Section 1 - General Information

Marston Mission Statement

The mission of Marston Polygraph Academy (the Academy) is to provide instruction in the art and science of the polygraph professional in accordance with the standards established by the American Polygraph Association (APA).

The objective of the program is to produce competent and ethical polygraph examiners who are trained to use current techniques, format, and equipment. Polygraph examinations have been used for many years by military and law enforcement agencies as an investigative tool. As security has become a more sensitive and important issue, private firms have begun to regularly use polygraph examinations in their investigations. The Academy will train law enforcement officers to assume the duties of an examiner in their current employment and train others with the appropriate background to do polygraph work in the private sector.

Students can be trained on the Stoelting CPS Pro, CPS Elite and various other polygraph instruments.

Marston Training Location and Facility

The Academy campus is located at 1845 Business Center Drive, Suite 210, San Bernardino, California 92408. The building is located at the northeast corner of Commercenter Circle and E. Commercenter. There is ample parking (including handicapped parking) located on the north side of the building. All classes are held at this location.

Instruction is in residence where facility occupancy accommodates 15 students for a more personalized educational experience.

The academy is in Suite 210 at the east end of the second floor of this two-story office building. The ADA compliant suite provides over 2000 square feet of space, an ideal atmosphere and environment for learning with an administrative area, classroom space, break room and four polygraph examination suites/labs. The ratio of students to equipment is 3:1 (based on enrollment). The facilities have adequate lighting, are air-conditioned and wheelchair accessible. Students receive instruction on Academy owned equipment, hardware, and software.

Student Tuition Recovery Fund

You must pay the state-imposed assessment for the Student Tuition Recovery Fund (STRF) if all the following applies (apply) to you:

1. You are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition either by cash, guaranteed student loans, or personal loans.

You are not eligible for protection from the STRF, and you are not required to pay the STRF assessment if either of the following applies:

1. You are not a California resident, or are not enrolled in a residency program; or

2. Your total charges are paid by a third party, such as an employer, government program or other payer, and you have no separate agreement to repay the third party.

The State of California created the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic losses suffered by students in educational programs who are California residents or are enrolled in a residency program attending certain schools regulated by the Bureau for Private Postsecondary and Vocational Education.

You may be eligible for STRF if you are a California resident or are enrolled in a residency program, prepaid tuition, paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The Academy closed before the course of instruction was completed.
2. The Academy's failure to pay refunds or charges on behalf of a student to a third party for license fees or any other purpose, or to provide equipment or materials for which a charge was collected within 180 days before the closure of the Academy.
3. The Academy's failure to pay or reimburse loan proceeds under a federally guaranteed student loan program as required by law or to pay or reimburse proceeds received by the Academy prior to closure in excess of tuition and other costs.
4. There was a material failure to comply with the Act or this Division within 30 days before the Academy closed or, if the material failure began earlier than 30 days prior to closure, the period determined by the Bureau.
5. An inability after diligent efforts to prosecute, prove, and collect on a judgment against the institution for a violation of the Act.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

This institution does not charge interest on student installment payments. The institution reserves the right to change tuition and fees, make subject changes when necessary and make substitution in kits as required without notice. Any changes will not affect currently enrolled students.

Tuition Policies and Fees

The academy currently does not participate in federal or state financial aid programs; however, occasionally the Academy Director may authorize students to set up payment arrangements, on a case-by-case basis prior to commencement of classes. The final decision rests with the management staff of the Academy.

If a student agrees to pay as training is received, the agreed upon monthly payments to be made by the student are indicated on the Student Enrollment Agreement. If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

Cancellation and Refund Policies

You have the right to cancel the enrollment agreement you sign for a course of instruction

including any equipment, such as books, materials, and supplies, or any other goods and services included in the agreement and obtain a full refund of all charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. Cancellation occurs when you give written notice of cancellation to the director at the institution's address and is considered effective no later than the date received by the institution. You may deliver a cancellation by U.S. mail, or in person only. The notice, if mailed, is effective by postmark date. This notice need not take any specific form; it only needs to state that you wish to cancel this agreement. If you cancel this agreement, the Academy will refund any money that you paid, less any deductions for any Academy property or equipment not timely returned in good condition within 30 days after receipt of the notice.

Withdrawal and Refund Rights

You have the right to withdraw from the Academy at any time. If you withdraw from the course after the cancellation period described above, the Academy will remit a refund less a registration fee of \$100.00 and STRF (if collected) within 45 days following your withdrawal. The institutional refund policy for students who have completed 60 percent or less of the course of instruction shall be a prorated refund. You are obligated to pay only for the educational services rendered. The amount owed equals the hourly charge for the program multiplied by the number of hours of instruction you attended prior to withdrawal. If the amount you paid is more than the amount you owe, then a refund will be made within 45 days of your withdrawal date. If the amount you owe is more than the amount you paid, then you will have to make arrangements to pay it (to pay the difference).

Enrollment Defined

Enrollment is defined as scheduled hours of attendance, i.e. that portion of the course scheduled to be completed between the actual starting date and the date of the student's last day of physical attendance at the Academy.

You are obligated to pay only for educational services rendered and unreturned books or equipment.

To calculate a refund, follow these steps:

- a) Deduct a registration fee (\$100.00) from the total tuition charged.
- b) Deduct STRF payment (if collected).
- c) Divide the remaining tuition charged by the number of total program days.
- d) The quotient is the daily charge for the program.
- e) The amount owed by you for purposes of calculating a refund is derived by multiplying the total days attended by the daily charge for instruction.
- f) The refund would be any amount in excess of the figure derived in (d) that was paid by you.
- g) The refund amount shall be adjusted for equipment, if applicable.

Licensing Requirements/ Employment Information

The course will provide the student with the education and training necessary to become a polygraph examiner. There is no license requirement for polygraph examiners in California, and, therefore, the exact title of the occupation may vary among public agencies and private employers. (See: Dictionary of Occupational Titles - United States Department of Labor/ Polygraph Examiner/ Code: 199.267026). Students are encouraged to review other states' license requirements for specific requisites to become a licensed polygraph examiner.

Successful completion of an APA accredited polygraph program is only one of the necessary prerequisites for membership in the APA or other professional polygraph association. Students should review the membership requirements of the APA or any other polygraph association to determine eligibility for membership, before enrolling.

The Academy makes no guarantee, expressed or implied, that the student can gain employment and/or remain employed as a polygraph examiner. The Academy does not offer any placement services. Most polygraph examiners either work for a public agency such as a law enforcement agency or work as an independent contractor in the private sector.

The Academy makes no representation as to the salary that is paid a polygraph examiner. Independent contractors set their own fees. The student is strongly advised to research the qualifications, needs, and salaries paid for polygraph examiners in the area of intended employment.
