EXCELLENCE IN
EDUCATION AND
HEALTHCARE
SINCE 1984

Welcome to Five Branches University

Dear Friends,

Your interest in Traditional Chinese Medicine (TCM) comes at an advantageous time as more and more patients turn to TCM for their healthcare and are seeking qualified practitioners.

Traditional Chinese Medicine (TCM) is the main healthcare modality for more than 20% of the world's population and is the fastest growing primary healthcare in the U.S. Statistics indicate this consistent growth pattern will continue, as Chinese Medicine is increasingly sought by Americans who have experienced its healing benefits. Significantly, the U.S. National Institute of Health has recognized acupuncture as a valid, effective method of healing, and the Bureau of Labor has categorized the Acupuncture profession in the category of "Bright Future" because it has a growth rate of over 20% per year. With hospitals such as Kaiser and Sutter adding acupuncture to their integrative medicine departments, Obamacare including acupuncture coverage in many states in the U.S., and regulations requiring hospitals to use non-pharmacological methods to treat pain, the practice of Traditional Chinese Medicine is growing.

TCM and Western medicine differ profoundly, yet for more than 80 years they have been offered side-by-side in Chinese hospitals and universities, and increasingly in the U.S. In the last five years, integrative medicine has made great strides in the United States: Western medical schools are offering courses in complementary and alternative medicine, a recent survey indicates that more than 50% of M.D.s today support their patients seeking alternative therapies, and more recently, Five Branches University students are completing hospital residencies at the Alta Bates Summit Medical Center in Oakland.

When you study TCM you are choosing to become immersed in a healing tradition passed down for generations in Asia. You will learn the great TCM classics and their clinical applications to become an expert acupuncturist and Chinese herbalist. The study of this precious body of knowledge provides a deep understanding of the energy body and the ancient, profound and useful principles of TCM diagnosis and treatment. In addition, our Western medical curriculum provides you with the knowledge and skills to perform as an effective primary healthcare practitioner working in harmony with the wider medical profession. The Institute of Medicine (IOM), the leading think tank for defining healthcare for the 21st century, has made patient-centered care and multidisciplinary medicine their top two priorities. Five Branches' programs embody both of these important goals.

Through the new dual-degree graduate Masters/Doctorate, and the postgraduate Doctorate programs, we believe that Traditional Chinese Medicine will play a growing and central role in future healthcare and medical systems. Our goal is to serve, and we are devoted to the transmission of this profound body of knowledge to the next generation of sincere and dedicated students, and future practitioners.

We invite you to visit our beautiful campuses in California: in Santa Cruz on the Monterey Bay, and in San Jose in the heart of Silicon Valley, to further explore TCM, its ancient wisdom and understandings, and what the field of integrative medicine can offer you. If a career in Traditional Chinese Medicine is indeed your calling, know that you will be amply rewarded with a meaningful and satisfying career that will benefit you beyond your expectations and allow you to experience the fulfillment of serving others: your friends, family and patients.

Sincerely,

Ron Zaidman, President & CEO

Points of Excellence

For 36 years, Five Branches University, Graduate School of Traditional Chinese Medicine, has set the standards for excellence in Traditional Chinese Medicine (TCM) education and healthcare.

Respected University

Recognized as one of the nation's top TCM schools, Five Branches University provides the highest level of professional education and healthcare in Traditional Chinese Medicine and integrative medicine in the U.S. and internationally. Five Branches University graduates practice in Europe, Asia and South America.

Two California Campuses

You can choose from our two beautiful campuses in Santa Cruz and San Jose, California or attend classes at both to enjoy breathtaking coastal views or unique cultural city experiences. Both campuses offer plenty of sunshine and a diverse and progressive environment in which to live.

Health and Medical Centers

The Five Branches University Health Centers located in Santa Cruz and San Jose, California provide the best of TCM healthcare. Treating over 180 patients each day, our health centers are the ideal place for students to gain experience in a clinical environment and for TCM clinicians and doctors to provide exceptional healthcare to their patients. Our staff includes specialists in neurology, internal medicine, gynecology, pediatrics, oncology, dermatology, immune deficiency, ophthalmology, pain management, gastroenterology, rheumatology, and cardiology.

Master's, Doctoral, Postgraduate Doctoral and Specialization Programs

Our Doctor and Master of Traditional Chinese Medicine (DTCM/MTCM), Doctor and Master of Acupuncture (DAc/MAC), and Postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) programs provide a strong foundation in TCM diagnosis, acupuncture and Chinese herbal medicine, the latest TCM research, extensive clinical training, and a comprehensive integrative medicine education.

The Doctor and Master of Traditional Chinese Medicine (DTCM/MTCM) and Doctor and Master of Acupuncture (DAc/MAC) which lead to state licensure and national certification is offered as dual-degree programs. The Postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) program offers licensed practitioners the highest level of TCM education. Our Asian Massage and Qigong specialization program offers students the opportunity to receive National massage certification. Five Branches University is the first accredited acupuncture school in the U.S to pioneer a comprehensive Medical Qigong Specialization Program. Our Medical Qigong Program offers three levels of training and the Medical Qigong Practitioner Specialization. The levels of training are Self Cultivation and Medical Qigong Therapist.

Experienced Faculty and Clinical Experts

Learn from highly accomplished faculty in TCM education. Many of our doctors and teachers have decades of experience teaching and practicing TCM in renowned hospitals and medical schools in China and the U.S.

Integrative Medicine

Throughout the DTCM/MTCM program, you will learn the ancient and profound principles of TCM diagnosis and treatment, acupuncture and Chinese herbal medicine, along with the best of Western medicine. Your training in Western medicine will inform your TCM practice, and open doors to collaborate with Western practitioners.

Extensive Herbology Training

Five Branches University is respected among TCM colleges for its outstanding herbology department. Among our instructors is Dr. Jeffrey Pang, the descendant of a famous Chinese herbalist family. Our herb pharmacy contains more than 400 raw herbs, catalogued and stored in traditional wooden drawers, and over 350 patent formulas.

Specialization Options

As a DTCM/MTCM or DAc/MAC student, you can complete a specialty in Sports Medicine, Medical Qigong, Five Element Acupuncture and Tuina Massage to enhance and distinguish your TCM and Acupuncture practice.

The DAOM program offers TCM practitioners the ability to further specialize in their practice. Advanced training by leading TCM specialists, medical doctors and educators is available in women's health, neuromuscular medicine, family medicine, the classics and other specialties.

Study in China, Taiwan, Korea and Vietnam

Our Study Abroad program is one of the best ways to experience the authentic practice of TCM integrated with modern western medicine. Travel to Asia to learn TCM from highly knowledgeable doctors and teachers and to receive extensive clinical training in a hospital setting, including earning a Ph.D. at one of our sister schools in Hangzhou, Tianjin, Fujian, Shenyang or Beijing, China.

Continuing Education

Our commitment to excellence in education continues beyond graduation with our continuing education programs. Bringing expert teachers and lecturers together, we offer a wide variety of high-quality courses in advanced Traditional Chinese Medicine and provide a number of specializations such as Tibetan Medicine, Ear Medicine, the Chinese Classics and Medical Qigong.

Financial Aid Programs

Five Branches University is an accredited institution of higher education approved to participate in federal financial aid programs for the DTCM/MTCM, DAc/MAC, and postgraduate DAOM programs. Our financial aid programs can assist you in meeting the financial costs of your education, including tuition and living expenses.

Career Opportunities

Our professional partnerships with Stanford University, the Alta Bates Summit Medical Center, Kaiser-Permanente, Highland Hospital, Zhejiang Chinese Medical University, and Tianjin University of Traditional Chinese Medicine, offer you outstanding educational and career opportunities around the world.

Careers in the field of TCM are growing and include establishing a private practice, joining a group practice, working in an integrative medical center, hospitals, and job opportunities in education, publishing and research.

Whatever your career of choice, our career development courses and advisors will guide and support you in pursuing your optimal career path, providing you with the business knowledge, skills and level of confidence required to become a successful Traditional Chinese Medicine practitioner.

Graduate Success

Our DTCM/MTCM graduates consistently achieve the highest passing scores on both the California acupuncture licensing exam and the national certification exams. Upon graduation, you will be qualified to enroll in our postgraduate Doctorate and Ph.D. programs, to apply for a top-paying position at a medical institution or to establish a successful TCM practice anywhere in the world.

Five Branches has turned out extraordinarily accomplished alumni who are leaders in every facet of TCM: practitioners, teachers, authors, international lecturers, consultants, and researchers. Access to these alumni offer you excellent networking opportunities for professional advancement.

We hope you will join us at Five Branches University for a truly distinctive educational experience and to discover the rewarding personal and career path of Traditional Chinese Medicine.

Distance Education

The University offers a variety of its courses through distance education. The DTCM and DAc Completion Bridge programs are totally online, the postgraduate DAOM program is 50% online, and the DTCM/MTCM and DAc/MAC programs are growing their online offerings. The online courses, designed by professional instructional designers, provide students the convenience of studying from home and not having to travel to campus. The University's distance education program is approved by its accreditor, ACAOM.

For distance education courses, the institute will provide students evaluation of their submitted assignments within two weeks.

The University

Two Campuses

Five Branches University opened its first campus and health center in Santa Cruz, California in 1984, offering Traditional Chinese Medicine education and healthcare to the residents of this thriving, coastal Northern California town. In 2005, the University opened its second campus in San Jose in the heart of Silicon Valley. Our objectives were to provide the best of Traditional Chinese Medicine education and healthcare to this growing high-tech area; and to have a campus located in close vicinity to important university medical programs and hospitals such as Stanford Medical School and Kaiser Hospital.

Eight Programs

Five Branches University offers five degree programs, two extension programs and a completion program related to Traditional Chinese and Integrative Medicine at its two California campuses. The majority of the classes and clinical trainings of the programs are held at the two campuses except clinical externships that are offered locally and in Asia, and the completion program which is offered fully online.

Santa Cruz Campus Programs

- Dual-Degree Doctor and Master of Traditional Chinese Medicine
- Master of Traditional Chinese Medicine
- Dual-Degree Doctor and Master of Acupuncture
- Master of Acupuncture
- DTCM/DAC Bridge Program (completion track for LAc's with a Master's degree)
- Asian Bodywork and Qigong (Extension)
- Medical Qigong Practitioner (Extension)

San Jose Campus Programs

- Dual-Degree Doctor and Master of Traditional Chinese Medicine (English and Bilingual)
- Master of Traditional Chinese Medicine (English and Bilingual)
- Dual-Degree Doctor and Master of Acupuncture (English and Bilingual)
- Master of Acupuncture (English and Bilingual)
- DTCM/DAC Bridge Program (completion track for LAc's with a Master's degree) (English/Chinese Bilingual)
- Postgraduate Doctor of Acupuncture and Oriental Medicine (English and Chinese)
- Asian Bodywork and Qigong (Extension)
- Medical Qigong Practitioner (Extension)

Mission

Five Branches University, a Graduate School of Traditional Chinese Medicine, is dedicated to educating students to become exceptional practitioners, educators and researchers.

Our Purpose

Five Branches University is dedicated to:

- Provide the highest level of professional education in Traditional Chinese Medicine and integrative medicine in the U.S. and internationally.

- Develop highly skilled TCM clinical practitioners, educators and researchers.
- Advance the practice of TCM as an independent medical modality through clinical practice, education and research.
- Encourage professional collaboration among TCM practitioners, faculty, patients, and other medical providers to transform the worldview of healthcare; and to recognize TCM as a significant component of world medicine.
- Support an international and diverse cultural community by offering our programs in two languages and providing students the opportunity to study abroad.
- Foster a professional environment for faculty, staff and students to promote academic excellence as well as personal growth and development.
- Provide exceptional TCM and integrative medicine patient care to the community through the Five Branches University health centers.
- Educate the general public about the significant benefits of TCM healthcare through continuing education programs and community lectures.

Vision and Values

Over the next 30 years, Five Branches University will evolve into an international university and healthcare center, teaching and researching high-level TCM education in English and Chinese, and offering TCM healthcare in an integrative medicine environment throughout the U.S. and worldwide.

TCM philosophy views medicine as a compassionate response to human suffering. We will embrace this philosophy by encouraging supportive and humanistic academic and healthcare environments. We will support equality and oppose discriminations in any form including race, color, gender, sexual orientation or ethnicity. Our faculty members will be chosen based not only on academic excellence but also on the passion they emanate while teaching and mentoring students. Our students will be chosen for academic competence as well as their compassion and commitment to serve others.

Four trends will influence our vision over the next 30 years:

An increasing number of patients will continue to seek highly qualified TCM practitioners as primary healthcare providers. TCM schools will continue to improve their programs to provide highly skilled TCM clinical practitioners to meet this growing demand.

TCM universities in China and medical experts in the U.S. will continue to collaborate and share their expertise in TCM and Western medicine, a vital component for the advanced development of TCM doctoral programs and research.

Scientists, researchers and medical institutions will continue to research the depth and efficacy of TCM, resulting in greater acceptance of Chinese medicine among medical professionals and medical schools in the U.S.

A greater demand for collaborative healthcare will evolve as healthcare professionals join together to address the population's full health needs by educating one another about their work and collaborating to provide effective treatment, prevent disease and promote optimal well-being for patients. We will continue to work to achieve equal recognition and compensation for TCM services in the health care profession.

A Growing Profession

Consumers are fueling the growth of alternative medicine. According to a study published in the Journal of the American Medical Association, approximately 42% of Americans are spending more

than 34 billion dollars on complementary and alternative therapies each year. The author of the study, Dr. David Eisenberg, Director of the Center for Alternative Medicine and Research at Beth Israel, and Assistant Professor of Medicine at Harvard Medical School, claims that, “One out of every two individuals between the ages of 30–55 use alternative therapies.” What this growing base of consumers seem to prefer is the safe, noninvasive nature of alternative therapies, the affordable cost of treatments, and the emphasis on preventing illness while maintaining optimal health.

Traditional Chinese Medicine has been the primary healthcare system for over 25 percent of the world’s population for decades, and today it is the fastest growing form of alternative healthcare in the United States.

The World Health Organization (WHO) published findings stating that acupuncture can be effectively used to treat over 43 conditions. The prestigious Mayo Clinic, Kaiser Hospital, Sutter Hospital and leading cancer centers have busy acupuncture departments, and the Cleveland Clinic prescribes TCM herbs. Insurance providers are taking note, providing improved coverage for alternative therapies, including chiropractic, massage and acupuncture.

According to the American Association of Acupuncture and Oriental Medicine, growth in the acupuncture profession has increased dramatically, providing graduates with a multitude of career opportunities around the world. TCM practitioners can choose to establish a private or group practice, work in an integrative medical center, cancer center or hospital, or become involved in TCM education, publishing or research.

Currently, there are over 12,000 students enrolled in over 60 Traditional Chinese Medicine (TCM) colleges with more than 24,000 licensed acupuncturists now practicing throughout the United States. This is a growing profession!

The Five Branches of Traditional Chinese Medicine

Five Branches University derives its name from the five branches of Traditional Chinese Medicine that maintain and restore an individual’s harmony with nature: Acupuncture, Herbology, Massage (Tuina), Qigong (energetics and exercise), and Chinese Dietary Medicine.

- I. **Acupuncture** uses very fine needles to regulate Qi (Yang) and Blood (Yin), produced by the internal organs, which flow in the regular channels and extra meridians that course throughout the body. According to TCM theory, all human physical disorders or diseases are related to the dysfunction of Qi and Blood. By inserting acupuncture needles in correct points, we tonify Qi and Blood deficiencies or invigorate their stagnation, resulting in improved mental and physical health.
- II. **Herbology** is the preparation and use of plants and minerals as prescription medicine. Chinese herbology is found in many forms, including powder, pills, teas, and creams. These herbs treat disorders and diseases through internal or external absorption. Since Chinese herbs have different tastes, properties, natures and functions—and because they enter various channels—the herbs affect the flow of Qi and Blood, as well as the body’s balance of Yin and Yang.
- III. **Tuina Massage** refers to the use of traditional Chinese massage to treat injuries of tendons and muscles, and organ disorders. Tuina applies pressure on the points, as well as applying specific movements along the meridians, to regulate and harmonize the flow of Qi and Blood.
- IV. **Energetics** are exercises that heal through rhythmic breathing and body movements. Energetics includes internal healing arts, such as the Five-Animal Exercise developed by Hua Tuo, meditation, Medical Qigong, and various styles of Taijiquan, an internal martial art practiced worldwide.

- V. **Chinese Dietary Medicine** is a highly effective method of self-treatment handed down in China over thousands of years. Like all agricultural societies, China understands the vital connection between food and health. Thus, TCM doctors prescribe energetically balanced diets to treat disharmonies in the Qi, Blood, and organ functions, using the energetic profile of foods.

TCM and Western medicine are both essential to the evolution of a future world medicine. At Five Branches, we believe TCM education provides a profound view of the human relationship to nature—a philosophical view at the heart of all great human civilizations. We wish to perpetuate this inherent TCM wisdom.

History of Five Branches University

Five Branches University was founded on an auspicious day: February 4, 1984, on Chinese New Year in the Year of the Mouse, at the beginning of a 60-year cycle. We had one classroom, a clinic with three treatment rooms, five teachers, 18 dedicated students, one patient a day, and one typewriter. Today we have two campuses, 14 classrooms, 38 treatment rooms, 200 teachers, 450 dedicated students, 2000 alumni, and we see 180 patients a day. We have grown.

From the beginning, it was our intention to invite Traditional Chinese Medicine practitioners to the West, to teach and transmit their precious knowledge of Chinese medicine and to share their subtle yet powerful ways of practicing medicine. The history of Five Branches began when several of these extraordinary yet humble practitioners of TCM accepted our invitation.

The essence of our success has been the quality and dedication of our faculty/practitioners. Jeffrey Pang, L.Ac., Joanna Zhao, L.Ac., and Lucy Hu, L.Ac., have been with us for over 30 years. Today, our faculty number over 200 distinguished members.

The most meaningful events of our history, however, are the memories of the hug and warm smile a patient gives one of our faculty members when they meet outside the clinic, the practitioner who shares how Chinese medicine saved their patient's life, and the heartfelt gratitude expressed by a graduate at their graduation for the gifts received from faculty during their time of study and training at Five Branches.

It is our comprehensive academic programs, the quality of teaching in both the classroom and clinic and the deep and sincere dedication of faculty, staff and students that have contributed significantly to the transmission of this incredible medicine into our communities and throughout the West.

History Highlights

1984–1992

- Five Branches Institute is founded on February 4, 1984
- Five Branches enrolls its first class of 18 students
- Approved as degree-granting school by the California Council of Education
- Five Branches builds a modern seven-room clinic
- The first graduating classes achieve unprecedented 100% passing rate on licensing exam
- Five Branches students travel to China for the annual Study Abroad program
- The Medical Qigong program is established

1993–2001

- Five Branches Institute receives national accreditation

- Five Branches expands the library, clinic and classrooms
- Externship clinic programs with community clinics are established
- The Sports Medicine program is established
- Five Branches expands clinic to 18 treatment rooms
- Five Branches and Zhejiang College of TCM begin to develop joint Doctoral/Ph.D. program

2002–2010

- Five Branches co-hosts the first International Conference on Integrated Medicine with Zhejiang Chinese Medical University in China
- Five Branches establishes the San Jose campus, offering the TCM Master's degree
- Stanford doctors and staff explore cooperative education with Five Branches
- The postgraduate Doctor of Acupuncture and Oriental Medicine program is established
- The Bilingual TCM Master's degree program is established at the San Jose campus

2011–2020

- Five Branches celebrates its 30-year anniversary
- Five Branches students travel to Taiwan and Vietnam for the annual Study Abroad program
- Five Branches receives the maximum of 7 years institutional, Master's and Professional Doctorate degree programs re-accreditation
- The postgraduate DAOM program receives full accreditation
- The Stroke and Rehabilitation Center is inaugurated
- Five Branches co-hosts the 10th World Federation of Chinese Medicine Societies conference in Santa Clara, California with 800 participants from around the world
- The University is accredited for distance education and launches the fully online asynchronous DTCM/DAC Bridge Completion Program.

Accreditations & Approvals

Institutional Accreditation

Five Branches University is institutionally accredited by the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM), which is the recognized accrediting agency for freestanding institutions and colleges of acupuncture and Oriental medicine that offer such programs.

Doctor of Acupuncture and Oriental Medicine (DAOM) Program (English and Chinese)

The postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) degree program of Five Branches University, in English and Chinese, is approved by the California Bureau for Private Postsecondary Education, and accredited under applicable doctoral degree standards, by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), the recognized accrediting agency for programs preparing acupuncture and herbal medicine practitioners.

Doctor of Traditional Chinese Medicine (DTCM) (English and Chinese)

The Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM) granted Five Branches University's Professional Doctorate programs in Oriental Medicine initial accreditation

for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>.

For professional licensure and other purposes, graduates of the DTCM / MTCM dual-degree program rely on the Master's degree designation to sit for National certification and State licensure. This is because the DTCM is a new program in the profession.

Master of Traditional Chinese Medicine (MTCM) (English and Chinese)

The Master of Traditional Chinese Medicine degree program, in English and Chinese, of Five Branches University is approved by the California Bureau for Private Postsecondary Education and accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for programs preparing acupuncture and herbal medicine practitioners.

Doctor of Acupuncture (DAc) (English and Chinese)

The Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM) granted Five Branches University's Professional Doctorate programs in Acupuncture initial accreditation for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>.

Master of Acupuncture (MAc) Program (English and Chinese)

The Master of Acupuncture degree program of Five Branches University is approved by the California Bureau for Private Postsecondary Education and accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for programs preparing acupuncture and Oriental medicine practitioners.

ACAHM is located at 500 Lake Street, Suite 204, Excelsior, Minnesota 55331; phone (952) 212-2434; website – www.acahm.org

National and State Approvals

Five Branches University is a private institution recognized, approved by, or is a member of the following national and state associations:

- National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM)
- Council of Colleges of Acupuncture and Oriental Medicine (CCAOM)
- Title IV Federal Student Financial Aid Program, U.S. Department of Education
- U.S. Citizenship and Immigration Services (USCIS)
- U.S. Department of Homeland Security approval for foreign students
- Veterans Education, U.S. Department of Veterans Affairs
- California State Acupuncture Board, California State Department of Consumer Affairs
- California Bureau for Private Postsecondary Education, www.bppe.ca.gov.

Five Branches University is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations.

The Bureau for Private Postsecondary Education

Local Community

Santa Cruz

At the top of the Monterey Bay crescent, Santa Cruz shines like an emerald between beaches and redwood forests. With a population that barely tops 54,000, Santa Cruz belies her small-town size with big personality and endless possibilities for recreation and entertainment. Home to the University of California (UCSC) and Cabrillo College, Santa Cruz has a vibrant youth culture that keeps the community unique and up to date while still retaining a warm neighborhood feel.

Outdoors

If you love fresh sea air, surf and the great outdoors, you have come to the right place. Blessed with mild weather and a gorgeous coastline, Santa Cruz has lured surfers, boaters, hikers and bikers for decades. Bursting at the seams with parks, beaches and open spaces, Santa Cruz County is one of the most beautiful places to find yourself outside.

Food and Local Agriculture

One of the five branches of Chinese medicine is nutrition, and Santa Cruz makes it easy for you to find fresh, wholesome, local food at many restaurants, cafes and health food markets. Nearby farms are represented at several farmers' markets located throughout the city, featuring fresh organic fruits and vegetables, locally caught seafood, artisan cheeses, fresh flowers and more.

Arts and Entertainment

The creative denizens of Santa Cruz have made sure your experience here is steeped in art of every persuasion. Museums, art galleries, theater and dance troupes will keep your cultural calendar overflowing with options. Look forward to music every night of the week, thanks to a thriving local music scene. Downtown hosts a lively shopping district with bookstores, boutiques, restaurants and movie theaters catering to locals and visitors alike. The historic Santa Cruz beach boardwalk, home of the world-famous Big Dipper roller coaster, is a seaside amusement park that has been a family destination for over 100 years.

San Jose

In the heart of Silicon Valley, the mecca of high tech, San Jose is the largest city in Northern California. Attracted by mild Mediterranean weather and high wages, people from around the world have made their home in San Jose, making it the most ethnically diverse city in the nation. Add a low crime rate and a spacious, wide open feeling and you have one of the most livable, family-friendly locations in the west. The San Jose International Airport makes travel easy and proximity to San Francisco, Santa Cruz, and the wine country provide day trip destination getaways.

Outdoors and Athletics

With 300 days of sunshine per year, you can imagine San Joseans take good advantage of their parks and open spaces. Many walking and biking trails within the city limits provide glimpses of nature during your green commute. Local sports fans are proud of their NHL hockey team the San Jose Sharks, as well as the major soccer league team the San Jose Earthquakes. These pro games are events you won't want to miss.

Food and Local Agriculture

Once known more for apricots, plums and grapes than silicon, the fertile Santa Clara Valley supplies a rich harvest of produce that can be seen on display at many area farmers' markets. As one of the oldest wine producing regions in California, Santa Clara Valley has many wineries offering tours and tastings daily. Replete with international cuisine and fine restaurants, the quality and variety of dining experiences in San Jose are something to savor.

Arts and Culture

Thanks to a special city ordinance, public art is on the rise in San Jose and many pieces can be seen throughout the city in parks and downtown areas. The celebration of art and culture continues with many community events, performance companies, galleries and museums, including the renowned contemporary San Jose Museum of Art. One of the busiest venues in the world, the HP Pavilion hosts major musical acts, sporting events and conferences. The cosmopolitan Santana Row district combines shopping, dining, living and relaxing all in a beautiful tree-lined atmosphere.

Technology

Silicon Valley slowly replaced the agriculture food companies which gave San Jose its initial nickname, "The Valley of the Heart's Delight." With a population of close to 2 million, Silicon Valley sits in the South Bay portion of the San Francisco Bay area. Home to many of the world's largest technology corporations it continues to be the leading hub for high-tech innovation and development.

Programs

Doctor and Master of Traditional Chinese Medicine Dual-Degree Program (DTCM/MTCM)

The dual-degree Doctor and Master of Traditional Chinese Medicine program is a four-year graduate professional degree program comprising 3435 hours and 195.5 units. Students earn a Doctorate degree, and the Master's degree that is required to sit for State and National licensing and certification exams. Taught by highly accomplished faculty in TCM education, the DTCM/MTCM curriculum is offered through eight academic and clinical departments, providing comprehensive instruction and practical clinical experience in the "five branches" of Traditional Chinese Medicine (Acupuncture, Herbology, Tuina Massage, Energetics and Chinese Dietary Medicine). The program emphasizes extensive clinical training, integrative Western medicine, and the latest TCM research.

Master of Traditional Chinese Medicine (MTCM)

The Master of Traditional Chinese Medicine is the same program as the Doctor of Traditional Chinese Medicine described above and differs only in admissions requirements. The MTCM requires 2 years of undergraduate studies versus three years for the DTCM; and requires a TOEFL score of 61 versus 80 for the DTCM.

Doctor and Master of Acupuncture Program (DAc/MAC)

The Doctor and Master of Acupuncture program is a three-year professional degree program consisting of 2647.5 hours and a total of 149 units. The program is specifically designed for students who wish to practice outside California as well as students interested in developing a practice emphasizing acupuncture, including MDs and other licensed Western medical practitioners authorized to use acupuncture needles in the state of California. If you plan to practice in California and are not an MD or licensed Western medical practitioner, you will need to complete the DTCM/MTCM program which includes both acupuncture and Chinese herbal medicine studies. The DAc/MAC program includes both academic and clinical training, with a focus on practicing acupuncture in an integrative medical environment. For students interested in implementing the fast-growing community clinic model, the program includes instruction on how to establish and manage a community-style acupuncture clinic.

Master of Acupuncture (MAc)

The Master of Acupuncture is the same program as the Doctor of Acupuncture described above and differs only in admissions requirements. The MAc requires 2 years of undergraduate studies versus three years for the DAc; and requires a TOEFL score of 61 versus 80 for the DAc.

DTCM & DAc Bridge Program

The Online DTCM & DAc Bridge Program is a completion track to the DTCM or DAc degree available to licensed practitioners who have an earned Master's degree in Traditional Chinese Medicine or Acupuncture.

Created by instructional designers and following the standards of ACAOM, the profession's

accreditor, the program emphasizes integrative care, systems-based medicine and professional development as they relate to the practice of Acupuncture and Traditional Chinese Medicine. The self-paced, on-demand format is tailored to those in the Acupuncture and Chinese Medicine field who want a high quality, relevant and convenient path towards earning the Doctor of Traditional Chinese Medicine (DTCM) degree or Doctor of Acupuncture (DAc) degree.

Postgraduate Doctor of Acupuncture and Oriental Medicine Program (DAOM)

The Postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) program is designed for licensed acupuncturists interested in developing advanced TCM knowledge and skills, achieving a medical specialization, and gaining valuable experience in research and teaching. The DAOM program is offered at the San Jose campus in both English and Chinese. The 56.8 unit / 1280-hour program comprises 39.6 units / 594 hours didactic and 17.2 units / 686 hours clinical training. DAOM courses are offered once per month during three to four-day weekend intensives with a flexible clinical training schedule, allowing you to earn a doctorate degree in as little as 24 months while maintaining your private practice.

The Postgraduate Doctor of Acupuncture and Oriental Medicine is described in a separate Catalog that is downloadable on the University's website.

Extension Program

Five Branches University offers a variety of classes and specialization programs in therapeutic massage, Asian Bodywork, Qigong and Medical Qigong; bringing together wisdom from modalities based in Eastern and Western traditions. Courses may be taken individually, for massage therapists, qigong instructors, licensed acupuncturists and other healing practitioners, wanting to add to their skills. Courses may be taken in a series of classes that lead to specialization in Asian Bodywork and Qigong, and in Medical Qigong.

The programs and courses of the Extension department are described in a separate Catalog that is downloadable on the University's website.

Doctor and Master of Traditional Chinese Medicine Dual-Degree Program (DTCM/MTCM) and Master of Traditional Chinese Medicine (MTCM)

***Starting January 2023, Doctor and Master of Traditional Chinese Medicine (DTCM/MTCM) changed program names to Doctor and Master of Acupuncture and Herbal Medicine (DAcHM/MAcHM)**

TCM Theory and Clinical Medicine

The TCM Theory curriculum provides you with a thorough knowledge of the language and theories of TCM's unique, yet universal, approach to understanding health and the treatment of disease. Drawing from both classical and modern texts, the curriculum creates a solid framework for the application of clinical methods, including acupuncture and herbology.

The TCM Clinical Medicine curriculum expands on the knowledge learned from the courses in TCM Theory, Acupuncture, and Herbology. However, this knowledge alone is not enough to fully diagnose and treat disease. TCM Clinical Medicine provides you with advanced skills in diagnosing and treating disease in the specialized fields of TCM internal medicine, external medicine, gynecology, pediatrics, traumatology, and orthopedics. Training includes detailed instruction of herbal and acupuncture treatment plans for both common and complex diseases. These courses lay the foundation for your clinical practice.

TCM Acupuncture

The TCM Acupuncture curriculum is divided into didactic and lab sections, emphasizing both the theoretical and practical aspects of acupuncture. TCM Acupuncture courses provide you with a thorough knowledge of traditional and modern meridian theory, including point location, functions, indications and treatment planning. The curriculum includes comprehensive training in moxibustion, cupping, Guasha, and electrical stimulation. Clinical labs concentrate on accuracy, needling methods, technique and precautions.

TCM Herbology

Chinese herbology is the world's most sophisticated medical herbal system. The TCM Herbology curriculum includes extensive training in the identification, categorization and clinical use of the traditional Chinese herbal pharmacopoeia. Six trimesters of in-depth herbology study will provide you with a solid working knowledge of more than 500 individual herbs and 350 classical and modern formulas. Advanced courses instruct you how to modify and enhance classical formulas in response to specific variants in a patient's diagnosed condition. All herb courses are taught using the Pinyin names of herbs.

Western Medicine

Modern practitioners of TCM must have a fundamental understanding of Western medicine to inform their TCM practice, and to effectively communicate with medical doctors and other

healthcare professionals. Western Medicine studies are an integral part of the curriculum providing knowledge of Western diagnosis and pharmaceuticals, necessary to make appropriate referrals and to provide the best care possible for your patients. Introduced to the basic methods of Western diagnosis, you will learn the fundamental vocabulary used in diagnostic analysis and the clinical methods used in Western medical approaches to disease. With this knowledge, you can become an active part of today's dynamic healthcare network.

Our Western medicine department is enhanced by our educational and clinical relationship with International Center for Integrative Medicine and Highland Hospital and the doctoral residency program we have at Highland Hospital. These professional relationships not only benefit you as a student but also contribute to a better understanding and acceptance of TCM in the West.

TCM Clinical Training

In-depth clinical training comprises approximately one-third of the Doctor's/Master's curriculum, preparing you to practice the theoretical knowledge you gained in the classroom. Throughout the program, starting in your first trimester, you will observe a faculty-practitioner diagnosing and treating patients. In your last year, you will diagnose and treat patients with acupuncture, Chinese herbs and other methods of the five branches, under the direct supervision of a faculty member. The Five Branches medical centers in Santa Cruz and San Jose assist over 160 patients a day, allowing you to work with highly skilled faculty in a busy clinical environment and to gain hands-on experience with patients. By the end of clinical training, you will have performed at least 350 patient treatments, a basic requirement for graduation.

TCM Energetics and Career Development

To enrich and round out your professional TCM training, the DTCM/MTCM curriculum includes Energetics courses to introduce you to the ancient Chinese practices of Qigong and Taijiquan, and Career Development courses to prepare you to practice TCM professionally, ethically, and successfully.

Review and Assessment

At four important junctures of the program, you will have the opportunity to review the materials you have learned and to receive assessment of your progress. This evaluation assists you in developing good study and test-taking skills, ensuring full comprehension of courses, and the ability to pass the national certification and California licensing exams.

Specializations

As a DTCM/MTCM/DAc/MAC student, you can study a specialization in Sports Medicine, Medical Qigong, Five Element Acupuncture, TCM Classics, and Tuina Massage to enhance and distinguish your TCM practice.

Externships

Up to 25% of your clinical training hours may be completed through an externship. The diverse externships we offer allow you to become exposed to different patient populations, treat a wide variety of conditions, and explore new fields of specialization. Multiple off-campus externships are offered by TCM practitioners in private practice throughout the Bay Area and are also available in a community clinic setting—treating senior citizens, veterans of war, mental health patients, and those struggling with substance abuse. Summit Medical Center is also a possible externship

where TCM students can see Traditional Chinese Medicine and Western Medicine being integrated in a real-world setting. You may also choose to study abroad to experience the authentic practice of TCM integrated with modern Western medicine. Our relationship with eight universities in China, Korea, Vietnam, and Taiwan provide you with the opportunity to learn TCM from highly knowledgeable doctors and clinical experts, to receive training in a hospital setting, and to explore the beauty and diversity of Asia.

DTCM/MTCM Educational Objectives

Our graduates will be:

- Highly skilled TCM clinical practitioners who assist in the prevention and treatment of disease and effectively diagnose, prescribe and provide medical treatment within the parameters of Traditional Chinese Medicine and integrative medicine
- Primary healthcare providers with thorough knowledge and skills of the “five branches” of Traditional Chinese Medicine (Acupuncture, Herbology, Tuina Massage, Energetics, Chinese Dietary Medicine) and the integrative components of Western medicine
- Competent in the assessment of patients and qualified to recognize medical conditions which require referrals of patients to other healthcare providers
- Qualified healthcare providers who understand the importance of adhering to universal and professional medical ethics, and the social responsibilities of providing primary healthcare to the public
- Capable of achieving high passing scores on the national board certification and the California Acupuncture state licensing exams required to become a licensed acupuncturist (L.Ac.)
- Capable of establishing and managing a private practice and/or working as an integral part of a professional team of healthcare providers

*Courses(s) required for program, but may not be taught at FBU and can be transferred in. If not taken prior to initial enrollment, may be taken concurrently at another institution, and must be completed by the end of the term in which the course is required in the program.
 **CCAOIM Clean Needle Technique (CNT) course and the 8hr CPR/First Aid course offered only by American Red Cross (ARC) or American Heart Association (AHA) must be completed and transferred in to begin FCL 400 Intern Rounds.

Doctor and Master of Acupuncture Dual-Degree Program (DAc/MAc) and Master of Acupuncture (MAc)

The Doctor and Master of Acupuncture are offered as a single dual-degree program. The program is offered at our Santa Cruz and San Jose campuses. The program includes both academic and clinical training, with a focus on practicing acupuncture in an integrative medical environment. The Doctor/Master of Acupuncture program is specifically designed for the following individuals:

- Students who wish to practice outside California
- Students interested in developing a practice emphasizing acupuncture, including MDs and other licensed Western medical practitioners authorized to use acupuncture needles in the state of California. If you plan to practice in California and are not an MD or licensed Western medical practitioner, you will need to complete the DTCM/MTCM program which includes both acupuncture and Chinese herbal medicine studies.

Program Overview

The Doctor and Master of Acupuncture program is a three-year professional degree program consisting of 2647.5 hours and a total of 149 units. The curriculum is taught on a trimester basis with clinical training and other designated courses continuing during the summer term. Taught by highly accomplished faculty in TCM education, the curriculum is offered through the following eight academic and clinical departments:

- TCM Theory
- TCM Acupuncture
- TCM Clinical Medicine
- TCM Clinical Training
- Western Medicine
- Complementary Studies
- Review and Assessment

For detailed course descriptions refer to the Departments section of the catalog and the applicable Doctor and Master of Acupuncture Program Overview. The DAc/MAc program meets the accreditation requirements of the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM). Upon completion of the program you can become certified by the National Certification Commission for Acupuncture and Oriental Medicine as a Diplomate in Acupuncture, Dipl. Ac. (NCCAOM).

Community Acupuncture Clinic

The DAc/MAc program is designed for students who wish to develop a practice emphasizing acupuncture and especially for those interested in implementing the fast-growing community clinic model. The program includes instruction on how to establish and manage a community acupuncture clinic.

DAc/MAc Educational Objectives

The educational objectives of the DAc/MAc program provide guidelines for the development of the

curriculum, assessment of the program's quality and success, and the measurement of the achievements of our graduates. Upon completion of the program our graduates will be:

- Highly skilled clinical acupuncturists who assist in the prevention and treatment of disease and effectively diagnose, prescribe and provide medical treatment within the parameters of Traditional Chinese Medicine and integrative medicine
- Primary healthcare providers with thorough knowledge and skills of the four branches of Traditional Chinese Medicine (Acupuncture, Tuina Massage, Energetics, Chinese Dietary Medicine) and the integrative components of Western medicine
- Competent in the assessment of patients and qualified to recognize medical conditions which require referrals of patients to other healthcare providers
- Qualified healthcare providers who understand the importance of adhering to universal and professional medical ethics, and the social responsibilities of providing primary healthcare to the public
- Capable of achieving high passing scores on the national certification exams required to become a licensed acupuncturist
- Capable of establishing and managing a private practice or working as an integral part of a professional team of healthcare providers.

DTCM & DAc Bridge Completion Program

The fully online DTCM & DAc Bridge Program is an exciting opportunity for current practitioners with a Master's degree to earn a doctoral degree. Meeting ACAHM standards, the program emphasizes integrative care using lab tests and research, systems-based medicine and professional development as they relate to the practice of Acupuncture and Traditional Chinese Medicine. Five Branches University's at-your-own-pace, on-demand format is tailored to those in the Acupuncture and Chinese Medicine field who want a high quality, relevant and convenient path towards earning the Doctor of Traditional Chinese Medicine (DTCM) degree or Doctor of Acupuncture (DAc) degree.

Program Focus

Five Branches University's DTCM/DAc Bridge program focuses on professional development and learning how to use Western diagnostics to inform and enhance your TCM practice.

The program courses include:

- Integration of Diagnostic Imaging Techniques and Lab Analysis to TCM Practice
- Western Health Care Systems and Integrative Care
- Applying Case Studies and Research to TCM Practice
- Integrative Clinic Practice

Highlights

- Offered in English and Bilingual (English/Chinese)
- Short program length – one year, three trimesters (totaling 315 hours)
- 100% online
- Clinical training through the online courses or at preceptorships local to you
- Take classes on your own weekly schedule – No set class times
- Regular instructor office hours
- State-of-the-art course design and content
- User-friendly platform
- Emphasis on professional development
- Integrates TCM with modern medical context
- The program is open to those who have completed a Master's degree (or equivalent) in Traditional Chinese Medicine or Acupuncture
- The culmination of the program results in graduates receiving the degree of “Doctor of Traditional Chinese Medicine” or “Doctor of Acupuncture”, and the ability to use the title of “Dr.” in front of your name.

Curriculum

FWM 751 – Systems Based Medicine: Western Healthcare Systems in Integrative Practice
3 units, 45 hours

COURSE DESCRIPTION

Students learn how the current US health care system functions so they can apply that knowledge

as a part of emerging integrated healthcare systems and serve as members of interdisciplinary teams of practitioners. More specifically, students study how the current US health care system works and the impact of national, state, and institutional policies on the system's functioning and compare it to that of other developed nations. Students drill down into various components of the US health care system organization and how they affect access to care. These include the role of insurance, types of practitioners and their scope of practice, and the impact of the pharmaceutical industry on care. As a culminating activity, students are asked to create an effective and accessible health care system synthesizing all they have learned.

FWM 780 – Applying Lab Results for TCM Practitioners
1.5 units, 22.5 hours

COURSE DESCRIPTION

Students expand their knowledge of blood chemistry into a deeper understanding of clinical scenarios an acupuncturist might encounter in practice. They examine selected body systems, learn their interconnectedness, and explore how blood chemistry findings related to these systems may present clinically. Students also have the opportunity to work with actual blood chemistry test results they are likely to encounter in their practices and determine which of these findings warrant referral to biomedicine practitioners. For each system covered, students link findings from blood chemistry lab tests to TCM patterns where appropriate and, thus, create a well-rounded integrated clinical approach with a functional medicine emphasis.

FWM 851 – Research: Using TCM and Biomedical Findings to Enhance Clinical Practice 1
3 units, 45 hours

COURSE DESCRIPTION

The overall purposes of this course are to support DTCM Bridge students in being able to delve into clinical literature, determine the quality of research study results and apply relevant findings to improve clinical practice. Students review the various methods used in biomedical, allied health disciplines, and complementary disciplines including TCM. Students learn how to assess the overall quality of research in these areas. They then select research studies relevant to their own clinical needs and apply what they have learned to clinical practice. As a result, students improve their collaborative communication skills with biomedicine practitioners and with patients related to research findings.

FWM 951 – Research: Using TCM and Biomedical Findings to Enhance Clinical Practice 2
1.5 units, 22.5 hours

COURSE DESCRIPTION

TCM practitioners are continually thinking about how to improve their patient care and outcomes. In this course, students learn how to develop an action plan related to integration which provides a pathway to intentionally address areas of identified need or focus in their current practices. Students follow a step-by-step process that leads them from determining an area of focus to outlining a clear action plan ready for implementation. The process steps include identifying a focus area, researching the literature, gathering additional information from stakeholders, learning from experts, developing the action plan itself, and finally presenting the plan for feedback for process refinement.

4. Advanced Lab Analysis and Diagnostic Testing **22.5 hours**

COURSE DESCRIPTION

Review of basic Western Biomedical diagnostic tools and tests. This will include common lab tests (CBC, Urinalysis, Thyroid panel, etc.) as well as common diagnostic imaging methods (X-Ray, CAT Scan, MRI, fMRI, laparoscopy, endoscopy, etc.). Students will learn the basics of how these tests are performed, equipment used to perform these tests, potential information gained from them, and common reasons these tests may be indicated.

This course will focus on how this information can be used to enhance the understanding of TCM practitioners and aid in your communications with patients who are receiving care from Western Biomedical practitioners.

5. Charting the Course for Professional Development & Lifelong Learning **22.5 hours over two trimesters**

COURSE DESCRIPTION

Overview of how the program is organized and how to maximize your own learning through your experience in didactic courses and advanced clinic. In this course, candidates will complete a self-evaluation of skill levels in various areas related to successful practice, an interest inventory, an exploration of a variety of clinical practices as a means of determining the focus of advanced clinical training experience. Students will also initiate the first phase of a professional development plan.

One of the major goals the profession's accrediting body, ACAOM, set forth in its doctoral competencies was to require candidates to create a professional development plan for lifelong learning. This course supports candidates in beginning this process, which will continue throughout the program. All of this leads to candidates taking charge of their lifelong learning.

6. Integrative Online Intern Theater 1, 2, 3 **135 hours over three trimesters**

COURSE DESCRIPTION

Advanced clinical training of the DTCM Completion program is offered through two modalities. Students may choose the modalities and hours that best serves your educational objectives.

1. Approved Preceptorship (TCM and/or Western) – Local to you
2. Online Integrative Theatre (TCM plus Western) – at Five Branches University

The overall purpose of this course is to support DTCM and DAc Completion students to enhance the level of your current clinical practice and your ability to work in integrative settings. Students will set 1 to 4 goals based on your personal interest, self-evaluation, and program requirements for your advanced clinical experience. One of the goals will be related to integrative practice.

Tuition and Financial Aid

- Tuition for the 16.5-unit 315-hour program is \$8,505. Five Branches University Master's graduates receive a 20% discount for a tuition of \$6,804.
- Tuition is proportional to the number of courses of each trimester and is payable by trimester or monthly. There is a nominal fee for use of credit card and for the monthly payment plan.

- Financial aid is not available for the short DTCM/DAC Bridge Completion program.

Admissions

All students with a Master's degree in Acupuncture or Traditional Chinese Medicine, or equivalent, are welcome to apply.

To receive the DTCM Bridge Program Admissions Package:

- Download and complete the fillable Admissions forms from the Bridge program's website
- Email: admissionsadvisor@fivebranches.edu
- Online Form: Fill your mailing address in the online form
- Call: (831) 476-9424

Applicants will need to submit:

- DTCM/DAC Bridge Program Admissions Form
- Statement of Purpose
- Recommendation Letter
- Resume
- Recent passport-style photograph
- Copy of acupuncture license
- TCM education transcripts
- Undergraduate education transcripts showing at least 90 units undergraduate studies
- Application fee of \$65

Calendar: See the Bridge program website for the application forms, and program curriculum and dates

FIVE BRANCHES UNIVERSITY

DTCM/DAC Bridge Program Curriculum

Trimester 1		Units	Hours
FWM 751:	Systems Based Medicine: Western Healthcare Systems and Integrative Practice	3.0	45
FWM xxx:	Lab Analysis and imaging: Advanced Lab Analysis and Diagnostic Testing	2.0	30
FCL 750:	Clinical Experience I	1.5	45
Semester Total:		6.5	120.0
Trimester 2		Units	Hours
FWM 851:	Research: Using TCM & Biomedical Findings to Enhance Clinical Practice I	3.0	45
FWM 8xx:	Applying Lab Test Results for TCM Practitioners	1.5	22.5
FCL 850:	Clinical Experience II	1.5	45
Semester Total:		6	112.5
Trimester 3		Units	Hours
FCD 951:	Charting the Course for Professional Development and Lifelong Learning	1.0	15
FWM 951:	Research: Using TCM & Biomedical Findings to Enhance Clinical Practice II		22.5
FCL 950:	Clinical Experience III	1.5	45
Semester Total:		4.0	82.5
Program Totals		Units	Hours
Didactic Courses		12.0	180
Clinical Experience Hours		4.5	135
Total		16.5	315

Specializations Options

While completing the DTCM, MTCM, DAc or MAc programs you can choose to train in a specialized field of study and receive a specialization upon completion of any of the following programs. Specialty programs are offered based on faculty availability and student interest.

Specialties are available in:

- Sports Medicine
- Medical Qigong
- Tuina Massage

Students may also transfer these specialty courses and programs to the Extension program for continued studies and to receive Specialization in these fields.

Sports Medicine Specialization

Orthopedic acupuncture is used by athletes to alleviate joint pain, heal muscle strains and sprains, and prevent injury. The benefits of stress reduction and increased energy provided by orthopedic acupuncture help athletes achieve top performance and alleviate tension prior to competition.

The Sports Medicine specialty program is designed for students interested in assisting patients to increase stamina and flexibility, reduce stress, and obtain peak athletic performance. The program emphasizes the treatment of orthopedic injuries: shin splints, tennis elbow, knee injuries, low back pain, sprained ankles, and other impairments.

Course Descriptions

TCM Traumatology and Orthopedics

- FCM 600 3 Units/45 Hours

Advanced TCM Traumatology and Orthopedics

- FEL 700 2 Units/30 Hours

Sports Medicine Clinical Rounds

- FCL 300 1.5 Units/45 Hours

Sports Medicine Clinical Internship

- FCL 800 1.5 Units/45 Hours

TCM Traumatology and Orthopedics

This course covers the etiology, diagnosis and treatment of common diseases of the musculoskeletal system in accordance with both TCM and Western medicine. Emphasis is placed on the differentiation of bone and soft tissue injuries related to common sports and industrial injuries. You will learn to treat patients with acupuncture and herbs, perform essential orthopedic tests to evaluate the outcome of treatments, recognize red flags in orthopedics, and make appropriate referrals. You will learn how to competently instruct patients in the proper rehabilitation and the prevention of sports and industrial injuries.

Advanced TCM Trauma and Orthopedics

This course covers the etiology, pathogenesis, differential diagnosis and treatment for traumatic

injuries of the skin, tendons, ligaments, and muscles from an integrative approach. You will learn how to review X-rays, perform specific orthopedic tests for common musculoskeletal injuries, and make proper referrals when necessary. Herbal formulas for poultices, plasters and compresses will be taught in addition to acupuncture treatment modalities.

Sports Medicine Clinical Rounds

In this specialized clinical training course, you will observe senior practitioners in clinic as they apply acupuncture, Chinese medicinal herbs, and Tuina massage to a broad spectrum of patients with sports injury-related conditions.

Sports Medicine Clinical Internship

In this final stage of clinical training, you will gain the skills to diagnose and treat patients, applying classical and specialized acupuncture and herbal formula treatment plans for a variety of sports injuries, utilizing Western medical examination and diagnostic techniques when appropriate.

Medical Qigong Specialization

Based on the textbook, *Chinese Medical Qigong Therapy: A Comprehensive Clinical Text*, this program teaches the basic theories and practical applications of Medical Qigong.

Medical Qigong was developed to treat patients with a multitude of conditions, including internal organ diseases, immune system dysfunction, and cancer. Patients are treated with Qigong and given specific Medical Qigong prescription exercises and meditations in order to complement their treatments and enhance healing. A 200-hour Medical Qigong Practitioner specialization will be awarded upon completion of Medical Qigong I–IV (128 academic hours) in addition to 72 hours of clinical training.

Course Descriptions

Medical Qigong I

- FEL 310 2 Units/30 Hours

Medical Qigong II

- FEL 320 2 Units/30 Hours

Medical Qigong III

- FEL 330 2 Units/30 Hours

Medical Qigong IV

- FEL 340 2 Units/30 Hours

Medical Clinical Internship Rounds

- FCL 400 3 Units/90 Hours

Medical Qigong I

In Medical Qigong I, you are led through a progressive series of Qigong (Vital Energy Skills) meditations and exercises. You will learn basic applications of Medical Qigong (purging excess conditions, tonifying deficiencies, dispersing stagnations and regulating Qi, blood and body fluid), and how and when to apply them in clinic. You will be introduced to energetic psychology, discharging toxic emotions, and will learn how to handle the emotional discharges and toxic

energetic releases coming from your patients.

Medical Qigong II

In Medical Qigong II, you are led through a progressive series of advanced Shengong (Spirit Skill) meditations and exercises, specifically used for developing advanced intuitive diagnostic skills. You will learn how to establish proper energetic boundaries, and neutralize psycho- emotional interactions such as projection, transference, and countertransference. Upon completion of this course, you will be prepared to participate in the Medical Qigong clinical training and assist the instructor with performing treatment protocols.

Medical Qigong III

In Medical Qigong III, you will be provided with an overview of the esoteric principles and foundational structures that govern Traditional Chinese Medical Qigong. Course content includes: the study of the Three Outer Forces and their influence on the human body, energy, food and diet, the body's energetic internal structures, advanced Shengong cultivation methods, the Eight Supernatural Powers, how to rectify Qi deviations, among other topics.

Medical Qigong IV

In Medical Qigong IV, you are introduced to advanced Medical Qigong theories and their clinical application. Upon completion of this course, you will be ready to practice on your own, utilizing Medical Qigong treatment protocols in combination with other TCM modalities, empowering your patients to use modified Qigong prescriptions to suit their personal needs.

Medical Qigong Clinical Internship Rounds

Conducted in a small class setting, Clinical Internship Rounds provides you with exposure and first-hand experience with Medical Qigong diagnosis and treatment. In this hands-on clinical training course, you will learn and experience the different aspects of energetic dysfunction and symptom manifestation. Through the careful guidance of the instructor, you will assist in all phases of diagnosis and treatment.

TCM Tuina Massage Specialization

TCM Tuina massage practitioners work with the energy channels and points of the body using the same principles as acupuncture except that hands and fingers are used rather than needles. Utilizing a variety of hand techniques, and practiced on a clothed body, Tuina is used to release stagnant energy flow and tension, enhance the healing process, and aide in the recovery of damaged tissues. This treatment modality is highly beneficial for young children and patients that have concerns about the use of acupuncture needles.

The TCM Tuina massage specialization program consists of 176 hours of both theoretical and clinical training. This program is open to students who are not enrolled in the MTCM program, provided they meet the general education enrollment requirements and have taken the prerequisites.

Course Descriptions

TCM Tuina Massage I

- FAP 610 3 Units/45 Hours

TCM Tuina Massage II

- FEL 610 2 Units/30 Hours

TCM Tuina Clinical Internship Rounds

- FCL 400 1.5 Units/45 Hours

TCM Tuina Clinical Internship

- FCL 800 1.5 Units/45 Hours

TCM Tuina Massage I

Massage and manipulation, or Tuina, comprise one of the traditional five branches of TCM. Although the TCM program emphasizes the clinical methods of acupuncture and herbology, this course introduces you to Tuina and other traditional Chinese therapeutic massage systems.

TCM Tuina Massage II

This course expands on the foundation of TCM Tuina Massage I, focusing on clinical assessment and treatment protocols for a variety of common musculoskeletal and internal medicine disorders.

TCM Tuina Massage Clinical Internship Rounds

In this specialized clinical training course, you will practice a broad spectrum of applications of Tuina massage with patients in a clinical setting under the direct supervision of a senior practitioner.

TCM Tuina Massage Clinical Internship

A continuation of the theoretical and practical aspects of Tuina massage, this clinical training course provides you with the opportunity to work with your own patients, while under the direct supervision of a senior practitioner.

Study Abroad Program

The Study Abroad program offers you the unparalleled opportunity to witness the authentic practice of Traditional Chinese Medicine (TCM) combined with Western medicine as a primary care medical system, where large volumes of patients with a wide variety of conditions are treated.

Accompanied by Five Branches' native Chinese, Vietnamese or Korean-speaking faculty and 10 to 20 Doctor's/Master's and postgraduate Doctoral students, you can travel to Asia for a period of two to four weeks to receive specialized TCM and Integrative medicine training in an affiliated hospital and outpatient center at one of our five sister schools in China, Taiwan, Vietnam or Korea.

You can complete up to 25% of your clinical training requirements at one of the following Universities: Zhejiang Chinese Medical University, Liaoning University of TCM, Tianjin University of TCM, China Medical University, Vietnam University of Chinese Medicine and Daejeon University, and receive specialized training in Internal Medicine, Oncology, Pediatrics, Gynecology, TCM Trauma or other medical specialties, based on faculty availability.

Using a translator, you will train with world class practitioners who possess a strong knowledge in the theories and clinical applications of TCM. The schools in this program are highly respected TCM school and offer the latest in modern medical technology.

Travel Throughout Asia

After training in the hospital, join faculty and fellow students on daily excursions to historical sites, shopping, tasting local delights or enjoying the area's scenic gardens, pagodas and museums.

China

Considered one of the world's top travel destinations, China offers travelers stunning natural beauty, bustling city experiences and more than 5000 years of rich cultural heritage. Explore Tiananmen Square, the Forbidden City and the Great Wall of China in Beijing and experience the striking scenery of the mountains of Guilin and Yangshao rising up from the rice paddy fields.

Korea

While visiting Korea, stroll the pavilions and halls within the grounds of the famous Gyeongbok Palace, and be sure to wander the streets of Seoul, known for its chic boutiques, renowned restaurants and exciting nightlife.

Taiwan

Taiwan, one of the most diverse destinations in Asia, is full of natural wonder. Explore the lush mountains of Wulai, hike in Taroko Gorge or spend time at one of the world's best hot springs. At night, venture out to the exhilarating city of Taipei to experience a mélange of Taiwanese culture, entertainment and cuisine.

Vietnam

Vietnam remains one of the most folkloric countries in Asia where even its large cities still reflect the old ways. This has made our Vietnam externship the most popular. Vietnam offers beautiful beaches and exciting mountains for travel.

Other Destinations

With an infrastructure that allows easy travel by plane, ship, car or train, you can extend your stay and travel throughout Asia to engage in activities like swimming with elephants in Thailand, diving

the multitude of coral reefs that surround the islands of the Philippines or mastering the art of meditation and tea ceremony during a temple stay in Japan.

This valuable international experience will complement your academic curriculum, broaden your perspective of the Asian culture and be highly regarded by future employers.

Departments and Courses

Department of Traditional Chinese Medicine Theory and Traditional Chinese Clinical Medicine

Jeffrey Pang, L.Ac. & Joanna Zhao, L.Ac.

Department Chairs

The Traditional Chinese Medicine Theory curriculum provides you with a thorough knowledge of the language and theories of TCM's unique, yet universal, approach to understanding health and the treatment of disease. Drawing from both classical and modern texts, the curriculum creates a solid framework for the application of clinical methods, including acupuncture and herbology.

The courses in TCM Theory, Acupuncture and Herbology teach you the basic principles of Chinese medicine pattern differentiation and treatment, including the study of common functions and indications of herbs, formulas and acupuncture points. However, this knowledge alone is not enough to fully diagnose and treat disease. The Traditional Chinese Medicine Clinical Medicine curriculum expands on this knowledge, providing you with advanced skills in diagnosing and treating disease in the specialized fields of TCM internal medicine, external medicine, gynecology, pediatrics, traumatology, and orthopedics. Training includes detailed instruction of herbal and acupuncture treatment plans for both common and complex diseases. These courses lay the foundation for your clinical practice.

TCM Foundations I & II

- FCT 100|200 6 Units/90 Hours

This two-course series is the foundation for all other TCM coursework.

The first course introduces students to the classical principles of the fundamental theories of Chinese Medicine such as the Yin and Yang, the Dao, and the Five Elements, which were universal laws in ancient China. TCM theory applies these broad principles to the realm of human physiology and pathology in a complex and powerful system for understanding the intricate balance of health. The major TCM theories are systematically covered, including Qi, Blood, Shen, Essence, Body Fluids, and Zang-Fu organs and their dynamic internal relationship.

The second course builds on the first one and covers various theories of Chinese medicine including the Six Pernicious Influences, Four Levels, Six Stages and Eight Parameters. Etiology, pathogenesis, as well as TCM treatment principles of disease and disease prevention are covered in detail.

After completing these courses, students will be familiar with the basic language and terminology of traditional Chinese Medicine as well as the theories and concepts that are the foundations of Chinese medicine's view on health and illness.

TCM History & Philosophy

- FCT 110 2 Units/30 Hours

This course is designed to introduce a brief historical overview of the origin, development and changes in regard to Chinese medicine theories and practices. Students will gain an understanding, without being medically or clinically specific, of the larger and broader spectrum of TCM from antiquity to present.

Upon completion of this course, students will understand the origin and historical development of Chinese medicine from antiquity to the present day.

Chinese Language for TCM

- FCT 120 1 Unit/15 Hours

This course serves as a general introduction to the spoken and written modern Chinese language (*Putonghua* or Mandarin). Emphasis will be placed on writing Chinese with the English alphabet (*Pinyin* system), pronunciation (tonal system) and terminology used to describe Chinese medical concepts. Some basic syntactical structures and characters are introduced.

After completing this course, students will be able to pronounce and spell simple characters of TCM in Chinese *Pinyin*, learn some medical words and use them in simple sentence forms.

TCM Diagnosis I & II

- FCT 210|310 6 Units/90 Hours

This is a two-course series covering the four diagnostic methods in Chinese medicine as well as in-depth learning of pattern disharmony.

The first of two courses begins with thorough instruction in the four diagnostic methods: inspection, inquiring, auscultation/olfaction and palpation. The four diagnostic methods are the backbone of TCM diagnosis and are used to collect and organize the patient's signs and symptoms. Emphasis is placed on tongue and pulse evaluation.

Prerequisites: Diagnosis I: Completion of FCT 100, Foundations I; concurrent enrollment in FCT 200, Foundations II

The second course continues with in-depth instruction on methods of Pattern Identification, one of the most important characteristics of TCM. The course goes over the full differential diagnosis of syndromes from the various theoretical frameworks. These include: Zang Fu, Eight Principles, Six Stages, Four Levels, and the Three Burners. Case studies and role play are used to assist students in acquiring accuracy and confidence in taking a patient history and performing a physical exam using TCM assessment methods.

Upon completion of these courses, students will know how to use the four diagnostic methods to gather patient data and perform a complete patient history intake and exam. Additionally, they will be able to recognize and identify basic TCM patterns of disharmony by analyzing the information acquired from the four diagnostic methods.

Prerequisites: Completion of FCT 100/200, Foundations I & II; FCT 210, Diagnosis I

TCM Case Studies I & II

- FCT 400/FCT X20 4 Units/60 Hours

This two-course series is designed to first transition students from pure acquisition of academic knowledge into implementation into clinical practice. Then students learn to further sharpen their differential diagnostic skills in analyzing cases. The students are expected to access traditional and contemporary literature in acupuncture and Oriental medicine, as well as biomedical research, including research in epidemiology. In each course, students will be required to write high quality case studies and give a presentation to their classmates regarding findings and recommendations.

TCM Case Studies I is designed to assist with the transition from academic knowledge to its application in clinical practice. The course reinforces the basics of case analysis by teaching students how to systematically analyze case reports using fundamental TCM Theory and Diagnosis. Students learn how to analyze a chief complaint by looking at accompanying signs,

symptoms and results from the four examinations. Students gain increased skill in differentiating among similar patterns of disease. The focus of the class is on developing diagnostic ability, from which treatment plans are established. The case reports are selected from the clinic or established TCM texts for presentation and class discussion. Students will also learn to properly format written and oral case presentations.

Prerequisites: Case Studies I: FCT 100/200, TCM Foundations I & II; FCT 210/FCT 310, TCM Diagnosis I & II

TCM Case Studies II is a continuation of TCM Case Studies I. In this class, students gain advanced skill in TCM pattern discrimination using TCM theory, TCM diagnosis and detailed treatment planning, including acupuncture and herbal treatment prescriptions. Western diagnostic tests will also be included in case analysis. The emphasis of the class is on critical thinking and diagnostic ability of complex cases, ensuring that students reach a correct diagnosis and the supporting logic that supports the diagnosis. This includes the ability to distinguish among similar TCM patterns of disharmony. This is a comprehensive class, which utilizes the knowledge and skills attained throughout the 4-year curriculum. The course prepares students for advanced clinical practice. Like Case Studies I, the class utilizes case studies from the clinic and from standard TCM textbooks. Students will be required to present a case to the class for discussion and evaluation.

Upon completion of these courses, students will have advanced skills in case analysis and be able to reach and justify an accurate diagnosis of a patient based upon accepted TCM theories and Western diagnostic tests. Additionally, they will demonstrate accuracy in developing treatment plans and proficiency in presenting written and oral case reports.

Prerequisites: Case Studies II: FCT 800/900, Internal Medicine I & II; FAP 800/900, Acupuncture Therapeutics I & II; FHB 500/600/700, Formulas I, II, & III; FWM 800/900, Western Case Management I & II;

Corequisite: FCL 800, Clinical Internship

Classics: Nei Jing

- FCT 500 2 Units/30 Hours

This is the first course in a series of three that reviews important classical literature on Chinese medicine. In this course, the essential concepts of the Nei Jing (The Canon of Internal Medicine) will be presented from translations of the original articles. Nei Jing is attributed to the legendary Huang Di (The Yellow Emperor) and serves as the source for TCM diagnosis and acupuncture theory, covering Yin/Yang, Five Elements, Zang organs and their manifestations, and channels and their networks. The theories of pathogens and pathomechanisms, clinical diseases and symptoms, diagnostic methods, therapeutic principles and methods, and the theory of health preservation will be reviewed. The teacher and student work together to understand the true meaning of this ancient Chinese medical text.

Prerequisites: FCT 100/200, TCM Foundations I & II; FCT 210/FCT 310, TCM Diagnosis I & II

TCM Traumatology and Orthopedics

- FCM 600 3 Units/45 Hours

This course covers the etiology, diagnosis and treatment of common diseases of the musculoskeletal system in accordance with both TCM and Western medicine. Emphasis is placed on the differentiation of bone and soft tissue injuries related to common sports and industrial injuries. You will learn to treat patients with acupuncture and herbs, perform essential orthopedic tests to evaluate the outcome of treatments, recognize red flags in orthopedics, and make

appropriate referrals. You will learn how to competently instruct patients in the proper rehabilitation and the prevention of sports and industrial injuries.

Prerequisites: FAP 100/200/300, Acupuncture I, II, & III

Classics: Shang Han Lun

- FCT 700 2 Units/30 Hours

This is the second course in a series of three courses that reviews important classical literature on Chinese medicine. The medical classic Shang Han Lun was a text compiled in the late Han dynasty approximately 2000 years ago, which discussed conditions induced by cold. Shang Han Lun utilizes the six-channel pattern identification of diseases and relies almost exclusively on herbal formulas for treatments.

Prerequisites: Completion of one of the following: FHB 500/600/700, TCM Formulas I, II & III

TCM Internal Medicine I & II

- FCM 800/FCM 900 6 Units/90 Hours

This two-trimester course sequence reviews the history of TCM internal medicine, the mechanisms of disease, the principles of making a diagnosis, and the common treatment methods associated with making a diagnosis. Etiology, pathogenesis, and signs and symptoms of common disease patterns of internal medicine will be reviewed. Students will learn to diagnose common internal medicine diseases from TCM and Western medicine perspectives, identify their patterns, and devise appropriate treatment plans using acupuncture and herbal formulations with appropriate modifications.

Prerequisites: FHB 200/300/400, TCM Herbology I, II & III; FAP 100/200/300, Acupuncture I, II & III; FCT 400, Case Studies I

TCM Gynecology

- FCM 810 3 Units/45 Hours

This course presents both Western and TCM knowledge of gynecology. Differential diagnosis of the most common gynecological concerns and disharmonies are covered in detail, including common menstrual disharmonies, such as irregularity, leukorrhea, PID, PMS, infertility, pregnancy, childbirth, and postpartum. Emphasis is placed on the common complaints of women and the TCM herbal and acupuncture treatments for these disharmonies. Contraindications during pregnancy are also covered. The course includes training in the use of Western diagnostic reports in relation to hormonal cycles.

Prerequisites: Completion of two of the following: FHB 500/600/700, TCM Formulas I, II & III

TCM External Medicine

- FCM 910 2 Units/30 Hours

This course teaches students the treatment of common diseases in external medicine according to both TCM and Western disease categorizations. In studying each disease, students learn its etiology and pathogenesis, syndrome differentiation (patterns), treatment principles and corresponding treatment therapies, using both herbs and acupuncture.

Prerequisites: Completion of two of the following: FHB 500/600/700, TCM Formulas I, II & III

TCM Pediatrics

- FCM 920 3 Units/45 Hours

This course emphasizes common complaints of children, and the TCM theories, herbal, acupuncture and pediatric Tuina treatments that apply to the special circumstances of children. Child development, specific patent formulas for children, herbs for breastfeeding moms to pass onto the baby, respiratory ailments, enuresis, special children's disharmonies such as ADHD (Attention Deficit Hyperactivity Disorder), and TCM health recommendations for children, will be reviewed in the course.

Prerequisites: Completion of two of the following: FHB 500/600/700, TCM Formulas I, II & III

Classics: Jin Gui

- FCT X10 2 Units/30 Hours

This is the third course in the series which reviews important classical literature on Chinese medicine. Jin Gui Yao Lue (The Essential Prescriptions of the Golden Chamber) was written by Zhang Zhong Jing approximately 1700 years ago. Students will learn the main theoretical concepts and herbal prescriptions of the major diseases in the book as they apply to clinical use.

Prerequisites: Completion of one of the following: FHB 500/600/700, TCM Formulas I, II & III

Electives

Advanced Nei Jing

- FEL 602 2 Units/30 Hours

This course covers the original text and commentary for Huang Di Nei Jing, providing clarification of the theories of Yin and Yang, the Five Elements, and their application to diagnosis. Acupuncture treatment protocols according to Huang Di Nei Jing theory will be discussed, as well as the exploration of the Five Yun and Six Qi.

Prerequisites: FCT 500, Classics: Nei Jing

Department of Traditional Chinese Medicine Acupuncture

Julie Zhu, L.Ac.

Department Chair

The Traditional Chinese Medicine Acupuncture curriculum is divided into didactic and lab sections, emphasizing both the theoretical and practical aspects of acupuncture. TCM Acupuncture courses provide you with a thorough knowledge of traditional and modern meridian theory, including point location, functions, indications and treatment planning. The curriculum includes thorough training in moxibustion, cupping, Guasha, and electrical stimulation. Clinical labs concentrate on accuracy, needling methods, technique and precautions.

Acupuncture I, II, & III

- FAP 100|200|300 9 Units/135 Hours

This three-term course sequence presents basic meridian theory as well as the acupuncture points of the 12 primary meridians as well as the Du (Governing) and Ren (Conception) Meridians.

Each course is also accompanied with a practicum portion where accurate point location and needling techniques are presented and practiced. Contraindications and precautions of specific points will also be emphasized throughout the course.

Each meridian and acupuncture point are covered in detail including functions, indications, location, distribution and clinical applications. This includes special point categories such as: the five shu-transporting points, five element points, luo-connecting points, yuan-source points, and xi-cleft points.

The first of three courses give a general overview on the distribution and functions of the network of meridians and collaterals. Students learn about body landmarks, point locating methods, and basic needling methods. This first course covers meridian systems pertaining to the Conception and Governing Vessels, Lung and Large Intestine.

Prerequisites: Acupuncture I: Completion or concurrent enrollment in FWM 100, Surface Anatomy and FWM 103, Anatomy and Physiology I

This second course in the series continues to study the meridian systems pertaining to the Stomach, Spleen, Heart, Small Intestine, and beginning the Urinary Bladder.

Prerequisites: Acupuncture II: FAP 100, Acupuncture I

The third and final course in this series continue with the remaining primary channels; remaining Urinary Bladder, Kidney, Triple Burner (San Jiao), Pericardium, Gallbladder and Liver.

By the end of this course series, students will know the physical landmarks and gross unit proportions used in point location as well as how to position the patient for locating acupuncture points. They will be able to locate all 365 acupuncture points and know their functions and clinical indication and cautions or contraindications.

Prerequisites: Acupuncture III: FAP 100, Acupuncture I

Acupuncture Techniques I & II

- FAP 310/FAP 410 3 Units/45 Hours

This two-course sequence covers the full range of acupuncture treatment from the basic preparation, clean field, sterilization and safety, through complex needling techniques.

The first course is designed to introduce the three basic techniques of needling. Emphasis is placed on safety and patient comfort. Students learn how to handle acupuncture needles (with and without guide tubes), understand the use of different types and sizes of needles and their clinical applications. Students also learn how to focus their intention while performing basic techniques of reinforcing and reducing. This course includes point preparation, angle and depth of insertion, and needle removal. Students develop their clinical and acupuncture technique skills through the study of surface anatomy, point location and needling techniques. The courses cover clean needle technique, and the handling of acupuncture related clinical emergencies.

Prerequisites: Acupuncture Techniques I: FAP 100, Acupuncture I

The second course further develops the student's range of acupuncture treatment skills and helps students develop confidence as practitioners. Students learn how to administer treatment by practicing on each other in preparation for treating patients in the clinic. Specialized acupuncture modalities such as electro-acupuncture, through-and-through needling, seven-star needles, magnets, and dermal tacks are taught. Advanced needling techniques of reinforcing and reducing and other classical techniques are reviewed and practiced. The class includes learning cupping, moxibustion, and gua sha. Case management and how to manage potential risks in the practice of acupuncture will also be discussed.

After completing this course, students will be able to insert needles painlessly, bring qi to the points, use different types of needles to treat corresponding illnesses, be proficient in ancillary techniques such as cupping, moxibustion, electro-acupuncture and gua sha, and understand the mechanism of acupuncture treatment.

Prerequisites: Acupuncture Techniques II: FAP 100|200|300, Acupuncture I - III

Meridian Theory

- FAP 500 2 Units/30 Hours

This class will review the external and internal pathways of the 12 primary and the eight extraordinary meridians. The course will also discuss the inter-relationships among the various meridians within the meridian system. Normal function and pathological signs and symptoms of each meridian will be reviewed. The class will cover the twelve primary meridians, twelve divergent meridians, fifteen Lou- connecting meridians, the twelve muscle meridians, and six cutaneous regions and eight extraordinary meridians.

Additionally, this course will review the classical points' categories and their Indications which is the key to understanding the clinical application of acupuncture points. The categories that will be covered are the Five Shu Transporting, Lower He-Sea, Yuan-Source, Luo-Connecting, Xi-Cleft, Influential, Confluents, Crossing, Front-Mu and Back-Shu Points.

Prerequisites: FAP 100|200|300, Acupuncture I - III

Extra Points and Microsystems

- FAP 600 3 Units/45 Hours

This course presents the extra meridians and their associated acupuncture points. Ear and scalp acupuncture and over 40 extra points are covered in detail along with their clinical applications. The lab focuses on accurate point location and special ear and scalp needle techniques.

Prerequisites: FAP 100|200|300, Acupuncture I - III; FAP 310, Acupuncture Techniques I

TCM Tuina Massage

- FAP 610 3 Units/45 Hours

Massage and manipulation, or Tuina, comprise one of the traditional five branches of TCM. Although the TCM program emphasizes the clinical methods of acupuncture and herbology, this course introduces students to various traditional Chinese therapeutic massage systems, including Tuina. Emphasis is on using specific clinical evaluations to formulate therapeutic massage treatments, which may become a part of clinical practice.

Prerequisites: FWM 103, Human Anatomy

Acupuncture Therapeutics I & II

- FAP 800/FAP 900 5 Units/75 Hours

This course reviews treatment principles and methods according to channel theory, with a focus on acupuncture point selection for internal medicine conditions. The focus of this course is the in-depth study of the texts: Chinese Acupuncture and Moxibustion (CAM), and Acupuncture: A Comprehensive Text (Shanghai). The course complements the TCM Internal Medicine courses and provides students with a comprehensive view of how to apply different TCM theories for diagnosis, and how to select the most appropriate treatment methods including cupping, bleeding, gua sha, and dermal tacks.

Prerequisites: FAP 100|200|300, Acupuncture I - III; FAP 310|FAP 410, Acupuncture Techniques I & II; and FCM 800, Internal Medicine I or FCM 900, Internal Medicine II

CNT: Clean Needle Technique

- CNT 0.5 Units/7 Hours

This course is a review of material previously introduced in the Beginning Clinical Theater and Meridians and Acupuncture I courses. Students will learn the appropriate procedures of sterilization and sanitation as they apply to the practice of acupuncture. Proper clean needle technique and disposal of needles are covered. Completion of this course is required for entry into Clinical Intern Rounds. Students are required to take a written and practical examination; passing both examinations satisfies the requirements of the Council of Colleges of Acupuncture and Oriental Medicine (CCAOM) and enables the student to receive their CNT certificate, which is required for the licensing examinations.

Prerequisites: FAP 100, Acupuncture I; FCL 100 Beginning Theatre

Electives

TCM Tuina Massage II

- FEL 710 2 Units/30 Hours

Tuina Massage II may be taken in the Department of TCM Acupuncture, while also completing the requirements for the Tuina Massage specialization program. For detailed information about the Tuina massage courses and specialization please refer to the Specialty Options section of the catalog.

Prerequisites: FAP 610, TCM Tuina Massage I

Kiiko Techniques

- FEL 560 2 Units/30 Hours

Kiiko style acupuncture utilizes a systematic, easy to learn, instantaneous feedback, palpatory method, revealing a comprehensive diagnosis and a patient-unique treatment plan. By looking deeply into structural and/or constitutional imbalances underlying a patient's symptomatic complaints, a Kiiko practitioner is able to successfully solve difficult cases and treat the most complex medical issues. In this course, you will learn the basic skills needed for abdominal, neck and back diagnosis, and their application on constitutional pathologies, regardless of the patient's major complaint. The root cause of a patient's inability to heal will be discussed and treatment strategies demonstrated.

Prerequisites: FAP 100|200|300, Acupuncture I - III; FAP 310/FAP 410, Acupuncture Techniques I & II

Advanced Needling Techniques

- FEL 621 0.5 Unit/7.5 Hours

An eight-hour, one-day seminar on advanced forms of needling techniques, with a one-hour lecture/one-hour lab rotation. This course covers the butterfly, turtle, and Dr. Lu's special techniques.

Prerequisites: FAP 100|200|300, Acupuncture I - III; FAP 310/FAP 410, Acupuncture Techniques I & II

Department of Traditional Chinese Medicine Herbology

Jeffrey Pang, L.Ac.

Department Chair

Chinese herbology is the world's most sophisticated medical herbal system. The Traditional Chinese Medicine Herbology curriculum includes extensive training in the identification, categorization and clinical use of the traditional Chinese herbal pharmacopoeia. Six trimesters of in-depth herbology study provide you with a solid working knowledge of more than 500 individual herbs and more than 350 classical and modern formulas. Advanced courses instruct you on how to modify and enhance classical formulas in response to specific variants in a patient's diagnosed condition. All herb courses are taught using the Pinyin names of herbs.

Introduction to TCM Herbology

- FHB 101 1 Unit/15 Hours

This introductory course provides an overview of Chinese herbal medicine and is the foundation of the program's herbal medicine courses. The course investigates the history behind the development of the tradition of Chinese herbal medicine, with specific references to classical texts. Students learn the basic characteristics of herbs (taste, temperature, trajectory in the body, and toxicity) and the 17 categories of Chinese herbs and their related characteristics. Students are introduced to herbal preparations commonly used in Chinese medicine and the situations that indicate their use.

TCM Herbology I, II & III

- FHB 200|300|400 9 Units/135 Hours

This three-trimester course sequence of 3 units each provides students with knowledge of TCM herbology, including general theory, treatment methods, categorization, taste, temperature, entering meridians, indications, and the laws of herbal combining. Students will learn over 350 single herbs, including clinical use, contraindications, and methods of preparation and delivery.

Current research in the field of TCM herbology will augment lectures. This knowledge will serve as a foundation for the TCM Formula courses.

Prerequisites: FHB 200/300/400: FHB 101, Introduction to Chinese Herbs

TCM Formulas I, II & III

- FHB 500|600|700 9 Units/ 135 Hours

The art of Chinese herbology lies in the practitioner's ability to combine herbs into a balanced formula tailored to meet each patient's singular pattern of signs and symptoms. During this three-terms course sequence in TCM formulas, students will implement the previous knowledge they have acquired in the single herbs courses as well as TCM differential diagnosis, into understanding how a formula is designed. Formulas are reviewed in the context of the herbs composing it, their therapeutic function and indications. In addition, the applications of herbal formula prescriptions to specific illnesses will be discussed, as well as how to modify formulas based on the patient specific sign and symptoms.

In the first course, students are introduced to the principles of creating herb formulas through in-depth study of the elegance and economy of classical Chinese herbal prescriptions. The formulas are taught in functionally related categories. Students will study 80 herbal formulas including formula composition, functions, clinical indications, modifications and contraindications.

Formulas categories taught are formulas that Release the Exterior, formulas Clear Heat, formulas Drain Downward, formulas that Harmonize, and formulas that Tonify.

Prerequisites: FHB 500: FHB 200|300|400, TCM Herbology I - III;

In the second course of a three-part series, students will study an additional 70 traditional formulas, including formula composition, functions, clinical indications, modifications and contraindications. Formula categories covered in this course are formulas that Expel Dampness, formulas that Warm Interior, formulas that Regulate Qi, formulas that Regulate Blood and formulas Stop Bleeding.

Prerequisites: FHB 600: FHB 200|300|400, TCM Herbology I - III;

In the third and final course, students will study additional 70 traditional formulas, including their composition of herbs, functions, clinical indications and the theories behind them. Formula categories covered in this course are: formulas that Treat Dryness, formulas that Stabilize and Bind, formulas that Calm the Spirit, formulas that Expel Wind, formulas that Open the Orifices, formulas that Treat Phlegm, formulas that Reduce Food Stagnation, formulas that Expel Parasites and formulas for External Applications.

Upon completion of this course, students will understand the principles of making herbal formulas. Students will also be able to identify herbal formulas, understand their therapeutic indication and be able to prescribe and modify these formulas according to TCM principles.

Prerequisites: FHB 200|300|400, TCM Herbology I - III;

TCM Dietetics

- FHB 510 2 Units/30 Hours

Since the beginning of TCM, great physicians understood the profound influence of diet on human health. This course introduces theories of TCM dietetics and surveys the TCM functions and properties of common foods, the dietary programs appropriate for the treatment of prevalent TCM disharmonies, and their effect on health and longevity. Effective food combinations and recipes are provided for the treatment of common diseases, and to enhance general well-being.

Prerequisites: FHB 200|300|400, TCM Herbology I - III;

TCM Patent Medicines

- FHB 800 2 Units/30 Hours

This is an invaluable course for students and every clinician using herbal pills and prepared solutions. The course covers major TCM syndromes and the patent herbs used to treat them. The lectures include the differential analysis of patent herbs used for the same diagnosis, recommended dosages for both adults and children, and contraindications. Much of the information presented is derived from various Chinese texts and clinical expertise and will not be found in any textbook. Upon completion of this course, students will understand the functions of over 150 prepared Chinese patent herbs and solutions and how to properly prescribe them.

Prerequisites: Completion of one of the following FHB 500|600|700, TCM Formulas I - III

Herbal-Pharmaceutical Drugs Interactions

- FHB 900 0.5 Units/7.5Hours

This course addresses the increasing concern among the medical community, including TCM practitioners who prescribe medicinal herbs, regarding toxic biomedical interactions between pharmaceutical drugs and natural products, such as Chinese medicinal herbs. The course

reviews the biomedical nature of herbs and the potential interaction between them and commonly used pharmaceutical drugs and nutritional supplements. The course includes the critical analysis of literature and research reports of herb/drug interactions.

Prerequisites: Completion of one of the following FHB 500|600|700, TCM Formulas I - III and concurrent with FWM 810, Pharmacology

Electives

Herb Walk

- FEL 483 0.5 Unit/7.5 Hours

Join highly experienced faculty and herbalists on an herb walk at the UC Berkeley Botanical Garden or the Henry Cowell Fall Creek State Park in Felton to learn how to identify important medicinal plants used in Chinese medicine. You will walk one to two miles on mostly flat terrain and dirt trails seeing over a dozen medicinal and/or edible species such as: huckleberry, Aralia (a relative of ginseng), nettles, lemon balm, and Asarum, a local variety of Xixin.

Prerequisites: At least one of the following FHB 200|300|400, TCM Herbology I – III

Department of Traditional Chinese Medicine Energetics

TCM energetics are exercises that heal through rhythmic breathing and body movements. Energetics includes internal healing arts, such as the Five-Animal Exercise developed by Hua Tuo, meditation, Medical Qigong, and various styles of Taijiquan, an internal martial art practiced worldwide.

Qi Gong I

- FEB 100 1 Unit/15 Hours

Qigong, or Vital Energy Skills, are the ancient Chinese methods of cultivating and using the vital energy in the body, representing the Chinese philosophy of the exercise-health connection.

Qigong is now successfully used in China for treating chronic diseases. In this practical introductory course, students learn to experience various Qigong exercises in an atmosphere of personal experimentation, with emphasis on the fundamentals of “reading” and “feeling” the Qi.

This course will enable students to become familiar with the theory, form and potential health benefits of Chinese therapeutic energetics.

Prerequisites: None

Qi Gong II

- FEB 300 1 Units/15 Hours

In this course, students continue to explore the sensation of Qi flowing through their bodies, utilizing exercises to cultivate their Qi and increase their awareness of the dynamic state of their own body, in response to changes in the environment. Completion of this course serves as one of the prerequisites for the Qigong Instructor Training Specialization.

Prerequisites: None

Tai Ji Quan I

- FEB 500 1 Unit/15 Hours

Taijiquan is recognized as one of the fundamentals of good health. This course is a natural extension of the Qigong courses and introduces students to more advanced exercises and sets for health enhancement. This course is aimed at teaching exercises the student can master, and that are safe for a wide spectrum of conditions.

Prerequisites: None

Tai Ji Quan II

- FEB 700 1 Unit/15 Hours

This course is a continuation of the Taijiquan I course. In this energetic medicine course, the students learn through demonstration and practice of advanced Taijiquan forms to become more aware of energy pathways and flow. The emphasis of this course is on teaching the student exercises they can master and are safe for a wide spectrum of conditions.

Prerequisites: None

Department of Career Development

The Career Development courses prepare students to practice TCM professionally, ethically, and successfully. The courses include exposure to professional career options, clinic management, marketing, public relations, professionalism and ethics.

Professional Ethics

- FCD 300 1 Unit/15 Hours

This course covers the universal medical ethics required of a primary health care practitioner, emphasizing professional responsibility and the study of laws which regulate TCM practices in California and the U.S. Upon completion of this course, students will be thoroughly aware of the professional, ethical, and legal responsibilities of treating patients.

Prerequisites: Prior completion of or concurrent enrollment in FCL 400 Clinical Internship Rounds

Career Development I, II & III

- FCD 500 | X10 | E10 4 Units/60 Hours

The primary focus of our program is ensuring you are honing the knowledge of the theory and practice of Chinese medicine and become a confident and competent practitioner. In the western world environment, it is also required from practitioner to be familiar with post-graduation options and learn to develop entrepreneurial skills. This three-course sequence is designed to introduce students how to apply their trade into the business world.

The first course will inform students to the various options of employment in the field of acupuncture and oriental medicine. Students will also learn the steps necessary for creating a successful practice. Topics covered will include niche, brand, positioning, competitor analysis, market share, and marketing tactics.

Prerequisites: Career Development I: FCD 300 Professional Ethics

The second course provides students with the information you need to apply your acupuncture

training skills in a business-like manner in a variety of clinical settings. The emphasis is on a practical application of the business and professional skills and information necessary to provide acupuncture health care to an ever-growing population of patients.

Prerequisites: Career Development II: FCD 500 Career Development I

In the third course students will be taught how to prepare a strong business plan. They will also learn the business and financial obligation aspects of running an acupuncture practice.

Upon completion of this course sequence students will have a clearer understanding of what they envision their acupuncture practice will look like: who they want to serve, how they will help them, how they will attract and communicate with clients, and what marketing tactics they will want to use. Students will also understand the synergistic nature of the professional, ethical, financial and marketing skills necessary to run a primary health care practice in the USA in the 21st century. Students will write their preliminary marketing plan and present their plan in class.

Prerequisites: Career Development III: FCD X10 Career Development II

Community Outreach

- FCD 900 0.5 Unit/7.5 Hours

Acupuncturists, as part of the health care delivery system, should engage in providing information about Chinese medicine to members of their community. Students will either participate in periodic health fairs organized by the university or create their own opportunity by partnering with local agencies, organizations, and schools to raise public awareness on traditional Chinese medicine and providing presentations on health topics of their choosing, lead classes in Qigong or Taiji. Participation in health fair provided by university provide interns with the opportunity to promote their practice by handing out business cards to prospective patients.

By completing this course students will gain firsthand experience in self marketing and trade promotion to the general public which will be very valuable for them upon graduation.

Prerequisites: Completion of 4th term courses.

Department of Western Medicine

Alan Wong, M.D.

Department Chair

Modern practitioners of TCM must have a fundamental understanding of Western medicine to effectively communicate with medical doctors and other healthcare professionals. Western Medicine studies are an integral part of the curriculum providing knowledge of Western diagnosis and pharmaceuticals, necessary to make appropriate referrals and to provide the best care possible for your patients. Introduced to the basic methods of Western diagnosis, you will learn the fundamental vocabulary used in diagnostic analysis and the clinical methods used in Western medical approaches to disease. With this knowledge, you can become an active part of today's dynamic healthcare network.

Our Western medicine department is enhanced by our educational and clinical relationship with Stanford University and the doctoral residency program we have with Stanford and O'Connor hospitals. These professional relationships not only benefit you as a student but also contribute to a better understanding and acceptance of TCM in the West.

General Biology

- FWM 101 3 Units/45 Hours

This course covers the basics of the chemistry of life, molecular and cellular biology, structure and function of organisms, reproduction and development, genetics, evolution and ecology (the relations of organisms to each other and to their environment). This course, with emphasis on human biology, provides a solid basis for further biomedical studies with knowledge of vocabulary, concepts, and skills.

Prerequisites: None

Surface Anatomy

- FWM 100 2 Units/30 Hours

This course provides an introduction to the study of human structure by presenting an integrated approach to the normal human body. Western anatomy and acupuncture energetic anatomy are bridged in this course that emphasizes musculoskeletal anatomy through lecture, palpation and movement. Major landmarks are described and are related to interior anatomical structures, emphasizing key acupuncture point location with physical assessment. Human skeletons, anatomical charts, models and full color digital images will be used for demonstration.

After completing this course, students will understand human structure at cell, tissue, organ, system and organism levels. Throughout knowledge of human structure will be a foundation for further study of physiology, pathophysiology, western medicine and acupuncture.

Prerequisites: None

Anatomy & Physiology I & II

- FWM 103/FWM 203 5 Units/75 Hours

This two-course series covers the human body structure (anatomy) and function (physiology) and their interrelationships. Human skeletons, anatomical charts, models and full color digital images will be used for demonstration. The course also touches upon some common human disease processes.

The first of this two-term sequence includes the study of structure and function of cells, tissues, as they apply to the integumentary, skeletal, muscular, cardiovascular and lymphatic/immune systems.

Prerequisites: Anatomy and Physiology I: Concurrent enrollment in Surface Anatomy.

The second course in the sequence covers the study of the nerve system, endocrine, respiratory, digestive, urinary, and reproductive systems.

After completing this course, students will understand human structure at cell, tissue, organ, system and organism levels. Knowledge of human structure & function is the foundation for further pathology, pathophysiology as well as acupuncture point location & function.

Prerequisites: Anatomy and Physiology II: Completion or concurrent enrollment in Anatomy and Physiology I

Patient Relations

- FWM 200 1 Unit/15 Hours

The dramatic technological innovations of the past few decades have substantially altered the

manner in which diseases are diagnosed and managed. In this era of modern-technologically based medicine, one of the primary principles of compassionate and patient centered care is often overshadowed by the results of imaging studies and laboratory tests. Quality medical care requires a combination of comprehensive scientific knowledge along with sophisticated communication skills

This course aims to train students in the art of 'treating the patient and not the disease' by using effective communication strategies, namely proper interpersonal communication skills, listening skills and interviewing skills. Students will also learn how to incorporate the broader psychological and social context of the patient into an understanding of the patient's overall health. In addition, students will learn through example case studies how to properly and professionally handle various clinical situations and difficult patients.

Upon completion of this course the student will be able to demonstrate effective interpersonal and professional communication skills with patients and other health care providers.

This course provides a structure for students to develop case reports and case presentations, as well as an opportunity to discuss clinical cases in groups. This course introduces clinical case review and management in a clinical setting, including history taking, data collection from subjective findings and objective findings, case assessment, treatment plan and treatment outcomes, analyzing data to modify patient care and continuity of care, follow-up care and clinical outcomes, prognosis and future medical care, referral and risk management, emergency procedures, as well as collaboration with other healthcare providers. Case analysis and presentation skills are emphasized.

Prerequisites: None

Chemistry

- FWM 202 3 Units/45 Hours

This introductory course explores various topics of inorganic chemistry including the periodic table of elements, atomic structure of matter, nuclear chemistry, molecular bonding, atomic quantum numbers and orbitals, equilibrium states, acid/base chemistry and thermodynamics. The basic organic chemistry of alkanes and unsaturated hydrocarbons will also be examined throughout the course.

Prerequisites: None

Pathophysiology I & II

- FWM 300/FWM 400 7 Units/105 Hours

Pathophysiology is the study of the mechanism of disease in humans from a western medical perspective. In this two-trimester course sequence, students receive a brief overview of healthy physiology of the body's major systems, focusing on disease processes and the body's attempt to adapt to them. These courses link western anatomy, physiology and biochemistry to clinical practice. The first course will cover infectious, psychiatric, hematological, cardiac and pulmonary diseases. In the second course, students learn about selected diseases in the departments of oncology, neurology, rheumatology, endocrinology, gastroenterology, musculoskeletal and nephrology.

Prerequisites: FWM 100, Surface Anatomy; FWM 103/FWM 203, Anatomy & Physiology I & II

Physics

- FWM 301 2 Units/30 Hours

Designed for health science students, this is an introductory course on physics with minimum calculations. It will conceptually explore various topics of physics, including motions and forces of a body, properties of matter, heat, sound, light, and electricity and magnetism. Basic atomic and nuclear physics, as well as the theory of relativity will be introduced.

Prerequisites: None

Lab Analysis & Imaging

- FWM 500 2 Unit/30 Hours

This course provides an introduction to the application, interpretation and limitations of biomedical laboratory diagnostic studies and medical imaging. The class reviews routine labs and radiographic techniques that apply to the major body systems and correlate with clinical diseases. The class will discuss lab methodology, normal values, variation in laboratory results as well as the limitations and power of lab findings. Laboratory findings are reviewed in the context of practice as a licensed acupuncturist.

Upon completion of this course, students should be able to demonstrate a basic understanding of laboratory testing and medical imaging application.

Prerequisites: FWM 300-400, Pathophysiology I & II

Western Physical Examination /Lab

- FWM 510 3 Units/45 Hours

In this course, students are instructed in Western methods of information gathering and evaluation. They will study and perform adult history and physical exams, including the use of blood pressure cuffs and stethoscopes. Laboratory tests and x-rays are presented and discussed, and students will gain a basic understanding of their use and results. The course also covers how and when to make referrals to other providers, as well as how to recognize and respond in emergency situations. Students will be required to give an oral and written presentation of a patient's history and physical exam.

Prerequisites: FWM 300/FWM 400 Pathophysiology I & II

Psychology and Counseling

- FWM 600 3 Units/45 Hours

This course is designed to assist students in acquiring the knowledge and skills necessary to evaluate and treat clients with mental disorders. The class introduces the psychotherapeutic diagnostic system (DSM IV-TR) and the vocabulary to empower practitioners to more effectively interact with western clinicians. The course covers suicide, psychosis, chemical dependency, depression, anxiety and the psychopharmacology used in western medicine. Emphasis is placed on developing solid boundaries, interviewing and communication skills, and setting up a safe and trusting environment. The course presents an introduction to western counseling skills and also addresses eastern influences on counseling. Various modalities of psychotherapy are presented.

Co-requisites: Concurrent enrollment in FCL 400, Clinical Internship Rounds

Diet, Nutrition and Vitamins

- FWM 610 2 Units/30 Hours

This course is designed to provide a basic understanding of the fundamentals of human nutrition and how excess or deficiency of essential nutrients affects our health throughout life. Students will learn digestion and assimilation, including useful assessment tools and lab tests, and how to

counsel patients on developing a healthy diet. There will also be a discussion of vitamins and minerals, recommended intake, the role of diet in the various stages of the life cycle, the way chronic disease is influenced by excessive or deficient states, and the bio- variability of needs among different patients. The course will cover special issues like food allergies, detoxification, and weight loss as well as possible nutritional approaches to illness commonly encountered in clinical practice.

Prerequisites: FWM 202, Chemistry

Research & Medical Literature Review

- FWM 700 3 Units/45 Hours

The amount of information available these days on-line can be overwhelming and sometimes contradictory or false. Acupuncturists must be versed in the up-to-date medical literature to inform their patients on the one hand, and to effectively communicate with other health care providers on the other.

This course will first introduce students to the fundamental principles of research and evidence-based medicine, with emphasis on clinical trials. Then students will learn the techniques for assessing medical or research literature. Students will also learn how to use library and online research. Emphasis will be placed on critically analyze and evaluate medical research literature. Students will review a variety of published research studies in biomedical medicine as well as in the acupuncture and oriental medicine field and will learn to compare their strengths and limitations. Students will conduct literature searches and develop bibliographies related to research topics. Upon completion of this course students will be able to read and critique medical literature. They will be able to keep up to date with new information appearing and become versed in methods to finding the latest medical information.

Prerequisites: Completion of FWM 103/FWM 203, Anatomy & Physiology I & II

Co-requisites: Concurrent enrollment in FWM 300, Pathophysiology I

Pharmacology

- FWM 810 3 Units/45 Hours

This course is designed to familiarize students with the use of Western pharmaceutical drugs. The lectures will focus on the categorizations of the Western pharmacopoeia, and the broad principles and mechanisms of action of drugs commonly used in a Western paradigm, including biochemistry. A large percentage of patients seeking TCM care will already be taking prescription medications, and this course offers the student an opportunity to understand how these drugs are used in the treatment of disease.

Prerequisites: FWM 300/FWM 400 Pathophysiology I & II

Western Case Management I, II, & III

- FWM 800|900|X10 9 Units/135 Hours

This three-term course sequence is intended to help students bring together information from all prior Western medicine classes. Instruction includes appropriate assessments and interventions including laboratory testing and X-ray. Results of such testing will be discussed and analyzed in class. Courses also include recognizing severe or life-threatening emergencies that warrant referral to a western physician. Proper management of serious conditions that fall under “red flags” and “yellow flags” will be reviewed. Appropriate procedures for making referrals to other interdisciplinary team members such as physicians, physical therapists, nutritionists, chiropractors,

naturopaths and others will be presented.

The procedures for referral include determining whether the referral is to an ER or an outpatient clinic. Students will be required to derive a list of differential diagnosis, including assignment of ICD 9/10 codes. Particular emphasis will be placed on conditions commonly encountered in an acupuncture practice. Emphasis will also be placed on when to refer and how to treat patients in an integrative way with other health care providers. Students will be required to present one case study, with written analysis, as part of the course assignment.

This first course will concentrate on musculoskeletal, neurological, psychiatric and dermatological conditions. The second course will attend to cardiovascular, pulmonary, hematological, gastrointestinal and autoimmune conditions. The third and final course will focus on endocrinal, gynecological, and urological conditions.

Upon completion of these courses, students will have acquired the basic skills to assess cases from a biomedical perspective. Based on history, physical exam and lab findings, students will be able to arrive at a differential diagnosis, treat accordingly and know when to refer.

Prerequisites: Completion of FWM 300/FWM 400, Pathophysiology I & II; FWM 700 Research & Medical Literature Review; and FWM 500, Lab Analysis and Imaging.

Public Health and Epidemiology

- FWM 910 2 Units/30 Hours

This course explores the impact of disease and wellness in regard to populations. Factors in epidemiology such as prevalence of incidence of disease in given populations and sensitivity and specificity of tests in diagnosis will be discussed. Environmental, socio-economic and cultural factors that contribute to health and illness in our society will be explored, as well as the role of evidence-based medicine. Particular emphasis is paid to the ways TCM practitioners interface with and are affected by this system. Topics will include the effects of economics on the current healthcare system, especially to the underprivileged segments of our population and the role of LAc.'s in the public health setting.

Prerequisites: None

CPR/ First Aid

- CFA 0.5 Units/8 Hours

This is a required class that students must take through an outside provider. Completion of this course is required before entry into Intern Rounds. Upon completion of this course, students will have certification in CPR and First Aid and will have the necessary skills to respond to emergencies within the clinic.

Prerequisites: None

Department of TCM Clinic Training

Joanna Zhao, L.Ac.

Department Chair

In-depth clinical training comprises approximately one-third of the Doctor's/Master's curriculum, preparing you to practice the theoretical knowledge you gained in the classroom. Throughout the

program, starting in your first trimester, you will observe a faculty-practitioner diagnosing and treating patients. In your last year, you will diagnose and treat patients with acupuncture, Chinese herbs and other methods of the five branches, under the direct supervision of a faculty member. The Five Branches medical centers in Santa Cruz and San Jose assist over 160 patients a day, allowing you to experience working with highly skilled faculty in a busy clinical environment and to gain hands-on experience working with patients. By the end of clinical training, you will have performed at least 350 patient treatments, a basic requirement for graduation.

Beginning Clinical Theater

- FCL 100 1.5 Units/45 Hours

In Beginning Clinical Theater, newly enrolled students receive a comprehensive introduction and orientation to the clinic's protocols on patient care, safety, herb formula preparation and patient records. This is the first opportunity for students to see how TCM theory and practice are combined. In each class, scheduled patients are interviewed, diagnosed and treated by faculty, as students observe. Following each patient's intake, diagnosis and treatment, a general forum-discussion of the patient's case is conducted. Students begin learning professional conduct within this clinical setting: how to take a patient's medical history, and how to create and maintain patient records. Students observe all aspects of treating patients as a TCM professional, including diagnostic data gathering, syndrome identification, treatment planning, herb prescription formulation, and acupuncture needling techniques. Students also participate in the preparation of herbal formulas.

Prerequisites: None

Clinical Theater

- FCL 200 1.5 Units/45 Hours

This class is a continuation of Beginning Clinical Theater. Conducted in a classroom setting, students will have the opportunity to see how TCM theory and practice are combined. In each class, scheduled patients are interviewed, diagnosed and treated by faculty as students observe. Following each patient's intake, diagnosis and treatment, a general forum-discussion of the patient's case is conducted. Students begin learning professional conduct within this clinical setting: how to take a patient's medical history, and how to create and maintain patient records. Students observe all aspects of treating patients as a TCM professional, including diagnostic data gathering, syndrome identification, treatment planning, herb prescription formulation, and acupuncture needling techniques. Students also participate in the preparation of herbal formulas.

Prerequisites: FCL 100, Beginning Clinical Theater

Clinical Rounds

- FCL 300 3 Units/90 Hours

Clinical Rounds provides students with experience in observing and assisting licensed faculty practitioners in interviewing, diagnosing and treating patients. In Rounds, four to five students follow a practitioner, treating patients in the school's teaching clinic. Students participate in taking and recording a patient's history and exam. Students take the patient's pulses and observe the patient's tongue to understand the instructor's diagnosis, choice of acupuncture treatment and herbal prescription. This close assistantship is invaluable in the study of TCM. Students will learn how to fill an herbal prescription from the clinic's pharmacy and give patients instructions regarding its preparation and use. Students are evaluated on their knowledge and their developing patient skills.

Prerequisites: FCL 200, Clinical Theater

Clinical Internship Rounds

- FCL 400 9.0 Units/270 Hours

In Clinical Internship Rounds, students advance to hands-on treatments in a clinical setting under the direct supervision of a licensed practitioner. A small, intimate group of students attend to the patient's intake and treatment with constant monitoring by a licensed faculty supervisor, who develops a diagnosis and treatment strategy. Students will learn to treat patients with a variety of TCM modalities, and prepare formulas or prescribe patent herbs, under the direct supervision of a licensed faculty supervisor. Clinical Internship Rounds is designed to provide a setting for the students to develop comprehensive clinical skills in preparation for Internship.

Prerequisites: FCL 300, Clinical Rounds; CNT: Clean Needle Technique; CPR/First Aid

Co-requisite: Concurrent enrollment in FRA 440, Assessment I

Clinical Internship

- FCL 800 15 Units/450 Hours

Clinical training at Five Branches University culminates with Clinical Internship. Clinical Internship is designed to simulate an actual clinical environment, in which students diagnose, treat and develop long-range treatment goals and plans for their patients. Interns work independently under a licensed clinical faculty supervisor who is there to answer questions and provide recommendations and support as needed. Clinical Internship imparts the ultimate clinical education for students, in which autonomy with patients is supported by the guidance and wisdom of experienced licensed faculty members. Students will be able, upon licensure, to treat patients unsupervised with confidence and expertise.

Prerequisites: FCL 400, Clinical Internship Rounds; *Co-requisite:* Concurrent enrollment in FRA 770, Assessment II

Clinical Integrative Intern Theater

- FCL 750 1.5 Units/45 Hours

A member of the Western faculty and the TCM faculty supervise interns in this integrative setting. In rotating groups of three, interns will perform the history and relevant examination of a patient from both Western and Eastern perspectives and develop an assessment and plan from each perspective. The diagnosis and the plan will be evaluated and discussed. A second group of students will perform the Eastern treatment and carry out and make appropriate recommendations for the Western treatment with the exclusion of administering medications.

Prerequisites: MCL 400, Clinical Internship Rounds

Clinical Grand Rounds

- FCL 720 1.5 Units/45 Hours

In a group setting, Grand Rounds offers interns an opportunity to present their difficult cases to one or more senior TCM faculty for feedback and assistance. Interns present their patient's history, signs and symptoms, diagnoses and treatments, and discuss and explore the case with the faculty member and other interns in order to develop new approaches for the diagnosis and treatment of the patient.

Corequisite: Current enrollment in FCL 800, Clinical Internship

Electives

The following is a partial list of electives offered in the department of TCM Clinical Training. Electives are offered based on faculty availability and student interest. For a complete listing of electives please refer to the Five Branches website.

The following electives may be taken as part of MTCM clinical training, while also completing the requirements for each specialization program. For detailed information about these specializations please refer to the Specialty Options section of the catalog.

Sports Medicine

Sports Medicine Clinical Rounds

- FCL 300, 1.5 Units/45 Hours

Sports Medicine Clinical Internship

- FCL 800, 1.5 Units/45 Hours

Medical Qigong Practitioner

Medical Qigong Clinical Internship Rounds

- FCL 400, 2.25 Units/72 Hours

TCM Tuina Massage

TCM Tuina Massage Clinical Internship Rounds

- FCL 400, 1.5 Units/45 Hours

TCM Tuina Massage Clinical Internship

- FCL 800, 1.5 Units/45 Hours

Clinical Training in China

Students may choose to complete up to 25% of their clinical training in the affiliated hospitals of our five sister colleges in China, Taiwan and Korea. For further details, please refer to the Study Abroad section of the catalog.

Community Externships

Up to 25% of your clinical training hours may be completed through an externship. The diverse externships we offer allow you to become exposed to different patient populations, treat a wide variety of conditions, and explore new fields of specialization.

Offered in a broad range of settings, our community externships provide you with valuable hands-on clinical experience in a private practice, community clinic, or integrative medical environment. Community externship opportunities include working with senior citizens, veterans of war, mental health patients, those struggling with substance abuse, and treating individuals in a community clinic setting. The following community externships are currently available:

Alta Bates Summit Hospital

A leading community hospital in Oakland and Berkeley, the Alta Bates Summit Hospital offers

students, together with Western medical students, an opportunity to follow medical doctors and licensed acupuncturists in an outpatient and inpatient environment. Five Branches students learn the protocols of a modern community hospital, an invaluable experience after graduation. Students may enroll in one trimester or up to a year of hospital residency.

Janus

Since its founding in 1976, Janus has successfully assisted thousands of individuals in their efforts against chemical dependency. In this clinical setting, you will have the opportunity to become proficient using the National Acupuncture Detoxification (NADA) protocol as an integral part of chemical dependency treatment and recovery. For more information about NADA go to www.acudetox.com.

Mental Health Client Action Network

The Mental Health Client Action Network (MHCAN) is a valuable community service, helping adults with mental illness to live without crisis. The MHCAN drop-in center receives 12,000 visits annually from approximately 600 mental health clients. They lobby for improved health care, and affordable independent housing. MHCAN clients demonstrate that people with serious mental illness can work, go to school, maintain stable housing, and help their peers do the same.

Veteran's Clinic

You will be treating veterans of all ages with a host of complaints, primarily chronic and long-term health issues. While primary care is often provided by the Veterans' Administration, you may also be treating homeless and drug addicted veterans. In this clinical setting, you will have the opportunity to use acupuncture and Traditional Chinese Medicine to treat a variety of conditions, including post-traumatic stress disorder (PTSD). Although this externship does not provide the capacity to make herbal formulas on site, you will be expected to recommend formulas to your patients when appropriate. This externship is offered at both the Santa Cruz and San Jose campuses.

Community Clinic

In a community clinic group setting, you will have the opportunity to provide donation-based Traditional Chinese Medicine treatments to low income patients. You will experience how acupuncture is commonly practiced in China, providing acupuncture, Tuina massage, or herbal medicine treatments in a group setting, in short 15-30-minute intervals. By offering this affordable service, clients can receive acupuncture treatments more frequently to improve their health and well-being.

Akiyama Wellness Center

Akiyama Wellness Center is part of Yu-Ai Kai Japanese American Community Senior Service Center. Akiyama provides wellness programs to their senior members, including acupuncture, yoga, and Taiji classes. The treatment setting at Akiyama is community room style. Interns are required to see patients on a pre-scheduled basis. Although this externship does not provide the capacity to make herbal formulas on site, you will be expected to recommend formulas to your patients when appropriate.

Clinical Private Externships

Multiple off-campus externships are offered by TCM practitioners located throughout California. In a clinical private externship, you will work alongside the practitioner through a normal day's activities as well as assist with client treatments. You will have the opportunity to learn about the

specializations they offer and to gain hands-on experience working in a private-practice environment.

Community Events

Five Branches University students participate in a Career Development Fair prior to the completion of their Doctor's/Master's degree. This requirement is fulfilled through a community health fair or a classroom outreach event where students demonstrate their knowledge and mastery of TCM to inform and recruit new patients. Often, these events address the needs of low income or otherwise disenfranchised groups in communities throughout the Bay Area.

These events are always free to the public and are just a small representation of the philanthropic efforts that Five Branches engages in throughout each academic year.

International Externships

You may choose to study in Asia to experience the authentic practice of TCM integrated with modern Western medicine. Our relationship with five universities in China, Korea and Taiwan provide you with the opportunity to learn TCM from highly knowledgeable doctors and clinical experts, to receive training.

Department of Career Development and TCM Energetics

To enrich and round out your professional TCM training, the DTCM/MTCM curriculum includes Energetics courses to introduce you to the ancient Chinese practices of Qigong and Taijiquan, and Career Development courses to prepare you to practice TCM professionally, ethically, and successfully.

Career Development

Career Development I-III

- FCD 500, FCD E10 1 Unit/15 Hours, 1 Unit/15 Hours

This course provides students with the steps necessary to create a successful practice. Topics covered will include: the legal requirements of starting a practice, setting up a practice space, creating a financial budget, managing an office, medical billing, patient management, and practice marketing. Upon completion of this course, students will have a clearer understanding of what is involved in starting and maintaining a successful practice.

Co-requisite: Completion of 2nd-trimester

Professional Ethics

- FCD 300 1 Unit/15 Hours

This course covers the universal medical ethics required of a primary healthcare practitioner, emphasizing professional responsibility and the study of laws which regulate TCM practices in California and the U.S. Upon completion of this course, students will be thoroughly aware of the professional, ethical, and legal responsibilities of treating patients.

Prerequisites/Co-requisites: Prior completion of or concurrent enrollment in MCL 400, Clinical Internship Rounds

Community Outreach

- FCD 500 0.5 Units/7.5 Hours

Five Branches University participates in periodic health fairs for the public to raise awareness of Traditional Chinese Medicine. Supervised clinical interns provide mini-treatments or give lectures to participants. Types of treatments include community-style acupuncture, tongue and pulse diagnosis, Tuina massage, cupping, and gua sha. Advanced students are encouraged to give short presentations on health topics of their choosing, or lead classes on preparing Chinese herbal prescriptions, and practicing Qigong or Taijiquan. Our Career Development Fairs provide interns with the opportunity to promote their practice by handing out business cards to prospective patients and by demonstrating their knowledge and mastery of TCM. In a four-hour period, interns are able to treat a wide variety of patients, providing excellent clinical experience.

Co-requisites: Concurrent enrollment in MCL 400, Clinical Internship Rounds

Marketing and Management

- FCD X10 2 Units/30 Hours

This course provides students with the information they need to apply their acupuncture training skills in a business-like manner, in a variety of clinical settings. The emphasis is on the practical application of the business and professional skills necessary to provide acupuncture health care to an ever-growing population of patients. Upon completion of this course, students will understand the synergistic nature of the professional, ethical, financial, and marketing skills necessary to run a primary health care practice in the U.S. in the 21st century. They will know how to set up, run and maintain a viable practice and will understand the inner workings of an acupuncture office.

Prerequisites: FCD 500, Professional Ethics

Energetics

Qigong I

- FEB 100 1 Unit/15 Hours

Qigong, or Vital Energy Skills, are the ancient Chinese methods of cultivating and using the vital energy in the body, representing the Chinese philosophy of the exercise-health connection.

Qigong is now successfully used in China for treating chronic diseases. In this practical introductory course, students learn to experience various Qigong exercises in an atmosphere of personal experimentation, with emphasis on the fundamentals of “reading” and “feeling” the Qi.

This course will enable students to become familiar with the theory, form and potential health benefits of Chinese therapeutic energetics.

Prerequisites: None

TCM Qigong

- FEB 140 1 Unit/15 Hours

Qigong is a system of exercises that cultivates life force energy and is at least as old as the I Ching (Book of Changes), one of the first Chinese recordings of Qi, dating from 3000 years ago. Qigong studies the relationship of the three natural energies of the universe, Tian (Heaven), Di (Earth), and Ren (Man). The practice of Qigong can be classified as martial, medical, or spiritual in nature. TCM Qigong teaches medical aspects of this exercise by integrating physical postures, breathing techniques, and mental intentions. TCM Qigong practice can reduce stress, increase

stamina, strengthen and balance internal organ systems, and enhance the immune system. This course will provide students with foundational skills in improving health for both practitioner and patient through TCM Qigong.

Prerequisites: None

Wild Goose Qigong

- FEB 150 1 Unit/15 Hours

Originating over 1000 years ago from the Daoist Kunlin School, this once secretly passed down, classic set of movements is one of China's most respected Qigong styles. Dayan (Wild Goose) style imitates the movements of wild geese with dynamic and static postures, combining strength and stretching. This easy to learn yet elegant form opens channels and points, expels toxins from the tissues, and draws in healthy air to improve the health of the body, mind, and spirit. Upon completion of this course, students will be familiar with the sequence of the first 64 movements and postures of Dayan Qigong.

Prerequisite: None

Qigong Stretch

- FEB 160 1 Unit/15 Hours

Qigong Stretch utilizes the posture, breath, and mental intentions found in the disciplines of Qigong to gently extend the body's joints, tendons, ligaments and muscles to provide elasticity and fluidity of movement. With proper stretching the body opens up and the vital energy moves freely, alleviating pain caused from stagnation and tonifying the body by allowing energy to properly nourish deficiencies. Qigong Stretch is a great way to relieve stress. This course provides students with the understanding of the fundamentals of Qigong Stretch and its therapeutic application for both practitioner and patient.

Prerequisites: None

Qigong II

- FEB 300 1 Unit/15 Hours

In this course, students continue to explore the sensation of Qi flowing through their bodies, utilizing exercises to cultivate their Qi and increase their awareness of the dynamic state of their own body, in response to changes in the environment. Completion of this course serves as one of the prerequisites for the Qigong Instructor Training Specialization.

Prerequisite: FEB 100, Qigong I

Taijiquan I

- FEB 500 1 Unit/15 Hours

Taijiquan is recognized as one of the fundamentals of good health. This course is a natural extension of the Qigong courses and introduces students to more advanced exercises and sets for health enhancement. This course is aimed at teaching exercises the student can master, and that are safe for a wide spectrum of conditions.

Prerequisites: None

Taijiquan II

- FEB 700 1 Unit/15 Hours

This course is a continuation of the Taijiquan I course. In this energetic medicine course, the students learn through demonstration and practice of advanced Taijiquan forms to become more aware of energy pathways and flow. The emphasis of this course is on teaching the student exercises they can master and are safe for a wide spectrum of conditions.

Prerequisites: MEB 450, Taijiquan I

Electives

Medical Qigong I

- FEL 310, 2 units, 30 Hours

Medical Qigong II

- FEL 320, 2 units, 30 Hours

Medical Qigong III

- FEL 330, 2 units, 30 Hours

Medical Qigong IV

- FEL 340, 2 units, 30 Hours

Yin Tuina I

- FEL 491 1 Unit/15 Hours

This course explores the methods of TCM diagnosis and treatment using the ancient art of Yin Tuina. Diagnostic methods include the TCM standards of Ba Gong, Six Evils, Zang Fu, Wen Bing and San Jiao. A combination of lecture and hands-on practice, this course will deepen your understanding and confidence in diagnosis through palpation of energetic patterns, both healthy and aberrant. Lectures will allude to the classics and key cornerstone quotes.

Prerequisite: Completion of first trimester

Department of Review and Assessment

The program offers a series of courses that comprehensively review the materials and skills learned at key stages of the program. At each stage, you will have the opportunity to review the materials you have learned and to receive assessment of your progress. This evaluation assists you in developing good study and test-taking skills, ensuring full comprehension of courses, and skills to pass the national certification and the California licensing exams.

Clinical skills in diagnosis, acupuncture and Chinese herbology are also assessed through a series of staged clinical examinations integrated into the appropriate courses.

Review and Assessment I

- FRA 440 2 Units/30 Hours

The core curriculum of the first two semesters of study, including TCM Theory, TCM Herbology, TCM Acupuncture and Western Medicine are systematically reviewed to strengthen and solidify the students' understanding and mastery of the material. The objective of this course is to help

students develop good study and test-taking skills, and to learn to maintain a controlled pace in studying the curriculum. The course is designed to assimilate the coursework covered during the first year, preparing students for the first cumulative examination.

Prerequisites: FCT 100/200, Foundations I & II; FCT 210/310, Diagnosis I & II; FCD 300, Professional Ethics; FWM 100, Surface Anatomy; FWM 101, Biology; FWM 103/203, Anatomy & Physiology I & II;

Review and Assessment II

- FRA 770 2 Units/30 Hours

The core curriculum of the first four semesters of study, including TCM Theory, TCM Herbology, TCM Acupuncture and Western Medicine will be systematically reviewed in order to strengthen and solidify the students' understanding and mastery of the material. The objective of this course is to help students develop good study skills, strong test-taking skills, and to learn to maintain a controlled pace in studying the curriculum. The course is designed to assimilate the coursework covered during the first two years and to prepare students for the second cumulative examination.

Prerequisites: FCM 600, Trauma & Orthopedics; FAP 100|200|300 Acupuncture I, II, & III; FAP 310/410, Acupuncture Techniques I & II; FAP 500, Meridian Theory; FAP 600, Extra Points Microsystems; FHB 200|300|400, Herbology I, II, & III; FHB 510, Dietetics; FWM 200, Patient Relations; FWM 300/400, Pathophysiology I & II; FWM 510, WPE; FWM 610, Diet, Nutrition, & Vitamins;

Review and Assessment III

- FRA X10 3 Units/45 Hours

The core curriculum of the first six semesters of study, including TCM Theory, TCM Herbology, TCM Acupuncture, TCM Clinical Medicine, and Western Medicine will be systematically reviewed in order to strengthen and solidify the students' understanding and mastery of the material. The objective of this course is to help students develop good study skills, strong test-taking skills, and to learn to maintain a controlled pace in studying the curriculum. The course is designed to assimilate the coursework covered during the first three years and to prepare students for the third cumulative examination.

Prerequisites: FCM 800/900, Internal Medicine I & II; FCM 810, Gynecology; FCM 910, External Medicine; FCM 920, Pediatrics; FAP 800/900, Acupuncture Therapeutics I & II; FHB 100|200|300, Formulas I, II, & III; FHB 900, Herb-Pharm Interactions; FWM 500, Lab Analysis & Imaging; FWM 600, Psychology & Counseling; FWM 800|900|X10, Western Case Management I, II, & III; FWM 810, Pharmacology

Final Review

- FRA E10 3 Units/45 Hours

This course is designed to prepare students for the final cumulative exam and to assimilate the coursework covered during the complete four years of study. This course provides a solid foundation and study guide for preparing for the California State Board licensing (CALE), and national certification (NCCAOM) examinations. Key TCM concepts, study methodology, analysis and integrative skills will be emphasized. Upon completion of this course, students will be primed and prepared for the final cumulative exam, the California State Board and the NCCAOM examinations.

Prerequisite: FRA X10, Assessment III

Clinic Competency I

- FCL 201 0.1 Units/3 Hours

After completing the initial clinic orientation and two clinic Theater classes, students are assessed in their clinic competencies in clinic charting, clinic protocols and professionalism.

Prerequisites: FCL 100, Beginning Theater; FCL 200, Theater

Clinic Competency II

- FCL 301 0.1 Units/3 Hours

The Clinic Competency II exam is a prerequisite for students advancing to the Intern Rounds (Assistant Intern) stage of clinical training. The competency examination confirms students' knowledge and skills in clinic protocols, patient relations, TCM diagnosis, acupuncture and Chinese herbs. Students who pass the examination advance to the next stage of clinical training and attend the Intern Rounds Orientation.

Prerequisites: FCL 300, Rounds

Internship Rounds Orientation

- FCL 401 0.1 Units/3 Hours

This course is an orientation to prepare students moving from purely observation to assisting faculty in the treatment of patients with acupuncture and Chinese herbal formula preparation in Intern Rounds.

Prerequisites: FCL 300, Rounds

Clinic Competency III

- FCL 701 0.1 Units/3 Hours

This third and last clinic competency exam confirms that a student is ready to greet, diagnose and treat patients with acupuncture and Chinese herbal formulas following all clinic protocols and standards of professionalism. Passing this exam is a prerequisite for students advancing to the Senior Internship stage of clinical training.

Prerequisites: FCL 400, Intern Rounds

Internship Orientation

- FCL 801 0.1 Units/3 Hours

This course is an orientation for the clinical and professional protocols that students will follow in their final stage of senior internship training.

Prerequisites: FCL 400, Intern Rounds; FCL 701, Clinical Competency III

DTCM / MTCM / DAc / MAc Faculty

Just as the Qi, or vital life energy, animates our bodies, it is the Five Branches faculty that breathes life into its curriculum.

The Five Branches faculty has been carefully selected from the many experienced Traditional Chinese Medicine (TCM) teachers in the United States and China. Many of our faculty descend from a lineage of TCM Masters in China and have over 40 years' experience practicing and teaching TCM. Several have trained in China's most prestigious TCM universities and hospitals, such as Shanghai University of TCM, Beijing University of Chinese Medicine, Guangzhou Sun Yat Sen Medical University, Liaoning University of TCM, Fujian University of TCM and Zhejiang Chinese Medical University. Our faculty also includes seasoned medical doctors who teach academic and clinical Western Medicine classes. All of our instructors are fluent in English and are experienced and successful, teacher-practitioners.

As a student of Five Branches you will learn from highly skilled teachers who bring a strong foundation of both Chinese and Western medicine into the classroom. You will have the opportunity to absorb their wisdom, through direct teaching, and to observe the intangible qualities of compassion and caring in their interactions with patients. You will experience faculty who are passionate about Chinese medicine, interested in achieving academic excellence and who are eager to assist you with your personal growth, and success as a TCM practitioner.

The Five Branches faculty is a dedicated community of practitioners, teachers, international lecturers and published authors whose exceptional qualities are reflected in the skill and confidence of Five Branches graduates and in the school's 30-year history of academic excellence.

Up-To-Date Listing

The reader may access the most up-to-date listing and biographies of the department chairs and faculty of the DTCM, MTCM, DAc and MAc degree programs on the University's website [here](#).

Admissions

Visit Five Branches

The best way to experience Five Branches University is to visit. We invite you to meet the individuals who are the essence of our community and to immerse yourself in the environment of our classrooms and health centers, rich in beauty and culture of Chinese medicine.

We welcome you to explore our coastal campus in Santa Cruz, California where our TCM and Acupuncture Doctor's/Master's dual-degree programs and health center has resided for 36 years. Santa Cruz is renowned for its beautiful beaches and redwood forests, fresh ocean air, mild weather, and year-round cultural and recreational activities.

In the heart of Silicon Valley, our San Jose campus resides in a modern building surrounded by four shopping centers with a variety of cafes, wonderful Asian cuisine and shops. While on campus, review our doctoral program schedule of events, providing licensed acupuncturists the opportunity to train with TCM and Western medicine experts from China and Stanford University.

Campus Visit

A campus visit is the most effective way to get an up-close and personal look at the Five Branches community. Enjoy a personal tour, a free treatment in our clinic, observe our classes and clinical training, and meet the faculty, staff and students of Five Branches. This is an excellent opportunity to learn more about the programs we offer, the admissions process, financial aid, scholarships, and to gain the information necessary to assist you with your decision to attend Five Branches University. Contact us to schedule an appointment for a campus visit.

Open House

While attending an Open House, learn what makes Five Branches distinctive from other TCM colleges and hear about the exciting growth in the field of Chinese medicine. Join us for a campus tour to explore how comfortable the facilities and environment feels to you. Engage in a student panel discussion, a treatment demonstration, and talk with faculty and staff to gain a better understanding of the programs we offer, as well as the social community you will enjoy at Five Branches. Many open house events are held each year: Please refer to the Five Branches [website](#) for more information.

Attend a Seminar

The Extension program at both of our campuses offers specialization in Asian bodywork and Medical Qigong as well as seminars in the healing arts. Attending a seminar is an excellent way to become acquainted with the healing modalities associated with Traditional Chinese Medicine and to experience the rich heritage of the Asian culture.

Request Information

If your schedule does not allow you to visit at this time and you would like to receive detailed information about our Doctoral/Master's dual-degree programs, you can request information online, via email, call the admissions staff at the campus you are interested in attending, or simply download our online catalogs to review our programs. As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement. Thank you for your interest in Five Branches University!

Applying To One of The Following Four Degree Programs:

- **DTCM/MTCM Dual-Degree Program**
- **MTCM Degree Program**
- **DAc/MAc Dual-Degree Program**
- **MAc Degree program**

Educational Requirements

All applicants must have fulfilled the minimum education requirements of 90 semester credits (equivalent to 135 quarter credits) of general education from a regionally accredited degree-granting college or university, with a minimum of 2.75 GPA. Students who have 3 years (90 units) of undergraduate study receive both the DTCM and MTCM degrees. Students who have 2 years (60 units) of undergraduate study receive the MTCM degree, which is the requirement to take the California licensing exam and the National certification exam for licensure in all other States.

Up to 30 semester credits of general education may be earned through successful testing assessment using a combination of acceptable assessment modalities such as: College Advanced Placement (AP), College Level Examination Programs (CLEP), American College Testing Proficiency Program (ACT/PEP), and U.S. Armed Forces Institute Programs (USAFI). Although you may be awarded credit for these testing assessments, some state licensing agencies may not accept these credits if they were awarded by non-regionally accredited institutions.

If you have not completed an AA degree or higher, your general education must include: one course in English composition with critical thinking, two courses from different departments in Arts and Humanities, one course in College Algebra or higher, one course in General Psychology and one course in Social Sciences. Each of these courses must be a minimum of three semester credits each, a total of 18 semester credits. The remaining 72 semester credits may include transferable coursework towards the DTCM/MTCM Dual-Degree or any other topic of your interest. For a list of approved, transferable courses please contact the admissions office.

Pre-Qualification Services

If you prefer to apply before you have met the educational requirements, the admissions department will provide pre-qualification counseling services to assist you with the necessary steps to become eligible for the DTCM/MTCM Dual-Degree Program.

The Admissions office provides Transfer Planning services to applicants who have completed coursework at a regionally accredited degree-granting college or university. Five Branches University has not entered into an articulation or transfer agreement with any other college or university.

Natural Science Requirements

The DTCM/MTCM Dual-Degree Program at Five Branches University requires five natural science courses: General Psychology, General Biology, Chemistry, Physics, Human Anatomy and Human Physiology, each with a minimum of three semester credits except two semester credits each for Physics and General Psychology. It is highly recommended that you complete the courses in General Biology, Physics and Chemistry prior to entry. These courses can be taken from a

community college, university, or on-line. If these courses have not been taken prior to enrollment you may take them concurrently, within your first two years of study. Please contact the admissions director regarding transfer credit of natural science courses or for a list of approved schools providing these courses.

For personal service please call or email our Admissions department :

San Jose – (408) 260-0208 or sjadmissions@fivebranches.edu

Santa Cruz – Eleonor – (831) 476-9424 Ext 31 or admissions@fivebranches.edu

Once you have made the decision to enroll in one of the Five Branches degree programs in Traditional Chinese Medicine or Acupuncture, you are ready to begin the application process. The majority of students apply to the DTCM/MTCM Dual-Degree Program which is required to become a Licensed Acupuncturist in California.

Priority Application Dates

Applications are reviewed throughout the year on a priority status basis. The priority status application process gives preference to early applicants. Entering classes are formed on a trimester basis, occurring in Fall, Spring and Summer. To ensure space in an entering class, we strongly recommend you apply by the priority application dates listed. If all entering class spaces have been filled, you will receive priority status for the following trimester.

Priority Application Dates:

- Fall Trimester May 1
- Spring Trimester September 1
- Summer Trimester March 1

Transfer students, or students interested in taking natural science courses at Five Branches, must complete their application no later than March 1 to be admitted during the summer term, beginning in mid-May.

General Education Requirements

Applicants to the DTCM/MTCM or DAc/MAC dual-degree programs must have fulfilled the minimum education requirements of satisfactory completion of at least three (3) years of undergraduate-level education (90 semester credits, or 135 quarter credits) from an institution accredited by an agency recognized by the U.S. Secretary of Education, or an equivalent international entity, with a minimum 3.0 GPA.

Applicants to the MTCM or MAC program must have fulfilled the minimum education requirements of satisfactory completion of at least two (2) years of undergraduate-level education (60 semester credits, or 90 quarter credits) from an institution accredited by an agency recognized by the U.S. Secretary of Education, or an equivalent international entity, with a minimum 3.0 GPA.

Up to 30 semester credits of general education may be earned through successful testing assessment using a combination of acceptable assessment modalities such as: College Advanced Placement (AP), College Level Examination Programs (CLEP), American College Testing Proficiency Program (ACT/PEP), and U.S. Armed Forces Institute Programs (USAFI). Although you may be awarded credit for these testing assessments, some state licensing agencies may not accept these credits if they were awarded by non-regionally accredited institutions.

Pre-Qualification Services

If you prefer to apply before you have met the educational requirements, the admissions department will provide pre-qualification counseling services to assist you with the necessary steps to become eligible for the DTCM/MTCM Dual-Degree Program.

The Admissions office provides Transfer Planning services to applicants who have completed coursework at a regionally accredited degree-granting college or university. Five Branches University has not entered into an articulation or transfer agreement with any other college or university.

Natural Science Requirements

The DTCM/MTCM Dual-Degree Program at Five Branches University requires six natural science courses: General Psychology, General Biology, Chemistry, Physics, Human Anatomy and Human Physiology, each with a minimum of three semester credits except two semester credits each for Physics and General Psychology. It is highly recommended that you complete the courses in General Biology, Physics and Chemistry prior to entry. These courses can be taken from a community college, university, or on-line. If these courses have not been taken prior to enrollment you may take them concurrently, within your first two years of study. Please contact the admissions director regarding transfer credit of natural science courses or for a list of approved schools providing these courses..

Five-Year History

Courses completed more than five years before enrollment will be evaluated to assure applicants have the requisite knowledge and skills.

Non Degree-Seeking Applicants

Five Branches University will consider Non Degree-Seeking (NDS) applicants including: students participating in the California Acupuncture Board-approved tutorial program, licensed acupuncturists, medical doctors and other health professionals who may be seeking to meet an educational objective other than the Doctor of Traditional Chinese Medicine degree. NDS students may take up to 30% of the Doctor's degree program, receive an official transcript showing coursework that has been successfully completed, and request to become a degree-seeking student at any time. NDS students must follow the same application and admissions procedures as required of degree-seeking students. NDS students are not eligible for federal financial aid.

Completing the Application

To be considered for admission to Five Branches University, the following items are required:

1. **Application for Admission** – Use your full legal name on all admissions documents. The campus you prefer should be clearly indicated on the application form. If your choice of campus is undetermined, mail your application package to the Santa Cruz campus.
2. **Recent photograph** – One recent passport style photograph.
3. **Statement of Purpose** – A one-page, typed essay describing your background, how you became interested in TCM and your plans beyond graduation.
4. **Resume** – An up-to-date resume listing all previous education, job experience, accomplishments and volunteer work.
5. **Application fee** – A non-refundable application fee of \$65.00, payable in check or money order. The application fee for international students is \$350.00.
6. **Health Evaluation** – The course of study at Five Branches University includes clinical training. In order to ensure the maintenance of safety precautions and a healthy environment in the Five Branches clinics, we require the completion of a Health Evaluation. This health evaluation must be signed by a qualified primary health care practitioner.
7. **Hepatitis B Vaccination Form** – Due to possible occupational exposure to blood or other potentially infectious materials, we recommend receiving a Hepatitis B vaccination. A copy of this immunization record or blood test must be provided. If vaccination is declined, a

waiver form must be signed.

8. **Tuberculosis Test** – Tuberculosis is a common and often deadly infectious disease caused by mycobacterium. It usually attacks the lungs but can also affect other body systems. Tuberculosis is spread through the air, when people who have the disease cough, sneeze or spit. To ensure the maintenance of safety precautions in the Five Branches clinic, we require all applicants to have a tuberculosis clearance test prior to enrollment in the program. This may be done through a PPD Skin Test or a QuantiFeron TB Gold Blood Test.

Supporting documents—sent separately:

1. **Letter of Recommendation** – Provide the Letter of Recommendation form to two references of your choice (teachers, employers, colleagues, and/or healthcare professionals). References are encouraged to provide additional information regarding your strengths and character traits and why they believe you would be a good candidate for our graduate program. The Letter of Recommendation form must be completed in full, placed in a sealed envelope, signed across the flap, and mailed directly from the evaluator to the appropriate campus.
2. **Official transcripts from all colleges and/or universities attended** – Academic transcripts must be sent directly from the institution to the attention of the admissions office at the Five Branches campus you are applying to. If you have taken Natural Science AP courses, make sure to contact the College Board at P.O. Box 6671 Princeton, NJ 08541-6671.

Please note: Education obtained abroad at an institution not accredited by the U.S. Department of Education must go through a credential evaluation agency. For more information go to: [International Applicants](#)

Please note: Education obtained abroad at an institution not accredited by the U.S. Department of Education must go through a credential evaluation agency. For more information go to the International Applicants section of the catalog.

Application Checklist

- Application for Admission
- Recent Photo
- Statement of Purpose
- Resume
- Application Fee (\$65 domestic; \$350 international)
- Health Evaluation
- Hepatitis B Vaccination or Waiver Form
- Tuberculosis Test

Supporting documents sent from original sources:

- Two letters of recommendation from teachers, employers, colleagues or healthcare professionals
- Official transcripts from all colleges and/or universities attended

Campus Addresses

San Jose campus applicants mail or email information to:

Five Branches University
Attention: Admissions Office

1885 Lundy Ave, Suite 108
San Jose, CA 95131

Email: sjadmissions@fivebranches.edu

Santa Cruz campus applicants mail or email information to:

Five Branches University
Attention: Admissions Office
200 7th Avenue
Santa Cruz, CA 95062

Email: admissions@fivebranches.edu

If you have any questions or need additional information regarding the application process, our admissions staff is available to assist you.

The Admissions Process

Admission Interview

Once your application package and all supporting documents have been received, you will be invited to Five Branches for a personal interview with one of the members of the admissions committee. The admissions interview is a mutually beneficial process, allowing you the ability to acquire additional information not gained in previous interactions with Five Branches, while the admissions committee has the opportunity to get to know you on a more personal level.

Application Review

After your interview, your file will be reviewed by the admissions committee. In evaluating applicants the committee takes into consideration many factors: academic achievement, professional experience, recommendations, accomplishments, personal character, and future potential.

Five Branches University selects students who have a sincere interest in TCM and integrative medicine, who have an interest in serving others as health care professionals, and who have demonstrated the aptitude to successfully complete the program. Our most successful students are prepared for their TCM education with well-developed study skills and a solid financial plan.

Admissions Decision

You will be notified in writing once a decision has been made by the admissions committee, within two weeks after your interview.

Deposit

Upon notification of acceptance, you will be asked to reserve your space with a \$150 non-refundable deposit which will be applied to your first semester tuition. This deposit will reserve your place in the upcoming semester as space allows.

Waiting List

If there is not available space in the next entering class, accepted applicants will be placed on a waiting list. We will inform you of your position on the waiting list and you will be notified if space becomes available. If space is not available, those on the waiting list can elect to have their application brought forward to the following semester.

New Student Orientation and Registration

One week prior to the beginning of the trimester, you will attend the New Student Orientation and Registration. The orientation reviews financial aid and registration options, the academic calendar, college policies, and the DTCM/MTCM Dual-degree Program. This is an excellent time to meet fellow students, faculty, and members of the administration. Student registration is scheduled on the day following orientation. During registration you will meet with the admissions director or an academic adviser to review your class schedule. If you need special assistance with the registration process or with specific scheduling needs, please contact the admissions office for assistance prior to registration day.

International Applicants

Notice: Only International applicants whose native language is not English are required to provide proof of English proficiency for admission to degree, certificate, and non-degree graduate programs.

Five Branches University welcomes international applicants from all over the world. We support a bicultural and bilingual environment, offering our Doctor of Traditional Chinese Medicine and Master of Traditional Chinese Medicine Dual-Degree Program, and our Postgraduate Doctor of Acupuncture and Oriental Medicine Program in English and Chinese.

Five Branches defines an international applicant as someone who is a citizen or permanent resident of a country, other than the United States, who wishes to pursue the DTCM/MTCM Dual-Degree or Postgraduate DAOM Degree at our university. Five Branches University is authorized under federal law to enroll non-immigrant alien students and complies with all federal guidelines and directives of the U.S. Citizenship and Immigration Services (USCIS).

International applicants follow the same application and admissions procedures as required of resident students, in addition to meeting the international application requirements. We recommend international applicants begin the admissions process six months to one year prior to the desired priority application date. International students are not eligible for U.S. federal financial aid.

International Application Requirements

If you are an international applicant applying for an F-1 student visa through Five Branches University, you must submit the following documents along with the completed application. It is important to write your name as it appears on your passport on your application and all supplemental documents.

- 1. A photocopy of the first page of your passport**

- 2. Transcript evaluation**

If you have completed college or university level education in another country, you must have your transcripts reviewed by a credential evaluation agency that is a member of the National Association of Credential Evaluation Services, Inc. Transcripts need to be evaluated on a course-by-course basis. The evaluation, containing the total number of earned credits and cumulative GPA, needs to be sent directly to Five Branches University by the evaluating agency. We recommend World Educational Services (WES), www.wes.org

- 3. Test of English as a Foreign Language (TOEFL) and International English Language**

Testing System (IELTS)

If you are an international applicant and have completed at least a two year (60 semester credit or 90 quarter credit) baccalaureate level education from an institution accredited by an agency recognized by the U.S. Secretary of Education or from an equivalent English language institution in another country, the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) is not required.

Doctor of Traditional Chinese Medicine and Master of Traditional Chinese Medicine Dual-Degree Program

If you are applying for the DTCM/MTCM Dual-Degree Program, and your native language is not English, and you did not complete two years of college in the U.S., you are required to complete the Test of English as a Foreign Language (TOEFL) internet-based test (iBT) or the International English Language Testing System (IELTS) exam.

The minimum scores to achieve on these tests are as follows:

ASSESSMENT TOOL	ACCEPTABLE SCORE
Test of English as a Foreign Language Internet-Based Test (TOEFL® iBT)	Total: 61
International English Language Testing System (IELTS), Academic Format	Overall band: 6
Duolingo English Test	90
China Standard of English Language (CSE)	CSE 6
Cambridge First Certificate in English (FCE)	C
Cambridge English Advanced (CAE)	C
Common European Framework Reference (CEFR)	B2
Occupational English Test (OET)	250, C
Pearson Test of English (PTE), Academic	Overall: 45

If you do not meet the minimum English language proficiency requirements prior to enrollment, you may be conditionally admitted with the understanding that you will study English and meet the TOEFL or IELTS requirements before you enter clinical internship.

When taking the TOEFL, please enter the appropriate Five Branches University assigned code on the Score Report Request Form:

Santa Cruz campus code: 4459

San Jose campus code: 5881

If you are applying the DTCM/MTCM program in Chinese, you also need to meet with one of the following requirements:

- Chinese is the student's primary language
- Previous education degree in Chinese language or program delivered in Chinese
- Complete assessment test with FBU Admissions (Statement writing, Interview, and language background in Chinese)

Financial Statement

A Financial Statement, certified by a financial institution, verifying the availability of at least \$35,000 in U.S. dollars. This amount should cover your education and living expenses for one academic year. If you need the university to issue an I-20 for your dependents, you will need to calculate an additional \$5,000 for each dependent. In addition, you may want to consider having additional funds for off-campus months and miscellaneous expenses. We recommend having approximately \$7,000 for this purpose. If your tuition or living expenses are going to be partially or fully paid by a sponsor, the Financial Statement must be signed by your sponsor, stating they assume financial responsibility for the designated amount.

Health Insurance

International students must provide proof of health insurance coverage prior to student registration. Due to the high costs of medical insurance in the United States it may be advantageous to purchase health insurance coverage in your home country. We recommend you purchase a healthcare policy for yourself and any dependents, with a minimum coverage of 250,000 per incident, and a deductible of no more than \$500 per person, per year. Prior to your arrival into the United States we recommend you obtain from your primary physician, medical records for you and your dependents. These should include a medical history describing previous illnesses, surgeries, and records of all immunizations, including those received in childhood. In addition, since dental costs in the United States tend to be considerably higher than most other countries, you are advised to have any necessary dental work completed in your home country prior to your arrival in the U.S.

International Applicants Currently Studying in the U.S.

If you are an international student who is currently on an F-1 student visa, enrolled at another college or university, you must submit the following documents along with your application materials:

1. A photocopy of your visa, contained in your passport
2. A photocopy of your I-20 Form

Once you have been accepted to Five Branches University, a Transfer Release Form must be signed by your current school's admissions office, verifying you have maintained your visa status and are eligible for transfer. Please contact the Five Branches University admissions office to receive a copy of this form.

Transfer Students

If you are a student at another TCM or acupuncture school and are considering transferring to Five Branches, you can apply for our Doctor and Master of Traditional Chinese Medicine programs or Doctor and Master of Acupuncture as a Transfer Student. Five Branches University

offers one of the best TCM and acupuncture educational programs in the United States. Our transfer policies ensure that a transfer student's training from another school will meet the high standards of our DTCM, MTCM, DAc and MAc programs. Transfer students may transfer into one of four programs:

- DTCM/MTCM Dual-Degree Program (Doctor and Master of Traditional Chinese Medicine)
- MTCM Degree Program (Master of Traditional Chinese Medicine)
- DAc/MAC Dual-Degree Program (Doctor and Master of Acupuncture)
- MAc Degree Program (Master of Acupuncture)

Students with a Master's degree in Traditional Chinese Medicine or in Acupuncture will transfer into the DTCM or DAc programs by completing 315 hours of courses. This series of courses are called the:

- DTCM Bridge Completion Program
- DAc Bridge Completion Program

Five Branches University does not currently have any articulation or transfer agreements with any colleges or University. At the same time, the admissions office provides a list of courses offered by neighboring colleges that are accepted for transfer into the degree programs.

The University does not offer an Ability-to-Benefit plan.

Transferring Into the DTCM/MTCM Dual-Degree Program

Students transferring into the DTCM/MTCM Dual-Degree Program need to have at least three years (90 semester units) of undergraduate studies with a GPA of 3.0 and need to complete at least 50% of the academic courses and 75% of their clinical training at the University.

Transferring into the MTCM Degree Program

Students transferring into the MTCM Degree Program need to have at least two years (60 semester units) of undergraduate studies with a GPA of 3.0 or higher and need to complete at least 50% of the academic courses and 75% of their clinical training at the University.

Transferring Into the DAc/MAC Dual-Degree Program

Students transferring into the DAc/MAC Dual-Degree Program need to have at least three years (90 semester units) of undergraduate studies with a GPA of 3.0 and need to complete at least 50% of the academic courses and 75% of their clinical training at the University.

Transferring into the MAc Degree Program

Students transferring into the MAc Degree Program need to have at least two years (60 semester units) of undergraduate studies with a GPA of 3.0 or higher and need to complete at least 50% of the academic courses and 75% of their clinical training at the University.

Transferring into the DTCM or DAc Bridge Completion Program

If you already hold a Master's degree in Chinese medicine or acupuncture and would like to earn the DTCM or DAc degree, please read the section below titled DTCM/DAc Bridge Completion Program.

Transferring TCM Courses

Transfer credit will be accepted for TCM courses taken from a nationally accredited TCM college, approved by the California Acupuncture Board, if the courses are equivalent in content to Five Branches courses.

TCM-related courses from a TCM college not approved by the California Acupuncture Board will only be accepted within the 50% limitations of the Board. TCM courses from tutorial or apprenticeship programs are non-transferable.

Transferring Western Medicine Courses

Western medicine courses taken prior to enrollment at Five Branches may be transferred to fulfill part or the entire DTCM/MTCM Western medicine track, including natural science requirements. If the natural science courses: Biology, Physics, Chemistry, Human Anatomy, and Human Physiology have not been taken prior to enrollment, students may take them concurrently, within their first two years of study. These courses can be taken from a community college, a university, or online. Western medicine courses are transferable only from accredited degree-granting colleges, universities, or TCM schools. Natural science credits from non-accredited or vocational schools are non-transferable.

Transferring Complementary Studies Courses

Five Branches accepts the transfer of classes from non-accredited schools or colleges for courses such as Qigong and Taijiquan, if equivalent in content and duration. A copy of a certificate of completion or diploma, or a letter from a teacher or school, will serve as a transcript.

Transferring Clinical Training Courses

Five Branches accepts up to 25% of clinical training requirements for the DTCM, MTCM, DAc and MAc programs.

Transferring Credit Earned through Challenge Examination or Achievement Tests

Students may petition to receive credit for one course per department via a challenge examination, with the exclusion of the Clinical Training department. You may qualify to take a challenge examination only under the following circumstances: (1) The course was previously taken and passed at another institution with a grade lower than C, and did not qualify for transfer credit, or (2) The course was previously taken and passed at another institution, but the course material was not sufficient to qualify for full transfer credit.

Upon qualification, you will be provided with the course syllabus to aid in preparation for taking the challenge examination. The examination must be taken prior to the start of the program term in which the course is required. The passing score for a challenge examination is 70%. A course can be challenged by examination only once. If you fail to pass the examination, you will be required to enroll in the course in the appropriate term at the full tuition cost.

Credit earned through assessment or achievement examinations at other Traditional Chinese Medicine schools are non-transferable. Transfer credit is not available for work, experiential learning or life experience.

Transfer Student Application Procedure and Requirements

You must submit your admission application by the priority application dates of May 1 (Fall trimester), September 1 (Spring trimester), and March 1 (Summer trimester).

Transfer students follow the same application and admissions procedures required of new students, in addition to meeting the transfer student requirements listed below. If you are a transfer student transferring to Five Branches University from another TCM college, you must submit the following documents along with the completed application:

1. **Cover letter** stating your reasons for seeking a transfer from another TCM college, and a list of the courses you wish to transfer.

2. **Letter of recommendation** from a previous TCM/Acupuncture instructor, located at the TCM school you attended.
3. **Catalog** from your previous TCM college, stating its approval agencies and accreditation.
4. **Syllabi** outlining the course content for each course you wish to transfer.

Upon acceptance to Five Branches, you will be informed of your placement in the DTCM program, and an evaluation of your transfer credits will be completed by the admissions director. An equivalency exam may be required for courses taken more than five years before applying to confirm sufficient knowledge and competency of the course materials. Only coursework completed prior to enrollment at Five Branches, and awarded a letter grade of C or above, is transferable.

Transfer Fees

A transfer fee will apply to the evaluation of all courses transferred into the DTCM/MTCM program, with the exception of the five natural science courses. The transfer fee is 15% of the current tuition, per unit, up to a maximum of \$500. If an equivalency exam is required, an additional fee of 30% of the current tuition, per unit, will apply.

If you have any questions or need additional information regarding the transfer student application requirements, our admissions staff is available to assist you.

Students with a Master's Degree Transferring into the DTCM or DAc Bridge Completion Program

Licensed Acupuncturists with an accredited Master's degree in Traditional Chinese Medicine or Acupuncture, or equivalent, may apply to the 315-hour DTCM/DAc Bridge Completion program and earn the Doctor of Traditional Chinese Medicine or Doctor of Acupuncture degree.

The DTCM/DAc Bridge Completion program is a series of courses of the DTCM or DAc degree program that students transferring with a Master's degree in Traditional Chinese Medicine or Acupuncture need to complete in order to earn the DTCM or DAc degree.

To apply to the DTCM or DAc Bridge program, applicants need to submit:

- DTCM/DAc Bridge Program Application form
- Letter of Reference
- Statement of Purpose
- Resume
- Copy of acupuncture license
- TCM education transcripts
- Undergraduate education transcripts. The DTCM and DAc programs require a pre-requisite of 90 semester units of undergraduate coursework and a minimum GPA of 3.0

Financial Aid

Five Branches University is an accredited institution of higher education approved to participate in Federal financial aid programs. Our financial aid programs assist approximately 50% of our students in meeting the financial costs of their education. Five Branches University does not participate in State financial aid programs.

Federal financial aid programs provide financial assistance to students who, without such assistance, would be unable to meet educational costs at the University. Financial Aid for the DTCM/MTCM, DAc/MAC and DAOM programs includes educational costs: tuition, fees, books and supplies, and a reasonable allowance for living during the academic year.

Financial aid is not available for the short DTCM/DAC Bridge Completion program.

The financial aid office can assist you in finding the sources of financial aid that best suit your educational needs. We understand that furthering your education requires a significant investment of your time, energy and resources and deciding how to fund your education involves solid information and careful planning. We recommend that you determine your financial plan as early as possible so you can focus on your academic responsibilities once the DTCM/MTCM, DAc/MAC programs begin.

Students who believe they will need financial assistance to attend Five Branches University and who meet the eligibility requirements are encouraged to apply for financial aid. Financial aid awards are made for one academic year at a time and must be reapplied for each academic year.

To receive financial aid from Five Branches, the applicant must meet the following eligibility criteria:

1. Be accepted for enrollment as a matriculated student
2. Be a U.S citizen or eligible non-citizen
3. Maintain measurable satisfactory academic progress according to the standards and practices established by Five Branches while enrolled.
4. Not owe a refund on or be in default of any Title IV loan previously received for attendance at any postsecondary institution.
5. Be in compliance with Selective Service

Applying for Financial Aid

Please follow the steps below to apply for financial aid at Five Branches University:

1. Completing the Free Application for Federal Student Aid (FAFSA) is the first step in applying for financial aid. The FAFSA needs to be completed each academic year and is available online at: www.fafsa.ed.gov. When completing the FAFSA, use the Five Branches Federal School Code: 03131300. You will need an FSA ID- a username and password to electronically sign Federal Student Aid documents.
2. Once the FAFSA is submitted you are required to complete the 2020-2021 DTCM/MTCM, DAc/MAC Supplemental Financial Aid Form available online at: <https://www.fivebranches.edu/dtcm-mtcm/financial-aid/financial-aid-forms/>
3. The Department of Education randomly selects students for Verification, a federally mandated process designed to verify the accuracy of information reported on the FAFSA.

If you are selected for verification, you will be required to complete a Verification Worksheet along with other supporting documentation. You may also be required to provide IRS tax return transcripts.

To obtain an IRS tax return transcript go to: www.irs.gov. Click on the “Order a Return or Account Transcript” link. Make sure to request the “IRS tax return transcript” and not the “IRS tax account transcript.” You will need your social security number, date of birth, and the address on file with the IRS (normally this will be the address used on your 2019 IRS tax return). It takes up to two weeks for IRS income information to be available for electronic IRS tax returns, and up to eight weeks for paper IRS tax returns. If you are married and you and your spouse filed separate 2018 tax returns, you must both submit tax return transcripts. You can also call to request an IRS tax return transcript at 1-800-908-9946.

It is important to return the requested information as soon as possible so the disbursement of your financial aid will not be delayed. To download Verification forms please go to: <https://www.fivebranches.edu/dtcm-mtcm/financial-aid/financial-aid-forms/>. For more information regarding verification, refer to: www.finaid.org/fafsa/verification.phtml

1. If the Department of Education is unable to confirm your citizenship status, then you will need to provide the financial aid office with documents proving citizenship. Citizenship documents that are acceptable are:
 - a. Copy of current United States Passport
 - b. Copy of current Alien Registration Card (Eligible Non-Citizen) For more information go to: www.us-immigration.com.
2. If you are a Male (any person assigned the sex of male at birth), age 18-25, you are required to register with the Selective Service System (SSS). This requirement covers all males residing in the United States who are U.S. citizens or noncitizens. If the Department of Education is unable to verify proper registration with the Selective Service, then you are required to provide the financial aid office with verification that you have successfully registered or are exempt from registration. Please refer to the Selective Service web page for more information: www.sss.gov.

Once you are successfully admitted to Five Branches University you will be notified by email and sent a Financial Aid Award Letter in the mail along with supporting documents. For more detailed information on applying for financial aid refer to the Frequently Asked Questions (FAQs) section of our website: <https://www.fivebranches.edu/dtcm-mtcm/financial-aid/fags/>

Federal Work Study

Federal Work-Study (FWS) is funded by the federal government, with some matching Five Branches funds. FWS enables students to earn part of their financial aid award through part-time employment on campus. Except for certain community-service jobs, FWS employment is limited to on-campus jobs. To participate in the FWS program, a student must be eligible for and be awarded a FWS award as part of their financial aid package. If you are interested in the FWS program contact the Financial Aid Office.

Direct Loan Program

The Direct Stafford Loan Program consists of low-interest, unsubsidized loans funded by the federal government. Loans are available to graduate and professional students who are U.S. citizens or permanent residents. Loan repayments begin six months after graduation or after a student drops below half-time enrollment. Direct loans are IOans and must be repaid.

Graduate students may receive up to \$20,500 per academic year in Federal Direct Unsubsidized Stafford Loans, depending on remaining aggregate eligibility. Federal Direct Unsubsidized Stafford Loans have a six-month grace period (following graduation) before principal payments are due; however interest begins accruing upon the disbursement of the loan. Students can elect to pay the

interest while enrolled in the DTCM/ MTCM, DAc/MAC program, or allow it to accrue and be capitalized (added to the principal).

Federal Direct Graduate PLUS Loans are available to graduate students with a good credit history, determined in the credit pre-approval process. The Federal Direct Graduate PLUS Loan is available to students who have received the aggregate maximum amount of Stafford loans. The amount a graduate student can borrow is the difference between the cost of attendance and other financial aid received. Graduate PLUS Loans have a six-month post-enrollment deferment period, following graduation (or if you are no longer enrolled on at least a half-time basis), before principal payments are due; however interest begins accruing upon the disbursement of the loan. Students can elect to pay the interest while enrolled in the DTCM/MTCM/MAC program, or allow it to accrue and be capitalized (added to the principal) at repayment.

Please Note: Students who receive federal loans must participate in Entrance Loan Counseling prior to the disbursement of their loan. Students are also required to complete Exit Loan Counseling prior to graduation.

Students at Five Branches University that are participating in the Direct Unsubsidized Stafford Loan Program will have their funds sent by the Department of Education by EFT (Electronic Funds Transfer). Direct Loans Servicing Center will mail your loan disclosure statement to you. Five Branches University will deduct tuition and fees from your loan funds and will issue you a credit balance check for any remaining loan funds.

Loan Repayment

If a student obtains a loan to pay for an educational program, the student will have the responsible to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds. For more detailed information on loan repayment refer to the Frequently Asked Questions (FAQs) section of our website: <https://www.fivebranches.edu/dtcm-mtcm/financial-aid/faqs/>

Financial Aid Policies

Students who receive federal financial aid while attending Five Branches University will be subject to the Financial Aid Satisfactory Academic Progress Policy as well as the College Academic Progress Policy.

Satisfactory Academic Progress

Federal regulations require that academic progress be monitored using qualitative and quantitative measurements. These standard measurements apply to all students. Academic progress is reviewed after every term. If at any point it is clear the student will not be able to meet qualitative and/or quantitative standards for **timely** completion of degree, the student becomes ineligible for financial aid.

1. Masters students must maintain a cumulative and term GPA of 2.75 or above.
2. Completion of 67% of all units attempted in any incremental period.
3. MTCM / DTCM students must maintain at least half-time enrollment status.
4. DAOM students must maintain a full-time enrollment status.
5. MTCM / DTCM students must pass all courses with an A, B or C letter grade and are not permitted to exceed one Incomplete (I) grade per term.
6. DAOM must not exceed two unsatisfactory grades per year (NC, NP, I, W). DAOM must maintain a passing grade P (Pass) Satisfactory of all required coursework.

7. Maximum program timeframe:
 - a. May not exceed the time limits for coursework as described in syllabi and course descriptions.
 - b. Master/Doctor of Traditional Chinese Medicine – 12 terms (Spring, Summer, Fall)
 - c. Master of Acupuncture – 10 terms (Spring, Summer, Fall)
 - d. Doctor of Acupuncture and Oriental Medicine – 6 terms (Spring, Summer, Fall)

Financial Aid Warning Reason	SAP Requirement
Term / Cumulative GPA less than 2.75	Complete subsequent term with 2.75 GPA or above and with grades sufficient to raise cumulative GPA to 2.75
MTCM / DTCM students must pass all courses with an A, B or C letter grade and are not permitted to exceed one Incomplete (I) per term.	Complete affected course work with a passing letter grade in the following term.
DAOM students must not exceed two unsatisfactory grades per year (NC, NP, I, W)	Complete affected course work with a passing letter grade.
Incremental Unit/Pace Requirement(s) not met	Complete more than 67% of attempted units in following term.
Breach in professionalism	Requirement contingent upon SPRC review
Exceed maximum program time frame	Requirement contingent upon SPRC review

Academic and Financial Aid Warning

- Students who fail to meet the Qualitative and/or Quantitative progress requirements in any term will be placed on Academic and Financial Aid Warning for the following term of enrollment.
- Students are placed on Warning status for a period no longer than one (1) term.
- **During the Financial Aid Warning term, students may receive financial aid and must meet all SAP requirements.**
- A letter will notify students when they placed are on Academic and Financial Aid Warning. The reason(s) for the Financial Aid Warning and SAP Requirements for the following term will be explained in the letter.

If you receive federal financial aid and withdraw from Five Branches University after classes have begun, you will be subject to the Federal Return of Title IV Funds Regulations and must notify the school according to school policy. The Return of Title IV Funds Regulations will be applied first, after which the school's refund policy will be applied. Both the Federal Aid Satisfactory Academic Progress Policy and the Return of Title IV Funds Policy are described in the student handbook.

During registration, state law requires all students to sign a contract to protect their student rights and specify their enrollment and financial agreement with Five Branches University.

Return of Title IV Funds

According to federal guidelines (Section 668.22 of the Higher Education Amendments of 1998), withdrawing students who have received Title IV financial aid will have their financial aid recalculated according to the following guidelines:

- Only the amount of financial aid that has been earned (disbursed or could have been disbursed) based on the prorated amount of time the student has been in school for the semester will be retained on the student's behalf. Any aid that is not earned (based on the prorated amount of time) must be returned to the appropriate federal account/lender. For example, if a student receiving \$10,141 in federal aid completes 20% of the trimester, he/she would have earned that percentage and the approved federal aid (\$2,028) therefore, 80% (\$8,113) of the disbursed aid remains "unearned" and must be returned to the federal programs. The college would refund 80% of the tuition charges (i.e if tuition charges of \$4,200, the refund would be \$3,360) to the appropriate federal program. No tuition refund would be disbursed to the student until Title IV (federal loans/grants) funds are repaid. A student withdrawing after the 60% point has earned 100% of the disbursed federal aid. Any unearned funds disbursed to the student in the federal loan programs would be repaid based on the terms of the borrower's promissory note.
- The date of withdrawal is the date the University receives notification (e.g., submitting a withdrawal request form) from the student on his/her intent to withdraw.
- The amount of refundable institutional charges (tuition and fees) will be set by school policy. The University's treatment of tuition and other fees related to student withdrawal may be found in the student handbook. If there is a balance due resulting from the calculation of unearned aid, the student may be responsible for payment.
- For students who have received federal financial aid, any refundable portion of tuition and fee costs that has been covered by a Federal Stafford Loan will be refunded directly to the lender, who will credit it against the student's outstanding balance.
- The Financial Aid Office determines specific amounts according to applicable federal regulations. If the calculation shows that the student had eligibility for aid that had not yet been disbursed, the student will be given the option of receiving those funds. The applicable tuition and fees are listed in the student handbook. Non-mandatory and fees for professional organizations are not included in the refund calculation.

Five Branches University refund policy will then be applied. This states that there is a prorated refund for the unused portion of the tuition if the student has completed 60% or less of the course. There is no refund for courses after 60% of the course has been completed. This means that you will be billed for any funds returned in the Title IV Return of Funds that do not warrant a refund according to the stated school refund policy.

Return of Title IV Funds states that a student who withdraws after completing more than 60% of the semester is determined to have earned 100% of his/her aid. This means that Five Branches University will not be returning any aid paid for tuition and fees to Title IV Funds.

Students who have received Federal Title IV Funds and withdraw from Five Branches University are required to notify the Director of Financial Aid and complete the Exit Counseling online at www.studentloans.gov to receive an official Transcript from the school.

Scholarships

The majority of our scholarship funds come from private donors and TCM-affiliated organizations

with a sincere interest in supporting Five Branches students and the growth of the TCM profession. Qualifications for scholarships are primarily based on financial necessity, academic merits and strength of essay. For a list of current scholarship resources, refer to the Five Branches website, www.fivebranches.edu, under Financial Aid/Scholarships.

<http://www.fivebranches.edu/dtcm-mtcm/financial-aid/61>

Veteran Education Policies

Certificate of Eligibility (COE)

Veterans or dependents applying for VA educational benefits must obtain a Certificate of Eligibility (COE) or a Notification of Basic Eligibility (NOBE) from the Department of Veteran Affairs:

<http://gibill.va.gov/apply-for-benefits/>

When the VA processes an application for education benefits, a Certificate of Eligibility (COE) is mailed directly to the student. COE letters provide the eligibility percentage for the service member or dependent's housing, tuition and fees. If the student receives an eligibility percentage that is less than 100% for tuition and fees, the student must provide a payment method for the portion that the VA will not pay. This form must be submitted to the Registrar's office 10 business days prior to the student's anticipated program entry date.

Standards of Progress [CFR21.4253 (d) (1) (ii)]

Students certified to receive VA benefits are subject to the same enrollment, attendance, tardiness, student conduct, minimum term and cumulative GPA requirements (3.0 GPA) and all other satisfactory academic progress requirements as laid out in the University catalog and the DTCM/MTCM Student Handbook.

Students enrolled in a program and receiving VA benefits in the state of California have two additional evaluation points. These are not for purposes of determining academic standing but, rather, are for the purposes of determining continued eligibility to receive VA benefits:

Students certified to receive veteran benefits who fail to comply with the aforementioned policies will be placed on an academic review period no longer than two (2) terms. Failure to return to good academic and/or professional standing after two (2) consecutive terms will result in an interruption of benefits.

Previous Education and Training [CFR21.4253 (d) (3)]

This institution maintains a written record of previous education and training of the veteran or eligible person, which clearly indicates the appropriate credit has been given by the institution for previous education and training, with the training period (or length of the program) shortened proportionately, and the veteran notified accordingly.

For more information on Veteran education policies please contact our Veterans Affairs School Administrator:

Daryl Cullen
1885 Lundy Ave, Ste 108
San Jose, CA 95131

Tuition and Fees

Tuition Doctor of Traditional Chinese Medicine and Master of Traditional Chinese Medicine Programs

Tuition (2022-2023 Academic Year)

Tuition for the DTCM and MTCM degree program academic units is \$310 per unit for the 2022-2023 academic year. Each academic unit is equivalent to 15 hours of classroom instruction. Tuition for the DTCM/MTCM program clinical units is \$620 per unit. Each clinical unit is equivalent to 30 hours of clinical training.

The total tuition for the 3435-hour DTCM/MTCM program is \$70,990.00, approximately \$17,747.00 per year or \$6,450 per trimester. Tuition for each trimester and year is based on the number of units in which the student enrolls.

DTCM/MTCM Program Tuition (3435 hours)	\$70,990
- Tuition (1 Unit/15 contact hours)	\$310 per academic unit
- Tuition (1 Unit/30 contact hours)	\$620 per clinical unit

Tuition Doctor of Acupuncture and Master of Acupuncture Programs

Tuition (2022-2023 Academic Year)

Tuition for the Doctor of Acupuncture and Master of Acupuncture (DAc/MAC) program academic units is \$310 per unit for the 2022-2023 academic year. Each academic unit is equivalent to 15 hours of classroom instruction. Tuition for the DAc/MAC program clinical units is \$620 per unit. Each clinical unit is equivalent to 30 hours of clinical training.

The total tuition for the 2647.5-hour DAc/MAC program is \$54,715, approximately \$18,238 per year or \$6,080 per trimester. Tuition for each trimester and year is based on the number of units in which the student enrolls.

DAc/MAC Program Tuition (2647.5 hours)	\$54,715
- Tuition (1 Unit/15 contact hours)	\$310 per academic unit
- Tuition (1 Unit/30 contact hours)	\$620 per clinical unit

Additional Costs

Tuition does not include the cost of books or additional fees. Elective courses and specialization programs are additional and not included in the total tuition cost. Required books are estimated to cost approximately \$1000. For room, board and miscellaneous expenses, students should calculate approximately \$2000 per month.

DTCM/MTCM/DAC/MAC Program Fees (2022-2023 Academic Year)

- Repeat course: 50% of course tuition
- Audit course: 25% of course tuition
- Malpractice insurance: \$60 per trimester
- Student council: \$25 per trimester
- Herbs sample kits: \$45 (three trimesters only)
- Transfer fee: 15% of current tuition up to a maximum of \$500
- Make-up exams: Quiz: \$25, Midterm: \$50, Final: \$75
- Challenge exam: 30% of tuition cost per unit
- Drop course fee after first week: \$50
- Installment payment fee: \$25
- Transcript request: \$20
- Application fee: \$65 U.S.; \$100 International
- Student activities fee: \$50 per trimester
- Student Tuition Recovery Fund (Non-Refundable \$2.50 PER \$1,000 Tuition Subtotal)

Registration occurs three times per year: in November for the Spring term, in April for the Summer term, and in August for the Fall term. Students pay for the total number of units they register for each trimester, which is due in full on the first day of the trimester. For entering students, tuition is due at registration. Tuition and fees for international students are the same as for U.S. citizens and residents. Five Branches University reserves the right to change tuition and fees as necessary.

Installment Tuition Payment

If you are unable to pay in full at registration, an extended payment plan can be arranged whereby 50% of tuition costs are due the first day of the trimester, with the balance due on the 5th Monday of the trimester. The installment payment fee is \$25.

Student Right to Cancel, Withdrawal and Refund

Drop / Withdraw Course(s) and Tuition Refund

Students not attending a class in which they are enrolled must drop or request to withdraw from the class; failure to do so will result in a failing grade on the student's record.

Full Refund:

To obtain a full refund, a student must submit a drop form/request no later than the seventh (7) day after Term begins. If a student is unable to do so an e-mail from university issued account to the Registrar stating your request will be accepted. The deadline to drop course(s) and obtain a full-refund is specified in the Enrollment Agreement. A \$50 drop fee will apply for each course that is dropped after the deadline.

Pro rata Refund:

If a student chooses to drop a course after seventh (7) day after Term begins, a student may obtain a pro rata refund for the unused portion of the tuition without receiving W grade if 20% or less of the course time has lapsed.

A Student wishing to withdraw course(s) after 20% of the course time has lapsed. A withdraw course form is required to be submitted and Withdrawal (W) grade will be issued. A Student must state in writing on a Withdraw course form or an e-mail from university issued account to the Registrar. The effective date of withdrawal is the date emailed, postmarked or turned in to the Registrar. A student will receive a pro rata refund for the unused portion of the tuition and other refundable charges if the student has completed 60% or less of the enrollment period.

Please note that there is no refund for course absence(s) of any period during a term or session, or for dropping a course after 60% of the course time has lapsed. If the University cancels or discontinues a course, the school will make a full refund of all charges.

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student's federal direct loan debt. If the University cancels or discontinues a course or educational program, the school will make a full refund of all charges.

Tuition Refund Schedule

	% Completed	Tuition Refund	Drop Fee/Course	Grade Assigned
Week 1	6.6%	100%	\$0	-
Week 2	13.3%	86.7%	\$50	-
Week 3	20%	80%	\$50	-
Week 4	26.7%	73.3%	\$50	W
Week 5	33.3%	66.7%	\$50	W
Week 6	40%	60%	\$50	W
Week 7	46.7%	53.3%	\$50	W
Week 8	53.3%	46.7%	\$50	W
Week 9	60%	40%	\$50	W
Week 10-12	No Refund			W
Week 13-15	Dropping courses not permitted			

Withdrawal from the University

Students have the right to withdraw from Five Branches University. To do so they must obtain a Withdrawal form from the Registrar's Office. If they are unable to do so, a letter, e-mail or fax addressed to the Registrar with the Student's signature stating your cancellation of enrollment will be accepted.

Full Refund

If enrollment is canceled by the seventh day after enrollment or notice of cancellation is made through attendance at the first class session, whichever is later, the University will refund the student any tuition monies paid, less the deposit or application fee not to exceed \$250.00. The deadline to cancel program enrollment and obtain a full-refund is detailed in the Enrollment Agreement.

Pro rata Refund

Students may withdraw from the program after instruction has started and receive a pro rata refund for the unused portion of the tuition and other refundable charges if the Student has completed 60% or less of the enrollment period.

Withdrawal forms or Letter of Withdrawal should be sent to:

Five Branches University, Attn: Registrar.

San Jose Campus: 1885 Lundy Avenue, Suite 108, San Jose, CA 95131 / Fax (408) 261-3166 / email: sjadmin@fivebranches.edu

Santa Cruz Campus: 200 7th Avenue, Santa Cruz, CA 95060 / Fax (831) 476-8928 / email: scadmin@fivebranches.edu

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student's federal direct loan debt.

Student Tuition Recovery Fund

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, California, 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.

6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

Office of Student Assistance and Relief

“The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370- 7589, option #5, or by visiting osar.bppe.ca.gov.”

Note that the phone number and web address provided above may be subject to change. Please subscribe to Bureau updates at bppe.ca.gov to receive notifications of changes.

Student Services

The university provides a wide array of services to make your experience at Five Branches both rewarding and successful. Our student services include:

- Academic Advising
- Registration
- Mentor Program
- Health Services
- Library
- Communications
- International Student Services
- Student Council
- Externships
- Student Employment
- Career Development
- Placement Assistance
- Alumni Association

Academic Advising

The university administration offers academic advising to assist you in the planning and completion of your degree requirements. From the first trimester through graduation and beyond, the administrative team will support you to complete your Doctor's/Master's degree, to become a nationally certified and licensed TCM practitioner, in your advanced studies as a Doctoral or PhD student, and as an alumna of Five Branches University.

Registration

The registrar's office ensures that determining your class schedule and registering for classes flows smoothly. During registration you may enroll in specialized elective courses, review the dates for our annual Study Abroad program, and receive updates regarding changes in programs, campus facilities and support services.

Mentor Program

The administration and student council coordinate a mentoring program for students who need additional guidance to complete their course work, and for students who enjoy teaching as a way of learning.

Health Services

The Five Branches Health Centers are a flourishing environment for both student education and quality healthcare. As a prospective student, you may receive a free acupuncture treatment during your tour of the campus. Enrolled students receive healthcare services at the clinic with significant discounts.

Library

The Santa Cruz and San Jose library collections contain a broad selection of over 6,000 books and 40 journals on Traditional Chinese Medicine, Western medicine, and related topics. The collection includes texts and journals in Chinese and Korean. The library has a modern web-based site detailing its holdings, offering extensive guidelines for research, and a wide variety of medical software and TCM study and testing programs. The library provides wireless internet, copy and laser print services, and a professional librarian and staff to assist you. Library hours include evenings and weekends.

Communications

The University maintains internet and data platforms to facilitate effective administration, student and alumni interaction. Communications include direct email, the university's student information system, web and blog sites, and the Five Branches email and forum platform.

International Student Services

The university assists international students with guidance in their application and student visa process, and upon arrival, with advice on housing, insurance, driving license and orientation to the local community.

Student Council

The Student Council plays many roles, from sending representatives to the National AAAOM meetings, to inviting eminent TCM lecturers to speak on campus. The Council, made up of representatives from each class, meets regularly with the administration, faculty and the board, playing a vital role in enhancing the further development and growth of the university and its students.

Externships

Community externships offer you the valuable opportunity to network with experienced practitioners and gain clinical experience in a broad range of health care settings. Externship opportunities include working with senior citizens, veterans of war, mental health patients, those struggling with substance abuse, and treating individuals in a community clinic setting. The annual Study Abroad program is a coveted international externship, allowing you to travel to Asia to gain clinical experience at leading hospitals in China, Taiwan, Korea and Vietnam.

Student Employment

Students who qualify for need-based financial aid are eligible to earn money through the Federal Work Study program. Eligibility is awarded on the basis of financial need and is earned money that does not have to be repaid.

Career Development

The university offers on-going courses in practice management and marketing to assist you in your development as a successful TCM practitioner. You can refine your presentation skills by giving TCM lectures at universities, participating in annual health fairs, and speaking at public events. Five Branches supports the alumni association and promotes the exchange of ideas to foster professional development. Graduates are invited to share their expertise with students during on-campus lectures.

Placement Assistance

Five Branches corresponds with medical professionals who may be looking for qualified TCM graduates and regularly posts professional vacancies in the field of acupuncture and TCM on the Five Branches University website under TCM Careers: www.fivebranches.edu/careers.

Five Branches University and Clinic receive referral requests nationwide for competent, qualified, licensed acupuncturists. If Five Branches alumni are located within the requested area, patients are referred to these practitioners. Alumni referral information is available on the Five Branches

University website under Alumni Practitioner

Directory: <http://www.fivebranches.edu/welcome/alumni/788>. Five Branches University provides placement assistance for licensed graduates whenever possible.

Career Opportunities

The DTCM/MTCM and DAc/MAC programs prepare graduates for careers in the field of TCM as practitioners, educators and researchers. These are detailed by the US Department of Labor as SOC codes 29-1199 (Acupuncture), 29-9099 (Traditional Chinese Herbalist), and 25-1071, 25-1191, 25-3011 (Instructor).

Alumni Association

The nascent Alumni Association connects graduates to each other and to the university, on both social and professional levels. Continuing education courses and social events invite graduates to return to the university and meet with faculty, other alumni, and students. Graduates play an important role in the definition of our successful doctoral program and continue to play valuable roles in the profession.

Campus Facilities and Amenities

Health Center

Patients await their treatments in a beautifully designed reception area, while practitioners treat over 160 patients each day in our busy health centers. With a combined 38 treatment rooms, herbal pharmacies containing over 500 medicinal products, and expert patient care and clinical instruction, our health centers are the ideal place to gain experience in a clinical environment and to learn how to provide exceptional healthcare to your patients.

Herb Room

The herb room is a fragrant experience. Walls lined with wooden drawers full of Chinese herbs emanate earthy aromas, as practitioners prepare herbal remedies for their patients in the traditional way. In the herb room you will meet with practitioners to learn first-hand how to use herbal medicines to effectively treat your patients.

Classrooms

Spacious classrooms and small class sizes provide the optimal environment for dynamic discussion and meaningful teacher-student interaction. The Santa Cruz campus has six fully furnished and equipped classrooms accommodating approximately 35 students each. The San Jose campus has eight fully furnished and equipped classrooms, providing ample instruction and meeting space to both faculty and students. Classrooms may be used for continuing education seminars and special presentations in fields related to Traditional Chinese Medicine.

Equipment and Materials

Standard teaching equipment is provided in every classroom including tables and chairs, white boards, computers and overhead projectors, video equipment, anatomical models, acupuncture charts, and treatment tables for acupuncture training demonstrations. Classrooms used for clinical training are supplied with necessary acupuncture supplies such as treatment tables, sterile disposable acupuncture needles, heat lamps, electronic stimulation machines, an herbal dispensary, and TCM reference texts.

Student Lounge

A place to rest, nourish and socialize, the student lounge is fitted with comfortable seating, tables for study, a kitchen to prepare meals, wireless Internet, and a bulletin board to check out current campus events.

Library and Learning Resources

The Five Branches University Library serves both the Santa Cruz and San Jose campuses; providing access to resources that support the instructional, clinical and research needs of students, faculty and staff. You may use the library during its hours of operation and may check out library resource materials using your Five Branches Student ID card. Library hours are posted at the beginning of each trimester; hours vary by campus and trimester.

As a new student, you will receive an orientation to the library within the first two weeks of enrollment. During this orientation, you will be given a general tour of the library including the computer lab, wireless Internet, online catalog, and other available learning resources. You will be provided with a set of instructions and regulations for library use. For detailed information regarding library procedures and policies please refer to the Student Handbook or the Library and Research section of our website: <http://www.fivebranches.edu/student-life/108>

Administrative Offices

The open, friendly and accessible administrative team considers students their top priority. Whether you need assistance to plan your class schedule, secure financial aid or to voice your concerns, our administrative staff is available to assist you.

Conference Rooms

Students, faculty and staff may reserve the conference rooms for confidential consultations and meetings.

Parking

Both of our campuses have free, ample parking to accommodate the needs of students that commute.

Local Favorites

At the Santa Cruz campus, one block from the beach, lunch breaks on the ocean are a favorite pastime. Enjoy one of the many restaurants within walking distance, pick up food at a local natural food store and have a picnic on the beach, or venture over to the neighborhood park, a great place to sit and enjoy the sunshine.

The San Jose campus has a bountiful supply of restaurant and café choices in four shopping centers within walking distance offering food from around the globe. The campus is in the center of Silicon Valley, a 10-minute drive to San Jose International Airport and the modern Apple Park Circle headquarters.

Transportation

Transporting yourself to the Santa Cruz campus is easy with two designated free parking areas, numerous bike racks, and a bus stop directly in front of the student lounge. To obtain information on the bus routes in the Santa Cruz area, go to <http://www.scmtd.com>.

The San Jose campus is conveniently located at the major freeway intersection of Highway 880 and Highway 101, making your commute to and from school a breeze. To obtain information on public transportation in the San Jose area, go to www.511.org.

Housing

The Five Branches University's programs are non-residential and student dormitories or other housing is not provided. There are many available housing options in the area, from rooms available in a household to 3 bedroom-plus homes. Rentals costs range from \$500 to \$4500 per month based on size and location.

Five Branches University does not provide housing search assistance to students. If you are in need of housing, we recommend you arrive in Santa Cruz or San Jose six weeks before the beginning of the trimester. The distance between the two campuses is 40 miles. While it is possible to commute, you may wish to find housing closer to your home campus. Go to <http://www.fivebranches.edu/student-life/on-campus/549> for a list of resources to aid you in your housing search.

Campus Safety and Security

The Clery/Campus Security Act of 1990 (Title II of Public Law 101-542) requires that all colleges and universities provide annual statistics on several specific categories of crime. This report is published by October 1st of each year on the Five Branches University website: <http://www.fivebranches.edu/five-branches-university/4095>.

Any crime occurring on campus or on streets and sidewalks directly adjacent to the campus must be reported to the Student Services Director at your affiliate campus in Santa Cruz: (831) 476-9424 or San Jose: (408) 260-0208.

Academic Policies

Student Handbook

The academic policies of Five Branches University are detailed in the student handbook that is given to students during registration. To assist new students, the handbook describes student services, administrative policies, and guidelines such as grading, attendance, examinations, and leave of absence. The student handbook is edited regularly to reflect updated policies.

Maximum Program Time Frame and Part Time / Full Time Studies

The dual-degree Doctor and Master of Traditional Chinese Medicine (DTCM/MTCM) and the Doctor and Master of Acupuncture (DAc/MAC) degrees are full-time programs requiring a considerable commitment of time and energy. We recommend that students regard their studies at Five Branches as their primary objective throughout their matriculation at the University. The average curriculum load for timely completion (4 years) of the DTCM/MTCM program is 18 to 22 units per term. Five Branches University policies for the DTCM/MTCM program stipulate that full-time enrollment is a minimum of 18 program units and part-time enrollment is a minimum of 12 units. Students who need to enroll in the program part-time have up to six years to complete the DTCM/MTCM program and five years to complete the DAc/MAC program.

Academic and Clinic Class Size

To optimize learning, academic classes average 20 students. Classes that have insufficient enrollment (less than 8 students) may be postponed to the following trimester. Clinical Theater classes range from 10 to 18 students, and Clinical Rounds, Clinical Internship Rounds, and Clinical Internship classes are limited to four to eight students per section.

Attendance

If circumstances occur that cause absences of up to 13% for academic courses and clinic courses, the student is responsible to meet with the instructor to assess their academic standing in the course. Frequent tardiness and/or continued absences that interfere with a student's academic progress will be brought to the attention of the Student Progress Review Committee. Please note that instructors may have their own attendance policies that are stricter than the University policy.

Leave of Absence

The purpose of a Leave of Absence (LOA) is to provide a student with the opportunity to leave the college for an extended period of time without withdrawing or affecting their SAP calculations. A student in good standing who has successfully completed at least one (1) term may apply for a LOA not to exceed 180 calendar days. The student must complete a Leave of Absence form and submit it to the Registrar's Office for approval. The effective date for the LOA must be at the beginning of the term the student is requesting the leave and comply with appropriate requirements. All loans and other sources of funding for the term of an approved LOA will be returned to the appropriate parties. If a student was scheduled to be on Academic Probation for the term the LOA is effective, the conditions of the Academic Probation will be effective the term the student returns from the LOA. If a student does not return from an approved LOA, the grace period for applicable federal loans will begin with the last date of attendance the student was

enrolled in the program for at least a part-time study status. Students who do not return from a LOA to resume courses on or before the approved return date, will be automatically withdrawn from the program. Excluding the time taken for leave, students must complete the program within the maximum program timeframe. International Students must speak with the International Student Designated School Officer if they wish to go on leave.

Withdrawal from the Program

Withdrawal from the program requires the submission of a Withdrawal form and an exit interview with the admissions director. If you have received financial aid, you will be required to complete an exit interview with the financial aid director. Following withdrawal from the program, if you wish to reapply you are required to complete a new application for admission. Upon readmission, after an absence of one year or more, you will be required to complete the program of study that is in place in the term in which you return. All readmission is subject to approval.

Grading Policy

Five Branches University uses a letter grading system (A, B, C, F) for all academic and clinic courses. Each course syllabus describes the course's grading procedure. To remain in good academic standing, students are required to take the DTCM/MTCM or DAc/MAC program in sequential order and maintain a minimum term and cumulative grade point average of 2.75 or higher.

Cumulative Review and Competency Exams

The program offers a series of review classes to prepare students for the annual cumulative exams which are required for all students to continue their studies in good standing. Besides measuring progress, these examinations are designed to prepare students for the California state licensing and national certification exams. Students entering clinical internships are required to pass clinic competency exams.

Review Process

Review of a student's academic progress is performed each term, including the review of all final course and clinic grades, evaluations by the faculty, and attendance rosters. Any student who does not meet the established criteria for normal academic progress and professionalism will be referred to the Student Progress Review Committee.

Student Progress Review Committee

The Student Progress Review Committee (SPRC) reviews academic progress of students to ensure their success in the program. Students who need assistance to maintain good academic standing are required to meet with the SPRC to devise a plan to improve their academic performance. Students may ask the SPRC for help in finding tutors and/or other resources to assist with successful completion of the program. The SPRC is responsible for ensuring a fair and impartial disciplinary process for students who breach standards of professionalism. Most cases are resolved in ways that serve to foster the ethical development and personal integrity of students, and to provide a safe and comfortable campus environment.

Standards of Professionalism

The Standards of Professionalism policies are intended to protect the rights of all students, faculty,

staff and patients at Five Branches University while on campus and at all sponsored events. Five Branches University may impose discipline for violation of these standards of professionalism including, but not limited to dishonesty, disrespect, disrupting a professional atmosphere, substance abuse, and sexual harassment. For detailed information about the standards of professionalism policies refer to the Student Handbook.

Academic Warning and Probation

Students unable to maintain good academic or professional standing are placed on academic warning or probation. Students will be notified by letter of the reasons that led to this action and an explanation of the corresponding satisfactory academic progress requirements for the ensuing term. Student enrollment is subject to review until the student returns to good academic or professional standing. For detailed information regarding the academic warning and probation policy refer to the Student Handbook.

Academic Dismissal

Academic dismissal is termination of enrollment at the University for the in-ability to meet academic or professional standards. Failure to comply with the requirements set forth by the Student Progress Review Committee for remediation of a probationary status will result in academic dismissal. Students may appeal this action through the academic appeal process outlined in detail in the Student Handbook.

Academic Appeal

The Student Progress Review Committee (SPRC) is responsible for reviewing and approving appeals. Appeals must be submitted to the SPRC in writing, describing any extenuating or mitigating circumstances that prevented compliance with Five Branches University policies. An appeal must explain what has changed in the student's situation, and the precise steps the student will take or is taking to regain good academic standing. For detailed information regarding the academic appeal process, refer to the Student Handbook.

Grievance Procedure

Students who have complaints concerning administrative or academic policy may submit the grievance in writing to the Student Progress Review Committee (SPRC). The SPRC will review the complaint and gather all relevant information prior to making a decision.

If the complainant is dissatisfied with the decision of the SPRC, she/he may submit a written appeal with all relevant documentation to the Academic Dean and the President. Following this, the matter may be given to the Board of Directors for further review. The Board will then make one of two determinations: (1) The issue is not appropriate for the Board to consider, in which case, the decision of the SPRC is final, or (2) the Board may decide to consider the grievance, confirming or overturning the decision of the SPRC. In either case, the decision of the Board of Directors will be final.

If the complainant has made full recourse of the University's grievance process, including the Board of Directors, and believes that the University did not address and assist with their complaint, the Student may contact the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM) at 8941 Aztec Drive, Eden Prairie MN 55347.

Student Records

In compliance with the Family Education Right to Privacy Act (FERPA), student academic records are maintained by the Office of the Registrar. A student record contains all documents relating to a student's activities at Five Branches including, but not limited to: admissions, grade reports and transcripts, registration, tuition payments, correspondence, and health documents.

The University does not release school records or any other information about a student to any third party without the consent of the student, except as allowed by law. Students may view an unofficial copy of their transcript and/or request an official copy through the University's student web portal. The University permanently maintains records of academic progress.

Non-discrimination Policy

Five Branches University is an equal opportunity institution and does not discriminate on the basis of age, race, color, religion, national origin, ethnicity, gender, or sexual orientation, in the administration of admission, educational policies or employment. The University abides by Title II of the Americans with Disabilities Act, which prohibits discrimination against any "qualified individual with a disability."

Notice Concerning Transferability of Credits and Credentials Earned at Our Institution

The transferability of credits you earn at Five Branches University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the DTCM, MTCM, DAc or MAc degrees that you earn at Five Branches University is also at the complete discretion of the institution to which you may seek to transfer. If the degree(s) that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Five Branches University to determine if your DTCM, MTCM, DAc or MAc degrees will transfer.

Graduation and Licensing Requirements

Doctor of Traditional Chinese Medicine and Master of Traditional Chinese Medicine

The Doctor of Traditional Chinese Medicine and Master of Traditional Chinese Medicine Degrees are awarded to students who complete the entire DTCM/MTCM program in good academic standing and with no outstanding financial obligations to the University. The DTCM and MTCM degrees fulfill the requirements you need to take the California Acupuncture Licensing Examination and the National Certification Exam.

Master of Traditional Chinese Medicine

The Master of Traditional Chinese Medicine Degree is awarded to students who complete the entire MTCM program in good academic standing and with no outstanding financial obligations to the University. The MTCM degree fulfills the requirements you need to take the California Acupuncture Licensing Examination and the National Certification Exam.

Doctor of Acupuncture and Master of Acupuncture

The Doctor of Acupuncture and Master of Acupuncture Degrees are awarded to students who complete the entire DAc/MAC program in good academic standing and with no outstanding financial obligations to the University. The DAc/MAC degree fulfills the requirements you need to sit for the National Acupuncture Certification Exam.

Master of Acupuncture

The Master of Acupuncture Degree is awarded to students who complete the entire MAC program in good academic standing and with no outstanding financial obligations to the University. The MAC degree fulfills the requirements you need to sit for the National Acupuncture Certification Exam.

Doctor of Traditional Chinese Medicine and Doctor of Acupuncture – Bridge Program

The Doctor of Traditional Chinese Medicine (DTCM) or Doctor of Acupuncture (DAc) Degree is awarded to students who complete the entire DTCM or DAc Bridge Completion program in good academic standing and with no outstanding financial obligations to the University.

Postgraduate Doctor of Acupuncture and Oriental Medicine

The postgraduate Doctor of Acupuncture and Oriental Medicine candidate is eligible for graduation once s/he has satisfactorily completed all didactic and clinical courses, fulfilled all requirements, and obtained a passing mark at the final capstone project/oral defense. Upon graduation, students will be awarded the Doctor of Acupuncture and Oriental Medicine (DAOM) degree.

Becoming a Licensed Practitioner of Traditional Chinese Medicine

Licensure to practice acupuncture and Traditional Chinese Medicine is regulated by individual states in the United States. Other countries also have varying requirements for licensure.

Applicants who wish to practice outside California need to investigate licensure regulations in the state or country they are interested in practicing, prior to applying to Five Branches University.

Standard Occupational Classification (SOC) Codes

Traditional Chinese Medicine practitioners and Acupuncturists are classified under code 29-1291 of SOC: Diagnose, treat, and prevent disorders by stimulating specific acupuncture points within the body using acupuncture needles. May also use cups, nutritional supplements, therapeutic massage, acupressure, and other alternative health therapies.

California Licensure Examination

Students wishing to practice acupuncture in California must first obtain the state license, which requires qualifying for and passing California's written examination administered by the California Acupuncture Board. All program required coursework of the Doctor of Traditional Chinese Medicine (DTCM) or Master of Traditional Chinese Medicine (MTCM) must be successfully completed to be eligible to sit for the California Acupuncture Board licensing examination. All accounts with the administration, clinic, and library must be clear, as well as proof of an exit interview with the financial aid advisor. Students must notify the administration of their intention to sit for this examination one month prior to the examination application deadline, allowing adequate

time for processing paperwork to the California Acupuncture Board.

For the latest information about the California Acupuncture Licensing Examination and licensure in California contact:

The California Acupuncture Board
1625 N. Market Blvd, Suite N-219
Sacramento, CA 95834

Phone: (916) 515-5200
Fax: (916) 928-2204
Email: acupuncture@dca.ca.gov

National Certification Examination

The National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM) is the only national organization that validates entry-level competency in the practice of acupuncture and Oriental medicine through professional certification. NCCAOM certification or a passing score on the NCCAOM certification examinations are documentation of competency for licensure as an acupuncturist by 43 states plus the District of Columbia which represents 98% of the states that regulate acupuncture.

For the latest information concerning the national licensing exam and licensure in other states, see NCCAOM's website at <https://www.nccaom.org/state-licensure/>

For additional information on state certification requirements and contact information for the regulatory agency for acupuncture and Traditional Chinese Medicine located in each state go to: www.acupuncture.com/statelaws/statelaw.htm.

Publication Information

This Catalog is a publication of:

Five Branches University
Graduate School of Traditional Chinese Medicine

200 7th Avenue, Santa Cruz, California 95062 | (831) 476-9424
and

1885 Lundy Ave, Suite 108, San Jose, California 95131 | (408) 260 0208

www.fivebranches.edu

This catalog covers the following programs:

All courses and clinical training, except for the fully online Completion Bridge Program, are offered in the classrooms and clinics at the two campuses indicated above.

For safety, during the COVID-19 pandemic most classes are offered online.

- Doctor of Traditional Chinese Medicine (DTCM)
- Master of Traditional Chinese Medicine (MTCM)
 - Doctor of Acupuncture (DAc)
 - Master of Acupuncture (MAc)
- DTCM/DAc Completion Bridge Program (transfer program for LAc's)

The catalog was published on October 1, 2023, is effective through December 31, 2023, is updated annually or as needed, and is subject to change without notice.

The following three programs are covered in separate catalogs:

- Postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM catalog)
 - Asian Bodywork and Qigong (Extension catalog)
 - Medical Qigong Practitioner (Extension catalog)

 **FIVE
BRANCHES
UNIVERSITY**

Graduate School of Traditional Chinese Medicine

www.fivebranches.edu

Welcome

Five Branches University launched its postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) program in September 2006, and its Chinese DAOM program in October 2008. Since its inception, we have enrolled over 400 doctoral students. During this time, the significant contributions of faculty, staff and students have allowed us to realize our vision: enriching the practice of TCM through lively, thought-provoking, in-depth training with masters from Asia, the U.S. and Europe.

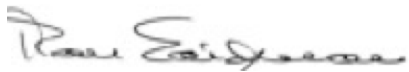

The DAOM is the highest level terminal degree in America. The program is designed to bring your TCM practice to the highest level. Expert TCM practitioners, clinical specialists and Western MD's present a stimulating and rigorous curriculum. Through extensive clinical training, exposure to research, and in-depth-instruction in a specialty of your choice you can bring your knowledge, skills and practice to a new level of expertise. Hospitals such as Kaiser Permanente and Highland Hospital, research centers such as NIH, and universities such as Stanford, already recognize and seek DAOM graduates.

We believe that Traditional Chinese Medicine will continue to play a growing and central role in healthcare and integrative medicine. Already, the U.S. Army the NIH and hospitals require the postgraduate DAOM. Our goal is to serve and we are devoted to the transmission of this profound body of knowledge to practitioners and patients throughout the US and internationally.

We invite you to visit our beautiful San Jose campus in the center of Silicon Valley to preview this exceptional program, and to take our courses online. In a personal preview or information session you will have the opportunity to evaluate the program curriculum first-hand and discern its potential impact on your current practice. Meanwhile, visit our website at www.fivebranches.edu to download the DAOM catalog and application for admission, or call us directly to request a printed catalog. Our admissions staff is available to answer your questions and to arrange a personal tour.

Thank you for your interest in the Five Branches University postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) program.

Sincerely,

Ron Zaidman President & CEO

DAOM Program Highlights

A Modern Integrative Medical Curriculum

Our modern integrative medical curriculum bridges the gap between TCM and biomedicine approaches, promoting cross-referrals and inter-disciplinary medicine. The program covers both the TCM and Western medicine perspective of a core TCM practice and each medical subspecialty of family medicine.

Clinical Training with TCM and Western Medicine Experts

Receive extensive clinical training from renowned senior TCM practitioners and biomedicine experts from China, the U.S., and Europe in the following clinic environments: the Five Branches health centers, local community clinics and hospitals, and major hospitals affiliated with our sister colleges in China.

Medical Specialization

The DAOM curriculum emphasizes advanced clinical TCM with broad exposure to family medicine (the core of a LAc.'s practice) and the option to specialize in:

- Chinese Medical Psychology and Trauma
- Neuromuscular Medicine and Pain Management
- Women's Health and Endocrinology
- Tibetan Medicine
- Auricular Medicine

Earn a Ph.D. in China

Upon completion of the program, you will be awarded a Doctor of Acupuncture and Oriental Medicine degree by Five Branches University. With an additional year of study, partially in China, you may earn a Ph.D. degree awarded by one of our sister colleges: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, Fujian University of Traditional Chinese Medicine and Liaoning University of Traditional Chinese Medicine. The Ph.D. degree is acknowledged by foreign credentials review agencies as equivalent to a Ph.D. in the U.S.

Research and Capstone Project

Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. The capstone, an extensive research project in the final phase of the program, will allow you to demonstrate mastery in formal presentation, clinical evaluation and practice, and research capability. The capstone project, focused on your chosen field of specialization, will require quantitative and qualitative analyses as well as inductive and deductive research methods.

Meets California and National CEU Requirements

Almost all DAOM courses offered throughout the program fulfill both California and national CEU requirements.

Flexible 4-Day Module Designed For Working Professionals

The two-year 56.8-unit / 1280-hour DAOM program is presented in monthly hybrid modular format of three to four-day weekend intensives. The program is 49% online with classes meeting in person every other month. This hybrid didactic schedule and flexible clinical training schedule, allows you to earn a doctorate degree in as little as 24 months while maintaining your private practice.

Trimester Admissions

Applications for admission are reviewed throughout the year. New entering students are accepted on a trimester basis, in September, January, and May.

Federal Financial Aid Available

Five Branches University is an accredited institution of higher education approved to participate in federal financial aid programs. Our financial aid programs can assist you with the financial costs of a DAOM education, including tuition, fees, books, supplies, and the cost to attend the program 3–4 days each month. Students who are enrolled in the DAOM program for a minimum of three units each trimester are eligible for in-school deferment for their Federal Stafford Loans or Consolidated Federal Loans.

Distance Education

The University offers 49% of the DAOM courses online. The online courses, designed by professional instructional designers, provide students the convenience of studying from home and not having to travel to campus. The University's distance education program is approved by its accreditor, ACAOM.

For distance education courses, the institute will provide students evaluation of their submitted assignments within two weeks.

The University

Two Campuses

Five Branches University opened its first campus and health center in Santa Cruz, California in 1984, offering Traditional Chinese Medicine education and healthcare to the residents of this thriving, coastal Northern California town. In 2005, our main objective for opening the San Jose campus, located in the heart of Silicon Valley, was twofold: to provide the best of Traditional Chinese Medicine education and healthcare to this growing high-tech area; and to have a campus located in close vicinity to important university medical programs and hospitals such as Stanford Medical School and Kaiser Hospital.

Eight Programs

Five Branches University offers five degree programs, two extension programs and a completion program related to Traditional Chinese and Integrative Medicine at its two California campuses. The majority of the classes and clinical trainings of the programs are held at the two campuses except clinical externships that are offered locally and in Asia, and the completion program which is offered fully online.

Santa Cruz Campus Programs

- Dual-Degree Doctor and Master of Traditional Chinese Medicine
- Master of Traditional Chinese Medicine
- Dual-Degree Doctor and Master of Acupuncture
- Master of Acupuncture
- DTCM/DAC Bridge Program (completion track for LAc's with a Master's degree)
- Asian Bodywork and Qigong (Extension)
- Medical Qigong Practitioner (Extension)

San Jose Campus Programs

- Dual-Degree Doctor and Master of Traditional Chinese Medicine (English and Bilingual)
- Master of Traditional Chinese Medicine (English and Bilingual)
- Dual-Degree Doctor and Master of Acupuncture (English and Bilingual)
- Master of Acupuncture (English and Bilingual)
- DTCM/DAC Bridge Program (English and Bilingual) (completion track for LAc's with a Master's degree)
- Postgraduate Doctor of Acupuncture and Oriental Medicine (English and Chinese)
- Asian Bodywork and Qigong (Extension)
- Medical Qigong Practitioner (Extension)

This catalog describes the Postgraduate Doctor of Acupuncture and Oriental Medicine

(DAOM) program. Separate publications describe the Graduate Doctor and Master of Traditional Chinese Medicine and Graduate Doctor and Master of Acupuncture degrees, and the two Extension programs.

Mission and Purpose

Five Branches University, a Graduate School of Traditional Chinese Medicine, is dedicated to educating students to become exceptional practitioners, educators and researchers.

Five Branches University is dedicated to:

- Provide the highest level of professional education in Traditional Chinese Medicine and integrative medicine in the U.S. and internationally.
- Develop highly skilled TCM clinical practitioners, educators and researchers.
- Advance the practice of TCM as an independent medical modality through clinical practice, education and research.
- Encourage professional collaboration among TCM practitioners, faculty, patients, and other medical providers to transform the worldview of healthcare; to recognize TCM as a significant component of world medicine.
- Support an international and diverse cultural community by offering our programs in three languages, and providing students the opportunity to study abroad.
- Foster a professional environment for faculty, staff and students to promote academic excellence as well as personal growth and development.
- Provide exceptional TCM and integrative medicine patient care to the community through the Five Branches University health centers
- Educate the general public about the significant benefits of TCM healthcare through continuing education programs and community lectures.

Vision and Values

Over the next 30 years, Five Branches University will evolve into an international university, teaching high-level TCM education in English and Chinese, and offering TCM healthcare in an integrative medicine environment throughout the U.S. and worldwide.

TCM philosophy views medicine as a compassionate response to human suffering. We will embrace this philosophy by encouraging supportive and humanistic academic and healthcare environments. We will support equality and oppose discriminations in any form including race, color, gender, sexual orientation or ethnicity. Our faculty members will be chosen based not only on academic excellence but also on the passion they emanate while teaching and mentoring students. Our students will be chosen for academic competence as well as their compassion and commitment to serve others.

Four trends will influence our vision over the next 30 years:

An increasing number of patients will continue to seek highly qualified TCM practitioners as primary healthcare providers. TCM schools will continue to improve their programs to provide highly skilled TCM clinical practitioners to meet this growing demand.

TCM universities in China and medical experts in the U.S. will continue to collaborate and share their expertise in TCM and Western medicine, a vital component for the advanced development of TCM doctoral programs and research.

Scientists, researchers and medical institutions will continue to research the depth and efficacy of TCM, resulting in greater acceptance of Chinese medicine among medical professionals and medical schools in the U.S.

A greater demand for integrative healthcare will evolve as healthcare professionals join together to address the population's full health needs by educating one another about their work and collaborating to provide effective treatment, prevent disease and promote optimal well-being for patients. We will continue to work to achieve equal recognition and compensation for TCM services in the health care profession.

Center for International Medicine and Education

After eighteen years of educational and medical relations with China, Five Branches University formally established its Center for International Medicine and Education. With a mission to promote cultural and professional exchange, the Center brings experts and students from the U.S. and China together to participate in international conferences and programs in Traditional Chinese Medicine (TCM), integrative medicine, medical administration, and language.

The Center's most continuous activity is its Study Abroad program which offers Five Branches students and TCM practitioners the opportunity to travel to Asia to receive specialized TCM and integrative medicine training in an affiliated hospital and out-patient center at one of our five sister schools in China, Taiwan or Korea: Zhejiang Chinese Medical University, Liaoning University of TCM, Tianjin University of TCM, China Medical University, and Daejeon University. After training in the hospital, many participants make time to travel throughout China and Asia.

In April 2004, the Center for International Medicine and Education, in partnership with Zhejiang Chinese Medical University, hosted their first international conference, *Treating Difficult Cases with Integrated Medicine*. Six representatives from Five Branches University, including eminent doctors of both Western and Traditional Chinese Medicine, traveled to Hangzhou, China to present three research papers on TCM and integrative medicine.

The Center invited leading doctors from Stanford University and the University of California, San Francisco to attend the conference, along with other medical professionals from Europe and China.

Also in 2004, the Center, along with the Director of the Center for Education in Family and Community Medicine at Stanford University, organized a series of seminars on modern hospital administration. The seminars were presented to leaders of hospitals in Foshan, Chongqing and Shantou, China.

In Fall of 2008, Five Branches inaugurated two specialized medical centers: a Diabetes Center with Dr. Gan Ma of the Zhejiang Chinese Medical University Diabetes Center, and a Head Acupuncture Institute with Dr. Shunfa Jiao, the developer of Head Acupuncture in China.

In 2012, Five Branches, in partnership with Dr. Shi Xuemin, inaugurated the new Stroke and Rehabilitation Center at both of our campuses in Santa Cruz and San Jose, California.

From 2008 through 2014, the Center invited several renowned practitioners from China to teach in the Doctoral program and practice at the Five Branches health centers.

History of Five Branches

Five Branches University was founded on an auspicious day: February 4, 1984, on Chinese New Year in the Year of the Mouse, at the beginning of a 60-year cycle. We had one classroom, a clinic with three treatment rooms, five teachers, 18 dedicated students, one patient a day, and one typewriter. Today we have two campuses, 14 classrooms, 38 treatment rooms, 200 teachers, 450 dedicated students, 1500 alumni, and we see 160 patients a day. We have grown.

From the beginning, it was our intention to invite Traditional Chinese Medicine practitioners to the West, to teach and transmit their precious knowledge of Chinese medicine and to share their subtle yet powerful ways of practicing medicine. The history of Five Branches began when several of these extraordinary yet humble practitioners of TCM accepted our invitation.

The essence of our success has been the quality and dedication of our faculty/practitioners. Jeffrey Pang, L.Ac., Joanna Zhao, L.Ac., and Lucy Hu, L.Ac., have been with us for over 30 years. Today, our faculty number over 200 distinguished members.

The most meaningful events of our history, however, are the memories of the hug and warm smile a patient gives one of our faculty members when they meet outside the clinic, the practitioner who shares how Chinese medicine saved their patient's life, and the heartfelt gratitude expressed by a graduate at their graduation for the gifts received from faculty during their time of study and training at Five Branches.

It is our comprehensive academic programs, the quality of teaching in both the classroom and clinic and the deep and sincere dedication of faculty, staff and students that have contributed significantly to the transmission of this incredible medicine into our communities and throughout the West.

History Highlights

1984-1992

- Five Branches Institute is founded on February 4, 1984
- Five Branches enrolls its first class of 18 students
- Approved as degree-granting school by the California Council of Education
- Five Branches builds a modern seven-room clinic
- The first graduating classes achieve unprecedented 100% passing rate on licensing exam
- Five Branches students travel to China for the annual Study Abroad program
- The Medical Qigong program is established

1993-2001

- Five Branches Institute receives national accreditation
- Five Branches expands the library, clinic and classrooms
- Externship clinic programs with community clinics are established
- The Sports Medicine program is established
- Five Branches expands clinic to 18 treatment rooms
- Five Branches and Zhejiang College of TCM begin to develop joint Doctoral/Ph.D. program

2002-2010

- Five Branches co-hosts the first International Conference on Integrated Medicine with Zhejiang Chinese Medical University in China
- Five Branches establishes the San Jose campus, offering the TCM Master's degree
- Stanford doctors and staff explore cooperative education with Five Branches
- The postgraduate Doctor of Acupuncture and Oriental Medicine program is established
- The Chinese TCM Master's degree program is established at the San Jose campus

2011-2020

- Five Branches celebrates its 30-year anniversary
- Five Branches students travel to Taiwan and Vietnam for the annual Study Abroad program
- Five Branches receives the maximum of 7 years institutional, Master's and Professional Doctorate degree programs re-accreditation
- The postgraduate DAOM program receives full accreditation
- The Stroke and Rehabilitation Center is inaugurated
- Five Branches co-hosts the 10th World Federation of Chinese Medicine Societies conference in Santa Clara, California with 800 participants from around the world
- The University is accredited for distance education and launches the fully online asynchronous DTCM/DAC Bridge Program.

Accreditation & Approvals Institutional Accreditation

Five Branches University is institutionally accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for freestanding institutions and colleges of acupuncture and herbal medicine that offer such programs.

Doctor of Acupuncture and Oriental Medicine (DAOM) Program

The postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) degree program of

Five Branches University, in English and Chinese, is approved by the California Bureau for Private Postsecondary Education, and accredited under applicable doctoral degree standards, by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), the recognized accrediting agency for programs preparing acupuncture and herbal medicine practitioners.

Doctor of Traditional Chinese Medicine (DTCM)

The Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM) granted Five Branches University's Professional Doctorate programs in Oriental Medicine initial accreditation for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>.

For professional licensure and other purposes, graduates of the DTCM / MTCM dual-degree program rely on the Master's degree designation to sit for National certification and State licensure. This is because the DTCM is a new program in the profession.

Master of Traditional Chinese Medicine (MTCM)

The Master of Traditional Chinese Medicine degree program, in English and Chinese, of Five Branches University is approved by the California Bureau for Private Postsecondary Education and accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for programs preparing acupuncture and herbal medicine practitioners.

Doctor of Acupuncture (DAc)

The Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM) granted Five Branches University's Professional Doctorate programs in Acupuncture initial accreditation for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>.

Master of Acupuncture (MAc) Program

The Master of Acupuncture degree program of Five Branches University is approved by the California Bureau for Private Postsecondary Education, and accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for programs preparing acupuncture and Oriental medicine practitioners.

ACAHM is located at 500 Lake Street, Suite 204, Excelsior, Minnesota 55331; phone (952) 212-2434; website – www.acahm.org

National and State Approvals

Five Branches University is a private institution recognized, approved by, or is a member of the following national and state associations:

- National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM)
- Council of Colleges of Acupuncture and Oriental Medicine (CCAOM)

- Title IV Federal Student Financial Aid Program, U.S. Department of Education
- U.S. Citizenship and Immigration Services (USCIS)
- U.S. Department of Homeland Security approval for foreign students
- Veterans Education, U.S. Department of Veterans Affairs
- California State Acupuncture Board, California State Department of Consumer Affairs
- California Bureau for Private Postsecondary Education, website www.bppe.ca.gov.

Five Branches University is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the minimum standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations.

The Bureau for Private Postsecondary Education

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to:

The Bureau for Private Postsecondary Education
 1747 North Market Blvd., Suite 225
 Sacramento, CA 95834

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or by completing a complaint form, which can be obtained on the bureau's Internet website:

www.bppe.ca.gov.

BPPE Required Disclosure

Five Branches University does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec 1101 et seq.).

Silicon Valley

Silicon Valley, the mecca of high tech, is a contemporary, high-tech metropolis, home to major players in the world of technology including Google, eBay, Twitter and Facebook. San Jose is the largest city in Northern California, with a population over one million. Attracted by mild Mediterranean weather and high wages, people from around the world have made their home in San Jose, creating the most ethnically diverse city in the nation.

Add a low crime rate and a spacious, wide-open feeling and you have one of the most livable, family-friendly locations in the west. The San Jose International Airport makes travel easy and proximity to San Francisco, Santa Cruz, and the wine country provide wonderful day trip destination getaways.

Outdoors and Athletics

With 300 days of sunshine per year, you can imagine San Joseans take good advantage of their parks and open spaces. Many walking and biking trails within the city limits provide glimpses of nature during your green commute. Local sport fans are proud of their NHL hockey team the San Jose Sharks, as well as the major soccer league team the San Jose Earthquakes. These pro games are events you won't want to miss.

Food and Local Agriculture

Once known more for apricots, plums and grapes than silicon, the fertile Santa Clara valley supplies a rich harvest of produce that can be seen on display at many area farmers' markets. As one of the oldest wine producing regions in California, Santa Clara valley has many wineries offering tours and tastings daily. Replete with international cuisine and fine restaurants, the quality and variety of dining experiences in San Jose are something to savor.

Arts and Culture

Thanks to a special city ordinance, public art is on the rise in San Jose and many pieces can be seen throughout the city in parks and downtown areas. The celebration of art and culture continues with many community events, performance companies, galleries and museums, including the renowned contemporary San Jose Museum of Art. One of the busiest venues in the world, the HP Pavilion hosts major musical acts, sporting events and conferences. The cosmopolitan Santana Row district combines shopping, dining, living and relaxing all in a beautiful tree-lined atmosphere.

Technology

Silicon Valley slowly replaced the agriculture food companies that gave San Jose its initial nickname, "The Valley of the Heart's Delight." With a population of close to four million, Silicon Valley sits in the South Bay portion of the San Francisco Bay area. Home to many of the world's largest technology corporations, it continues to be the leading hub for high-tech innovation and development.

Silicon Valley Campus

The Silicon Valley campus of Five Branches University resides in a wing of a modern two-story building, a short commute from San Francisco and the beaches of Monterey Bay.

Surrounded by a pond, the entrance leads you to the modern health center and the University, where our graduate English and Bilingual Doctoral/Master's programs and our prestigious postgraduate Doctoral program reside.

Here is a list of amenities our campus has to offer:

Health Center

Patients await their treatments in a beautifully designed reception area, while practitioners treat over 60 patients each day in our busy, modern health center. With 14 treatment rooms,

an herbal pharmacy containing over 500 medicinal products, and expert patient care and clinical instruction, our health center is the ideal place to gain experience in a clinical environment and to learn how to provide exceptional healthcare to your patients.

Herb Room

The herb room is a fragrant experience. Walls lined with wooden drawers full of Chinese herbs emanate earthy aromas, as practitioners prepare herbal remedies for their patients in the traditional way. In the herb room you will meet with practitioners to learn firsthand how to use herbal medicines to effectively treat your patients.

Classrooms

Spacious classrooms and small class sizes provide the optimal environment for dynamic discussion and meaningful teacher-student interaction. The Silicon Valley campus has five fully furnished and equipped classrooms, providing ample instruction and meeting space to both faculty and students. Classrooms may be used for continuing education seminars and special presentations in fields related to Traditional Chinese Medicine.

Equipment and Materials

Standard teaching equipment is provided in every classroom including: tables and chairs, white boards, computer and overhead projectors, video equipment, anatomical models, acupuncture charts, and treatment tables for acupuncture training demonstrations. Classrooms used for clinical training are supplied with necessary acupuncture supplies such as treatment tables, sterile disposal acupuncture needles, heat lamps, electric stimulation machines, an herbal dispensary, and TCM reference texts.

Student Lounge

A place to rest, nourish yourself and socialize, the student lounge is fitted with comfortable seating, tables for study, a kitchen to prepare meals, wireless internet, and a bulletin board to check out current campus events.

Library and Learning Resources

For students working on patient cases or preparing for exams, the library is a quiet haven for research and study. You may use the library during its posted hours of operation and may check out library resource materials using your Five Branches Student ID card.

Library resources include computer labs, wireless Internet, an online catalog, and other available learning resources. Upon your first visit to the library, you will be provided with a set of instructions and regulations for library use. For detailed information regarding library procedures and policies, please refer to the student handbook or the Library and Research section of our website: www.fivebranches.edu/student-life/108.

Administrative Offices

The open, friendly and accessible administrative team considers DAOM students their top priority. Whether you need assistance to review the curriculum, secure financial aid or to voice your concerns, our administrative staff is available to assist you.

Conference Rooms

Students, faculty and staff may reserve the conference rooms for confidential consultations

and meetings.

Parking

The San Jose Campus has a large parking lot dotted with shady trees offering more than sufficient parking for students, faculty and staff. Visitors and patients have reserved parking area that is convenient for reaching the ground-floor clinic and administrative offices.

Local Favorites

The Silicon Valley campus has a bountiful supply of restaurant choices. The campus is located within walking distance of five shopping malls, which offer food from around the globe. If you happen to be at the Santa Cruz campus for clinical training, you might have time to enjoy one of the many restaurants within walking distance, and with great views of the ocean.

Transportation

The Silicon Valley campus is conveniently located near the major freeways of Highway 680 and Highway 880 and easily accessible to the San Jose Airport. To obtain information on public transportation in the San Jose area, go to www.511.org.

Accommodations

Students in need of accommodations for the weekend can find a list of hotels on our website at www.fivebranches.edu/five-branches-university/campuses/91. If you plan to attend clinical training in Santa Cruz please keep in mind that the distance between the two campuses is 39 miles.

Housing

The Five Branches University's programs are non-residential and student dormitories or other housing is not provided. There are many available housing options in the area, from rooms available in a household to three bedroom-plus homes. Rentals costs range from \$1200 to \$3000 per month based on size and location.

Five Branches University does not provide housing search assistance to students. If you are in need of housing, we recommend you arrive in San Jose six weeks before the beginning of the semester. Go to www.fivebranches.edu/student-life/on-campus/549 for a list of resources to aid you in your housing search.

Campus Safety and Security

The Clery/Campus Security Act of 1990 (Title II of Public Law 101-542) requires that all colleges and universities provide annual statistics on several specific categories of crime. This report is published by October 1st of each year on the Five Branches University website at: <https://www.fivebranches.edu/about-five-branches/consumer-information/>

Any crime occurring on campus or on streets and sidewalks directly adjacent to the campus must be reported to the Student Services Director (408) 260-0208.

Student Services

The university provides a wide array of services to make your experience at Five Branches both rewarding and successful. Our student services include:

- Academic Advising
- Registration
- Health Services
- Library
- Communications
- Externships/Health Fairs
- Student Employment
- Career Development/Placement Assistance

Academic Advising

The DAOM administration team offers academic advising to assist you in the planning and completion of your degree requirements. From enrollment through graduation, the administrative team will support you in your advanced studies as a Doctoral and/or PhD student.

Registration

The DAOM office ensures that registering for the DAOM program flows smoothly. During registration you may talk to our staff regarding our annual China externship, learn more about the PhD opportunity, find out if you qualify for federal financial aid, and receive updates regarding changes in programs, campus facilities and support services.

Health Services

The Five Branches Health Centers are a flourishing environment for both student education and quality healthcare. As a prospective student, you may receive a free acupuncture treatment during your tour of the campus. Enrolled students receive healthcare services at the clinic with significant discounts.

Library

The Santa Cruz and San Jose library collections contain a broad selection of over 6,000 books and 40 journals on Traditional Chinese Medicine, Western medicine, and related topics. The collection includes texts and journals in Chinese and Korean. The library has a modern web-based site detailing its holdings, offering extensive guidelines for research, and a wide variety of medical software and TCM study and testing programs. The library provides wireless internet, copy and laser print services, and a professional librarian and staff to assist you. Library hours include evenings and weekends.

Communications

The University maintains internet and data platforms to facilitate effective administration, student and alumni interaction. Communications include direct email, the university's web and blog sites, and the Five Branches email and forum platform.

Externships/Health Fairs

Community externships and health fairs offer you the valuable opportunity to network with experienced practitioners and gain clinical experience in a broad range of settings. By volunteering at health fairs, you get a chance to work with other medical modalities and may have an opportunity to introduce TCM to the public by offering trial treatments. The annual China externship program is a coveted international externship, allowing you to travel to Asia to gain clinical experience at leading hospitals in China, Taiwan, and Korea.

Student Employment

Students who qualify for need-based financial aid are eligible to earn money through the Federal Work Study program. Eligibility is awarded on the basis of financial need and is earned money that does not have to be repaid.

Placement Assistance

Five Branches corresponds with medical professionals who may be looking for qualified TCM graduates and regularly posts professional vacancies in the field of acupuncture and TCM on the Five Branches University website under TCM Careers.

Five Branches University and Clinic receive referral requests nationwide for competent, qualified, licensed acupuncturists. If Five Branches alumni are located within the requested area, patients are referred to these practitioners. Alumni referral information is available on the Five Branches University website under Alumni Practitioner Directory: www.fivebranches.edu/welcome/alumni/788. Five Branches University provides placement assistance for licensed graduates whenever possible.

Career Opportunities

The DAOM program enhances graduates' careers in the field of TCM as practitioners, educators and researchers. These are detailed by the US Department of Labor as SOC codes 29-1291 (Acupuncture), 29-9099 (Traditional Chinese Herbalist), and 25-1071, 25-1191, 25-3011 (Instructor).

Board of Directors

Board Chair: Angela Tu, LAc

Faculty

The faculty members of the Doctoral program have been carefully selected from the many renowned Traditional Chinese Medicine (TCM) teachers in the United States, China, and Europe. Many of our faculty descend from a lineage of TCM Masters in China and have over 40 years experience practicing and teaching TCM. Several have trained in China's most prestigious TCM universities and hospitals, such as Shanghai University of TCM, Beijing University of Chinese Medicine, Guangzhou University of TCM, Liaoning University of TCM, Tianjin University of TCM, Fujian University of TCM, and Zhejiang Chinese Medical University. DAOM faculty also includes seasoned medical doctors who teach Western Medicine classes. Most of our instructors are fluent in English; Chinese-speaking faculty are accompanied by competent translators. All of our DAOM faculty are experienced and successful, teacher-practitioners, and demonstrate a dedication to TCM and a passion for healing.

Anderson, John	L.Ac., DAOM Specialization Gu Syndrome
Chang, Chi-Jen	Master, National Taiwan University, Taiwan, Apprentice of Master Zhang Guoyang, Specialized in Shang Han Lun pulse diagnosis.
Chen, Jing	Doctoral Guest professor, Five Branches University, California Specialized in Orthopedics
Chen, Qiumei	Master of Medicine, Tianjin University of Traditional Chinese Medicine, Tianjin, China PhD from Tokyo University, Tokyo, Japan
Chen, Zelin	MD, Professor, Master's Advisor, Tianjin University of Traditional Chinese Medicine Department of Acupuncture, Tianjin, China Specialized in Standardization of Acupuncture, Bleeding and Cupping.
Cheung, Samson	Founder of School of Yimutology, Oakland, CA Specialty: I-Ching
Chi, David	Professor, DAOM Advisor, Five Branches University, California Specialties in pain management, anti-aging, Alzheimer's prevention, and Parkinson's disease.
Chung, Michael	PhD in TCM, Tianjin University of Traditional Chinese Medicine, Tianjin, China Chairman of British Columbia Acupuncture Board, Canada Expert in Master Tung's Acupuncture
Collins, Marie France	L.Ac., MSTOM Professor and clinician
Fang, Benzheng	Doctoral Professor, Five Branches University, California Expert in Fang's scalp acupuncture

Feng, Baolan	Guest Professor, Guangxi University of Traditional Chinese Medicine, Nanning, China Specialized in traditional acupuncture methods, such as Scalp Acupuncture, Abdominal Acupuncture, and Umbilical Acupuncture.
Feng, Duxiong	Chief Physician, Shanghai First People's Hospital Department of TCM Gynecology, Shanghai, China Specialized in Gynecology
Feng, Ninghan	Specialist, TCM clinic of Zhejiang University of Traditional Chinese Medicine Specialized in Nine-Palace Acupuncture.
Fu, Puying	Professor and Doctor Advisor, Five Branches University, California Specialized in herbal medicine.
Fu, Xingguo	OMD, Graduate School of China Academy of Chinese Medical Sciences, California Specialty: Infertility of Men & Women
Grieve, Rick	PhD (dept. lead) – Professor and research
Guo, Jianan	Professor and Doctoral advisor, Five Branches University, California Specialized in Orthopedics.
Hao, Wanshan	Professor, Chief Physician and Doctoral Advisor, Beijing University of Chinese Medicine, Beijing, China Specialized in treatments of refractory symptoms of the respiratory system, digestive system, cardiovascular system and depression.
He, Frank	Master of Medicine, Liaoning University of Traditional Chinese Medicine, Shenyang, China Specialized in Orthopedics, Pain management and Sports medicine.
He, Yongshen	Chief Physician, Master Advisor, Department of Nephrology at First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, Tianjin, China Specialized in Nephrology
Hu, Lucy	Professor, Doctoral Advisor and Chief of TCM Pediatrics Department, Five Branches University, California
Hu, Yuefen	Professor and doctoral advisor, Five Branches University, California Specialized in Gynecology, Infertility.
Huang, Huang	Professor, Doctoral Advisor, Nanjing University of Traditional Chinese Medicine, Nanjing, China Chair of Jingfang Herbal Institute
Huang, Jinchang	Professor and doctoral advisor, Beijing University of Traditional Chinese Medicine, Beijing, China Director of the Acupuncture and Oncology Department, Third Affiliated Hospital of Beijing University of Chinese Medicine, Beijing, China Expert in Oncology.

Huang, Lichun	President, Auricular Medicine International Research & Training Center (AMIRTC) Professor, Florida College of Oriental Medicine Expert in Auricular Medicine.
Jiang, Weiming	Editor of Guangming Journal of Chinese Medicine Specialized in Classic Herbal Formulas.
Jiao, Daniel	Dean of American College of Traditional Chinese Medicine Department of Chinese Medicine, San Francisco; Doctoral Advisor
Jiao, Shunfa	Professor & Doctoral Advisor, Five Branches University, California Chairman of the Professional Committee of the World Federation of Traditional Chinese Medicine Jiao's head acupuncture Inventor
Kalzung, Yangdron	L.Ac., DAOM, Menpa (Tibet) Specialization Tibetan Medicine
Lan, Fengli	Professor and Doctoral Advisor, Five Branches University, California PhD, Shanghai University of Traditional Chinese Medicine, Shanghai, China Postdoctoral, Shanghai Jiaotong University, Shanghai, China
Lao, Jessica	Professor and doctoral advisor, Five Branches University, California Specialty: TCM Cosmetology
Lee, Taya	Adjunct faculty, Chinese herbal studies in Maryland University of Integrative Health Guest lecturer, Johns Hopkins University School of Nursing
Li, Candong	Doctoral advisor, Vice President, Fujian University of Chinese Medicine, Fuzhou, China Specialized in herbal medicine.
Li, Juan	Professor and doctoral advisor, Five Branches University, California Specialty: TCM Internal medicine.
Li, Rui	MD, Professor, Master's Advisor, Beijing University of Chinese Medicine Department of Acupuncture, Beijing, China Committed to inheriting the essence of traditional theories, especially with a systematic and in-depth study and experience of the specific acupoint theory and clinical evidence.
Liou, Dingming	MD, China Medical University, Taiwan Professor and Doctoral Advisor, Five Branches University, California Specialized in classic acupuncture.
Liu, Wei	MD, Tianjin University of Traditional Chinese Medicine, Tianjin, China Guest Professor, Guangzhou University of Traditional Chinese Medicine, Guangzhou, China Specialized in classic acupuncture
Magarelli, Paul	M.D. PhD. Specialization Women's Health and Fertility

Mao, Xiaomei	Guest Professor, Hunan University of Traditional Chinese Medicine, Hunan, China President of World Federation of Chinese Medicine YUNQI Societies
Marshall, Anita Chen	Adjunct Faculty at American College of Traditional Chinese Medicine at CIIS (ACTCM), San Francisco, CA; Bastyr University, Seattle, WA; Yo San University, Santa Monica, CA Specialized in Pharmacology and Herbal Medicine
Miller, David	M.D., L.Ac., MSTCM Specialty Integrative Physiology and Pediatrics
Pan, Nien-Tsung	Doctoral Guest professor, Five Branches University, California, Clinical Professor, Seattle Naturopathic Medical University, Washington, Guest Professor, Guangzhou University of Chinese Medicine, Guangzhou, China specialized in breast cancer
Pan, Xiufen Sophia	PhD, China Medical University, Taiwan Professor, Five Branches University, California Specialized in Shang Han Lun pulse diagnosis and herbal medicine.
Pang, Jeffery	Professor, Doctoral Advisor and Chief of Herbal Medicine Department, Five Branches University, California Specialized in Herbal Medicine
Park, Kunhye	L.Ac., DAOM Speciliazation Dietetics
Rochat de la Vallee, Elisabeth	Master is Classics and Philosophy Specialization in Chinese classics, translation and Professor
Rosenberg, Z'ev	L.Ac. MTOM Author on TCM Classical theory, Professor, Clinician
Ross, Tim	L.Ac., DAOM Specialty Herbal Theories
Rozenn, Maureen	L.Ac., DAOM Specialty Women's Health and Fertility
Shen, Xiaofen Susanna	Professor, Five Branches University, California Specialized in using Chinese herbal medicine to treat chronic fatigue and depression, TCM Cosmetology, TCM Gynecology and TCM Internal Medicine.
Shen, Xiaoxiong	Ph.D, Nippon Medical School, Tokyo, Japan. Postdoctoral, Tokyo University School of Medicine in Japan and Vanderbilt University School of Medicine TN. Specialized in Gynecology
Shiue, Horng-Sheng	Assistant Professor, Department of Chinese Medicine, Chang Gung University, Taiwan Assistant Professor, Ministry of Education, Taiwan Specialized in acupuncture and classic acupuncture techniques

Sodders, Mark	L.Ac., DAOM Specialization NIH funded Researcher, Professor
Sodders, Robyn	DAOM Specialization Pedagogy
Stickley, Brandt	L.Ac., MSTCM Specialization Chinese Medical Psychology and Trauma (dept. Lead), Classical theory
Sun, Waizhu	Guest professor, Hong Kong Chinese University, Hongkong, China Specialized in acupuncture.
Tan, Xinggui	Professor, Hunan University of Traditional Chinese Medicine, Hunan, China Expert of Chinese Herbal Medicine Dietetics
Wang, Douglas	Professor, Doctoral Advisor and Chief of TCM Internal Medicine Department, Five Branches University, California Specialized in neuropsychiatry
Wang, Huimin	Professor, Hong Kong University and Hong Kong Chinese University School of Chinese Medicine, Hongkong, China Specialized in Gynecology.
Wang, Sanhu	Director, Professor, Chief Physician and MD, Medicine of Liuzhou Hospital of Traditional Chinese Medicine First Division of Oncology, Liuzhou, China Director, Liuzhou Institute of Traditional Chinese Medicine Oncology, Liuzhou, China Mater's Advisor of Guangxi University of Traditional Chinese Medicine, Nanning, China
Wen, Chung-Kai	Doctoral Guest Professor, Doctoral Advisor, Five Branches University, California Inventor of Wen's Modern Acupuncture
Wu, Qi Andrew	Professor, Doctoral Advisor, Academic Director and Vice president, Five Branches University, California Specialized in Scalp Acupuncture and treating Immune Disorders.
Wu, Xiongzhi	Doctoral Advisor of oncology, Tianjin Medical University, Tianjin, China Specialty: TCM immunology
Yang, Guanhu	Chair Professor, US-China Joint Institute for Acupuncture & Rehabilitation Medicine at Wenzhou Medical University Clinical Assistant Professor, Ohio University Expert in TCM internal medicine
Yang, Joseph	Professor, Emperor's College of Traditional Oriental Medicine and YOSAN University of Traditional Chinese Medicine Medical PhD, Kobe University, Japan, Specialty: psychology and neuroscience

Yang, Tonghua	Professor and Doctoral Advisor, Five Branches University, California Specialized in Neurology and Sports Medicine.
Yang, Zhen	Associate Professor, Deputy Chief Physician and Academic Advisor of Graduate Students, Beijing University of Chinese Medicine School of Basic Medicine Science, Beijing, China Specialized in Geriatrics, Respiratory, Gastroenterology, Gynecology, and Immunology.
Yao, Robert	Professor, Five Branches University and Nanjing University of Traditional Chinese Medicine. Apprentice of Chinese Medicine Master Wang Qi and Master of Medicine Huang Huang.
Yen, Johanna Chu	MD (China) President of Atlantic Institute of Oriental Medicine, Florida
Young, Wei-Chieh	PhD in TCM, Beijing University of Chinese Medicine, Beijing, China Expert in Master Tung's Acupuncture
Yu, Guojun	Famous Chinese Medicine Practitioner in Sichuan, China Specialized in clinical diagnosis and herbal prescription.
Yu, Jun	Doctoral Professor, Five Branches University, California Author of "Review Book of Spirit Turtle Method, Feiteng Method and Najia Method"
Yue, Jinhuan	Doctor of Acupuncture, Heilongjiang University of Chinese Medicine, Haerbin, China Specialized in treating Stroke sequelae.
Zhang, Ji	Graduated from the Department of Traditional Chinese Medicine of Nanjing University of Traditional Chinese Medicine. Specialized in geriatric disease, spleen and stomach disease, hepatobiliary disease, gynecological disease, skin disease.
Zhao, William	Doctoral Guest Professor, Five Branches University, California Specialized in Orthopedics and Spinal diseases.
Zhao, Zhongzhen	Associate Dean, School of Chinese Medicine Hong Kong Baptist University, Hongkong, China Specialized in Herbal Medicine.
Zhou, Joy	Licensed Obstetrician and Gynecologist, Top 100 Gynecology TCM Doctor in the bay area.
Zhou, Jun	Associate Chief Physician, Yueyang Hospital of Integrated Traditional Chinese and Western Medicine Department of Gynecology, Shanghai, China Associate Professor, Graduate School of Shanghai University of Traditional Chinese Medicine, Shanghai, China Secretary, Shanghai Collaborative Center of Chinese Medicine and Gynecology, Shanghai, China

Zhu, Kangmei	Associate Dean, Shuguang Hospital, Shanghai, China Specialized in treating cardiovascular disease, digestive tract disease and women's menopause syndrome.
Zhu, Wenying Julie	Professor, Doctoral Advisor and Chief of Acupuncture Department, Five Branches University, California Specialized in Gynecology and Pain Management.
Zhu, Yanzhong Kevin	Professor and Doctoral Advisor, Five Branches University, California Specialized in theory and clinical application of TCM classics.

DAOM Program

The Doctor of Acupuncture and Oriental Medicine (DAOM) program is designed for licensed acupuncturists interested in developing advanced TCM knowledge and skills, achieving a medical specialization, and gaining valuable experience in research and teaching.

As a DAOM student you will:

- Expand and refine your knowledge and expertise in TCM patient care
- Gain the clinical treatment skills needed to work in an integrative medical setting
- Build professional relationships with TCM clinicians and other healthcare providers
- Develop yourself as a leader in the field of TCM as a practitioner, educator or researcher

Taught by renowned TCM experts, clinical specialists, and M.D.'s, this innovative and comprehensive program provides rigorous training in advanced concepts of TCM and biomedical theory. Integrating Western medicine and TCM knowledge, you will become skilled in diagnosis of disease as well as the pattern differentiation techniques practiced in TCM.

The DAOM program is offered at the San Jose campus in both English and Chinese.

A Modern Integrative Medical Curriculum

Our modern integrative medical curriculum bridges the gap between TCM and biomedicine approaches, promoting cross-referrals and inter-disciplinary medicine. The program covers both the TCM and Western medicine perspective of a core TCM practice and each medical subspecialty of family medicine.

Clinical Training with TCM and Western Medicine Experts

Receive extensive clinical training from renowned senior TCM practitioners and biomedicine experts from China, the U.S., and Europe in the following clinic environments: the Five Branches health centers, local community clinics and hospitals, and major hospitals affiliated with our sister colleges in China.

Medical Specialization

The DAOM curriculum emphasizes advanced clinical TCM with broad exposure to family medicine (the core of a LAc.'s practice) and the option to specialize in:

- Chinese Medical Psychology and Trauma
- Neuromuscular Medicine and Pain Management
- Women's Health and Endocrinology
- Tibetan Medicine
- Auricular Medicine

Research and Capstone Project

Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. The capstone, an extensive research project in the final phase of the program, will allow you to demonstrate mastery in formal presentation, clinical evaluation and practice, and research capability. The capstone project, focused on your chosen field of specialization, will require quantitative and qualitative analyses as well as inductive and deductive research methods.

Earn a Ph.D. in China

Upon completion of the program, you will be awarded a Doctor of Acupuncture and Oriental Medicine degree by Five Branches University. With an additional year of study, partially in China, you may earn a Ph.D. degree awarded by one of our sister colleges: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, Liaoning University of Traditional Chinese Medicine, and Fujian University of Traditional Chinese Medicine. The Ph.D. degree is acknowledged by foreign credentials review agencies as equivalent to a Ph.D. in the U.S.

Meets California and National CEU Requirements

Almost all DAOM courses offered throughout the program fulfill both California and national CEU requirements.

Mission and Purpose

The Doctor of Acupuncture and Oriental Medicine (DAOM) program aims to develop highly skilled TCM clinical practitioners, educators and researchers, to advance the practice of TCM as an independent and self-sufficient medical modality, and to promote integrated and collaborative clinical practice, education and research.

Program Learning Outcomes (Educational Objectives)

The program learning outcomes, or educational objectives, of the DAOM program provide guidelines for the development and teaching of the curriculum, and the assessment of student learning outcomes.

Upon completion of the program DAOM graduates will be able to:

- Create effective advanced treatment plans that address underlying illness and promote wellness
- Determine when to refer patients to outside practitioners
- Develop modern treatment plans by researching the classics
- Develop treatment plans for complex cases using specialized TCM skills
- Educate patients on the TCM theories of specific specialties.
- Evaluate the quality of published research based on industry guidelines
- Write a doctoral level capstone that includes research using the PRISMA guidelines and successfully defend the findings in an oral presentation.
- Relate TCM theories and biomedicine diagnoses to enhance patients' care
- Promote continuity of patient care through collaboration with other health care practitioners.

* Clinical Medicine Modules course scheduling and course hour allocations are subject to faculty availability. The above is a sample listing of Clinical Medicine courses that may be offered during the academic year.

Academic Calendar

The reader is referred to Five Branches University web site for the most up-to-date DAOM calendar.

DAOM Program Course Descriptions

The Doctor of Acupuncture and Oriental Medicine (DAOM) program is 1280 hours, 62.47 units in length, comprising 594 hours / 39.6 units didactic courses; and 686 hours 22.87 units clinical courses. DAOM courses are offered in a monthly modular format of three- to four-day weekend intensives, with a flexible clinical training schedule. This format allows you to earn a doctorate degree in as little as 24 months while maintaining a full-time practice.

The DAOM program includes 24 modules: 22 modules in Foundation, Clinical Medicine, and Specialization, and two modules in Research Methodology.

Foundation Modules

Enhance your clinical reasoning skills and gain a deeper understanding of the classics, the theories and techniques of case management, and modern acupuncture and TCM research. The Foundation modules include non-clinical advanced skill courses appropriate for the DAOM program.

Case Management and Presentation DFR 101

This course opens new horizons in the communication between Western medicine and TCM practitioners, and teaches the steps required for proper management of patients' cases. You will learn how to review medical literature on a particular condition or disease and gather information for presentation and discussion. Upon completion of this course, you will be able to make a presentation of medical cases in terms acceptable to the scientific community.

Through the extensive review of medical literature on a certain condition, you will become well educated on the topic you present.

Prerequisite: Master level courses

Pedagogy DFR 201

This course covers basic modern techniques of teaching in both classroom and clinical settings, enabling you to transmit your knowledge and experience in an educational environment. Upon completion of this course, you will have gained the skills necessary to become a classroom teacher of TCM as well as a clinical training supervisor.

Prerequisite: Master level courses

Scientific Foundation of Acupuncture DFR 301

This course introduces the effects of acupuncture on common medical conditions based on ongoing evidence-based research from well-established integrative medicine research centers. You will learn basic research on the mechanisms of acupuncture, and will critique acupuncture literature for its credibility and design. You will be introduced to experimental and clinical acupuncture studies enabling you to evaluate and utilize information from these

studies in the

future. Upon completion of this course, you will have gained understanding of the scientific background and mechanisms of acupuncture in common medical conditions such as cardiovascular disease, women's health issues, pain, etc.

Prerequisite: Master level courses

Co-management of Herbs, Formulas, and Pharmaceuticals

Herb-Drug Interaction DFR 401

As a result of cooperation between Chinese and Western medical modalities, the potential interactions between Chinese herbs/formulas and pharmaceutical drugs have become a growing topic of concern. This course addresses the different aspects of herb/formula/drug interactions, ranging from complementary to toxic. Upon completion of this course, you will understand the pharmacological nature of medicinal herbs/formulas, and demonstrate awareness of potential interactions between medicinal herbs and pharmaceutical drugs.

Prerequisite: Master level herbology and formula courses

Herbal Alternatives to Drugs DFR 402

The practice of medicine is now at a crossroads: countless patients are taking prescription drugs yet prefer to be treated by a more natural approach. This course will address the most commonly prescribed medications, their actions, side effects, and herbal alternatives. Proper protocols for time frames and herbal dosages will be discussed, leading to the safe reduction of pharmaceutical usage. Upon completion of this course, you will be able to describe the indications, mechanisms of action, pharmacokinetics and side effects of drugs and herbs. You will recognize herbs with functions similar to drugs, according to clinical research, and will be able to differentiate the advantages and disadvantages of both herb and drug therapy. You will be able to distinguish situations when drugs are superior to herbs and when herbs can be used as an alternative to drugs for similar or better therapeutic results, and/or with fewer side effects.

Prerequisite: Master level herbology and formula courses

TCM Classics and Contemporary Applications Clinical Applications of Shang Han Lun and Jin Gui Yao Lue DFR 501/DFC 501

This course is an in-depth study of *Shang Han Lun* and *Jin Gui Yao Lue* theories and formulas. In both classics, the theories and formulas are discussed with emphasis on their relevance to modern uses, contemporary research, and clinical applications. Upon completion of this course, you will have a greater knowledge of the history, development, and theories of TCM, an understanding of these two classical texts at a more scholarly level, and will be skilled in applying and modifying classical formulas according to patient conditions.

Prerequisite: Master level classics and clinical courses

Clinical Applications of Lingshu DFR 502/DFC 502

This course relates modern acupuncture practices and protocols with ancient wisdom found in the *Lingshu* classic. The theory behind acupuncture practices, pattern differentiation, pathology of channels, complications of pathology of channels, treatment protocols, and

acupuncture techniques will be covered. New ideas on treating common but complex disorders, such as stroke, will be introduced. These new treatment ideas will have roots in the *Lingshu* classic, normally undergoing decades of laboratory and clinical research in China, yet have proven to yield very good results from evidence based medicine. Upon completion of this module, you will learn how the wisdom in ancient TCM classics can be practiced in today's clinic and how to apply new treatment principles rooted from the *Lingshu* classic in your practice.

Prerequisite: Master level classics and clinical courses

Clinical Applications of Neijing DFE 505/DFC 505

The classics of Traditional Chinese Medicine have shaped the profession into what it is today. The classics present the original basis for the theory, diagnosis, pattern differentiation, and treatment formulation of TCM. This course is a survey of *Huang Di Neijing*, covering the historical background and philosophical perspective of *Neijing*, especially the preface of Wang Bing, who restored *Su Wen* in 751, offering a better understanding of the concepts in *Neijing*. In this course, the classics' channel syndromes and treatment are discussed with emphasis on their relevance to modern use, contemporary research, and clinical applications. Upon completion of this course, you will have a deeper understanding of the history, development, and theories of TCM and will have learned how to select the best points and meridians to treat patients according to ancient wisdom revealed by the *Neijing*.

Prerequisite: Master level classics and clinical courses

Research Methodology

Learn how to assess evidence-based medicine, review new trends in TCM research and enhance your TCM scientific thinking skills. Research Methodology courses provide you with the knowledge and skills to complete the research pre-proposal, proposal and capstone project to

fulfill graduation requirements, and to perform research of publishing quality.

Research Methodology I-IV DRR 101-401

This module introduces evidence-based medicine for clinical research and provides the knowledge required for writing and presenting the capstone project. Protocol design, hypothesis development, and gathering of evidence, including decision analysis will be discussed. The most common statistical methods will be reviewed as well as the design of clinical trials, human subject issues, and adverse effects. Peer-reviewed journals will be examined in detail and with practicality. Module IV of the series will introduce current TCM research in the

U.S. Upon completion of this module, you will be able to design, direct and implement TCM clinical research projects, and critique professional publications to assess useful articles and journals.

Prerequisite: Master level research courses

Clinical Medicine Modules

Clinical Medicine Modules cover the most relevant health conditions seen in a modern day clinic. Classroom lectures are designed to be clinic-oriented, with close relation to actual cases. Clinical Medicine modules present an in-depth discussion of clinical medical fields to deepen the student's theoretical understanding and therapeutic skills in TCM Clinical Medicine. The clinical application of classical TCM texts, modern integrative medicine approaches, and current research in both Chinese and Western clinical medicine is critically reviewed.

*Clinical Medicine courses and course hour allocation are subject to change according to faculty availability.

Orthopedic Medicine and Pain Management DCE/DCC 101

This module provides an advanced presentation of the etiology, differential diagnosis, and treatment of various diseases of the musculoskeletal system and orthopedic disorders as well as pain management as it relates to orthopedic conditions. TCM theories related to musculoskeletal conditions as well as international scientific differential diagnosis will be discussed. Faculty will share their personal clinical experience in treating physical injuries, orthopedic conditions, and pain management.

Upon completion of this module, you will have general skills to perform orthopedic examinations, and to use imaging technology to aid in the diagnosis and determination of the most effective treatment protocols.

Prerequisite: Master level clinical courses

Dermatology and External Diseases DCE/DCC 201

This module covers the etiology, pathogenesis, syndrome differentiation, treatment principles and treatment therapies of the most common dermatological disorders. These disorders include viral dermatitis, herpes simplex, herpes zoster, hives, and eczema. A TCM clinic demonstration on treating dermatologic disorders is included, enabling you to have practical hands-on experience.

Upon completion of this module, you will be able to perform basic diagnosis and pattern differentiation on the most common dermatologic disorders and give corresponding treatments, viewing the most common dermatologic disorders from both a TCM and Western medicine perspective.

Prerequisite: Master level clinical courses

EENT DCE/DCC 202

This module will familiarize you with the etiology, pattern differentiation, and treatment principles of common disorders of the eyes, ears, nose, and throat (EENT). An integrative approach to common conditions such as myopia, hordeolum, tinnitus and deafness, otopyorrhea, rhinitis, toothache, laryngitis and pharyngitis will be discussed in-depth. You will also learn to recognize red flags that might suggest a more serious pathology, requiring referral.

Upon completion of this module, you will have gained an in-depth understanding of how to perform an EENT-related physical exam, assess and diagnose EENT conditions from both a

TCM and Western medicine perspective, and treat these conditions with acupuncture and herbs.

Prerequisite: Master level clinical courses

Diabetes DCE/DCC 301

This module is designed to acquaint you with the presentation, evaluation, and management of patients with Type 1 and Type 2 diabetes. This module reviews the body's control mechanisms for insulin production and how insulin acts to maintain metabolic homeostasis. Faculty will present case studies illustrating abnormalities in the function of the endocrine system, particularly insulin production.

Upon completion of this module, you will have the knowledge to diagnose diabetes from a TCM and Western medicine perspective, identify its TCM patterns, formulate treatment plans, and prescribe both herbal and acupuncture treatments.

Prerequisite: Master level clinical courses

Gastroenterology DCE/DCC 302

This module reviews diagnosis of pathologies of the digestive tract, liver and pancreas. Topics are presented through an integrative approach, where differential diagnosis is performed based on both symptomatic and pathological viewpoints. The symptomatic viewpoint will include signs and symptoms such as vomiting, hiccup, diarrhea/constipation, and gastric/abdominal pain while the pathologic approach will be disease oriented (IBS, hernia, etc).

Upon completion of this module, you will be able to recognize red flags and make necessary referrals, perform disease diagnosis of gastro-intestinal conditions through Eastern/Western integrative approaches, identify their patterns, devise treatment plans, and administer appropriate herbal and acupuncture treatments.

Prerequisite: Master level clinical courses

Cardiovascular Diseases DCE/DCC 304

This module gives a general overview and evaluates recent advances in cardiovascular medicine as well as differential diagnosis of TCM patterns. You will become familiar with the use of various cardiovascular imaging modalities (echo, nuclear, catheterization, CT, MRI).

Emphasis will be given to the pathophysiology of cardiac illness, physical diagnosis, electrocardiography (EKG reports) and patient management. Topics include: valvular heart disease, infective endocarditis, pulmonary hypertension, coronary artery disease: acute and chronic, the electrical system of the heart, myocardial, pericardial and vascular diseases, congenital heart disease, and heart failure.

Upon completion of this module, you will be able to recognize coronary red flags and risk factors, diagnose cardiovascular conditions according to disease and pattern differentiation, and treat them with acupuncture and herbs.

Prerequisite: Master level clinical courses

Neurology DCE/DCC 305

This module introduces a method for integrating the patient interview and neurological examination with an analytical approach to neurological diagnosis and management. Cases are presented and discussed in terms of both TCM and Western medicine approaches. This module is designed to provide further understanding of the basic principles of neurological diagnosis, including the evaluation of neurological signs and symptoms and laboratory procedures for conditions such as insomnia, epilepsy, facial paralysis, wind stroke, headache (including trigeminal neuralgia), Alzheimer's disease, Parkinson's disease, and wei syndrome.

Upon completion of this course, you will demonstrate a general knowledge of the evaluation of neurological disorders and able to determine the most effective treatment protocol using acupuncture and herbal formulas.

Prerequisite: Master level clinical courses

Allergy and Immunology DCE/DCC 307

Proper function and malfunction of the immune system will be reviewed from both Western and Chinese medical points of view. Allergy and asthma, irritable bowel syndrome as well as the more complex autoimmune disorders such as lupus and other rheumatic pathologies will be discussed.

Upon completion of this module, you will have gained an in-depth understanding of how biomedicine and Chinese medicine view the function and malfunction of the immune system. You will also be able to apply treatments for the allergy and immunology conditions taught in class and analyze similar conditions based on materials presented.

Gynecology and Obstetrics DCE/DCC 401

This module provides in-depth knowledge and skills to diagnose gynecological diseases from TCM and Western medicine perspectives, identify disease patterns, devise treatment plans, and administer appropriate herbal and acupuncture treatments. Faculty will share valuable clinical experiences in the treatment of pre/postmenstrual conditions, dysmenorrheal conditions, infertility, and pre/post-partum care.

Upon completion of this module, you will have gained competency in reading and evaluating lab reports, and improvement in gynecology and obstetrics clinical performance

Prerequisite: Master level clinical courses

Pediatrics DCE/DCC 501

This module presents the interrelation between the child's environmental, social, and educational factors and his/her growth and development. It emphasizes the unique socio-behavioral aspects of interacting with the pediatric-family population. You will be exposed to management of common pediatric diseases such as immunity and allergic conditions, gastrointestinal tract disorders and respiratory diseases, and psychiatric disorders. Other conditions such as enuresis and ear infection will be discussed as well as the use of pediatric tuina and acupuncture needling techniques.

Upon completion of this module, you will acquire understanding of the factors involved in the normal physical and mental evaluation of a child from birth to adolescence, and will be

able to recognize and understand common childhood diseases, their diagnosis, treatment, and prevention.

Prerequisite: Master level clinical courses

Psychiatry and Psychotherapy DCE/DCC 601

This module presents an overview of psychopathology and psychotherapy techniques. It examines the development of human behavior across the life span. Within a developmental context, you will explore the dynamics of human behavior as determined by intrapersonal systems, interpersonal connections, societal patterns, and cultural influences and as altered by significant life events. Topics such as applied psychotherapy techniques, and depth psychotherapy techniques for manic-depressive syndrome will be discussed. Lectures and clinical training will be from both TCM and Western medicine perspectives to allow you to have a more comprehensive understanding of this fast growing field.

Upon completion of this module, you will be able to practice basic psychotherapy techniques in clinic, confidently handle patients with psychological complaints, and select appropriate herbal and acupuncture treatments.

Tung's Acupuncture in Pain Management DCE/DCC 801

This module provides a comprehensive discussion on how pain is treated using principles of Master Tung's acupuncture. Starting from an overview of the foundation principles of Tung's acupuncture, the module gradually enters into the more specific pains. Tung's principles in the treatment of pain are introduced in a systematic way to guide you into the deeper and practical use of these points. The features of Tung's extra points and pattern differentiation are discussed as an overview to the theoretical foundation of Tung's extra points. The specific pains in different parts of the body, including those caused by viscera diseases, follows the overview.

Clinic demonstrations on how to practically use the principles and technique will enable you to have practical hands-on experience.

Upon completion of this module, you will have learned the basic principles and academic thought of Master Tung's acupuncture, allowing you to practice these techniques in your clinic to treat various pain conditions.

Prerequisite: Master level clinical courses

Five Element Acupuncture DCE/DCC 802

In this module, you will learn to apply the Five Elements to diagnose and treat the qi that underlies our inner nature. You will explore the elements in greater depth in terms of Jungian archetypal models, the eight trigrams of the I Ching, and their corresponding family of the Twelve Officials. There will be multiple practical exercises to bring these concepts into their clinical applications. This module will cover how imbalances in the Officials express themselves in the patients' physical, mental, emotional, and spiritual lives. You will explore how imbalances in one Official affect the associated elemental pair, its Ko cycle pair, and the creative Shen cycle.

Upon completion of this module, you will have gained a deeper understanding of the relationships between Five Element theory and other classical Western and Eastern models, especially addressing emotional issues and spiritual levels. Your skills in choosing points

will be increased, which will support the patient's psychological and spiritual well being. You will also develop a more personal relationship with the Officials, which will enhance your ability to recognize and treat the Officials directly.

Prerequisite: Master level clinical courses

Abdominal Acupuncture DCE/DCC 807

This module is a practical introduction to Abdominal Acupuncture, a unique therapeutic system created by Prof. Zhi-yun Bo based upon over thirty years of clinical research and his discovery of the prenatal channel system, the Shen Que. Abdominal Acupuncture integrates Western medicine diagnosis with Zangfu pattern identification, using disease-specific point formulas with a manualized treatment procedure protocol. These characteristics improve clinical results, enable reproducibility for clinical research, and make it safe and virtually painless. It is ideal for harmonizing organ qi and blood and treating chronic disease.

The Abdominal Acupuncture module focuses on the treatment of chronic musculoskeletal pain, and diseases of the neck, back and upper and lower extremities. You will learn the basic theory of this therapeutic system, related to its clinical application, point location techniques, point functions, and the treatment application protocol. Point formulas for common but complex neurological and orthopedic disorders such as stiff neck, cervical spondylosis, lumbar vertebral disease, degenerative bone and joint disease of the knee, and sciatica will be discussed. Evaluation techniques for these issues will also be reviewed in detail.

Prerequisite: Master level clinical courses

Special Topics With Volker Scheid - Qi Physiology Treatment Strategies DCE/DCC 901

In the works of many physicians of Chinese medicine, qi dynamic and qi transformation constitute central aspects of physiology, pathology and therapeutics. In modern TCM, the physiology and pathology of qi is often reduced to the function of a single organ—the liver— significantly reducing the scope of a more complex understanding of life, reducing therapeutic effectiveness. This module will deepen your understanding of qi physiology through the study of classical sources. These sources will relate directly to classical and modern case studies, making them relevant to everyday clinical practice. Topics covered are: qi transformation and the qi dynamic, the physiology and pathology of different types of qi, and acupuncture and herbal medicine treatment strategies for qi pathologies.

Upon completion of this course, you will be able to improve your knowledge and skills by gaining a deeper understanding of qi and its physiology and pathology, experiencing different types of qi in your own body and in your patients, and learning how to diagnose, differentiate and treat different types of qi pathology.

Prerequisite: Master level clinical courses

Integrating Chinese Medicine into Contemporary Healthcare DCE/DCC 902

This course consists of two presentations followed by discussion and debate, to engage students to become more self-reflective on issues of the Chinese medicine research process, to open new avenues for how clinical research in Chinese medicine might be conducted. These two presentations center on controversial issues surrounding TCM research in an evidence-based healthcare setting: (1) From hierarchies to process in Chinese medicine research, and (2) Emergent versus enforced consensus: interdisciplinary action research as

new model for Chinese medicine research.

Upon completion of this module, you will have gained an understanding of research in relation to Chinese medicine in a manner that is both theoretically meaningful and clinically relevant to your own practice. Using the research on menopause as an example, you will learn an interdisciplinary research program that places the need of practitioners and patients first.

Prerequisite: Master level clinical courses

Treatment Strategies for Internal Organs DCE/DCC 903

In this module, you will review 16 strategies for treating the Spleen, emphasizing the influence of the “Yishui current” of Zhang Yuansu and his student Li Dongyuan, the continuation of their ideas in the doctrines of the “warm supplementation current” associated with physicians such as a Zhang Jiebin and Zhao Xianke, and their later critics such as Ye Tianshi.

Upon completion of this module, you will be able to treat Spleen disorders more effectively, using the 16 strategies, and will have gained an in-depth understanding on the transformation of ideas from the “Yishui current” to “Warm Supplementation current” through history.

Prerequisite: Master level clinical courses

Constraints and Emotion-Related Disorders DCE/DCC 904

Today, Traditional Chinese medicine (TCM) is practiced worldwide, rivaling biomedicine in terms of its globalization. One of the most common TCM diagnoses is “Liver qi constraint,” commonly treated by an herbal formula dating back to the 10th century. In everyday TCM, biomedical disease categories such as depression or anxiety, and popular disease categories such as stress are often conflated with the Chinese medical notion of constraint. Medical anthropologists, meanwhile, argue that constraint reveals to us a distinctive aesthetics of constructing body/persons in Chinese culture, while psychologists seek to define constraint as a distinctive psychiatric disorder distinctive from depression and anxiety. All of these actors agree in defining constraint as a concept dating back two thousand years to the very origins of Chinese medicine. This module disassembles the articulations by means of which these different facts about constraint are constructed. It shows how ideas about constraint as a disorder caused by the penetration of external pathogens into the body were gradually transformed from the eleventh century onward into constraint as an emotion-related disorder, while treatment strategies were adjusted to match perceptions about body/self that developed among the gentry elite of southeast China in late imperial China.

Upon completion of this module, you will understand how constraint as a disorder, caused by the penetration of external pathogens into the body, were gradually transformed from the eleventh century onward into constraint as an emotion-related disorder.

Prerequisite: Master level clinical courses

Specialization Modules

Specialization modules provide you with the opportunity for advanced academic and clinical training in a chosen field of expertise. You will choose two specializations in which to perform in-depth study through advanced lectures in TCM and Western medicine. You will

observe leading practitioners with decades of experience treating patients in a clinical setting and consult with expert faculty when dealing with complicated cases. This extensive training provides an Eastern/ Western integrative approach to improve your ability to practice TCM as an independent and self-sufficient medical modality.

Auricular Medicine and Cerebro and Cardiovascular Diseases modules are offered based on faculty availability.

Women's Health and Endocrinology I-III DSE/DSC 101-301

TCM has a unique approach to treating disease related to women's health. Although both TCM and Western medicine understand the importance of homeostasis for proper bodily function and health maintenance, they have different ways of reaching this objective. TCM treatments, whether herbal or acupuncture, are aimed at restoring the body's inherent balance, while Western medicine often utilizes hormonal replacement therapies.

In this series, an integrative approach to complicated issues in women's health and endocrinology such as infertility, pre/post-menopausal syndromes, gynecological benign tumors, polycystic ovarian syndrome, pregnancy disorders, diabetes, thyroid dysfunction, etc. will be reviewed extensively. Upon completion of this specialization series, you will have gained the knowledge to diagnose and treat gynecological and endocrinal complex conditions with increased confidence.

Prerequisite: Master level courses

Neuromuscular Medicine and Pain Management I-III DSE/DSC 102-302

In this specialization series, you will be introduced to the concept of physical medicine and rehabilitation, learning to manage patients with orthopedic and neurological conditions from the diagnosis, handling, support, and treatment point of view. Emphasis is placed on pain management as it relates to post-traumatic orthopedic care, degenerative conditions, and entrapment neuropathies, including discussion on the evaluation and treatment of neuro-degenerative and post stroke conditions.

Clinical training offered by leading practitioners in the field of neuromuscular medicine will provide you with invaluable experience to deliver comprehensive care, utilizing both acupuncture and other treatment modalities, to patients with neurological and orthopedic disorders. Upon completion of this specialization series, you will be able to advance your clinical practice of neuromuscular medicine and pain management to a higher level.

Prerequisite: Master level courses

Auricular Medicine I-III (optional) DSE/DSC 103-303

Auricular medicine is a scientific medical practice which can diagnose and treat disease solely through the ears. More than 200 diseases and symptoms of past and present medical history can be diagnosed by studying the ear; future diseases and symptoms can also be predicted. This specialization series provides in-depth knowledge of auricular medicine as taught by Dr. Lichun Huang (www.earmedicine.us) beginning with fundamental concepts and building into advanced practices in auricular medicine.

Upon completion of this specialization series, you will have a deeper understanding of the theoretical and clinical application of auricular medicine, from basic concepts and specific auricular points to diagnostic and treatment methods. You will be skilled in the identification

and location of auricular points, methods of diagnosing disorders, as well as how to use auricular medicine in your clinical practice. This series must be taken in order of sequence.

Prerequisite: Master level courses

Cerebrovascular and Cardiovascular Diseases I-III (optional) DSE/DSC 106-306

Cerebrovascular and cardiovascular disease is among the leading cause of death and disability in today's world. Although Western medicine has its merits in dealing with these conditions, TCM has its own unique advantages in helping patients recover from its devastating effects.

This specialization series discusses cerebrovascular and cardiovascular disease from an integrative perspective, emphasizing the advantages and disadvantages of both TCM and Western medicine in dealing with these disorders and their long-term sequelae. The concept of "Awakening the Brain and Opening the Orifices" in treating post-stroke patients will be discussed in the classroom while extensive practice of treatment techniques will be performed in clinic.

Upon completion of this specialization series, you will be able to master the different approaches TCM and Western medicine take in treating patients with cerebro and cardiovascular disease, and will develop the mastery of "Awakening the Brain and Opening the Orifices" clinical techniques to treat post-stroke patients

Prerequisite: Master level courses

Practicum Training

Practicum training provides you with the opportunity to practice what has been learned throughout the DAOM program. Clinical and Specialization Practicum allows you to practice clinical techniques and protocols under the guidance of a faculty member or specialist in the clinic, a hospital in China, or in your own practice. Professional Practicum provides training in other valuable skills cultivated by the DAOM program such as teaching, clinical supervision, and research.

Clinical Practicum DTC 101

In Clinical Practicum, you will spend 150–300 hours in the clinic treating patients, applying what you previously learned in the Clinical Medicine modules. Clinical practicum hours can be completed through training under a preceptor, in Doctoral Grand Rounds, with Five Branches faculty, in a China externship, or in independent study. Specific details and restrictions are outlined in the Clinical Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Specialization Practicum DTC 201

In Specialization Practicum, you will spend an additional 160 hours in clinical training, practicing the techniques and treatment protocols of your chosen specialization. Specialization practicum hours can be completed through training under a preceptor, in Doctoral Grand

Rounds, with Five Branches faculty, in a China externship, or in independent study. Specific

details and restrictions are outlined in the Specialty Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Professional Practicum DTC 301

In Professional Practicum, you will have the opportunity to put the skills and knowledge you learned in the Foundation modules into practice. You will fulfill

50–200 hours teaching in the classroom, supervising in the clinic, in the role of administrative services, providing quality assurance, and through clinical research activities. Specific details and restrictions are outlined in the Professional Practicum section of the program catalog.

Prerequisite: Master level clinical courses

Capstone Project

In the final phase of the program you will complete an extensive research project to demonstrate mastery and synthesis of the knowledge and skills acquired in presentation, clinical evaluation and practice as well as research capability. The capstone project is implemented using quantitative and/or qualitative analyses as well as inductive and/or deductive research methods. You will apply evidence-based knowledge of preventive, therapeutic and rehabilitative interventions to individuals, families and/or population groups. The capstone project is a comprehensive evaluation and assessment of your achievements in the Doctoral Program

Capstone Proposal Presentation DRR 701

The Capstone Proposal Presentation is one of the first steps to help you articulate your research project. You will be asked to propose a project topic of your interest including: why this topic is important to you, your plans for implementation, and the results you expect. You will present this project in its preliminary proposal stage and receive feedback from the panel and audience consisting of fellow students in class.

Prerequisite: Submission of capstone pre-proposal

Capstone Project Paper, Presentation and Defense DRR 501, 601

After your capstone proposal presentation has been reviewed and approved, you will perform extensive research and literature review on your chosen topic. You are expected to analyze your research from both TCM and Western clinical medicine perspectives. The Capstone Project Paper/Presentation and Defense will allow you to demonstrate the ability to comprehensively synthesize the skills and knowledge acquired from all the modules you have taken in the program, culminating in the presentation and defense of your research in front of a panel of

faculty and class.

Prerequisite: Capstone pre-proposal, capstone proposal, capstone proposal presentation

Earn a PhD in China

Five Branches University offers a joint DAOM/PhD program for students who wish to earn a

PhD at one of our four sister colleges in China: Zhejiang Chinese Medical University, Tianjin University of Traditional Chinese Medicine, Liaoning University of Traditional Chinese

Medicine, and Fujian University of Traditional Chinese Medicine.

Studies completed in the DAOM program are transferable to the PhD program in China, allowing you to earn a PhD from a China TCM University with only one additional year of study. This PhD degree is recognized by the Chinese government and U.S. foreign credential review agencies as equivalent to a PhD degree in the U.S. The PhD credential may offer doctoral graduates the opportunity to obtain grants and teaching positions in American universities.

Admissions Process

You must indicate your interest in enrollment in the China PhD program at time of enrollment in the DAOM program. To apply please submit the following documents to Five Branches University:

- Photocopy of the picture page of your passport
- Completed PhD Application form
- Passport style photos
- Resume or CV
- Recommendation letters
- Health examination form
- Non-refundable application fee

The list of application documents required vary slightly depending on the China PhD program you apply to. Please consult with the Five Branches University Director of Foreign Affairs before sending in your application package. Applications need to be submitted within the first six months of entering the DAOM program.

According to regulations of the Chinese Department of Education, the China PhD program is only available to non-Chinese citizens. Those who hold a passport from Mainland China, Taiwan, Hong Kong, and Macau are not eligible for the DAOM/PhD joint program.

Specialization Opportunities

You may choose from a wide range of specializations offered by our Chinese sister colleges. Once you designate a specialty you will work closely with Five Branches personnel, the Chinese university, and a supervisor knowledgeable in your chosen specialty. For details on specialization requirements contact the DAOM administration.

Period of Study

The minimum amount of time to complete a China PhD program is three years. You will need to choose a Chinese university, your specialization, and apply within the first six months of enrolling in the DAOM program. The first two years of coursework completed in the Five Branches DAOM program also applies to the coursework for the China PhD program. Each

Chinese university has different requirements for their PhD program ranging from: requiring additional coursework, needing to reside in China for six months, and/or visiting the supervisor for one month every year. You are required to complete the China PhD program within six years.

Tuition

The tuition for the China PhD program varies from \$10,000 to \$21,000 depending on the university chosen. Tuition is payable yearly and covers classroom study, research expenses, PhD advisor fees, and clinical training. Once you have applied for the China PhD program you can withdraw your application at the completion of any year if necessary. U.S. federal financial aid is not available for the PhD program.

Admissions

Five Branches is interested in enrolling students into the DAOM program who are dedicated to offering exceptional healthcare to the public and who have a strong desire to expand and enhance the field of TCM. If you are a licensed acupuncturist interested in: developing advanced TCM knowledge and skills, learning how to integrate Western medicine with TCM, contributing in the field of TCM research, and/or serving as a teacher to the next generation of Traditional Chinese Medicine students, you are strongly encouraged to apply.

The DAOM program is offered at the Five Branches University San Jose Campus, located in the heart of Silicon Valley. Easily accessible by highway or air, the San Jose campus is just minutes away from the San Jose Airport. San Jose is a multicultural environment offering you fertile ground for the exploration of TCM and inter-disciplinary medicine.

Courses in the DAOM program are offered once a month during three to four-day long weekends to allow you to earn a doctorate in as little as 24 months, while maintaining a full-time practice. Clinical training is flexible and is scheduled apart from the weekend intensives. Almost all modules of the DAOM program fulfill both California and National CEU requirements.

Visit Five Branches

The best way to experience Five Branches University is to visit. We invite you to meet the individuals who are the essence of our community and to immerse yourself in the environment of our classrooms and health centers, rich in the beauty and culture of Chinese medicine.

The San Jose campus resides in a modern high-rise office building located across from the prestigious Santana Row, within walking distance of sidewalk cafes, luxury shops and beautiful fountains. A welcoming courtyard leads you to the Health Center and University where our doctoral program provides licensed acupuncturists the opportunity to train with TCM and Western medicine experts from China and the U.S.

Campus Visit

A campus visit is the most effective way to get an up close and personal look at the Five Branches community. Enjoy a personal tour to explore how comfortable the facilities and environment feels to you. Experience a free treatment in our clinic, observe our classes and clinical training, and meet the DAOM faculty, staff and students of Five Branches. This is an excellent opportunity to learn more about the DAOM program, the admissions process, financial aid, and to gain the information necessary to assist you with your decision to attend Five Branches University.

Info Sessions

Schedule a time to speak with DAOM staff to gain a better understanding of the program as well as the social community you will enjoy at Five Branches. Video meetings can be scheduled to discuss how different aspects of the program will relate to you. Contact us to schedule a campus visit or to sign-up for an info session.

Request Information

If your schedule does not allow you to visit at this time and you would like to receive more detailed information about the DAOM program, please call or email our admissions staff. We are happy to answer any questions you may have.

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

Applying to Five Branches

Once you have made the decision to enroll in the Doctor of Acupuncture and Oriental Medicine program you are now ready to begin the application process.

Trimester Admissions

Applications are reviewed throughout the year. New entering students are accepted on a trimester basis, in September, January, and May. Completed applications and supporting documents must be received two weeks before the entrance date to allow time for processing.

Application Due Dates and Entrance Dates

The Spring, Summer and Fall trimesters start in January, May and September respectively, and admissions applications are due at least one month before the beginning of the trimester.

The exact application due dates and entrance dates are detailed on the University's web site, www.fivebranches.edu under DAOM.

Standard Admissions

Applicants who have a Master's degree (or Master's level diploma) in TCM or Oriental Medicine from an ACAOM-accredited or ACAOM-candidate program, with at least 2800 hours, will be considered for admission to the DAOM program.

Special Admissions

Applicants with the following educational background may be considered for special admission to the DAOM program:

- Master's degree (or Master's level diploma) in TCM or Oriental Medicine with less than 2800 hours from an ACAOM-accredited or ACAOM-candidate program
- Master's degree (or Master's level diploma) in Acupuncture from an ACAOM-accredited or ACAOM-candidate program
- Apprenticeship route licensed practitioners with at least five years of documented full-time clinical experience
- Applicants who do not otherwise meet the criteria for standard admission with proper demonstration of experience equivalency.

Applications indicating a deficiency in education hours will be evaluated based on formal education hours and clinical experience. Applicants who fall under the Special Admissions category may be required to take a challenge exam to complete educational requirements for

the DAOM program. Applicants with a Master's degree (or Master's level diploma) in Acupuncture are required to satisfactorily complete the ACAOM's Master's core curriculum requirements for herbal training through an ACAOM accredited Oriental medicine program.

Non-Matriculating Students

The admissions procedure and entrance requirements for non-matriculating applicants are the same as for degree-seeking applicants. Non-matriculating students need to request a change of status to become degree-seeking students after the first year of studies.

Part-time Students

Students who cannot commit to the full-time DAOM program and plan on completing the program in more than two years are considered part-time students. Part-time students must meet with the Program Coordinator to plan their program of study, and complete the program within four years.

Transfer Credit

Limited transfer credit may be awarded for coursework from an accredited institution that supports the Doctoral program's objectives and meets the standards for completion of the Doctoral program. No more than one-third of the credits beyond the Master's level program can be transferred. Transfer credit is subject to 15% of the current DAOM tuition charge per transferred module.

Five Branches University does not currently have any articulation or transfer agreements with any colleges or University. At the same time, the admissions office provides a list of courses offered by neighboring colleges that are accepted for transfer into the degree programs.

The University does not offer an Ability-to-Benefit plan.

Transfer Credit Earned through Challenge Examination or Achievement Tests

Credit earned through assessment or achievement examinations at other Traditional Chinese Medicine schools are non-transferable. Transfer credit is not available for work, experiential learning or life experience.

Completing the Application for Admission

To be considered for admission to Five Branches University, the following items are required:

1. Application Form: use your full legal name on all admission documents
2. Passport-style photograph: recently taken
3. Statement of Purpose: one-page typewritten
4. Resume: updated to present
5. Two Letters of Recommendation sent directly to Five Branches University
6. Official transcripts from all AOM and healthcare related college/university

- coursework in university-sealed envelopes
7. Copy of Master's level diploma in TCM, Oriental Medicine, or Acupuncture
 8. Copies of California L.Ac. pocket license, state license or national certifications (if applicable)
 9. Copy of valid malpractice insurance (if applicable)
 10. Non-refundable \$65 application fee, payable in check or money order to Five

Branches University Additional documents are required for international applicants. For more detailed information refer to the Five Branches University website:
<http://www.fivebranches.edu/doctorate-daom/doctorate-admissions/49>

The Admissions Process

Admission Interview

Once your application package and all supporting documents have been received, a phone interview will be scheduled, or you will be invited to Five Branches University for a personal interview with members of the admissions committee. The admissions interview is a mutually beneficial process, allowing you the opportunity to acquire additional information not gained in previous interactions with Five Branches, while the admissions committee can get to know you on a more personal basis.

Application Review

After your interview, your file will be reviewed by the admissions committee. In evaluating applicants, the committee takes into consideration many factors including academic achievement, professional experience, recommendations, accomplishments, personal character and future potential.

Admissions Decision

You will be notified in writing once a decision has been made by the admissions committee, within two weeks after your application review.

Deposit

Upon notification of acceptance you will be asked to reserve your space with an enrollment deposit of \$150. The deposit is non-refundable and will apply to your first tuition payment.

Waiting list

If there is not available space in the upcoming DAOM entrance term, applicants may be placed on a waiting list. We will inform you of your position on the waiting list and will notify you if space becomes available. If space is not available, those on the waiting list can elect to have their application brought forward to the next entrance term.

International Applicants

Five Branches University welcomes international applicants from all over the world. We support a multicultural and multilingual environment, offering our Doctorate program in English and Chinese, and our Doctor and Master of Traditional Chinese Medicine and Doctor

and Master of Acupuncture in English and Bilingual (English/Chinese).

Five Branches defines an international applicant as someone who is a citizen or permanent resident of a country other than the United States who wishes to pursue a Master's or Doctorate degree at our university. Five Branches University is authorized under federal law to enroll non-immigrant alien students and complies with all federal guidelines and directives of the U.S. Citizenship and Immigration Services (USCIS).

International applicants follow the same application and admissions procedures as required of resident students, in addition to meeting the international application requirements. We recommend international applicants begin the admissions process six months to one year prior to the desired enrollment date. International students are not eligible for U.S. federal financial aid.

International Application Requirements

If you are an international applicant applying for an F-1 student visa through Five Branches University, you must submit the following documents along with the completed application. It is important to write your name (as it appears on your passport) on your application and all supplemental documents.

1. A photocopy of the name and picture page of your passport
2. Transcript evaluation
3. English/Chinese Language Proficiency Requirements
4. Financial Statement
5. Health Insurance

Upon admission, the University will provide international students with the I-20 form that confirms your student status and allows you to process your visa application in your home country. The University does not pay for or process visas.

Transcript Evaluation

If you have completed previous TCM education in another country, you must have your transcripts reviewed by a credential evaluation agency that is a member of the National Association of Credential Evaluation Services, Inc. Transcripts need to be evaluated on a course-by-course basis. The evaluation, containing the total number of earned credits and cumulative GPA, should be sent directly to Five Branches University by the evaluating agency. We recommend World Educational Services (WES), www.wes.org.

English Language Requirements

If you are an international applicant and have completed at least a two year (60 semester credit or 90 quarter credit) baccalaureate level education from an institution accredited by an agency recognized by the U.S. Secretary of Education or from an equivalent English language institution in another country, the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) may not be required.

DAOM Program in English or Chinese

If you are applying for the English or Chinese DAOM degree program, you are required to

complete the Test of English as a Foreign Language (TOEFL) internet-based test (iBT) or the International English Language Testing System (IELTS) exam.

The minimum scores to achieve on these tests are as follows:

ASSESSMENT TOOL	ACCEPTABLE SCORE
Test of English as a Foreign Language Internet-Based Test (TOEFL® iBT)	Total: 61
International English Language Testing System (IELTS), Academic Format	Overall band: 6
Duolingo English Test	90
China Standard of English Language (CSE)	CSE 6
Cambridge First Certificate in English (FCE)	C
Cambridge English Advanced (CAE)	C
Common European Framework Reference (CEFR)	B2
Occupational English Test (OET)	250, C
Pearson Test of English (PTE), Academic	Overall: 45

If you do not meet the minimum English language proficiency requirements prior to enrollment, you may be conditionally admitted with the understanding that you will study English and meet the English proficiency requirements within 120 days after enrollment.

When taking the TOEFL, please enter the appropriate Five Branches University assigned code on the Score Report Request Form - code: 5881

If you are applying the DAOM program in Chinese, you also need to meet with one of the following requirements:

- Chinese is the student’s primary language
- Previous education degree in Chinese language or program delivered in Chinese
- Complete assessment test with FBU Admissions (Statement writing, Interview, and language background in Chinese)

Financial Statement

A financial statement, certified by a financial institution, verifying the availability of at least \$35,000 in U.S. dollars. This amount should cover your education and living expenses for one academic year. If you need the university to issue an I-20 for your dependents, you will need to calculate an additional \$4,000 for each dependent. In addition, you may want to consider having additional funds for off-campus months and miscellaneous expenses. We recommend having approximately \$7,000 for this purpose. If your tuition or living expenses

are going to be partially or fully paid by a sponsor, the financial statement must be signed by your sponsor, stating they assume financial responsibility for the designated amount.

Health Insurance

International students must provide proof of health insurance coverage prior to student registration. Due to the high costs of medical insurance in the United States it may be advantageous to purchase health insurance coverage in your home country. We recommend you purchase a healthcare policy for yourself and any dependents, with a minimum coverage of \$250,000 per incident, and a deductible of no more than \$500 per person per year.

Prior to your arrival into the United States, we recommend you obtain from your primary physician medical records for you and your dependents. These should include a medical history describing previous illnesses, surgeries, and records of all immunizations, including those received in childhood. In addition, since dental costs in the United States tend to be considerably higher than most other countries, you are advised to have any necessary dental work completed in your home country prior to your arrival in the U.S.

International Applicants Currently Studying in the U.S.

If you are an international student who is currently on an F-1 student visa, enrolled at another college or university in the U.S., you must submit the following documents along with your application materials:

1. A photocopy of your visa, contained in your passport
2. A photocopy of your I-20 Form

Once you have been accepted to Five Branches University, a Transfer Release Form must be signed by your current school's admissions office, verifying you have maintained your visa status and are eligible for transfer. Please contact the Five Branches University admissions office to receive a copy of this form.

If you have any questions or need additional information regarding international application requirements, our admissions staff is available to assist you.

Transfer Students

If you are a student enrolled in another DAOM Program and are considering transferring to Five Branches, you can apply for our DAOM program as a transfer student. Five Branches University offers one of the best TCM educational programs in the United States. Our transfer policies ensure that a transfer student's training from another school will meet the high standards of our DAOM program.

Five Branches accepts transfer students who will be completing at least 2/3 of their DAOM degree at the University.

Transfer Student Application Procedure and Requirements

Transfer students follow the same application and admissions procedures as required of new students, in addition to meeting the transfer student requirements as listed below. If you are a transfer student, transferring to Five Branches University from another TCM college, you must submit the following documents along with the completed application:

1. Cover letter stating your reasons for seeking a transfer from another DAOM program, and a list of the courses you wish to transfer.
2. Letter of recommendation from a previous TCM/Acupuncture instructor, located at the DAOM program you attended.
3. Official transcripts from your previous DAOM program
4. Catalog from your previous DAOM program, stating its approval agencies and accreditation.
5. Syllabus outlining the course content for each course you wish to transfer.

You must submit your admission application by the application due dates (two weeks before the start of each trimester) to allow ample time for review.

Upon acceptance to Five Branches, you will be informed of your placement in the DAOM program, and an evaluation of your transfer credits will be completed by the admissions office. Only coursework completed at the doctoral level prior to enrollment at Five Branches, from an ACAOM-accredited or ACAOM candidate school is transferable.

Transferring TCM Courses

Transfer credit will be accepted for TCM courses taken from an ACAOM-accredited or ACAOM-candidate DAOM Program, if the courses are equivalent in content to Five Branches DAOM program courses.

Transferring Western Medicine Courses

Only western medicine courses taken at the doctoral level prior to enrollment at Five Branches may be transferred to fulfill part or the entire DAOM Western medicine requirement. Western medicine courses are transferable only from regionally accredited, degree granting colleges, universities, or TCM schools at the doctoral level. Courses taken in a Doctor of Medicine program at a nationally accredited or candidate university may be transferable.

Transfer Fees

A transfer fee will apply to the evaluation of all courses transferred into the DAOM program. The transfer fee is 15% of the current tuition, per unit, up to a maximum of \$500.

If you have any questions or need additional information regarding the transfer student application requirements, our admissions staff is available to assist you.

Transfer Planning Services

Five Branches University has not entered into an articulation or transfer agreement with any other college or university.

Financial Aid

Five Branches University is an accredited institution of higher education approved to participate in Federal financial aid programs. Our financial aid programs assist approximately 50% of our students in meeting the financial costs of their education. Five Branches University does not participate in State financial aid programs.

Federal financial aid programs provide financial assistance to students who, without such assistance, would be unable to meet educational costs at the University. Financial Aid for the DAOM program includes educational costs: tuition, fees, books and supplies, and a reasonable allowance for living during the academic year.

The financial aid office can assist you in finding the sources of financial aid that best suit your educational needs. We understand that furthering your education requires a significant investment of your time, energy and resources and deciding how to fund your education involves solid information and careful planning. We recommend that you determine your financial plan as early as possible so you can focus on your academic responsibilities once the DAOM program begins.

Students who believe they will need financial assistance to attend Five Branches University and who meet the eligibility requirements are encouraged to apply for financial aid. Financial aid awards are made for one academic year at a time and must be reapplied for each academic year.

To receive financial aid from Five Branches, the applicant must meet the following eligibility criteria:

1. Be accepted for enrollment as a matriculated student
2. Be a U.S citizen or eligible non-citizen
3. Maintain measurable satisfactory academic progress according to the standards and practices established by Five Branches while enrolled.
4. Not owe a refund on or be in default of any Title IV loan previously received for attendance at any postsecondary institution.
5. Be in compliance with Selective Service

Applying for Financial Aid

Please follow the steps below to apply for financial aid at Five Branches University:

1. Completing the Free Application for Federal Student Aid (FAFSA) is the first step in applying for financial aid. The FAFSA needs to be completed each academic year and is available online at: www.fafsa.ed.gov. When completing the FAFSA, use the Five Branches Federal School Code: 03131300. You will need an FSA ID- a username and password to electronically sign Federal Student Aid documents.
2. Once the FAFSA is submitted you are required to complete the 2022-2023 DAOM Supplemental Financial Aid Form available online at: <https://www.fivebranches.edu/doctorate-ph-d/financial-aid/forms/>
3. The Department of Education randomly selects students for Verification, a federally mandated process designed to verify the accuracy of information reported

on the FAFSA.

If you are selected for verification, you will be required to complete a Verification Worksheet along with other supporting documentation. You may also be required to provide IRS tax return transcripts.

To obtain an IRS tax return transcript go to: www.irs.gov. Click on the “Order a Return or Account Transcript” link. Make sure to request the “IRS tax return transcript” and not the “IRS tax account transcript.” You will need your social security number, date of birth, and the address on file with the IRS (normally this will be the address used on your 2018 IRS tax return). It takes up to two weeks for IRS income information to be available for electronic IRS tax returns, and up to eight weeks for paper IRS tax returns. If you are married and you and your spouse filed separate 2019 tax returns, you must both submit tax return transcripts. You can also call to request an IRS tax return transcript at 1-800-908-9946.

It is important to return the requested information as soon as possible so the disbursement of your financial aid will not be delayed. To download Verification forms please go to: <https://www.fivebranches.edu/doctorate-ph-d/financial-aid/forms/> For more information regarding verification, refer to: www.finaid.org/fafsa/verification.phtml

1. If the Department of Education is unable to confirm your citizenship status, then you will need to provide the financial aid office with documents proving citizenship. Citizenship documents that are acceptable are:
 - a. Copy of current United States Passport
 - b. Copy of current Alien Registration Card (Eligible Non-Citizen) For more information go to: www.us-immigration.com.
2. If you are a Male (any person assigned the sex of male at birth), age 18-25, you are required to register with the Selective Service System (SSS). This requirement covers all males residing in the United States who are U.S. citizens or noncitizens. If the Department of Education is unable to verify proper registration with the Selective Service, then you are required to provide the financial aid office with verification that you have successfully registered or are exempt from registration. Please refer to the Selective Service web page for more information: www.sss.gov.

Once you are successfully admitted to Five Branches University you will be notified by email and sent a Financial Aid Award Letter in the mail along with supporting documents. For more detailed information on applying for financial aid refer to the Frequently Asked Questions (FAQs) section of our website <https://www.fivebranches.edu/doctorate-ph-d/financial-aid/faqs/>

Federal Work Study

Federal Work-Study (FWS) is funded by the federal government, with some matching Five Branches funds. FWS enables students to earn part of their financial aid award through part-time employment on campus. Except for certain community-service jobs, FWS employment is limited to on-campus jobs. To participate in the FWS program, a student must be eligible for and be awarded a FWS award as part of their financial aid package. If you are interested in the FWS program contact the Financial Aid Office.

Direct Loan Program

The Direct Stafford Loan Program consists of low-interest, unsubsidized loans funded by the federal government. Loans are available to graduate and professional students who are U.S. citizens or permanent residents. Loan repayments begin six months after graduation or after a student drops below half-time enrollment. Direct loans are loans and must be repaid.

Graduate students may receive up to \$20,500 per academic year in Federal Direct Unsubsidized Stafford Loans, depending on remaining aggregate eligibility. Federal Direct Unsubsidized Stafford Loans have a six-month grace period (following graduation) before principal payments are due; however interest begins accruing upon the disbursement of the loan. Students can elect to pay the interest while enrolled in the DAOM program, or allow it to accrue and be capitalized (added to the principal).

Federal Direct Graduate PLUS Loans are available to graduate students with a good credit history, determined in the credit pre-approval process. The Federal Direct Graduate PLUS Loan is available to students who have received the aggregate maximum amount of Stafford loans. The amount a graduate student can borrow is the difference between the cost of attendance and other financial aid received. Graduate PLUS Loans have a six-month post-enrollment deferment period, following graduation (or if you are no longer enrolled on at least a half-time basis), before principal payments are due; however, interest begins accruing upon the disbursement of the loan. Students can elect to pay the interest while enrolled in the DAOM program, or allow it to accrue and be capitalized (added to the principal) at repayment.

Please Note: Students who receive federal loans must participate in Entrance Loan Counseling prior to the disbursement of their loan. Students are also required to complete Exit Loan Counseling prior to graduation.

Students at Five Branches University that are participating in the Direct Unsubsidized Stafford Loan Program will have their funds sent by the Department of Education by EFT (Electronic Funds Transfer). Direct Loans Servicing Center will mail your loan disclosure statement to you. Five Branches University will deduct tuition and fees from your loan funds and will issue you a credit balance check for any remaining loan funds.

Loan Repayment

If a student obtains a loan to pay for an educational program, the student will have the responsible to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds. For more detailed information on loan repayment refer to the Frequently Asked Questions (FAQs) section of our website: <https://www.fivebranches.edu/doctorate-ph-d/financial-aid/faqs/>

Financial Aid Policies

Students who receive federal financial aid while attending Five Branches University will be subject to the Financial Aid Satisfactory Academic Progress Policy as well as the College Academic Progress Policy.

Satisfactory Academic Progress

Federal regulations require that academic progress be monitored using qualitative and quantitative measurements. These standard measurements apply to all students. Academic progress is reviewed after every term. If at any point it is clear the student will not be able to meet qualitative and/or quantitative standards for **timely** completion of degree, the student becomes ineligible for financial aid.

1. Masters students must maintain a cumulative and term GPA of 2.75 or above.
2. Completion of 67% of all units attempted in any incremental period.
3. MTCM / DTCM / DAc / MAc students must maintain at least half-time enrollment status.
4. DAOM students must maintain a full-time enrollment status.
5. MTCM / DTCM / DAc / MAc students must pass all courses with an A, B or C letter grade and are not permitted to exceed one Incomplete (I) grade per term.
6. DAOM must not exceed two unsatisfactory grades per year (NC, NP, I, W). DAOM must maintain a passing grade P (Pass) Satisfactory of all required coursework.
7. Maximum program timeframe:
 - a. May not exceed the time limits for coursework as described in syllabi and course descriptions.
 - b. Master/Doctor of Traditional Chinese Medicine – 12 terms (Spring, Summer, Fall)
 - c. Master of Acupuncture – 10 terms (Spring, Summer, Fall)
 - d. Doctor of Acupuncture and Oriental Medicine – 6 terms (Spring, Summer, Fall)

Financial Aid Warning Reason	SAP Requirement
Term / Cumulative GPA less than 2.75	Complete subsequent term with 2.75 GPA or above and with grades sufficient to raise cumulative GPA to 2.75
MTCM / DTCM students must pass all courses with an A, B or C letter grade and are not permitted to exceed one Incomplete (I) per term.	Complete affected course work with a passing letter grade in the following term.
DAOM students must not exceed two unsatisfactory grades per year (NC, NP, I, W)	Complete affected course work with a passing letter grade.
Incremental Unit/Pace Requirement(s) not met	Complete more than 67% of attempted units in following term.

Breach in professionalism	Requirement contingent upon SPRC review
Exceed maximum program time frame	Requirement contingent upon SPRC review

Academic and Financial Aid Warning

- Students who fail to meet the Qualitative and/or Quantitative progress requirements in any term will be placed on Academic and Financial Aid Warning for the following term of enrollment.
- Students are placed on Warning status for a period no longer than one (1) term.
- **During the Financial Aid Warning term, students may receive financial aid and must meet all SAP requirements.**
- A letter will notify students when they placed are on Academic and Financial Aid Warning. The reason(s) for the Financial Aid Warning and SAP Requirements for the following term will be explained in the letter.

If you receive federal financial aid and withdraw from Five Branches University after classes have begun, you will be subject to the Federal Return of Title IV Funds Regulations and must notify the school according to school policy. The Return of Title IV Funds Regulations will be applied first, after which the school’s refund policy will be applied. Both the Federal Aid Satisfactory Academic Progress Policy and the Return of Title IV Funds Policy are described in the student handbook.

During registration, state law requires all students to sign a contract to protect their student rights and specify their enrollment and financial agreement with Five Branches University.

Return of Title IV Funds

According to federal guidelines (Section 668.22 of the Higher Education Amendments of 1998), withdrawing students who have received Title IV financial aid will have their financial aid recalculated according to the following guidelines:

- Only the amount of financial aid that has been earned (disbursed or could have been disbursed) based on the prorated amount of time the student has been in school for the semester will be retained on the student’s behalf. Any aid that is not earned (based on the prorated amount of time) must be returned to the appropriate federal account/lender.
For example, if a student receiving \$10,141 in federal aid completes 20% of the trimester, he/she would have earned that percentage and the approved federal aid (\$2,028) therefore, 80% (\$8,113) of the disbursed aid remains “unearned” and must be returned to the federal programs. The college would refund 80% of the tuition charges (i.e if tuition charges of \$4,200, the refund would be \$3,360) to the appropriate federal program. No tuition refund would be disbursed to the student until Title IV (federal loans/grants) funds are repaid. A student withdrawing after the 60% point has earned 100% of the disbursed federal aid. Any unearned funds disbursed to the student in the federal loan programs would be repaid based on the terms of the borrower’s promissory note.
- The date of withdrawal is the date the University receives notification (e.g.,

submitting a withdrawal request form) from the student on his/her intent to withdraw.

- The amount of refundable institutional charges (tuition and fees) will be set by school policy. The University's treatment of tuition and other fees related to student withdrawal may be found in the student handbook. If there is a balance due resulting from the calculation of unearned aid, the student may be responsible for payment.
- For students who have received federal financial aid, any refundable portion of tuition and fee costs that has been covered by a Federal Stafford Loan will be refunded directly to the lender, who will credit it against the student's outstanding balance.
- The Financial Aid Office determines specific amounts according to applicable federal regulations. If the calculation shows that the student had eligibility for aid that had not yet been disbursed, the student will be given the option of receiving those funds. The applicable tuition and fees are listed in the student handbook. Non-mandatory and fees for professional organizations are not included in the refund calculation.

Five Branches University refund policy will then be applied. This states that there is a prorated refund for the unused portion of the tuition if the student has completed 60% or less of the course. There is no refund for courses after 60% of the course has been completed. This means that you will be billed for any funds returned in the Title IV Return of Funds that do not warrant a refund according to the stated school refund policy.

Return of Title IV Funds states that a student who withdraws after completing more than 60% of the semester is determined to have earned 100% of his/her aid. This means that Five Branches University will not be returning any aid paid for tuition and fees to Title IV Funds.

Students who have received Federal Title IV Funds and withdraw from Five Branches University are required to notify the Director of Financial Aid and complete the Exit Counseling online at www.studentloans.gov to receive an official Transcript from the school.

Tuition and Fees

DAOM Program Tuition (2023 Academic Year)

The total tuition for the 1280-hour / 62.47-unit DAOM program is \$25,000, to be paid over a period of two years.

DAOM Program Fees (2023 Academic Year)

1. Malpractice insurance: \$180/year
 - a. Students can choose to either purchase malpractice insurance through the Five Branches University DAOM Program or add Five Branches University DAOM Program as an additional insured on their own existing malpractice insurance.
 - b. This fee is collected in full at the beginning of trimesters 1 and 4.
2. Transfer fee: 15% of current tuition up to a maximum of \$500.
3. Transcript request: \$10
4. Extra copy of diploma: \$50
5. Application fee: \$65 (US students); \$100 (international students)
6. China externship administration fee: \$350
7. International student service fee: \$2,500
8. I-20 handling fee (applies to international students only): \$120
9. Installment payment fee: \$15.00 per month for tuition paid by month
10. Credit card payment convenience fee: 3% of payment
11. Late fee: \$30 per month
12. Student Tuition Recovery Fund (Non-Refundable \$2.50 PER \$1,000 Tuition Subtotal)

DAOM Program (2023 Academic Year)

Tuition and Fees per Year and Total

Year	First Year	Second Year	Total
Tuition	\$12,500.00	\$12,500.00	\$25,000
Total	\$12,500.00	\$12,500.00	\$25,000

Tuition and Fees per Trimester

Trimester	1	2	3	4	5	6
Tuition	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67
Total	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67	\$4,166.67

Please note: Tuition for each year and trimester is based on enrollment in required courses as indicated by the program.

Doctoral CEU Course Discounts

Early Registration: 10%

FBU Alumni: 20%

Deposit

Upon notification of acceptance to the DAOM program, you will be asked to reserve your space with a \$150 non-refundable deposit, due within two weeks from the date of acceptance. The deposit will be applied towards the first tuition payment.

Tuition Payment

Tuition may be paid on an annual, trimester, or monthly basis. The annual tuition payment is due in full two weeks prior to the beginning of each year. An installment fee of \$15/month is charged for monthly payment plans. Tuition for international students is the same as for U.S. citizens and residents.

The assigning of credit for all courses and clinical training occurs only after all financial obligations have been met. Five Branches University reserves the right to change tuition and fees as necessary.

Returning Alumni Discount

Five Branches University Alumni who return to the school to study the DAOM program are eligible for a discount of 20% savings on your DAOM tuition. This discount only applies if you have attended and graduated Five Branches University and if you have been accepted into the DAOM program.

Student Right to Cancel, Withdrawal and Refund

Drop / Withdraw Course(s) and Tuition Refund

Students not attending a class in which they are enrolled must drop or request to withdraw

from the class; failure to do so will result in a failing grade on the student's record.

Full Refund:

To obtain a full refund, a student must submit a drop form/request no later than the seventh (7) day after Term begins. If a student is unable to do so an e-mail from university issued account to the Registrar stating your request will be accepted. The deadline to drop course(s) and obtain a full-refund is specified in the Enrollment Agreement. A \$50 drop fee will apply for each course that is dropped after the deadline.

Pro rata Refund:

If a student chooses to drop a course after seventh (7) day after Term begins, a student may obtain a pro rata refund for the unused portion of the tuition without receiving W grade if 20% or less of the course time has lapsed.

A Student wishing to withdraw course(s) after 20% of the course time has lapsed. A withdraw course form is required to be submitted and Withdrawal (W) grade will be issued. A Student must state in writing on a Withdraw course form or an e-mail from university issued account to the Registrar. The effective date of withdrawal is the date emailed, postmarked or turned in to the Registrar. A student will receive a pro rata refund for the unused portion of the tuition and other refundable charges if the student has completed 60% or less of the enrollment period.

Please note that there is no refund for course absence(s) of any period during a term or session, or for dropping a course after 60% of the course time has lapsed. If the University cancels or discontinues a course, the school will make a full refund of all charges.

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student’s federal direct loan debt. If the University cancels or discontinues a course or educational program, the school will make a full refund of all charges.

Tuition Refund Schedule

	% Completed	Tuition Refund	Drop Fee/Course	Grade Assigned
Week 1	6.6%	100%	\$0	-
Week 2	13.3%	86.7%	\$50	-
Week 3	20%	80%	\$50	-
Week 4	26.7%	73.3%	\$50	W
Week 5	33.3%	66.7%	\$50	W
Week 6	40%	60%	\$50	W
Week 7	46.7%	53.3%	\$50	W
Week 8	53.3%	46.7%	\$50	W
Week 9	60%	40%	\$50	W

Week 10-12	No Refund	W
Week 13-15	Dropping courses not permitted	

Withdrawal from the University

Students have the right to withdraw from Five Branches University. To do so they must obtain a Withdrawal form from the Registrar’s Office. If they are unable to do so, a letter, e-mail or fax addressed to the Registrar with the Student’s signature stating your cancellation of enrollment will be accepted.

Full Refund

If enrollment is canceled by the seventh day after enrollment or notice of cancellation is made through attendance at the first class session, whichever is later, the University will refund the student any tuition monies paid, less the deposit or application fee not to exceed \$250.00. The deadline to cancel program enrollment and obtain a full-refund is detailed in the Enrollment Agreement.

Pro rata Refund

Students may withdraw from the program after instruction has started and receive a pro rata refund for the unused portion of the tuition and other refundable charges if the Student has completed 60% or less of the enrollment period.

Withdrawal forms or Letter of Withdrawal should be sent to:

Five Branches University, Attn: Registrar.

San Jose Campus: 1885 Lundy Avenue, Suite 108, San Jose, CA 95131 / Fax (408) 261-3166 / email: sjadmin@fivebranches.edu

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student’s federal direct loan debt.

Financial Aid

Federal financial aid is available for the Doctoral program. For detailed information about DAOM financial aid, see the above section on Financial Aid.

Student Tuition Recovery Fund

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, California, 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF. A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

Office of Student Assistance and Relief

“The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370- 7589, option #5, or by visiting osar.bppe.ca.gov.”

Note that the phone number and web address provided above may be subject to change. Please subscribe to Bureau updates at bppe.ca.gov to receive notifications of changes.

Academic Policies

Student Handbook

The academic policies of Five Branches University are detailed in the Student Handbook which is given to students during registration. To assist new students, the handbook describes student services, administrative policies, and guidelines such as grading, attendance, examinations, and leave of absence. The student handbook is edited regularly to reflect updated policies.

Part Time Studies—Four Year Limit

DAOM students must complete the program requirements for graduation within four years of initial enrollment, abiding by the average DAOM curriculum schedule of 32 academic hours or four eight-hour days per month. Five Branches University policies for the doctoral program stipulate that full-time enrollment is a minimum of 10 units and part-time enrollment is a minimum of five units. Only full-time students may receive financial aid.

Units/Hours

One credit unit is granted: for each 15 hours of academic course time; for each 30 hours of supervised laboratory or clinical instruction; and for each 45 hours of clinical externship or independent study.

Academic and Clinic Class Size

Because the knowledge and skills shared by the leading TCM and Western faculty invited to the DAOM program is both rare and highly valued, there are no limits to the size of academic courses. Doctoral Clinical Theatre is limited to 40 students and Doctoral Grand Rounds is limited to 20 students. The program requires that all participants reflect the highest levels of professionalism and respect in class and in the clinic. The University reserves the right to cancel any scheduled academic or clinic course, or change faculty as necessary.

Attendance

DAOM students must attend all scheduled classes and clinical training as required by the program. If a DAOM student misses a class due to an emergency, he/she is responsible for

obtaining the notes for the class lecture. It is recommended that in an event of a foreseen absence, the student notify the DAOM administration. Students who have more than a 45-day gap in attendance or miss more than 16 hours per term may be subject to a Return of Title IV not meet the criteria for an in-school deferment status. Students who have not attended academic or clinic classes for four consecutive months without prior notice to the DAOM administration will automatically be withdrawn from the program. For more detailed information on attendance policies please refer to the student handbook.

Leave Of Absence

The purpose of a LOA is to provide the students with the opportunity to leave the college for an extended period of time without withdrawing or affecting their SAP calculations. A student in good standing who has successfully completed at least one (1) term may apply for a LOA not to exceed 180 calendar days. The student must complete a Leave of Absence form and submit it to the Registrar's Office for approval. The effective date for the LOA must be at the beginning of the term the student is requesting the leave and comply with appropriate requirements. All loans and other sources of funding for the term of an approved LOA will be returned to the appropriate parties. If a student was scheduled to be on Academic Probation for the term the LOA is effective, the conditions of the Academic Probation will be effective the term the

student returns from the LOA. If a student does not return from an approved LOA, the grace period for applicable federal loans will begin with the last date of attendance the student was enrolled in the program for at least a part-time study status. Students, who do not return from a LOA to resume courses on or before the approved return date, will be automatically withdrawn from the program. Excluding the time taken for leave, students must complete the program within the maximum program time frame. International Students must speak with the International Student Designated School Officer if they wish to go on leave.

Withdrawal from the Program

Withdrawal from the program requires the submission of a Withdrawal form and an exit interview with the program director. If you have received financial aid, you will be required to complete an exit interview with the financial aid director. Following withdrawal from the program, if you wish to reapply you are required to complete a new application for admission. Upon readmission, after an absence of one year or more, you will be required to complete the program of study that is in place in the term in which you return. All re-admission is subject to approval.

Grading Policy

Grades are awarded as an assessment of the student's progress in achieving the educational goals of each module according to the syllabus and the policies of the University. Five Branches University uses a letter grading system of credit/no credit (CR/NC) for all didactic courses and clinic courses.

The methods of assessing a student's academic achievement include:

- Monthly journal submissions

- Portfolio: Research papers and clinical studies
- Pre-proposal, proposal, capstone paper and capstone defense
- Practicum self-assessment and preceptor assessment

Progress will be determined by the student's performance on the assessment methods above, participation in class, and attendance.

Review Process

Students are required to be in good academic standing and maintain standards of professionalism at all times. Any student who does not meet the established criteria for normal academic progress and professionalism will be referred to the DAOM Academic Committee.

DAOM Academic Committee

The DAOM Academic Committee (DAC) reviews academic progress of students to ensure their success in the program. Students who need assistance to maintain good academic standing are required to meet with the DAC to devise a plan to improve their academic performance.

Students may ask the DAC for help in finding tutors and/or other resources to assist with successful completion of the program.

The DAOM Academic Committee is responsible for ensuring a fair and impartial disciplinary process for students who breach standards of professionalism. Most cases are resolved in ways that serve to foster the ethical development and personal integrity of students, and to provide a safe and comfortable campus environment.

Standards of Professionalism

The standards of professionalism policies are intended to protect the rights of all students, faculty, staff and patients at Five Branches University while on campus and at all sponsored events. Five Branches University may impose discipline for violation of these standards of professionalism including, but not limited to, dishonesty, disrespect, disrupting a professional atmosphere, substance abuse, and sexual harassment. For detailed information about the standards of professionalism policies, refer to the student handbook.

Academic Warning and Probation

Students unable to maintain good academic or professional standing are placed on academic warning or probation. Students will be notified by letter of the reasons that led to this action and an explanation of the corresponding satisfactory academic progress requirements for the ensuing term. Student enrollment is subject to review until the student returns to good academic or professional standing. For detailed information regarding the academic warning and probation policy refer to the student handbook.

Academic Dismissal

Academic dismissal is termination of enrollment at the University for the inability to meet academic or professional standards. Failure to comply with the requirements set forth by the DAOM Academic Committee for remediation of a probationary status will result in academic dismissal. Students may appeal this action through the academic appeal process outlined in detail in the student handbook.

Academic Appeal

The DAOM Academic Committee (DAC) is responsible for reviewing and approving appeals. Appeals must be submitted to the DAC in writing, describing any extenuating or mitigating circumstances that prevented compliance with Five Branches University policies. An appeal must explain what has changed in the student's situation, and the precise steps the student will take or is taking to regain good academic standing. For detailed information regarding the academic appeal process refer to the student handbook.

Grievance Procedure

Students who have complaints concerning administrative or academic policy may submit the grievance in writing to the DAOM Academic Committee (DAC). The DAC will review the complaint and gather all relevant information prior to making a decision. If the complainant is dissatisfied with the decision of the DAC, she/he may submit a written appeal with all relevant documentation to the academic dean and the president. Following this, the matter may be given to the board of directors for final review.

If the complainant has made full recourse of the University's grievance procedure, and believes the University did not address their complaint, the student may contact the Accreditation Commission for Acupuncture and Oriental Medicine at 8941 Aztec Drive, Eden Prairie, MN 55347; phone (952) 212-2434; website www.acaom.org. For detailed information regarding the grievance procedure, refer to the student handbook.

Student Records

In compliance with the Family Education Right to Privacy Act (FERPA), student academic records are maintained by the office of the registrar. A student record contains all documents relating to a student's activities at Five Branches including, but not limited to: admissions, grade reports and transcripts, registration, tuition payments, correspondence, and health documents.

The University does not release school records or any other information about a student to any third party without the consent of the student, except as allowed by law. Students may obtain an unofficial copy of their transcript or request an official copy by submitting a transcript request form to the registrar's office.

The University permanently maintains records of academic progress including transcripts.

Notice Concerning Transferability of Credits and Credentials Earned

at Our Institution

The transferability of credits you earn at Five Branches University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the DAOM degree you earn at Five Branches University is also at the complete discretion of the institution to which you may seek to transfer. If the DAOM degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Five Branches University to determine if your DAOM degree will transfer.

Graduation and Granting of Degree

A DAOM candidate is eligible for graduation when he or she has satisfactorily completed all didactic and clinical courses, submitted all requirements, and obtained a passing mark at the final Capstone Project/Oral Defense. Upon graduation, students will be awarded a doctoral (DAOM) degree.

Licensure

The DAOM degree does not lead to licensure.

Non-discrimination Policy

Five Branches University is an equal opportunity institution and does not discriminate on the basis of age, race, color, religion, national origin, ethnicity, gender, or sexual orientation, in the administration of admission, educational policies or employment. The University abides by Title II of the Americans with Disabilities Act, which prohibits discrimination against any “qualified individual with a disability.”

Welcome to Five Branches University Extension Programs

Dear Prospective Students:

This is an exciting time to be involved in the field of Traditional Chinese Medicine (TCM), especially massage and qigong for health care. Recognizing the historical growth of TCM as one of the oldest and broadest medical systems in the world, we have now expanded the University through our Extension Programs, offering specialty programs in Asian Bodywork, Qigong and Medical Qigong.

Our Extension Programs offer courses for both beginners and experienced practitioners, and are designed with the intention of connecting students to the Asian roots of bodywork and Qigong through:

- A curriculum meeting the highest standards for massage therapy and clinical bodywork.
- Seminars with master teachers from throughout the United States and Asia.
- Advanced study abroad opportunities in Asia.

Celebrating a 5,000-year-old test of time, Traditional Chinese Medicine encompasses the following five distinct branches for maintaining and restoring the individual with the harmony of nature:

- Acupuncture
- Herbal Medicine
- Medical Massage and Bodywork
- Energetics (Qigong and Tai Ji)
- Nutrition and Dietetics

Today, Five Branches University continues its commitment to offering the highest level of training Traditional Chinese Medicine through our Extension Programs in Massage and Qigong. As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which is provided to you prior to signing an enrollment agreement. Whether you are just beginning or are an advanced practitioner, I hope that you'll join us on this rewarding journey.

Sincerely,

Joanna Zhao
Academic Dean
Five Branches University

The University

Mission Statement

Five Branches University, a Graduate School of Traditional Chinese Medicine, is dedicated to educating students to become exceptional practitioners, educators and researchers.

Five Branches University Extension Programs aim to deliver intensive didactic training and supervised clinical practice, coupled with assessment, business, and self-care skills, which are essential for a successful professional career in any medical and healthcare setting.

Purpose

The purpose of the Five Branches University Extension Asian Bodywork and Qigong and Medical Qigong Practitioner programs is to:

- Provide exceptional academic and clinical training in Asian Bodywork and Qigong, and Medical Qigong
- Develop highly-successful professional practitioners through a supportive environment that fosters self-care for growth, health and longevity
- Create a bridge between Asian and Western bodywork and qigong approaches by integrating these methodologies in courses and supervised clinical practice
- Enable students to learn directly from highly skilled instructors from throughout the United States and Asia, and from a core faculty that integrates Asian healing arts and Western clinical assessment skills

Objectives

After completion of the Asian Bodywork & Qigong or Medical Qigong program, students will be able to:

- Understand basic Western and Asian theory applied to health and prevention of disease
- Assess energetic imbalances through the paradigm of Traditional Chinese Medicine
- Conduct clinical assessments for Asian bodywork and/or Medical Qigong that encompass both Eastern and Western perspectives
- Assess orthopedic and neuromuscular conditions
- Provide skills in self-care education for clients
- Develop self-care techniques and grow as a professional in performance and longevity

- Utilize techniques to promote health and restoration of many energetic and physical imbalances
- Understand the foundations of Asian forms of bodywork and qigong
- Demonstrate skills necessary to perform various styles of Asian bodywork and qigong

Our Vision

Our goal is to help students cultivate internal awareness with practical bodywork and medical qigong skills that facilitate healing, growth and transformation. We maintain a supportive environment where students can learn the essential life skills that help fuel the Three Treasures—vitality, energy, and spirit.

About Five Branches

Five Branches University offers eleven programs related to Traditional Chinese and Integrative Medicine at its two California campuses in Santa Cruz and San Jose.

Past and Present

In 1984, Five Branches University became one of the first Traditional Chinese Medicine (TCM) colleges in the United States. Today, we are recognized as one of the nation’s top TCM schools providing the highest level of professional education in Traditional Chinese Medicine and integrative medicine in the U.S. and internationally.

Programs

Our nationally accredited Doctor and Master of Traditional Chinese Medicine (DTCM/MTCM), Doctor and Master of Acupuncture (DAc/MAC) and postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) programs provide a strong foundation in TCM diagnosis, acupuncture and Chinese herbal medicine, the latest TCM research, extensive clinical training and a comprehensive integrative medical education. Our Extension Programs offer professional development opportunities through Continuing Education and specialization in Asian Bodywork, Qigong and Medical Qigong.

Faculty

Our dedicated faculty play a significant role in our growth and in establishing our reputation as a leader in Traditional Chinese medicine education and patient care. Our faculty is a diverse community of practitioners, teachers, doctors, international lecturers and published authors, many of whom have been core faculty members for over 25 years.

Health Centers

The Five Branches University Health Centers located at our two campuses in Santa Cruz

and San Jose, California provide the best of TCM healthcare. Treating over 180 patients each day, our health centers are the ideal place for students to gain experience in a clinical environment and for TCM clinicians and doctors to provide exceptional healthcare to their patients. Our staff includes specialists in neurology, internal medicine, gynecology, pediatrics, oncology, dermatology, immune-deficiency, ophthalmology, pain management, gastroenterology, and cardiology.

Accreditation & Approvals

Institutional Accreditation

Five Branches University is institutionally accredited by the Accreditation Commission for Acupuncture and Herbal Medicine (ACAHM), which is the recognized accrediting agency for freestanding institutions and colleges of acupuncture or herbal medicine that offer such programs. Five Branches University is a private institution that is approved to operate by the Bureau of Private Postsecondary Education.

Postgraduate Doctor of Acupuncture and Oriental Medicine (DAOM) Program Accreditation

The postgraduate Doctor of Acupuncture and Oriental Medicine degree program of Five Branches University is accredited by the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM), which is the recognized accrediting agency for programs preparing acupuncture and Oriental medicine practitioners.

Doctor of Traditional Chinese Medicine (DTCM) Doctor of Acupuncture (DAc)

The Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM) granted Five Branches University's Professional Doctorate programs in Acupuncture and in Oriental Medicine initial accreditation for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>

Master of Traditional Chinese Medicine (MTCM) Master of Acupuncture (MAc)

The Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM) granted Five Branches University's Master's programs in Acupuncture and in Oriental Medicine continuing accreditation for a period of seven (7) years, effective 11 August 2018. Accreditation status and notes may be viewed at: <http://acaom.org/directory-menu/directory/>

ACAHM is located at 500 Lake Street, Suite 204, Excelsior, Minnesota 55331; phone (952) 212-2434; website – www.acahm.org

Extension Programs

The Extension Programs of Five Branches University are approved by the Bureau for Private Postsecondary Education (www.bppe.ca.gov). The Extension programs are not accredited.

National and State Approvals

Five Branches University is recognized, approved by, or is a member of the following National and State associations:

- Bureau for Private Postsecondary Education, California State Department of Consumer Affairs, www.bppe.ca.gov.
- California State Acupuncture Board, California State Department of Consumer Affairs (www.acupuncture.ca.gov).
- National Certification Commission for Acupuncture and Oriental Medicine (www.nccaom.org)
- Council of Colleges of Acupuncture and Oriental Medicine (www.ccaom.org)
- Department of Education
- Title IV Federal Student Financial Aid Program, U.S. (MTCM & DAOM programs)
- U.S. Citizenship and Immigration Services (USCIS) (MTCM & DAOM programs)
- U.S. Department of Homeland Security approval for foreign students (MTCM & DAOM programs)
- Veterans Education, U.S. Department of Veterans Affairs

Five Branches University is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution is compliant with the standards set forth in the California Education Code, the California Private Postsecondary Education Act of 2009 (as amended), Division 7.5 of Title 5 of the California Code of Regulations.

The Bureau for Private Postsecondary Education

Sacramento, CA 95834

Or P.O. Box 980818, West Sacramento, CA 95798-0818

Phone: (888) 370-7589 and (916) 574-8900

Fax (916) 263-1897

www.bppe.ca.gov

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or

by completing a complaint form, which can be obtained on the bureau's Internet website: www.bppe.ca.gov.

BPPE Required Disclosure

Five Branches University does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec 1101 et seq.).

Community, Campuses, Facilities and Amenities

Classes and student services are offered at both the Santa Cruz and San Jose campuses of the University.

The Santa Cruz Campus

Located along California's scenic Central Coast, renowned for its beautiful beaches and redwood forests, Santa Cruz has the cosmopolitan appeal of a college town combined with the ambiance of a small coastal California city. Our Santa Cruz campus is located in a beautiful residential community one block from the beach on the Monterey Bay and close to the Santa Cruz Yacht Harbor. At the heart of the campus is the Five Branches health center, which has provided exceptional healthcare to patients since 1984. Classes of the Extension program are held on both the Santa Cruz and San Jose campuses.

The San Jose Campus

In the heart of Silicon Valley, our San Jose campus is part of a contemporary, high-tech metropolis, home to major players in the world of technology including Google, eBay, Twitter and Facebook. The San Jose campus resides in a modern office building, a short commute from San Francisco and the beaches of Monterey Bay, and within walking distance of several shopping centers with multiple restaurants. A welcoming courtyard leads you to the entrance of both the health center and the University, where our Extension, Master's and Doctoral programs reside. Classes of the Extension program are held on both the San Jose and Santa Cruz campuses.

Here is a list of amenities our campuses have to offer:

Health Center

Patients await their treatments in a beautifully designed reception area, while practitioners treat over 160 patients each day in our busy health centers. With a combined 38 treatment rooms, herbal pharmacies containing over 500 medicinal products, and expert patient care and clinical instruction, our health centers are the ideal place to gain experience in a clinical environment and to learn how to provide exceptional healthcare to your patients.

Herb Room

The herb room is a fragrant experience. Walls lined with wooden drawers full of Chinese herbs emanate earthy aromas, as practitioners prepare herbal remedies for their patients in the traditional way. In the herb room you will meet with practitioners to learn first-hand how to use herbal medicines to effectively treat your patients.

Classrooms

Spacious classrooms and small class sizes provide the optimal environment for dynamic discussion and meaningful teacher-student interaction. The Santa Cruz campus has six fully furnished and equipped classrooms accommodating approximately 35 students each. The San Jose campus has eight fully furnished and equipped classrooms, providing ample instruction and meeting space to both faculty and students. Classrooms may be used for continuing education seminars and special presentations in fields related to Traditional Chinese Medicine.

Equipment and Materials

Standard teaching equipment is provided in every classroom including tables and chairs, white boards, computers and overhead projectors, video equipment, anatomical models, acupuncture charts, and treatment tables for acupuncture training demonstrations. Classrooms used for clinical training are supplied with necessary acupuncture supplies such as treatment tables, sterile disposable acupuncture needles, heat lamps, electronic stimulation machines, an herbal dispensary, and TCM reference texts.

Student Lounge

A place to rest, nourish and socialize, the student lounge is fitted with comfortable seating, tables for study, a kitchen to prepare meals, wireless Internet, and a bulletin board to check out current campus events.

Library and Learning Resources

The Five Branches University Library serves both the Santa Cruz and San Jose campuses; providing access to resources that support the instructional, clinical and research needs of students, faculty and staff. You may use the library during its hours of operation and may check out library resource materials using your Five Branches Student ID card. Library hours are posted at the beginning of each trimester; hours vary by campus and trimester.

As a new student, you will receive an orientation to the library within the first two weeks of enrollment. During this orientation, you will be given a general tour of the library including the computer lab, wireless Internet, online catalog, and other available learning resources. You will be provided with a set of instructions and regulations for library use. For detailed information regarding library procedures and policies please refer to the Student Handbook or the Library and Research section of our website: <http://www.fivebranches.edu/student-life/108>

Administrative Offices

The open, friendly and accessible administrative team considers students their top priority. Whether you need assistance to plan your class schedule, secure financial aid or to voice your concerns, our administrative staff is available to assist you.

Conference Rooms

Students, faculty and staff may reserve the conference rooms for confidential consultations and meetings.

Parking

Both of our campuses have free, ample parking to accommodate the needs of students that commute.

Local Favorites

At the Santa Cruz campus, one block from the beach, lunch breaks on the ocean are a favorite pastime. Enjoy one of the many restaurants within walking distance, pick up food at a local natural food store and have a picnic on the beach, or venture over to the neighborhood park, a great place to sit and enjoy the sunshine.

The San Jose campus has a bountiful supply of restaurant and café choices in four shopping centers within walking distance offering food from around the globe. The campus is in the center of Silicon Valley, a 10-minute drive to San Jose International Airport and the modern Apple Park Circle headquarters.

Transportation

Transporting yourself to the Santa Cruz campus is easy with two designated free parking areas, numerous bike racks, and a bus stop directly in front of the student lounge. To obtain information on the bus routes in the Santa Cruz area, go to <http://www.scmtd.com>.

The San Jose campus is conveniently located at the major freeway intersection of Highway 880 and Highway 101, making your commute to and from school a breeze. To obtain information on public transportation in the San Jose area, go to www.511.org.

Housing

The Five Branches University's programs are non-residential and student dormitories or other housing is not provided. There are many available housing options in the area, from rooms available in a household to 3 bedroom-plus homes. Rentals costs range from \$500 to \$4500 per month based on size and location.

Five Branches University does not provide housing search assistance to students. If you are in need of housing, we recommend you arrive in Santa Cruz or San Jose six weeks before the beginning of the trimester. The distance between the two campuses is 40 miles. While it is possible to commute, you may wish to find housing closer to your home campus. Go to <http://www.fivebranches.edu/student-life/on-campus/549> for a list of resources to aid you in your housing search.

Campus Safety and Security

The Clery/Campus Security Act of 1990 (Title II of Public Law 101-542) requires that all colleges and universities provide annual statistics on several specific categories of crime. This report is published by October 1st of each year on the Five Branches University website: <http://www.fivebranches.edu/five-branches-university/4095>.

Any crime occurring on campus or on streets and sidewalks directly adjacent to the campus must be reported to the Student Services Director at your affiliate campus in Santa Cruz: (831) 476-9424 or San Jose: (408) 260-0208.

Student Services

The University provides a wide array of services to make your experience at Five Branches both rewarding and successful. Our student services at both campuses include:

- Academic Advising
- Registration
- Library Services
- Health Services
- Career Development
- Communications

Academic Advising

The University administration offers academic advising to assist student in the planning and completion of their program requirements. From first trimester through graduation and beyond, the administrative team will support students to complete their specialization programs in Asian Bodywork and Qigong and Medical Qigong Practitioner, and to select classes according to their interest.

Registration

The registrar's office ensures that registration and class scheduling flows smoothly. During registration students will enroll in courses and receive updates regarding changes in programs, campus facilities and support services.

Health Services

The Five Branches Health Centers are a flourishing environment for both student education and quality healthcare. As a prospective student, you may receive a free acupuncture treatment during your tour of the campus

Career Development

While the university does not provide placement services, the university offers on-going courses in practice management and marketing to assist students in their

development as a successful Massage practitioner. Five Branches supports the alumni association and promotes the exchange of ideas to foster professional development. Graduates are invited to share their expertise with students during on-campus lectures. Professional vacancies in the field of Massage are posted regularly on the Five Branches website (www.fivebranches.edu) under Student Life / Career Development / Positions Available.

The Asian Bodywork and Qigong program prepares graduates for careers in the field of massage. This is detailed by the US Department of Labor as SOC code 31-9011.00 (Massage Therapist). The Qigong and Medical Qigong programs prepare graduates for careers in the field of exercise. This is detailed by the US Department of Labor as SOC code 29-1128.00 (Exercise Physiologist).

Communications

The University maintains Internet and data platforms to facilitate effective administration, student and alumni interaction. Communications include direct email, the university's web and blog sites, and the Five Branches email and social platforms such as Facebook, LinkedIn and Twitter.

Distance Education

The Extension department offers a variety of its courses online. The online courses provide students the convenience of studying from home and not having to travel to campus. The University's distance education program is approved by its accreditor, ACAOM.

For distance education courses, the institute will provide students evaluation of their submitted assignments within two weeks.

Extension Programs

Overview

Hands-On Clinical Training with TCM and Western Masters

The Five Branches Extension ABQ Program directly immerses students at all levels of training in hands-on clinical work. The Asian Bodywork and Qigong specialization offers the highest level of clinical bodywork training available. Both TCM and Western faculty help students integrate both Eastern and Western approaches to the body into a successful system of bodywork and Qigong for the promotion of optimal health care.

Integration Between Traditional Asian and Western Medical Theory

The instructors in the Extension Program are experienced in both traditional Asian medical theory and Western anatomy and physiology. Students have a unique and exceptional opportunity to learn how the systems work together as one, and integrate these systems into the development of their own personal style of therapy. Ancient philosophy and energy medicine have an increasingly recognized scientific basis. The Five Branches' Extension Program integrates Chinese and Western anatomy and physiology in courses such as Orthopedic Tuina, Internal Organs and Points Description, and Applied Kinesiology courses.

Development of Self-Care and Professional Growth Skills

Five Branches strives to create a place where everyone can grow. Our branches of Asian Bodywork and Qigong have been rooted for thousands of years in China, Japan, and Thailand. Today, these branches extend into our community and offer a cooling shade to a hectic life. Our goal is to help students cultivate internal awareness with practical bodywork skills that facilitate healing, growth and transformation. We maintain a supportive environment where students can learn the essential life skills that help fuel

vital energy and health.

Development of Internal Awareness With Qigong Practice

The Chinese view of life is based on the principles of harmony and balance. Chinese medicine and its theory provides a deep look into the human body. The fundamental principle of this perspective is the notion of Qi, the miraculous life energy that animates all living things. The way Qi flows through energetic channels defines the state of health within the body. The practice of Qigong plays an important role in all of our bodywork programs. Qigong empowers students to practice energetic forms of therapy. We encourage students to explore the cultivation of Qi and to enhance their sensitivity of energy for internal balance and healing.

Asian Bodywork & Qigong Specialization Program

The Five Branches University Extension department offers two programs in Asian Bodywork & Qigong:

- Asian Bodywork and Qigong - 500 hours
- Asian Bodywork and Qigong - 650 hours

The 500-hour meets the minimal requirements for most states and the national MBLEx exam. The 650-hour program adds extended training in massage techniques.

Asian Bodywork and Qigong - 500 hours

The 500-hour Asian Bodywork and Qigong (ABQ) program leads to national certification through the Massage and Bodywork Licensing Exam (MBLEx) and is ideal for the student who wants to focus on entry into the massage profession. These courses are offered in the specialties of Chinese Tuina and Swedish Massage. Depending on faculty availability, Shiatsu, Thai bodywork and other styles will be available. Students must complete 200 hours of bodywork training from the list of electives to receive the 500-hour specialization in Asian Bodywork and Qigong.

Required Courses	Hours
ECT100 Traditional Chinese Medicine Theory	30 hrs
EEL100 Medical Qigong	30 hrs
EWM100 Anatomy	45 hrs
EWM200 Physiology	45 hrs
EWM301 Pathology	40 hrs
EWM400 Kinesiology	40 hrs
ECS101 Professional Ethics & Business Management	20 hrs
ECL100 Bodywork Courses**	200 hrs
ECL101 Supervised Clinical Training	48 hrs
Total Hours	500 hrs

** To fulfill the 200 hours of Bodywork Electives, students may choose bodywork courses from one or more the bodywork courses below. Course offerings are subject to faculty availability.

ECL 100 Elective Bodywork Courses

ECL100 Bodywork Course Electives for 200-hour Requirement	Hours
ECL100-1 Tuina	15-200
ECL100-2 Swedish	15-200
ECL100-3 Shiatsu	30
ECL100-4 Intrinsic Touch	30
ECL100-5 Meridian Massage	30

Asian Bodywork and Qigong - 650 hours

The Asian Bodywork and Qigong 650-hour program builds on the 500-hour program and expands the Bodywork Course Electives from 200 hours to 350 hours. This offers students an opportunity to expand their expertise in the massage techniques detailed below. Other massage techniques, such as Thai massage, may be added depending on faculty availability.

ECL100 Bodywork Course Electives for 350-hour Requirement	Hours
ECL100-1 Tuina	15-350
ECL100-2 Swedish	15-350
ECL100-3 Shiatsu	30-90
ECL100-4 Intrinsic Touch	30-60
ECL100-5 Meridian Massage	30-90
ECL100-6 Thai Massage	30-90

English and Bilingual (English/Chinese)

The 500-hour Asian Bodywork and Qigong Program is offered in English, and bilingual in English and Chinese for students whose native language is not English. The program is offered in a cohort of either all English-speaking students, or in a cohort of all bilingual (English/Chinese) students.

In the English program, the program is taught fully in English. In the bilingual program, faculty are all bilingual (English/Chinese) and the course is taught in both English and Chinese. Essentially, the course is taught in English to prepare students for passing the program's examinations, and the National MBLEx exam which is offered only in English. Faculty add Chinese to explain difficult concepts and techniques.

Asian Bodywork & Qigong Course Descriptions

Theory

Traditional Chinese Medicine Theory

ECT 100 | 30 Hours

This course introduces the classical principles of Yin and Yang and the Five Elements, which were universal laws in ancient China. TCM theory applies these broad principles to the realm of human physiology and pathology in a complex and powerful system for understanding the intricate balance of health. The major TCM theories are systematically covered, including Qi, Blood, Body Fluids, Shen, Essence, Zang-Fu organs, and Six Pernicious Influence, Four Levels, Six Stages and Eight Parameters. Etiology, pathogenesis, as well as TCM treatment principles of disease and disease prevention are covered in detail. This class is the foundation for all other TCM coursework.

Medical Qigong

EEL 100 | 30 Hours

Students are led through a progressive series of Qigong (Energy Skill) exercises and meditations. Medical Qigong purgation, tonification and regulation energetic exercises are learned and practiced. Each class includes lecture, demonstration of exercises, and personal practice of this energetic medicine. Students are also taught specific Medical Qigong prescription exercises and meditations, and learn how and when to apply them in clinic (e.g., purging excess conditions, tonifying deficiencies, dispersing stagnations and regulating Qi, Blood and Body Fluids).

Prerequisite: Traditional Chinese Medicine Theory

Western Science

Anatomy

EWM 100 | 45 Hours

This course gives an introduction to the study of the human structure. This includes examination of cells, tissues, organs, systems and their interrelationships. Structural components of all physiological systems including nervous, endocrine, circulatory, respiratory, digestive, excretory, reproductive, immune systems and those involved in human movement will be studied. Emphasis will be placed on the musculoskeletal system, which is particularly important for massage. Human skeletons, anatomical charts, models and full color digital images will be used for demonstration.

Physiology

EWM 200 | 45 Hours

This course introduces the characteristics and functions of human cells and organs, including nervous system, muscle tissue, cardiovascular system, respiratory system, digestive system, endocrine system, genitourinary system and balance of human environment. Emphasis is placed on the interconnectedness of the systems and the diseases of some of the related systems.

Prerequisite: Anatomy

Pathology

EWM 301 | 40 Hours

Pathology is the study of the mechanisms of diseases in humans from a Western perspective. In this course, students receive a brief review of the health physiology of the body's major systems and then focus on disease processes and the body's attempt to adapt to them. The course links western anatomy, physiology and biochemistry to clinical practice. The course will cover infectious, psychiatric, hematological, cardiac, and pulmonary diseases, and oncology, neurology, rheumatology, endocrinology, gastroenterology, musculoskeletal and nephrology; and contraindications for massage.

Prerequisite: Anatomy & Physiology

Kinesiology

EWM 400 | 40 Hours

Students will learn how to assess movement patterns in the human body. You will learn to analyze problems associated with the musculoskeletal system, and the relationship between the quality of movement and overall human health as it is applied to massage therapy. The class will cover the benefits and physiological effects of techniques that manipulate soft tissues.

Complementary Studies

Professional Ethics & Business Management for Massage Practitioners

ECS 101 | 20 Hours

This course cover communication skills, business practices, ethical behavior, and marketing skills for the professional bodyworker. Topics include proper medical intake using SOAP notes, client-centered communication skills, building and enhancing listening skills, creating and maintaining professional boundaries & self-care. General business regulations, electronic and paper medical record keeping, job opportunities in the field and professional marketing are included. Upon completion of this course, students will be thoroughly aware of the professional, ethical, and legal responsibilities as a massage practitioner and the basic knowledge to start and manage a massage

practice.

Elective Bodywork Courses

Tuina

ECL 100-1 15+ Hours

Massage and manipulation, or Tuina, make up one of the traditional five branches of TCM. These courses explore the principles of Chinese Medical Massage (Tuina) as it is used in the treatment of injuries, chronic musculoskeletal issues, and for sports and training. The courses cover hand techniques, relevant anatomy, stretches and joint mobilizations, and meridian energetics for orthopedic treatment. Tuina includes the application of Tuina for pediatric conditions.

Swedish Massage 1

ECL 100-2 (1) 95 Hours

Swedish massage therapy is the best-known type of bodywork performed today with a primary goal to relax the entire body. This is accomplished by rubbing the muscles with long gliding strokes in the direction of blood returning to the heart. Beyond relaxation, Swedish massage is exceptionally beneficial for increasing the level of oxygen in the blood, decreasing muscle toxins, improving circulation and flexibility while easing tension.

Additional Swedish massage techniques include circular pressure applied by the hands and palms, firm kneading, percussion-like tapping, bending and stretching.

Swedish Massage 2

ECL 100-2 (2) 45 Hours

Swedish massage therapy is the best-known type of bodywork performed today with a primary goal to relax the entire body. This is accomplished by rubbing the muscles with long gliding strokes in the direction of blood returning to the heart. Beyond relaxation, Swedish massage is exceptionally beneficial for increasing the level of oxygen in the blood, decreasing muscle toxins, improving circulation and flexibility while easing tension.

Additional Swedish massage techniques include circular pressure applied by the hands and palms, firm kneading, percussion-like tapping, bending and stretching.

Shiatsu

ECL 100-3 30+ Hours

With the client comfortably clothed on a standard massage table., pressure is applied along meridian pathways and to specific acu-points to facilitate the smooth flow of qi for healing and profound relaxation. Techniques using fists, forearms and elbows will be emphasized for the ease and longevity of the practitioner. Focus on correct body mechanics is an integral part of this course. Qigong and meditation will be practiced to

prepare students for giving Shiatsu and for self-care.

Intrinsic Touch

ECL 100-4 30+ Hours

Intrinsic Touch focuses on the fascial or connective tissue system which surrounds every cell of the body. Connective tissue is a gelatinous substance and applying the gentle pressure of stretching or compression for at least 90 seconds, allows for softening and the release of tensions and restrictions in the fascia.

Intrinsic Touch techniques include stretching, traction, gentle holds, compression, rocking, holding pressure points and movement.

Meridian Massage

ECL 100-5 30+ Hours

This course introduces the functions of the 12 major organ meridians and two subtle meridians – the experiential circulatory system of our energy. The course introduces the points along meridians which balance the body's energy on the back, shoulders, arms, legs, abdomen, and chest and neck; and the appropriate massage techniques that are applied.

Clinical Training

Bodywork Supervised Clinical Practice

ECL 101 48 Hours

In the school's clinic and classroom, students have the opportunity to refine their massage techniques and practice what they have learned under the supervision of senior practitioners. They will be able to integrate Eastern and Western assessment strategies, maintain accurate client records, and develop integral communication and professional skills with a variety of clients.

Prerequisite: 100 Hours Bodywork Courses

Medical Qigong Specialization Programs

Five Branches University offers a three level 650-hour Medical Qigong Practitioner (MQP) Specialization: Level I, Level II and the full MQP program.

Level I: Self Cultivation Specialization – 60 Hours

The Self Cultivation 60-hour Specialization program, available at both the San Jose and Santa Cruz campuses, is our entry level to energetic mastery. This two-course qigong training program is designed to enhance your awareness of energy within and around yourself. You will learn esoteric Medical Qigong terminology, energetic anatomy and physiology, and how external and internal pathogenic factors can affect health. Dynamic instructor guidance with purifying qigong exercises, energizing standing meditations and exploration into the nuances of Qi offer detailed structure on how to practice Medical Qigong exercises for personal health benefits, with an introduction to sensing the energy of others, and beginning treatment skills.

Required Medical Qigong Courses	Hours
EMQ 310: Medical Qigong 1: Self-Cultivation	30
EMQ 320: Medical Qigong 2: Shengong Skills	30
Total Hours	60

Level II: Medical Qigong Specialist (MQS) – 330 Hours

In the first level of energetic mastery, your journey begins with a personal cultivation practice for self-healing and self-empowerment, and in Level II expands into treatment work as you learn to lead, guide, and impact the energy of others. You are guided through a series of practices and meditations to open, build, sense, and project energy within and around yourself. Building upon that success, you are taught a general treatment protocol, augmented energy manipulation techniques, and finally, how to treat specific patterns of disharmony in your clients. You are also able to prescribe qigong practices for specific conditions. These first and second levels of mastery includes a series of core curriculum coursework to become a Medical Qigong Specialist (MQS), including classes in Traditional Chinese Medicine (TCM) foundations, TCM diagnostics, and Western anatomy and physiology

Required Medical Qigong Courses	Hours
EWM 100: Surface Anatomy	30
ECT 100: Theory of Traditional Chinese Medicine I	45
ECT 210: TCM Diagnosis I	30
ECD 200: Professional Ethics & Business Management	15
EMQ 310: Medical Qigong I: Self-Cultivation	30
EMQ 300: Medical Qigong II: Self-Cultivation, Shengong Skills	30
EMQ 330: Medical Qigong III: Clinical Foundations of Medical Qigong Theory	30
EMQ 340: Medical Qigong IV: Advanced Theory and Clinical Application	30
ECL 400/610: Medical Qigong Clinical Training	90
Total Hours	330

Medical Qigong Practitioner (MQP) Specialization – 650 Hours

The Medical Qigong Practitioner (MQP) 650 hours is our third level of mastery in medical qigong. A full 650-hour specialization program, offered at Five Branches University, the MQP is a powerful journey through deep self-healing as a means to awaken your ability to help others heal. The journey begins with self-cultivation, all of which is a basis for developing and unveiling your innate ability to invoke, direct, and modulate universal and biological energy in medical qigong treatment. You will gain a profound inner awareness, as well as sensitivity to read and assess your client's energetic matrix. You will learn how to direct energy for healing through purging, tonifying, and regulating techniques and will know which qigong exercises to teach your clients based on their particular needs and patterns of disharmony. You will learn many specialized treatments for a variety of conditions, have confidence in treating a variety of clients, and cultivate your teaching skills.

Upon completing the MQP Specialization, you will be proficient in:

- Self-cultivation and profound inner awareness
- Daoist and traditional Chinese medicine theory
- Energetic sensitivity, assessment, projection, and modulation
- Medical qigong treatment for a wide variety of conditions
- Prescription of qigong exercises specific to a patient's needs and condition

Required Core Classes	Hours
EWM 100: Surface Anatomy	30
EWM 103 203: Anatomy & Physiology I and 2	75
ECT 100: Theory of Traditional Chinese Medicine I	45
ECT 200: Theory of Traditional Chinese Medicine II	45
ECT 210 310: TCM Diagnosis I & II	90
ECD 200: Professional Ethics & Business Management	15
Required Medical Qigong Courses	Hours
EMQ 310: Medical Qigong I: Self-Cultivation	30
EMQ 300: Medical Qigong II: Self-Cultivation, Shengong Skills	30
EMQ 330: Medical Qigong III: Clinical Foundations of Medical Qigong Theory	30
EMQ 340: Medical Qigong IV: Advanced Theory and Clinical Application	30
EMQ 410: Medical Qigong V: Sensory, Intuitive, and Perceptual Diagnosis	30
EMQ 420: Medical Qigong VI: Medical Qigong Dao Yin Therapy and Rectifying Qi Deviations	30
EMQ 430: Medical Qigong VII: Intro to Medical Qigong Therapy for Special Conditions	30
EMQ 440: Medical Qigong VIII: Energetic Anatomy and Physiology	30
EEL: Electives *	20
ECL 400/610: Medical Qigong Clinical Training	90
Total Hours	650

***Electives:** You can select from a variety of classes including:

- Herbal First Aid Workshop
- Therapeutic Use of Essential Oils

- TCM & Weight Management
- TCM Qi from I-Ching Perspective
- I-Ching: The Book of Changes
- Medical Spanish
- Reiki
- Meditation
- Medical Qigong Retreat to China

Medical Qigong Course Descriptions

Core Courses

Surface Anatomy

- EWM 100 2 Units/30 Hours

This course provides an introduction to the study of human structure by presenting an integrated approach to the normal human body. Western anatomy and acupuncture energetic anatomy are bridged in this course that emphasizes musculoskeletal anatomy through lecture, palpation and movement. Major landmarks are described and are related to interior anatomical structures, emphasizing key acupuncture point location with physical assessment. Human skeletons, anatomical charts, models and full color digital images will be used for demonstration.

After completing this course, students will understand human structure at cell, tissue, organ, system and organism levels. Throughout knowledge of human structure will be a foundation for further study of physiology, pathophysiology, western medicine and acupuncture.

Prerequisites: None

Anatomy & Physiology I & II

- EWM 103/EWM 203 5 Units/75 Hours

This two-course series covers the human body structure (anatomy) and function (physiology) and their interrelationships. Human skeletons, anatomical charts, models and full color digital images will be used for demonstration. The course also touches upon some common human disease processes.

The first of this two-term sequence includes the study of structure and function of cells, tissues, as they apply to the integumentary, skeletal, muscular, cardiovascular and lymphatic/immune systems.

Prerequisites: Anatomy and Physiology I: Concurrent enrollment in Surface Anatomy.

The second course in the sequence covers the study of the nerve system, endocrine, respiratory, digestive, urinary, and reproductive systems.

After completing this course, students will understand human structure at cell, tissue, organ,

system and organism levels. Knowledge of human structure & function is the foundation for further pathology, pathophysiology as well as acupuncture point location & function.

Prerequisites: Anatomy and Physiology II: Completion or concurrent enrollment in Anatomy and Physiology I

TCM Foundations I & II

- ECT 100|200 6 Units/90 Hours

This two-course series is the foundation for all other TCM coursework.

The first course introduces students to the classical principles of the fundamental theories of Chinese Medicine such as the Yin and Yang, the Dao, and the Five Elements, which were universal laws in ancient China. TCM theory applies these broad principles to the realm of human physiology and pathology in a complex and powerful system for understanding the intricate balance of health. The major TCM theories are systematically covered, including Qi, Blood, Shen, Essence, Body Fluids, and Zang-Fu organs and their dynamic internal relationship.

The second course builds on the first one and covers various theories of Chinese medicine including the Six Pernicious Influences, Four Levels, Six Stages and Eight Parameters. Etiology, pathogenesis, as well as TCM treatment principles of disease and disease prevention are covered in detail.

After completing these courses, students will be familiar with the basic language and terminology of traditional Chinese Medicine as well as the theories and concepts that are the foundations of Chinese medicine's view on health and illness.

TCM Diagnosis I & II

- ECT 210|310 6 Units/90 Hours

This is a two-course series covering the four diagnostic methods in Chinese medicine as well as in-depth learning of pattern disharmony.

The first of two courses begins with thorough instruction in the four diagnostic methods: inspection, inquiring, auscultation/olfaction and palpation. The four diagnostic methods are the backbone of TCM diagnosis and are used to collect and organize the patient's signs and symptoms. Emphasis is placed on tongue and pulse evaluation.

Prerequisites: Diagnosis I: Completion of ECT 100, Foundations I; concurrent enrollment in ECT 200, Foundations II

The second course continues with in-depth instruction on methods of Pattern Identification, one of the most important characteristics of TCM. The course goes over the full differential diagnosis of syndromes from the various theoretical frameworks. These include: Zang Fu, Eight Principles, Six Stages, Four Levels, and the Three Burners. Case studies and role play are used to assist students in acquiring accuracy and confidence in taking a patient history and performing a physical exam using TCM

assessment methods.

Upon completion of these courses, students will know how to use the four diagnostic methods to gather patient data and perform a complete patient history intake and exam. Additionally, they will be able to recognize and identify basic TCM patterns of disharmony by analyzing the information acquired from the four diagnostic methods.

Prerequisites: Completion of ECT 100/200, Foundations I & II; ECT 210, Diagnosis I

Professional Ethics

- ECD 200 1 Unit/15 Hours

This course covers the universal medical ethics required of a primary healthcare practitioner, emphasizing professional responsibility and the study of laws which regulate TCM practices in California and the U.S. Upon completion of this course, students will be thoroughly aware of the professional, ethical, and legal responsibilities of treating patients.

Energetics

Medical Qigong I: Self Cultivation

EMQ 310 30 Hours

In this Medical Qigong 1 course, students are led through a progressive series of Qigong (Energy Skill) exercises and meditations. Basic applications of Medical Qigong Purgation, Tonification and Regulation energetic skills are experienced. Each class includes lecture, demonstration of exercises and personal practice of this energetic medicine. Students are also taught specific Medical Qigong prescription exercises and meditations, and learn how and when to apply them in clinic (e.g., purging excess conditions, tonifying deficiencies, dispersing stagnations and regulating Qi, Blood and Body Fluids). There is also an introduction to energetic psychology, which includes discharging toxic emotions and how to safely handle the emotional discharges or toxic energetic releases coming from their patients.

Prerequisite: None

Medical Qigong II: Self Cultivation - Shengong Skills

EMQ 320 30 Hours

In Medical Qigong Level II, students are led through a progressive series of advanced Shengong (Spirit Skill) meditations and exercises. These exercises and meditations are specifically used for developing advanced intuitive diagnostic skills. The students also learn basic Medical Qigong treatment protocols and begin the initial phase of their Medical Qigong clinical experience by performing basic treatments on their fellow classmates. The basics learned in this class include using Medical Qigong for diagnosis and then using purging, tonifying and regulating techniques in the subsequent treatment.

Prerequisite: Medical Qigong I

Medical Qigong III: Clinical Foundations of Medical Qigong Theory

EMQ 330 30 Hours

In the third module, students will further develop their energetic assessment and treatment skills. New treatment modalities will be introduced and integrated with those already learned in the second module. Students experience a broadening and deepening of energetic therapy, and a greater comprehension of the human energetic matrix and the various causes of disharmony and disease.

Prerequisite: Medical Qigong I & Medical Qigong II

Medical Qigong IV: Advanced Theory and Clinical Application

EMQ 340 30 Hours

In Medical Qigong IV, students are introduced to various organ disharmonies and how they may be addressed with medical qigong treatment and prescription exercises. Students deepen their understanding of energetic imbalances within the framework of medical qigong as well as traditional and Daoist Chinese medicine, with emphasis on how to address each pattern and restore balance to the patient. At the end of the course, students will gain confidence in recognizing and addressing various organ disharmonies using medical qigong therapy.

Prerequisite: Medical Qigong I & Medical Qigong II

Medical Qigong V: Sensory, Intuitive, and Perceptual Diagnosis

EMQ 410 30 Hours

The fifth module broadens understanding in the use of intuitive and perceptual diagnostic and evaluation skills. Students will be trained in various sensory, intuitive, and perceptual skills used in the medical qigong clinic. A variety of assessment methods as well as auxiliary medical qigong healing modalities will be covered.

Prerequisite: Medical Qigong I & II

Medical Qigong VI: Medical Qigong Dao Yin Therapy & Rectifying Qi Deviations

EMQ 420 30 Hours

In the sixth module, students deepen their understanding of the positive impact of posture, breath, and intent on a person's total energy dynamic. Postural, respiratory, and mental Dao Yin training methodologies will be covered, with emphasis on their transformative qualities, as well as an exploration of potential hazards due to incorrect training. Methods will be covered which correct qi deviations resulting from inappropriate practice.

Prerequisite: Medical Qigong I & II

Medical Qigong VII: Intro to Medical Qigong Therapy for Special

Conditions

EMQ 430 30 Hours

The seventh module is an introduction to energetic treatment modalities for special conditions and circumstances. Some of the topics covered include qigong prescriptions for and treatment of children, the elderly, menopausal symptoms, menstrual complications, gynecological disorders, stroke, Bells palsy, as well as mental and emotional disorders. Students will be exposed to specialized treatment protocols, and will deepen their understanding of managing a person's emotional, mental, and spiritual states.

Prerequisite: Medical Qigong I & II

Medical Qigong VIII: Energetic Anatomy and Physiology

EMQ 440 15 Hours

The eight modules introduce students to TCM theory from the perspective of medical qigong. Various aspects of energetic anatomy will be covered, some of which include the three dantians and the center taiji pole, the twelve primary channels and related organs, the eight extraordinary channels and their functions, as well as the extraordinarily organs. Students will gain a much deeper appreciation and comprehension of the multidimensional nature of human life, and the various levels at which disease can be addressed and treated.

Prerequisite: Medical Qigong I & II

Clinical Training

Medical Qigong Intern Rounds Clinic

ECL 400 45 Hours

Students begin their medical qigong clinical training with intern rounds, where the instructor observes each treatment, and is available at all times to answer questions, make corrections, and suggestions. The instructor may demonstrate treatments at the beginning of the training session until students feel confident in treating. Students will perform the basic treatment protocol learned in medical qigong level 2, and apply any techniques and protocols learned in levels 3 and 4, followed by any pertinent exercises learned in level 1. Students will gain confidence in client interview, energetic assessment, and treatment, followed by the prescription of exercises specific to the client's energetic condition.

Prerequisite: Medical Qigong I & II, TCM Theory I & II, & TCM Diagnosis

Medical Qigong Internship Clinic

ECL 610 45Hours

Students continue their medical qigong clinical training with internship, where students treat their clients without the instructor's presence in the treatment room. Students

begin treating in pairs, and then individually. The instructor will be on hand to answer any questions, provide guidance and suggestions. Students will perform the basic treatment protocol learned in medical qigong level 2, and apply any techniques and protocols learned in levels 3 and 4, followed by any pertinent exercises learned in level 1. Students will gain confidence in client interview, energetic assessment, and treatment, followed by the prescription of exercises specific to the client's energetic condition.

Prerequisite: Medical Qigong I & II, TCM Theory I & II, & TCM Diagnosis

Elective Courses

Herbal First Aid Workshop

EEL 200 7.5 Hours

In this course, students gain insight into the herbal histories of China, India, American Indians, the Amazon, and the West. Students will be taught guiding principles of first aid herbology, with an emphasis on safety and dosage. First Aid scenarios will be covered, along with specific herbals and homeopathic remedies to address ailments including: frostbite, sunburn, dehydration, hypothermia, injury/wounds, insect bites, animal bites, snake bites, food poisoning, diarrhea, vomiting, allergic reactions, asthmatic attack, low blood sugar, shock, loss of consciousness, infection, and fever. Students will learn to make herbal preparations including: herb-infused oils, herbal salves, and herbal tinctures.

Prerequisite: None

Therapeutic Use of Essential Oils

EEL 210 7.5 Hours

This 2 day class will provide a comprehensive overview of the therapeutic use of botanical aromatics (Essential Oils). Students will have hands on experience on how to utilize these "Healing Allies" for personal self-care and for use within the treatment room with patients/clients. The History, Properties, Application, Common Usage, Extraction methods, Plant Constituents and relevant research in this field will be covered. Students will each receive a wide range of Samples of pure grade therapeutic Oils that will be taken home for personal use and exploration. There is a \$25 material fee for this class to cover these Samples. Students should bring a small jar of ground coffee beans to neutralize the olfactory system if need be.

Prerequisite: None

TCM & Weight Management

EEL 250 7.5 Hours

This course will cover topics on Weight Loss through theory and practice. The instructor will explain the process of weight management, syndromes, weight loss abdominal massage manipulation, and the approach of acupuncture to weight

management for the whole body and local fat. There will be both demonstration and practice session with massage manipulation and acupuncture for two hours in the morning and afternoon. Additionally, ear points and nutrition will be explained in this class.

Prerequisite: None

TCM Qi from I-Ching Perspective

EEL 270 15 Hours

This two days course explores the definition of Traditional Chinese Medicine (TCM) qi from the perspective of Chinese classics, *I-Ching* and *Nei Jing*. We will first introduce the basic theory behind the *I-Ching* and explain the definition of TCM qi by giving supporting statements from the *Nei Jing* and examples of TCM qi. Applying the concepts of the trigrams (Ba Gua), we will explain the relationships between jing, qi shen and how they interact with each other based on *I-Ching* terminology. Using similar concepts with Four Images and Ba Gua, we will also compare and contrast Wei qi and Ying qi and examine how they relate to the five organs. Next, we will study how yin and yang of blood and qi affect the physiology of pulse and channels using examples of modern science. Finally, students will be taken on a journey to explore the Qi in Chinese Culture and its application to TCM. At the end of the class, students will be able to understand the basic meaning of I-Ching trigrams and their relationship with TCM through which the abstract meanings of TCM Qi can be defined, symbolized, and understood with the aid of the supportive statements from the *Nei Jing*.

Prerequisite: None

I-Ching: The Book of Changes

EEL 280 15 Hours

This two days course introduces the application and cultural aspects of the Chinese classic, *I-Ching: Book of Change*. Students will be taken on a journey to explore the fundamentals of I-Ching, from a book of oracle to a compendium and a classic ancient text of cosmic principle that are infused into all aspects of the Chinese culture; including medicine, arts, music, natural science, architecture, and many more. Specifically, we will explore how yin-yang and 4-image apply to the 12 channels meridian flow, and the connections of the 5-elements of those Channels to the Earlier Heaven BaGua arrangement. We will also use the He-Tu (River Map) Theory to explain why the “well” point in the 5 Shu-points is metal in the Yang Channels, but it is wood in the Yin Channels. In addition, we will explain how the Earthly Branches (Chinese clock), which represent by a hexagram, related to herbs, our body organs and the four directions (Ascending, Descending, Floating, Sinking). Finally, we will uncover the principium of I-Ching and look at the philosophical, mathematical and image features of the I-Ching and how the educated Confucian elites in China interpreted the Book as guidance of their personal virtues. We will see how much I-Ching is integrated into our daily life.

Prerequisite: None

Medical Spanish

EEL 300 7.5 Hours

In this course, students learn basic and advanced Medical Spanish terminology, verb selection / conjugation, questioning, detailed intake (TCM, western), enabling effective and accurate communication with Spanish-speaking patients. Learn anatomy and the physical systems of the body, key pain terminology, and detailed terminology and common conditions for: headache, orthopedics / neurology, gynecology, digestion, cardiovascular, and respiratory. Class will be conducted primarily in English, and will include practice drills for students (time permitting). Handouts will be available. Students will be to purchase an audio-practice CD and TCM Medical Spanish reference handbook suitable for clinic.

Reiki I

EEL 400 7.5 Hours

In Reiki I, participants will be attuned to the Reiki energy and learn about Reiki principles, history, benefits and basic hand positions of Reiki. Upon completion, participants will be able to use Reiki for self-treatment and for treating others.

Prerequisite: None

Reiki II

EEL 410 7.5 Hours

In Reiki II, participants learn three sacred symbols to strengthen the flow of Reiki energy, how to give distance sessions, facilitate mental clearing and affirmation, and apply Reiki to animals, plants and for energy release.

Prerequisite: Reiki I

Insight Meditation

EEL 450 4 Hours

Insight Meditation is the art of being present, paying attention and learning to see things clearly as they really are. In this class, student begin by focusing on the breadth; then move to the body doing a body scan to help our awareness of the body; then focusing on emotions and, finally working with our thoughts and the thinking process. Student will learn to focus and concentrate on the breath for brief periods, become familiar with the wandering mind or “monkey mind”, and learn how to be with emotions without either grasping or resisting and pushing them away.

Prerequisite: None

Medical Qigong Retreat to Qingcheng Mountain, China

EMQ 700 30 Hours

Our medical qigong instructor will lead a group of adventurers to Qingcheng Mountain, a magical place where both the inner and outer journey initiates powerful

transformation and change. Joyful exploration of inner alchemy practices, along with the splendid beauty of luscious mountain terrain will carry each participant to new heights and depths of self-awareness and inner alignment with pure positive Source energy. Qingcheng Mountain is one of the sacred mountains of China, a cradle of Daoist philosophy and cultivation. Special opportunity to cultivate and reflect in this environment will provide the perfect backdrop for a deep and joyous journey into the heart of Daoist practices, and our own inner alignment with source energy.

Prerequisite: All are welcome. Prior experience with qigong is highly beneficial.

Admissions

Five Branches University seeks highly motivated applicants who wish to enhance their professional development, careers, and practice in Asian Bodywork and Qigong, and in Medical Qigong. Applicants need to possess a high school diploma or equivalent.

Priority Application Dates

Applications are reviewed throughout the year on a priority status basis. The priority status application process gives preference to early applicants. Prospective students may apply for any term: Fall, Spring, or Summer. To ensure space in an entering class, we strongly recommend you apply by the priority application dates listed below. If all entering class spaces have been filled, you will receive priority status for the following trimester.

Priority Application Dates

Fall Trimester: May 1

Spring Trimester: September 1

Summer Trimester: March 1

Non Degree-Seeking / ABQ Specialization-Seeking Applicants

NDS-ABQ students may complete up to 16% or one (1) year of study in the DTCM/MTCM program in pursuit of ABQ specialization. ABQ students receive an official transcript showing coursework that has been successfully completed, and can request to become a degree-seeking student at any time. NDS students must follow the same application and admissions procedures as required of degree-seeking students. NDS students are not eligible for federal financial aid.

Completing the Application

To be considered for admission to Five Branches University, the following items are required:

1. Application for Admission – Use your full legal name on all admissions documents. The campus you prefer should be clearly indicated on the application form. If your choice of campus is undetermined, mail your application package to the Santa Cruz campus.
2. Recent photograph – One recent passport style photograph.
3. Statement of Purpose – A one-page, typed essay describing your background, how you became interested in TCM and your plans beyond graduation.
4. Resume – An up-to-date resume listing all previous education, job experience, accomplishments and volunteer work.
5. Application fee – A non-refundable application fee of \$45.00, payable in check or money order.

Non-Specialization Seeking Applicants

Students may register for an individual course or seminar. Courses and seminars may also be taken by certified practitioners for continuing education, or as electives by students in other specialization programs. Seminars are taught throughout the year by respected experts in the fields of Asian bodywork and Qigong. Classes taken within the Seminar Series can be applied as electives to the Asian Bodywork and Qigong specialization, and the Medical Qigong Practitioner specialization.

Non-specialization seeking applications are only required to complete the Enrollment Agreement form and submit it with the tuition for each course. The additional materials requested in the checklist are not required.

English/Chinese Language Requirements

Program Languages Offered

Five Branches University Extension Program courses and specializations are taught in English and Bilingual (English and Chinese). The Asian Bodywork and Qigong program is taught in English because the MBLEx (Massage and Bodywork Licensing Exam) is offered only in English. The ABQ program may be taught bilingual (English and Chinese) by a bilingual faculty member when there are sufficient foreign language students to fill a class.

Required Language Proficiencies

Applicants for English language specialization programs must be comfortable reading, writing, and speaking English. Though no TOEFL score is required, the University will conduct English language evaluation to verify English proficiency.

Non-native English speakers need to have sufficient knowledge of English to learn the scientific language used in massage, anatomy, physiology, pathophysiology, kinesiology, ethics, business management and the MBLEx examination. Quizzes and exams of the program are given in English.

Enrollment agreements and program information guides shall be written in language that is easily understood. If English is not the student's primary language, and the student is unable to understand the terms and conditions of the enrollment agreement, the student shall have the right to obtain a clear explanation of the terms and conditions and all cancellation and refund policies in his or her primary language.

If you are applying the program taught in Chinese, you need to meet with one of the following requirements:

- Chinese is the student's primary language
- Previous education degree in Chinese language or program delivered in Chinese
- Complete assessment test with FBU Admissions (Statement writing, Interview, and language background in Chinese)

International Students

International students who are legally in the U.S. for example as tourists, for business or students, may enroll in courses of the Extension program and do not need an I-20 form from Five Branches University or a Five Branches University student visa.

Extension program courses are not eligible for providing an international student with an I-20 and student visa. The University does not provide visa services.

Transfer Credit

Limited transfer credit may be awarded for coursework from accredited or State approved schools that supports the Extension Program's objectives and meet the standards for completion of the Extension Program. No more than one-third of the credits for the Extension Program may be transferred. Transfer credit is subject to 15% of the current Extension Program tuition charge per transferred course.

Transfer credit applies only to course work taken prior to enrollment at the University, within the last seven years. No credit is awarded for life or work experience, prior experiential learning, challenge examinations or achievement tests, or courses in which a grade of less than C was earned. Courses are evaluated for transfer and credit awarded prior to the start of a Student's first term of enrollment.

If courses completed prior to enrollment were not evaluated or credit not awarded prior to the start of the first term, the Student may complete a Transfer Credit Request form and submit it, along with all official/pertinent documentation, to the Extension Program Director for evaluation. The Director, in coordination with the appropriate department faculty member, will make the determination as to whether to award transfer credit. If credit is not awarded, a written appeal of the decision may be made to the Academic Dean, whose decision on the matter is final.

Five Branches University does not currently have any articulation or transfer agreements with any colleges or University. The University does not offer an Ability-to-Benefit plan.

Questions regarding transfer credit should be referred to the Extension Program Director.

Advanced Study Abroad Program Applicants

The Five Branches University Extension Programs allow students to continue training in Asian bodywork and Qigong where these modalities originated and are commonly practiced. This is a unique, once-in-a-lifetime opportunity to study directly with teachers who are distinguished authorities in Asian bodywork and Qigong outside the United States. After completion of the 500-hour Asian bodywork program, students may participate in study-abroad programs. Study and practice in China, Thailand and Japan puts students into direct contact with the ancient roots of Asian bodywork and Qigong.

Questions

Please call the Extension Admissions Directors for more information and to schedule a campus tour:

- In San Jose - Elizabeth Tan, (408) 260-0208 ext 217

- In Santa Cruz - Eleonor Mendelson, (831) 476-9424 ext 31
Email admissions@fivebranches.edu

Becoming Licensed and Certified

Massage Licensure and Certification

Students who complete the Asian Bodywork & Qigong Specialization(s) through our Extension Programs, and pass the national MBLEx licensing exam are eligible for National certification as a Certified Massage Therapist. Students need to check with individual states if they are eligible for State or National licensure or certification depending on applicable law. Regulations and requirements vary in each state.

National Licensure with MBLEx

Depending on your area of interest, expertise and the requirements of your individual state, you may need to take the MBLEx (Massage & Bodywork Licensing Examination)

For the latest information concerning national exams, contact:

MBLEx

Federation of State Massage Therapy Boards

7300 College Boulevard, Suite 650, Overland Park, KS 66210

913.681.0380 | info@fsmtb.org

Massage & Bodywork Licensing Examination (MBLEx)

866.962.3926 | mblex@fsmtb.org

Additional Licensure and Certification Information

For additional information on state licensure and certification requirements and contact information for the regulatory agency for massage and bodywork located in each state go to: <https://www.massagetherapy.com/become>

Specializations may not be recognized for some employment positions, including, but not limited to, positions with the State of California.

Medical Qigong Licensure and Certification

The practice of Medical Qigong is not regulated within the United States. Our students

are encouraged to check their applicable State regulations on the practice of any health profession, including laws on diagnosing and treating patients.

Standard Occupational Classification (SOC) Codes

Massage Therapist are classified under code 31-9011 Massage Therapists: Perform therapeutic massages of soft tissues and joints. May assist in the assessment of range of motion and muscle strength, or propose client therapy plans.

Medical Qigong graduates are classified under code 29-9099 Healthcare Practitioner, All Other: All healthcare practitioners not listed separately.

Tuition, Fees and Financial Aid

Asian Bodywork & Qigong Specialization

	Program Tuition	Trimester Tuition
ABQ - 500 hours Asian Bodywork & Qigong	\$5,000	\$2,500
ABQ – 650 hours Asian Bodywork & Qigong	\$6,500	\$3,250

Medical Qigong Energetics Specializations

	Program Tuition	Trimester Tuition
LEVEL I - 60 hours Medical Qigong Self-Cultivation	\$960	\$480
LEVEL II - 330 hours Medical Qigong Specialist	\$5,280	\$2,640
650 hours	\$10,400	\$2,600

Medical Qigong Practitioner		
-----------------------------	--	--

Applicable Program Fees:

Application Fee (\$45)
Student Tuition Recovery Fund (\$2.50 per \$1000 of Tuition)
Malpractice Insurance (\$15)
Transfer Course Fee (15% Course Tuition \$500 CAP)
Student Activities Fee (\$25)
Make-up Exams (Quiz \$25, Midterm \$50, Final \$75)
Official Transcript (\$10)
Copy of Diploma (\$45)
Late Payment Fee (\$10)

*Tuition does not include the cost of books or additional fees. Required books are estimated to cost approximately \$300. Elective courses beyond the required courses of a program are not included in the total cost of program tuition. All institutional fees are non-refundable.

Tuition Payment

Registration takes place on an ongoing basis and two weeks before the beginning of the trimester. Tuition is due in full during the first week of the trimester. Tuition and fees for international students are the same as for U.S. citizens and residents. Five Branches University reserves the right to change tuition and fees as necessary.

If you are unable to pay in full during the first week of the trimester, an extended payment plan can be arranged whereby 50% of tuition costs are due the first week of the trimester, with the balance due six weeks into the trimester.

When registering, state law requires that all students sign a contract that protects their rights and specifies the enrollment and financial agreement with Five Branches University.

State and Federal Financial Aid

Title IV funding is not available for the Extension Programs at Five Branches University, as Federal financial aid is not available for non-accredited programs.

Financial Aid is available to students who study massage within the larger context of the degree programs in Acupuncture and Traditional Chinese Medicine.

Other Sources of Financial Aid

Students seeking tuition assistance for Five Branches University's Extension Programs may be eligible to participate in one or more programs offered through the State of California. Please refer to the following for more information:

Workforce Investment Act

(http://www.edd.ca.gov/jobs_and_training/Workforce_Investment_Act.htm)

Department of Rehabilitation

(<http://www.rehab.cahwnet.gov/>)

Loan Repayment

If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds.

Student Tuition Recovery Fund (STRF)

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, California, 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

Office of Student Assistance and Relief

“The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370- 7589, option #5, or by visiting osar.bppe.ca.gov.”

Note that the phone number and web address provided above may be subject to change. Please subscribe to Bureau updates at bppe.ca.gov to receive notifications of changes.

Academic Policies and Student Rights

Professionalism

The Five Branches University Student Handbook and Clinic Manual contain specific regulations regarding professionalism in the University and clinic. Students need to maintain appropriate professional standards and appearance. Violations of professionalism may result in disciplinary action, including counseling from the advisor, academic probation, temporary academic suspension pending corrective action, and final termination from the program.

Hygiene, Dress Code & Draping Policies

Hygiene: All students must be clean and free of offensive odors during class time and especially when working with the public. Hands **MUST** be washed with soap and warm water between massages. Linens **MUST** be changed for each massage. Students will not be allowed to attend clinical or practical hours if sick.

Dress code: There is no uniform requirement. Students should dress comfortably but appropriately for interaction with the public and must be clean.

Draping: All subjects being massaged will be appropriately draped/covered at all times.

Academic and Clinical Course Attendance

Extension students are required to attend all scheduled classes, and are required to take all Examinations on the dates they are scheduled, including the clinical training in the program. If a student must miss a class due to an emergency situation, the student is responsible for obtaining all information for the missed class and must meet with the instructor to arrange make-up assignments.

If circumstances occur that cause absences of up to 12% of a course (i.e. 2 hours of a 15 hour course), the Student is responsible to meet with the instructor to determine if a makeup assignment will be required due to the absences.

Missing 18% or more of a course (i.e. 3 hours of a 15 hour course) will result in an automatic letter grade deduction. When missing 18% or more of a course, makeup work is not allowed to cover the lost time, nor may the lost time be made up in the next term.

If a student misses 30% or more of a course (i.e. 5 hours of a 15 hours course), the student will automatically fail the course.

Please note that instructors may have their own attendance policies that are stricter

than the University policy.

Lateness

Arriving late for course meetings or clinical training, returning late from a break or leaving early is disruptive for classmates and instructors. Please arrive on time for academic and clinical courses and return from breaks in a timely manner. Attendance is recorded as hours present in class. Three late arrivals will be counted as one absence. Frequent tardiness and/or continued absences that interfere with a Student's academic work are grounds for review by the Extension Administration.

Class Breaks

The schedule of class breaks is subject to the discretion of the instructor, with 5 minutes of break accrued per hour.

Grading System and Assessment Method

Grades are an assessment of student progress relative to achieving the educational goals and objectives listed in course syllabi and in accordance with the policies of the University. Five Branches University uses the letter grading system (A, B, C, F) for all didactic courses and Bodywork clinic hours. The methods of assessing a student's academic achievement include: 1) written quizzes and exams, 2) participation and attendance in class and clinic, and 3) homework projects.

Letter Grades

Letter grades (A,B,C,F) are given for all Massage Program courses. Should a Student wish to receive credit for a course in which a grade of F was received, the Student must repeat the course. Should a Student receive a grade of F in a course that is a prerequisite for another course, the Student must repeat the course with a passing grade prior to enrollment in the course for which it is a prerequisite.

A failed course can only be repeated once.

An instructor may choose to give + and - grades for courses. However, such grade notations will not affect the attendance record.

Grade	Explanation
A, B, C	Pass
F	Fail

Credit/No Credit

Credit/No Credit (CR, NC) grades may be used to Non Massage program courses with attendance and written instructor evaluation serving as the primary means of assessing Student performance.

When a grade of NC is received, no hours are awarded for the course.

Grade	Explanation
CR	Credit
NC	No Credit

Other Grade Notations

These grades have no corresponding grade points and are not calculated into the Student's GPA.

Audit

Audit (AUD) is given as a grade only when a non-clinic course previously taken and passed by a Student is being repeated for no units/hours of credit.

Transfer Credit

Transfer Credit courses are awarded the letter grade that was received from the transferring institution.

In Progress

In Progress (IP) signifies current enrollment in courses in an ongoing term.

Withdrawn

Students who drop a course when less than 80% of the course remains will receive a grade of W (withdraw) for didactic courses, and a grade of NC (no credit) for practical and clinical courses.

Incomplete

Incomplete (I) signifies that a portion of the required work for an academic course has not been completed.

Should a Student wish to receive credit for a course in which an incomplete grade (I) has been converted to an F, the Student must repeat the course. A failed course can only be repeated once.

Once the course is completed with a passing grade the F grade will no longer calculate into the GPA.

Grade	Explanation
AUD	Audit

TC	Transfer Credit Letter Grade
IP	In Progress
W	Withdrawn
I	Incomplete

Academic Probation and Dismissal

Extension students must maintain professional standards and a Trimester GPA of 2.50 or better to be in good academic standing. If they do not meet these requirements, students are placed on academic probation. Failure to achieve good academic standing in the following 6-month period results in academic suspension. The Extension advisor supervises this process. Extension students who do not maintain good academic standing are required to meet with the Extension advisor and devise a plan to improve academic performance.

Academic Probation

Students who are placed on Probationary status will be notified of this action by letter. The reason for Academic Probation will be explained in the letter. Students who fail to meet their Warning term requirement(s) by the end of the Warning term, will be placed on Academic Probation for the ensuing term. Students must successfully appeal the Probation in order to enroll for future courses. Students are placed on Academic Probation for a period no longer than two (2) terms. Failure to return to good academic and/or professional standing will result in dismissal from the program.

Appeals

- Appeals must be made in writing to the Extension Program Director.
- An appeal must describe any extenuating or mitigating circumstances that prevented compliance with the Progress Policy (i.e. death of a relative, an injury or illness)
- An appeal must explain what has since changed in the student's situation and the precise steps (Academic Plan) the student will take or is taking to gain good academic standing.
- The Extension Program Director is responsible for reviewing and approving appeals. An approved appeal by the Extension Program Director restores enrollment status to the student during the Probationary term. The Extension Program Director may require a meeting and/or further developed Academic Plan to ensure satisfactory academic progress requirements are met by a specific term. An Academic Plan is an agreement between the student and University. Any changes to an agreed upon Academic Plan must be made by an additional appeal.

Academic Dismissal

Academic dismissal is termination of enrollment at the University for continued failure to meet academic or professional standards.

Failure to comply with the requirements set forth by the Academic Policy for remediation of a Probationary status will result in Academic Dismissal. Students may appeal this action through the appeal process outlined above. Students whose Probationary or Dismissal appeals are denied by the Extension Program Director are not eligible to enroll at the University. An appeal denied by the Extension Program Director may be appealed to the President; decisions made by this Office are final.

Re-Application after Academic Dismissal

The University will not consider applications from Students who have had their enrollment terminated at the University through academic dismissal for at least one year. A dismissed Student who wishes to re-apply for admittance will be required to submit a new application, statement of purpose, application fee, letters of recommendation and transcripts. Upon returning the Student will be required to complete the program of study that is in place in the term in which they return. All re-admission is subject to approval.

Time Limit for Specialization Completion

Each level of specialization in the Extension Program must be completed within two years. After completion of one level of specialization, students may return for a higher level of specialization and apply the cumulative hours of the previous level within seven years. After seven years, the coursework is considered outdated and must be repeated in order to apply it towards the next level of specialization.

Leave of Absence

The purpose of a Leave of Absence (LOA) is to provide students with the opportunity to leave the college for an extended period of time without withdrawing or affecting their SAP calculations. A student in good standing who has successfully completed at least one (1) term may apply for a LOA not to exceed 180 calendar days. The student must complete a Leave of Absence form and submit it to the Registrar's Office for approval. The effective date for the LOA must be at the beginning of the term the student is requesting the leave and comply with appropriate requirements. If a student was scheduled to be on Academic Probation for the term the LOA is effective, the conditions of the Academic Probation will be effective the term the student returns from the LOA. Students, who do not return from a LOA to resume courses on or before the approved return date, will be automatically withdrawn from the program. Excluding the time taken for leave, students must complete the program within the maximum program time-frame.

Withdrawal From The Program

Withdrawal from the program requires written notice on a Withdrawal form and submitted to the Extension Program Director.

Re-Admission after Withdrawal

There are requirements for re-enrollment at Five Branches University after having withdrawn from the program. The Student will be required to submit a letter to the Extension Program Director stating the request to re-enroll. The Student may be required to complete a new application for admission. If returning after an absence of one year or more, upon returning the Student will be required to complete the program of study that is in place in the term in which they return. All re-admission is subject to approval.

Re-Admission after Withdrawal on Academic Probation

Students who have withdrawn from their studies before the end of a term in which they are on Academic Probation are automatically subject to Academic Dismissal and will need to meet with the Extension Program Director to verify his/her academic standing and to work out an academic plan for completion of the program prior to re-entry. The Student will be required to submit a letter to the Extension Program Director stating the request to re-enroll. The Student may be required to complete a new application for admission and will be applying for the program of study that is currently in place. All re-admission is subject to approval.

Notice Concerning Transferability of Credits and Credentials Earned at Our Institute

The transferability of credits you earn at Five Branches University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the Extension Program specialization(s) you earn in Five Branches University is also at the complete discretion of the institution to which you may seek to transfer. If the Extension Program specialization(s) that you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Five Branches University to determine if your Extension Program specialization(s) will transfer.

Student Right to Cancel, Withdrawal and Refund

Drop / Withdraw Course(s) and Tuition Refund

Students not attending a class in which they are enrolled must drop or request to withdraw from the class; failure to do so will result in a failing grade on the student's record.

Full Refund:

To obtain a full refund, a student must submit a drop form/request no later than the seventh (7) day after Term begins. If a student is unable to do so an e-mail from university issued account to the Registrar stating your request will be accepted. The

deadline to drop course(s) and obtain a full-refund is specified in the Enrollment Agreement. A \$50 drop fee will apply for each course that is dropped after the deadline.

Pro rata Refund:

If a student chooses to drop a course after seventh (7) day after Term begins, a student may obtain a pro rata refund for the unused portion of the tuition without receiving W grade if 20% or less of the course time has lapsed.

A Student wishing to withdraw course(s) after 20% of the course time has lapsed. A withdraw course form is required to be submitted and Withdrawal (W) grade will be issued. A Student must state in writing on a Withdraw course form or an e-mail from university issued account to the Registrar. The effective date of withdrawal is the date emailed, postmarked or turned in to the Registrar. A student will receive a pro rata refund for the unused portion of the tuition and other refundable charges if the student has completed 60% or less of the enrollment period.

Please note that there is no refund for course absence(s) of any period during a term or session, or for dropping a course after 60% of the course time has lapsed. If the University cancels or discontinues a course, the school will make a full refund of all charges.

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student’s federal direct loan debt. If the University cancels or discontinues a course or educational program, the school will make a full refund of all charges.

Tuition Refund Schedule

	% Completed	Tuition Refund	Drop Fee/Course	Grade Assigned
Week 1	6.6%	100%	\$0	-
Week 2	13.3%	86.7%	\$50	-
Week 3	20%	80%	\$50	-
Week 4	26.7%	73.3%	\$50	W
Week 5	33.3%	66.7%	\$50	W
Week 6	40%	60%	\$50	W
Week 7	46.7%	53.3%	\$50	W
Week 8	53.3%	46.7%	\$50	W
Week 9	60%	40%	\$50	W
Week 10-12	No Refund			W
Week 13-15	Dropping courses not permitted			

Withdrawal from the University

Students have the right to withdraw from Five Branches University. To do so they must obtain a Withdrawal form from the Registrar’s Office. If they are unable to do so, a

letter, e-mail or fax addressed to the Registrar with the Student's signature stating your cancellation of enrollment will be accepted.

Full Refund

If enrollment is canceled by the seventh day after enrollment or notice of cancellation is made through attendance at the first class session, whichever is later, the University will refund the student any tuition monies paid, less the deposit or application fee not to exceed \$250.00. The deadline to cancel program enrollment and obtain a full-refund is detailed in the Enrollment Agreement.

Pro rata Refund

Students may withdraw from the program after instruction has started and receive a pro rata refund for the unused portion of the tuition and other refundable charges if the Student has completed 60% or less of the enrollment period.

Withdrawal forms or Letter of Withdrawal should be sent to:

Five Branches University, Attn: Registrar.

San Jose Campus: 1885 Lundy Avenue, Suite 108, San Jose, CA 95131 / Fax (408) 261-3166 / email: sjadmin@fivebranches.edu

Santa Cruz Campus: 200 7th Avenue, Santa Cruz, CA 95060 / Fax (831) 476-8928 / email: scadmin@fivebranches.edu

The amount refunded for a student who has received Title IV Financial Aid will be returned to the direct loan program to reduce the Student's federal direct loan debt.

Non-discrimination Policy

Five Branches University is an equal opportunity institution and does not discriminate on the basis of age, race, color, religion, national origin, ethnicity, gender, or sexual orientation. The University abides by Title II of the Americans with Disabilities Act, which prohibits discrimination against any "qualified individual with a disability."

Graduation and Granting of Specializations

Extension Program students are eligible for specialization after satisfactory completion of all didactic and clinical coursework and examinations within each level of specialization.

Records Maintenance

In compliance with the Family Education Right to Privacy Act (FERPA), student academic records are maintained by the Office of the Registrar. A student record contains all documents relating to a student's activities at Five Branches including, but not limited to: admissions, grade reports, transcripts, registration, tuition payments, correspondence, and health documents.

The University does not release school records or any other information about a student to any third party without the consent of the student, except as allowed by law. Students may view an unofficial copy of their transcript and/or request an official copy through the University's student web portal.

In compliance with California CEC §94900 and 5, CCR §71920, the University permanently maintains student records including transcripts, academic records and admissions documents.

Grievance Procedure

Students who have complaints concerning administrative or academic policy may submit the grievance in writing to the Extension Program Director. The Director will review the complaint and gather all relevant information prior to making a decision.

If the complainant is dissatisfied with the decision of the Director, s/he may submit a written appeal with all relevant documentation to the Academic Dean and the President. Following this, if the grievance is not resolved to the satisfaction of the student and University, the matter may be given to the University Board for further review. The Board will then make one of two determinations: (1) The issue is not appropriate for the Board to consider, in which case, the decision of the President is final, or (2) the Board may decide to consider the grievance, confirming or overturning the decision of the Director. In either case, the decision of the Board of Directors will be final.

If the complainant has made full recourse of the University's grievance process, including the University Board, and believes that the University did not address and assist with their complaint, a student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet website www.bppe.ca.gov.
