## **SATISFACTORY ACADEMIC PROGRESS**

These standards of satisfactory academic progress have been established following guidelines adopted by the U.S. Department of Education. This institution expects its students to maintain satisfactory academic progress. In order to maintain satisfactory academic progress as established by this institution, a student must:

1. Complete his or her program of study within a maximum time frame of one and one half times the length of the program as defined in the enrollment agreement;
2. Successfully complete at least 67% of the attempted hours at the end of each month in order to complete the educational objective with the maximum time frame;
3. Comply with satisfactory academic progress, which is divided into evaluation

- periods and is assessed at the end of each of each month of training;
4. Show satisfactory academic progress standards, which are consistently applied to all students within categories of students, e.g., full-time, part-time, and varying programs established by the institution.

Students who withdraw from school will be evaluated on course work completed at the time of withdrawal. Students with incomplete course work will be issued an incomplete grade for the course work and will be deemed not making satisfactory progress. A grade of incomplete will revert to a failure if not completed/corrected within 135 days from the start date. The institution does not offer non-credit remedial course work. A student may repeat a module only once, with the higher grade earned being the grade of record.

Students who fail to maintain satisfactory academic progress during an evaluation period will be placed on probation for a period of up to 2 weeks. If the student (veteran) does not meet the satisfactory progress standards by the end of this period, benefits will be interrupted. The student will remain eligible to receive student aid during these probationary periods.

Probationary students, who fail to meet the satisfactory academic progress standards by the conclusion of the second probationary period, will be deemed to be not making satisfactory progress and will lose any remaining eligibility for student financial aid and may be terminated at the discretion of the institution. In the event students are allowed to continue instruction, aid eligibility will be reinstated only after the student has reestablished satisfactory academic progress in accordance with the standards stated above. Probationary students, who meet the satisfactory academic progress standards by the end of the probationary period, will be removed from probation and will retain eligibility for Title IV aid.

Students who wish to appeal a determination that they are not making satisfactory academic progress must submit a written appeal to the financial aid committee. The Committee consists of the school director and the instructor. The letter should describe any circumstances that the student believes deserve special consideration. The committee will evaluate the appeal and inform the student of their decision in writing. Students may reestablish their eligibility for aid payments by correcting any deficiencies to the acceptable minimum levels of these standards.

### **CANCELLATION POLICY**

The student has a right to cancel the agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later. To cancel the contract for school, mail or deliver a signed and dated copy of the Cancellation Notice, or any other written notice, or send a telegram to: The California Institute of Locksmithing, 30423 Canwood Street, #201, Agoura Hills, CA 91301, attention Corey Friedman.

Institution shall advise each student that a notice of cancellation shall be in writing, and that a withdrawal may be effectuated by the student's written notice or by the student's conduct including, but not necessarily limited to, a student's lack of attendance.

If the student cancels, any payment the student has made and any negotiable instrument signed by the student shall be returned to the student within 10 days following the school's receipt of the student's Cancellation Notice.

Each student has the right to withdraw from a course of instruction at any time. Students who withdraw after the end of the cancellation period, have the right to receive a refund for the part of the course not taken, less the cost of un-returned equipment and less a registration fee not exceeding seventy-five dollars. The student shall have their refund calculated on a "pro-rata" basis depending on how many scheduled hours remain in the course at the time of the withdrawal.

### **REFUND POLICY**

Refunds are calculated as follows: The refund shall be the amount the student paid for instruction multiplied by a fraction, the numerator of which is the number of hours of instruction that the student has not yet received but for which the student has paid, and the denominator of which is the total number of hours of instruction for which the student has paid. Students who have not visited the school prior to starting class or have been rejected will receive a full refund without any deductions.

Example: A student is enrolled in a course that is 300 clock hours long and withdraws from class after fifteen days of instruction, which is scheduled to six hours per day. Therefore, 90 hours of the student's course have elapsed and 270 hours remain. If the total price is \$6000.00, and the student has paid all fees, the refund would be calculated as follows:

#### I. Step One

Amount paid for instruction by student to date	\$6000.00
Minus registration fee	\$75.00

Subtotal: \$5925.00

\$5925.00 - 270 hours of instruction not yet received 300 hours in course for which student paid	\$4443.75
-----------------------------------------------------------------------------------------------------	-----------

#### 2. Step Two

Initial refund amount	\$4443.75
Minus cost of unreturned equipment	\$560
Actual refund amount	\$3883.75

The school will refund any money due within 10 business days after receiving a notice of cancellation.

A student who wishes to cancel or voluntarily terminate after starting training may submit a written notice to the School Director. In any event, the termination date for refund computation purposes is the last date of actual attendance by the student. In the case of prolonged illness or accident, death in the family, or other circumstances that make it impractical to complete the program, the school shall make a settlement that is reasonable and fair to both penalties.

The refund policy for students who have completed 60% or less of the period of attendance shall be a pro rata refund.

If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from the federal student financial aid program funds.

7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans. To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF. A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by the another act of law. However, no claim can be paid to any student without a social security or a taxpayer identification number.

The California Institute of Locksmithing is not an eligible institution to participate in the U.S. Department of Education's Title IV programs, which offers the Federal Pell Grant and the Federal Family Educational Loan programs, at this time. We are not an accredited institution that is recognized by the United States Department of Education. If the institution should become eligible for the financial aid, a student must:

- be admitted as a regular student;
- be enrolled or accepted for enrollment in an eligible program on at least a half- time basis;
- be a citizen or an eligible non-citizen;
- not owe a refund on a Federal Pell Grant or Federal SEOG at any school;

- have signed a statement of educational purpose;
- have signed a statement of updated information;
- have High School diploma, a GED, or have demonstrated the ability to benefit.

It is important to note that the basic locksmithing course is 300 clock hours, and as such, may not qualify for some or all of the financial aid(s) set forth above.

To apply for aid at the California Institute of Locksmithing, an applicant must complete a free Application for Federal Student Aid. You must follow the directions. After you complete the application form, make an appointment to see a financial aid representative to have your information analyzed and eligibility determined. You must supply signed copies of your tax returns, and depending on your age, signed copies of your parents' returns as well, and other documentation upon the request of the financial aid counselor. After the California Institute of Locksmithing accepts a completed application, your information is sent to our processor for analysis. A determination of eligibility will take approximately one week.
