology: social, developmental, cognitive and neuroscience. With an emphasis on critical and integrative thinking, our students will understand the psychological foundations of human thought, emotions, motivation and behavior while conducting innovative research on diverse topics within psychology. Students will have the opportunity to develop research and statistical skills both inside the laboratory and out in the world developing scientific solutions to real-world problems. Training prepares students for careers in a wide variety of scientific, academic, business and applied settings. Research experience is an integral part of the training and begins in the first year under the guidance of a faculty advisor. During their first two years, students plan and conduct research toward their master's thesis and develop a comprehensive research project their third year that prepares them for the dissertation. Research for the dissertation usually begins during the fourth year. Students are supported with competitive stipends and other funding opportunities.

Program Requirements	Quarter Hours
MA Degree Requirements	48
Total hours required	48

Program Requirements	Quarter Hours
PhD Degree Requirements	28
Total hours required	28

MA Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Psychological Science currently advances knowledge.
- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly Psychological Science journals in terms of theory, methods, data analyses, and conclusions.
- Develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Psychological Science.
- Describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects, and apply these ethical practices in research.

PhD Learning Outcomes

Students will be able to:

- Identify major theoretical concepts in psychology, trace their historical development, and integrate theory, research, and domain-specific knowledge to explain and interpret how Psychological Science currently advances knowledge.

- Critique and synthesize theoretical and empirical articles from peer-reviewed scholarly Psychological Science journals in terms of theory, methods, data analyses, and conclusions in order to compose novel perspectives and ideas.
- Independently develop testable research questions, identify strengths and limitations of research designs and data analysis techniques, conduct appropriate research and analytic strategies, and interpret the findings to situate them within the extant research literature in Psychological Science.
- Independently describe and discuss the ethical issues associated with human subjects/participant protection and the sequence of procedures needed for IRB approval of research projects and apply these ethical practices in research.
- Exhibit effective communication skills for presenting at professional conferences and publishing in professional journals in Psychological Science. Demonstrate competence in Psychological Science applications.

MA/PhD Degree Requirements

The Psychological Science MA/PhD is a combined degree. The MA is non-terminal and, therefore, only students intending to confer the PhD are admitted.

MA Course Requirements

The MA portion of the combined degree program requires a minimum of 48 quarter hours beyond the completion of a bachelor's degree.

Core Courses

Course	Title	Quarter Hours
PSY 406	PHYSIOLOGICAL PROCESSES	4
PSY 410	ADVANCED STATISTICS I	4
PSY 411	ADVANCED STATISTICS II	4
PSY 420	QUANTITATIVE RESEARCH DESIGN	4
Select two of the following:		8
PSY 418	MULTIVARIATE STATISTICAL ANALYSIS	
PSY 419	FACTOR ANALYSIS AND STRUCTURAL EQUATION MODELING	
PSY 450	PSYCHOLOGICAL MEASUREMENT	

Cognitive Seminar Courses

Course	Title	Quarter Hours
Select one of the following:		4
PSY 404	PERCEPTION AND COGNITION	
PSY 426	LANGUAGE AND COGNITION	
PSY 473	THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING	

Developmental Seminar Courses

Course	Title	Quarter Hours
Select one of the following:		4
PSY 439	COGNITIVE DEVELOPMENT	
PSY 554	EMOTIONAL DEVELOPMENT	
PSY 555	SOCIAL DEVELOPMENT	

Social Seminar Courses

Course	Title	Quarter Hours
Select one of the following:		4
PSY 430	SOCIAL PSYCHOLOGY OF THE SELF	
PSY 435	SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE	
PSY 556	PREJUDICE AND INTERGROUP RELATIONS	
PSY 560	SOCIAL COGNITION	

Elective Course ¹

One elective course is required and can be taken during any quarter. The elective can be any graduate-level psychology course, or any graduate-level non-psychology course, with permission from the faculty advisor. In addition, students may substitute one seminar requirement with an elective in each area with permission from the faculty advisor.

Course	Title	Quarter Hours
PSY 413	ANALYSIS OF LONGITUDINAL DATA	4
PSY 414	CATEGORICAL DATA ANALYSIS	4
PSY 416	METHODS IN QUALITATIVE RESEARCH	4
PSY 418	MULTIVARIATE STATISTICAL ANALYSIS	4
PSY 419	FACTOR ANALYSIS AND STRUCTURAL EQUATION MODELING	4
PSY 430	SOCIAL PSYCHOLOGY OF THE SELF	4
PSY 435	SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE	4
PSY 450	PSYCHOLOGICAL MEASUREMENT	4
PSY 556	PREJUDICE AND INTERGROUP RELATIONS	4
PSY 560	SOCIAL COGNITION	4
PSY 592	DIRECTED RESEARCH (Independent Study)	1-4
PSY 594	DIRECTED READINGS IN PSYCHOLOGY (Independent Study)	1-4

¹ Cannot count towards core requirements listed above if taken as an elective.

Professional Development

Course	Title	Quarter Hours
PSY 588	TOPICS IN PSYCHOLOGICAL SCIENCE (taken twice, for a total of 4 credit hours)	4

Research Course

Course	Title	Quarter Hours
PSY 597	MASTER'S THESIS RESEARCH	4

Master's Research Thesis

Students must complete a thesis on a topic approved by the program. Research experience is considered an integral part of the training. Students are expected to begin directed research during their first year under the supervision of an advisor. During their second year, students are expected to conduct research and complete their master's thesis.

Master's Thesis Examination

For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved.

PhD Course Requirements

The PhD portion of the combined degree program requires a minimum of 28 quarter hours beyond the completion of the master's degree, including four quarter hours of dissertation research. The following requirements must be completed to confer the PhD.

Cognitive Seminar Courses

Course	Title	Quarter Hours
Select two of the following (not taken towards MA)		8
PSY 404	PERCEPTION AND COGNITION	
PSY 426	LANGUAGE AND COGNITION	
PSY 473	THE PSYCHOLOGY OF JUDGMENT AND DECISION-MAKING	

Developmental Seminar Courses

Course	Title	Quarter Hours
Select two of the following (not taken towards the MA):		8
PSY 439	COGNITIVE DEVELOPMENT	
PSY 554	EMOTIONAL DEVELOPMENT	
PSY 555	SOCIAL DEVELOPMENT	

Social Seminar Courses

Course	Title	Quarter Hours
Select two of the following (not taken towards the MA):		8
PSY 430	SOCIAL PSYCHOLOGY OF THE SELF	
PSY 435	SPECIAL SEMINAR IN PSYCHOLOGICAL SCIENCE	
PSY 556	PREJUDICE AND INTERGROUP RELATIONS	
PSY 560	SOCIAL COGNITION	

Professional Development

Course	Title	Quarter Hours
Optional:		
PSY 550	SEMINAR IN TEACHING PSYCHOLOGY (3 quarters, 0 credit hours; beginning winter quarter after successful defense of master's thesis)	0

Research Course

Course	Title	Quarter Hours
PSY 599	DOCTORAL DISSERTATION RESEARCH	1-4

Doctoral Candidacy Project

This requirement is completed after the student has defended the master's thesis and before defense of the dissertation proposal. PhD students in PS have two options for fulfilling the requirement for admission to doctoral candidacy: Writing a grant proposal or writing a journal-appropriate review article.

Admission to Doctoral Candidacy

Formally given to the student with satisfactory coursework performance who has successfully completed the master's thesis and passed the Doctoral Candidacy Project. The candidate has no more than five years from the date of admission to doctoral candidacy to complete the PhD requirements or dismissal from the program will ensue.

Students denied candidacy will be required to withdraw from the program or withdraw after completion of the MA.

Dissertation

Departmental committee approval and acceptance of topic and outline of dissertation is given only after admission to doctoral candidacy. Research for the dissertation should normally be completed during the student's fourth year in the program.

Oral Examination

For both the proposal and the completed project, an oral defense of the research must be passed and the written document must be approved. Students are expected to defend their dissertation and demonstrate competence in psychological science and their area of specialization.

Time Limitations

- No more than four years between admission to the MA/PhD program and admission to doctoral candidacy.
- No less than eight months and no more than five years between admission to doctoral candidacy and the final doctoral oral examination; or dismissal from the program will ensue.

Program Graduate Academic Student Handbook

Minimum Grades

1. The minimum grade considered acceptable for a graduate course is a B-. This applies to courses taken both within and outside of the department for psychology graduate students. Grades below that (i.e., C+ and below) indicate that the student has not mastered the relevant content of the course.
2. If a graduate student earns a grade lower than B- in a particular course, the student, instructor, and advisor will discuss the situation and circumstances and a remediation plan will be required. The student, his or her advisor, and the instructor, will work together to create a plan through which the student can gain competence in the course material, and demonstrate that competence. The remediation plan might include, for example, requiring the student to complete additional assignments, retaking the class, taking a substitute class, completing an independent study, or pursuing other options. The remediation plan must be approved by the instructor, advisor and the program director.
3. A second occurrence of a grade lower than a B- (for the same or different course) will put the student on academic probation. Once placed on academic probation, the student's record and any mitigating circumstances will be evaluated by a Psychology Department review board comprising the student's advisor, the program director, and the department associate chair (the department chair might be included in special circumstances). Additional remediation and intervention might be suggested by the review board.
4. If there is a third occurrence of a grade below B- (for the same or different course), the student will be dismissed from the program.

The student may choose to appeal this decision, in which case the Chair of the Psychology Department will appoint a committee of three tenured Psychology Department faculty outside the student's program to hear the appeal. Depending on the student's academic record and any mitigating circumstances, he/she may be allowed to complete his/her Master's degree but will not be permitted to continue onto the PhD (not applicable to terminal Department of Psychology MS degrees) without a successful appeal.

Academic Probation

Students are expected to maintain a minimum grade point average (GPA) of 3.2. If a student's GPA goes below this minimum, the student will be put on probation and will have one quarter to bring their GPA up to the minimum or face dismissal from the program. If the student's GPA goes below the minimum a second time, they will be dismissed from the program.

Academic Dismissal

In addition to violations of satisfactory progress, including but not limited to, earning minimum grades, failing the comprehensive exam (including any possible retakes) or project, or maintaining a minimum cumulative GPA, students may be dismissed for breaches of academic honesty, or breaches of the code of student responsibility articulated in the DePaul University Student Handbook.

Time Limitations

Students must complete their MA degree requirements prior to completing their requirements for admission to doctoral candidacy. Further, no more than four years may pass between admission to the doctoral program and successful completion of the doctoral candidacy examination/project, and no less than eight months and no more than five years may pass between admission to candidacy and the final examination (i.e., the oral dissertation defense).

Students are required to meet the timelines specified by the program even if the timeline is more stringent than the College timeline. Failure to do so could result in dismissal.

Extensions on these timelines must be requested in writing to both the department (Program Director) and the college (to the Dean) and must be approved at both levels. Students must complete all requirements for the degree (which may include additional coursework, examinations, or other conditions) by the deadline outlined in the extension. Failure to meet specified time limitations or deadlines can result in dismissal from the program.

Graduation Requirements

Students need a minimum cumulative GPA of 3.20 in courses required by the program. In addition to meeting the minimum cumulative GPA requirement, failing the doctoral candidacy exam (or one retake) or project, lack of progress towards degree completion, and/or unsatisfactory evaluation could result in academic dismissal. See individual program policies for more details.

Graduation with Distinction for MA

The criteria for graduation With Distinction is based on a GPA of 3.75 or higher at the time of degree conferral. This distinction is only given for the Master's degree, and is not awarded at the PhD level.

For topics not listed above, please consult the Graduate Student Handbook of the Department of Psychology, your program manual, or the Psychology Graduate Program Assistant.

Psychology (BA)

The goal of the Department of Psychology is to provide students with an understanding of the methods and content of scientific and applied psychology.

The primary means of attaining our mission is classroom instruction. We offer courses across a wide range of disciplines within psychology; some of our courses also include laboratories that focus on experimental and statistical work. Some of these courses are beginning to be offered as fully online and as hybrid courses (partially online and partially in the classroom). Further learning opportunities are made available through field work, the Honors Program, Experiential Learning, Independent Study, and Internships. Our Internship Program consists of supervised work placements for which students earn academic credit; potential sites include human service organizations as well as community and industrial settings.

Bachelor of Arts Psychology majors must select one of the six B.A. concentrations: Standard, Human Development, Human Services, Industrial/Organizational, Community, or Comprehensive Evening Program. Students are limited to only declaring one concentration.

There is an option to complete the BA in Psychology online, with no face-to-face classes on DePaul Campuses (see "Special Programs" for prerequisites). Students who qualify and wish to pursue the BA in Psychology online may complete either the Standard or Human Development concentrations.

After completing any one of the concentrations, a psychology major should be able to understand key concepts, principles, and overarching themes in psychology, read and understand behavioral science data, design and conduct rudimentary psychological research studies, and apply research findings to everyday situations. These skills are applicable to a wide variety of occupations and professions. Psychology as a major provides excellent opportunities for students planning to go to graduate or professional school. Psychology as a minor provides a flexible complement to other majors.

Program Requirements	Quarter Hours
Liberal Studies Requirements	64-80
Major Core Requirements	24
Major Concentration Requirements	32-104
Open Electives	0-56
Total hours required	192

Learning Outcomes

Students will be able to:

- Describe key concepts, principles, themes, and applications across a variety of content domains in psychology.
- Use scientific reasoning and critical thinking to interpret psychological phenomena.
- Design, conduct, and interpret basic psychological research, accounting for sociocultural factors.
- Apply ethical standards to evaluate psychological science and practice.

- Write a paper applying cogent scientific argument that includes presenting information using a scientific approach, discussing psychological concepts, explaining the ideas of others, and expressing their own ideas with clarity.

College Core Requirements

Modern Language Requirements

Students who intend to graduate with the Bachelor of Arts (BA) degree will be required to demonstrate competence in a modern language equivalent to the proficiency attained from one year of college-level language study. Such competence may be demonstrated in one of several ways:

- completing the last course in the fourth-year high school sequence of any language
- completing the last course in the first-year college sequence of any language
- completing a college course beyond the first-year level in any language
- achieving a satisfactory score on any of the Modern Language placement examinations administered at DePaul
- achieving a satisfactory rating in a proficiency examination accepted by DePaul
- achieving a score of 3 or higher on the Advance Placement (AP) test for any language
- achieving a score of 5 or higher in the Language B assessment from a Standard or Higher Level International Baccalaureate (IB) program
- achieving a satisfactory score on the CLEP examination

Please note: Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Requirement.

For further information regarding satisfactory scores and possible credit from the DePaul placement, AP, CLEP, or IB examinations, please contact Student Records.

Students who complete an Inter-College Transfer (ICT) to the College of Science and Health will abide by the College of Science and Health Modern Language Requirement in place on the effective date of the ICT.

BA students who meet College requirements and wish to pursue further work in the language may elect the "Modern Language Option" of the Liberal Studies Program. While Bachelor of Science (BS) students are not required to demonstrate competency in a modern language, the "Modern Language Option" is available to them for language study at any level. Modern Languages courses with an E-designation are taught in English and may not be applied to the Modern Language Option.

Major Declaration Requirements

All students in the College are required to declare a major field prior to beginning their junior year. After researching College programs, the student should declare a major field by visiting Campus Connection and using the Declarations and Inter-College Transfer tool. The student will then be assigned a faculty advisor or staff advisor in the department or program and should make an appointment to see that advisor at his or her earliest convenience.

To change major fields, or to declare a minor or concentration, the student must use the Declarations and Inter-College Transfer tool described above. However, for the purpose of exploring the possibility of changing a major field, the student should consult an academic advisor

in the College or an academic advisor in the Office for Academic Advising Support.

Liberal Studies Requirements

Honors program requirements can be found in the individual Colleges & Schools section of the University Catalog. Select the appropriate college or school, followed by Undergraduate Academics and scroll down.

First Year Program		Hours
Chicago Quarter		
LSP 110 or LSP 111	DISCOVER CHICAGO or EXPLORE CHICAGO	4
Focal Point		
LSP 112	FOCAL POINT SEMINAR	4
Writing		
WRD 103	COMPOSITION AND RHETORIC I ¹	4
WRD 104	COMPOSITION AND RHETORIC II ¹	4
Quantitative Reasoning		
MAT 120	QUANTITATIVE REASONING ²	4
Sophomore Year		
Race, Power, and Resistance		
LSP 200	SEMINAR ON RACE, POWER, AND RESISTANCE	4
Junior Year		
Experiential Learning		
Required ⁴		4
Senior Year		
Capstone		
Select one of the following:		
PSY 361	HISTORY AND SYSTEMS OF PSYCHOLOGY ^{1,3}	4
PSY 389	PSYCHOLOGY SENIOR SEMINAR ¹	4

¹ Students must earn a C- or better in this course.

² Readiness for MAT 120 is determined by the math placement test taken online after admission. Students may need to take developmental coursework prior to MAT 120. The MAT 120 requirement may be waived by credit already earned for advanced math coursework or by passing a dedicated proficiency exam.

³ Students with a primary major in Psychology are required to complete the Capstone offered by the Psychology department. Students double majoring or pursuing dual degrees with the primary major or primary degree in Psychology are required to complete the Capstone offered by the Psychology department. Psychology students in the University Honors Program shall take the University Honors Capstone. They are not expected to take both the Honors Capstone and the primary major or primary degree Capstone.

⁴ Students taking either the Standard - Combined Occupational Therapy (MS) or the Human Development - Combined Occupational Therapy (MS) concentrations must complete this requirement by taking OT 412 and OT 422.

Learning Domains

Arts and Literature (AL) (p. 1322)

- 3 Courses Required
(See notes below)

Historical Inquiry (HI) (p. 1326)

- 2 Courses Required

Math and Computing (MC) (p. 1328)

- 1 Course Required
[1 CR Course]

Philosophical Inquiry (PI) (p. 1329)

- 2 Courses Required
(See notes below)

Religious Dimensions (RD) (p. 1330)

- 2 Courses required

Scientific Inquiry (SI) (p. 1332)

- 2 Courses Required
[1 Lab Course and 1 SWK Course]
(See notes below)

Social, Cultural, and Behavioral Inquiry (SCBI) (p. 1334)

- 1 Course Required
