HISTORY & MISSION STATEMENT

Bodhi Panya Institute offers authentic, high-quality training in Thai Massage, as practiced today in Thailand - in a program that is deeply rooted in traditional Thai massage practices of centuries past.

Our mission is to provide quality training and affordable education in traditional Thai massage. Students will be able to perform Thai massage sequences that run 60, 90 and 120 minutes long.

- Students will be able to comprehend and verbally articulate the contents of traditional Thai massage, e.g. Sen lines, yoga stretches, breath support, use of aromatherapy, use of topical, herbal lotions and creams, as well as hot herbal packs and their applications, among other things.
- Students will learn how to choose which therapeutic oils to apply for certain health issues, such as stress, sore muscles, among many others. This also applies to aromatherapy oils that are heated by candles that fill the air surrounding a client with therapeutic healing properties.
- Students will learn self-care that helps protect them against injury while on the job, such as body mechanics that help to alleviate lower back strain, or repetitive stress issues in the hands.
- Students will gain knowledge in pathology that aids them in identifying health and hygiene problems, massage contraindications, and how to address problems with the various massage therapies they are learning.
- Students will learn business practices and proper client-therapist ethics that will help them thrive as employees or business owners should they choose those routes post-graduation.

Instruction at Bodhi Panya Institute is for anyone with at least a high school education or equivalent (G.E.D.) and an interest in learning traditional Thai massage.

Our goal is to prepare and graduate highly trained practitioners in traditional Thai massage who are qualified and well-prepared to gain employment in the field of massage.

PROGRAM OVERVIEW

Thai Massage an act of meditation for both giver and receiver. With roots deep within India's Ayurvedic traditions, traditional Thai massage is the manual therapy of traditional Thai medicine. Despite such roots Thai culture, cuisine, medicine, and spirituality are different than those of India. Thai bodywork has been developed over 2,000 years of continuous practice with definite regional and teacher lineage variations. It is a growing and evolving form of healing touch, one incorporating the best stretches from traditional Hatha Yoga and the depth of Ayurvedic medicine. It is part of the Metta meditation of Thai Buddhism. Deeply therapeutic Thai Massage is known to be both challenging and intimate, as well.

Sometimes called "applied yoga" or "yoga for lazy people," traditional Thai massage is often combined with herbal applications and spiritual healing to treat the whole person. Receiving traditional Thai bodywork is unlike anything in the West. This treatment is performed fully clothed on a comfortable bodywork futon. Clothing that you would wear for yoga is perfect; long pants are required.

The therapist applies pressure along a series of energy lines called Sen Lines. Then there is a complete series of stretches and mobilizations applied to the entire body. The average two-hour treatment is very interactive. Traditional Thai massage is beneficial for very active people as well as those with a sedentary lifestyle.

You will learn a form of ancient massage as it has been practiced in Thailand for almost 2,000 years. Your training will be the same as you would receive in many massage schools in Thailand today. The program features the northern-style of Thai Massage as taught in the city of Chiang Mai and so it may differ from treatments you have had in the southern portion of Thailand or on the popular tourist islands. There are energy holds, blood flow restrictions, visceral palpation, and techniques that put this form of bodywork in the therapeutic category. This is floor-based bodywork. Instruction will include technique and theory.

Sequences in supine, prone, side-lying, and sitting positions will be taught and practiced. Emphasis will be placed on learning safe and effective therapist body mechanics. You will learn a Thai Massage sequence that is more than two-hours long. This beautiful and ancient bodywork form has become internationally popular. This program will deepen your bodywork skills and introduce you to one of the most beautiful and powerful hands-on healing forms in the world

Our program is designed to prepare students to become professional massage therapists and gain California Massage Therapy Council ("CAMTC") certification as a Certified Massage Therapist. Students will acquire and be able to demonstrate basic massage skills, specifically in Thai massage along with meeting these objectives:

- Describe and name basic anatomical landmarks
- Describe the basic ethics of professional massage therapists
- Create a hypothetical business model
- Describe basic industry, pathology, safety and hygiene protocols
- Show proficiency in client communication and intake/interview protocols
- Demonstrate a professional Thai massage with taught techniques and methods
- Demonstrate safe and healthy body mechanics and self-care required for maintaining massage therapist health.

Anatomy, Physiology, Kinesiology: This course includes an introduction to anatomy and physiology and the basic structure and function of the muscular, skeletal and integumentary systems of the human body. Students will learn terminology and functional anatomical structures with a detailed study of the origin, insertion and action of the major muscles of the human body.

Pathology and Contraindications: students will learn how to assess a patient's posture. Starting at the feet, and ankles, knees, hips, shoulders, neck and position of head they will begin to learn about how certain postures lead to pathological conditions that eventually lead to pain.

Swedish Massage/ Introduction to Pregnancy Massage: This course introduces students to the basic skills needed in massage therapy. Students will also learn a full sequence to offer pregnant women. Class will cover appropriate positioning when working with pregnant women, including and use of side-lying. Considerations for each trimester in pregnancy will be reviewed as well as contraindications.

Thai Aroma Massage: Thai aroma massage is a wonderful blend of East and West techniques, consisting of Thai-style deep massage with yoga stretching combined with western-style Swedish massage. Students will receive an introduction to Thai aroma massage, theories and Thai culture and will learn how to make aroma oil and ingredients and learn body mechanics, massage position, technique, step and procedure. At the end of the course, students will be able to perform a 1 to 1.5 hrs. and 2 hrs. Thai aroma massage.

Traditional Thai Massage: Traditional Thai massage has a thousand year tradition in Thailand. In this form of massage, the recipient is fully-clothed in a loose-fitting top and pants. The massage consists primarily of bending and stretching movements that stretch in yoga postures. No oil used. In Thailand, a traditional Thai massage session lasts two hours. At Bodhi Panya Institute, we teach a complete set of traditional Northern Style Thai Massage techniques using feet, knees, elbows, and sitting in all 4 positions, as taught at Loi Kroh Traditional Thai Massage & Yoga (Chiang Mai, Thailand). *Learn It The Thai Way!* Having completed the course, students will be able to perform 1 to 1.5 hrs. and 2 hrs. full-body, traditional Thai massage for general health maintenance and well-being.

Deep Tissue Massage: This course will be hands-on and gives the student an understanding of the use of deeper strokes including trigger point, myofascial release, and cross fiber friction. Students will also learn how to apply deeper pressure without causing strain on their bodies. The benefits of deep tissue massage are removing constricted or cramped muscles, which alleviates the discomfort. Having completed the course, students will be able to perform a full-body 1, 1.5, and 2 hrs. deep tissue massage.

Thai Herbal Massage: Herbal healing has deep roots in Thai culture. Herbal heat compress is the best-known traditional therapy. This dates back to ancient times when it was the secret healing technique of Buddhist monks, local herbal healers and midwives. The herbal heat compress contains numerous healing herbs that complement the massage. Students will receive an introduction to traditional Thai herbal massage, theories and Thai Culture and will learn how to make herbal balls and ingredients, how to use hot compress and body mechanics, massage positions, techniques, steps and procedures. At the end of the course, students should be able to perform a 1 to 1.5 hrs. and 2 hrs. Thai herbal massage.

Thai Foot Reflexology Massage: Students learn and practice the traditional form of hand and foot reflexology. Reflexology is based on the belief that all parts of the body are reflected in the feet and hands and by applying gentle pressure to these areas can affect the corresponding part of the body and help to restore balance.

Business & Ethics: Students learn to build a professional image as a massage therapist. Topics will include certification and licensing along with professionalism inside and outside the massage room. At the conclusion of this course, the student will understand, and be able to apply, California state and local laws and regulations regarding massage therapy to his or her massage practice.

Clinic: Bodhi Panya Institute's clinical hours are designed to give students hands-on experience of massage while under the supervision of our instructors. This practical requirement gives the student an opportunity to apply different massage techniques on a variety of massage clients. The clinic will give students real world experience as a massage therapist.

COURSE MATERIALS

All course materials provided are solely for the students' personal, non-commercial use and may not be copied, reproduced, published, modified, uploaded, posted, transmitted, or distributed in any way, including by e-mail or other electronic means, without the express prior written consent of Bodhi Panya Institute in each instance.

COURSE CHANGES

Bodhi Panya Institute reserves the right to: (i) cancel courses due to under-registration, and to offer places in class for a later date; and (ii) to change instructor or course location if necessary.

CLASS SCHEDULE

Our goal is to make sure that students graduate on time. BPI will arrange the class schedule for a new starting class so that the new class graduates on time. However, you must follow the class schedule and attend all classes (30 hours per week for full-time students and 24 hours per week for part-time students) to graduate on time.

We try to maintain the class schedule for each incoming class to assure that all students in that class who follow that schedule graduate on time. However, occasionally, we have to reschedule classes for various reasons (such as an instructor not being available to teach during a specific time). We will do our best to minimize any rescheduling of classes, but it is important that you attend any rescheduled classes in order to graduate on the graduation date that was set when you first started classes at BPI.

If you have enrolled as a full-time student and would like to graduate sooner you can attend evening classes - so each day you are in class for 8 hours, instead of 6 hours - but please check with the School Administrator about class prerequisites and scheduling.

STUDENT OBJECTIVES

Objective - Preparing Students for Successful CMT futures: Bodhi Panya Institute has created a well-rounded program that directs students along a path to success as practitioners of traditional Thai massage. A student desiring to attend a class to make-up missed class hours or anyone else must obtain the prior approval of the Administrator before attending any class. Approval will be given only if there is space available in the class (students enrolled and attending the class for the first time have priority).

Please remember to bring sheets to each class.

Attendance. Classes at BPI are clock-hour programs. All classroom hours and clinical hours must be completed in order for students to qualify for graduation. In the event that a student is unable to attend a particular class or day of classes due to illness or other unforeseen circumstances, that student will be required to make up the missed class(es) by tutorial with one of the instructors. Tutorials allow students to receive direct instruction and feedback in place of the missed class (see Make-Up Policy below).

Tardiness. Please arrive at class ten (10) minutes early. This will allow you time to get your materials together, use the restroom, and get settled in for class. Students who arrive to class ten (10) or more minutes late will be marked tardy. A student is allowed three (3) tardy marks per class. For any tardy marks subsequent to the third (3rd), the student will be marked absent from that class. For the fourth (4th) tardy mark, the student will be marked absent from that class and will have to make up the class (3 hours). Students who are marked absent due to tardiness are welcome to attend the class for the information but, will still be required to complete the makeup assignment(s) for that class at the direction of administration.

Make-up Policy: to complete the program you must arrange to make-up for missed classes within 6 months of the missed class date. This is done on a space-available basis but can also be done directly with the instructors pending their availability. Makeup tutorial sessions will include a mix of one on one instruction, hands-on practice when applicable, and post-tutorial assignments. Tutorials are available at an additional expense of \$75 per hour. If multiple students miss the same class, they can split the cost of the tutorial between them. All tutorial fees must be paid directly to BPI administrative staff prior to scheduling and must be completed on campus.

Academic Probation and Suspension. Attendance is measured both per class and in total for the program. Students are allowed to miss up to three (3) classes per course without serious repercussions beyond completing makeup assignments.

Allowed (3) tardy marks per class. (4 th) tardy mark	Marked absent from that class and will have to make up the class (3 hours)
Absent four (4) times from a particular course	the student will be notified that they are on <u>academic probation</u> .
Absent five (5) times for a particular course	the student will receive an <u>academic suspension warning</u> .
Absent six (6) times for a particular course	the student is <u>automatically withdrawn from the current program</u> for an inability to maintain the minimum academic and attendance standards.
Twelve (12) absences for the entire 500-hour program	Students may not exceed a cumulative total of twelve (12) absences for the entire 500-hour program. Upon accruing the thirteenth (13th) absence within the entire 500-hour program, the students will be placed on academic suspension and automatically withdrawn from the program.

Students must complete the entire 500-hour program within one year of the first day of class or they will be placed on academic suspension and terminated from the program.

DRESS CODE

Students should dress comfortably in flexible clothing (sweatpants or yoga pants and a t-shirt are recommended). Revealing clothing (such as tank tops, shorts, etc.) is not allowed. Clean socks, bare feet, or indoor-only shoes are required. Nails should be trimmed short and long hair should be tied back. A student not complying with the dress code will be asked to change clothes or not attend the class, at the discretion of the instructor.

HYGIENE

Given the close personal contact nature of massage, it is important that students come to class bathed and groomed. Students are expected to wash their hands before a massage, after a massage, after using the restroom and after eating. Any items that come into contact with bare skin should be washed immediately after performing any massage work including sheets, pillowcases, towels, and oil or lotion bottles. Students who arrive to class in an obvious state of poor hygiene may be asked to leave, at the discretion of the instructor.

DRAPING

Instructors will teach students proper draping procedure and this procedure must be used at all times for all massages. Typical draping materials include clean sheets with additional towel and blankets as needed for client comfort. Draping should be arranged so that only the part of the body being worked on is exposed. Respecting the privacy and comfort of the massage recipient at all times is important.

CREDENTIALS AND MEMBERSHIPS

We take the confusion out of understanding and applying for professional credentials and memberships that help to shape your career as a massage therapist (U.S. Department of Labor Standard Occupational Classification code 31-9011). Upon completion of our 500-hour Traditional Thai Massage Program, you may choose to apply to the California Massage Therapy Council ("CAMTC") for certification as a Certified Massage Therapist or to the San Francisco Department of Public Health or other local jurisdiction (city or county) for a local massage license (which is valid only in the jurisdiction issuing it). CAMTC certification allows you to work anywhere in California while the San Francisco Department of Health only allows you to work in the County and City of San Francisco. The agencies below have diverse certification requirements so we ask that you visit their FAQ Web pages first then contact us for clarifications; BPI's role is only to advise students which is no way guarantees jobs or licensure.

- *ABMP: Associated Bodywork and Massage Professionals*
- *CAMTC: California Massage Therapy Council: (Certified Massage Therapist with 500-hours of study; required to work in California)*
- *THA: Thai Healing Alliance*

CALIFORNIA CERTIFICATION REQUIREMENTS

While certification through the California Massage Therapy Council (“CAMTC”) is not mandatory to practice massage in California, CAMTC certification is advised and is often necessary to meet the local massage therapist license requirements in many jurisdictions in California.

Bodhi Panya Institute provides Massage Therapy students with sufficient preparation to meet the education requirement for certification as a Certified Massage Therapist with the California Massage Therapy Council (CAMTC).

In order to obtain CAMTC Certification, an applicant must submit a fully completed application and meet all of the following requirements:

- Be 18 years of age or older;
- Pay the \$200 fee;
- Submit fingerprints to an authorized agency in California for a Live Scan using only the CAMTC form - Request for Live Scan Service (the authorized agencies charge you a fee for this service) and pass a criminal background check;
- Have successfully completed, at a CAMTC approved school, curricula in massage and related subjects totaling a minimum of 500 hours (or the credit unit equivalent), which incorporates appropriate school assessment of student knowledge and skills. Of the 500 hours, a minimum of 100 hours shall be in anatomy and physiology, contraindications, health and hygiene, and business and ethics; and
- Have not violated any of the provisions of the California Massage Therapy Act or any policy, procedure, or regulation of CAMTC.

Attendance and/or graduation from a California Massage Therapy Council approved school does not guarantee certification by CAMTC. Applicants for certification shall meet all requirements as listed in the Massage Therapy Act, codified at California Business and Professions Code sections 460, 4600-4621, and Government Code section 51034.

Please note: Pursuant to California Business and Professions Code section 4611, it is an unfair business practice for a person to do any of the following:

- a. To hold himself or herself out or to use the title of “certified massage therapist” or “certified massage practitioner,” or any other term, such as “licensed,” “certified,” “CMT,” or “CMP,” in any manner whatsoever that implies or suggests that the person is certified as a massage therapist or massage practitioner, unless that person currently holds an active and valid certificate issued by the California Massage Therapy Council.
- b. To falsely state or advertise or put out any sign or card or other device, or to falsely represent to the public through any print or electronic media, that he or she or any other individual is licensed, certified or registered by a governmental agency as a massage therapist or massage practitioner.

Alternatively, the BPI Administrator will test proficiency in verbal and written English as part of the interview process prior to enrollment.

We do not currently offer a testing or admission option for ability-to-benefit students (students who do not possess a high school diploma or G.E.D.). Successful applicants must demonstrate the ability to fulfill program requirements through the admissions interview process.

RECOGNITION OF CREDITS TRANSFERRED FROM OTHER INSTITUTIONS

Bodhi Panya Institute has not entered into an articulation or transfer agreement with any other school, college or university and does not accept transfer credits from any other educational institution.

If a student has completed class hours at another massage school approved by the California Massage Therapy Council ("CAMTC"), the student must request a transcript from that school along with the transcript of hours completed at Bodhi Panya Institute when he or she submits an application for a certified massage therapist with the CAMTC. CAMTC will evaluate the transcript from Bodhi Panya Institute along with the transcripts of any other CAMTC-approved massage schools attended by the student to determine if the student meets the CAMTC education requirements for a certified massage therapist. If a student has attended more than one massage school it is the student's responsibility to determine if the hours completed at Bodhi Panya Institute plus the hours completed at another massage school meet the education requirements of the CAMTC.

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credits you earn at Bodhi Panya Institute is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the certificate you earn in the 500-hour Traditional Thai Massage program is also at the complete discretion of the institution to which you may seek to transfer. If the certificates that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending the Bodhi Panya Institute to determine if your certificate in the 500-hour Traditional Thai Massage Program will transfer.

STANDARDS FOR STUDENT ACHIEVEMENT

Bodhi Panya Institute applies a standard for satisfactory completion of educational obligations for all of its programs. Failure to successfully meet these requirements may result in cancellation of the enrollment agreement and termination of a student's enrollment.

Student achievement will be assessed by instructor evaluation of hands-on massage techniques by the student.

Grading: P = Pass F = Fail I = Incomplete W = Withdrawal

Instructors will evaluate student skills for each class on the following scale:

1 - inferior 2 - below average 3 - average 4 - above average 5 - superior

To receive a passing grade a student must have a score of 3 or above in each skill evaluated.

If a student receives a final grade of F(Fail) in a particular class, the student has the following options:

- Practice with a classmate and then take the final test on the last day of the next regularly scheduled class for that subject
- Practice with a classmate and then take the final test for that class and pay \$75 per hour for the make-up final test
- Retake the class again, subject to availability of space in the class (students enrolled and taking the class for the first time have priority)

*****In addition to other class requirements, students must attend all classes (100% attendance) to receive a passing grade. At the end of the class instructor will be writing a final evaluation form with pass or fail grading, additional comments, and suggestions for each student.**

Students must complete the program in no more than one year from the first day of class (excluding any approved leave of absence) or shall be subject to academic withdrawal.

PROBATION AND DISMISSAL

Student academic progress is assessed periodically by the President and/or BPI Administrator. When the academic progress of a student falls below the minimum standard after expiration of the warning period, the student is notified in writing that he or she has been placed on probation for a four (4) month period. During the probationary period, the student is advised and instructed to make up or repeat course material in order to achieve satisfactory academic progress. The process for appeal of a student's satisfactory academic progress is described below under the heading, "Appeals."

A course may be repeated as often as needed according to availability, so long as the total program attendance time including course repeat time, does not exceed one year from the first day of class (excluding any approved leave of absence). If the student is unable to maintain satisfactory academic progress after expiration of the probationary period, then dismissal from the program is effected in writing by the registrar and recorded in the student's file.

Once dismissed, a student may apply in writing for readmission, and the student may, in the discretion of the President and/or BPI Administrator, be readmitted to the program. Grounds for dismissal include without limitation, unsatisfactory academic progress, excessive tardiness, excessive absenteeism, failure to satisfy financial obligations to BPI, insubordinate behavior, and failure to comply with BPI policies, rules and regulations, including the Student Conduct Policy.

Reinstatement after dismissal is considered only after the student is able to provide evidence to the President's and/or BPI Administrator's satisfaction that conditions related to unsatisfactory academic progress have been remedied. Reinstatement is effected from the effective dismissal date during a period no greater than fifty percent (50%) of the normal program length. A student petitioning for reinstatement must do so in writing. The decision of the President and/or BPI Administrator to reinstate, or not, is final.

A student may drop from the program at any time and is considered dropped the same day that confirmation of discontinuation is received by Bodhi Panya Institute either verbally or in writing from the student.

APPEALS

Decisions by the school regarding suspension, dismissal, attendance, grades, and transfer of credit may be appealed in writing by the student through submission of a written letter addressed to the President of Bodhi Panya Institute. A student appeal will be resolved by the President within five (5) days of the appeal, after review of the student's academic records and other supporting documentation as appropriate. Resolution by Bodhi Panya Institute of the student appeal is final and will result in either enforcement of the existing decision, or mitigation/reversal of the existing decision based upon the supporting documentation.

LEAVES OF ABSENCE

A student must promptly notify BPI of any anticipated interruption in class attendance. A student may request a thirty (30) day leave of absence ("LOA") in the event of unforeseen life circumstances, such as jury duty, accident or illness, passing of an immediate family member, sudden loss of employment, or loss of childcare. Military duty, pregnancy, and unique circumstances may qualify for an extended LOA at the discretion of the President or Administrator of BPI. An LOA must be documented in writing, and a "Leave of Absence Request" form must be signed and dated by the student and approved by the President or Administrator of BPI. Non-return from LOA results in dismissal and application of Bodhi Panya Institute's refund policy.

STUDENT CONDUCT POLICY AND DISCIPLINE

It is expected that all students will conduct themselves in accordance with the Student Conduct Policy below. Failure to comply with the Student Conduct Policy may result in a written warning, which will become part of the student's permanent school records, or dismissal from BPI and permanent banning from participation in future BPI educational courses.

If, at the end of such ten-day period, the President and/or School Administrator determines that the student has not improved his or her performance and is not in compliance with the Standard of Conduct, then the President and/or School Administrator may take such disciplinary actions as he or she deems appropriate may include, but are not limited to, a written infraction to be included in the student's permanent records and/or immediate dismissal, based on the severity of the violation. Two violations of the Student Conduct Policy will result in immediate dismissal of the student and permanent banning from participation in future BPI educational courses.

Notwithstanding the foregoing, failure to comply with the Standard of Conduct regarding weapons, tobacco, alcohol and drugs or violence shall result in immediate suspension of the student, pending a review of the conduct by the President or Administrator of BPI..

A student who is dismissed from BPI or failure to comply with the Student Conduct Policy may, within ten (10) days of such termination, submit a letter to the President of BPI asking for a reconsideration of the decision to dismiss the student with reasons why reinstatement would be appropriate. STUDENT TUITION RECOVERY FUND

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school.

Questions regarding the STRF may be directed to the Private Postsecondary Education, Physical address: 1747 North Market Blvd., Suite 225, Sacramento, CA 95834. Mailing Address: PO Box 980818, West Sacramento, CA 95798-0818, Web Site Address: www.bppe.ca.gov, Phone: (916) 574-8900, Toll Free: 888-370-7589, Fax: 916-263-1897.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.
