### **TUITION PRORATION FOR TUITION OWED AFTER WITHDRAWAL**

To find out your exact balance please submit a supporting ticket in the Hub. Your withdrawal time is defined as the official time you give notice of your withdrawal to BloomTech or the day BloomTech gives you notice of you being withdrawn.

If you withdraw or are withdrawn following the start of Sprint 2, we will calculate owed tuition by your program's hourly cost multiplied by the number of hours you earned. Hourly cost is determined by dividing your tuition by the number of credit hours in your program. Once you have completed 60% or more ( $\geq 60\%$ ) of the program you will owe the full tuition amount. Each sprint you complete is 40 hours.

The definition of a "sprint started" is as follows: A sprint starts when you submit and pass your final assignment/task in the prior sprint. At that time, you are automatically given access to the next sprint and are deemed to have started that next sprint. For example if you are a Data Science student and complete and pass your final assignment or task for sprint 1, you are given access to sprint 2, and have started Sprint 2.

### **TUITION PRORATION FOR TUITION OWED AFTER WITHDRAWAL**

To find out your exact balance please submit a supporting ticket in the Hub. Your withdrawal time is defined as the official time you give notice of your withdrawal to BloomTech or the day BloomTech gives you notice of you being withdrawn.

If you withdraw or are withdrawn following the start of Sprint 2, we will calculate owed tuition by your program's hourly cost multiplied by the number of hours you earned. Hourly cost is determined by dividing your tuition by the number of credit hours in your program. Once you have completed 60% or more ( $\geq 60\%$ ) of the program you will owe the full tuition amount. Each sprint you complete is 40 hours.

The definition of a "sprint started" is as follows: A sprint starts when you submit and pass your final assignment/task in the prior sprint. At that time, you are automatically given access to the next sprint and are deemed to have started that next sprint. For example if you are a Data Science student and complete and pass your final assignment or task for sprint 1, you are given access to sprint 2, and have started Sprint 2.
