Code	Title	Hours
DGM 6230	Digital Media Entrepreneurship	4
DGM 6279	Project Management for Digital Media	4
DGM 6280	Managing for Digital Media	4
DGM 6285	Interactive Marketing Fundamentals	4
DGM 6290	Social Media and Brand Strategy Implementation	4

### DIGITAL VIDEO

Code	Title	Hours
DGM 6435	Digital Video Production	4
DGM 6440	Editing in the Digital Studio	4
DGM 6520	Lighting for the Camera	4
DGM 6540	Compositing	4
DGM 6545	Documentary and Nonfiction Production	4

### GAME DESIGN

Code	Title	Hours
DGM 6308	Intermediate Programming for Digital Media	4
DGM 6400	Game Design Fundamentals	4
DGM 6403	Game Engine Fundamentals	4
DGM 6405	Game Development	4
DGM 6410	Game Design Technology Lab	4

### INTERACTIVE DESIGN

Code	Title	Hours
<b>Interactive Design</b>		
DGM 6461	Interactive Information Design 1	4
Complete four courses from one of the following tracks:		16

#### Design Track

DGM 6217	Typography for Interactivity
----------	------------------------------

DGM 6317	Screen-Based Publication Design
DGM 6463	Interactive Information Design 2
DGM 6471	Designing Infographics

**Usability and Development Track**

DGM 6268	Usable Design for Mobile Digital Media
DGM 6308	Intermediate Programming for Digital Media
DGM 6451	Web Development
DGM 6525	Research Methods for Global User Experiences
TCC 6110	Information Architecture
TCC 6710	Content Strategy

**SOCIAL MEDIA**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required</b>		
DGM 6285	Interactive Marketing Fundamentals	4

**Electives**

Complete 15–17 quarter hours from the following:

CMN 6040	Consumer Behaviors in the Online Environment
CMN 6045	Leveraging Digital Technologies: Strategy, Assessment, and Governance
CMN 6065	Implementation and Management of Social Media Channels and Online Communities
CMN 6075	Digital Marketing Analytics
DGM 6290	Social Media and Brand Strategy Implementation
DGM 6525	Research Methods for Global User Experiences
DGM 6550	Search Engine Optimization: Strategy and Implementation

## Geospatial Services, MPS

The Northeastern University MPS in Geospatial Services program is designed for working professionals striving to maintain competitive, leading-edge capabilities at a time of rapidly growing utilization of geospatial data for diversity of government and business intelligence needs. Program strengths are highly correlated with geospatial workforce requirements as identified by geospatial enterprise leaders from government and industry. Our curriculum incorporates tools, technologies, and services required in three primary sectors:

- *Location-based geodata* (collect, manage, distribute spatial information and imagery)
- *Geo-applications and devices* (devices and software for creating, visualizing, and sharing geospatial information)
- *Geo-expert industries* (turn location-based information into insights for commercial and government organizations)

Available 100 percent online and built to Northeastern University's high academic standards, our program's experiential focus emphasizes the connections between learning and workplace needs.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
GIS 5103	Foundations of Geographic Information Science	4
GIS 5201	Advanced Spatial Analysis	3
GIS 6980	Capstone	4
RMS 5105	Fundamentals of Remote Sensing	3
Complete two of the following:		6-7
EAI 6000	Fundamentals of Artificial Intelligence	
ITC 6045	Information Technology Policy, Ethics, and Social Responsibility	
ITC 6300	Foundations of Information Security	
ITC 6460	Cloud Analytics	
PJM 5900	Foundations of Project Management	

The remaining quarter hours required for the program may be completed by a combination of completing a concentration and additional electives or selecting any courses listed in the concentrations and electives.

### Concentrations

- Geographic Information Systems (p. 839)
- Geospatial Analytics (p. 840)
- Remote Sensing (p. 840)

### Electives

Code	Title	Hours
COP 6940	Personal and Career Development	3-4
EAI 6000	Fundamentals of Artificial Intelligence	3
EDU 6184	Interdisciplinary Foundations	2
INT 6940	Experiential Learning Projects for Professionals	1-4

### Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

### GEOGRAPHIC INFORMATION SYSTEMS

Code	Title	Hours
Complete six of the following:		18
GIS 6320	Use and Applications of Free and Open-Source GIS Desktop Software	
GIS 6340	GIS Customization	
GIS 6345	Geospatial Programming	
GIS 6350	Planning a GIS Implementation	
GIS 6360	Spatial Databases	
GIS 6370	Internet-Based GIS	

GIS 6385	GIS/Cartography
GIS 6983	Topics
ITC 6480	Amazon Web Service (AWS) Cloud Architecting

**GEOSPATIAL ANALYTICS**

Code	Title	Hours
Complete the following:		18
ALY 6020	Predictive Analytics	
ALY 6040	Data Mining Applications	
ALY 6030	Data Warehousing and SQL	
ALY 6070	Communication and Visualization for Data Analytics	
ALY 6110	Data Management and Big Data	
ALY 6983	Topics	

**REMOTE SENSING**

Code	Title	Hours
RMS 6110	Introduction to Machine Learning for Image Data	3
Complete five of the following:		15-16
GIS 6345	Geospatial Programming	
ITC 6480	Amazon Web Service (AWS) Cloud Architecting	
RMS 6240	Introduction to Radar and LiDAR Remote Sensing	
RMS 6280	Automated Feature Extraction for the Geospatial Professional	
RMS 6290	Spectroscopic Image Analysis	
RMS 6983	Topics	

## Informatics, MPS

A rapidly evolving area, informatics is increasingly used to solve today's problems through IT innovations across many industries, including healthcare, business consulting, education, finance, and social media. This master's degree attracts students and working professionals with a diverse background to learn and improve IT technical and management skills, highlighted by our strengthened curriculum on information security management, as well as cloud computing application and management. Students also have the opportunity to acquire technical training in data analytics, user-centered design and web development, and managing technical projects.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ITC 6000	Database Management Systems	3
ITC 6010	Information Technology Strategy and Governance	3
ITC 6020	Information Systems Design and Development	3
ITC 6035	Information Technology Project Management	3
ITC 6400	Foundations of Informatics	3
<b>Capstone and Experiential Learning</b>		
ITC 6040	Informatics Capstone	3
INT 6940	Experiential Learning Projects for Professionals	1-4

The remaining quarter hours may be completed by a combination of completing a concentration and additional electives or by selecting any courses listed in the concentrations and electives lists.

### Concentrations or Electives

Complete one of the following concentrations or complete the required hours by selecting any courses listed in the concentrations and electives lists:

- Analytics (p. 841)
- Cloud Computing Application and Management (p. 841)
- Human-Centered Informatics (p. 842)
- Information Security Management (p. 842)
- Leading and Managing Technical Projects (p. 842)

#### ANALYTICS CONCENTRATION

Code	Title	Hours
ALY 6000	Introduction to Analytics	3
ALY 6010	Probability Theory and Introductory Statistics	3
ALY 6015	Intermediate Analytics	3
ALY 6070	Communication and Visualization for Data Analytics	3
Complete one of the following:		3
ALY 6020	Predictive Analytics	
ALY 6030	Data Warehousing and SQL	
ALY 6040	Data Mining Applications	
ALY 6110	Data Management and Big Data	

#### CLOUD COMPUTING APPLICATION AND MANAGEMENT CONCENTRATION

Code	Title	Hours
ITC 6015	Enterprise Information Architecture	3
ITC 6420	Introduction to Cloud Computing Applications and Management	3
ITC 6450	Advanced Cloud Computing Applications and Management	3
ITC 6460	Cloud Analytics	3
ITC 6520	Network Protection and Cloud Security	3
Complete one of the following:		3-4
ITC 6355	Web Application Design and Development	

ITC 6470	Enterprise Data Storage and Management Technologies
ITC 6480	Amazon Web Service (AWS) Cloud Architecting

**HUMAN-CENTERED INFORMATICS CONCENTRATION**

Code	Title	Hours
DGM 6168	Usability and Human Interaction	4
DGM 6268	Usable Design for Mobile Digital Media	4
DGM 6461	Interactive Information Design 1	4
ITC 6410	Fundamentals of Human Behaviors for Interactive Systems	3
Complete one of the following:		3-4
ALY 6070	Communication and Visualization for Data Analytics	
DGM 6463	Interactive Information Design 2	
ITC 6355	Web Application Design and Development	

**INFORMATION SECURITY MANAGEMENT CONCENTRATION**

Code	Title	Hours
ITC 6300	Foundations of Information Security	3
ITC 6305	IT Infrastructure (Systems, Networks, Telecom)	3
ITC 6315	Information Security Risk Management	3
ITC 6520	Network Protection and Cloud Security	3
ITC 6530	Security Analytics	3
Complete one of the following:		3
ITC 6330	CISSP Preparation	
ITC 6490	Ethical Hacking	

**LEADING AND MANAGING TECHNICAL PROJECTS CONCENTRATION**

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6205	Leading and Managing Technical Projects	3
PJM 6210	Communication Skills for Project Managers	3
PJM 6215	Leading Remote Project Teams	3
PJM 6810	Principles of Agile Project Management	3

<sup>1</sup> *Note:* Foundations of Project Management (PJM 5900) is for students with fewer than three years of experience directing or leading project tasks. Students who do not complete Foundations of Project Management (PJM 5900) may substitute an elective from the following list to satisfy the required program hours:

- Project Evaluation and Assessment (PJM 6125)
- Project Quality Management (PJM 6135)
- Managing Troubled Projects (PJM 6140)
- Introduction to Program and Portfolio Management (PJM 6710)

**ELECTIVES**

Code	Title	Hours
ALY 6015	Intermediate Analytics	
ALY 6030	Data Warehousing and SQL	
ALY 6050	Introduction to Enterprise Analytics	
ALY 6060	Decision Support and Business Intelligence	
ALY 6110	Data Management and Big Data	
ALY 6120	Leadership in Analytics	
ALY 6130	Risk Management for Analytics	
DGM 6501	Web Creation Boot Camp	
DGM 6145	Information Technology and Creative Practice	
DGM 6521	Web Creation for Content Management Systems	
EDU 6184	Interdisciplinary Foundations	
GIS 5103	Foundations of Geographic Information Science	
GIS 6340	GIS Customization	

GIS 6360	Spatial Databases
ITC 6030	Computer Systems and Networks
ITC 6080	Network Security Concepts
ITC 6082	Network Protection
ITC 6345	Systems and Network Administration
ITC 6045	Information Technology Policy, Ethics, and Social Responsibility
PJM 5900	Foundations of Project Management
PJM 6205	Leading and Managing Technical Projects
TCC 6110	Information Architecture

**Program Credit/GPA Requirements**

45 total quarter hours required

Minimum 3.000 GPA required

## Insurance Analytics and Management, MPS

### Overview

The Master of Professional Studies in Insurance Analytics and Management addresses the mounting need for talent in the insurance industry with focus on disruptive trends and the inherent challenges that this industry sector faces. This program will build on five distinct pillars that are designed to serve the market and to offer graduates a clear pathway into the industry. Those pillars are application orientation, domain knowledge, digital leadership and human-centered design, decision support, and digital transformation. The goal of the MPS program is to produce graduates who are thinkers and designers and developers who merge applications, humanics, data, and technology in the age of digital transformation to benefit their industry.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Courses

Code	Title	Hours
INS 6010	Insurance Finance	3
INS 6020	Claims Management	3
INS 6030	Insurance Underwriting	3
INS 6040	Introduction to Insurance Data Analytics	3
INS 6050	Intermediate Insurance Analytics	3

#### Experiential Project

Code	Title	Hours
INS 6080	Integrated Experiential Learning	3

#### Capstone

Code	Title	Hours
INS 6980	Capstone	3

#### Concentrations

The remaining required quarter hours for the program may be completed by a combination of completing a concentration and additional electives or selecting any courses listed in the electives list.

- Advanced Insurance Management (p. 845)
- Customer Engagement (p. 845)
- Decision Support (p. 845)

#### Electives

Code	Title	Hours
ALY 6020	Predictive Analytics	
ALY 6030	Data Warehousing and SQL	
ALY 6040	Data Mining Applications	
ALY 6110	Data Management and Big Data	
CED 6230	Quantitative Methods	
CED 6250	Derivatives and Alternative Investments	
EAI 6000	Fundamentals of Artificial Intelligence	
EAI 6020	AI System Technologies	
EAI 6080	Advanced Analytical Utilization	
EAI 6120	AI Communication and Visualization	
GIS 5103	Foundations of Geographic Information Science	
GIS 6370	Internet-Based GIS	
INS 6983	Special Topics	
LDR 6110	Leading Teams Strategically in a Global Environment	
PJM 5900	Foundations of Project Management	
PJM 6210	Communication Skills for Project Managers	

## Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

### ADVANCED INSURANCE MANAGEMENT CONCENTRATION

Code	Title	Hours
ALY 6983	Topics	3
INS 6110	Insurance Regulation and Law	3
INS 6120	Macro Challenges in Insurance	3
INS 6130	Advanced Reinsurance	3
LDR 6135	Ethical Leadership	3

### CUSTOMER ENGAGEMENT CONCENTRATION

Code	Title	Hours
ALY 6060	Decision Support and Business Intelligence	3
ALY 6070	Communication and Visualization for Data Analytics	3
INS 6140	Distribution and Sales	3
PJM 6185	Managing Innovation Projects	3
SMT 6020	Managing the Customer Experience	3

### DECISION SUPPORT CONCENTRATION

Code	Title	Hours
EAI 6000 is for students who score 85% or more on the Python placement exam upon declaring this concentration. Students who score less than 85% on the placement exam complete a noncredit Python workshop before completing EAI 6000.		
ALY 6060	Decision Support and Business Intelligence	3
ALY 6070	Communication and Visualization for Data Analytics	3
EAI 6000	Fundamentals of Artificial Intelligence	3
EAI 6020	AI System Technologies	3
LDR 6100	Developing Your Leadership Capability	3

## Learning Experience Design and Technology, MPS

The Master of Professional Studies in Learning Experience Design and Technology is a robust practice-based program. It builds expertise in learning designers, educators, trainers, technologists, and other professionals by grounding them in the art and science of learning and the effective use of learning design principles and technology. It provides both foundational and advanced design-related coursework that is experiential, taught by experts in the field, and incorporates skill-building opportunities that align with contemporary industry-based competencies.

During their course of study, students will have the opportunity to:

- Design learning environments that support learners in meeting academic, personal, professional, and/or organizational goals
- Put creative ideas into action using a variety of technologies and design and delivery modalities
- Develop a robust online portfolio of work to demonstrate their design skills

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Foundation Courses

Code	Title	Hours
EDU 6050	Education as an Advanced Field of Study	5
EDU 6051	Introduction to Social Justice in Educational Settings	4

#### Core Courses

Code	Title	Hours
EDU 6319	How People Learn	4
EDU 6323	Digital Learning Tools and Technologies for LXD	4
EDU 6334	Foundations of Learning Experience Design	4
EDU 6335	Advanced Practices in Learning Experience Design	4
EDU 6336	Data Literacy for Data-Driven Decision Making	4

#### Capstone

Code	Title	Hours
EDU 6225	Capstone	4

#### Electives

Code	Title	Hours
Electives may be satisfied by any EDU 6000-level course not already being used toward degree requirements. Suggested EDU 6000-level courses are listed below. Additionally, CPS graduate-level courses that may also be used to satisfy elective requirements are listed below:		12

EDU 5978	Independent Study	
EDU 6001	Experiential Learning Theory and Practice	
EDU 6002	Culturally Responsive Experiential Teaching and Learning	
EDU 6003	Applied Research in Experiential Teaching and Learning	
EDU 6004	Leading Experiential Teaching and Learning	
EDU 6202	Faculty, Curriculum, and Academic Community	
EDU 6323	Digital Learning Tools and Technologies for LXD	
EDU 6329	Connecting Theory and Practice	
EDU 6331	E-Learning Design as a Collaborative Profession	
EDU 6332	Open Learning	
EDU 6336	Data Literacy for Data-Driven Decision Making	
EDU 6338	Learning Experience Design Studio	
EDU 6558	Issues in Education	
CMN 6080	Intercultural Communication	
DGM 6501	Web Creation Boot Camp	
NPM 6140	Grant and Report Writing	
PJM 5900	Foundations of Project Management	

**Program Credit/GPA Requirements**

45 total quarter hours required

Minimum 3.000 GPA required

## Applied Nutrition, MS

Increased attention on disease prevention through better dietary habits has heightened the demand for skilled nutrition professionals.

To meet the demands and need in the industry, this Master of Science in Applied Nutrition degree is designed to build upon your clinical knowledge and to allow you to concentrate in one of five specialty areas. This advanced program is open to individuals who hold undergraduate degrees in health science, dietetics, or a related area.

Led by real-world practitioners, including dietitians, an exercise scientist, and a clinical psychologist, this innovative nutrition degree seeks to provide you with a solid grounding in nutrition, metabolism, disease prevention, health promotion, and clinical behavior. Complementing the core nutrition courses is the college's renowned nutrition practicum that allows you to work directly with registered dietitians, fitness specialists, as well as other health professionals.

Further differentiating this master's degree in nutrition is the option to choose from five degree concentrations: business and entrepreneurship in nutrition; integrative health and wellness; nutrition education; nutrition and fitness; and obesity and nutritional health. This degree program seeks to give you the knowledge and skills you need to succeed in the field of nutrition.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
NTR 6100	Advanced Nutrition and Metabolism	4
NTR 6110	Medical Nutrition Therapy	4
NTR 6112	Research Methods in Nutrition	4
NTR 6115	Health Promotion/Disease Prevention	4
NTR 6118	Clinical Health Behavior Change	4
NTR 6165	Food and Society	4
NTR 6866	Applied Research in Nutrition (Recommended as the last course taken)	1-4

The remaining required quarter hours for the program may be completed by a combination of completing a concentration and additional electives or selecting any courses listed in the concentrations and electives list.

#### Electives

Code	Title	Hours
EDU 6184	Interdisciplinary Foundations	
NTR 6101	Nutrition Program Planning	
NTR 6105	Foundations of Integrative Health	
NTR 6119	Pediatric Nutrition	
NTR 6120	Healthy Aging: Nutrition Strategies for Optimal Longevity	
NTR 6125	The Process of Health and Healing: Exploring Systems in the Body—Part 1	
NTR 6130	Healthcare and Nutrition Communication	
NTR 6135	The Process of Health and Healing: Exploring Systems in the Body—Part 2	
NTR 6148	Exercise Physiology	
NTR 6150	Sports Psychology	
NTR 6155	Nutrition Entrepreneurship	
NTR 6160	Survey of Integrative Practices and Interventions	
NTR 6200	Nutrition Education	
NTR 6201	Commercialization of Nutrition and Nutritional Information	
NTR 6202	The Financing of Nutrition and Wellness	
NTR 7130	Overweight and Obesity 1	
NTR 7132	Overweight and Obesity 2	
NTR 7135	Eating Disorders in Children and Adults	
NTR 7140	Wellness and Nutrition	
NTR 7147	Sports and Fitness Nutrition	
NTR 7880	Wellness in Practice	
PJM 5900	Foundations of Project Management	

## Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

### Concentrations

#### BUSINESS AND ENTREPRENEURSHIP IN NUTRITION

Code	Title	Hours
NTR 6155	Nutrition Entrepreneurship	3
NTR 6130	Healthcare and Nutrition Communication	4
PJM 5900	Foundations of Project Management	4
NTR 6202	The Financing of Nutrition and Wellness	3
NTR 7880	Wellness in Practice	1-4

#### INTEGRATIVE HEALTH AND WELLNESS

Code	Title	Hours
<b>Required Courses</b>		
NTR 6105	Foundations of Integrative Health	4
NTR 6125	The Process of Health and Healing: Exploring Systems in the Body—Part 1	4
NTR 6135	The Process of Health and Healing: Exploring Systems in the Body—Part 2	4
NTR 6160	Survey of Integrative Practices and Interventions	4
<b>Experiential Capstone</b>		
NTR 7880	Wellness in Practice	2-4

#### NUTRITION EDUCATION

Code	Title	Hours
<b>Required Courses</b>		
NTR 6200	Nutrition Education	4
NTR 6130	Healthcare and Nutrition Communication	4
NTR 6201	Commercialization of Nutrition and Nutritional Information	3
NTR 7880	Wellness in Practice	1-4
<b>Nutrition Education Elective</b>		
Complete one of the following:		4
NTR 6119	Pediatric Nutrition	
NTR 6120	Healthy Aging: Nutrition Strategies for Optimal Longevity	
NTR 6101	Nutrition Program Planning	

#### NUTRITION AND FITNESS

Code	Title	Hours
<b>Required Courses</b>		
NTR 7147	Sports and Fitness Nutrition	3
NTR 6148	Exercise Physiology	3
NTR 6150	Sports Psychology	3
NTR 7880	Wellness in Practice	1-4
<b>Nutrition and Fitness Elective</b>		
Complete one of the following:		4
NTR 6120	Healthy Aging: Nutrition Strategies for Optimal Longevity	
NTR 6101	Nutrition Program Planning	

#### OBESITY AND NUTRITIONAL HEALTH

Code	Title	Hours
<b>Required Courses</b>		
NTR 7130	Overweight and Obesity 1	4
NTR 7132	Overweight and Obesity 2	4
NTR 6201	Commercialization of Nutrition and Nutritional Information	3
NTR 7880	Wellness in Practice	1-4
<b>Obesity and Nutritional Health Elective</b>		
Complete one of the following:		4

NTR 7140

Wellness and Nutrition

NTR 7135

Eating Disorders in Children and Adults

## Commerce and Economic Development, MS

Globalization has created a borderless economy with a host of new opportunities and challenges for those engaged in commerce and economic development. While global markets offer exciting growth prospects, navigating the world stage requires in-depth knowledge of the financial, regulatory, and economic environments and institutions that affect the global economy and international trade. To meet the need for both insight and skills development, Northeastern University's College of Professional Studies—in collaboration with Northeastern University's College of Social Sciences and Humanities—offers the online Master of Science in Commerce and Economic Development.

This graduate-level program integrates economics, leadership, institutional organization, technology, and public policy into a unique and focused educational experience designed to help guide and advance a rewarding career in the private or public sectors.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
CED 6010	Applied Microeconomic Theory 1	3
CED 6020	Applied Macroeconomic Theory 1	3
CED 6030	Mathematical Methods for Economics 1	3
CED 6040	Applied Econometrics	3
CED 6050	Commerce and Economic Development	3

#### Capstone

Code	Title	Hours
The following course should be taken last:		
CED 6910	Capstone: Master's Project	4

The remaining quarter hours may be completed by a combination of completing a concentration and additional electives or by selecting any courses listed in the concentration and elective lists.

#### Concentrations

- Economic Analysis (p. 851)
- Economic Entrepreneurship (p. 851)
- Data Analytics (p. 851)
- Financial Economics (p. 851)

#### Electives

Code	Title	Hours
Complete courses from the 6000 level. Below is a list of courses regularly offered as electives within the program:		
ALY 6000	Introduction to Analytics	
ALY 6015	Intermediate Analytics	
ALY 6050	Introduction to Enterprise Analytics	
ALY 6070	Communication and Visualization for Data Analytics	
ALY 6110	Data Management and Big Data	
CED 6011	Applied Microeconomic Theory 2	
CED 6021	Applied Macroeconomic Theory 2	
CED 6031	Mathematical Methods for Economics 2	
CED 6041	Applied Econometrics II	
CED 6051	Open Economy Macroeconomic Analysis	
CED 6070	Economics of Human Capital	
CED 6090	Cultural Economic Development	
CED 6110	Law and Economics	
CED 6120	Environmental Economics	
CED 6130	Sustainable Economic Development	
CED 6140	Economics of E-Commerce	
CED 6210	Managerial Finance	
CED 6220	International Finance	

CED 6230	Quantitative Methods
CED 6240	Financial Ethics
CED 6250	Derivatives and Alternative Investments
CMN 6080	Intercultural Communication
CMN 6095	Foundations of Developing Cultural Awareness
COP 6940	Personal and Career Development
EDU 6184	Interdisciplinary Foundations
FIN 6102	Asset and Liability Management
FIN 6120	Building Financial Relationships
FIN 6161	Investment Analysis
GST 6102	Global Corporate Social Responsibility
GST 6430	Leadership and Management
LDR 6145	Developing Sustainable Global Leadership

### Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

---

#### ECONOMIC ANALYSIS CONCENTRATION

Code	Title	Hours
CED 6011	Applied Microeconomic Theory 2	3
CED 6021	Applied Macroeconomic Theory 2	3
CED 6031	Mathematical Methods for Economics 2	3
CED 6041	Applied Econometrics II	3
CED 6051	Open Economy Macroeconomic Analysis	3

#### ECONOMIC ENTREPRENEURSHIP CONCENTRATION

Code	Title	Hours
ALY 6050	Introduction to Enterprise Analytics	3
CED 6070	Economics of Human Capital	3
CED 6140	Economics of E-Commerce	3
CMN 6095	Foundations of Developing Cultural Awareness	3
GST 6430	Leadership and Management	4

#### DATA ANALYTICS CONCENTRATION

Code	Title	Hours
ALY 6000	Introduction to Analytics	3
ALY 6015	Intermediate Analytics	3
ALY 6020	Predictive Analytics	3
ALY 6050	Introduction to Enterprise Analytics	3
or ALY 6070	Communication and Visualization for Data Analytics	3
ALY 6110	Data Management and Big Data	3

#### FINANCIAL ECONOMICS CONCENTRATION

Code	Title	Hours
Complete five of the following:		15-18
CED 6210	Managerial Finance	
CED 6220	International Finance	
CED 6230	Quantitative Methods	
CED 6240	Financial Ethics	
CED 6250	Derivatives and Alternative Investments	
FIN 6102	Asset and Liability Management	
FIN 6120	Building Financial Relationships	
FIN 6161	Investment Analysis	

## Corporate and Organizational Communication, MS

Across all industries and professions, strong written and oral communication skills are essential to success. Whether you are seeking to advance in a communications-related field or get ahead in your current organization, this program seeks to provide the practical knowledge and valuable perspectives you need to communicate across a variety of contexts and situations.

From negotiation and writing to crisis management and public speaking, the Master of Science in Corporate and Organizational Communication degree program examines topics that are critical to effective organizational communication. Incorporating best practices, case studies, and classroom learning, courses within this innovative master's degree in communication address complex communication challenges, seeking to provide you with a distinct advantage in today's competitive marketplace.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
CMN 6000 and INT 6000	Introduction to Organizational Communication and Writing Lab <sup>1</sup>	4
CMN 6010	Strategic Communication Management	3
CMN 6020	Ethical Issues in Organizational Communication	3
CMN 6910	Organizational Communication Assessment	3
Complete two of the following:		6
CMN 6080	Intercultural Communication	
CMN 6090	Organizational Culture, Climate, and Communication	
CMN 6100	Communication Networks and Managing Information	

<sup>1</sup> Introduction to Organizational Communication (CMN 6000) is required for students who do not have any professional experience in communication. Students with professional communication experience begin the program with Strategic Communication Management (CMN 6010) and complete an additional elective to satisfy the required program hours.

### Capstone

Code	Title	Hours
CMN 6940	Projects for Professionals	4

### Concentration or Electives

The remaining quarter hours may be completed by a combination of completing a concentration and additional electives or selecting any courses in the concentrations and elective lists.

#### CONCENTRATIONS

- Cross-Cultural Communication (p. 854)
- Human Resource Management (p. 854)
- Leadership (p. 855)
- Project Management (p. 855)
- Public and Media Relations (p. 855)
- Sales Management (p. 856)
- Social Media (p. 856)

#### ELECTIVE COURSES

*Note:* Students who take Introduction to Organizational Communication (CMN 6000) are only required to take two courses in this section.

Code	Title	Hours
ALY 6010	Probability Theory and Introductory Statistics	
ALY 6070	Communication and Visualization for Data Analytics	
CMN 6005	Foundations of Professional Communication	
CMN 6025	Digital Era Skills: Platforms, Tools, and Techniques	
CMN 6050	Crisis Communication	

CMN 6060	Negotiation, Mediation, and Facilitation
CMN 6085	Strategies for Cross-Cultural Facilitation and Negotiation
CMN 6095	Foundations of Developing Cultural Awareness
CMN 6096	Cultural Communications Lab
CMN 6110	Group Dynamics and Interpersonal Conflict: Meeting Management
COP 6940	Personal and Career Development
EDU 6184	Interdisciplinary Foundations
INT 6900	International Field Study Experience
LDR 6101	Leadership Challenge Lab
PBR 6001	Communications Technology Lab

### Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

#### CROSS-CULTURAL COMMUNICATION

Code	Title	Hours
<b>Required Courses</b>		
CMN 6085	Strategies for Cross-Cultural Facilitation and Negotiation	3
CMN 6095	Foundations of Developing Cultural Awareness	3
<b>Concentration Electives</b>		
Choose from the following:		10
CMN 6096	Cultural Communications Lab	
GST 6100	Globalization and Global Politics and Economics	
GST 6101	Global Literacy, Culture, and Community

## Human Resources Management, MS

The human resources management program in the College of Professional Studies is designed to prepare students to make the connection between an organization's strategy and its people and other key stakeholders. The program focuses on vital human resource competencies and analytical skills—with an emphasis on experiential learning—required for students to serve as strategic business partners in their organizations. Students also have the opportunity to tailor their studies to support their specific career objectives.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
Based on your experience, complete one of the two options below:		
Two or more years of human resources experience:		6
HRM 6025	Workforce Analytics	
HRM 6042	Strategic Workforce Planning	
Fewer than two years of experience:		9
HRM 6015	Introduction to Human Resources Management	
HRM 6025	Workforce Analytics	
HRM 6042	Strategic Workforce Planning	

### Core Electives

Complete four of the following:		12
HRM 6005	Creating a High-Performance Organization: Strategic Organizational and HRM Choices	
HRM 6010	Compensation and Benefits	
HRM 6020	Talent Acquisition and Onboarding	
HRM 6030	The Employment Contract	
HRM 6035	Digital Human Resources Platforms	
HRM 6047	Managing the Employee Life Cycle	
HRM 6050	Employee Engagement	
HRM 6060	Organizational Design	
HRM 6070	Global Human Resources Management	

### Capstone

Code	Title	Hours
HRM 6940	Projects for Professionals	4

### Concentration or Electives

In addition to the core requirements, students may complete either a combination of a concentration and additional electives or selecting any courses in the concentrations and elective lists.

#### CONCENTRATIONS

- Artificial Intelligence for Human Resources (p. 858)
- Digital Human Resources (p. 858)
- Global Talent Management (p. 858)
- Leadership (p. 859)
- Organizational Communication (p. )
- Project Management (p. 859)

#### ELECTIVES

Code	Title	Hours
ALY 6010	Probability Theory and Introductory Statistics	
ALY 6070	Communication and Visualization for Data Analytics	
CMN 6025	Digital Era Skills: Platforms, Tools, and Techniques	
CMN 6050	Crisis Communication	
CMN 6060	Negotiation, Mediation, and Facilitation	
CMN 6096	Cultural Communications Lab	

CMN 6110	Group Dynamics and Interpersonal Conflict: Meeting Management
COP 6940	Personal and Career Development
LDR 6101	Leadership Challenge Lab

### Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

#### ARTIFICIAL INTELLIGENCE FOR HUMAN RESOURCES

Code	Title	Hours
<b>Required Courses</b>		
EAI 6070	Human Resources Information Processing	3
EAI 6080	Advanced Analytical Utilization	3
EAI 6120	AI Communication and Visualization	3
<b>Electives</b>		
Complete two of the following:		6
ALY 6010	Probability Theory and Introductory Statistics	
ALY 6040	Data Mining Applications	
ALY 6060	Decision Support and Business Intelligence	
ALY 6110	Data Management and Big Data	

#### DIGITAL HUMAN RESOURCES

Code	Title	Hours
<b>Required Course</b>		
HRM 6035	Digital Human Resources Platforms	3
<b>Electives</b>		
Choose from the following:		13
ALY 6000	Introduction to Analytics	
ALY 6010	Probability Theory and Introductory Statistics	
ALY 6060	Decision Support and Business Intelligence	
ALY 6070	Communication and Visualization for Data Analytics	
ALY 6110	Data Management and Big Data	
CMN 6045	Leveraging Digital Technologies: Strategy, Assessment, and Governance	
CMN 6065	Implementation and Management of Social Media Channels and Online Communities	
CMN 6096	Cultural Communications Lab	
PBR 6001	Communications Technology Lab	

#### GLOBAL TALENT MANAGEMENT

Code	Title	Hours
<b>Required Course</b>		
HRM 6070	Global Human Resources Management	3
<b>Electives</b>		
Choose from the following:		12
CMN 6085	Strategies for Cross-Cultural Facilitation and Negotiation	
CMN 6095	Foundations of Developing Cultural Awareness	
CMN 6096	Cultural Communications Lab	
GST 6101	Global Literacy, Culture, and Community

Code	Title	Hours
<b>Required Courses</b>		
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6005	Project Scope Management	3
PJM 6015	Project Risk Management	3
PJM 6025	Project Scheduling and Cost Planning	3
<b>Electives</b>		
Choose from the following:		3
INT 6940	Experiential Learning Projects for Professionals	
INT 6943	Integrative Experiential Learning	
PJM 6075	Project Finance	
PJM 6125	Project Evaluation and Assessment	
PJM 6140	Managing Troubled Projects	
PJM 6145	Global Project Management	
PJM 6175	Project Resource Management	
PJM 6180	Project Stakeholder Management	
PJM 6205	Leading and Managing Technical Projects	
PJM 6210	Communication Skills for Project Managers	
PJM 6215	Leading Remote Project Teams	
PJM 6710	Introduction to Program and Portfolio Management	
PJM 6983	Topics	

- <sup>1</sup> Foundations of Project Management (PJM 5900) is for students with fewer than three years of experience directing or leading project tasks. Students who do not complete PJM 5900 may substitute project management electives to satisfy the required program hours.

## Global Studies and International Relations, MS

Globalization has created a world of new opportunities for those savvy enough to recognize them and acquire the new skill sets needed for success in international government, consulting, business and industry, nonprofit, and educational sectors.

This program is designed to prepare students for internationally focused positions that range from traditional practitioners of diplomacy; to development workers; to executives employed in the dynamic world of international consultancy, trade, and industry. With courses enriched by classmates from every continent, students are active learners in a collaborative, cross-cultural setting from their very first course.

The core curriculum ensures all students have a solid grounding in foundational courses such as international politics, economics, security, and diplomacy. Students then select from a broad-based menu of concentrations, allowing them to develop specialties. The program culminates in a capstone experience in which students elect to write a thesis, engage in a case study, or undertake short-term travel to conduct intensive field research.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
GST 6100	Globalization and Global Politics and Economics	4
GST 6101	Global Literacy, Culture, and Community	4
GST 6109	Basic Field Research Methods	4
GST 6320	Peace and Conflict	4

#### Regional Studies Courses

Code	Title	Hours
Complete one of the following:		4
GST 6501	Regional Studies: East Asia	
GST 6502	Regional Studies: Middle East and North Africa	
GST 6503	Regional Studies: Sub-Saharan Africa	
GST 6504	Regional Studies: Europe and Eurasia	
GST 6505	Regional Studies: Southwest and Central Asia	
GST 6506	Regional Studies: Latin America	

#### Capstone

Code	Title	Hours
Complete one of the following:		4
GST 6920	Case Study in Global Studies	
GST 7990	Thesis	
INT 6900	International Field Study Experience	

The remaining required quarter hours for the program may be completed by a combination of completing a concentration and additional electives or selecting any courses listed in the electives list. *Note:* A minimum of 18–20 quarter hours must be completed within global studies electives.

#### Concentrations

- Global Health and Development (p. )
- Conflict Resolution (p. )
- Diplomacy (p. 863)
- International Economics and Consulting (p. )

#### Electives

Code	Title	Hours
Choose from the following:		
<b>Global Studies Electives</b>		
GST 6102	Global Corporate Social Responsibility	
GST 6105	Foundations of Global Studies and International Relations	
GST 6200	The Funders	
GST 6210	The Developers

GST 6580	Opportunities in International Consulting

## Nonprofit Management, MS

Facing the threat of privatization and for-profit competition, nonprofit organizations are challenged to find leaders who not only possess keen business and managerial skills but can also effect change at a community or social level. Being successful in this dynamic and rewarding field requires strong leadership, managerial and interpersonal skills, as well as in-depth knowledge of fundraising, marketing, program development, and governance issues.

Integrating theoretical approaches with practical applications, the Master of Science in Nonprofit Management seeks to prepare you for a leadership position in a not-for-profit university, hospital, charity, foundation, or religious organization. Upon completion of this nonprofit degree, you emerge well equipped to embark on a career in nonprofit management—prepared, and inspired, to make a meaningful impact.

The mission of the Master of Science in Nonprofit Management at the College of Professional Studies is to offer courses that further develop the students' knowledge, skills, talent, and abilities. Faculty in the program support students' development goals through action-oriented courses that link theoretical learning to practical application. Nonprofit management courses aim to prepare students to be mission-driven executive leaders, managers, employees, and board members in public and private nonprofit organizations.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
NPM 6100	Strategic Management for the Nonprofit Sector	3
NPM 6110	Legal and Governance Issues in Nonprofit Organizations	3

Complete a minimum of 6 quarter hours from the following:		6

ALY 6000	Introduction to Analytics
ALY 6010 and ALY 6070	Probability Theory and Introductory Statistics and Communication and Visualization for Data Analytics
DGM 6285	Interactive Marketing Fundamentals
DGM 6290	Social Media and Brand Strategy Implementation
GST 6610	Sustainable Development
LDR 6120	Developing Organizational Success through Leadership Development
PJM 5900	Foundations of Project Management
PJM 6125	Project Evaluation and Assessment
PJM 6983	Topics

**SOCIAL MEDIA ANALYTICS**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Required Courses</b>		
CMN 6045	Leveraging Digital Technologies: Strategy, Assessment, and Governance	3
CMN 6065	Implementation and Management of Social Media Channels and Online Communities	3
DGM 6285	Interactive Marketing Fundamentals	4
<b>Electives</b>		
Complete a minimum of 5 quarter hours from the following:		5
ALY 6000	Introduction to Analytics	
ALY 6110 and ALY 6070	Data Management and Big Data and Communication and Visualization for Data Analytics	
ALY 6010	Probability Theory and Introductory Statistics	
DGM 6290	Social Media and Brand Strategy Implementation	

## Organizational Leadership, MS

As today's workforce continues to be faced by new challenges, leadership tasks and responsibilities have become more important as well as more complex. The Master of Science in Organizational Leadership uses a practical, experiential learning approach to help students examine and develop their individual leadership styles while building skills that inspire and drive productive activity in all kinds of professional environments. Graduates are well able to perform at a higher level regardless of their position within the organization, demonstrate readiness for promotion, start their own business or consulting practice, take on global strategic and management challenges, and drive organizational change and innovation.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
LDR 6100	Developing Your Leadership Capability	3
LDR 6110	Leading Teams Strategically in a Global Environment	3
LDR 6115	Developing Strategic and Authentic Leadership Communication	3
LDR 6120	Developing Organizational Success through Leadership Development	3
LDR 6135	Ethical Leadership	3
LDR 7980	The Capstone: Demonstrating Leadership in Action	4

### Concentration or Electives

The remaining quarter hours may be completed by a combination of completing a concentration and additional electives or selecting any courses listed in the concentrations and elective list.

#### CONCENTRATIONS

- Coaching
- Health Management (p. 869)
- Human Resources Management (p. 869)
- Leading and Managing Technical Projects (p. 869)
- Organizational Communication (p. 869)
- Project Management (p. 870)
- Sales Management (p. 870)

#### ELECTIVES

Code	Title	Hours
CMN 6060	Negotiation, Mediation, and Facilitation	
CMN 6095	Foundations of Developing Cultural Awareness	
CMN 6096	Cultural Communications Lab	
EDU 6184	Interdisciplinary Foundations

PJM 5900	Foundations of Project Management	
PJM 6210	Communication Skills for Project Managers	
PJM 6185	Managing Innovation Projects	
SMT 6983	Special Topics	

## Project Management, MS

Companies succeed or fail based on their ability to bring quality products and services to market in a timely manner. Without skilled project managers in place, companies are challenged to deliver projects on time, on budget, and according to specifications. From inception to completion, project managers are responsible for every step in the process: project definition, cost and risk estimation, schedule planning and monitoring, budget management, negotiation and conflict resolution, project leadership, and project presentation and evaluation.

The Master of Science in Project Management is designed to provide you with the practical skills and theoretical concepts you need to lead complex projects. Featuring real-world case studies, this project management degree presents techniques and tools for managing long- and short-term projects successfully and cost-effectively. Augmenting the core project management courses are concentrations that seek to provide you with content-specific expertise that enables you to deepen your knowledge in your field of interest.

In October of 2021, the Master of Science in Project Management accreditation was re-affirmed for the maximum five-year accreditation cycle (originally accredited in 2009) by the Project Management Institute Global Accreditation Center for Project Management Education Programs (GAC) (<https://www.pmi.org/>), the world's leading association for project management professionals. Accreditation is achieved by meeting the GAC's rigorous standards, which include an assessment of program objectives and outcomes, a review of onsite and online resources, evaluations of faculty and students, and proof of continuous improvements in the area of project management.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6005	Project Scope Management	3
PJM 6015	Project Risk Management	3
PJM 6025	Project Scheduling and Cost Planning	3
PJM 6135	Project Quality Management	3
The following course should be taken last:		
PJM 6910	Capstone	3

<sup>1</sup> Foundations of Project Management (PJM 5900) is for students with less than three years of experience directing or leading project tasks. Students who do not complete PJM 5900 may substitute project management electives to satisfy the required program hours.

#### Concentration or Electives

The remaining required quarter hours for the program may be completed by a combination of completing a concentration, project management electives, and 6000-level electives or a combination of project management electives and selecting any courses listed in the concentrations and electives lists.

#### CONCENTRATIONS

- Agile Project Management (p. 872)
- Analytics (p. 872)
- Construction Management (p. 872)
- Leadership (p. 873)
- Leading and Managing Technical Projects (p. )
- Organizational Communication (p. )
- Project Business Analysis (p. )

#### PROJECT MANAGEMENT ELECTIVES

Code	Title	Hours
PJM 6075	Project Finance	
PJM 6125	Project Evaluation and Assessment	
PJM 6140	Managing Troubled Projects	
PJM 6145	Global Project Management	
PJM 6175	Project Resource Management

PJM 6620	Strategy Analysis and Needs Assessment	3
PJM 6630	Requirements Analysis and Design	3
PJM 6640	Leadership Strategies for the Business Analyst	3

## Regulatory Affairs, MS

The rapid advancement of technology within healthcare and other sectors has driven the evolution of a complex global regulatory landscape and concurrently created the need for professionals with the skills necessary to facilitate the commercialization of products used therein. In response to this demand, Northeastern University's College of Professional Studies offers the Master of Science in Regulatory Affairs degree.

This unique graduate degree is designed to both broaden and deepen the student's understanding of current global compliance requirements and their practical application in the design, development, approval, and postmarketing of products utilized within regulated industries. Courses within this degree program offer students an opportunity to integrate scientific and technical knowledge and engineering and regulatory perspectives within the larger context of global product commercialization. From research and discovery through the postmarket phase of product utilization, the Master of Science in Regulatory Affairs degree examines the processes required for stakeholders to maintain compliance to product standards and regulations throughout the global marketplace.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
BTC 6210	Human Experimentation: Methodological Issues Fundamentals	4
RGA 6002	Introduction to Regulatory Compliance and Practice	2
RGA 6203	Pharmaceutical and Medical Device Law: Topics and Cases	5
or RGA 6204	Legal Issues in International Food, Drug, and Medical Device Regulation	
RGA 6212	Introduction to Safety Sciences	4
RGA 6463	Regulatory Strategy for Product Development and Life-Cycle Management	4

### Capstone

Code	Title	Hours
RGA 6300	Practical Applications in Global Regulatory Affairs	4

The remaining quarter hours may be completed by selecting a combination of a concentration and additional electives or selecting any courses listed in the concentrations and electives lists.

### Concentrations

- Biopharmaceutical Regulatory Affairs (p. 875)
- Clinical Research Regulatory Affairs (p. 875)
- Medical Device Regulatory Affairs (p. 875)
- Nonclinical Biomedical Product Regulation (p. 875)
- Quality Assurance Compliance (p. )

### Program Credit/GPA Requirements

45 total quarter hours required

Minimum 3.000 GPA required

### Elective Courses

Code	Title	Hours
<b>General Electives</b>		
COP 6940	Personal and Career Development	
EDU 6184	Interdisciplinary Foundations

RFA 6220	Food Safety and Surveillance: Concepts and Applications	

## Sports Leadership, MSLD

The practice-oriented sports leadership master's degree is structured to accommodate midcareer athletic administrators and coaches, as well as individuals seeking to prepare for careers in the sports industry.

Developed in collaboration with Northeastern University's Center for the Study of Sport in Society, the Master of Sports Leadership seeks to prepare you for a variety of sport-related occupations—whether it's working with a professional or intercollegiate sports team; with a fitness club or wellness organization; or in marketing, communication, or sports management. Courses within this unique graduate degree examine the social and business issues that are critical to sports leadership. Offered in an online format with intensive one-week institutes in Boston and Charlotte, this practice-oriented degree seeks to provide you with a well-rounded educational experience, equipping you to advance your career in the sports industry.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
LDR 6400	Sports Management	3
LDR 6405	Sport in Society <sup>1</sup>	3
LDR 6410	Leadership and Organization in Sport	3
LDR 6430	Sports Law	3
LDR 6441	Sports Media Relations <sup>1</sup>	3

<sup>1</sup> Summer institute courses are delivered on-ground on the Boston campus. Winter institute courses are delivered on-ground on the Charlotte campus.

### Internship/Capstone

Code	Title	Hours
Complete one of the following. This course should be the last course taken and requires faculty advisor approval:		3
LDR 6961	Internship	
LDR 6980	Capstone	

The remaining 27 of 45 quarter hours may be completed by a combination of completing a concentration and additional electives or by selecting any courses listed in the concentrations and electives lists.

### Concentrations

- Professional Sports Administration (p. 878)
- Collegiate Athletics Administration (p. 878)
- Analytics (p. 878)
- eSports (p. 878)

### Electives List

Code	Title	Hours
Complete courses from the 6000 level. Below is a list of courses regularly offered as electives within the Sports Leadership program:		
ALY 6000	Introduction to Analytics	
ALY 6015	Intermediate Analytics	
ALY 6010	Probability Theory and Introductory Statistics	
ALY 6070	Communication and Visualization for Data Analytics	
CMN 6040	Consumer Behaviors in the Online Environment

- Project Management (p. 915)
- Public and Media Relations (p. 916)
- Quality Assurance Compliance (p. 917)
- Remote Sensing (p. 918)
- Sales Management (p. 919)
- Social Media for Organizational Performance
- Usability (p. 921)

## 3D Animation, Graduate Certificate

3D animation is not only a major component in the film and broadcast industries, it is also a crucial element in online entertainment and a driving force for the gaming industry. Companies use animation in advertisements, websites, and training programs. The growing use of gaming technologies in education and industry (often referred to as serious games) has given rise to a need for skilled animators who can work closely with business and academic institutions.

The Graduate Certificate in 3D Animation offers a practice-oriented approach to the art and science of animation, with a particular emphasis on the special requirements of 3D modeling and animating for the gaming industry. Course work is designed to develop students' powers of visualization as well as provide a conceptual basis for visual narrative. The program seeks to produce graduates who are skilled in the use of industry-standard animation applications; understand visual principles of lighting, modeling, and surfacing; and are conversant with motion and special effects compositing.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
DGM 6450	Animation Basics	4
DGM 6510	3D Modeling	4
DGM 6530	Character Animation	4

#### Elective Courses

Code	Title	Hours
Complete a minimum of four quarter hours from the following:		4
DGM 6515	Introduction to After Effects	
DGM 6535	Rigging Principles and Techniques	
DGM 6540	Compositing	

#### Program Credit/GPA Requirements

16 quarter hours required  
Minimum 3.000 GPA required

## Agile Project Management, Graduate Certificate

Northeastern University's graduate certificate in agile is designed to empower students to explore agile principles and practice and remain up-to-date with current trends in the agile framework. The increasingly important role of agile practitioners and managers is becoming clear as agile business development processes are being adopted by major companies because of its high degree of success in achieving improved time to market, reducing costs, and increasing overall customer satisfaction.

The graduate certificate in agile is led by highly credentialed faculty members that are agile practitioners with decades of experience in helping companies successfully implement agile in their organizations.

Through courses you take online, our agile graduate certificate project management curriculum will give you the opportunity to:

- Develop a strong framework and understanding of the role of agile management
- Develop an understanding of the agile management processes and methodologies
- Develop an understanding of how an agile approach to managing projects can deliver value to the organization
- Develop a personal leadership strategy for success as an agile practitioner
- Develop an agile evaluation plan to measure success

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6810	Principles of Agile Project Management	3
PJM 6815	Advanced Agile Project Management	3
PJM 6820	Agile Implementation and Governance	3
PJM 6825	Agile Lean Product Development	3

<sup>1</sup> Foundations of Project Management (PJM 5900) is for students with less than three years of experience directing or leading project tasks and is recommended for students who do not have a basic working knowledge of Microsoft Project software. Students who do not complete Foundations of Project Management (PJM 5900) take project management elective credits to satisfy the required credits for the program.

#### Elective Courses

Code	Title	Hours
INT 6940	Experiential Learning Projects for Professionals	1-4
INT 6943	Integrative Experiential Learning	3
PJM 6075	Project Finance	3
PJM 6125	Project Evaluation and Assessment	3
PJM 6140	Managing Troubled Projects	3
PJM 6145	Global Project Management	3
PJM 6175	Project Resource Management	3
PJM 6180	Project Stakeholder Management	3
PJM 6205	Leading and Managing Technical Projects	3
PJM 6210	Communication Skills for Project Managers	3
PJM 6215	Leading Remote Project Teams	3
PJM 6710	Introduction to Program and Portfolio Management	3
PJM 6983	Topics	1-4

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Applied Analytics, Graduate Certificate

In a global environment characterized by digital transformation, rapid change, and high levels of uncertainty, the ability to hire, reskill, and upskill analytic talent is a major driver of organizational performance. The Graduate Certificate in Applied Analytics in the College of Professional Studies is designed to prepare students to develop analytical skills that will support decision making in an organization's strategy. The certification focuses on data discipline: navigating the sea of information that's generated by machines; technical ability: understanding how machines function and how to interact with them; and the human discipline: what humans can do that machines, for the foreseeable future, cannot emulate—all with an emphasis on experiential learning. Students also will have the opportunity to tailor their studies to support their specific career objectives.

To address the needs of students who are currently in an analytical role, as well as those who are new to the field, the certification curriculum incorporates a broad menu of course options and a pathway through the program based on a student's experience level, as well as concentrations that are aligned with student career objectives.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Core Courses

Code	Title	Hours
<b>Required Courses</b>		
ALY 6000	Introduction to Analytics	3
ALY 6010	Probability Theory and Introductory Statistics	3
ALY 6015	Intermediate Analytics	3
ALY 6070	Communication and Visualization for Data Analytics	3
<b>Electives</b>		
Complete two of the following:		6
ALY 6020	Predictive Analytics	
ALY 6030	Data Warehousing and SQL	
ALY 6040	Data Mining Applications	
ALY 6110	Data Management and Big Data	

#### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Biopharmaceutical Regulatory Affairs, Graduate Certificate

The biotechnology and pharmaceutical industries continue to experience rapid growth in the U.S. market. As companies in these industries seek approval to market their products in the United States, demand for qualified regulatory affairs professionals continues to increase. Product development scientists, marketers, quality personnel, as well as legal experts that guide companies through the Food and Drug Administration (FDA) approval process, will benefit from regulatory affairs training.

The Graduate Certificate in Biopharmaceutical Regulatory Affairs is designed to provide students with a greater understanding of U.S. biologic and pharmaceutical product regulation and their unique development, marketing, manufacturing, and postmarket approval-related issues. The program also seeks to prepare students to ensure regulatory compliance, proper validation, and utilization of proper quantitative measurement techniques. Courses from this certificate may be applied toward the Master of Science in Regulatory Affairs for Drugs, Biologics, and Medical Devices.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
RGA 6000	Introduction to Food and Drug Administration (FDA) Pharmaceutical Regulation	2
RGA 6101	Therapeutic Product Development: A Regulatory Overview	4
RGA 6207	Global Impact of Electronic Common Technical Document (eCTD) Submissions	4
RGA 6380	Advanced Regulatory Writing: New Drug Applications	4
Complete one of the following:		4
RGA 6217	Biomedical Product Development: From Biotech to Boardroom to Market	
RGA 6235	Emerging Product Categories in the Regulation of Drugs and Biologics	

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Cloud Computing Application and Management, Graduate Certificate

Cloud computing is the delivery of computing services over the internet. Due to the relatively lower cost of IT solutions, many organizations have started to take advantage of cloud services provided by Amazon Web Services, Microsoft Azure, IBM Cloud and SoftLayer, Google Cloud Platform, Salesforce, and so on. These web service providers offer a broad range of global cloud-based IT products, including computing technologies, storage, databases, analytics, networking, mobile, developer tools, management tools, Internet of Things connectivity, and security and enterprise applications. These services can help organizations move faster, facilitate agile development, and better manage scalability.

The cloud computing application and management (CCA&M) graduate certificate offers students an opportunity to develop technical and management skills to address the needs of enterprise IT services. They study theoretical and practical aspects of distributed systems from both technical and business perspectives. Successful students will be able to identify frameworks, techniques, and existing IT solutions to manage internet services at different levels (infrastructure, platform, and software) and will also be able to demonstrate the ability to use APIs to integrate applications and business operations into the cloud. They can be directly employed by web service providers or instead work as IT solutions managers in organizations that contract with web service providers.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ITC 6420	Introduction to Cloud Computing Applications and Management	3
ITC 6450	Advanced Cloud Computing Applications and Management	3
ITC 6015	Enterprise Information Architecture	3
ITC 6460	Cloud Analytics	3
ITC 6520	Network Protection and Cloud Security	3
Complete one of the following:		3-4
ITC 6355	Web Application Design and Development	
ITC 6470	Enterprise Data Storage and Management Technologies	
ITC 6480	Amazon Web Service (AWS) Cloud Architecting	

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Collegiate Athletics Administration, Graduate Certificate

College athletics in the United States is comprised of more than 1,200 schools, conferences, and organizations that collectively invest in the well-being of student-athletes—both on and off the field.

The Graduate Certificate in Collegiate Athletics Administration offers students an opportunity to obtain an in-depth understanding of the largest amateur segment of the sports industry. Through the program's curriculum, students will be given the opportunity to acquire leadership skills and knowledge in a variety of collegiate athletics topics including sports management, NCAA compliance, fund-raising, academic advising, gender and diversity in sport, and Title IX legislation.

Credits earned in this certificate may be used to satisfy some of the degree requirements Master of Sports Leadership (p. 877) program. For further information see the Seeking More Than One Certificate or Degree (p. 804) page.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
LDR 6427	Gender and Diversity in Sport	3
LDR 6442	Athletic Fund-Raising	3
LDR 6455	NCAA Compliance	3
LDR 6465	Title IX	3
LDR 6470	Bystander Strategies for the Prevention of Gender-Based Violence	3
LDR 6615	Academic Advising for Student-Athletes	3

#### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Construction Management, Graduate Certificate

Over the last two decades, construction in both the public and private sector has become increasingly complex, requiring construction and project managers to have a stronger skill base to be successful in acquiring and executing projects.

The Graduate Certificate in Construction Management is intended to serve owners' representatives, consulting engineers, architects, design engineers, contractors, and subcontractors. Individuals who have a bachelor's degree, but not necessarily in construction, and who have been identified by their companies as having high potential for advancement are also good candidates for this program.

Courses from this certificate may be applied toward the Master of Science in Project Management.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
CMG 6400	Introduction to Construction Management	4
CMG 6402	Alternative Project Delivery Methods and Project Controls	4
CMG 6403	Safety, Project Risk, and Quality Management	4
CMG 6405	Construction Law	4

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Cross-Cultural Communication, Graduate Certificate

The Graduate Certificate in Cross-Cultural Communication will help to equip professionals with the knowledge and competencies to:

- Analyze personal cross-cultural awareness and implicit bias, in addition to interpret organizational cross-cultural communication strategy to develop effective communication processes and activities
- Evaluate communication audiences from a holistic perspective, thereby constructing effective verbal and nonverbal interactions based on cross-cultural consumption
- Formulate enlightened cross-cultural communication and inclusive diversity strategies, processes, and policies
- Demonstrate critical thinking skills through research, case analysis, role-plays, and experiential learning demonstrating agility, quick response, and diplomacy employing cross-cultural communication strategies

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
CMN 6085	Strategies for Cross-Cultural Facilitation and Negotiation	3
CMN 6095	Foundations of Developing Cultural Awareness	3

#### Elective Courses

Code	Title	Hours
Choose from the following:		10
CMN 6096	Cultural Communications Lab	
GST 6100	Globalization and Global Politics and Economics	
GST 6101	Global Literacy, Culture, and Community	
HRM 6070	Global Human Resources Management	
INT 6900	International Field Study Experience	
ITC 6045	Information Technology Policy, Ethics, and Social Responsibility	
LDR 6145	Developing Sustainable Global Leadership	
NPM 6230	Measuring Social Impact	
PBR 6100	Introduction to Public Relations	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Digital Media Management, Graduate Certificate

The digital media market space can present unexpected challenges to standard business models. The Graduate Certificate in Digital Media Management offers courses designed to help managers apply best business practices to these nontraditional challenges. Students are offered the opportunity to gain skills in managing functionally diverse digital media teams, responding effectively to response-critical projects, and implementing marketing strategy in a variety of media channels.

Courses in the program were selected by faculty from the College of Professional Studies' Master of Professional Studies in Digital Media. The certificate consists of courses selected from the MPS in Digital Media (p. 833) curriculum.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
DGM 6279	Project Management for Digital Media	4
DGM 6280	Managing for Digital Media	4
DGM 6285	Interactive Marketing Fundamentals	4
Complete one of the following:		4
DGM 6230	Digital Media Entrepreneurship	
DGM 6290	Social Media and Brand Strategy Implementation	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Digital Video, Graduate Certificate

With the quality and ease of use of digital video camcorders, anyone can capture moving images, but the result is like a Stradivarius violin: It takes training to make music. The Graduate Certificate in Digital Video is a hands-on introduction to digital video technologies, as well as an examination of the social, cultural, and political implications of moving-image production in the digital age. Students have an opportunity to gain competency in digital production and postproduction while exploring various formal, conceptual, and structural strategies. Students will also have an opportunity to learn to generate digital video that communicates effectively and inventively, in preparation for positions in the creative industries of gaming, design, and media production.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
DGM 6435	Digital Video Production	4
DGM 6440	Editing in the Digital Studio	4
DGM 6506	Introduction to Digital Video	2
DGM 6540	Compositing	4
Complete one of the following:		2
DGM 6515	Introduction to After Effects	
DGM 6516	Virtual and Augmented Reality (VR/AR)	

#### Elective

Code	Title	Hours
Complete one of the following:		4
DGM 6520	Lighting for the Camera	
DGM 6545	Documentary and Nonfiction Production	

### Program Credit/GPA Requirements

20 total quarter hours required

Minimum 3.000 GPA required

## eSports, Graduate Certificate

### Overview

Students will have the opportunity to take specialized courses that focus on the emerging eSports field. The certificate is designed for professionals in sports leadership careers who want to have a deeper understanding of eSports. It also provides a pathway to prepare sports and gaming enthusiasts with a combination of coursework across graduate programs to confidently enter this emerging sports sector. This is in keeping with the commitment to serve diverse students who may want to explore a nontraditional learning path as they consider a new career or wish to continue career development in synch with changes occurring in the profession around them.

Credits earned in this certificate may be used to satisfy some of the degree requirements of the Master of Sports Leadership program.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
CMN 6040	Consumer Behaviors in the Online Environment	3
DGM 6400	Game Design Fundamentals	4
DGM 6516	Virtual and Augmented Reality (VR/AR)	2
LDR 6323	Event Management	3
LDR 6445	Corporate Sponsorships	3
LDR 6480	The Business of eSports	3

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Experiential Teaching and Learning, Graduate Certificate

Experiential learning has been documented to be an effective pedagogy for promoting deeper learning, fostering student engagement, and ultimately closing the opportunity gap for underserved students. However, many educators and educational leaders are not familiar with best-practice strategies for leading, practicing, and researching experiential learning in their classrooms and therefore need themselves to become adult learners to begin the process of pedagogical transformation.

The Graduate Certificate in Experiential Teaching and Learning is designed to provide K–12 experiential educators with the knowledge, skills, and attitudes needed to design, facilitate, research, and lead engaging and meaningful learning experiences. The program explores the theoretical foundations, approaches, and strategies for learning through experience and how to apply these competencies with a commitment toward fostering educational equity.

Classroom teachers who are interested in transforming their practice as well as educators who are interested in seeking out leadership roles within schools will benefit from earning the Graduate Certificate in Experiential Teaching and Learning as the certificate covers content and skills needed for leading both student and adult experiential learning.

The certificate is comprised of 16 quarter hours, which may be applied toward the Master of Education in Learning and Instruction.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
EDU 6001	Experiential Learning Theory and Practice	4
EDU 6002	Culturally Responsive Experiential Teaching and Learning	4
EDU 6003	Applied Research in Experiential Teaching and Learning	4
EDU 6004	Leading Experiential Teaching and Learning	4

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Financial Markets and Institutions, Graduate Certificate

In this rapidly changing business environment, the barriers between institutions are eroding, and competition is increasing due to deregulation and new product development. Managing internal operations more efficiently and adapting to the changing external environment is critical to the long-term survival of institutions. The Graduate Certificate in Financial Markets and Institutions seeks to prepare students to measure the impact of accounting decisions on performance; to manage risks, assets, and liabilities to meet corporate goals; to understand domestic and international financial systems and the institutions within them; and to build financial relationships that foster marketing financial products.

An examination of financial services industry principles and practices seeks to provide individuals working in brokerage houses, investment or commercial banks, insurance companies, or real estate with a greater understanding of financial systems as well as how to manage risks, assets, and liabilities in meeting corporate goals.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
FIN 6101	Accounting Fundamentals for Financial Institutions	3
FIN 6102	Asset and Liability Management	3
FIN 6120	Building Financial Relationships	3
FIN 6161	Investment Analysis	3
Complete four quarter hours of the course below:		
CED 6995	Project	4

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Forensic Accounting, Graduate Certificate

News surrounding corporate corruption has had a significant impact on businesses, particularly the accounting industry. In response, the government has enacted sweeping accounting and business laws such as the Sarbanes-Oxley 2002 legislation. Additionally, many professional organizations, including the American Institute of Certified Public Accountants (AICPA) and the Association of Certified Fraud Examiners (ACFE), have made the prevention, detection, and prosecution of fraud and accounting abuse a priority.

This **four-course graduate certificate in forensic accounting** is designed to help students apply techniques in identifying, collecting, and examining evidence, including how to identify financial statement misrepresentation, transaction reconstruction, and tax evasion.

*Note:* Courses from this certificate may not be applied toward the Master of Science in Leadership.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Courses should be taken in the following sequence:

Code	Title	Hours
ACC 6210	Forensic Accounting Principles	3
ACC 6220	Dissecting Financial Statements	3
ACC 6230	Investigative Accounting and Fraud Examination	3
ACC 6240	Litigation Support	3
Complete the following course for four quarter hours:		4
CED 6995	Project	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Fundraising and Development, Graduate Certificate

This Graduate Certificate in Fundraising and Development is designed to prepare students for a career in fundraising and development roles, or provide a transition for a more comprehensive curriculum within the Master of Science in Nonprofit Management. The certificate seeks to provide expert-level skills to students who want to gain experience with the fundraising and development fields using current industry tools and techniques through a student-centered curriculum. Courses are designed to provide a solid foundation of knowledge on fundraising and development, which are areas in the nonprofit field experiencing growth and increased career opportunities.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
NPM 6130	Fundraising and Development for Nonprofit Organizations	3
NPM 6140	Grant and Report Writing	3
NPM 6220	Donor Research and Management	3
NPM 6230	Measuring Social Impact	3
NPM 6240	Managing the Annual Fund	3

#### Elective Courses

Code	Title	Hours
Choose from the following:		1
CMN 6096	Cultural Communications Lab	
INT 6940	Experiential Learning Projects for Professionals	
INT 6000	Writing Lab	
NPM 6100	Strategic Management for the Nonprofit Sector	
NPM 6210	Social Value Investing and Effective Partnerships	
NPM 6995	Project	
PBR 6001	Communications Technology Lab	

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Game Design, Graduate Certificate

Game design is one of the fastest-growing fields in entertainment, business, and education. From healthcare to political science, companies use games to educate their constituents and enhance employee skills.

The Graduate Certificate in Game Design offers a practice-oriented approach to the art and science of game making. The program emphasizes visual design and programming for video games and fosters conceptual understanding of the principles of game design for all varieties of games—from educational board games to iPhone games.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
DGM 6308	Intermediate Programming for Digital Media	4
DGM 6400	Game Design Fundamentals	4
DGM 6403	Game Engine Fundamentals	4
DGM 6405	Game Development	4
DGM 6410	Game Design Technology Lab	4

### Program Credit/GPA Requirements

20 total quarter hours required

Minimum 3.000 GPA required

## Geographic Information Systems, Graduate Certificate

A geographic information system (GIS) combines layers of data to give needed information on specific locations. Such a system can map environmental sensitivities or geological features or can report on how best to speed emergency personnel to an accident or crime scene. Current fields using GIS include healthcare, public safety, environmental management, transportation and operations technology, real estate, and public utilities.

The Graduate Certificate in Geographic Information Systems program offers hands-on training, seeking to give students the necessary skills and understanding to apply GIS competently and effectively. As a result of the certificate curriculum, students should be well versed in GIS theory, have practical hands-on exposure to GIS software and hardware, understand the representation of data in both mapped and tabular forms, and know how to plan and construct spatial databases.

The courses in this certificate program may be applied to the Master of Professional Studies in Geospatial Services (p. 839).

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
GIS 5103	Foundations of Geographic Information Science	4
RMS 5105	Fundamentals of Remote Sensing	3
GIS 5201	Advanced Spatial Analysis	3

#### Electives

Code	Title	Hours
Complete two of the following:		6
ITC 6480	Amazon Web Service (AWS) Cloud Architecting	
GIS 6320	Use and Applications of Free and Open-Source GIS Desktop Software	
GIS 6340	GIS Customization	
GIS 6345	Geospatial Programming	
GIS 6350	Planning a GIS Implementation	
GIS 6360	Spatial Databases	
GIS 6370	Internet-Based GIS	
GIS 6385	GIS/Cartography	
GIS 6983	Topics	

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Global Studies and International Relations, Graduate Certificate

The Graduate Certificate in Global Studies and International Relations is designed to provide students with the skills and training necessary to analyze, research, and evaluate a topic of interest in a global location. Overall, the program curriculum focuses on the themes of transition and development in the global world. Core courses provide a base of knowledge about global issues and are combined with an elective that allows students to focus on a specific area of interest.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
GST 6100	Globalization and Global Politics and Economics	4
GST 6101	Global Literacy, Culture, and Community	4
GST 6320	Peace and Conflict	4

#### Elective

Code	Title	Hours
Complete one of the following:		4
GST 6501	Regional Studies: East Asia	
GST 6502	Regional Studies: Middle East and North Africa	
GST 6503	Regional Studies: Sub-Saharan Africa	
GST 6504	Regional Studies: Europe and Eurasia	
GST 6505	Regional Studies: Southwest and Central Asia	
GST 6506	Regional Studies: Latin America	

#### Program Credit/GPA Requirements

16 total quarter hours required  
Minimum 3.000 GPA required

## Health Management, Graduate Certificate

Projections for the healthcare industry state that job growth will remain above average into the next decade. The needs of an aging population along with the increased human life cycle are just some of the factors contributing to this growth.

The Graduate Certificate in Health Management examines the financial, political, legal, and operational aspects of a healthcare facility and explores the evolution of healthcare delivery in the United States.

Health managers are found in different roles across healthcare organizations including:

- Strategic planning
- Operations
- Human resources
- Fund-raising
- Purchasing

Health managers are responsible for designing, administering, managing, and evaluating health policies, programs, and services. The courses in this certificate also serve as a concentration in the Master of Science in Leadership program.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
HMG 6110	Organization, Administration, Financing, and History of Healthcare	3
HMG 6120	Human Resource Management in Healthcare	3
NPM 6120	Financial Management for Nonprofit Organizations	3
HMG 6130	Healthcare Strategic Management	3

#### Elective Courses

Code	Title	Hours
Complete two of the following (minimum of 6 quarter hours):		
NPM 6110	Legal and Governance Issues in Nonprofit Organizations	3
NPM 6150	Human Resources Management in Nonprofit Organizations	3
HMG 6140	Principles of Population-Based Management	3
HMG 6160	Healthcare Information Systems Management	3
HMG 6170	Health Law, Politics, and Policy	3
HRM 6020	Talent Acquisition and Onboarding	3

#### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Higher Education Administration, Graduate Certificate

Institutions of higher education around the world are facing considerable pressures that range from changing demographics to financial strain amid disruptions unimaginable 20 years ago. Administrators must develop foundational skills to create conditions that allow their students and institutions to thrive in a constantly changing world. The Graduate Certificate in Higher Education Administration is designed to prepare practitioners for the unique and difficult challenges facing the next generation of higher education professionals. This program allows students the flexibility to build upon their skills in a customized manner with a focus on practical skills and course designs firmly grounded in experiential learning.

The Graduate Certificate in Higher Education Administration program seeks to prepare students with the knowledge to understand the structure, governance, and operation of various higher education organizations. Within the context of classes, students have an opportunity to develop solutions to real-world problems.

### Unique Features

- The ability to complete the program 100 percent while accessing and contributing to an extensive professional network—critical in the world of higher education.
- Northeastern faculty who are currently meaningfully engaged in the field, bringing their practical expertise to our students.
- The integration of experiential projects within several courses allowing students to develop practical skills.
- Credits can be applied toward the Master of Education, Higher Education Administration (p. 826) program.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Core Courses

Code	Title	Hours
EDU 6202	Faculty, Curriculum, and Academic Community	4
EDU 6205	The Demographics of the New College Student	4
EDU 6219	Higher Education Law and Policy	4

#### Elective

Code	Title	Hours
Complete one of the following:		4
EDU 6217	The History of Colleges and Universities	
EDU 6218	Money Matters: Financial Management in Higher Education	
EDU 6224	Strategic Leadership in Enrollment Management	
EDU 6234	Program Evaluation, Assessment, and Accreditation in Higher Education	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Human-Centered Informatics, Graduate Certificate

Human-centered informatics (HCI) focuses on the design, development, and evaluation of IT systems with a particular emphasis on the relations and interactions between people and IT systems. The emphasis of understanding users experience when they interact with technology in the information-rich environment and the design of interfaces between users and systems makes it different from the focus of software engineering programs or visual and artistic design programs.

The human-centered informatics graduate certificate offers students the opportunity to learn the theories of cognitive and social psychology as well as universal principles of design adopted in human-computer interaction. Students develop the technical skills to study user experience in various IT environments (home, business, social media, healthcare, etc.), focusing on user needs, information architecture, and design of user interfaces. Successful students that graduate with the HCI graduate certificate will be able to propose innovative or improve design solutions to real-world problems.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Required Courses</b>		
ITC 6410	Fundamentals of Human Behaviors for Interactive Systems	3
DGM 6461	Interactive Information Design 1	4
DGM 6168	Usability and Human Interaction	4
DGM 6268	Usable Design for Mobile Digital Media	4
<b>Elective</b>		
Complete one of the following:		3-4
DGM 6463	Interactive Information Design 2	
ALY 6070	Communication and Visualization for Data Analytics	
ITC 6355	Web Application Design and Development	

#### Program Credit/GPA Requirements

Minimum 3.000 GPA required

## Human Resources Management, Graduate Certificate

In today's multifaceted organizations, human resource professionals must respond to the growing challenges of regulatory compliance, complex benefit plans, and training and motivating employees.

The Graduate Certificate in Human Resources Management seeks to foster a deep understanding of organizational development and effective change management, workforce planning and strategic recruitment, and training and performance management.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
HRM 6015	Introduction to Human Resources Management <sup>1</sup>	3
HRM 6025	Workforce Analytics	3
HRM 6042	Strategic Workforce Planning	3

<sup>1</sup> This course is for students with less than two years of human resources experience. Students who do not complete this course take electives to satisfy required program credits.

### Electives

Code	Title	Hours
Complete seven quarters hours of the following:		7
CMN 6096	Cultural Communications Lab	
HRM 6005	Creating a High-Performance Organization: Strategic Organizational and HRM Choices	
HRM 6010	Compensation and Benefits	
HRM 6020	Talent Acquisition and Onboarding	
HRM 6030	The Employment Contract	
HRM 6035	Digital Human Resources Platforms	
HRM 6047	Managing the Employee Life Cycle	
HRM 6050	Employee Engagement	
HRM 6060	Organizational Design	
HRM 6070	Global Human Resources Management	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Information Security Management, Graduate Certificate

Information security is a management issue with global business implications. To succeed in today's network economy requires more than simply a focus on information technology (IT) issues. Succeeding also requires a focus on security strategy and management. IT security governance is an overarching consideration in all risk-assessment and management-related endeavors and is important for information security since many issues have legal, regulatory, policy, and ethical considerations. The associated risks of business today must be clearly understood and managed.

The Graduate Certificate in Information Security Management is designed to provide a conceptual and practical overview of information security management. It begins with an overview of key information security management issues and principles. It presents security governance challenges including the policy, law, regulatory, and ethical accountability frameworks that information security risk managers must work within. The program includes review courses that prepare students for the Certified Information Systems Security Professional (CISSP) and Certified Information Systems Auditor (CISA) exams.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ITC 6300	Foundations of Information Security	3
ITC 6305	IT Infrastructure (Systems, Networks, Telecom)	3
ITC 6310	Information Security Governance	3
ITC 6315	Information Security Risk Management	3
ITC 6520	Network Protection and Cloud Security	3

### Electives

Code	Title	Hours
Complete one of the following:		3
ITC 6330	CISSP Preparation	
ITC 6530	Security Analytics	

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Insurance Analytics and Management, Graduate Certificate

### Overview

Learners have an opportunity to gain appropriate technical skills, insurance design expertise, and experience needed to assume professional roles in the insurance field. Upon completion, learners should be prepared to:

- Investigate and identify opportunities to address insurance questions and/or challenges in the evolving digital agenda of the insurance industry.
- Articulate and defend the significance and implications of the intersections of application orientation, domain knowledge, digital leadership and human-centered design, decision support, and digital transformation across the insurance enterprise.
- Integrate the principles, tools, and methods of digital transformation and human-centered design to solve organizational problems by making informed decisions related to the design and deployment of systems in human environments and workflows within the organization.
- Develop a formally proposed solution and/or application, real or hypothetical, to address an insurance-related question and/or challenge.
- Apply data management and strategic analysis, problem-solving, decision-making, effective visualization/communication, and digital leadership skills to the application or deployment of technologies and products in a real-world scenario.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

Code	Title	Hours
<b>Core Courses</b>		
INS 6020	Claims Management	3
INS 6030	Insurance Underwriting	3
INS 6040	Introduction to Insurance Data Analytics	3
INS 6050	Intermediate Insurance Analytics	3
<b>Electives</b>		
Complete two of the following:		6
ALY 6070	Communication and Visualization for Data Analytics	
EAI 6000	Fundamentals of Artificial Intelligence	
EAI 6020	AI System Technologies	
INS 6120	Macro Challenges in Insurance	
INS 6140	Distribution and Sales	
INS 6983	Special Topics	

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Integrative Health and Wellness, Graduate Certificate

The Graduate Certificate in Integrative Health and Wellness is designed to equip students to apply cross-disciplinary approaches to patient or client health and wellness. Students explore how to interact with diverse patients or clients within a variety of settings and how to utilize a holistic model for patient care by incorporating strengths-based perspective, cross-cultural communication, resilience, advocacy, and problem solving. This certificate equips emerging and current healthcare practitioners and professionals to apply integrative well-being principles toward a wide variety of approaches and practices that create cohesive and holistic assessments and intervention plans for those they serve. Students have an opportunity to learn how to advocate for access and navigate the wide variety of care options that are available, while considering social determinants of health, patient's cultural and economic belief systems, social and mental supports, and the potential appropriate interventions. Students will work side-by-side with a multidisciplinary array of practitioners to develop the needed assessment and intervention skills to excel within the wide range of roles and applications available across integrative healthcare in our global 21<sup>st</sup>-century delivery system.

The mission of the Graduate Certificate in Integrative Health and Wellness at Northeastern University is to cultivate diverse practitioners who can use innovative assessments and resource identification tools to coordinate holistic patient care. Here, we train health practitioners and professionals on how to be agile learners, thinkers, and creators in integrative health, wellness, and resilience

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Curriculum (16 credits)

Code	Title	Hours
NTR 6105	Foundations of Integrative Health	4
NTR 6125	The Process of Health and Healing: Exploring Systems in the Body—Part 1	4
NTR 6135	The Process of Health and Healing: Exploring Systems in the Body—Part 2	4
NTR 6160	Survey of Integrative Practices and Interventions	4

#### Experiential Capstone (2–4 credits)

Code	Title	Hours
NTR 7880	Wellness in Practice	2-4

## Interactive Design, Graduate Certificate

Digital media plays an increasingly significant role in the global culture and economy. The Graduate Certificate in Interactive Design offers an overview of courses in the creative process of storytelling and communicating through visuals and sound. Students have an opportunity to gain expertise in time-based design and interface and experience design through a practice-oriented problem-solving approach.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
DGM 6217	Typography for Interactivity	4
DGM 6317	Screen-Based Publication Design	4
DGM 6461	Interactive Information Design 1	4

#### Elective Courses

Code	Title	Hours
Choose from the following:		4
DGM 6463	Interactive Information Design 2	
DGM 6471	Designing Infographics	

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## International Biopharmaceutical Regulatory Affairs, Graduate Certificate

To work in today's global biopharmaceutical industry, there is a strong need to understand international regulations that impact the development, marketing, and manufacturing of pharmaceutical and biotechnology products.

The Graduate Certificate in Biopharmaceutical International Regulatory Affairs curriculum focuses on factors that facilitate the safety, performance, and efficacy of biomedical goods. Program training covers the assessment of international regulations and interpretation of their likely impact on a company's global commercialization strategies. Through participation in the program, students will have an opportunity to gain an understanding of international regulatory requirements necessary to implement such strategies.

Course work covers biotechnology and pharmaceutical product approval processes, regulatory analysis, and liability laws as they exist across different regulatory systems. The graduate certificate will provide core regulatory knowledge to students entering into the field from bench research, clinical studies, quality control/assurance, pharmacy, bioengineering, business, and legal analysis. The curriculum covers regulatory environments in Europe, Latin America, Australia, Japan, and other emerging economies. Courses from this certificate may be applied toward the Master of Science in Regulatory Affairs for Drugs, Biologics, and Medical Devices.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
RGA 6221	European Union Compliance Process and Regulatory Affairs	4
Complete a minimum of 12 quarter hours		12
RGA 6204	Legal Issues in International Food, Drug, and Medical Device Regulation	
RGA 6207	Global Impact of Electronic Common Technical Document (eCTD) Submissions	
RGA 6210	Strategic Planning and Project Management for Regulatory Affairs	
RGA 6212	Introduction to Safety Sciences	
RGA 6223	Introduction to Australian, Asian, and Latin American Regulatory Affairs	
RGA 6224	Regulation of Biomedical Product Commercialization by Health Canada	
RGA 6244	Therapeutic Product Development in Canada	
RGA 6245	Regulation of Generic Pharmaceutical and Biosimilar Products	
RGA 6255	Global Convergence of Regulatory Science and Reimbursement/Market Access	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Leadership, Graduate Certificate

Today's cross-functional teams and organizations require a leadership style that capitalizes on the collective expertise and capabilities of the group. The development and mastery of collaborative leadership skills are not typically part of one's focused discipline preparation; hence, leadership requires deliberate development by those who assume leadership roles.

The Graduate Certificate in Leadership starts with the premise that everyone is capable of leadership. The program studies every aspect of leadership dynamics from the leader as an individual to working in teams and from the organization itself to the development of strategic leadership techniques. Course work exposes participants to a series of alternative perspectives of leadership, including collaborative models. Using the course's action-learning methods, participants build a personal model of leadership that they can put to immediate use in their workplace.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
LDR 6100	Developing Your Leadership Capability	3
LDR 6110	Leading Teams Strategically in a Global Environment	3
LDR 6120	Developing Organizational Success through Leadership Development	3
LDR 6140	Leadership Strategy, Design, and Practice	3

#### Leadership Electives

Code	Title	Hours
Complete two of the following:		6
LDR 6135	Ethical Leadership	
HRM 6005	Creating a High-Performance Organization: Strategic Organizational and HRM Choices	
LDR 6150	Innovation and Organizational Transformation	
CMN 6010	Strategic Communication Management	

#### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Leading and Managing Technical Projects, Graduate Certificate

Whether you're an established project manager, or you're working in a technical field and aspire to be one, Northeastern's Graduate Certificate in Leading and Managing Technical Projects seeks to give you the foundational skills and practical knowledge you need to be successful.

Through courses you take online, our technical project management curriculum will give you the opportunity to:

- Develop the leadership and management skills to lead technical projects
- Learn how to communicate technical content to a nontechnical audience
- Gain practice leading remote teams, including global teams
- Plan and schedule projects using the most current and relevant methodologies
- Develop a personal leadership approach to motivate and inspire others

Credits earned in this certificate may be used to satisfy some of the degree requirements of a College of Professional Studies master's program. For further information, see the Seeking More Than One Certificate or Degree page.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6205	Leading and Managing Technical Projects	3
PJM 6210	Communication Skills for Project Managers	3
PJM 6215	Leading Remote Project Teams	3
PJM 6810	Principles of Agile Project Management	3

<sup>1</sup> Foundations of Project Management (PJM 5900) is for students with less than three years of experience directing or leading project tasks and is recommended for students who do not have a basic working knowledge of Microsoft Project software. Students who do not complete Foundations of Project Management (PJM 5900) take project management electives to satisfy required program credits.

### Elective Courses

Code	Title	Hours
INT 6940	Experiential Learning Projects for Professionals	
INT 6943	Integrative Experiential Learning	
PJM 6075	Project Finance	
PJM 6125	Project Evaluation and Assessment	
PJM 6140	Managing Troubled Projects	
PJM 6145	Global Project Management	
PJM 6175	Project Resource Management	
PJM 6180	Project Stakeholder Management	
PJM 6205	Leading and Managing Technical Projects	
PJM 6210	Communication Skills for Project Managers	
PJM 6215	Leading Remote Project Teams	
PJM 6710	Introduction to Program and Portfolio Management	
PJM 6983	Topics	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Learning Experience Design and Technology, Graduate Certificate

The Graduate Certificate in Learning Experience Design and Technology offers a practice-based exploration of the key skills required in the rapidly expanding field of learning design. Never before has the need for professionals with LXD expertise been so essential across all industry sectors. The certificate is designed to meet this need by grounding designers, educators, technologists, and other professionals in the art and science of effective learning design. Students will have the opportunity to build or strengthen design and technological skills that can be applied across PK–12, higher education, government, military, corporate, and nonprofit environments. Skills can be applied to learners of all ages and in online, mobile, virtual, face-to-face, and blended formats.

The program's innovative approach blends academic and workplace-based learning with a focus on how people learn, foundational learning design skills, and advanced learning design topics. Experiential opportunities are built into each course. Students will have the opportunity to develop an online portfolio of work to demonstrate their capacity to think strategically; put creative ideas into action using a variety of technologies; learning design environments that meet academic, personal, professional, and organizational goals; and interpret and clearly communicate results to stakeholders. Credits earned in this certificate may be used to satisfy some of the degree requirements of the Master of Professional Studies in Learning Experience Design and Technology program.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
<b>Core Requirements</b>		
EDU 6319	How People Learn	4
EDU 6334	Foundations of Learning Experience Design	4
EDU 6335	Advanced Practices in Learning Experience Design	4

## Medical Device Regulatory Affairs, Graduate Certificate

The national and regional medical device industries have continued to experience significant market growth, despite the fluctuations in the overall global economy. There are more than 7,000 medical device companies in the United States alone, and nearly 1,000 of these are based in Massachusetts. In total, the medical device sector in Massachusetts employs 36,000 workers, has a payroll of over \$1.8 billion, and annual product shipments of \$7.3 billion.

The Graduate Certificate in Medical Device Regulatory Affairs provides students with an opportunity to gain a detailed knowledge of the regulations influencing the commercialization of new and existing medical devices. The intensely practical curriculum spans the entire life cycle of product development and introduces students to the salient features governing both pre- and postapproval stages. The program content also examines the relationship between regulatory agencies and the medical device industry. Students have the opportunity to take specialized courses on regulatory systems outside the United States.

The certificate will help advance the careers of students coming from such fields as bioengineering, quality control/assurance, intellectual property, business, and marketing. The choice of several courses makes this certificate ideal for students already working in the regulatory world as well as those just entering into the profession.

Courses from this certificate may be applied toward the Master of Science in Regulatory Affairs.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirement

Code	Title	Hours
<b>Required Courses</b>		
RGA 6001	Introduction to Food and Drug Administration (FDA) Medical Device Regulation	2
RGA 6202	Medical Device Development: A Regulatory Overview	4
RGA 6233	Application of Quality System Regulation in Medical Device Design and Manufacturing	4
<b>Electives</b>		
Choose from the following:		6
RGA 6205	Emerging Trends and Issues in the Medical Device Industry	
RGA 6222	European Medical Device Regulations	
RGA 6243	Medical Device Product Development in Canada	
RGA 6275	Product Development and Process Validation	
RGA 6370	Advanced Regulatory Writing: Medical Device Submissions	

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Nonclinical Biomedical Product Regulation, Graduate Certificate

The professional practice of nonclinical regulatory affairs involves understanding, developing, and applying global compliance standards to the biomedical product commercialization process in several cross-functional areas that are separate and distinct from direct clinical patient care. This includes, but is not limited to, design and preclinical development processes, including *in vitro* and *in vivo* animal testing, *in silico* testing, small-scale/large-scale manufacturing process development and validation, development and maintenance of supply chains, as well as product handling and distribution. The Graduate Certificate in Nonclinical Biomedical Product Regulation introduces students to the practice of understanding, developing, and effectively applying global nonclinical compliance standards to new healthcare technologies. Students in the certificate program have the opportunity to:

- Differentiate between the nonclinical vs. clinical aspects of the global biomedical product commercialization process from a regulatory compliance perspective
- Explain the compliance-associated requirements needed to successfully practice professional nonclinical work within the global biomedical products industry
- Describe the nonclinical regulatory standards utilized by the United States Food and Drug Administration (FDA) and other global regulatory agencies to evaluate the safety and efficacy of new and existing biomedical products employed by healthcare practitioners in various patient settings
- Apply fundamental global nonclinical regulations to the biomedical product commercialization process, including therapy design, manufacturing process development and validation, cybersecurity, and supply chain risk management

Students that successfully complete this certificate may apply their courses toward the Master of Science in Regulatory Affairs (p. 874).

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
RGA 6207	Global Impact of Electronic Common Technical Document (eCTD) Submissions	4
RGA 6233	Application of Quality System Regulation in Medical Device Design and Manufacturing	4
RGA 6405	Nonclinical Regulations in Biomedical Product Commercialization	4
RGA 6420	Global IVD Regulations and Submissions	4

## Nonprofit Management, Graduate Certificate

Nonprofits today simply require a higher level of management expertise. Nonprofit managers are required to manage people and programs more efficiently and effectively. The Graduate Certificate in Nonprofit Management focuses on developing skills in organizational management, financial management, fund-raising, grant and report writing, human resources management, and governance.

The program integrates theoretical approaches with practical application to prepare students for positions in either small or large nonprofit organizations. The program targets individuals who work in the nonprofit sector as executive directors, managers, program staff, board members, and volunteers. Students have an opportunity to participate in case studies, individual and group projects, and class discussions.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
NPM 6110	Legal and Governance Issues in Nonprofit Organizations	3
NPM 6120	Financial Management for Nonprofit Organizations	3
NPM 6125	Promoting Nonprofit Organizations	3

## Project Business Analysis, Graduate Certificate

At the heart of every project is requirements analysis. It's a critical skill set, leveraged across the spectrum of project work. This program provides practicing project managers with a solid framework and understanding of the process of developing requirements. It also emphasizes the need to engage stakeholders throughout the process to ensure outcomes meet the desired needs of the organization.

This graduate certificate allows you to possess an in-demand skill set. It gives you a better opportunity at finding entry-level positions as a PMO analyst or entry-level business analyst. And it prepares you with the knowledge, skills, and tools needed to create and manage requirements to meet stakeholder needs effectively.

In this program, you will:

- Develop a strong framework and understanding of the role of business analyst
- Understand and analyze the voice of the customer and explore potential solutions for their needs
- Apply tools and techniques to elicit requirements (business requirements, stakeholder requirements)
- Translate the needs of the business into clear, concise, quality requirements (solution requirements, functional and nonfunctional requirements)
- Apply analytical skills in the business analysis process
- Develop a personal leadership strategy for success as a business analyst

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6610	Foundations of Project Business Analysis	3
PJM 6620	Strategy Analysis and Needs Assessment	3
PJM 6630	Requirements Analysis and Design	3
PJM 6640	Leadership Strategies for the Business Analyst	3

<sup>1</sup> Foundations of Project Management (PJM 5900) is for students with less than three years of experience directing or leading project tasks and is recommended for students who do not have a basic working knowledge of Microsoft Project software. Students who do not complete PJM 5900 may substitute project management electives to satisfy required program hours.

#### Elective Courses

## Project Management, Graduate Certificate

Technical and managerial employees at all levels of organizations are being asked to manage small and large projects. Many of these professionals have not been specifically trained to effectively and efficiently manage projects. The task of managing projects has its own body of knowledge. This program seeks to provide the practical and theoretical knowledge for which the Project Management Institute tests, and it is expected that individuals who successfully complete this program will be capable of fulfilling the education requirements of the Project Management Professional (PMP) certification exam.

This certificate program in project management is designed with sufficient course flexibility to accommodate professionals with various levels of project management experience. Project management principles are applicable to both manufacturing and service industries, including professionals in fields such as software engineering, construction management, and financial services.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
PJM 5900	Foundations of Project Management <sup>1</sup>	4
PJM 6005	Project Scope Management	3
PJM 6015	Project Risk Management	3
PJM 6025	Project Scheduling and Cost Planning	3

<sup>1</sup> Foundations of Project Management (PJM 5900) is for students with fewer than three years of experience directing or leading project tasks. Students who do not complete PJM 5900 may substitute project management electives to satisfy the required program hours.

### Elective Courses

Code	Title	Hours
Choose from the following:		3

PJM 6983	Topics	

### Program Credit/GPA Requirements

16 quarter hours required

Minimum 3.000 GPA required

## Public and Media Relations, Graduate Certificate

There is growing demand for communication professionals with digital media skills and a strategic perspective on brand and reputation management. According to the Bureau of Labor Statistics, employment of public relations specialists and managers will grow by 12 percent and 13 percent, respectively. The Graduate Certificate in Public and Media Relations is designed to prepare communication professionals who focus on external stakeholders for the challenges of a rapidly changing industry. This program focuses on developing strategic communication plans, crafting compelling messages, and performing audience research, while preparing students with the latest skills in digital platforms, tools, and techniques.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
PBR 6100	Introduction to Public Relations	3
PBR 6135	Public Relations Strategy and Planning	3
PBR 6710	Public Relations Research: Understanding External Audiences	3

#### Elective Courses

Code	Title	Hours
Complete 7 quarter hours from the following:		7
CMN 6025	Digital Era Skills: Platforms, Tools, and Techniques	
CMN 6045	Leveraging Digital Technologies: Strategy, Assessment, and Governance	
CMN 6050	Crisis Communication	
CMN 6075	Digital Marketing Analytics	
DGM 6290	Social Media and Brand Strategy Implementation	
DGM 6550	Search Engine Optimization: Strategy and Implementation	
PBR 6001	Communications Technology Lab	
PBR 6125	Community Relations and Corporate Social Responsibility	
PBR 6130	Public Relations Content Development	
PBR 6140	Advanced Public Relations Content Development	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Quality Assurance Compliance, Graduate Certificate

Global regulatory requirements and compliance standards for development, marketing approval, and clinical utilization of new biomedical products continue to evolve rapidly in today's dynamic healthcare environment. The professional practice of quality assurance involves ensuring compliance to appropriate industry-specific regulatory standards throughout a biomedical product's life cycle.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
Complete one of the following:		2
RGA 6000	Introduction to Food and Drug Administration (FDA) Pharmaceutical Regulation	
RGA 6001	Introduction to Food and Drug Administration (FDA) Medical Device Regulation	
RGA 6461	Cybersecurity and Regulation of Digital Health Technologies by the FDA	
Complete the following courses:		
RGA 6233	Application of Quality System Regulation in Medical Device Design and Manufacturing	4
RGA 6234	Risk Management: Compliance and Processes	4
RGA 6275	Product Development and Process Validation	2
Choose from the following to reach 16 quarter hours:		4
RGA 6221	European Union Compliance Process and Regulatory Affairs	
RGA 6410	Fundamentals of CMC Regulations and Methods	
RFA 6220	Food Safety and Surveillance: Concepts and Applications	

### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

## Remote Sensing, Graduate Certificate

Remote sensing is the measurement of information by a recording device that is not in physical contact with the object being measured. In practice, remote sensing is the utilization at a distance (as from aircraft, space shuttle, spacecraft, satellite, or ship) of any device for gathering information about the environment. The term remote sensing is most often applied to terrestrial and weather observations but can be applied to planetary environments and astronomy. Remote sensing is applicable to many other situations, including land-use change, pollution tracking, land-use and planning, transportation systems, and military observation.

The online Graduate Certificate in Remote Sensing aims to make education and training in remote sensing available to adult and professional students. The remote sensing certificate program seeks to produce students who are well versed in remote sensing theory, who have hands-on exposure to remote sensing software and hardware, and who have learned how to extract pertinent data from remotely sensed data sets. This six-course certificate program seeks to provide students with the necessary skills and understanding to apply remote sensing knowledge competently and effectively in a variety of areas.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Courses

Code	Title	Hours
RMS 5105	Fundamentals of Remote Sensing	3
RMS 6110	Introduction to Machine Learning for Image Data	3

#### Remote Sensing Electives

Code	Title	Hours
Complete four of the following:		12
GIS 6345	Geospatial Programming	
ITC 6480	Amazon Web Service (AWS) Cloud Architecting	
RMS 6240	Introduction to Radar and LiDAR Remote Sensing	
RMS 6280	Automated Feature Extraction for the Geospatial Professional	
RMS 6290	Spectroscopic Image Analysis	
RMS 6983	Topics	

#### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Sales Management, Graduate Certificate

### Overview

The Graduate Certificate in Sales Management is designed to provide sales managers with an integrated approach to sales management that recognizes the customer journey does not end with a sale; instead, it is a continuous process of identifying opportunity, recognizing customer challenges, addressing customer pain points, and supporting customer success. To develop these skills, it is important for sales managers to better understand how analytics and AI can be used to understand customer behavior and predict market trends, develop strong leadership skills to build successful teams, and to use project management techniques to better reach goals.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
LDR 6100	Developing Your Leadership Capability	3
SMT 6010	Building Business Acumen	3
SMT 6020	Managing the Customer Experience	3
SMT 6060	Decision Support and Sales Analytics	3

#### Elective Courses

Code	Title	Hours
Complete a minimum of 6 credits from the following:		6
CMN 6040	Consumer Behaviors in the Online Environment	
CMN 6060	Negotiation, Mediation, and Facilitation	
HRM 6005	Creating a High-Performance Organization: Strategic Organizational and HRM Choices	
HRM 6020	Talent Acquisition and Onboarding	
LDR 6110	Leading Teams Strategically in a Global Environment	
LDR 6190	Leadership Coaching for Purpose and Performance	
SMT 6983	Special Topics	

### Program Credit/GPA Requirements

18 total quarter hours required

Minimum 3.000 GPA required

## Social Media for Organizational Performance, Graduate Certificate

In organizations, social media management and strategy development have become core skills required for communication professionals. According to WANTED Analytics, over 1.6 million working professionals utilize social media skills in jobs at the manager and executive level. The Graduate Certificate in Social Media for Organizational Performance focuses on strategic framework and the role digital media has in supporting organizational performance. The program integrates theory and practice, including experimenting with various tools and platforms and reflecting on lessons learned from active management and experimentation.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
CMN 6045	Leveraging Digital Technologies: Strategy, Assessment, and Governance	3
DGM 6285	Interactive Marketing Fundamentals <sup>1</sup>	4
DGM 6290	Social Media and Brand Strategy Implementation	4

#### Electives

Code	Title	Hours
Complete a minimum of five quarter hours from the following:		5
CMN 6040	Consumer Behaviors in the Online Environment	
CMN 6065	Implementation and Management of Social Media Channels and Online Communities	
CMN 6075	Digital Marketing Analytics	
CMN 6096	Cultural Communications Lab	
DGM 6168	Usability and Human Interaction	
DGM 6550	Search Engine Optimization: Strategy and Implementation <sup>2</sup>	
PBR 6001	Communications Technology Lab	

#### Program Credit/GPA Requirements

16 total quarter hours required

Minimum 3.000 GPA required

<sup>1</sup> Interactive Marketing Fundamentals (DGM 6285) is for students who do not have digital media marketing experience. Students who do not complete this course take additional elective credits to satisfy the required credits for the program. Students may also meet the requirement through prior learning assessment. Visit the Credit for Prior Learning (<https://cps.northeastern.edu/academics/prior-learning-assessments/>) page for more information.

<sup>2</sup> Contact your advisor to enroll in this course. Students who choose Search Engine Optimization: Strategy and Implementation (DGM 6550) are not required to complete its course prerequisites.

## Usability, Graduate Certificate

The Graduate Certificate in Usability is a practical, in-demand, career-focused graduate certificate. The certificate stresses both a broad, theory-based introduction to the field, as well as the ability to choose from focused electives, with an emphasis on practical assignments. This certificate highlights the key skills and tools used by usability generalists, working in a broad variety of fields.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
DGM 6168	Usability and Human Interaction	4
DGM 6268	Usable Design for Mobile Digital Media	4
DGM 6461	Interactive Information Design 1	4
DGM 6525	Research Methods for Global User Experiences	4

### Electives Courses

Code	Title	Hours
Complete 4 quarter hours from the following:		4
DGM 6308	Intermediate Programming for Digital Media	
DGM 6451	Web Development	
TCC 6110	Information Architecture	

### Program Credit/GPA Requirements

20 total quarter hours required

Minimum 3.000 GPA required

## College of Science

Website (<http://www.northeastern.edu/cos/graduate/>)

**Hazel Sive, PhD**, Dean

**Brent Nelson, PhD**, Senior Associate Dean, Academic Affairs

**Carla Mattos, PhD**, Associate Dean, Professional Programs and Graduate Affairs

**Erin Cram, PhD**, Associate Dean, Research

**Oyinda Oyelaran, PhD**, Associate Dean, Faculty Affairs

**Randall Hughes, PhD**, Associate Dean, Equity

**Sam Inman, MBA**, Associate Dean, Administration and Finance

**Rachelle Reisberg, MS**, Assistant Dean, Undergraduate Curriculum and Students

**Tracy Tan, MS**, Assistant Dean, Professional Programs

The College of Science seeks to offer advanced students outstanding academics and real-world research experience through cutting-edge research opportunities that are both discipline based and interdisciplinary. Our doctoral and master's degree programs in the physical sciences, life sciences, and mathematics seek to give students a deep understanding of emerging fields such as chemical biology, cognition and neuroscience, environmental and marine science, biochemistry, bioinformatics, biotechnology, nanoscience, and network science. Our programs are positioned at the forefront of discovery, invention, and innovation. We seek to prepare students and professionals to enter the scientific workforce serving the academic, government, or private sector.

## Academic Policies and Procedures

- Academic Appeals Policies (p. 924)
- Awards (p. 927)
- Changes in Requirements (p. 928)
- Cooperative Education Policies (p. 929)
- Course Registration (p. 931)
- The Doctor of Philosophy Degree (PhD) (p. 932)
- Grading Policies (p. 934)
- The Master's Degree Academic Requirements (p. 935)
- Satisfactory Progress (p. 936)
- Time Limitation (p. 937)
- Transfer Credit (p. 938)

## Academic Appeals Policies

Northeastern University affirms that it is essential to provide an appeals mechanism to students who believe that they have been erroneously, capriciously, or otherwise unfairly treated. Information about the university appeals process and procedures can be found in the Graduate Catalog. (p. 70)

If a student feels that they have been the victim of harassment or of discrimination prohibited by law or by university policy, and that this constitutes a substantive basis for the appeal, they should consult with the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/about/>) as soon as they become aware of alleged prohibited harassment or discrimination, and they are not required to wait until a term grade or determination is received before seeking advice or redress. If the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/about/>) is advised of such alleged prohibited conduct as part of an academic appeal, the appeal shall first be pursued and investigated through the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/about/>). Following a resolution of the harassment/discrimination issues, any remaining academic issues will be addressed, at the request of the student, according to the academic appeals procedures.

Before invoking the appeals procedures, students are encouraged to speak informally to their instructors or academic advisors about any determination or grade about which they have questions. If students choose to pursue an appeal, the College of Science process is described in the appeals section that follows. The Graduate Curriculum Committee, which is comprised of program and department directors, serves as the Academic Appeals Committee for the College of Science.

### Grade Appeals

If a graduate student wishes to dispute a grade in a course taught by a member of the College of Science faculty, the first step is for the student to discuss their concerns with the faculty member who taught the course to see if it is possible to reach agreement on the issue(s). If the student is not able to resolve their issues with the faculty member who taught the course, the student should work with the department/program director to attempt a department-level resolution.

If these informal attempts to resolve the issue fail, the student can enter the formal procedure at the college level.

The student should meet with the associate dean for graduate affairs and professional programs who will attempt to resolve the issue by working with the instructor and the department/program. Contact Graduate Student Services at [COSGradStudents@northeastern.edu](mailto:COSGradStudents@northeastern.edu) to schedule the meeting. If it is not possible for the associate dean to resolve the issue with the department/program, the associate dean will determine whether or not there is just cause to convene the Graduate Curriculum Committee.

The decision to convene the Graduate Curriculum Committee will be based upon the following:

- The student sincerely attempted to resolve the complaint with the professor and the department/program.
- The complaint is substantive in nature (adjudication could affect student's course grade and/or academic record).
- The complaint has been brought forward in a timely manner.
  - The statement must be submitted no later than 28 calendar days from the day when the academic determination is made available to the student.
  - If a student wishes to dispute a grade in their final term, this must be done within 28 calendar days of degree conferral date.

If the associate dean determines the appeal should be brought to the Graduate Curriculum Committee, the student must provide a formal written complaint to the associate dean within one week of the student's meeting with the associate dean.

- The written complaint should provide a detailed timeline as well as all available evidence supporting the student's complaint.
  - It is the student's responsibility to make their case. Students may submit any evidence such as emails, quizzes, examinations, etc.
- Once the associate dean receives a formal written complaint, the associate dean will provide a copy of the complaint to the faculty member and to the department/program director and convene a meeting of the Graduate Curriculum Committee.
- If the student fails to provide a thoughtful and well-reasoned written summary of the case, then the matter will be considered closed at the college level.
- The associate dean will make a good faith effort to identify a date and time for the meeting within 35 calendar days of the student's original submission of their statement.

### GRADUATE CURRICULUM COMMITTEE

- The Graduate Curriculum Committee serves as the Academic Appeals Committee for the College of Science.
- The Graduate Curriculum Committee is convened in order to determine whether a fair and due process was used to determine the student's grade.
- The role of the committee is to conduct a review when a grade appeal is filed by a student for one of the following reasons, concern that:
  - The course grading policy was not applied consistently to all students within a class and/or section.
  - The instructor's method of assigning grades differed from the method outlined in the instructor's course syllabus.
  - The instructor failed to provide a clear policy on how grades would be assigned.

### APPEALS MEETING

The student and the faculty member have the right to attend and present their case orally to the committee. The faculty member and the student are not required to attend; however, it is usually quite helpful to make an oral presentation and answer any questions that the committee may have. If

the complainant indicates that they will present their case in person and then fails to attend the scheduled hearing, the case will be dismissed. The complainant and the faculty member both have the right to testify privately and separately before the committee. Lawyers are not permitted in these proceedings. Generally, the faculty member and complainant are each given a 15-minute period to present their case.

The student usually presents their complaint to the committee first. The committee may then ask the complainant any questions they have based upon either the written statement submitted by the complainant or the complainant's oral presentation. The faculty member then presents their case, which is followed by questions from the committee. After both the complainant and faculty member have addressed the committee, the committee then reviews the evidence, summarizes the case, and makes a recommendation to the associate dean concerning the resolution of the complaint.

If the committee believes it cannot resolve any issues without additional information, the committee may request any information needed from either the complainant, faculty member, or department/program. This information must be provided to the committee within one week of the meeting. If the requested information is not provided in the required time frame, then the committee may weigh this failure in making its final determination regarding the original complaint.

### **COMMITTEE PROCESS**

- All decisions of the committee will be made based on a simple majority (51%) vote.
- The associate dean is chair of the committee and only votes when there is a tie.
- The student bringing the complaint to the committee carries the burden of proof based on the weight of the evidence in demonstrating that the grade is incorrect or unjustified.
- If the committee decides that the grading process was unfair, the committee can request that the instructor changes the student's grade.
  - If an acceptable agreement involves a change of grade, the instructor is responsible for submitting a change of grade to the Office of the University Registrar in a timely manner following notification of the committee's decision.
- The student shall be notified within three business days of a decision being reached.

If the student or the faculty member is not satisfied with the committee's disposition of the matter, or if the grade appeal is not resolved within 35 calendar days after the written statement is submitted to the college, they may further pursue the matter by requesting in writing that the university convene an academic appeals resolution committee to review the issue. This must be submitted within 10 calendar days of the notification from the college. This committee has been designated as the final authority on these matters. Students may obtain information on this process by contacting the Office of the Provost.

### **Academic Dismissal Appeal**

If a student wishes to dispute an academic dismissal, the first step is to consult the graduate director about appealing to the department/program. If and when all departmental appeals are exhausted, the student can enter the formal procedure at the college level.

The student will meet with the associate dean for graduate affairs and professional programs who will attempt to resolve the issue by working with the department/program. Contact Graduate Student Services to schedule the meeting. If it is not possible for the associate dean to resolve the issue with the department/program, the associate dean will determine if the complaint is substantive and there is just cause to convene the Graduate Curriculum Committee.

The student must provide a formal written complaint to the associate dean within one week of the student's meeting with the associate dean. The statement must be submitted no later than 10 calendar days from the day when the academic determination is made available to the student. The written complaint should provide a detailed timeline as well as all available evidence supporting the student's complaint. Once the associate dean receives a formal written complaint, the associate dean will provide a copy of the complaint to the department/program director and convene a meeting of the Graduate Curriculum Committee. If the student fails to provide a thoughtful and well-reasoned written summary of the case, then the matter will be considered closed at the college level.

The associate dean will make a good faith effort to identify a date and time for the meeting within 35 calendar days of the student's original submission of their statement.

### **GRADUATE CURRICULUM COMMITTEE**

- The Graduate Curriculum Committee serves as the Academic Appeals Committee for the College of Science.
- The Graduate Curriculum Committee is convened in order to determine whether a fair and due process was used.

### **APPEALS MEETING**

The student has the right to attend and present their case orally to the committee. The student is not required to attend; however, it is usually quite helpful to make an oral presentation and answer any questions that the committee may have. If the complainant indicates that they will present their case in person and then fails to attend the scheduled hearing, the case will be dismissed. Lawyers are not permitted in these proceedings.

The student usually presents their complaint to the committee first. The committee may then ask the complainant questions based upon either the written case submitted by the complainant or the complainant's oral presentation. The committee then reviews the evidence, summarizes the case, and makes a recommendation to the associate dean concerning the resolution of the complaint.

If the committee believes it cannot resolve any issues without additional information, the committee may request any information needed from either the complainant or department/program. This information must be provided to the committee within one week of the meeting. If the needed

information is not provided in the time frame required, then the committee may weigh this failure in making its final determination regarding the original complaint.

#### **COMMITTEE PROCESS**

- All decisions of the committee will be made based on a simple majority (51%) vote.
- The associate dean is chair of the committee and only votes when there is a tie.
- The student bringing the complaint to the committee carries the burden of proof based on the weight of the evidence in demonstrating that the dismissal is incorrect or unjustified.
- If the committee decides that the academic dismissal should be revoked, the committee can request that the department reinstate the student immediately.

Decisions concerning dismissals cannot be appealed beyond the college level. While program dismissals cannot be appealed beyond the college level, underlying academic judgments that led to a dismissal can be appealed.

## Awards

Only those students who are registered in degree programs are eligible for awards. Award recipients will receive an official award letter from the College of Science via email. Pay attention to this letter as it is an official contract that should be read carefully. In addition, to maintain awards, students must be making satisfactory progress toward their degrees.

Receipt of financial support administered by the College of Science is contingent on satisfactory academic progress toward the degree and on meeting department-specific guidelines. The College of Science requires that all students receiving awards will generally have two semesters to reach a 3.000 grade-point average. Students whose cumulative GPA is below 3.000 will be reviewed by their departments and by the College of Science and may have their funding terminated on recommendation of their department or by decision of the College of Science in consultation with their department. Renewals of awards will depend on the student making satisfactory academic progress toward the degree, including a GPA of 3.000 or the department's minimum GPA, if it is higher than the College of Science minimum, and satisfactory performance of any duties required by the award.

## Changes in Requirements

The continuing development of the college may result in regular revision of curricula. When curriculum changes are made, students are allowed to complete the degree requirements of the program when they matriculated. If a student wishes to follow the new curriculum/program, they may request this in writing to the College of Science Graduate Student Services office at the time of the announcement of said changes.

## Cooperative Education Policies

The College of Science Graduate Cooperative Education Program is one option for experiential learning and is available to students enrolled full-time at Northeastern University in a degree-granting program.

The goals of cooperative education are for students to:

- **Integrate knowledge** and skills learned in the classroom and co-op to identify and solve problems
- **Gain new knowledge** and develop new skills to successfully engage in unfamiliar activities and projects
- **Identify and leverage opportunities** to learn beyond the classroom
- **Articulate** the intellectual skills that underlie the work they engage in
- **Assess, critique, and improve** their work
- **Adapt** their behavior to different audiences they interact with (e.g., communication, self-representation, etc.)
- **Behave professionally** in various environments (i.e., team, independent, etc.) by adhering to ethical standards and being accountable for their commitments

Master's-level students must meet the eligibility requirements and follow the guidelines below. Co-op is not guaranteed, and students must compete and be selected for a limited number of co-op opportunities.

### Eligibility Requirement for Co-op

- To be eligible for co-op, College of Science graduate students must:
  - Be enrolled full-time at Northeastern. Approval is required from the co-op faculty for exceptions.
  - Have completed a minimum of 16 master's-level academic credits prior to the start of co-op.
  - Meet the 3.000 minimum grade-point average requirement.
  - Have no incomplete grades, not be on academic probation, or have any outstanding disciplinary issues.
  - Have at least two required courses remaining in their program after completing co-op (for programs that do not require co-op).
- Graduate certificate students are not eligible for co-op.
- International students on an F-1 visa must have a valid I-20 and must follow Curricular Practical Training protocol.
- Students must successfully complete the Professional Development for Co-op course. This course covers the College of Science co-op performance standards, which encourage professional and ethical behaviors throughout the co-op process and clarify procedures required for continued success of students and the co-op program. The standards establish professional expectations of the student throughout the co-op search process and during the co-op term and address co-op related issues that may involve performance.
- Students must notify their co-op advisor when they receive a co-op offer.

### Guidelines

1. Co-ops must be aligned with academic terms (fall, spring, and full summer or summer 1 and summer 2).
2. Students may participate in co-op activities with a single company for four or six months for no fewer than 12 weeks.
3. Co-ops are required to be full-time, a minimum of 32 hours per week.
4. Course enrollment while on co-op is dependent upon academic program.
5. Students can create their own co-op placement outside of NUworks. Approval from the co-op faculty and adherence to all guidelines are required.
6. Students working in industry must complete an industry project to fulfill the co-op requirement. This must be approved by the co-op faculty and program director.
7. College of Science students are only allowed to complete one co-op work experience per degree.

### Registering for Co-op

Students are registered for the co-op work experience course based on the co-op position in NUworks. All co-op positions must be aligned with the academic calendar and be approved by the co-op faculty.

### Co-op Documentation

Students who fully and successfully participate in co-op will receive a grade of Satisfactory (S). Those who fail to complete their co-op assignment will receive a grade of Unsatisfactory (U). These grades will appear on the student's academic transcript. Academic credit is not awarded for the completed co-op.

### Global University System

University and college cooperative education policies apply to students on all campuses.

### **The College of Science Co-op Standing Committee**

In the event a situation arises that requires special consideration, the College of Science students who are dismissed from or resign from a co-op job will have an opportunity to meet with the co-op standing committee for a review. A decision will be made on future co-op eligibility and access to NUworks.

### **PhD Students**

Please contact your department or Graduate Student Services to inquire about guidelines for experiential learning opportunities.

## Course Registration

Students are encouraged to obtain advisor approval of course selections each semester. This approval is required for all assistantship recipients, and some departments require it for all students. Students should check with individual departments for specific guidelines.

## The Doctor of Philosophy Degree (PhD)

The Doctor of Philosophy degree is awarded to candidates who provide evidence of high scholastic attainment and research ability in their major field. Specific degree requirements are administered by a committee in charge of the degree program. It is the responsibility of the chair of this committee to certify to the College of Science the completion of each requirement for each candidate.

### Residence Requirement

A PhD student must spend the equivalent of at least one academic year in residence at Northeastern University as a full-time graduate student. The committee of each degree program specifies the method by which the residence requirement is satisfied.

### Qualifying Exam

In programs where a qualifying exam is required, students must complete this requirement within the time limit set by the program of study.

### Comprehensive Examination

Degree programs may require a comprehensive examination. Generally, students are expected to complete all of the required degree coursework prior to taking the comprehensive examination. Students must complete this requirement within the time limit set by the program of study, usually within one term of completing the required coursework.

### Doctoral Degree Candidacy

PhD degree candidacy is established when students have completed all departmental and university requirements for candidacy. These requirements vary by department and include completing the minimum number of graduate semester hours required of doctoral students by the department (this may include an earned master's degree accepted by the department) and passing a qualifying examination and/or a comprehensive examination. Once students reach doctoral degree candidacy they will be certified, in writing, by the college. Registration in coursework is not permitted once a student reaches candidacy.

### Continuity of Registration

For each of the first two semesters that a doctoral candidate has established candidacy, the student must register for Dissertation. For each semester beyond the two Dissertation registrations, the student must register for Doctoral Dissertation Continuation until the dissertation is approved by the College of Science. During the terms when a student is registered for Doctoral Dissertation or Dissertation Continuation, coursework is not permitted as the course requirements for the degree have already been met. If the academic program requires enrollment in seminars or courses in addition to Dissertation or Dissertation Continuation, the department's graduate director will make a recommendation to the College of Science for approval. Approval must happen prior to registration. Students must be registered for Dissertation or Dissertation Continuation during the semester in which they take the final oral examination (including the full summer semester if that is when defense occurs). Any student who does not attend Northeastern for a period of one year may be required to apply for readmission. A student who does not enroll for a period of three semesters, or one year, will be required to apply for readmission. Readmission is done via Slate. A student who does not enroll for a period of two semesters, or less than one year, may petition their department for reactivation. If the department is supportive, the student will be required to submit a written request to the departmental graduate committee. If the graduate committee feels the student is worthy of reactivation, the student's written request must be submitted to Graduate Student Services. Please note that college admissions deadlines apply to requests for readmission and reactivation.

### Dissertation

The dissertation committee shall have at least three faculty members, two of whom shall be from Northeastern. The chair of the dissertation committee (who is presumed to be the thesis advisor) will be a full-time tenured or tenure-track member of the faculty of Northeastern and will hold a PhD (or other research doctorate) or an appropriate terminal degree for the discipline. Exceptions to this policy will be considered and, if appropriate, approved by the provost or their designee. Colleges may permit full-time faculty from other ranks to serve in this role based on the research qualifications and experience of individual faculty members.

The PhD committee should be appointed early enough to advise in the formulation of the student's program and in refining the research topic for the dissertation. Within the constraints of the above criteria, the PhD program faculty will determine the process by which dissertation committees are established. The final list of dissertation committee members shall be reported to the college's associate dean for graduate education or unit managing the degree program.

If a student's major advisor leaves Northeastern (including transition to emeritus status), that person may continue the research direction of the dissertation or thesis. However, a co-advisor must be appointed from the academic department or program. The student will then have two advisors, one an official member of the Northeastern faculty who will be available for research and administrative matters and the ex-Northeastern advisor. If a new major advisor is appointed, the former Northeastern faculty member may serve as an outside member of the committee.

### Final Oral Examination

An oral defense of the dissertation is required and must be held at least 14 calendar days before the degree conferral date. The defense shall be conducted with the committee members present either in person or via electronic means. In the case where neither the candidate nor the committee members are present in person on campus (i.e., the candidate and all committee members are connected only remotely via electronic means), there shall be a location established and technology enabled for public, in-person attendance of the defense by the university community and this accommodation made known to the university.

**Interdisciplinary Doctoral Programs**

Some graduate students may wish to pursue doctoral programs that involve substantial work in two or more departments. To meet this need, an interdisciplinary program may be established that corresponds in scope and depth to doctoral standards but does not agree exactly with the individual departmental regulations. Consult this graduate catalog for policies and guidelines pertaining to this doctoral option.

## Grading Policies

In the College of Science, not more than two courses or 6 semester hours of credit, whichever is greater, may be repeated to satisfy the requirements for the degree. Only such repeats will be counted in calculating the cumulative grade-point average.

No grade changes are permitted after the end of the final examination period one calendar year from the semester in which the student registered for the course. In calculating the overall cumulative average, all graduate-level coursework completed at the time of clearance for graduation will be counted unless the student is immediately continuing on for a PhD degree in their department.

Students cannot elect a pass/fail grading scheme for College of Science courses, unless the course grading scheme is designated pass/fail.

## The Master's Degree Academic Requirements

A candidate for the master's degree must complete a minimum of 30 semester hours of graduate-level coursework and such other study as may be required by the department in which the student is registered.

To qualify for the degree, a minimum cumulative grade-point average of 3.000, equivalent to a grade of B, must be obtained. This average will be calculated each semester according to the university grading system and will exclude any transfer credits and nonrepeatable courses that have been retaken. A student who does not make satisfactory progress toward degree requirements, as specified by the individual department, may be terminated from the program.

### Comprehensive Examination

A final written or oral comprehensive examination is required in some programs. This examination will be given by the department concerned at least two weeks before the commencement at which the degree is expected to be conferred.

### Thesis

A master's thesis is required in some programs and should demonstrate the individual's capacity to execute independent work based on original material. Registration for Thesis is required in most programs.

Theses must be approved by the departmental graduate committee and, in cases in which a grade is required, must receive a grade of B (3.000) or better to be accepted.

### Continuity of Registration

Students are expected to maintain satisfactory progress toward their intended degrees. All students must be registered in the last semester of their program. A student who does not enroll for a period of three semesters, or one year, will be required to apply for readmission. Readmission is done via Slate. A student who does not enroll for a period of two semesters, or less than one year, may petition their department for reactivation. If the department is supportive, the student will be required to submit a written request to the departmental graduate committee. If the graduate committee feels the student is worthy of reactivation, the student's written request must be submitted to Graduate Student Services. Please note that college admissions deadlines apply to requests for readmission and reactivation.

## Satisfactory Progress

Satisfactory progress means satisfying requirements in the College of Science, in this graduate catalog, and in the regulations specified by the departments.

The College of Science sets minimum standards for all students to fulfill. Departments and programs may have additional requirements that exceed those of the College of Science. Students in the College of Science must be making satisfactory progress, including working toward the graduation requirement of a grade-point average of 3.000 in their coursework and the timely completion of coursework and comprehensive/qualifying examinations. See also the university's policy on academic standing ("Minimum Cumulative GPA (p. 88)").

## Time Limitation

Refer to university policy regarding time limitations. If students wish to apply for an extension of the time limit, they must submit a petition to their department of study. The petition must include a detailed plan for completion of all remaining degree requirements. In the case of master's degree time limit extension requests for coursework, the department must certify that the content of each of the courses has not changed since the time the student completed the course. If deemed appropriate, the department will recommend a time limit extension to Graduate Student Services. The associate dean for graduate affairs and professional programs has final approval of time limit extensions.

## Transfer Credit

A student may petition to transfer up to 9 semester hours of their degree program using credits from another institution, provided that the credits transferred consist of a grade of B (3.000) or better in graduate-level courses, have been earned at an accredited institution, and have not been used toward any other degree. Students transferring credit from an international institution must submit a course-by-course credential evaluation.

*Note:* If approved by the College of Science, credits from Northeastern University's College of Professional Studies transfer to the College of Science as external credits and count toward the maximum amount of transfer credit. As courses at other institutions may not parallel courses at Northeastern, the student's academic department will determine the number of semester hours the external course will be worth. This calculation may result in fewer semester hours than the course was assigned at the institution at which the student completed the course. In addition, courses accepted for transfer credit must have been completed within five years of the date the student is admitted to graduate study. Grades are not transferred. Some departments may accept fewer transfer credits.

## Biology

617.373.3724 (fax)

gradbio@northeastern.edu

The PhD program in biology emphasizes close interaction between graduate students and faculty in developing the intellectual and experimental skills required for creative independent research. Rigorous courses in a core biology curriculum, as well as advanced courses in particular research interests, are complemented by intensive research culminating in completion of a dissertation under faculty supervision. Students have an opportunity to declare a concentration in either cell and molecular biology or molecular microbiology.

The Department of Biology oversees the bioinformatics Master of Science program. The interdisciplinary program provides cross-disciplinary training in biology, computer science, and informational technology preparing students for cutting-edge jobs in the biotechnology and pharmaceutical industries. The program consists of four parts: fundamental courses, core courses, co-op and experiential learning, and electives.

The Graduate Certificate in Bioinformatics offers professionals working in the research, healthcare, and pharmaceutical industries the ability to employ bioinformatics algorithms and techniques to biological problems in their current practice. It also gives people looking to switch careers the data and genomic analysis skills needed to be more competitive in the biological and pharmaceutical industries.

The Graduate Certificate in Omics provides students the opportunity to explore in detail the key genomic technologies and computational approaches that are driving advances in prognostics, diagnostics, and treatment, learning how scientists sequence, assemble, and analyze the function and structure of genomes. The certificate explores methods for determining traits and diseases by studying the larger population as well as how gene identification can help identify targets for therapeutic intervention. Students that are already in the field or have an interest will significantly benefit from a certificate like this.

## **Programs**

### **Doctor of Philosophy (PhD)**

- Biology (p. 940)

### **Master of Science (MS)**

- Bioinformatics (p. 942)
- Cell and Gene Therapies (p. 946)

### **Graduate Certificate**

- Bioinformatics (p. 948)
- Omics (p. 950)

## Biology, PhD

The PhD program entails course work from a core biology curriculum along with advanced courses in the student's area of research interest. This is complemented by intensive research and completion of a dissertation under faculty supervision. Faculty research includes biochemistry, microbiology, cell and molecular biology, genetics, neurobiology, regenerative biology, and the biology of reproduction. Two optional concentrations are available: cell and molecular biology and molecular microbiology.

*Students who have completed required coursework with a cumulative GPA of 3.000 or better may be eligible to receive an (http://catalog.northeastern.edu/graduate/social-sciences-humanities/sociology/sociology-ma/)MS Biology (http://catalog.northeastern.edu/graduate/science/biology/biology-ms/) degree. In addition, students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal MS Biology (http://catalog.northeastern.edu/graduate/science/biology/biology-ms/) degree. Note that no students will be admitted directly into the MS Biology (http://catalog.northeastern.edu/graduate/science/biology/biology-ms/) to pursue a master's degree.*

### Program Requirements

#### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Qualifying examination  
Annual review  
Dissertation committee  
Dissertation proposal  
Colloquia (minimum of three)  
First-author publication  
Dissertation defense

#### Core Requirements

Code	Title	Hours
<b>Research Ethics</b>		
BIOL 7399	Research Problem Solving, Ethics, and Communication Skills	4
<b>Colloquium</b>		
Complete the following (repeatable) course twice:		2
BIOL 5100	Biology Colloquium	

#### Concentrations or Electives Option

- Cell and Molecular Biology (p. ) Concentration (p. 940)
- Molecular Microbiology (p. 941) Concentration (p. 941)
- Electives Option (p. 941)

#### Dissertation

Code	Title	Hours
BIOL 9990	Dissertation Term 1	
BIOL 9991	Dissertation Term 2	

#### Program Credit/GPA Requirements

30 total semester hours required  
Minimum 3.000 GPA required

#### CELL AND MOLECULAR BIOLOGY CONCENTRATION

Code	Title	Hours
<b>Required Coursework</b>		
BIOL 6300	Biochemistry	4
BIOL 6401	Research Methods and Critical Analysis in Molecular Cell Biology	4
<b>Electives</b>		
In consultation with faculty advisor, complete 16 semester hours from the topic of cell and molecular biology.		16
BIOL 5103 to BIOL 9984		

**MOLECULAR MICROBIOLOGY CONCENTRATION**

Code	Title	Hours
<b>Required Coursework</b>		
BIOL 6300	Biochemistry	4
BIOL 6405	Prokaryotic Cell and Molecular Biology	4
<b>Electives</b>		
In consultation with faculty advisor, complete 16 semester hours from the topic of molecular microbiology:		16
BIOL 5103 to BIOL 9984		

**ELECTIVES OPTION**

Code	Title	Hours
<b>Required Coursework</b>		
Complete 8 semester hours from the following:		8
BIOL 6303	Neurobiology and Behavior	
BIOL 6401	Research Methods and Critical Analysis in Molecular Cell Biology	
BIOL 6405	Prokaryotic Cell and Molecular Biology	
<b>Electives</b>		
Complete 16 semester hours from the following:		16
BIOL 5103 to BIOL 9984		

**Advanced Entry Program Requirements**

The biology PhD program seeks to provide a broad background knowledge base in conjunction with in-depth study of a specialized area of biology. The program emphasizes close interaction between graduate students and faculty members in developing the intellectual and experimental skills required for creative, independent research.

Students entering the PhD program with a related Master of Science degree typically have significantly reduced course loads. An individualized course of study is designed by the biology graduate curriculum committee in consultation with the student and the student's advisor. The student can then focus on intensive research and completion of a dissertation under faculty supervision. Faculty research includes biochemistry, microbiology, cell and molecular biology, genetics, neurobiology, regenerative biology, and the biology of reproduction. Financial support (teaching assistantships or research assistantships) is normally provided for PhD students who are making satisfactory progress toward completion of their degree.

Complete all courses and requirements listed below unless otherwise indicated.

**Milestones**

- Qualifying examination
- Annual review
- Dissertation committee
- Dissertation proposal
- Colloquia (minimum of three)
- First-author publication
- Dissertation defense

**Core Requirements****APPROVED COURSE WORK**

Consult your faculty advisor for acceptable courses.

**APPROVED ELECTIVES**

Consult your faculty advisor for acceptable electives.

**Dissertation**

Code	Title	Hours
BIOL 9990	Dissertation Term 1	
BIOL 9991	Dissertation Term 2	

**Program Credit/GPA Requirements**

- Variable total semester hours required
- Minimum 3.000 GPA required

## Bioinformatics, MS

The Master of Science (MS) in Bioinformatics seeks to provide students with core knowledge in bioinformatics programming, integrating knowledge from the biological, computational, and mathematical disciplines. Upon completion, students are equipped to apply bioinformatics and computational methods to biological problems. Students in the MS program have the opportunity to gain professional work experience via co-op.

The program consists of core course work in computational methods, programming, and statistics, enhanced by electives in molecular biology, biochemistry, molecular modeling, web development, database design and management, data mining, and other related topics.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Computational Methods</b>		
BINF 6308	Bioinformatics Computational Methods 1	4
BINF 6309	Bioinformatics Computational Methods 2	4
<b>Research and Seminar</b>		
BIOL 6381	Ethics in Biological Research	2
BIOT 5219	The Biotechnology Enterprise	2
<b>Statistics and Programming</b>		
BINF 6200	Bioinformatics Programming	4
MATH 7340	Statistics for Bioinformatics	4
<b>Co-op and Experiential Learning</b>		
<b>0</b>		
BINF 6500	Professional Development for Co-op	
Select one of the following:		
BINF 6964	Co-op Work Experience	
BINF 5964	Projects for Professionals <sup>1</sup>	

<sup>1</sup> The option of BINF 5964 Projects for Professionals is not available at all campus locations. Please refer to your advisor or admissions coach for course availability each semester at your campus location.

#### Concentrations or Electives Option

A concentration is not required. Students may complete electives (from the elective list below) in lieu of a concentration.

- Bioinformatics and Cheminformatics
- Bioinformatics Enterprise
- Biotechnology
- Data Analytics (p. 944)
- Health Informatics (p. 945)
- Medical Health Informatics (p. 945)
- Omics
- Electives Option (p. 945)

#### Elective List

## Cell and Gene Therapies, MS

Northeastern University's Master of Science in Cell and Gene Therapies is a professional master's program, an innovative, nonthesis graduate degree. It combines advanced interdisciplinary training in advanced therapies, such as cell therapies and gene therapies, with the development of high-value business skills critical to success in today's dynamic workplace. This program is designed to prepare graduates to innovate, collaborate, and lead as research, managerial, or technical professionals in a wide range of the cell and gene therapies fields.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

Code	Title	Hours
<b>Required Core</b>		
BINF 6200	Bioinformatics Programming	4
BIOL 5543	Stem Cells and Regeneration	4
BIOL 5583	Immunology	4

## Bioinformatics, Graduate Certificate

The Graduate Certificate in Bioinformatics seeks to provide students with core knowledge in bioinformatics programming, integrating knowledge from the biological, computational, and mathematical disciplines. Students gain the data and genomic analysis skills needed to employ bioinformatics techniques to biological problems. The graduate certificate consists of four courses, three bioinformatics courses and one elective, totaling 15–16 semester hours.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

## Chemistry and Chemical Biology

Website (<https://cos.northeastern.edu/chemistry-chemical-biology/>)

### **Penny Beuning, PhD**

Professor and Chair

617.373.2822

The PhD program in chemistry provides research and professional opportunities for students that are based on fundamental chemical principles with translational applications to the real world. The program is built on academic rigor and research impact, based on the creativity and strengths of an increasingly diverse faculty and student body. We have harnessed our extensive connections in industry to create and maintain a thriving industry-entry PhD program and provide our regular PhD students with internship opportunities in industry, government laboratories, and other venues that may lead to a wide range of careers. Students in our program leave with flexible skills that can be applied in creative and meaningful ways in academics, industry, and beyond. We are aligned in our core values with the mission of Northeastern University to “educate students for a life of fulfillment and accomplishments and create and translate knowledge to meet global and societal needs.” This mission is at the core of the curriculum, research, mentoring strategies, and professional development opportunities offered to our students. It is implemented in a highly multidisciplinary and transparent environment where students have a voice and take real ownership and responsibility for their professional success. Within this context, PhD students work with chemistry and chemical biology faculty in interdisciplinary areas that include biochemistry and chemical biology, synthetic chemistry, medicinal chemistry, polymer and materials chemistry, environmental chemistry, computational chemistry, and bioanalytical chemistry.

The Master of Science in Chemistry is designed to allow practicing chemical professionals who have an earned bachelor's degree in chemistry or a closely related field to pursue a master's degree in chemistry by completing a coursework program during the evening weekday hours. Full-time or part-time options are available. The department offers a diverse range of courses that mirror the faculty's research interests in biochemistry, chemical biology, synthetic chemistry, medicinal chemistry, polymer and materials chemistry, environmental chemistry, computational chemistry, and bioanalytical chemistry.

Website (<https://cos.northeastern.edu/master-of-science-in-biotechnology/>)

### **Jocelyn Haversat, PhD**

Associate Teaching Professor and Director, Biotechnology Programs

617.373.6998

The biotechnology programs are housed in the Department of Chemistry and Chemical Biology. The Master of Science in Biotechnology, a professional science master's degree program, is an innovative, nonthesis, experiential graduate degree. It combines advanced interdisciplinary training in biotechnology, biology, chemistry, regulatory, and pharmaceutical sciences with the development of high-value business skills critical to success in the biotechnology industry. Students develop and apply their skills in a hands-on co-op experience with one of Northeastern's many academic and industry partners. Full-time, part-time, and remote options are available with online and evening course offerings.

The biotechnology program also offers several graduate certificates in the areas of biodefense and biosecurity, biopharmaceutical analytical sciences, biotechnology, biotechnology enterprise, biotechnology regulatory science, experimental biotechnology, manufacturing and quality operations, molecular biotechnology, pharmaceutical technologies, process science, and vaccine development.

## **Programs**

### **Doctor of Philosophy (PhD)**

- Chemistry (p. 953)

### **Master of Science (MS)**

- Biotechnology (p. 955)
- Biotechnology, MS—Experiential (p. 961)
- Chemistry (p. 962)

### **Graduate Certificate**

- Biodefense and Biosecurity (p. 963)
- Biopharmaceutical Analytical Sciences (p. 964)
- Biotechnology (p. 965)
- Biotechnology Enterprise (p. 966)
- Biotechnology Regulatory Science (p. 967)
- Experimental Biotechnology (p. 968)
- Manufacturing and Quality Operations in Biotechnology (p. 969)
- Molecular Biotechnology (p. 970)
- Pharmaceutical Technologies (p. 971)

- Process Science (p. 972)
- Vaccine Development (p. 973)

## Chemistry, PhD

The PhD program in chemistry is designed for students who have earned a bachelor's or a master's degree in chemistry or related areas and who wish to earn a doctorate in chemistry. Research spans a wide range of multidisciplinary fields, with strengths in clean energy, polymers, materials, medicinal chemistry, bioanalytical chemistry, and chemical biology. Our research programs draw from a strong foundation in analytical, organic, physical, and biological chemistry in a collaborative and diverse environment. Our student-focused approach to mentoring, a strong graduate student association, and faculty deeply rooted both in academics and industry provide a flexible platform for student development toward a large diversity of career paths.

Students typically take courses their first year while supported on teaching assistantships and achieve PhD candidacy in the second year. The primary emphasis of the program is on the completion of an original research project, its articulation in a well-written thesis, and its subsequent defense before the thesis committee through an open seminar followed by oral examination by the committee members.

### PhD Program Requirements

#### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Three qualifying examinations  
Annual review  
Candidacy  
Minimum of two seminars  
Dissertation committee  
Dissertation proposal  
Dissertation defense

#### Core Requirements

Code	Title	Hours
<b>Required Core</b>		
CHEM 5600	Research Skills and Ethics in Chemistry	3
CHEM 7710	Laboratory Rotations in Chemistry and Chemical Biology	0
CHEM 7750	Advanced Problem Solving	3
Complete the following (repeatable) course three times:		3
CHEM 5501	Chemical Safety in the Research Laboratory	
<b>Seminar</b>		
At least one seminar must be taken for a letter grade.		
CHEM 8504	Graduate Seminar	1
<b>Research</b>		
CHEM 8984	Research	1-6
<b>Chemistry</b>		
Complete 18 semester hours from the following:		18
CHEM 5550 or within the range of CHEM 5610 to CHEM 7320		

#### Dissertation

Code	Title	Hours
Complete the following courses:		
CHEM 9990	Dissertation Term 1	
CHEM 9991	Dissertation Term 2	
Registration in the following course is required for any additional terms taken to complete the dissertation.		
CHEM 9996	Dissertation Continuation	

#### Program Credit/GPA Requirements

32 total semester hours required  
Minimum 3.000 GPA required

#### Advanced Entry Program Requirements

Advanced entry into the PhD program requires a master's degree in chemistry or a related area. Graduate courses taken during acquisition of the Master of Science degree allow completion of the PhD program with fewer course credits. Other than the course requirements, which are specified separately, see the PhD program requirements for details.

**INDUSTRY ENTRY PHD**

This program is strictly for students who already have a master's degree in chemistry or related area and have full-time employment at a company. The company must commit to all financial responsibilities accrued in obtaining the degree and allow time for the student to work on a PhD thesis in collaborative research with a company supervisor and one of our faculty members. Graduate courses in the Department of Chemistry and Chemical Biology are generally taught in the evenings to accommodate the fact that our students work in industry during the day.

Complete all courses and requirements listed below unless otherwise indicated.

**Milestones**

Three qualifying examinations  
 Annual review  
 Candidacy  
 Minimum of two seminars  
 Dissertation committee  
 Dissertation proposal  
 Dissertation defense

**Core Requirements**

Code	Title	Hours
<b>Required Core</b>		
CHEM 5600	Research Skills and Ethics in Chemistry	3
CHEM 7750	Advanced Problem Solving	3
<b>Seminar</b>		
CHEM 8504	Graduate Seminar	1

**Dissertation**

Code	Title	Hours
CHEM 9990	Dissertation Term 1	
CHEM 9991	Dissertation Term 2	

**Program Credit/GPA Requirements**

7 total semester hours required  
 Minimum 3.000 GPA required

## Biotechnology, MS

### Overview

Northeastern's Master of Science in Biotechnology is a professional master's program, an innovative, nonthesis graduate degree. It combines advanced interdisciplinary training in biotechnology, biology, chemistry, and pharmaceutical sciences with the development of high-value business skills critical to success in today's dynamic workplace. This program is designed to prepare graduates to innovate, collaborate, and lead as research, managerial, or technical professionals in a wide range of biotechnology specialties. The two-year program offers students the possibility to pursue one of ten concentrations to further their knowledge in a specific topical area of the field.

### Concentrations

#### AGRICULTURAL BIOTECHNOLOGY CONCENTRATION

The agricultural concentration goes beyond the production of biological drugs and focuses on the key agricultural biotechnology (agritech) principles and methods used today. Students have an opportunity to learn the principles of agritech and the role they play in the concepts and fundamentals of agriculture today. The concentration addresses plant, animal, food, and ecological biotechnology. The learning of the students is reinforced by both lecture courses and project-driven laboratory experience that provides hands-on learning of modern agricultural methodologies.

#### BIODEFENSE CONCENTRATION

The biodefense concentration is designed to prepare students for the initial homeland biodefense and bioterrorism response. Students have an opportunity to learn the microbiology and epidemiology of biological agents that are potential threats, identify and propose countermeasures, and develop expertise in response and recovery strategies and policies. The learning combines the foundational biotechnology courses with case-based and hands-on bioethical, biowarfare, and bioterrorism courses.

#### BIOPHARMACEUTICAL ANALYTICAL SCIENCES CONCENTRATION

The biopharmaceutical analytical sciences concentration focuses on structures and activities of biological molecules and their variants formed during the production of biopharmaceuticals. Students have an opportunity to learn the diversity of molecular forms derived from the biological products through various biological and chemical mechanisms and the impact of these structural changes on the safety and efficacy of these biopharmaceuticals. The students have an opportunity to learn the science and practice applied in the biotechnology industry to analyze and characterize these molecular forms. This is accomplished through both lecture courses of the analytical sciences and project-driven laboratory experience that utilizes analytical techniques such as mass spectrometry and molecular separations.

#### BIOTECHNOLOGY ENTERPRISE CONCENTRATION

Biotechnology is a deeply scientific endeavor. All aspects of a biotech enterprise are related back to science, which is integrated throughout a biotech's various operations. The biotechnology enterprise concentration offers our science students a holistic study about the business of biotech. In addition to the core biotechnology curriculum, students also study what it takes to move a product from discovery to R&D through approval and launch. Successful students are prepared for diverse roles primarily outside the lab: supporting clinical trials in project and program management roles; fulfilling associate and early career roles in medical affairs; fortifying various teams in quality, regulatory, supply chain, and manufacturing; working with and managing aspects of alliances and partnerships; offering product due diligence, product development, and market analytics rooted in science; and taking on various team lead and early career management roles soon after graduation.

#### BIOTECHNOLOGY REGULATORY SCIENCE CONCENTRATION

The biotechnology regulatory science concentration focuses on the science behind good regulatory practice today. This concentration addresses the issues surrounding current and innovative science practices that influence regulatory decisions. Students have an opportunity to learn the science behind compliance. This is accomplished through both lecture courses and project-driven laboratory experience that provides hands-on learning of the science behind dossier analysis.

#### MANUFACTURING AND QUALITY OPERATIONS IN BIOTECHNOLOGY CONCENTRATION

The manufacturing and quality operations in biotechnology concentration has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of state-of-the-art biopharmaceutical manufacturing and quality operations. In particular, the focus of this concentration is training the workforce to ensure quality medicines are produced. Individuals—particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development, and manufacturing of biopharmaceuticals—have an opportunity to improve their competency and learn new practical skills, which enables them to increase productivity and further contribute to their professions.

#### MOLECULAR BIOTECHNOLOGY CONCENTRATION

The molecular biotechnology concentration provides students with didactic and practical knowledge in molecular biotechnology, protein expression, and structural biology. Students have an opportunity to learn how to generate and optimize molecular forms used to express recombinant proteins to be used as biopharmaceuticals. Particular attention is paid to cutting-edge technologies such as RNAi and CRISPR/Cas9. In addition, the students have an opportunity to learn how to purify biopharmaceuticals and analyze aggregation and how to prevent it.

#### PHARMACEUTICAL TECHNOLOGIES CONCENTRATION

The pharmaceutical technologies concentration focuses on the conversion of purified proteins to biopharmaceutical drug products that are compatible for clinical use. This concentration addresses the design of the product formulation and the development and implementation of the drug product manufacturing processes. Students have an opportunity to learn the sciences of the interactions of the biologic molecules in the process conditions and the relevant process technology, such as aseptic operations and freeze-drying, needed for drug product manufacturing. This

is accomplished through both lecture courses and project-driven laboratory experience that offers hands-on learning of formulation design and drug product process development.

### PROCESS SCIENCE CONCENTRATION

The process science concentration focuses on the production of drug substance of biopharmaceuticals from cell culture process to purification of the biologic molecules. Students have an opportunity to learn the principles of development and implementation of biological manufacturing processes through the integration of concepts and fundamentals of engineering and life sciences. The concentration addresses biochemical engineering, mammalian cell culture process development, and protein purification. The learning of the students is reinforced by both lecture courses and project-driven laboratory experience that provides hands-on learning of cell culture and protein separation.

### SCIENTIFIC INFORMATION MANAGEMENT CONCENTRATION

The scientific information management concentration focuses on the collection, analysis, and visualization of scientific data. This concentration addresses the issues surrounding big data that face industry today. Students have an opportunity to learn how to manage, store, visualize, and provide overall analysis of large scientific datasets. This is accomplished through both lecture courses and project-driven laboratory experience that provides hands-on learning of the impacts of data on the scientific process.

## Gordon Institute of Engineering Leadership

### MASTER'S DEGREE IN BIOTECHNOLOGY WITH GRADUATE CERTIFICATE IN ENGINEERING LEADERSHIP

Students may complete a Master of Science in Biotechnology in addition to earning a Graduate Certificate in Engineering Leadership (p. 551). Students must apply and be admitted to the Gordon Engineering Leadership Program in order to pursue this option. The certificate program requires fulfillment of the 16-semester-hour curriculum required to earn the Graduate Certificate in Engineering Leadership, which includes an industry-based challenge project with multiple mentors. The integrated 42-semester-hour master's degree and certificate requires 26 hours of biotechnology coursework.

## Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Core Requirements

Code	Title	Hours
<b>Required Core</b>		
BIOL 6299	Molecular Cell Biology for Biotechnology	3
BIOT 5120	Foundations in Biotechnology	3
BIOT 5219	The Biotechnology Enterprise	2
BIOT 5621	Protein Principles in Biotechnology	3
BIOT 5631	Cell Culture Processes for Biopharmaceutical Production	3
BIOT 6214	Experimental Design and Biostatistics	2
<b>Co-op and Experiential Learning</b>		<b>0</b>
BIOT 6500	Professional Development for Co-op	
Select one of the following:		
BIOT 6964	Co-op Work Experience	
BIOT 5964	Projects for Professionals <sup>1</sup>	

<sup>1</sup> The option of BIOT 5964 Projects for Professionals is not available at all campus locations. Please refer to your advisor or admissions coach for course availability each semester at your campus location.

### Concentrations

Complete one of the following concentrations or the elective option:

- Agricultural Biotechnology (p. 957)
- Biodefense (p. 957)
- Biopharmaceutical Analytical Sciences (p. 957)
- Biotechnology Enterprise (p. 957)
- Biotechnology Regulatory (p. ) Science (p. )
- Manufacturing and Quality Operations in Biotechnology (p. 957)
- Molecular Biotechnology (p. 958)
- Pharmaceutical Technologies (p. )
- Process Science (p. )

- Scientific Information Management (p. 958)
- Elective Option (p. 958)

### Program Credit/GPA Requirements

34 total semester hours required

Minimum 3.000 GPA required

#### AGRICULTURAL BIOTECHNOLOGY CONCENTRATION

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5810	Cutting-Edge Applications in Molecular Biotechnology	3
BIOT 6100	Agricultural Biotechnology	3
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		8

#### BIODEFENSE CONCENTRATION

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5810	Cutting-Edge Applications in Molecular Biotechnology	3
BIOT 6600	Agents of Bioterrorism	3
BIOT 6610	Biosecurity and Bioterrorism	3
PPUA 6532	Building Resilience into Local Government	4
Elective (p. 958)		4

#### BIOPHARMACEUTICAL ANALYTICAL SCIENCES CONCENTRATION

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 6320	Quality Management Systems and Validation	3
BIOT 7245	Biotechnology Applications Laboratory	3
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis	3
Electives (p. 958)		8

#### BIOTECHNOLOGY ENTERPRISE CONCENTRATION

Code	Title	Hours
BIOT 5225	Managing and Leading a Biotechnology Company	3
BIOT 5227	Launching Your Science: Biotechnology Entrepreneurship	3
Electives (p. 958)		12

#### BIOTECHNOLOGY REGULATORY SCIENCE CONCENTRATION

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5330	Drug Safety and Immunogenicity	3
BIOT 5500	Concepts in Regulatory Science	3
BIOT 6320	Quality Management Systems and Validation	3
or BIOT 5340	Introduction to Biotherapeutic Approvals	
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		5

#### MANUFACTURING AND QUALITY OPERATIONS IN BIOTECHNOLOGY CONCENTRATION

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 6300	Pharmaceutical Microbiology	3
BIOT 6320	Quality Management Systems and Validation	3
BIOT 6340	Sterile Manufacturing Operations	3
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		5

**MOLECULAR BIOTECHNOLOGY CONCENTRATION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5810	Cutting-Edge Applications in Molecular Biotechnology	3
BIOT 5850	Higher-Order Structure Analytics	3
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		8

**PHARMACEUTICAL TECHNOLOGIES CONCENTRATION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5640	Drug Product Processes for Biopharmaceuticals	3
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations	3
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		8

**PROCESS SCIENCE CONCENTRATION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5560	Bioprocess Fundamentals	3
BIOT 5635	Downstream Processes for Biopharmaceutical Production	3
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		8

**SCIENTIFIC INFORMATION MANAGEMENT CONCENTRATION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 7245	Biotechnology Applications Laboratory	3
DA 5020 or DA 5030	Collecting, Storing, and Retrieving Data Introduction to Data Mining/Machine Learning	4
INSH 5301	Introduction to Computational Statistics	4
Electives (p. 958)		6

**ELECTIVE OPTION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 7245	Biotechnology Applications Laboratory	3
Electives (p. 958)		14

**Electives List**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
Complete electives from the following list and/or 1 SH BUSN graduate-level courses. Electives not on this list may be chosen with faculty advisor approval.		
BINF 6200	Bioinformatics Programming	
BINF 6308	Bioinformatics Computational Methods 1	
BIOE 5430	Principles and Applications of Tissue Engineering	
BIOL 5543	Stem Cells and Regeneration	
BIOL 5549	Inventions in Microbial Biotechnology	
BIOL 5573	Medical Microbiology	
BIOL 5581	Biological Imaging	
BIOL 5583	Immunology	
BIOL 5587	Comparative Neurobiology	
BIOL 5591	Advanced Genomics	
BIOL 5597	Immunotherapies of Cancer and Infectious Disease	
BIOL 6381	Ethics in Biological Research	
BIOT 5220	The Role of Patents in the Biotechnology Industry, Past and Future	
BIOT 5225	Managing and Leading a Biotechnology Company	

BIOT 5226	Biotechnology Entrepreneurship
BIOT 5227	Launching Your Science: Biotechnology Entrepreneurship
BIOT 5330	Drug Safety and Immunogenicity
BIOT 5340	Introduction to Biopharmaceutical Approvals
BIOT 5400	Scientific Information Management for Biotechnology Managers
BIOT 5500	Concepts in Regulatory Science
BIOT 5560	Bioprocess Fundamentals
BIOT 5635	Downstream Processes for Biopharmaceutical Production
BIOT 5640	Drug Product Processes for Biopharmaceuticals
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations
BIOT 5810	Cutting-Edge Applications in Molecular Biotechnology
BIOT 5820	Cellular Therapies
BIOT 5850	Higher-Order Structure Analytics
BIOT 5910	Vaccines and Immunization
BIOT 5920	Foundations in Vaccine Regulatory Science
BIOT 5930	Molecular Tools for Vaccine Design
BIOT 6100	Agricultural Biotechnology
BIOT 6300	Pharmaceutical Microbiology
BIOT 6310	CGMP Statutes and Regulation
BIOT 6320	Quality Management Systems and Validation
BIOT 6340	Sterile Manufacturing Operations
BIOT 6600	Agents of Bioterrorism
BIOT 6610	Biosecurity and Bioterrorism
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis
CHEM 5616	Protein Mass Spectrometry
CHEM 5617	Protein Mass Spectrometry Laboratory
CHEM 5621	Principles of Chemical Biology for Chemists
CHEM 5625	Chemistry and Design of Protein Pharmaceuticals
CHEM 5638	Molecular Modeling
CHME 7340	Chemical Engineering Kinetics
DA 5020	Collecting, Storing, and Retrieving Data
DA 5030	Introduction to Data Mining/Machine Learning
EMGT 5220	Engineering Project Management
ENTR 6210	Managing Operations in Early Stage Ventures
ENTR 6211	Entrepreneurship: Services and Retail Business Creation
ENTR 6212	Business Planning for New Ventures
ENTR 6219	Financing Ventures from Early Stage to Exit
ENTR 6241	Entrepreneurial Marketing and Selling
ENTR 6250	Lean Design and Development
ENVR 6102	Environmental Science and Policy Seminar 2
HINF 5105	The American Healthcare System
HINF 6201	Organizational Behavior, Work Flow Design, and Change Management
INNO 6225	Acquisitions, Alliances, and Growth
INSH 5301	Introduction to Computational Statistics
INTB 6200	Managing the Global Enterprise
INTB 6212	Cultural Aspects of International Business
MGMT 6213	Managing Ethics in the Workplace and Marketplace
MGMT 6223	Strategic Decision Making for Healthcare Professionals
MGMT 6225	Sustainability and Leadership
MGSC 6200	Information Analysis
NNMD 5270	Foundations in Nanomedicine: Therapeutics
NNMD 5470	Nano/Biomedical Commercialization: Concept to Market
NNMD 5272	Nanomedicine Seminar
NNMD 5274	Nanomedicine Seminar 2

NNMD 5370	Nanomedicine Research Techniques
PHSC 5212	Research Skills and Ethics
PHSC 5300	Pharmaceutical Biochemistry
PHSC 5500	Repurposing Drugs for Cancer Immunotherapies
PHSC 5560	Nanotoxicity
PHSC 6224	Behavioral Pharmacology and Drug Discovery
PHSC 6290	Biophysical Methods in Drug Discovery
PHSC 7010	Pharmaceutical Sciences Laboratory
PHTH 5320	Grant Writing in Public Health
POLS 7341	Security and Resilience Policy
POLS 7346	Resilient Cities
POLS 7343	Counterterrorism
PPUA 5261	Dynamic Modeling for Environmental Decision Making
PPUA 5262	Big Data for Cities
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 6532	Building Resilience into Local Government
STRT 6200	Strategic Decision Making in a Changing Environment

## Biotechnology, MS—Experiential

Admissions to this program have been suspended.

Northeastern's Experiential Master of Science in Biotechnology is an intensive, accelerated, experiential, job-relevant master's program featuring an adaptable array of experiential options hosted by employer partners with a built-in talent acquisition pathway. The experiential Master of Science builds on five pillars to create an innovative, evidence-based, work-based learning (WBL) experience to deliver a robust, industry-aligned curriculum with richly integrated experiential learning centered on deep employer engagement; problem-solving and critical thinking skills; and augmented with support layers for problem solving, critical thinking, student services, career design, and built-in talent acquisition to match rising professionals with hiring employer partners in high-demand domains.

### Program Requirements

#### Core Requirements

30 total semester hours required

Minimum 3.000 GPA required

## Chemistry, MS

### Master's Coursework Option

The Department of Chemistry and Chemical Biology offers a full-time or part-time, course-based master's degree. Classes are generally offered in the evenings to accommodate students who have full-time jobs. A research thesis is not a requirement for the degree.

### Master's Thesis Option

The department welcomes applications for the thesis-based master's degree only from students who are currently enrolled at Northeastern.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Options

Complete one of the following options:

#### COURSEWORK OPTION

Code	Title	Hours
Complete 30 semester hours from the following courses:		30
CHEM 5550 to CHEM 7750		

#### THESIS OPTION

Code	Title	Hours
<b>Course Work</b>		
Complete 18 semester hours from the following:		18
CHEM 5550, or within the range of CHEM 5610 to CHEM 7320		
<b>Graduate Seminar</b>		
Seminar must be completed twice. At least one seminar must be taken for a letter grade.		2
CHEM 5904 or CHEM 8504	Seminar Graduate Seminar	

#### Laboratory

Complete the following (repeatable) course twice:		2
CHEM 5501	Chemical Safety in the Research Laboratory	

#### Research

CHEM 5984 or CHEM 8984	Research Research	4-6
---------------------------	----------------------	-----

#### Thesis

CHEM 7990	Thesis	4
-----------	--------	---

### Program Credit/GPA Requirements

30 total semester hours required

Minimum 3.000 GPA required

## Biodefense and Biosecurity, Graduate Certificate

The Graduate Certificate in Biodefense and Biosecurity has been designed in response to a need in the biotechnology industry for individuals who desire to become professionals in biodefense or biosecurity. The concentration seeks to give individuals a background into the technology to detect, analyze, and respond to biosecurity threats. Enrolled students will study the microbiology and epidemiology of biological agents that are potential threats; identify and propose what countermeasures can be used; and through coursework develop expertise in the response, strategies, and policies related to biodefense and biosecurity. The graduate certificate consists of three biotechnology courses and one public policy and urban affairs course totaling 13-semester-hour credits.

### Program Requirements

#### Required Courses

Code	Title	Hours
BIOT 6600	Agents of Bioterrorism	3
BIOT 6610	Biosecurity and Bioterrorism	3
BIOT 5400	Scientific Information Management for Biotechnology Managers	3
PPUA 6532	Building Resilience into Local Government	4

### Program Credit/GPA Requirements

13 total semester hours required

Minimum 3.000 GPA required

## Biopharmaceutical Analytical Sciences, Graduate Certificate

The Graduate Certificate in Biopharmaceutical Analytical Sciences has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of state-of-the-art analyses of protein with focus on the characterization of innovator and biosimilars. Individuals, particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development, and manufacturing of biopharmaceuticals, have an opportunity to improve their competency and learn new practical skills that enable them to increase productivity and further contribute to their professions. In addition, the certificate was designed for both individuals with and without experience in biopharmaceuticals and their analysis.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5400	Scientific Information Management for Biotechnology Managers	3
BIOT 6320	Quality Management Systems and Validation	3
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis	3
CHEM 5617	Protein Mass Spectrometry Laboratory	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Biotechnology, Graduate Certificate

The Graduate Certificate in Biotechnology has been designed in response to a need in the biotechnology industry for individuals without a biotechnology background to obtain a strong foundation in basic biotechnology concepts and skills. Individuals, particularly those who are working in fields other than biotechnology, will acquire competency and learn new practical skills enabling them to increase productivity and allow for transitions into more biotechnology-related fields.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOL 6299	Molecular Cell Biology for Biotechnology	3
BIOT 5120	Foundations in Biotechnology	3
BIOT 5621	Protein Principles in Biotechnology	3
BIOT 5631	Cell Culture Processes for Biopharmaceutical Production	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Biotechnology Enterprise, Graduate Certificate

The graduate certificate in biotechnology enterprise has been designed in response to a need in the biotechnology industry for individuals with a biotechnology background to obtain a strong foundation in the business aspects of biotechnology. Individuals, particularly those who are working in the field of biotechnology, will improve their business competency enabling them to better manage a team or move into a more business-orientated role.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Required Courses</b>		
BIOT 5225	Managing and Leading a Biotechnology Company	3
BIOT 5227	Launching Your Science: Biotechnology Entrepreneurship	3
BIOT 5400	Scientific Information Management for Biotechnology Managers	3

#### Elective

Code	Title	Hours
Complete one elective from the following list:		
ENTR 6210	Managing Operations in Early Stage Ventures	3
ENTR 6211	Entrepreneurship: Services and Retail Business Creation	
ENTR 6212	Business Planning for New Ventures	
INTB 6200	Managing the Global Enterprise	
INTB 6212	Cultural Aspects of International Business	
MGSC 6200	Information Analysis	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Biotechnology Regulatory Science, Graduate Certificate

This certificate was designed in response to a need in the biotechnology industry for individuals, in particular regulators, to obtain a strong foundation in the science behind good regulatory practice today, specifically in relation to biopharmaceuticals.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5330	Drug Safety and Immunogenicity	3
BIOT 5500	Concepts in Regulatory Science	3
BIOT 5621	Protein Principles in Biotechnology	3
BIOT 6320	Quality Management Systems and Validation	3
or BIOT 5340	Introduction to Biotherapeutic Approvals	

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Experimental Biotechnology, Graduate Certificate

The graduate certificate in experimental biotechnology has been designed in response to a need in the biotechnology industry for individuals without a biotechnology background to obtain a strong foundation in lab-based, hands-on, biotechnology skills. Individuals, particularly those who are working in fields other than biotechnology, will acquire competency and learn new practical lab skills enabling them to increase productivity and transition into more biotechnology-related fields.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5145	Basic Biotechnology Lab Skills	1
BIOT 5219	The Biotechnology Enterprise	2
BIOL 5549	Inventions in Microbial Biotechnology	4
BIOT 6214	Experimental Design and Biostatistics	2
BIOT 7245	Biotechnology Applications Laboratory	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Manufacturing and Quality Operations in Biotechnology, Graduate Certificate

The graduate certificate in manufacturing and quality operations has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of state-of-the-art biopharmaceutical manufacturing and quality operations. In particular, the focus of this certificate is training the workforce to ensure quality medicines are produced. Individuals, particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development, and manufacturing of biopharmaceuticals, have an opportunity to improve their competency and learn new practical skills, which enables them to increase productivity and further contribute to their professions.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 6300	Pharmaceutical Microbiology	3
BIOT 6310	CGMP Statutes and Regulation	3
BIOT 6320	Quality Management Systems and Validation	3
BIOT 6340	Sterile Manufacturing Operations	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Molecular Biotechnology, Graduate Certificate

The graduate certificate in molecular biotechnology has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of state-of-the-art molecular biology techniques and advanced protein structure analysis. Individuals, particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development and manufacturing of biopharmaceuticals, will improve their competency and learn new practical skills enabling them to increase productivity and further contribute to their professions.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5400	Scientific Information Management for Biotechnology Managers	3
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations	3
BIOT 5810	Cutting-Edge Applications in Molecular Biotechnology	3
BIOT 5850	Higher-Order Structure Analytics	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Pharmaceutical Technologies, Graduate Certificate

The Graduate Certificate in Pharmaceutical Technologies has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of the stages of drug development, biopharmaceutical development. Individuals, particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development, and manufacturing of biopharmaceuticals, will improve their competency and learn new practical skills enabling them to increase productivity and further contribute to their professions.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Core Requirements

Code	Title	Hours
BIOT 5400	Scientific Information Management for Biotechnology Managers	3
BIOT 5640	Drug Product Processes for Biopharmaceuticals	3
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations	3
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis	3

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Process Science, Graduate Certificate

The graduate certificate in process sciences has been designed in response to a need in the biotechnology industry for individuals with an advanced knowledge of the principles and practices of process development of biopharmaceuticals. Individuals, particularly those who are working in the various sectors of biotechnology including basic research of biological systems, discovery, development and manufacturing of biopharmaceuticals, will improve their competency and learn new practical skills enabling them to increase productivity and further contribute to their professions.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5400	Scientific Information Management for Biotechnology Managers	3
BIOT 5560	Bioprocess Fundamentals	3
BIOT 5635	Downstream Processes for Biopharmaceutical Production	3
BIOT 5640	Drug Product Processes for Biopharmaceuticals	3

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Vaccine Development, Graduate Certificate

The SARS-CoV-2 pandemic has reemphasized the importance of vaccines in our medical toolkit to prevent the spread of infectious diseases. The Certificate in Vaccine Development explores what vaccines are, how they work (immunization), how regulatory science has evolved in vaccine approvals, and how vaccines are created. This certificate includes three courses specifically focused on the science of vaccines and two courses focusing on cell culture and good manufacturing practices. Credits earned in this certificate may be used to satisfy requirements in the Master of Science in Biotechnology.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
BIOT 5631	Cell Culture Processes for Biopharmaceutical Production	3
BIOT 5910	Vaccines and Immunization	3
BIOT 5920	Foundations in Vaccine Regulatory Science	3
BIOT 5930	Molecular Tools for Vaccine Design	3
BIOT 6310	CGMP Statutes and Regulation	3

#### Program Credit/GPA Requirements

15 total semester hours required

Minimum 3.000 GPA required

## Marine and Environmental Sciences

Website (<http://www.northeastern.edu/mes/>)

### Geoffrey C. Trussell, PhD

Professor and Chair

Marine Science Center

781.581.7370

781.581.6076 (fax)

[gradmes@northeastern.edu](mailto:gradmes@northeastern.edu)

The PhD program in marine and environmental sciences is designed to train high-caliber and independent scientists whose research addresses fundamental and applied ecological and evolutionary questions at local, regional, national, and global scales.

This training will include both general and specialized coursework in ecology and evolution, geoscience, sustainability, and marine sciences, with curricular programs providing specialized options tailored to each student's research interests. Students benefit from top-notch research facilities at the Marine Science Center in Nahant and on the main campus in Boston. Graduates of the program are prepared for careers in academia, government agencies, and the private sector.

The Master of Science in Marine Biology, also known as the Three Seas Program, gives students an opportunity to learn in three world-renowned research facilities in New England, the Caribbean, and the Pacific Northwest. In addition to rigorous coursework, the program offers the opportunity for students to formulate research questions, design and conduct critical experiments, and interpret and present results. The 15-month program culminates with an internship in the field and independent research project.

The Master of Science in Environmental Science and Policy is a joint program between the College of Science and the College of Social Sciences and Humanities. The interdisciplinary program aims to prepare the next generation of environmental professionals for dynamic opportunities focused on the science and policy of sustainability and resilience.

## Programs

### Doctor of Philosophy (PhD)

- Human Behavior and Sustainability Sciences (p. 980)
- Marine and Environmental Sciences (p. 975)

### Master of Science (MS)

- Climate Science and Engineering (p. 385)
- Environmental Science and Policy (p. 985)
- Marine Biology (p. 987)

### Graduate Certificate

- Sustainability Sciences (p. 989)

## Marine and Environmental Sciences, PhD

The PhD in Marine and Environmental Sciences (MES) program provides students with advanced course work and training in the concentration areas of marine sciences, geosciences, sustainability sciences, and ecology and evolutionary biology.

Students must pass three examinations during the course of their graduate studies:

1. An oral examination by the student's dissertation committee.
2. A proposal defense presented to the student's dissertation committee that explains the research areas that the student proposes to work in.
3. A defense of the student's written dissertation consisting of a public seminar, public question-and-answer period, and private defense of their work to their dissertation committee. Dissertation committees consist of at least four Northeastern faculty and one external faculty member.

A cumulative GPA of 3.000 is required for graduation. All PhD students are required to have at least two first-authored publications submitted to or accepted in a peer-reviewed journal prior to their defense. The PhD will be awarded following submission of a dissertation, approved by the candidate's dissertation committee, to the College of Science.

*Students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal MS Marine and Environmental Sciences (<http://catalog.northeastern.edu/graduate/science/marine-environmental-sciences/marine-environmental-sciences-ms/>) degree. Note that no students will be admitted directly into the Marine and Environmental Sciences program to pursue a master's degree.*

### PhD Program Requirements

#### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Annual review  
Dissertation committee  
Qualifying examination  
Dissertation proposal  
Candidacy  
First-author publication  
Dissertation defense

#### Core Requirements

Code	Title	Hours
<b>Statistics</b>		
Complete one of the following:		4-5
EEMB 5522	Experimental Design Marine Ecology	
ENVR 6500 and ENVR 6501	Biostatistics and Lab for ENVR 6500	
Alternative statistics course as approved by graduate committee		
<b>Research</b>		
Complete the following (repeatable) course twice:		8
EEMB 8984	Research	

#### Concentration

Complete one of the following concentrations:

- Ecology and Evolutionary Biology (p. 975)
- Sustainability Sciences (p. 976)
- Geosciences (p. 976)
- Marine Sciences (p. 977)

#### ECOLOGY AND EVOLUTIONARY BIOLOGY

Code	Title	Hours
<b>Seminars</b>		
EEMB 7102	Seminar in Ecology and Evolutionary Biology	2
Complete one of the following:		2

EEMB 7101	Seminar in Marine Sciences	
EEMB 7103	Seminar in Sustainability Sciences	
EEMB 7104	Seminar in Geosciences	

**Readings**

EEMB 8102	Readings in Ecology and Evolutionary Biology	2
-----------	--	---

**Concentration-Specific Electives**

Complete 12 semester hours from the following: 12

EEMB 5130	Population Dynamics	
EEMB 5504	Biology of Corals	
EEMB 5506	Biology and Ecology of Fishes	
EEMB 5508	Marine Birds and Mammals	
EEMB 5516 and EEMB 5517	Oceanography and Lab for EEMB 5516	
EEMB 5518	Ocean and Coastal Processes	
EEMB 5520	Tropical Marine Ecology	
ENVR 5210	Environmental Planning	
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242	
ENVR 5260	Geographical Information Systems	

Substitutions may be made with approval of graduate committee.

**SUSTAINABILITY SCIENCES**

Code	Title	Hours
------	-------	-------

**Seminars**

## Human Behavior and Sustainability Sciences, PhD

### Overview

Admissions to this program begin Fall 2024.

The persistent failure to integrate the social, behavioral, and cognitive sciences with ecological and geophysical sciences is a critical friction point reducing the viability and effectiveness of sustainability solutions. Therefore, a degree program that combines training in psychology with the ecological and geophysical sciences will produce boundary-breaking scholars who can accelerate sustainability solutions that are robustly informed by the results of scientific research. The proposed curriculum integrates degree requirements from existing PhD programs in psychology and marine and environmental sciences (sustainability sciences concentration), with the addition of a set of specialized core courses and integrated cross-disciplinary research training. It also allows students broad latitude in designing their specialty within the parameters of the program.

The PhD in Human Behavior and Sustainability Sciences program provides students with the following advanced coursework and training. Students must pass two examinations during the course of their graduate studies to achieve candidacy.

1. A qualifying paper that the student will write and present to their dissertation committee.
2. A proposal defense presented to the student's dissertation committee that explains the research areas that the student proposes to work in.

At the end of the program, students will defend their written dissertation, which consists of a public seminar, public question-and-answer period, and private defense of their work to their dissertation committee. Dissertation committees consist of at least four Northeastern University faculty and one external faculty member.

A cumulative grade-point average of 3.000 is required for graduation. The PhD will be awarded following submission of a dissertation, approved by the candidate's dissertation committee, to the College of Science.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Annual review  
 Dissertation committee  
 Qualifying paper and presentation  
 Dissertation proposal and presentation

Minimum 3.000 GPA required

## Climate Science and Engineering, MS

### Overview

The Master of Science in Climate Science and Engineering is offered jointly by the College of Engineering and the College of Science. The program provides training in the fundamental scientific processes that underpin the structure and dynamics of the climate, as well as the engineering strategies and technologies required for decarbonization and adaptation to climate change.

Incoming students will typically hold a bachelor's degree in a science, engineering, or related field. The program is designed to prepare students for climate-facing positions in the public or private sectors and can serve as a springboard for students interested in pursuing doctoral-level research. Students must take at least 12 semester hours of College of Science courses and at least 12 semester hours of College of Engineering courses and includes a report, thesis, or coursework option.

Degree Requirements	With Report	With Thesis	Coursework Only
Required core courses	20 SH	20 SH	20 SH
Other electives	8 SH	4 SH	12 SH
Master of Science report/thesis	4 SH	8 SH	
Minimum semester hours required	32 SH	32 SH	32 SH

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated. In order to ensure a balance of training across science and engineering, students must take at least 12 semester hours of College of Science courses (starting with EEMB, ENVR) and at least 12 semester hours of College of Engineering courses (starting with CIVE, EECE, ENSY, MATL, ME, SBSY) from the core requirements and restricted elective course options.

### Core Requirements

Code	Title	Hours
Select from the core requirements listed below; any core course not used to meet this core course requirement can be taken as a restricted elective:		
ENVR 5350	Sustainable Energy and Climate Solutions	20
ENVR 5600	Coastal Processes, Adaptation, and Resilience	
ENVR 5800	Climate Adaptation and Nature-Based Solutions	
CIVE 5150	Climate and Atmospheric Change	
or ENVR 5150	Climate and Atmospheric Change	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5365	Climate Technologies for Decarbonization, Mitigation, and Adaptation	
CIVE 5366	Air Quality Engineering and Science	
CIVE 5670	Global Biogeochemistry	
or ENVR 5670	Global Biogeochemistry	
CIVE 7110	Critical Infrastructure Resilience	

### Options

Complete one of the following options:

#### COURSEWORK OPTION

Code	Title	Hours
Complete 12 semester hours from the restricted electives course list below.		12

#### REPORT OPTION

Code	Title	Hours
CIVE 8674	Master's Report	4
or EEMB 8984	Research	
Complete 8 semester hours from the restricted electives course list below.		8

**THESIS OPTION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CIVE 7990	Thesis	8
or EEMB 8984	Research	
Complete 4 semester hours from the restricted electives course list below.		4

**Restricted Electives**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CIVE 5280	Remote Sensing of the Environment	
CIVE 7100	Time Series and Geospatial Data Sciences	
CIVE 7282	Coastal and Hydraulic Modeling	
CIVE 7385	Public Transportation	
CIVE 7392	Special Topics in Environmental Engineering	
EECE 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
ENSY 5000	Fundamentals of Energy System Integration	
ENSY 5100	Hydropower	
ENSY 5200	Energy Storage Systems	
ENSY 5300	Electrochemical Energy Storage	
ENSY 5500	Smart Grid	
ENSY 5585	Wind Energy Systems	
ENVR 5210	Environmental Planning	
ENVR 5220	Ecosystem-Based Management	
ENVR 5563	Advanced Spatial Analysis	
INTL 5100	Climate and Development	
LAW 7634	Energy Law and Policy	
LPSC 7312	Cities, Sustainability, and Climate Change	
MATL 6270	Principles, Devices, and Materials for Energy Storage and Energy Harvesting	
ME 5685	Solar Thermal Engineering	
PPUA 5238	Climate Change and Global Urbanization	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	
SBSY 5100	Sustainable Design and Technologies in Construction	
SBSY 5200	Sustainable Engineering Systems for Buildings	

**Program Credit/GPA Requirements**

32 total semester hours required

Minimum 3.000 GPA required

## Environmental Science and Policy, MS

The Master of Science in Environmental Science and Policy program emphasizes a broadly interdisciplinary and synthetic approach that integrates knowledge in the environmental sciences (conservation biology, climate change, fisheries science, ecosystem function, biodiversity, restoration ecology) with the social sciences (policy, economics, sociology, political science, and development) and humanities (environmental history, philosophy, and ethics). The goal of the program is to equip professionals with substantive breadth in knowledge and skills at the intersection of environmental science and policy. The program focuses on training students to think critically about the underlying causes of environmental problems and understanding the reciprocal relationships between coupled human-natural ecosystems and the interconnections between social and technological innovations. The program explores practical approaches and potential solutions that decision makers need to evaluate in policy debates related to promoting environmental sustainability.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Seminars</b>		
PPUA 6101	Environmental Science and Policy Seminar 1	4
ENVR 6102	Environmental Science and Policy Seminar 2	4
<b>Skills Courses</b>		
Complete 2 courses from the following. At least one course needs to be taken from the College of Science Skills Course List and one course from the College of Social Sciences and Humanities Skills Course List.		8
<i>College of Science Skills Course List</i>		
EEMB 5130	Population Dynamics	
EEMB 5522	Experimental Design Marine Ecology	
ENVR 5150	Climate and Atmospheric Change	
ENVR 5210	Environmental Planning	
ENVR 5240	Sedimentary Basin Analysis

## Marine Biology, MS

The MS in Marine Biology provides students the opportunity to study marine biology in three distinct environments at three world-renowned research facilities in New England, the Caribbean, and the Pacific Northwest. An internship in the field and independent research project provide the capstone to the fifteen-month graduate program.

Much more than course work in a classroom, the MS in Marine Biology delivers inquiry-based curriculum in marine science during which our students formulate research questions, design and conduct critical experiments, and interpret and present results. You will have an opportunity not only learn science, you have an opportunity to learn how to do science and become a marine scientist.

This program is for students eager to broaden their knowledge of marine biology or who want to further refine their interests.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Students register for International Study—Three Seas Program (ABRS 5120) for the fall and spring terms of year 1.

Code	Title	Hours
<b>Seminar</b>		
EEMB 5303 or EEMB 5305	Marine Biology Careers Seminar Professional Development for Ocean Sciences	1-2
<b>Biology</b>		
EEMB 5504 and EEMB 5505	Biology of Corals and Lab for EEMB 5504	3
EEMB 5506 and EEMB 5507	Biology and Ecology of Fishes and Lab for EEMB 5506	3
EEMB 5508	Marine Birds and Mammals	3
EEMB 5518 and EEMB 5519	Ocean and Coastal Processes and Lab for EEMB 5518	3
EEMB 5533 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5533	3
<b>Sustainability</b>		
EEMB 5538	Conservation and Restoration of Marine Systems	3
EEMB 5542	Marine Spatial Planning	4
EEMB 5546	Sustainability of the Land-Sea Interface	3
<b>Ecology</b>		
EEMB 5520	Tropical Marine Ecology	2
EEMB 5522 or EEMB 5525	Experimental Design Marine Ecology Advanced Field Methods in Marine Ecology	3-4
EEMB 5540 and EEMB 5541	Changing Global Oceans and Lab for EEMB 5540	3
<b>Research</b>		
EEMB 5589	Diving Research Methods	2
Take the following (repeatable) course twice:		2
EEMB 7674	Marine Biology Research Project

## Sustainability Sciences, Graduate Certificate

### Overview

Environmental sustainability challenges are inherently complex and multidisciplinary and will require a workforce capable of collaborating across interdisciplinary teams. Thus, it is critical that the next generation of sustainability scientists and engineers receive broad, interdisciplinary training so that they are better prepared to address these complex challenges. This certificate will provide social science and engineering students with fundamental training in sustainability science.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Core Requirements

Code	Title	Hours
<b>Required Courses</b>		
<b>Introduction to Sustainability Science</b>		
ENVR 6102	Environmental Science and Policy Seminar 2	4
<b>Physical and Environmental Processes and Systems</b>		
Complete one of the following:		4
ENVR 5150	Climate and Atmospheric Change	
ENVR 5600	Coastal Processes, Adaptation, and Resilience	
ENVR 5670	Global Biogeochemistry	
ENVR 5700	Streams and Watershed Ecology	
<b>Environmental Planning, Management, and Sustainability</b>		
Complete one of the following:		4
EEMB 6475	Advanced Wildlife Ecology	
ENVR 5210	Environmental Planning	
ENVR 5220	Ecosystem-Based Management	
ENVR 5350	Sustainable Energy and Climate Solutions	
ENVR 5750	Urban Ecology	
ENVR 5800	Climate Adaptation and Nature-Based Solutions	
ENVR 6150	Food Security and Sustainability	
<b>Research and Analytical Skills Development</b>		
Complete one of the following:		4
EEMB 5130	Population Dynamics	
ENVR 5450	Applied Social-Ecological Systems Modeling	
ENVR 5500	Advanced Biostatistics	
ENVR 5984	Research

Minimum 3.000 GPA required

## Mathematics

Website (<https://cos.northeastern.edu/mathematics/>)

**Egon Schulte, PhD**  
Professor and Chair

617.373.2450

Mathematics is of ever-increasing importance to our society and everyday life. It has long been the language of science and technology and provides a rich source of methods for analyzing and solving problems encountered in the physical world. Today, mathematics is essential in virtually all fields of human endeavor, including business, the arts, and the social sciences.

PhD students work with internationally recognized faculty in research programs in both pure and applied mathematics. The program is designed to provide students with a broad overview of current mathematics and a strong command of areas of specialization.

The Department of Mathematics also offers Master of Science degrees in mathematics, applied mathematics, and operations research, as well as a graduate certificate in applied mathematics. These programs prepare students for careers in business, industry, or government. Students pursuing degrees in applied math and operations research take part in Northeastern's signature co-op program.

In addition to the numerous seminars and colloquia at Northeastern, there are ample opportunities for students in the Boston area to learn about important recent advances in the field.

### Programs

#### Doctor of Philosophy (PhD)

- Mathematics (p. 991)

#### Master of Science (MS)

- Applied Mathematics (p. 998)
- Mathematics (p. 1000)

#### Master of Science in Operations Research (MSOR)

- Operations Research (p. 1001)

#### Graduate Certificate

- Applied Mathematics (p. 1003)

## Mathematics, PhD

### Course Requirements

Students entering with a bachelor's degree are required to take 48 semester hours of coursework divided between foundational and advanced offerings. Students entering the program will be allowed to place out of some (possibly all) of the six basic-level courses; the graduate coordinator together with the first-year graduate advisor will determine the allowable course substitutions and will advise the student which foundational courses to take. Students may satisfy requirements for Algebra 1 (MATH 5111) and Analysis 1: Functions of One Variable (MATH 5101) by taking qualifying exams in algebra 1 and in analysis 1 at the start of the program. Students may satisfy foundational course requirements if they demonstrate proficiency by passing an assessment exam in the course at the beginning of the semester or by demonstrating that they have taken a similar course and have adequate knowledge of the course material (syllabus and transcript are required; a brief oral examination is also required in that case). Academic advising will happen just before the start of each term and during the add/drop period in order to plan a student's course registration for the term. A complete listing of foundational and advanced courses is available from the Department of Mathematics and the graduate dean's office. Students are not permitted to register for more than two "readings" courses and three "topics" courses for credit toward the degree without explicit permission from the graduate dean. A minimum GPA of 3.000 is required for degree conferral.

### Teaching Requirement

Some teaching experience is required while in the program. Students must attend university-led TA training at the start of the program; attend a one-semester TA training course conducted by faculty from the Department of Mathematics teaching committee; spend one semester shadowing faculty in the undergraduate classroom; and perform recitations and grading for the undergraduate course they are shadowing.

### Qualifying Exams

Qualifying exam sessions are given once in spring and once in fall. Students will be required to pass four qualifying exams: algebra 1, analysis 1, and two other exams. The possible additional topics for qualifying exams are algebra 2, analysis 2, combinatorics, geometry, ordinary differential equations, partial differential equations, probability, statistics, topology, and algebraic geometry. A qualifying exam may be taken twice by any student. Additional attempts may be allowed at the discretion of the graduate committee with permission from the graduate dean in the College of Science. Two qualifying exams should be passed no later than the end of the second year and all four by the end of the third year.

### Doctoral Candidacy

PhD candidacy is reached when all of the following conditions are met:

- Completion of eight advanced courses
- Identification of an unsolved research problem
- Successful passing of four qualifying exams
- Assignment of PhD supervisor and creation of a 1-page initial plan
- Completion of a 3-page plan of research
- Completion of a 10-page progress report and a one-hour defense of proposal, presented to supervisor and three faculty members of graduate committee

### Dissertation Requirement

Each candidate must complete a dissertation that embodies the results of extended research and makes an original contribution to the field. This work should give evidence of the candidate's ability to carry out independent investigation and interpret, in a logical manner, the results of the research. There are two stages to this process:

- **Stage 1:** Students in the PhD program must have a dissertation supervisor within two years after joining the PhD program. The department views the failure of a student to find a supervisor within two years of joining the PhD program with concern and considers this sufficient cause to review the student's status in the PhD program. The process of obtaining a dissertation supervisor always involves two choices—the student chooses the supervisor, and the supervisor chooses the student. For this reason, the department does not guarantee a dissertation supervisor for every student, but the department recognizes its responsibility to help the student find a satisfactory match. This aid is usually provided by the student's graduate advisor, who should be familiar with the student's progress in finding a dissertation supervisor. The dissertation supervisor guides the student's further education as well as directs the student's dissertation. The dissertation itself must represent an original solution of a problem in the chosen area of mathematics that makes a significant contribution to the mathematical knowledge in that area. Students must enroll in Dissertation or Dissertation Continuation while fulfilling the dissertation requirements.
- **Stage 2 (dissertation defense):** The final oral examination on the dissertation is held in accordance with university regulations and given by a dissertation committee of four faculty members (three from the university, including the supervisor, and one from outside Northeastern University). The dissertation supervisor should propose this dissertation committee to the graduate committee for its approval at least one month before the PhD dissertation defense.

### Program Requirements

#### Bachelor's Degree Entry

Complete all courses and requirements listed below unless otherwise indicated.

**Milestones**

Four qualifying examinations  
 Annual review  
 Teaching requirement  
 Doctoral candidacy  
 Dissertation committee  
 Dissertation proposal  
 Progress report and presentation  
 Dissertation defense

**Prerequisites**

Code	Title	Hours
<b>Algebra and Analysis</b>		
Complete 0–8 semester hours from the following:		0-8
MATH 5101	Analysis 1: Functions of One Variable	
MATH 5111	Algebra 1	

**Advanced Coursework**

Code	Title	Hours
Complete 32 semester hours from the advanced coursework list. Only two readings and three topics courses are allowed. (p. 993)		32

**Tracks**

Complete one of the following three tracks:

- Pure Track (p. 992)
- Discrete Track (p. 992)
- Probability and Statistics Track (p. 993)

**Dissertation**

Code	Title	Hours
MATH 9990	Dissertation Term 1	
MATH 9991	Dissertation Term 2	

**Program Credit/GPA Requirements**

48–56 total semester hours required  
 Minimum 3.000 GPA required

**PURE TRACK**

Code	Title	Hours
<b>Analysis</b>		
MATH 5102	Analysis 2: Functions of Several Variables	4
<b>Algebra</b>		
MATH 5112	Algebra 2	4
<b>Foundational Courses</b>		
Complete up to 8 semester hours from the following:		0-8
MATH 5121	Topology 1	
MATH 5122	Geometry 1	
MATH 5352	Quantum Computation and Information	
MATH 7202	Partial Differential Equations 1	
MATH 7203	Numerical Analysis 1	
MATH 7241	Probability 1	

**DISCRETE TRACK**

**Analysis**

Complete 4 semester hours from the following: 4

MATH 5102	Analysis 2: Functions of Several Variables
MATH 7203	Numerical Analysis 1

**Probability**

MATH 7241	Probability 1	4
or MATH 7342	Mathematical Statistics	

**Foundational Courses**

Complete up to 8 semester hours from the following: 8

MATH 5102	Analysis 2: Functions of Several Variables
MATH 5112	Algebra 2
MATH 5352	Quantum Computation and Information
MATH 7202	Partial Differential Equations 1
MATH 7203	Numerical Analysis 1
MATH 7241	Probability 1
MATH 7342	Mathematical Statistics

**Advanced Coursework List**

Code	Title	Hours
------	-------	-------

MATH 7205	Numerical Analysis 2
MATH 7221	Topology 2
MATH 7223	Riemannian Optimization
MATH 7233	Graph Theory
MATH 7234	Optimization and Complexity
MATH 7243	Machine Learning and Statistical Learning Theory 1
MATH 7301	Functional Analysis
MATH 7302	Partial Differential Equations 2
MATH 7303	Complex Manifolds
MATH 7311	Commutative Algebra
MATH 7315	Algebraic Number Theory
MATH 7316	Lie Algebras
MATH 7317	Modern Representation Theory
MATH 7320	Modern Algebraic Geometry
MATH 7321	Topology 3
MATH 7339	Machine Learning and Statistical Learning Theory 2
MATH 7341	Probability 2
MATH 7343	Applied Statistics
MATH 7344	Regression, ANOVA, and Design
MATH 7346 to MATH 7361	
MATH 7371	Morse Theory

MATH 7374	Riemannian Geometry and General Relativity
MATH 7976 to MATH 8986	
MATH 9984	Research

**Topics**

Only three topics courses are allowed.

MATH 7362	Topics in Algebra
MATH 7363	Topics in Algebraic Geometry
MATH 7364	Topics in Representation Theory
MATH 7375	Topics in Topology
MATH 7381	Topics in Combinatorics
MATH 7382	Topics in Probability

**Readings**

Only two readings courses are allowed.

MATH 7721	Readings in Topology
MATH 7733	Readings in Graph Theory
MATH 7734	Readings in Algebra
MATH 7735	Readings in Algebraic Geometry
MATH 7736	Readings in Discrete Geometry
MATH 7741	Readings in Probability and Statistics
MATH 7771	Readings in Geometry

**Advanced Entry Program Requirements****Course Requirements**

Advanced students who enter the PhD program with a master's degree (or equivalent) will be allowed to place out of some (possibly all) of the six basic-level courses; the graduate coordinator together with the first-year graduate advisor will determine the allowable course substitutions and will advise the student which foundational courses to take. Students may satisfy requirements for Algebra 1 (MATH 5111) and Analysis 1: Functions of One Variable (MATH 5101) by taking qualifying exams in algebra 1 and in analysis 1 at the start of the program. Students may satisfy foundational course requirements if they demonstrate proficiency by passing an assessment exam in the course at the beginning of the semester or by demonstrating that they have taken a similar course and have adequate knowledge of the course material (syllabus and transcript are required; a brief oral examination is also required in that case). Academic advising will happen just before the start of each term and during the add/drop period in order to plan a student's course registration for the term. A complete listing of foundational and advanced courses is available from the Department of Mathematics and the graduate dean's office. Students are not permitted to register for more than two "readings" courses and three "topics" courses for credit toward the degree without explicit permission from the graduate dean. A minimum grade-point average (GPA) of 3.000 is required for degree conferral.

**Teaching Requirement**

Some teaching experience is required while in the program. Students must attend university-led TA training at the start of the program; attend a one-semester TA training course conducted by faculty from the Department of Mathematics teaching committee; spend one semester shadowing faculty in the undergraduate classroom; and perform recitations and grading for the undergraduate course they are shadowing.

**Qualifying Exams**

Qualifying exam sessions are given once in spring and once in fall. Students will be required to pass four qualifying exams: algebra 1, analysis 1, and two other exams. The possible additional topics for qualifying exams are algebra 2, analysis 2, combinatorics, geometry, ordinary differential equations, partial differential equations, probability, statistics, topology, and algebraic geometry. A qualifying exam may be taken twice by any student. Additional attempts may be allowed at the discretion of the graduate committee with permission from the graduate dean in the College of Science. Two qualifying exams should be passed no later than the end of the second year and all four by the end of the third year.

**Doctoral Candidacy**

MATH 7771	Readings in Geometry

## Applied Mathematics, MS

New applications of mathematics are constantly being discovered, and established techniques are being applied in new ways and in emerging fields. Students have the option to participate in one of two tracks offered: data science or coursework. The track option allows students to be able to personalize their education with more in-depth knowledge of data science or other areas of interest. Northeastern's Master of Science in Applied Mathematics caters to students who are looking to enter or who are currently working in a variety of applied math careers, such as financial service and investment firms, data science and high-tech firms, computer information and software firms, and academic institutions and research institutes.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Methods and Modeling</b>		
MATH 5131	Introduction to Mathematical Methods and Modeling	4
<b>Algebra and Analysis</b>		
Complete one of the following:		4
MATH 5101	Analysis 1: Functions of One Variable	
MATH 5110	Applied Linear Algebra and Matrix Analysis	
MATH 5111	Algebra 1	
MATH 7241	Probability 1	
<b>Statistics</b>		
Complete one of the following:		4
MATH 7243	Machine Learning and Statistical Learning Theory 1	
MATH 7342	Mathematical Statistics	
MATH 7343	Applied Statistics	

#### Tracks

Complete one of the following two tracks:

- Data Science Track (p. )
- Coursework Track (p. )

#### DATA SCIENCE TRACK

Code	Title	Hours
<b>Data Science Courses</b>		
Complete two of the following:		8
CS 5800	Algorithms	
CS 6140	Machine Learning	
CS 6220	Data Mining Techniques	
DA 5020	Collecting, Storing, and Retrieving Data	
DA 5030	Introduction to Data Mining/Machine Learning	
DS 5220	Supervised Machine Learning and Learning Theory	
DS 5230	Unsupervised Machine Learning and Data Mining	
EECE 5644	Introduction to Machine Learning and Pattern Recognition	
MATH 7243	Machine Learning and Statistical Learning Theory 1	

Students may take other courses not on the list above from the Khoury College of Computer Sciences in consultation with their faculty advisor.

#### COURSEWORK TRACK

Code	Title	Hours
<b>Coursework</b>		
Complete 8 semester hours from any subject area. Courses outside of MATH may be chosen with faculty approval.		8

**Electives**

Code	Title	Hours
Complete 12 semester hours in the following subject area:		12
MATH		

**Program Credit/GPA Requirements**

32 total semester hours required

Minimum 3.000 GPA required

## Mathematics, MS

This program offers students with a bachelor's degree in mathematics or a related field an opportunity to broaden their knowledge in the several fields of mathematics and its applications. The program is designed to prepare graduates for careers in business, industry, or government.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Algebra 1 and Analysis 1</b>		
MATH 5101	Analysis 1: Functions of One Variable	4
MATH 5111	Algebra 1	4
<b>Algebra 2 and Analysis 2</b>		
MATH 5102	Analysis 2: Functions of Several Variables	4
MATH 5112	Algebra 2	4

#### Electives

Code	Title	Hours
Complete 16 semester hours from the following; no course can be used to satisfy both a requirement and an elective:		16
MATH 5121	Topology 1	
MATH 5122	Geometry 1	
MATH 7202	Partial Differential Equations 1	
MATH 7203	Numerical Analysis 1	
MATH 7205	Numerical Analysis 2	
MATH 7221	Topology 2	
MATH 7223	Riemannian Optimization	
MATH 7233	Graph Theory	
MATH 7234	Optimization and Complexity	
MATH 7241	Probability 1	
MATH 7243	Machine Learning and Statistical Learning Theory 1	
MATH 7311	Commutative Algebra	
MATH 7321	Topology 3	
MATH 7339	Machine Learning and Statistical Learning Theory 2	
MATH 7341	Probability 2	
MATH 7342	Mathematical Statistics	
MATH 7343	Applied Statistics	
MATH 7344	Regression, ANOVA, and Design	
MATH 7349	Stochastic Calculus and Introduction to No-Arbitrage Finance	

#### Program Credit/GPA Requirements

32 total semester hours required

Minimum 3.000 GPA required

## Operations Research, MSOR

This program seeks to train students in the basic techniques and theory of operations research and their applications to real-world problems. Graduates should have developed their analytical skills to attack complex, large-scale optimization problems of both a deterministic and stochastic nature. Eight 4-semester-hour graduate courses are required for this degree. Previous course work will be evaluated to determine proficiency in certain content areas and degree plan may be tailored accordingly. In some cases, a student may be required to take an assessment exam to determine content and knowledge proficiency. No course can be used to satisfy both a requirement and an elective. To qualify for degree conferral, a minimum cumulative grade-point average of 3.000, equivalent to a grade of B, must be obtained. Some courses listed for this program are offered in the College of Engineering or the Khoury College of Computer Sciences.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Probability</b>		
Complete 4 semester hours from the following:		
MATH 7241	Probability 1	4
MATH 7341	Probability 2	
OR 7230	Probabilistic Operation Research	
<b>Statistics</b>		
MATH 7342 or MATH 7343	Mathematical Statistics Applied Statistics	4
<b>Operations Research</b>		
OR 6205	Deterministic Operations Research	4
<b>Optimization and Complexity</b>		
MATH 7234	Optimization and Complexity	4

#### Electives

Code	Title	Hours
Complete 16 semester hours from the following:		
CS 5800	Algorithms	16
CS 6140	Machine Learning	
CS 7805	Complexity Theory	
CSYE 6200	Concepts of Object-Oriented Design	
CSYE 6205	Concepts of Object-Oriented Design with C++	
EMGT 5220	Engineering Project Management	
EMGT 6225	Economic Decision Making	
EMGT 6305	Financial Management for Engineers

## Applied Mathematics, Graduate Certificate

Large streams of data have brought mathematical modeling to nearly every field and industry. More than ever, a deep understanding of the fundamentals and applications of these models is the differentiator between the success and failure of projects in statistics, machine learning, probabilistic modeling, and optimization. From constructing financial tools and optimizing supply chains, to computer-guided brain surgery and to quantum computing, a foundational understanding of advanced mathematics can give you the tools to create the ideas and technology that will drive the 21st century.

A graduate certificate in applied mathematics gives you the opportunity to study the fundamentals of statistical reasoning, mathematical modeling, and modern mathematical methods in a Tier 1 research department. Shorter than the full master's, the graduate certificate allows you to take up to four courses from the Department of Mathematics. Our courses cover a wide range of topics, from theory courses about the fundamental structures of mathematical objects, to project-based applied courses where students use modeling to solve research-level problems from academic and industry partners.

All applied mathematics courses are taught in the evening to accommodate working students. Mathematics and pure math courses also count toward this certificate.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Modeling</b>		
Complete 4 semester hours from the following:		
MATH 5110	Applied Linear Algebra and Matrix Analysis	
MATH 5131	Introduction to Mathematical Methods and Modeling	
MATH 7203	Numerical Analysis 1	
MATH 7233	Graph Theory	
MATH 7241	Probability 1	
<b>Statistics</b>		
Complete 4 semester hours from the following:		
MATH 7243	Machine Learning and Statistical Learning Theory 1	
MATH 7343	Applied Statistics	

#### Electives

Code	Title	Hours
Complete 8 semester hours from subject area MATH, including but not limited to the following:		
MATH 5101	Analysis 1: Functions of One Variable	
MATH 5111	Algebra 1	
MATH 5121	Topology 1	
MATH 7202	Partial Differential Equations 1	
MATH 7205	Numerical Analysis 2	
MATH 7223	Riemannian Optimization	
MATH 7234	Optimization and Complexity	
MATH 7339	Machine Learning and Statistical Learning Theory 2	
MATH 7341	Probability 2	
MATH 7342	Mathematical Statistics	
MATH 7343	Applied Statistics	
MATH 7344	Regression, ANOVA, and Design	
MATH 7349	Stochastic Calculus and Introduction to No-Arbitrage Finance

Physics PhD and Master of Science students at Northeastern University have the opportunity to explore, discover, and apply the fundamental principles that guide the universe. The program specializes in several subfields that reflect the forefront research activities of the department. These specializations include biological physics, condensed matter physics, elementary particle physics, astrophysics, nanomedicine, nanophysics, quantum science, and network science.

The Department of Physics also offers a Graduate Certificate in Nanomedicine. The certificate is designed for students, engineers, and physicians to develop competency and practical skills in the application of nanotechnology to problems in medicine. This program is appropriate for those working in or seeking careers in biotechnology, pharmaceutical, biomedical, or clinical fields.

### **Programs**

#### **Doctor of Philosophy (PhD)**

- Physics (p. 1016)

#### **Graduate Certificate**

- Nanomedicine (p. 1019)

## Physics, PhD

The Department of Physics offers a Doctor of Philosophy in Physics with specializations in different subfields that reflect the forefront research activities of the department, including biological physics, condensed matter physics, elementary particle physics, astrophysics, nanomedicine, and network science. The program for the PhD degree consists of the required course work, a qualifying examination, a preliminary research seminar, the completion of a dissertation based upon original research performed by the student, and a dissertation defense upon completion of the dissertation. Based on these measures, students are expected to obtain a graduate-level understanding of basic physics concepts and demonstrate the ability to formulate a research plan, communicate orally a research plan, and conduct and present independent research.

### Coursework

The required courses are grouped into two sets, Part 1 and Part 2, having a total of 42 semester hours as a minimum. Part 1 courses (first-year courses) are typically taken prior to the qualifying exam. Students without a master's degree must complete all Part 1 courses in the first year to remain in good academic standing in the graduate program. Part 2 courses (second-year courses) may be taken before or after passing the qualifying exam.

### Grade Requirements

The minimum grade required for the successful completion of the Part 1 courses is a B (3.000) average. Students will only be allowed to take the qualifying exam if they fulfill this requirement. The minimum grade required for the successful completion of Part 2 (excluding advanced research) is at least a B (3.000) average for the Part 2 courses. The Part 2 courses, including any makeup of grade-point-average deficiencies (see following), must be completed within two calendar years of passing the qualifying exam. The department expects students to complete the bulk of these courses in the first year after the qualifying exam. The cumulative average will be calculated each semester. No more than two courses or 8 semester hours of credit, whichever is greater, may be repeated in order to satisfy the requirement for the PhD degree. A student who does not maintain a 3.000 cumulative average for two consecutive semesters, or is otherwise not making satisfactory progress toward the PhD degree requirements, may be recommended for termination at the discretion of the graduate committee. Within the above limitations, a required course for which a grade of F is received must be repeated with a grade of C or better and may be repeated only once. In calculating the overall cumulative average, all graduate-level course work completed at the time of clearance for graduation will be counted.

### Qualifying Exam Requirement

A student who fails to achieve the required B average for the Part 1 courses must petition the graduate committee in order to remain in the graduate program and be eligible to take the qualifying exam. A student who fails to achieve the required B average for the Part 2 courses must petition the graduate committee in order to remain in the graduate program. All students registered in the PhD program are required to pass a qualifying exam unless they are granted an exemption (see below). The qualifying exam may include both written and oral parts.

The qualifying exam consists of two parts:

- **Part 1:** Classical physics (based on classical mechanics and mathematical methods), electromagnetic theory, and statistical physics.
- **Part 2:** Quantum physics (based on quantum mechanics and its applications) and statistical physics. The content of the qualifying exam will be based on the content of the first-year courses, excluding Principles of Experimental Physics (PHYS 5318). A syllabus is available and on request will be distributed by the graduate coordinator to any student prior to the exam.

The qualifying exam is given twice yearly: once prior to the start of the fall semester and again within the first two weeks of the start of the spring semester. The exam will consist of one day each on Part 1 (classical physics/mathematical methods, electromagnetism, and statistical physics) and Part 2 (quantum physics and statistical physics).

All students enrolled in the PhD program must take the fall qualifying exam after completing their first-year course of study with the required grade-point average unless they are granted an exemption. Students taking the exam for the first time must take both Part 1 and Part 2. A student who does not pass the exam on his or her first attempt must pass the exam the next time it is given in order to continue in the PhD program. However, a student who passes one part of the first attempt is not required to repeat that part.

Any PhD student will be exempt from taking the quantum part of the qualifying exam if they receive both a grade of B+ or higher in Quantum Theory 1 (PHYS 7315), Quantum Theory 2 (PHYS 7316), and Statistical Physics (PHYS 7305) and have a GPA of 3.670 or higher in those three courses. To meet this standard, they must take all the above courses. Any PhD student will be exempt from taking the classical part of the qualifying exam if they receive both a grade of B+ or higher in Classical Mechanics/Math Methods (PHYS 7301), Electromagnetic Theory (PHYS 7302), and Statistical Physics (PHYS 7305) and have a GPA of 3.670 or higher in these three courses. To meet this standard, they must take all three of these courses.

A student who fails the written exam by less than 5 percent of the total possible score on the second attempt for that part will be automatically given an oral exam. A student who fails the written exam by more than 10 percent is excluded from taking an oral exam. These provisions apply separately to Parts 1 and 2 of the exam.

### PhD Candidacy

Degree candidacy is established when the student has passed the qualifying examination and completed both the Part 1 and Part 2 course requirements. PhD candidacy may be achieved before completion of the advanced elective if the elective in the student's specialization is not offered

in a given year. The elective must be taken at the next opportunity. PhD degree candidacy is certified by the college. A maximum of five years after the establishment of doctoral degree candidacy is allowed for the completion of degree requirements.

### PhD Dissertation Requirement

All PhD students are required to complete a dissertation based upon new and original research in one of the three following options:

- In one of the current theoretical or experimental research programs in the department, under direct supervision of an advisor from the Department of Physics. A dissertation committee will be formed consisting of the advisor, two full-time members of the department, and an additional member, either from within the department or from an outside department or institution.
- In a recognized interdisciplinary field involving another research area of the university, under the direct supervision of a faculty member in that field. In this case, an interdisciplinary committee is formed under the approval of the graduate committee, consisting of the direct supervisor, a departmental advisor, one other member of the department, and an additional member of either the department or the external department.
- In an area of applied research in one of the industrial or high-technology laboratories associated with the department's industrial PhD program. The direct supervisor is associated with the institution where the research is performed. In this case, a dissertation advisory committee is established by the graduate committee, consisting of the direct supervisor, the departmental advisor, and two other members of the department.

PhD students must select their departmental advisor no later than the end of the spring semester of their second year or their second semester after having passed the qualifying examination, whichever comes first. This process should start as soon as the student has identified a field of research or has passed the qualifying exam.

### PhD Dissertation Committee, Preliminary Thesis Proposal, and Preliminary Research Seminar

By the end of the spring semester of the third year or the second semester in which the student is enrolled for PhD dissertation, whichever comes first, each PhD student must have an approved dissertation committee and thesis proposal.

The student (with the aid and approval of his or her thesis advisor) will submit a PhD thesis proposal to the graduate committee clearly outlining a plan to carry out new and original research in the context of previously published research in the scientific literature and also describe the methodologies to be employed. The thesis proposal is limited to 15 pages or less, including references. A proposed makeup of the dissertation committee will be submitted at the same time.

The graduate committee will evaluate the merit of the proposal and make recommendations for improvements when necessary, including any changes to the composition of the dissertation committee. No more than two submissions for a particular proposal may be made. In the case where a revised proposal does not meet a minimum academic standard that provides a basis for making such improvements, the graduate committee may instruct the student to select a different thesis topic or advisor.

After approval by the graduate committee, the proposal is circulated to the general faculty for comments. If the graduate coordinator receives any objections, the proposal will be referred back to the graduate committee for final resolution.

After the proposal and dissertation committee have been approved, the student will make a public presentation of the material in the preliminary research seminar before the dissertation committee in a format open to the full department and advertised one week in advance. The dissertation committee will then meet in closed session to evaluate the seminar. The preliminary research seminar must take place no later than the semester after the thesis proposal is approved and, normally, in the same semester.

In the event that the dissertation advisor is changed, a new committee must be formed, with the approval of the graduate committee, and a new preliminary research seminar given.

### PhD Dissertation Defense

The dissertation defense consists of a public presentation, followed by a question period conducted by the dissertation committee and limited to them and the department faculty. The date of the dissertation presentation must be publicized and a copy of the thesis deposited with the graduate program coordinator at least one week prior to the defense. If during this posting period or in the two business days following the defense a written objection to the thesis is lodged with the department chair by a member of the faculty, the chair may appoint an ad hoc postdefense review committee to provide advice on the scientific issues raised by the objection. Students should note that they must be registered for Dissertation or Dissertation Continuation during the semester in which they defend their dissertation and that they should schedule their defenses well in advance of the end of the semester in order to accommodate the review/waiting period and the time required to deposit the thesis.

The final dissertation defense is held in accordance with the College of Science regulations.

### PhD Specialization Options

Students choose a specialization in biological physics; particle physics; condensed matter physics; or, with preapproval of a faculty member, in the following areas: nanomedicine or network science.

Multiple specializations are allowed if the individual requirements for each specialization are met.

Note that the specialization will not appear on the degree diploma or on the official transcript but can be listed as the field of study on CVs and grant proposals.

## Transfer Credit

Students must petition in writing through the graduate committee to the director of graduate student services for all transfer credit. A copy of an official transcript must be attached to the Request for Transfer Credit form. A maximum of 9 semester hours of credit obtained at another institution may be accepted toward the PhD degree provided that the credits transferred consist of a grade of B or better; are graduate-level courses; have been earned at an accredited institution; and have not been used toward any other degree. Grades are not transferred.

## Course Waivers

Course waivers may be accepted toward the PhD degree course requirements, though they will not change the numbers of credits required for the program. The student must have received a B grade or better in equivalent graduate-level core courses that have been earned at an accredited institution. Students must petition in writing to the graduate committee for all course waivers and provide documentation in the form of official transcripts to support their petition.

## Residence Requirement

The residence requirement is satisfied by at least one year of full-time graduate work (i.e., enrollment in PhD Dissertation, for two consecutive semesters). Students must be continually enrolled throughout the pursuit of the dissertation.

## Internship Option

A PhD candidate may spend one year in a participating high-technology, industrial, or government laboratory immediately after passing the PhD qualifying examination. In this program, the student is expected to remain in touch with the university by taking one course per semester at the university and by frequent contact with a faculty advisor. After the one-year paid internship, the student returns to the university to do the dissertation. Eligibility for this program is contingent on acceptance both by the department and by the external laboratory.

## Program Requirements

### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

Two qualifying examinations  
 Annual review  
 Candidacy  
 Preliminary research seminar proposal with proposed dissertation committee  
 Preliminary research seminar talk  
 Dissertation defense

## Advanced Entry Program Requirements

The Department of Physics offers a Doctor of Philosophy in Physics with specializations in different subfields that reflect the forefront of research activities of the department, including biological physics, condensed matter physics, elementary particle physics, nanomedicine, and network science. The program for the PhD degree consists of the required coursework, a qualifying examination, a preliminary research seminar, the completion of a dissertation based upon original research performed by the student, and a dissertation defense upon completion of the dissertation. Based on these measures, students are expected to obtain a graduate-level understanding of basic physics concepts and demonstrate the ability to formulate a research plan, communicate orally a research plan, and conduct and present independent research.

## Coursework

Students entering with a master's degree from a U.S. institution in physics or a related area approved by the department will be required to take 10 semester hours of courses. The courses will be determined by the graduate director based on the student's transcripts. Students entering with a MS degree awarded by an institution outside the United States will need to consult the graduate director for a transcript evaluation to determine required coursework and course waivers.

## Grade Requirements

The minimum grade required is a B (3.000) average. A student who does not maintain a 3.000 cumulative average for two consecutive semesters, or is otherwise not making satisfactory progress toward the PhD degree requirements, may be recommended for termination at the discretion of the graduate committee.

## Qualifying Exam Requirement

All students registered in the PhD program are required to pass a qualifying exam unless they are granted an exemption. The qualifying exam may include both written and oral parts. Students who enter with a master's degree from a U.S. institution may take either the classical or the quantum exam, or both, at the first opportunity upon entering the program in the fall. In this case, the exam will count as a first attempt only if the student submits the exam to the examiner.

The qualifying exam consists of two parts:

- **Part 1:** Classical physics (based on classical mechanics and mathematical methods), electromagnetic theory, and statistical physics.
- **Part 2:** Quantum physics (based on quantum mechanics and its applications) and statistical physics. A syllabus is available and on request will be distributed by the graduate coordinator to any student prior to the exam.

The qualifying exam is given twice yearly: once prior to the start of the fall semester and again within the first two weeks of the start of the spring semester. The exam will consist of one day each on Part 1 (classical physics/mathematical methods, electromagnetism, and statistical physics) and Part 2 (quantum physics and statistical physics).

All students enrolled in the PhD program must take the fall qualifying exam after completing their first-year course of study with the required grade-point average. Students taking the exam for the first time must take both Part 1 and Part 2. A student who does not pass the exam on their first attempt must pass the exam the next time it is given in order to continue in the PhD program. However, a student who passes one part of the first attempt is not required to repeat that part.

A student who fails the written exam by less than 5% of the total possible score on the second attempt for that part will be automatically given an oral exam. A student who fails the written exam by more than 10% is excluded from taking an oral exam. These provisions apply separately to Parts 1 and 2 of the exam.

## PhD Candidacy

Degree candidacy is established when the student has passed the qualifying examination and completed 10 semester hours of courses. PhD degree candidacy is certified by the college. A maximum of five years after the establishment of doctoral degree candidacy is allowed for the completion of degree requirements.

## PhD Dissertation Requirement

All PhD students are required to complete a dissertation based upon new and original research in one of the three following options:

- In one of the current theoretical or experimental research programs in the department, under direct supervision of an advisor from the Department of Physics. A dissertation committee will be formed consisting of the advisor, two full-time members of the department, and an additional member, either from within the department or from an outside department or institution.
- In a recognized interdisciplinary field involving another research area of the university, under the direct supervision of a faculty member in that field. In this case, an interdisciplinary committee is formed under the approval of the graduate committee, consisting of the direct supervisor, a departmental advisor, one other member of the department, and an additional member of either the department or the external department.
- In an area of applied research in one of the industrial or high-technology laboratories associated with the department's industrial PhD program. The direct supervisor is associated with the institution where the research is performed. In this case, a dissertation advisory committee is established by the graduate committee, consisting of the direct supervisor, the departmental advisor, and two other members of the department.

PhD students must select their departmental advisor no later than the end of the spring semester of their second year or their second semester after having passed the qualifying examination, whichever comes first. This process should start as soon as the student has identified a field of research or has passed the qualifying exam.

## PhD Dissertation Committee, Preliminary Thesis Proposal, and Preliminary Research Seminar

By the end of the spring semester of the third year or the second semester in which the student is enrolled for PhD dissertation, whichever comes first, each PhD student must have an approved dissertation committee and thesis proposal.

The student (with the aid and approval of their thesis advisor) will submit a PhD thesis proposal to the graduate committee clearly outlining a plan to carry out new and original research in the context of previously published research in the scientific literature and also describe the methodologies to be employed. The thesis proposal is limited to 15 pages or less, including references. A proposed makeup of the dissertation committee will be submitted at the same time.

The graduate committee will evaluate the merit of the proposal and make recommendations for improvements when necessary, including any changes to the composition of the dissertation committee. No more than two submissions for a particular proposal may be made. In the case where a revised proposal does not meet a minimum academic standard that provides a basis for making such improvements, the graduate committee may instruct the student to select a different thesis topic or advisor.

After approval by the graduate committee, the proposal is circulated to the general faculty for comments. If the graduate coordinator receives any objections, the proposal will be referred back to the graduate committee for final resolution.

After the proposal and dissertation committee have been approved, the student will make a public presentation of the material in the preliminary research seminar before the dissertation committee in a format open to the full department and advertised one week in advance. The dissertation committee will then meet in closed session to evaluate the seminar. The preliminary research seminar must take place no later than the semester after the thesis proposal is approved and, normally, in the same semester.

In the event that the dissertation advisor is changed, a new committee must be formed, with the approval of the graduate committee, and a new preliminary research seminar given.

## PhD Dissertation Defense

The dissertation defense consists of a public presentation, followed by a question period conducted by the dissertation committee and limited to them and the department faculty. The date of the dissertation presentation must be publicized and a copy of the thesis deposited with the graduate program coordinator at least one week prior to the defense. If during this posting period or in the two business days following the defense a written objection to the thesis is lodged with the department chair by a member of the faculty, the chair may appoint an ad hoc postdefense review committee to provide advice on the scientific issues raised by the objection. Students should note that they must be registered for Dissertation or Dissertation Continuation during the semester in which they defend their dissertation and that they should schedule their defenses well in advance of the end of the semester in order to accommodate the review/waiting period and the time required to deposit the thesis.

The final dissertation defense is held in accordance with the College of Science regulations.

## Residence Requirement

The residence requirement is satisfied by at least one year of full-time graduate work (i.e., enrollment in PhD Dissertation, for two consecutive semesters). Students must be continually enrolled throughout the pursuit of the dissertation.

## Internship Option

A PhD candidate may spend one year in a participating high-technology, industrial, or government laboratory immediately after passing the PhD qualifying examination. In this program, the student is expected to remain in touch with the university by taking one course per semester at the university and by frequent contact with a faculty advisor. After the one-year paid internship, the student returns to the university to do the dissertation. Eligibility for this program is contingent on acceptance both by the department and by the external laboratory.

## Nanomedicine, MS

### Overview

Northeastern University's Master of Science in Nanomedicine is a flexible, interdisciplinary, industry-aligned professional master's degree program. It is designed for scientists, engineers, and clinicians who want to develop competencies and skills in nanomedicine research, innovation, and commercialization. Our students receive hands-on training in nanomedicine challenges and opportunities, research tools and techniques, and translation from bench to bedside. The curriculum integrates immersive experiential learning with industry co-ops to prepare graduates for high-demand research and entrepreneurship roles in biotechnology, pharmaceutical, biomedical, and healthcare industries.

This two-year, full-time master's program consists of six core courses, year-round professional seminars, and a full-time co-op experience. In year two, students tailor their curriculum by selecting one of the following concentrations (or selecting 18 semester hours of electives).

### Nanoformulation Research Concentration

The nanoformulation research concentration integrates nanoparticle design, formulation, characterization, and translation. Students gain experience in nanomedicine theory, materials and methods, advanced laboratory techniques, and state-of-the-art instrumentation through a combination of expert-led lectures, instrument demonstrations, and collaborative interdisciplinary project-based laboratory experiences. Students have an opportunity to acquire research and project management skills for roles in research, development, and manufacturing.

### Translation and Commercialization Concentration

The translation and commercialization concentration studies scientific discovery, business, and management from the perspective of delivering nanomedicine products to patients. Students build real-world knowledge and skills in innovation, business development, and regulatory affairs—from initial discovery and R&D to FDA approval and launch—through a combination of case studies, industry-mentored projects, and creation of a virtual startup company.

### Vaccine Development Concentration

Innovations in nanoparticle-based vaccine delivery during the SARS-CoV-2 pandemic have fundamentally changed the way we develop and test vaccines. The vaccine development concentration provides training in scientific, business, and regulatory principals of vaccine R&D. Students integrate molecular tools for vaccine design, knowledge of vaccine-tissue interactions, and best practices for biopharmaceutical cell culture and manufacturing to develop the industry-aligned skills needed at the forefront of vaccine development.

NNMD 6964	Co-op Work Experience	0

#### Concentrations or Electives Option

A concentration is not required. Students may complete electives (from the electives list below) in lieu of a concentration.

- Nanoformulation Research (p. 1013)
- Translation and Commercialization (p. 1014)
- Vaccine Development (p. 1014)
- Electives Option (p. 1014)

**Electives List**

Code	Title	Hours
------	-------	-------

Complete electives from the following (electives not on this list may be chosen with faculty advisor approval):

**Laboratory Research**

BIOT 5145	Basic Biotechnology Lab Skills	
BIOT 7245	Biotechnology Applications Laboratory	
NNMD 5370	Nanomedicine Research Techniques	
NNMD 6370	Nanomedicine Experiential Capstone (Nanomedicine Experiential Capstone)	
NNMD 6984	Research	
PHSC 5212	Research Skills and Ethics	

**Nanomaterials Design and Application**

BIOE 5820	Biomaterials	
BIOE 6100	Medical Physiology	
BIOT 5631	Cell Culture Processes for Biopharmaceutical Production	
BIOT 5700	Molecular Interactions of Proteins in Biopharmaceutical Formulations	
BIOT 5910	Vaccines and Immunization	
BIOT 5930	Molecular Tools for Vaccine Design	
CHEM 5610	Polymer Chemistry	
CHME 5630	Biochemical Engineering	
CHME 5631	Biomaterials Principles and Applications	
CHEM 5640	Biopolymeric Materials	
CHME 5683	Introduction to Polymer Science	
PHSC 6216	Human Physiology and Pathophysiology	
PHSC 6290	Biophysical Methods in Drug Discovery	
PHYS 5260	Introduction to Nanoscience and Nanotechnology	
PHYS 7731	Biological Physics 1	

**Drug Delivery**

CHEM 5648	Chemical Principles and Application of Drug Metabolism and Pharmacokinetics	
CHME 5160	Drug Delivery: Engineering Analysis	
CHME 7350	Transport Phenomena	
PMST 6252	Pharmacokinetics and Drug Metabolism	
PMST 6254	Advanced Drug Delivery Systems	

**Commercialization and Regulatory Affairs**

BIOT 5219	The Biotechnology Enterprise	
BIOT 5220	The Role of Patents in the Biotechnology Industry, Past and Future	
BIOT 5225	Managing and Leading a Biotechnology Company	
BIOT 5227	Launching Your Science: Biotechnology Entrepreneurship	
BIOT 5920	Foundations in Vaccine Regulatory Science	
BIOT 6290	Foundation in Quality for Biotechnology	
BIOT 6310	CGMP Statutes and Regulation	
BIOT 6320	Quality Management Systems and Validation	
BIOT 6340	Sterile Manufacturing Operations	
CHME 5631	Biomaterials Principles and Applications	
NNMD 5470	Nano/Biomedical Commercialization: Concept to Market	

**Program Credit/GPA Requirements**

34 total semester hours required

Minimum 3.000 GPA required

## Physics, MS

The Department of Physics offers a Master of Science degree with several options. The standard physics MS can be earned by taking a specified set of courses without an MS thesis. Alternatively, an MS thesis may substitute for 8 semester hours of coursework. Both of these options may be pursued either full time or part time. Upon completion of the MS degree in physics, students should be able to apply graduate-level knowledge and solve problems in the areas of electrodynamics, quantum mechanics, classical mechanics, statistical mechanics, and advanced mathematical methods.

### Grade Requirements

To qualify for the MS degree, a cumulative average of 3.000, equivalent to a grade of B, must be obtained. No more than two courses or 6 semester hours of credit, whichever is greater, may be repeated in order to satisfy the requirements for the MS degree. A student who does not maintain a 3.000 cumulative average for two consecutive semesters, or is otherwise not making satisfactory progress toward the MS degree requirements, may be recommended for termination at the discretion of the graduate committee.

Within the above limitations, a required course for which a grade of F is received must be repeated with a grade of C or better and may be repeated only once. Elective courses in which an F has been received may be repeated once to obtain a C or better.

### Transfer Credit

Students must petition, in writing, through the graduate committee to the director of graduate student services for all transfer credit. An official transcript must be attached to the Request for Transfer Credit form. A maximum of 9 semester hours of credit obtained at another institution may be accepted toward the MS degree provided that the credits transferred consist of a grade of B or better in graduate-level courses and have not been used toward any other degree. Grades are not transferred.

### Current MS Students Interested in the PhD Program

Physics MS students interested in applying to the Physics, PhD (p. 1005) program must submit a complete application for admission.

### Special Student Status

Special students are allowed to earn credit for a maximum of 12 semester hours. Students interested in taking more than 12 semester hours must make a formal application to the degree program online.

### Coursework

The MS degree requires successful completion of a minimum of 32 semester hours of coursework. There are three options for the MS degree:

The first option is the standard physics MS without an MS thesis, requiring a minimum of 32 semester hours of coursework.

The second option is the standard physics MS with an MS thesis, requiring a minimum of 1 semester hour of thesis. Up to 8 semester hours of thesis can substitute for coursework.

The third option is the physics MS with thesis and specialization in applied physics, engineering physics, biophysics, chemical physics, material physics, mathematical physics, and computational physics.

Graduate students desiring the MS with thesis option should arrange a thesis with a faculty advisor. The thesis must demonstrate the individual's capacity to execute independent work based on original material. The thesis must be approved by the graduate committee. The thesis may be completed in one semester (e.g., summer semester) or in consecutive semesters. Students who have not completed their thesis after the required number of thesis credits must register for Thesis Continuation until the thesis is approved by the graduate school and submitted electronically to Proquest.

The degree requires a minimum of 32 semester hours of graduate credit. The 32 semester hours may include up to 9 semester hours of transfer credit, as approved by the department's graduate committee and the graduate school.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Computational Coursework</b>		
PHYS 7301	Classical Mechanics/Math Methods	4
PHYS 7305	Statistical Physics	4
PHYS 7321	Computational Physics	4
<b>Theory Coursework</b>		
PHYS 7302	Electromagnetic Theory	4

PHYS 7315	Quantum Theory 1	4
PHYS 7316	Quantum Theory 2	4

## Options

- Coursework (p. )
- Thesis (p. 1017)
- Thesis with specialization (p. 1017)<sup>1</sup>

### COURSEWORK OPTION

Note: In consultation with your faculty advisor, you may choose an area of specialization from physics, engineering, chemistry, biology, mathematics, psychology, or computer science. Elective courses from the Physics, PhD (p. 1005) program may substitute for these electives with advisor approval.

Code	Title	Hours
<b>Electives</b>		
Complete 8 semester hours from the following:		8
PHYS 5113	Particle Physics	
PHYS 5116	Network Science 1	
PHYS 5117	Advanced Astrophysics Topics	
PHYS 5118	General Relativity and Cosmology	
PHYS 5125	Advanced Quantum Mechanics	
PHYS 5260	Introduction to Nanoscience and Nanotechnology	
PHYS 5318	Principles of Experimental Physics	
PHYS 7322	Nonequilibrium Physics

## Nanomedicine, Graduate Certificate

The Graduate Certificate in Nanomedicine is designed for scientists, engineers, and physicians to develop competency and practical skills in the application of nanotechnology to problems in medicine. This program is appropriate for those working in or seeking careers in biotechnology, pharmaceutical, biomedical, or clinical fields. Program participants receive advanced training in the fundamental and applied aspects of nanomedicine, as well as nanomedicine commercialization from bench to bedside. The curriculum includes a variety of activities for scientific and professional development, including lectures, case studies, journal readings, term projects, and close interactions with distinguished faculty and experts drawn from academia, hospitals, industry, and government.

The certificate consists of five nanomedicine (NNMD) courses, totaling 12 semester-hour credits. This is a part-time, 12-credit graduate program that can be completed in as little as two semesters.

### Program Requirements

Complete all requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
NNMD 5270	Foundations in Nanomedicine: Therapeutics	3
NNMD 5272	Nanomedicine Seminar	1
NNMD 5274	Nanomedicine Seminar 2	1
NNMD 5470	Nano/Biomedical Commercialization: Concept to Market	3

## Psychology

Website (<https://cos.northeastern.edu/psychology/>)

### **Peter Bex, PhD**

Professor and Chair

617.373.3076

617.373.8714 (fax)

The doctoral program in the Department of Psychology offers a research-intensive environment within a supportive community of faculty and students. Its areas of research specialization include behavioral neuroscience, cognition/cognitive neuroscience, perception, and social/personality—with crosscutting themes in health, affective science, and life span development.

During the program, students complete a series of topical seminars and courses in quantitative analysis while gaining research skills through working closely with their advisors. They are also expected to develop their own research program, beginning with their master's thesis and culminating in their dissertation. Students' professional development is supported by attending colloquia, serving as teaching assistants, and modest annual stipends for research/travel.

### **Programs**

#### **Doctor of Philosophy (PhD)**

- Human Behavior and Sustainability Sciences (p. 980)
- Psychology (p. 1024)

## Human Behavior and Sustainability Sciences, PhD

### Overview

Admissions to this program begin Fall 2024.

The persistent failure to integrate the social, behavioral, and cognitive sciences with ecological and geophysical sciences is a critical friction point reducing the viability and effectiveness of sustainability solutions. Therefore, a degree program that combines training in psychology with the ecological and geophysical sciences will produce boundary-breaking scholars who can accelerate sustainability solutions that are robustly informed by the results of scientific research. The proposed curriculum integrates degree requirements from existing PhD programs in psychology and marine and environmental sciences (sustainability sciences concentration), with the addition of a set of specialized core courses and integrated cross-disciplinary research training. It also allows students broad latitude in designing their specialty within the parameters of the program.

The PhD in Human Behavior and Sustainability Sciences program provides students with the following advanced coursework and training. Students must pass two examinations during the course of their graduate studies to achieve candidacy.

1. A qualifying paper that the student will write and present to their dissertation committee.
2. A proposal defense presented to the student's dissertation committee that explains the research areas that the student proposes to work in.

At the end of the program, students will defend their written dissertation, which consists of a public seminar, public question-and-answer period, and private defense of their work to their dissertation committee. Dissertation committees consist of at least four Northeastern University faculty and one external faculty member.

A cumulative grade-point average of 3.000 is required for graduation. The PhD will be awarded following submission of a dissertation, approved by the candidate's dissertation committee, to the College of Science.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Annual review  
 Dissertation committee  
 Qualifying paper and presentation  
 Dissertation proposal and presentation  
 Candidacy

or PSYC 9990	Dissertation Term 1	
EEMB 9991	Dissertation Term 2	
or PSYC 9991	Dissertation Term 2	

## Program Credit/GPA Requirements

31 total semester hours required

Minimum 3.000 GPA required

## Psychology, PhD

The PhD program in the Department of Psychology covers a wide spectrum of contemporary behavioral science within a close-knit community of faculty and students. The program offers four overlapping areas of experimental emphasis: behavioral neuroscience, cognition, perception, and social/personality. The program does not offer training in clinical or counseling psychology. The objective of the PhD program is to prepare students to become experts in research and teaching in psychology. To accomplish this goal, the department takes a mentoring approach whereby the graduate students are apprentices in faculty laboratories, working closely with their faculty mentors throughout their time in the program. The basic apprenticeship relationship is supplemented by other activities, such as required courses (concentrated in the first and second years), advanced seminars and/or course work in this as well as other departments or universities, a colloquium series, assignments as teaching assistants, the master's project, and the dissertation and its oral defense. After the first year, the structure of the doctoral program, including course work, is flexible and assumes that the process of learning and scientific discovery must be individualized. Graduate students also have an opportunity to develop their teaching and research skills through close mentoring of undergraduate research assistants. The PhD program is a five-year, twelve-months-per-year program.

The dissertation committee must include at least three tenured or tenure-track faculty members from within the psychology department—two from the student's interest area and one from another area. The oral defense committee consists of the dissertation committee plus additional tenured and tenure-track faculty members from the psychology department.

*Students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal MS Psychology (<http://catalog.northeastern.edu/graduate/science/psychology/psychology-ms/>) degree. Note that no students will be admitted directly into the Psychology program to pursue a master's degree.*

### Program Requirements

#### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

- First-year paper
- Master's proposal
- Master's paper
- Master's presentation
- Annual review
- Dissertation committee
- Dissertation proposal
- Dissertation
- Dissertation defense
- At least two assigned courses as teaching assistant

#### Core Requirements

All graduate courses within the Department of Psychology are graded S/U. A grade of S is required in each psychology department course.

### Advanced Entry Program Requirements

The PhD program in the Department of Psychology covers a wide spectrum of contemporary behavioral science within a close-knit community of faculty and students. Advanced Entry is for students who enter possessing a master's degree in psychology or another acceptable field. The program offers four overlapping areas of experimental emphasis: behavioral neuroscience, cognition, perception, and social/personality. The program does not offer training in clinical or counseling psychology. The objective of the PhD program is to prepare students to become experts in research and teaching in psychology. To accomplish this goal, the department takes a mentoring approach whereby the graduate students are apprentices in faculty laboratories, working closely with their faculty mentors throughout their time in the program. The basic apprenticeship relationship is supplemented by other activities, such as required courses (concentrated in the first and second years), advanced seminars and/or course work in this as well as other departments or universities, a colloquium series, assignments as teaching assistants, the master's project, and the dissertation and its oral defense. After the first year, the structure of the doctoral program, including course work, is flexible and assumes that the process of learning and scientific discovery must be individualized. Graduate students also have an opportunity to develop their teaching and research skills through close mentoring of undergraduate research assistants. The PhD program is a five-year, 12-months-per-year program.

For students who enter the program with a suitable master's degree, degree candidacy is established through completion of a set of requirements determined on an individual basis. An additional 20 semester hours beyond the master's degree are required for the PhD degree. The dissertation committee must include at least three tenured or tenure-track faculty members from within the psychology department—two from the student's interest area and one from another area. The oral defense committee consists of the dissertation committee plus additional tenured and tenure-track faculty members from the psychology department.

Complete all courses and requirements listed below unless otherwise indicated. Individual programs of study will be tailored to acknowledge students' previous coursework.

### Milestones

- Master's presentation
- Annual review
- Dissertation committee
- Dissertation proposal
- Dissertation
- Dissertation defense
- At least two assigned courses as teaching assistant

### Core Requirements

A grade of S is required in each psychology department course.

Code	Title	Hours
	Consult your faculty adviser and director of graduate studies for acceptable coursework.	10

### Electives

Code	Title	Hours
	Consult your faculty adviser and graduate director for acceptable electives.	10

### Dissertation

Code	Title	Hours
PSYC 9990	Dissertation Term 1	
PSYC 9991	Dissertation Term 2	
Complete the following (repeatable) course until graduation:		
PSYC 9996	Dissertation Continuation	

### Program Credit/GPA Requirements

20 total semester hours required

Minimum 3.000 GPA required

*Note:* The number of semester hours to complete this program may be more than 20. The number of semester hours and the specific required courses will be determined by a review of previous coursework by the graduate director and faculty adviser.

## Interdisciplinary Programs

### Programs

#### Doctor of Philosophy

- Network Science (p. 273)

#### Master of Science

- Applied Physics and Engineering (p. 421)
- Climate Science and Engineering (p. 385)
- Environmental Science and Policy (p. 985)

## Network Science, PhD

Website (<http://www.networkscienceinstitute.org>)

The PhD program in network science aims to enhance our understanding of networks arising from the interplay of human behavior, sociotechnical infrastructures, information diffusion, and biological agents. This is an intrinsically multidisciplinary activity, with members of the network science community representing a wide range of fields including computer science, information science, complexity, physics, sociology, communication, organizational behavior, political science, and epidemiology. This is an interdisciplinary doctoral program focused on training students in network science across several colleges—including the College of Social Sciences and Humanities, the College of Science, the Khoury College of Computer Sciences, and Bouvé College of Health Sciences—with several research areas, including computational sciences, information sciences, health and life sciences, social sciences, and theoretical physics. See other collaborating colleges' catalog sections for possible elective courses.

Coursework is dependent on a student's area of research and subject to prior approval by their faculty advisor. Required coursework includes 20 semester hours of core courses in network science, plus an additional 20 semester hours of courses relevant to the students' area of research. A minimum of 40 credit hours of coursework is required, though the graduate program committee may recommend additional coursework based on student research interests.

Satisfactory progress in the program will be ongoing and formally evaluated at the end of both the first and second years of the program. Students are expected to maintain a cumulative GPA of 3.000 or better in all coursework. Students are not allowed to retake courses. A student who does not maintain the 3.000 GPA, or is not making satisfactory progress on their dissertation research, may be recommended for termination by the graduate program committee.

Each student will have one primary research advisor from the network science doctoral program faculty.

Students will be expected to select their research advisor by the end of the spring semester of their second year in the program.

The dissertation committee consists of at least four members: the dissertation advisor, one additional network science doctoral program faculty member, one member expert in the specific topic of research (can be from outside the university), and one additional tenured/tenure-track faculty member from the concentration department/conferring college. The dissertation advisor must be a full-time tenured or tenure-track member of the Northeastern University faculty. Students may repeat the comprehensive examination once if they are unsuccessful.

### Degree Candidacy

A student is considered a PhD candidate upon completion of all required coursework with a minimum cumulative GPA of 3.000, satisfactory completion of the qualification exam, and satisfactory completion of the comprehensive exam.

### Qualifying Examination

The qualification exam will be an oral examination of the material during the students' coursework. The exam will be an hour in length and consist of questions selected by network science faculty who comprise the qualifying examination and dissertation committee. Students will receive 50 to 80 potential questions, which they must be prepared to answer, one month before the exam. The exam will consist of a subset of these questions. The qualifying exam will be offered twice annually, in the fall and spring terms. All students are required to initially sit for the exam in the fall, typically in their third year of the PhD program. Students who do not pass the qualifying exam on their first attempt are expected to retake the exam in the spring term. Students may sit for the qualifying exam no more than twice.

Students who fail to complete the qualifying examination but who have completed all the PhD program's required coursework with a cumulative GPA of 3.000 or better will be awarded a terminal Master of Science in Network Science degree. Note that no students will be admitted directly into the network science program for receipt of a master's degree.

### Comprehensive Examination

Students must submit a written dissertation proposal to the dissertation committee. The proposal (with the aid and approval of their dissertation advisor) will outline a plan to carry out new and original research. The proposal should identify relevant literature, the research problem, the research plan, and the potential impact on the field. An oral presentation of the proposal will be made in an open forum before a public audience and the dissertation committee, followed by questions from noncommittee members. The written proposal must be given to committee members at least two weeks prior to the oral presentation. After the presentation, the student will meet with the dissertation committee to address any concerns raised in either the written proposal or the presentation. The comprehensive exam must precede the final dissertation defense by at least one year.

### Dissertation Defense

A PhD student must complete and defend a dissertation that involves original research in network science. The dissertation defense must adhere to Northeastern academic policies.

---

*Students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal Master of Science in Network Science (<http://catalog.northeastern.edu/graduate/social-sciences-humanities/interdisciplinary/network-science-ms/>). Note that no students will be admitted directly into the network science program to pursue a master's degree.*

## Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

Annual review  
 Qualifying exam  
 Dissertation committee  
 Dissertation proposal  
 PhD candidacy  
 Dissertation defense

### Core Requirements

Code	Title	Hours
PHYS 5116	Network Science 1	4
NETS 6116	Network Science 2	4
PHYS 7332 or NETS 7332	Network Science Data 2 Machine Learning with Graphs	4
PHYS 7335	Dynamical Processes in Complex Networks	4
POLS 7334	Social Networks (NETS )	4

### Specializations

Choose one of the following specializations or 20 semester hours of elective coursework from the electives course list:

- Computer Science (p. )
- Epidemiology (p. 274)
- Math (p. 274)
- Physics/Theory (p. 274)
- Social Science (p. )
- Coursework (p. )

#### COMPUTER SCIENCE

Code	Title	Hours
CS 5800	Algorithms	4
CS 6140 or CS 6220	Machine Learning Data Mining Techniques	4

Complete 12 semester hours of elective courses from the electives list below. Students who wish to take courses outside of the electives list below must do so in consultation with their advisor. 12

#### EPIDEMIOLOGY

Code	Title	Hours
PHTH 5202	Introduction to Epidemiology	3
PHTH 6202	Intermediate Epidemiology	3

Complete 14 semester hours of elective courses from the electives list below. Students who wish to take courses outside of the electives list below must do so in consultation with their advisor. 14

#### MATH

Code	Title	Hours
CS 5800	Algorithms	4
MATH 7233	Graph Theory	4

Complete 12 semester hours of elective courses from the electives list below. Students who wish to take courses outside of the electives list below must do so in consultation with their advisor. 12

#### PHYSICS/THEORY

## Applied Physics and Engineering, MS

The combined MS program in applied physics and engineering allows graduate students to receive training in one of three concentrations of the electrical and computer engineering department while also receiving fundamental graduate-level physics training that is relevant to that area.

### Thesis Option

A student may complete an additional 8 semester hours of thesis. Students may register for an additional two semesters of thesis work, Thesis (EECE 7990) (4 semester hours) or Thesis (PHYS 7990) (4 semester hours), depending on the affiliation of the thesis advisor. A thesis committee is composed of an advisor and two faculty members from physics or electrical engineering.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Concentrations

Complete one of the following concentrations:

- Microsystems, Materials, and Devices (p. 421)
- Electromagnetics, Plasma, and Optics (p. 421)
- Analysis, Modeling, and Computation (p. 422)

#### MICROSYSTEMS, MATERIALS, AND DEVICES

Code	Title	Hours
<b>Core Courses</b>		
EECE 7201	Solid State Devices	4
PHYS 7324	Condensed Matter Physics	4
<b>Engineering Coursework</b>		
Complete 12 semester hours from the following:		12
EECE 5606	Micro- and Nanofabrication	
EECE 5680	Electric Drives	
EECE 7204	Applied Probability and Stochastic Processes	
EECE 7240	Analog Integrated Circuit Design	
EECE 7242	Integrated Circuits for Mixed Signals and Data Communication	
EECE 7244	Introduction to Microelectromechanical Systems (MEMS)	
EECE 7245	Microwave Circuit Design for Wireless Communication	
EECE 7353	VLSI Design	
EECE 7398	Advanced Special Topics in Electrical and Computer Engineering	

#### Physics Coursework

Complete 12 semester hours from the following:		12
PHYS 5318	Principles of Experimental Physics	
PHYS 7301	Classical Mechanics/Math Methods	
PHYS 7302	Electromagnetic Theory	
PHYS 7305	Statistical Physics	
PHYS 7315	Quantum Theory 1	
PHYS 7316	Quantum Theory 2	
PHYS 7321	Computational Physics	
PHYS 7734	Topics: Condensed Matter Physics	

#### ELECTROMAGNETICS, PLASMA, AND OPTICS

Code	Title	Hours
<b>Core Courses</b>		
EECE 7203	Complex Variable Theory and Differential Equations	4
PHYS 7302	Electromagnetic Theory	4
<b>Engineering Coursework</b>		
Complete 12 semester hours from the following:		12
EECE 5698	Special Topics in Electrical and Computer Engineering (Subsurface Imaging)	
EECE 7105	Optics for Engineers	
EECE 7202	Electromagnetic Theory 1	

EECE 7245	Microwave Circuit Design for Wireless Communication	
EECE 7270	Electromagnetic Theory 2	
EECE 7271	Computational Methods in Electromagnetics	
EECE 7275	Antennas and Radiation	
EECE 7293	Modern Imaging	

**Physics Coursework**

Complete 12 semester hours from the following: 12

PHYS 5318	Principles of Experimental Physics	
PHYS 7305	Statistical Physics	
PHYS 7315	Quantum Theory 1	
PHYS 7316	Quantum Theory 2	
PHYS 7321	Computational Physics	
PHYS 7324	Condensed Matter Physics	
PHYS 7731	Biological Physics 1	

**ANALYSIS, MODELING, AND COMPUTATION**

Code	Title	Hours
<b>Core Courses</b>		
EECE 7205	Fundamentals of Computer Engineering	4
PHYS 7321	Computational Physics	4

**Engineering Coursework**

Complete 12 semester hours from the following: 12

EECE 5639	Computer Vision	
EECE 5640	High-Performance Computing	
EECE 5642	Data Visualization	
EECE 5643	Simulation and Performance Evaluation	
EECE 5644	Introduction to Machine Learning and Pattern Recognition	
EECE 7205	Fundamentals of Computer Engineering	
EECE 7271	Computational Methods in Electromagnetics	
EECE 7352	Computer Architecture	
EECE 7353	VLSI Design	
EECE 7374	Fundamentals of Computer Networks	

**Physics Coursework**

Complete 12 semester hours from the following: 12

PHYS 5116	Network Science 1	
PHYS 5318	Principles of Experimental Physics	
PHYS 7301	Classical Mechanics/Math Methods	
PHYS 7305	Statistical Physics	
PHYS 7335	Dynamical Processes in Complex Networks	

**Thesis Option**

Students may register for an additional two semesters of thesis work, Thesis (EECE 7990) or Thesis (PHYS 7990), depending on the affiliation of the thesis advisor. Thesis credits cannot be substituted for any of the coursework listed above. This option requires a total of 40 semester hours for the master's degree.

**Program Credit/GPA Requirements**

32–40 total semester hours required

Minimum 3.000 GPA required

## Environmental Science and Policy, MS

The Master of Science in Environmental Science and Policy program emphasizes a broadly interdisciplinary and synthetic approach that integrates knowledge in the environmental sciences (conservation biology, climate change, fisheries science, ecosystem function, biodiversity, restoration ecology) with the social sciences (policy, economics, sociology, political science, and development) and humanities (environmental history, philosophy, and ethics). The goal of the program is to equip professionals with substantive breadth in knowledge and skills at the intersection of environmental science and policy. The program focuses on training students to think critically about the underlying causes of environmental problems and understanding the reciprocal relationships between coupled human-natural ecosystems and the interconnections between social and technological innovations. The program explores practical approaches and potential solutions that decision makers need to evaluate in policy debates related to promoting environmental sustainability.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Seminars</b>		
PPUA 6101	Environmental Science and Policy Seminar 1	4
ENVR 6102	Environmental Science and Policy Seminar 2	4
<b>Skills Courses</b>		
Complete 2 courses from the following. At least one course needs to be taken from the College of Science Skills Course List and one course from the College of Social Sciences and Humanities Skills Course List.		8
<i>College of Science Skills Course List</i>		
EEMB 5130	Population Dynamics	
EEMB 5522	Experimental Design Marine Ecology	
ENVR 5150	Climate and Atmospheric Change	
ENVR 5210	Environmental Planning	
ENVR 5240	Sedimentary Basin Analysis	
ENVR 5260	Geographical Information Systems

## Climate Science and Engineering, MS

### Overview

The Master of Science in Climate Science and Engineering is offered jointly by the College of Engineering and the College of Science. The program provides training in the fundamental scientific processes that underpin the structure and dynamics of the climate, as well as the engineering strategies and technologies required for decarbonization and adaptation to climate change.

Incoming students will typically hold a bachelor's degree in a science, engineering, or related field. The program is designed to prepare students for climate-facing positions in the public or private sectors and can serve as a springboard for students interested in pursuing doctoral-level research. Students must take at least 12 semester hours of College of Science courses and at least 12 semester hours of College of Engineering courses and includes a report, thesis, or coursework option.

Degree Requirements	With Report	With Thesis	Coursework Only
Required core courses	20 SH	20 SH	20 SH
Other electives	8 SH	4 SH	12 SH
Master of Science report/thesis	4 SH	8 SH	
Minimum semester hours required	32 SH	32 SH	32 SH

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated. In order to ensure a balance of training across science and engineering, students must take at least 12 semester hours of College of Science courses (starting with EEMB, ENVR) and at least 12 semester hours of College of Engineering courses (starting with CIVE, EECE, ENSY, MATL, ME, SBSY) from the core requirements and restricted elective course options.

### Core Requirements

Code	Title	Hours
Select from the core requirements listed below; any core course not used to meet this core course requirement can be taken as a restricted elective:		
ENVR 5350	Sustainable Energy and Climate Solutions	20
ENVR 5600	Coastal Processes, Adaptation, and Resilience	
ENVR 5800	Climate Adaptation and Nature-Based Solutions	
CIVE 5150	Climate and Atmospheric Change	
or ENVR 5150	Climate and Atmospheric Change	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 5365	Climate Technologies for Decarbonization, Mitigation, and Adaptation	
CIVE 5366	Air Quality Engineering and Science	
CIVE 5670	Global Biogeochemistry	
or ENVR 5670	Global Biogeochemistry	
CIVE 7110	Critical Infrastructure Resilience	

### Options

Complete one of the following options:

#### COURSEWORK OPTION

Code	Title	Hours
Complete 12 semester hours from the restricted electives course list below.		12

#### REPORT OPTION

Code	Title	Hours
CIVE 8674	Master's Report	4
or EEMB 8984	Research	
Complete 8 semester hours from the restricted electives course list below.		8

**THESIS OPTION**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CIVE 7990	Thesis	8
or EEMB 8984	Research	
Complete 4 semester hours from the restricted electives course list below.		4

**Restricted Electives**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
CIVE 5280	Remote Sensing of the Environment	
CIVE 7100	Time Series and Geospatial Data Sciences	
CIVE 7282	Coastal and Hydraulic Modeling	
CIVE 7385	Public Transportation	
CIVE 7392	Special Topics in Environmental Engineering	
EECE 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
ENSY 5000	Fundamentals of Energy System Integration	
ENSY 5100	Hydropower	
ENSY 5200	Energy Storage Systems	
ENSY 5300	Electrochemical Energy Storage	
ENSY 5500	Smart Grid	
ENSY 5585	Wind Energy Systems	
ENVR 5210	Environmental Planning	
ENVR 5220	Ecosystem-Based Management	
ENVR 5563	Advanced Spatial Analysis	
INTL 5100	Climate and Development	
LAW 7634	Energy Law and Policy	
LPSC 7312	Cities, Sustainability, and Climate Change	
MATL 6270	Principles, Devices, and Materials for Energy Storage and Energy Harvesting	
ME 5685	Solar Thermal Engineering	
PPUA 5238	Climate Change and Global Urbanization	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	
SBSY 5100	Sustainable Design and Technologies in Construction	
SBSY 5200	Sustainable Engineering Systems for Buildings	

**Program Credit/GPA Requirements**

32 total semester hours required

Minimum 3.000 GPA required

## Graduate Certificate Programs

The College of Science is pleased to offer several graduate certificate programs for working professionals as well as postbaccalaureate students who want to build their knowledge in growing fields. Graduate certificates are offered in biotechnology, bioinformatics, applied mathematics, nanomedicine, and sustainability sciences. These programs are ideal for people already in the field who want to enhance their career or people who are looking to make a change.

### Programs

#### Biology

- Bioinformatics (p. 948)
- Bioinformatics and Cheminformatics (<http://catalog.northeastern.edu/graduate/science/biology/bioinformatics-cheminformatics-graduate-certificate/>)
- Omics (p. 950)

#### Chemistry and Chemical Biology

- Biodefense and Biosecurity (p. 963)
- Biopharmaceutical Analytical Sciences (p. 964)
- Biotechnology (p. 965)
- Biotechnology Enterprise (p. 966)
- Biotechnology Regulatory Science (p. 967)
- Experimental Biotechnology (p. 968)
- Manufacturing and Quality Operations in Biotechnology (p. 969)
- Molecular Biotechnology (p. 970)
- Pharmaceutical Technologies (p. 971)
- Process Science (p. 972)
- Vaccine Development (p. 973)

#### Marine and Environmental Sciences

- Sustainability Sciences (p. 989)

#### Mathematics

- Applied Mathematics (p. 1003)

#### Physics

- Nanomedicine (p. 1019)

CSSH Graduate Programs General Regulations (p. 1041)

### Our Mission

The departments and programs of the College of Social Sciences and Humanities—with disciplines ranging from economics and history to English and international affairs, just to name a few—form an interdisciplinary collaborative of scholars with global perspectives. The CSSH mission is:

- To contribute to the experiential liberal arts education of all Northeastern University students
- To produce cutting-edge knowledge about and solutions to the political and social problems of our contemporary world
- To foster ethical reasoning and critical thought, with attention to the enduring significance of history, literature, and culture

This mission, along with a strong international focus, gives CSSH a central role in fulfilling Northeastern's ambition of educating global citizens.

### CSSH Graduate Programs

Graduate education at Northeastern integrates the highest level of scholarship across disciplinary boundaries with significant research and experiential learning opportunities. This multidimensional learning environment offers students an opportunity to develop critical thinking and creative problem-solving skills while introducing them to new perspectives in their fields. CSSH supports 16 master's programs, eight doctoral programs, and 12 graduate certificate programs. Some courses and degree programs are offered in an online or hybrid format that provides additional flexibility for learners. Graduate programs in CSSH provide fertile ground and resources for advanced study and research. CSSH faculty members' cutting-edge interdisciplinary work inspires the development of new programs, research fellowship opportunities, and mentoring relationships.

All CSSH master's programs offer an optional cooperative education experience to eligible students. Cooperative education is central to both the Northeastern experience and to the CSSH experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with up to six months of work experiences in businesses, nonprofits, and government agencies in Boston, across the United States, and around the world. Through the co-op experience and integrative cocurricular coursework, graduate students apply what they have learned across contexts, bringing knowledge and skills gained in community learning spaces back to our campus learning spaces.

Our doctoral, master's, and professional degree programs produce graduates who are well prepared for the diverse demands of careers in academia, industry, and the professions. Please visit the College of Social Sciences and Humanities (<http://www.northeastern.edu/cssh/>) website for additional information, including latest news and upcoming events.

## General Regulations

- General Information (p. 1042)
- Academic Appeals Procedures (p. 1043)
- Regulations for All Students (p. 1046)
- Doctor of Philosophy (PhD) (p. 1048)
- Master's Degrees (MA, MPA, MPP, MS) (p. 1050)

## General Information

For information about other academic policies and procedures; student responsibilities; student academic and cocurricular life; faculty rights and responsibilities; or general personnel policies, benefits, and services, please refer to university policies (p. 44) and related procedural guides, as appropriate.

### Student Classification

**Regular student**—Students who are admitted to a degree or certificate program.

**Special student**—Nonmatriculated students who are enrolled in College of Social Sciences and Humanities graduate courses on a part-time basis (fewer than 8 semester hours per semester). Special students may earn up to 12 semester hours over time. Special students who do not register for four consecutive semesters (excluding summer semester) may be subject to review and possible withdrawal by the college. Graduate certificates and degrees cannot be conferred upon students in special student status. In keeping with university regulations, international students cannot be admitted as special students.

**Doctoral degree candidate**—Doctoral students who have completed departmental, college, and university requirements except for dissertation.

### Student Status

For academic purposes, a graduate student is considered a full-time student if enrolled in a minimum of 8 semester hours of credit for the semester, with the following exceptions:

- Students who hold Stipended Graduate Assistantships will be considered full time if enrolled for a minimum of 6 semester hours of credit. However, some departments may require more credits for maintaining departmental progression standards.
- Students enrolled in Doctoral Research or full-time co-op are considered full time.
- All graduate students who are formally registered in a continuation status—Dissertation, Dissertation Continuation, Doctoral Research, or Qualifying/Comprehensive Exam Preparation courses—may be considered full time. It is ordinarily assumed that such students will be in residence.
- Students in their last semester of coursework may be enrolled in fewer than 8 semester hours to complete degree requirements. *Note:* To be eligible for some types of financial aid, the minimum full-time load may be defined differently. For information, contact the Graduate Student Financial Services Office.

Continued registration in the CSSH is contingent upon receiving all official transcripts and test scores within 30 days of matriculation. Please note that you may be asked to provide us with these if you did not include official copies in your application.

### Grading System

The student's performance in graduate courses will be graded according to the following numerical equivalents in the Academic Catalog (p. 55).

### Grading Policies

Grading policies applying to all students may be found in the Academic Catalog (p. 44).

In the CSSH, not more than two courses or 6 semester hours of credit, whichever is greater, may be repeated to satisfy the requirements for the degree. Only such repeats will be counted in calculating the cumulative grade-point average. No grade changes are permitted after the end of the final examination period one calendar year from the semester in which the student registered for the course. This includes the clearance of incomplete grades (p. 61). In calculating the overall cumulative average, all graduate-level coursework completed at the time of clearance for graduation will be counted.

Students cannot elect a pass/fail grading scheme for CSSH courses unless the course grading scheme is designated pass/fail.

### Class Credits

All credits are entered as semester hours. Graduate office policy states that in calculating the overall GPA, all graduate-level coursework completed at the time of clearance for graduation will be counted unless otherwise designated at the time of registration or unless counted toward a previous degree.

## Academic Appeals Procedures

Northeastern University affirms that it is essential to provide an appeals mechanism to students who believe that they have been erroneously, capriciously, or otherwise unfairly treated. Information about the university appeals process and procedures can be found in the Academic Catalog. (p. 70)

If a student feels that they have been the victim of harassment or of discrimination prohibited by law or by university policy, and that this constitutes a substantive basis for the appeal, they should consult with the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/about/>) as soon as they become aware of alleged prohibited harassment or discrimination, and they are not required to wait until a term grade or determination is received before seeking advice or redress. If the Office for University Equity and Compliance is advised of such alleged prohibited conduct as part of an academic appeal, the appeal shall first be pursued and investigated through the Office for University Equity and Compliance. Following a resolution of the harassment/discrimination issues, any remaining academic issues will be addressed, at the request of the student, according to the academic appeals procedures.

In cases that do not involve sexual harassment or discrimination, students may speak informally to their instructors or academic advisors about any determination or grade about which they have questions. If students choose to pursue an appeal, the College of Social Sciences and Humanities process is described in the appeals section that follows. The Graduate Academic Advisory Committee, which is comprised of an elected body of full-time CSSH faculty, serves as the Academic Appeals Committee for the CSSH.

### Graduate Academic Advisory Committee

The GAAC shall be responsible for ensuring that the graduate curriculum of the college promotes the college's and university's evolving intellectual and pedagogical aims. The GAAC acts on all matters relating to the academic life of graduate students in the college in accordance with guidelines approved by the college and the GAAC. The responsibilities of the GAAC are:

- a. Oversight over the quality and scope of the college's graduate curricula, including recommendations for changes to the general program of the college, approval of graduate degree and certificate programs, and review of proposed changes to those programs.
- b. Review of student appeals on decisions concerning grades, academic dismissals, academic probation, change in requirements, permission to resume studies, academic warning, and repeating of courses. The GAAC shall adhere to all policies and procedures adopted by the faculty of the college and the Faculty Senate.

In addition, the GAAC shall adhere to policies and procedures issued by the Office of the Provost. Actions on graduate matters taken by the GAAC shall constitute the recommendations by the faculty on these matters. The GAAC shall make recommendations on behalf of the faculty directly to the dean (or the dean's designee). If the dean supports them, the recommendations shall, as needed, then be sent to the University Graduate Curriculum Committee for consideration. The GAAC's and dean's actions shall be reported periodically to the units involved and to the college council for informational purposes.

The GAAC is charged with review of student appeals on decisions concerning grades, academic probation, change in requirements, permission to resume studies, academic warning, and repeating of courses. Members of the GAAC from the student's own unit are recused from the appeal process. Graduate students may request permission to present their appeals in person. If a student believes that all pertinent information has not been presented, the student may request that the GAAC reconsider its decision. If the GAAC reaffirms its action, and the student is still not satisfied, an appeal for review may be made through the university's Academic Appeals Resolution Committee. The appeals procedure is described in the Academic Catalog (p. 70).

### Grade Appeals

If a graduate student wishes to dispute a grade in a course taught by a member of the CSSH faculty, the first step is for the student to discuss their concerns with the faculty member who taught the course to see if it is possible to reach agreement on the issue(s). If the student is not able to resolve the issues with the faculty member who taught the course, the student should work with the department/program director to attempt a department-level resolution.

If these informal attempts to resolve the issue fail, the student can enter the formal procedure at the college level.

The student should meet with the associate dean for graduate studies who will attempt to resolve the issue by working with the instructor and the department/program. Contact the Graduate Office at [gradcssh@northeastern.edu](mailto:gradcssh@northeastern.edu) to schedule the meeting. If it is not possible for the associate dean to resolve the issue with the department/program, the associate dean will determine whether or not there is just cause to convene the GAAC. In the event of an alleged violation of the Student Code of Conduct, the associate dean will first seek a determination of the violation from the Office of Student Conduct and Conflict Resolution (<http://www.northeastern.edu/osccr/>).

The decision to convene the GAAC will be based upon the following:

- The student attempted to resolve the complaint with the professor and the department/program.
- The complaint is substantive in nature (adjudication could affect a student's course grade and/or academic record).
- The complaint has been brought forward in a timely manner.

- The statement must be submitted no later than 28 calendar days from the day when the academic determination is made available to the student.
- If a student wishes to dispute a grade in their final term, this must be done within 28 calendar days of the degree conferral date.

### FORMAL COMPLAINT

If the associate dean determines the appeal should be brought to the GAAC, the student must provide a formal written complaint to the associate dean within one week of the student's meeting with the associate dean.

- The written complaint should provide a detailed timeline as well as all available evidence supporting the student's complaint.
  - It is the student's responsibility to make their case. Students may submit any evidence such as emails, quizzes, examinations, etc.
- Once the associate dean receives a formal written complaint, the associate dean will provide a copy of the complaint to the faculty member and to the department/program director and convene a meeting of the GAAC.
- If the student fails to provide a well-reasoned written summary of the case, then the matter will be considered closed at the college level.
- The associate dean will make a good faith effort to identify a date and time for the meeting within 35 calendar days of the student's original submission of their statement.

### APPEALS MEETING

- The GAAC serves as the Academic Appeals Committee for the CSSH.
- The GAAC is convened in order to determine whether a fair and due process was used to determine the student's grade.
- The role of the committee is to conduct a review when a grade appeal is filed by a student regarding one of the following reasons:
  - Concern that the course grading policy was not applied consistently to all students within a class and/or section.
  - Concern that the instructor's method of assigning grades differed from the method outlined in the instructor's course syllabus.
  - Concern that the instructor failed to provide a clear policy on how grades would be assigned.

The student and the faculty member have the right to attend and present their case orally to the GAAC. The faculty member and the student aren't required to attend; however, it is usually quite helpful to make an oral presentation and answer any questions that the GAAC may have. If the complainant indicates that they will present their case in person and then fails to attend the scheduled hearing, the case will be dismissed. The complainant and the faculty member both have the right to testify privately and separately before the committee. Lawyers are not permitted in these proceedings. Generally, the faculty member and complainant are each given a 15-minute period to present their case.

The student usually presents their complaint to the committee first. This is followed by a brief Q&A of the student by the GAAC. The GAAC may ask the complainant any questions they have based upon either the written statement submitted by the complainant or the complainant's oral presentation. The faculty member then presents their case, which is followed by a brief Q&A of the faculty member. After both the complainant and faculty member have addressed the GAAC, the GAAC then reviews the evidence, summarizes the case, and makes a recommendation to the associate dean concerning the resolution of the complaint.

If the GAAC believes it cannot resolve any issues without additional information, the GAAC may request any information needed from either the complainant, faculty member, or department/program. This information must be provided to the GAAC within one week of the meeting. If the requested information is not provided in the required time frame, then the GAAC may weigh this failure in making its final determination regarding the original complaint.

### COMMITTEE PROCESS

- All decisions of the GAAC will be made based on a simple majority (51%) vote.
- Members of the GAAC from the student's own unit are recused from the appeal process.
- The associate dean is chair of the GAAC and only votes when there is a tie.
- The student bringing the complaint to the GAAC carries the burden of proof based on the weight of the evidence in demonstrating that the grade is incorrect or unjustified.
- If the GAAC decides that the grading process was unfair, the GAAC can request that the instructor changes the student's grade.
  - If an acceptable agreement involves a change of grade, the instructor is responsible for submitting a change of grade to the Office of the University Registrar in a timely manner following notification of the GAAC's decision.
- The student shall be notified within three business days of a decision being reached.

If the student is not satisfied with the GAAC's disposition of the matter, or if the grade appeal is not resolved within 35 calendar days after the written statement is submitted to the college, the student may further pursue the matter by requesting in writing that the university convene an Academic Appeals Resolution Committee to review the issue. This must be submitted within 10 calendar days of the notification from the college. This committee has been designated as the final authority on these matters. Students may obtain information on this process by contacting the Office of the Provost.

### Academic Dismissal Appeal

If a student wishes to dispute an academic dismissal, the first step is to consult the graduate director about appealing to the department/program. If and when all departmental appeals are exhausted, the student can enter the formal procedure at the college level.

The student will meet with the associate dean for graduate studies who will attempt to resolve the issue by working with the department/program. Contact the Graduate Office at [gradcssh@northeastern.edu](mailto:gradcssh@northeastern.edu) to schedule the meeting. If it is not possible for the associate dean to resolve the issue with the department/program, the associate dean will determine if the complaint is substantive and there is just cause to convene the GAAC.

### **FORMAL COMPLAINT**

The student must provide a formal written complaint to the associate dean within one week of the student's meeting with the associate dean. The statement must be submitted no later than 28 calendar days from the day when the academic determination is made available to the student. The written complaint should provide a detailed timeline as well as all available evidence supporting the student's complaint. Once the associate dean receives a formal written complaint, the associate dean will provide a copy of the complaint to the department/program director and convene a meeting of the GAAC. If the student fails to provide a thoughtful and well-reasoned written summary of the case, then the matter will be considered closed at the college level. In the event of an alleged violation of the Student Code of Conduct, the associate dean will first seek a determination of the violation from the Office of Student Conduct and Conflict Resolution (<http://www.northeastern.edu/osccr/>).

The associate dean will make a good faith effort to identify a date and time for the meeting within 35 calendar days of the student's original submission of their statement.

### **APPEALS MEETING**

- The GAAC serves as the Academic Appeals Committee for the CSSH.
- The GAAC is convened in order to determine whether a fair and due process was used.

The student has the right to attend and present their case orally to the committee. The student isn't required to attend; however, it is usually quite helpful to make an oral presentation and answer any questions that the GAAC may have. If the complainant indicates that they will present their case in person and then fails to attend the scheduled hearing, the case will be dismissed. Lawyers are not permitted in these proceedings.

The student usually presents their complaint to the GAAC first. This is followed by a brief Q&A of the student by the GAAC. The GAAC may ask the complainant questions based upon either the written case submitted by the complainant or the complainant's oral presentation. The GAAC then reviews the evidence, summarizes the case, and makes a recommendation to the associate dean concerning the resolution of the complaint.

If the GAAC believes it cannot resolve any issues without additional information, the GAAC may request any information needed from either the complainant or department/program. This information must be provided to the GAAC within one week of the meeting. If the needed information is not provided in the time frame required, then the GAAC may weigh this failure in making its final determination regarding the original complaint.

### **COMMITTEE PROCESS**

- All decisions of the GAAC will be made based on a simple majority (51%) vote.
- Members of the GAAC from the student's own unit are recused from the appeal process.
- The associate dean is chair of the GAAC and only votes when there is a tie.
- The student bringing the complaint to the GAAC carries the burden of proof based on the weight of the evidence in demonstrating that the dismissal is incorrect or unjustified.
- If the GAAC decides that the academic dismissal should be revoked, the GAAC can request that the department reinstate the student immediately.

If the student is not satisfied with the GAAC's disposition of the matter, or if the dismissal appeal is not resolved within 35 calendar days after the written statement is submitted to the college, the student may further pursue the matter by requesting in writing that the university convene an Academic Appeals Resolution Committee to review the issue. This must be submitted within 10 calendar days of the notification from the college. This committee has been designated as the final authority on these matters. Students may obtain information on this process by contacting the Office of the Provost.

## Regulations for All Students

### Registration

Students must register via the Student Hub (<https://me.northeastern.edu>). Procedures to do so are available on the Office of the University Registrar's website. Consult the Academic Calendar (<https://registrar.northeastern.edu/group/calendar/>) for important registration dates.

Students are encouraged to obtain advisor approval of course selections each semester. This approval is required for all assistantship recipients and by some departments for all students. Students should check with individual departments for specific guidelines.

Students are expected to only complete the courses and semester hours required for the degree or certificate. Any courses taken outside of those requirements must be approved by the director of the graduate program.

### Transfer Credit

For general regulations concerning transfer credit in Northeastern University's graduate degree programs, please visit Regulations Applying to All Degree Programs (p. 91).

Degree students may petition to transfer credit through their departments to the College of Social Sciences and Humanities Graduate Office by completing the Transfer Credit form on the Office of the University Registrar's website. An official transcript must be attached to the petition.

### Awards

Only those students who are registered in degree programs are eligible for awards. Award recipients will receive an official award letter from the CSSH Graduate Office. Please pay attention to this letter as it is an official contract that should be read carefully. In order to maintain awards, students must be making satisfactory progress toward their degrees. Please refer to the Satisfactory Academic Progress section below for more information.

Students receiving a Stipended Graduate Assistantship must be in full-time status and be registered for a minimum of 6 semester hours. The standard duration of the SGA funding window is five years beginning from the time of admission and is not changed based on the source of funding or if the stipend is declined in any given semester(s). The health plan fee (NUSHP) is covered by the SGA award whereas the University Health and Counseling Services fee is not. Students on an SGA must be available to come to campus during normal business hours and are expected to spend 20 hours per week supporting their assignment. Unsatisfactory progress in either the graduate program or performance in assistantship-related duties or any deviation from the above may result in the early termination of the assistantship. Near the end of each funded term, student performance will be evaluated by their assignment supervisor and that evaluation will be filed with the CSSH Graduate Office.

CSSH Dean's Scholarship and Excellence Fellowship recipients must be in full-time status and be registered for a minimum of 8 semester hours.

### Withdrawal from Courses

To withdraw from a course, a student must drop the course via the Student Hub within the deadlines as established by the Office of the University Registrar. Consult the Academic Calendar (<https://registrar.northeastern.edu/group/calendar/>) for more information.

### Satisfactory Academic Progress

Satisfactory academic progress means satisfying requirements in the graduate program's general regulations and in the regulations specified by each department.

The college sets minimum standards for all students to fulfill, including:

- Maintaining the graduation requirement of a cumulative grade-point average of 3.000 (3.500 for doctoral programs) in their coursework
- Timely completion of coursework
- Timely completion of comprehensive/qualifying examinations

Departments and programs may have additional requirements that exceed those of the college. These requirements can be found in the Academic Catalog and department guides. Failure to maintain satisfactory academic progress may result in academic probation or dismissal from the program.

Receipt of financial support administered by the college is contingent on satisfactory academic progress toward the degree and on meeting department-specific guidelines. The college requires that all students receiving awards will generally have two semesters to reach a 3.000 GPA. Students whose cumulative GPA is below 3.000 (3.500 for doctoral programs) will be reviewed by their departments and by the CSSH Graduate Office and may have their funding terminated on recommendation of their department or by decision of the college in consultation with their department. In addition, continued funding for SGAs is contingent on satisfactorily carrying out duties as assigned.

Students enrolled in a program offering a cooperative education or internship option must be approved to participate. A minimum GPA of 3.000 is required at the time the co-op job or internship begins. Some departments may require a higher minimum GPA for co-op. Please refer to the Academic Catalog for program-specific information.

### Leave of Absence

Full-time students who will not be involved in any academic endeavor for a period of time are required to petition via the Request for Leave of Absence form on the Student Hub (<https://me.northeastern.edu>). The CSSH Graduate Office will not accept retroactive leave requests. Please note that if a

student is requesting a leave for medical reasons (p. 57), a Medical Leave of Absence form must be completed. Students should contact University Health and Counseling Services.

Leaves of absence generally are not approved for more than one calendar year at a time. Further, a leave of absence is generally not appropriate for an international student on a student visa, unless the student is leaving the United States. The student must consult with an international student advisor at the Office of Global Services.

Leaves of absence are not appropriate for master's or doctoral students who are working on a thesis or dissertation but are away from the Northeastern campus.

Except in the case of medical leaves, being on an approved leave of absence does not extend the amount of time allowed for degree completion or the makeup of incomplete grades.

### **Time Limitations**

Graduate course credits earned in the program of graduate study or accepted by transfer are valid for a maximum of seven years.

If students wish to apply for an extension of the university's seven-year time limit, they must submit a petition to their department of study. The petition must include a detailed plan for the completion of all remaining degree requirements. In the case of master's time-limit extension requests for coursework, the department must certify that the content of each of the courses has not changed since the time the student completed the course. If deemed appropriate, the department will recommend the approval of an extension to the college. The associate dean has final approval of time-limit extensions.

### **Application for the Diploma**

Application for the diploma is made by applying to graduate. More information is available on the Commencement website (<https://www.northeastern.edu/commencement/>). Even though all other degree requirements may have been met, the application to graduate must be completed in order to assure that the degree will be conferred on the appropriate graduation date. It is the responsibility of the student to make sure that degree requirements have been met. Once degree requirements have been met, the student will be cleared for commencement. Please note that there are no honors distinctions awarded at the graduate level.

### **Changes in Requirements**

The continuing development of the college may result in regular revision of curricula. When curriculum changes are made, students are allowed to complete the degree requirements of the program when they matriculated. If a student wishes to complete the degree requirements of the new curriculum, the student may request this in writing to the CSSH Graduate Office via [gradcssh@northeastern.edu](mailto:gradcssh@northeastern.edu).

## Doctor of Philosophy

The Doctor of Philosophy degree is awarded to candidates who give evidence of high scholastic attainment and research ability in their major field. Specific degree requirements are administered by a committee in charge of the degree program. It is the responsibility of the chair of this committee to certify to the college the completion of each requirement for each candidate. Note that advanced standing is determined at the time of admission by the graduate program director.

### Continuity of Registration

Students are expected to maintain satisfactory progress toward their intended degree. All students must register as approved by their advisors or the departmental graduate program directors. After establishing degree candidacy, registration must be continuous until graduation requirements are complete unless a leave of absence is allowed by and recommended by the departmental graduate committee and approved by the college. For each of the first two semesters that a doctoral candidate has established candidacy, the student must register for Doctoral Dissertation. For each semester beyond the two Dissertation registrations, the student must register for Doctoral Dissertation Continuation until the dissertation is approved by the college and submitted to ProQuest. During the terms when a student is registered for Doctoral Dissertation or Dissertation Continuation, coursework is not permitted as the course requirements for the degree have already been met. If the academic program requires enrollment in seminars or courses in addition to Dissertation or Dissertation Continuation, the graduate program director will make a recommendation to the college. Approval of the college must happen prior to registration. Students must be registered for Dissertation or Dissertation Continuation during the semester in which they take the final oral examination (including the full summer semester if that is when defense occurs). Any student who does not attend Northeastern University for a period of one year may be required to apply for readmission.

### Awards

Funding eligibility is contingent upon making satisfactory progress. See Regulations for All Students (p. 1046) for more information.

### Course Requirements

Course requirements in each doctoral program are specified by the committee in charge of the doctoral program and departmental regulations. These are detailed in the academic catalog for the student's term of entry.

### GPA Requirements

For all College of Social Sciences and Humanities doctoral degree programs, the minimum cumulative grade-point average is 3.500. To qualify for the degree, the minimum cumulative GPA must be obtained. This average will be calculated each semester according to the grading system noted in the academic catalog and will exclude any transfer credits or repeated courses. Individual programs may have additional GPA requirements. These can be found in the academic catalog or program policies and procedure documents. A student who does not make satisfactory progress toward degree requirements, as specified by the individual department, may be placed on academic probation or dismissed from the program. A student cannot begin working on exam requirements with a GPA that is below the program minimum.

### Annual Student Progress Review

All PhD degree students are required to meet with their faculty advisor for an annual student progress review. The reviews will be submitted to the departmental graduate committee, which will determine whether satisfactory progress is being made and students are eligible to proceed to complete their graduate work. The CSSH Graduate Office will receive a copy of each student's review.

### Residence Requirement

All PhD students must spend the equivalent of at least one academic year in residence at the university as a full-time graduate student. The departmental graduate committee specifies the method by which the residence requirement is satisfied. Residency is required of all students receiving a stipended graduate assistantship.

### Qualifying Examinations

In programs where comprehensive or qualifying exams are required, students must complete these requirements within the time limit set by the program.

### Dissertation Proposal

All CSSH doctoral programs require an approved prospectus or successful proposal defense for candidacy.

### Doctoral Degree Candidacy

PhD degree candidacy is established when students have completed all departmental requirements for candidacy. These requirements vary by department and include completing the minimum number of graduate semester hours required of doctoral students by the department (this may include an earned master's degree accepted by the department) and passing a qualifying examination and/or a comprehensive examination. All CSSH doctoral programs require an approved prospectus or successful proposal defense for candidacy. Once students reach doctoral degree candidacy they will be certified, in writing, by the college. Registration in coursework is not permitted once a student reaches candidacy.

### Doctoral Dissertation

Each doctoral student must complete a dissertation that embodies the results of extended research and makes an original contribution to the field. This work should give evidence of the candidate's ability to carry out independent investigation and interpret in a logical manner the results of the

research. The method of approval of the dissertation is established by the departmental graduate committee. No dissertation committee shall have fewer than three faculty members, two of whom shall be from Northeastern. The chair of the dissertation committee will be a full-time tenured or tenure-track member of the faculty of Northeastern and will hold an appropriate doctorate. A research faculty member may chair a dissertation committee if the faculty member holds an appropriate doctorate and has received the approval to do so from the tenured and tenure-track faculty members of the unit(s) in which their appointment resides.

### **Final Oral Examination**

The final oral examination will be on the subject matter of the doctoral dissertation and on important developments in the field of the dissertation. Other fields may be included if recommended by the examining committee. This examination will be taken after completion of all other degree requirements and must be held at least four weeks prior to the commencement at which the degree is to be awarded. All internal and external committee members are expected to participate in the defense. The college must be notified of all scheduled defenses and expects that the defense will be publicly advertised for at least two weeks prior to the scheduled date. Some programs may require up to 30 days' notice.

- Upon successful defense of the dissertation, the student must have a dissertation approval record signed by the members of the dissertation committee and the department chair. Contact the CSSH Graduate Office at [gradcssh@northeastern.edu](mailto:gradcssh@northeastern.edu) for the approval form template.
- The student must have the dissertation approval record approved by a representative from the CSSH Graduate Office.
- The student must submit an electronic copy of the dissertation to ProQuest, following the directions outlined at the University Library website.

## Master's Degrees

### Academic Requirements

A candidate for the master's degree must complete a minimum of 30 semester hours of graduate-level coursework and additional requirements as determined by the department in which the student is registered.

To qualify for the degree, a minimum cumulative average of 3.000, equivalent to a grade of B, must be obtained. This average will be calculated each semester according to the grading system noted on the Office of the University Registrar's website and will exclude any transfer credits and nonrepeatable courses that have been retaken. A student who does not make satisfactory progress toward degree requirements, as specified by the individual department, may be dismissed from the program.

### Continuity of Registration

Students are expected to maintain satisfactory progress toward their intended degrees. All students must be registered in the last semester of their program. Any student who does not attend Northeastern University for a period of one year will be required to apply for readmission.

### Comprehensive Examination

Some programs require a final written or oral comprehensive examination. This examination will be given by the department concerned at least two weeks before the commencement at which the degree is expected. Students should check with individual departments for specific guidelines.

### Thesis

Some programs require or offer Master's Thesis. Theses should demonstrate the individual's capacity to execute independent work based on original material. Registration for XXXX 7990 Thesis is required. In cases in which a grade is required, theses must receive a grade of B (3.000) or better to be accepted. Students who have not completed their thesis after having registered for the specified number of thesis credits must register for XXXX 7996 Master's Thesis Continuation in the subsequent semester. Master's Thesis Continuation will carry no credit but will be recorded on the student transcript with the appropriate grade (S or U). Master's Thesis Continuation is not repeatable.

- Upon successful defense of the thesis, the student must have a thesis approval record signed by the members of the thesis committee. Visit Thesis and Dissertation Formatting Guidelines (<https://cssh.northeastern.edu/resources/theses-and-dissertations/>) for the approval form template and additional guidance.
- The student must have the thesis approval record approved by a representative from the CSSH Graduate Office.
- The student must submit an electronic copy of the thesis to ProQuest, following the directions outlined on the University Library website.

## School of Criminology and Criminal Justice

CSSH Graduate Programs General Regulations (p. 1041)

The School of Criminology and Criminal Justice prepares students for meaningful careers in criminology, justice policy, the law, criminal justice, and related fields, including professional research careers. We do this by applying multidisciplinary social science tools that predict and explain crime, as well as deepening the understanding of policies that improve our systems of justice. Our approach is experiential, and our methods for teaching are rooted in knowledge creation as a top-tier research program. Our goal is to create ethical problem solvers who are prepared to tackle important crime and justice issues facing society. Our educational goals for students include a commitment to identify and address the role of systemic racism and intersecting dimensions of oppression in the development and application of justice system policies and practices, crime and justice theory, and research.

The school offers a Master of Science degree in criminology and criminal justice and a PhD degree in criminology and justice policy. In addition, the school offers a JD/MS in criminology and criminal justice program and a JD/PhD in criminology and justice policy in conjunction with the School of Law.

## **Programs**

### **Doctor of Philosophy (PhD)**

- Criminology and Justice Policy (p. 1052)

### **Master of Science (MS)**

- Criminology and Criminal Justice (p. 1055)

### **Dual Degrees**

- Law, JD/Criminology and Justice Policy, PhD (p. 778)
- Law, JD/Criminology and Criminal Justice, MS (p. 779)

## Criminology and Justice Policy, PhD

The doctoral program in criminology and justice policy at the School of Criminology and Criminal Justice at Northeastern University seeks to prepare students for professional and research careers in criminal justice, criminology, and related fields by applying multidisciplinary and comparative social science to understand, predict, and explain crime and contribute to the development of public policy within urban communities. Using an active-learning approach, the school seeks to develop its students intellectually and ethically, while providing them with a keen appreciation for the complexities of crime and public and private efforts to make communities safer and to ensure justice.

The program is full time and is small and student centered. Students may enter the program with either a bachelor's degree or a master's degree. It is expected that students will be able to complete the program in four to five years, and students entering with a master's degree will be able to complete the program in three to five years.

Year one in the doctoral program offers students an opportunity to obtain a broad foundational knowledge in the discipline: one semester on theories of criminal justice process, two semesters of criminological theory, two semesters of statistics, and one semester of advanced research methods. To ensure that all students have mastered the foundational material emphasized across the required courses for the PhD program and can successfully integrate theory, research, and policy, all PhD students take a "foundations" qualifying examination at the end of their first year in the doctoral program.

After demonstrating mastery of the foundational knowledge in year one, students devote themselves to a more specific area of research in years two and three. Students demonstrate this commitment through the second and third qualifying examinations: an area exam and a publishable paper.

Following successful completion of the three qualifying examinations, and required and elective course work, the students proceed to a formal dissertation proposal defense.

### Doctoral Degree Candidacy

A student achieves candidacy when they have successfully completed all course work (54 semester hours for students entering with a bachelor's degree or 42 semester hours for students entering with advanced standing), passed all three qualifying examinations, and deposited the final version of their dissertation proposal (approved by their full committee) with the school's graduate program office. Candidacy is certified, in writing, by the college.

### Program Requirements

#### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

#### Milestones

Annual review

Three qualifying examinations—foundations exam, area exam, and publishable paper

Dissertation committee

Dissertation proposal

PhD candidacy

Dissertation defense

Minimum 3.500 GPA required

## Criminology and Criminal Justice, MS

The master's program in criminology and criminal justice at Northeastern University concentrates both on the problem of crime as a form of deviant behavior and on the criminal justice and private security systems that deal with it. The program emphasizes a systems approach to criminal justice, stressing policy development and analysis, as well as the impact these policies have on the individuals and organizations charged with delivering justice in a fair and equitable manner. In concept and scope, the MS degree encompasses such related disciplines as law, sociology, political science, psychology, criminology, and public administration.

The master's program is comprised of required courses encompassing both substantive and technical skills. Additionally, students choose elective courses from offerings within the graduate program in criminal justice or in other graduate programs in the College of Social Sciences and Humanities. The course offerings afford students the flexibility to customize their own programs, which may include an internship, directed study, or master's thesis.

For students interested in criminal justice in an increasingly digital world, the Master of Science in Criminology and Criminal Justice with a Concentration in Cybersecurity offers a strong criminal justice foundation coupled with the conceptual and practical skills that enables them to contribute to ensuring the reliability and security of cyberspace. Successful students will learn the principles, practices, and responsibilities of criminal justice professionals alongside the fundamental knowledge of computer science skills necessary for practical applications in the field. The concentration in cybersecurity provides criminal justice students an opportunity to learn how social behavior, policy, and legal rules can affect cybersecurity and the tools of information technology.

Faculty members in the graduate program represent several different academic disciplines, and teaching activities vary in nature depending on the instructors' specific objectives. The faculty's specialized interests help make possible a broad range of program offerings, including courses on the criminal justice process, victimology, security management, criminal law, juvenile justice, law and psychology, and terrorism.

The master's program offers an optional cooperative education experience (co-op) to eligible students. Students extend the two-semester program to 18 months through a co-op work experience and Experiential Integration (INSH 6864), the associated experiential integration course. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

Briefly stated, the graduate program endeavors to:

- Assist in developing criminal justice and private security leaders capable of assuming responsibility for policy planning and administration
- Offer students an opportunity to acquire the necessary skills and knowledge to conduct applied research while assisting them in developing the ability to apply this research in a variety of criminal justice settings
- Provide an opportunity for a solid educational foundation for those who wish to pursue more advanced graduate study beyond the Master of Science degree

Graduate study in criminology and criminal justice may be pursued on either a full- or part-time basis. All candidates for the Master of Science in Criminology and Criminal Justice degree must successfully complete a minimum of 32 semester hours of credit in course work.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Required Core</b>		
CRIM 6200	Criminology	4
CRIM 6202	The Criminal Justice Process	4
<b>Research and Statistics</b>		
INSH 6300	Research Methods in the Social Sciences	4
INSH 6500	Statistical Analysis	4

#### Electives

Code	Title	Hours
Complete 16 semester hours in the following range.		16
CRIM 5000 to CRIM 7999		
INSH 5000 to INSH 7999		
POLS 5000 to POLS 7999		

1056 Criminology and Criminal Justice, MS

PPUA 5000 to PPUA 7999

SOCL 5000 to SOCL 7999

### Optional Concentration in Cybersecurity

Students adding a concentration in cybersecurity must use 12 semester hours of their elective credits to complete the following courses:

Code	Title	Hours
<b>Required</b>		
CY 5001	Cyberspace Technology and Applications	4
Choose two courses from the following:		8
CRIM 6262	Evidence-Based Crime Policy	
CY 5010	Foundations of Information Assurance	
CY 5200	Security Risk Management and Assessment <sup>1</sup>	
CY 5210	Information System Forensics <sup>1</sup>	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
CY 5250	Decision Making for Critical Infrastructure	

<sup>1</sup> Instructor approval

### Optional Co-op Experience

Code	Title	Hours
Four-month co-ops require registration at 1 SH for one term. Longer co-ops require registration at 1 SH per term for two consecutive terms.		1-2
CRIM 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

32 total semester hours required (33-34 with optional co-op)

Minimum 3.000 GPA required

## Law, JD / Criminology and Justice Policy, PhD

The JD/PhD program will expand the knowledge base and career options of students. The disciplines of criminology and justice policy and law share common interests in identifying opportunities to create conditions for justice, equality, and societal well-being. The dual degree will provide students with a comprehensive interdisciplinary understanding of what influences criminal justice problems and the sociopolitical, legal, and economic context in which they are found. Solving problems requires interdisciplinary knowledge and an analytical and practical skill set that includes interprofessional problem solving.

Up to 16 credits of coursework in the dual-degree program can be counted toward both the JD degree and the PhD degree. Of these 16 credits, no more than 12 credits of non-law courses can count toward the JD degree.

Students will take law courses during semesters spent in the law school. Students will take criminology courses during semesters spent in SCCJ. Please consult the School of Law (<https://www.northeastern.edu/law/>) for more information about JD requirements. Additionally, please consult SCCJ (<https://cssh.northeastern.edu/sccj/>) for more information about PhD requirements.

All JD students, including FlexJD students, are ordinarily eligible to apply into dual degree pathways.

## Law, JD / Criminology and Criminal Justice, MS

The JD/MS program will expand the knowledge base and career options of students. The disciplines of criminal justice and law share common interests in identifying opportunities to create the conditions for justice, social equality, and societal well-being. The dual degree is designed to provide students with a comprehensive interdisciplinary understanding of what influences criminal justice problems and the social, political, legal, economic context in which they are found. Solving these problems requires interdisciplinary knowledge and an analytical and practical skill set that includes interprofessional problem solving.

Up to 16 credits of coursework in the dual-degree program can be counted toward both the JD degree and the MS degree. Of these 16 credits, no more than 12 credits of non-law courses can count toward the JD degree.

Students will take law courses during semesters spent in the School of Law. Students will take criminology courses during semesters spent in the School of Criminology and Criminal Justice. Please consult the School of Law for more information about JD requirements. Additionally, please consult SCCJ for more information about MS requirements.

All JD students, including FlexJD students, are ordinarily eligible to apply into dual degree pathways.

## Economics

Website (<https://cssh.northeastern.edu/economics/>)

**Robert Triest, PhD**  
Professor and Chair

[gradecon@northeastern.edu](mailto:gradecon@northeastern.edu)

CSSH Graduate Programs General Regulations (p. 1041)

The Department of Economics offers both a Master of Science and a Doctor of Philosophy in Applied Economics. The most distinctive feature of these programs is their emphasis on applied economics, coupled with attention to providing a solid grounding in microeconomic and macroeconomic theory, and econometrics. Students come from all over the world, and the curriculum is designed with this in mind, striving for balance in coverage of economies that are rich and poor, large and small, mixed and market. This gives a unique flavor to the course of study, making it well suited to the analysis of the emerging global economy of the 21st century.

The Master of Science program is in applied economic policy analysis, with broad specialization areas. The program is large enough to support a full slate of core and area courses each year, yet small enough to maintain a sense of community among the students.

The program is especially appropriate for those who wish to work in or return to positions in government, teaching, finance, or industry while providing a rigorous basis for those who want to continue their studies to the doctoral level.

Our signature co-op program offers qualified MS students the opportunity to apply for paid work positions as practicing economists for up to six months as part of their academic program. This paid work experience enhances our MS degree and its emphasis on application. Students have an opportunity to learn how to apply their knowledge, solve problems, and make a difference in the world before they graduate. Our graduates either find full-time work in their area of specialty or go on to earn additional graduate degrees. All of our graduates find jobs after completing our program.

Master of Science students may choose to pursue a concentration in data science. The concentration strategically combines econometrics and machine-learning techniques to analyze and predict outcomes with Big Data. Students in Seattle are required to select this concentration.

Our master's program-specific learning courses also feature "tracks." Along with the core MS classes, these tracks help our students prepare for different career paths. The Department of Economics currently offers three tracks (<https://cssh.northeastern.edu/economics/graduate/ma/>):

- Policy
- Quantitative analysis
- Academic

The PhD program is small and focused, and we welcome applications from those with a bachelor's or master's degree who have had prior training in macroeconomic and microeconomic theory and possess strong quantitative skills. Students take coursework in industrial organization, competition policy, and regulatory and labor economics. Health economics or development economics are additional areas that may be integrated into the primary fields noted above.

### Programs

#### Doctor of Philosophy (PhD)

- Economics (p. 1060)

#### Master of Science (MS)

- Economics (p. 1064)

## Economics, PhD

The PhD program in economics offers specializations in *industrial organization, competition policy, and regulatory economics* and *labor economics*.

### Timeline

The PhD program for each student has two phases: the coursework phase followed by the dissertation phase. The coursework phase consists of required coursework and field courses, as well as taking and passing the three qualifying examinations.

A student moves into the dissertation phase upon successful completion of required coursework and upon passing the qualifying examinations. In the dissertation phase the student must prepare a dissertation proposal and present and defend the dissertation proposal before the student's proposal review committee. A student who successfully defends the dissertation proposal achieves candidacy. At the end of the dissertation phase, the student must defend their completed dissertation.

### Coursework

Students entering the doctoral program will take seven core classes (28 semester hours), two classes in each of two doctoral fields (16 semester hours), and one elective (4 semester hours), for a total program requirement of 48 semester hours.

Core courses are focused on developing an advanced theoretical and quantitative foundation (macroeconomic theory, microeconomic theory, and applied econometrics). The remainder of the coursework is focused on the sophisticated application of analytical tools in the chosen field of concentration.

PhD students are expected to take three classes per semester as necessary to meet the degree's coursework requirements in the minimum number of semesters.

### Field Coursework and Grade Requirement

Students must take four field courses, and they are strongly encouraged to take as many field courses as possible. Students should plan to take the two labor and two industrial organization courses, even if they arrange to do a field in development or health economics. Students interested in customizing their fieldwork should consult the PhD Program Guidelines on the website.

**To maintain satisfactory standing in the PhD program, students must earn a grade of B or higher in at least four field courses.** Students who do not earn a B in at least four field courses will be offered one opportunity to meet the grade standard. Consult PhD Program Guidelines on the website for further details.

### Examinations

#### THREE QUALIFYING EXAMINATIONS—MACROECONOMICS, MICROECONOMICS, AND ECONOMETRICS

Three qualifying examinations are required upon completion of Macroeconomics 2, Microeconomics 2, and Econometrics 2. Students must receive a minimum grade of B– in the associated theory class to sit for its exam. Students are given a maximum of two attempts to pass each exam to continue in the program. Failure to sit for an exam at the appropriate time without prior consent of the graduate program director will result in an automatic fail on that exam.

### Proposal Review

Students must complete the proposal review within two years of finishing their coursework; however, the department expects that a doctoral candidate's **dissertation committee** will be formed and the dissertation proposal presented within one year of reaching degree candidacy, which is normally by the end of the student's third year.

A **dissertation proposal** states the question or hypothesis, reviews the relevant literature, and explains how the proposed work will contribute to that literature and general understanding. The proposal sets forth data sources, models, and econometric issues in sufficient detail so that any faculty member not in the field will be able to assess its merits. Normally, the proposal should not exceed 30 double-spaced pages. The proposal is first approved by the dissertation committee and then presented at an open seminar.

Consult PhD Program Guidelines on the website for further details.

### Doctoral Degree Candidacy

Upon successful completion of the proposal review, the student becomes a degree candidate. Candidacy may make the student eligible for a higher stipend and is an essential step in making satisfactory progress. Degree candidacy must be achieved within two years of completion of required coursework.

#### DISSERTATION

Students must complete their dissertation defense within five years of finishing their coursework, and postponing the proposal review does not alter the total time that students may use to complete their PhD. Under extenuating circumstances, a student may request an extension of this time frame from the Graduate Office.

One month in advance of the prospective date of the defense, the completed dissertation that is to be defended must be circulated to the committee members. At that time, all members of the committee must sign off on their agreement that the dissertation is ready for defense. Each student will have a dissertation committee chaired by a faculty member with an appointment in the economics department and at least two other members.

Committees may have two cochairs. Committees should not have more than four members (except at interim stages if faculty are leaving the committee). Committees may include members outside the economics department, but at least two committee members must have an appointment in the economics department. The composition of the committee should be set before the proposal review and again, if changes occur, before the dissertation defense. Committee compositions must be approved by the graduate program director and department chair.

The dissertation defense normally takes place during the student's fifth year. Those who have not defended by the end of their fifth year must submit a status report and timetable for approval by their dissertation advisor and the PhD program director. Consult PhD Program Guidelines on the website for further details

### WRITING THE DOCTORAL DISSERTATION

Writing the dissertation entails working with the principal advisor and other committee members until it is determined that a dissertation is complete and the candidate is ready to present and defend the work at an open seminar. Candidates must arrange a date and time for the defense at least three weeks in advance. Students must familiarize themselves with the Theses and Dissertations Formatting Guidelines (<https://cssh.northeastern.edu/resources/theses-and-dissertations/>). The guide provides links to formatting tips, sample introductory pages, sample approval record, and deadlines. In addition, a checklist is provided to ensure students have fulfilled the required steps in the commencement clearance process.

### Milestones

Maintaining satisfactory academic progress during doctoral candidacy requires the following:

#### PHD ANNUAL STUDENT PROGRESS REVIEW

Each PhD student will have an annual review of their progress toward the degree. Receipt of financial support administered by the graduate school is contingent upon satisfactory academic progress toward the degree and satisfactory performance in assigned duties. See the CSSH General Regulations (p. 1041) for further details.

#### FIELD WORKSHOP PARTICIPATION

All PhD students registered for Doctoral Dissertation or Continuation who are in residence are expected to regularly attend a field seminar in industrial organization or labor. These seminars meet roughly every week, and their purpose is to assist students in choosing and evaluating dissertation topics as well as advancing and completing their dissertation. All doctoral candidates will be expected to present their research at various stages of writing their dissertation.

#### SEMINAR SERIES PARTICIPATION

All PhD students registered for Doctoral Dissertation or Continuation who are in residence are expected to regularly attend academic seminars by speakers invited to campus through the Department of Economics Seminar Series. Participation in these seminars is an important component of doctoral training and is intended to expose students to current research in their field while helping to develop and hone their own presentation skills.

#### PRACTICAL EXPERIENCE IN APPLIED ECONOMICS PROGRAM

Participation in at least one semester of the Practical Experience in Applied Economics program is required of all students who have reached doctoral candidacy. The program is offered in the spring semester every other year. In this program, a variety of prominent practitioners working in consulting and government agencies in the fields of industrial organization and labor will describe their practical experience applying economics to a variety of consulting and policy problems, including antitrust, regulation, labor market policy, education, and health policy. This is a participatory class that will require advanced reading and preparation of questions for the practitioners in addition to other assignments.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

Three qualifying examinations—microeconomics, macroeconomics, and econometrics

Annual reviews

Dissertation committee

Dissertation proposal

Dissertation defense

Field workshops (and present following completion of coursework)

Economics Seminar Series and Job Talks

Practical Experience in Economics series

### Core Requirements

Code	Title	Hours
<b>Quantitative</b>

## Economics, MS

The Master of Science program focuses on applied economic policy analysis, with broad specialization areas. The program is large enough to support a full slate of core and area courses each year, yet small enough to maintain a sense of community among the students. The program is especially appropriate for those who wish to work in or return to positions in government, teaching, finance, or industry while providing a rigorous basis for those who want to continue their studies to the doctoral level.

The Master of Science in Economics offers the opportunity for master's students to apply for paid work positions through Northeastern University's world-famous co-op program. Qualified and approved master's students can participate in co-op as practicing economists for up to six months as part of their academic program (note that a minimum GPA of 3.000 is required in order to apply). This paid work experience enhances the degree and its emphasis on application. Students have an opportunity to learn how to apply their knowledge, solve problems, and make a difference in the world before they graduate. Our graduates either find full-time work in their area of specialty or go on to earn additional graduate degrees. All of our graduates find jobs after completing our program. For more information, please visit the Master of Science in Economics (<https://cssh.northeastern.edu/economics/program/ms-graduate-program/>) website.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Quantitative</b>		
ECON 5105 or ECON 6105	Math and Statistics for Economists Advanced Mathematics and Statistics for Economists	4
ECON 5140 or ECON 6140	Applied Econometrics Advanced Applied Econometrics	4
<b>Theory</b>		
ECON 5110 or ECON 6110	Microeconomic Theory Advanced Microeconomic Theory	4
ECON 5120 or ECON 6120	Macroeconomic Theory Advanced Macroeconomic Theory	4

#### Electives

With prior approval from the graduate program director, the following courses may substitute for electives: Thesis (ECON 7990) or Internship In Economics (ECON 8550). Additionally, a student may select a maximum of 8 graduate semester hours offered by other departments.

Code	Title	Hours
Complete 16 semester hours from the following range (excluding any class taken to fulfill core requirements above):		16
ECON 5200 to ECON 7772		

#### Concentration in Data Science for Economics

The concentration may be taken in place of the elective section. Seattle students are required to complete the concentration.

Code	Title	Hours
<b>Required</b>		
CS 5800	Algorithms	4
DS 5110	Introduction to Data Management and Processing	4
Complete 4 semester hours from the following courses:		4
DS 5220	Supervised Machine Learning and Learning Theory	
DS 5230	Unsupervised Machine Learning and Data Mining	
DS 5500	Data Science Capstone	
<b>Economics Elective</b>		
Complete 4 semester hours from the following range:		4
ECON 5200 to ECON 7772		

**OPTIONAL CO-OP EXPERIENCE**

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration:		
ECON 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

**Program Credit/GPA Requirements**

32 semester hours required (34 with optional co-op)

Minimum 3.000 GPA required

## English

617.373.2509 (fax)

gradenglish@northeastern.edu

CSSH Graduate Programs General Regulations (p. 1041)

The graduate program in English is grounded in the study of British and American literature through the most current modes of humanistic inquiry and in the disciplines of writing and rhetoric. Both in coursework and through the NULab for Texts, Maps, and Networks (<https://web.northeastern.edu/nulab/>), the graduate program in English also offers training in the digital humanities. Altogether, our degree programs provide a challenging, flexible, and wide-ranging education in English studies today.

### **Programs**

#### **Doctor of Philosophy (PhD)**

- English (p. 1067)

#### **Master of Arts (MA)**

- English (p. 1070)

#### **Graduate Certificate**

- Digital Humanities (p. 1072)

## English, PhD

The PhD program seeks to train students to be productive scholars and teachers in the fields of both literary studies and rhetoric and composition. In course work, students read and analyze the important texts, current issues, and critical methodologies of the discipline. Drawing on the breadth of this preparation, students demonstrate their ability to recognize and produce scholarly arguments in designing the three comprehensive field papers in areas of scholarly interest and competence corresponding to recognized and emerging fields of study. Finally, the dissertation offers students an opportunity to design a focused research project in consultation with a dissertation advisor. Throughout the program, faculty works closely with doctoral students to develop their scholarly and professional identities in preparation for careers.

### Academic Standing/Progress

To be considered in good academic standing, PhD students must be making progress toward their degree requirements, including maintaining a 3.500 minimum cumulative grade-point average (GPA) and completing the comprehensive examination within one year of finishing coursework.

### Doctoral Degree Candidacy

Students entering with a relevant BA must complete 48 semester hours; students entering with a relevant MA must complete 24 semester hours. All students must complete the language requirement, pass the comprehensive examination, and submit their approved prospectus within six months after completing the comprehensive examination to reach candidacy.

### General Regulations

Program requirements are described in the CSSH Graduate Programs General Regulations (p. 1041) and the Graduate Program in English PhD Guide (<https://cssh.northeastern.edu/english/resources/resources-for-current-grad-students/>). Both documents are updated annually.

### Program Requirements

#### Bachelor's Degree Entrance

#### Milestones

- Annual progress review
- Reading proficiency in two languages other than English
- Comprehensive exam
- Dissertation committee
- Dissertation prospectus
- Doctoral degree candidacy
- Public prospectus/dissertation work-in-progress presentation
- Dissertation defense

### Core Requirements

Code	Title	Hours
<b>Proseminar</b>		
ENGL 5103	Proseminar	4
<b>Theories and Methods</b>		
Complete 4 semester hours from the following:		4
ENGL 7351	Topics in Literary Study	
ENGL 7358	Topics in Literature and other Disciplines	
ENGL 7370	Introduction to Digital Humanities	
ENGL 7380	Topics in Digital Humanities	
WMNS 6100	Theorizing Gender and Sexuality	
WMNS 7976	Directed Study (GCWS Consortium, selected topics only)	
<b>Writing and Rhetoric</b>		
Complete 4 semester hours from the following (if completing 12 semester hours of Literary Period requirements).		4-8
Complete 8 semester hours of the following (if completing 8 hours of Literary Period requirements).		
ENGL 7360	Topics in Rhetoric	
ENGL 7392	Writing and the Teaching of Writing	
ENGL 7395	Topics in Writing	
<b>Literary Periods</b>		
Complete 8 semester hours from TWO of the following Literary Periods (if completing 8 semester hours of Writing and Rhetoric requirements), or complete 12 semester hours from THREE of the following Literary Periods (if completing 4 semester hours of Writing and Rhetoric requirements):		
<i>Literature Pre-1700</i>		
ENGL 7281	Topics in Medieval Literature	

1068 English, PhD

ENGL 7282	Topics in Renaissance Literature
<i>Literature 1700–1900</i>

## English, MA

The Master of Arts degree launches students into the study of literature, writing, and rhetoric at the graduate level. The program offers one and a half to two years of intensive study in the major fields of British and American literature, covering the debates and approaches that animate the discipline of English. Our MA graduates are fully prepared to proceed to study at the doctoral level, and their training in critical thinking, language skills, and cultural history has also proven to be fruitful preparation for a range of careers outside of academia.

The master's program offers an optional cooperative education experience to eligible students. Co-op is central to both the Northeastern University experience and the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the co-curricular experiential integration course.

### Academic Standing/Progress

To be considered in good academic standing, MA students must be making progress toward their degree requirements, including maintaining a 3.000 minimum cumulative grade-point average.

### General Regulations

Program requirements are described in the CSSH Graduate Programs General Regulations (p. 1041) and the Graduate Program in English MA Guide (<https://cssh.northeastern.edu/english/resources/resources-for-current-grad-students/>). Both documents are updated annually.

### Program Requirements

#### Milestones

Annual progress review

Reading proficiency in a language other than English

**Program Credit/GPA Requirements**

32 total semester hours required (34 with optional co-op)

Minimum 3.000 GPA required

## Digital Humanities, Graduate Certificate

CSSH Graduate Programs General Regulations (p. 1041)

The Graduate Certificate in Digital Humanities allows students to pursue an organized course of study in digital humanities with the interdisciplinary faculty of the NULab for Texts, Maps, and Networks (<https://cssh.northeastern.edu/nulab/>). This certificate can be completed both by Northeastern University doctoral and master's students in the course of their existing program of study as well as those seeking a stand-alone certificate.

Digital humanities is an emerging field of research that is interdisciplinary in scope and collaborative in nature. The field is developing in relation to new digital technologies that have changed the objects of study, methods, and opportunities for research and teaching in existing humanities fields. Digitized texts are now read and accessed in new ways; digitized corpora of texts make possible new modes of quantitative and qualitative analysis (including "distant reading," text mining, mapping, and network analysis); born digital objects constitute new primary sources in need of humanistic theorization, approaches, and critical vocabularies; and modes of encoding, aggregating, and connecting texts enable the creation of new archival resources that are changing our understanding of the archive itself as well as revealing new historical, literary, and cultural patterns.

The field is new and developing rapidly. Many students are eager for training in this area—both because DH is at the cutting edge of disciplinary work and because it offers new opportunities for employment within the academy and outside of it.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Final Project

The student will complete a final independent DH research project located in the student's home program (such as a thesis, or a portion thereof) or participation in a collaborative DH project with substantial student participation. The final project will be overseen by the NULab faculty members teaching the NULab project seminar during its development; NULab workshop instructors will advise students on their projects and help students get guidance from other faculty as appropriate. Final projects will be submitted with three components: the project itself, a written project description of about 3,000 words, and a presentation to the NULab community. The DH certificate committee will formally approve all final projects.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
Topics/Readings/Methods		
ENGL 7370 or HIST 7370	Introduction to Digital Humanities (Introduction to Digital Humanities) Texts, Maps, and Networks: Readings and Methods for Digital History	4
Lab Project Seminar		
Complete the following (repeatable) course twice:		4

617.373.3661 (fax)

gradhistory@northeastern.edu

CSSH Graduate Programs General Regulations (p. 1041)

Graduate work in history focuses on global and world history, which study the interactions among geographical regions and historical processes around the globe. Students at both the master's and doctoral levels concentrate their work on the history of regions or peoples in Africa, Asia, Europe, Latin America, or the United States, with attention to the intersections and connections between national, regional, and global developments. The Department of History also offers a master's degree with a concentration in public history that emphasizes the study of topics such as material culture, historical exhibits and museums, historical agencies, and archival administration. Recent doctoral students have been the recipients of major fellowships for conducting dissertation research abroad, including Fulbright, Fulbright-Hays, Social Science Research Council, and Chateaubriand fellowships.

### **Programs**

#### **Doctor of Philosophy (PhD)**

- History (p. 1075)

#### **Master of Arts (MA)**

- History (p. 1078)

#### **Graduate Certificate**

- Public History (p. 1080)

## History, PhD

The PhD program, with a focus on global, transnational, and comparative history, seeks to train research historians who plan to teach at the college and university level. Systematic training in theory and methodology and preparation for college teaching are distinctive features of the Northeastern program.

### Academic Standing/Progress

Students are required to maintain an overall GPA of at least 3.500. In addition, the PhD annual review is based on a report by the student's advisor with attention to:

1. Success in setting up a doctoral committee
2. Passing the departmental language examination in the language of their field
3. Successful performance of teaching assistant duties
4. Successful completion of courses in the tiered system (i.e., the required course sequence)
5. Successful completion, where appropriate, of other required activities, including construction of the comprehensive examination list and the dissertation proposal and scheduling of comprehensive examinations

### Doctoral Degree Candidacy

Students entering without an MA in history must complete 45 semester hours of coursework; pass the qualifying examination; and successfully defend a dissertation proposal by the end of the third year in the program. Students entering with an MA in history must complete 37 semester hours of coursework; pass the qualifying examination; and successfully defend a dissertation proposal by the end of the third year in the program. Upon completion of these requirements, students will be deemed PhD degree candidates by the college.

## History, MA

CSSH Graduate Programs General Regulations (p. 1041)

The Master of Arts in History offers two concentrations: public history and world history.

Public history encompasses the practice of history outside the academy in museums, state and local historical societies, archives, the National Park Service, and more. Public history includes the study of such topics as material culture, historical exhibits and museums, historical agencies, archival administration, and how difficult issues including slavery and site of violence are presented to the public.

World history focuses on the history of regions or peoples in Africa, Europe, Latin America, Asia, or the United States, with attention to the intersections and connections between national, regional, and global developments.

The master's program offers an optional cooperative education experience ("co-op") to eligible students. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences as practicing public historians. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

### Academic Standing/Progress

Students are expected to maintain a 3.000 grade-point average (GPA). Should the GPA drop below 3.000, the student will be placed on academic probation and allowed one more semester to bring their GPA to the 3.000 level. If the student is not able to meet this requirement by the end of the following semester, the student may be asked to leave the program.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

The Master of Arts in History offers two concentrations: world history (p. 1078) and public history (p. 1078). The program requires a concentration. Please consult with a Department of History graduate program director for additional details.

### Concentration in World History

#### CORE REQUIREMENTS

Code	Title	Hours
<b>Theory and Methodology</b>		
A grade of B or higher is required:		
HIST 5101	Theory and Methodology 1	4

HIST 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

**Program Credit/GPA Requirements**

32 total semester hours required (34 with optional co-op)

Minimum 3.000 GPA required

## Public History, Graduate Certificate

The Graduate Certificate in Public History allows students to pursue an organized course of study in public history. Students have an opportunity to gain a knowledge of core methods and issues in the field of public history and are enabled to use public history approaches in their own research and work.

Public history is a well-established field of practice that marries academic research and methods to public applications and collaborations. Public historians typically work in museums, archives, historical societies, documentary film production, and social activism, though training in public history is useful to a wide variety of humanistic, social science, and legal fields.

### Program Requirements

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Political Science

Website (<https://www.northeastern.edu/cssh/polisci/>)

### **Costas Panagopoulos, PhD**

Professor and Chair

[c.panagopoulos@northeastern.edu](mailto:c.panagopoulos@northeastern.edu) ([c.panagopoulos@northeastern.edu](mailto:c.panagopoulos@northeastern.edu))

Program Directors and Staff Members (<https://cssh.northeastern.edu/polisci/staff-and-department-leadership/>)

CSSH Graduate Programs General Regulations (p. 1041)

Graduate training in political science prepares students to analyze important issues in world affairs and succeed in a wide array of careers—from government and academia to the nonprofit and private sectors. Graduate programs in political science, public policy, public administration, security and resilience studies, and international affairs at Northeastern University explore the theory and practice of politics, public policy, and public management in the United States and throughout the world. In teaching and research, faculty members in the department cover a broad range of topics and issues in the field of political science. Core areas of inquiry within our department include national and international security, international and U.S. public policy, resilience, network science, European studies, Middle East studies, and democratization and development.

## **Programs**

### **Doctor of Philosophy (PhD)**

- Political Science (p. 1082)

### **Master of Arts (MA)**

- Political Science (p. 1085)

### **Master of Science (MS)**

- Security and Resilience Studies (p. 1088)

### **Graduate Certificate**

- Security and Resilience Studies (p. 1091)

## Political Science, PhD

The Doctor of Philosophy in Political Science is grounded in the core fields of the discipline—American government and politics, comparative politics, international relations, and public policy. Students identify a primary and secondary field as areas of emphasis. The curriculum introduces students to the core fields and also seeks to develop their research skills through a series of methods courses. Students may develop a traditional, academic focus in one of the fields, or they may combine it with public policy to highlight a policy orientation. The program focuses on preparing students to be academic scholars and teachers as well as practitioners in research and public service. The PhD degree includes completion of required courses, passing a written and oral comprehensive examination, and the successful defense of the dissertation before a faculty committee.

### Credit Requirements and Advanced Standing

Students entering with a bachelor's degree must complete 56 semester hours. Students currently in the MA or MPA program and accepted into the PhD program before completing the MA or MPA must complete 56 semester hours as well as all curriculum requirements of the PhD program.

Students entering with a master's degree may receive advanced standing for relevant prior coursework but must complete a minimum of 40 semester hours. Students entering with a Northeastern MA in political science or international affairs must complete a minimum of 24 semester hours while also satisfying all PhD course requirements. Master's-level coursework that results in advanced standing is evaluated by the graduate program director to determine its applicability to the PhD curriculum.

### Doctoral Degree Candidacy

Doctoral degree candidacy is attained after successfully completing all coursework, the comprehensive examination, and the dissertation proposal defense.

### Academic Standing/Progress

All doctoral students must maintain an overall cumulative grade-point average (GPA) of 3.500 while making progress toward the degree requirements. Students who fall below any applicable standard for two consecutive semesters are subject to dismissal from the graduate program. Additionally, receipt of financial support administered by the department, college, or university is contingent on satisfactory academic progress toward the degree and specific guidelines as published in the terms of award. Students who have ungraded courses or courses graded as incomplete risk no longer being eligible for financial aid awards.

### Language Proficiency

Students who conduct research in a language other than English must demonstrate proficiency as necessary for completion of the dissertation. Language courses do not count as electives.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

- Annual review
- Comprehensive examination
- Dissertation committee
- Dissertation proposal
- Dissertation proposal oral defense
- Language (as determined by committee)
- PhD candidacy
- Dissertation defense

### Core Requirements

gradpolisci@northeastern.edu

CSSH Graduate Programs General Regulations (p. 1041)

The Master of Arts program focuses on the core scholarly areas of political science. Students specialize in one of five concentration areas: American government and politics, comparative government and politics, international relations, public policy, and security studies. Courses in the MA program serve as a foundation for work in a doctoral program or as preparation for careers in government, nonprofit organizations, or related work in the private sector.

To earn the Master of Arts in Political Science degree at Northeastern, you must successfully complete 32 semester hours (typically eight courses) of credit. Full-time students can expect to complete the degree within two academic years. Course work consists of 4 semester hours in a required statistics course, 12 semester hours within a chosen concentration, and 16 semester hours of electives (including the experiential education requirement). To see the full breakdown, click the Program Requirements tab above.

### Academic Standing/Progress

Satisfactory progress in the MA program includes maintaining a grade-point average (GPA) of 3.000 overall as well as in the student's concentration area. A final cumulative GPA of at least 3.000 in all course work is required to qualify for the Master of Arts degree. Any course in which a student earns lower than a C grade cannot be used to fulfill concentration area requirements. A student who fails to make satisfactory progress is placed on academic probation, which is a warning that the student may not be allowed to continue in the graduate program unless the deficiency is addressed.

### Experiential Learning Requirement

In addition to in-class course work, students are required to complete an experiential education component that advances their learning, research, and/or career objectives. Experiential education offers MA students a direct experience with focused reflection relevant to their academic studies. For students with research interests, the experience focuses on related activities, such as primary source analysis and data gathering. For other students, the experience involves engagement with areas of practice and policy, such as an internship. Students register for the relevant course with a minimum of 4 semester hours and maximum of 8 semester hours to satisfy the experiential education requirement.

An optional cooperative education experience (co-op) can also satisfy the experiential education requirement. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities Experiential Liberal Arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirement

Code	Title	Hours
<b>Methods Course</b>		
Complete 4 SH from the list below.		4
CS 6220	Data Mining Techniques	
INSH 6300	Research Methods in the Social Sciences	
INSH 6500	Statistical Analysis	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	

#### Concentrations

- American Government and Politics (p. 1085)
- Comparative Politics (p. 1086)
- International Relations (p. 1086)
- Public Policy (p. 1086)
- Security Studies (p. 1087)

#### AMERICAN GOVERNMENT AND POLITICS CONCENTRATION

Code	Title	Hours
<b>Seminar</b>		
POLS 7205	Seminar in American Government and Politics	4

**American Government Courses**

Complete 8 semester hours from the following:		8
POLS 7341	Security and Resilience Policy	
PPUA 5232	Immigration and Urban America	
PPUA 5233	Contemporary Community Development	
PPUA 5234	Land Use and Urban Growth Policy	
PPUA 5240	Health Policy and Politics	
PPUA 5245	Education Policy in the United States	
PPUA 5270	Food Systems and Public Policy	
PPUA 6220	How Healthcare Works: Business and Policy Innovations	
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 6505	Public Budgeting and Financial Management	
PPUA 6522	Administrative Ethics and Public Management	
PPUA 6551	Nonprofit Organizations and Social Change	
PPUA 6552	The Nonprofit Sector in Civil Society and Public Affairs	

**COMPARATIVE POLITICS CONCENTRATION**

Code	Title	Hours
<b>Seminar</b>		
POLS 7206	Seminar in Comparative Politics	4

**Comparative Politics Courses**

Complete 8 semester hours from the following:		8
POLS 7325	Contemporary Issues in Third World Development	
POLS 7346	Resilient Cities	
or PPUA 7346	Resilient Cities	
POLS 7366	Genocide in a Comparative Perspective	
POLS 7376	Government and Politics of the Middle East	
PPUA 5240	Health Policy and Politics	
PPUA 5266	Urban Theory and Science	
PPUA 5268	International Environmental Policy	
PPUA 5270	Food Systems and Public Policy	

**INTERNATIONAL RELATIONS CONCENTRATION**

Code	Title	Hours
<b>Seminar</b>		
POLS 7207	Seminar in International Relations	4

**International Relations Courses**

Complete 8 semester hours from the following:		8
POLS 7341	Security and Resilience Policy	
POLS 7343	Counterterrorism	
POLS 7344	Hard Power, Soft Power, and Smart Power	
POLS 7369	International Security	
POLS 7387	Global Governance	
POLS 7441	Cyberconflict	

**PUBLIC POLICY CONCENTRATION**

Code	Title	Hours
<b>Seminar</b>		
POLS 7204	Seminar in Public Policy	4
or PPUA 6506	Techniques of Policy Analysis	

**Public Policy Courses**

Complete 8 semester hours from the following:		8
POLS 7341	Security and Resilience Policy	
PPUA 5240	Health Policy and Politics	
PPUA 5245	Education Policy in the United States	

PPUA 6500	Principles of Public Administration
PPUA 6506	Techniques of Policy Analysis
PPUA 6507	Institutional Leadership and the Public Manager
PPUA 6509	Techniques of Program Evaluation
PPUA 6552	The Nonprofit Sector in Civil Society and Public Affairs

### SECURITY STUDIES CONCENTRATION

Code	Title	Hours
<b>Seminar</b>		
<b>Security Studies Courses</b>		
POLS 7341	Security and Resilience Policy	4
Complete 8 semester hours from the following:		8
POLS 7207	Seminar in International Relations	
POLS 7343 to POLS 7346		
POLS 7366	Genocide in a Comparative Perspective	
POLS 7369	International Security	
POLS 7376	Government and Politics of the Middle East	
POLS 7387	Global Governance	

### Electives

Code	Title	Hours
Complete 12 semester hours in the following range:		12
POLS 5408 to POLS 7976		

### Experiential Learning Component <sup>1</sup>

Code	Title	Hours
Complete 4 semester hours from the following:		4
POLS 7980	Capstone Project	
POLS 7976	Directed Study	
POLS 7990	Thesis	
POLS 8407	Internship	

### Optional Co-op Experience

Code	Title	Hours
Complete two consecutive semesters of Co-op Work Experience and Experiential Integration: Each of the following courses must be taken twice.		2
POLS 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

32 total semester hours required (34 with optional co-op)  
Minimum 3.000 GPA required

<sup>1</sup> Students who decide to fulfill the Experiential Learning Requirement with the optional Co-op, will enroll in one additional elective course and graduate with 34 semester hours instead of 32.

## Security and Resilience Studies, MS

### Overview

Security and resilience studies is an emerging field of inquiry that focuses on how global, national, and subnational actors manage a range of chronic transnational challenges—such as terrorism, organized crime, weapons proliferation, cyberattacks, bioterrorism, climate change and catastrophic disasters, migration, and radicalization—that can be destabilizing to societies. It explores how strategic doctrines, organization processes, bureaucratic behaviors, and security tools and tactics are adapting to these challenges by placing greater emphasis on resilience. Resilience is a concept rooted in multiple disciplines that is gaining widespread currency at the community, societal, and global levels given the prevalence of human-made and naturally occurring threats that do not lend themselves to preventive and protective measures. Strategies for dealing with these threats emphasize measures that mitigate, respond to, recover from, and adapt to risk in order to safeguard essential functions and societal values. Many of these measures involve the role of technologies, system design, and engineering as well as policy, regulatory, and governance issues. Students at Northeastern who enroll in the Master of Science in Security and Resilience Studies have an opportunity to become prepared to inform and support domestic and international efforts to deal with the major sources of turbulence in the 21st century.

The master's program offers an optional cooperative education experience (co-op) to eligible students. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

To earn the Master of Science in Security and Resilience Studies degree at Northeastern, you must successfully complete 32 semester hours (34 semester hours with co-op). Full-time students can expect to complete the degree within one calendar year. This program can be completed either at Northeastern University's Boston campus or online. Cost per semester hour may vary based on the college that offers the course. See Tuition and Fees (p. 40) for more information.

### Academic Standing/Progress

Satisfactory progress in the MS program includes maintaining a minimum grade-point average of 3.000.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Required Core Courses</b>		
POLS 7341	Security and Resilience Policy <sup>1</sup>	4
<b>Research Method</b>		
INSH 6300 or INSH 6500 or PPUA 5263	Research Methods in the Social Sciences Statistical Analysis Geographic Information Systems for Urban and Regional Policy	4
<b>Core Elective Courses</b>		
Complete 8 semester hours from the following:		8
CRIM 6200	Criminology <sup>1</sup>	
CY 5010	Foundations of Information Assurance <sup>1</sup>	
POLS 7343	Counterterrorism	
POLS 7346 or PPUA 7346	Resilient Cities Resilient Cities	
POLS 7369 or POLS 5408	International Security International Security	
POLS 7441	Cyberconflict	
PPUA 5390	Special Topics in Public Policy and Urban Affairs <sup>1</sup>	

#### Capstone

Code	Title	Hours
Choose one of the following options in consultation with faculty advisor and program director:		
POLS 7980 or PPUA 7673	Capstone Project <sup>1</sup> Capstone in Public Policy and Urban Affairs	4

## Electives

Electives are organized by themes to allow students to think thematically.

Code	Title	Hours
Complete 12 semester hours from any combination of the following elective themes:		12

- Administration, Management, and Policy (p. 1089)
- Counterterrorism and Conflict Studies (p. 1089)
- Criminal Justice (p. )
- Cybersecurity Policy (p. 1089)
- Resilient Cities (p. 1089)

### ADMINISTRATION, MANAGEMENT, AND POLICY

Code	Title	Hours
CRIM 6202	The Criminal Justice Process	
POLS 7387	Global Governance	
POLS 7704	Critical Infrastructure Resilience <sup>1</sup>	
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 6503	Managing People in Public and Nonprofit Sectors <sup>1</sup>	
PPUA 6505	Public Budgeting and Financial Management <sup>1</sup>	
PPUA 6506	Techniques of Policy Analysis <sup>1</sup>	
PPUA 6507	Institutional Leadership and the Public Manager <sup>1</sup>	

### COUNTERTERRORISM AND CONFLICT STUDIES

Code	Title	Hours
CRIM 5201	Global Criminology	
POLS 7343	Counterterrorism	
POLS 7344	Hard Power, Soft Power, and Smart Power	
POLS 7366	Genocide in a Comparative Perspective	
POLS 7369	International Security	
or POLS 5408	International Security	

### CRIMINAL JUSTICE

Code	Title	Hours
CRIM 5201	Global Criminology	
CRIM 6200	Criminology <sup>1</sup>	
CRIM 6202	The Criminal Justice Process	
CRIM 6262	Evidence-Based Crime Policy	

### CYBERSECURITY POLICY

Code	Title	Hours
CY 5001	Cyberspace Technology and Applications	
CY 5010	Foundations of Information Assurance	
CY 5200	Security Risk Management and Assessment	
CY 5210	Information System Forensics	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
CY 5250	Decision Making for Critical Infrastructure	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	
POLS 7441	Cyberconflict <sup>1</sup>	

### RESILIENT CITIES

Code	Title	Hours
CRIM 6200	Criminology	
CRIM 6262	Evidence-Based Crime Policy	
CRIM 6270	Crime and Community Context	

LPSC 7312	Cities, Sustainability, and Climate Change
POLS 7346 or PPUA 7346	Resilient Cities
POLS 7704	Critical Infrastructure Resilience <sup>1</sup>
PPUA 5261	Dynamic Modeling for Environmental Decision Making
PPUA 5262	Big Data for Cities <sup>1</sup>
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 5266	Urban Theory and Science
PPUA 6201	The 21st-Century City: Urban Opportunities and Challenges in a Global Context
PPUA 7237	Advanced Spatial Analysis of Urban Systems

### Optional Co-op Experience

Code	Title	Hours
Four-month co-ops require registration at 1 SH for one term. Longer co-ops require registration at 1 SH per term for two consecutive terms.		1-2
POLS 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

32 total semester hours (33-34 with optional co-op) required  
 Minimum 3.000 GPA required

<sup>1</sup> Occasional online offering

## Security and Resilience Studies, Graduate Certificate

The goal of the Graduate Certificate in Security and Resilience Studies is to prepare students to manage contemporary transnational risks by offering them an opportunity to gain a comprehensive understanding of the principles and policies for security and resilience of critical systems. This goal is achieved by:

- Passing a core course in security and resilience policy that introduces students to a comprehensive approach to managing transnational risks
- Passing recommended foundation courses for cyberspace policy, security administration, and counterterrorism specializations that provide a broad perspective on transnational threats and the means states use to address them
- Learning how to work with others in groups and exercise leadership in teams by completing group assignments and projects

The certificate requires students to take three courses for a total of 12 semester hours. This program can be completed at Northeastern University's Boston campus or online.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirement

Code	Title	Hours
POLS 7341	Security and Resilience Policy	4

#### Electives

Code	Title	Hours
Complete 8 semester hours from the following:		8
CRIM 6200	Criminology	
POLS 7343	Counterterrorism	
POLS 7346	Resilient Cities	
POLS 7369	International Security	
or POLS 5408	International Security	
POLS 7441	Cyberconflict	
PPUA 5390	Special Topics in Public Policy and Urban Affairs	

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## School of Public Policy and Urban Affairs

Website (<https://cssh.northeastern.edu/policyschool/>)

### **Maria Ivanova, PhD**

Director, School of Public Policy and Urban Affairs  
m.ivanova@northeastern.edu

310 Renaissance Park  
617.373.8900  
617.373.7905 (fax)  
sppua@northeastern.edu

The School of Public Policy and Urban Affairs is nationally and internationally recognized for excellence and innovation in policy-oriented education, applied research, and engagement. Our mission is to educate professional master's and doctoral students who are sought after as policy analysts, program evaluators, and leaders of nonprofit, public, private sector, and academic institutions; to create and disseminate policy-relevant knowledge and analytical methods of value to policymakers and the public; and to serve the broader community through policy analysis and technical assistance.

The school is committed to excellence in research and education on pressing and emerging policy issues of the day—public health, climate change, environmental challenges, the court and justice systems, and creating sustainable and resilient cities that provide economic opportunity for their residents. We define our approach as locally informed and internationally relevant. Our hallmark is to engage students in building the world that they would like to live in through experiential learning opportunities and applied research.

### **Programs**

#### **Doctor of Philosophy (PhD)**

- Public Policy (p. 1093)

#### **Master of Arts (MA)**

- International Affairs (p. 1098)

#### **Master of Public Administration (MPA)**

- Public Administration (p. 1100)

#### **Master of Public Policy (MPP)**

- Public Policy (p. 1103)

#### **Master of Science (MS)**

- Engineering and Public Policy (p. 387)
- Environmental Science and Policy (p. 985)
- Urban Informatics (p. 1111)
- Urban Planning and Policy (p. 163)

#### **Dual Degree**

- Law, JD / Public Policy, MPP (p. 781)

#### **Graduate Certificates**

- Nonprofit Sector, Philanthropy, and Social Change (p. 1120)
- Public Policy Analysis (p. 1121)
- Sustainability and Climate Change Policy (p. 1122)
- Urban Analytics
- Urban Studies (p. 1124)

## Public Policy, PhD

Website (<https://cssh.northeastern.edu/policyschool/>)

CSSH Graduate Programs General Regulations (p. 1041)

The PhD in Public Policy is an interdisciplinary program that combines social science and legal theoretical perspectives with quantitative and qualitative research methodologies. The faculty in the School of Public Policy and Urban Affairs support students' research and dissertations in three broad areas of inquiry—urban and regional policy, sustainability and resilience, and health management and policy. Students work with faculty advisors to formulate a plan of study within their field of concentration by choosing from graduate programs offered in the School of Public Policy and Urban Affairs, the College of Social Sciences and Humanities, and in other colleges and schools at Northeastern University. Students study a common body of knowledge in core courses in policy theory, research methods, and statistics, followed by courses in each student's respective concentration. The school's research centers and faculty research projects provide opportunities for students to develop insight, experience, and synergies to help with their own research goals. The college and school offer a high level of support allowing all students to be devoted full time to their studies and research. The program is full time and in residence only.

### Doctoral Degree Candidacy

Complete all required coursework with a minimum 3.500 grade-point average, pass the comprehensive examinations, and defend a dissertation proposal. Students entering without a JD or master's degree must complete 55 semester hours. Students entering with a JD or master's degree must complete 47 semester hours.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

Annual review  
 Comprehensive examination  
 Dissertation committee  
 Dissertation proposal  
 PhD candidacy  
 Dissertation defense

### Core Requirements

A grade of B+ or higher is required in each course.

Code	Title	Hours
<b>Seminar</b>		
POLS 7204	Seminar in Public Policy	4
Complete the following two courses for a minimum of 4 semester hours total:		4
PPUA 7976	Directed Study	
PPUA 9984	Research	
<b>Research and Statistical Methods</b>		
INSH 6300	Research Methods in the Social Sciences	4
INSH 6302	Qualitative Methods	4
INSH 7400	Quantitative Analysis	4
<b>Advanced Methods</b>		
Complete one of the following (an additional concentration elective may be taken in lieu of the advanced methods elective):		4
INSH 7500	Advanced Quantitative Analysis	
or INSH 7600	Multilevel Theorizing and Analysis	

### Experiential Research Residency

A PhD research residency or waiver is required.

Code	Title	Hours
PPUA 9980	Experiential PhD Research Residency	0

### Concentrations

Complete one of the following concentrations:

- Health Policy and Management (p. 1094)
- Sustainability and Resilience (p. 1094)
- Urban and Regional Policy (p. 1095)

## Exam and Dissertation

Code	Title	Hours
<b>Exam Prep</b>		
Only needed for PhD students who have completed all coursework but have not yet passed the comprehensive exam/proposal defense. Repeatable.		
PPUA 8960	Exam Preparation—Doctoral	
<b>Dissertation</b>		
PPUA 9990	Dissertation Term 1	
PPUA 9991	Dissertation Term 2	
<b>Dissertation Continuation</b>		
Following completion of two semesters of dissertation (PPUA 9990 and PPUA 9991), registration in the following class is required in each semester (including summer if the dissertation is submitted in summer) until the dissertation is completed:		
PPUA 9996	Dissertation Continuation	

## Program Credit/GPA Requirements

55 total semester hours required

Minimum 3.500 GPA required

### HEALTH POLICY AND MANAGEMENT CONCENTRATION

Code	Title	Hours
<b>Seminar</b>		
PPUA 6220	How Healthcare Works: Business and Policy Innovations	4
<b>Health Organization</b>		
HRMG 6220	Health Organization Management	3
<b>Business Elective</b>		
Complete 3 semester hours from the following:		3
FINA 6220	Healthcare Finance	
SCHM 6223	Managing Healthcare Supply Chain Operations	
STRT 6220	Strategic Management for Healthcare Organizations	
<b>Law Requirement</b>		
LW 7335	Health Law	3
<b>Electives</b>		
Complete a minimum of 18 semester hours from the following:		18
ECON 7200	Topics in Applied Economics	
LPSC 7311	Strategizing Public Policy	
PPUA 5240	Health Policy and Politics	
PPUA 6509	Techniques of Program Evaluation	
SOCL 7267	Environment, Health, and Society	
SOCL 7287	Social Movements in Health	
PHTH 6000–9999	(public health elective, by advisement)	

### SUSTAINABILITY AND RESILIENCE CONCENTRATION

Code	Title	Hours
<b>Seminar</b>		
PPUA 6101	Environmental Science and Policy Seminar 1	4
<b>Law Requirement</b>		
LW 7329	Environmental Law	3
<b>Electives</b>		
Complete 24 semester hours from the following:		24
CIVE 7110	Critical Infrastructure Resilience	
LPSC 7311	Strategizing Public Policy	

LPSC 7312	Cities, Sustainability, and Climate Change
POLS 7341	Security and Resilience Policy
POLS 7704	Critical Infrastructure Resilience

## International Affairs, MA

School of Public Policy and Urban Affairs (<https://cssh.northeastern.edu/policyschool/>)

We live in an increasingly interconnected global environment where people, goods, ideas, and conflicts traverse borders with rising frequency. Leaders in the activist, policy, and academic spheres must learn not only how to critically analyze these phenomena but also to envisage harnessing their constructive potential. The Master of Arts in International Affairs is an interdisciplinary graduate program dedicated to preparing tomorrow's global citizens.

A holistic approach to enhancing our understanding of the world must span the limits of any one academic field and embrace cross-disciplinary analytical competencies. Spanning several social sciences and humanities, our courses are taught by leading scholars who research democratization, gender, globalization, ethnic conflict and cooperation, human rights and international law, international relations, social activism, social justice, and many other topics. Through its core courses, its two thematic emphases—globalization, development, and social justice and international public policy—as well as global, policy, and methodological electives, this graduate program allows students to pursue a variety of themes.

The master's program offers an optional cooperative education experience ("co-op") to eligible students. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

Please review the tuition and fee (p. 31) page as credit costs differ depending on the College in which the course is located.

### Sustainability and Climate Change Policy Concentration

This graduate concentration is available to students in the Master of International Affairs (MIAF) program in the College of Social Sciences and Humanities. It is designed to enable MIAF students to develop deeper insights into the policy dimensions of these intertwined but conceptually distinct realms of inquiry and action, and in both domestic and international domains. The concentration is comprised of three courses.

CSSH Graduate Programs General Regulations (p. 1041)

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Political Economy</b>		
Complete 8 semester hours from the following:		8
POLS 7387	Global Governance	
PPUA 5268	International Environmental Policy	
SOCL 7221	Globalization, Development, and Social Justice	
<b>Social Science Methods</b>		
Complete 4 semester hours from the following:		4
ECON 5110	Microeconomic Theory	
ECON 5120	Macroeconomic Theory	
ECON 7251	International Finance	
INSH 6300	Research Methods in the Social Sciences	
INSH 6500	Statistical Analysis	
INSH 6302	Qualitative Methods	
<b>Public Policy</b>		
Complete 4 semester hours from the following:		4
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 6506	Techniques of Policy Analysis	
PPUA 6507	Institutional Leadership and the Public Manager	

PPUA 6509	Techniques of Program Evaluation
PPUA 6551	Nonprofit Organizations and Social Change

### Concentration Option or Elective Option

#### SUSTAINABILITY AND CLIMATE CHANGE POLICY CONCENTRATION

Code	Title	Hours
Complete 12 semester hours from the following course list:		12
ENVR 6150	Food Security and Sustainability	
LPSC 7312	Cities, Sustainability, and Climate Change	
PPUA 5100	Climate and Development	
PPUA 5231	Transportation Policy	
PPUA 5234	Land Use and Urban Growth Policy	
PPUA 5238	Climate Change and Global Urbanization	
PPUA 5249	Sustainable Urban Coastal Policy	
PPUA 5260	Ecological Economics	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	
PPUA 5270	Food Systems and Public Policy	
PPUA 6101	Environmental Science and Policy Seminar 1	

Complete 8 semester hours of elective courses from the list below: 8

#### ELECTIVES OPTION

Selected in consultation with faculty advisor.

Code	Title	Hours
Complete 20 semester hours from the following list of courses:		20
INTL 7990	Thesis	
LPSC 5000 to LPSC 7999		
PPUA 5000 to PPUA 7999		
CRIM 5000 to CRIM 7999 (by advisement only)		
ECON 5000 to ECON 7999 (by advisement only)		
ENGL 5000 to ENGL 7999 (by advisement only)		
HIST 5000 to HIST 7999 (by advisement only)		
POLS 5000 to POLS 7999 (by advisement only)		
SOCL 5000 to SOCL 7999 (by advisement only)		

### Optional Co-op Experience

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration. Each of the following courses must be taken twice.		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

36 total semester hours required (38 with optional co-op)

Minimum 3.000 GPA required

## Public Administration, MPA

Website (<https://publicaffairs.northeastern.edu/master-of-public-administration/>)

CSSH Graduate Programs General Regulations ([https://www.northeastern.edu/cssh/graduate/current\\_students/](https://www.northeastern.edu/cssh/graduate/current_students/))

The Master of Public Administration is the management and leadership degree for those seeking to serve the public good. The program seeks to equip its students with skills in policy analysis, program evaluation, research methods, and written and verbal communications.

Students have an opportunity to develop competencies in budgeting and human resources, organizational management and leadership, and the interplay between ethics and accountability in a diverse society.

Throughout the degree program, students gain career-oriented experience through internships, small group projects, and other interactions with professionals in the field. These experiences are designed to enable the Northeastern University MPA graduate to move into a wide array of public and nonprofit sector positions at the local, state, national, and international levels. The Northeastern MPA program is nationally accredited by NASPAA.

### Mission Statement

The mission of the MPA program at Northeastern is to serve the needs of the public affairs community, including students, working professionals, faculty, and researchers, by providing a practice-oriented and research-based graduate educational experience. The faculty pledges the best instruction available in a set of courses designed to integrate theoretical foundations with practical skills. The MPA program is designed to prepare students to be effective in a dynamic and increasingly diverse professional environment. We also commit ourselves to assisting students in every possible way to secure internships, postgraduate employment, and overall career advancement. Students, in turn, are expected to meet high levels of academic excellence combined with ethical and professional integrity. Committed to the ideals of public service and advancing the public interest, we seek students who share the same enthusiasm.

The MPA program requires all students to pursue an internship experience and offers an optional cooperative education experience to eligible students. Co-op is central to both the Northeastern experience and to the experiential liberal arts framework of the College of Social Sciences and Humanities. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States.

### Healthcare Management and Policy Concentration

This graduate concentration is available to students in the MPA program in the School of Public Policy and Urban Affairs. It is designed to enable students in the MPA program to develop a deeper understanding of the contemporary healthcare sector, including the intricacies of U.S. health policy, and competencies in healthcare management. The concentration is comprised of three courses, one from each of three focus areas, and an elective.

Please review the tuition and fees (<https://studentfinance.northeastern.edu/billing-payments/tuition-and-fees/>) page as credit costs differ depending on the college that offers the course.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose cumulative GPA falls below 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

A cumulative 3.000 grade-point average is required for the core requirements.

Code	Title	Hours
<b>Quantitative Techniques</b>		
INSH 6500	Statistical Analysis	4
<b>Analysis</b>		
PPUA 6506	Techniques of Policy Analysis	4
PPUA 6502	Economic Analysis for Policy and Planning	4
<b>Administration and Management</b>		
PPUA 6500	Principles of Public Administration	4
PPUA 6505	Public Budgeting and Financial Management	4
PPUA 6507	Institutional Leadership and the Public Manager	4
<b>Capstone</b>		
PPUA 7673	Capstone in Public Policy and Urban Affairs	4

## Internship Requirement

Code	Title	Hours
PPUA 6861	Internship	0

## Concentration or Electives Option

A concentration is not required. Students may complete electives (from the elective list below) in lieu of a concentration.

- Healthcare Management and Policy Concentration (p. 1101)
- Electives Option (p. 1101)

## Optional Co-op Experience

Code	Title	Hours
Both of the following courses must be taken during each co-op semester:		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

## Program Credit/GPA Requirements

40 total semester hours required (42 with optional co-op)

Minimum 3.000 GPA

## HEALTHCARE MANAGEMENT AND POLICY CONCENTRATION

Code	Title	Hours
<b>Health Management</b>		
Complete one of the following:		3-4
HRMG 6220	Health Organization Management	
PPUA 6220	How Healthcare Works: Business and Policy Innovations	
STRT 6220	Strategic Management for Healthcare Organizations	
<b>Health Policy</b>		
Complete one of the following:		3-4
PHTH 5212	Public Health Administration and Policy	
PHTH 5234	Economic Perspectives on Health Policy	
PPUA 5240	Health Policy and Politics	
<b>Electives</b>		
<i>Health Elective</i>		
Complete one of the following:		3
PHTH 5120	Race, Ethnicity, and Health in the United States	
PHTH 5212	Public Health Administration and Policy	
PHTH 5214	Environmental Health	
PHTH 5222	Health Advocacy	
PHTH 5230	Global Health	
PHTH 6200	Principles and History of Urban Health	
PHTH 6204	Society, Behavior, and Health	
<i>General Elective</i>		
Complete an additional course from the health elective list above or one of the following:		2-3
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management	
PPUA 6216	Research Toolkit for Urban and Regional Policy: Grant Writing	

## ELECTIVES OPTION

Code	Title	Hours
Complete 12 semester hours from the following:		12
LPSC 5000 to LPSC 7999		
PPUA 5000 to PPUA 7999		
CRIM 5000 to CRIM 7999 (by advisement only)		
ECON 5000 to ECON 7999 (by advisement only)		
ENGL 5000 to ENGL 7999 (by advisement only)		
HIST 5000 to HIST 7999 (by advisement only)		

1102 Public Administration, MPA

POLS 5000 to POLS 7999 (by advisement only)

SOCL 5000 to SOCL 7999 (by advisement only)

## Public Policy, MPP

School of Public Policy and Urban Affairs (<https://cssh.northeastern.edu/policyschool/>)

CSSH Graduate Programs General Regulations (p. 1041)

The Master of Public Policy is the recognized industry standard for those seeking careers in public policy analysis and design. The MPP degree emphasizes the analysis of data and other relevant information to enable graduates to assess public problems, develop appropriate policy responses, and evaluate program effectiveness. MPP graduates enter careers as policy analysts, researchers, consultants, program evaluators, and policymakers in a broad range of public and nonprofit settings, ranging from the local to the international, and in the private sector. At Northeastern, the MPP joins the nationally accredited Master of Public Administration as well as our Master of Science in Urban Planning and Policy, Master of Science in Urban Informatics, Master of Science in Environmental Science and Policy, and Master of Arts in International Affairs. As such, MPP students are part of a larger School of Public Policy and Urban Affairs community of great intellectual and policy area diversity.

The MPP programs require all students to engage in an internship experience and offer an optional cooperative education experience to eligible students. Cooperative education is central to both the Northeastern experience and to the experiential liberal arts framework of the College of Social Sciences and Humanities. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States.

### Healthcare Management and Policy Concentration

This graduate concentration is available to students in the MPP program in the School of Public Policy and Urban Affairs. It is designed to enable students in the MPP program to develop a deeper understanding of the contemporary healthcare sector, including the intricacies of U.S. health policy, and competencies in healthcare management. The concentration is comprised of three courses, one from each of three focus areas, and an elective.

### Sustainability and Climate Change Policy Concentration

This graduate concentration is available to students in the MPP program in the College of Social Sciences and Humanities. It is designed to enable MPP students to develop deeper insights into the policy dimensions of these intertwined but conceptually distinct realms of inquiry and action, in both domestic and international domains. The concentration is comprised of three courses.

Please review the tuition and fees (p. 40) page as credit costs differ depending on the college the course is located in.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Methods, Statistics, and Applications Core</b>		
INSH 6300	Research Methods in the Social Sciences	4
INSH 6500	Statistical Analysis	4
PPUA 6509 or PPUA 6506	Techniques of Program Evaluation Techniques of Policy Analysis	4
<b>Policy Frameworks and Practice Core</b>		
LPSC 7311	Strategizing Public Policy	4
PPUA 6502	Economic Analysis for Policy and Planning	4
PPUA 7673	Capstone in Public Policy and Urban Affairs	4
<b>Methods and Statistics Elective</b>		
Complete 4 semester hours from the following: 4		
INSH 7400	Quantitative Analysis	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5262	Big Data for Cities	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	

#### Internship Requirement

Code	Title	Hours
PPUA 6861	Internship	0

## Concentration or Electives Options

A concentration is not required. Students may complete electives (from the elective list below) in lieu of a concentration.

- Healthcare Management and Policy Concentration (p. 1104)
- Sustainability and Climate Change Policy Concentration (p. 1104)
- Electives Option (p. 1105)

## Optional Co-op Experience

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration:		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

## Program Credit/GPA Requirements

40 total semester hours required (42 with optional co-op)

Minimum 3.000 GPA required

### HEALTHCARE MANAGEMENT AND POLICY CONCENTRATION

Code	Title	Hours
<b>Health Management</b>		
Complete one of the following:		3-4
HRMG 6220	Health Organization Management	
PPUA 6220	How Healthcare Works: Business and Policy Innovations	
STRT 6220	Strategic Management for Healthcare Organizations	
<b>Health Policy</b>		
Complete one of the following:		3-4
PHTH 5212	Public Health Administration and Policy	
PHTH 5234	Economic Perspectives on Health Policy	
PPUA 5240	Health Policy and Politics	
<b>Electives</b>		
<i>Health Elective</i>		
Complete one of the following:		3
PHTH 5120	Race, Ethnicity, and Health in the United States	
PHTH 5212	Public Health Administration and Policy	
PHTH 5214	Environmental Health	
PHTH 5222	Health Advocacy	
PHTH 5230	Global Health	
PHTH 6200	Principles and History of Urban Health	
PHTH 6204	Society, Behavior, and Health	
<i>General Elective</i>		
Complete an additional course from the health elective list above or one of the following:		2-3
PPUA 6202	Research Toolkit for Python for Policy	
PPUA 6203	Research Toolkit for Effective Communications for Policy Impact	
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management	
PPUA 6216	Research Toolkit for Urban and Regional Policy: Grant Writing	

### SUSTAINABILITY AND CLIMATE CHANGE POLICY CONCENTRATION

Code	Title	Hours
Complete 12 semester hours from the following:		12
ENVR 6150	Food Security and Sustainability	
LPSC 7312	Cities, Sustainability, and Climate Change	
PPUA 5100	Climate and Development	
PPUA 5260	Ecological Economics	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	

PPUA 5270 Food Systems and Public Policy

PPUA 6101 Environmental Science and Policy Seminar 1

**ELECTIVES OPTION**

Code	Title	Hours
Complete 12 semester hours from the following:		
LPSC 5000 to LPSC 7999		12
PPUA 5000 to PPUA 7999		
CRIM 5000 to CRIM 7999 (by advisement only)		
ECON 5000 to ECON 7999 (by advisement only)		
ENGL 5000 to ENGL 7999 (by advisement only)		
HIST 5000 to HIST 7999 (by advisement only)		
POLS 5000 to POLS 7999 (by advisement only)		
SOCL 5000 to SOCL 7999 (by advisement only)		

## Engineering and Public Policy, MS

For program contact information, please visit the College of Engineering website (<https://cee.northeastern.edu/academics/graduate-studies/ms-cepp/>).

The purpose of this degree is to provide students with a background in engineering with the tools necessary to conduct robust policy analysis. It includes required core courses from the Department of Civil and Environmental Engineering and the School of Public Policy and Urban Affairs, complemented by electives in engineering and public policy, which can be met by two courses and a master's report (recommended), or by one course and a thesis, or by three courses. A minimum of 16 semester hours must be taken in the College of Engineering.

Degree Requirements	With Report	With Thesis	Coursework Only
Required core courses	20 SH	20 SH	20 SH
Other electives	8 SH	4 SH	12 SH
Master of Science report/thesis	4 SH	8 SH	
Minimum semester hours required	32 SH	32 SH	32 SH

### Graduate Certificate Options

Students enrolled in a master's degree have the opportunity to also pursue one of the many engineering graduate certificate options in addition to or in combination with the MS degree. Students should consult their faculty advisor regarding these options (p. 567).

#### GORDON INSTITUTE OF ENGINEERING LEADERSHIP

##### Master's Degree in Engineering and Public Policy with Graduate Certificate in Engineering Leadership

Students may complete a Master of Science in Engineering and Public Policy in addition to earning a Graduate Certificate in Engineering Leadership (p. 551). Students must apply and be admitted to the Gordon Engineering Leadership Program in order to pursue this option. The program requires fulfillment of the 16 semester-hour curriculum required to earn the Graduate Certificate in Engineering Leadership, which includes an industry-based challenge project with multiple mentors. The integrated 36-semester-hour degree and certificate will require 20 hours of advisor-approved technical courses.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Sustainable Engineering and Systems Modeling Requirements

Code	Title	Hours
Complete 12 semester hours from the following:		12
CIVE 5261	Dynamic Modeling for Environmental Investment and Policymaking	
or PPUA 5261	Dynamic Modeling for Environmental Decision Making	
CIVE 5275	Life Cycle Assessment of Materials, Products, and Infrastructure	
CIVE 5363	Climate Science, Engineering Adaptation, and Policy	
CIVE 6566	Sustainable Urban Transportation: Netherlands	
CIVE 6777	Climate Hazards and Resilient Cities Abroad	
CIVE 6778	Climate Adaptation and Policy Abroad	
CIVE 7100	Time Series and Geospatial Data Sciences	
CIVE 7110	Critical Infrastructure Resilience	
CIVE 7150	Data-Driven Decision Support for Civil and Environmental Engineering	
CIVE 7151	Urban Informatics and Processing	
CIVE 7155	Dynamics and Control of Infrastructure Systems	
CIVE 7272	Air Quality Management	
EECE 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
IE 5500	Systems Engineering in Public Programs	
IE 5640	Data Mining for Engineering Applications	
IE 6200	Engineering Probability and Statistics	
IE 7280	Statistical Methods in Engineering	
ME 5645	Environmental Issues in Manufacturing and Product Use	
SBSY 5100	Sustainable Design and Technologies in Construction	
SBSY 5200	Sustainable Engineering Systems for Buildings	

## Public Policy and Analysis Requirements

Code	Title	Hours
Complete 8 semester hours from the following:		8
ECON 7266	Economics of Government	
INSH 5301	Introduction to Computational Statistics	
INSH 6300	Research Methods in the Social Sciences	
INSH 6500	Statistical Analysis	
INSH 7400	Quantitative Analysis	
LPSC 7311	Strategizing Public Policy	
PPUA 5246	Participatory Modeling for Collaborative Decision Making	
PPUA 5260	Ecological Economics	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management	
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 6506	Techniques of Policy Analysis	
PPUA 6509	Techniques of Program Evaluation	
PPUA 6525	Institutions and Public Policy	
PPUA 7237	Advanced Spatial Analysis of Urban Systems	

## Options

Complete one of the following options:

### COURSEWORK OPTION

Code	Title	Hours
Complete 12 semester hours from the Elective Course List below.		12

### REPORT OPTION

Code	Title	Hours
CIVE 8674	Master's Report	4
Complete 8 semester hours from the Elective Course List below.		8

### THESIS OPTION

Code	Title	Hours
CIVE 7990	Thesis	8
Complete 4 semester hours from the Elective Course List below.		4

## Elective Course List

Code	Title	Hours
CIVE 5150	Climate and Atmospheric Change	
CIVE 5250	Organic Pollutants in the Environment	
CIVE 5271	Solid and Hazardous Waste Management	
CIVE 5280	Remote Sensing of the Environment	
CIVE 5281	Coastal Dynamics and Design	
CIVE 5300 and CIVE 5301	Environmental Sampling and Analysis and Lab for CIVE 5300	
CIVE 5670	Global Biogeochemistry	
CIVE 7230	Legal Aspects of Civil Engineering	
CIVE 7392	Special Topics in Environmental Engineering (Equity in Civil and Environmental Engineering)	
EMGT 6225	Economic Decision Making	
ENVR 5210	Environmental Planning	
ENVR 5260	Geographical Information Systems	
ENVR 6102	Environmental Science and Policy Seminar 2	
INSH 7400	Quantitative Analysis	
INTL 5100	Climate and Development	
LPSC 7311	Strategizing Public Policy	

LPSC 7312	Cities, Sustainability, and Climate Change
PHTH 5214	Environmental Health
PHTH 5230	Global Health
PPUA 5249	Sustainable Urban Coastal Policy
PPUA 5262	Big Data for Cities
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change
PPUA 5268	International Environmental Policy
PPUA 5270	Food Systems and Public Policy
PPUA 6101	Environmental Science and Policy Seminar 1
PPUA 6201	The 21st-Century City: Urban Opportunities and Challenges in a Global Context
PPUA 7346	Resilient Cities

**Program Credit/GPA Requirements**

32 total semester hours required

Minimum 3.000 GPA required

## Environmental Science and Policy, MS

The Master of Science in Environmental Science and Policy program emphasizes a broadly interdisciplinary and synthetic approach that integrates knowledge in the environmental sciences (conservation biology, climate change, fisheries science, ecosystem function, biodiversity, restoration ecology) with the social sciences (policy, economics, sociology, political science, and development) and humanities (environmental history, philosophy, and ethics). The goal of the program is to equip professionals with substantive breadth in knowledge and skills at the intersection of environmental science and policy. The program focuses on training students to think critically about the underlying causes of environmental problems and understanding the reciprocal relationships between coupled human-natural ecosystems and the interconnections between social and technological innovations. The program explores practical approaches and potential solutions that decision makers need to evaluate in policy debates related to promoting environmental sustainability.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Seminars</b>		
PPUA 6101	Environmental Science and Policy Seminar 1	4
ENVR 6102	Environmental Science and Policy Seminar 2	4
<b>Skills Courses</b>		
Complete 2 courses from the following. At least one course needs to be taken from the College of Science Skills Course List and one course from the College of Social Sciences and Humanities Skills Course List.		8
<i>College of Science Skills Course List</i>		
EEMB 5130	Population Dynamics	
EEMB 5522	Experimental Design Marine Ecology	
ENVR 5150	Climate and Atmospheric Change	
ENVR 5210	Environmental Planning	
ENVR 5240	Sedimentary Basin Analysis	
ENVR 5260	Geographical Information Systems	
ENVR 5450	Applied Social-Ecological Systems Modeling	
ENVR 6500	Biostatistics	
<i>College of Social Sciences and Humanities Skills Course List</i>		
INSH 5301	Introduction to Computational Statistics

## Urban Informatics, MS

The Master of Science in Urban Informatics (MSUI) degree couples comprehensive data analytics skills with an understanding of the big questions faced by cities in the 21st-century city. This cutting-edge program is built upon a unique cross-college initiative, which offers comprehensive state-of-the-art training in the core skills of data analytics—including quantitative analysis, data mining, machine learning, and data visualization. Urban informatics students supplement training in these foundational skills with a specialized sequence of courses that address how data and technology are being used to tackle key social, infrastructural, and environmental challenges.

By combining a theoretically informed perspective of cities with advanced skills in accessing, managing, analyzing, and communicating insights from large complex, datasets, graduates are a part of the next wave of urban professionals ready to lead in the public, private, and nonprofit sectors. Given the continuous growth in urban data and technology, these professionals are essential to shaping the future of urban areas around the globe.

This program provides a uniquely integrated urban and informatics degree with a substantial experiential education component. The focus throughout is on practical application, and students have multiple opportunities to apply what they are learning.

The master's program offers an optional cooperative education experience (co-op) to eligible students. Co-op education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

Please review the tuition and fee (p. 31) page as credit costs differ depending on the college in which the course resides.

### Climate and Resilience Concentration

This graduate concentration is available to students in the MSUI who want to specialize in the policy challenges that arise from climate change and the methodological tools designed to respond to them, especially those that help us understand and instill resilience in communities that are vulnerable to disruption. The concentration is comprised of three courses: a methods and applications course specific to the concentration; an analysis course specific to the concentration; and the requirement to complete a capstone or practicum relevant to climate and resilience.

### Communities and Economic Development Concentration

This graduate concentration is available to students in the MSUI who want to specialize in the policy challenges associated with neighborhoods and communities and the methodological tools for addressing them. This includes examining more closely how communities work and the types of interventions that can help them to thrive and prosper. The concentration is comprised of three courses: a methods and applications course specific to the concentration; an analysis course specific to the concentration; and the requirement to complete a capstone or practicum relevant to communities and economic development.

### Transportation and Infrastructure Concentration

This graduate concentration is available to students in the MSUI who want to specialize in the policy challenges and methods associated with transportation and related infrastructure. This includes questions of policy and operations pertaining to traffic management and public transit and the skills for analyzing mobility decisions. The concentration is comprised of three courses: a methods and applications course specific to the concentration; an analysis course specific to the concentration; and the requirement to complete a capstone or practicum relevant to transportation or infrastructure.

CSSH Graduate Programs General Regulations (p. 1041)

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Data Science Courses</b>		
DA 5020 or DA 5030 or PPUA 7237	Collecting, Storing, and Retrieving Data Introduction to Data Mining/Machine Learning Advanced Spatial Analysis of Urban Systems	4
INSH 5301	Introduction to Computational Statistics	4
INSH 5302	Information Design and Visual Analytics	4

PPUA 5263	Geographic Information Systems for Urban and Regional Policy	4
<b>Methods and Applications</b>		
PPUA 5262	Big Data for Cities	4

### Concentrations

- No concentration (p. 1112)
- Climate and Resilience (p. 1112)
- Communities and Economic Development (p. 1113)
- Transportation and Infrastructure (p. 1113)

### NO CONCENTRATION

Code	Title	Hours
<b>Methods and Applications</b>		
PPUA 5266	Urban Theory and Science	4
<b>Analysis</b>		
Complete 4 semester hours from the following:		4
INSH 6101	Agent-Based Modeling for Applied and Social Sciences	
INSH 6406	Analyzing Complex Digitized Data	
POLS 7334	Social Networks	
PPUA 5246	Participatory Modeling for Collaborative Decision Making	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 6202	Research Toolkit for Python for Policy	
PPUA 6203	Research Toolkit for Effective Communications for Policy Impact	
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management (2 semester hours)	
PPUA 6216	Research Toolkit for Urban and Regional Policy: Grant Writing (2 semester hours)	
<b>Practicum or Capstone</b>		
PPUA 6966 or PPUA 7673	Practicum Capstone in Public Policy and Urban Affairs	4
<b>Portfolio</b>		
PPUA 6410	Urban Informatics Portfolio	1

### CLIMATE AND RESILIENCE CONCENTRATION

Code	Title	Hours
<b>Methods and Applications</b>		
Complete 4 semester hours from the following:		4
PPUA 5246	Participatory Modeling for Collaborative Decision Making	
PPUA 5260	Ecological Economics	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	
PPUA 6101	Environmental Science and Policy Seminar 1	
PPUA 7346	Resilient Cities	
<b>Analysis</b>		
Complete 4 semester hours from the following:		4
INSH 6101	Agent-Based Modeling for Applied and Social Sciences	
INSH 6302	Qualitative Methods	
POLS 7334	Social Networks	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
CIVE 7000-level Special Topics in Engineering—approved by program director		
<b>Practicum or Capstone</b>		
Complete topic-focused capstone or practicum approved by program director:		4
PPUA 6966 or PPUA 7673	Practicum Capstone in Public Policy and Urban Affairs	
<b>Portfolio</b>		
PPUA 6410	Urban Informatics Portfolio	1

**COMMUNITIES AND ECONOMIC DEVELOPMENT CONCENTRATION**

Code	Title	Hours
<b>Methods and Applications</b>		
Complete 4 semester hours from the following:		4
CRIM 6270	Crime and Community Context	
IE 7374	Special Topics in Industrial Engineering (Sharing Economy Systems)	
PPUA 5230	Housing Policy	
PPUA 5235	Participatory Community Planning Methods	
PPUA 5246	Participatory Modeling for Collaborative Decision Making	
PPUA 5265	Global Urbanization and Planning	
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 6552	The Nonprofit Sector in Civil Society and Public Affairs	
<b>Analysis</b>		
Complete 4 semester hours from the following:		4
INSH 6101	Agent-Based Modeling for Applied and Social Sciences	
INSH 6302	Qualitative Methods	
INSH 6406	Analyzing Complex Digitized Data	
POLS 7334	Social Networks	
PPUA 6509	Techniques of Program Evaluation	
<b>Practicum or Capstone</b>		
Complete topic-focused capstone or practicum approved by program director:		4
PPUA 6966	Practicum	
or PPUA 7673	Capstone in Public Policy and Urban Affairs	
<b>Portfolio</b>		
PPUA 6410	Urban Informatics Portfolio	1

**TRANSPORTATION AND INFRASTRUCTURE CONCENTRATION**

Code	Title	Hours
<b>Methods and Applications</b>		
Complete one of the following:		4
IE 7374	Special Topics in Industrial Engineering (Sharing Economy Systems)	
PPUA 5246	Participatory Modeling for Collaborative Decision Making	
PPUA 7346	Resilient Cities	
<b>Analysis</b>		
Complete 4 semester hours from the following:		4
CIVE 7110	Critical Infrastructure Resilience	
CIVE 7380	Performance Models and Simulation of Transportation Networks	
CIVE 7381	Transportation Demand Forecasting and Model Estimation	
INSH 6101	Agent-Based Modeling for Applied and Social Sciences	
NETS 7350	Bayesian and Network Statistics	
CIVE 7000-level Special Topics in Engineering—approved by program director		
<b>Practicum or Capstone</b>		
Complete topic-focused capstone or practicum approved by program director:		4
PPUA 6966	Practicum	
or PPUA 7673	Capstone in Public Policy and Urban Affairs	
<b>Portfolio</b>		
PPUA 6410	Urban Informatics Portfolio	1

**OPTIONAL CO-OP EXPERIENCE**

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration:		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

**Program Credit/GPA Requirements**

33 total semester hours required (35 with optional co-op)

1114 Urban Informatics, MS

Minimum 3.000 GPA required

## Urban Planning and Policy, MS

The Master of Science in Urban Planning and Policy program trains leaders interested in building just and sustainable solutions to today's critical urban problems. Students in the program develop the theoretical and analytical tools to understand contemporary challenges of social, racial, and environmental injustice in cities and urban regions. They develop professional tools to work effectively in the realms of planning, policy, politics, and advocacy to impact urban challenges, including affordable housing provision, equitable and sustainable economic growth, sustainable transportation, and climate change adaptation and mitigation. This innovative program combines the expertise in urban planning and policy analysis data analytics of the School of Public Policy and Urban Affairs with expertise in physical planning, design, and data visualization at the School of Architecture. The core curriculum of the program provides students with a solid foundation in essential skills and concepts, including techniques of effective community engagement, research design and statistics, economic analysis, legal foundations of urban planning and policy, and the history of urban development and urban planning. Students also have the opportunity to develop substantial expertise in a specialization area, including urban analytics, urban sustainability and resilience, urban design and physical planning, and urban development policy and planning.

The optional cooperative education experience (co-op) is available to eligible students. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

In addition to the co-op option, students in the program have opportunities to gain experience in the application of their knowledge and skills via internships, class projects, and a capstone research report. They graduate prepared for careers working for state and local government, federal agencies, community development corporations and other nonprofit organizations, research institutes, and as private-sector planning consultants.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Planning and Policy</b>		
PPUA 6201	The 21st-Century City: Urban Opportunities and Challenges in a Global Context	4
PPUA 6502	Economic Analysis for Policy and Planning	4
SUEN 6340	Topics in Urban Environmental Design	4
<b>Research Design</b>		
INSH 6300	Research Methods in the Social Sciences	4
<b>Quantitative Techniques</b>		
Students in the urban analytics focus area are encouraged to take INSH 5301.		
Choose one from the following:		4
INSH 5301	Introduction to Computational Statistics	
INSH 6500	Statistical Analysis	
<b>Planning Law</b>		
Choose one from the following:		2-4
LPSC 5201	Law and the City	
PPUA 5201	Urban Planning and the Law	
<b>Planning and Social Justice</b>		
Choose one from the following:		2-4
PPUA 5233	Contemporary Community Development	
PPUA 5235	Participatory Community Planning Methods	
PPUA 6219	Race, Justice, and Belonging in Planning Practice	

#### Focus Areas

Complete one of the following focus areas:

- Urban Design and Physical Planning (p. 164)
- Urban Analytics (p. 164)
- Sustainability and Resilience (p. 164)
- Urban Development Policy and Planning (p. 165)

**URBAN DESIGN AND PHYSICAL PLANNING**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Gateway Course</b>		
ARCH 6340	Graduate Topics in Architecture	4
<b>Tracks</b>		
Complete one of the following tracks:		8
<i>Urban Design and Real Estate</i>		
ARCH 5310	Design Tactics and Operations	
ARCH 5530	Innovative Models in Real Estate Development and Design	
<i>Physical Planning and Design for Sustainable Urbanism</i>		
SUEN 7230	Urban Ecologies and Technologies 1	
SUEN 7240	Urban Ecologies and Technologies 2	
<i>Urban Experience Track</i>		
ARTG 5150 and ARTG 5151	Information Visualization Principles and Practices and Information Design Critique Seminar	
ARTG 6310	Design for Behavior and Experience	
<b>Capstone</b>		
SUEN 6120	Graduate Studio 2: Sustainable Urban Systems	6

**URBAN ANALYTICS**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Gateway Course</b>		
PPUA 5262	Big Data for Cities	4

PPUA 5263	Geographic Information Systems for Urban and Regional Policy	4
<b>Capstone</b>		
PPUA 7673	Capstone in Public Policy and Urban Affairs	4

**SUSTAINABILITY AND RESILIENCE**

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Gateway Course</b>		
LPSC 7312 or SUEN 6310	Cities, Sustainability, and Climate Change Cities, Nature, and Design in Contemporary History and Theory	4
<b>Methods</b>		
Complete one of the following:		4
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
SUEN 7230	Urban Ecologies and Technologies 1	
<b>Capstone</b>		
PPUA 7673	Capstone in Public Policy and Urban Affairs	4
<b>Elective</b>		
Complete one of the following:		4
PPUA 5231	Transportation Policy	
PPUA 5234	Land Use and Urban Growth Policy	
PPUA 5238	Climate Change and Global Urbanization	
PPUA 5249	Sustainable Urban Coastal Policy	
PPUA 5260	Ecological Economics	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
SUEN 6110	Graduate Studio 1: Sustainable Urban Sites	
SUEN 6120	Graduate Studio 2: Sustainable Urban Systems	
SUEN 6220	Implementation and Visualization for Urban Environments 2	
SUEN 6310	Cities, Nature, and Design in Contemporary History and Theory	

SUEN 6340	Topics in Urban Environmental Design
SUEN 7230	Urban Ecologies and Technologies 1
SUEN 7240	Urban Ecologies and Technologies 2
SUEN 7320	Pro-Seminar: Issues in Designed Urban Environments

### URBAN DEVELOPMENT POLICY AND PLANNING

Code	Title	Hours
<b>Gateway Course</b>		
Complete one of the following:		4
PPUA 5230	Housing Policy	
PPUA 5231	Transportation Policy	
PPUA 5233	Contemporary Community Development	
PPUA 5265	Global Urbanization and Planning	
<b>Methods</b>		
PPUA 5263 or PPUA 5236	Geographic Information Systems for Urban and Regional Policy Introduction to Real Estate Development for Urban Policy Makers	4
<b>Capstone</b>		
PPUA 7673	Capstone in Public Policy and Urban Affairs	4
<b>Elective</b>		
Complete one of the following:		4
PPUA 5230	Housing Policy	
PPUA 5231	Transportation Policy	
PPUA 5232	Immigration and Urban America	
PPUA 5233	Contemporary Community Development	
PPUA 5234	Land Use and Urban Growth Policy	
PPUA 5236	Introduction to Real Estate Development for Urban Policy Makers	
PPUA 5265	Global Urbanization and Planning	
PPUA 5270	Food Systems and Public Policy	
PPUA 6506	Techniques of Policy Analysis	
PPUA 6551	Nonprofit Organizations and Social Change	
SUEN 6110	Graduate Studio 1: Sustainable Urban Sites	
SUEN 6120	Graduate Studio 2: Sustainable Urban Systems	
SUEN 6340	Topics in Urban Environmental Design	

### Electives

Code	Title	Hours
Complete 4-8 semester hours of the following:		4-8
ARCH 5310	Design Tactics and Operations	
ARCH 5530	Innovative Models in Real Estate Development and Design	
ARCH 6100	Graduate Skills Studio	
ARCH 6330	Seminar in Modern Architecture	
ARCH 6340	Graduate Topics in Architecture	
ARTG 5100	Information Design Studio 1: Principles	
ARTG 5120	Research Methods for Design	
ARTG 5130	Visual Communication for Information Design	
ARTG 5330	Visualization Technologies 1: Fundamentals	
ARTG 6330	Information Design Mapping Strategies	
DA 5020	Collecting, Storing, and Retrieving Data	
DA 5030	Introduction to Data Mining/Machine Learning	
INSH 5302	Information Design and Visual Analytics	
PPUA 5230	Housing Policy	
PPUA 5231	Transportation Policy	
PPUA 5232	Immigration and Urban America	
PPUA 5233	Contemporary Community Development	

PPUA 5234	Land Use and Urban Growth Policy
PPUA 5236	Introduction to Real Estate Development for Urban Policy Makers
PPUA 5238	Climate Change and Global Urbanization
PPUA 5239	Problems in Metropolitan Policymaking
PPUA 5244	Comparative Public Policy and Administration
PPUA 5245	Education Policy in the United States
PPUA 5249	Sustainable Urban Coastal Policy
PPUA 5260	Ecological Economics
PPUA 5261	Dynamic Modeling for Environmental Decision Making
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change
PPUA 5265	Global Urbanization and Planning
PPUA 5270	Food Systems and Public Policy
PPUA 6202	Research Toolkit for Python for Policy
PPUA 6203	Research Toolkit for Effective Communications for Policy Impact
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management
PPUA 6216	Research Toolkit for Urban and Regional Policy: Grant Writing
PPUA 6506	Techniques of Policy Analysis
PPUA 6551	Nonprofit Organizations and Social Change
PPUA 7237	Advanced Spatial Analysis of Urban Systems
SUEN 6110	Graduate Studio 1: Sustainable Urban Sites
SUEN 6120	Graduate Studio 2: Sustainable Urban Systems
SUEN 6210	Implementation and Visualization for Urban Environments 1
SUEN 6220	Implementation and Visualization for Urban Environments 2
SUEN 6310	Cities, Nature, and Design in Contemporary History and Theory
SUEN 6340	Topics in Urban Environmental Design
SUEN 7230	Urban Ecologies and Technologies 1
SUEN 7240	Urban Ecologies and Technologies 2

### Optional Co-op Experience

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration:		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

48 total semester hours required (50 with optional co-op)

Minimum 3.000 GPA required

## Law, JD / Public Policy, MPP

The JD/Master of Public Policy (MPP) is designed to equip graduates with a unique blend of skills for navigating a complex and rapidly changing policy landscape. The program builds on students' legal training with a compelling blend of skills in applied public policy analysis, policy design, and strategic policy formation. Students also gain career-relevant experience through internships, small group capstone projects, and other interactions with professionals in the field. All are part of a learning process designed to enable the Northeastern law and public policy graduates to navigate, and to redefine, diverse policy areas.

Ideally, students would apply to Northeastern's JD and MPP programs simultaneously. Those who apply and are admitted to both programs take MPP classes after completing their first year in the School of Law. Applicants may also be considered after they have enrolled in the JD program; interested JD students should consult the School of Law's Office of Academic and Student Affairs and the School of Public Policy and Urban Affairs graduate program director for more information.

Students enrolled in this dual-degree program will be able to count 8 JD credit hours toward their MPP degree and 12 MPP credit hours toward their JD degree. Students should consult advisors in each program if they have questions about which courses may be shared between degrees.

All JD students, including FlexJD students, are ordinarily eligible to apply into dual degree pathways.

## Nonprofit Sector, Philanthropy, and Social Change, Graduate Certificate

School of Public Policy and Urban Affairs

CSSH Graduate Programs General Regulations (p. 1041)

The Graduate Certificate in Nonprofit Sector, Philanthropy, and Social Change is a response to recent developments in social change theory, practice, and funding that are placing new demands and expectations on social change actors in the nonprofit, public, and private sectors, including nonprofit leaders, philanthropists, policymakers, and corporate social responsibility managers. These developments include the emergence of hybrid, cross-sector business models and new intermediary mechanisms for channeling the flow of capital into social change; new expectations and standards for performance measurement, transparency, and accountability; more sophisticated use of data and technology to support decision making, evaluation, and continual improvement; decreased public funding for traditional nonprofit activities; and the emergence of social media as a vehicle for mobilizing people and resources. The certificate enables social change professionals in all sectors to respond to these changes more effectively and will distinguish itself from other nonprofit certificate programs by focusing on the relationship between social program implementation and funding.

The certificate is a professionally oriented, application-based program for students seeking leadership positions in nonprofit organizations or in a public agency that deals extensively with nonprofits. The curriculum is designed to address the distinctive features and practices of the nonprofit sector and emphasizes management techniques helpful to nonprofit leaders.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose GPA falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
PPUA 6551	Nonprofit Organizations and Social Change	4
PPUA 6552	The Nonprofit Sector in Civil Society and Public Affairs	4

#### Elective

Code	Title	Hours
Complete 4 semester hours from the following. Courses outside this list may be taken as electives with approval of the graduate program director.		4

PPUA 6202	Research Toolkit for Python for Policy
PPUA 6203	Research Toolkit for Effective Communications for Policy Impact
PPUA 6212	Research Toolkit for Urban and Regional Policy: Project Management
PPUA 6216	Research Toolkit for Urban and Regional Policy: Grant Writing
PPUA 6503	Managing People in Public and Nonprofit Sectors
PPUA 6509	Techniques of Program Evaluation
PPUA 6522	Administrative Ethics and Public Management

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Public Policy Analysis, Graduate Certificate

CSSH Graduate General Regulations (p. 1041)

The Graduate Certificate in Public Policy Analysis seeks to provide students with the tools to analyze and shape public policy at the local, state, and national levels. Students have an opportunity to gain an understanding of the political and legal processes of policymaking, develop skills central to conducting research on policy questions, and learn techniques for evaluating the effectiveness of competing policies.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

#### Core Requirements

Students may not reuse required degree courses for the certificate.

Code	Title	Hours
<b>Analysis Methods and Skills</b>		
Complete 8 semester hours from the following:		8
INSH 5302	Information Design and Visual Analytics	
INSH 6300	Research Methods in the Social Sciences	
LPSC 7311	Strategizing Public Policy	
or PPUA 6506	Techniques of Policy Analysis	
PPUA 6502	Economic Analysis for Policy and Planning	
PPUA 5260	Ecological Economics	
PPUA 5261	Dynamic Modeling for Environmental Decision Making	
PPUA 5262	Big Data for Cities	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
PPUA 6509	Techniques of Program Evaluation	
PPUA 7237	Advanced Spatial Analysis of Urban Systems	
<b>Policy</b>		
Complete 4 semester hours from the following:		4
PPUA 5230	Housing Policy	
PPUA 5231	Transportation Policy	
PPUA 5232	Immigration and Urban America	
PPUA 5234	Land Use and Urban Growth Policy	
PPUA 5240	Health Policy and Politics	
PPUA 5245	Education Policy in the United States

Minimum 3.000 GPA required

## Sustainability and Climate Change Policy, Graduate Certificate

This graduate certificate, a collaboration between the School of Public Policy (SPPUA) and the School of Law (NUSL), is designed to prepare students for the dynamic, evolving landscape of climate and sustainability policy. Interest in the area of climate and sustainability policy is expanding rapidly among graduate students in multiple programs throughout Northeastern and among professionals who may be considering graduate coursework at Northeastern. This certificate provides students from multiple backgrounds an option for gaining interdisciplinary skills and perspectives in climate and sustainability policy. Given the growing need in every organization, including private sector, public sector, and nonprofits, for professionals with knowledge and training in how to respond to the rapidly changing policy and regulatory frameworks in climate and sustainability, this certificate is open to JD, master's and PhD students throughout the university. This certificate is also available to professionals who have not yet been admitted to one of Northeastern's graduate programs.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Policy</b>		
Complete 8 semester hours from the following:		8
ENVR 5350	Sustainable Energy and Climate Solutions	
LPSC 7312	Cities, Sustainability, and Climate Change	
PPUA 5100	Climate and Development	
PPUA 5264	Energy Democracy and Climate Resilience: Technology, Policy, and Social Change	
PPUA 5268	International Environmental Policy	
PPUA 5270	Food Systems and Public Policy	
PPUA 6101	Environmental Science and Policy Seminar 1	
<b>Law</b>		
Complete 3 semester hours from the following: <sup>1</sup>		3
LAW 7329	Environmental Law	
or LW 7329	Environmental Law	
LAW 7634	Energy Law and Policy	
or LW 7634	Energy Law and Policy	
LAW 7666	Human Rights, the Environment, Development and Community Resilience	
or LW 7666	Human Rights, the Environment, Development and Community Resilience	
<b>Practicum</b>		
PPUA 6966	Practicum	1

<sup>1</sup> Students enrolled in NU colleges other than the School of Law should contact a School of Law advisor at [lawstudentaffairs@northeastern.edu](mailto:lawstudentaffairs@northeastern.edu) for guidance on registering for courses from the School of Law.

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Urban Analytics, Graduate Certificate

CSSH Graduate General Regulations (p. 1041)

With 75 percent of the world's population projected to be living in cities by 2050, the need for professionals in urban planning and related careers will only increase. The Graduate Certificate in Urban Analytics seeks to prepare students outside of the Master of Science in Urban Informatics program to manage the progressively complex issues involved with rapidly expanding data and technological resources in cities. As Claire Lane of the City of Boston recently noted, "The blueprints for great cities are increasingly anchored in big data, expressed in GIS [Geographic Information Systems] and codified in coherent policy." Successful graduates with an urban analytics certificate have skills in each of these areas, which prepares them to be professionals ready to shape the future of cities across the globe.

Students are trained with the practical and theoretical knowledge necessary to understand the intricacies of interconnected urban systems and to analyze how these systems work together to create sustainable, resilient, and just cities. The curriculum emphasizes the expertise needed to bridge emerging technological capacities and traditional policymaking processes. Students cultivate applied skills in visual presentation, analysis, and modeling of new data sets—all of which helps to inform investment and policymaking. Inspired by Northeastern's leadership in experiential education, students use Boston and cities around the world as learning labs.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

PPUA 7237	Advanced Spatial Analysis of Urban Systems	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Urban Studies, Graduate Certificate

CSSH Graduate Programs General Regulations (p. 1041)

The Graduate Certificate in Urban Studies provides a foundation in the fundamentals of urban planning and policy theory for students outside the Master of Science in Urban Planning and Policy degree. It also allows students to pursue course work in a range of areas of concentration, including housing and community development, urban environmental sustainability, economic development, international comparative urban policy, and transportation.

### Academic Standing/Progress

Students in the program are monitored for academic progress. Those students whose grade-point average (GPA) falls below a 3.000 are notified by and meet with the director of academic programs. They are counseled that if their GPA does not rise to a 3.000 or higher, they run the risk of not graduating and are advised on strategies for improvement.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirement

Code	Title	Hours
Complete 4 semester hour course:		
PPUA 6201	The 21st-Century City: Urban Opportunities and Challenges in a Global Context	4

#### Focus Area Selective

Code	Title	Hours
Complete 4 semester hours from the following:		
LPSC 7312	Cities, Sustainability, and Climate Change	4
PPUA 5230	Housing Policy	
PPUA 5231	Transportation Policy	
PPUA 5233	Contemporary Community Development	
PPUA 5235	Participatory Community Planning Methods	
PPUA 5262	Big Data for Cities	
PPUA 5265	Global Urbanization and Planning	
SUEN 6340	Topics in Urban Environmental Design	

#### Elective

Code	Title	Hours
Complete 4 semester hours in the following range (selected by advisement):		
PPUA 5000 to PPUA 7999		4

#### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

CSSH Graduate Programs General Regulations (p. 1041)

The Department of Sociology and Anthropology at Northeastern University is home to a distinguished graduate program offering a Doctor of Philosophy in Sociology. The primary objectives of our graduate program are to offer a strong curricular foundation in sociology and the social sciences; to inculcate in students a depth of knowledge in the basic tools of the discipline; to train our students to be outstanding teachers and researchers; and to provide professional socialization that adequately prepares students for a career in the discipline.

The PhD program boasts a wide array of curricular strengths and diverse methodological offerings, all of which draw upon the department's emphasis on the study of social inequalities along lines of race, class, and gender. Faculty expertise ranges widely from domestic U.S. concerns to issues that affect groups, regions, and societies on a global scale. We boast strengths in 11 different research foci (<https://cssh.northeastern.edu/socant/research-foci/>):

- Gender, sexuality, and intersectionality
- Political change and social movements
- Work, labor, and economic insecurity
- Global economy and culture
- Violence, conflict, and security
- Cities and urbanization
- Health and health equity
- Environment and environmental justice
- Racial identity, racism, and anti-racism
- Migration and immigrant communities
- Science and technology studies

The PhD program is designed to admit relatively small numbers of graduate students each year, which affords students the opportunity to forge close working relationships with the faculty. Our faculty and graduate students work together in a number of interdisciplinary research projects, programs, and centers, including the Social Science Environmental Health Research Institute (<http://www.northeastern.edu/environmentalhealth/>); the Brudnick Center on Violence and Conflict (<http://www.northeastern.edu/brudnickcenter/>); the Dukakis Center for Urban and Regional Policy (<http://www.northeastern.edu/dukakiscenter/>); and the Institute for Health Equity and Social Justice Research (<http://www.northeastern.edu/iuhrp/>). Many of the faculty in the Department of Sociology and Anthropology have additional interests and are affiliated with other departments on campus, including environmental studies; law and public policy; Latino, Latin American, and Caribbean studies; African American studies; international affairs; Jewish studies; and criminal justice. Students who wish to work with faculty in other disciplines are encouraged to enlist the aid of the sociology graduate director or their advisors in contacting individual faculty members.

## Sociology, PhD

The Department of Sociology and Anthropology at Northeastern University is home to a distinguished graduate program offering a PhD in Sociology. The primary objectives of our graduate program are to offer a strong curricular foundation in sociology and the social sciences; to inculcate in students a depth of knowledge in the basic tools of the discipline; to train our students to be outstanding teachers and researchers; and to provide professional socialization that adequately prepares students for a career in the discipline.

The PhD program is designed to attract students who wish to develop a broad base of sociological knowledge, such as would equip students to embark on academic careers in leading institutions of higher education. The PhD program boasts a wide array of curricular strengths and diverse methodological offerings, all of which draw upon the department's emphasis on the study of social inequalities along lines of race, class, and gender. Faculty expertise ranges widely from domestic U.S. concerns to issues that affect groups, regions, and societies on a global scale.

The PhD program is designed to admit relatively small numbers of graduate students each year, which affords students the opportunity to forge close working relationships with the faculty. Our faculty and graduate students work together in a number of interdisciplinary research projects, programs, and centers, including the Social Science Environmental Health Research Institute (<http://www.northeastern.edu/environmentalhealth/>); the Brudnick Center on Violence and Conflict (<http://www.northeastern.edu/brudnickcenter/>); the Dukakis Center for Urban and Regional Policy (<http://www.northeastern.edu/dukakiscenter/>); and the Institute for Health Equity and Social Justice Research (<http://www.northeastern.edu/iuhrp/>). Many of the faculty in the Department of Sociology and Anthropology have additional interests and are affiliated with other departments on campus, including environmental studies; law and public policy; Latino, Latin American, and Caribbean studies; African American studies; international affairs; Jewish studies; and criminal justice. Students who wish to work with faculty in other disciplines are encouraged to enlist the aid of the sociology graduate director or their advisors in contacting individual faculty members.

### Admissions

Students interested in the PhD apply directly to that program. Students admitted without a master's degree earn the Master of Arts in Sociology en route once PhD coursework is completed. Please note that all applicants for the doctoral program are required to submit a writing sample that should consist of written materials that demonstrate their capacity for scholarship at the doctoral level. (Copies of several course or term papers or a copy of a master's thesis or paper are appropriate.)

### Coursework

Doctoral students are required to complete 60 standard credit hours (SH) with grades of B or higher if coming in with a bachelor's degree and 40 credit hours if coming in with a master's degree in sociology. Students admitted without a master's degree earn the MA in sociology en route to completing their PhD requirements (30 credits).

Required courses cover the core areas of sociological theory, research methods, and statistical analysis. All students must take courses in these areas regardless of their areas of specialization. Students must fulfill these requirements during their first year in the program. Students entering our program may be able to substitute courses taken at the prior institution for some or all of these requirements by submitting a course waiver form (a course waiver does not waive the associated semester hour requirement) or transfer of credit (courses submitted with a transfer of credit cannot have counted toward another degree).

#### FOUR PROSEMINARS

Proseminars provide students structure for their first two years in the PhD program to help ensure their professionalization into the discipline and to help them move more smoothly through program requirements.

Each course meets weekly for 60-minute sessions throughout each fall and spring semester for the student's first two years. Each 1-credit course will be taken on a pass/fail basis. In order to receive a passing grade, students must attend most proseminar class meetings, complete the requirements for the proseminar course in a satisfactory manner, and attend most intellectual and professional development events organized by the department. Proseminar 1 and 2 are completed in the first year; Proseminar 3 and 4 are completed in the second year.

#### POST COURSEWORK BUT PRIOR TO PROPOSAL DEFENSE

Students must complete two field statements prior to their proposal defense and will register for Exam Preparation—Doctoral (SOCL 8960) (with the field statement chair listed as instructor of record).

Once field statements are complete and students are working on their dissertation proposal, students should register for a Research course (with their committee chair listed as instructor of record) until the proposal is successfully defended.

#### DEGREE CANDIDACY

To enter into degree candidacy, the student must have earned a Master of Arts degree or its departmental semester-hour equivalent, completed the four proseminars, successfully defended two field statements, and defended their dissertation proposal.

---

*Students who have completed required coursework with a cumulative GPA of 3.000 or better may be eligible to receive an MA in Sociology (<http://catalog.northeastern.edu/graduate/social-sciences-humanities/sociology/sociology-ma/>) degree. In addition, students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal MA in Sociology (*

catalog.northeastern.edu/graduate/social-sciences-humanities/sociology/sociology-ma/) degree. Note that no students will be admitted directly into the MA in Sociology (<http://catalog.northeastern.edu/graduate/social-sciences-humanities/sociology/sociology-ma/>) to pursue a master's degree.

## Program Requirements

### Bachelor's Degree Entrance

Complete all courses and requirements listed below unless otherwise indicated.

### Milestones

Annual review  
Two field statements  
Dissertation committee  
Dissertation proposal  
PhD candidacy  
Dissertation defense

## Network Science, PhD

Website (<http://www.networkscienceinstitute.org>)

The PhD program in network science aims to enhance our understanding of networks arising from the interplay of human behavior, sociotechnical infrastructures, information diffusion, and biological agents. This is an intrinsically multidisciplinary activity, with members of the network science community representing a wide range of fields including computer science, information science, complexity, physics, sociology, communication, organizational behavior, political science, and epidemiology. This is an interdisciplinary doctoral program focused on training students in network science across several colleges—including the College of Social Sciences and Humanities, the College of Science, the Khoury College of Computer Sciences, and Bouvé College of Health Sciences—with several research areas, including computational sciences, information sciences, health and life sciences, social sciences, and theoretical physics. See other collaborating colleges' catalog sections for possible elective courses.

Coursework is dependent on a student's area of research and subject to prior approval by their faculty advisor. Required coursework includes 20 semester hours of core courses in network science, plus an additional 20 semester hours of courses relevant to the students' area of research. A minimum of 40 credit hours of coursework is required, though the graduate program committee may recommend additional coursework based on student research interests.

Satisfactory progress in the program will be ongoing and formally evaluated at the end of both the first and second years of the program. Students are expected to maintain a cumulative GPA of 3.000 or better in all coursework. Students are not allowed to retake courses. A student who does not maintain the 3.000 GPA, or is not making satisfactory progress on their dissertation research, may be recommended for termination by the graduate program committee.

Each student will have one primary research advisor from the network science doctoral program faculty.

Students will be expected to select their research advisor by the end of the spring semester of their second year in the program.

The dissertation committee consists of at least four members: the dissertation advisor, one additional network science doctoral program faculty member, one member expert in the specific topic of research (can be from outside the university), and one additional tenured/tenure-track faculty member from the concentration department/conferring college. The dissertation advisor must be a full-time tenured or tenure-track member of the Northeastern University faculty. Students may repeat the comprehensive examination once if they are unsuccessful.

### Degree Candidacy

A student is considered a PhD candidate upon completion of all required coursework with a minimum cumulative GPA of 3.000, satisfactory completion of the qualification exam, and satisfactory completion of the comprehensive exam.

### Qualifying Examination

The qualification exam will be an oral examination of the material during the students' coursework. The exam will be an hour in length and consist of questions selected by network science faculty who comprise the qualifying examination and dissertation committee. Students will receive 50 to 80 potential questions, which they must be prepared to answer, one month before the exam. The exam will consist of a subset of these questions. The qualifying exam will be offered twice annually, in the fall and spring terms. All students are required to initially sit for the exam in the fall, typically in their third year of the PhD program. Students who do not pass the qualifying exam on their first attempt are expected to retake the exam in the spring term. Students may sit for the qualifying exam no more than twice.

Students who fail to complete the qualifying examination but who have completed all the PhD program's required coursework with a cumulative GPA of 3.000 or better will be awarded a terminal Master of Science in Network Science degree. Note that no students will be admitted directly into the network science program for receipt of a master's degree.

### Comprehensive Examination

Students must submit a written dissertation proposal to the dissertation committee. The proposal (with the aid and approval of their dissertation advisor) will outline a plan to carry out new and original research. The proposal should identify relevant literature, the research problem, the research plan, and the potential impact on the field. An oral presentation of the proposal will be made in an open forum before a public audience and the dissertation committee, followed by questions from noncommittee members. The written proposal must be given to committee members at least two weeks prior to the oral presentation. After the presentation, the student will meet with the dissertation committee to address any concerns raised in either the written proposal or the presentation. The comprehensive exam must precede the final dissertation defense by at least one year.

### Dissertation Defense

A PhD student must complete and defend a dissertation that involves original research in network science. The dissertation defense must adhere to Northeastern academic policies.

---

*Students who do not qualify for the doctoral degree, but who have completed required coursework with a cumulative GPA of 3.000 or better, may be eligible to receive a terminal Master of Science in Network Science (<http://catalog.northeastern.edu/graduate/social-sciences-humanities/interdisciplinary/network-science-ms/>). Note that no students will be admitted directly into the network science program to pursue a master's degree.*

## Applied Quantitative Methods and Social Analysis, MS

The Master of Science in Applied Quantitative Methods and Social Analysis is an interdisciplinary, flexible, and innovative degree that focuses on quantitative research methods for social analysis strategies and techniques. The program integrates the interdisciplinary perspectives and methodological and analytical tools across the College of Social Sciences and Humanities. The program seeks to educate ambitious social scientists and analysts primed to deploy computational tools for social analysis and tackle social science questions of equity, hierarchy, social organization, and social systems. The 21st-century economy will increasingly demand a workforce capable of collecting, processing, analyzing, and interpreting large-scale data on human attributes, personal preferences, social attributes, and political behavior. In response, this program provides students with rigorous training in quantitative research and social science methods to address important questions of social inquiry. Emphasizing public dissemination of findings, the program prepares students to inform policymakers, decision makers in the private and public sectors, and the broader community. These skills prepare graduates to pursue analytical or research careers in corporations, nonprofits, and public services or to continue their education.

Students in this degree program will have the opportunity to gain advanced training in statistical analysis and research methodology aligned to key areas of strength in CSSH, including data analytics in the social sciences, computational social science, network analysis in the social sciences, statistical methods in the social sciences, information ethics for social analysis, geospatial analysis, and the digital humanities. Students will also have the opportunity to stack a range of graduate certificate programs into the master's degree.

The program will take advantage of various co-op opportunities—positions such as policy analysts, network scientists, econometricians, and crime analysts—that provide students a professional environment to integrate quantitative skills and social analysis. The learning opportunities in professional settings (private sector, government, or nonprofit sector) reinforce the development of advanced quantitative skills and their applied nature to contemporary social issues. Ultimately, the Master of Science in Applied Quantitative Methods and Social Analysis will position students to enter the labor force with the competitive advantage of these experiences and skills.

CSSH Graduate Programs General Regulations (p. 1041)

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Core Requirements</b>		
INSH 6300	Research Methods in the Social Sciences	4
INSH 6500	Statistical Analysis	4

#### Required Concentration

Complete one of the following concentrations:

- Computational Social Science (p. 1137)
- Data Analytics in the Social Sciences (p. 1137)
- Information Ethics for Social Analysis (p. 1137)
- Network Analysis in the Social Sciences (p. 1138)
- Statistical Methods in the Social Sciences (p. 1138)

#### ELECTIVES

Electives are selected in consultation with the program director. Concentration courses may not be double counted as elective courses.

Code	Title	Hours
Complete 12 semester hours from the following:		12
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
DA 5020	Collecting, Storing, and Retrieving Data	
DA 5030	Introduction to Data Mining/Machine Learning	
ECON 5140	Applied Econometrics	
HIST 7370	Texts, Maps, and Networks: Readings and Methods for Digital History	
INSH 5301	Introduction to Computational Statistics	
INSH 5302	Information Design and Visual Analytics	
INSH 5303	Machine Learning in the Social Sciences	
INSH 5304	Social Network Analysis	
or POLS 7334	Social Networks	
INSH 6302	Qualitative Methods	

INSH 6406	Analyzing Complex Digitized Data
INSH 7400	Quantitative Analysis
INSH 7500	Advanced Quantitative Analysis
NETS 7350	Bayesian and Network Statistics
PHIL 5001	Global Justice
PHIL 5002	Ethics and Public Policy
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics
PHYS 5116	Network Science 1
PPUA 5260	Ecological Economics
PPUA 5261	Dynamic Modeling for Environmental Decision Making
PPUA 5262	Big Data for Cities
PPUA 5263	Geographic Information Systems for Urban and Regional Policy
PPUA 6506	Techniques of Policy Analysis
PPUA 6509	Techniques of Program Evaluation
PPUA 7237	Advanced Spatial Analysis of Urban Systems

### Optional Co-op Experience

Code	Title	Hours
Four-month co-ops require registration at 1 SH for one term. Longer co-ops require registration at 1 SH per term for two consecutive terms.		1-2
INSH 6864	Experiential Integration	
INSH 6964	Co-op Work Experience	

### Program Credit/GPA Requirements

32 total semester hours required (33-34 with optional co-op)

Minimum 3.000 GPA required

### COMPUTATIONAL SOCIAL SCIENCE

Code	Title	Hours
<b>Concentration Requirements</b>		
INSH 5302	Information Design and Visual Analytics	4
or INSH 5304	Social Network Analysis	
or POLS 7334	Social Networks	
or PPUA 5262	Big Data for Cities	
or PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
INSH 5303	Machine Learning in the Social Sciences	4
or DA 5030	Introduction to Data Mining/Machine Learning	
INSH 6406	Analyzing Complex Digitized Data	4
or INSH 5301	Introduction to Computational Statistics	

### DATA ANALYTICS IN THE SOCIAL SCIENCES

Code	Title	Hours
<b>Concentration Requirements</b>		
DA 5020	Collecting, Storing, and Retrieving Data	4
or DA 5030	Introduction to Data Mining/Machine Learning	
INSH 5301	Introduction to Computational Statistics	4
INSH 5302	Information Design and Visual Analytics	4

### INFORMATION ETHICS FOR SOCIAL ANALYSIS

Code	Title	Hours
<b>Concentration Requirements</b>		
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	4
PHIL 5001	Global Justice	4
or PHIL 5002	Ethics and Public Policy

<b>Code</b>	<b>Title</b>	<b>Hours</b>
<b>Concentration Requirements</b>		
INSH 5301	Introduction to Computational Statistics	4
INSH 7400	Quantitative Analysis	4
INSH 7500	Advanced Quantitative Analysis	4

## Computational Social Science, Graduate Certificate

The certificate highlights how big data, computational analysis, and related techniques can be used to shed light on theoretical and policy questions in the fields of public policy, public health, sociology, criminal justice, political science, economics, computer science, and network science. The certificate will contribute to students' understanding of:

- How to collect, analyze, and interpret insights culled from applying computational analyses to big data in social science domains
- The ways in which computational analysis can be used to develop policy and evaluate policy outcomes and results

The field is new and developing rapidly, and employers are eager to hire students trained in this area—both because computational social science is at the cutting edge of interdisciplinary work and because it offers new opportunities for research and analysis. This certificate leverages the real-world relevance of big data, source data, machine learning, and predictive analytics, which are dominant aspects of the contemporary workplace landscape. The certificate is available on the Boston campus and online modalities.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
INSH 5301 or INSH 6406	Introduction to Computational Statistics Analyzing Complex Digitized Data	4
INSH 5303 or DA 5030	Machine Learning in the Social Sciences Introduction to Data Mining/Machine Learning	4

#### Elective

Code	Title	Hours
Complete 4 SH from the following:		4
INSH 5302	Information Design and Visual Analytics	
POLS 7334	Social Networks	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
PPUA 5262	Big Data for Cities	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Data Analytics, Graduate Certificate

The interdisciplinary Graduate Certificate in Data Analytics is offered through a collaboration between the Khoury College of Computer Sciences and the College of Social Sciences and Humanities. The certificate curriculum emphasizes the skills needed to bridge between emerging technological capacities and traditional policymaking processes. The program is designed to provide students with foundational knowledge in data science—including data management, machine learning, data mining, statistics, and visualizing and communicating data—that can be applied to data-driven decision making in any discipline.

For more information on the certificate, refer to the program's website (<https://www.northeastern.edu/graduate/program/graduate-certificate-in-data-analytics-boston-14423/>).

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
DA 5020	Collecting, Storing, and Retrieving Data	4
DA 5030	Introduction to Data Mining/Machine Learning	4
INSH 5301	Introduction to Computational Statistics	4
INSH 5302	Information Design and Visual Analytics	4

#### Program Credit/GPA Requirements

16 total semester hours required

Minimum 3.000 GPA required

## Information Ethics, Graduate Certificate

The Graduate Certificate in Information Ethics is intended to help students build a working knowledge of the primary theories, frameworks, concepts, and issues in information ethics, as well as to help students develop robust skills in ethical analysis and evaluation.

Students who complete the certificate will be able to conduct comprehensive ethics and value analysis and assessment of emerging issues and problems related to such things as data collection, management, and use; design and implementation of artificial intelligence and machine learning; development and deployment of autonomous systems; and online, networked, and digital experiences and systems.

The certificate is open to students in any graduate program at Northeastern.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

*Note:* At least two of the three courses taken to fulfill the certificate requirements must be PHIL courses.

### Core Requirements

Code	Title	Hours
Complete two of the following:		8
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	

### Elective

Code	Title	Hours
Complete one of the following. The elective course must be different than the core courses:		4
PHIL 5001	Global Justice	
PHIL 5002	Ethics and Public Policy	
PHIL 5005	Information Ethics	
PHIL 5010	AI Ethics	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Women's, Gender, and Sexuality Studies, Graduate Certificate

Website (<https://www.northeastern.edu/cssh/wgss/graduate/certificate/>)

The Graduate Certificate in Women's, Gender, and Sexuality Studies (WGSS) is designed for students currently enrolled in a Northeastern University master's or doctoral program. The certificate aims to provide enhanced competency by:

- Analyzing contemporary feminist theoretical frameworks, methodologies, issues, and topics and their relation to established disciplines
- Focusing on the intersection of gender with sexuality, race, class, and other vectors of power and identity
- Broadening and enriching analytical skills in one or more disciplines while drawing on the interdisciplinary perspectives of WGSS
- Challenging the traditional separation of academic theory from political and professional practice

Prospective certificate students are advised initially to consult with the WGSS program director and the advisor in their home department to develop a plan for completing the certificate.

In addition to the College of Social Sciences and Humanities certificate, there is a specialized pathway for students enrolled in the Master of Public Health program (p. 650). These students are able to apply theories, concepts, and methods gained from the WGSS certificate to urban health issues. Students work closely with advisors in their home school and in WGSS to select a course of study to complete the certificate, including incorporating gender and sexuality studies into their MPH coursework as final projects/papers and naming a WGSS faculty member to their capstone committee, if using the capstone as an elective for the certificate. Students using the capstone toward their certificate must also enroll in a 1-credit directed study with the WGSS faculty who will sit on their committee. *Note:* Students pursuing the BS/MPH accelerated program and WGSS certificate should wait until they have *matriculated* into the MPH program to declare the certificate and to begin coursework toward the WGSS certificate.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Foundational Requirement

Code	Title	Hours
All students, regardless of disciplinary background, must complete one of the following:		4
WMNS 6100	Theorizing Gender and Sexuality	
WMNS 7100 or SOCL 7100	Queer Theory: Sexualities, Genders, Politics Queer Theory: Sexualities, Genders, Politics	

#### General Option

Code	Title	Hours
<b>Electives</b>		
Complete two courses according to the instructions from the electives list (below the MPH option). At least one should come from outside the student's home department.		8

#### MPH Option

Code	Title	Hours
MPH students should plan to take one foundational required course from the list above and to focus final projects in core MPH courses on gender/sexuality in public health.		
<b>Electives</b>		
Complete 8 semester hours according to the instructions from the electives list. One course may be the capstone, if the topic selected focuses on gender and/or sexuality in connection to the selected urban health issue and the student enrolls in a 1-semester-hour directed study with the WGSS faculty member who will sit on the capstone committee.		8

#### Electives List

Code	Title	Hours
At least one course must come from outside the student's home discipline. Any foundational course not taken to complete the required foundational coursework may be taken as an elective but may not count as both the foundational requirement and an elective. Electives outside this list, particularly special topics courses not listed here, may be chosen in consultation with program director. Students may also consider courses at the Graduate Consortium for Studies of Gender, Culture, Women, and Sexuality (located at MIT). MPH students, in conversation with their advisors, may substitute PHTH 6910 for one elective.		
ECON 5292	Gender and Development Economics	
HIST 5240	Feminist Resistance	
PHTH 6910	Public Health Capstone (with 1-SH directed study)	
SOCL 5240	Feminist Resistance	
SOCL 7273	Gender and Social Policy	

SOCL 7287	Social Movements in Health
SOCL 7100	Queer Theory: Sexualities, Genders, Politics
WMNS 5240	Feminist Resistance
WMNS 6100	Theorizing Gender and Sexuality (if not taken as core course)
WMNS 7100	Queer Theory: Sexualities, Genders, Politics (if not taken as core course)
WMNS 7615	Feminist Inquiry (if not taken as core course)
WMNS 7900	Special Topics in Women's, Gender, and Sexuality Studies
WMNS 7976	Directed Study

**Program Credit/GPA Requirements**

12 total semester hours required

Minimum 3.000 GPA required

## Mills College at Northeastern

Website (<https://mills.northeastern.edu/>)

**Beth D. Kochly, PhD**, Interim Dean of Mills College at Northeastern

**Christie Chung, PhD**, Associate Dean for Research, Scholarship, and Partnerships

Mills College at Northeastern University

Office of the Dean

5000 MacArthur Blvd

Oakland, CA 94613-1301

510.430.2290

[Mills\\_College@Northeastern.edu](mailto:Mills_College@Northeastern.edu)

Mills College at Northeastern is a community of teachers, scholars, researchers, leaders, and changemakers rooted in the diverse Bay Area. Through our teaching and scholarship, we promote social and community accountability, diversity, equity and inclusion, and environmental sustainability. We prepare students to make an impact in the world by building on Oakland's roots in activism and leveraging our strengths in social justice, equity, meaningful partnerships, and academic excellence. We are committed to furthering the university's mission of diverse and inclusive experiential learning and research on our beautiful campus, the surrounding community, and beyond. The historic architecture and intimate facilities of our Oakland campus serve as incubators for scholars in a wide variety of disciplines. We strive to foster learning and well-being by building a curriculum, praxis, and research focus that are thoughtful, intentional, and of the highest quality. Our graduate and undergraduate programs will engage students in transformative, important conversations and provide a range of opportunities for personal and professional growth. This foundation prepares students to lead meaningful change in their chosen fields.

## Gordon Institute of Engineering Leadership

Website (<http://www.northeastern.edu/gordonleadership/>)

### Simon Pitts

Director and Head—Gordon Institute of Engineering Leadership

415 Stearns Center

617.373.4800

617.373.7680 (fax)

The Gordon Institute of Engineering Leadership offers a graduate certificate that pairs with over 20 master's programs in the College of Engineering, College of Science, and Khoury College of Computer Sciences. The Gordon program is a transformational graduate program designed to build a future corps of engineering leadership professionals. GIEL seeks to accelerate leadership development capability in an engineering context through a concentrated curriculum that inculcates both the psychological skills and capabilities needed to lead engineers in parallel with technical skills to successfully engineer products to customers and markets. The program teaches relevant leadership theory followed by practice in leadership laboratories. Technical product development and scientific principles courses are followed by the completion of a market-worthy challenge project. This learning framework is supplemented with three-way mentoring from industry, faculty, and program mentors. Graduates of the program, known as Gordon Fellows, have an opportunity to gain the knowledge, skills, and attitudes required to successfully lead engineering teams. They stand out from their peers in their ability to invent, innovate, and implement engineering projects from concept to market success. Participation in GIEL accelerates Gordon Fellows' careers, making them more valuable to their company.

### The Challenge

When relatively unseasoned engineers run teams or projects, most fail to satisfy all of the project's critical requirements—missing the mark in functionality, performance, quality, time-to-market, cost, or other key objectives.

This shortfall exists because engineers enter the workforce without critical skills related to:

- Competitiveness
- Taking responsibility to prevent failure
- Market and customer focus
- Influencing and motivating skills
- Interdisciplinary decision making and teamwork capability
- Simultaneous optimization of all elements of performance, quality, cost, and timing
- Front-loading the engineering process
- Financial acumen
- Big-picture engineering
- Leadership abilities and organizational social awareness
- Enterprise understanding
- Program management tools and processes
- Designing to avoid failure modes
- Designing for lean manufacture

### The Mission

GIEL's mission is to create an elite cadre of engineering leaders who stand out from their peers in their ability to invent, innovate, and implement engineering projects from concept to market success.

These leaders will demonstrate an exceptional ability to lead engineering teams by providing purpose, direction, and motivation to influence others to achieve their collective goals.

### The Method

To close the gaps and realize its mission, GIEL concentrates on the knowledge, skills, and abilities that reside at the intersection of engineering and leadership.

At the end of the program, Gordon Fellows emerge with the awareness, confidence, vision, and technical dexterity to drive positive change within their organizations and society.

### Admissions

GIEL candidates must apply for and be admitted to both the Northeastern University Graduate School of Engineering and the Gordon Institute of Engineering Leadership.

Students pursue GIEL as part of a Master of Science degree in the engineering discipline of their choice or as a stand-alone graduate certificate. Upon completion of a Master of Science degree, students earn both the Master of Science degree in the discipline of choice and a Graduate Certificate in Engineering Leadership. Students who already hold a graduate degree in engineering or have greater than three years of engineering work experience can complete the program to earn a Graduate Certificate in Engineering Leadership. The core GIEL curriculum takes place during one calendar year (September–July), and additional coursework required for the Master of Science degree can be pursued before, after, or in parallel with GIEL.

## **Programs**

### **MS Degrees with Combined Gordon Leadership Certificate**

- Engineering Leadership (p. 551)
- Technology Leadership (p. 1149)

## Engineering Leadership, Graduate Certificate

The Gordon Engineering Leadership Program is a transformational, technical, and challenging graduate-level learning experience targeted for engineering professionals.

The Gordon Engineering Leadership Program directed by the Gordon Institute of Engineering Leadership offers a graduate certificate that pairs with over 20 master's degrees in the College of Engineering, College of Science, and Khoury College of Computer Sciences. The Gordon Program is a transformational graduate program designed to build a future corps of engineering leadership professionals.

Pursuing the graduate certificate allows participants to:

- Take part in a hands-on curriculum taught by industry-experienced professors
- Work with peers from across engineering fields on leadership skills development
- Receive one-on-one mentoring from industry experts and faculty

The Gordon Engineering Leadership Program anchors around an intense, market-worthy challenge project based on your organization's strategic needs. This is a unique opportunity to apply your classroom experience in a professional setting, potentially further accelerating your career.

### How to Earn a Graduate Certificate in Engineering Leadership

If you already have a Master of Science, then you can complete the one-year program to earn a Graduate Certificate in Engineering Leadership.

If you do not have a Master of Science, then you can still be considered for the Graduate Certificate in Engineering Leadership if you have at least three years of engineering work experience.

Additional information can be found on the Gordon Engineering Leadership Program website. (<http://www.northeastern.edu/gordonleadership/>)

### Beyond a Graduate Certificate

Most candidates pursue the Gordon Engineering Leadership Program as part of a Master of Science degree in the engineering discipline of their choice. Upon completion, they earn both a Master of Science degree and a Graduate Certificate in Engineering Leadership.

---

Students can enroll in the Engineering Leadership Graduate Certificate while pursuing the following degrees:

- MS Advanced and Intelligent Manufacturing (<https://provost.northeastern.edu/gordon/certificate-and-degree-options/college-of-engineering/advanced-and-intelligent-manufacturing/>)
- MS Biotechnology (<http://www.northeastern.edu/gordonleadership/degree/ms-in-biotechnology/>)
- MS Computer Science (<https://provost.northeastern.edu/gordon/certificate-and-degree-options/khoury-college-of-computer-sciences/computer-science/>)
- MS Cybersecurity (<https://provost.northeastern.edu/gordon/certificate-and-degree-options/khoury-college-of-computer-sciences/ms-in-information-assurance-and-cyber-security/>)
- MS Data Analytics Engineering (<https://provost.northeastern.edu/gordon/certificate-and-degree-options/college-of-engineering/ms-in-data-analytics-engineering/>)

## Technology Leadership, Graduate Certificate

The Graduate Certificate in Technology Leadership offered by the Gordon Institute of Engineering Leadership (GIEL) is a transformational graduate program designed to build a future corps of technology leadership professionals. GIEL seeks to accelerate leadership development capability in a technical context through a concentrated curriculum that inculcates both the psychological skills and capabilities needed to lead in parallel with technical skills to successfully release products to customers and markets. The program teaches relevant leadership theory followed by practice in leadership laboratories. Technical product development and scientific principles courses are followed by the completion of a market-worthy challenge project. This learning framework is supplemented with three-way mentoring from industry, faculty, and program mentors. Graduates of the program, known as Gordon Fellows, have an opportunity to gain the knowledge, skills, and attitudes required to successfully lead technical teams. They stand out from their peers in their ability to invent, innovate, and implement technology projects from concept to market success. Participation in GIEL accelerates Gordon Fellows' careers, making them more valuable to their company.

### The Challenge

When relatively unseasoned professionals run teams or projects, most fail to satisfy all of the project's critical requirements—missing the mark in functionality, performance, quality, time-to-market, cost, or other key objectives.

This shortfall exists because professionals enter the workforce without critical skills related to:

- Competitiveness
- Taking responsibility to prevent failure
- Market and customer focus
- Influencing and motivating skills
- Interdisciplinary decision making and teamwork capability
- Simultaneous optimization of all elements of performance, quality, cost, and timing
- Front-loading the technology delivery process
- Financial acumen
- Big-picture engineering
- Leadership abilities and organizational social awareness
- Enterprise understanding
- Program management tools and processes
- Designing to avoid failure modes
- Designing for lean manufacture

### The Mission

GIEL's mission is to create an elite cadre of technology leaders who stand out from their peers in their ability to invent, innovate, and implement technical projects from concept to market success.

These leaders will demonstrate an exceptional ability to lead teams by providing purpose, direction, and motivation to influence others to achieve their collective goals.

### The Method

To close the gaps and realize its mission, GIEL concentrates on the knowledge, skills, and abilities that reside at the intersection of technology and leadership.

At the end of the program, Gordon Fellows emerge with the awareness, confidence, vision, and technical dexterity to drive positive change within their organizations and society.

### Admissions

Candidates must apply for and be admitted to both a master's degree program at Northeastern and the Graduate Certificate in Technology Leadership.

Students pursue the Graduate Certificate in Technology Leadership as part of a master's degree or as a stand-alone graduate certificate. Upon completion of a Master of Science degree, students earn both the Master of Science degree in the discipline of choice and a Graduate Certificate in Technology Leadership. Students who already hold a graduate degree or have greater than three years' industry work experience can complete

the program to earn a stand-alone Graduate Certificate in Technology Leadership. The core GIEL curriculum takes place during one calendar year (September–July), and additional coursework required for the Master of Science degree can be pursued before, after, or in parallel with GIEL.

### Program Requirements

Code	Title	Hours
TELR 5121	Technology Leadership 1	2
TELR 5122	Technology Leadership 2	2
TELR 5131	Scientific Foundations of Technology 1	2
TELR 5132	Scientific Foundations of Technology 2	2
TELR 7440	Technology Leadership Challenge Project 1	4
TELR 7442	Technology Leadership Challenge Project 2	4

<sup>1</sup> The Scientific Foundations of Technology 1 (TELR 5131) and Scientific Foundations of Technology 2 (TELR 5132) requirements may be met by completion of Special Problems in Technology Leadership (TELR 7400) upon approval of program director.

### Program Credit/GPA Requirements

16 total semester hours required

Minimum 3.000 GPA required

## Additional Programs

- Postsecondary Teaching, Graduate Certificate (p. 1152)

## Postsecondary Teaching, Graduate Certificate

The Certificate in Postsecondary Teaching prepares graduate students to be effective teachers and educators both inside and outside the classroom. It focuses on both didactic training in best practices and pedagogy around traditional teaching as well as online teaching. Finally, it is anchored by a teaching practicum where students put into practice what they have learned.

### Program Requirements

**University Faculty**

Faculty information for 2023-2024 will be published by the end of August 2023.

**A****Ammar Aamer**

Associate Teaching Professor, College of Professional Studies; University of Tennessee, Knoxville, PhD

**Olakunle S. Abawonse**

Zelevinsky Postdoctoral Researcher, Mathematics; State University of New York at Binghamton, PhD

**Anis Abdulle**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, BA

**Mehdi Abedi**

Associate Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Margot Abels**

Assistant Teaching Professor, Women's, Gender, and Sexuality Studies and Human Services; Northeastern University, PhD

**Emad Aboelela**

Associate Teaching Professor, Electrical and Computer Engineering; University of Miami, PhD

**Max Abrahms**

Associate Professor, Political Science; University of California, Los Angeles, PhD

**Ali Abur**

Professor, Electrical and Computer Engineering; Ohio State University, PhD

**Sunayan Acharya**

Senior Lecturer, Finance; University of Kentucky, PhD

**Daniel Adams**

Associate Professor, Architecture; Harvard University, MArch

**Quisquella Addison**

Assistant Teaching Professor, Law; Yeshiva University, JD

**Libby Adler**

Professor, Law and Women's, Gender, and Sexuality Studies; Northeastern University, JD

**Jeffrey Agar**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Georgia, PhD

**Rajesh Aggarwal**

Professor, Finance; Harvard University, PhD

**Christina Agostinelli-Fucile**

Associate Teaching Professor, World Languages Center; State University of New York at Buffalo, PhD

**Ruth Aguilera**

Darla and Frederick Brodsky Trustee Professor in Global Business, International Business and Strategy; Harvard University, PhD

**Michael Ahern**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MEd

**Amal Ahmed**

Associate Professor, Computer Sciences; Princeton University, PhD

**Jaehan Ahn**

Assistant Professor, Accounting; University of Oklahoma, PhD

**Laurel Ahnert**

Visiting Assistant Professor, Media and Screen Studies; Georgia State University, PhD

**Michal Aibin**

Visiting Associate Teaching Professor, Computer Sciences; Wroclaw University of Technology (Poland), PhD

**Sophia Ainslie**

Associate Teaching Professor, Art + Design; School of the Museum of Fine Arts/Tufts University, MFA

**Derya Aksaray**

Assistant Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Zeynep Aksehirli**

Associate Teaching Professor, Management and Organizational Development; University of California, Los Angeles, PhD

**Mohammad Alam**

Professor, Economics; University of Western Ontario (Canada), PhD

**Noor E. Alam**

Assistant Professor, Mechanical and Industrial Engineering; University of Alberta (Canada), PhD

**Ibrahim Alazza**

Visiting Assistant Teaching Professor, Art + Design; Boston University, MFA

**Brian Albrecht**

Associate Cooperative Education Coordinator, College of Engineering; Carnegie Mellon University, MS

**Daniel Aldrich**

Professor, Political Science and Public Policy and Urban Affairs; Harvard University, PhD

**Todd M. Alessandri**

Associate Professor, International Business and Strategy; University of North Carolina, Chapel Hill, PhD

**Jacques Alexis**

Associate Teaching Professor, College of Professional Studies; University of Maryland, PhD

**Noor Ali**

Associate Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Nicole Aljoe**

Professor, English and Cultures, Societies, and Global Studies; Tufts University, PhD

**Greg Allen**

Visiting Assistant Professor, Theatre; University of Massachusetts, Amherst, MFA

**Kristen Allison**

Assistant Professor, Communication Sciences and Disorders; University of Wisconsin, Madison, PhD

**Michael Allshouse**

Assistant Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Meryl Alper**

Associate Professor, Communication Studies; University of Southern California, PhD

**Shannon Alpert**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Charlotte, PhD

**Akram N. Alshawabkeh**

University Distinguished Professor, George A. Snell Professor of Engineering, Civil and Environmental Engineering; Louisiana State University, PhD

**Wael Altali**

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, PhD

**Sari Altschuler**

Associate Professor, English; City University of New York, PhD

**Ismet B. Altunkaynak**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Kaitlyn Alvarez Noli**

Assistant Professor, Public Policy and Urban Affairs and Health Sciences; University of California, Irvine, PhD

**Said Amal**

Research Assistant Professor, Bioengineering; Haifa University (Israel), PhD

**Christopher Amato**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Steven Amato**

Teaching Professor, College of Professional Studies; Boston College, PhD

**Bolor Amgalan**

Assistant Teaching Professor, Art + Design; Parsons School of Design, MFA

**Jane Amidon**

Professor, Architecture; Harvard University, MLA

**Mansoor M. Amiji**

University Distinguished Professor, Pharmaceutical Sciences and Chemical Engineering; Purdue University, PhD

**Rouzbeh Amini**

Associate Professor, Mechanical and Industrial Engineering and Bioengineering; University of Minnesota, PhD

**Mahshid Amirabadi**

Associate Professor, Electrical and Computer Engineering; Texas AM University, PhD

**Ghita Amor-Tijani**

Assistant Teaching Professor, Computer Sciences; George Washington University, PhD

**Parisa Andalib**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Roy Anderson**

Visiting Lecturer, Supply Chain and Information Management; Babson College, MBA

**Jonathan Andrew**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; SIT Graduate Institute, MA

**Jose Annunziato**

Assistant Teaching Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Mark Aparece**

Assistant Teaching Professor, Chemistry and Chemical Biology; Boston College, PhD

**Javier Apfeld**

Assistant Professor, Biology; University of California, San Francisco, PhD

**Tsuguo Aramaki**

Assistant Professor, Physics; Columbia University, PhD

**Michael Arnold Mages**

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

**Cheryl Arruda**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Alpha Arsano**

Assistant Professor, Architecture; Massachusetts Institute of Technology, PhD

**Katherine Ashley**

Associate Teaching Professor, Supply Chain and Information Management; University of California, Berkeley, PhD

**Javed A. Aslam**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Anand Asthagiri**

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Jared R. Auclair**

Associate Teaching Professor, Biotechnology; University of Massachusetts, PhD

**Debra Auguste**

Professor, Chemical Engineering; Princeton University, PhD

**Earlene Avalon**

Associate Teaching Professor, College of Professional Studies; Simmons College, PhD

**Emily Avery-Miller**

Associate Teaching Professor, English; Emerson College, MFA

**Hava Avraham**

Research Associate Professor, Center for Drug Discovery; Hebrew University of Jerusalem (Israel), PhD

**Joseph L. Ayers**

Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

**B**

**Robert Baginski**

Associate Clinical Professor, Medical Sciences; University of Connecticut, MD

**Keith Bagley**

Associate Clinical Professor, Computer Sciences; University of Massachusetts, Lowell, PhD

**Jianqui Bai**

Associate Professor and Gary Gregg Faculty Fellow, Finance; University of Southern California, PhD

**Rekha Bai**

Assistant Teaching Professor, Mathematics; University of Iowa, PhD

**Ruobing Bai**

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Ambika Bajpayee**

Assistant Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Alison K. Baker**

Assistant Teaching Professor, Psychology; Northeastern University, PhD

**Brook K. Baker**

Professor, Law; Northeastern University, JD

**Shalanda H. Baker**

Professor, Law and Public Policy and Urban Affairs; Northeastern University, JD

**Ilter Bakkal**

Assistant Teaching Professor, Economics; Northern Illinois University, PhD

**Benita Bamgbade**

Assistant Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PhD

**Elitsa Banalieva**

Associate Professor, International Business and Strategy; Indiana University, PhD

**Debra Bangs**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Arun Bansil**

University Distinguished Professor, Physics; Harvard University, PhD

**Ning Bao**

Assistant Professor, Physics and Mathematics; Stanford University, PhD

**Albert-László Barabási**

Robert Gray Dodge Professor and University Distinguished Professor, Physics and Computer Sciences; Boston University, PhD

**Emanuela Barberis**

Professor, Physics; University of California, Santa Cruz, PhD

**Sumner Barenberg**

Professor of the Practice, Bioengineering; Case Western Reserve University, PhD

**Christopher Barney**

Visiting Assistant Professor, Game Design; Azusa Pacific University, BS

**Cynthia Baron**

Senior Academic Specialist, College of Professional Studies; Northeastern University, MBA

**Timothy Barr**

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

**Amilcar Barreto**

Professor, Cultures, Societies, and Global Studies and International Affairs; State University of New York at Buffalo, PhD

**Lisa Barrett**

University Distinguished Professor, Psychology; University of Waterloo (Canada), PhD

**Margarita Barrios Ponce**

Associate Teaching Professor, Art + Design; Yale University, MFA

**Carey Barry**

Associate Clinical Professor, Medical Sciences; Quinnipiac University, MS

**Yakov Bart**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; University of California, Berkeley, PhD

**Stefano Basagni**

Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Marla Baskerville**

Associate Professor, Management and Organizational Development; Tulane University, PhD

**John Basl**

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Maureen Basmajian**

Senior Cooperative Education Coordinator, College of Engineering; Boston College, MBA

**Linnea Basu**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MS

**Oleg Batishchev**

Professor of the Practice, Physics; Moscow Institute of Physics and Technology (Russia), PhD

**Allison Bauer**

Associate Teaching Professor, Health Sciences; University of Pennsylvania, PhD

**Kabria Baumgartner**

Associate Professor, History and Cultures, Societies, and Global Studies; University of Massachusetts, Amherst, PhD

**Christopher E. Beasley**

Associate Professor, Mathematics; Princeton University, PhD

**Nicholas Beauchamp**

Assistant Professor, Political Science; New York University, PhD

**Michael Beaudet**

Professor of the Practice, Journalism; Northeastern University, MA

**Laura Beerits**

Assistant Teaching Professor, English; University of Texas, Austin, PhD

**Gail S. Begley**

Teaching Professor, Biology; Boston University, PhD

**Mehdi Behroozi**

Assistant Professor, Mechanical and Industrial Engineering; University of Minnesota, PhD

**Edward Beighley**

Professor, Civil and Environmental Engineering; University of Maryland, PhD

**Leo Beletsky**

Professor, Law and Health Sciences; Temple University, JD

**Jonathan Bell**

Assistant Professor, Computer Sciences; Columbia University, PhD

**Chiara Bellini**

Assistant Professor, Bioengineering; University of Calgary (Canada), PhD

**Kylie Bemis**

Assistant Teaching Professor, Computer Sciences; Purdue University, PhD

**Sidi Bencherif**

Assistant Professor, Chemical Engineering; Carnegie Mellon University, PhD

**Jonathan Benda**

Teaching Professor, Writing Program; Syracuse University, PhD

**James C. Benneyan**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Iris Berent**

Professor, Psychology; University of Pittsburgh, PhD

**Dionisio Bernal**

Professor, Civil and Environmental Engineering; University of Tennessee, PhD

**Elena Bernal Mor**

Assistant Teaching Professor, Electrical and Computer Engineering; Universitat Politècnica de València (Spain), PhD

**Eugene A. Bernstein**

Associate Teaching Professor, Pharmaceutical Sciences; Ivanovo Medical Institute (Russia), PhD

**Enrico Bertini**

Associate Professor, Computer Sciences and Art + Design; Sapienza University of Rome (Italy), PhD

**Michael Bessette**

Assistant Clinical Professor, Medical Sciences; Sackler School of Medicine, PhD

**Allison Betsold**

Artist in Residence, Music; University of Kansas, MM

**Penny Beuning**

Professor, Chemistry and Chemical Biology; University of Minnesota, PhD

**Peter J. Bex**

Professor, Psychology; Cardiff University (United Kingdom), PhD

**Rahul Bhargava**

Assistant Professor, Journalism and Art + Design; Massachusetts Institute of Technology, MA

**Shawn Bhimani**

Assistant Professor, Supply Chain and Information Management; Duke University, PhD

**Adeel Bhutta**

Associate Teaching Professor, Computer Sciences; University of Central Florida, PhD

**Dapeng Bi**

Assistant Professor, Physics; Brandeis University, PhD

**Timothy Bickmore**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Doug Bielmeier**

Associate Teaching Professor, Music; Argosy University, PhD

**Priyanka Bishnoi**

Associate Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Southern California, MS

**Nathan Blake**

Teaching Professor, Media and Screen Studies; University of California, PhD

**Samuel J. Blank**

Professor, Mathematics; Brandeis University, PhD

**Robert J. Blaser**

Associate Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, MS

**Jonathan Blazek**

Assistant Professor, Physics; University of California, Berkeley, PhD

**John Bleakney**

Associate Cooperative Education Coordinator, Graduate School of Engineering; State University of New York at Albany, MA

**Francis Blessington**

Professor, English; Brown University, PhD

**Aaron Block**

Teaching Professor, English; Emerson College, MFA

**Elizabeth M. Bloom**

Teaching Professor, Law; Georgetown University, JD

**Linda Blum**

Professor, Sociology and Anthropology; University of California, Berkeley, PhD

**Rhonda M. Board**

Associate Professor, Nursing; Ohio State University, PhD

**Erika Boeckeler**

Associate Professor, English; Harvard University, PhD

**Samantha Boehm**

Assistant Teaching Professor, Theatre; Brandeis University, MA

**Evisa Bogdani**

Assistant Professor, Accounting; University of Kentucky, PhD

**Philip Bogden**

Associate Teaching Professor, Computer Sciences; University of California, San Diego, PhD

**Eric Bogert**

Assistant Teaching Professor, Supply Chain and Information Management; University of Georgia, PhD

**Christopher Bolick**

Assistant Teaching Professor, College of Professional Studies; Western Carolina University, MS

**Tamara Bonaci**

Assistant Teaching Professor, Computer Sciences; University of Washington, PhD

**Andrew Bonner**

Assistant Clinical Professor, Applied Psychology; University of Florida, PhD

**Raymond G. Booth**

Professor, Pharmaceutical Sciences and Chemistry and Chemical Biology; University of California, San Francisco, PhD

**Monica Borgida**

Assistant Teaching Professor, College of Professional Studies; University of Pisa/University of Bologna (Italy), PhD

**Skylar Borgstrom**

Visiting Assistant Professor, Art + Design; State University of New York at Buffalo, MA

**Michelle Borkin**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Natalie Bormann**

Teaching Professor, Political Science; University of Newcastle upon Tyne (United Kingdom), PhD

**Jeffery A. Born**

Professor, Finance; University of North Carolina, Chapel Hill, PhD

**Jordon Bosse**

Assistant Professor, Nursing; University of Massachusetts, Amherst, PhD

**Christopher Bosso**

Professor, Public Policy and Urban Affairs; University of Pittsburgh, PhD

**Ekaterina Botchkovar**

Associate Professor, Criminology and Criminal Justice; North Carolina State University, PhD

**Kevin Boudreau**

Associate Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alma Bournazian**

Senior Academic Specialist, American Sign Language; Western Maryland College, MS

**Stacey Bourns**

Professor, World Languages Center; University of Texas, Austin, PhD

**Carla Bouwmeester**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Jennifer L. Bowen**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**James Boyer**

Assistant Academic Specialist, Accounting; Northeastern University, MBA

**Nicole M. Boyson**

Professor, Finance; Ohio State University, PhD

**David Brady**

Teaching Professor, Electrical and Computer Engineering; Princeton University, PhD

**Ontonye Braide-Moncoeur**

Associate Teaching Professor, Chemistry and Chemical Biology; University of Florida, PhD

**Maxim Braverman**

Professor, Mathematics; Tel Aviv University (Israel), PhD

**Heather C. Brenhouse**

Associate Professor, Psychology; Northeastern University, PhD

**Becky A. Briesacher**

Associate Professor, Pharmacy and Health Systems Sciences; University of Maryland, Baltimore, PhD

**Amy M. Briesch**

Associate Professor, Applied Psychology; University of Connecticut, PhD

**Elizabeth Britt**

Professor, English; Rensselaer Polytechnic Institute, PhD

**Kevin Broadbelt**

Associate Teaching Professor, Biotechnology; City University of New York, PhD

**Carla Brodley**

Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Tatiana Bronich**

Professor, Pharmacy and Health Systems Sciences; Lomonosov Moscow State University (Russia), PhD

**Mary E. Bronski**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Dana H. Brooks**

Research Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Cammy Brothers**

Associate Professor, Architecture and Art + Design; Harvard University, PhD

**Adam Broughton**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Colin Brown**

Assistant Teaching Professor, Political Science; Harvard University, PhD

**Layla Brown**

Assistant Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; Duke University, PhD

**Needa Brown**

Assistant Teaching Professor, Physics; University of Oklahoma, PhD

**Nicholas Brown**

Assistant Teaching Professor, Graduate School of Engineering; University of California, Los Angeles, PhD

**Nicholas Brown**

Associate Teaching Professor, Architecture and History; University of Illinois, Urbana-Champaign, PhD

**Philip M. Brown**

University Distinguished Professor, Sociology and Anthropology and Health Sciences; Brandeis University, PhD

**Timothy Brown**

Professor, History; University of California, Berkeley, PhD

**Maria Brucato**

Assistant Teaching Professor, World Languages Center; University of Texas, PhD

**Christopher Buell**

Associate Teaching Professor, Criminology and Criminal Justice; Northeastern University, PhD

**Katie Bruner**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Elizabeth Bucar**

Professor, Philosophy and Religion; University of Chicago, PhD

**David E. Budil**

Associate Professor, Chemistry and Chemical Biology; University of Chicago, PhD

**Jamie Bunce**

Assistant Teaching Professor, Biology; University of Connecticut, PhD

**Lucy Bunning**

Associate Teaching Professor, College of Professional Studies; Lesley University, PhD

**Jeffrey Burds**

Associate Professor, History; Yale University, PhD

**Cheryl A. Burke**

Assistant Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

**Lynn H. Burke**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Amherst, MEd

**Margaret A. Burnham**

University Distinguished Professor, Law; University of Pennsylvania, LLB

**José Buscaglia**

Professor, Cultures, Societies, and Global Studies; University of Buffalo, PhD

**Jeremy Bushnell**

Associate Teaching Professor, Writing Program; University of Arizona, Tucson, MFA

**Ahmed A. Busnaina**

University Distinguished Professor, William Lincoln Smith Professor of Mechanical Engineering, Mechanical and Industrial Engineering; Oklahoma State University, PhD

**Michael Butera**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Grace Buttriss**

Clinical Professor, Nursing; Metropolitan State University, St. Paul, DNP

**C**

**Qinghong Cai**

Teaching Professor, World Languages Center; University of Kansas, MS

**Victoria Cain**

Associate Professor, History; Columbia University, PhD

**Paula Caligiuri**

Distinguished Professor of Global Leadership, International Business and Strategy; Pennsylvania State University, PhD

**Lisa M. Campagnoni**

Associate Cooperative Education Coordinator, College of Science; Northeastern University, MA

**James Campasano**

Assistant Teaching Professor, Finance; University of Massachusetts, Amherst, PhD

**Octavia Camps**

Professor, Electrical and Computer Engineering; University of Washington, PhD

**Yanet Canavan**

Associate Academic Specialist, World Languages Center; Salem State College, MA

**Kristopher Cannon**

Associate Teaching Professor, Media and Screen Studies; Georgia State University, PhD

**Mira Cantor**

Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Gary Cantrell**

Associate Teaching Professor, Computer Sciences; Mississippi State University, PhD

**Jianfei Cao**

Assistant Professor, Economics; University of Chicago, PhD

**Luca Caracoglia**

Associate Professor, Civil and Environmental Engineering; University of Trieste (Italy), PhD

**Benjamin Caras**

Assistant Teaching Professor, Art + Design; University of Massachusetts, Amherst, MFA

**Peter Cardillo**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Boston College, MS

**Alexa A. Carlson**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Butler University, PharmD

**Mary Carney**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Boston College, MSN

**Heather Carpenter-Oliveira**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Jonathan Carr**

Teaching Professor, Theatre; Columbia University, MFA

**Michelle Carr**

Senior Lecturer, Communication Studies; Kingston University (United Kingdom), MA

**Sara Carr**

Assistant Professor, Architecture; University of California, Berkeley, PhD

**Rebecca L. Carrier**

Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Matthew Carroll**

Professor of the Practice, Journalism; Northeastern University, BS

**Elie Casbi**

Zelevinsky Postdoctoral Researcher, Mathematics; Université de Paris (France), PhD

**Patricia Case**

Assistant Teaching Professor, Health Sciences; Harvard University, PhD

**Cristian Cassella**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**N. Fadeke Castor**

Assistant Professor, Philosophy and Religion and African and African American Studies; University of Chicago, PhD

**Smajl Cenjic**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MA

**Christopher Cesario**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Yunrong Chai**

Associate Professor, Biology; Cornell University, PhD

**Srirupa Chakraborty**

Assistant Professor, Chemical Engineering and Chemistry and Chemical Biology; State University of New York at Buffalo, PhD

**Paul M. Champion**

Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Chee Chan**

Associate Academic Specialist, Marketing; Michigan State University, PhD

**Katherine Chan**

Assistant Teaching Professor, Music; University of Minnesota, PhD

**Raman Chandrasekar**

Clinical Professor, Computer Sciences; Tata Institute of Fundamental Research/University of Bombay (India), PhD

**Chiu Chang**

Associate Teaching Professor, Marketing; Indiana University, PhD

**Divya Chaudhary**

Assistant Teaching Professor, Computer Sciences; University of Delhi (India), PhD

**Heidi Cheerman**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Changyan Chen**

Research Professor, Center for Drug Discovery; Columbia University, PhD

**Jingjing Chen**

Visiting Assistant Professor, Finance; Washington State University, PhD

**Qin Chen**

Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Old Dominion University, PhD

**Esther Chewning**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MS

**Cherese Childers-McKee**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Greensboro, PhD

**W. Paul Chiou**

Associate Teaching Professor, Finance; Rutgers University, PhD

**David R. Hoffnes**

Associate Professor, Computer Sciences; Northwestern University, PhD

**John Choi**

Assistant Cooperative Education Coordinator, Pharmaceutical Sciences; Harvard University, MS

**Seulah Choi**

Visiting Lecturer, Political Science; Boston University, PhD

**Chun-An Chou**

Assistant Professor, Mechanical and Industrial Engineering; Rutgers University, PhD

**Kaushik Roy Chowdhury**

Professor, Electrical and Computer Engineering; University of Cincinnati, MS

**Leanne Chukoskie**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences and Art + Design; New York University, PhD

**Ken Y. Chung**

Assistant Teaching Professor, Chemistry and Chemical Biology; Michigan State University, PhD

**Myojung Chung**

Assistant Professor, Journalism; Syracuse University, PhD

**Samuel Chung**

Assistant Professor, Bioengineering; Harvard University, PhD

**Hillary Chute**

Distinguished Professor, English and Art + Design; Rutgers University, PhD

**Dawn M. Cisewski**

Associate Teaching Professor, Psychology; Indiana University of Pennsylvania, PsyD

**Paolo Ciuccarelli**

Professor, Art + Design; Politecnico di Milano (Italy), MArch

**Sophie Clachar**

Assistant Teaching Professor, Computer Sciences; University of North Dakota, PhD

**Bruce H. Clark**

Associate Professor, Marketing; Stanford University, PhD

**Edmund L. Clark**

Senior Academic Specialist, Entrepreneurship and Innovation; Clark University, MBA

**Elisha Clark**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MBA

**Meredith Clark**

Associate Professor, Journalism; University of North Carolina, Chapel Hill, PhD

**Stephen B. Clark**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Paul Closas**

Assistant Professor, Electrical and Computer Engineering; Universitat Politècnica de Catalunya (Spain), PhD

**Emily Clough**

Assistant Professor, Political Science and International Affairs; Harvard University, PhD

**Yvonne Coady**

Visiting Professor, Computer Sciences; The University of British Columbia (Canada), PhD

**Robin Coddling**

Associate Professor, Applied Psychology; Syracuse University, PhD

**Mauricio Codesso**

Assistant Teaching Professor, Accounting; Federal University of Santa Catarina (Brazil), PhD

**John D. Coley**

Associate Professor, Psychology; University of Michigan, PhD

**Greg Collier**

Professor of the Practice, Entrepreneurship and Innovation; Eastern Michigan University, MBA

**Patrice Collins**

Assistant Professor, Criminology and Criminal Justice and Cultures, Societies, and Global Studies; Yale University, PhD

**Randall C. Colvin**

Associate Professor, Psychology; University of Illinois, Urbana-Champaign, PhD

**Sally Conant**

Associate Cooperative Education Coordinator, College of Engineering; Salve Regina University, MA

**Richard Conley**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston University, JD

**Kelly Conn**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Thomas Consi**

Teaching Professor, Electrical and Computer Engineering; Columbia University, PhD

**Sara Constantino**

Assistant Professor, Psychology and Public Policy and Urban Affairs; New York University, PhD

**Adam I. Cooper**

Associate Teaching Professor, Linguistics; Cornell University, PhD

**Seth Cooper**

Assistant Professor, Computer Sciences; University of Washington, PhD

**Gene D. Cooperman**

Professor, Computer Sciences; Brown University, PhD

**Calina Copos**

Assistant Professor, Biology and Mathematics; University of California, Davis, PhD

**Lino Coria Mendoza**

Associate Teaching Professor, Computer Sciences; The University of British Columbia (Canada), PhD

**Marie B. Corkery**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**John Cornett**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**Patricia Corrigan**

Assistant Cooperative Education Coordinator, College of Science; Suffolk University, MA

**Felipe Cortes**

Associate Teaching Professor, Finance; Washington University, St. Louis, PhD

**Catherine Cosgrove**

Associate Cooperative Education Coordinator, College of Science; Bridgewater State University, MEd

**Ahmet Coskun**

Associate Teaching Professor, Mechanical and Industrial Engineering; Middle East Technical University (Turkey), PhD

**Xavier Costa**

Professor, Architecture; University of Pennsylvania, PhD

**Sasha Costanza-Chock**

Associate Professor, Media and Screen Studies; University of Southern California, PhD

**Hugh G. Courtney**

Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Jessica Courtney**

Assistant Cooperative Education Coordinator, College of Engineering; Lesley University, MA

**Arthur J. Coury**

University Distinguished Professor, Chemical Engineering; University of Minnesota, PhD

**Erin J. Cram**

Professor and Associate Dean for Research of the College of Science, Biology; University of California, Berkeley, PhD

**Justin D. Crane**

Assistant Professor, Biology; McMaster University (Canada), PhD

**Fiona Creed**

Associate Teaching Professor, College of Professional Studies; University College, Cork (Ireland), PhD

**William F. Crittenden**

Professor, International Business and Strategy; University of Arkansas, PhD

**Wendy Crocker**

Associate Teaching Professor, College of Professional Studies; University of Western Ontario (Canada), PhD

**Danielle Crooks**

Assistant Professor, Health Sciences and Sociology and Anthropology; Columbia University, PhD

**Maia Cross**

Professor, Political Science and International Affairs; Princeton University, PhD

**Robert Cross**

Assistant Teaching Professor, History; Princeton University, PhD

**Pedro Miguel Cruz**

Assistant Professor, Art + Design; Universidade de Coimbra (Portugal), PhD

**Giuseppina Cucciniello**

Assistant Cooperative Education Coordinator, College of Engineering; Università degli Studi di Napoli "L'Orientale" (Italy), MA

**Daniel Cuenca**

Assistant Teaching Professor, World Languages Center; Boston College, PhD

**Alvaro Cuervo-Cazurra**

Professor and Lloyd Mullen Research Fellow, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Carlos Cuevas**

Professor, Criminology and Criminal Justice; Alliant International University, PhD

**Meng Cui**

Research Associate Professor, Center for Drug Discovery; Jilin University (China), PhD

**Derek Curry**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Phillip Curtiss**

Associate Teaching Professor, Electrical and Computer Engineering; University of Maryland, PhD

**Mary Ellen Cushman**

Professor, English; Rensselaer Polytechnic Institute, PhD

**D**

**Kate Daher**

Assistant Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Guohao Dai**

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Elise J. Dallimore**

Associate Professor, Communication Studies; University of Washington, PhD

**James Dana Jr.**

Professor, Economics and International Business and Strategy; Massachusetts Institute of Technology, PhD

**Dan Danielsen**

Professor, Law; Harvard University, JD

**Luis Dau**

Associate Professor and Robert and Denise DiCenso Endowed Professor, International Business and Strategy; University of South Carolina, PhD

**Benyamin Davaji**

Assistant Professor, Electrical and Computer Engineering; Marquette University, PhD

**Milivoje Davidovic**

Assistant Teaching Professor, Finance; Northern Illinois University, PhD

**Juliet Davidow**

Assistant Professor, Psychology; Columbia University, PhD

**Duncan Davis**

Associate Teaching Professor, Engineering; North Carolina State University, PhD

**Martha Davis**

Professor, Law; University of Chicago, JD

**Nicole Davis**

Associate Clinical Professor, Applied Psychology; Simmons College, MS

**Patricia Davis**

Associate Professor, Communication Studies; University of California, San Diego, PhD

**Theo Davis**

Professor, English; Johns Hopkins University, PhD

**Alexander Dawson**

Postgraduate Teaching Fellow, Art + Design; Rhode Island School of Design, MS

**Tovah Day**

Assistant Professor, Biology; Boston University, PhD

**Richard Daynard**

University Distinguished Professor, Law; Massachusetts Institute of Technology, PhD; Harvard University, JD

**Anthony P. De Ritis**

Professor, Music; University of California, Berkeley, PhD

**Robert De Schutter**

Associate Professor, Game Design and Computer Sciences; Katholieke Universiteit Leuven (Belgium), PhD

**Michael Dean**

Assistant Teaching Professor, College of Professional Studies; Columbia University, PhD

**Adenekan (Nick) Dedeke**

Senior Lecturer, Supply Chain and Information Management; Technische Universität Kaiserslautern (Germany), PhD

**Melissa DeGrandis**

Assistant Cooperative Education Coordinator, College of Engineering; Ball State University, MA

**Mohammad Dehghani**

Associate Teaching Professor, Mechanical and Industrial Engineering; Western New England University, PhD

**Candice Delmas**

Associate Professor, Philosophy and Religion and Political Science; Boston University, PhD

**Emrecan Demirors**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**John Dencker**

Professor, Management and Organizational Development; Harvard University, PhD

**James Dennedy-Frank**

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Stanford University, PhD

**Jack Dennerlein**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of California, Berkeley, PhD

**Megan Denver**

Assistant Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Alexander DePaoli**

Assistant Teaching Professor, Marketing; Stanford University, PhD

**Joseph DePasquale**

Associate Teaching Professor, Chemistry and Chemical Biology; Drexel University, PhD

**Leila F. Deravi**

Assistant Professor, Chemistry and Chemical Biology; Vanderbilt University, PhD

**Nate Derbinsky**

Teaching Professor, Computer Sciences; University of Michigan, Ann Arbor, PhD

**Harm Derksen**

Professor, Mathematics; University of Basel (Switzerland), PhD

**Nishil Desai**

Associate Teaching Professor, Pharmaceutical Sciences; Mercer University, PhD

**Rajeev Desai**

Research Associate Professor, Center for Drug Discovery; University of Birmingham, PhD

**Peter J. Desnoyers**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**David A. DeSteno**

Professor, Psychology; Yale University, PhD

**Darin Detwiler**

Associate Teaching Professor, College of Professional Studies; Northeastern University, PhD

**John W. Devlin**

Professor, Pharmacy and Health Systems Sciences; University of Toronto (Canada), PharmD

**Janet Dewan**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Christa Dhimo**

Professor of the Practice, Biotechnology; Northeastern University, MS

**Alessandra Di Credico**

Associate Teaching Professor, Physics; University of Rome (Italy), PhD

**Michele Di Piero**

Assistant Professor, Physics; University of Texas, Austin, PhD

**Panagoula Diamanti-Karanou**

Assistant Teaching Professor, International Affairs; Northeastern University, PhD

**Jacqueline Diani**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; University of Virginia, MEd

**Martin Dias**

Associate Teaching Professor, Supply Chain and Information Management; Bentley University, PhD

**Amy DiBattista**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**William Dickens**

Distinguished Professor, Economics and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Elizabeth Dillon**

Distinguished Professor, English; University of California, Berkeley, PhD

**Charles DiMarzio**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Aidong A. Ding**

Associate Professor, Mathematics; Cornell University, PhD

**Hunter Dinkins**

Zelevinsky Postdoctoral Researcher, Mathematics; University of North Carolina, PhD

**Kathleen C. Dioli**

Associate Cooperative Education Coordinator, Chemistry and Chemical Biology; Bowling Green State University, MA

**Brandon Dionne**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of New England, PharmD

**Daniel L. Distel**

Research Professor, Marine and Environmental Sciences; University of California, San Diego, PhD

**Benjamin Dittbrenner**

Associate Teaching Professor, Marine and Environmental Sciences; University of Washington, PhD

**Margarita V. DiVall**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Mark Dockser**

Professor of the Practice, Entrepreneurship and Innovation; Stanford University, MBA

**Mary Kate Dodgson**

Assistant Professor, Accounting; University of Massachusetts, Amherst, PhD

**Lisa Cantwell Doherty**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MA

**Silvia Dominguez**

Associate Professor, Sociology and Anthropology; Boston University, PhD

**Olya Domoradova**

Postgraduate Teaching Fellow, Art + Design; ArtEZ University of the Arts (Netherlands), MS

**Jason Donati**

Teaching Professor, Art + Design; Rochester Institute of Technology, MFA

**Hua Dong**

Senior Academic Specialist, World Languages Center; Emerson College, MA

**Sijia Dong**

Assistant Professor, Chemistry and Chemical Biology; California Institute of Technology, PhD

**Pamela Donlan**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Maeve Donnelly**

Assistant Clinical Professor, Applied Psychology; Western New England University, PhD

**Salvatore D'Oro**

Research Assistant Professor, Electrical and Computer Engineering; University of Catania (Italy), PhD

**Larisa Doroshenko**

Postdoctoral Teaching Associate, Communication Studies; University of Wisconsin, Madison, PhD

**Kristen Dorsey**

Associate Professor, Electrical and Computer Engineering and Physical Therapy, Movement, and Rehabilitation Sciences; Carnegie Mellon University, PhD

**Brenda Douglas**

Associate Clinical Professor, Nursing; Northeastern University, DNP

**Daniel C. Douglass**

Associate Teaching Professor, Marine and Environmental Sciences; University of Wisconsin, PhD

**Mark Douglass**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Michigan, PharmD

**Kevin Drakulich**

Associate Professor, Criminology and Criminal Justice; University of Washington, PhD

**Timothy Dransfield**

Associate Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Laura Dudley**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Lisa Duffy**

Assistant Professor, Nursing; Boston College, DNP

**Tara Duffy**

Associate Teaching Professor, Marine and Environmental Sciences; State University of New York at Stony Brook, PhD

**Daniel M. Dulaski**

Teaching Professor, Civil and Environmental Engineering; University of Massachusetts, Amherst, PhD

**Evan Dummit**

Assistant Teaching Professor, Mathematics; University of Wisconsin, Madison, PhD

**Jill Dupree**

Assistant Teaching Professor, Economics; University of Colorado, Boulder, PhD

**Kathleen Durant**

Assistant Teaching Professor, Computer Sciences; Harvard University, PhD

**Jennifer G. Dy**

Professor, Electrical and Computer Engineering; Purdue University, PhD

**Rashmi Dyal-Chand**

Professor, Law; Harvard University, JD

**E**

**Sebastian Ebarb**

Associate Teaching Professor, Art + Design; School of Visual Arts, MFA

**Eno Ebong**

Associate Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Stephanie Eby**

Associate Teaching Professor, Marine and Environmental Sciences; Syracuse University, PhD

**Matthew Eckelman**

Associate Professor, Civil and Environmental Engineering; Yale University, PhD

**Kimberly Eddleston**

Professor, Entrepreneurship and Innovation; University of Connecticut, PhD

**Bethany R. Edmunds**

Teaching Professor, Computer Sciences; Rutgers University, PhD

**Laurie Edwards**

Teaching Professor, Writing Program; Emerson College, MFA

**Jessica Edwards George**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Robert C. Eidson**

Assistant Teaching Professor, Psychology; Northeastern University, PhD

**Stanley J. Eigen**

Professor, Mathematics; McGill University (Canada), PhD

**Adam Ekenseair**

Associate Teaching Professor, Chemical Engineering; University of Texas, Austin, PhD

**Ehsan Elhamifar**

Assistant Professor, Computer Sciences; Johns Hopkins University, PhD

**Tina Eliassi-Rad**

Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ryan Ellis**

Associate Professor, Communication Studies; University of California, San Diego, PhD

**Constance Emerson**

Associate Teaching Professor, College of Professional Studies; Purdue University, West Lafayette, MS

**Lee Emrich**

Postdoctoral Teaching Associate, Writing Program; University of California, Davis, PhD

**John R. Engen**

Distinguished Professor, Chemistry and Chemical Biology and Barnett Institute; University of Nebraska, Lincoln, PhD

**Christen Enos**

Associate Teaching Professor, Writing Program; Emerson College, MFA

**Michael Enright**

Pierre Choueiri Family Professor in Global Business, International Business and Strategy; Harvard University, PhD

**Slava S. Epstein**

Professor, Biology; Moscow State University (Russia), PhD

**Randall Erb**

Associate Professor, Mechanical and Industrial Engineering; Duke University, PhD

**Deniz Erdogmus**

Professor, Electrical and Computer Engineering; University of Florida, PhD

**Ozlem Ergun**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Cuneyt Eroglu**

Associate Professor, Supply Chain and Information Management; Ohio State University, PhD

**Bilge Erten**

Associate Professor, International Affairs and Economics; University of Massachusetts, Amherst, PhD

**Rhea T. Eskew**

Professor, Psychology; Georgia Institute of Technology, PhD

**Jonathan Esole**

Associate Professor, Mathematics; Leiden University (Netherlands), PhD

**Tabitha Espina**

Postdoctoral Teaching Associate, English; Washington State University, PhD

**Jennifer Evans**

Teaching Professor, Health Sciences; University of Alabama, PhD

**Michael Everett**

Assistant Professor, Electrical and Computer Engineering and Computer Sciences; Massachusetts Institute of Technology, PhD

**Sara Ewell**

Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**William Ewell**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

## F

### **Daniel Faber**

Professor, Sociology and Anthropology; University of California, Santa Cruz, PhD

### **Olubunmi Faleye**

Professor, Finance; University of Alberta (Canada), PhD

### **Don Fallis**

Professor, Philosophy and Religion and Computer Sciences; University of California, Irvine, PhD

### **Mohammad Fanaei**

Associate Teaching Professor, Electrical and Computer Engineering; West Virginia University, Morgantown, PhD

### **Cao Fang**

Assistant Teaching Professor, Finance; University of Arkansas, PhD

### **Qianqian Fang**

Associate Professor, Bioengineering; Dartmouth College, PhD

### **David Fannon**

Associate Professor, Architecture and Civil and Environmental Engineering; University of California, Berkeley, MS

### **Nasser S. Fard**

Associate Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

### **Amir Farhat**

Associate Teaching Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

### **Johanna E. Farkas**

Assistant Teaching Professor, Biology; Northeastern University, PhD

### **Amy Farrell**

Professor, Criminology and Criminal Justice; Northeastern University, PhD

### **Sina Fazelpour**

Assistant Professor, Philosophy and Religion and Computer Sciences; The University of British Columbia (Canada), PhD

### **Yunsi Fei**

Professor, Electrical and Computer Engineering; Princeton University, PhD

### **Adrian E. Feiguin**

Associate Professor, Physics; Universidad Nacional de Rosario (Argentina), PhD

### **Allen G. Feinstein**

Teaching Professor, Music; New England Conservatory of Music, MM

### **Nathan I. Felde**

Professor, Art + Design; Massachusetts Institute of Technology, MS

### **Matthias Felleisen**

Trustee Professor, Computer Sciences; Indiana University, PhD

### **Hicham Fenniri**

Professor, Chemical Engineering; Université de Strasbourg (France), PhD

### **Loretta A. Fernandez**

Associate Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

### **Melissa Ferrick**

Professor of the Practice, Music; Harvard University, MA

### **Lori Ferrins**

Research Assistant Professor, Chemistry and Chemical Biology; Monash University (Australia), PhD

### **Craig F. Ferris**

Professor, Psychology and Pharmaceutical Sciences; New York Medical College, PhD

**Kirsten Fertuck**

Associate Teaching Professor, Biochemistry; Michigan State University, PhD

**Gregory A. Fiete**

Professor, Physics; Harvard University, PhD

**Susan F. Fine**

Assistant Clinical Professor, Communication Sciences and Disorders; New York University, MA

**Sarah Finn**

Teaching Professor, Writing Program; University of Massachusetts, Amherst, PhD

**Gabrielle Fiorenza-Hagopian**

Assistant Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Jessica Fisher**

Assistant Cooperative Education Coordinator, College of Engineering; Bridgewater State University, MEd

**Branden Fitelson**

Distinguished Professor, Philosophy and Religion; California Institute of Technology, PhD

**Joan Fitzgerald**

Professor, Public Policy and Urban Affairs; Pennsylvania State University, PhD

**Diane F. Fitzpatrick**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Josephine Flanagan**

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, JD

**Julia Flanders**

Professor of the Practice, English and Library Systems; Brown University, PhD

**Eric Folmar**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Quinnipiac University, MS

**Paul Fombelle**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; Arizona State University, PhD

**Ellen Fontana**

Associate Teaching Professor, Communication Studies; University of California, Davis, MA

**Clifton Forlines**

Research Associate Professor, Computer Sciences; University of Toronto (Canada), PhD

**Murray Forman**

Professor, Media and Screen Studies; McGill University (Canada), PhD

**Lisa M. Foster**

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Charles F. Fountain**

Professor, Journalism; Columbia University, MS

**James Fox**

Lipman Family Professor of Criminology, Law, and Public Policy, Criminology and Criminal Justice and Law and Public Policy; University of Pennsylvania, PhD

**Erica P. Frank**

Assistant Teaching Professor, Biology; Baylor College of Medicine, PhD

**Debra L. Franko**

Professor, Applied Psychology; McGill University (Canada), PhD

**Peter Fraunholtz**

Assistant Teaching Professor, History and International Affairs; Boston College, PhD

**Julian M. Fray**

Associate Teaching Professor, Law; Columbia University, JD

**Susan Freeman**

Teaching Professor, Engineering; Northeastern University, PhD

**Clark Freifeld**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

**Michael Fregel**

Associate Academic Specialist, Music; City, University of London (United Kingdom), PhD

**John H. Friar**

Senior Academic Specialist, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Sarah Friedman**

Visiting Assistant Teaching Professor, Art + Design; Boston University, MFA

**Alex Fronduto**

Assistant Teaching Professor, College of Professional Studies; MCPHS University, PhD

**Natasha Frost**

Professor, Criminology and Criminal Justice; City University of New York, PhD

**Yun (Raymond) Fu**

Professor, Electrical and Computer Engineering and Computer Sciences; University of Illinois, Urbana-Champaign, PhD

**Carolyn Fuchs**

Teaching Professor, World Languages Center; Justus-Liebig-Universitat Giessen (Germany), PhD

**Sara FuchsHayat**

Postdoctoral Teaching Associate, Architecture; Brown University, PhD

**Canek Fuentes-Hernandez**

Associate Professor, Electrical and Computer Engineering; University of Arizona, Tucson, PhD

**Brian Fulton**

Associate Teaching Professor, Chemistry and Chemical Biology; Iowa State University, PhD

**Peter G. Furth**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**G**

**Laurel Gabard-Durnam**

Assistant Professor, Psychology; Columbia University, PhD

**Timothy Gagnon**

Associate Academic Specialist, Accounting; Sacred Heart University, MBA

**Sean Gallagher**

Assistant Clinical Professor, College of Professional Studies; Northeastern University, EdD

**Susan Gallagher**

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

**Joshua Galloway**

William O. DiPietro Assistant Professor, Chemical Engineering; Columbia University, PhD

**Nouha Gammar**

Visiting Lecturer, World Languages Center; University of Virginia, PhD

**Auroop Ganguly**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Denise Garcia**

Associate Professor, Political Science and International Affairs; University of Geneva (Switzerland), PhD

**Lori Gardinier**

Teaching Professor, Human Services; Northeastern University, PhD

**Julie Garey**

Assistant Teaching Professor, Political Science; Northeastern University, PhD

**Karen Garneau**

Teaching Professor, Writing Program; Northeastern University, PhD

**Julia Garrett**

Associate Teaching Professor, English; University of California, Santa Barbara, PhD

**Myles Garvey**

Assistant Teaching Professor, Marketing; Rutgers University, PhD

**Wolfgang Gatterbauer**

Associate Professor, Computer Sciences; Vienna University of Technology (Austria), PhD

**Caleb Gayle**

Professor of the Practice, Journalism; Harvard University, MBA

**Edward Geisinger**

Assistant Professor, Biology; New York University, MD, PhD

**Prasanth George**

Associate Teaching Professor, Mathematics; State University of New York at Buffalo, PhD

**Francis Georges**

Assistant Teaching Professor, Economics; Boston College, PhD

**Fatemeh Ghoreishi**

Assistant Professor, Civil and Environmental Engineering and Computer Sciences; Texas AM University, PhD

**Siddhartha Ghosh**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**Joan Giblin**

Assistant Teaching Professor, College of Professional Studies; Old Dominion University, PhD

**Roger W. Giese**

Professor, Pharmaceutical Sciences; Massachusetts Institute of Technology, PhD

**Joseph M. Giglio**

Senior Academic Specialist, International Business and Strategy; Northeastern University, PhD

**Nabeel Gillani**

Assistant Professor, Art + Design and Marketing; Massachusetts Institute of Technology, PhD

**Andrew Gillen**

Assistant Teaching Professor, Engineering; Virginia Polytechnic Institute and State University, PhD

**Laurance Ginsberg**

Assistant Academic Specialist, Accounting; Bentley University, MST

**Jim Giumarra**

Associate Teaching Professor, College of Professional Studies; University of Illinois, MA

**Leonard J. Glick**

Senior Academic Specialist, Management and Organizational Development; Harvard University, EdD

**Elizabeth Glowacki**

Postdoctoral Teaching Associate, Communication Studies and Health Sciences; University of Texas, Austin, PhD

**Daniel Godfrey**

Professor, Music; University of Iowa, PhD

**Veronica S. Godoy-Carter**

Associate Professor, Biology; Tufts University, PhD

**Stephen Golden**

Associate Teaching Professor, Entrepreneurship and Innovation; Suffolk University, MBA

**William Goldman**

Senior Lecturer, Accounting; Northeastern University, MBA

**Ann C. Golub-Victor**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Edgar D. Goluch**

Associate Professor, Chemical Engineering; University of Illinois, Urbana-Champaign, PhD

**Camille Gómez-Laberge**

Associate Teaching Professor, Physics; Dalhousie University (Canada), PhD

**Kathleen Gonso**

Teaching Professor, Writing Program; Emerson College, MFA

**Michael J. Gonyeau**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Teresa Goode**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Patricia Goodman**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Matthew Goodwin**

Associate Professor, Health Sciences and Computer Sciences; University of Rhode Island, PhD

**Mark Gooley**

Associate Teaching Professor, Finance; Northeastern University, PhD

**Samantha Gorman**

Assistant Professor, Art + Design; University of Southern California, PhD

**Ian Gorton**

Professor of the Practice, Computer Sciences; Sheffield Hallam University (United Kingdom), PhD

**Irina Gott**

Teaching Professor, Law; Suffolk University, JD

**Tarik C. Gouhier**

Associate Professor, Marine and Environmental Sciences; McGill University (Canada), PhD

**Thomas Goulding**

Professor of the Practice, College of Professional Studies; University of Florida, PhD

**Andrew Gouldstone**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Jonathan H. Grabowski**

Professor, Marine and Environmental Sciences; University of North Carolina, Chapel Hill, PhD

**Jennifer Gradecki**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Anthony P. Graffeo**

Professor of the Practice, Biotechnology; Northeastern University, PhD

**Steven Granelli**

Associate Teaching Professor, Communication Studies; Ohio University, PhD

**Laura Green**

Professor, English; University of California, Berkeley, PhD

**Kristin Curry Greenwood**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, EdD, DPT

**Brent Griffin**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Jacqueline Griffin**

Associate Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Joseph Griffin**

Associate Teaching Professor, College of Professional Studies; Gordon Conwell Theological Seminary, PhD

**Joshua Griffiths**

Assistant Teaching Professor, World Languages Center; University of Texas, Austin, PhD

**Amir Grinstein**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; The Hebrew University of Jerusalem (Israel), PhD

**Francesca Grippa**

Teaching Professor, College of Professional Studies; University of Salento (Italy), PhD

**Stine Grodal**

D'Amore-McKim School of Business Distinguished Professor, Entrepreneurship and Innovation; Stanford University, PhD

**Terri Gu**

Assistant Cooperative Education Coordinator, College of Engineering; University of Washington, Seattle, MS

**Tiantian Gu**

Associate Professor, Finance; University of Wisconsin, Madison, PhD

**John Alexis Guerra Gómez**

Assistant Teaching Professor, Computer Sciences; University of Maryland, College Park, PhD

**Arjun Guha**

Associate Professor, Computer Sciences; Brown University, PhD

**Jeanette Guillemín**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Boston University, MA

**Hemanth Gundavaram**

Clinical Professor, Law; Boston University, JD

**Jason J. Guo**

Research Associate Professor, Barnett Institute; University of Connecticut, PhD

**Surendra M. Gupta**

Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Andrei Guschin**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Russian Academy of Sciences (Russian Federation), PhD

**James Gutierrez**

Visiting Assistant Teaching Professor, Music; University of California, San Diego, PhD

**Kayoll Gyan**

Assistant Professor, Nursing; University of North Carolina, Chapel Hill, PhD

**H****Mohamed Habibullah**

Assistant Teaching Professor, Supply Chain and Information Management; University of Missouri, Columbia, PhD

**Katherine Haenschen**

Assistant Professor, Communication Studies and Political Science; University of Texas, Austin, PhD

**David Hagen**

Associate Teaching Professor, College of Professional Studies; New England School of Law, JD

**Michelle Hagopian**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Illinois, Urbana-Champaign, MS

**Margaret Hahn-Dupont**

Teaching Professor, Law; Georgetown University, JD

**Andrew Haile**

Assistant Teaching Professor, Law; Boston College, JD

**Jerome F. Hajjar**

CDM Smith Professor in Civil Engineering, Civil and Environmental Engineering; Cornell University, PhD

**Iva Halacheva**

Assistant Professor, Mathematics; University of Toronto (Canada), PhD

**Mary Hale**

Assistant Teaching Professor, Architecture; Massachusetts Institute of Technology, MArch

**Kristina Hals**

Assistant Cooperative Education Coordinator, College of Engineering; Cornell University, MS

**James Halverson**

Assistant Professor, Physics; University of Pennsylvania, PhD

**Lama Hamandi**

Associate Teaching Professor, Computer Sciences; Ohio State University, PhD

**Paul Hand**

Assistant Professor, Mathematics and Computer Sciences; New York University, PhD

**Robert N. Hanson**

Matthews Distinguished University Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Chana Haouzi**

Associate Teaching Professor, Architecture; Harvard University, MArch

**Yoko Hara**

Visiting Assistant Teaching Professor, Architecture; Virginia University of Lynchburg, PhD

**Matan Harel**

Assistant Professor, Mathematics; Courant Institute of Mathematical Sciences, PhD

**Ramkumar Hariharan**

Associate Teaching Professor, Graduate School of Engineering; University of Kerala, India, PhD

**Sharon Harlan**

Professor, Health Sciences and Sociology and Anthropology; Cornell University, PhD

**Kelly Harrington**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MBA

**Shaunna Harrington**

Associate Teaching Professor, College of Professional Studies; Boston University, MA

**Vincent Harris**

University Distinguished Professor, William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Northeastern University, PhD

**Vanecia Harrison**

Associate Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Casper Harteveld**

Associate Professor, Game Design; Delft University of Technology (Netherlands), PhD

**Stephanie R. Hartung**

Teaching Professor, Law; Boston College, JD

**Sara Hashmi**

Assistant Professor, Chemical Engineering; Yale University, PhD

**Christopher Hasson**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Massachusetts, Amherst, PhD

**Souheila Hassoun**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Sherbrooke (Canada), PhD

**Stephen Hatfield**

Assistant Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Heather Hauck**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Claudia Haupt**

Associate Professor, Law and Political Science; University of Cologne (Germany), PhD; Columbia University, JSD

**Fareed Hawwa**

Assistant Teaching Professor, College of Professional Studies; Louisiana State University, PhD

**Charles E. Haycook**

Assistant Cooperative Education Coordinator, Computer Sciences; Salem State University, MEd

**Jordan Hayes**

Postdoctoral Teaching Associate, English; University of Pittsburgh, Bradford, PhD

**Lorna Hayward**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, EdD

**Julia Hechtman**

Associate Teaching Professor, Art + Design; University of Illinois, Chicago, MFA

**Meghan Heckman**

Assistant Professor, Journalism; Northeastern University, MA

**Gretchen Heefner**

Associate Professor, History; Yale University, PhD

**Amy Helburn**

Assistant Teaching Professor, Health Sciences; University of Massachusetts, PhD

**Brian Helmuth**

Professor, Marine and Environmental Sciences and Public Policy and Urban Affairs; University of Washington, PhD

**Carlene Hempel**

Teaching Professor, Journalism; University of North Carolina, Chapel Hill, MA

**Jamie G. Henzy**

Associate Teaching Professor, Biology; Tufts University, PhD

**Dale Herbeck**

Professor, Communication Studies; University of Iowa, PhD

**David A. Herlihy**

Teaching Professor, Music; Boston College, JD

**Cristina Herren**

Assistant Teaching Professor, Marine and Environmental Sciences; University of Wisconsin, Madison, PhD

**Richard Herron**

Associate Teaching Professor, Finance; City University of New York, PhD

**Carie Hersh**

Associate Teaching Professor, Sociology and Anthropology; Duke University, JD

**Joshua Hertz**

Associate Teaching Professor, Engineering; Massachusetts Institute of Technology, PhD

**Benjamin Hescott**

Teaching Professor, Computer Sciences; Boston University, PhD

**Ravit Heskiau**

Associate Teaching Professor, Management and Organizational Development; University of Toronto (Canada), PhD

**Kamber Hetrick**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Caroline Hewitt**

Clinical Professor, Nursing; City University of New York, PhD

**Babak Heydari**

Associate Professor, Mechanical and Industrial Engineering; University of California, Berkeley, PhD

**Carlos Hidrovo Chavez**

Associate Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Matthew Higger**

Lecturer, Computer Sciences; Northeastern University, PhD

**Clareese Hill**

Postgraduate Teaching Fellow, Art + Design; School of the Art Institute of Chicago, MFA

**Malcolm D. Hill**

Associate Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

**Victoria Hill**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Charles H. Hillman**

Professor, Psychology and Health Sciences; University of Maryland, College Park, PhD

**Robin Hillyard**

Associate Teaching Professor, Graduate School of Engineering; Cambridge University (United Kingdom), PhD

**Jesse Hinson**

Associate Teaching Professor, Theatre; Brandeis University, MFA

**Edward Hirsch**

Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Matthew Hitchcock**

Postdoctoral Teaching Associate, English; Northeastern University, PhD

**Hubert Ho**

Associate Teaching Professor, Music; University of California, Berkeley, PhD

**Sofie Hodara**

Assistant Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

**Cydney Hodder**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Umesh Hodeghatta**

Assistant Teaching Professor, College of Professional Studies; Indian Institute of Technology (India), PhD

**Lynda Hodgson**

Associate Teaching Professor, College of Professional Studies; Virginia Commonwealth University, PhD

**Timothy Hoff**

Professor, Management and Organizational Development and Public Policy and Urban Affairs; State University of New York at Albany, PhD

**Jessica Hoffman**

Professor, Applied Psychology; Lehigh University, PhD

**Matthew Hogencamp**

Assistant Professor, Mathematics; University of Virginia, PhD

**Uwe Hohgrawe**

Professor of the Practice, College of Professional Studies; University of Wuppertal (Germany), PhD

**Udi Hoytash**

Professor and Lillian L. and Harry A. Cowan Research Professor, Accounting; Rutgers University, PhD

**Wallace Holohan**

Senior Clinical Specialist, Law; Fitchburg State University, BA

**Steven Holtzen**

Assistant Professor, Computer Sciences; University of California, Los Angeles, PhD

**Trenton Honda**

Clinical Professor, Medical Sciences; Northeastern University, PhD

**Julia Hopkins**

Assistant Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Michael J. Hoppmann**

Teaching Professor, Communication Studies; University of Tübingen (Germany), PhD

**Emily Hornsby**

Assistant Cooperative Education Coordinator, College of Arts, Media and Design; Bowling Green State University, MA

**Adam Hosein**

Associate Professor, Philosophy and Religion; Massachusetts Institute of Technology, PhD

**Richard Hoshino**

Associate Teaching Professor, Computer Sciences; Dalhousie University (Canada), PhD

**Marcus Howard**

Associate Teaching Professor, Journalism; University of Georgia, PhD

**Jeffrey P. Howe**

Associate Professor, Journalism; Boston University, MFA

**Valerie Hower**

Associate Teaching Professor, Mathematics; University of Georgia, PhD

**Laura Huang**

D'Amore-McKim School of Business Distinguished Professor, Management and Organizational Development; University of California, Irvine, PhD

**Aileen Huang-Saad**

Associate Professor, Bioengineering; Johns Hopkins University, PhD

**Anne R. Hughes**

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

**Kaitlyn S. Hughes**

Associate Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Francisco Hung**

Associate Professor, Chemical Engineering; North Carolina State University, PhD

**Matthew Hunt**

Professor, Sociology and Anthropology; Indiana University, PhD

**Faizul Huq**

Visiting Professor, Supply Chain and Information Management; University of Kentucky, DBA

**Patrick Hurley**

Assistant Professor, Accounting; University of Wisconsin, Madison, PhD

**Mark Huselid**

Distinguished Professor of Workforce Analytics, International Business and Strategy; State University of New York at Buffalo, PhD

**Emily Hutter**

Postdoctoral Teaching Associate, Communication Studies; University of Connecticut, PhD

**I****Anthony Iarrobino**

Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Patricia Illingworth**

Professor, Philosophy and Religion; University of California, San Diego, PhD; Boston University, JD

**Jennifer Ingemi**

Assistant Teaching Professor, Psychology; University of Massachusetts Medical School, PhD

**Vinay K. Ingle**

Associate Professor, Electrical and Computer Engineering; Rensselaer Polytechnic Institute, PhD

**Francesca Inglese**

Assistant Professor, Music; Brown University, PhD

**Rei Inouye**

Teaching Professor, World Languages Center; Temple University, PhD

**Stephen S. Intille**

Associate Professor, Computer Sciences and Health Sciences; Massachusetts Institute of Technology, PhD

**Efstratios Ioannidis**

Associate Professor, Electrical and Computer Engineering; University of Toronto (Canada), PhD

**Andreia Ionescu**

Assistant Professor, Biology; University of Rochester, PhD

**Farzaneh Irani**

Assistant Cooperative Education Coordinator, College of Engineering; University of Waterloo (Canada), MA

**Roderick Ireland**

Distinguished Professor, Criminology and Criminal Justice; Harvard University, LLM; Northeastern University, PhD

**Derek M. Isaacowitz**

Professor, Psychology; University of Pennsylvania, PhD

**Jacqueline A. Isaacs**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Michelle L. Israel**

Senior Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Nathan E. Israeloff**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Alexander R. Ivanov**

Associate Professor, Chemistry and Chemical Biology; Russian Academy of Sciences (Russia), PhD

**Julia Ivy**

Teaching Professor, International Business and Strategy; Lancaster University (United Kingdom), PhD

**J**

**Alden Jackson**

Associate Clinical Professor, Computer Sciences; University of Delaware, PhD

**Ellen Jackson**

Assistant Teaching Professor, Writing Program; Stanford University, MFA

**William J. Jackson**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Boston, MEd

**Michelle Jacobs**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of California, San Francisco, PharmD

**Bruce Jacoby**

Associate Clinical Professor, Law; University of Connecticut, JD

**Beverly Jaeger-Helton**

Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Michael Jaeggli**

Associate Teaching Professor, Bioengineering; Clemson University, PhD

**Aleksandra Jakubowski**

Assistant Professor, Health Sciences and Economics; University of North Carolina, PhD

**Safa Jamali**

Assistant Professor, Mechanical and Industrial Engineering; Case Western Reserve University, PhD

**Alan Jamieson**

Associate Clinical Professor, Computer Sciences; Clemson University, PhD

**Lindsay Jamieson**

Teaching Professor, Computer Sciences; Clemson University, PhD

**David Janero**

Visiting Professor, Pharmaceutical Sciences; Johns Hopkins University, PhD

**Angelina Jay**

Assistant Teaching Professor, Engineering; Northeastern University, PhD

**Regine Jean-Charles**

Professor, Cultures, Societies, and Global Studies and Women's, Gender, and Sexuality Studies; Harvard University, PhD

**Solomon M. Jekel**

Associate Professor, Mathematics; Dartmouth College, PhD

**Huaizu Jiang**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Holly Jimison**

Professor of the Practice, Computer Sciences and Health Sciences; Stanford University, PhD

**Xiaoning Jin**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Xuemin Jin**

Associate Teaching Professor, Mechanical and Industrial Engineering; University of Maryland, PhD

**Dinesh John**

Associate Professor, Health Sciences; University of Tennessee, PhD

**Brooke Johnson**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

**Steven Johnson**

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Vanessa D. Johnson**

Associate Professor, Applied Psychology; Western Michigan University, PhD

**Dierdre Jordan**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Josep Jornet**

Associate Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Tiffany Joseph**

Associate Professor, Sociology and Anthropology and International Affairs; University of Michigan, PhD

**Neel Joshi**

Associate Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Jacqueline Josselyn**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Alison Joyce**

Associate Cooperative Education Coordinator, College of Engineering; Ohio University, MEd

**Maria Jump**

Associate Teaching Professor, Computer Sciences; University of Texas, Austin, PhD

**Yung Joon Jung**

Professor, Mechanical and Industrial Engineering; Rensselaer Polytechnic Institute, PhD

**K**

**David R. Kaeli**

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Rutgers University, PhD

**Jonathan D. Kahn**

Professor, Law and Biology; Cornell University, PhD; University of California, Berkeley, JD

**Sallyann Kakas**

Associate Cooperative Education Coordinator, Finance; Northeastern University, BS

**Sagar V. Kamarthi**

Professor, Mechanical and Industrial Engineering; Pennsylvania State University, PhD

**John Kane**

Lecturer, Art + Design; Yale University, BA

**Mary M. Kane**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Massachusetts, Boston, MEd

**Michael Kane**

Assistant Professor, Civil and Environmental Engineering; University of Michigan, PhD

**Sarah Kanouse**

Associate Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Carla Kaplan**

Davis Distinguished Professor in American Literature, English and Women's, Gender, and Sexuality Studies; Northwestern University, PhD

**Swastik Kar**

Associate Professor, Physics; Indian Institute of Science (India), PhD

**Ieshia Karasik**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Pine Manor College, MFA

**Samina Karim**

Professor, Entrepreneurship and Innovation; University of Michigan, PhD

**Yael Karlinsky Shichor**

Assistant Professor, Marketing; Columbia University, PhD

**Alain S. Karma**

College of Arts and Sciences Distinguished Professor, Physics; University of California, Santa Barbara, PhD

**Ralph Katz**

Professor, Entrepreneurship and Innovation; University of Pennsylvania, PhD

**Jonathan Kaufman**

Professor, Journalism; Harvard University, MA

**William Kay**

Associate Professor, Political Science; Indiana University, PhD

**Bret Keeling**

Teaching Professor, Writing Program; University of Washington, PhD

**Karen P. Kelley**

Senior Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Melvin Kelley**

Associate Professor, Law and Entrepreneurship and Innovation; Columbia University, JD

**Thomas M. Kelley**

Associate Teaching Professor, Physics; University of Minnesota, PhD

**Kathleen Kelly**

Professor, English; University of North Carolina, Chapel Hill, PhD

**Whitney Kelting**

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Daniel D. Kennedy**

Professor, Journalism; Boston University, MLA

**Megan Kennedy**

Assistant Teaching Professor, College of Professional Studies; University of Albany, PhD

**Sarmann Kennedyd**

Assistant Teaching Professor, College of Professional Studies; SKEMA Business School (France), PhD

**Kathryn Kennen**

Associate Teaching Professor, Architecture; Harvard University, MArch

**Aileen Kent Yates**

Assistant Cooperative Education Coordinator, Computer Sciences; University of Massachusetts, Amherst, BA

**Heidi Kevoe Feldman**

Associate Professor, Communication Studies; Rutgers University, PhD

**Leila Keyvani Someh**

Associate Teaching Professor, Engineering; Northeastern University, PhD

**Shantanu Khanna**

Assistant Professor, Public Policy and Urban Affairs and Economics; University of California, Irvine, PhD

**Konstantin Khrapko**

Professor, Biology and Pharmaceutical Sciences; Engelhardt Institute of Molecular Biology, Moscow (Russia), PhD

**Ilham Khuri-Makdisi**

Associate Professor, History; Harvard University, PhD

**Sheri Kiami**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Simmons College, DPT

**Angela Kilby**

Assistant Professor, Economics; Massachusetts Institute of Technology, PhD

**Daniel Kim**

Associate Professor, Health Sciences; University of Toronto (Canada), MD; Harvard University, PhD

**Eunsong Kim**

Assistant Professor, English; University of California, San Diego, PhD

**Miso Kim**

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

**Tiffany Kim**

Assistant Clinical Professor, Nursing; University of Pennsylvania, PhD

**Yong-Bin Kim**

Professor, Electrical and Computer Engineering; Colorado State University, PhD

**John Kimani**

Associate Teaching Professor, Electrical and Computer Engineering; University of Wisconsin, Milwaukee, PhD

**David L. Kimbro**

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

**Nancy Kimelman**

Assistant Teaching Professor, Economics; Brown University, PhD

**Christopher K. King**

Professor, Mathematics; Harvard University, PhD

**Daniel King**

Assistant Clinical Professor, Nursing; University of Alabama, DNP

**Engin Kirda**

Professor, Computer Sciences and Electrical and Computer Engineering; Technical University of Vienna (Austria), PhD

**Rein U. Kirss**

Associate Professor, Chemistry and Chemical Biology; University of Wisconsin, Madison, PhD

**Jennifer L. Kirwin**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Risa Kitagawa**

Assistant Professor, Political Science and International Affairs; Stanford University, PhD

**Karl E. Klare**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Kristian Kloeckl**

Associate Professor, Art + Design and Architecture; University of Venice (Italy), PhD

**Ben Knudsen**

Assistant Professor, Mathematics; Northwestern University, PhD

**Dami Ko**

Assistant Professor, Nursing; University of Wisconsin, Madison, PhD

**Khalid Kodi**

Professor of the Practice, Art + Design; Massachusetts College of Art and Design, MFA

**Dan Koloski**

Professor of the Practice, College of Professional Studies; Harvard University, MS

**Tali Konry**

Associate Professor, Pharmaceutical Sciences; Ben-Gurion University of the Negev (Israel), PhD

**Constantin Konstantopoulos**

Associate Teaching Professor, Graduate School of Engineering; Boston University, PhD

**Abigail N. Koppes**

Associate Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ryan Koppes**

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ilka Kostka**

Associate Teaching Professor, College of Professional Studies; New York University, PhD

**Apoorva Koticha**

Associate Teaching Professor, Finance; New York University, PhD

**Dimitrios Koutsonikolas**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Harilaos Koutsopoulos**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Linda Kowalcky**

Professor of the Practice, Public Policy and Urban Affairs; Johns Hopkins University, PhD

**Arthur F. Kramer**

Professor, Psychology; University of Illinois, PhD

**Sergey Kravchenko**

Professor, Physics; Institute of Solid State Physics (Russia), PhD

**Dmitri Krioukov**

Associate Professor, Physics and Mathematics and Electrical and Computer Engineering; Old Dominion University, PhD

**Ganesh Krishnamoorthy**

Professor, Accounting; University of Southern California, PhD

**Karthik Krishnan**

Associate Professor, Finance; Boston College, PhD

**Laura Kuhl**

Assistant Professor, Public Policy and Urban Affairs and International Affairs; Tufts University, PhD

**Aisulu Kulbayeva**

Assistant Teaching Professor, Linguistics; Georgetown University, PhD

**Haridas Kumarakuru**

Assistant Teaching Professor, Physics; University of Bristol (United Kingdom), PhD

**Venkat Kuppuswamy**

Assistant Professor, Entrepreneurship and Innovation; Harvard University, DBA

**Jessica Kurr**

Visiting Lecturer, Communication Studies; Pennsylvania State University, PhD

**Didem Kurt**

Associate Teaching Professor, Marketing; University of Pittsburgh, PhD

**Kristina Kutsukos**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**John Kwoka**

Neal F. Finnegan Distinguished Professor, Economics; University of Pennsylvania, PhD

**Joy Kwon**

Postdoctoral Teaching Associate, Writing Program; University of Wisconsin, Madison, PhD

**MiYoung Kwon**

Assistant Professor, Psychology; University of Minnesota, PhD

**L****Michelle Laboy**

Assistant Professor, Architecture; University of Michigan, MArch

**Jamie Ladge**

Associate Professor, Management and Organizational Development; Boston College, PhD

**Nicole Laffan**

Assistant Clinical Professor, Communication Sciences and Disorders; A.T. Still University, Arizona, PhD

**Jay Laird**

Assistant Teaching Professor, College of Professional Studies; Lesley University, MFA

**Charlotte Lam**

Assistant Cooperative Education Coordinator, College of Science; California State University, Sacramento, MA

**Joan LaMachia**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MEd

**Anna Lamin**

Associate Professor, International Business and Strategy; University of Minnesota, PhD

**Jason Lancaster**

Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**William Lancaster**

Principal Lecturer, Communication Studies; Michigan State University, MA

**Lucas J. Landherr**

Teaching Professor, Chemical Engineering; Cornell University, PhD

**Alexis Landry**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Theodore Landsmark**

Distinguished Professor, Public Policy and Urban Affairs; Boston University, PhD

**David Lang**

Assistant Teaching Professor, Mathematics; Boston College, PhD; Northeastern University, PhD

**Timothy Lannin**

Associate Teaching Professor, Bioengineering; Cornell University, PhD

**Amy Lantinga**

Teaching Professor, College of Professional Studies; University of Tennessee, EdD

**Philip Larese-Casanova**

Associate Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Krista Larsen**

Assistant Teaching Professor, Criminology and Criminal Justice; Suffolk University, JD

**Barbara Larson**

Associate Academic Specialist, Management and Organizational Development; Harvard University, DBA

**Elizabeth Larson**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MBA

**Felicia G. Lassk**

Associate Professor, Marketing; University of South Florida, PhD

**Amanda Reeser Lawrence**

Associate Professor, Architecture; Harvard University, PhD

**David M. Lazer**

University Distinguished Professor, Political Science and Computer Sciences; University of Michigan, Ann Arbor, PhD

**Joshua Lea**

Assistant Clinical Professor, Nursing; Akron University, PhD

**Stefanie E. Leahy**

Assistant Teaching Professor, Law; Pepperdine University, JD

**Carol Lee**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Boston, PhD

**Cynthia Lee**

Professor, Management and Organizational Development; University of Maryland, PhD

**Doreen Lee**

Associate Professor, Sociology and Anthropology; Cornell University, PhD

**Jeongkyu Lee**

Teaching Professor, Computer Sciences; University of Texas, Austin, PhD

**Jung Lee**

Associate Professor, Philosophy and Religion; Brown University, PhD

**Kristen Lee**

Associate Teaching Professor, College of Professional Studies; Northeastern University, EdD

**Lee-Peng Lee**

Assistant Teaching Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Matt Lee**

Teaching Professor, Human Services; University of Illinois, Urbana-Champaign, PhD

**Robert Lee**

Associate Academic Specialist, American Sign Language; Boston University, MA

**Shun-Yang Lee**

Assistant Professor, Marketing; University of Texas, Austin, PhD

**Yang W. Lee**

Associate Professor, Supply Chain and Information Management; Massachusetts Institute of Technology, PhD

**Carolyn W. T. Lee-Parsons**

Associate Professor, Chemical Engineering and Chemistry and Chemical Biology; Cornell University, PhD

**Chad Lee-Stronach**

Assistant Professor, Philosophy and Religion; Australian National University (Australia), PhD

**Miriam E. Leeser**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**Laurel Leff**

Professor, Journalism; Yale University, MA

**Lori Lefkowitz**

Ruderman Professor of Jewish Studies, Jewish Studies and English; Brown University, PhD

**Bradley M. Lehman**

Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Robert Lentz**

Associate Academic Specialist, Entrepreneurship and Innovation; Babson College, MBA

**Benjamin Lerner**

Associate Teaching Professor, Computer Sciences; University of Washington, PhD

**Neal Lerner**

Professor, English; Boston University, EdD

**John Lesko**

Professor, Mechanical and Industrial Engineering and Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Laurent Lessard**

Associate Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Yvonne Leung**

Assistant Teaching Professor, College of Professional Studies; York University, PhD

**Tatyana Levchenko**

Research Assistant Professor, Pharmaceutical Sciences; Academy of Medical Sciences Moscow (Russia), PhD

**Yiannis A. Levendis**

College of Engineering Distinguished Professor, Mechanical and Industrial Engineering; California Institute of Technology, PhD

**Erel Levine**

Associate Professor, Bioengineering; Weizmann Institute of Science (Israel), PhD

**Herbert Levine**

University Distinguished Professor, Physics and Bioengineering; Princeton University, PhD

**Kim Lewis**

University Distinguished Professor, Biology; Moscow State University (Russia), PhD

**Laura H. Lewis**

University Distinguished Professor, Cabot Professor, Chemical Engineering and Mechanical and Industrial Engineering; University of Texas, Austin, PhD

**Ang Li**

Assistant Professor, Architecture; Princeton University, MArch

**Chieh Li**

Associate Professor, Applied Psychology; University of Massachusetts, Amherst, EdD

**Fan Li**

Assistant Teaching Professor, Finance; Virginia Polytechnic Institute and State University, PhD

**Jiahe Li**

Assistant Professor, Bioengineering; Cornell University, PhD

**Rui Li**

Associate Clinical Professor, Health Sciences; Baylor University, PhD

**Yaning Li**

Associate Professor, Mechanical and Industrial Engineering; University of Michigan, Ann Arbor, PhD

**Zhenyu Liao**

Assistant Professor, Management and Organizational Development; National University of Singapore (Singapore), PhD

**Elizabeth Libby**

Assistant Professor, Bioengineering; University of Pennsylvania, PhD

**Robert Lieb**

Professor, Supply Chain and Information Management; University of Maryland, DBA

**Karl J. Lieberherr**

Professor, Computer Sciences; Eidgenössische Technische Hochschule Zürich (Switzerland), PhD

**Karin N. Lifter**

Professor, Applied Psychology; Columbia University, PhD

**Dacheng Lin**

Research Associate Professor, Physics; Massachusetts Institute of Technology, PhD

**Xue Lin**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Yingzi Lin**

Professor, Mechanical and Industrial Engineering; University of Saskatchewan (Canada), PhD

**Alisa K. Lincoln**

Professor, Sociology and Anthropology and Health Sciences; Columbia University, PhD

**Margo Lindauer**

Associate Clinical Professor, Law; Georgetown University, JD

**John J. Lindhe**

Associate Teaching Professor, Mathematics; Northeastern University, PhD

**Jessica Linker**

Assistant Professor, History; University of Connecticut, PhD

**Gabor P. Lippner**

Associate Professor, Mathematics; Eötvös Loránd University (Hungary), PhD

**Heather A. Littlefield**

Teaching Professor, Linguistics; Boston University, PhD

**Handan Liu**

Associate Teaching Professor, Graduate School of Engineering; Shanghai Jiao Tong University (China), PhD

**Kelvin Liu**

Associate Professor, Accounting; University of South Carolina, PhD

**Weiling Liu**

Assistant Professor, Finance; Harvard University, PhD

**Xiaoping Liu**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Lowell, PhD

**Yongmin Liu**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; University of California, Berkeley, PhD

**Ioannis Livanis**

Teaching Professor, International Affairs and Political Science; University of Florida, PhD

**Carol Livermore**

Associate Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Mary Loeffelholz**

Professor, English; Yale University, PhD

**Martha Loftus**

Assistant Teaching Professor, College of Professional Studies; Harvard University, EdD

**Diomedes E. Logothetis**

Professor, Pharmaceutical Sciences; Harvard University, PhD

**Fabrizio Lombardi**

International Test Conference Professor, Electrical and Computer Engineering; University of London (United Kingdom), PhD

**Georgia Looney**

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MBA

**Alexandre Lopes**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of São Paulo (Brazil), PhD

**Melinda Lopez**

Professor of the Practice, Theatre; Boston University, MA

**Steven A. Lopez**

Assistant Professor, Chemistry and Chemical Biology; University of California, Los Angeles, PhD

**Sara Lopez-Pintado**

Associate Professor, Health Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Connie Lorette**

Associate Clinical Professor, Nursing; Boston College, PhD

**Ralph H. Loring**

Associate Professor, Pharmaceutical Sciences; Cornell University, PhD

**Daniel Lothian**

Professor of the Practice, Journalism; American University, MA

**Kathleen E. Lotterhos**

Associate Professor, Marine and Environmental Sciences; Florida State University, PhD

**Deirdre Loughridge**

Associate Professor, Music; University of Pennsylvania, PhD

**Psyche Loui**

Associate Professor, Music; University of California, Berkeley, PhD

**Jennifer O. Love**

Associate Academic Specialist, Engineering; University of Iowa, MS

**Timothy Love**

Associate Professor, Architecture; Harvard University, MArch

**William Lovely**

Associate Teaching Professor, International Business and Strategy; Northeastern University, DLP

**John Lowrey**

Assistant Professor, Supply Chain and Information Management and Health Sciences; Ohio State University, PhD

**Amy Shirong Lu**

Associate Professor, Communication Studies and Health Sciences; University of North Carolina, Chapel Hill, PhD

**Long Lu**

Assistant Professor, Computer Sciences; Georgia Institute of Technology, PhD

**Lucy Siying Lu**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Mingyang Lu**

Assistant Professor, Bioengineering; Baylor College of Medicine, PhD

**Celsey Lumbra**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Razvan Lungeanu**

Assistant Professor, Entrepreneurship and Innovation; Northwestern University, PhD

**Bowen Luo**

Visiting Assistant Professor, Marketing; Arizona State University, PhD

**Katherine Luongo**

Associate Professor, History and International Affairs; University of Michigan, Ann Arbor, PhD

**Steven Lustig**

Associate Professor, Chemical Engineering; Purdue University, PhD

**Getty Lustila**

Assistant Teaching Professor, Philosophy and Religion; Boston University, PhD

**David E. Luzzi**

Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Vasiliki Lykourinou**

Assistant Teaching Professor, Chemistry and Chemical Biology; University of South Florida, PhD

**M**

**Jun Ma**

Professor, Economics; University of Washington, PhD

**Tong Ma**

Assistant Professor, Mechanical and Industrial Engineering; University of Connecticut, Storrs, PhD

**Kayse Maass**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Patricia A. Mabrouk**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Jacquelyn MacDonald**

Associate Cooperative Education Coordinator, College of Science; Harvard University, MEd

**Robin MacIlroy**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Andrew Mackie**

Associate Clinical Professor, Medical Sciences; University of Nebraska, MS

**Krishna Madaparthi**

Assistant Academic Specialist, American Sign Language; Gallaudet University, MA

**Jeanne Madden**

Associate Professor, Pharmacy and Health Systems Sciences; Harvard University, PhD

**Kristin Madison**

Professor, Law and Health Sciences; Stanford University, PhD; Yale University, JD

**Meica Magnani**

Assistant Teaching Professor, Philosophy and Religion and Computer Sciences; Stanford University, PhD

**Bala Maheswaran**

Teaching Professor, Engineering; Northeastern University, PhD

**Debra Mahfouz**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PharmD

**Elizabeth Mahler**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Luigia Maiellaro**

Teaching Professor, World Languages Center; Russian State University for the Humanities (Russia), PhD

**Jean Claude Makolo**

Assistant Teaching Professor, Finance; Brandeis University, PhD

**Lee Makowski**

Professor, Bioengineering and Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Purnima Makris**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Alexandros Makriyannis**

George D. Behrakis Chair and Professor, Center for Drug Discovery and Chemistry and Chemical Biology; University of Kansas, PhD

**Mario Maletta**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Veronika Maliborska**

Associate Teaching Professor, College of Professional Studies; Purdue University, PhD

**Andrew Mall**

Associate Professor, Music; University of Chicago, PhD

**Carol R. Mallory**

Teaching Professor, Law; Northeastern University, JD

**Craig E. Maloney**

Associate Professor, Mechanical and Industrial Engineering; University of California, Santa Barbara, PhD

**Roman Manetsch**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Basel (Switzerland), PhD

**Swapnil Maniar**

Professor of the Practice, Health Sciences; Johns Hopkins University, PhD

**Justin Manjourides**

Associate Professor, Health Sciences; Harvard University, PhD

**Emily Mann**

Teaching Professor, Human Services; University of Wisconsin, Madison, PhD

**Maira Mannix Votel**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Columbia University, MA

**Peter Manolios**

Professor, Computer Sciences; University of Texas, Austin, PhD

**Elaina Manolis**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Texas Tech University, ScD

**Valentina Marano**

Associate Professor, International Business and Strategy; University of South Carolina, PhD

**Janice Maras**

Associate Teaching Professor, Health Sciences; Northeastern University, EdD

**Krassimir Marchev**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Edwin Marengo Fuentes**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Alina Marian**

Professor, Mathematics; Harvard University, PhD

**Tucker Marion**

Associate Professor, Entrepreneurship and Innovation; Pennsylvania State University, PhD

**Helen Markewich**

Assistant Teaching Professor, Bioengineering; Cornell University, PhD

**Robert S. Markiewicz**

Professor, Physics; University of California, Berkeley, PhD

**Alycia Markowski**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Joseph Marks**

Associate Teaching Professor, Finance; University of Illinois, Urbana-Champaign, PhD

**Mindy Marks**

Associate Professor, Economics; Washington University, PhD

**Julius Marpaung**

Teaching Professor, Electrical and Computer Engineering; Oklahoma State University, PhD

**Stacy Marsella**

Professor, Computer Sciences and Psychology; Rutgers University, PhD

**Ineke Marshall**

Professor, Sociology and Anthropology and Criminology and Criminal Justice; Bowling Green State University, PhD

**Elizabeth Martin**

Assistant Clinical Professor, Communication Sciences and Disorders; McGill University (Canada), MS

**Isabel Martinez**

Associate Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; Columbia University, PhD

**Ramiro Martinez**

Professor, Criminology and Criminal Justice and Sociology and Anthropology; Ohio State University, PhD

**José Angel Martinez-Lorenzo**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; Universidade de Vigo (Spain), PhD

**Alexander Martsinkovsky**

Associate Professor, Mathematics; Brandeis University, PhD

**David Massey**

Professor, Mathematics; Duke University, PhD

**Ted Matherly**

Visiting Assistant Professor, Marketing; University of Maryland, PhD

**Marguerite Matherne**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, MS

**Jude E. Mathews**

Associate Teaching Professor, Chemistry and Chemical Biology; Clemson University, PhD

**Kay Mathiesen**

Associate Professor, Philosophy and Religion; University of California, Irvine, PhD

**Kristen Mathieu Gonzalez**

Assistant Clinical Professor, Nursing; University of Phoenix, MS

**Daniele Mathras**

Associate Teaching Professor, Marketing; Arizona State University, PhD

**Thomas M. Matta**

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Xavier University of Louisiana, PharmD

**Daniel J. Matthew**

Associate Teaching Professor, Chemistry and Chemical Biology; University of Utah, PhD

**Jonathan Matthis**

Assistant Professor, Biology; Rensselaer Polytechnic Institute, PhD

**Carla Mattos**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Lucy Maulsby**

Associate Professor, Architecture; Columbia University, PhD

**Ernest Mauristhene**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Hardin-Simmons University, MBA

**Bruce Maxwell**

Visiting Professor, Computer Sciences; Carnegie Mellon University, PhD

**Jessica Maxwell**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD; Massachusetts General Hospital Institute of Health Professions, DPT

**William Mayer**

Professor, Political Science; Harvard University, PhD

**Mary Mayville**

Associate Clinical Professor, Nursing; Northeastern University, DNP

**Laurie McCadden**

Clinical Instructor, Nursing; University of Massachusetts, Lowell, MSN

**Paulette McCarty**

Associate Teaching Professor, Management and Organizational Development; University of Tennessee, PhD

**Jacqueline McCleary**

Assistant Professor, Physics; Brown University, PhD

**Victoria D. McCoy Dunkley**

Assistant Teaching Professor, Law; Vanderbilt University, JD

**Eileen McDonagh**

Professor, Political Science; Harvard University, PhD

**Ann McDonald**

Associate Professor, Art + Design; Yale University, MFA

**Matthew McDonald**

Associate Professor, Music; Yale University, PhD

**Melissa McElligott**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Kayla McEwen**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Nicol E. McGruer**

Professor, Electrical and Computer Engineering; Michigan State University, PhD

**Jean McGuire**

Professor of the Practice, Health Sciences; Brandeis University, PhD

**Hugh McManus**

Associate Teaching Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Cristine McMartin-Miller**

Teaching Professor, College of Professional Studies; Purdue University, PhD

**Cassandra McMillan**

Assistant Professor, Sociology and Anthropology and Criminology and Criminal Justice; Pennsylvania State University, PhD

**Joseph McNabb**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Robert C. McOwen**

Professor, Mathematics; University of California, Berkeley, PhD

**Frances Nelson McSherry**

Teaching Professor, Theatre; New York University, MFA

**Daniel S. Medwed**

University Distinguished Professor, Law; Harvard University, JD

**Iraz Mehdi**

Associate Cooperative Education Coordinator, College of Engineering; California State University, Long Beach, MS

**Lindsay Mehrmanesh**

Assistant Teaching Professor, Biology; Brown University, PhD

**Erin Meier**

Assistant Professor, Communication Sciences and Disorders; Boston University, PhD

**Alexandra Meise**

Associate Teaching Professor, Law; Georgetown University, JD

**Emanuel S. Melachrinoudis**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Waleed Meleis**

Associate Professor, Electrical and Computer Engineering; University of Michigan, PhD

**Justin Melette**

Associate Teaching Professor, English; Pennsylvania State University, PhD

**Susan L. Mello**

Associate Professor, Communication Studies; University of Pennsylvania, PhD

**Tina J. Mello**

Associate Cooperative Education Coordinator, College of Science; Boston College, MA

**Alice Mello da Fonseca**

Assistant Teaching Professor, College of Professional Studies; Tufts University, PhD

**Richard H. Melloni Jr.**

Professor, Psychology; University of Massachusetts, PhD

**Tommaso Melodia**

William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Michael Meltsner**

Matthews Distinguished University Professor, Law; Yale University, JD

**Jose Menendez**

Assistant Teaching Professor, Art + Design; Rhode Island School of Design, MA

**Latika Menon**

Associate Professor, Physics; Tata Institute of Fundamental Research, Bombay (India), PhD

**Hameed Metghalchi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, ScD

**Daniel Metzger**

Postdoctoral Teaching Associate, English; Kutztown University, EdD

**Laura Meyer**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Cleveland State University, MEd

**Marc H. Meyer**

Robert J. Shillman Professor of Entrepreneurship and Matthews Distinguished University Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Ningfang Mi**

Associate Professor, Electrical and Computer Engineering; University of Texas, Dallas, MS

**Sakib Miazi**

Assistant Teaching Professor, Computer Sciences; University of North Carolina, Charlotte, PhD

**Cara Michell**

Assistant Professor, Architecture and Public Policy and Urban Affairs; Harvard University, MUP

**Vidoje Mihajlovikj**

Assistant Teaching Professor, Computer Sciences; Clarkson University, PhD

**Lara Milane**

Assistant Teaching Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Deborah Milbauer**

Senior Lecturer, Health Sciences; Boston University, MS

**William Miles**

Professor, Political Science; Tufts University, PhD

**Christopher J. Miller**

Assistant Teaching Professor, Accounting; University of Mississippi, PhD

**Edward Miller**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Emily Miller**

Assistant Cooperative Education Coordinator, College of Science; New York University, MA

**Matthew Miller**

Professor, Health Sciences; Yale University, MD; Harvard University, ScD

**Maura Miller**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Providence College, BS

**Renée Miller**

Distinguished Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ennio Mingolla**

Professor, Communication Sciences and Disorders; University of Connecticut, PhD

**Mona Minkara**

Assistant Professor, Bioengineering; University of Florida, PhD

**Nicholas Minott**

Associate Teaching Professor, International Affairs; Tufts University, PhD

**Marilyn L. Minus**

Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Varun Mishra**

Assistant Professor, Computer Sciences and Health Sciences; Dartmouth College, PhD

**Alan Mislove**

Professor, Computer Sciences; Rice University, PhD

**Marrian Mitry**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Sunil Mittal**

Assistant Professor, Electrical and Computer Engineering; University of Maryland, College Park, PhD

**Cheryl Mitteness**

Associate Academic Specialist, Entrepreneurship and Innovation; University of Louisville, PhD

**Nancy Mizzoni**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Sarah Mockler**

Associate Cooperative Education Coordinator, College of Engineering; Boston College, MA

**Alicia Modestino**

Associate Professor, Public Policy and Urban Affairs and Economics; Harvard University, PhD

**Valentine Moghadam**

Professor, International Affairs; American University, PhD

**Mohsen Moghaddam**

Assistant Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Shan Mohammed**

Clinical Professor, Health Sciences; Case Western Reserve University, MD

**Shariq Mohammed**

Assistant Professor, Economics; University of Arizona, PhD

**Killion Mokwete**

Associate Teaching Professor, Architecture; University of Portsmouth, MArch

**Beth Molnar**

Associate Professor, Health Sciences; Harvard University, ScD

**James Monaghan**

Associate Professor, Biology; University of Kentucky, PhD

**Alvaro Monge**

Visiting Professor, Computer Sciences; University of California, San Diego, PhD

**Yasmil Montes**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MS

**Robert M. Mooradian**

Professor, Finance; University of Pennsylvania, PhD

**Elizabeth Moore**

Assistant Teaching Professor, International Business and Strategy; Northeastern University, PhD

**Rebekah Moore**

Assistant Professor, Music; Indiana University, PhD

**Jorge Morales**

Assistant Professor, Psychology and Philosophy and Religion; Columbia University, PhD

**Lee Moreau**

Professor of the Practice, Art + Design; Rice University, MArch

**Silvio Moreira**

Assistant Professor, Computer Sciences; University of Lisbon (Portugal), PhD

**Enrique F. Moreno**

Associate Teaching Professor, Physics; Universidad Nacional de La Plata (Argentina), PhD

**Kimberly Moreno**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Joanne Morreale**

Associate Professor, Media and Screen Studies; Temple University, PhD

**Mounira Morris**

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, Amherst, EdD

**Kristen Morse**

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Ithaca College, DPT

**Hossein Mosallaei**

Professor, Electrical and Computer Engineering; University of California, Los Angeles, PhD

**Ab Mosca**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Rashid Mosley**

Assistant Teaching Professor, College of Professional Studies; George Washington University, PhD

**Edward Moss**

Teaching Professor, Writing Program; Emerson College, MFA

**Lorraine Ann Mountain**

Senior Cooperative Education Coordinator, College of Engineering; Tufts University, MS

**Amy Mueller**

Assistant Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

**Dana Mueller**

Assistant Teaching Professor, Art + Design; Massachusetts College of Art, MFA

**Sinan Muftu**

Professor, Mechanical and Industrial Engineering; University of Rochester, PhD

**Tania Muino**

Associate Academic Specialist, World Languages Center; University of Barcelona (Spain), MA

**Constantine Mukasa**

Assistant Teaching Professor, Engineering; Florida Atlantic University, PhD

**Sanjeev Mukerjee**

Distinguished Professor, Chemistry and Chemical Biology; Texas AM University, PhD

**Saptarshi Mukherjee**

Assistant Professor, Finance; New York University, PhD

**Jay Mulki**

Associate Professor, Marketing; University of South Florida, PhD

**Anthony Mullen**

Associate Teaching Professor, Computer Sciences; University of Groningen (Netherlands), PhD

**Patrick Mullen**

Associate Professor, English; University of Pittsburgh, PhD

**Seth Mulliken**

Associate Teaching Professor, Media and Screen Studies; North Carolina State University, PhD

**Ufuk Muncuk**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Samuel E. Munoz**

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; University of Wisconsin, Madison, PhD

**Leonel F. Murga**

Assistant Teaching Professor, Chemistry and Chemical Biology; Northeastern University, PhD

**Robert Murray**

Associate Academic Specialist, Supply Chain and Information Management; Harvard University, MBA

**Vincent Muscolino**

Lecturer, Finance; Babson College, MBA

**Hande Musdal Ondemir**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Cecelia Musselman**

Teaching Professor, Writing Program; Columbia University, PhD

**Shakir Mustafa**

Teaching Professor, World Languages Center; Boston University, PhD

**Mark Muzere**

Visiting Associate Professor, Finance; Washington University, St. Louis, PhD

1200 University Faculty

**Felix Muzny**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Jonathan Mwaura**

Associate Teaching Professor, Computer Sciences; University of Exeter (United Kingdom), PhD

**Andrew Myers**

Associate Professor, Civil and Environmental Engineering; Stanford University, PhD

**David Myers**

Associate Teaching Professor, Finance; University of Washington, PhD

**N**

**Yousof Naderi**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Thomas K. Nakayama**

Professor, Communication Studies; University of Iowa, PhD

**Laurie Nardone**

Teaching Professor, English; Emory University, PhD

**Tareq Nasralah**

Assistant Teaching Professor, Supply Chain and Information Management; Dakota State University, PhD

**Pran Nath**

Matthews Distinguished University Professor, Physics; Stanford University, PhD

**Hamid Nayeb-Hashemi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Katharina Neissl**

Visiting Lecturer, Criminology and Criminal Justice; Northeastern University, PhD

**Brent Nelson**

Professor, Physics; University of California, Berkeley, PhD

**Tyrone Newsome**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Fitchburg State University, MBA

**Huy Nguyen**

Assistant Professor, Computer Sciences; Princeton University, PhD

**Julie Nguyen**

Assistant Cooperative Education Coordinator, College of Engineering; Columbia University, MA

**Mark J. Niedre**

Professor, Bioengineering; University of Toronto (Canada), PhD

**Angel Nieves**

Professor, Cultures, Societies, and Global Studies and History; Cornell University, PhD

**Spyridon Nikas**

Research Associate Professor, Center for Drug Discovery; Aristotle University (Greece), PhD

**Matthew Nippins**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Matthew C. Nisbet**

Professor, Communication Studies; Cornell University, PhD

**Cristina Nita-Rotaru**

Professor, Computer Sciences; Johns Hopkins University, PhD

**Daniel Noemi Voionmaa**

Associate Professor, Cultures, Societies, and Global Studies; Yale University, PhD

**Alison Nogueira**

Senior Cooperative Education Coordinator, College of Engineering; Suffolk University, MEd

**David Nolan**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Kimberly Nolan**

Associate Teaching Professor, College of Professional Studies; University of Vermont, EdD

**Carey Noland**

Associate Professor, Communication Studies; Ohio University, PhD

**Ellen Noonan**

Teaching Professor, Writing Program; Emerson College, MFA

**Matthew Noonan**

Associate Teaching Professor, Writing Program; Massachusetts College of Art, MFA

**Farzard Noubary**

Associate Clinical Professor, Health Sciences; Harvard University, PhD

**Guevara Noubir**

Professor, Computer Sciences; Swiss Federal Institute of Technology, Lausanne (Switzerland), PhD

**Lucia Nuñez**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Gilbert Nyaga**

Associate Professor, Supply Chain and Information Management; Michigan State University, PhD

**O****Jessica Oakes**

Assistant Professor, Bioengineering; University of California, San Diego, PhD

**Daniel O'Brien**

Associate Professor, Public Policy and Urban Affairs and Criminology and Criminal Justice; Binghamton University, PhD

**Antonio Ocampo-Guzman**

Associate Professor, Theatre; York University (Canada), MFA

**Abigail Ochengco**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Brian O'Connell**

Associate Teaching Professor, Engineering; Tufts University, PhD

**Sean O'Connell**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Catherine O'Connor**

Clinical Instructor, Nursing; Boston College, MS

**George A. O'Doherty**

Professor, Chemistry and Chemical Biology; Ohio State University, PhD

**Curtis Odom**

Assistant Teaching Professor, Management and Organizational Development; Pepperdine University, EdD

**Mikhail Oet**

Associate Teaching Professor, College of Professional Studies; Case Western Reserve University, PhD

**Dietmar Offenhuber**

Associate Professor, Art + Design and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Russ O'Haver**

Senior Academic Specialist, Accounting; University of New York, PhD

**Peggy L. O'Kelly**

Principal Lecturer, Accounting; University of Michigan, MBA

**John Olawepo**

Assistant Teaching Professor, Health Sciences; University of Nevada, Las Vegas, PhD

**Brianne OlivieriMui**

Assistant Professor, Health Sciences; Northeastern University, PhD

**Donald M. O'Malley**

Associate Professor, Biology; Harvard University, PhD

**Marvin Onabajo**

Associate Professor, Electrical and Computer Engineering; Texas AM University, PhD

**Mary Jo Ondrechen**

Professor, Chemistry and Chemical Biology; Northwestern University, PhD

**Therese M. O'Neil-Pirozzi**

Associate Professor, Communication Sciences and Disorders; Boston University, ScD

**Annalisa Onnis-Hayden**

Teaching Professor, Civil and Environmental Engineering; University of Cagliari (Italy), PhD

**Alina Oprea**

Associate Professor, Computer Sciences; Carnegie Mellon University, PhD

**Toyoko J. Orimoto**

Associate Professor, Physics; University of California, Berkeley, PhD

**Jessica Ormsby**

Associate Cooperative Education Coordinator, College of Engineering; University of Massachusetts, Boston, MEd

**Andrew Orr-Skirvin**

Clinical Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PharmD

**Sarah Ostadabbas**

Assistant Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Eileen Otis**

Associate Professor, Sociology and Anthropology; University of California, Davis, PhD

**Timothy Ouillette**

Associate Teaching Professor, Communication Studies; Art Institute of Boston, MFA

**Oyindasola O. Oyelaran**

Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Yusuf Ozbek**

Teaching Professor, Graduate School of Engineering; Northeastern University, PhD

**Ozan Ozdemir**

Assistant Professor, Mechanical and Industrial Engineering; South Dakota School of Mines and Technology, PhD

**P**

**Jahir Pabon**

Associate Teaching Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Taskin Padir**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Robert K. Painter**

Associate Teaching Professor, Linguistics; State University of New York at Buffalo, PhD

**Himlona Palikhe**

Associate Teaching Professor, Graduate School of Engineering; Texas Tech University, PhD

**Costas Panagopoulos**

Professor, Political Science; New York University, PhD

**Themis Papageorge**

Associate Clinical Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Demetra Paparounas**

Lecturer, Supply Chain and Information Management; Northeastern University, PhD

**Harikrishnan Parameswaran**

Assistant Professor, Bioengineering; Boston University, PhD

**Serena Parekh McGushin**

Associate Professor, Philosophy and Religion; Boston College, PhD

**Jason Parente**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Melissa Parenti**

Assistant Teaching Professor, College of Professional Studies; University of Southern California, EdD

**John Park**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Wendy E. Parmet**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Christopher Parsons**

Associate Professor, History; University of Toronto (Canada), PhD

**Nikos Passas**

Professor, Criminology and Criminal Justice; University of Edinburgh (Scotland), PhD

**Rupal Patel**

Professor, Communication Sciences and Disorders and Computer Sciences; University of Toronto (Canada), PhD

**Mark R. Patterson**

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Harvard University, PhD

**Jeremy R. Paul**

Professor, Law; Harvard University, JD

**Koen Pauwels**

Distinguished Professor, Marketing; University of California, Los Angeles, PhD

**Michael Pavel**

Professor of the Practice, Computer Sciences and Health Sciences; New York University, PhD

**Spiro Pavlopoulos**

Research Associate Professor, Center for Drug Discovery; Victorian College of Pharmacy, (Australia), PhD

**Virgil Pavlu**

Associate Teaching Professor, Computer Sciences; Northeastern University, PhD

**Kara Pavone**

Assistant Professor, Nursing; University of Pennsylvania, PhD

**Nancy Pawlyshyn**

Associate Teaching Professor, College of Professional Studies; Capella University, PhD

**Sarah Peacock**

Assistant Teaching Professor, Biology; University of Missouri, PhD

**Celia Pearce**

Professor, Game Design; University of the Arts London (United Kingdom), PhD

**Melissa Pearson**

Associate Teaching Professor, Writing Program; University of South Carolina, PhD

**Jinxiang Pei**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Lei Pei**

Assistant Professor, Marketing; University of California, Los Angeles, PhD

**Melissa Peiken**

Senior Cooperative Education Coordinator, Khoury College of Computer Sciences; Emerson College, MEd

**Jose A. Perea**

Associate Professor, Mathematics and Computer Sciences; Stanford University, PhD

**Diane Perez**

Assistant Academic Specialist, College of Professional Studies; Salem State University, MEd

**Laura Perovich**

Assistant Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Sharon Persons**

Associate Teaching Professor, Law; Stanford University, JD

**Ivan Petkov**

Assistant Professor, Economics; Boston College, PhD

**Courtney Pfluger**

Associate Teaching Professor, Chemical Engineering; Northeastern University, PhD

**Xuan Pham**

Postgraduate Teaching Fellow, Art + Design; University of Massachusetts, Amherst, MFA

**David M. Phillips**

Professor, Law; Columbia University, JD

**Susan E. Picillo**

Principal Lecturer, Communication Studies; Cambridge College, MEd

**Kelsey Pieper**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Barbara Pierre**

Assistant Cooperative Education Coordinator, College of Science; Salem State University, MEd

**Maricla Pirozzi**

Associate Cooperative Education Coordinator, Graduate School of Engineering; European School of Economics, Rome (Italy), MBA

**Matt Pitchford**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Eric Piza**

Professor, Criminology and Criminal Justice; Rutgers University, PhD

**Leigh Plant**

Assistant Professor, Pharmaceutical Sciences; University of Leeds (United Kingdom), PhD

**Harlan D. Platt**

Professor, Finance; University of Michigan, PhD

**Marjorie Platt**

Professor, Accounting; University of Michigan, PhD

**Robert Platt Jr.**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Katherine Podgurski**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Mya Poe**

Associate Professor, English; University of Massachusetts, Amherst, PhD

**Ann Polcari**

Associate Clinical Professor, Nursing; Boston College, PhD

**Stephanie Pollack**

Professor of the Practice, Public Policy and Urban Affairs; Harvard University, JD

**Michael P. Pollastri**

Professor, Chemistry and Chemical Biology; Brown University, PhD

**Marius Popescu**

Associate Teaching Professor, Finance; Virginia Polytechnic Institute and State University, PhD

**Hilary Poriss**

Associate Professor, Music; University of Chicago, PhD

**Gary Porter**

Assistant Teaching Professor, Finance; University of South Carolina, PhD

**Richard D. Porter**

Professor, Mathematics; Yale University, PhD

**Veronica L. Porter**

Associate Professor, Cooperative Education, College of Science; Northeastern University, MEd

**Lindsay Portnoy**

Associate Teaching Professor, College of Professional Studies; Fordham University, PhD

**John Portz**

Professor, Political Science; University of Wisconsin, Madison, PhD

**Brady Post**

Assistant Professor, Health Sciences; St. Olaf College, BAS

**Nathan Post**

Research Associate Professor, Civil and Environmental Engineering and Mechanical and Industrial Engineering; Virginia Polytechnic Institute and State University, PhD

**Mary-Susan Potts-Santone**

Teaching Professor, Biology; University of New Hampshire, PhD

**Camille Powell**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Springfield College, DPT

**Michael J. Power**

Senior Lecturer, Supply Chain and Information Management; Northeastern University, MBA

**Edward Powers**

Professor of the Practice, College of Professional Studies; Northeastern University, EdD

**Nishith Prakash**

Professor, Public Policy and Urban Affairs and Economics; University of Houston, PhD

**Silvia Prina**

Associate Professor, Economics; Boston University, PhD

**Robert Prior**

Associate Teaching Professor, College of Professional Studies; Nova Southeastern University, EdD

**Mark Prokosch**

Associate Teaching Professor, Psychology; University of California, Davis, PhD

**Sheila M. Puffer**

Professor and University Distinguished Professor, International Business and Strategy; University of California, Berkeley, PhD

**Malcolm Purinton**

Visiting Lecturer, History; Northeastern University, PhD

## Q

### **Zhengan Qi**

Assistant Professor, Communication Sciences and Disorders and Psychology; University of Illinois, Urbana-Champaign, PhD

### **Zhenyun Qian**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

### **Zhihui Qin**

Associate Teaching Professor, Pharmaceutical Sciences; Peking University (China), PhD

### **Karen Quigley**

Professor, Psychology; Ohio State University, PhD

## R

### **Simon Rabinovitch**

Associate Professor, History and Jewish Studies; Brandeis University, PhD

### **Gordana Rabrenovic**

Associate Professor, Sociology and Anthropology; State University of New York at Albany, PhD

### **John Rachlin**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

### **Srinivasan Radhakrishnan**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

### **Predrag Radivojac**

Professor, Computer Sciences; Temple University, PhD

### **Lauren Raine**

Research Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Illinois, Urbana-Champaign, PhD

### **Rajmohan Rajaraman**

Professor, Computer Sciences; University of Texas, Austin, PhD

### **Ravi Ramamurti**

University Distinguished Chair Professor, International Business and Strategy; Harvard University, DBA

### **Valeria Ramdin**

Assistant Clinical Professor, Nursing; Northeastern University, DNSc

### **Alireza Ramezani**

Assistant Professor, Electrical and Computer Engineering; University of Michigan, PhD

### **Deborah A. Ramirez**

Professor, Law; Harvard University, JD

### **Janet Randall**

Professor, English; University of Massachusetts, Amherst, PhD

### **Aanjhan Ranganathan**

Assistant Professor, Computer Sciences; ETH Zürich (Switzerland), PhD

### **Manish Ranjit**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Texas Tech University, PhD

### **Carey M. Rappaport**

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, ScD

### **K.J. Rawson**

Associate Professor, English and Women's, Gender, and Sexuality Studies; Syracuse University, PhD

### **Diviya Ray**

Assistant Teaching Professor, Biology; Indian Institute of Chemical Biology (India), PhD

### **Andrea Raynor**

Teaching Professor, Art + Design; School of Visual Arts, MFA

**Desislava Raytcheva**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Leena Razzaq**

Associate Teaching Professor, Computer Sciences; Worcester Polytechnic Institute, PhD

**Joseph Reagle**

Associate Professor, Communication Studies; New York University, PhD

**Lynn Reede**

Associate Clinical Professor, Nursing; Northeastern University, PhD

**Debra J. Reid**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Joseph Reilly**

Assistant Teaching Professor, College of Professional Studies; Georgetown University, PhD

**Imke Reimers**

Associate Professor, Economics; University of Minnesota, PhD

**Karen Reiss Medwed**

Associate Teaching Professor, College of Professional Studies; New York University, PhD

**Marketa Rejtar**

Associate Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

**Francesco Restuccia**

Assistant Professor, Electrical and Computer Engineering; Missouri University of Science and Technology, PhD

**John R. Reynolds**

Professor, Pharmacy and Health Systems Sciences; Duquesne University, PharmD

**Ahmad Reza Haj Saeedi Sadegh**

Zelevinsky Postdoctoral Researcher, Mathematics; Pennsylvania State University, PhD

**Sarah Ricardi-Swartz**

Assistant Professor, Philosophy and Religion and Sociology and Anthropology; New York University, PhD

**Lesley A. Ricci**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**Rashida Richardson**

Assistant Professor, Law and Political Science; Northeastern University, JD

**Megan Richmond**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

**Vance Ricks**

Associate Teaching Professor, Philosophy and Religion and Computer Sciences; Stanford University, PhD

**Mirek Riedewald**

Associate Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Christoph Riedl**

Associate Professor, Supply Chain and Information Management and Computer Sciences; Technische Universität München (Germany), PhD

**Justin B. Ries**

Professor, Marine and Environmental Sciences; Johns Hopkins University, PhD

**Matteo Rinaldi**

Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

**Ana Rivera**

Associate Clinical Professor, Law; Boston College, JD

**Christie Rizzo**

Associate Professor, Applied Psychology; University of Southern California, Los Angeles, PhD

**Alexandra Roberts**

Professor, Law and Music; Yale University, JD

**Christina Roberts**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Simmons University, MBA

**Christopher J. Robertson**

Professor, International Business and Strategy; Florida State University, PhD

**Craig M. Robertson**

Associate Professor, Media and Screen Studies; University of Illinois, Urbana-Champaign, PhD

**William Robertson**

Associate Professor, Computer Sciences and Electrical and Computer Engineering; University of California, Santa Barbara, PhD

**Donald Robinaugh**

Assistant Professor, Applied Psychology and Art + Design; Harvard University, PhD

**Hilary C. Robinson**

Associate Professor, Law and Sociology and Anthropology; Massachusetts Institute of Technology, PhD; Harvard University, JD

**Tracy L. Robinson-Wood**

Professor, Applied Psychology; Harvard University, EdD

**Brian Robison**

Assistant Teaching Professor, Music; Cornell University, DMA

**David Rochefort**

Distinguished Professor, Political Science; Brown University, PhD

**Matthew Rocklage**

Assistant Professor, Marketing; Ohio State University, PhD

**Rachel Rodgers**

Associate Professor, Applied Psychology; Université de Toulouse-Le Mirail (France), PhD

**Kirsten Rodine-Hardy**

Associate Professor, Political Science; University of California, Berkeley, PhD

**Kristy Rogers**

Assistant Clinical Professor, Nursing; Medical University of South Carolina, DNP

**Sonia Rolland**

Professor, Law; Cambridge University (United Kingdom), PhD; University of Michigan, JD

**Bruce Ronkin**

Professor, Music; University of Maryland, DMA

**David Rosen**

Assistant Professor, Electrical and Computer Engineering and Mathematics; Massachusetts Institute of Technology, ScD

**Lauren Rosenberg**

Assistant Cooperative Education Coordinator, Computer Sciences; Tufts University, MS

**Rachel E. Rosenbloom**

Professor, Law; New York University, JD

**Rebeca B. Rosengaus**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**Matthew Ross**

Associate Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; University of Connecticut, PhD

**Aaron Roth**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Alexandra Roth**

Associate Academic Specialist, International Business and Strategy; University of Frankfurt (Germany), PhD

**Sara Rouhanifard**

Assistant Professor, Bioengineering; Yeshiva University, PhD

**Jeffrey W. Ruberti**

Professor, Bioengineering; Tulane University, PhD

**Fabian Ruehle**

Assistant Professor, Physics; University of Bonn (Germany), PhD

**Michael Ruff**

Associate Teaching Professor, Accounting; Bentley University, PhD

**Julian Runge**

Visiting Assistant Professor, Marketing; Humbolt University (Germany), PhD

**Michael Running Wolf**

Clinical Instructor, Computer Sciences; Montana State University, MS

**Timothy J. Rupert**

Professor, Accounting; Pennsylvania State University, PhD

**Ivan Rupnik**

Associate Professor, Architecture; Harvard University, PhD

**Youngbok Ryu**

Assistant Teaching Professor, College of Professional Studies; Pardee RAND Graduate School, PhD

**S****Jane Saczynski**

Professor, Pharmacy and Health Systems Sciences; Pennsylvania State University, PhD

**Hanai Sadaka**

Associate Teaching Professor, Mathematics; Northeastern University, PhD, PhD

**Keivan Sadeghzadeh**

Associate Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

**J. Timothy Sage**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Bhawesh Sah**

Assistant Teaching Professor, Supply Chain and Information Management; State University of New York at Binghamton, PhD

**Blaine Saito**

Assistant Professor, Law; Harvard University, JD

**Iman Salama**

Associate Teaching Professor, Electrical and Computer Engineering; Virginia Polytechnic Institute and State University, PhD

**Masoud Salehi**

Associate Professor, Electrical and Computer Engineering; Stanford University, PhD

**Carmel Salhi**

Assistant Professor, Health Sciences; Harvard University, PhD

**William Sanchez**

Associate Professor, Applied Psychology; Boston University, PhD

**Nada Sanders**

Distinguished Professor of Supply Chain Management, Supply Chain and Information Management; Ohio State University, PhD

**Ronald Sandler**

Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Erica Sands**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**John Sangster**

Assistant Teaching Professor, Engineering; Virginia Polytechnic Institute and State University, PhD

**Claudia Santelices**

Research Assistant Professor, Institute of Health Equity and Social Justice Research Center; University of Connecticut, PhD

**Mauricio Santillana-Guzman**

Professor, Physics and Electrical and Computer Engineering; University of Texas, Austin, PhD

**Jody Santos**

Visiting Assistant Teaching Professor, Journalism; Northeastern University, MA

**Nazmus Saquib**

Assistant Professor, Art + Design and Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Ravi Sarathy**

Professor, International Business and Strategy; University of Michigan, PhD

**Mehrdad Sasani**

Professor, Civil and Environmental Engineering; University of California, Berkeley, PhD

**Aarti Sathyanarayana**

Assistant Professor, Health Sciences and Computer Sciences; University of Minnesota Duluth, PhD

**Ajay B. Satpute**

Assistant Professor, Psychology; University of California, Los Angeles, PhD

**Behrooz (Barry) Satvat**

Teaching Professor, Chemical Engineering; Massachusetts Institute of Technology, ScD

**Saiph Savage**

Assistant Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Stephen S. Savitsky**

Assistant Cooperative Education Coordinator, College of Science; Marquette University, MA

**Hannah J. Sayre**

Assistant Professor, Chemistry and Chemical Biology and Chemical Engineering; Ohio State University, PhD

**Kevin Scanlon**

Professor of the Practice, Entrepreneurship and Innovation; University of London (United Kingdom), PhD

**Carmen Sceppa**

Professor, Health Sciences; Francisco Marroquín University (Guatemala), MD; Tufts University, PhD

**Martin Schedlbauer**

Teaching Professor, Computer Sciences; University of Massachusetts, PhD

**Gunar Schirner**

Associate Professor, Electrical and Computer Engineering; University of California, Irvine, PhD

**Matthias Schlichting**

Assistant Teaching Professor, Biology; University of Würzburg (Germany), PhD

**Ralf W. Schlosser**

Professor, Communication Sciences and Disorders; Purdue University, PhD

**Logan Schmidt**

Assistant Teaching Professor, Computer Sciences; Carnegie Mellon University, PhD

**Egon Schulte**

Professor, Mathematics; Technical University of Dortmund (Germany), PhD

**Kathryn Schulte Grahame**

Teaching Professor, Engineering; Columbia University, PhD

**Cristina Schultz**

Foley Family Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Massachusetts Institute of Technology/Woods Hole Oceanographic Institution, PhD

**Gail Schwartz**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MSW

**Joseph Schwartz**

Teaching Professor, Communication Studies; University of Iowa, PhD

**Martin Schwarz Jr.**

Associate Professor, Mathematics; Courant Institute of Mathematical Sciences, PhD

**Cody Scott**

Assistant Professor, Computer Sciences; University of Maryland, PhD

**Douglass Scott**

Associate Teaching Professor, Art + Design; Yale University, MFA

**Max Sederer**

Assistant Cooperative Education Coordinator, College of Engineering; Tufts University, MEd

**Ethan Selinger**

Associate Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Massachusetts, Lowell, MS

**Sarah Sellke**

Assistant Teaching Professor, Computer Sciences; Purdue University, PhD

**Shubhro Sen**

Visiting Professor, Marketing; University of California, Berkeley, PhD

**Laura Senier**

Associate Professor, Sociology and Anthropology and Health Sciences; Brown University, PhD

**Sumi Seo**

Assistant Teaching Professor, Mathematics; University of Missouri, Columbia, PhD

**Bahram Shafai**

Professor, Electrical and Computer Engineering; George Washington University, ScD

**Bijal Shah**

Professor, Law; Yale University, JD

**Michael Shah**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Andres Shahidinejad**

Assistant Professor, Finance and Economics; University of Chicago, PhD

**Shahin Shahrampour**

Assistant Professor, Mechanical and Industrial Engineering; University of Pennsylvania, PhD

**Rebecca M. Shansky**

Associate Professor, Psychology; Yale University, PhD

**Ali Sharifkhani**

Assistant Professor, Finance; University of Toronto (Canada), PhD

**William T. Sharp**

Associate Teaching Professor, Psychology; Boston Graduate School of Psychoanalysis, PhD

**Gavin M. Shatkin**

Professor, Public Policy and Urban Affairs and Architecture; Rutgers University, PhD

**Dennis R. Shaughnessy**

Senior Academic Specialist, Entrepreneurship and Innovation; University of Maryland, JD

**Thomas C. Sheahan**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, ScD

**Sandra Shefelbine**

Professor, Mechanical and Industrial Engineering and Bioengineering; Stanford University, PhD

**Abhi Shelat**

Associate Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Paxton Sheldahl**

Assistant Teaching Professor, Architecture; Harvard University, MArch

**Maxwell Shepherd**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences and Mechanical and Industrial Engineering; Northwestern University, PhD

**Aryn Sherman**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**H. David Sherman**

Professor, Accounting; Harvard University, DBA

**Amit Shesh**

Teaching Professor, Computer Sciences; University of Minnesota Twin Cities, PhD

**Namratha Shetty**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; University of St. Thomas, St. Paul, MiM

**Shiaoming Shi**

Associate Teaching Professor, Bioengineering; University of Pittsburgh, PhD

**Xiaolin Shi**

Assistant Teaching Professor, Economics; Northeastern University, PhD

**Natalie Shibley**

Visiting Assistant Professor, Women's, Gender, and Sexuality Studies; University of Pennsylvania, PhD

**Ashleigh Shields**

Postdoctoral Teaching Associate, Communication Studies; Purdue University, PhD

**Craig Shillaber**

Assistant Teaching Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, MS

**Ji-Yong Shin**

Assistant Professor, Computer Sciences; Cornell University, PhD

**Olin Shivers**

Professor, Computer Sciences; Carnegie Mellon University, PhD

**Katy Shorey**

Assistant Teaching Professor, Philosophy and Religion; University of Missouri, PhD

**Catherine Showalter**

Assistant Teaching Professor, College of Professional Studies; University of Utah, PhD

**Aatmesh Shrivastava**

Assistant Professor, Electrical and Computer Engineering; University of Virginia, Charlottesville, PhD

**Milad Siami**

Assistant Professor, Electrical and Computer Engineering; Lehigh University, PhD

**Stephanie Sibicky**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PhD

**Brandon Sichling**

Assistant Teaching Professor, Art + Design; Emerson College, MFA

**Mary Lou Siefert**

Associate Clinical Professor, Nursing; Yale University, PhD

**Jose Sierra**

Associate Teaching Professor, Computer Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Robert Sikes**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Texas, Houston, PhD

**Michael B. Silevitch**

Robert Black Professor of Engineering and College of Engineering Distinguished Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Katherine Simmonds**

Clinical Professor, Nursing; University of Rhode Island, PhD

**Peter Simon**

Teaching Professor, Economics; Northern Illinois University, PhD

**Simon Singer**

Professor, Criminology and Criminal Justice; University of Pennsylvania, PhD

**Hanumant Singh**

Professor, Electrical and Computer Engineering and Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Sarita Singh**

Associate Teaching Professor, Computer Sciences; SNTD Women's University (India), PhD

**Rifat Sipahi**

Professor, Mechanical and Industrial Engineering; University of Connecticut, PhD

**Michail V. Sitkovsky**

Eleanor W. Black Chair in Immunophysiology and Pharmaceutical Biotechnology and Professor, Institute for Tissue Damage and Biology; Moscow State University (Russia), PhD

**Mark Sivak**

Associate Teaching Professor, Art + Design and Engineering; Northeastern University, PhD

**Hazel Sive**

Professor and Dean of the College of Science, Biology; Rockefeller University, PhD

**Louise A. Skinnari**

Assistant Professor, Physics; University of California, Berkeley, PhD

**Bill Skinner**

Postdoctoral Teaching Associate, Architecture; Brown University, PhD

**Nikolai Slavov**

Associate Professor, Bioengineering; Princeton University, PhD

**Rory Smead**

Ronald L. and Linda A. Rossetti Professor for the Humanities, Philosophy and Religion; University of California, Irvine, PhD

**David A. Smith**

Associate Professor, Computer Sciences; Johns Hopkins University, PhD

**Henry Smith**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Matthew Smith**

Associate Professor, Philosophy and Religion; University of North Carolina, Chapel Hill, PhD

**Molly Smith**

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

**Ronald Bruce Smith**

Associate Professor, Music; University of California, Berkeley, PhD

**Wendy A. Smith**

College of Arts and Sciences Distinguished Professor, Biology; Duke University, PhD

**Eugene S. Smotkin**

Professor, Chemistry and Chemical Biology; University of Texas, Austin, PhD

**Bridget Smyser**

Teaching Professor, Mechanical and Industrial Engineering; Worcester Polytechnic Institute, PhD

**Nancy P. Snyder**

Associate Teaching Professor, Psychology; Harvard University, EdD

**Dani Snyder-Young**

Assistant Professor, Theatre; New York University, PhD

**Isabel Sobral Campos**

Associate Teaching Professor, English; City University of New York, PhD

**Claudia Sokol**

Associate Teaching Professor, World Languages Center; University of Buenos Aires (Argentina), MD

**Fabricius Somogyi**

Assistant Professor, Finance; University of St. Gallen (Switzerland), PhD

**Lily Song**

Assistant Professor, Architecture and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Eduardo Sontag**

University Distinguished Professor, Electrical and Computer Engineering and Bioengineering; University of Florida, PhD

**Maria Sorenson**

Assistant Clinical Professor, Nursing; Northeastern University, MSN

**Julian Sosnick**

Assistant Teaching Professor, Biology; University of Massachusetts, Amherst, PhD

**Nikolaos S. Soukos**

Associate Teaching Professor, Physics and Biology; University of Munich (Germany), PhD

**Deborah Soule**

Visiting Lecturer, Supply Chain and Information Management; Harvard University, DBA

**Bert A. Spector**

Associate Professor, International Business and Strategy; University of Missouri, PhD

**Denise Spencer**

Senior Lecturer, Supply Chain and Information Management; Boston College, PhD

**Emily A. Spieler**

Edwin W. Hadley Professor, Law; Yale University, JD

**Karen M. Spikes**

Assistant Teaching Professor, Psychology; Cornell University, PhD

**Jay Spitulnik**

Associate Teaching Professor, Computer Sciences and Health Sciences; Walden University, PhD

**Taylor Sprague**

Assistant Cooperative Education Coordinator, Computer Sciences; North Carolina State University, MS

**Bryan Q. Spring**

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Srinivas Sridhar**

University Distinguished Professor, Physics; California Institute of Technology, PhD

**Kuppuswamy Srikrishna**

Associate Teaching Professor, Entrepreneurship and Innovation; University of California, Berkeley, PhD

**Kandarp Srinivasan**

Assistant Professor, Finance; Washington University, St. Louis, PhD

**Anna Sromek**

Research Assistant Professor, Center for Drug Discovery; University of Illinois, Chicago, PhD

**Ermus St. Louis**

Assistant Professor, Criminology and Criminal Justice; University of Illinois, Chicago, PhD

**Kristin Stankard**

Assistant Clinical Professor, Nursing; Palm Beach Atlantic University, DNP

**Thomas Starr**

Professor, Art + Design; Yale University, MFA

**Joshua Stefanik**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD

**Mary Steffel**

Associate Professor, Marketing; Princeton University, PhD; University of Florida, PhD

**Leslie Stein**

Assistant Teaching Professor, College of Professional Studies; United States International University, EdD

**Armen B. Stepanyants**

Professor, Physics; University of Rhode Island, PhD

**Jennie Stephens**

Professor, Public Policy and Urban Affairs; California Institute of Technology, PhD

**Dagmar Sternad**

University Distinguished Professor, Biology and Electrical and Computer Engineering; University of Connecticut, PhD

**Paul Stevenson**

Assistant Professor, Physics; Massachusetts Institute of Technology, PhD

**Brooke Stewart**

Postgraduate Teaching Fellow, Art + Design; Tufts University, MFA

**Sebastian Stockman**

Teaching Professor, Writing Program; Emerson College, MFA

**Milica Stojanovic**

Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Michael Stone**

Associate Teaching Professor, Economics; University of Connecticut, PhD

**Jacob Stowell**

Associate Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Laney Strange**

Associate Teaching Professor, Computer Sciences; Dartmouth College, PhD

**Heather Streets-Salter**

Professor, History; Duke University, PhD

**Aron P. Stubbins**

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering and Chemistry and Chemical Biology; Newcastle University (United Kingdom), PhD

**Jacob Stump**

Assistant Teaching Professor, Philosophy and Religion; University of Toronto (Canada), PhD

**Lili Su**

Assistant Professor, Electrical and Computer Engineering; University of Illinois, Urbana-Champaign, PhD

**Ming Su**

Professor, Chemical Engineering; Northwestern University, PhD

**Fernando Suarez**

Jean C. Tempel Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alexandru I. Suci**

Professor, Mathematics; Columbia University, PhD

**Annemarie C. Sullivan**

Senior Lecturer, Health Sciences; Northeastern University, MS

**Denis Sullivan**

Professor, Political Science and International Affairs; University of Michigan, PhD

**Fareena Sultan**

Professor, Marketing; Columbia University, PhD

**Hongwei Sun**

Professor, Mechanical and Industrial Engineering; Chinese Academy of Sciences (China), PhD

**Nian-Xiang Sun**

Professor, Electrical and Computer Engineering; Stanford University, PhD

**Ravi Sundaram**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Daniel Sunderland**

Professor of the Practice, Accounting; University of Chicago, MBA

**Shanu Sushmita**

Assistant Teaching Professor, College of Professional Studies; University of Glasgow (United Kingdom), PhD

**Alexander Susienka**

Assistant Cooperative Education Coordinator, College of Science; Western Michigan University, MA

**Gloria Sutton**

Associate Professor, Art + Design; University of California, Los Angeles, PhD

**Kara Swanson**

Professor, Law; Harvard University, PhD; University of California, Berkeley, JD

**Michael Swartz**

Visiting Teaching Professor, Art + Design; School of Visual Arts, MFA

**Richard S. Swasey Jr.**

Principal Lecturer, Finance; University of Virginia, MBA

**Jacqueline F. Sweeney**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Northeastern University, MS

**Meredith O. Sweeney**

Assistant Teaching Professor, Biology; Brandeis University, PhD

**Nina Sylvanus**

Associate Professor, Sociology and Anthropology; Ecole des Hautes Etudes en Sciences Sociales, Paris (France), PhD

**Balazs Szelenyi**

Associate Teaching Professor, College of Professional Studies; University of California, Los Angeles, PhD

**Mario Sznaier**

Dennis Picard Trustee Professor, Electrical and Computer Engineering; University of Washington, PhD

**T**

**Srinivas Tadigadapa**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**David Tamés**

Associate Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

**Cheng Tan**

Assistant Professor, Computer Sciences; New York University, PhD

**Xiaoyu Tang**

Assistant Professor, Mechanical and Industrial Engineering; Princeton University, PhD

**Aysen Tanyeri-Abur**

Associate Teaching Professor, Economics; Texas AM University, PhD

**Peter Tarasewich**

Assistant Teaching Professor, Supply Chain and Information Management; University of Connecticut, PhD

**Mohammad E. Taslim**

Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

**Tomasz R. Taylor**

Professor, Physics; University of Warsaw (Poland), PhD

**Alison Terndrup**

Postgraduate Teaching Fellow, Art + Design; Boston University, PhD

**John Terpinas**

Professor of the Practice, College of Professional Studies; California Western School of Law, JD

**Kate Terrado**

Assistant Teaching Professor, Art + Design; Northeastern University, MFA

**Philip Thai**

Associate Professor, History; Stanford University, PhD

**Ganesh Thakur**

Professor, Pharmaceutical Sciences; Institute of Chemical Technology (India), PhD

**Dorin Thibault**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MBA

**Adam Thomas**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Corliss Thompson**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**Jamal Thorne**

Associate Teaching Professor, Art + Design; Northeastern University, MFA

**Zhenyu Tian**

Assistant Professor, Chemistry and Chemical Biology; University of North Carolina, Chapel Hill, PhD

**Jonathan L. Tilly**

University Distinguished Professor, Biology; Rutgers University, PhD

**Jodi Tims**

Professor of the Practice, Computer Sciences; University of Pittsburgh, PhD

**Frank Tip**

Professor, Computer Sciences; University of Amsterdam (Netherlands), PhD

**Lisa J. Tison-Thomas**

Assistant Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Devesh Tiwari**

Assistant Professor, Electrical and Computer Engineering; North Carolina State University, PhD

**Yustianto Tjiptowidjojo**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Mississippi State University, PhD

**Alexandra A. To**

Assistant Professor, Game Design and Computer Sciences; Carnegie Mellon University, PhD

**Gordana G. Todorov**

Professor, Mathematics; Brandeis University, PhD

**Irina Todorova**

Visiting Clinical Professor, Bouvé College of Health Sciences; Sofia University (Bulgaria), PhD

**Alessio Tognetti**

Associate Academic Specialist, World Languages Center; University of Washington, MA

**Valerio Toledano Laredo**

Professor, Mathematics; University of Cambridge (United Kingdom), PhD

**Michael Tolley**

Associate Professor, Political Science; Johns Hopkins University, PhD

**Jacqueline Tolosko**

Assistant Clinical Professor, Nursing; Boston College, MSN

**Peter Y. Topalov**

Professor, Mathematics; Moscow State University (Russia), PhD

**Vladimir P. Torchilin**

University Distinguished Professor, Pharmaceutical Sciences; Moscow State University (Russia), PhD, DSc

**Melanie Tory**

Professor of the Practice, Computer Sciences and Art + Design; Simon Fraser University Canada), PhD

**Ali Touran**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Mohammad Toutiaee**

Assistant Teaching Professor, Computer Sciences; University of Georgia, PhD

**Emery A. Trahan**

Professor, Finance; State University of New York at Albany, PhD

**Robert Triest**

Professor, Economics; University of Wisconsin, Madison, PhD

**Stavros Tripakis**

Associate Professor, Computer Sciences; Joseph Fourier University (France), PhD

**Giovanni Troiano**

Visiting Assistant Professor, Game Design; University of Copenhagen (Denmark), PhD

**Andrew Trotman**

Assistant Professor, Accounting; Bond University (Australia), PhD

**Geoffrey C. Trussell**

Professor, Marine and Environmental Sciences; College of William and Mary, PhD

**Kumiko Tsuji**

Associate Teaching Professor, World Languages Center; Georgetown University, PhD

**Eugene Tunik**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Rutgers University, PhD

**Berna Turam**

Professor, International Affairs and Sociology and Anthropology; McGill University (Canada), PhD

**Esther Tutella-Chen**

Assistant Academic Specialist, College of Professional Studies; Vanderbilt University, MEd

**U**

**Jonathan Ullman**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Annique Un**

Associate Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Christopher Unger**

Teaching Professor, College of Professional Studies; Harvard University, EdD

**Steven R. Untersee**

Associate Teaching Professor, Biology; Tufts University, PhD

**Moneesh Upmanyu**

Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**V****Scott Valcourt**

Associate Teaching Professor, Computer Sciences; University of New Hampshire, PhD

**Mariana Valencia-Mastre**

Assistant Teaching Professor, Marine and Environmental Sciences; University of Michigan, PhD

**Steven Vallas**

Professor, Sociology and Anthropology; Rutgers University, PhD

**Jenny A. Van Amburgh**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Jan-Willem Van De Meent**

Assistant Professor, Computer Sciences; Leiden University (Netherlands), PhD

**Anne L. Van De Ven-Moloney**

Associate Teaching Professor, Physics; Rice University, PhD

**Drew Van Der Poel**

Assistant Teaching Professor, Computer Sciences; North Carolina Agricultural and Technical State University, PhD

**Maria Van Pelt**

Clinical Professor, Nursing; Villanova University, DNSc

**Kathleen Vander Laan**

Senior Cooperative Education Coordinator, Khoury College of Computer Sciences; Salem State University, MBA

**Julia Varshavsky**

Assistant Professor, Health Sciences and Civil and Environmental Engineering; University of California, Berkeley, PhD

**Manuel Vaultont**

Assistant Professor, Management and Organizational Development; Arizona State University, PhD

**Elaine Vejar**

Assistant Academic Specialist, College of Professional Studies; University of Massachusetts, Lowell, MS

**Enio Velazco**

Senior Lecturer, Supply Chain and Information Management; Case Western Reserve University, PhD

**Oana Veliche**

Associate Teaching Professor, Mathematics; Purdue University, PhD

**Vivek Venkatachalam**

Assistant Professor, Physics; Harvard University, PhD

**Madhavi Venkatesan**

Assistant Teaching Professor, Economics; Vanderbilt University, PhD

**Anand Venkateswaran**

Associate Professor, Finance; Georgia State University, PhD

**Alice Verticelli**

Visiting Lecturer, International Affairs; Northeastern University, PhD

**Ferdinand Vesely**

Assistant Teaching Professor, Computer Sciences; Swansea University (United Kingdom), PhD

**Alessandro Vespignani**

Sternberg Family Distinguished University Professor, Physics and Health Sciences and Computer Sciences; Sapienza University of Rome (Italy), PhD

**Talia Vestri**

Associate Teaching Professor, English; Boston University, PhD

**Gustavo Vicentini**

Associate Teaching Professor, Economics; Boston University, PhD

**Thomas Vicino**

Professor, Political Science and Public Policy and Urban Affairs; University of Maryland, PhD

**Ilya Vidrin**

Postdoctoral Teaching Associate, Theatre; Harvard University, MA

**Emanuele Viola**

Associate Professor, Computer Sciences; Harvard University, PhD

**Jan Vitek**

Professor, Computer Sciences; University of Geneva (Switzerland), PhD

**Olga Vitek**

Professor, Computer Sciences; Purdue University, PhD

**Steven V. Vollmer**

Associate Professor, Marine and Environmental Sciences; Harvard University, PhD

**Robert J. Volpe**

Professor, Applied Psychology; Lehigh University, PhD

**W**

**Sara Wadia-Fascetti**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Ari E. Waldman**

Professor, Law and Computer Sciences; Columbia University, PhD; Harvard University, JD

**Thomas E. Wales**

Research Associate Professor, Chemistry and Chemical Biology; Duke University, PhD

**Jacob Walker**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Louise Walker**

Associate Professor, History; Yale University, PhD

**Byron Wallace**

Assistant Professor, Computer Sciences; Tufts University, PhD

**Rachel Walsh**

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Suzanna Walters**

Professor, Women's, Gender, and Sexuality Studies and Sociology and Anthropology; City University of New York, PhD

**Darryl Walton**

Associate Clinical Professor, Law; Wake Forest University, JD

**Richard Wamai**

Associate Professor, Cultures, Societies, and Global Studies; University of Helsinki (Finland), PhD

**Kai-tak Wan**

Professor, Mechanical and Industrial Engineering; University of Maryland, College Park, PhD

**He Wang**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Ming Wang**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; University of New Mexico, PhD

**Qi Wang**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Shuyang Wang**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Yanzhi Wang**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Meni Wanunu**

Associate Professor, Physics; Weizmann Institute of Science (Israel), PhD

**Robert J. Ward**

Lecturer, Music; University of California, San Diego, MA

**Oliver Wason**

Assistant Teaching Professor, Theatre; Yale University, MFA

**Maureen Watkins**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Natalya Watson**

Associate Teaching Professor, College of Professional Studies; University of Colorado, Denver, PhD

**Vanessa Wei**

Assistant Teaching Professor, World Languages Center; University of Pittsburgh, EdD

**Nikki Weickum**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Maira Weigel**

Assistant Professor, Communication Studies; Yale University, PhD

**Liza Weinstein**

Associate Professor, Sociology and Anthropology; University of Chicago, PhD

**Jonathan Weitsman**

Robert G. Stone Professor, Mathematics; Harvard University, PhD

**Brooke Welles**

Associate Professor, Communication Studies; Northwestern University, PhD

**Mark Wells**

Assistant Teaching Professor, Philosophy and Religion; Bowling Green State University, PhD

**Amanda Welsh**

Professor of the Practice, College of Professional Studies; Harvard University, PhD

**Brandon Welsh**

Professor, Criminology and Criminal Justice; University of Cambridge (United Kingdom), PhD

**Joshua Wen**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Illinois, Urbana-Champaign, PhD

**Edward G. Wertheim**

Associate Professor, Management and Organizational Development; Yeshiva University, PhD

**Richard West**

Associate Professor, Chemical Engineering; University of Cambridge (United Kingdom), PhD

**Alan West-Durán**

Professor, Cultures, Societies, and Global Studies; New York University, PhD

**Rebecca Westerling**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MA

**Richard Whalen**

Teaching Professor, Engineering; Northeastern University, PhD

**Max White**

Visiting Lecturer, English; Northeastern University, PhD

1222 University Faculty

**Susan Whitfield-Gabrieli**

Professor, Psychology; University of California, Berkeley, PhD

**Paul C. Whitford**

Associate Professor, Physics; University of California, San Diego, PhD

**John Whitney**

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Lori Whynot**

Teaching Professor, American Sign Language; Macquarie University, Sydney (Australia), PhD

**Daniel Wicks**

Associate Professor, Computer Sciences; New York University, PhD

**Peter H. Wiederspahn**

Associate Professor, Architecture; Harvard University, MArch

**John Wihbey**

Associate Professor, Journalism; Columbia University, MS

**Ronald J. Willey**

Professor, Chemical Engineering; University of Massachusetts, Amherst, PhD

**Kristy H. Williams**

Associate Clinical Professor, Nursing; Gardner-Webb University, PhD

**Lucy A. Williams**

Professor, Law; University of Chicago, JD

**Mark C. Williams**

Professor, Physics; University of Minnesota, PhD

**Patricia J. Williams**

University Distinguished Professor, Law and Philosophy and Religion; Harvard University, JD

**Stephen Williams**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

**Rebecca Willits**

Professor, Chemical Engineering; Cornell University, PhD

**Christo Wilson**

Associate Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Sheila Winborne**

Associate Teaching Professor, Philosophy and Religion; Harvard University, PhD

**Raimond Winslow**

Professor, Bioengineering and Computer Sciences; Johns Hopkins University, PhD

**ElDante Winston**

Visiting Associate Teaching Professor, Architecture; University of Virginia, MArch

**Eric Winter**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Annie Witte**

Assistant Teaching Professor, Accounting; Bentley University, PhD

**Pamela Wojnar**

Associate Teaching Professor, College of Professional Studies; United States Sports Academy, EdD

**John Wolfe**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Kathy Wong**

Assistant Cooperative Education Coordinator, College of Engineering; Seattle University, MEd

**Lok Sang (Lawson) Wong**

Assistant Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Margaret Y. Woo**

Professor, Law; New York University, JD

**Darien Wood**

Professor, Physics; University of California, Berkeley, PhD

**Dori C. Woods**

Associate Professor, Biology; University of Notre Dame, PhD

**Sarah Woodside**

Associate Teaching Professor, Management and Organizational Development; Boston College, PhD

**Adam Woolley**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Benjamin Woolston**

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Lisa Worsh**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Bridgewater State College, MEd

**Shu-Shih Y. Wu**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Kinde Wubneh**

Assistant Professor, Entrepreneurship and Innovation and Pharmacy and Health System Sciences; University of Texas, Austin, PhD

**Sara A. Wylie**

Associate Professor, Sociology and Anthropology and Health Sciences; Massachusetts Institute of Technology, PhD

**X****Xia Xiao**

Assistant Professor, Accounting; University of Arizona, PhD

**Wei Xie**

Assistant Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Mofei Xu**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MA

**Xiaolin Xu**

Assistant Professor, Electrical and Computer Engineering; University of Massachusetts, Amherst, PhD

**Y****Milen Yakimov**

Professor, Mathematics; University of California, Berkeley, PhD

**Shiawee X. Yang**

Associate Professor, Finance; Pennsylvania State University, PhD

**Hideaki Yano**

Assistant Professor, Pharmaceutical Sciences; Columbia University, PhD

**Mohammad Abbas Yaseen**

Assistant Professor, Bioengineering; Rice University, PhD

**Lichuan Ye**

Associate Professor, Nursing; University of Pennsylvania, DNSc

**Mishac K. Yegian**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Edmund Yeh**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Roi Yehoshua**

Assistant Teaching Professor, Electrical and Computer Engineering; Bar-Ilan University (Israel), PhD

**Boris Yelin**

Assistant Teaching Professor, World Languages Center; Purdue University, PhD

**Benjamin Yelle**

Associate Teaching Professor, Philosophy and Religion; University of Miami, PhD

**Sheng-Che Yen**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; New York University, PhD

**Ayce Yesilaltay**

Assistant Teaching Professor, Biology; University of Massachusetts Medical School, PhD

**Caglar Yildirim**

Assistant Teaching Professor, Computer Sciences; Iowa State University, PhD

**George Yip**

Distinguished Visiting Professor, International Business and Strategy; Harvard University, DBA

**Moka Yoo-Jeong**

Assistant Professor, Nursing; Emory University, PhD

**Mark L. Yorra**

Senior Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Northeastern University, EdD

**Yizhi You**

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Gary Young**

Professor, International Business and Strategy and Health Sciences; State University of New York at Buffalo, PhD

**Lydia Young**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Neal Young**

Teaching Professor, Computer Sciences; Princeton University, PhD

**Sarah C. Young-Hong**

Assistant Clinical Professor, Communication Sciences and Disorders; University of Pittsburgh, MA

**Shuishan Yu**

Associate Professor, Architecture; University of Washington, PhD

**Lua Yuille**

Professor, Law and Management and Organizational Development; Columbia University, JD

**Z**

**Nizar Zaarour**

Associate Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

**Adel Zadeh**

Associate Teaching Professor, College of Professional Studies; University of Cambridge (United Kingdom), PhD

**Michelle Zaff**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

**Christos Zahopoulos**

Associate Professor, College of Professional Studies; Northeastern University, PhD

**Carl Zangerl**

Associate Teaching Professor, College of Professional Studies; University of Illinois, PhD

**Victor Zappi**

Assistant Professor, Music; Istituto Italiano di Tecnologia/Università degli studi di Genova (Italy), PhD

**Alan J. Zaremba**

Associate Professor, Communication Studies; State University of New York at Buffalo, PhD

**Daniel Zedek**

Professor of the Practice, Journalism; Columbia University, BA

**Ibrahim Zeid**

Professor, Mechanical and Industrial Engineering; University of Akron, PhD

**Moira Zellner**

Professor, Public Policy and Urban Affairs; University of Michigan, PhD

**Hongyang Zhang**

Assistant Professor, Computer Sciences; Stanford University, PhD

**Jie Zhang**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Virginia Polytechnic Institute and State University, PhD

**Ke Zhang**

Associate Professor, Chemistry and Chemical Biology; Washington University, St. Louis, PhD

**Ning Zhang**

Associate Professor, Pharmacy and Health Systems Sciences and Nursing; Cornell University, PhD

**Shuo Zhang**

Assistant Professor, Economics and Computer Sciences; University of California, Santa Barbara, PhD

**Yang Zhang**

Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Yue May Zhang**

Associate Professor, Accounting; University of Pittsburgh, PhD

**Qianqian Zhang-Wu**

Assistant Professor, English; Boston College, PhD

**Pu Zhao**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Qing Zhao**

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Kuncheng Zheng**

Associate Professor, Finance; University of Michigan, PhD

**Yi Zheng**

Associate Professor, Mechanical and Industrial Engineering; Columbia University, PhD

**Lin Zhou**

Assistant Teaching Professor, College of Professional Studies; University of Hawai'i at Manoa, PhD

**Xiaomu Zhou**

Associate Teaching Professor, College of Professional Studies; University of Michigan, PhD

**Yan Zhou**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Texas, Austin, PhD

**Zhaohui S. Zhou**

Professor, Chemistry and Chemical Biology; Scripps Research Institute, PhD

**Hongli Zhu**

Assistant Professor, Mechanical and Industrial Engineering; South China University of Technology (China), PhD

**Xuwen Zhu**

Assistant Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Sali Ziane**

Teaching Professor, World Languages Center; University of Paris XIII (France), PhD

**Nathaniel Ziegler**

Associate Cooperative Education Coordinator, College of Engineering; Indiana University of Pennsylvania, MEd

**Emily Zimmerman**

Associate Professor, Communication Sciences and Disorders; University of Kansas, PhD

**Gregory Zimmerman**

Associate Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Kathrin Zippel**

Professor, Sociology and Anthropology; University of Wisconsin, Madison, PhD

**Steven Zoloth**

Professor, Health Sciences; University of Pennsylvania, PhD

**Rose Zoltek-Jick**

Associate Teaching Professor, Law; York University (Canada), LLB

**Elizabeth Zulick**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Ronald Zullo**

Senior Lecturer, Accounting; Bentley University, MS

**Günther K. H. Zupanc**

Professor, Biology; University of California, San Diego, PhD; University of Tübingen (Germany), Dr. rer. nat. habil.

**Alexander Zvonok**

Research Assistant Professor, Center for Drug Discovery; Belarusian State University (Belarus), PhD

**Nikolai Zvonok**

Research Assistant Professor, Center for Drug Discovery; Russian Academy of Sciences (Russia), PhD

## General Information

- Notifications and Disclosures (p. 1228)
- Governing Boards and Officers of Northeastern (p. 1230)
- University Leadership (p. 1232)
- Accreditation (p. 1233)
- Authorizations (p. 1237)
- Major CIP Codes (p. 1240)
- Resources (p. 1260)

## Notifications and Disclosures

The *Northeastern University Catalog* contains the university's primary statements about approved academic programs and degree requirements, as authorized by the president or the Board of Trustees.

The *Northeastern University Catalog* contains current information about the university calendar, admissions, degree requirements, fees, and certain procedures and regulations; however, such information is not intended and should not be regarded to be contractual. Course information was current as of July 31, 2023. For updated course information, students and advisors should consult the Banner course catalog (<https://nubanner.neu.edu/StudentRegistrationSsb/ssb/term/termSelection/?mode=courseSearch>).

### Accreditation

Please visit the Accreditation (p. 1233) page of this catalog for details of Northeastern University's accreditation status.

### FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

In accordance with the Family Educational Rights and Privacy Act of 1974, Northeastern University permits its students to inspect their records wherever appropriate and to challenge specific parts of them when they feel it is necessary to do so. Specific details of the law as it applies to Northeastern are discussed in this section of the catalog (p. 52).

### PERSISTENCE RATES UNDER THE STUDENT RIGHT-TO-KNOW ACT

In the fall of 2022, the persistence rate for undergraduate students who entered in the fall 2021 cohort was 97.2%.

### TUITION DEFAULT POLICY

In cases where the student defaults on their tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

### NONDISCRIMINATION POLICIES

Northeastern University is committed to providing a living, learning, and working environment free from discrimination and harassment and does not discriminate on the basis of race, color, religion, genetic information, sex, gender, gender identity, sexual orientation, age, national origin, ancestry, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. The university will not tolerate any conduct that violates rights guaranteed by law, or any of the university policies that prohibit discrimination, including the Policy on Equal Opportunity ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), Policy on Sexual and Gender-Based Harassment and Title IX ([https://policies.northeastern.edu/policy104/#\\_ga=21399120526780236931685972406-9222403871666097079](https://policies.northeastern.edu/policy104/#_ga=21399120526780236931685972406-9222403871666097079)), and the Policy on Non-Fraternization ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Non-Fraternization.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Non-Fraternization.pdf)). Furthermore, university policy also includes prohibitions of retaliation for filing complaints of discrimination with the Office for University Equity and Compliance. Links to the university's nondiscrimination policies and its grievance procedures are available at the OUEC (<https://www.northeastern.edu/ouec/>). Inquiries regarding the university's nondiscrimination policies may be directed to:

Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/>)  
125 Richards Hall  
Northeastern University  
Boston, Massachusetts 02115  
617.373.4644  
[ouec@northeastern.edu](mailto:ouec@northeastern.edu)

The university strongly encourages any person to report information relating to alleged discrimination or harassment to the OUEC (<https://www.northeastern.edu/ouec/>) by completing the form available here ([https://cm.maxient.com/reportingform.php?NortheasternUniv&layout\\_id=7](https://cm.maxient.com/reportingform.php?NortheasternUniv&layout_id=7)) or through any of the contact options listed above. OUEC's policies, as well as other helpful information, can be found at the OUEC website (<https://www.northeastern.edu/ouec/>).

### DISABILITY RESOURCE CENTER

The Disability Resource Center provides a variety of disability-related services and accommodations to Northeastern University's students with disabilities.

Northeastern University's compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 are coordinated by the senior director of the Disability Resource Center. Persons requiring information regarding the Disability Resource Center should contact the center at 617.373.2675 or [drc@northeastern.edu](mailto:drc@northeastern.edu).

### CLERY ACT

Northeastern University is committed to assisting all members of the university community in providing for their own safety and security. Information regarding campus security and personal safety, including topics such as crime prevention, university police law enforcement authority, crime reporting policies, crime statistics for the most recent three-year period, and disciplinary procedures, is available in the Annual Security & Fire Safety Reports, located on the NUPD website (<https://nupd.northeastern.edu/annual-reports/>).

**EMERGENCY INFORMATION**

The university is prepared to respond to emergencies and urgent situations that require immediate action with a trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals from a coordinated group that is able to manage a wide range of potential situations.

In case of emergency or crisis situations that require immediate notification, university officials will deploy the NU Alert system, which sends email, voice mail, and text messages to students, faculty, and staff. NU Alert is intended to communicate pertinent information and, when appropriate, provide directions to those in the affected area(s).

A record of past Timely Warning and NU Alert Emergency Notifications for our campus community can be found on the NUPD website (<https://nupd.northeastern.edu/safety-notifications/>).

Examples of crisis situations range from snowstorms to national emergencies that have a local impact.

Additional information on the university's emergency information systems can be found on the university's Emergency Information (<https://www.northeastern.edu/emergency-information/>) website.

**MISSION STATEMENT**

To educate students for a life of fulfillment and accomplishment.

To create and translate knowledge to meet global and societal needs.

## Governing Boards and Officers of Northeastern

### Officers of the Board of Trustees

Richard A. D'Amore, *Chair*  
Edward G. Galante, *Vice Chair*  
Alan S. McKim, *Vice Chair*

### Officers Emeritae/i

Neal F. Finnegan, *Chair Emeritus*  
Henry J. Nasella, *Chair Emeritus*  
Sy Sternberg, *Chair Emeritus*  
George D. Behrakis, *Vice Chair Emeritus*  
George W. Chamillard, *Vice Chair Emeritus*  
Richard P. Chapman Jr., *Vice Chair Emeritus*  
H. Patricia Hanna, *Vice Chair Emerita*  
Robert C. Marini, *Vice Chair Emeritus*  
Katherine S. McHugh, *Vice Chair Emerita*  
Richard C. Ockerbloom, *Vice Chair Emeritus*  
Carole J. Shapazian, *Vice Chair Emerita*  
Jean C. Tempel, *Vice Chair Emerita*  
Alan D. Tobin, *Vice Chair Emeritus*

### Members of the Board of Trustees

Jeffrey S. Bornstein  
Subodh Chanrai  
Jeffrey J. Clarke

## University Leadership

### Senior Leadership

**Joseph E. Aoun, BA, MA, PhD, *President***

**David Madigan, BA, PhD, *Provost and Senior Vice President for Academic Affairs***

**Ken Henderson, BS, PhD, *Chancellor and Senior Vice President for Learning***

**Michael A. Armini, BA, MA, *Senior Vice President for External Affairs***

**Diane Nishigaya MacGillivray, BA, MA, *Senior Vice President for University Advancement***

**Mary Strother, BA, JD, *Senior Vice President and General Counsel***

**Thomas Nedell, BA, MBA, *Senior Vice President for Finance and Treasurer***

### Academic Deans

**Gregory Abowd, BS, MSc, PhD, *Dean of the College of Engineering***

**Elizabeth Mynatt, BS, MS, PhD, *Dean of the Khoury College of Computer Sciences***

**David De Cremer, MSc, BSc, MA, PhD, *Dean of the D'Amore-McKim School of Business***

**Hazel L. Sive, BSc, BScHons., PhD, *Dean of the College of Science***

**Elizabeth Hudson, BA, MA, PhD, *Dean of the College of Arts, Media and Design***

**Radhika Seshan, BS, MA, PhD, *Dean of the College of Professional Studies***

**James R. Hackney, AB, JD, *Dean of the School of Law***

**Ron Sandler, PhD, *Interim Dean of the College of Social Sciences and Humanities***

**Carmen L. Sceppa, BS, MD, PhD, *Dean of the Bouvé College of Health Sciences***

## Accreditation

### Accreditation

Northeastern University has maintained its status as a member in good standing of the New England Commission of Higher Education, Inc. (NECHE), previously New England Association of Schools and Colleges (NEASC), since it was awarded its initial accreditation in 1940. The university was last reviewed by NECHE in 2018 and will be reviewed again in fall 2028.

Northeastern University possesses degree-granting authority in Massachusetts, under the auspices of the Massachusetts Board of Higher Education.

## D'AMORE-MCKIM SCHOOL OF BUSINESS

Program	Accrediting Agency
All programs offered in 2023–24	AACSB International—The Association to Advance Collegiate Schools of Business ( <a href="https://www.aacsb.edu/">https://www.aacsb.edu/</a> )

**SCHOOL OF LAW**

<b>Program</b>	<b>Accrediting Agency</b>
JD Law (p. 746)	American Bar Association; Association of American Law Schools <sup>1</sup>

<sup>1</sup> The Association of American Law Schools is an elected membership organization, not an accrediting body.

## Authorizations

### Campus Locations and Regulatory Agencies

In addition to accreditation by the New England Commission of Higher Education, Northeastern University is regulated by local authorities for its global campus network locations. These agencies are as follows:

- Arlington, Virginia
  - State Council of Higher Education for Virginia
- Charlotte, North Carolina
  - Board of Governors of the University of North Carolina
- Miami, Florida
  - Florida Commission for Independent Education
- Portland, Maine
  - Maine State Board of Education
- Oakland, California
  - Bureau for Private Postsecondary Education
- San Francisco, California
  - Bureau for Private Postsecondary Education
- San Jose, California
  - Bureau for Private Postsecondary Education
- Seattle, Washington
  - Washington Student Achievement Council
- Toronto, Ontario, Canada
  - Ministry of Colleges and Universities
- Vancouver, British Columbia, Canada
  - Ministry of Post-Secondary Education and Future Skills

### Required Disclosures

#### VIRGINIA

Northeastern has processes in place to ensure that student grievances are treated with respect and addressed in a fair and professional manner. Students can report concerns to the Office of Student Conduct and Conflict Resolution (<https://www.northeastern.edu/osccr/>) or the University Ombuds (<https://provost.northeastern.edu/ombuds/>). At the Arlington campus, students can contact the on-site student support specialist or the campus principal.

If a student's problem has not been resolved in pursuance of the Northeastern grievance policy, they may contact the State Council of Higher Education for Virginia. SCHEV representatives can be reached via telephone at (804) 225-2600; via fax at (804) 225-2604; at this website (<https://www.schev.edu/students/resources/student-complaints/>); or by mail at 101 N. 14th Street, 10th Floor, James Monroe Building, Richmond, VA 23219.

The Virginia State Approving Agency (SAA) is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill® beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email [saa@dvs.virginia.gov](mailto:saa@dvs.virginia.gov). *GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill/>.*

#### NORTH CAROLINA

Northeastern has been evaluated by the University of North Carolina and is licensed to conduct higher education degree activity in the state. The university's guaranty bond for unearned prepaid tuition is on file with the Board of Governors of the University of North Carolina and the Office of the General Counsel at Northeastern. North Carolina students may view a copy of the Tuition Guaranty Bond by contacting Northeastern's Risk Services at 716 Columbus Avenue (Columbus Place), Suite 301 CP, Boston, MA 02120.

If students are unable to resolve a complaint offered by the Northeastern grievance procedures, they can submit a complaint through the online student complaint form at <https://studentcomplaints.northcarolina.edu/form> (<https://studentcomplaints.northcarolina.edu/form/>), or by mail to North Carolina Post-Secondary Education Complaints, 140 Friday Center Drive, Chapel Hill, NC 27517. <https://www.northcarolina.edu/post-secondary-education-complaints/>.

#### FLORIDA

Northeastern University—Miami is accredited by the New England Commission of Higher Education (NECHE) and is provisionally licensed in the state of Florida by the Commission on Independent Education (CIE). Additional information regarding the institution may be obtained by contacting the Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888) 224-6684.

The transferability of credits you earn at Northeastern is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Northeastern to determine if your credits or degree will transfer.

## CALIFORNIA

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education (<http://www.bppe.ca.gov>), 1747 N. Market Blvd., Ste. 225, Sacramento, CA 95834; P.O. Box 980818, West Sacramento, CA 95798-0818, (888) 370-7589, or by fax (916) 263-1897.

### **NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION**

The transferability of credits you earn at Northeastern is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Northeastern to determine if your credits or degree will transfer.

The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370-7589 or by visiting <https://osar.bppe.ca.gov/>.

## WASHINGTON

Northeastern is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes Northeastern to offer specific degree programs. The council may be contacted for a list of currently authorized programs. Authorization by the council does not carry with it an endorsement by the council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the council at P.O. Box 43430, Olympia, WA 98504-3430 or by email at [degreeauthorization@wsac.wa.gov](mailto:degreeauthorization@wsac.wa.gov).

The transferability of credits earned at Northeastern is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at Northeastern will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Northeastern to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation does not guarantee credentials or credits earned at Northeastern will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned. The Washington Student Achievement Council has authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit <http://www.wsac.wa.gov/student-complaints> (<http://www.wsac.wa.gov/student-complaints/>) for information regarding the WSAC complaint process.

## ONTARIO

### **Master of Science in Project Management (p. 871)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting July 28, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

### **Master of Science in Regulatory Affairs (p. 874)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting June 25, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

### **Master of Professional Studies in Analytics (p. 827)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting March 6, 2020. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

### **Master of Professional Studies in Informatics (p. 841)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting March 6, 2020. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Information Systems (p. 539)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting July 28, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Biotechnology (p. 955)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting September 14, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Cyber-Physical Systems (p. 542)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting January 18, 2023. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Bioinformatics (p. 942)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting January 18, 2023. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**BRITISH COLUMBIA****Master of Science in Computer Science (p. 293)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective July 7, 2019, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Align—Master of Science in Computer Science (p. )**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective July 7, 2019, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Data Analytics Engineering (p. 485)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective November 29, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Information Design and Data Visualization (p. 135)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective October 28, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Professional Studies in Analytics (p. 827)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective October 28, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**MASTER OF SCIENCE IN INFORMATION SYSTEMS (p. 539)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective March 3, 2023, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**MASTER OF professional studies in digital media (p. 833) (including connect (p. 836))**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective June 6, 2023 having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).

## Major CIP Codes

The following is a list of Northeastern University majors for programs accepting new students during the 2023-2024 catalog year, along with each major's corresponding CIP code. "CIP" refers to the Classification of Instructional Programs published by the U.S. Department of Education's National Center for Education Statistics (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=56>).

Academic Program	Major Transcript Title	Major CIP Code
P-CERTG-3DAN: 3D Animation, Graduate Certificate	3-D Animation	100304
CERTG-ACFD: Accounting and Financial Decision Making, Graduate Certificate	Accntng Fin Decision Making	520899
MSA-ACCT: Accounting, MSA	Accounting	520301
P-CERTU-ACCT: Accounting, Undergraduate Certificate	Accounting	520301
P-CERTU-AACT: Advanced Accounting, Undergraduate Certificate	Advanced Accounting	520301
MS-AIMF: Advanced and Intelligent Manufacturing, MS	Advanced and Intelligent Mfg	143601
P-BS-AVMS: Advanced Manufacturing Systems, BS	Advanced Manufacturing Systems	150613
BA-AFMS: Africana Studies and Media and Screen Studies, BA	Africana St/Media Screen St	050201
BA-AFHS: Africana Studies and Human Services, BA	Africana Stud/Human Services	050201
BA-AFCS: Africana Studies, BA	Africana Studies	050201
BS-AFCS: Africana Studies, BS	Africana Studies	050201
BA-AFEN: Africana Studies and English, BA	Africana Studies/English	050201
BA-AFPS: Africana Studies and Political Science, BA	Africana Studies/Political Sci	050201
P-CERTG-AGPM: Agile Project Management, Graduate Certificate	Agile Project Management	520211
P-BS-ANLY: Analytics, BS	Analytics	110802
P-CERTU-ANLY: Analytics, Undergraduate Certificate	Analytics	110802
P-MPS-ANLY: Analytics, MPS	Analytics	110802
MS-AQMS: Applied Quantitative Methods and Social Analysis, MS	Appl Quant Methods Soc Anlys	450102
P-CERTG-APAN: Applied Analytics, Graduate Certificate	Applied Analytics	307101
MS-ABA: Applied Behavior Analysis, MS	Applied Behavior Analysis	422814
MS-AEPP: Applied Educational Psychology, MS	Applied Educational Psychology	422805
P-MPS-APLG: Applied Logistics, MPS	Applied Logistics	520203
P-MPS-APMI: Applied Machine Intelligence, MPS	Applied Machine Intelligence	521301
CERTG-AMTH: Applied Mathematics, Graduate Certificate	Applied Mathematics	270301
MS-AMTH: Applied Mathematics, MS	Applied Mathematics	270301
MS-APNR: Applied Nursing Research, MS	Applied Nursing Research	513808
P-MS-APNU: Applied Nutrition, MS	Applied Nutrition	301901
BS-APHY: Applied Physics, BS	Applied Physics	400801
MS-APEN: Applied Physics and Engineering, MS	Applied Physics/Engineering	400801
MS-APPS: Applied Psychology, MS	Applied Psychology	422813
BS-ARCS: Architectural Studies, BS	Architectural Studies	040801
BS-ARSD: Architectural Studies and Design, BS	Architectural Studies/Design	040803
BS-ARCH: Architecture, BS	Architecture	040902

MARCH-ARCH1: Master of Architecture—One-Year Program	Architecture	040902
MARCH-ARCH2: Master of Architecture—Two-Year Program	Architecture	040902
MARCH-ARCH3: Master of Architecture—Three-Year Program	Architecture	040902
MARCH-ARCH3A: Master of Architecture—Three-Year Program—Advanced Degree Entrance	Architecture	040902
BS-AENG: Architecture and English, BS	Architecture/ English	040201
BA-ARTS: Art, BA	Art	500702
MS-ARIN: Artificial Intelligence	Artificial Intelligence	110102
MS-AMCE: Arts Administration and Cultural Entrepreneurship, MS	Arts Adm Cultural Entrepren	501099
CERTG-ARAD: Arts Administration, Graduate Certificate	Arts Administration	501099
BS-ASLI: American Sign Language—English Interpreting, BS	ASL - English Interpreting	161601
BS-ASHU: American Sign Language and Human Services, BS	ASL / Human Services	161601
BS-ASLN: American Sign Language and Linguistics, BS	ASL / Linguistics	161601
BS-ASPS: American Sign Language and Psychology, BS	ASL / Psychology	161601
BS-ASTH: American Sign Language and Theatre, BS	ASL / Theatre	161601
BS-BNPH: Behavioral Neuroscience and Philosophy, BS	Behav Neuroscience/Philosophy	261501
BS-BENS: Behavioral Neuroscience, BS	Behavioral Neuroscience	261501
BS-BNDS: Behavioral Neuroscience and Design, BS	Behavioral Neuroscience/Design	261501
BS-BIOC: Biochemistry, BS	Biochemistry	260202
CERTG-BDBS: Biodefense and Biosecurity, Graduate Certificate	Biodefense and Biosecurity	261201
BSBIOE-BION: Bioengineering, BSBioE	Bioengineering	149999
MSBIOE-BION: Bioengineering, MSBioE	Bioengineering	149999
PHD-BION: Bioengineering, PhD	Bioengineering	149999
PHD-BION-A: Bioengineering, PhD—Advanced Entry	Bioengineering	149999
BSBIOE-BEBC: Bioengineering and Biochemistry, BSBioE	Bioengineering/Biochemistry	149999
CERTG-BINF: Bioinformatics, Graduate Certificate	Bioinformatics	261103
MS-BINF: Bioinformatics, MS	Bioinformatics	261103
P-BS-BIOS: Biological Science, BS	Biological Science	260101
BS-BIOL: Biology, BS	Biology	260101
MS-BIOL: Biology, MS	Biology	260101
PHD-BIOL: Biology, PhD	Biology	260101
PHD-BIOL-A: Biology, PhD-Advanced Entry	Biology	260101
BS-BENG: Biology and English, BS	Biology/English	269999
BS-BIMA: Biology and Mathematics, BS	Biology/Mathematics	260101
BS-BIPO: Biology and Political Science, BS	Biology/Political Science	269999
BS-BIMP: Biomedical Physics, BS	Biomedical Physics	260203
MS-BIOM: Biomedical Science, MS	Biomedical Science	260102
PHD-BIOM: Biomedical Science, PhD	Biomedical Science	260102
PHD-BIOM-A: Biomedical Science, PhD—Advanced Entry	Biomedical Science	260102

## 1242 Major CIP Codes

P-CERTG-BPRA: Biopharmaceutical Regulatory Affairs, Graduate Certificate	Biopharmaceutical Reg Affairs	512099
CERTG-BIAS: Biopharmaceutical Analytical Sciences, Graduate Certificate	Biopharm Analytical Sci	400599
P-CERTG-BPQI: International Biopharmaceutical Regulatory Affairs, Graduate Certificate	Biopharmacy Quality Intl	512099
CERTG-BIOT: Biotechnology, Graduate Certificate	Biotechnology	261201
MS-BIOT-SC: Biotechnology, MS	Biotechnology	261201
P-BS-BIOT: Biotechnology, BS	Biotechnology	261201
CERTG-BITE: Biotechnology Enterprise, Graduate Certificate	Biotechnology Enterprise	261201
CERTG-RESC: Biotechnology Regulatory Science, Graduate Certificate	Biotechnology Regulatory Sci	512004
CERTG-BLCE: Blockchain and Smart Contract Engineering, Graduate Certificate	Blockchain Smart Contr. Engr	140903
CERTG-BMGT: Brand Management, Graduate Certificate	Brand Management	521401
CERTG-TBWS: Broadband Wireless Systems, Graduate Certificate	Broadband Wireless Systems	110901
BS-BALW: Business Administration and Law, BS	Business Admin and Law	520101
BS-BACS: Business Administration and Communication Studies, BS	Business Admin/Comm Studies	520101
BS-BAPS: Business Administration and Psychology, BS	Business Admin/Psychology	520101
BS-BAPH: Business Administration and Public Health, BS	Business Admin/Public Health	520101
BSBA-BSAD: Bachelor of Science in Business Administration, BSBA	Business Administration	520101
CERTG-BSAD: Business Administration, Graduate Certificate	Business Administration	520101
CERTG-BSAD-O: Business Administration—Online Program, Graduate Certificate	Business Administration	520101
MBA-BSAD-E: Business Administration, MBA—Part-Time	Business Administration	520101
MBA-BSAD-F: Business Administration, MBA—Full-Time	Business Administration	520101
MBA-BSAD2-O: Business Administration, MBA—Online	Business Administration	520101
BS-BUDE: Business Administration and Design, BS	Business Administration/Design	520101
CERTG-BUSA: Business Analytics, Graduate Certificate	Business Analytics	521302
MS-BUSA: Business Analytics, MS	Business Analytics	521302
MS-BUSA-O: Business Analytics, MS—Online	Business Analytics	521302
CERTG-BLAW: Business Law, Graduate Certificate	Business Law	220205
CERTG-HECA: Business Management for Healthcare, Graduate Certificate	Business Mgmt for Healthcare	521099
MS-CGTH: Cell and Gene Therapies, MS	Cell and Gene Therapies	260806
BS-CMBI: Cell and Molecular Biology, BS	Cell and Molecular Biology	260406
BSCHE-CEBE: Chemical Engineering and Bioengineering, BSChE	Chem Engineer/Bioengineering	140701
BSCHE-CHOC: Chemical Engineering and Biochemistry, BSChE	Chem Engineering/ Biochemistry	140701
BSCHE-CHME: Chemical Engineering, BSChE	Chemical Engineering	140701
MSCHE-CHME: Chemical Engineering, MSChE	Chemical Engineering	140701
PHD-CHME: Chemical Engineering, PhD	Chemical Engineering	140701

PHD-CHME-A: Chemical Engineering, PhD—Advanced Entry	Chemical Engineering	140701
BSCHE-CHCS: Chemical Engineering and Computer Science, BSChE	Chemical Engineering/Comp Sci	140701
BSCHE-CEDS: Chemical Engineering and Data Science, BSChE	Chemical Engineering/Data Sci	140701
BSCHE-CEPH: Chemical Engineering and Physics, BSChE	Chemical Engineering/Physics	140701
BSCHE-CEEE: Chemical Engineering and Environmental Engineering, BSChE	Chemical Engr/Environ Engr	140701
BS-CHEM: Chemistry, BS	Chemistry	400501
MS-CHEM: Chemistry, MS	Chemistry	400501
PHD-CHEM: Chemistry, PhD	Chemistry	400501
PHD-CHEM-A: Chemistry, PhD-Advanced Entry	Chemistry	400501
PHD-CEEN: Civil and Environmental Engineering, PhD	Civil Environmental Engineer	140801
PHD-CEEN-A: Civil and Environmental Engineering, PhD—Advanced Entry	Civil Environmental Engineer	140801
BSCE-CEAS: Civil Engineering and Architectural Studies, BSCE	Civil Eng/Arch Studies	140801
BSCE-CIVE: Civil Engineering, BSCE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Construction Management, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Water, Environmental, and Coastal Systems, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Geotechnical/Geoenvironmental Engineering, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Structures, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Transportation, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Data and Systems, MSCivE	Civil Engineering	140801
BSCE-CVCS: Civil Engineering and Computer Science, BSCE	Civil Engineering/Computer Sci	140801
CERTG-CLEN: Climate and Engineering, Graduate Certificate	Climate and Engineering	141401
MS-CLSE: Climate Science and Engineering, MS	Climate Sci and Engineering	141401
P-CERTG-CCAM: Cloud Computing Application and Management, Graduate Certificate	Cloud Computing App and Mgmt	110104
CERTG-CLSD: Cloud Software Development, Graduate Certificate	Cloud Software Development	110902
P-CERTG-CATH: Collegiate Athletics Administration, Graduate Certificate	Collegiate Athletics Admin	310504
BA-CMGR: Communication Studies and Graphic and Information Design, BA	Comm Stud/Graph Info Design	090101
BS-CMSL: Communication Studies and Speech-Language Pathology and Audiology	Comm Stud/Speech-Lang Path Aud	090101
BA-CMTH: Communication Studies and Theatre, BA	Comm Studies/Theatre	090199
P-MS-COED: Commerce and Economic Development, MS	Commerce Economic Developmnt	450603
BA-CMME: Communication and Media Studies, BA	Communication Media Studies	090199

## 1244 Major CIP Codes

BA-CMSO: Communication Studies and Sociology, BA	Communication Stud./Sociology	090199
BA-CMST: Communication Studies, BA	Communication Studies	090101
BS-CSBA: Computer Science and Business Administration, BS	Comp Sci/Business Admin	110101
BS-CSCP: Computer Science and Cognitive Psychology, BS	Comp Sci/Cognitive Psyc	110101
BS-CSES: Computer Science and Environmental and Sustainability Sciences, BS	Comp Sci/Environ and Sust Sci	110101
BS-CSMA: Computer Science and Mathematics, BS	Comp Sci/Mathematics	110101
BS-CSPP: Computer Science and Politics, Philosophy, and Economics, BS	Comp Sci/Politics, Phil Econ	110101
CERTG-COSS: Computational Social Science, Graduate Certificate	Computational Social Science	305202
BSCMPE-CMPE: Computer Engineering, BSCmpE	Computer Engineering	140901
PHD-CMPE: Computer Engineering, PhD	Computer Engineering	140901
PHD-CMPE-A: Computer Engineering, PhD-Advanced Entry	Computer Engineering	140901
BSCMPE-CMPH: Computer Engineering and Physics, BSCmpE	Computer Engineering/Physics	140901
BSCMPE-CECS: Computer Engineering and Computer Science, BSCmpE	Computer Engr/Computer Science	140901
BS-CSPO: Computer Science and Political Science, BS	Computer Sci./ Political Sci.	110101
BS-CSBN: Computer Science and Behavioral Neuroscience, BS	Computer Sci/Behavior Neurosci	110101
BS-CSCS: Computer Science and Communication Studies, BS	Computer Sci/Communication Stu	110101
BS-CSCJ: Computer Science and Criminal Justice, BS	Computer Sci/Criminal Justice	110101
BS-CGDV: Computer Science and Game Development, BS	Computer Sci/Game Development	110101
BS-CSMU-MUTE: Computer Science and Music with Concentration in Music Technology, BS	Computer Sci/Music	110101
BS-CSPL: Computer Science and Philosophy, BS	Computer Sci/Philosophy	110101
BS-CSPY: Computer Science and Physics, BS	Computer Sci/Physics	110101
BS-CSSO: Computer Science and Sociology, BS	Computer Sci/Sociology	110101
BACS-CSCI: Computer Science, BACS	Computer Science	110101
BSCS-CSCI: Computer Science, BSCS	Computer Science	110101
CERTG-CSCI: Computer Science, Graduate Certificate	Computer Science	110101
MSCS-CSCI: Computer Science, MSCS	Computer Science	110101
MSCS-CSCI-AL: Computer Science, MSCS—Align	Computer Science	110101
PHD-CSCI: Computer Science, PhD	Computer Science	110101
PHD-CSCI-A: Computer Science, PhD—Advanced Entry	Computer Science	110101
BS-CSBI: Computer Science and Biology, BS	Computer Science/Biology	110101
BS-CSDE: Computer Science and Design, BS	Computer Science/Design	110101
BS-CSEC: Computer Science and Economics, BS	Computer Science/Economics	110101
BS-CSEG: Computer Science and English, BS	Computer Science/English	110101
BS-CSHI: Computer Science and History, BS	Computer Science/History	110101
BS-CSJO: Computer Science and Journalism, BS	Computer Science/Journalism	110101
BS-CSLI: Computer Science and Linguistics, BS	Computer Science/Linguistics	110101
BS-CSME: Computer Science and Media Arts, BS	Computer Science/Media Arts	110101
BS-CSTH: Computer Science and Theatre, BS	Computer Science/Theatre	110101

BS-CPLW: Computing and Law, BS	Computing and Law	110101
P-CERTG-CONM: Construction Management, Graduate Certificate	Construction Management	460412
P-MS-CORC: Corporate and Organizational Communication, MS	Corporate Org Communication	090101
CERTG-COFN: Corporate Finance, Graduate Certificate	Corporate Finance	520801
CERTG-COIN: Corporate Innovation, Graduate Certificate	Corporate Innovation	520210
CERTG-CPRN: Corporate Renewal, Graduate Certificate	Corporate Renewal	520799
MSCP-COPS: Counseling Psychology, MSCP	Counseling Psychology	422803
PHD-COPS-MSE: Counseling Psychology, PhD	Counseling Psychology	422803
MS-CCMD: Creative Collaboration and Multidisciplinary Design, MS	Creatv Collab Multidisc Dsgn	501099
BS-CRJO: Criminal Justice and Journalism, BS	Criminal Justice/Journalism	430104
BS-CJPH: Criminal Justice and Philosophy, BS	Criminal Justice/Philosophy	430104
BS-CRPO: Criminal Justice and Political Science, BS	Criminal Justice/Political Sci	430104
BS-CJPS: Criminal Justice and Psychology, BS	Criminal Justice/Psychology	430199
BS-CRSO: Criminal Justice and Sociology, BS	Criminal Justice/Sociology	430104
BS-CRCJ: Criminology and Criminal Justice, BS	Criminology Criminal Justice	430104
MS-CRCJ: Criminology and Criminal Justice, MS	Criminology Criminal Justice	430104
PHD-CRJP: Criminology and Justice Policy, PhD	Criminology and Justice Policy	430104
PHD-CRJP-A: Criminology and Justice Policy, PhD—Advanced Entry	Criminology and Justice Policy	430104
P-CERTG-CCCM: Cross-Cultural Communication, Graduate Certificate	Cross-Cultural Communication	090100
BA-CAPH: Cultural Anthropology and Philosophy, BA	Cultural Anthro/Philosophy	450204
BA-CARS: Cultural Anthropology and Religious Studies, BA	Cultural Anthro/Religious Stud	450204
BA-CUAN: Cultural Anthropology, BA	Cultural Anthropology	451101
BS-CUAN: Cultural Anthropology, BS	Cultural Anthropology	451101
BA-CUTH: Cultural Anthropology and Theatre, BA	Cultural Anthropology/Theatre	451101
CERTG-CUEN: Cultural Entrepreneurship, Graduate Certificate	Cultural Entrepreneurship	501099

## General Admission and Transfer Credit

- Admission (p. 6)
- Admission Requirements for Undergraduate Degrees and Certificates (p. 8)
- Seeking More Than One Certificate or Degree (p. 9)
- Transfer Credit Policy (p. 10)

## Admission

The goal of the admission process at the College of Professional Studies is to provide access to a Northeastern University education worldwide and to create an environment where you will grow and create lasting opportunities for your future. To support this, we take a friendly and supportive approach to admissions and are here to guide you through the process and help you achieve your goals. There are no application fees. No GREs, GMATs, or SATs required. And there are multiple start terms per year.

### When to Apply

#### DOMESTIC APPLICANTS

The College of Professional Studies admissions process operates on a rolling basis. However, it is recommended that all required documents are received:

- Six weeks prior to your desired start term for **transfer applicants**
- Four weeks prior to your desired start term for **applicants not transferring credits**

#### INTERNATIONAL APPLICANTS

As an international applicant, there are important deadlines you must meet in order to begin classes during your desired start term. International applicants who will be studying in the United States on a student visa must abide by the deadlines found on the College of Professional Studies website (<http://www.cps.neu.edu/admissions/international/>).

### Application Information

Applicants should refer to the following information to submit application documents:

Mail supporting documents to the following address:

Northeastern University—College of Professional Studies  
Graduate Application Processing Center  
P.O. Box 8150  
Portsmouth, NH 03802

If you are **unable** to send it to a **P.O. Box**, mail supporting documents to the following address:

Northeastern University—College of Professional Studies  
Graduate Application Processing Center  
360 Huntington Avenue  
Boston, MA 02115-9959

**It is important to include “College of Professional Studies” in the address when sending mail or requesting transcripts from previous institutions.**

#### FAX

Fax supporting documents to the following number: 617.373.8574.

#### EMAIL

Supporting documents that we recommend you submit via the Applicant Inquiry Form (<https://northeastern-network.force.com/GraduateAdmissionsFAQ/s/>):

- Unofficial transcripts
- Copy of diploma
- Statement of purpose
- Recommendation letters

#### TRANSCRIPTS

Transcripts must be mailed from the originating institution in a stamped and sealed envelope or emailed through “escript.”

#### IMPORTANT CODES

Note the following codes:

- TOEFL code: 4999
- FAFSA code: 002199

#### ADMISSIONS CONTACT

Questions? Please visit the Graduate Admissions Support Center (<https://northeastern-network.force.com/GraduateAdmissionsFAQ/s/>).

#### APPLICATION WITHDRAWAL DUE TO INACTIVITY

An application can be incomplete for up to one year before it is automatically withdrawn due to inactivity. An applicant who would like to reactivate their application has one year to do so from the time of their application withdrawal.

If an applicant has any questions or would like to reactivate their application, call 617.373.2400, 877.668.7727, or submit an email (cpsadmissions@northeastern.edu).

### **Request to Withdraw an Application**

An applicant can request to withdraw their application for admission at any time. An applicant who would like to reactivate their application has one year to do so from the time of their application withdrawal.

To request to withdraw your application, call 617.373.2400, 877.668.7727, or submit an email (cpsadmissions@northeastern.edu).

### **Admissions Acceptance Deferral**

A student who is not able to start their studies during the academic term for which they gained acceptance must contact the Office of Admissions to request a deferral of admission. A student may request a deferral for up to one year, unless otherwise noted for specific programs. Check with the Office of Admissions for more information.

If a student does not get approved for an acceptance deferral and does not begin their studies within two academic terms of acceptance into a program, they forfeit that acceptance and must reapply to the program for a future term. It is important for the student to inform the Office of Admissions about deferral requests as this may impact the student's time limit on program completion and financial aid.

### **Conditional Admission**

Students who have not submitted required admissions documents, such as official transcripts, prior to admission must do so within 30 days of the start of the academic term. A student who has been admitted on condition to provide admissions documents will not be permitted to register for a future term.

### **Curricular Requirements**

Admitted students are required to follow the program requirements that are in effect the term for which they have been admitted or, in the case of a formal deferral, the future term to which they have deferred. Students are encouraged to review the curricular requirements at the beginning of their start term to ensure they have the most up-to-date information.

The college reserves the right to rescind an offer of acceptance if the student is no longer considered in good academic or disciplinary standing between the time of acceptance and matriculation.

## Admission Requirements for Undergraduate Degrees and Certificates

Admissions requirements include the following:

- **Online application**
- **Academic transcripts**—submit one of the following:
  - Official high school transcript
  - Official GED
  - Official associate degree transcript, stating degree conferral and date
- **Transfer credit documents**—transfer students must submit the following:
  - Academic transcripts—official U.S. transcript from each institution you previously attended and from which you are requesting transfer credit
  - Foreign transcripts—official transcripts and English translation; we recommend you submit a course-by-course evaluation of your diploma(s) and transcript(s)
  - College-level examinations—official examination
  - Military evaluation
- **Proof of English-language proficiency**—students for whom English is not their primary language must submit one of the following:
  - Official associate degree transcript from an accredited college or university in the United States, stating degree conferral and date
  - Official TOEFL or IELTS scores
  - NU Global Exam scores
  - Pearson scores

Additional information regarding English-language proficiency test score requirements may be found on the English Language Requirements webpage (<http://www.cps.neu.edu/admissions/international/english-language-proficiency.php>).

## Seeking More Than One Certificate or Degree

An undergraduate student can be enrolled in only one undergraduate program at a time.

Undergraduate students seeking more than one certificate or degree after having completed a program should note that undergraduate credits earned toward:

1. A certificate earned at the College of Professional Studies may be used to satisfy the requirements of a bachelor's degree, if the contents are determined to be applicable per the program director.
2. A certificate earned at the College of Professional Studies may be used to satisfy the requirements of a second certificate with a cap of 6 credits, if the contents are determined to be applicable per the program director.
3. A bachelor's degree earned at the College of Professional Studies may be used to satisfy the requirements of a second bachelor's degree with a cap of 50% of the requirements for the second degree, if the contents are determined to be applicable per the program director.

## Transfer Credit Policy

The College of Professional Studies awards transfer credits for eligible courses completed successfully at regionally and programmatically accredited institutions. The Council for Higher Education Accreditation provides information about the organizations responsible for these two forms of accreditation. Official transcripts from all institutions should be sent directly to the College of Professional Studies Office of Admissions at the time of application.

Credits earned at institutions outside the United States are considered for transferability on a case-by-case basis. Students should submit an official English evaluation completed by an approved credential evaluator. Course descriptions and/or syllabi also should be translated into English and submitted to the College of Professional Studies Office of Admissions.

Once a new student has been accepted into a program, a major has been declared, and all official transcripts and/or exam results have been received, the College of Professional Studies Office of Registrar Operations conducts an official transfer credit evaluation within the first academic term. Students may be required to provide additional documentation for transfer credit evaluation.

The College of Professional Studies reserves the right to revise transfer credit awards due to course duplication, a student's change in program of study, or other reasons deemed necessary by the college.

Students who wish to transfer credits earned at the College of Professional Studies to another institution need to consult with that institution to determine eligibility.

For more information about transferring credit and the transfer credit award process, visit the College of Professional Studies Admissions webpage (<https://cps.northeastern.edu/admissions-aid/>).

### Undergraduate Transfer Credit

Undergraduate students who wish to make a request for transfer credits must provide an official academic transcript for credits earned at another institution and an official report of exam results for credits earned through college-level proficiency examinations.

Undergraduate transfer credit awards are granted on a case-by-case basis employing the following guidelines:

- The minimum course grade acceptable for transfer credit is C, or 2.000 on a 4.000 scale.
- Courses completed on a pass/fail scale are not eligible for transfer.
- Credits earned in science and technology courses are valid for a period of seven years. Science and technology courses completed more than seven years ago may be considered for transfer at the discretion of the program director. Courses successfully completed in other subject areas are not subject to timelines.
- Transfer credits also may be earned through:
  - Prior Learning Assessment
  - College-Level Examination Program
  - The Excelsior College Examination Program (formerly Regents College)
  - DANTES Examination Program of the Educational Testing Service
  - Advanced Placement Examination Program of the College Entrance Examination Board
- Credits earned from any college within Northeastern University other than the College of Professional Studies are granted under the following guidelines:
  - Minimum grade of a C–, or 1.667 on a 4.000 scale.
  - If the undergraduate transfer student is only transferring credits earned at another Northeastern college, they complete a minimum of 24 semester hours (residency) for a bachelor's degree at the College of Professional Studies.
- Students must complete at least 50% of the total credits required for a bachelor's degree at the College of Professional Studies.
- Students may transfer up to 6 semester hours toward an undergraduate certificate.
- In addition to exceptions for approved academic partnerships, an undergraduate student who is on active military duty may transfer up to 75% of the total credits required for an undergraduate certificate or degree at the College of Professional Studies.

### Prior Learning Assessment

Students may be eligible for PLA credit if they have accrued a foundation of knowledge and skills equivalent to the content of courses offered by the College of Professional Studies.

Awarded credits are incorporated into a student's degree plan as transfer credits and are subject to the university's residency requirement. PLA credit is limited to a maximum of 30 semester hours for undergraduate students. Acceptable credits for PLA review are determined from approved certificates, training, and a portfolio review of prior work experience. As part of the consideration for PLA credits, faculty will evaluate and map learning outcomes and achievement in alignment with New England Commission of Higher Education accreditation requirements.

Potential PLA credits should be considered and discussed as part of a student's transfer credits at the time of enrollment. Interested students should contact their academic advisor for more information.

## Academic and Student Resources

### Northeastern University Library

Website (<https://library.northeastern.edu>)  
617.373.8778

The Northeastern University Library serves the entire Northeastern community—in Boston, Oakland, across the global campus network, and online. The Library provides collections and services supporting research and teaching across disciplines. Its collections are extensive, with a large proportion available digitally. The Library's collections include more than 1 million e-books; almost 500,000 print titles; more than 150,000 licensed e-journals; and more than 200,000 streaming audio and visual titles. Access to print and electronic materials is provided through Scholar OneSearch, the Library's discovery platform. The Library's Archives and Special Collections hold historical records and publications of Northeastern and unique materials preserving the history of Boston's social movements, public infrastructure, neighborhoods, and natural environments.

Services provided by the Library include both on-site and online research help, the latter including 24/7 live chat with a reference librarian; subject-specialist librarians who provide in-depth consultation and research support for each academic program at the university; and an interlibrary loan system for providing materials not readily available at Northeastern. The Library actively supports the unique needs of graduate students in research and publishing through services such as citation management workshops, research data support, and digital scholarship services.

The Snell Library building in Boston is open to all Northeastern students, faculty, and staff. Spaces in the building include areas for group work and quiet individual study, with more than 30 group study rooms with whiteboards and plug-in displays for collaborative group work. Individual study rooms are also available for graduate students. The Library supports a range of creative activities and includes studios for audio recording, video production, and 3D printing.

F. W. Olin Library in Oakland is open to all Northeastern students, faculty, and staff, as well as Mills College and Northeastern University alumni and community members. The Library offers a collection of 200,000 volumes and other media supporting the curricular needs of the programs on the Oakland campus. Spaces in the building include areas for quiet study and group work, including reservable study rooms, a seminar room, and the student lounge. F. W. Olin Library houses special collections in the Elinor Raas Heller Rare Book Room. Oakland special collections include early printed books, contemporary fine press and artists' books, and the Mills College Archive.

---

### School of Law Library

Website (<https://law.northeastern.edu/library/>)  
617.373.3332

The School of Law Library, located on four floors in the Knowles Law Center, includes a comprehensive collection of U.S. legal materials in print and in electronic format. Of particular note is the library's collection in the areas of public interest law; international human rights law; and public health, death penalty issues, and progressive lawyering. More information can be found at the School of Law Library webpage (<https://law.northeastern.edu/library/>).

#### Office of Academic Advising

617.373.2400  
617.373.5545 (fax)  
[cps-adviser@northeastern.edu](mailto:cps-adviser@northeastern.edu)  
Website (<https://cps.northeastern.edu/academic-resources/advising/>)

The mission of the Office of Academic Advising is to provide comprehensive services to enable students to take ownership of their education and to make sound decisions and judgments that further their individual academic and professional success.

Each student accepted in a degree or certificate program has a designated career and academic coach who serves as the student's primary contact and partner at the university to work together toward the student's success by:

- Navigating curriculum/program requirements
- Planning a course load
- Choosing a major
- Determining the best path for degree completion
- Petitioning for transfer credit, course substitution, and course overloads
- Researching and locating resources that are important to the student

The Office of Academic Advising offers student enrichment opportunities throughout the year to satisfy educational, social, and networking desires/needs. For more information about the Office of Academic Advising, visit the College of Professional Studies website ([https://cps.northeastern.edu/about-the-college-of-professional-studies/academic-advising/#\\_ga=226549012719652719541676484190-17388489651533905991](https://cps.northeastern.edu/about-the-college-of-professional-studies/academic-advising/#_ga=226549012719652719541676484190-17388489651533905991)).

Students are encouraged to communicate regularly with their academic advisors.

## Tutoring Services

Website (<https://cps.northeastern.edu/academic-resources/tutoring-services/>)

Tutoring can benefit skilled professionals and beginning students alike. Whether you're struggling with organic chemistry, working on a long paper, or putting the finishing touches on a presentation, Northeastern University offers many opportunities for you to enhance your academic work and professional skills through free one-on-one academic support on and off campus.

## International Tutoring Center

617.373.2455

[globalss@northeastern.edu](mailto:globalss@northeastern.edu)

Website (<https://cps.northeastern.edu/academic-resources/global-student-success/international-tutoring/>)

Tutors provide high-quality ESL writing instruction and tutoring for international students who need assistance with papers, assignments, TOEFL writing, and research projects. Students can meet one-on-one with an ESL tutor for 50-minute appointments. This is a free service for Northeastern international students.

## The Writing Center

617.373.4549

Website (<http://www.northeastern.edu/writingcenter/>)

The Northeastern University Writing Center is open to any member of the Northeastern community and exists to help writers of any level, from any academic discipline, become better writers. There are many ways to enjoy our services. You can book in-person or virtual sessions with a WC consultant, send us your writing through our email submissions, or browse our online content and multimedia resources on Facebook and Pinterest.

## Career Services

617.373.2430

617.373.4231 (fax)

[careerservices@northeastern.edu](mailto:careerservices@northeastern.edu)

Website (<https://careers.northeastern.edu/>)

Career Services provides resources, guidance, and opportunities that help students and alumni with the following:

- Choose a major and explore career options that fit their unique attributes
- Make career decisions that will engage them in productive and fulfilling work
- Prepare for and conduct successful job searches
- Create meaningful and effective engagement with employers
- Contribute to meeting global and societal needs

Northeastern University's Career Services does not guarantee employment nor does it refer students to prospective employers regarding job openings.

## Disability Resource Center

617.373.2675

617.373.2730 (TTY)

617.373.7800 (fax)

Website (<http://www.northeastern.edu/drc/>)

The Disability Resource Center strives to create an environment in which all are empowered to make their unique contributions to the rich academic and social life of Northeastern University. Its staff takes a creative approach to assisting students who have disabilities or who are Deaf or hard of hearing by providing services that will enable them to succeed.

In accordance with federal laws and guidelines, services cannot be provided unless acceptable documentation is submitted to the DRC. Students must provide recent diagnostic documentation indicating that the disability substantially limits one or more major life activities. They must also register with the DRC and meet with a counselor.

Students who are disabled, Deaf, or hard of hearing are strongly encouraged to contact the DRC upon their acceptance to Northeastern. It is also most beneficial to schedule a meeting with a DRC counselor at least three months prior to arriving on campus in order to register and request services. Early contact with the center will allow enough time to assemble the required diagnostic documentation, register at the DRC, and set up services.

Services are individually tailored on a case-by-case basis to meet each student's needs. Support services are available for, but are not limited to, students with a documented diagnosis of learning disabilities, blindness or visual disabilities, mobility disabilities, deafness or hard-of-hearing disabilities, head injuries, psychiatric disorders, degenerative or chronic conditions, HIV-positive status or AIDS, and temporary disabilities.

The center's services include examination modification and accommodation; disability-related academic advising and course modification; note-taking services; readers and scribes; sign-language interpreters and transliterators; computer-aided, real-time information about classrooms' accessibility;

advising and referral services; campus orientations; acquisition of assistive listening devices, Braille materials, taped textbooks, and raised-line drawings; and assistive technology, such as the Reading Edge machine. The center also provides liaison, advocacy, and training services for faculty, staff, and administration and coordinates special-interest groups.

The DRC does not provide personal care assistance services; the center will provide referral to local PCA service agencies, such as the Boston Center for Independent Living (<http://bostoncil.org/>).

Northeastern does not offer transportation services; however, public transportation in greater Boston is run by the Massachusetts Bay Transportation Authority, which offers a curb-to-curb transportation service known as The RIDE for persons with disabilities. Several stops on the Orange Line branch of the MBTA subway system are very convenient to the Northeastern campus. Please visit the MBTA website (<http://www.mbta.com/>) for more information.

## University Health and Counseling Services

617.373.2772

[UHCS@northeastern.edu](mailto:UHCS@northeastern.edu)

Website (<http://www.northeastern.edu/uhcs/>)

The University Health and Counseling Services team is eager to serve you. We hope that you will use our center as a resource to help stay healthy, physically and mentally, and for care when you are ill or injured, depressed or stressed.

[Find@Northeastern.edu](mailto:Find@Northeastern.edu) (<https://www.northeastern.edu/uhcs/find-at-northeastern/>)

24/7 Mental Health Support

Support and resources that help you find yourself, your peace of mind, and your distinctive path.

617.373.7591

[wecare@northeastern.edu](mailto:wecare@northeastern.edu) ([we\\_care@northeastern.edu](mailto:we_care@northeastern.edu))

Website (<http://www.northeastern.edu/wecare/>)

We Care assists students who are experiencing unexpected challenges to maintain their academic progress. The staff works with students to coordinate among university offices, to offer appropriate referrals, and to help develop viable options to support their continued success at the university. We Care also provides guidance to faculty and staff in identifying Northeastern resources and policies to help students succeed.

## Center for Spirituality, Dialogue, and Service

617.373.2728

[csds@northeastern.edu](mailto:csds@northeastern.edu)

Website (<http://www.northeastern.edu/spirituallife/>)

The Center for Spirituality, Dialogue, and Service (<http://www.northeastern.edu/spirituallife/>) serves and supports the diverse spiritual, religious, and social justice commitments of all Northeastern University community members. The center is home to the Sacred Space (<http://www.northeastern.edu/spirituallife/our-spaces/sacred-space/>) (200 Ell Hall), a beautiful award-winning spiritual area for worship, private contemplation and reflection, group meetings, dialogue, yoga, meditation, service projects, and special events. The center also oversees the Social Justice Resource Center (<http://www.northeastern.edu/sjrc/>) (106 St. Stephen Street) and supports the Hillel Center (<http://www.northeasternhillel.org/>), The Foundation for Jewish Life (70 St. Stephen Street), and the Catholic Center (<http://www.nucatholics.neu.edu/>) (68 St. Stephen Street).

CSDS sponsors over 25 student organizations representing the world's spiritual, religious, and humanist traditions. The center builds partnerships across university departments and disciplines and with religious communities and public service agencies locally, nationally, and internationally to help students become engaged citizens, peace builders, and equipped as leaders to tackle pressing global problems. The work of the center is organized into two mutually reinforcing spheres:

- Sphere of Spirituality and Interfaith Engagement

- Offers students, faculty, and staff opportunities to explore their personal spirituality, diverse religious traditions, learn ethical reflection and decision making, and develop interfaith appreciation and competence

- Sphere of Service and Social Action—coordinated by the SJRC

- Serves as an inclusive hub of innovative justice-minded thinking, collaboration, and action that empowers students, faculty, and staff to help enact a society that is equitable and peaceful

For more information, visit the website (<http://www.northeastern.edu/spirituallife/>), call 617.373.2728, submit an email ([csds@northeastern.edu](mailto:csds@northeastern.edu)), or visit 203 Ell Hall.

## Office of Student Conduct and Conflict Resolution

617.373.4390

Website (<http://www.northeastern.edu/osccr/>)

The Office of Student Conduct and Conflict Resolution administers the Code of Student Conduct (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) and the student disciplinary process. The code establishes and defines university community expectations for standards of behavior and responsibility, as well as rights and remedies provided to all university community members. The office is also responsible for the design, development, and implementation of the university mediation program.

Programs and services provided by the Office of Student Conduct and Conflict Resolution are designed to support the academic mission of the university by enhancing each student's academic achievement and personal, ethical, and character development. These programs are intended to promote community standards of behavior; positive and productive conflict management and resolution; civility; respect for self; respect for others; and an appreciation for being a part of a diverse, flourishing community.

## Academic Calendar

The College of Professional Studies undergraduate programs are offered on a semester calendar consisting of three 15-week terms (with the option for half-term sessions offered in an accelerated format as well as a 7-week term in the summer).

For calendar details, please visit the Office of the University Registrar (<https://registrar.northeastern.edu/article/academic-calendar/>).

## Campus Resources

### Office of the University Registrar

617.373.2300

617.373.5360 (TTY)

Website (<http://www.northeastern.edu/registrar/>)

The Office of the University Registrar provides an important link between the university's academic programs and policies and the student. It administers a number of specific services including class scheduling, registration, record functions, verification of enrollment, reporting, transcript services, and Commencement.

The Office of the University Registrar utilizes the Student Hub (<https://me.northeastern.edu>) and public campus computers to provide students convenient access to information and services, including class schedules and registration, most recent grades, and unofficial transcripts. Additional information is available on the website (<http://www.northeastern.edu/registrar/>).

### Northeastern University Bookstore

617.373.2286

Website (<https://northeastern.bncollege.com/>)

The bookstore operates during the entire academic year, but days and hours may vary in accordance with the university's calendar.

Purchases can be made by cash, check, American Express, MasterCard, Visa, Discover, or Husky Card.

### Campus Recreation

617.373.4433

Website (<https://www.northeastern.edu/campusrec/>)

Exercise your body, mind, and spirit. The campus recreation program provides many outlets to help clear your mind and recharge your spirit. Our fitness facilities, unique among Boston-area colleges and universities, are open year-round. All programs were designed with you in mind, so whether you enjoy group fitness classes, ice hockey or street hockey, basketball, weight training, or swimming, Campus Recreation has something for everyone.

Full-time Northeastern University students, in good standing, have access to the Marino Recreation Center, Cabot Center, and the Badger and Rosen SquashBusters Center when they are enrolled in classes and co-op or scheduled for vacation and have paid the campus recreation fee. Part-time students, in good standing, will have access during any academic term in which they are enrolled and attending classes, as long as they have requested and paid the campus recreation fee. Help us maintain a safe and secure environment. Your Northeastern photo ID card must be a current, valid, and active card that needs to be swiped upon arrival in order to enter all facilities.

### Russell J. Call Children's Center

617.373.3929

The Russell J. Call Children's Center is available to faculty, staff, and students; children from two years and nine months to five years of age are eligible to attend.

The center is licensed by the Massachusetts Department of Early Education and Care and staffed by professional teachers and co-op and work-study students.

For more information, contact Regina Nazzaro, Director of the Children's Center, at 617.373.3929 or via email ([r.nazzaro@neu.edu](mailto:r.nazzaro@neu.edu)).

### Parking

617.373.2366

Website (<http://www.northeastern.edu/parking/>)

Parking spaces in the university lots and garages are filled on a first-come, first-served basis. To park in a university lot or garage, students must have a valid parking permit displayed on their vehicles. A parking permit does not guarantee a parking space.

New students may purchase a day parking permit. Only eligible students will receive a permit. To be eligible, students must be registered for a class or on co-op. The cost of the permit will be charged to the student's tuition account.

Overnight parking permits are limited, and preference is given to those students on co-op or clinical internships. Upperclass students in classes may be denied overnight parking due to limited availability.

Applications for term and overnight parking permits are available online (<https://www.applyweb.com/applyweb/>).

To park in a handicap space, individuals must purchase a parking decal and display a state-issued handicap license plate, placard, or hangtag. Handicap parking spaces are located throughout campus.

Operators of vehicles driven or parked on university property are responsible for knowing and complying with university driving and parking regulations.

Refer to the parking website for more information, or contact University Police at 617.373.2121.

### **John A. and Marcia E. Curry Student Center**

617.373.2663

Website (<http://www.northeastern.edu/curry/>)

This campus “living room” serves as a hub of student activity. It is the crossroads of community life at Northeastern, offering cultural, social, and recreational programs and services.

The center offers ATM machines, an art gallery, the afterHOURS late-night club, food court and cafeteria, game room, lounge space, meeting rooms, student organization offices, TTY machines, and WRBB-FM.

Student center facilities may be reserved by recognized student organizations and university departments. The university reserves the right to limit the use of its facilities when the general public is involved.

## Information for International Students

### Office of Global Services

Website (<http://www.northeastern.edu/ogs/>)

617.373.2310

617.373.8788 (fax)

The Office of Global Services provides advice and support services to over 20,000 international students and scholars who represent approximately 147 nations.

OGS serves as a "home away from home" for all international students and offers a wide array of **programs and services** to assist international students with their cultural adjustment, academic success, and professional growth. Throughout the year, OGS hosts cocurricular events that celebrate culture and the rich diversity of the campus. These events are encouraged as a way to gain familiarity with Northeastern University in a cross-cultural context while also facilitating the formation of friendships across cultures. OGS promotes meaningful interaction and intercultural understanding among citizens of all countries and their local peers, providing educational and cultural enrichment opportunities for all members of Northeastern. All students in the Northeastern community are welcome to participate in our events.

OGS provides **comprehensive immigration advising services** to assist international students in understanding the benefits and restrictions of being an international student, as governed by the federal immigration regulations set forth by the country of the student's study location within the Northeastern University Global Network. OGS advises students on the complexities of immigration compliance and interfaces with various government agencies.

During **international student orientation**, international students will receive an overview of the immigration compliance requirements along with information and resources to support academic success, student life, campus safety, and cultural adjustment.

During every required academic term, international students must maintain **full-time status and appropriate on-ground presence** at Northeastern to comply with federal immigration regulations. Note that timely registration for courses is especially important so that international students may remain in compliance with Northeastern's reporting requirements to the federal government about where they are studying. Because understanding federal regulations is complex and often nuanced, international students should consult with OGS if they have questions about their individual status.

OGS—United States (<https://international.northeastern.edu/ogs/student-support/global-campuses/canada/>)

Information for international students and scholars attending Northeastern in the United States, including I-20 (F-1) or DS-2019 (J-1) issuance, visa processing, general guidelines, orientation, events and programs, and support services. F-1 and J-1 students are encouraged to regularly review the guidelines on maintaining status (<https://international.northeastern.edu/ogs/current-students/understanding-visa-requirements/guidelines-on-maintaining-status/>).

OGS—Canada (<https://international.northeastern.edu/ogs/student-support/global-campuses/canada/>)

Information for international students attending the Northeastern program in Canada, including study permit compliance and extension, work eligibility, co-op work permit application, Post-Graduation Work Permit application, general guidelines, and support services.

Visa Immigration Compliance Team (<https://www.nulondon.ac.uk/study/international-students/visa/visasupport/>)—United Kingdom

The visa compliance team in London is committed to providing comprehensive support to international students throughout their CAS (Certificate of Acceptance for Studies) and UK student visa application processes. Their role encompasses assisting students in both pre- and postenrollment visa compliance activities.

The team also offers full support for an in-person enrollment on the first day at Northeastern University, London—which is a crucial process where the university verifies the information provided by international students and ensures their right to study in the UK. It is the university's responsibility to ensure that every international student possesses the correct visa to study in the UK. Once enrollment is successfully completed and all requested information is submitted, the visa compliance team issues a student ID card as a confirmation of the student's enrollment with Northeastern University, London.

The visa compliance team remains available throughout the student's enrollment life cycle to provide advice, guidance, and comprehensive support for any issues related to student visas. This includes addressing changes in program or any other matters related to visas or immigration, until the international student graduates.

### Housing

Students at Northeastern University College of Professional Studies are not eligible for on-campus housing at Northeastern. There are, however, a number of housing resources ([https://offcampus.sites.northeastern.edu/#\\_ga=27530702616185382701655137444-17388489651533905991](https://offcampus.sites.northeastern.edu/#_ga=27530702616185382701655137444-17388489651533905991)) students may consult if seeking off-campus housing.

## Information Technology Services

IT Services is the university's central group that provides technology services, solutions, and support to all Northeastern University students. Visit the Connect To Tech guide (<https://connect-to-tech.northeastern.edu/students/>) for information and key technology resources that are particularly helpful to students, including:

- Northeastern accounts
- Access to email
- Laptop recommendations and discounts
- Canvas learning management system
- Software such as Office 365 and Adobe Creative Cloud
- Frequently used websites and mobile apps

### Technology Support and IT Service Desk

Technology support is available 24/7 online or by phone and email. Walk-up support is available at the Tech Bar on the Boston and Oakland campuses. [G \(https://service.northeastern.edu/tech/?id=its\\_contact\\_us\)](https://service.northeastern.edu/tech/?id=its_contact_us) **et IT Support >**

[service.northeastern.edu/tech](https://service.northeastern.edu/tech) (<https://service.northeastern.edu/tech/>)

617.373.HELP [4357]

[help@northeastern.edu](mailto:help@northeastern.edu)

Visit the Tech Service Portal (<https://service.northeastern.edu/tech/>) to search for how-tos and FAQs, borrow a laptop or other equipment, start a live chat, and search other resources.

Occasionally, interruptions to university systems, services, and tools can happen—when they do, get updates about them through Northeastern's IT status page (<https://its.northeastern.edu/status/>).

## New Admitted Students Site

In addition to participating in New Student Orientation, students are strongly encouraged to review the New Admitted Students (<http://www.orientation.cps.northeastern.edu/>) site provided by the Office of Academic Advising.

This is a tool and resource intended to help new students prepare for their first term of enrollment, as well as provide information that students can reference throughout their time at Northeastern University and beyond. The site is organized with checklists students may use during different points in their academic career.

## New Student Orientation (On-Ground and Online)

New students taking courses on-ground receive an invitation to the on-ground orientation, which typically takes place in the week before the term begins. The purpose of New Student Orientation is to provide information and tools for each student's success from the point of program entry to degree completion. Some parts of the orientation may be virtual.

Each regional campus has their own on-ground orientation.

All new on-campus students are expected to attend the on-ground orientation. If students cannot attend the on-ground orientation, they should thoroughly review the New Admitted Students (<http://www.orientation.cps.northeastern.edu/>) site and any virtual/recorded parts of the orientation.

Online students should thoroughly review the New Admitted Students (<http://www.orientation.cps.northeastern.edu/>) site, as well as the Online Orientation Module ([https://rise.articulate.com/share/V3mBBz5B01T4O\\_RfYWT-0c-vNI958kUi/#/](https://rise.articulate.com/share/V3mBBz5B01T4O_RfYWT-0c-vNI958kUi/#/)).

International students are also expected to attend a separate orientation with the Office of Global Services (<https://international.northeastern.edu/ogs/>).

## Office of the University Registrar

The Office of the University Registrar provides an important link between the university's academic programs and policies and the student. It administers a number of specific services, including class scheduling, registration, record functions, verification of enrollment, reporting, and transcript services.

The Office of the University Registrar utilizes the Student Hub (<https://me.northeastern.edu/>) to provide students convenient access to information and services, including class schedules and registration, most recent grades, unofficial transcripts, and transcript and enrollment verification requests.

Office of the University Registrar website (<https://registrar.northeastern.edu/>)

registrar@northeastern.edu

617.373.2300

617.373.5351 (fax)

### Maintenance of Student Records

The Office of the University Registrar is responsible for ensuring appropriate maintenance and safekeeping of student records. The transcript, which is stored electronically and maintained indefinitely, is the holistic record of student attendance and degree progress. In the event that the university discontinues operations, the archive of student records would be maintained by:

Massachusetts Department of Higher Education

One Ashburton Place

Room 1401

Boston, MA 02108

## Public Safety

### Northeastern University Police Department

100 Columbus Place  
 617.373.3333 (EMERGENCY—police, fire, medical)  
 617.373.3934 (TTY emergency or nonemergency)  
 617.373.2121 (nonemergency regular business)

Website (<https://nupd.northeastern.edu/>)

*Public Safety Division Administrative Offices*  
 617.373.2696

*Personal Safety*  
 617.373.2121

The Public Safety Division is committed to working with Northeastern University faculty, students, staff, and neighbors to build relationships and keep our campus thriving. Our work extends far beyond Boston, as we support learners in their academic and experiential endeavors around the world. The Public Safety Division is comprised of three sections: Police Department, Emergency Management, and International Safety.

The Northeastern University Police Department (<https://nupd.northeastern.edu/>) is a full-service and accredited police agency that comprises patrol and investigative divisions providing 24-hour service. NUPD has developed robust crime-detection and prevention strategies centered on technology and campus community engagement. Our well-trained officers are ready and willing to assist all members of our community.

A personal safety escort (<https://nupd.northeastern.edu/our-services/safety-escort-services/>) can be provided from one on-campus location to another, any time of day, whenever personal safety is a concern. You'll need to provide your name, Northeastern ID number, and location. Safety escorts usually arrive in 10 to 15 minutes. A special, nighttime off-campus escort service, called the RedEye, runs from dusk to dawn to transport students to their residence within two miles from the center of campus. Every night from 7 p.m. until 6 a.m., the RedEye van will pick students up at the Snell Library. In order to use this escort, you must book a ride in advance using the RedEye app, or you can book a ride at the RedEye dispatch center located at the Northeast Security office in the Ruggles Substation.

SafeZone (<https://nupd.northeastern.edu/safezone/>) is a mobile safety app that is unique to Northeastern. SafeZone is a smartphone app that any student or staff member can download and use for free. This app will connect you directly to the NUPD should you need our assistance or emergency support while you are on campus.

NUPD encourages you to not only familiarize yourself with all of the services provided by NUPD but to also utilize the services and safety-related tips provided. If you see something that does not look or feel right, NUPD encourages you to say something by contacting NUPD at 617.373.2121 or utilizing the SafeZone app.

#### **LOST AND FOUND ([HTTPS://NUPD.NORTHEASTERN.EDU/OUR-SERVICES/LOST-AND-FOUND/](https://nupd.northeastern.edu/our-services/lost-and-found/))**

If you have lost an item on Northeastern's Boston campus, call 617.373.3913. If your item has been turned in, we will contact you by telephone or email. If you have found an item on campus, return it to our headquarters located at 100 Columbus Place. If you suspect the item has been stolen, call the NUPD at 617.373.2121 to report the theft.

#### **UNIVERSITY EMERGENCY INFORMATION ([HTTP://WWW.NORTHEASTERN.EDU/EMERGENCY/](http://www.northeastern.edu/emergency/))**

617.373.2000 (snow emergencies)  
 617.373.3333 (police, medical, or fire emergencies)

Northeastern is committed to providing members of its community with a safe and secure place in which to live, work, and study.

The university is prepared to respond to emergencies and urgent situations that require immediate action. A trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals form a coordinated group that is able to manage a wide range of potential situations.

NU Alert, emergency broadcast communication messages, are sent to the email addresses and telephone numbers students, faculty, and staff have provided the university. For more information on NU Alert and Emergency Planning, visit the NUPD website (<https://nupd.northeastern.edu/safety/emergency-planning/>).

## We Care

617.373.7591

wecare@northeastern.edu (we\_care@northeastern.edu)

Website (<http://www.northeastern.edu/wecare/>)

We Care assists students who are experiencing unexpected challenges to maintain their academic progress. The staff works with students to coordinate among university offices, to offer appropriate referrals, and to help develop viable options to support their continued success at the university. We Care also provides guidance to faculty and staff in identifying Northeastern resources and policies to help students succeed.

## Financial Information

- Bill Payment (p. 27)
- Delivery of Services (p. 30)
- Financial Aid Assistance (p. 31)
- General Financial Aid Policies and Procedures (p. 33)
- Northeastern University Student Health Plan (NUSHP) (p. 35)
- Tuition and Fees (p. 36)

## Bill Payment

### Office of Student Financial Services

617.373.2270

617.373.8735 (fax)

studentaccounts@northeastern.edu

Full payment of tuition and other related charges is due prior to the start of the term as specified on the original bill. For questions related to overload charges, the billing process, late fees, payment methods, tuition payment plan, and refunds, contact us at the above phone and email address.

### E-Bill

Tuition bills are only generated electronically and are available via the Student Hub (<https://me.northeastern.edu>). Paper bills are not generated. For additional information regarding the e-bill, please visit the Billing & Payments Frequently Asked Questions webpage (<https://studentfinance.northeastern.edu/billing-payments/billing-faq/>).

### Payment of Tuition

Payments will be accepted for billed charges only. The university is not able to process payments for more than the balance due on the student's account. Please note, a past-due balance may result in late fees, prevention of registration, prevention of grade release, prevention of participation in global study programs, or withdrawal from the university.

Accepted methods of payment are:

- **Electronic check and credit card:** Electronic check payments can be made online via NUPay on the Student Hub. Credit card payments can be made via the CIBC link on the Student Hub. Visa and Mastercard are accepted.
- **International payments using Flywire:** Northeastern University has partnered with Flywire and CIBC to streamline the international wire payment process to the university. This service provides students and their families a safe, cost-effective, and convenient method of making payments to Northeastern in foreign currencies. To learn more about international payments through Flywire and CIBC, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/payment-methods/>).
- **Monthly payment plan:** The monthly payment plan, administered through Flywire, allows students to divide costs into more manageable installments. For additional information, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).
- **Supplemental loans:** There are a number of supplemental educational loan programs available to assist students and families in financing their education. Review options at the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).

For additional information regarding available payment and financing options, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/>).

### Student Financial Responsibility Agreement

As compelled by federal law, all students who enroll in classes at Northeastern are required to complete and accept the Student Financial Responsibility Agreement (<https://studentfinance.northeastern.edu/billing-payments/sfra/>). This agreement must be completed once per academic year and is located on the Student Hub. Failure to complete the SFRA will result in a hold that prevents attendance.

### Northeastern's Monthly Payment Plan

Northeastern offers a monthly payment plan, administered through Flywire, which allows students to divide their educational costs into smaller, more manageable installments. For additional information, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).

### Tuition Reimbursement

Many companies, embassies, and agencies directly reimburse students for their educational expenses upon successful completion of courses. In these situations, the student is responsible for paying the bill in full at the beginning of the term or selecting another payment option. Tuition may not be left unpaid pending reimbursement by a third party. Check with your human resources department to see if you qualify.

If your company requires an official transcript to process the tuition reimbursement, you may request your transcript (<https://registrar.northeastern.edu/article/transcript-requests/>) through the Office of the University Registrar. Transcripts should be requested prior to the due date on your initial billing statement. Should there be a balance due on your account after the due date, your account may be subject to holds and a transcript will not be available until the balance due is resolved.

### Tuition Remission/Third-Party Payer

When a third party pays tuition directly to the university, the student must provide the Office of Student Accounts with a purchase order, or a written statement of intent to pay by the third party, prior to the first week of classes. If there are stipulations associated with the payment agreement, such as a minimum grade level, then the student must either pay the university directly or enroll in one of the payment options.

Documents pertaining to a third-party agreement can be emailed to [thirdparty@northeastern.edu](mailto:thirdparty@northeastern.edu), faxed to 617.373.8735, or mailed to the address below:

Student Financial Services  
Northeastern University  
ATTN: Third-Party Billing  
354 Richards Hall  
360 Huntington Ave  
Boston, MA 02115

## VA Education Benefits

In accordance with Title 38 USC 3679 (e), covered individuals utilizing Chapter 31 or Chapter 33 education benefits at Northeastern University will not have any penalty imposed on their account nor will they be required to take out additional funding due to pending or late payments from the Department of Veterans Affairs as long as the Dolce Center for the Advancement of Veterans and Servicemembers has a current Certificate of Eligibility or VRE Authorization on file AND a Request for VA Benefit Certification is submitted through the Student Hub (<https://me.northeastern.edu>) portal.

COEs must be submitted before the start of the student's first term but do not need to be resubmitted unless entitlement information changes. Students are also required to complete the Request for VA Benefit Certification form through the Student Hub (<https://me.northeastern.edu>) portal before the start of each term they wish to use VA benefits. Students may have a hold placed on the account if there is an outstanding balance after payment from the VA is received by Northeastern.

## Discrepancies in Your Bill

Discrepancies in your bill should be addressed in writing via email ([studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu)) to the Office of Student Financial Services. Include your name, Northeastern ID, permanent home billing address, Northeastern email address, dollar amount in question, date of invoice, and any other relevant information.

Responses will be sent to the student's Northeastern email address. If there is a discrepancy in your bill, pay the undisputed part of the bill to avoid responsibility for any late fees or financial holds.

## Late Fees

Late fees can be placed on accounts any time after the due date if the account remains fully or partially unpaid. The university typically waits, however, until after the conclusion of the add/drop period, for the specified semester, prior to assessment of late fees. These fees are based on the amount past due at the time of assessment and can range from \$75 to \$200. Late fees are assessed once per term.

If a student or payer wishes to dispute a late fee assessment, they must do so, in writing, to [studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu). Please be sure to include the student's name, Northeastern ID, and reason for the dispute in the email.

## Refund Policies

To be eligible for a refund, a student must drop their course(s) before the course drop deadline. There is no partial tuition refund or credit. Once the course drop date passes, the student is responsible for 100% of tuition and associated charges. Refer to the academic calendar (<https://registrar.northeastern.edu/group/calendar/>) for course registration dates. Credit balances will be refunded to the student unless otherwise directed by the student or the bill payer. Note the following exceptions:

- **Payment plans, Parent PLUS Loans, and supplemental loans:** Credit balances created from Parent PLUS Loans, supplemental loans, or overpayment to the monthly payment plan will be refunded to the bill payer on record unless a completed Refund Authorization form (<https://studentfinance.northeastern.edu/forms/>), stating that funds may be released directly to the student, is received from that borrower. Please note that anticipated credits are funds that have not been received by the university and, therefore, cannot be refunded.
- **International payments:** Credit balances created from an international payment must be returned to the originating bank by the payment method used.
- **Credit cards:** Credit balances created from an overpayment with a credit card must be returned to the credit card used at the time of payment.

## Official Withdrawal Adjustments

Students who officially withdraw, either from a course or from the university, during an academic term will receive a tuition refund based on the policy specified in this catalog. Institutional funds awarded by Northeastern will be adjusted based on the actual charges incurred during the term. Funds from federal Title IV programs will be returned to the government according to federal regulations. The federal government Return of Funds Policy dictates that a student's eligibility for federal financial aid is determined by the number of days enrolled during the term. The refund will be calculated from the day the student submits a notification of withdrawal to the Office of the University Registrar.

Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the schedule described below.

### **Fifteen-Week and Seven-Week Courses**

The College of Professional Studies will permit students to drop a 15-week and 7-week course within 14 days from the start of the term in Eastern Standard Time and receive a 100% refund. After the 14th day of the term, any student seeking to withdraw from a 15-week or 7-week course will be ineligible for a refund. Should a student decide to withdraw from a course, they are expected to do so via the Student Hub. For specific dates in each term, refer to the academic calendar (<https://registrar.northeastern.edu/group/calendar/>).

Students who experience difficulty adding, dropping, or withdrawing from a course should promptly email ([registrar@northeastern.edu](mailto:registrar@northeastern.edu)) the Office of the University Registrar. If it is determined that there is an issue with Student Hub access, they need to contact the Service Desk at the following:

617.373.4357 (HELP)  
[help@northeastern.edu](mailto:help@northeastern.edu)  
 Information Technology Services (<https://its.northeastern.edu/>)

Students with holds (e.g., financial, judicial) may have restricted access to add, drop, or withdraw from a course. In such instances, students are responsible for resolving the hold immediately and to meet the established course registration deadlines.

### **Courses Meeting for One Week or Less**

With the exception of Education Summer Institutes and one-day courses, the College of Professional Studies will permit students to drop a course meeting for one week or less through the first day of the course in Eastern Standard Time and receive a 100% refund. After the first day of the course, any student seeking to withdraw from an intensive course meeting for one week or less will be ineligible for a refund.

Students who experience difficulty adding, dropping, or withdrawing from a course should promptly email ([registrar@northeastern.edu](mailto:registrar@northeastern.edu)) the Office of the University Registrar. If it is determined that there is an issue with Student Hub access, they need to contact the Service Desk at the following:

617.373.4357 (HELP)  
[help@northeastern.edu](mailto:help@northeastern.edu)  
 Information Technology Services (<https://its.northeastern.edu/>)

Students with holds (e.g., financial, judicial) may have restricted access to add, drop, or withdraw from a course. In such instances, students are responsible for resolving the hold immediately and to meet the established course registration deadlines.

*Note:* Nonattendance does not constitute official course dropping or withdrawal. A student who registers for a course, completes the “I Am Here” process, or begins attendance and does not officially drop from the course before the deadline is responsible for paying 100% of the tuition charges and applicable fees. A student in this situation may earn an F grade that will be part of the student’s permanent academic record.

Like all grades for courses attempted and/or completed, a grade earned due to nonattendance impacts a student’s academic progression, an international student’s visa eligibility, and a federal financial aid recipient’s aid eligibility and award.

## Delivery of Services

Northeastern University assumes no liability for delay or failure to provide educational or other services or facilities due to causes beyond its reasonable control. Causes include, without limitation, power failure, fire, strikes by university employees or others, damage by natural elements, and acts of public authorities. The university will, however, exert reasonable efforts, when it judges them to be appropriate, to provide comparable services, facilities, or performance; but its inability or failure to do so shall not subject the university to liability.

In the event that Northeastern determines it must suspend or alter its operations in whole or in part due to epidemic, pandemic, other public health emergency, extreme weather, natural disaster, acts or threatened acts of terrorism or war, or any single act or combination of events beyond the university's control, Northeastern may suspend, reduce, terminate and/or modify its operations in whole or in part, which may or may not include offering online or other alternative learning options, in its discretion. In any such event, Northeastern is under no obligation to refund or credit any portion of tuition, fees, or other charges paid or owed, but it may do so in its discretion.

Northeastern reserves the sole right to promulgate and change rules and regulations and to make changes of any nature in its program; calendar; admissions policies, procedures, and standards; degree requirements; fees; and academic schedule whenever necessary or desirable, including, without limitation, changes in course content and class schedule, the cancellation of scheduled classes and other academic activities, and the substitution of alternatives for scheduled classes and other academic activities. In any such case, the university will give whatever notice is reasonably practical.

Northeastern will endeavor to make available to its students a fine education and a stimulating and congenial environment. However, the quality and rate of progress of an individual's academic career and professional advancement upon completion of a degree or program are largely dependent on the individual's own abilities, commitment, and effort. In many professions and occupations, there are also requirements imposed by federal and state statutes and regulatory agencies for certification or entry into a particular field. These requirements may change while a student is enrolled in a program and may vary from state to state or country to country. Although the university stands ready to help its students find out about requirements and changes in them, it is the student's responsibility to initiate the inquiry.

## Financial Aid Assistance

### Student Financial Services

617.373.2897 (College of Professional Studies)

617.373.5714 (TTY)

sfs@northeastern.edu (cpsfs@northeastern.edu)

studentfinance.northeastern.edu (<https://studentfinance.northeastern.edu/>)

Northeastern University is committed to assisting students in developing a plan for financing their Northeastern education. Through a variety of options—including federal financial aid, Northeastern's monthly payment plan, supplemental loans, and your own resources—a plan can be designed that will make your education costs affordable.

### Federal Financial Aid

To apply for federal financial aid programs, students must submit the Free Application for Federal Student Aid (<https://studentaid.gov/h/apply-for-aid/fafsa/>) annually and include Northeastern's FAFSA school code, 002199. To electronically sign your FAFSA, you will need an FSA ID. If you do not have one or have forgotten your FSA ID, visit the Federal Student Aid website (<https://studentaid.gov/apply-for-aid/fafsa/filling-out/>) to obtain one before starting the FAFSA online.

Students must meet the following criteria to be eligible for federal financial aid:

- Be enrolled in at least 6 credits, applicable toward a degree-granting program, per term, unless you are enrolled in a full-time or part-time stand-alone course  
*Note:* Although some programs may consider students enrolled in 4 credits to have half-time status, in order to qualify for federal financial aid, students must be enrolled in a minimum of 6 credits.
- Be a U.S. citizen or eligible noncitizen
- Be matriculated in a degree-granting program

*Please note that students in certificate and nondegree programs are not eligible for federal financial aid.*

- Have received a high school diploma or GED and be able to document upon request
- Be registered with Selective Service (if required)
- Not be convicted of a drug-related crime in the last year
- Not be in default from previous student loans
- Maintain satisfactory academic progress (<https://studentfinance.northeastern.edu/policies-procedures/satisfactory-academic-progress/>)

### Awarding Timelines

For information regarding your financial aid status, visit the Student Hub (<https://me.northeastern.edu>).

New students are awarded on an ongoing basis after we have been notified that they have been admitted into their program. Awarding will commence as detailed below, and award notifications for new students will be sent to the email address provided during the admissions process.

Term of Entry	Earliest Award Availability
Fall	July
Spring	October
Summer	May

Award notifications for returning students will be available beginning in June and will be sent to their Northeastern email address.

### Federal Loans

All students eligible to receive federal financial aid are awarded a Federal Direct Loan, provided they have not exhausted aggregate loan maximums. Eligibility for a need-based Federal Direct Loan is determined by the information provided on the FAFSA and academic level. Students **must be registered** for at least 6 credits each term to be eligible for a federal loan. Additionally, all credits taken must count toward their current degree program for students to be eligible for federal financial aid.

### Supplemental Student Loans

There are a number of educational loan programs available to assist students in covering their expenses over and above any federal financial aid that may be awarded to them from the Office of Student Financial Services. Most private lenders have credit and income requirements that must be met before being approved for these programs.

Additional information regarding supplemental loans is available on the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>). The Office of Student Financial Services recommends to students that, when researching the loan and lender

that best meets their needs, they make sure they take into consideration the interest rate; the quality of customer service; the amount needed for borrowing; as well as origination, disbursement, and/or repayment fees.

## General Financial Aid Policies and Procedures

### Financial Aid Policies

Student Financial Services reserves the right to adjust a student's initial offer of assistance based upon information brought to the office's attention subsequent to extension of the offer, including the receipt of outside scholarships or revised family financial data.

### Return of Title IV Funds

Northeastern University is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a term. Recalculation is based on the percentage of earned aid using the Federal Return of Title IV funds formula. Federal regulations require students to obtain at least an A, B, C, D, or S in at least one course for the term; students who receive all unsuccessful grades for a term (F, NE, W, I, U) may be considered unofficially withdrawn from the term and subject to an aid recalculation, including the possible loss of financial aid for that term.

### Satisfactory Academic Progress (SAP)

To continue receiving financial aid, undergraduate students must have a 2.000 grade-point average and have earned academic credit in 67% of the courses attempted. SAP will be evaluated once per academic year. Refer to the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/satisfactory-academic-progress/>) for more information about how satisfactory progress affects financial aid.

### Change in Enrollment Status

Students must notify the Office of Student Financial Services about any changes to their enrollment, whether due to withdrawal from a class, a leave of absence, a change in coursework, or withdrawal from the university. Students should be aware that any change in enrollment status may result in the loss of all or part of their federal and/or institutional aid eligibility. It is the student's responsibility to notify the Office of Student Financial Services about any change in enrollment status and understand the ramifications of such changes.

It is highly recommended that whenever possible, students discuss the impact of such changes with the Office of Student Financial Services before making them.

### Unusual Enrollment

Some FAFSA applications will be flagged for "unusual enrollment history" by the U.S Department of Education as a result of the student having received Federal Pell Grants or Federal Direct Loans at multiple institutions in recent years. These files will need to be reviewed by the Office of Student Financial Services; if necessary, additional documentation may be required. We will not be able to award students with federal financial aid assistance until the unusual enrollment history has been resolved.

### Ability to Benefit

In general, students who have received a high school diploma, GED, associate degree, or higher may be eligible for federal financial aid assistance. As a part of the application process, students will have to document receipt of one of these credentials in order to be admitted into the College of Professional Studies. If appropriate documentation was not provided during the admission process, our office will request proof of high school diploma, GED, or college degree. Aid cannot be disbursed until this process is completed.

### Appeal/Change in Circumstances

If the student feels that the aid process does not accurately reflect their situation, or if family circumstances change during the year, the student should notify the Office of Student Financial Services for further evaluation. Additional documentation might be requested to substantiate a change in financial circumstances.

### Outside Sources of Aid

Students must notify the Office of Student Financial Services of any aid received from outside sources, such as scholarships. Receipt of outside sources of financial aid may require that financial aid offered by Northeastern be adjusted.

### Military Tuition Rate

Undergraduate students who are enrolled in a bachelor's completion program through the College of Professional Studies and are actively serving in the U.S. military, or the current spouse of an active servicemember, will be eligible for a special Military Tuition Rate of \$250 per semester hour. Students receiving the Military Tuition Rate are required to recertify their status as actively serving in the U.S. military (or their spousal eligibility) on a yearly basis. Students who fail to complete the yearly recertification process by the end of the add/drop period of the fall semester will be assessed the standard CPS undergraduate per-semester-hour tuition rate. The full policy and eligibility requirements can be found at the university's support site for U.S. military-affiliated students (<https://military.northeastern.edu/fund-your-education/>).

### Reapplication Process

Students must reapply for financial aid each year by filing the FAFSA (<https://studentaid.gov/h/apply-for-aid/fafsa/>).

### **Verification**

If a student is selected for verification (<https://studentfinance.northeastern.edu/federal-verification-process/>), the Office of Student Financial Services may be required to collect tax transcripts and other financial documents to verify the information provided on the FAFSA. We will not be able to award students with federal financial aid assistance until this process has been completed.

## Northeastern University Student Health Plan (NUSHP)

### GENERAL INFORMATION

Since September 1989, Massachusetts law (M.G.L. c.15A, § 18) has required every full-time and part-time student enrolled in a certificate, diploma, or degree-granting program in a Massachusetts institution of higher learning to participate in a Student Health Plan or in a health benefit plan with comparable coverage.

The Northeastern University Student Health Plan defines a full-time student as having full-time student status and enrolled in any amount of credits of a full-time curriculum.

NUSHP defines a part-time student as having part-time student status and enrolled in at least 75% of credits of the full-time curriculum (CPS undergraduate students—9 credits, CPS graduate students—6 credits).

The health fee is assessed each term on a student's account based on these definitions unless the student has previously waived the health plan fee in the current academic year.

Students on co-op or on study abroad are considered active students and will be enrolled in and billed for NUSHP each year.

Students enrolled in prematriculation and online programs are not eligible for NUSHP.

### HEALTH INSURANCE WAIVER

Eligible students are automatically enrolled in NUSHP each academic year and may waive NUSHP via the Student Hub (<https://me.northeastern.edu>) once they have been billed for NUSHP. In addition, to be eligible to waive, comparable coverage must be effective from the beginning of the term the student meets Student Health Program requirements.

The burden of proof that the alternative insurance is adequate falls upon the student choosing to waive. By submitting the waiver form, the student will be accepting responsibility for all medical expenses incurred, and neither Northeastern University nor its Student Health Plan will be responsible for these expenses.

Northeastern reserves the right to verify that the student's insurance meets the criteria indicated. Disciplinary action may be taken if a student knowingly waives NUSHP without comparable coverage.

Visit the NUSHP website (<https://www.northeastern.edu/nushp/>) for waiver deadlines.

## Tuition and Fees

Your total tuition due for the semester is dependent upon the total number of credit hours in which you are enrolled. Course tuition is assessed just prior to the start of each class. Fees typically are assessed each semester.

To calculate the total tuition for an individual class, you would multiply the total number of credit hours for the course by the cost per credit hour.

**Example:** The 2023–2024 tuition for an on-campus undergraduate class that is 3 semester hours is  $\$541 \times 3 = \$1,623$ .

Please note the different price structure for different types of courses, e.g., lecture vs. lab.

### College of Professional Studies Undergraduate Tuition Rates (2023–2024)

These tuition rates are for the 2023–2024 academic year, which begins with the fall 2023 semester. For a complete listing of tuition and fee rates, visit the College of Professional Studies website (<https://cps.northeastern.edu/tuition-financial-aid/>). Tuition and fees are subject to revision by the president and Board of Trustees at any time.

Course Type	Tuition per Credit Hour
Undergraduate CPS course	\$541
Lab course (science lab or writing lab)	\$781

### Fees

- **Campus Recreation Fee:** An \$18 per semester campus recreation fee will be assessed for all students at Northeastern University's Boston Huntington Avenue campus. This fee covers admission to home athletic events, use of the Marino Fitness Center, SquashBusters athletic facility, and the Cabot Gym (fitness and pool). This fee will also support the maintenance of existing athletic fields and facilities.

### Military Tuition Rate

Undergraduate students who are enrolled in a bachelor's completion program through the College of Professional Studies and are actively serving in the U.S. military, or the current spouse of an active servicemember, will be eligible for a special Military Tuition Rate of \$250 per semester hour. Students receiving the Military Tuition Rate are required to recertify their status as actively serving in the U.S. military (or their spousal eligibility) on a yearly basis. Students who fail to complete the yearly recertification process by the end of the add/drop period of the fall semester will be assessed the standard CPS undergraduate per-credit tuition rate. The full policy and eligibility requirements can be found at the university's support site for U.S. military-affiliated students (<https://military.northeastern.edu/fund-your-education/>).

## Academic Policies and Procedures

### Universitywide Academic Policies and Procedures

- Accommodations for Students with Disabilities (p. 38)
- Attendance Requirements (p. 39)
- Campus Transfer and Campus Location Change (p. 40)
- Clearing an Academic Deficiency (p. 41)
- Code of Student Conduct (p. 42)
- Course Credit Guidelines (p. 43)
- Course Numbering System (p. 44)
- Family Educational Rights and Privacy Act (FERPA) (p. 45)
- Grade Change Policy (p. 47)
- Grade Table and GPA (p. 48)
- Leaves of Absence and University Withdrawal (p. 50)
- Personal Information (p. 53)
- Requesting and Clearing An Incomplete Grade (p. 54)
- Retaking Courses (p. 55)
- Student Bill of Academic Rights and Responsibilities (p. 56)
- Student Responsibility Statement (p. 59)
- Student Right-to-Know Act (p. 60)
- Substituting Courses (p. 61)
- University-Sponsored Travel (p. 62)

### CPS Undergraduate Academic Policies and Procedures

- Academic and Research Integrity (p. 63)
- Academic Appeals Policies and Procedures (p. 64)
- Academic Honors (p. 66)
- Academic Progression Standards (p. 67)
- Appropriate Use of Computer and Network Resources Policy (p. 68)
- Attendance Verification (p. 69)
- Completing Program Requirements (p. 70)
- Cooperative Education (p. 71)
- Degrees, Majors, and Minors (p. 73)
- Full-Time Status (p. 74)
- Global Partnership Programs (p. 75)
- Graduation Requirements (p. 76)
- Readmission to Program (p. 77)
- Reentry to Program (p. 78)
- Registration and Taking Courses (p. 79)
- Reinstatement after Academic Dismissal (p. 82)
- Seeking More Than One Certificate or Degree (p. 9)
- Student Evaluation of Courses (p. 84)

## Accommodations for Students with Disabilities

617.373.2675

617.373.7800 (fax)

Website (<http://www.northeastern.edu/drc/>)

Northeastern University and the Disability Resource Center are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that substantiates a disability and demonstrates a current significant limitation. Accommodations are provided based on an evaluation of the information provided by students, and their clinicians, on a case-by-case basis. These services are available for, but not limited to, students with the following diagnoses:

- Learning disabilities and/or ADHD
- Autism spectrum disorders
- Chronic or degenerative disorders
- Hearing loss
- Mobility impairments
- Psychiatric disorders
- Traumatic or acquired brain injury
- Vision impairments

Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. Visit the DRC website (<http://www.northeastern.edu/drc/>) for additional information or contact staff at 617.373.2675.

## Attendance Requirements

Class participation is essential to success no matter the course format or its delivery. Individual instructors may have course-specific attendance policies. It is the student's responsibility to ascertain what each instructor requires. Failure to meet attendance requirements may force a student to drop the applicable courses. Students should not make conflicting commitments until the class schedules for each semester are final. Permission to make up work may be granted by instructors for reasonable cause. Requests must be made immediately upon a student's return to class. Laboratory work can be made up only during the hours of regularly scheduled instruction.

### Absence Because of University-Sponsored Activities

Participation in university-sponsored activities, where the students are representing their university, college, or department, may cause absences from class that qualify as excused absences. Excused absences, with appropriate prior arrangement, are not subject to penalty, and missed work may be satisfied through agreement between the student and the instructor. University-sponsored activities that may justify excused absences include athletic competition, performing arts events, and research or other presentations.

Students must discuss absence(s) with instructors at least two weeks in advance of the university-sponsored activity, or as soon as possible if the activity is at the beginning of the term or is the result of an unforeseen circumstance. Instructors may require a written statement from the administrator in charge of the activity. Instructors are expected to make reasonable accommodations for these class absences, including administration of makeup assignments and exams whenever possible. It is expected that students seeking an excused absence will develop a plan and timetable to make up the missed coursework with their instructor(s). Note, however, that the requirements of some courses or programs may preclude such accommodations.

### Absence Because of Religious Beliefs

Any student who is unable, because of their religious beliefs, to attend classes or to participate in any examination, study, or work requirement should be provided with an opportunity to make up such examination, study, or work requirement that they may have missed because of such absence on any particular day, provided that such makeup examination or work does not create an unreasonable burden upon the university. Students should make appropriate arrangements with the instructor in advance of the absence, preferably at least two weeks before the religious observance.

### Absence Because of Jury Duty

Members of the university community are expected to fulfill their obligations to serve on a jury if called upon. A student selected for jury duty should inform their instructors. They will provide a reasonable substitute or compensatory opportunities for any required work missed. A student with such an absence will not be penalized in any way.

### Absence Because of Military Deployment

See "Leave of Absence Due to Military Deployment (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/leaves-of-absence-withdrawal/#military>)."

### Other Absences

Unforeseen events or circumstances, including illness, may cause a student to be absent from class. Students must notify their instructors and academic advisor, as appropriate, as soon as possible to apprise them of the circumstances leading to their absence, as well as how much time will be missed. Students must work with their instructors to develop a plan, with a timetable, to make up missed coursework. Students cannot be required to provide medical documentation. (Faculty and students should note that the University Health and Counseling Services does not provide sick notes or medical excuses except for long-term illness.) Instructors are expected to make reasonable accommodations for warranted class absences, including administration of makeup assignments and exams, whenever possible.

### Extended Absences

A student who is absent from school for an extended period of time must inform their academic advisor by letter, email, or telephone. The expected length of the absence may determine whether the student should apply for a medical or emergency leave of absence (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/leaves-of-absence-withdrawal/#medical>). It is strongly recommended that the student contact their academic advisor to discuss potential next steps, which could include incomplete grades; withdrawal from classes; or, in the event of an extended absence due to a chronic medical condition or disability, consultation with the Disability Resource Center to explore potential accommodation.

### Nonattendance

Nonattendance does not constitute official course dropping or withdrawal, which means the student is fully responsible for the academic and financial consequences. Like all grades for courses attempted and/or completed, a grade earned due to nonattendance impacts a student's academic progression, an international student's visa eligibility, and a federal financial aid recipient's aid eligibility and award.

## Campus Transfer and Campus Location Change

### Campus Transfer

Students may request an official campus transfer from their school/college to complete their program. The program has to be approved by the school/college academically AND meet regulatory requirements (state/provincial licensure). If the student is an international student, the program has to be offered in compliance with F-1/study permit requirements at the requested new home campus location. International students should seek advice from the Office of Global Services (<https://international.northeastern.edu/ogs/>) before the final decision to transfer to another campus.

### Campus Location Change

Students may request a campus location change to a new campus (the host campus) for a period no longer than one academic year (two consecutive semesters or three consecutive quarter terms) and no more than 50% of a degree program. It must be approved by the school/college academically, and courses must be offered that allow the student to make normal academic progress in compliance with regulatory requirements. In order for international students to change a campus location, the academic program has to be offered in compliance with F-1/study permit requirements at the requested host campus location.

## Clearing an Academic Deficiency

An academic deficiency occurs when a student fails to complete a course with a satisfactory grade. The deficiency may occur because the student has failed the course or because the student has passed the course but with a grade that does not meet the minimum required by the student's program.

Students who have academic deficiencies may be required to clear them before progressing within the curriculum, especially if a given course is a prerequisite for future coursework. Deficiencies may affect the student's expected year of graduation.

With the approval of the appropriate program faculty and/or academic advisor, students can clear deficiencies in the following ways:

1. Retake the same course at one of Northeastern University's colleges, which will result in a "retake" grade (see "Retaking Courses" in this section of the catalog).
2. Substitute a comparable course at one of Northeastern's colleges, which will result in a "retake" grade (see "Substituting Courses" in this section of the catalog).
3. Under special circumstances, if the course is not currently offered at Northeastern, a student may be advised to take a preapproved course at another institution outside Northeastern. The original grade will remain on the student's Northeastern transcript and will still be used in the calculation of the GPA.

## Code of Student Conduct

The Code of Student Conduct can be found on the Office of Student Conduct and Conflict Resolution (<http://www.northeastern.edu/osccr/code-of-student-conduct/>).

## Course Credit Guidelines

### Guidelines for Assigning Credit to Courses

The primary standard for establishing course credit at Northeastern University is the semester/quarter hour, or Carnegie Unit, the standard used by the federal government. One hour of credit is awarded for a lecture/seminar class meeting 50 minutes each week during a 15-week semester or 12-week quarter and also requiring a minimum of two hours of outside preparation each week by the student. An hour of contact time in the rest of the document is based on this 50-minute session.

- 2 semester/quarter hours (100 minutes per week of instruction plus 4–6 hours homework, or equivalent)
- 3 semester/quarter hours (150 minutes per week of instruction plus 6–9 hours homework, or equivalent)
- 4 semester/quarter hours (200 minutes per week of instruction plus 8–12 hours homework, or equivalent)

The Office of the University Registrar (<https://registrar.northeastern.edu/>) maintains the official record for all courses. In the event of error in any publication, the academic record will reflect the correct semester/quarter hours applicable to any degree requirement.

On occasion, course titles change, while the course number remains the same. Despite such title changes, the course is still considered to be the same course. Students who have taken the course under the old title and then take the course again under the new title are considered to have repeated the course.

### NOTE ABOUT HOMEWORK AND STUDENT PREPARATION FOR CLASS

The credit hour assumes a set proportion of two hours of student preparation or homework for every hour spent in class. Northeastern wishes to emphasize that the federal government has established this as the minimum amount of work expected, and assigning more work does not in itself justify an increase in the credit value of the course. We also wish to note that there is great variation in the amount of time each student will need to devote to each course or to a specific form of study (e.g., reading, writing, completing problem sets), and, therefore, it is not possible to enforce any exact accounting of student work outside of class.

### CREDIT ASSIGNMENT PROCESS

Northeastern uses the Carnegie Unit to determine class meeting time requirements. The actual amount of academic work that goes into a single credit hour is calculated as follows:

- One lecture (taught) or seminar (discussion) credit hour represents one hour per week (50 minutes) of scheduled class/seminar time and two hours of student preparation time.
- One laboratory or studio credit hour represents one hour per week of lecture or discussion time plus one to two hours per week of scheduled supervised or independent work, or a total of three hours in the lab or studio.

### DEFINED INSTRUCTIONAL METHODS

- Traditional: meets fully on ground in a physical location with instructor present
- Hybrid: meets majority on ground in a physical location with instructor present with some online instructional component
- Live cast: meets fully on ground in a physical location with the instructor in a different location teaching synchronously and supported by an instructional assistant in the physical location
- Online: meets fully online

### FULL-TIME AND HALF-TIME EXPERIENCES

Academic experiences integral to curriculum and requiring registration (but not credit bearing) have the following required hours of participation:

- Full-time experiences: 32–40 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days
- Half-time experiences: 16–31.99 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days (to achieve full-time status, graduate students must take 3 or more academic credits and undergraduate students must take 4 or more academic credits)
- Summer 1 or Summer 2 semester: minimum of 5 weeks or 25 workdays
- Summer quarter: 6 weeks or 30 workdays

International students must confer with the Office of Global Services to determine CPT requirements as appropriate.

## Course Numbering System

0001–0999	<b>Orientation and basic</b> No degree credit
<b>Undergraduate</b>	
1000–1999	<b>Introductory level (first year)</b> Survey, foundation, and introductory courses, normally with no prerequisites and designed primarily for students with no prior background
2000–2999	<b>Intermediate level (sophomore/junior year)</b> Normally designed for sophomores and above but in some cases open to freshman majors in the department
3000–3999	<b>Upper-intermediate level (junior year)</b> Designed primarily as courses for juniors; prerequisites are normally required, and these courses are prerequisites for advanced courses
4000–4999	<b>Advanced level (senior year)</b> Designed primarily for juniors and seniors; also includes specialized courses such as research, capstone, and thesis
<b>Graduate</b>	
5000–5999	<b>First-level graduate</b> Courses primarily for graduate students and qualified undergraduate students with permission
6000–6999	<b>Second-level graduate</b> Generally for master's and clinical doctorate only
7000–7999	<b>Third-level graduate</b> Master's- and doctoral-level courses; includes master's thesis
8000–8999	<b>Clinical/research/readings</b> Includes comprehensive exam preparation
9000–9999	<b>Doctoral research and dissertation</b>

## Family Educational Rights and Privacy Act (FERPA)

### FERPA for Students—General Information

The Family Educational Rights and Privacy Act is a federal law that applies to educational institutions. Under FERPA, schools must allow students who are 18 years or over or attending a postsecondary institution:

- Access to their education records
- An opportunity to seek to have the records amended (see the *Student Handbook* for this procedure)
- Some control over the disclosure of information from the records

### FERPA General Guidance for Parental Disclosure

When a student turns 18 years of age or attends a postsecondary institution, the student, and not the parent, may access, seek to amend, and consent to disclosures of their education records.

If you are an undergraduate day student and you choose not to share information with your parents, Northeastern will, if asked, indicate that you have restricted access to your records.

### Release of Directory Information

The primary purpose of directory information is to allow Northeastern University to confirm attendance for employers, health insurance companies, and loan agencies. Northeastern may disclose appropriately designated “directory information” without written consent, unless you have advised the university to the contrary in accordance with the procedures below. If you choose not to release directory information, all communications with all third parties and agencies will need to be done through your written request to the university or in person.

As of June 30, 2016, Northeastern directory information includes:

- Student name
- Home address (city, state, country only)
- Major field of study
- College
- Class year
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Dates of attendance
- Degrees, honors, and awards received
- Most recent educational agency or institution attended
- Sports activity participation, showing weight/height of members of athletic teams
- Participation in officially recognized activities

If Northeastern currently has permission to release data and you do not want the university to disclose directory information without your prior written consent, you must notify the university. Instructions are available at the Office of the University Registrar (<https://registrar.northeastern.edu/article/family-educational-rights-privacy-act-ferpa/>).

### Notification of Rights under FERPA

FERPA affords students certain rights with respect to their education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, or head of the academic department (or appropriate official) written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student’s education record that the student believes is inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interest. A school official is defined as a person employed by the university in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a person assisting another school official in performing their

tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. At Northeastern, the Office of the University Registrar, 271 Huntington Avenue, administers FERPA.

### **Additional Information**

Additional information can be obtained at the U.S. Department of Education's website (<http://www.ed.gov/policy/gen/guid/fpco/ferpa/>) or by writing to:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202-5920

## Grade Change Policy

If a student has not graduated, a grade can be changed by a course instructor within 12 months of the end of the semester in which the grade was given.

If a student has graduated, or if more than 12 months have elapsed, a grade can only be changed by request of a course instructor with the approval of the college that offers the course.

If more than 24 months have elapsed, grades can no longer be changed.

If a course instructor is not available, course change requests may be initiated by the department or college that offers the course.

Colleges may place additional restrictions on how grades can be changed.

The grade change policy explains when a course instructor may change a student's grade to correct errors. This policy does not apply to incomplete grades or to student-initiated appeals to change grades. In particular, the grade change policy should not be used to allow a student to submit work after the completion of a class.

## Grade Table and GPA

### Grade Table

Grades are officially recorded by letters, evaluated as follows:

Letter Grade	Numerical Equivalent	Explanation
A	4.000	Outstanding achievement
A–	3.667	
B+	3.333	
B	3.000	Good achievement
B–	2.667	
C+	2.333	
C	2.000	Satisfactory achievement
C–	1.667	
D+	1.333	Undergraduate only
D	1.000	Undergraduate only/Poor achievement
D–	0.667	Undergraduate only
F	0.000	Failure
I		Incomplete
IP		In progress
CR		Credit (School of Law only)
HH		High Honor (School of Law only)
H		Honor (School of Law only)
P		Pass (School of Law only)
MP		Marginal Pass (School of Law only)
NE		Not enrolled
NG		Grade not reported by faculty
S		Satisfactory (pass/fail basis; counts toward total degree requirements)
U		Unsatisfactory (pass/fail basis)
X		Incomplete (pass/fail basis)
L		Audit (no credit given)
T		Transfer
W		Course withdrawal

An I, IP, or X grade shows that the student has not completed the course requirements.

The IP grade is intended for courses that extend over several terms. The time restrictions on the incomplete grade do not apply to the IP grade. While the IP grade is left unchanged, it is not included in computing the grade-point average. If the IP grade is never changed, the course does not count toward graduation requirements.

### Course Comments

The following notations may also appear on the student's transcript:

E	Course excluded from GPA
HON	Honors-level course
I	Course included in GPA

### GPA

Numerical equivalents for scholastic averages are weighted according to the number of hours the course carries. For example, suppose a student receives a grade of B in a course carrying 4 semester hours and a grade of A in a course carrying 1 semester hour. The weightings for these example courses are as follows:

<b>Grade</b>	<b>Numerical Equivalent</b>	<b>Semester Hours</b>	<b>Weight</b>
B	3.000	4	12
A	4.000	1	4
Totals:		5	16

The GPA for both courses would then be the total weight (16) divided by the total semester hours (5), or 3.200. Grades of I, IP, S, U, and X are not included in the calculation of the GPA. See Grade Table (p. 48) for a complete list of grades and numerical equivalents.

## Leaves of Absence and University Withdrawal

Students may request to take the following types of leaves of absence:

- Personal or Academic
- Medical or Emergency
- Military Deployment or Missionary Service

*Students in Prematriculation and Pathway programs (including N.U.in, Foundation Year, NU Immerse, Global Scholars, London Scholars, Global Pathways) do not fall under the leave of absence policy below. Students in these programs with emergent, medical, or personal circumstances that require a conversation about their ability to continue with their program of study should reach out to We Care ([https://studentlife.northeastern.edu/we-care/#\\_ga=2260687946268200191621858812-17152695181613325628](https://studentlife.northeastern.edu/we-care/#_ga=2260687946268200191621858812-17152695181613325628)) for further guidance.*

### General Leave of Absence Policy

Students who wish to take a leave of absence should complete a request through the Student Hub (<https://me.northeastern.edu>) (or via University Health and Counseling Services for a medical leave of absence, as described below) before the last day to drop without a W in a term. Please consult the Academic Calendar ([https://registrar.northeastern.edu/group/calendar/#\\_ga=222318140315109033061621260160-17152695181613325628](https://registrar.northeastern.edu/group/calendar/#_ga=222318140315109033061621260160-17152695181613325628)) for the last day to drop without a W in the term.

Students can request a leave until the last day to drop with a W in a term but should review the financial implications of withdrawing from courses on the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/withdrawalleave-of-absence/>).

Students can take up to one year of leave.

Any leave of absence type, if approved, is subject to the following conditions:

- International students must make an appointment with the Office of Global Services (<https://international.northeastern.edu/ogs/>) to discuss leave of absence procedures in accordance with federal regulations.
- Students who do not return at the end of the leave will be withdrawn and must contact their college for reentry prior to the term start.
- Students must return to a university-sponsored activity that contributes toward the satisfaction of outstanding program requirements, such as registration for academic coursework.
- Students must be considered active in the period for which they are requesting a leave. Students are considered active when they are currently engaged in university-sponsored activity, such as academic coursework and co-op. If a student is withdrawn for personal reasons, the withdrawal can be reversed and a request for a leave of absence can only be processed if it is before the last day to drop without a W in a term. If the student has been administratively withdrawn, a request for leave of absence cannot be considered until the withdrawal is resolved.
- If a leave extends more than six months, students who have taken loans for education expenses may be required to begin repayment of those loans. Students who receive financial aid should meet with a financial aid counselor before going on a leave. Please see Return of Title IV Aid (<http://catalog.northeastern.edu/undergraduate/expenses/financial-aid/>) for the possible financial aid impact of a leave of absence.
- Students in university housing should refer to the Office of Housing and Residential Life for policy information.
- A student's enrollment status cannot include more than one academic year of consecutive nonclass enrollments. Students on leave for more than one year will be withdrawn from the university.
- If a student has taken multiple leaves, resulting in the postponement of expected graduation date of a calendar year, the next leave request will be processed as a withdrawal.
- While on leave, students are not allowed to take classes for credit toward their Northeastern University degree, either at Northeastern or at an outside institution.

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, the student should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

### LEAVE OF ABSENCE FOR INTERNATIONAL STUDENTS

International students must discuss maintenance of U.S. immigration status with an advisor at OGS before requesting any type of leave of absence.

### PERSONAL OR ACADEMIC LEAVE OF ABSENCE

Personal leaves of absence are general leaves of absence that do not meet the criteria of more specific leaves outlined in the catalog. Academic leaves are applied to a student record in the rare cases when a student has fulfilled the last remaining requirements abroad but final grades have been yet to be received at Northeastern; or are taking a leave of absence from Northeastern to pursue other academic work. A student interested in requesting a personal or academic leave of absence should speak with an academic advisor.

**MEDICAL OR EMERGENCY LEAVE OF ABSENCE**

Medical leave is an option available to those Northeastern students who develop a major medical condition that precludes class attendance, completion of requirements, and/or participation in co-op. Medical leave of absence requests must be initiated at UHCS (<https://www.northeastern.edu/uhrs/forms/medical-leave-of-absence/>).

Students on a medical leave will no longer have Husky Card access to the Marino Center, libraries, dining services, residence halls, and UHCS. If a student is in treatment at UHCS, they will be provided with referral resources for care in the community where they will reside during their medical leave. Students are not to be participating in student groups while on medical leave.

Emergency leaves may be granted when a student cannot continue attending class after the start of the term due to life-changing situations beyond the student's control. Students interested in requesting emergency leave are encouraged to contact We Care (<https://studentlife.northeastern.edu/wecare/>). Students can request an Emergency Leave of Absence via the Student Hub (<https://me.northeastern.edu>).

Students who have been granted a medical or emergency leave of absence due to extenuating circumstances may submit a Leave of Absence Refund Appeal Form ([https://service.northeastern.edu/sfs/?id=sc\\_cat\\_item&sys\\_id=50dc23cddb464150ebcdcafc13961951&sysparm\\_category=98921886db600d54ca10819b1396197e](https://service.northeastern.edu/sfs/?id=sc_cat_item&sys_id=50dc23cddb464150ebcdcafc13961951&sysparm_category=98921886db600d54ca10819b1396197e)) for financial consideration. If the appeal is approved, please note that housing and other fees will not be included in the appeal decision; refer to the Residence Hall and Dining License Agreement (<https://www.northeastern.edu/housing/license-agreement/>). Please only complete the Leave of Absence Refund Appeal Form if you have been approved for a medical or emergency leave of absence.

*Please note that any outstanding balance (including unpaid balances) for the academic term in which the leave is taken are still due to the university.*

Financial aid recipients must contact their financial aid counselor to understand the effects on aid received.

If the leave extends more than six months, students who have taken loans for education expenses may be required to start repayment of those loans.

Students enrolled in the Northeastern University Student Health Plan will remain enrolled in the plan for the plan year, ending August 31.

**LEAVE OF ABSENCE DUE TO MILITARY DEPLOYMENT OR MISSIONARY SERVICE**

When a student is called to active duty or missionary service, they must request the leave by filling out the proper request form through the Student Hub (<https://me.northeastern.edu>). Proof of official deployment or call to service paperwork will be required as an attachment when filling out the leave of absence request.

When a student is called during the term, the university will:

- Excuse tuition for that term. Any payment made will be credited to the student's account.
- Post a leave of absence for the term to hold a place for the student when they return.

If a student is called near the end of the term, the student and faculty members may determine that incomplete (I) grades are more appropriate. In this case, tuition will not be waived.

When a student returns to the university after completion, they will notify the college academic student services office if the leave was longer than one year; that office will in turn notify the Office of the University Registrar. The college academic student services office will assist the student with reentry and registration. If the leave was less than one year, the student should register for classes for the upcoming term prior to returning to campus.

International students who must take a leave of absence to engage in military service in their home country must also complete a form for leave of absence with OGS.

**RETURNING FROM A LEAVE OF ABSENCE**

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, they should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

Students who are withdrawn and are applying for Commencement may be reentered on a leave of absence, pending the college's approval, prior to the term in which they will graduate. International students returning from a leave of absence should contact OGS regarding the Student and Exchange Visitor Information System procedures three to four months prior to anticipated return date.

Students who wish to reenter the university following a medical leave must contact UHCS. Reentry from a medical leave requires receipt of all documentation delivered to UHCS approximately one month prior to the start of the term they wish to return. Once all documentation is received by UHCS, it will be reviewed and the student will be notified of the decision. Requests for reentry from medical leave must be completed no later than one week prior to the beginning of a term. Students must be enrolled in Northeastern classes for the term in which they wish to return from their medical leave of absence. More specific information about the reentry process can be found at the UHCS website (<https://www.northeastern.edu/uhrs/forms/medical-leave-of-absence/>).

## **University Withdrawal**

Students seeking to withdraw from the university for any reason should meet with their academic advisor before completing the university withdrawal form online. Students should review the financial implications of withdrawing from all classes on the Student Financial Services website.

Students may be withdrawn from the university for financial, disciplinary, or academic reasons. Students looking to withdraw for medical reasons should reach out to UHCS ([mloa@northeastern.edu](mailto:mloa@northeastern.edu)) to review medical leave of absence.

## Personal Information

### **Change of Name**

Report all name changes to the Office of the University Registrar immediately. Official documentation of the name change is required.

### **Change of Address**

Report all address changes via the Student Hub (<https://me.northeastern.edu>). Both the permanent home address and the local address are required. International students must report any changes of local address or phone number via the Student Hub (<https://me.northeastern.edu>) within 10 days in order to ensure compliance with immigration regulations.

## Requesting and Clearing An Incomplete Grade

An incomplete grade may be reported by the instructor when a student has failed to complete a major component of a required course, such as homework, a quiz or final examination, a term paper, or a laboratory project. Students may make up an incomplete grade by satisfying the requirements of the instructor or, if the instructor is absent, the chair of the department. Be aware that instructors' policies on the granting of incomplete grades may vary and that the final decision on an incomplete grade is up to the instructor. Instructors may deny requests for an incomplete grade.

To request an incomplete grade, the student must obtain and complete in consultation with the instructor an Incomplete-Grade Contract (<https://registrar.northeastern.edu/article/incomplete-grade-contract/>) on which the precise agreement for clearing an incomplete grade is specified. The contract is then signed by the student, the instructor, and the student's academic advisor. Copies of the form are kept by the student, the instructor, and uploaded to the student's advising notes. The maximum time period for clearing an incomplete grade is restricted to 30 days from the end of the term in which the course was offered. Instructors may require a shorter due date before approving incomplete grade requests.

International students should consult with the Office of Global Services before requesting an incomplete grade to ensure that they will remain in compliance.

If the missing assignment(s) have not been submitted to the instructor within 30 days from the end of the term in which the course was offered, or the agreed upon due date, the grade entered will reflect the student's grade in the course for the work completed and the missing assignments receiving no credit toward the final grade. Changes in the final grade will be applied to the term in which the student was enrolled in the course. Any exception to this policy or extension of the deadline must be recommended by the college in which the course was offered and must be forwarded in writing to the Office of the University Registrar for implementation.

## Retaking Courses

When the appropriate course is available, students may retake a nonrepeatable course to earn a better grade. In all cases, the most recent grade earned in a course is the one used in calculating the overall grade-point average followed by the retake notation I, indicating the course grade is included in the overall GPA; however, previous grades remain on the transcript followed by the retake notation of E, signifying that that course grade has been excluded. Consult your academic advisor before retaking a course. Students are required to pay normal tuition for all retaken coursework.

When the course description for the student's registration term indicates that the course may be repeated up to a certain number of course completions, each completion of the course (up to the limit stated in the course description) will appear on the student's transcript, and the grade for each such completion will be used in the calculation of the student's overall GPA.

## Student Bill of Academic Rights and Responsibilities

*This bill was drafted by the Student Senate, the Vice President for Student Affairs, and members of the Faculty Senate. It was passed in the spring of 1992. It was then updated by the Student Body President, Vice President for Academic Affairs, and passed by the Student Senate in the Fall of 2017 and Faculty Senate in the Spring of 2018 for adoption in the Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) for the 2018–2019 academic year.*

We, the students of Northeastern University, believe that a quality education is the paramount goal of all students. In order to fulfill this goal, the university recognizes certain rights and responsibilities, which follow below.<sup>1</sup> Northeastern University students recognize and accept that redress of complaints arising from these rights is limited to the procedures specified in “Student Academic Appeals Procedures”.<sup>2</sup>

### Course-Related Rights

#### ARTICLE 1

Students have the right to instructors who attend classes on time.

#### ARTICLE 2

Students have the right to receive grades and feedback in a timely manner, particularly in the case of sequentially related assignments. At least one summative assessment should be given and returned a week prior to the end of the withdrawal period. Students also have the right to view work they submit to satisfy course requirements after it is graded and receive their instructor’s rationale for grades received on said work.

#### ARTICLE 3

Students have the right to adequate access to instructors. This includes instructors replying to communications from students in a timely manner, suggested to be within two business days, with the exception of during university recesses, as well as maintaining consistent office hours for in-person courses, occurring at the same time at least once a week. Instructors may change office hours by notifying students in a timely manner, suggested to be within two business days, barring extenuating circumstances.

#### ARTICLE 4

Students have the right to receive a course outline, which includes a fair and explicit grading policy, at the beginning of each course. Changes to the course outline that result in a deadline, assignment, major exam, or similar course event being introduced to or moved earlier in the schedule shall be communicated to students in a timely manner, suggested to be at least 10 business days prior to the new deadline.

#### ARTICLE 5

Students have the right to instructors who communicate the material pertaining to the course effectively in the English language except in the case of foreign language instruction.

#### ARTICLE 6

Students have the right to participate in and have access to Student Government Association teacher/course evaluations.

#### ARTICLE 7

Students have the right to have a list of all course materials that must be purchased. Possible substitutions for said course materials, (i.e., acceptable previous editions of textbooks, digital versions, library owned resources, etc.) should be made available to students at least a week prior to the start of the academic term.

#### ARTICLE 8

Students have the right to alternative grading arrangements if they are unable to attend a graded activity that takes place outside the scheduled class time.

### Rights to University Academic Services

#### ARTICLE 9

Students have the right to adequate access to effective academic services, including academic and co-op advising, as described in the student handbook and other university publications, provided by the university.

#### ARTICLE 10

Students have the right<sup>3</sup> to an environment conducive to learning and to faculty who respect students’ academic freedom<sup>4</sup> in the classroom. When exercising academic freedom, students are expected to comply with all applicable university ethics, anti-harassment, and nondiscrimination policies.

#### ARTICLE 11

Students have the right to access university health resources provided by University Health and Counseling Services (<https://www.northeastern.edu/uahcs/>) (UHCS), and in accordance to Massachusetts State Law, to have access to a medical plan that they can purchase (Northeastern University Student Health Plan (<http://www.northeastern.edu/nushp/>)).

#### ARTICLE 12

Students have the right to access university resources provided by the university’s Disability Resource Center in accordance with the Policy on Equal Opportunity ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)). Students have the right to pursue informal and formal grievances through the procedures outlined by the Disability Resource Center (<https://drc.sites.northeastern.edu/>).

## Scheduling Rights

### ARTICLE 13

Students have the right to final exam schedules in accordance with established university policy, including non-conflicting final exam schedules.

### ARTICLE 14

Students have the right to attend any course session held prior to the end of the add/drop period so long as permission from the instructor is obtained in advance and all duly registered students have proper access to seating and other course resources.

### ARTICLE 15

Students will not be penalized for excused absences, with the understanding that students may need to make up for the academic commitment from which they were excused. Reasons for an excused absence include religious, medical issues, jury duty, bereavement, and military service. See this catalog (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/attendance-requirements/>) and other applicable policies ([http://gonu.com/sports/2013/7/15/SASS\\_0715134535.aspx?path=sass](http://gonu.com/sports/2013/7/15/SASS_0715134535.aspx?path=sass)) for the full attendance and excusal policy.

## General Academic Rights

### ARTICLE 16

Students have the right to be informed, in a timely fashion, of proposed action to be taken against them.

### ARTICLE 17

Students have the right to the redress of academic grievances through the processes provided by the university.

### ARTICLE 18

Students have the right to university support and resources, such as the Office of Global Services (<https://www.northeastern.edu/ogs/>), with regard to their visa status.

### ARTICLE 19

In accordance with the Northeastern University's Nondiscrimination Policy ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), students have the right to a learning environment free of discrimination or harassment, including as provided for in Northeastern University's Title IX Policy (<http://www.northeastern.edu/titleix/title-ix-policy-2/>).

### ARTICLE 20

Northeastern University's policy on student produced intellectual property can be found under *Copyrightable Materials* in the *Undergraduate Student Handbook*.

### ARTICLE 21

Students have the right of access to their academic and financial aid records and maintenance of the privacy of these records, as provided by the Family Educational Rights and Privacy Act.

## Student Responsibilities

### ARTICLE 1

Contribute to a climate of open inquiry and honesty in all aspects of the university's academic life. This includes reviewing, and becoming familiar with, the Academic Integrity Policy on the OSCCR website.

### ARTICLE 2

Commit sufficient time and effort for study and for use of library, studio, laboratory, and computational facilities, as appropriate for each course.

### ARTICLE 3

Contribute to the classroom/laboratory/studio learning environment through discussion and active participation.

### ARTICLE 4

Acquire the necessary prerequisites for full participation in each academic course.

### ARTICLE 5

Attend scheduled classes regularly and on time, and arrive to class prepared, having completed all the readings and other assignments.

### ARTICLE 6

Seek out faculty and teaching assistants outside of class time, to obtain help with problems encountered in a given course.

### ARTICLE 7

Respect the academic freedom<sup>4</sup> of each faculty member and student.

### ARTICLE 8

Assist the university in its various self-evaluations (e.g., TRACE, surveys) by responding honestly and conscientiously.

### ARTICLE 9

Maintain effective communication with the university by providing permanent and local address information to the university through a system designated by the university, and by reading university email on a frequent and consistent basis.

**ARTICLE 10**

Act as positive representatives and genuine ambassadors of the university when studying and working in domestic and international settings associated with Northeastern University.

**ARTICLE 11**

Complete an entry (including itinerary, accommodation information, and contact information) using 'My Travel Plans,' located via the Student Hub (<https://me.northeastern.edu>) or other system as required by the university, prior to all university-sponsored travel outside of Massachusetts, including but not limited to: Study Abroad, Dialogues of Civilization, Foreign Exchange Programs like BSIB, Alternative Spring Break, Engineers without Borders, Co-op Placements outside of Massachusetts, etc.

**ARTICLE 12**

Complete all required activities prior to attending classes for their entrance date (including alcohol education, violence prevention programming, required reading, etc.).

**ARTICLE 13**

Have in their possession at all times the officially approved and properly validated photo identification card.

Students who fail to comply with these responsibilities could lose certain student privileges as well as face possible disciplinary sanctions under the Code of Student Conduct.

- <sup>1</sup> The student rights, through their representatives in the Student Government Association (SGA), described in these sections arise from faculty and staff employment responsibilities and obligations to the university. Northeastern University students recognize and accept that it is the sole prerogative of the university to enforce these obligations and responsibilities and to determine whether and to what extent they are being carried out or violated in specific instances. Northeastern University students recognize and accept that their ability to effect redress of complaints arising from these rights is limited to the procedures specified in the current *Undergraduate Student Handbook*.
- <sup>2</sup> The articles shall be interpreted by the Office of the Provost in conjunction with the Office of the Vice President for Student Affairs, and shall be monitored by the Student Government Association. Further, should any student discover that they have been subject to any violation of the principles stated herein, the student should follow the appropriate complaint resolution procedure in the *Undergraduate Student Handbook* (<http://www.northeastern.edu/osccr/code-of-student-conduct/>). The Student Government Association, if requested by the student, will monitor the progress of any student academic grievances.
- <sup>3</sup> Because the university operates on a twelve-month calendar in an urban environment, many construction, remodeling, renovation, and repair projects must take place while the university is in session, and other potential distractions from the learning process arise from the surrounding urban environment on which it is dependent but over which it exerts little or no control. Thus, though the university is committed to maintaining an appropriate learning environment for its students, Northeastern University students recognize and accept, as part of their relationship with the university, that the conditions described above may cause occasional disturbances to that environment.
- <sup>4</sup> For more on academic freedom, please refer to the AAUP's definition (<https://www.aaup.org/report/1940-statement-principles-academic-freedom-and-tenure/>).

## Student Responsibility Statement

By accepting responsibility for their education, students enhance the development of their academic, social, and career goals. As a condition of enrollment, students are responsible for reviewing, understanding, and abiding by the university's policies, regulations, procedures, requirements, and deadlines as described in all official publications, including the university's Academic Catalog, Northeastern and college websites, and official university email communications, as applicable.

Students are responsible for meeting the degree requirements of their academic programs in all respects, including completeness and correctness of course selection, compliance with prerequisite and corequisite requirements, completion of program and degree requirements through regular, comprehensive review and understanding of the degree audit, and observance of all academic regulations and deadlines.

Students are expected to seek guidance from appropriate university representatives, such as departmental program advisors, academic advisors, co-op coordinators, and the Office of the University Registrar (<https://registrar.northeastern.edu/>), to confirm their compliance with all applicable academic expectations and requirements.

## Student Right-to-Know Act

For information about the Student Right-to-Know Act, visit the Office of the University Registrar's website. (<https://registrar.northeastern.edu/article/student-right-to-know-act/>)

## Substituting Courses

In some cases, it may not be possible to retake a course if a student wishes to do so. In unusual circumstances, students may petition to substitute one course for another they have already taken, as long as the subject matter of both courses is substantially alike. With the approval of the student's academic advisor and the agreement of the department that offered the first course taken, a grade received in the new course will be labeled "Substitute" on the transcript and will be treated in the grade-point-average calculation as a "retake" grade, as described above. The original grade will remain on the student's Northeastern University transcript. Students should consult with their academic advisor before enrolling in any proposed substitute course. Students are required to pay normal tuition charges for all substitute coursework.

## University-Sponsored Travel

Northeastern University is committed to the health, safety, and security of its students and all other members of the university community. As a global institution, our university members undertake university travel around the world in pursuit of teaching, research, consulting, service, cocurricular activities, and work intended to advance learning and the interests of the university. The university supports standards and expectations associated with travel that are designed to reduce personal and university risk.

To enhance the health and safety of our students, you are required to comply with the university travel policies and guidance when undertaking university travel. These include, but are not limited to:

- **Registering University Travel**—Students, faculty, and staff are required to enter their travel itineraries and other requested information into the travel registry. To access the registry, go to the Student Hub (<https://me.northeastern.edu/>) and navigate to My Travel Plans to register your travel.
- **Review Destination Risks and Take Steps to Reduce Risks Before and During Travel**—Review the country briefing for your destination found in the Travel Security portal (<https://travelsecurity.garda.com/checkMail/>) and travel health and safety advice issued by the U.S. Department of State, the U.S. Centers for Disease Control and Prevention, other government organizations, the host nation, international organizations, etc. Travelers will be reminded about these sources via an email following trip registration.
- **Connectivity**—All students traveling on university programs must carry a cell phone with international calling, SMS, and cellular data capabilities. Phones must be able to receive incoming and make outgoing phone calls without relying solely on data-calling or a Wi-Fi signal. Phone number must be updated in the Student Hub (<https://me.northeastern.edu/>) profile and My Travel Plans registry before travel.
- **Complete Travel Petitions or Waivers**—Visit the Travel Protocols page (<https://globalsafety.northeastern.edu/travel-protocols/>) to determine what forms travelers are required to complete before participating in off-campus programming. The page also explains how to obtain approval to travel to a destination designated as high risk by the university.
- **Reduce Your Travel Cyber-Risk and Exposure**—Review and comply with the Policy on Portable Devices for High Cybersecurity Risk Destinations (<https://cpb-us-w2.wpmucdn.com/sites.northeastern.edu/dist/b/620/files/2020/09/Policy-on-Computers-and-Mobile-Devices-for-International-Travel.pdf>).
- **Personal Health Insurance**—All travelers are required to have personal health insurance that provides coverage while participating on university trips. Insurance requirements and an explanation of the university-provided urgent and emergency program can be viewed on the insurance and global safety support network pages of the university's global safety (<https://globalsafety.northeastern.edu/>) website.
- **Attend Predeparture Orientation**—PDO provides travelers with information about resources, requirements, safety, and security while traveling. Contact your program office to enroll in an in-person or online training.
- **Register Side Trips**—Side trips are travel that takes place prior to, during the course of, and/or immediately following a scheduled program but is not part of the program. Travelers are required to notify the university and register side trips.

Students are responsible for familiarizing themselves with the university travel policies and are encouraged to visit the university's global safety (<https://globalsafety.northeastern.edu/>) website for guidance. If you have questions related to travel or travel support, please email [mytravelplans@northeastern.edu](mailto:mytravelplans@northeastern.edu). If you need assistance during university travel, please call the university's 24-hour travel assistance line at +1.857.214.5332.

## Academic and Research Integrity

Essential to the mission of Northeastern University is the commitment to the principles of intellectual honesty and integrity. Academic integrity is important for two reasons. First, independent and original scholarship ensures that students derive the most from the educational experience and the pursuit of knowledge. Second, academic dishonesty violates the most fundamental values of an intellectual community and depreciates the achievements of the entire university.

Accordingly, Northeastern views academic dishonesty as one of the most serious offenses that a student can commit while in college. Academic dishonesty includes cheating, fabrication, plagiarism, unauthorized collaboration, participation in academically dishonest activities, and facilitating academic dishonesty.

All members of the Northeastern community—students, faculty, and staff—share the responsibility to bring forward known acts of apparent academic dishonesty. Any member of the academic community who witnesses an act of academic dishonesty should report it to the appropriate instructor or to the director of the Office of Student Conduct and Conflict Resolution.

Violations of the Academic Integrity Policy will result in disciplinary action, which may include a failing grade in the assignment or course, academic probation, suspension, or immediate dismissal from the program. No student may withdraw from a course in which they are found responsible for violating the Academic Integrity Policy.

The university's complete Academic Integrity Policy (<http://www.northeastern.edu/osccr/academic-integrity-policy/>) is available through the Office of Student Conduct and Conflict Resolution.

Students unclear as to whether or not a source requires citation should speak with their instructor; consult a writing resource (e.g., Writing Center, University Library); and/or utilize the Northeastern Citation and Academic Integrity Checklist. (<https://osccr.sites.northeastern.edu/code-of-student-conduct/>)

## Academic Appeals Procedures and Procedures

It is the policy of the university that all students shall be treated fairly in evaluations made of their academic performance, standing, and progress. The university presumes that academic judgments by its faculty are fair, consistent, and objective. Students must understand that the substitution of a different academic judgment for that of the original evaluator is a serious intrusion upon teaching prerogatives.

Nonetheless, the university believes it is essential to provide an appeals mechanism to students who believe that they were erroneously, capriciously, or otherwise unfairly treated in an academic or cooperative education determination. This includes claims of misinterpretation or inequitable application of any academic provision of the university's *Undergraduate or Graduate Catalog*, *Student Handbook*, or *Faculty Handbook*.

In all cases, students are encouraged to informally discuss concerns with the faculty member who taught the course to see if it is possible to reach an agreement on the issue(s). If the student is not satisfied with the outcome of this discussion, or if the student is not comfortable discussing the issue with the instructor, the student should request a meeting with their academic and career advisor who can help facilitate the process to resolve the issue(s). If these informal attempts to resolve the issue(s) fail, the student can enter the formal procedure at the college level as outlined below.

Though students are always entitled to seek the advice of legal counsel, a student's lawyer cannot be present in the informal or formal academic appeals procedures. A student may consult their academic and career advisor at any point in these procedures for advice or assistance. University officials may take whatever steps they deem reasonably appropriate to achieve resolution of the issue at any stage of these procedures.

If a student feels that they have been the victim of harassment or of discrimination prohibited by law or by university policy, they should consult with the Office of University Equity and Compliance as soon as they become aware of alleged prohibited harassment or discrimination and are not required to wait until a term grade or determination is received before seeking advice or redress. If OUEC is advised of such alleged prohibited conduct as part of an academic appeal, the appeal shall be pursued and investigated by OUEC first. In such cases, the student should contact their academic and career advisor regarding the next appeal steps. Following a resolution of the harassment/discrimination issues, any remaining academic issues will be addressed, at the request of the student, according to the academic appeals procedures.

The Academic Standing Committee may not consider appeals on the basis of medical claims; students are encouraged to meet with their academic and career advisor to determine the best course of action for any disputes on the basis of medical or personal issues.

### For Dismissal Appeals

If the appeal concerns academic dismissal, the student should contact their academic and career advisor regarding appealing to the college ASC.

### For Grade Disputes

Students are encouraged to contact their instructor regarding all grade disputes within 15 calendar days of the assignment or course grade being awarded. If resolution cannot be achieved within 15 calendar days of initial contact, the student may submit a formal appeal no more than 30 calendar days following the end of the term the grade was awarded. The student must contact their academic and career advisor to start the formal appeal process. Resolution that is not attempted within this time frame is no longer eligible for appeal.

The program level has 30 calendar days to respond with a decision and brief explanation of that decision. If the student does not receive a response within 30 calendar days of their appeal at the program level, the student may appeal to the ASC. If a decision has been rendered at the program level, the student may only appeal to the ASC *if they have new/additional evidence and documentation to present that would not have reasonably been available at the time of the program-level appeal*. The student should contact their academic and career advisor before appealing any decision to the ASC.

Once a grade change has been made in response to an appeal, that change is final.

### For All Other Appeals/Disputes

The student should contact their academic and career advisor with questions and information regarding next steps.

### Appealing Beyond the ASC

In appeals that arise from a violation, misrepresentation, or inequitable application of the academic provisions of the *Student Handbook* or *Undergraduate Catalog* or *Graduate Catalog*, the ASC serves as the final decision maker within the college.

Issues concerning admission or readmission into a program cannot be appealed beyond the ASC at the college level.

Outside of issues concerning admission or readmission into a program, if the student or faculty member is not satisfied with the ASC's decision at the college level, they may further pursue the matter at the university level by requesting in writing within 14 calendar days that the university convene an Academic Appeals Resolution Committee to review the appeal. Students may obtain information on this process through the Office of the Provost (110 CH). The AARC has been designated as the final authority on appeal matters. This request must be made within 14 calendar days of the finding of the ASC.

#### 1. Academic Appeals Resolution Committee

The AARC includes:

- The vice provost for graduate education or a designee.
- The student's faculty advisor will be appointed by the appropriate vice provost except in cases where no specific advisor exists or where the faculty advisor is involved in the dispute. In those cases, a faculty member from the student's major college, department, or area of specialization will be appointed.
- Two faculty members appointed by the Faculty Senate Agenda Committee (if the appeal is based on a cooperative education determination, one of the faculty members shall be a member of the cooperative education faculty but not from the student's area of study) and a representative of the Office of Institutional Diversity and Inclusion (if the appeal had at any point involved a matter of sexual harassment/discrimination).
- The chair shall be elected from among the committee's three faculty members but cannot be the student's faculty advisor.

## 2. Preliminary Matters

If the AARC determines, by a majority vote, that the appeal is patently without substance or merit, it may dismiss the appeal.

## 3. Investigation

The AARC shall investigate the matter under appeal as quickly as possible by studying the relevant documents, interviewing the parties (especially the student and the involved faculty member), and taking any other action it deems appropriate. At no time shall the committee be bound by rules of evidence but shall at all times conduct itself in a manner that is not arbitrary or capricious. The AARC may, but is not required to, hold a hearing prior to resolving the issues. However, in all instances, the student and the involved faculty member shall have the right to appear and testify separately and privately before the AARC. The student shall have the right to have an advocate from the university community present during their testimony to the AARC.

## 4. Authority to Act

The AARC has been designated as the final authority on these matters. At the conclusion of its investigation, the AARC shall resolve, by majority vote, the issue by either upholding the finding of the ASC or dean, in which case no further appeal is available, or granting such relief to the student as the AARC deems appropriate.

- a. The AARC may not determine a resolution that contradicts the prior findings or actions of the Office of Institutional Diversity and Inclusion with respect to elements of this appeal.
- b. In the event of a tie vote, the action of the ASC or dean shall be considered upheld.

## 5. Resolution

All direct parties to the appeal, including but not limited to the student, the provost, the dean, the department chair or equivalent supervisors, graduate coordinator or equivalent supervisor, and the faculty member shall be promptly informed in writing of the decisions and actions taken (i.e., the Report) during this academic appeals procedure.

## 6. Report

A written Report of the appeal and its resolution shall be submitted by the chair of the AARC to the student, the involved faculty member, the Faculty Senate Agenda Committee, the vice president for student affairs, the appropriate vice provost, the registrar, and the dean, as appropriate.

## 7. Action

The dean(s) or their designee in the involved college(s) shall take whatever action is necessary to implement fully the resolution of the AARC. This includes reporting the change of grade to the registrar.

## 8. Appeal

No further appeal can be instituted by the student or the involved faculty member with respect to the issue(s) raised at any level of the formal appeals resolutions procedures once adjudicated.

## Academic Honors

### Dean's List

A dean's list for the undergraduate programs is compiled at the end of each fall and spring term to recognize students' academic accomplishments.

The requirements to be on the dean's list are:

- 3.500 or higher term GPA
- In good academic standing
- Enrolled in at least half-time (6 semester hours per full semester)
- No incomplete grades
- No grade below C–
- No grade on a satisfactory/unsatisfactory (pass/fail) basis, except when there is no alternative or when required by the program

Dean's list recognition is noted on the student's official academic record.

### Graduation with Honors

Graduation with honors is reserved for bachelor's degree candidates who have completed 60 semester hours in residence and who meet the following GPA requirements to graduate with honors:

GPA	Honor Conferred
3.500–3.699	Graduate with honor (cum laude)
3.700–3.849	Graduate with high honor (magna cum laude)
3.850–4.000	Graduate with highest honor (summa cum laude)

*Note:* The university reserves the right to change these standards.

### Residency Requirement

In addition to meeting all degree and major requirements, students must earn a minimum of 50% of the total hours required for graduation at the College of Professional Studies in order to receive a bachelor's degree. Exceptions to this requirement include active-duty military personnel, bachelor's degree students who transferred from a qualifying college at Northeastern University, or students who transferred from an approved academic partnership. Active-duty military personnel must earn 25% of their undergraduate credits at the College of Professional Studies. Students who transfer from another college at Northeastern must earn a minimum of 15% of their semester hours at the College of Professional Studies. Students who transfer from an approved academic partnership must earn the required percentage of undergraduate credits at the College of Professional Studies as detailed in their partnership agreement.

### Active-Duty Military Personnel

As a member of the Service Member Opportunity Colleges, the College of Professional Studies' academic residency requirement is different for active-duty service members. Active-duty service members are required to complete 25% of the undergraduate certificate/degree program at the College of Professional Studies.

## Academic Progression Standards

### Faculty Advisor Communication Tool

FACT is a communication tool that provides faculty with a method for providing input to career and academic advisors and students for early intervention, coaching, and assistance. Faculty members are expected to submit input around the midpoint of each term/session.

### EAB/Navigate

EAB/Navigate is a tool used by faculty and academic and career advisors to better service and communicate with learners. Learners can utilize EAB/Navigate to make appointments with academic and career advisors, while faculty can use it to provide academic and career advisors with information on learner progress in the classroom.

### Academic Progress/Standing

To be in academic good standing, an undergraduate student must continuously maintain a minimum cumulative grade-point average of 2.000 on a 4.000 scale and must also make continuous satisfactory academic progress. To make SAP, a student must earn at least 66% of their cumulative attempted credits. Nonmatriculated students are required to be in good academic standing to be allowed to register for any subsequent classes.

Students are responsible for reviewing their grades and academic standing at the end of each term through the Student Hub (<https://me.northeastern.edu>). If there are any discrepancies, students should immediately contact the instructor(s) directly. Students have 30 calendar days after final grades are posted to appeal a grade.

### Academic Probation and Dismissal

Notation of academic probation appears on a student's internal record but not on their permanent transcript.

An undergraduate student is placed on academic warning for low academic performance if their GPA is below 2.000 at the College of Professional Studies and/or if they do not earn at least 66% of their cumulative attempted credits. At this point, the student is strongly encouraged to consult with their academic and career advisor to develop an action plan to improve their academic standing. Attempted credits include all credits/courses for which the student registered and did not drop.

An undergraduate student is placed on academic probation if, after already having been placed on academic warning, their cumulative GPA remains below 2.000 at the College of Professional Studies and/or if they do not earn at least 66% of their cumulative attempted credits in their subsequent term of enrollment. The student is encouraged to consult with their academic and career advisor to develop an individualized success plan to improve their academic standing. Otherwise, a registration hold may be placed on the student's account.

A student whose cumulative GPA remains below 2.000, and/or does not earn at least 66% of their cumulative attempted credits in the term of enrollment subsequent to the one after they were placed on academic probation, will be academically dismissed. An undergraduate student who has been academically dismissed from the university is automatically dismissed from their major.

A student will be notified about their dismissal within one week following the end of the term and has the right to appeal the dismissal decision to the college's Academic Standing Committee if they can provide documented evidence supporting an appeal. The notification of dismissal will include the appeal deadline.

Students appealing a dismissal decision will not be eligible to enroll in classes the term following their dismissal to allow time for the appeal process.

Students are responsible for reviewing their grades and academic standing at the end of each term through the Student Hub (<https://me.northeastern.edu>).

## Appropriate Use of Computer and Network Resources Policy

The information systems of Northeastern University are intended for the use of authorized members of the community in the conduct of their academic and administrative work. Northeastern's information systems consist of all networking; computing and telecommunications wiring; equipment; networks; security devices; passwords; servers; computer systems; computers; computer laboratory equipment; workstations; internet connection(s); cable television plant; university-owned mobile communications devices; and all other intermediary equipment, services, and facilities. These assets are the property of the university. This policy describes the terms and conditions of use for Northeastern information systems.

This policy applies to any and all users of these resources, both authorized and unauthorized.

The university's complete Policy on Appropriate Use of Computer and Network Resources is available through the University Policies site (<https://policies.northeastern.edu/policy700/>).

## Attendance Verification

### **“I Am Here” Process**

After course registration, students are required to verify their intent to enroll in College of Professional Studies class(es) through their Student Hub (<https://me.northeastern.edu>) account during the first week of each class start. This verification process is called “I Am Here.” Students who fail to complete this process on time will be dropped from their class(es), which may impact their financial aid or international student visa eligibility.

Students are responsible for ensuring completion of the “I Am Here” process, which requires that they do not log out of the system early. Students who do not receive a “Successful Completion” message have not reached the end of the procedure and must start again. Sometimes it may take 24 hours before students can restart the procedure.

A student who registers for a course and completes the “I Am Here” process but does not officially drop the course by the deadline, regardless of their level of participation or attendance/nonattendance, is responsible for paying 100% of the tuition charges and applicable fees and the final earned grade. A student in this situation may earn an F grade that will be part of their permanent academic record.

Students who experience difficulty with the process or have questions should email ([registrar@northeastern.edu](mailto:registrar@northeastern.edu)) the Office of the University Registrar.

## Completing Program Requirements

### Undergraduate Degree Programs

To earn an undergraduate degree at the College of Professional Studies, students must complete all courses as prescribed in the curriculum, the required number of credits as per the curriculum, and maintain a minimum cumulative grade-point average of 2.000 or as outlined by the specific program.

### Undergraduate Certificate Programs

To earn an undergraduate certificate at the College of Professional Studies, students must complete all courses as prescribed in the curriculum, the required number of credits as per the curriculum, and maintain a minimum cumulative GPA of 2.000 or as outlined by the specific program.

### Time Limit on Program Completion

Although there is no set limit for an undergraduate student to complete their certificate or degree, there is a limit to how long a course may be used toward program completion. Science and technology courses expire after seven years unless an extension is approved by the program director.

At the time of reentry or readmission for an undergraduate student, the science or technology courses that were completed seven or more years ago cannot be used to satisfy the science or technology requirement for the degree. The student has to retake the course or take a different course in the subject area to satisfy degree requirements.

*Note: The College of Professional Studies makes adjustments to its academic program offerings and curricula to stay current and to be able to offer students the most relevant courses and knowledge in the field. Examples of such changes include adding new programs, adding/adjusting course requirements, adding/adjusting courses, and adding/adjusting curriculum requirements.*

*When there is a change to a curriculum or program requirement, students already matriculated and actively enrolled in the program may continue to follow the program requirements at the time of matriculation or to follow the new curriculum/program requirements, unless it is otherwise specified by the academic program at the time of the announcement of said changes.*

*Students who leave the College of Professional Studies and then return at a later date will be required to follow the most current curriculum for their program of study. If the program into which the student is seeking readmission or reentry is no longer offered, the student may apply to another program and must meet the admissions requirements for that program.*

## Cooperative Education

Website (<http://www.northeastern.edu/coop/>)

Cooperative education is the cornerstone of Northeastern University's experiential learning approach, in which on-campus study is enhanced by real-world experience through full-time employment at locations all over the world. Through co-op, students alternate periods of academic courses with periods of employment in positions related to their academic or career interests. This combination provides an integrated learning experience that enhances both in-class studies and career development.

### General Requirements

- Be a full-time student to participate in co-op.
- Complete all pre-coop requirements as established by the college of the student.
- Make satisfactory progress toward degree completion, including grade-point average requirements, as defined by the university, the colleges, and the major program curricula.
- Have accurate information about the co-op placement in the university's official co-op placement system, including specific start and end dates and meeting the minimum hour and day requirements.
- Not participate in co-op in the final term unless it is specified in the curriculum requirements of the program in the catalog.
- Resolve any previous disciplinary or academic probation issues, or have the cooperative education coordinator approve a plan to resolve these issues prior to applying for co-op jobs.
- Have any self-developed co-op approved by the cooperative education coordinator before accepting the position.
- Comply with any preemployment checks required by the employer, such as drug testing, credit checks, physical examinations, security clearance, and criminal record checks.
- Participate in Title IX training, as required.
- Complete any additional requirements (<https://careers.northeastern.edu/students/student-co-op/global-co-op/>) if participating in a global co-op.
- Work with the cooperative education coordinator if an Unsatisfactory (U) grade has been received for a past co-op to reestablish eligibility in accordance with the policies and requirements of the college.

### TRANSFER AND INTERNATIONAL STUDENTS

- Transfer students from other universities must have met the same requirements in their major's co-op program as nontransfers and must have completed at least one semester of classes before starting co-op.
- International students must attend one academic year, or its equivalent, and obtain proper authorization from the Office of Global Services before engaging in co-op.

### Academic Requirements

1. **Be full-time while on co-op. Full-time status for co-op is defined as either:**
  - a. One full-time co-op job; 32–40 hours per week
  - b. Two simultaneous half-time co-op jobs; 16–31.99 hours each
  - c. One half-time co-op job; 16–31.99 hours with graduate students taking 3 or more academic credits or undergraduate students taking 6 or more academic credits
    - i. Undergraduate students on co-op in a Summer 1 or Summer 2 term may be registered for one half-time co-op without acquiring a second job or taking an accompanying class.
2. **Meet the minimum length requirements for an academic term:**
  - a. Semester full-term: minimum of 11 weeks or 55 workdays
  - b. Quarter full-term: minimum of 9 weeks or 45 workdays
  - c. Summer 1 or Summer 2 term: minimum of 5 weeks or 25 workdays
3. **Receive a grade of Satisfactory or Unsatisfactory for the co-op experience.**

### Registration for Co-op

Students are registered for co-op based on a completed co-op record that meets the minimum hour and day requirements with accurate start and end dates in the university's official co-op database system. Students must be registered for the co-op work experience course by the end of the add period, or alternately registered for classes if still searching for a job by this deadline. All co-op positions need to be approved by the university and entered as completed records in the official co-op database system by the last day to drop without a W for the respective semester.

### Co-op Financial Planning

- No tuition is charged while a student is on co-op only (students will pay room and board if they stay in university housing).
- If a student takes a credit-bearing class while on co-op, tuition will be charged at the per-credit rate.
- Students who wish to register for more than 4 credits while on full-time co-op must complete the Petition Registration form (<https://registrar.northeastern.edu/wp-content/uploads/sites/9/form-pet-reg-14.pdf>).
- Financial aid will be distributed to match the student's tuition bill and other allowable expenses.

- Students on co-op are required to maintain the same health insurance coverage (either through a private provider or through the university program) as they would while attending classes.

### **Further Information**

For more detailed information about co-op policies and procedures, see the *Cooperative Education Student Handbook* on the Cooperative Education website (<https://www.northeastern.edu/coop/>).

## Degrees, Majors, and Minors

### Declaring an Undergraduate Major

A bachelor's degree student who was undeclared at the time of admission must declare their major before they earn a maximum of 75 credits inclusive of awarded transfer credits and credits earned at the College of Professional Studies. Failure to declare a major may result in a block on the student's record, preventing future course enrollment.

To declare an undergraduate major, a student must consult with their academic advisor before completing the appropriate form. The student is responsible for meeting all admission requirements for the intended program.

Previous transfer credit awards are subject to change as a result of a major declaration. Students on financial aid are responsible for understanding the impact that results from a major declaration.

### Changing a Major/Program of Study

An undergraduate student matriculated in a certificate/degree program (with a declared major/program) may choose to enroll in a different undergraduate major/program, after consulting with their academic advisor. The student then completes the appropriate form and is responsible for meeting all admission requirements for the intended major/program.

Previous transfer credit awards are subject to change as a result of a major/program change. Students on financial aid or an international student visa are responsible for understanding the impact that results from a major change.

### Declaring an Undergraduate Minor

Bachelor's degree students may add up to two minors to their programs of study.

An undergraduate minor requires a minimum of 15 but no more than 18 credit hours of undergraduate-level coursework, as specified by the individual minor program. A student may choose from among the undergraduate minor programs offered by the College of Professional Studies. The completed undergraduate minor appears on the student's official record.

The following rules apply:

- A bachelor's degree student may declare their intent to pursue a minor at the time of application for admission or after acceptance as an enrolled student, up until the beginning of their last term of enrollment. It is strongly encouraged that a student who wishes to pursue an undergraduate minor begins planning early and consults with their academic advisor.
- The program of study for their major and minor cannot be the same where the courses for the minor are a subset of required courses in the major, e.g., a Bachelor of Science student with a biology major cannot enroll in the biology minor; a Bachelor of Science student with a management major cannot enroll in the business minor.
- Courses used to fulfill requirements for the minor may be used to satisfy open electives of a major.
- A student must fulfill all requirements for the minor and major concurrently and may not extend their program of study to complete a minor.
- A student must adhere to the curriculum of the undergraduate minor(s) for which they have been approved. If a student wishes to request a course substitution to fulfill a requirement of an undergraduate minor, they must seek prior approval through their academic advisor. Deviation from the minor requirements without prior approval will result in nullifying the minor on a student's record.
- A student may apply up to 6 semester hours of transfer credits toward an undergraduate minor.
- A student in the Bachelor of Science in Interdisciplinary Studies program may choose to complete courses specified for a minor as part of their major elective requirements.

## Full-Time Status

A student is considered a full-time undergraduate student if they are enrolled in a minimum of 12 semester hours of undergraduate credit for the semester.

*Note that full-time status may be defined differently for federal loan purposes. International students have other considerations/requirements to maintain their visa eligibility.*

### Course Load

Federal financial aid recipients must be enrolled in and successfully complete a minimum number of credits each semester to maintain eligibility. For more information, contact your financial aid counselor.

Students who are not studying in F-1 or J-1 status and who are eligible to study in the United States may be enrolled part-time or full-time. Applicants in B-1/B-2 status cannot enroll part-time or full-time; however, they may choose to apply for a change to a status in the United States and may enroll only upon approval by the U.S. Citizenship and Immigration Services.

### Course Overload

A maximum course load (not full-time status) for an undergraduate student is 18 semester hours taken across a 15-week semester, with no more than 9 semester hours per half-semester session.

To be eligible for a course overload (more than 18 semester hours per 15-week semester or more than 9 semester hours per half-semester session), an undergraduate student must:

- Have a record of successful study at Northeastern University—transfer students must wait at least one term to request an overload
- Have a minimum cumulative grade-point average of 3.000
- Provide a rationale to support the request

A student needs to complete the appropriate form and return it to their academic advisor. If approved, the student is required to pay the normal tuition charges for all attempted courses. They are responsible for informing their financial aid counselor, if applicable, and for making the necessary arrangements to manage the increased workload. Should an approved course overload impact an international student's degree completion date and their visa end date, the student is responsible for communicating with the Office of Global Services (<https://international.northeastern.edu/ogs/>) and obtaining the necessary approvals within the required timelines.

## Global Partnership Programs

Students enrolled in a College of Professional Studies' global partnership or a dual-degree program are required to abide by the policies and procedures of both institutions or as specified in their program.

Dual-degree candidates must apply to graduate at each institution by following each institution's policies and procedures.

## Graduation Requirements

### Graduation Procedures

The following information is for degree-seeking students only. Certificate students should refer to the “Certificate” section below.

Only students who complete the graduation application process by specified deadlines will be considered for graduation and included in the graduation ceremony program. All qualified students must submit a graduation application in order to receive their diploma, regardless of whether they plan to attend the graduation ceremony.

*Note important definitions:* “Degree conferral date” and “graduation ceremony date” are not the same. Degree conferral date refers to the date of the university’s official recognition of degree completion. For the purposes of the graduation application that is accessed via the Student Hub (<https://me.northeastern.edu>), the “Expected Graduation Date” is the same as the degree conferral date. Northeastern University confers degrees three times each academic year: at the end of the fall, spring, and summer terms. The graduation ceremony date is the date that the college hosts the annual graduation ceremony.

Each fall, the Office of the University Registrar sends an email notification to students who may be eligible to graduate that academic year about applying to graduate. Eligibility is based on the number of earned credits at the beginning of the fall term. This email notification informs and instructs students to complete the “Apply to Graduate” process, accessed via the Student Hub. (<https://me.northeastern.edu>) Students are prompted to verify and provide critical information, e.g., spelling of the student’s name on the diploma, intent to participate in the graduation ceremony, and mailing address.

An accurate EGD is required to gain access to the graduation application. The EGD is also used by clearinghouses to determine loan deferment schedules. A student who needs to update their EGD should contact their academic advisor.

### Diploma

Information that will be printed on diplomas includes:

- Degree.
- The major will be printed on diplomas for nonspecified degrees (Associate in Science, Bachelor of Science, Bachelor of Arts) only. Minors are not printed on any diplomas.
- Honors designation, for those who qualify.

Changes made to a student’s name after the diploma has been printed may be subject to a \$50 fee and take more than one month to reprint.

Changes made to a student’s degree information and name submitted after the program deadline will not be noted in the graduation ceremony program.

### Certificate

The College of Professional Studies confers undergraduate certificates at the same time degrees are conferred each year in fall, spring, and summer terms. Students must submit a completed Request to Declare Certificate Completion form (<https://cps.northeastern.edu/current-students/academic-forms/>) to their academic advisor in order to have their academic record audited to receive their certificate. Deadlines apply. Students should contact their academic advisor for more information.

### Academic Transcripts

Currently enrolled students may obtain unofficial transcripts and also order official transcripts from the Student Hub (<https://me.northeastern.edu/>). For further information on transcript requests, visit the Office of the University Registrar website (<https://registrar.northeastern.edu/article/transcript-requests/>). All questions concerning transcript requests should be directed to 617.373.2300, TTY 617.373.5360.

Academic information noted on official academic transcripts include degree/certificate name; major; minor (if applicable); academic history, including transfer credits; and graduation honors designation (if applicable).

## Readmission to Program

A new admission application is required of students whose studies were interrupted for more than three years.

Students are expected to meet the requirements of the program curriculum current at the time of the approved readmission term. If the program into which the student is seeking readmission is no longer offered, the student may apply to another program and must meet the admissions requirements for that program.

If readmitted, College of Professional Studies and transfer credits that a student was previously awarded will be reevaluated. The seven-year time limit on science and technology courses may have expired. It is at the discretion of the academic program to determine applicability of courses previously completed.

For students whose studies were voluntarily interrupted, once they have reapplied, their application should be vetted by the academic advising team and the appropriate lead faculty.

For students who were academically dismissed over three years ago, once they have reapplied, their application should be vetted by the associate dean of undergraduate academics and the appropriate lead faculty. If readmitted, the student needs to develop an academic plan and have monthly meetings with their advisor to monitor progress.

## Reentry to Program

Application for reentry into any academic program is required of students whose studies are interrupted voluntarily for a period of one to three years. Students seeking reentry must fill out the Request for Reentry form (<https://cps.northeastern.edu/academic-resources/academic-forms/>).

Students who are dismissed must wait at least one academic term before applying for reinstatement.

Students are expected to meet the requirements of the program curriculum current at the time of the approved reentry term. In addition, College of Professional Studies and transfer courses will be reevaluated. The seven-year time limit on science and technology courses may expire. If a student does not enroll in the term in which they were approved for reentry, they must follow the curriculum requirements for the term in which they resume coursework. If a student waits for more than one year to resume their studies after being approved for reentry, they will have to apply for reentry again.

If the program into which the student is seeking reentry is no longer offered, the student may choose to enroll in another program if they meet the admissions requirements for that program.

## Registration and Taking Courses

### Course Registration

For course registration information, visit the College of Professional Studies website (<http://www.cps.neu.edu/class-registration/registration-instructions.php>).

Course registration procedures are as follows:

- Newly accepted and returning students add or drop courses through the Student Hub (<https://me.northeastern.edu>) any time during the registration period.
- Certificate- and degree-seeking students whose studies have been interrupted voluntarily for one to three years need to first apply for reentry through the Office of Academic Advising. Once a student is accepted for reentry, they will register via the Student Hub.
- Students who have been absent voluntarily for more than three years must apply for readmission.
- Students interested in taking undergraduate-level courses for personal professional enrichment may register using the Express Registration form ([https://prod-web.neu.edu/wasapp/CPSCourseReg/?form=expressReg#\\_ga=2.266146767.1316488288.1617619412-1715269518.1613325628](https://prod-web.neu.edu/wasapp/CPSCourseReg/?form=expressReg#_ga=2.266146767.1316488288.1617619412-1715269518.1613325628)). Students who study under the PPE status:
  - Are responsible for satisfying course prerequisites and corequisites, if applicable, before enrolling in courses
  - May elect to apply to an undergraduate certificate or degree program by completing the online application process
  - Understand that up to 8 qualifying credits earned while on PPE status may be applied to the intended undergraduate certificate program and up to 16 credits may be applied to the intended undergraduate degree program

All students need to be mindful of the college's course add/drop policies and deadlines to register as early as possible with the intent to secure a spot in the preferred course and to avoid being charged in full for withdrawing after the deadline.

### Auditing a Course

Undergraduate students are permitted to audit undergraduate courses, but they must complete the usual registration process and pay regular tuition fees. There is no reduction in fees for auditing.

An auditor may participate in class discussions, complete papers and projects, and take tests and examinations for informal evaluation. Regardless of the amount or quality of work completed, however, no academic credit will be granted for an audited course. In addition, an audited course may not be used in the determination of enrollment status for financial aid purposes and does not count toward program completion.

The student's decision to audit a course must be communicated in writing to the Office of the University Registrar before the fourth class meeting for full-semester courses. For half-semester courses, requests must be received by the second class meeting. No exception to this procedure may be approved without the authorization of the college's academic standing committee.

The student should inform the instructor of their status as auditor of the course.

### S/U (Pass/Fail) System

An undergraduate student may elect to take courses on a satisfactory/unsatisfactory (commonly known as pass/fail) grading scale. The following rules apply:

- Undergraduate degree students may register for one open elective course per semester on a satisfactory/unsatisfactory (S/U) basis and may not take more than a total of four S/U courses at the College of Professional Studies.
- To be eligible for S/U status, the student must be in good academic standing and also must meet all prerequisites for the course.
- To be graded on an S/U basis, the student must file an S/U petition prior to the fourth class meeting for full-semester courses.
  - For half-semester courses, petitions must be received by the second class meeting
- The grades recorded on the basis of the S/U system will not figure in the computation of the grade-point average.
- An "incomplete" in a course taken on an S/U basis is designated by the letter X on the permanent record and must be treated according to the normal procedure for incomplete grades.

### Course Selection and Planning

Students should refer to their degree audits for program curriculum information, to select courses, and to monitor their progress toward degree completion. Students should access their degree audits through the Student Hub or request an audit from their academic advisor.

Degree audits are unofficial records of academic progress. Students are encouraged to consult with their academic advisor about their academic planning.

## Course Prerequisites

Course prerequisites are courses that are required to have been completed prior to enrolling in another course. Before registering for a course through the Student Hub, students, regardless of matriculation status, should consult the College of Professional Studies website (<http://www.cps.neu.edu/degree-programs/prerequisites.php>) to determine whether they have completed the course prerequisites.

Course prerequisites may be met by taking the prerequisite course(s) for undergraduate courses, by taking college-level or proficiency examinations for undergraduate courses, or by obtaining credit in specific academic disciplines for knowledge gained through prior learning experiences for undergraduate courses. Some courses have two parts. It generally is not possible to take part two before successfully completing part one.

## Course Corequisites

Course corequisites are courses that are required to be taken concurrently; e.g., College Writing 1 (ENG 1105) and Lab for ENG 1105 (ENG 1106), which are part of the undergraduate written communication core requirement, must be taken at the same time. Before registering for a course through the Student Hub, students, regardless of matriculation status, should read the course description to determine what the corequisite is and register for both courses.

## Repeating a Course

If a student wishes to improve their cumulative grade-point average by repeating a course, they may do so. A student may take the same course up to three times to earn a better grade. Only the grade earned in the last attempt is used to compute the GPA, while all grades remain part of the student's permanent academic record. A student is required to pay the normal tuition charges for all repeated courses.

Financial aid recipients must be mindful that repeating a course could impact their aid eligibility. As per financial aid regulations, students may repeat a course only once and be eligible for aid. Students with questions about this possible impact should contact their financial aid counselor.

## Course Substitution and Course Waiver

In some cases, a student has taken a similar course for transfer credit, so the student may request a course substitution to satisfy degree requirements. The substituting course must be comparable in content and rigor. Students may request a maximum of four course substitutions for a College of Professional Studies undergraduate degree program.

A course substitution may be awarded to a student who has completed an equivalent course at an accredited institution other than CPS in the past seven years. The substitution will replace the required course, meeting the program requirement. A student must complete a Request for Course Substitution form and submit it to their academic advisor, who will work with the academic program for review and approval/denial.

A course waiver is used in more unusual circumstances, such as when the original course is no longer being offered by CPS. In these situations, the required course may be waived, and the student will complete another course, as approved by the program, to satisfy the number of credits required for the program. Students requesting a course waiver must meet with their academic advisor to ensure a waiver is appropriate and to make the request.

## Directed Study

Directed studies are offered when a course is required for a student's program of study but said course is not available in a given academic term and there is immediacy for a student to complete said course. Academic deans/directors will make the decision if there is a compelling need to run a course as a directed study.

## Independent Study

Independent study is an opportunity for a degree student to work independently under the supervision of an instructor to undertake special research, literature review, or experimental study projects in areas related to their program of study that they cannot accomplish as part of a standard course in the curriculum. A degree student may take up to two independent studies. The work to be done for an independent study is usually crafted by the student, with faculty input. Independent studies are entirely optional and not needed to graduate. A completed Request for Independent Study form (<https://cps.northeastern.edu/current-students/academic-forms/>), signed by both the student and the faculty member, must be submitted to the academic program for review and approval.

## Course Add/Drop Policy

Refer to the academic calendar (<http://www.northeastern.edu/registrar/calendars.html>) for specific dates. Students should consult with their academic advisor before adding or dropping classes.

Students may add a half-semester course within the first week of the course. For full-semester courses, students may add a course within the first two weeks of the course. Students who add a class during the add/drop period are responsible for all assignments missed prior to enrolling. Enrolled students are responsible to attend classes during the add/drop period, and any absences will be held accountable to the instructor's attendance policy.

Students who drop a course before the deadline will not be charged for the course and will not have a W (withdrawal) on their transcript. Thereafter, students are responsible for 100% of the tuition charges and applicable fees, and the earned grade will be on their permanent academic record. All such dates are specified in the academic calendar (<http://www.northeastern.edu/registrar/calendars.html>).

Students must add/drop courses using the Student Hub.

Students who experience difficulty adding, dropping, or withdrawing from a course should promptly email ([registrar@northeastern.edu](mailto:registrar@northeastern.edu)) the Office of the University Registrar. If it is determined that there is an issue with Student Hub access, they need to contact the Service Desk at the following:

617.373.4357 (HELP)  
[help@northeastern.edu](mailto:help@northeastern.edu)  
 Website (<http://www.northeastern.edu/its/audience/students/>)

Students with holds (e.g., financial, judicial) may have restricted access to add, drop, or withdraw from a course. In such instances, students are responsible for resolving the hold immediately and to meet the established course registration deadlines.

A reduction in a student's course load could affect a student's international student visa status or financial aid eligibility.

## **Course Withdrawal Policy**

Reference the academic calendar for specific dates by which students may withdraw from a course.

Students who withdraw from a course after the add/drop deadline and before the last day to withdraw will receive a W grade and will be responsible for 100% of the tuition charges and applicable fees. The W grade does not affect the calculation of the cumulative grade-point average but it does impact a student's academic progression, which may result in the student being placed on academic probation or dismissal.

Students must withdraw from courses using the Student Hub.

Students who experience difficulty withdrawing from a course should promptly email ([registrar@northeastern.edu](mailto:registrar@northeastern.edu)) the Office of the University Registrar. If it is determined that there is an issue with the student's Student Hub access, they need to contact the Service Desk at the following:

617.373.4357 (HELP)  
[help@northeastern.edu](mailto:help@northeastern.edu)  
 Website (<http://www.northeastern.edu/its/audience/students/>)

Students with holds (e.g., financial, judicial) may have restricted access to add, drop, or withdraw from a course. In such instances, students are responsible for resolving the hold immediately and to meet the established course registration deadlines.

A reduction in a student's course load could affect a student's international student visa status or financial aid eligibility.

Students who fail to withdraw from a course by the deadline, regardless of their level of class participation or attendance, are financially and academically responsible. A student's lack of participation/attendance will likely result in a final grade of F.

All students are encouraged to consult with their academic advisor prior to withdrawing from a course. Withdrawals may impact a student's time to degree completion.

## Reinstatement after Academic Dismissal

A student who is academically dismissed from the College of Professional Studies is not eligible to register again for courses at the college until they are approved for reinstatement. A student may apply for reinstatement after a minimum of one academic term if they can provide documented evidence supporting the application (e.g., completed two courses with a grade of B or higher at another accredited college or relevant professional development opportunities during the minimum one-term absence). The application must be made in writing by submitting the appropriate form and providing supporting documentation to the Office of Academic Advising (<https://cps.northeastern.edu/academic-resources/advising/>).

If reinstatement to the college is approved, a student is expected to meet the most current requirements for program admissions and curriculum.

A student approved for reinstatement but who does not meet the admissions requirements for the intended program of study, or if the intended program of study is no longer available, may apply to another program.

## Seeking More Than One Certificate or Degree

An undergraduate student can be enrolled in only one undergraduate program at a time.

Undergraduate students seeking more than one certificate or degree after having completed a program should note that undergraduate credits earned toward:

1. A certificate earned at the College of Professional Studies may be used to satisfy the requirements of a bachelor's degree, if the contents are determined to be applicable per the program director.
2. A certificate earned at the College of Professional Studies may be used to satisfy the requirements of a second certificate with a cap of 6 credits, if the contents are determined to be applicable per the program director.
3. A bachelor's degree earned at the College of Professional Studies may be used to satisfy the requirements of a second bachelor's degree with a cap of 50% of the requirements for the second degree, if the contents are determined to be applicable per the program director.

## Student Evaluation of Courses

Students play a critical role in the university's commitment to quality teaching and academic excellence when they participate in the evaluation of courses, an online survey students complete anonymously. Students are expected to participate in the course evaluation process with constructive feedback that is relevant to teaching and course content.

Students may access the course evaluation summary results from previous terms via the Student Hub (<https://me.northeastern.edu>). Courses with three or fewer students enrolled are not surveyed.

## University Academics

- NUpath (p. 86)

## NUpath

### **Learning, Knowing, Doing, Leading**

NUpath is Northeastern University's set of institutionwide general education requirements for all students in all majors. The goal of NUpath is to develop in our students the knowledge and skills to be lifelong learners with success in many careers, to be thoughtful global citizens, and to be fulfilled human beings. It offers students the flexibility to integrate general education learning into their individual educational journeys while maintaining the rigor of high standards through defined learning outcomes, making NUpath a unique tool for personalized enrichment. NUpath is competency based rather than course based. It is built around essential, broad-based knowledge and skills—such as understanding societies and analyzing and using data—integrated with specific content areas and disciplines.

NUpath requirements are met throughout a student's program of study and can be fulfilled through major, minor, or concentration requirements as well as through general electives. NUpath courses may not be taken pass/fail. NUpath is required for all freshmen who entered in fall 2016 and later. It does not apply to students already admitted with a different set of core requirements or to transfer students whose entry year was earlier than the fall of 2016.

- Requirements (p. 87)
- Learning Goals (p. 89)
- Writing-Intensive Courses (p. 92)

## NUpath Requirements

NUpath requirements are a set of 10 competencies designed to prepare students for personal success in an ever-evolving global society regardless of their chosen field of study. NUpath requirements are as follows:

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning
- Writing Across Audiences and Genres
- Demonstrating Thought and Action in a Capstone

Because NUpath is competency based rather than course based, students have many options of courses to fulfill the requirements. Students can use the Self-Service Banner (<https://nubanner.neu.edu/StudentRegistrationSsb/ssb/registration/registration/>) "Browse Classes" tool to find class sections both in and beyond their major requirements that satisfy NUpath. Courses that meet major, minor, or concentration requirements can also meet NUpath requirements. There are no level restrictions or semester-hour restrictions. No course taken as pass/fail can be used to satisfy a NUpath requirement. A single course can count for up to two of the following requirements:

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning

The two additional requirements (writing-intensive in the major and capstone) are not limited. So, for example, a course may have two out of the first list (such as Differences and Diversity and Societies and Institutions) and *also* fulfill writing-intensive in the major and capstone.

Transfer credit and placement tests can also be used to meet the NUpath attributes of the Northeastern course equivalents. Up to five of the following eight requirements can be met by transferred or placement test credits:

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Differences and Diversity
- Employing Ethical Reasoning

Transfer credits cannot be used to fulfill the capstone or experiential requirements. Of the writing requirements (p. 92), only the first-year writing requirement can be met by transferred or placement test credits.

## NUpath Learning Goals

Established and assessed learning goals ensure rigorous opportunities for students to achieve the essential skills and competencies of NUpath regardless of the context or course within which the learning occurs. Any course that meets a NUpath requirement incorporates the learning goals of that requirement. The requirement short name and/or user code is what will appear in course descriptions and student audits.

### Engaging with the Natural and Designed World

**SHORT NAME: NATURAL AND DESIGNED WORLD**

**USER CODE: ND**

Students study and practice scientific investigation and/or engineering design in order to understand the natural world and to effect changes in it to meet human and societal needs and wants. They learn critical thinking and analytical problem solving; the biological, chemical, and/or physical principles that govern the natural world; and the efforts that underlie the origins, development, acceptance, and applications of those principles.

#### LEARNING GOALS

By the end of the course, students should be able to:

- A. Formulate a question that can be answered through investigation or a challenge that can be addressed through research or design.
- B. Develop and use models based on evidence to predict and show relationships among variables between systems or components of systems in the natural and/or designed world.
- C. Use and question scientific principles and practices to evaluate issues raised by the interplay of science, technology, and society.

### Exploring Creative Expression and Innovation

**SHORT NAME: CREATIVE EXPRESSION/INNOVATION**

**USER CODE: EI**

Students study and practice creative expression and innovation. They learn about traditions of creative expression and innovation in any of a number of modes (texts, image, sounds, design, etc.) and products (poems, paintings, prototypes, business plans, games, apps, medical devices and procedures, etc.) and develop their own creative processes and products as a means of seeing and experiencing the world in new ways and communicating those experiences to others.

#### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe creative processes in one or more disciplines (e.g. art, business, writing, science, engineering).
- B. Generate an artifact (e.g., design, poem/essay, application, visualization, musical composition, product, prototype) through a creative process.
- C. Evaluate experimentation, failure, and revision in the creation of innovative projects.

### Interpreting Culture

**SHORT NAME: INTERPRETING CULTURE**

**USER CODE: IC**

Students study and analyze cultural practices, artifacts, and texts (e.g., visual art, literature, theatrical performances, musical compositions, architectural structures). They learn critical reading and observation strategies and how traditions of theoretical, aesthetic, and/or literary criticism provide different lenses for the interpretation of cultural objects and practices.

#### LEARNING GOALS

By the end of the course, students should be able to:

- A. Recognize and identify a variety of cultural practices and creations, their forms of production, and development over time.
- B. Acquire and assess techniques of interpretation (including critical reading and observation techniques), criticism, and analysis of cultural practices, texts, and/or artifacts.
- C. Formulate arguments for and against different theories and interpretations of cultural practices, texts, and/or artifacts.

### Conducting Formal and Quantitative Reasoning

**SHORT NAME: FORMAL/QUANTITATIVE REASONING**

**USER CODE: FQ**

Students study and practice systematic formal reasoning using either the symbolic languages of mathematics and logic or the combinations of text and symbols characteristic of computer software. They learn when and how to apply formal reasoning to particular problems and subject matters.

**LEARNING GOALS**

By the end of the course, students should be able to:

- A. Recognize when examination of a phenomenon or situation can benefit from problem-solving techniques and analyses that use formal reasoning.
- B. Use their expertise in some applications of formal reasoning and know when to call upon domain experts when a problem is beyond their personal expertise.
- C. Generate artifacts that require formal reasoning and planning. These artifacts might include logical proofs, mathematical computations, software, simulations, problem solutions, or plans/analyses in a variety of disciplines that require a formal, systematic component.

**Understanding Societies and Institutions****SHORT NAME: SOCIETIES AND INSTITUTIONS****USER CODE: SI**

Students study and practice social science, historical, and/or literary methods of inquiry and theories in order to understand human behavior and cultural, social, political, and economic institutions, systems, and processes. They learn theories of social behavior as they relate to phenomena such as globalization, social change, and civic sustainability.

**LEARNING GOALS**

By the end of the course, students should be able to:

- A. Describe current theories of how social, political, or economic institutions, systems, and processes work.
- B. Explain the historical and cultural contingency of many descriptions and explanations of human behavior, institutions, systems, and processes.
- C. Evaluate social, political, or economic theories by applying them to local and global phenomena.

**Analyzing and Using Data****SHORT NAME: ANALYZING AND USING DATA****USER CODE: AD**

Students study and practice methods and tools of data analysis and use. Students learn about the structure and analysis of at least one type of data (e.g., numbers, texts, documents, web data, images, videos, sounds, maps) and acquire the skills to examine, evaluate, and critique such data; extract patterns; summarize features; create visualizations; and provide insight not obvious from the raw data itself. Students also learn to be sensitive to ethical concerns associated with data: security, privacy, confidentiality, and fairness.

**LEARNING GOALS**

By the end of the course, students should be able to:

- A. Describe how data may be acquired, stored, transmitted, and processed.
- B. Analyze at least one important type of data and summarize the results of an analysis in ways that provide insight.
- C. Use mathematical methods and/or computational tools to perform analysis.
- D. Evaluate and critique choices made in selection, analysis, and presentation of data.

**Engaging Differences and Diversity****SHORT NAME: DIFFERENCES AND DIVERSITY****USER CODE: DD**

Students study and practice methods for recognizing and understanding human diversity of various kinds in global, local, and organizational contexts. They learn theories and perspectives of human difference; civic sustainability and multiculturalism; how social arrangements shape and are shaped by difference; and the histories, cultures, and interactions of diverse groups.

**LEARNING GOALS**

By the end of the course, students should be able to:

- A. Describe how notions of human difference have changed over time and across local and global contexts.
- B. Discuss the value in recognizing, respecting, and embracing human diversity and how diversity contributes to culture and society, including civic sustainability.
- C. Evaluate and compare two or more theories of human difference and approaches to cultivating and leveraging diversity.
- D. Connect theories of human difference and approaches to diversity to one's own experience

## Employing Ethical Reasoning

**SHORT NAME: ETHICAL REASONING**

**USER CODE: ER**

Students study and practice methods of analyzing and evaluating the moral dimensions of situations and conduct. They learn ethical theories and frameworks; explore how conceptions of morals and ethics shape interpretation of concepts such as justice, fairness, rights and responsibilities, virtue, and the good life; and apply these to personal, professional, social, political, historical, or economic questions and situations.

### LEARNING GOALS

By the end of the course, students should be able to:

- A. Describe the moral and ethical elements of an issue, problem, or situation.
- B. Explain at least two key ethical theories.
- C. Apply ethical theories to moral dilemmas and personal positions.

## Writing Across Audiences and Genres

**SHORT NAME: WRITING ACROSS AUDIENCES/GENRES**

**USER CODE: WF/WD/WI**

**Note:** This requirement is met by four courses. See more details under Writing-Intensive Courses (p. 92).

Students study and practice writing for multiple public, academic, and professional audiences and contexts. They learn to use writing strategies, conventions, genres, technologies, and modalities (e.g., text, sounds, image, video) to communicate effectively.

### LEARNING GOALS FOR FIRST-YEAR WRITING

- A. Adapt writing for multiple academic, professional, and public occasions and audiences.
- B. Identify and practice writing conventions of various genres.
- C. Identify credible, relevant sources and engage and cite them appropriately in their written work.
- D. Draft, revise, and edit their writing using feedback from readers.

### LEARNING GOALS FOR ADVANCED WRITING IN THE DISCIPLINES

- A. Adapt writing for multiple academic, professional, and public occasions and audiences.
- B. Display familiarity with the writing conventions of genres in an academic field or profession.
- C. Identify credible, relevant sources and engage and cite them appropriately in their written work.
- D. Draft, revise, and edit their writing using feedback from readers.

### LEARNING GOALS FOR WRITING-INTENSIVE COURSES IN THE MAJOR

- A. Demonstrate facility with the writing conventions of genres in the academic field or profession.
- B. Identify credible, relevant sources and engage and cite them appropriately in their writing work.
- C. Draft, revise, and edit their writing using feedback from readers.

## Demonstrating Thought and Action in a Capstone

**SHORT NAME: CAPSTONE EXPERIENCE**

**USER CODE: CE**

Each student must take at least one course designated as a capstone experience. Capstone courses may be designed for a specific degree program, for a department, or for a college. The learning goals for a capstone will be developed by the unit that is designing the capstone. Students must complete a capstone in their major. In cases where a student has multiple majors (such as in a combined or double major), the units may specify in which major to take the capstone or may leave the choice to the student.

## Writing-Intensive Courses

The faculty expects all students to become effective writers and achieve the learning goals of the Writing Across Audiences and Genres NUpath attributes. To this end, students are given opportunities to improve their writing throughout their curriculum. Learn more about the Online Writing Labs here (<https://cps.northeastern.edu/academics/online-writing-center/>).

### First-Year Writing Requirement

All first-year students must satisfy a first-year writing requirement by completing the following courses:

Code	Title	Hours
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4

Students must earn a C or better in the required writing course to satisfy the first-year writing requirement.

### Advanced Writing Requirement

Students must satisfy the advanced writing requirement by completing one of the following courses. Transfer credit cannot be used to satisfy this requirement. Students must earn a C or better to satisfy the advanced writing requirement:

Code	Title	Hours
ENG 3105 and ENG 3106	Writing for the Professions: Science and Engineering and Lab for ENG 3105	4
ENG 3107 and ENG 3108	Writing for the Professions: Business and the Social Sciences and Lab for ENG 3107	4

### Writing-Intensive Courses in the Major

Each major includes at least two additional writing-intensive courses. These courses are characterized by frequent and regular writing, assessment, and revision of student work and the opportunity for students to improve their work.

## Global Pathways Program

Global Pathways is designed for academically qualified international students who need additional preparation to achieve the required English-language skill level to enter a CPS (<https://international.northeastern.edu/global-pathways/programs/>) graduate program or select graduate programs (<https://international.northeastern.edu/global-pathways/programs/>) offered by other Northeastern University colleges. The duration of the program (one or two terms) for each individual student depends on English-language proficiency. Global Pathways helps international students to strengthen their academics, transition to American culture and an American classroom, and improve their English skills. After successful completion of Global Pathways and its degree progression requirements listed under each of the program pages (<https://international.northeastern.edu/global-pathways/programs/>), participating international students can transfer up to 4 credits toward their master's degree in the area of their interest.

### CPS Graduate Programs Entrance Requirements

- Academic record equivalent to a grade-point average of at least 2.500
- Minimum iBT score requirements:
  - Two terms = 61
  - One term = 74

### Other Graduate Programs Entrance Requirements

To enter this Global Pathways program, you must meet each of the College of Professional Studies' established admissions requirements listed under each of the college/program pages (<https://international.northeastern.edu/global-pathways/programs/>). Please note, most colleges offer one- and two-term Global Pathways, and your English-language score will determine the length of your Global Pathways studies.

### Program Benefits

- Select from multiple entry points throughout the term
- Complete the program in one or two terms depending on qualifications
- Benefit from academic advising, transferable credit, tutoring, and student support services and extracurricular activities
- Enjoy access to all university facilities
- Choose from a wide range of graduate degree programs
- Be guaranteed entry to a Northeastern University graduate degree program upon successful completion of Global Pathways and its degree progression requirements listed under each of the program pages (<https://international.northeastern.edu/global-pathways/programs/>)

Visit the Global Pathways website (<https://international.northeastern.edu/global-pathways/>) for more information about the programs, admissions process, and curriculum.

## Bachelor of Science Degree Programs

### **Business and Social Sciences Programs**

- Finance and Accounting Management (p. 95)
- Interdisciplinary Studies (p. 99)
- Management (p. 102)

## Finance and Accounting Management, BS

The Bachelor of Science in Finance and Accounting Management degree program offers students an opportunity to obtain a broad understanding of the role that business plays in the world economy along with a strong focus on accounting and financial management. Students also take courses in the major areas of business so that, as they move into managerial positions, they have the understanding and skills to work across functional areas.

Students take courses such as financial reporting, managerial accounting, intermediate accounting, and cost accounting, as well as tax and audit. They also complete courses in the key areas in finance: corporate and managerial finance, working capital management, and investments.

Graduates may pursue careers in the private, nonprofit, and government sectors. They work in the cost accounting and budgeting areas, in short-term or long-term asset management, and in financial planning and security analysis.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### Foundation Courses

54 semester hours required

Code	Title	Hours
<b>English</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4
ENG 3107 and ENG 3108	Writing for the Professions: Business and the Social Sciences and Lab for ENG 3107	4
<b>Introductory Course Work</b>		
MGT 1100	Introduction to Business	3
MGT 2310	Organizational Behavior	3
<b>Mathematics</b>		
MTH 1100	College Algebra	3
MTH 2300	Business Statistics	3
<b>Economics and Marketing</b>		
ECN 1100	Principles of Microeconomics	3
ECN 1200	Principles of Macroeconomics	3
MKT 2100	Principles of Marketing	3
<b>Ethics and Law</b>		
MGT 2330	Business Law	3
PHL 2100	Business Ethics	3
<b>Accounting and Finance</b>		
ACC 2100	Financial Accounting	3
ACC 2200	Managerial Accounting	3
FIN 2105	Introduction to Corporate Finance	3
<b>Information Management and Technology</b>		
ITC 1000 or ITC 2016	Computer Applications End-User Data Analysis Tools	3

MGT 2210	Information within the Enterprise	3
or ITC 2430	E-Commerce Systems	

## Major Courses

31 semester hours required

Code	Title	Hours
<b>Accounting and Analysis</b>		
ACC 2300	Cost Accounting	3
ACC 3201	Financial Reporting and Analysis 1	3
ACC 3202	Financial Reporting and Analysis 2	3
ACC 3330	Principles of Auditing	3
ACC 3410	Principles of Taxation	3
ACC 4320	Financial Statement Analysis	3
<b>Finance</b>		
FIN 3310	Financial Institutions and Markets	3
FIN 3330	Risk Management and Insurance	3
FIN 3340	Investments	3
<b>Capstone</b>		
MGT 4850	Business Strategy	4

## Elective Courses / Optional Concentration

Complete one of the following options to reach 120 semester hours.

### MAJOR ELECTIVES

Complete 9 semester hours from the following and an additional 26 general elective semester hours to reach 120 semester hours.

Code	Title	Hours
Complete 9 semester hours from the following:		9
ACC, FIN (4000 level)		

### ENTREPRENEURSHIP CONCENTRATION

*Note:* Please consult with your advisor.

Complete the 15 semester hours listed below and an additional 20 general elective semester hours to reach 120 semester hours. Courses from the major may not double count in the concentration.

Code	Title	Hours
<b>Required Courses</b>		
Complete the following four courses:		
FIN 3100	Finance for New Ventures	3
MGT 2550	Sustainable Entrepreneurship	3
MGT 4995	Experiential Management Practicum	3
MKT 2700	Product Design and Development	3
<b>Elective Courses</b>		
Complete one of the following elective courses:		3
LDR 3200	Leading and Managing Change	
MGT 4230	New Venture Creation	
MKT 3010	Digital Marketing	

## Recommended General Elective Courses

Given industry trends, students are encouraged to consider the follow general elective courses as they fulfill their elective requirements.

Code	Title	Hours
ALY 2010	Probability Theory and Introductory Statistics	
ALY 2100	Introduction to Programming for Data Analytics	
ITC 2000	Principles of Systems Analysis and Design	

ITC 2016	End-User Data Analysis Tools
ITC 2050	Designing the User Experience

**NUPATH REQUIREMENTS SATISFIED**

- Analyzing/Using Data (AD)
- Capstone Experience (CE)
- Engaging Difference/Diversity (DD)
- Ethical Reasoning (ER)
- Conducting Formal/Quantitative Reasoning (FQ)
- Society/Institutions (SI)
- Advanced Writing in the Disciplines (WD)
- Writing Intensive in the Discipline (WI)

NUPath requirements Creative Expression and Innovation (EI), Interpreting Culture (IC) and Engaging with Natural and Designed World (ND) are not explicitly satisfied by required courses in the curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

**Plan of Study**

<b>Term 1</b>	<b>Hours</b>

## Interdisciplinary Studies, BS

The Bachelor of Science in Interdisciplinary Studies allows students to design a social science-, science-, and humanities-based program of study that reflects their academic passions and strengths. Students have the unique opportunity to choose an area of academic specialization while engaging with the diverse array of disciplines—such as history, music, philosophy, literature, math, science, and psychology—that constitute a liberal studies education, while fostering practical skills essential to the workplace and graduate education—critical thinking, analysis of large bodies of information, problem solving, and effective written communication.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

The NUpath requirement Creative Expression/Innovation (EI) is not explicitly satisfied by required courses in the curriculum at this time. Students are responsible for satisfying this requirement, and if this is not fulfilled in required major courses, they should use general electives to do so.

No more than 27 total credits of business courses (ACC, FIN, MGT, MKT) are permitted for the degree.

### Foundation Courses

30 semester hours required

Code	Title	Hours
<b>English</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4
ENG 3107 and ENG 3108	Writing for the Professions: Business and the Social Sciences and Lab for ENG 3107	4
<b>Mathematics</b>		
MTH 1100	College Algebra	3

## Management, BS

The Bachelor of Science in Management program is designed to equip students to dive into the world of business with real-world, experiential opportunities to develop the skills they will need to manage resources, solve problems, and oversee staff on a daily basis. The program provides the opportunity for students to acquire the tools needed to respond effectively to complex business challenges, including accounting, business strategy, law, marketing, communications, project management, international business, and entrepreneurship. The coursework is flexible, and students can adjust their academic program to meet the demands of their schedules. From the fundamental principles of management to the critical questions of diversity, corporate responsibility, and the impacts of globalization, this program provides both the theoretical background and the practical proficiency needed to succeed.

The program also provides students with an opportunity to focus on the industry or skill set that most interests them by selecting electives offered in a variety of business disciplines or by choosing among the program's optional concentrations. Graduates of this program work as management analysts, human resource budget analysts, cost estimators, market and survey researchers, operations research analysts, and more.

This bachelor's degree completion program is online and is accredited by the Association to Advance Collegiate Schools of Business (AACSB (<https://www.aacsb.edu/accreditation/>)).

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

- Psychology (p. 140)

## Advanced Manufacturing Systems, BS

Northeastern's Bachelor of Science in Advanced Manufacturing Systems will create pathways for entry- and midlevel manufacturing employees to deepen their knowledge and gain new skills across the advanced manufacturing ecosystem. The program's challenge-based learning architecture balances autonomy with a structured path through a rigorous curriculum.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### Foundation Courses

32 semester hours required

## Analytics, BS

Employers seeking analytics professionals with “moderate” levels of data analysis skills - typically positions at the bachelor's level – most often prefer candidates with *Analytics* as a field of study. Skills frequently required in candidates are data analysis and the ability to interpret and communicate data analysis results to others, problem solving, mastery of spreadsheets, analysis tools, statistical software, relational databases as well as programming language. The general demand for Teamwork/Collaboration and Project Management reflects the need for employers to find analytics professionals with general business skills which can be used in a variety of function areas.

The Bachelor of Science in Analytics (BSA) helps to meet the demand from employers with an undergraduate program and entry level education requirements that prepares learners as data analyst practitioners capable of applying data analysis methods, technological, professional, and strategic expertise necessary for supporting decision making in organizations. With emphasis on experiential learning, the program provides dynamic opportunities for learners with varying degrees of work experience to practice their knowledge both globally and collaboratively while implementing effective data analysis concepts to real-life company demands.

The BSA has general foundation courses (including mathematical and philosophical logic), specific data analysis foundation courses, major required courses, as well as a variety of elective courses on diverse domain areas.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### Foundation Courses

54 semester hours required

Code	Title	Hours
<b>English</b>		
Complete the following:		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4
ENG 3107 and ENG 3108	Writing for the Professions: Business and the Social Sciences and Lab for ENG 3107	4
<b>Communication</b>		
CMN 1100	Organizational Communication	3
CMN 2310	Professional Speaking	3
<b>Philosophy</b>		
PHL 2120	Ethical Issues in Communication	3
PHL 2310	Symbolic Logic	3

## Biological Science, BS

The Bachelor of Science in Biological Science program is designed for students who wish to pursue a science-based career or continue their education by obtaining a graduate degree in a health- or science-related field. The program offers the mathematical, chemical, and physical background necessary for understanding biology along with the oral and written communication, critical thinking, and problem-solving skills necessary for success in the workplace. The program fosters a basic understanding of the organization and the processes of life, from molecules and cells through organs and organ systems to populations, species, ecosystems, and evolution. Graduates of the program pursue careers in areas such as research and development or sales and marketing in biological and pharmaceutical companies. Students may also choose to continue their education in graduate or medical school.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

## Biotechnology, BS

The Bachelor of Science in Biotechnology seeks to prepare graduates for entry-level positions in diverse occupations within the biotechnology industry. Building on a strong foundation of liberal arts and sciences, courses focus on state-of-the-art biotechnology principles and delivery. The curriculum promotes effective oral and written communications skills, critical thinking, and problem solving to promote professional competency in a variety of high-tech industries related to pharmaceutical manufacturing, vaccine production, medical device creation and fabrication, clinical drug and medical device trials, and governmental regulatory agency oversight.

Graduates of the biotechnology program pursue careers in bench research and development, regulatory affairs, sales and marketing, public relations, or communications at domestic and international biotechnology-related companies or governmental organizations.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

## Digital Communication and Media, BS

The Bachelors of Science in Digital Communication and Media prepares students for jobs in the expanding market for digital based communications. Students are exposed to the digital channels and technology at the core of today's positions in corporate and marketing communications.

Students start with foundation courses in such areas as English and Ethics. These are followed by major course selections in Management, Marketing, and Visual Media.

Students then move to the heart of the program to develop digital competencies. These courses cover communication research methods, digital communication strategy, and inbound marketing fundamentals. From here, students enter a unique virtual public relations firm to design, implement, and manage a digital communication campaign for a real-world client.

Successful graduates of the program should possess the competencies for digital communication jobs in a wide range of fields, including corporations, public relations and marketing agencies, and nonprofit organizations.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

NUpath requirements Understanding Societies and Institutions (SI) and Natural and Designed World (ND) are not explicitly satisfied by required courses in the curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

### Foundation Courses

24 semester hours required

Code	Title	Hours
<b>English</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4

## Health Science, BS

The Bachelor of Science in Health Science seeks to help develop competent professionals who combine a solid understanding of the science underlying healthcare with the principles of healthcare management. Courses in biology, microbiology, chemistry, pharmacology, and pathophysiology provide an understanding of the science of the human body. These courses may be combined with courses in the management of healthcare organizations; health law; public health; or, for students interested in a medical career, additional science courses.

The program seeks to provide preparation for a career in healthcare management in a community, hospital, or private-sector setting or for graduate school for advanced training in areas such as medicine, nursing, and public health.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

## Healthcare Administration, BS

The Bachelor of Science in Healthcare Administration seeks to foster an understanding of management-related concepts in the health industry. The degree offers students an opportunity to learn from experienced professionals how to effectively use communication, critical thinking, and problem-solving skills and techniques to establish competency in the principles relating to the operational, financial, and regulatory management of a health setting.

Students pursue coursework in healthcare operations and systems, healthcare law and policy, and the financial and regulatory aspects of healthcare management.

Successful graduates of the program are prepared to pursue a wide range of careers in the management of healthcare systems in community, hospital, and private-sector healthcare settings.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### Foundation Courses

33 semester hours required

Code	Title	Hours
<b>College Writing 1</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
<b>College Writing 2</b>		
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4
<b>Writing for the Professions</b>		
ENG 3107 and ENG 3108	Writing for the Professions: Business and the Social Sciences and Lab for ENG 3107	4
<b>Mathematics</b>		
MTH 1100	College Algebra	3
MTH 2310	Statistics for the Behavioral and Social Sciences	3
<b>Economics</b>		
ECN 1200	Principles of Macroeconomics	3
<b>Information Technology</b>		
ITC 1000 or ITC 2016	Computer Applications End-User Data Analysis Tools	3
<b>Social Sciences</b>

## Information Technology, BS

The Bachelor of Science in Information Technology focuses on the skills and knowledge needed to promote career advancement and pursue advanced degrees in information technology and to provide the critical-thinking and information technology skills needed by local, national, and global employers.

Students have the opportunity to develop strengths in the analysis, applied design, development, implementation, and management of modern information technology systems. Courses cover the critical technology areas of programming for traditional, web, and mobile applications and for networking, database, and information security. The curriculum also includes courses focused on key business areas needed to integrate and manage technology and technology projects in the workplace.

Students may develop the technical and problem-solving skills that allow them to pursue careers in the professional areas of applications development, web and multimedia design, systems and network administration, database administration, and business analysis.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### Foundation Courses

27 semester hours required

Code	Title	Hours
<b>English</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4
ENG 3105 and ENG 3106	Writing for the Professions: Science and Engineering and Lab for ENG 3105	4
<b>Management</b>		
MGT 1100	Introduction to Business	3
MGT 2310	Organizational Behavior	3
<b>Mathematics</b>		
MTH 1100	College Algebra	3
Complete one of the following:		3
MTH 2400	Technology and Applications of Discrete Mathematics	
MTH 2450	Discrete Structures (Required for Computer Programming Concentration)	
<b>Philosophy</b>		
Computer programming concentration students must take ITC 3620. Other students complete any one of the following:		3
ITC 3620	Legal and Ethical Issues in Cybersecurity	
PHL 2100	Business Ethics	
PHL 2140	Ethical Issues in Science and Engineering	

### Major Requirements

33 semester hours required

Code	Title	Hours
<b>ITC Core Discipline Areas</b>		
ITC 1200	Operating Systems Concepts	3

ITC 2016	End-User Data Analysis Tools	3
ITC 2050	Designing the User Experience	3
ITC 2100	Introduction to Programming (Java)	3
ITC 2200	Networking Foundations	3
ITC 2300	Database Management Systems	3
ITC 2400	Web and Mobile Development	3
Complete one of the following:		3
ITC 2000	Principles of Systems Analysis and Design	
ITC 2430	E-Commerce Systems	
<b>Professionalism</b>		
ITC 3500	IT Project Management	3
ITC 4600	Information Security Management	3
<b>Capstone</b>		
ITC 4850	Information Technology Project	3

### Professional Electives

Code	Title	Hours
Complete a concentration listed below. Those who do not want a concentration should take 27 additional semester hours in the following subject areas:		
ALY, CET, GET, ITC		

### Optional Concentrations

- Applications Development (p. 130)
- Computer Programming (p. 130)
- Systems Administration and Cybersecurity (p. 131)

*Note:* Please consult with your advisor.

### APPLICATIONS DEVELOPMENT CONCENTRATION

Code	Title	Hours
Complete seven courses from the following that have not been taken to fulfill major requirements:		
ALY 2010	Probability Theory and Introductory Statistics	21
ALY 2100	Introduction to Programming for Data Analytics	
CET 2200	Data Structures and Algorithms	
CET 2300	Object-Oriented Programming	
GET 2100	Computer Engineering Programming and Analysis	
ITC 2430	E-Commerce Systems	
ITC 3100	Advanced Applications Development (Android)	
ITC 3150	Database Websites	
ITC 3300	Structured Query Language (SQL)	
ITC 3320	Data Warehousing Technologies	
ITC 3400	Web Design and Multimedia	
ITC 4690	Software Engineering and Security	
PJM 3000	Leading Agile Projects	
ITC 4973	Topics in Emerging Information Technologies	
Complete two courses (6 semester hours) from the systems administration and cybersecurity concentration.		6

### COMPUTER PROGRAMMING CONCENTRATION

Code	Title	Hours
ALY 2010	Probability Theory and Introductory Statistics	3
ALY 2100	Introduction to Programming for Data Analytics	3
CET 2200	Data Structures and Algorithms	3
ITC 3150	Database Websites	3
or ITC 3300	Structured Query Language (SQL)	
ITC 3220	Mobile and Wireless Networking	3
ITC 4200	Network Security	3

ITC 3100	Advanced Applications Development (Android)	3
ITC 4690	Software Engineering and Security	3
ITC 4973	Topics in Emerging Information Technologies	3

**SYSTEMS ADMINISTRATION AND CYBERSECURITY CONCENTRATION**

Code	Title	Hours
Complete seven courses from the following that have not been taken to fulfill major requirements:		21
ITC 3220	Mobile and Wireless Networking	
ITC 3250	UNIX Systems Administration	
ITC 3620	Legal and Ethical Issues in Cybersecurity	
ITC 4200	Network Security	
ITC 4260	Database Administration	
ITC 4660	Encryption Concepts	
ITC 4670	Software Vulnerabilities	
ITC 4680	Forensics in Information Technology	
ITC 4690	Software Engineering and Security	
ITC 4973	Topics in Emerging Information Technologies	
Complete two courses (6 semester hours) from the applications development or computer programming concentrations.		6

**Open Electives**

Complete a minimum of 33 semester hours of NUpath and open electives to reach 120 semester hours.

**NUpath Requirements Satisfied**

- Analyzing/Using Data (AD)
- Capstone Experience (CE)
- Engaging Differences/Diversity (DD)
- Ethical Reasoning (ER)
- Conducting Formal/Quantitative Reasoning (FQ)
- Natural/Designed World (ND)
- Writing-Intensive in the Major (WI)
- Advanced Writing in the Disciplines (WD)

Students are responsible for using the general electives in this program to complete the Interpreting Culture (IC) and Societies and Institutions (SI) NUpath requirements not satisfied by the required courses in this program.

**Plan of Study**

Term 1	Hours
ENG 1105 and ENG 1106	4
ITC 1200	3
MGT 1100	3
MTH 1100	3
Complete one of the following:	3
ITC 3620	
PHL 2100	
PHL 2140

## Mechatronics, BS

The Bachelor of Science in Mechatronics is designed to provide students with an interdisciplinary set of skills that will enable them to successfully compete in today's fast-changing manufacturing environment. The program is designed to equip students with the knowledge and relevant experience in the four major areas that compose mechatronics and to help students play key roles in the Fourth Industrial Revolution—mechanical systems, electrical systems, control systems, and computer engineering. Successful graduates will understand in-depth the engineering fundamentals, the related technologies, and their integration in robotic and mechatronic devices and automation systems.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

### General Education Courses

Code	Title	Hours
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
CMN 1100	Organizational Communication	3
ECN 1200	Principles of Macroeconomics	3
ENG 3105 and ENG 3106	Writing for the Professions: Science and Engineering and Lab for ENG 3105	4
ITC 3620	Legal and Ethical Issues in Cybersecurity	3

### Engineering Education Courses

Code	Title	Hours
MTH 2100	Calculus 1	3
MTH 2105	Calculus 2	3
MTH 3300	Applied Probability and Statistics	3
GET 1150	Foundations of Engineering Graphics and Design	3
GET 2100	Computer Engineering Programming and Analysis	3
MET 3300	Engineering Materials Science	3
PHY 1200 and PHY 1201	Physics 1 and Lab for PHY 1200	4

### Fundamental Mechatronics Courses

Code	Title	Hours
CET 2100	Essentials of Computer Organization	3
CET 2200	Data Structures and Algorithms	3
CET 3100	Computer Networking and Communications Technology	3
EET 2005 and EET 2006	Circuits AC/DC and Lab for EET 2005	5
EET 3100 and EET 3101	Electronics 1 and Lab for EET 3100	5
EET 3750	Linear Systems (Linear Systems)	3
EET 3800	Control Systems (Control Systems)	3
MET 2100	Mechanics 1: Statics	3
MET 2200	Mechanics 2: Dynamics (Linear Systems)	3
MET 4100	Mechanical Engineering Systems Design	3

EET 3200 and EET 3201	Electronics 2 and Lab for EET 3200	5
--------------------------	---------------------------------------	---

### Advanced Mechatronics Courses

Code	Title	Hours
AVM 4100	Mechatronics	3

<b>Total Hours: 120</b>		

## Project Management, BS

Program Mission—The Bachelor of Science in Project Management in the College of Professional Studies provides students opportunities to apply project management processes; foundational knowledge; and the technical, professional, and strategic expertise necessary to lead projects successfully from inception to completion. With emphasis on experiential learning, the program provides dynamic opportunities for learners with varying degrees of work experience to practice their knowledge within each course and beyond the classroom while implementing traditional and innovative project management concepts to real-life and complex projects. Courses align to all three components of the PMI Talent Triangle,<sup>1</sup> which encompasses technical project management skills, leadership-related skills, and strategic and business acumen and skills.

The increasingly important role of project managers is becoming clear as companies orient more of their work in a projectized fashion. This has been made evident through the creation of industry certifications, such as the Project Management Professional (PMP®) and the Certified Associate in Project Management (CAPM®) credential by the Project Management Institute.<sup>2</sup>

PMI's Job Growth and Talent Gap, 2017–2027, notes that on an annual basis, there will be the demand to fill 2.2 million new project-management-oriented jobs worldwide per year through 2027.<sup>3</sup> The Bachelor of Science in Project Management program seeks to provide learners with the tools, techniques, and interdisciplinary skills necessary to work successfully in any environment. Students in this program have an opportunity to train in those skills that are most critical to their success: project management processes and tools, financial analysis, strategic and leadership skills, and communication skills and strategies.

<sup>1</sup> Learn more about the Talent Triangle and the associated research at the following link: <http://www.pmi.org/learning/talent-management-resources.aspx>.

<sup>2</sup> For additional information on PMI certifications, go to <https://www.pmi.org/certifications> (<https://www.pmi.org/certifications/>).

<sup>3</sup> For the full report, go to <https://www.pmi.org/learning/careers/job-growth> (<https://www.pmi.org/learning/careers/job-growth/>).

### Program Requirements

Complete all courses listed below unless otherwise indicated.

#### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

#### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

NUpath requirements Creative Expression and Innovation (EI) and Engaging with Natural and Designed World (ND) are not explicitly satisfied by required courses in the curriculum at this time. Students are responsible for satisfying these requirements, and if these are not fulfilled in required major courses, they should use general electives to do so.

#### Foundation Courses

66 semester hours required

Code	Title	Hours
<b>English</b>		
Complete the following:		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4

## Psychology, BS

The psychology degree at the College of Professional Studies is designed to prepare students with the knowledge, skills, and dispositions needed to serve individuals, groups, organizations, and communities in the 21st century.

The degree provides students with a strong foundational knowledge within the discipline of psychology, including relevant theory and research that promotes social consciousness and intellectual and interpersonal growth. With an emphasis on scientific thinking, ethical behavior, and respect for diversity, students are offered an opportunity to cultivate insight about human behaviors and mental processes and demonstrate concern for the well-being of their surrounding and global communities. Students can opt to major or minor in the degree and choose from specific tracks preparing for careers in applied behavioral analysis and work across a wide range of settings and populations, including educational and clinical settings.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Universitywide Requirement

Minimum 120 total semester hours required.

Minimum 2.000 GPA required.

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.

*Note:* Individual program requirements may exceed the above minima.

### NUpath Requirements

All undergraduate students are required to complete the NUpath requirements (p. 86).

#### Foundation Courses

49 semester hours required

Code	Title	Hours
<b>English</b>		
ENG 1105 and ENG 1106	College Writing 1 and Lab for ENG 1105	4
ENG 1107 and ENG 1108	College Writing 2 and Lab for ENG 1107	4

PSY 1050	Introduction to Behavioral Health Science Professions	3
PSY 1100	Foundations of Psychology	3
PHL 2130	Ethical Issues in Healthcare	3
PSY 2110	Principles of Human Learning	3
PSY 2230	Stress, Resilience, and Behavior Change	3
PSY 3220	Cognition and Language	3
<b>Social Sciences</b>		
CMN 1100	Organizational Communication	3
SOC 1100	Introduction to Sociology	3
<b>Biology</b>		
BIO 1100 and BIO 1101	Principles of Biology 1 and Lab for BIO 1100	4
<b>Information Technology</b>		
ITC 2016	End-User Data Analysis Tools	3

### Major Required Courses

27 semester hours required

Code	Title	Hours
<b>Human Behavior</b>		
HSV 2200 or PSY 2500	Introduction to Clinical Practice Applied Behavior Analysis 1	3
HSV 2240	Human Behavior in the Social Environment	3
PSY 3200	Social Psychology	3
PSY 3210	Abnormal Psychology	3
PSY 4230	Physiological Psychology	3
<b>Cognition and Development</b>		
PSY 3230	Development across the Life Span	3
<b>Research</b>		
PSY 3450	Research in Psychology	3
<b>Practicum</b>		
PSY 4600	Advanced Practicum 1	3
PSY 4700	Advanced Practicum 2	3

## Professional Tracks

15 semester hours required

Choose one of the tracks below:

Code	Title	Hours
<b>Applied Behavioral Analysis Track</b>		
PSY 2500	Applied Behavior Analysis 1	3
PSY 3330	Autism Spectrum Disorders	3
PSY 3500	Applied Behavior Analysis 2	3
PSY 4400	Behavior Assessment and Evaluation	3
PSY 3700	Behavior Measurement	3
<b>Clinical Track</b>		
HSV 2200	Introduction to Clinical Practice	3
HSV 3200	Techniques in Individual and Group Counseling	3
PSY 2240	Human Sexuality and Love	3
PSY 3150	The Opioid Crisis	3
PSY 4310	Personality	3
<b>MAT (Education) Track</b>		
EDU 6104	Child and Adolescent Development, Learning, and Teaching	4
EDU 6107	Inclusion, Equity, and Diversity	4
EDU 6051	Introduction to Social Justice in Educational Settings	4
EDU 6101	Critical Issues in Education: Past and Present	2
EDU 6102	Reflection, Community Engagement, and Agency in Education	2
EDU 6086	Foundations of Literacy Development and Instruction	4

## Open Electives

Complete a minimum of 29 semester hours to reach 120 semester hours.

### NUPATH REQUIREMENTS SATISFIED

- Analyzing/Using Data (AD)
- Capstone Experience (CE)
- Engaging Difference/Diversity (DD)
- Ethical Reasoning (ER)
- Conducting Formal/Quantitative Reasoning (FQ)
- Interpreting Culture (IC)
- Natural/Designed World (ND)
- Society/Institutions (SI)

- Writing Intensive in the Major (WI)
- Advanced Writing in the Disciplines (WD)

Students are responsible for using the general electives in this program to complete NUpath requirements not satisfied by required courses in this program.

## Plan of Study

Term 1	Hours	
ENG 1105 and ENG 1106		4
MTH 1100		3
PSY 1100		3
SOC 1100		3

## Undergraduate Certificate Programs

- Accounting, Undergraduate Certificate (p. 145)
- Advanced Accounting, Undergraduate Certificate (p. 146)
- Analytics, Undergraduate Certificate (p. 147)
- Healthcare Administration, Undergraduate Certificate (p. 148)
- Premedical Studies, Postbaccalaureate Undergraduate Certificate (p. 149)
- Principles of Manufacturing, Undergraduate Certificate (p. 151)
- Project Management, Undergraduate Certificate (p. 152)

## Accounting, Undergraduate Certificate

The certificate program in accounting seeks to provide a broad base of knowledge in accounting principles, including how to compile, analyze, and prepare critical business and financial records. The program is well suited for those who are interested in improving their accounting skills for a current management or bookkeeping position or for those who are seeking an entry-level position in the accounting field.

Students enrolled in the Bachelor of Science in Finance and Accounting degree program are not eligible for this certificate program. A maximum of 12 semester hours of course work may be transferred into the program.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

#### Prerequisite

Code	Title	Hours
MTH 1100	College Algebra	3

#### Required Courses

Code	Title	Hours
ACC 2100	Financial Accounting	3
ACC 2200	Managerial Accounting	3
ACC 2300	Cost Accounting	3
ACC 3201	Financial Reporting and Analysis 1	3
ACC 3202	Financial Reporting and Analysis 2	3
FIN 2105	Introduction to Corporate Finance	3

#### Program Requirement

18 total semester hours required

## Advanced Accounting, Undergraduate Certificate

The certificate program in advanced accounting is designed for those individuals who already possess an understanding of accounting principles and would like to prepare for an accounting-related career such as auditing, financial analysis, taxation, budgeting and control, cost accounting, or asset management.

This program can be paired with additional course work to meet the minimum CPA educational requirements for those possessing an approved bachelor's degree and meeting all other CPA exam requirements. In addition, the certificate provides nonaccounting managers with a solid foundation in accounting practices relative to new legislation that requires executives to be responsible for the financial statements and internal controls of their organizations.

Students enrolled in the Bachelor of Science in Finance and Accounting Management degree program are not eligible for this certificate program.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

#### Prerequisite Courses

Code	Title	Hours
ACC 2100	Financial Accounting	3
ACC 2200	Managerial Accounting	3
FIN 2105	Introduction to Corporate Finance	3

#### Required Courses

Code	Title	Hours
ACC 2300	Cost Accounting	3
ACC 3201	Financial Reporting and Analysis 1	3
ACC 3202	Financial Reporting and Analysis 2	3
ACC 3330	Principles of Auditing	3
ACC 3410	Principles of Taxation	3
ACC 4320	Financial Statement Analysis	3
ACC 4410	Advanced Taxation	3
ACC 4420	Advanced Accounting	3
MGT 2330	Business Law	3
PHL 2100	Business Ethics	3

### Program Requirement

30 total semester hours required

## Analytics, Undergraduate Certificate

The certificate in analytics is designed to assist and inform students looking to change careers or to upskill the current workforce in appropriate industries. The certificate is designed to meet the needs of people currently working in finance, accounting, system networking, computer programming, or related fields who will benefit professionally by developing skills in data analytics. The curriculum offers students an opportunity to obtain a basic understanding of data literacy; data structure; and management, statistical literacy, and analytical thinking. Credits earned toward the certificate may be used to satisfy the requirements of a bachelor's degree in the College of Professional Studies.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
MTH 1100	College Algebra	3
MTH 2400 or PHL 2310	Technology and Applications of Discrete Mathematics Symbolic Logic	3
ALY 2010	Probability Theory and Introductory Statistics	3
ALY 2100	Introduction to Programming for Data Analytics	3
ALY 3015	Intermediate Statistics for Data Analytics	3
ALY 3070	Communication and Visualization for Data Analytics	3
ALY 4000	Analytics Using R	3
Complete one of the following:		3
ALY 3040	Data Mining	
ALY 3110	Big Data and Web Mining	
ALY 4020	Predictive Analytics Using R and Python	

### Program Requirement

24 total semester hours required

## Healthcare Administration, Undergraduate Certificate

The Certificate in Healthcare Administration is designed to assist learners looking to change careers and upskill the current workforce in the healthcare industry. Additionally, this certificate creates a formal way for learners in other bachelor's degree programs, such as management and analytics, to specialize in the healthcare field. The certificate is designed to meet the needs of people currently working in healthcare, finance, technology, management, policy, or related fields who will benefit professionally by developing skills in healthcare administration. The curriculum provides learners with a basic understanding of organizational communication, public health, health law and regulation, healthcare operations, and human resource management.

Credits earned in this certificate may be used to satisfy some of the degree requirements of the Bachelor of Science in Healthcare Administration. For further information, see *Seeking More Than One Certificate or Degree* (p. 9).

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
CMN 1100	Organizational Communication	3
HMG 1100	Foundations of Healthcare Management	3
HMG 2100	Healthcare Operations	3
HMG 2110	Health Law and Regulation	3
HRM 2320	Human Resources Management	3
HMG 3225	Public Health	3

#### Program requirement

18 total semester hours required

## Premedical Studies, Postbaccalaureate Undergraduate Certificate

If you already hold an undergraduate degree in a science discipline and are interested in pursuing a career in medicine, the **Postbaccalaureate in Premedical Studies** certificate may be ideal for you. Enabling you to enhance your existing academic record by completing **premedical courses**, this innovative program prepares you to successfully apply to a medical, dental, osteopathic, nursing, or other program to prepare for a career in a health professional field.

Designed for students who require all or most of the basic premedical courses, this program offers one-on-one advising, tutoring, success coaching, and other academic support services.

### Program Objectives

Designed to enhance and build on your previous academic record through additional premedical coursework, this postbaccalaureate certificate covers concepts in biology, chemistry, and physics. You will have the opportunity to tailor your learning experience by choosing from optional electives in human anatomy, microbiology, genetics, cell biology, immunology, endocrinology, biochemistry, statistics, emergency medical technician (EMT) basics, and calculus. As a result of your learning experience, you will be well equipped to apply to medical, dental, osteopathic, or a health professional school.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

Students should check with the school(s) and programs of their choice to determine which courses they need to apply for admittance. Additional work in biology, the behavioral sciences, clinical experience, or research experience may be recommended by different schools.

### Required Courses

Code	Title	Hours
Complete at least eight of the following:		30-64
<b>Mathematics</b>		
MTH 2100	Calculus 1	
MTH 2105	Calculus 2	
MTH 2310	Statistics for the Behavioral and Social Sciences	
<b>Biology</b>		
BIO 1100 and BIO 1101	Principles of Biology 1 and Lab for BIO 1100	
BIO 1200 and BIO 1201	Principles of Biology 2 and Lab for BIO 1200	
BIO 2100 and BIO 2101	Microbiology and Lab for BIO 2100	
BIO 2300	Cell Biology	
BIO 2500 and BIO 2501	Genetics and Molecular Biology and Lab for BIO 2500	
BIO 3100 and BIO 3101	Biochemistry and Lab for BIO 3100	
BIO 1600 and BIO 1601	Human Anatomy and Physiology 1 and Lab for BIO 1600	
BIO 1700 and BIO 1701	Human Anatomy and Physiology 2 and Lab for BIO 1700	
<b>Chemistry</b>		
CHM 1100 and CHM 1101	General Chemistry 1 and Lab for CHM 1100	
CHM 1200 and CHM 1201	General Chemistry 2 and Lab for CHM 1200	
CHM 2110 and CHM 2111	Organic Chemistry 1 and Lab for CHM 2110	
CHM 2200 and CHM 2201	Organic Chemistry 2 and Lab for CHM 2200	
<b>Physics</b>		
PHY 1200 and PHY 1201	Physics 1 and Lab for PHY 1200	
PHY 2200 and PHY 2201	Physics 2 and Lab for PHY 2200	

**Psychology**

PSY 1100

Foundations of Psychology

**Program Requirement**

30–64 total semester hours required

## Principles of Manufacturing, Undergraduate Certificate

The Certificate in Manufacturing Principles offers students an opportunity to learn the fundamentals of manufacturing systems and seeks to prepare them to better succeed in entry-level positions with the potential for accelerated promotion within a company. The coursework has been developed in partnership with industry partners and is regularly reviewed and revised by an industry advisory board to ensure that the curriculum is current with industry standards, workplace needs, and incorporates real-world applications.

### Program Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
MTH 2120	Technical Math 1	3
MTH 2500	Statistical Quality Control	3
GET 1100	Introduction to Engineering and Technology	3
GET 1150	Foundations of Engineering Graphics and Design	3
MET 2000	Engineering Computer-Aided Design and Tolerance Analysis	3
AVM 1150	Fundamentals of Manufacturing Systems	3
AVM 1200	Fundamentals of Safety, Health, and Environmental Issues	3
AVM 2200	Composite Materials and Applications	3

### Program Requirement

24 total semester hours required

## Project Management, Undergraduate Certificate

The certificate in project management seeks to prepare graduates to enter entry-level jobs in organizations as a project manager, associate project manager, PM assistant, project administrator, project coordinator, PMO specialist, and project controller. The program also provides working project manager professionals with an avenue to complete their educational goals through degree completion, with opportunities for specialization and advancement within their chosen field. In addition, the certificate in project management is designed to prepare students to enter the Bachelor of Science in Project Management degree with 24 required credits completed, allowing for accelerated program completion.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
PJM 1100	Project Management Fundamentals - Project Initiation and Close	3
PJM 1400	Project Planning	3
PJM 2000	Project Monitoring and Control	3
PJM 2100	Quality and Risk	3
CMN 1100	Organizational Communication	3
MGT 1100	Introduction to Business	3
MGT 2100	Principles of Management	3
MGT 2310	Organizational Behavior	3

### Program Credit/GPA Requirements

24 total semester hours required

## Undergraduate Minors

### Eligibility Requirements for Bachelor's Degree Minors

An undergraduate minor requires a minimum of 15 but no more than 18 semester hours of undergraduate-level coursework. You may choose from the undergraduate minors below, and your completed minor will appear on your academic transcript.

If you do not declare a minor at the time of application for admission, you will need to complete the appropriate minor form in consultation with your designated academic and student support specialist.

### Eligibility Requirements

- The student must be accepted or enrolled in a bachelor's degree program.
- The program of study for the student's major and minor cannot be the same where the requirements for the minor are a subset of requirements in the major, e.g., a BS student with a biology major cannot enroll in the biology minor; a BS student with a management major cannot enroll in the business minor.
- The student must fulfill all requirements for the minor and degree concurrently and may not extend their program of study to complete a minor. However, courses used to fulfill requirements for the minor may also be used to complete undergraduate degree requirements.
- The student may declare their intent to pursue a minor at time of application for admission or after acceptance as an enrolled student, up until the beginning of their last term of enrollment. It is strongly encouraged that a student who wishes to pursue an undergraduate minor begin planning early and to consult with their designated academic and student support specialist.
- The student may apply to pursue up to two undergraduate minors.
- The student must adhere to the curriculum of the undergraduate minor(s) for which they have been approved. If the student wishes to request a course substitution to fulfill requirements of an undergraduate minor, they must seek prior approval through their designated academic and student support specialist. If the student does not complete the courses as prescribed in the curriculum and did not seek prior approval for an exception, such actions could lead to the minor not appearing on the student's transcript.
- The student may apply up to 6 semester hours of transfer credits toward an undergraduate minor.

### Minors

- Biology (p. 154)
- Business (p. 155)
- Creative Writing (p. 156)
- Environmental Science (p. 157)
- Healthcare Administration (p. 158)
- History (<http://catalog.northeastern.edu/professional-studies/undergraduate-minors/history/>)
- Information Technology (p. 159)
- Organizational Communication (p. 160)
- Psychology (p. 161)
- Sociology (p. 162)

## Biology, Minor

Develop a basic understanding of the organization and the processes of life, from molecules and cells through organs and organ systems to populations, species, ecosystems, and evolution.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
BIO 1100 and BIO 1101	Principles of Biology 1 and Lab for BIO 1100	4
BIO 1200 and BIO 1201	Principles of Biology 2 and Lab for BIO 1200	4
BIO 2100 and BIO 2101	Microbiology and Lab for BIO 2100	4
BIO 2300	Cell Biology	3

### Elective

Code	Title	Hours
Complete 3 semester hours in the following subject areas:		3
BIO, BTC		

### Program Requirement

18 total semester hours required

## Business, Minor

Introduces nonbusiness students to key functional areas in business, offering a broad overview of the business world. The minor is not available to management or finance and accounting management students.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
MGT 1100	Introduction to Business	3
or HMG 1100	Foundations of Healthcare Management	
ACC 2100	Financial Accounting	3
FIN 2105	Introduction to Corporate Finance	3
MGT 2310	Organizational Behavior	3

### Elective

Code	Title	Hours
Complete 3 semester hours in the following subject areas:		3
ACC, FIN, MGT, MKT		

### Program Requirement

15 total semester hours required

## Creative Writing, Minor

The creative writing minor allows students an opportunity to gain experience in a variety of forms of writing to better understand the writing process and the relationship between forms and genres. Students may use one elective course to study literature, technical writing, or writing in the professions.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ENG 3220	Writing Poetry	3
ENG 3230	Writing Fiction	3
ENG 3240	Writing Nonfiction	3
ENG 3260	Writing to Inform and Persuade	3
Complete 3 semester hours from any of the following ranges:		3
ENG 1000–ENG 5999		
ITC 1000–ITC 5999		
TCC 1000–TCC 5999		

### Program Requirement

15 total semester hours required

## Environmental Science, Minor

The minor in environmental science introduces students to the science of the environment along with the social and political issues that impact environmental policy.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ESC 1100	The Geosphere: Physical and Historical Geology	3
ESC 1150	The Atmosphere	3
ESC 1200	The Hydrosphere: Oceanography, Ground and Surface Water	3

### Electives

Code	Title	Hours
Complete 3 semester hours from the following ranges:		3
BIO 1000 to BIO 5999		
ESC 1000 to ESC 5999		
POL 1000 to POL 5999		
Complete 3 semester hours from the following range:		3
ESC 1000 to ESC 5999		

### Program Requirement

15 total semester hours required

## Healthcare Administration, Minor

The healthcare administration minor introduces students to the principles underlying operational, financial, and regulatory management in a healthcare setting.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
HMG 1100	Foundations of Healthcare Management	3
HMG 2100	Healthcare Operations	3

### Electives

Code	Title	Hours
Complete 9 semester hours in the following subject area:		9
HMG		

### Program Requirement

15 total semester hours required

## Information Technology, Minor

Examine how systems are designed and evaluated and have the opportunity to engage in one programming language.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
ITC 1200	Operating Systems Concepts	3
ITC 2000	Principles of Systems Analysis and Design	3
ITC 2200	Networking Foundations	3

### Electives

Code	Title	Hours
Complete one of the following:		3
ITC 2016	End-User Data Analysis Tools	
ITC 2300	Database Management Systems	
Complete one of the following:		3
ITC 2100	Introduction to Programming (Java)	
ITC 2400	Web and Mobile Development	
GET 2100	Computer Engineering Programming and Analysis	

### Program Requirement

15 total semester hours required

## Organizational Communication, Minor

Develop a broad perspective of organizational communication, including communications during negotiations, crisis, and communication across organizations.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Courses

Code	Title	Hours
CMN 1100	Organizational Communication	3
CMN 2310	Professional Speaking	3
CMN 3220	Introduction to Public Relations	3
CMN 3350	Intercultural Communication	3
CMN 3360	Crisis Communication	3

### Program Requirement

15 total semester hours required

## Psychology, Minor

Examine the various aspects of psychology on an introductory level with an opportunity to focus on areas of interest.

### Minor Requirements

Complete all courses listed below unless otherwise indicated.

### Required Course

Code	Title	Hours
PSY 1100	Foundations of Psychology	3

### Electives

Code	Title	Hours
Complete 12 semester hours in the following subject area:		12
PSY		

### Program Requirement

15 total semester hours required

**Sociology, Minor**

The minor in sociology offers students an opportunity to explore human behavior and interaction on an individual and societal level.

**Minor Requirements**

Complete all courses listed below unless otherwise indicated.

**Required Course**

Code	Title	Hours
SOC 1100	Introduction to Sociology	3

**Electives**

Code	Title	Hours
Complete 12 semester hours in the following subject area:		12
SOC		

**Program Requirement**

15 total semester hours required

## Accelerated Bachelor/Graduate Degree Programs

The College of Professional Studies offers a number of bachelor's/graduate degree programs that allow students to accelerate the attainment of the graduate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Degrees are earned sequentially, with the bachelor's degree attainment followed by coursework to complete the graduate degree. See additional information on accelerated bachelor/graduate degree programs (<https://registrar.northeastern.edu/article/plusone-program-accelerated-bachelorgraduate-degree-programs/>).

## University Faculty

Faculty information for 2023-2024 will be published by the end of August 2023.

### A

#### **Ammar Aamer**

Associate Teaching Professor, College of Professional Studies; University of Tennessee, Knoxville, PhD

#### **Olakunle S. Abawonse**

Zelevinsky Postdoctoral Researcher, Mathematics; State University of New York at Binghamton, PhD

#### **Anis Abdulle**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, BA

#### **Mehdi Abedi**

Associate Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

#### **Margot Abels**

Assistant Teaching Professor, Women's, Gender, and Sexuality Studies and Human Services; Northeastern University, PhD

#### **Emad Aboelela**

Associate Teaching Professor, Electrical and Computer Engineering; University of Miami, PhD

#### **Max Abrahms**

Associate Professor, Political Science; University of California, Los Angeles, PhD

#### **Ali Abur**

Professor, Electrical and Computer Engineering; Ohio State University, PhD

#### **Sunayan Acharya**

Senior Lecturer, Finance; University of Kentucky, PhD

#### **Daniel Adams**

Associate Professor, Architecture; Harvard University, MArch

#### **Quisquella Addison**

Assistant Teaching Professor, Law; Yeshiva University, JD

#### **Libby Adler**

Professor, Law and Women's, Gender, and Sexuality Studies; Northeastern University, JD

#### **Jeffrey Agar**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Georgia, PhD

#### **Rajesh Aggarwal**

Professor, Finance; Harvard University, PhD

#### **Christina Agostinelli-Fucile**

Associate Teaching Professor, World Languages Center; State University of New York at Buffalo, PhD

#### **Ruth Aguilera**

Darla and Frederick Brodsky Trustee Professor in Global Business, International Business and Strategy; Harvard University, PhD

#### **Michael Ahern**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MEd

#### **Amal Ahmed**

Associate Professor, Computer Sciences; Princeton University, PhD

#### **Jaehan Ahn**

Assistant Professor, Accounting; University of Oklahoma, PhD

#### **Laurel Ahnert**

Visiting Assistant Professor, Media and Screen Studies; Georgia State University, PhD

#### **Michal Aibin**

Visiting Associate Teaching Professor, Computer Sciences; Wroclaw University of Technology (Poland), PhD

**Sophia Ainslie**

Associate Teaching Professor, Art + Design; School of the Museum of Fine Arts/Tufts University, MFA

**Derya Aksaray**

Assistant Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Zeynep Aksehirli**

Associate Teaching Professor, Management and Organizational Development; University of California, Los Angeles, PhD

**Mohammad Alam**

Professor, Economics; University of Western Ontario (Canada), PhD

**Noor E. Alam**

Assistant Professor, Mechanical and Industrial Engineering; University of Alberta (Canada), PhD

**Ibrahim Alazza**

Visiting Assistant Teaching Professor, Art + Design; Boston University, MFA

**Brian Albrecht**

Associate Cooperative Education Coordinator, College of Engineering; Carnegie Mellon University, MS

**Daniel Aldrich**

Professor, Political Science and Public Policy and Urban Affairs; Harvard University, PhD

**Todd M. Alessandri**

Associate Professor, International Business and Strategy; University of North Carolina, Chapel Hill, PhD

**Jacques Alexis**

Associate Teaching Professor, College of Professional Studies; University of Maryland, PhD

**Noor Ali**

Associate Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Nicole Aljoe**

Professor, English and Cultures, Societies, and Global Studies; Tufts University, PhD

**Greg Allen**

Visiting Assistant Professor, Theatre; University of Massachusetts, Amherst, MFA

**Kristen Allison**

Assistant Professor, Communication Sciences and Disorders; University of Wisconsin, Madison, PhD

**Michael Allshouse**

Assistant Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Meryl Alper**

Associate Professor, Communication Studies; University of Southern California, PhD

**Shannon Alpert**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Charlotte, PhD

**Akram N. Alshawabkeh**

University Distinguished Professor, George A. Snell Professor of Engineering, Civil and Environmental Engineering; Louisiana State University, PhD

**Wael Altali**

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, PhD

**Sari Altschuler**

Associate Professor, English; City University of New York, PhD

**Ismet B. Altunkaynak**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Kaitlyn Alvarez Noli**

Assistant Professor, Public Policy and Urban Affairs and Health Sciences; University of California, Irvine, PhD

**Said Amal**

Research Assistant Professor, Bioengineering; Haifa University (Israel), PhD

**Christopher Amato**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Steven Amato**

Teaching Professor, College of Professional Studies; Boston College, PhD

**Bolor Amgalan**

Assistant Teaching Professor, Art + Design; Parsons School of Design, MFA

**Jane Amidon**

Professor, Architecture; Harvard University, MLA

**Mansoor M. Amiji**

University Distinguished Professor, Pharmaceutical Sciences and Chemical Engineering; Purdue University, PhD

**Rouzbeh Amini**

Associate Professor, Mechanical and Industrial Engineering and Bioengineering; University of Minnesota, PhD

**Mahshid Amirabadi**

Associate Professor, Electrical and Computer Engineering; Texas AM University, PhD

**Ghita Amor-Tijani**

Assistant Teaching Professor, Computer Sciences; George Washington University, PhD

**Parisa Andalib**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Roy Anderson**

Visiting Lecturer, Supply Chain and Information Management; Babson College, MBA

**Jonathan Andrew**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; SIT Graduate Institute, MA

**Jose Annunziato**

Assistant Teaching Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Mark Aparece**

Assistant Teaching Professor, Chemistry and Chemical Biology; Boston College, PhD

**Javier Apfeld**

Assistant Professor, Biology; University of California, San Francisco, PhD

**Tsuguo Aramaki**

Assistant Professor, Physics; Columbia University, PhD

**Michael Arnold Mages**

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

**Cheryl Arruda**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Alpha Arsano**

Assistant Professor, Architecture; Massachusetts Institute of Technology, PhD

**Katherine Ashley**

Associate Teaching Professor, Supply Chain and Information Management; University of California, Berkeley, PhD

**Javed A. Aslam**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Anand Asthagiri**

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Jared R. Auclair**

Associate Teaching Professor, Biotechnology; University of Massachusetts, PhD

**Debra Auguste**

Professor, Chemical Engineering; Princeton University, PhD

**Earlene Avalon**

Associate Teaching Professor, College of Professional Studies; Simmons College, PhD

**Emily Avery-Miller**

Associate Teaching Professor, English; Emerson College, MFA

**Hava Avraham**

Research Associate Professor, Center for Drug Discovery; Hebrew University of Jerusalem (Israel), PhD

**Joseph L. Ayers**

Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

**B****Robert Baginski**

Associate Clinical Professor, Medical Sciences; University of Connecticut, MD

**Keith Bagley**

Associate Clinical Professor, Computer Sciences; University of Massachusetts, Lowell, PhD

**Jianqui Bai**

Associate Professor and Gary Gregg Faculty Fellow, Finance; University of Southern California, PhD

**Rekha Bai**

Assistant Teaching Professor, Mathematics; University of Iowa, PhD

**Ruobing Bai**

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Ambika Bajpayee**

Assistant Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Alison K. Baker**

Assistant Teaching Professor, Psychology; Northeastern University, PhD

**Brook K. Baker**

Professor, Law; Northeastern University, JD

**Shalanda H. Baker**

Professor, Law and Public Policy and Urban Affairs; Northeastern University, JD

**Ilter Bakkal**

Assistant Teaching Professor, Economics; Northern Illinois University, PhD

**Benita Bamgbade**

Assistant Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PhD

**Elitsa Banalieva**

Associate Professor, International Business and Strategy; Indiana University, PhD

**Debra Bangs**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Arun Bansil**

University Distinguished Professor, Physics; Harvard University, PhD

**Ning Bao**

Assistant Professor, Physics and Mathematics; Stanford University, PhD

**Albert-László Barabási**

Robert Gray Dodge Professor and University Distinguished Professor, Physics and Computer Sciences; Boston University, PhD

**Emanuela Barberis**

Professor, Physics; University of California, Santa Cruz, PhD

**Sumner Barenberg**

Professor of the Practice, Bioengineering; Case Western Reserve University, PhD

**Christopher Barney**

Visiting Assistant Professor, Game Design; Azusa Pacific University, BS

**Cynthia Baron**

Senior Academic Specialist, College of Professional Studies; Northeastern University, MBA

**Timothy Barr**

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

**Amilcar Barreto**

Professor, Cultures, Societies, and Global Studies and International Affairs; State University of New York at Buffalo, PhD

**Lisa Barrett**

University Distinguished Professor, Psychology; University of Waterloo (Canada), PhD

**Margarita Barrios Ponce**

Associate Teaching Professor, Art + Design; Yale University, MFA

**Carey Barry**

Associate Clinical Professor, Medical Sciences; Quinnipiac University, MS

**Yakov Bart**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; University of California, Berkeley, PhD

**Stefano Basagni**

Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Marla Baskerville**

Associate Professor, Management and Organizational Development; Tulane University, PhD

**John Basl**

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Maureen Basmajian**

Senior Cooperative Education Coordinator, College of Engineering; Boston College, MBA

**Linnea Basu**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MS

**Oleg Batishchev**

Professor of the Practice, Physics; Moscow Institute of Physics and Technology (Russia), PhD

**Allison Bauer**

Associate Teaching Professor, Health Sciences; University of Pennsylvania, PhD

**Kabria Baumgartner**

Associate Professor, History and Cultures, Societies, and Global Studies; University of Massachusetts, Amherst, PhD

**Christopher E. Beasley**

Associate Professor, Mathematics; Princeton University, PhD

**Nicholas Beauchamp**

Assistant Professor, Political Science; New York University, PhD

**Michael Beaudet**

Professor of the Practice, Journalism; Northeastern University, MA

**Laura Beerits**

Assistant Teaching Professor, English; University of Texas, Austin, PhD

**Gail S. Begley**

Teaching Professor, Biology; Boston University, PhD

**Mehdi Behroozi**

Assistant Professor, Mechanical and Industrial Engineering; University of Minnesota, PhD

**Edward Beighley**

Professor, Civil and Environmental Engineering; University of Maryland, PhD

**Leo Beletsky**

Professor, Law and Health Sciences; Temple University, JD

**Jonathan Bell**

Assistant Professor, Computer Sciences; Columbia University, PhD

**Chiara Bellini**

Assistant Professor, Bioengineering; University of Calgary (Canada), PhD

**Kylie Bemis**

Assistant Teaching Professor, Computer Sciences; Purdue University, PhD

**Sidi Bencherif**

Assistant Professor, Chemical Engineering; Carnegie Mellon University, PhD

**Jonathan Benda**

Teaching Professor, Writing Program; Syracuse University, PhD

**James C. Benneyan**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Iris Berent**

Professor, Psychology; University of Pittsburgh, PhD

**Dionisio Bernal**

Professor, Civil and Environmental Engineering; University of Tennessee, PhD

**Elena Bernal Mor**

Assistant Teaching Professor, Electrical and Computer Engineering; Universitat Politècnica de València (Spain), PhD

**Eugene A. Bernstein**

Associate Teaching Professor, Pharmaceutical Sciences; Ivanovo Medical Institute (Russia), PhD

**Enrico Bertini**

Associate Professor, Computer Sciences and Art + Design; Sapienza University of Rome (Italy), PhD

**Michael Bessette**

Assistant Clinical Professor, Medical Sciences; Sackler School of Medicine, PhD

**Allison Betsold**

Artist in Residence, Music; University of Kansas, MM

**Penny Beuning**

Professor, Chemistry and Chemical Biology; University of Minnesota, PhD

**Peter J. Bex**

Professor, Psychology; Cardiff University (United Kingdom), PhD

**Rahul Bhargava**

Assistant Professor, Journalism and Art + Design; Massachusetts Institute of Technology, MA

**Shawn Bhimani**

Assistant Professor, Supply Chain and Information Management; Duke University, PhD

**Adeel Bhutta**

Associate Teaching Professor, Computer Sciences; University of Central Florida, PhD

**Dapeng Bi**

Assistant Professor, Physics; Brandeis University, PhD

**Timothy Bickmore**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Doug Bielmeier**

Associate Teaching Professor, Music; Argosy University, PhD

**Priyanka Bishnoi**

Associate Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Southern California, MS

**Nathan Blake**

Teaching Professor, Media and Screen Studies; University of California, PhD

**Samuel J. Blank**

Professor, Mathematics; Brandeis University, PhD

**Robert J. Blaser**

Associate Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, MS

**Jonathan Blazek**

Assistant Professor, Physics; University of California, Berkeley, PhD

**John Bleakney**

Associate Cooperative Education Coordinator, Graduate School of Engineering; State University of New York at Albany, MA

**Francis Blessington**

Professor, English; Brown University, PhD

**Aaron Block**

Teaching Professor, English; Emerson College, MFA

**Elizabeth M. Bloom**

Teaching Professor, Law; Georgetown University, JD

**Linda Blum**

Professor, Sociology and Anthropology; University of California, Berkeley, PhD

**Rhonda M. Board**

Associate Professor, Nursing; Ohio State University, PhD

**Erika Boeckeler**

Associate Professor, English; Harvard University, PhD

**Samantha Boehm**

Assistant Teaching Professor, Theatre; Brandeis University, MA

**Evisa Bogdani**

Assistant Professor, Accounting; University of Kentucky, PhD

**Philip Bogden**

Associate Teaching Professor, Computer Sciences; University of California, San Diego, PhD

**Eric Bogert**

Assistant Teaching Professor, Supply Chain and Information Management; University of Georgia, PhD

**Christopher Bolick**

Assistant Teaching Professor, College of Professional Studies; Western Carolina University, MS

**Tamara Bonaci**

Assistant Teaching Professor, Computer Sciences; University of Washington, PhD

**Andrew Bonner**

Assistant Clinical Professor, Applied Psychology; University of Florida, PhD

**Raymond G. Booth**

Professor, Pharmaceutical Sciences and Chemistry and Chemical Biology; University of California, San Francisco, PhD

**Monica Borgida**

Assistant Teaching Professor, College of Professional Studies; University of Pisa/University of Bologna (Italy), PhD

**Skylar Borgstrom**

Visiting Assistant Professor, Art + Design; State University of New York at Buffalo, MA

**Michelle Borkin**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Natalie Bormann**

Teaching Professor, Political Science; University of Newcastle upon Tyne (United Kingdom), PhD

**Jeffery A. Born**

Professor, Finance; University of North Carolina, Chapel Hill, PhD

**Jordon Bosse**

Assistant Professor, Nursing; University of Massachusetts, Amherst, PhD

**Christopher Bosso**

Professor, Public Policy and Urban Affairs; University of Pittsburgh, PhD

**Ekaterina Botchkovar**

Associate Professor, Criminology and Criminal Justice; North Carolina State University, PhD

**Kevin Boudreau**

Associate Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alma Bournazian**

Senior Academic Specialist, American Sign Language; Western Maryland College, MS

**Stacey Bourns**

Professor, World Languages Center; University of Texas, Austin, PhD

**Carla Bouwmeester**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Jennifer L. Bowen**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**James Boyer**

Assistant Academic Specialist, Accounting; Northeastern University, MBA

**Nicole M. Boyson**

Professor, Finance; Ohio State University, PhD

**David Brady**

Teaching Professor, Electrical and Computer Engineering; Princeton University, PhD

**Ontonye Braide-Moncoeur**

Associate Teaching Professor, Chemistry and Chemical Biology; University of Florida, PhD

**Maxim Braverman**

Professor, Mathematics; Tel Aviv University (Israel), PhD

**Heather C. Brenhouse**

Associate Professor, Psychology; Northeastern University, PhD

**Becky A. Briesacher**

Associate Professor, Pharmacy and Health Systems Sciences; University of Maryland, Baltimore, PhD

**Amy M. Briesch**

Associate Professor, Applied Psychology; University of Connecticut, PhD

**Elizabeth Britt**

Professor, English; Rensselaer Polytechnic Institute, PhD

**Kevin Broadbelt**

Associate Teaching Professor, Biotechnology; City University of New York, PhD

**Carla Brodley**

Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Tatiana Bronich**

Professor, Pharmacy and Health Systems Sciences; Lomonosov Moscow State University (Russia), PhD

**Mary E. Bronski**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Dana H. Brooks**

Research Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Cammy Brothers**

Associate Professor, Architecture and Art + Design; Harvard University, PhD

**Adam Broughton**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Colin Brown**

Assistant Teaching Professor, Political Science; Harvard University, PhD

**Layla Brown**

Assistant Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; Duke University, PhD

**Needa Brown**

Assistant Teaching Professor, Physics; University of Oklahoma, PhD

**Nicholas Brown**

Assistant Teaching Professor, Graduate School of Engineering; University of California, Los Angeles, PhD

**Nicholas Brown**

Associate Teaching Professor, Architecture and History; University of Illinois, Urbana-Champaign, PhD

**Philip M. Brown**

University Distinguished Professor, Sociology and Anthropology and Health Sciences; Brandeis University, PhD

**Timothy Brown**

Professor, History; University of California, Berkeley, PhD

**Maria Brucato**

Assistant Teaching Professor, World Languages Center; University of Texas, PhD

**Christopher Buell**

Associate Teaching Professor, Criminology and Criminal Justice; Northeastern University, PhD

**Katie Bruner**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Elizabeth Bucar**

Professor, Philosophy and Religion; University of Chicago, PhD

**David E. Budil**

Associate Professor, Chemistry and Chemical Biology; University of Chicago, PhD

**Jamie Bunce**

Assistant Teaching Professor, Biology; University of Connecticut, PhD

**Lucy Bunning**

Associate Teaching Professor, College of Professional Studies; Lesley University, PhD

**Jeffrey Burds**

Associate Professor, History; Yale University, PhD

**Cheryl A. Burke**

Assistant Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

**Lynn H. Burke**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Amherst, MEd

**Margaret A. Burnham**

University Distinguished Professor, Law; University of Pennsylvania, LLB

**José Buscaglia**

Professor, Cultures, Societies, and Global Studies; University of Buffalo, PhD

**Jeremy Bushnell**

Associate Teaching Professor, Writing Program; University of Arizona, Tucson, MFA

**Ahmed A. Busnaina**

University Distinguished Professor, William Lincoln Smith Professor of Mechanical Engineering, Mechanical and Industrial Engineering; Oklahoma State University, PhD

**Michael Butera**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Grace Buttriss**

Clinical Professor, Nursing; Metropolitan State University, St. Paul, DNP

**C****Qinghong Cai**

Teaching Professor, World Languages Center; University of Kansas, MS

**Victoria Cain**

Associate Professor, History; Columbia University, PhD

**Paula Caligiuri**

Distinguished Professor of Global Leadership, International Business and Strategy; Pennsylvania State University, PhD

**Lisa M. Campagnoni**

Associate Cooperative Education Coordinator, College of Science; Northeastern University, MA

**James Campasano**

Assistant Teaching Professor, Finance; University of Massachusetts, Amherst, PhD

**Octavia Camps**

Professor, Electrical and Computer Engineering; University of Washington, PhD

**Yanet Canavan**

Associate Academic Specialist, World Languages Center; Salem State College, MA

**Kristopher Cannon**

Associate Teaching Professor, Media and Screen Studies; Georgia State University, PhD

**Mira Cantor**

Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Gary Cantrell**

Associate Teaching Professor, Computer Sciences; Mississippi State University, PhD

**Jianfei Cao**

Assistant Professor, Economics; University of Chicago, PhD

**Luca Caracoglia**

Associate Professor, Civil and Environmental Engineering; University of Trieste (Italy), PhD

**Benjamin Caras**

Assistant Teaching Professor, Art + Design; University of Massachusetts, Amherst, MFA

**Peter Cardillo**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Boston College, MS

**Alexa A. Carlson**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Butler University, PharmD

**Mary Carney**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Boston College, MSN

**Heather Carpenter-Oliveira**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Jonathan Carr**

Teaching Professor, Theatre; Columbia University, MFA

**Michelle Carr**

Senior Lecturer, Communication Studies; Kingston University (United Kingdom), MA

**Sara Carr**

Assistant Professor, Architecture; University of California, Berkeley, PhD

**Rebecca L. Carrier**

Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Matthew Carroll**

Professor of the Practice, Journalism; Northeastern University, BS

**Elie Casbi**

Zelevinsky Postdoctoral Researcher, Mathematics; Université de Paris (France), PhD

**Patricia Case**

Assistant Teaching Professor, Health Sciences; Harvard University, PhD

**Cristian Cassella**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**N. Fadeke Castor**

Assistant Professor, Philosophy and Religion and African and African American Studies; University of Chicago, PhD

**Smajl Cenjic**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MA

**Christopher Cesario**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Yunrong Chai**

Associate Professor, Biology; Cornell University, PhD

**Srirupa Chakraborty**

Assistant Professor, Chemical Engineering and Chemistry and Chemical Biology; State University of New York at Buffalo, PhD

**Paul M. Champion**

Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Chee Chan**

Associate Academic Specialist, Marketing; Michigan State University, PhD

**Katherine Chan**

Assistant Teaching Professor, Music; University of Minnesota, PhD

**Raman Chandrasekar**

Clinical Professor, Computer Sciences; Tata Institute of Fundamental Research/University of Bombay (India), PhD

**Chiu Chang**

Associate Teaching Professor, Marketing; Indiana University, PhD

**Divya Chaudhary**

Assistant Teaching Professor, Computer Sciences; University of Delhi (India), PhD

**Heidi Cheerman**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Changyan Chen**

Research Professor, Center for Drug Discovery; Columbia University, PhD

**Jingjing Chen**

Visiting Assistant Professor, Finance; Washington State University, PhD

**Qin Chen**

Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Old Dominion University, PhD

**Esther Chewning**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MS

**Cherese Childers-McKee**

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, Greensboro, PhD

**W. Paul Chiou**

Associate Teaching Professor, Finance; Rutgers University, PhD

**David R. Hoffnes**

Associate Professor, Computer Sciences; Northwestern University, PhD

**John Choi**

Assistant Cooperative Education Coordinator, Pharmaceutical Sciences; Harvard University, MS

**Seulah Choi**

Visiting Lecturer, Political Science; Boston University, PhD

**Chun-An Chou**

Assistant Professor, Mechanical and Industrial Engineering; Rutgers University, PhD

**Kaushik Roy Chowdhury**

Professor, Electrical and Computer Engineering; University of Cincinnati, MS

**Leanne Chukoskie**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences and Art + Design; New York University, PhD

**Ken Y. Chung**

Assistant Teaching Professor, Chemistry and Chemical Biology; Michigan State University, PhD

**Myojung Chung**

Assistant Professor, Journalism; Syracuse University, PhD

**Samuel Chung**

Assistant Professor, Bioengineering; Harvard University, PhD

**Hillary Chute**

Distinguished Professor, English and Art + Design; Rutgers University, PhD

**Dawn M. Cisewski**

Associate Teaching Professor, Psychology; Indiana University of Pennsylvania, PsyD

**Paolo Ciuccarelli**

Professor, Art + Design; Politecnico di Milano (Italy), MArch

**Sophie Clachar**

Assistant Teaching Professor, Computer Sciences; University of North Dakota, PhD

**Bruce H. Clark**

Associate Professor, Marketing; Stanford University, PhD

**Edmund L. Clark**

Senior Academic Specialist, Entrepreneurship and Innovation; Clark University, MBA

**Elisha Clark**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MBA

**Meredith Clark**

Associate Professor, Journalism; University of North Carolina, Chapel Hill, PhD

**Stephen B. Clark**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Paul Closas**

Assistant Professor, Electrical and Computer Engineering; Universitat Politècnica de Catalunya (Spain), PhD

**Emily Clough**

Assistant Professor, Political Science and International Affairs; Harvard University, PhD

**Yvonne Coady**

Visiting Professor, Computer Sciences; The University of British Columbia (Canada), PhD

**Robin Coddling**

Associate Professor, Applied Psychology; Syracuse University, PhD

**Mauricio Codesso**

Assistant Teaching Professor, Accounting; Federal University of Santa Catarina (Brazil), PhD

**John D. Coley**

Associate Professor, Psychology; University of Michigan, PhD

**Greg Collier**

Professor of the Practice, Entrepreneurship and Innovation; Eastern Michigan University, MBA

**Patrice Collins**

Assistant Professor, Criminology and Criminal Justice and Cultures, Societies, and Global Studies; Yale University, PhD

**Randall C. Colvin**

Associate Professor, Psychology; University of Illinois, Urbana-Champaign, PhD

**Sally Conant**

Associate Cooperative Education Coordinator, College of Engineering; Salve Regina University, MA

**Richard Conley**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston University, JD

**Kelly Conn**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Thomas Consi**

Teaching Professor, Electrical and Computer Engineering; Columbia University, PhD

**Sara Constantino**

Assistant Professor, Psychology and Public Policy and Urban Affairs; New York University, PhD

**Adam I. Cooper**

Associate Teaching Professor, Linguistics; Cornell University, PhD

**Seth Cooper**

Assistant Professor, Computer Sciences; University of Washington, PhD

**Gene D. Cooperman**

Professor, Computer Sciences; Brown University, PhD

**Calina Copos**

Assistant Professor, Biology and Mathematics; University of California, Davis, PhD

**Lino Coria Mendoza**

Associate Teaching Professor, Computer Sciences; The University of British Columbia (Canada), PhD

**Marie B. Corkery**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**John Cornett**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**Patricia Corrigan**

Assistant Cooperative Education Coordinator, College of Science; Suffolk University, MA

**Felipe Cortes**

Associate Teaching Professor, Finance; Washington University, St. Louis, PhD

**Catherine Cosgrove**

Associate Cooperative Education Coordinator, College of Science; Bridgewater State University, MEd

**Ahmet Coskun**

Associate Teaching Professor, Mechanical and Industrial Engineering; Middle East Technical University (Turkey), PhD

**Xavier Costa**

Professor, Architecture; University of Pennsylvania, PhD

**Sasha Costanza-Chock**

Associate Professor, Media and Screen Studies; University of Southern California, PhD

**Hugh G. Courtney**

Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Jessica Courtney**

Assistant Cooperative Education Coordinator, College of Engineering; Lesley University, MA

**Arthur J. Coury**

University Distinguished Professor, Chemical Engineering; University of Minnesota, PhD

**Erin J. Cram**

Professor and Associate Dean for Research of the College of Science, Biology; University of California, Berkeley, PhD

**Justin D. Crane**

Assistant Professor, Biology; McMaster University (Canada), PhD

**Fiona Creed**

Associate Teaching Professor, College of Professional Studies; University College, Cork (Ireland), PhD

**William F. Crittenden**

Professor, International Business and Strategy; University of Arkansas, PhD

**Wendy Crocker**

Associate Teaching Professor, College of Professional Studies; University of Western Ontario (Canada), PhD

**Danielle Crooks**

Assistant Professor, Health Sciences and Sociology and Anthropology; Columbia University, PhD

**Maia Cross**

Professor, Political Science and International Affairs; Princeton University, PhD

**Robert Cross**

Assistant Teaching Professor, History; Princeton University, PhD

**Pedro Miguel Cruz**

Assistant Professor, Art + Design; Universidade de Coimbra (Portugal), PhD

**Giuseppina Cucciniello**

Assistant Cooperative Education Coordinator, College of Engineering; Università degli Studi di Napoli "L'Orientale" (Italy), MA

**Daniel Cuenca**

Assistant Teaching Professor, World Languages Center; Boston College, PhD

**Alvaro Cuervo-Cazurra**

Professor and Lloyd Mullen Research Fellow, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Carlos Cuevas**

Professor, Criminology and Criminal Justice; Alliant International University, PhD

**Meng Cui**

Research Associate Professor, Center for Drug Discovery; Jilin University (China), PhD

**Derek Curry**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Phillip Curtiss**

Associate Teaching Professor, Electrical and Computer Engineering; University of Maryland, PhD

**Mary Ellen Cushman**

Professor, English; Rensselaer Polytechnic Institute, PhD

**D****Kate Daher**

Assistant Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Guohao Dai**

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

**Elise J. Dallimore**

Associate Professor, Communication Studies; University of Washington, PhD

**James Dana Jr.**

Professor, Economics and International Business and Strategy; Massachusetts Institute of Technology, PhD

**Dan Danielsen**

Professor, Law; Harvard University, JD

**Luis Dau**

Associate Professor and Robert and Denise DiCenso Endowed Professor, International Business and Strategy; University of South Carolina, PhD

**Benyamin Davaji**

Assistant Professor, Electrical and Computer Engineering; Marquette University, PhD

**Milivoje Davidovic**

Assistant Teaching Professor, Finance; Northern Illinois University, PhD

**Juliet Davidow**

Assistant Professor, Psychology; Columbia University, PhD

**Duncan Davis**

Associate Teaching Professor, Engineering; North Carolina State University, PhD

**Martha Davis**

Professor, Law; University of Chicago, JD

**Nicole Davis**

Associate Clinical Professor, Applied Psychology; Simmons College, MS

**Patricia Davis**

Associate Professor, Communication Studies; University of California, San Diego, PhD

**Theo Davis**

Professor, English; Johns Hopkins University, PhD

**Alexander Dawson**

Postgraduate Teaching Fellow, Art + Design; Rhode Island School of Design, MS

**Tovah Day**

Assistant Professor, Biology; Boston University, PhD

**Richard Daynard**

University Distinguished Professor, Law; Massachusetts Institute of Technology, PhD; Harvard University, JD

**Anthony P. De Ritis**

Professor, Music; University of California, Berkeley, PhD

**Robert De Schutter**

Associate Professor, Game Design and Computer Sciences; Katholieke Universiteit Leuven (Belgium), PhD

**Michael Dean**

Assistant Teaching Professor, College of Professional Studies; Columbia University, PhD

**Adenekan (Nick) Dedeke**

Senior Lecturer, Supply Chain and Information Management; Technische Universität Kaiserslautern (Germany), PhD

**Melissa DeGrandis**

Assistant Cooperative Education Coordinator, College of Engineering; Ball State University, MA

**Mohammad Dehghani**

Associate Teaching Professor, Mechanical and Industrial Engineering; Western New England University, PhD

**Candice Delmas**

Associate Professor, Philosophy and Religion and Political Science; Boston University, PhD

**Emrecan Demirors**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**John Dencker**

Professor, Management and Organizational Development; Harvard University, PhD

**James Dennedy-Frank**

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Stanford University, PhD

**Jack Dennerlein**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of California, Berkeley, PhD

**Megan Denver**

Assistant Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Alexander DePaoli**

Assistant Teaching Professor, Marketing; Stanford University, PhD

**Joseph DePasquale**

Associate Teaching Professor, Chemistry and Chemical Biology; Drexel University, PhD

**Leila F. Deravi**

Assistant Professor, Chemistry and Chemical Biology; Vanderbilt University, PhD

**Nate Derbinsky**

Teaching Professor, Computer Sciences; University of Michigan, Ann Arbor, PhD

**Harm Derksen**

Professor, Mathematics; University of Basel (Switzerland), PhD

**Nishil Desai**

Associate Teaching Professor, Pharmaceutical Sciences; Mercer University, PhD

**Rajeev Desai**

Research Associate Professor, Center for Drug Discovery; University of Birmingham, PhD

**Peter J. Desnoyers**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**David A. DeSteno**

Professor, Psychology; Yale University, PhD

**Darin Detwiler**

Associate Teaching Professor, College of Professional Studies; Northeastern University, PhD

**John W. Devlin**

Professor, Pharmacy and Health Systems Sciences; University of Toronto (Canada), PharmD

**Janet Dewan**

Assistant Clinical Professor, Nursing; Northeastern University, PhD

**Christa Dhimo**

Professor of the Practice, Biotechnology; Northeastern University, MS

**Alessandra Di Credico**

Associate Teaching Professor, Physics; University of Rome (Italy), PhD

**Michele Di Piero**

Assistant Professor, Physics; University of Texas, Austin, PhD

**Panagoula Diamanti-Karanou**

Assistant Teaching Professor, International Affairs; Northeastern University, PhD

**Jacqueline Diani**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; University of Virginia, MEd

**Martin Dias**

Associate Teaching Professor, Supply Chain and Information Management; Bentley University, PhD

**Amy DiBattista**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**William Dickens**

Distinguished Professor, Economics and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Elizabeth Dillon**

Distinguished Professor, English; University of California, Berkeley, PhD

**Charles DiMarzio**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Aidong A. Ding**

Associate Professor, Mathematics; Cornell University, PhD

**Hunter Dinkins**

Zelevinsky Postdoctoral Researcher, Mathematics; University of North Carolina, PhD

**Kathleen C. Dioli**

Associate Cooperative Education Coordinator, Chemistry and Chemical Biology; Bowling Green State University, MA

**Brandon Dionne**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of New England, PharmD

**Daniel L. Distel**

Research Professor, Marine and Environmental Sciences; University of California, San Diego, PhD

**Benjamin Dittbrenner**

Associate Teaching Professor, Marine and Environmental Sciences; University of Washington, PhD

**Margarita V. DiVall**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Mark Dockser**

Professor of the Practice, Entrepreneurship and Innovation; Stanford University, MBA

**Mary Kate Dodgson**

Assistant Professor, Accounting; University of Massachusetts, Amherst, PhD

**Lisa Cantwell Doherty**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MA

**Silvia Dominguez**

Associate Professor, Sociology and Anthropology; Boston University, PhD

**Olya Domoradova**

Postgraduate Teaching Fellow, Art + Design; ArtEZ University of the Arts (Netherlands), MS

**Jason Donati**

Teaching Professor, Art + Design; Rochester Institute of Technology, MFA

**Hua Dong**

Senior Academic Specialist, World Languages Center; Emerson College, MA

**Sijia Dong**

Assistant Professor, Chemistry and Chemical Biology; California Institute of Technology, PhD

**Pamela Donlan**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Maeve Donnelly**

Assistant Clinical Professor, Applied Psychology; Western New England University, PhD

**Salvatore D'Oro**

Research Assistant Professor, Electrical and Computer Engineering; University of Catania (Italy), PhD

**Larisa Doroshenko**

Postdoctoral Teaching Associate, Communication Studies; University of Wisconsin, Madison, PhD

**Kristen Dorsey**

Associate Professor, Electrical and Computer Engineering and Physical Therapy, Movement, and Rehabilitation Sciences; Carnegie Mellon University, PhD

**Brenda Douglas**

Associate Clinical Professor, Nursing; Northeastern University, DNP

**Daniel C. Douglass**

Associate Teaching Professor, Marine and Environmental Sciences; University of Wisconsin, PhD

**Mark Douglass**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Michigan, PharmD

**Kevin Drakulich**

Associate Professor, Criminology and Criminal Justice; University of Washington, PhD

**Timothy Dransfield**

Associate Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Laura Dudley**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Lisa Duffy**

Assistant Professor, Nursing; Boston College, DNP

**Tara Duffy**

Associate Teaching Professor, Marine and Environmental Sciences; State University of New York at Stony Brook, PhD

**Daniel M. Dulaski**

Teaching Professor, Civil and Environmental Engineering; University of Massachusetts, Amherst, PhD

**Evan Dummit**

Assistant Teaching Professor, Mathematics; University of Wisconsin, Madison, PhD

**Jill Dupree**

Assistant Teaching Professor, Economics; University of Colorado, Boulder, PhD

**Kathleen Durant**

Assistant Teaching Professor, Computer Sciences; Harvard University, PhD

**Jennifer G. Dy**

Professor, Electrical and Computer Engineering; Purdue University, PhD

**Rashmi Dyal-Chand**

Professor, Law; Harvard University, JD

**E****Sebastian Ebarb**

Associate Teaching Professor, Art + Design; School of Visual Arts, MFA

**Eno Ebong**

Associate Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Stephanie Eby**

Associate Teaching Professor, Marine and Environmental Sciences; Syracuse University, PhD

**Matthew Eckelman**

Associate Professor, Civil and Environmental Engineering; Yale University, PhD

**Kimberly Eddleston**

Professor, Entrepreneurship and Innovation; University of Connecticut, PhD

**Bethany R. Edmunds**

Teaching Professor, Computer Sciences; Rutgers University, PhD

**Laurie Edwards**

Teaching Professor, Writing Program; Emerson College, MFA

**Jessica Edwards George**

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

**Robert C. Eidson**

Assistant Teaching Professor, Psychology; Northeastern University, PhD

**Stanley J. Eigen**

Professor, Mathematics; McGill University (Canada), PhD

**Adam Ekenseair**

Associate Teaching Professor, Chemical Engineering; University of Texas, Austin, PhD

**Ehsan Elhamifar**

Assistant Professor, Computer Sciences; Johns Hopkins University, PhD

**Tina Eliassi-Rad**

Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ryan Ellis**

Associate Professor, Communication Studies; University of California, San Diego, PhD

**Constance Emerson**

Associate Teaching Professor, College of Professional Studies; Purdue University, West Lafayette, MS

**Lee Emrich**

Postdoctoral Teaching Associate, Writing Program; University of California, Davis, PhD

**John R. Engen**

Distinguished Professor, Chemistry and Chemical Biology and Barnett Institute; University of Nebraska, Lincoln, PhD

**Christen Enos**

Associate Teaching Professor, Writing Program; Emerson College, MFA

**Michael Enright**

Pierre Choueiri Family Professor in Global Business, International Business and Strategy; Harvard University, PhD

**Slava S. Epstein**

Professor, Biology; Moscow State University (Russia), PhD

**Randall Erb**

Associate Professor, Mechanical and Industrial Engineering; Duke University, PhD

**Deniz Erdogmus**

Professor, Electrical and Computer Engineering; University of Florida, PhD

**Ozlem Ergun**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Cuneyt Eroglu**

Associate Professor, Supply Chain and Information Management; Ohio State University, PhD

**Bilge Erten**

Associate Professor, International Affairs and Economics; University of Massachusetts, Amherst, PhD

**Rhea T. Eskew**

Professor, Psychology; Georgia Institute of Technology, PhD

**Jonathan Esole**

Associate Professor, Mathematics; Leiden University (Netherlands), PhD

**Tabitha Espina**

Postdoctoral Teaching Associate, English; Washington State University, PhD

**Jennifer Evans**

Teaching Professor, Health Sciences; University of Alabama, PhD

**Michael Everett**

Assistant Professor, Electrical and Computer Engineering and Computer Sciences; Massachusetts Institute of Technology, PhD

**Sara Ewell**

Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**William Ewell**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**F****Daniel Faber**

Professor, Sociology and Anthropology; University of California, Santa Cruz, PhD

**Olubunmi Faleye**

Professor, Finance; University of Alberta (Canada), PhD

**Don Fallis**

Professor, Philosophy and Religion and Computer Sciences; University of California, Irvine, PhD

**Mohammad Fanaei**

Associate Teaching Professor, Electrical and Computer Engineering; West Virginia University, Morgantown, PhD

**Cao Fang**

Assistant Teaching Professor, Finance; University of Arkansas, PhD

**Qianqian Fang**

Associate Professor, Bioengineering; Dartmouth College, PhD

**David Fannon**

Associate Professor, Architecture and Civil and Environmental Engineering; University of California, Berkeley, MS

**Nasser S. Fard**

Associate Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

**Amir Farhat**

Associate Teaching Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

**Johanna E. Farkas**

Assistant Teaching Professor, Biology; Northeastern University, PhD

**Amy Farrell**

Professor, Criminology and Criminal Justice; Northeastern University, PhD

**Sina Fazelpour**

Assistant Professor, Philosophy and Religion and Computer Sciences; The University of British Columbia (Canada), PhD

**Yunsi Fei**

Professor, Electrical and Computer Engineering; Princeton University, PhD

**Adrian E. Feiguin**

Associate Professor, Physics; Universidad Nacional de Rosario (Argentina), PhD

**Allen G. Feinstein**

Teaching Professor, Music; New England Conservatory of Music, MM

**Nathan I. Felde**

Professor, Art + Design; Massachusetts Institute of Technology, MS

**Matthias Felleisen**

Trustee Professor, Computer Sciences; Indiana University, PhD

**Hicham Fenniri**

Professor, Chemical Engineering; Université de Strasbourg (France), PhD

**Loretta A. Fernandez**

Associate Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

**Melissa Ferrick**

Professor of the Practice, Music; Harvard University, MA

**Lori Ferrins**

Research Assistant Professor, Chemistry and Chemical Biology; Monash University (Australia), PhD

**Craig F. Ferris**

Professor, Psychology and Pharmaceutical Sciences; New York Medical College, PhD

**Kirsten Fertuck**

Associate Teaching Professor, Biochemistry; Michigan State University, PhD

**Gregory A. Fiete**

Professor, Physics; Harvard University, PhD

**Susan F. Fine**

Assistant Clinical Professor, Communication Sciences and Disorders; New York University, MA

**Sarah Finn**

Teaching Professor, Writing Program; University of Massachusetts, Amherst, PhD

**Gabrielle Fiorenza-Hagopian**

Assistant Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Jessica Fisher**

Assistant Cooperative Education Coordinator, College of Engineering; Bridgewater State University, MEd

**Branden Fitelson**

Distinguished Professor, Philosophy and Religion; California Institute of Technology, PhD

**Joan Fitzgerald**

Professor, Public Policy and Urban Affairs; Pennsylvania State University, PhD

**Diane F. Fitzpatrick**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Josephine Flanagan**

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, JD

**Julia Flanders**

Professor of the Practice, English and Library Systems; Brown University, PhD

**Eric Folmar**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Quinnipiac University, MS

**Paul Fombelle**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; Arizona State University, PhD

**Ellen Fontana**

Associate Teaching Professor, Communication Studies; University of California, Davis, MA

**Clifton Forlines**

Research Associate Professor, Computer Sciences; University of Toronto (Canada), PhD

**Murray Forman**

Professor, Media and Screen Studies; McGill University (Canada), PhD

**Lisa M. Foster**

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Charles F. Fountain**

Professor, Journalism; Columbia University, MS

**James Fox**

Lipman Family Professor of Criminology, Law, and Public Policy, Criminology and Criminal Justice and Law and Public Policy; University of Pennsylvania, PhD

**Erica P. Frank**

Assistant Teaching Professor, Biology; Baylor College of Medicine, PhD

**Debra L. Franko**

Professor, Applied Psychology; McGill University (Canada), PhD

**Peter Fraunholtz**

Assistant Teaching Professor, History and International Affairs; Boston College, PhD

**Julian M. Fray**

Associate Teaching Professor, Law; Columbia University, JD

**Susan Freeman**

Teaching Professor, Engineering; Northeastern University, PhD

**Clark Freifeld**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

**Michael Fregel**

Associate Academic Specialist, Music; City, University of London (United Kingdom), PhD

**John H. Friar**

Senior Academic Specialist, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Sarah Friedman**

Visiting Assistant Teaching Professor, Art + Design; Boston University, MFA

**Alex Fronduto**

Assistant Teaching Professor, College of Professional Studies; MCPHS University, PhD

**Natasha Frost**

Professor, Criminology and Criminal Justice; City University of New York, PhD

**Yun (Raymond) Fu**

Professor, Electrical and Computer Engineering and Computer Sciences; University of Illinois, Urbana-Champaign, PhD

**Carolin Fuchs**

Teaching Professor, World Languages Center; Justus-Liebig-Universitat Giessen (Germany), PhD

**Sara FuchsHayat**

Postdoctoral Teaching Associate, Architecture; Brown University, PhD

**Canek Fuentes-Hernandez**

Associate Professor, Electrical and Computer Engineering; University of Arizona, Tucson, PhD

**Brian Fulton**

Associate Teaching Professor, Chemistry and Chemical Biology; Iowa State University, PhD

**Peter G. Furth**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**G****Laurel Gabard-Durnam**

Assistant Professor, Psychology; Columbia University, PhD

**Timothy Gagnon**

Associate Academic Specialist, Accounting; Sacred Heart University, MBA

**Sean Gallagher**

Assistant Clinical Professor, College of Professional Studies; Northeastern University, EdD

**Susan Gallagher**

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

**Joshua Galloway**

William O. DiPietro Assistant Professor, Chemical Engineering; Columbia University, PhD

**Nouha Gammar**

Visiting Lecturer, World Languages Center; University of Virginia, PhD

**Auroop Ganguly**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Denise Garcia**

Associate Professor, Political Science and International Affairs; University of Geneva (Switzerland), PhD

**Lori Gardinier**

Teaching Professor, Human Services; Northeastern University, PhD

**Julie Garey**

Assistant Teaching Professor, Political Science; Northeastern University, PhD

**Karen Garneau**

Teaching Professor, Writing Program; Northeastern University, PhD

**Julia Garrett**

Associate Teaching Professor, English; University of California, Santa Barbara, PhD

**Myles Garvey**

Assistant Teaching Professor, Marketing; Rutgers University, PhD

**Wolfgang Gatterbauer**

Associate Professor, Computer Sciences; Vienna University of Technology (Austria), PhD

**Caleb Gayle**

Professor of the Practice, Journalism; Harvard University, MBA

**Edward Geisinger**

Assistant Professor, Biology; New York University, MD, PhD

**Prasanth George**

Associate Teaching Professor, Mathematics; State University of New York at Buffalo, PhD

**Francis Georges**

Assistant Teaching Professor, Economics; Boston College, PhD

**Fatemeh Ghoreishi**

Assistant Professor, Civil and Environmental Engineering and Computer Sciences; Texas AM University, PhD

**Siddhartha Ghosh**

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

**Joan Giblin**

Assistant Teaching Professor, College of Professional Studies; Old Dominion University, PhD

**Roger W. Giese**

Professor, Pharmaceutical Sciences; Massachusetts Institute of Technology, PhD

**Joseph M. Giglio**

Senior Academic Specialist, International Business and Strategy; Northeastern University, PhD

**Nabeel Gillani**

Assistant Professor, Art + Design and Marketing; Massachusetts Institute of Technology, PhD

**Andrew Gillen**

Assistant Teaching Professor, Engineering; Virginia Polytechnic Institute and State University, PhD

**Laurance Ginsberg**

Assistant Academic Specialist, Accounting; Bentley University, MST

**Jim Giumarra**

Associate Teaching Professor, College of Professional Studies; University of Illinois, MA

**Leonard J. Glick**

Senior Academic Specialist, Management and Organizational Development; Harvard University, EdD

**Elizabeth Glowacki**

Postdoctoral Teaching Associate, Communication Studies and Health Sciences; University of Texas, Austin, PhD

**Daniel Godfrey**

Professor, Music; University of Iowa, PhD

**Veronica S. Godoy-Carter**

Associate Professor, Biology; Tufts University, PhD

**Stephen Golden**

Associate Teaching Professor, Entrepreneurship and Innovation; Suffolk University, MBA

**William Goldman**

Senior Lecturer, Accounting; Northeastern University, MBA

**Ann C. Golub-Victor**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Edgar D. Goluch**

Associate Professor, Chemical Engineering; University of Illinois, Urbana-Champaign, PhD

**Camille Gómez-Laberge**

Associate Teaching Professor, Physics; Dalhousie University (Canada), PhD

**Kathleen Gonso**

Teaching Professor, Writing Program; Emerson College, MFA

**Michael J. Gonyeau**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Teresa Goode**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Patricia Goodman**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Matthew Goodwin**

Associate Professor, Health Sciences and Computer Sciences; University of Rhode Island, PhD

**Mark Gooley**

Associate Teaching Professor, Finance; Northeastern University, PhD

**Samantha Gorman**

Assistant Professor, Art + Design; University of Southern California, PhD

**Ian Gorton**

Professor of the Practice, Computer Sciences; Sheffield Hallam University (United Kingdom), PhD

**Irina Gott**

Teaching Professor, Law; Suffolk University, JD

**Tarik C. Gouhier**

Associate Professor, Marine and Environmental Sciences; McGill University (Canada), PhD

**Thomas Goulding**

Professor of the Practice, College of Professional Studies; University of Florida, PhD

**Andrew Gouldstone**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Jonathan H. Grabowski**

Professor, Marine and Environmental Sciences; University of North Carolina, Chapel Hill, PhD

**Jennifer Gradecki**

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

**Anthony P. Graffeo**

Professor of the Practice, Biotechnology; Northeastern University, PhD

**Steven Granelli**

Associate Teaching Professor, Communication Studies; Ohio University, PhD

**Laura Green**

Professor, English; University of California, Berkeley, PhD

**Kristin Curry Greenwood**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, EdD, DPT

**Brent Griffin**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Jacqueline Griffin**

Associate Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Joseph Griffin**

Associate Teaching Professor, College of Professional Studies; Gordon Conwell Theological Seminary, PhD

**Joshua Griffiths**

Assistant Teaching Professor, World Languages Center; University of Texas, Austin, PhD

**Amir Grinstein**

Associate Professor and Thomas E. Moore Faculty Fellow, Marketing; The Hebrew University of Jerusalem (Israel), PhD

**Francesca Grippa**

Teaching Professor, College of Professional Studies; University of Salento (Italy), PhD

**Stine Grodal**

D'Amore-McKim School of Business Distinguished Professor, Entrepreneurship and Innovation; Stanford University, PhD

**Terri Gu**

Assistant Cooperative Education Coordinator, College of Engineering; University of Washington, Seattle, MS

**Tiantian Gu**

Associate Professor, Finance; University of Wisconsin, Madison, PhD

**John Alexis Guerra Gómez**

Assistant Teaching Professor, Computer Sciences; University of Maryland, College Park, PhD

**Arjun Guha**

Associate Professor, Computer Sciences; Brown University, PhD

**Jeanette Guillemín**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Boston University, MA

**Hemanth Gundavaram**

Clinical Professor, Law; Boston University, JD

**Jason J. Guo**

Research Associate Professor, Barnett Institute; University of Connecticut, PhD

**Surendra M. Gupta**

Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Andrei Guschin**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Russian Academy of Sciences (Russian Federation), PhD

**James Gutierrez**

Visiting Assistant Teaching Professor, Music; University of California, San Diego, PhD

**Kayoll Gyan**

Assistant Professor, Nursing; University of North Carolina, Chapel Hill, PhD

**H**

**Mohamed Habibullah**

Assistant Teaching Professor, Supply Chain and Information Management; University of Missouri, Columbia, PhD

**Katherine Haenschen**

Assistant Professor, Communication Studies and Political Science; University of Texas, Austin, PhD

**David Hagen**

Associate Teaching Professor, College of Professional Studies; New England School of Law, JD

**Michelle Hagopian**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Illinois, Urbana-Champaign, MS

**Margaret Hahn-Dupont**

Teaching Professor, Law; Georgetown University, JD

**Andrew Haile**

Assistant Teaching Professor, Law; Boston College, JD

**Jerome F. Hajjar**

CDM Smith Professor in Civil Engineering, Civil and Environmental Engineering; Cornell University, PhD

**Iva Halacheva**

Assistant Professor, Mathematics; University of Toronto (Canada), PhD

**Mary Hale**

Assistant Teaching Professor, Architecture; Massachusetts Institute of Technology, MArch

**Kristina Hals**

Assistant Cooperative Education Coordinator, College of Engineering; Cornell University, MS

**James Halverson**

Assistant Professor, Physics; University of Pennsylvania, PhD

**Lama Hamandi**

Associate Teaching Professor, Computer Sciences; Ohio State University, PhD

**Paul Hand**

Assistant Professor, Mathematics and Computer Sciences; New York University, PhD

**Robert N. Hanson**

Matthews Distinguished University Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Chana Haouzi**

Associate Teaching Professor, Architecture; Harvard University, MArch

**Yoko Hara**

Visiting Assistant Teaching Professor, Architecture; Virginia University of Lynchburg, PhD

**Matan Harel**

Assistant Professor, Mathematics; Courant Institute of Mathematical Sciences, PhD

**Ramkumar Hariharan**

Associate Teaching Professor, Graduate School of Engineering; University of Kerala, India, PhD

**Sharon Harlan**

Professor, Health Sciences and Sociology and Anthropology; Cornell University, PhD

**Kelly Harrington**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MBA

**Shaunna Harrington**

Associate Teaching Professor, College of Professional Studies; Boston University, MA

**Vincent Harris**

University Distinguished Professor, William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Northeastern University, PhD

**Vanecia Harrison**

Associate Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Casper Harteveld**

Associate Professor, Game Design; Delft University of Technology (Netherlands), PhD

**Stephanie R. Hartung**

Teaching Professor, Law; Boston College, JD

**Sara Hashmi**

Assistant Professor, Chemical Engineering; Yale University, PhD

**Christopher Hasson**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Massachusetts, Amherst, PhD

**Souheila Hassoun**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Sherbrooke (Canada), PhD

**Stephen Hatfield**

Assistant Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Heather Hauck**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Claudia Haupt**

Associate Professor, Law and Political Science; University of Cologne (Germany), PhD; Columbia University, JSD

**Fareed Hawwa**

Assistant Teaching Professor, College of Professional Studies; Louisiana State University, PhD

**Charles E. Haycook**

Assistant Cooperative Education Coordinator, Computer Sciences; Salem State University, MEd

**Jordan Hayes**

Postdoctoral Teaching Associate, English; University of Pittsburgh, Bradford, PhD

**Lorna Hayward**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, EdD

**Julia Hechtman**

Associate Teaching Professor, Art + Design; University of Illinois, Chicago, MFA

**Meghan Heckman**

Assistant Professor, Journalism; Northeastern University, MA

**Gretchen Heefner**

Associate Professor, History; Yale University, PhD

**Amy Helburn**

Assistant Teaching Professor, Health Sciences; University of Massachusetts, PhD

**Brian Helmuth**

Professor, Marine and Environmental Sciences and Public Policy and Urban Affairs; University of Washington, PhD

**Carlene Hempel**

Teaching Professor, Journalism; University of North Carolina, Chapel Hill, MA

**Jamie G. Henzy**

Associate Teaching Professor, Biology; Tufts University, PhD

**Dale Herbeck**

Professor, Communication Studies; University of Iowa, PhD

**David A. Herlihy**

Teaching Professor, Music; Boston College, JD

**Cristina Herren**

Assistant Teaching Professor, Marine and Environmental Sciences; University of Wisconsin, Madison, PhD

**Richard Herron**

Associate Teaching Professor, Finance; City University of New York, PhD

**Carie Hersh**

Associate Teaching Professor, Sociology and Anthropology; Duke University, JD

**Joshua Hertz**

Associate Teaching Professor, Engineering; Massachusetts Institute of Technology, PhD

**Benjamin Hescott**

Teaching Professor, Computer Sciences; Boston University, PhD

**Ravit Heskiau**

Associate Teaching Professor, Management and Organizational Development; University of Toronto (Canada), PhD

**Kamber Hetrick**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Caroline Hewitt**

Clinical Professor, Nursing; City University of New York, PhD

**Babak Heydari**

Associate Professor, Mechanical and Industrial Engineering; University of California, Berkeley, PhD

**Carlos Hidrovo Chavez**

Associate Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Matthew Higger**

Lecturer, Computer Sciences; Northeastern University, PhD

**Clareese Hill**

Postgraduate Teaching Fellow, Art + Design; School of the Art Institute of Chicago, MFA

**Malcolm D. Hill**

Associate Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

**Victoria Hill**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Charles H. Hillman**

Professor, Psychology and Health Sciences; University of Maryland, College Park, PhD

**Robin Hillyard**

Associate Teaching Professor, Graduate School of Engineering; Cambridge University (United Kingdom), PhD

**Jesse Hinson**

Associate Teaching Professor, Theatre; Brandeis University, MFA

**Edward Hirsch**

Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Matthew Hitchcock**

Postdoctoral Teaching Associate, English; Northeastern University, PhD

**Hubert Ho**

Associate Teaching Professor, Music; University of California, Berkeley, PhD

**Sofie Hodara**

Assistant Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

**Cydney Hodder**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Umesh Hodeghatta**

Assistant Teaching Professor, College of Professional Studies; Indian Institute of Technology (India), PhD

**Lynda Hodgson**

Associate Teaching Professor, College of Professional Studies; Virginia Commonwealth University, PhD

**Timothy Hoff**

Professor, Management and Organizational Development and Public Policy and Urban Affairs; State University of New York at Albany, PhD

**Jessica Hoffman**

Professor, Applied Psychology; Lehigh University, PhD

**Matthew Hogencamp**

Assistant Professor, Mathematics; University of Virginia, PhD

**Uwe Hohgrawe**

Professor of the Practice, College of Professional Studies; University of Wuppertal (Germany), PhD

**Udi Hoitash**

Professor and Lillian L. and Harry A. Cowan Research Professor, Accounting; Rutgers University, PhD

**Wallace Holohan**

Senior Clinical Specialist, Law; Fitchburg State University, BA

**Steven Holtzen**

Assistant Professor, Computer Sciences; University of California, Los Angeles, PhD

**Trenton Honda**

Clinical Professor, Medical Sciences; Northeastern University, PhD

**Julia Hopkins**

Assistant Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Michael J. Hoppmann**

Teaching Professor, Communication Studies; University of Tübingen (Germany), PhD

**Emily Hornsby**

Assistant Cooperative Education Coordinator, College of Arts, Media and Design; Bowling Green State University, MA

**Adam Hosein**

Associate Professor, Philosophy and Religion; Massachusetts Institute of Technology, PhD

**Richard Hoshino**

Associate Teaching Professor, Computer Sciences; Dalhousie University (Canada), PhD

**Marcus Howard**

Associate Teaching Professor, Journalism; University of Georgia, PhD

**Jeffrey P. Howe**

Associate Professor, Journalism; Boston University, MFA

**Valerie Hower**

Associate Teaching Professor, Mathematics; University of Georgia, PhD

**Laura Huang**

D'Amore-McKim School of Business Distinguished Professor, Management and Organizational Development; University of California, Irvine, PhD

**Aileen Huang-Saad**

Associate Professor, Bioengineering; Johns Hopkins University, PhD

**Anne R. Hughes**

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

**Kaitlyn S. Hughes**

Associate Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Francisco Hung**

Associate Professor, Chemical Engineering; North Carolina State University, PhD

**Matthew Hunt**

Professor, Sociology and Anthropology; Indiana University, PhD

**Faizul Huq**

Visiting Professor, Supply Chain and Information Management; University of Kentucky, DBA

**Patrick Hurley**

Assistant Professor, Accounting; University of Wisconsin, Madison, PhD

**Mark Huselid**

Distinguished Professor of Workforce Analytics, International Business and Strategy; State University of New York at Buffalo, PhD

**Emily Hutter**

Postdoctoral Teaching Associate, Communication Studies; University of Connecticut, PhD

|

**Anthony Iarrobino**

Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Patricia Illingworth**

Professor, Philosophy and Religion; University of California, San Diego, PhD; Boston University, JD

**Jennifer Ingemi**

Assistant Teaching Professor, Psychology; University of Massachusetts Medical School, PhD

**Vinay K. Ingle**

Associate Professor, Electrical and Computer Engineering; Rensselaer Polytechnic Institute, PhD

**Francesca Inglese**

Assistant Professor, Music; Brown University, PhD

**Rei Inouye**

Teaching Professor, World Languages Center; Temple University, PhD

**Stephen S. Intille**

Associate Professor, Computer Sciences and Health Sciences; Massachusetts Institute of Technology, PhD

**Efstratios Ioannidis**

Associate Professor, Electrical and Computer Engineering; University of Toronto (Canada), PhD

**Andreia Ionescu**

Assistant Professor, Biology; University of Rochester, PhD

**Farzaneh Irani**

Assistant Cooperative Education Coordinator, College of Engineering; University of Waterloo (Canada), MA

**Roderick Ireland**

Distinguished Professor, Criminology and Criminal Justice; Harvard University, LLM; Northeastern University, PhD

**Derek M. Isaacowitz**

Professor, Psychology; University of Pennsylvania, PhD

**Jacqueline A. Isaacs**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Michelle L. Israel**

Senior Cooperative Education Coordinator, College of Science; Northeastern University, MS

**Nathan E. Israeloff**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Alexander R. Ivanov**

Associate Professor, Chemistry and Chemical Biology; Russian Academy of Sciences (Russia), PhD

**Julia Ivy**

Teaching Professor, International Business and Strategy; Lancaster University (United Kingdom), PhD

**J****Alden Jackson**

Associate Clinical Professor, Computer Sciences; University of Delaware, PhD

**Ellen Jackson**

Assistant Teaching Professor, Writing Program; Stanford University, MFA

**William J. Jackson**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Boston, MEd

**Michelle Jacobs**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of California, San Francisco, PharmD

**Bruce Jacoby**

Associate Clinical Professor, Law; University of Connecticut, JD

**Beverly Jaeger-Helton**

Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Michael Jaeggli**

Associate Teaching Professor, Bioengineering; Clemson University, PhD

**Aleksandra Jakubowski**

Assistant Professor, Health Sciences and Economics; University of North Carolina, PhD

**Safa Jamali**

Assistant Professor, Mechanical and Industrial Engineering; Case Western Reserve University, PhD

**Alan Jamieson**

Associate Clinical Professor, Computer Sciences; Clemson University, PhD

**Lindsay Jamieson**

Teaching Professor, Computer Sciences; Clemson University, PhD

**David Janero**

Visiting Professor, Pharmaceutical Sciences; Johns Hopkins University, PhD

**Angelina Jay**

Assistant Teaching Professor, Engineering; Northeastern University, PhD

**Regine Jean-Charles**

Professor, Cultures, Societies, and Global Studies and Women's, Gender, and Sexuality Studies; Harvard University, PhD

**Solomon M. Jekel**

Associate Professor, Mathematics; Dartmouth College, PhD

**Huaizu Jiang**

Assistant Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Holly Jimison**

Professor of the Practice, Computer Sciences and Health Sciences; Stanford University, PhD

**Xiaoning Jin**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Xuemin Jin**

Associate Teaching Professor, Mechanical and Industrial Engineering; University of Maryland, PhD

**Dinesh John**

Associate Professor, Health Sciences; University of Tennessee, PhD

**Brooke Johnson**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

**Steven Johnson**

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Vanessa D. Johnson**

Associate Professor, Applied Psychology; Western Michigan University, PhD

**Dierdre Jordan**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

**Josep Jornet**

Associate Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Tiffany Joseph**

Associate Professor, Sociology and Anthropology and International Affairs; University of Michigan, PhD

**Neel Joshi**

Associate Professor, Chemistry and Chemical Biology; University of California, Berkeley, PhD

**Jacqueline Josselyn**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Alison Joyce**

Associate Cooperative Education Coordinator, College of Engineering; Ohio University, MEd

**Maria Jump**

Associate Teaching Professor, Computer Sciences; University of Texas, Austin, PhD

**Yung Joon Jung**

Professor, Mechanical and Industrial Engineering; Rensselaer Polytechnic Institute, PhD

**K****David R. Kaeli**

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Rutgers University, PhD

**Jonathan D. Kahn**

Professor, Law and Biology; Cornell University, PhD; University of California, Berkeley, JD

**Sallyann Kakas**

Associate Cooperative Education Coordinator, Finance; Northeastern University, BS

**Sagar V. Kamarthi**

Professor, Mechanical and Industrial Engineering; Pennsylvania State University, PhD

**John Kane**

Lecturer, Art + Design; Yale University, BA

**Mary M. Kane**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Massachusetts, Boston, MEd

**Michael Kane**

Assistant Professor, Civil and Environmental Engineering; University of Michigan, PhD

**Sarah Kanouse**

Associate Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

**Carla Kaplan**

Davis Distinguished Professor in American Literature, English and Women's, Gender, and Sexuality Studies; Northwestern University, PhD

**Swastik Kar**

Associate Professor, Physics; Indian Institute of Science (India), PhD

**Ieshia Karasik**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Pine Manor College, MFA

**Samina Karim**

Professor, Entrepreneurship and Innovation; University of Michigan, PhD

**Yael Karlinsky Shichor**

Assistant Professor, Marketing; Columbia University, PhD

**Alain S. Karma**

College of Arts and Sciences Distinguished Professor, Physics; University of California, Santa Barbara, PhD

**Ralph Katz**

Professor, Entrepreneurship and Innovation; University of Pennsylvania, PhD

**Jonathan Kaufman**

Professor, Journalism; Harvard University, MA

**William Kay**

Associate Professor, Political Science; Indiana University, PhD

**Bret Keeling**

Teaching Professor, Writing Program; University of Washington, PhD

**Karen P. Kelley**

Senior Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Melvin Kelley**

Associate Professor, Law and Entrepreneurship and Innovation; Columbia University, JD

**Thomas M. Kelley**

Associate Teaching Professor, Physics; University of Minnesota, PhD

**Kathleen Kelly**

Professor, English; University of North Carolina, Chapel Hill, PhD

**Whitney Kelting**

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Daniel D. Kennedy**

Professor, Journalism; Boston University, MLA

**Megan Kennedy**

Assistant Teaching Professor, College of Professional Studies; University of Albany, PhD

**Sarmann Kennedyd**

Assistant Teaching Professor, College of Professional Studies; SKEMA Business School (France), PhD

**Kathryn Kennen**

Associate Teaching Professor, Architecture; Harvard University, MArch

**Aileen Kent Yates**

Assistant Cooperative Education Coordinator, Computer Sciences; University of Massachusetts, Amherst, BA

**Heidi Kevoe Feldman**

Associate Professor, Communication Studies; Rutgers University, PhD

**Leila Keyvani Someh**

Associate Teaching Professor, Engineering; Northeastern University, PhD

**Shantanu Khanna**

Assistant Professor, Public Policy and Urban Affairs and Economics; University of California, Irvine, PhD

**Konstantin Khrapko**

Professor, Biology and Pharmaceutical Sciences; Engelhardt Institute of Molecular Biology, Moscow (Russia), PhD

**Ilham Khuri-Makdisi**

Associate Professor, History; Harvard University, PhD

**Sheri Kiami**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Simmons College, DPT

**Angela Kilby**

Assistant Professor, Economics; Massachusetts Institute of Technology, PhD

**Daniel Kim**

Associate Professor, Health Sciences; University of Toronto (Canada), MD; Harvard University, PhD

**Eunsong Kim**

Assistant Professor, English; University of California, San Diego, PhD

**Miso Kim**

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

**Tiffany Kim**

Assistant Clinical Professor, Nursing; University of Pennsylvania, PhD

**Yong-Bin Kim**

Professor, Electrical and Computer Engineering; Colorado State University, PhD

**John Kimani**

Associate Teaching Professor, Electrical and Computer Engineering; University of Wisconsin, Milwaukee, PhD

**David L. Kimbro**

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

**Nancy Kimelman**

Assistant Teaching Professor, Economics; Brown University, PhD

**Christopher K. King**

Professor, Mathematics; Harvard University, PhD

**Daniel King**

Assistant Clinical Professor, Nursing; University of Alabama, DNP

**Engin Kirda**

Professor, Computer Sciences and Electrical and Computer Engineering; Technical University of Vienna (Austria), PhD

**Rein U. Kirss**

Associate Professor, Chemistry and Chemical Biology; University of Wisconsin, Madison, PhD

**Jennifer L. Kirwin**

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Risa Kitagawa**

Assistant Professor, Political Science and International Affairs; Stanford University, PhD

**Karl E. Klare**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Kristian Kloeckl**

Associate Professor, Art + Design and Architecture; University of Venice (Italy), PhD

**Ben Knudsen**

Assistant Professor, Mathematics; Northwestern University, PhD

**Dami Ko**

Assistant Professor, Nursing; University of Wisconsin, Madison, PhD

**Khalid Kodi**

Professor of the Practice, Art + Design; Massachusetts College of Art and Design, MFA

**Dan Koloski**

Professor of the Practice, College of Professional Studies; Harvard University, MS

**Tali Konry**

Associate Professor, Pharmaceutical Sciences; Ben-Gurion University of the Negev (Israel), PhD

**Constantin Konstantopoulos**

Associate Teaching Professor, Graduate School of Engineering; Boston University, PhD

**Abigail N. Koppes**

Associate Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ryan Koppes**

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

**Ilka Kostka**

Associate Teaching Professor, College of Professional Studies; New York University, PhD

**Apoorva Koticha**

Associate Teaching Professor, Finance; New York University, PhD

**Dimitrios Koutsonikolas**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Harilaos Koutsopoulos**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Linda Kowalcky**

Professor of the Practice, Public Policy and Urban Affairs; Johns Hopkins University, PhD

**Arthur F. Kramer**

Professor, Psychology; University of Illinois, PhD

**Sergey Kravchenko**

Professor, Physics; Institute of Solid State Physics (Russia), PhD

**Dmitri Krioukov**

Associate Professor, Physics and Mathematics and Electrical and Computer Engineering; Old Dominion University, PhD

**Ganesh Krishnamoorthy**

Professor, Accounting; University of Southern California, PhD

**Karthik Krishnan**

Associate Professor, Finance; Boston College, PhD

**Laura Kuhl**

Assistant Professor, Public Policy and Urban Affairs and International Affairs; Tufts University, PhD

**Aisulu Kulbayeva**

Assistant Teaching Professor, Linguistics; Georgetown University, PhD

**Haridas Kumarakuru**

Assistant Teaching Professor, Physics; University of Bristol (United Kingdom), PhD

**Venkat Kuppuswamy**

Assistant Professor, Entrepreneurship and Innovation; Harvard University, DBA

**Jessica Kurr**

Visiting Lecturer, Communication Studies; Pennsylvania State University, PhD

**Didem Kurt**

Associate Teaching Professor, Marketing; University of Pittsburgh, PhD

**Kristina Kutsukos**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**John Kwoka**

Neal F. Finnegan Distinguished Professor, Economics; University of Pennsylvania, PhD

**Joy Kwon**

Postdoctoral Teaching Associate, Writing Program; University of Wisconsin, Madison, PhD

**MiYoung Kwon**

Assistant Professor, Psychology; University of Minnesota, PhD

**L**

**Michelle Laboy**

Assistant Professor, Architecture; University of Michigan, MArch

**Jamie Ladge**

Associate Professor, Management and Organizational Development; Boston College, PhD

**Nicole Laffan**

Assistant Clinical Professor, Communication Sciences and Disorders; A.T. Still University, Arizona, PhD

**Jay Laird**

Assistant Teaching Professor, College of Professional Studies; Lesley University, MFA

**Charlotte Lam**

Assistant Cooperative Education Coordinator, College of Science; California State University, Sacramento, MA

**Joan LaMachia**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MEd

**Anna Lamin**

Associate Professor, International Business and Strategy; University of Minnesota, PhD

**Jason Lancaster**

Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**William Lancaster**

Principal Lecturer, Communication Studies; Michigan State University, MA

**Lucas J. Landherr**

Teaching Professor, Chemical Engineering; Cornell University, PhD

**Alexis Landry**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Theodore Landsmark**

Distinguished Professor, Public Policy and Urban Affairs; Boston University, PhD

**David Lang**

Assistant Teaching Professor, Mathematics; Boston College, PhD; Northeastern University, PhD

**Timothy Lannin**

Associate Teaching Professor, Bioengineering; Cornell University, PhD

**Amy Lantinga**

Teaching Professor, College of Professional Studies; University of Tennessee, EdD

**Philip Larese-Casanova**

Associate Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Krista Larsen**

Assistant Teaching Professor, Criminology and Criminal Justice; Suffolk University, JD

**Barbara Larson**

Associate Academic Specialist, Management and Organizational Development; Harvard University, DBA

**Elizabeth Larson**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MBA

**Felicia G. Lassk**

Associate Professor, Marketing; University of South Florida, PhD

**Amanda Reeser Lawrence**

Associate Professor, Architecture; Harvard University, PhD

**David M. Lazer**

University Distinguished Professor, Political Science and Computer Sciences; University of Michigan, Ann Arbor, PhD

**Joshua Lea**

Assistant Clinical Professor, Nursing; Akron University, PhD

**Stefanie E. Leahy**

Assistant Teaching Professor, Law; Pepperdine University, JD

**Carol Lee**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Boston, PhD

**Cynthia Lee**

Professor, Management and Organizational Development; University of Maryland, PhD

**Doreen Lee**

Associate Professor, Sociology and Anthropology; Cornell University, PhD

**Jeongkyu Lee**

Teaching Professor, Computer Sciences; University of Texas, Austin, PhD

**Jung Lee**

Associate Professor, Philosophy and Religion; Brown University, PhD

**Kristen Lee**

Associate Teaching Professor, College of Professional Studies; Northeastern University, EdD

**Lee-Peng Lee**

Assistant Teaching Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Matt Lee**

Teaching Professor, Human Services; University of Illinois, Urbana-Champaign, PhD

**Robert Lee**

Associate Academic Specialist, American Sign Language; Boston University, MA

**Shun-Yang Lee**

Assistant Professor, Marketing; University of Texas, Austin, PhD

**Yang W. Lee**

Associate Professor, Supply Chain and Information Management; Massachusetts Institute of Technology, PhD

**Carolyn W. T. Lee-Parsons**

Associate Professor, Chemical Engineering and Chemistry and Chemical Biology; Cornell University, PhD

**Chad Lee-Stronach**

Assistant Professor, Philosophy and Religion; Australian National University (Australia), PhD

**Miriam E. Leeser**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**Laurel Leff**

Professor, Journalism; Yale University, MA

**Lori Lefkowitz**

Ruderman Professor of Jewish Studies, Jewish Studies and English; Brown University, PhD

**Bradley M. Lehman**

Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Robert Lentz**

Associate Academic Specialist, Entrepreneurship and Innovation; Babson College, MBA

**Benjamin Lerner**

Associate Teaching Professor, Computer Sciences; University of Washington, PhD

**Neal Lerner**

Professor, English; Boston University, EdD

**John Lesko**

Professor, Mechanical and Industrial Engineering and Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Laurent Lessard**

Associate Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Yvonne Leung**

Assistant Teaching Professor, College of Professional Studies; York University, PhD

**Tatyana Levchenko**

Research Assistant Professor, Pharmaceutical Sciences; Academy of Medical Sciences Moscow (Russia), PhD

**Yiannis A. Levendis**

College of Engineering Distinguished Professor, Mechanical and Industrial Engineering; California Institute of Technology, PhD

**Erel Levine**

Associate Professor, Bioengineering; Weizmann Institute of Science (Israel), PhD

**Herbert Levine**

University Distinguished Professor, Physics and Bioengineering; Princeton University, PhD

**Kim Lewis**

University Distinguished Professor, Biology; Moscow State University (Russia), PhD

**Laura H. Lewis**

University Distinguished Professor, Cabot Professor, Chemical Engineering and Mechanical and Industrial Engineering; University of Texas, Austin, PhD

**Ang Li**

Assistant Professor, Architecture; Princeton University, MArch

**Chieh Li**

Associate Professor, Applied Psychology; University of Massachusetts, Amherst, EdD

**Fan Li**

Assistant Teaching Professor, Finance; Virginia Polytechnic Institute and State University, PhD

**Jiahe Li**

Assistant Professor, Bioengineering; Cornell University, PhD

**Rui Li**

Associate Clinical Professor, Health Sciences; Baylor University, PhD

**Yaning Li**

Associate Professor, Mechanical and Industrial Engineering; University of Michigan, Ann Arbor, PhD

**Zhenyu Liao**

Assistant Professor, Management and Organizational Development; National University of Singapore (Singapore), PhD

**Elizabeth Libby**

Assistant Professor, Bioengineering; University of Pennsylvania, PhD

**Robert Lieb**

Professor, Supply Chain and Information Management; University of Maryland, DBA

**Karl J. Lieberherr**

Professor, Computer Sciences; Eidgenössische Technische Hochschule Zürich (Switzerland), PhD

**Karin N. Lifter**

Professor, Applied Psychology; Columbia University, PhD

**Dacheng Lin**

Research Associate Professor, Physics; Massachusetts Institute of Technology, PhD

**Xue Lin**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Yingzi Lin**

Professor, Mechanical and Industrial Engineering; University of Saskatchewan (Canada), PhD

**Alisa K. Lincoln**

Professor, Sociology and Anthropology and Health Sciences; Columbia University, PhD

**Margo Lindauer**

Associate Clinical Professor, Law; Georgetown University, JD

**John J. Lindhe**

Associate Teaching Professor, Mathematics; Northeastern University, PhD

**Jessica Linker**

Assistant Professor, History; University of Connecticut, PhD

**Gabor P. Lippner**

Associate Professor, Mathematics; Eötvös Loránd University (Hungary), PhD

**Heather A. Littlefield**

Teaching Professor, Linguistics; Boston University, PhD

**Handan Liu**

Associate Teaching Professor, Graduate School of Engineering; Shanghai Jiao Tong University (China), PhD

**Kelvin Liu**

Associate Professor, Accounting; University of South Carolina, PhD

**Weiling Liu**

Assistant Professor, Finance; Harvard University, PhD

**Xiaoping Liu**

Assistant Teaching Professor, Supply Chain and Information Management; University of Massachusetts, Lowell, PhD

**Yongmin Liu**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; University of California, Berkeley, PhD

**Ioannis Livanis**

Teaching Professor, International Affairs and Political Science; University of Florida, PhD

**Carol Livermore**

Associate Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Mary Loeffelholz**

Professor, English; Yale University, PhD

**Martha Loftus**

Assistant Teaching Professor, College of Professional Studies; Harvard University, EdD

**Diomedes E. Logothetis**

Professor, Pharmaceutical Sciences; Harvard University, PhD

**Fabrizio Lombardi**

International Test Conference Professor, Electrical and Computer Engineering; University of London (United Kingdom), PhD

**Georgia Looney**

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MBA

**Alexandre Lopes**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of São Paulo (Brazil), PhD

**Melinda Lopez**

Professor of the Practice, Theatre; Boston University, MA

**Steven A. Lopez**

Assistant Professor, Chemistry and Chemical Biology; University of California, Los Angeles, PhD

**Sara Lopez-Pintado**

Associate Professor, Health Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Connie Lorette**

Associate Clinical Professor, Nursing; Boston College, PhD

**Ralph H. Loring**

Associate Professor, Pharmaceutical Sciences; Cornell University, PhD

**Daniel Lothian**

Professor of the Practice, Journalism; American University, MA

**Kathleen E. Lotterhos**

Associate Professor, Marine and Environmental Sciences; Florida State University, PhD

**Deirdre Loughridge**

Associate Professor, Music; University of Pennsylvania, PhD

**Psyche Loui**

Associate Professor, Music; University of California, Berkeley, PhD

**Jennifer O. Love**

Associate Academic Specialist, Engineering; University of Iowa, MS

**Timothy Love**

Associate Professor, Architecture; Harvard University, MArch

**William Lovely**

Associate Teaching Professor, International Business and Strategy; Northeastern University, DLP

**John Lowrey**

Assistant Professor, Supply Chain and Information Management and Health Sciences; Ohio State University, PhD

**Amy Shirong Lu**

Associate Professor, Communication Studies and Health Sciences; University of North Carolina, Chapel Hill, PhD

**Long Lu**

Assistant Professor, Computer Sciences; Georgia Institute of Technology, PhD

**Lucy Siying Lu**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Mingyang Lu**

Assistant Professor, Bioengineering; Baylor College of Medicine, PhD

**Celsey Lumbra**

Assistant Cooperative Education Coordinator, Computer Sciences; Northeastern University, MS

**Razvan Lungeanu**

Assistant Professor, Entrepreneurship and Innovation; Northwestern University, PhD

**Bowen Luo**

Visiting Assistant Professor, Marketing; Arizona State University, PhD

**Katherine Luongo**

Associate Professor, History and International Affairs; University of Michigan, Ann Arbor, PhD

**Steven Lustig**

Associate Professor, Chemical Engineering; Purdue University, PhD

**Getty Lustila**

Assistant Teaching Professor, Philosophy and Religion; Boston University, PhD

**David E. Luzzi**

Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Vasiliki Lykourinou**

Assistant Teaching Professor, Chemistry and Chemical Biology; University of South Florida, PhD

**M****Jun Ma**

Professor, Economics; University of Washington, PhD

**Tong Ma**

Assistant Professor, Mechanical and Industrial Engineering; University of Connecticut, Storrs, PhD

**Kayse Maass**

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**Patricia A. Mabrouk**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Jacquelyn MacDonald**

Associate Cooperative Education Coordinator, College of Science; Harvard University, MEd

**Robin MacIlroy**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Andrew Mackie**

Associate Clinical Professor, Medical Sciences; University of Nebraska, MS

**Krishna Madaparthi**

Assistant Academic Specialist, American Sign Language; Gallaudet University, MA

**Jeanne Madden**

Associate Professor, Pharmacy and Health Systems Sciences; Harvard University, PhD

**Kristin Madison**

Professor, Law and Health Sciences; Stanford University, PhD; Yale University, JD

**Meica Magnani**

Assistant Teaching Professor, Philosophy and Religion and Computer Sciences; Stanford University, PhD

**Bala Maheswaran**

Teaching Professor, Engineering; Northeastern University, PhD

**Debra Mahfouz**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PharmD

**Elizabeth Mahler**

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

**Luigia Maiellaro**

Teaching Professor, World Languages Center; Russian State University for the Humanities (Russia), PhD

**Jean Claude Makolo**

Assistant Teaching Professor, Finance; Brandeis University, PhD

**Lee Makowski**

Professor, Bioengineering and Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Purnima Makris**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Alexandros Makriyannis**

George D. Behrakis Chair and Professor, Center for Drug Discovery and Chemistry and Chemical Biology; University of Kansas, PhD

**Mario Maletta**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Veronika Maliborska**

Associate Teaching Professor, College of Professional Studies; Purdue University, PhD

**Andrew Mall**

Associate Professor, Music; University of Chicago, PhD

**Carol R. Mallory**

Teaching Professor, Law; Northeastern University, JD

**Craig E. Maloney**

Associate Professor, Mechanical and Industrial Engineering; University of California, Santa Barbara, PhD

**Roman Manetsch**

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Basel (Switzerland), PhD

**Swapnil Maniar**

Professor of the Practice, Health Sciences; Johns Hopkins University, PhD

**Justin Manjourides**

Associate Professor, Health Sciences; Harvard University, PhD

**Emily Mann**

Teaching Professor, Human Services; University of Wisconsin, Madison, PhD

**Maira Mannix Votel**

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; Columbia University, MA

**Peter Manolios**

Professor, Computer Sciences; University of Texas, Austin, PhD

**Elaina Manolis**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Texas Tech University, ScD

**Valentina Marano**

Associate Professor, International Business and Strategy; University of South Carolina, PhD

**Janice Maras**

Associate Teaching Professor, Health Sciences; Northeastern University, EdD

**Krassimir Marchev**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Edwin Marengo Fuentes**

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Alina Marian**

Professor, Mathematics; Harvard University, PhD

**Tucker Marion**

Associate Professor, Entrepreneurship and Innovation; Pennsylvania State University, PhD

**Helen Markewich**

Assistant Teaching Professor, Bioengineering; Cornell University, PhD

**Robert S. Markiewicz**

Professor, Physics; University of California, Berkeley, PhD

**Alycia Markowski**

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Joseph Marks**

Associate Teaching Professor, Finance; University of Illinois, Urbana-Champaign, PhD

**Mindy Marks**

Associate Professor, Economics; Washington University, PhD

**Julius Marpaung**

Teaching Professor, Electrical and Computer Engineering; Oklahoma State University, PhD

**Stacy Marsella**

Professor, Computer Sciences and Psychology; Rutgers University, PhD

**Ineke Marshall**

Professor, Sociology and Anthropology and Criminology and Criminal Justice; Bowling Green State University, PhD

**Elizabeth Martin**

Assistant Clinical Professor, Communication Sciences and Disorders; McGill University (Canada), MS

**Isabel Martinez**

Associate Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; Columbia University, PhD

**Ramiro Martinez**

Professor, Criminology and Criminal Justice and Sociology and Anthropology; Ohio State University, PhD

**José Angel Martinez-Lorenzo**

Associate Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; Universidade de Vigo (Spain), PhD

**Alexander Martsinkovsky**

Associate Professor, Mathematics; Brandeis University, PhD

**David Massey**

Professor, Mathematics; Duke University, PhD

**Ted Matherly**

Visiting Assistant Professor, Marketing; University of Maryland, PhD

**Marguerite Matherne**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, MS

**Jude E. Mathews**

Associate Teaching Professor, Chemistry and Chemical Biology; Clemson University, PhD

**Kay Mathiesen**

Associate Professor, Philosophy and Religion; University of California, Irvine, PhD

**Kristen Mathieu Gonzalez**

Assistant Clinical Professor, Nursing; University of Phoenix, MS

**Daniele Mathras**

Associate Teaching Professor, Marketing; Arizona State University, PhD

**Thomas M. Matta**

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Xavier University of Louisiana, PharmD

**Daniel J. Matthew**

Associate Teaching Professor, Chemistry and Chemical Biology; University of Utah, PhD

**Jonathan Matthis**

Assistant Professor, Biology; Rensselaer Polytechnic Institute, PhD

**Carla Mattos**

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

**Lucy Maulsby**

Associate Professor, Architecture; Columbia University, PhD

**Ernest Mauristhene**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Hardin-Simmons University, MBA

**Bruce Maxwell**

Visiting Professor, Computer Sciences; Carnegie Mellon University, PhD

**Jessica Maxwell**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD; Massachusetts General Hospital Institute of Health Professions, DPT

**William Mayer**

Professor, Political Science; Harvard University, PhD

**Mary Mayville**

Associate Clinical Professor, Nursing; Northeastern University, DNP

**Laurie McCadden**

Clinical Instructor, Nursing; University of Massachusetts, Lowell, MSN

**Paulette McCarty**

Associate Teaching Professor, Management and Organizational Development; University of Tennessee, PhD

**Jacqueline McCleary**

Assistant Professor, Physics; Brown University, PhD

**Victoria D. McCoy Dunkley**

Assistant Teaching Professor, Law; Vanderbilt University, JD

**Eileen McDonagh**

Professor, Political Science; Harvard University, PhD

**Ann McDonald**

Associate Professor, Art + Design; Yale University, MFA

**Matthew McDonald**

Associate Professor, Music; Yale University, PhD

**Melissa McElligott**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Kayla McEwen**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Nicol E. McGruer**

Professor, Electrical and Computer Engineering; Michigan State University, PhD

**Jean McGuire**

Professor of the Practice, Health Sciences; Brandeis University, PhD

**Hugh McManus**

Associate Teaching Professor, Mechanical and Industrial Engineering; Stanford University, PhD

**Cristine McMartin-Miller**

Teaching Professor, College of Professional Studies; Purdue University, PhD

**Cassandra McMillan**

Assistant Professor, Sociology and Anthropology and Criminology and Criminal Justice; Pennsylvania State University, PhD

**Joseph McNabb**

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

**Robert C. McOwen**

Professor, Mathematics; University of California, Berkeley, PhD

**Frances Nelson McSherry**

Teaching Professor, Theatre; New York University, MFA

**Daniel S. Medwed**

University Distinguished Professor, Law; Harvard University, JD

**Iraz Mehdi**

Associate Cooperative Education Coordinator, College of Engineering; California State University, Long Beach, MS

**Lindsay Mehrmanesh**

Assistant Teaching Professor, Biology; Brown University, PhD

**Erin Meier**

Assistant Professor, Communication Sciences and Disorders; Boston University, PhD

**Alexandra Meise**

Associate Teaching Professor, Law; Georgetown University, JD

**Emanuel S. Melachrinoudis**

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

**Waleed Meleis**

Associate Professor, Electrical and Computer Engineering; University of Michigan, PhD

**Justin Melette**

Associate Teaching Professor, English; Pennsylvania State University, PhD

**Susan L. Mello**

Associate Professor, Communication Studies; University of Pennsylvania, PhD

**Tina J. Mello**

Associate Cooperative Education Coordinator, College of Science; Boston College, MA

**Alice Mello da Fonseca**

Assistant Teaching Professor, College of Professional Studies; Tufts University, PhD

**Richard H. Melloni Jr.**

Professor, Psychology; University of Massachusetts, PhD

**Tommaso Melodia**

William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

**Michael Meltsner**

Matthews Distinguished University Professor, Law; Yale University, JD

**Jose Menendez**

Assistant Teaching Professor, Art + Design; Rhode Island School of Design, MA

**Latika Menon**

Associate Professor, Physics; Tata Institute of Fundamental Research, Bombay (India), PhD

**Hameed Metghalchi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, ScD

**Daniel Metzger**

Postdoctoral Teaching Associate, English; Kutztown University, EdD

**Laura Meyer**

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Cleveland State University, MEd

**Marc H. Meyer**

Robert J. Shillman Professor of Entrepreneurship and Matthews Distinguished University Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Ningfang Mi**

Associate Professor, Electrical and Computer Engineering; University of Texas, Dallas, MS

**Sakib Miazi**

Assistant Teaching Professor, Computer Sciences; University of North Carolina, Charlotte, PhD

**Cara Michell**

Assistant Professor, Architecture and Public Policy and Urban Affairs; Harvard University, MUP

**Vidoje Mihajlovikj**

Assistant Teaching Professor, Computer Sciences; Clarkson University, PhD

**Lara Milane**

Assistant Teaching Professor, Pharmaceutical Sciences; Northeastern University, PhD

**Deborah Milbauer**

Senior Lecturer, Health Sciences; Boston University, MS

**William Miles**

Professor, Political Science; Tufts University, PhD

**Christopher J. Miller**

Assistant Teaching Professor, Accounting; University of Mississippi, PhD

**Edward Miller**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Emily Miller**

Assistant Cooperative Education Coordinator, College of Science; New York University, MA

**Matthew Miller**

Professor, Health Sciences; Yale University, MD; Harvard University, ScD

**Maura Miller**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Providence College, BS

**Renée Miller**

Distinguished Professor, Computer Sciences; University of Wisconsin, Madison, PhD

**Ennio Mingolla**

Professor, Communication Sciences and Disorders; University of Connecticut, PhD

**Mona Minkara**

Assistant Professor, Bioengineering; University of Florida, PhD

**Nicholas Minott**

Associate Teaching Professor, International Affairs; Tufts University, PhD

**Marilyn L. Minus**

Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

**Varun Mishra**

Assistant Professor, Computer Sciences and Health Sciences; Dartmouth College, PhD

**Alan Mislove**

Professor, Computer Sciences; Rice University, PhD

**Marrian Mitry**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

**Sunil Mittal**

Assistant Professor, Electrical and Computer Engineering; University of Maryland, College Park, PhD

**Cheryl Mitteness**

Associate Academic Specialist, Entrepreneurship and Innovation; University of Louisville, PhD

**Nancy Mizzoni**

Assistant Clinical Professor, Nursing; Northeastern University, MS

**Sarah Mockler**

Associate Cooperative Education Coordinator, College of Engineering; Boston College, MA

**Alicia Modestino**

Associate Professor, Public Policy and Urban Affairs and Economics; Harvard University, PhD

**Valentine Moghadam**

Professor, International Affairs; American University, PhD

**Mohsen Moghaddam**

Assistant Professor, Mechanical and Industrial Engineering; Purdue University, PhD

**Shan Mohammed**

Clinical Professor, Health Sciences; Case Western Reserve University, MD

**Shariq Mohammed**

Assistant Professor, Economics; University of Arizona, PhD

**Killion Mokwete**

Associate Teaching Professor, Architecture; University of Portsmouth, MArch

**Beth Molnar**

Associate Professor, Health Sciences; Harvard University, ScD

**James Monaghan**

Associate Professor, Biology; University of Kentucky, PhD

**Alvaro Monge**

Visiting Professor, Computer Sciences; University of California, San Diego, PhD

**Yasmil Montes**

Assistant Cooperative Education Coordinator, Khoury College of Computer Sciences; Cambridge College, MS

**Robert M. Mooradian**

Professor, Finance; University of Pennsylvania, PhD

**Elizabeth Moore**

Assistant Teaching Professor, International Business and Strategy; Northeastern University, PhD

**Rebekah Moore**

Assistant Professor, Music; Indiana University, PhD

**Jorge Morales**

Assistant Professor, Psychology and Philosophy and Religion; Columbia University, PhD

**Lee Moreau**

Professor of the Practice, Art + Design; Rice University, MArch

**Silvio Moreira**

Assistant Professor, Computer Sciences; University of Lisbon (Portugal), PhD

**Enrique F. Moreno**

Associate Teaching Professor, Physics; Universidad Nacional de La Plata (Argentina), PhD

**Kimberly Moreno**

Professor, Accounting; University of Massachusetts, Amherst, PhD

**Joanne Morreale**

Associate Professor, Media and Screen Studies; Temple University, PhD

**Mounira Morris**

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, Amherst, EdD

**Kristen Morse**

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Ithaca College, DPT

**Hossein Mosallaei**

Professor, Electrical and Computer Engineering; University of California, Los Angeles, PhD

**Ab Mosca**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Rashid Mosley**

Assistant Teaching Professor, College of Professional Studies; George Washington University, PhD

**Edward Moss**

Teaching Professor, Writing Program; Emerson College, MFA

**Lorraine Ann Mountain**

Senior Cooperative Education Coordinator, College of Engineering; Tufts University, MS

**Amy Mueller**

Assistant Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

**Dana Mueller**

Assistant Teaching Professor, Art + Design; Massachusetts College of Art, MFA

**Sinan Muftu**

Professor, Mechanical and Industrial Engineering; University of Rochester, PhD

**Tania Muino**

Associate Academic Specialist, World Languages Center; University of Barcelona (Spain), MA

**Constantine Mukasa**

Assistant Teaching Professor, Engineering; Florida Atlantic University, PhD

**Sanjeev Mukerjee**

Distinguished Professor, Chemistry and Chemical Biology; Texas AM University, PhD

**Saptarshi Mukherjee**

Assistant Professor, Finance; New York University, PhD

**Jay Mulki**

Associate Professor, Marketing; University of South Florida, PhD

**Anthony Mullen**

Associate Teaching Professor, Computer Sciences; University of Groningen (Netherlands), PhD

**Patrick Mullen**

Associate Professor, English; University of Pittsburgh, PhD

**Seth Mulliken**

Associate Teaching Professor, Media and Screen Studies; North Carolina State University, PhD

**Ufuk Muncuk**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Samuel E. Munoz**

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; University of Wisconsin, Madison, PhD

**Leonel F. Murga**

Assistant Teaching Professor, Chemistry and Chemical Biology; Northeastern University, PhD

**Robert Murray**

Associate Academic Specialist, Supply Chain and Information Management; Harvard University, MBA

**Vincent Muscolino**

Lecturer, Finance; Babson College, MBA

**Hande Musdal Ondemir**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Cecelia Musselman**

Teaching Professor, Writing Program; Columbia University, PhD

**Shakir Mustafa**

Teaching Professor, World Languages Center; Boston University, PhD

**Mark Muzere**

Visiting Associate Professor, Finance; Washington University, St. Louis, PhD

**Felix Muzny**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Jonathan Mwaura**

Associate Teaching Professor, Computer Sciences; University of Exeter (United Kingdom), PhD

**Andrew Myers**

Associate Professor, Civil and Environmental Engineering; Stanford University, PhD

**David Myers**

Associate Teaching Professor, Finance; University of Washington, PhD

**N****Yousof Naderi**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Thomas K. Nakayama**

Professor, Communication Studies; University of Iowa, PhD

**Laurie Nardone**

Teaching Professor, English; Emory University, PhD

**Tareq Nasralah**

Assistant Teaching Professor, Supply Chain and Information Management; Dakota State University, PhD

**Pran Nath**

Matthews Distinguished University Professor, Physics; Stanford University, PhD

**Hamid Nayeb-Hashemi**

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Katharina Neissl**

Visiting Lecturer, Criminology and Criminal Justice; Northeastern University, PhD

**Brent Nelson**

Professor, Physics; University of California, Berkeley, PhD

**Tyrone Newsome**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Fitchburg State University, MBA

**Huy Nguyen**

Assistant Professor, Computer Sciences; Princeton University, PhD

**Julie Nguyen**

Assistant Cooperative Education Coordinator, College of Engineering; Columbia University, MA

**Mark J. Niedre**

Professor, Bioengineering; University of Toronto (Canada), PhD

**Angel Nieves**

Professor, Cultures, Societies, and Global Studies and History; Cornell University, PhD

**Spyridon Nikas**

Research Associate Professor, Center for Drug Discovery; Aristotle University (Greece), PhD

**Matthew Nippins**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Matthew C. Nisbet**

Professor, Communication Studies; Cornell University, PhD

**Cristina Nita-Rotaru**

Professor, Computer Sciences; Johns Hopkins University, PhD

**Daniel Noemi Voionmaa**

Associate Professor, Cultures, Societies, and Global Studies; Yale University, PhD

**Alison Nogueira**

Senior Cooperative Education Coordinator, College of Engineering; Suffolk University, MEd

**David Nolan**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

**Kimberly Nolan**

Associate Teaching Professor, College of Professional Studies; University of Vermont, EdD

**Carey Noland**

Associate Professor, Communication Studies; Ohio University, PhD

**Ellen Noonan**

Teaching Professor, Writing Program; Emerson College, MFA

**Matthew Noonan**

Associate Teaching Professor, Writing Program; Massachusetts College of Art, MFA

**Farzard Noubary**

Associate Clinical Professor, Health Sciences; Harvard University, PhD

**Guevara Noubir**

Professor, Computer Sciences; Swiss Federal Institute of Technology, Lausanne (Switzerland), PhD

**Lucia Nuñez**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Gilbert Nyaga**

Associate Professor, Supply Chain and Information Management; Michigan State University, PhD

**O**

**Jessica Oakes**

Assistant Professor, Bioengineering; University of California, San Diego, PhD

**Daniel O'Brien**

Associate Professor, Public Policy and Urban Affairs and Criminology and Criminal Justice; Binghamton University, PhD

**Antonio Ocampo-Guzman**

Associate Professor, Theatre; York University (Canada), MFA

**Abigail Ochengco**

Assistant Cooperative Education Coordinator, College of Engineering; Harvard University, MEd

**Brian O'Connell**

Associate Teaching Professor, Engineering; Tufts University, PhD

**Sean O'Connell**

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

**Catherine O'Connor**

Clinical Instructor, Nursing; Boston College, MS

**George A. O'Doherty**

Professor, Chemistry and Chemical Biology; Ohio State University, PhD

**Curtis Odom**

Assistant Teaching Professor, Management and Organizational Development; Pepperdine University, EdD

**Mikhail Oet**

Associate Teaching Professor, College of Professional Studies; Case Western Reserve University, PhD

**Dietmar Offenhuber**

Associate Professor, Art + Design and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Russ O'Haver**

Senior Academic Specialist, Accounting; University of New York, PhD

**Peggy L. O'Kelly**

Principal Lecturer, Accounting; University of Michigan, MBA

**John Olawepo**

Assistant Teaching Professor, Health Sciences; University of Nevada, Las Vegas, PhD

**Brianne OlivieriMui**

Assistant Professor, Health Sciences; Northeastern University, PhD

**Donald M. O'Malley**

Associate Professor, Biology; Harvard University, PhD

**Marvin Onabajo**

Associate Professor, Electrical and Computer Engineering; Texas AM University, PhD

**Mary Jo Ondrechen**

Professor, Chemistry and Chemical Biology; Northwestern University, PhD

**Therese M. O'Neil-Pirozzi**

Associate Professor, Communication Sciences and Disorders; Boston University, ScD

**Annalisa Onnis-Hayden**

Teaching Professor, Civil and Environmental Engineering; University of Cagliari (Italy), PhD

**Alina Oprea**

Associate Professor, Computer Sciences; Carnegie Mellon University, PhD

**Toyoko J. Orimoto**

Associate Professor, Physics; University of California, Berkeley, PhD

**Jessica Ormsby**

Associate Cooperative Education Coordinator, College of Engineering; University of Massachusetts, Boston, MEd

**Andrew Orr-Skirvin**

Clinical Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PharmD

**Sarah Ostadabbas**

Assistant Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

**Eileen Otis**

Associate Professor, Sociology and Anthropology; University of California, Davis, PhD

**Timothy Ouillette**

Associate Teaching Professor, Communication Studies; Art Institute of Boston, MFA

**Oyindasola O. Oyelaran**

Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

**Yusuf Ozbek**

Teaching Professor, Graduate School of Engineering; Northeastern University, PhD

**Ozan Ozdemir**

Assistant Professor, Mechanical and Industrial Engineering; South Dakota School of Mines and Technology, PhD

**P****Jahir Pabon**

Associate Teaching Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Taskin Padir**

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

**Robert K. Painter**

Associate Teaching Professor, Linguistics; State University of New York at Buffalo, PhD

**Himlona Palikhe**

Associate Teaching Professor, Graduate School of Engineering; Texas Tech University, PhD

**Costas Panagopoulos**

Professor, Political Science; New York University, PhD

**Themis Papageorge**

Associate Clinical Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Demetra Paparounas**

Lecturer, Supply Chain and Information Management; Northeastern University, PhD

**Harikrishnan Parameswaran**

Assistant Professor, Bioengineering; Boston University, PhD

**Serena Parekh McGushin**

Associate Professor, Philosophy and Religion; Boston College, PhD

**Jason Parente**

Assistant Clinical Professor, Medical Sciences; Northeastern University, MS

**Melissa Parenti**

Assistant Teaching Professor, College of Professional Studies; University of Southern California, EdD

**John Park**

Clinical Instructor, Computer Sciences; Stanford University, MS

**Wendy E. Parmet**

Matthews Distinguished University Professor, Law; Harvard University, JD

**Christopher Parsons**

Associate Professor, History; University of Toronto (Canada), PhD

**Nikos Passas**

Professor, Criminology and Criminal Justice; University of Edinburgh (Scotland), PhD

**Rupal Patel**

Professor, Communication Sciences and Disorders and Computer Sciences; University of Toronto (Canada), PhD

**Mark R. Patterson**

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Harvard University, PhD

**Jeremy R. Paul**

Professor, Law; Harvard University, JD

**Koen Pauwels**

Distinguished Professor, Marketing; University of California, Los Angeles, PhD

**Michael Pavel**

Professor of the Practice, Computer Sciences and Health Sciences; New York University, PhD

**Spiro Pavlopoulos**

Research Associate Professor, Center for Drug Discovery; Victorian College of Pharmacy, (Australia), PhD

**Virgil Pavlu**

Associate Teaching Professor, Computer Sciences; Northeastern University, PhD

**Kara Pavone**

Assistant Professor, Nursing; University of Pennsylvania, PhD

**Nancy Pawlyshyn**

Associate Teaching Professor, College of Professional Studies; Capella University, PhD

**Sarah Peacock**

Assistant Teaching Professor, Biology; University of Missouri, PhD

**Celia Pearce**

Professor, Game Design; University of the Arts London (United Kingdom), PhD

**Melissa Pearson**

Associate Teaching Professor, Writing Program; University of South Carolina, PhD

**Jinxiang Pei**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Lei Pei**

Assistant Professor, Marketing; University of California, Los Angeles, PhD

**Melissa Peiken**

Senior Cooperative Education Coordinator, Khoury College of Computer Sciences; Emerson College, MEd

**Jose A. Perea**

Associate Professor, Mathematics and Computer Sciences; Stanford University, PhD

**Diane Perez**

Assistant Academic Specialist, College of Professional Studies; Salem State University, MEd

**Laura Perovich**

Assistant Professor, Art + Design; Massachusetts Institute of Technology, PhD

**Sharon Persons**

Associate Teaching Professor, Law; Stanford University, JD

**Ivan Petkov**

Assistant Professor, Economics; Boston College, PhD

**Courtney Pfluger**

Associate Teaching Professor, Chemical Engineering; Northeastern University, PhD

**Xuan Pham**

Postgraduate Teaching Fellow, Art + Design; University of Massachusetts, Amherst, MFA

**David M. Phillips**

Professor, Law; Columbia University, JD

**Susan E. Picillo**

Principal Lecturer, Communication Studies; Cambridge College, MEd

**Kelsey Pieper**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Barbara Pierre**

Assistant Cooperative Education Coordinator, College of Science; Salem State University, MEd

**Maricla Pirozzi**

Associate Cooperative Education Coordinator, Graduate School of Engineering; European School of Economics, Rome (Italy), MBA

**Matt Pitchford**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Eric Piza**

Professor, Criminology and Criminal Justice; Rutgers University, PhD

**Leigh Plant**

Assistant Professor, Pharmaceutical Sciences; University of Leeds (United Kingdom), PhD

**Harlan D. Platt**

Professor, Finance; University of Michigan, PhD

**Marjorie Platt**

Professor, Accounting; University of Michigan, PhD

**Robert Platt Jr.**

Associate Professor, Computer Sciences; University of Massachusetts, Amherst, PhD

**Katherine Podgurski**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Mya Poe**

Associate Professor, English; University of Massachusetts, Amherst, PhD

**Ann Polcari**

Associate Clinical Professor, Nursing; Boston College, PhD

**Stephanie Pollack**

Professor of the Practice, Public Policy and Urban Affairs; Harvard University, JD

**Michael P. Pollastri**

Professor, Chemistry and Chemical Biology; Brown University, PhD

**Marius Popescu**

Associate Teaching Professor, Finance; Virginia Polytechnic Institute and State University, PhD

**Hilary Poriss**

Associate Professor, Music; University of Chicago, PhD

**Gary Porter**

Assistant Teaching Professor, Finance; University of South Carolina, PhD

**Richard D. Porter**

Professor, Mathematics; Yale University, PhD

**Veronica L. Porter**

Associate Professor, Cooperative Education, College of Science; Northeastern University, MEd

**Lindsay Portnoy**

Associate Teaching Professor, College of Professional Studies; Fordham University, PhD

**John Portz**

Professor, Political Science; University of Wisconsin, Madison, PhD

**Brady Post**

Assistant Professor, Health Sciences; St. Olaf College, BAS

**Nathan Post**

Research Associate Professor, Civil and Environmental Engineering and Mechanical and Industrial Engineering; Virginia Polytechnic Institute and State University, PhD

**Mary-Susan Potts-Santone**

Teaching Professor, Biology; University of New Hampshire, PhD

**Camille Powell**

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Springfield College, DPT

**Michael J. Power**

Senior Lecturer, Supply Chain and Information Management; Northeastern University, MBA

**Edward Powers**

Professor of the Practice, College of Professional Studies; Northeastern University, EdD

**Nishith Prakash**

Professor, Public Policy and Urban Affairs and Economics; University of Houston, PhD

**Silvia Prina**

Associate Professor, Economics; Boston University, PhD

**Robert Prior**

Associate Teaching Professor, College of Professional Studies; Nova Southeastern University, EdD

**Mark Prokosch**

Associate Teaching Professor, Psychology; University of California, Davis, PhD

**Sheila M. Puffer**

Professor and University Distinguished Professor, International Business and Strategy; University of California, Berkeley, PhD

**Malcolm Purinton**

Visiting Lecturer, History; Northeastern University, PhD

**Q****Zhengan Qi**

Assistant Professor, Communication Sciences and Disorders and Psychology; University of Illinois, Urbana-Champaign, PhD

**Zhenyun Qian**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Zhihui Qin**

Associate Teaching Professor, Pharmaceutical Sciences; Peking University (China), PhD

**Karen Quigley**

Professor, Psychology; Ohio State University, PhD

**R****Simon Rabinovitch**

Associate Professor, History and Jewish Studies; Brandeis University, PhD

**Gordana Rabrenovic**

Associate Professor, Sociology and Anthropology; State University of New York at Albany, PhD

**John Rachlin**

Assistant Teaching Professor, Computer Sciences; Boston University, PhD

**Srinivasan Radhakrishnan**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

**Predrag Radivojac**

Professor, Computer Sciences; Temple University, PhD

**Lauren Raine**

Research Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Illinois, Urbana-Champaign, PhD

**Rajmohan Rajaraman**

Professor, Computer Sciences; University of Texas, Austin, PhD

**Ravi Ramamurti**

University Distinguished Chair Professor, International Business and Strategy; Harvard University, DBA

**Valeria Ramdin**

Assistant Clinical Professor, Nursing; Northeastern University, DNSc

**Alireza Ramezani**

Assistant Professor, Electrical and Computer Engineering; University of Michigan, PhD

**Deborah A. Ramirez**

Professor, Law; Harvard University, JD

**Janet Randall**

Professor, English; University of Massachusetts, Amherst, PhD

**Aanjhan Ranganathan**

Assistant Professor, Computer Sciences; ETH Zürich (Switzerland), PhD

**Manish Ranjit**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Texas Tech University, PhD

**Carey M. Rappaport**

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, ScD

**K.J. Rawson**

Associate Professor, English and Women's, Gender, and Sexuality Studies; Syracuse University, PhD

**Diviya Ray**

Assistant Teaching Professor, Biology; Indian Institute of Chemical Biology (India), PhD

**Andrea Raynor**

Teaching Professor, Art + Design; School of Visual Arts, MFA

**Desislava Raytcheva**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Leena Razzaq**

Associate Teaching Professor, Computer Sciences; Worcester Polytechnic Institute, PhD

**Joseph Reagle**

Associate Professor, Communication Studies; New York University, PhD

**Lynn Reede**

Associate Clinical Professor, Nursing; Northeastern University, PhD

**Debra J. Reid**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

**Joseph Reilly**

Assistant Teaching Professor, College of Professional Studies; Georgetown University, PhD

**Imke Reimers**

Associate Professor, Economics; University of Minnesota, PhD

**Karen Reiss Medwed**

Associate Teaching Professor, College of Professional Studies; New York University, PhD

**Marketa Rejtar**

Associate Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

**Francesco Restuccia**

Assistant Professor, Electrical and Computer Engineering; Missouri University of Science and Technology, PhD

**John R. Reynolds**

Professor, Pharmacy and Health Systems Sciences; Duquesne University, PharmD

**Ahmad Reza Haj Saeedi Sadegh**

Zelevinsky Postdoctoral Researcher, Mathematics; Pennsylvania State University, PhD

**Sarah Ricardi-Swartz**

Assistant Professor, Philosophy and Religion and Sociology and Anthropology; New York University, PhD

**Lesley A. Ricci**

Associate Teaching Professor, Psychology; Northeastern University, PhD

**Rashida Richardson**

Assistant Professor, Law and Political Science; Northeastern University, JD

**Megan Richmond**

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

**Vance Ricks**

Associate Teaching Professor, Philosophy and Religion and Computer Sciences; Stanford University, PhD

**Mirek Riedewald**

Associate Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Christoph Riedl**

Associate Professor, Supply Chain and Information Management and Computer Sciences; Technische Universität München (Germany), PhD

**Justin B. Ries**

Professor, Marine and Environmental Sciences; Johns Hopkins University, PhD

**Matteo Rinaldi**

Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

**Ana Rivera**

Associate Clinical Professor, Law; Boston College, JD

**Christie Rizzo**

Associate Professor, Applied Psychology; University of Southern California, Los Angeles, PhD

**Alexandra Roberts**

Professor, Law and Music; Yale University, JD

**Christina Roberts**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Simmons University, MBA

**Christopher J. Robertson**

Professor, International Business and Strategy; Florida State University, PhD

**Craig M. Robertson**

Associate Professor, Media and Screen Studies; University of Illinois, Urbana-Champaign, PhD

**William Robertson**

Associate Professor, Computer Sciences and Electrical and Computer Engineering; University of California, Santa Barbara, PhD

**Donald Robinaugh**

Assistant Professor, Applied Psychology and Art + Design; Harvard University, PhD

**Hilary C. Robinson**

Associate Professor, Law and Sociology and Anthropology; Massachusetts Institute of Technology, PhD; Harvard University, JD

**Tracy L. Robinson-Wood**

Professor, Applied Psychology; Harvard University, EdD

**Brian Robison**

Assistant Teaching Professor, Music; Cornell University, DMA

**David Rochefort**

Distinguished Professor, Political Science; Brown University, PhD

**Matthew Rocklage**

Assistant Professor, Marketing; Ohio State University, PhD

**Rachel Rodgers**

Associate Professor, Applied Psychology; Université de Toulouse-Le Mirail (France), PhD

**Kirsten Rodine-Hardy**

Associate Professor, Political Science; University of California, Berkeley, PhD

**Kristy Rogers**

Assistant Clinical Professor, Nursing; Medical University of South Carolina, DNP

**Sonia Rolland**

Professor, Law; Cambridge University (United Kingdom), PhD; University of Michigan, JD

**Bruce Ronkin**

Professor, Music; University of Maryland, DMA

**David Rosen**

Assistant Professor, Electrical and Computer Engineering and Mathematics; Massachusetts Institute of Technology, ScD

**Lauren Rosenberg**

Assistant Cooperative Education Coordinator, Computer Sciences; Tufts University, MS

**Rachel E. Rosenbloom**

Professor, Law; New York University, JD

**Rebeca B. Rosengaus**

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

**Matthew Ross**

Associate Professor, Sociology and Anthropology and Cultures, Societies, and Global Studies; University of Connecticut, PhD

**Aaron Roth**

Associate Teaching Professor, Biology; Northeastern University, PhD

**Alexandra Roth**

Associate Academic Specialist, International Business and Strategy; University of Frankfurt (Germany), PhD

**Sara Rouhanifard**

Assistant Professor, Bioengineering; Yeshiva University, PhD

**Jeffrey W. Ruberti**

Professor, Bioengineering; Tulane University, PhD

**Fabian Ruehle**

Assistant Professor, Physics; University of Bonn (Germany), PhD

**Michael Ruff**

Associate Teaching Professor, Accounting; Bentley University, PhD

**Julian Runge**

Visiting Assistant Professor, Marketing; Humbolt University (Germany), PhD

**Michael Running Wolf**

Clinical Instructor, Computer Sciences; Montana State University, MS

**Timothy J. Rupert**

Professor, Accounting; Pennsylvania State University, PhD

**Ivan Rupnik**

Associate Professor, Architecture; Harvard University, PhD

**Youngbok Ryu**

Assistant Teaching Professor, College of Professional Studies; Pardee RAND Graduate School, PhD

**S**

**Jane Saczynski**

Professor, Pharmacy and Health Systems Sciences; Pennsylvania State University, PhD

**Hanai Sadaka**

Associate Teaching Professor, Mathematics; Northeastern University, PhD, PhD

**Keivan Sadeghzadeh**

Associate Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

**J. Timothy Sage**

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Bhawesh Sah**

Assistant Teaching Professor, Supply Chain and Information Management; State University of New York at Binghamton, PhD

**Blaine Saito**

Assistant Professor, Law; Harvard University, JD

**Iman Salama**

Associate Teaching Professor, Electrical and Computer Engineering; Virginia Polytechnic Institute and State University, PhD

**Masoud Salehi**

Associate Professor, Electrical and Computer Engineering; Stanford University, PhD

**Carmel Salhi**

Assistant Professor, Health Sciences; Harvard University, PhD

**William Sanchez**

Associate Professor, Applied Psychology; Boston University, PhD

**Nada Sanders**

Distinguished Professor of Supply Chain Management, Supply Chain and Information Management; Ohio State University, PhD

**Ronald Sandler**

Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

**Erica Sands**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**John Sangster**

Assistant Teaching Professor, Engineering; Virginia Polytechnic Institute and State University, PhD

**Claudia Santelices**

Research Assistant Professor, Institute of Health Equity and Social Justice Research Center; University of Connecticut, PhD

**Mauricio Santillana-Guzman**

Professor, Physics and Electrical and Computer Engineering; University of Texas, Austin, PhD

**Jody Santos**

Visiting Assistant Teaching Professor, Journalism; Northeastern University, MA

**Nazmus Saquib**

Assistant Professor, Art + Design and Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Ravi Sarathy**

Professor, International Business and Strategy; University of Michigan, PhD

**Mehrdad Sasani**

Professor, Civil and Environmental Engineering; University of California, Berkeley, PhD

**Aarti Sathyanarayana**

Assistant Professor, Health Sciences and Computer Sciences; University of Minnesota Duluth, PhD

**Ajay B. Satpute**

Assistant Professor, Psychology; University of California, Los Angeles, PhD

**Behrooz (Barry) Satvat**

Teaching Professor, Chemical Engineering; Massachusetts Institute of Technology, ScD

**Saiph Savage**

Assistant Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Stephen S. Savitsky**

Assistant Cooperative Education Coordinator, College of Science; Marquette University, MA

**Hannah J. Sayre**

Assistant Professor, Chemistry and Chemical Biology and Chemical Engineering; Ohio State University, PhD

**Kevin Scanlon**

Professor of the Practice, Entrepreneurship and Innovation; University of London (United Kingdom), PhD

**Carmen Sceppa**

Professor, Health Sciences; Francisco Marroquín University (Guatemala), MD; Tufts University, PhD

**Martin Schedlbauer**

Teaching Professor, Computer Sciences; University of Massachusetts, PhD

**Gunar Schirner**

Associate Professor, Electrical and Computer Engineering; University of California, Irvine, PhD

**Matthias Schlichting**

Assistant Teaching Professor, Biology; University of Würzburg (Germany), PhD

**Ralf W. Schlosser**

Professor, Communication Sciences and Disorders; Purdue University, PhD

**Logan Schmidt**

Assistant Teaching Professor, Computer Sciences; Carnegie Mellon University, PhD

**Egon Schulte**

Professor, Mathematics; Technical University of Dortmund (Germany), PhD

**Kathryn Schulte Grahame**

Teaching Professor, Engineering; Columbia University, PhD

**Cristina Schultz**

Foley Family Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Massachusetts Institute of Technology/Woods Hole Oceanographic Institution, PhD

**Gail Schwartz**

Assistant Cooperative Education Coordinator, College of Engineering; Salem State University, MSW

**Joseph Schwartz**

Teaching Professor, Communication Studies; University of Iowa, PhD

**Martin Schwarz Jr.**

Associate Professor, Mathematics; Courant Institute of Mathematical Sciences, PhD

**Cody Scott**

Assistant Professor, Computer Sciences; University of Maryland, PhD

**Douglass Scott**

Associate Teaching Professor, Art + Design; Yale University, MFA

**Max Sederer**

Assistant Cooperative Education Coordinator, College of Engineering; Tufts University, MEd

**Ethan Selinger**

Associate Cooperative Education Coordinator, Khoury College of Computer Sciences; University of Massachusetts, Lowell, MS

**Sarah Sellke**

Assistant Teaching Professor, Computer Sciences; Purdue University, PhD

**Shubhro Sen**

Visiting Professor, Marketing; University of California, Berkeley, PhD

**Laura Senier**

Associate Professor, Sociology and Anthropology and Health Sciences; Brown University, PhD

**Sumi Seo**

Assistant Teaching Professor, Mathematics; University of Missouri, Columbia, PhD

**Bahram Shafai**

Professor, Electrical and Computer Engineering; George Washington University, ScD

**Bijal Shah**

Professor, Law; Yale University, JD

**Michael Shah**

Assistant Teaching Professor, Computer Sciences; Tufts University, PhD

**Andres Shahidinejad**

Assistant Professor, Finance and Economics; University of Chicago, PhD

**Shahin Shahrampour**

Assistant Professor, Mechanical and Industrial Engineering; University of Pennsylvania, PhD

**Rebecca M. Shansky**

Associate Professor, Psychology; Yale University, PhD

**Ali Sharifkhani**

Assistant Professor, Finance; University of Toronto (Canada), PhD

**William T. Sharp**

Associate Teaching Professor, Psychology; Boston Graduate School of Psychoanalysis, PhD

**Gavin M. Shatkin**

Professor, Public Policy and Urban Affairs and Architecture; Rutgers University, PhD

**Dennis R. Shaughnessy**

Senior Academic Specialist, Entrepreneurship and Innovation; University of Maryland, JD

**Thomas C. Sheahan**

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, ScD

**Sandra Shefelbine**

Professor, Mechanical and Industrial Engineering and Bioengineering; Stanford University, PhD

**Abhi Shelat**

Associate Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Paxton Sheldahl**

Assistant Teaching Professor, Architecture; Harvard University, MArch

**Maxwell Shepherd**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences and Mechanical and Industrial Engineering; Northwestern University, PhD

**Aryn Sherman**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MEd

**H. David Sherman**

Professor, Accounting; Harvard University, DBA

**Amit Shesh**

Teaching Professor, Computer Sciences; University of Minnesota Twin Cities, PhD

**Namratha Shetty**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; University of St. Thomas, St. Paul, MiM

**Shiaoming Shi**

Associate Teaching Professor, Bioengineering; University of Pittsburgh, PhD

**Xiaolin Shi**

Assistant Teaching Professor, Economics; Northeastern University, PhD

**Natalie Shibley**

Visiting Assistant Professor, Women's, Gender, and Sexuality Studies; University of Pennsylvania, PhD

**Ashleigh Shields**

Postdoctoral Teaching Associate, Communication Studies; Purdue University, PhD

**Craig Shillaber**

Assistant Teaching Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, MS

**Ji-Yong Shin**

Assistant Professor, Computer Sciences; Cornell University, PhD

**Olin Shivers**

Professor, Computer Sciences; Carnegie Mellon University, PhD

**Katy Shorey**

Assistant Teaching Professor, Philosophy and Religion; University of Missouri, PhD

**Catherine Showalter**

Assistant Teaching Professor, College of Professional Studies; University of Utah, PhD

**Aatmesh Shrivastava**

Assistant Professor, Electrical and Computer Engineering; University of Virginia, Charlottesville, PhD

**Milad Siami**

Assistant Professor, Electrical and Computer Engineering; Lehigh University, PhD

**Stephanie Sibicky**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PhD

**Brandon Sichling**

Assistant Teaching Professor, Art + Design; Emerson College, MFA

**Mary Lou Siefert**

Associate Clinical Professor, Nursing; Yale University, PhD

**Jose Sierra**

Associate Teaching Professor, Computer Sciences; Universidad Carlos III de Madrid (Spain), PhD

**Robert Sikes**

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Texas, Houston, PhD

**Michael B. Silevitch**

Robert Black Professor of Engineering and College of Engineering Distinguished Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Katherine Simmonds**

Clinical Professor, Nursing; University of Rhode Island, PhD

**Peter Simon**

Teaching Professor, Economics; Northern Illinois University, PhD

**Simon Singer**

Professor, Criminology and Criminal Justice; University of Pennsylvania, PhD

**Hanumant Singh**

Professor, Electrical and Computer Engineering and Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

**Sarita Singh**

Associate Teaching Professor, Computer Sciences; SNTD Women's University (India), PhD

**Rifat Sipahi**

Professor, Mechanical and Industrial Engineering; University of Connecticut, PhD

**Michail V. Sitkovsky**

Eleanor W. Black Chair in Immunophysiology and Pharmaceutical Biotechnology and Professor, Institute for Tissue Damage and Biology; Moscow State University (Russia), PhD

**Mark Sivak**

Associate Teaching Professor, Art + Design and Engineering; Northeastern University, PhD

**Hazel Sive**

Professor and Dean of the College of Science, Biology; Rockefeller University, PhD

**Louise A. Skinnari**

Assistant Professor, Physics; University of California, Berkeley, PhD

**Bill Skinner**

Postdoctoral Teaching Associate, Architecture; Brown University, PhD

**Nikolai Slavov**

Associate Professor, Bioengineering; Princeton University, PhD

**Rory Smead**

Ronald L. and Linda A. Rossetti Professor for the Humanities, Philosophy and Religion; University of California, Irvine, PhD

**David A. Smith**

Associate Professor, Computer Sciences; Johns Hopkins University, PhD

**Henry Smith**

Assistant Teaching Professor, Physics; Northeastern University, PhD

**Matthew Smith**

Associate Professor, Philosophy and Religion; University of North Carolina, Chapel Hill, PhD

**Molly Smith**

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

**Ronald Bruce Smith**

Associate Professor, Music; University of California, Berkeley, PhD

**Wendy A. Smith**

College of Arts and Sciences Distinguished Professor, Biology; Duke University, PhD

**Eugene S. Smotkin**

Professor, Chemistry and Chemical Biology; University of Texas, Austin, PhD

**Bridget Smyser**

Teaching Professor, Mechanical and Industrial Engineering; Worcester Polytechnic Institute, PhD

**Nancy P. Snyder**

Associate Teaching Professor, Psychology; Harvard University, EdD

**Dani Snyder-Young**

Assistant Professor, Theatre; New York University, PhD

**Isabel Sobral Campos**

Associate Teaching Professor, English; City University of New York, PhD

**Claudia Sokol**

Associate Teaching Professor, World Languages Center; University of Buenos Aires (Argentina), MD

**Fabricius Somogyi**

Assistant Professor, Finance; University of St. Gallen (Switzerland), PhD

**Lily Song**

Assistant Professor, Architecture and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

**Eduardo Sontag**

University Distinguished Professor, Electrical and Computer Engineering and Bioengineering; University of Florida, PhD

**Maria Sorenson**

Assistant Clinical Professor, Nursing; Northeastern University, MSN

**Julian Sosnick**

Assistant Teaching Professor, Biology; University of Massachusetts, Amherst, PhD

**Nikolaos S. Soukos**

Associate Teaching Professor, Physics and Biology; University of Munich (Germany), PhD

**Deborah Soule**

Visiting Lecturer, Supply Chain and Information Management; Harvard University, DBA

**Bert A. Spector**

Associate Professor, International Business and Strategy; University of Missouri, PhD

**Denise Spencer**

Senior Lecturer, Supply Chain and Information Management; Boston College, PhD

**Emily A. Spieler**

Edwin W. Hadley Professor, Law; Yale University, JD

**Karen M. Spikes**

Assistant Teaching Professor, Psychology; Cornell University, PhD

**Jay Spitulnik**

Associate Teaching Professor, Computer Sciences and Health Sciences; Walden University, PhD

**Taylor Sprague**

Assistant Cooperative Education Coordinator, Computer Sciences; North Carolina State University, MS

**Bryan Q. Spring**

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Srinivas Sridhar**

University Distinguished Professor, Physics; California Institute of Technology, PhD

**Kuppuswamy Srikrishna**

Associate Teaching Professor, Entrepreneurship and Innovation; University of California, Berkeley, PhD

**Kandarp Srinivasan**

Assistant Professor, Finance; Washington University, St. Louis, PhD

**Anna Sromek**

Research Assistant Professor, Center for Drug Discovery; University of Illinois, Chicago, PhD

**Ermus St. Louis**

Assistant Professor, Criminology and Criminal Justice; University of Illinois, Chicago, PhD

**Kristin Stankard**

Assistant Clinical Professor, Nursing; Palm Beach Atlantic University, DNP

**Thomas Starr**

Professor, Art + Design; Yale University, MFA

**Joshua Stefanik**

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD

**Mary Steffel**

Associate Professor, Marketing; Princeton University, PhD; University of Florida, PhD

**Leslie Stein**

Assistant Teaching Professor, College of Professional Studies; United States International University, EdD

**Armen B. Stepanyants**

Professor, Physics; University of Rhode Island, PhD

**Jennie Stephens**

Professor, Public Policy and Urban Affairs; California Institute of Technology, PhD

**Dagmar Sternad**

University Distinguished Professor, Biology and Electrical and Computer Engineering; University of Connecticut, PhD

**Paul Stevenson**

Assistant Professor, Physics; Massachusetts Institute of Technology, PhD

**Brooke Stewart**

Postgraduate Teaching Fellow, Art + Design; Tufts University, MFA

**Sebastian Stockman**

Teaching Professor, Writing Program; Emerson College, MFA

**Milica Stojanovic**

Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Michael Stone**

Associate Teaching Professor, Economics; University of Connecticut, PhD

**Jacob Stowell**

Associate Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Laney Strange**

Associate Teaching Professor, Computer Sciences; Dartmouth College, PhD

**Heather Streets-Salter**

Professor, History; Duke University, PhD

**Aron P. Stubbins**

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering and Chemistry and Chemical Biology; Newcastle University (United Kingdom), PhD

**Jacob Stump**

Assistant Teaching Professor, Philosophy and Religion; University of Toronto (Canada), PhD

**Lili Su**

Assistant Professor, Electrical and Computer Engineering; University of Illinois, Urbana-Champaign, PhD

**Ming Su**

Professor, Chemical Engineering; Northwestern University, PhD

**Fernando Suarez**

Jean C. Tempel Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

**Alexandru I. Suci**

Professor, Mathematics; Columbia University, PhD

**Annemarie C. Sullivan**

Senior Lecturer, Health Sciences; Northeastern University, MS

**Denis Sullivan**

Professor, Political Science and International Affairs; University of Michigan, PhD

**Fareena Sultan**

Professor, Marketing; Columbia University, PhD

**Hongwei Sun**

Professor, Mechanical and Industrial Engineering; Chinese Academy of Sciences (China), PhD

**Nian-Xiang Sun**

Professor, Electrical and Computer Engineering; Stanford University, PhD

**Ravi Sundaram**

Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Daniel Sunderland**

Professor of the Practice, Accounting; University of Chicago, MBA

**Shanu Sushmita**

Assistant Teaching Professor, College of Professional Studies; University of Glasgow (United Kingdom), PhD

**Alexander Susienka**

Assistant Cooperative Education Coordinator, College of Science; Western Michigan University, MA

**Gloria Sutton**

Associate Professor, Art + Design; University of California, Los Angeles, PhD

**Kara Swanson**

Professor, Law; Harvard University, PhD; University of California, Berkeley, JD

**Michael Swartz**

Visiting Teaching Professor, Art + Design; School of Visual Arts, MFA

**Richard S. Swasey Jr.**

Principal Lecturer, Finance; University of Virginia, MBA

**Jacqueline F. Sweeney**

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Northeastern University, MS

**Meredith O. Sweeney**

Assistant Teaching Professor, Biology; Brandeis University, PhD

**Nina Sylvanus**

Associate Professor, Sociology and Anthropology; Ecole des Hautes Etudes en Sciences Sociales, Paris (France), PhD

**Balazs Szelenyi**

Associate Teaching Professor, College of Professional Studies; University of California, Los Angeles, PhD

**Mario Sznaier**

Dennis Picard Trustee Professor, Electrical and Computer Engineering; University of Washington, PhD

**T****Srinivas Tadigadapa**

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

**David Tamés**

Associate Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

**Cheng Tan**

Assistant Professor, Computer Sciences; New York University, PhD

**Xiaoyu Tang**

Assistant Professor, Mechanical and Industrial Engineering; Princeton University, PhD

**Aysen Tanyeri-Abur**

Associate Teaching Professor, Economics; Texas AM University, PhD

**Peter Tarasewich**

Assistant Teaching Professor, Supply Chain and Information Management; University of Connecticut, PhD

**Mohammad E. Taslim**

Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

**Tomasz R. Taylor**

Professor, Physics; University of Warsaw (Poland), PhD

**Alison Terndrup**

Postgraduate Teaching Fellow, Art + Design; Boston University, PhD

**John Terpinas**

Professor of the Practice, College of Professional Studies; California Western School of Law, JD

**Kate Terrado**

Assistant Teaching Professor, Art + Design; Northeastern University, MFA

**Philip Thai**

Associate Professor, History; Stanford University, PhD

**Ganesh Thakur**

Professor, Pharmaceutical Sciences; Institute of Chemical Technology (India), PhD

**Dorin Thibault**

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, MBA

**Adam Thomas**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

**Corliss Thompson**

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

**Jamal Thorne**

Associate Teaching Professor, Art + Design; Northeastern University, MFA

**Zhenyu Tian**

Assistant Professor, Chemistry and Chemical Biology; University of North Carolina, Chapel Hill, PhD

**Jonathan L. Tilly**

University Distinguished Professor, Biology; Rutgers University, PhD

**Jodi Tims**

Professor of the Practice, Computer Sciences; University of Pittsburgh, PhD

**Frank Tip**

Professor, Computer Sciences; University of Amsterdam (Netherlands), PhD

**Lisa J. Tison-Thomas**

Assistant Cooperative Education Coordinator, College of Science; Emmanuel College, MA

**Devesh Tiwari**

Assistant Professor, Electrical and Computer Engineering; North Carolina State University, PhD

**Yustianto Tjiptowidjojo**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Mississippi State University, PhD

**Alexandra A. To**

Assistant Professor, Game Design and Computer Sciences; Carnegie Mellon University, PhD

**Gordana G. Todorov**

Professor, Mathematics; Brandeis University, PhD

**Irina Todorova**

Visiting Clinical Professor, Bouvé College of Health Sciences; Sofia University (Bulgaria), PhD

**Alessio Tognetti**

Associate Academic Specialist, World Languages Center; University of Washington, MA

**Valerio Toledano Laredo**

Professor, Mathematics; University of Cambridge (United Kingdom), PhD

**Michael Tolley**

Associate Professor, Political Science; Johns Hopkins University, PhD

**Jacqueline Tolosko**

Assistant Clinical Professor, Nursing; Boston College, MSN

**Peter Y. Topalov**

Professor, Mathematics; Moscow State University (Russia), PhD

**Vladimir P. Torchilin**

University Distinguished Professor, Pharmaceutical Sciences; Moscow State University (Russia), PhD, DSc

**Melanie Tory**

Professor of the Practice, Computer Sciences and Art + Design; Simon Fraser University Canada), PhD

**Ali Touran**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Mohammad Toutiaee**

Assistant Teaching Professor, Computer Sciences; University of Georgia, PhD

**Emery A. Trahan**

Professor, Finance; State University of New York at Albany, PhD

**Robert Triest**

Professor, Economics; University of Wisconsin, Madison, PhD

**Stavros Tripakis**

Associate Professor, Computer Sciences; Joseph Fourier University (France), PhD

**Giovanni Troiano**

Visiting Assistant Professor, Game Design; University of Copenhagen (Denmark), PhD

**Andrew Trotman**

Assistant Professor, Accounting; Bond University (Australia), PhD

**Geoffrey C. Trussell**

Professor, Marine and Environmental Sciences; College of William and Mary, PhD

**Kumiko Tsuji**

Associate Teaching Professor, World Languages Center; Georgetown University, PhD

**Eugene Tunik**

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Rutgers University, PhD

**Berna Turam**

Professor, International Affairs and Sociology and Anthropology; McGill University (Canada), PhD

**Esther Tutella-Chen**

Assistant Academic Specialist, College of Professional Studies; Vanderbilt University, MEd

**U****Jonathan Ullman**

Assistant Professor, Computer Sciences; Harvard University, PhD

**Annique Un**

Associate Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

**Christopher Unger**

Teaching Professor, College of Professional Studies; Harvard University, EdD

**Steven R. Untersee**

Associate Teaching Professor, Biology; Tufts University, PhD

**Moneesh Upmanyu**

Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

**V**

**Scott Valcourt**

Associate Teaching Professor, Computer Sciences; University of New Hampshire, PhD

**Mariana Valencia-Mastre**

Assistant Teaching Professor, Marine and Environmental Sciences; University of Michigan, PhD

**Steven Vallas**

Professor, Sociology and Anthropology; Rutgers University, PhD

**Jenny A. Van Amburgh**

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

**Jan-Willem Van De Meent**

Assistant Professor, Computer Sciences; Leiden University (Netherlands), PhD

**Anne L. Van De Ven-Moloney**

Associate Teaching Professor, Physics; Rice University, PhD

**Drew Van Der Poel**

Assistant Teaching Professor, Computer Sciences; North Carolina Agricultural and Technical State University, PhD

**Maria Van Pelt**

Clinical Professor, Nursing; Villanova University, DNSc

**Kathleen Vander Laan**

Senior Cooperative Education Coordinator, Khoury College of Computer Sciences; Salem State University, MBA

**Julia Varshavsky**

Assistant Professor, Health Sciences and Civil and Environmental Engineering; University of California, Berkeley, PhD

**Manuel Vaultont**

Assistant Professor, Management and Organizational Development; Arizona State University, PhD

**Elaine Vejar**

Assistant Academic Specialist, College of Professional Studies; University of Massachusetts, Lowell, MS

**Enio Velazco**

Senior Lecturer, Supply Chain and Information Management; Case Western Reserve University, PhD

**Oana Veliche**

Associate Teaching Professor, Mathematics; Purdue University, PhD

**Vivek Venkatachalam**

Assistant Professor, Physics; Harvard University, PhD

**Madhavi Venkatesan**

Assistant Teaching Professor, Economics; Vanderbilt University, PhD

**Anand Venkateswaran**

Associate Professor, Finance; Georgia State University, PhD

**Alice Verticelli**

Visiting Lecturer, International Affairs; Northeastern University, PhD

**Ferdinand Vesely**

Assistant Teaching Professor, Computer Sciences; Swansea University (United Kingdom), PhD

**Alessandro Vespignani**

Sternberg Family Distinguished University Professor, Physics and Health Sciences and Computer Sciences; Sapienza University of Rome (Italy), PhD

**Talia Vestri**

Associate Teaching Professor, English; Boston University, PhD

**Gustavo Vicentini**

Associate Teaching Professor, Economics; Boston University, PhD

**Thomas Vicino**

Professor, Political Science and Public Policy and Urban Affairs; University of Maryland, PhD

**Ilya Vidrin**

Postdoctoral Teaching Associate, Theatre; Harvard University, MA

**Emanuele Viola**

Associate Professor, Computer Sciences; Harvard University, PhD

**Jan Vitek**

Professor, Computer Sciences; University of Geneva (Switzerland), PhD

**Olga Vitek**

Professor, Computer Sciences; Purdue University, PhD

**Steven V. Vollmer**

Associate Professor, Marine and Environmental Sciences; Harvard University, PhD

**Robert J. Volpe**

Professor, Applied Psychology; Lehigh University, PhD

**W****Sara Wadia-Fascetti**

Professor, Civil and Environmental Engineering; Stanford University, PhD

**Ari E. Waldman**

Professor, Law and Computer Sciences; Columbia University, PhD; Harvard University, JD

**Thomas E. Wales**

Research Associate Professor, Chemistry and Chemical Biology; Duke University, PhD

**Jacob Walker**

Associate Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

**Louise Walker**

Associate Professor, History; Yale University, PhD

**Byron Wallace**

Assistant Professor, Computer Sciences; Tufts University, PhD

**Rachel Walsh**

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

**Suzanna Walters**

Professor, Women's, Gender, and Sexuality Studies and Sociology and Anthropology; City University of New York, PhD

**Darryl Walton**

Associate Clinical Professor, Law; Wake Forest University, JD

**Richard Wamai**

Associate Professor, Cultures, Societies, and Global Studies; University of Helsinki (Finland), PhD

**Kai-tak Wan**

Professor, Mechanical and Industrial Engineering; University of Maryland, College Park, PhD

**He Wang**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Ming Wang**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; University of New Mexico, PhD

**Qi Wang**

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

**Shuyang Wang**

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

**Yanzhi Wang**

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

**Meni Wanunu**

Associate Professor, Physics; Weizmann Institute of Science (Israel), PhD

**Robert J. Ward**

Lecturer, Music; University of California, San Diego, MA

**Oliver Wason**

Assistant Teaching Professor, Theatre; Yale University, MFA

**Maureen Watkins**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

**Natalya Watson**

Associate Teaching Professor, College of Professional Studies; University of Colorado, Denver, PhD

**Vanessa Wei**

Assistant Teaching Professor, World Languages Center; University of Pittsburgh, EdD

**Nikki Weickum**

Postdoctoral Teaching Associate, Communication Studies; University of Illinois, Urbana-Champaign, PhD

**Maira Weigel**

Assistant Professor, Communication Studies; Yale University, PhD

**Liza Weinstein**

Associate Professor, Sociology and Anthropology; University of Chicago, PhD

**Jonathan Weitsman**

Robert G. Stone Professor, Mathematics; Harvard University, PhD

**Brooke Welles**

Associate Professor, Communication Studies; Northwestern University, PhD

**Mark Wells**

Assistant Teaching Professor, Philosophy and Religion; Bowling Green State University, PhD

**Amanda Welsh**

Professor of the Practice, College of Professional Studies; Harvard University, PhD

**Brandon Welsh**

Professor, Criminology and Criminal Justice; University of Cambridge (United Kingdom), PhD

**Joshua Wen**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Illinois, Urbana-Champaign, PhD

**Edward G. Wertheim**

Associate Professor, Management and Organizational Development; Yeshiva University, PhD

**Richard West**

Associate Professor, Chemical Engineering; University of Cambridge (United Kingdom), PhD

**Alan West-Durán**

Professor, Cultures, Societies, and Global Studies; New York University, PhD

**Rebecca Westerling**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MA

**Richard Whalen**

Teaching Professor, Engineering; Northeastern University, PhD

**Max White**

Visiting Lecturer, English; Northeastern University, PhD

**Susan Whitfield-Gabrieli**

Professor, Psychology; University of California, Berkeley, PhD

**Paul C. Whitford**

Associate Professor, Physics; University of California, San Diego, PhD

**John Whitney**

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

**Lori Whynot**

Teaching Professor, American Sign Language; Macquarie University, Sydney (Australia), PhD

**Daniel Wicks**

Associate Professor, Computer Sciences; New York University, PhD

**Peter H. Wiederspahn**

Associate Professor, Architecture; Harvard University, MArch

**John Wihbey**

Associate Professor, Journalism; Columbia University, MS

**Ronald J. Willey**

Professor, Chemical Engineering; University of Massachusetts, Amherst, PhD

**Kristy H. Williams**

Associate Clinical Professor, Nursing; Gardner-Webb University, PhD

**Lucy A. Williams**

Professor, Law; University of Chicago, JD

**Mark C. Williams**

Professor, Physics; University of Minnesota, PhD

**Patricia J. Williams**

University Distinguished Professor, Law and Philosophy and Religion; Harvard University, JD

**Stephen Williams**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

**Rebecca Willits**

Professor, Chemical Engineering; Cornell University, PhD

**Christo Wilson**

Associate Professor, Computer Sciences; University of California, Santa Barbara, PhD

**Sheila Winborne**

Associate Teaching Professor, Philosophy and Religion; Harvard University, PhD

**Raimond Winslow**

Professor, Bioengineering and Computer Sciences; Johns Hopkins University, PhD

**ElDante Winston**

Visiting Associate Teaching Professor, Architecture; University of Virginia, MArch

**Eric Winter**

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

**Annie Witte**

Assistant Teaching Professor, Accounting; Bentley University, PhD

**Pamela Wojnar**

Associate Teaching Professor, College of Professional Studies; United States Sports Academy, EdD

**John Wolfe**

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

**Kathy Wong**

Assistant Cooperative Education Coordinator, College of Engineering; Seattle University, MEd

**Lok Sang (Lawson) Wong**

Assistant Professor, Computer Sciences; Massachusetts Institute of Technology, PhD

**Margaret Y. Woo**

Professor, Law; New York University, JD

**Darien Wood**

Professor, Physics; University of California, Berkeley, PhD

**Dori C. Woods**

Associate Professor, Biology; University of Notre Dame, PhD

**Sarah Woodside**

Associate Teaching Professor, Management and Organizational Development; Boston College, PhD

**Adam Woolley**

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

**Benjamin Woolston**

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Lisa Worsh**

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Bridgewater State College, MEd

**Shu-Shih Y. Wu**

Assistant Teaching Professor, Mathematics; Northeastern University, PhD

**Kinde Wubneh**

Assistant Professor, Entrepreneurship and Innovation and Pharmacy and Health System Sciences; University of Texas, Austin, PhD

**Sara A. Wylie**

Associate Professor, Sociology and Anthropology and Health Sciences; Massachusetts Institute of Technology, PhD

**X**

**Xia Xiao**

Assistant Professor, Accounting; University of Arizona, PhD

**Wei Xie**

Assistant Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

**Mofei Xu**

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MA

**Xiaolin Xu**

Assistant Professor, Electrical and Computer Engineering; University of Massachusetts, Amherst, PhD

**Y**

**Milen Yakimov**

Professor, Mathematics; University of California, Berkeley, PhD

**Shiawee X. Yang**

Associate Professor, Finance; Pennsylvania State University, PhD

**Hideaki Yano**

Assistant Professor, Pharmaceutical Sciences; Columbia University, PhD

**Mohammad Abbas Yaseen**

Assistant Professor, Bioengineering; Rice University, PhD

**Lichuan Ye**

Associate Professor, Nursing; University of Pennsylvania, DNSc

**Mishac K. Yegian**

College of Engineering Distinguished Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

**Edmund Yeh**

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

**Roi Yehoshua**

Assistant Teaching Professor, Electrical and Computer Engineering; Bar-Ilan University (Israel), PhD

**Boris Yelin**

Assistant Teaching Professor, World Languages Center; Purdue University, PhD

**Benjamin Yelle**

Associate Teaching Professor, Philosophy and Religion; University of Miami, PhD

**Sheng-Che Yen**

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; New York University, PhD

**Ayce Yesilaltay**

Assistant Teaching Professor, Biology; University of Massachusetts Medical School, PhD

**Caglar Yildirim**

Assistant Teaching Professor, Computer Sciences; Iowa State University, PhD

**George Yip**

Distinguished Visiting Professor, International Business and Strategy; Harvard University, DBA

**Moka Yoo-Jeong**

Assistant Professor, Nursing; Emory University, PhD

**Mark L. Yorra**

Senior Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Northeastern University, EdD

**Yizhi You**

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

**Gary Young**

Professor, International Business and Strategy and Health Sciences; State University of New York at Buffalo, PhD

**Lydia Young**

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

**Neal Young**

Teaching Professor, Computer Sciences; Princeton University, PhD

**Sarah C. Young-Hong**

Assistant Clinical Professor, Communication Sciences and Disorders; University of Pittsburgh, MA

**Shuishan Yu**

Associate Professor, Architecture; University of Washington, PhD

**Lua Yuille**

Professor, Law and Management and Organizational Development; Columbia University, JD

**Z****Nizar Zaarour**

Associate Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

**Adel Zadeh**

Associate Teaching Professor, College of Professional Studies; University of Cambridge (United Kingdom), PhD

**Michelle Zaff**

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

**Christos Zahopoulos**

Associate Professor, College of Professional Studies; Northeastern University, PhD

**Carl Zangerl**

Associate Teaching Professor, College of Professional Studies; University of Illinois, PhD

**Victor Zappi**

Assistant Professor, Music; Istituto Italiano di Tecnologia/Università degli studi di Genova (Italy), PhD

**Alan J. Zaremba**

Associate Professor, Communication Studies; State University of New York at Buffalo, PhD

**Daniel Zedek**

Professor of the Practice, Journalism; Columbia University, BA

**Ibrahim Zeid**

Professor, Mechanical and Industrial Engineering; University of Akron, PhD

**Moira Zellner**

Professor, Public Policy and Urban Affairs; University of Michigan, PhD

**Hongyang Zhang**

Assistant Professor, Computer Sciences; Stanford University, PhD

**Jie Zhang**

Assistant Teaching Professor, Mechanical and Industrial Engineering; Virginia Polytechnic Institute and State University, PhD

**Ke Zhang**

Associate Professor, Chemistry and Chemical Biology; Washington University, St. Louis, PhD

**Ning Zhang**

Associate Professor, Pharmacy and Health Systems Sciences and Nursing; Cornell University, PhD

**Shuo Zhang**

Assistant Professor, Economics and Computer Sciences; University of California, Santa Barbara, PhD

**Yang Zhang**

Professor, Civil and Environmental Engineering; University of Iowa, PhD

**Yue May Zhang**

Associate Professor, Accounting; University of Pittsburgh, PhD

**Qianqian Zhang-Wu**

Assistant Professor, English; Boston College, PhD

**Pu Zhao**

Research Assistant Professor, Electrical and Computer Engineering; Northeastern University, PhD

**Qing Zhao**

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

**Kuncheng Zheng**

Associate Professor, Finance; University of Michigan, PhD

**Yi Zheng**

Associate Professor, Mechanical and Industrial Engineering; Columbia University, PhD

**Lin Zhou**

Assistant Teaching Professor, College of Professional Studies; University of Hawai'i at Manoa, PhD

**Xiaomu Zhou**

Associate Teaching Professor, College of Professional Studies; University of Michigan, PhD

**Yan Zhou**

Zelevinsky Postdoctoral Researcher, Mathematics; University of Texas, Austin, PhD

**Zhaohui S. Zhou**

Professor, Chemistry and Chemical Biology; Scripps Research Institute, PhD

**Hongli Zhu**

Assistant Professor, Mechanical and Industrial Engineering; South China University of Technology (China), PhD

**Xuwen Zhu**

Assistant Professor, Mathematics; Massachusetts Institute of Technology, PhD

**Sali Ziane**

Teaching Professor, World Languages Center; University of Paris XIII (France), PhD

**Nathaniel Ziegler**

Associate Cooperative Education Coordinator, College of Engineering; Indiana University of Pennsylvania, MEd

**Emily Zimmerman**

Associate Professor, Communication Sciences and Disorders; University of Kansas, PhD

**Gregory Zimmerman**

Associate Professor, Criminology and Criminal Justice; State University of New York at Albany, PhD

**Kathrin Zippel**

Professor, Sociology and Anthropology; University of Wisconsin, Madison, PhD

**Steven Zoloth**

Professor, Health Sciences; University of Pennsylvania, PhD

**Rose Zoltek-Jick**

Associate Teaching Professor, Law; York University (Canada), LLB

**Elizabeth Zulick**

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

**Ronald Zullo**

Senior Lecturer, Accounting; Bentley University, MS

**Günther K. H. Zupanc**

Professor, Biology; University of California, San Diego, PhD; University of Tübingen (Germany), Dr. rer. nat. habil.

**Alexander Zvonok**

Research Assistant Professor, Center for Drug Discovery; Belarusian State University (Belarus), PhD

**Nikolai Zvonok**

Research Assistant Professor, Center for Drug Discovery; Russian Academy of Sciences (Russia), PhD

## General Information

- Notifications and Disclosures (p. 239)
- Governing Boards and Officers of Northeastern (p. 241)
- University Leadership (p. 243)
- Accreditation (p. 244)
- Authorizations (p. 248)
- Major CIP Codes (p. 252)
- Resources (p. 272)

## Notifications and Disclosures

The *Northeastern University Catalog* contains the university's primary statements about approved academic programs and degree requirements, as authorized by the president or the Board of Trustees.

The *Northeastern University Catalog* contains current information about the university calendar, admissions, degree requirements, fees, and certain procedures and regulations; however, such information is not intended and should not be regarded to be contractual. Course information was current as of July 31, 2023. For updated course information, students and advisors should consult the Banner course catalog (<https://nubanner.neu.edu/StudentRegistrationSsb/ssb/term/termSelection/?mode=courseSearch>).

### Accreditation

Please visit the Accreditation (<http://catalog.northeastern.edu/graduate/appendix/statements-accreditation/>) page of this catalog for details of Northeastern University's accreditation status.

### FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

In accordance with the Family Educational Rights and Privacy Act of 1974, Northeastern University permits its students to inspect their records wherever appropriate and to challenge specific parts of them when they feel it is necessary to do so. Specific details of the law as it applies to Northeastern are discussed in this section of the catalog (<http://catalog.northeastern.edu/graduate/academic-policies-procedures/ferpa/>).

### PERSISTENCE RATES UNDER THE STUDENT RIGHT-TO-KNOW ACT

In the fall of 2022, the persistence rate for undergraduate students who entered in the fall 2021 cohort was 97.2%.

### TUITION DEFAULT POLICY

In cases where the student defaults on their tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

### NONDISCRIMINATION POLICIES

Northeastern University is committed to providing a living, learning, and working environment free from discrimination and harassment and does not discriminate on the basis of race, color, religion, genetic information, sex, gender, gender identity, sexual orientation, age, national origin, ancestry, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. The university will not tolerate any conduct that violates rights guaranteed by law, or any of the university policies that prohibit discrimination, including the Policy on Equal Opportunity ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), Policy on Sexual and Gender-Based Harassment and Title IX ([https://policies.northeastern.edu/policy104/#\\_ga=21399120526780236931685972406-9222403871666097079](https://policies.northeastern.edu/policy104/#_ga=21399120526780236931685972406-9222403871666097079)), and the Policy on Non-Fraternization ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Non-Fraternization.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Non-Fraternization.pdf)). Furthermore, university policy also includes prohibitions of retaliation for filing complaints of discrimination with the Office for University Equity and Compliance. Links to the university's nondiscrimination policies and its grievance procedures are available at the OUEC (<https://www.northeastern.edu/ouec/>). Inquiries regarding the university's nondiscrimination policies may be directed to:

Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/>)  
125 Richards Hall  
Northeastern University  
Boston, Massachusetts 02115  
617.373.4644  
[ouec@northeastern.edu](mailto:ouec@northeastern.edu)

The university strongly encourages any person to report information relating to alleged discrimination or harassment to the OUEC (<https://www.northeastern.edu/ouec/>) by completing the form available here ([https://cm.maxient.com/reportingform.php?NortheasternUniv&layout\\_id=7](https://cm.maxient.com/reportingform.php?NortheasternUniv&layout_id=7)) or through any of the contact options listed above. OUEC's policies, as well as other helpful information, can be found at the OUEC website (<https://www.northeastern.edu/ouec/>).

### DISABILITY RESOURCE CENTER

The Disability Resource Center provides a variety of disability-related services and accommodations to Northeastern University's students with disabilities.

Northeastern University's compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 are coordinated by the senior director of the Disability Resource Center. Persons requiring information regarding the Disability Resource Center should contact the center at 617.373.2675 or [drc@northeastern.edu](mailto:drc@northeastern.edu).

### CLERY ACT

Northeastern University is committed to assisting all members of the university community in providing for their own safety and security. Information regarding campus security and personal safety, including topics such as crime prevention, university police law enforcement authority, crime reporting policies, crime statistics for the most recent three-year period, and disciplinary procedures, is available in the Annual Security & Fire Safety Reports, located on the NUPD website (<https://nupd.northeastern.edu/annual-reports/>).

### **EMERGENCY INFORMATION**

The university is prepared to respond to emergencies and urgent situations that require immediate action with a trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals from a coordinated group that is able to manage a wide range of potential situations.

In case of emergency or crisis situations that require immediate notification, university officials will deploy the NU Alert system, which sends email, voice mail, and text messages to students, faculty, and staff. NU Alert is intended to communicate pertinent information and, when appropriate, provide directions to those in the affected area(s).

A record of past Timely Warning and NU Alert Emergency Notifications for our campus community can be found on the NUPD website (<https://nupd.northeastern.edu/safety-notifications/>).

Examples of crisis situations range from snowstorms to national emergencies that have a local impact.

Additional information on the university's emergency information systems can be found on the university's Emergency Information (<https://www.northeastern.edu/emergency-information/>) website.

### **MISSION STATEMENT**

To educate students for a life of fulfillment and accomplishment.

To create and translate knowledge to meet global and societal needs.

## Governing Boards and Officers of Northeastern

### Officers of the Board of Trustees

Richard A. D'Amore, *Chair*

Edward G. Galante, *Vice Chair*

Alan S. McKim, *Vice Chair*

### Officers Emeritae/i

Neal F. Finnegan, *Chair Emeritus*

Henry J. Nasella, *Chair Emeritus*

Sy Sternberg, *Chair Emeritus*

George D. Behrakis, *Vice Chair Emeritus*

George W. Chamillard, *Vice Chair Emeritus*

## University Leadership

### Senior Leadership

**Joseph E. Aoun, BA, MA, PhD, *President***

**David Madigan, BA, PhD, *Provost and Senior Vice President for Academic Affairs***

**Ken Henderson, BS, PhD, *Chancellor and Senior Vice President for Learning***

**Michael A. Armini, BA, MA, *Senior Vice President for External Affairs***

**Diane Nishigaya MacGillivray, BA, MA, *Senior Vice President for University Advancement***

**Mary Strother, BA, JD, *Senior Vice President and General Counsel***

**Thomas Nedell, BA, MBA, *Senior Vice President for Finance and Treasurer***

### Academic Deans

**Gregory Abowd, BS, MSc, PhD, *Dean of the College of Engineering***

**Elizabeth Mynatt, BS, MS, PhD, *Dean of the Khoury College of Computer Sciences***

**David De Cremer, MSc, BSc, MA, PhD, *Dean of the D'Amore-McKim School of Business***

**Hazel L. Sive, BSc, BScHons., PhD, *Dean of the College of Science***

**Elizabeth Hudson, BA, MA, PhD, *Dean of the College of Arts, Media and Design***

**Radhika Seshan, BS, MA, PhD, *Dean of the College of Professional Studies***

**James R. Hackney, AB, JD, *Dean of the School of Law***

**Ron Sandler, PhD, *Interim Dean of the College of Social Sciences and Humanities***

**Carmen L. Sceppa, BS, MD, PhD, *Dean of the Bouvé College of Health Sciences***

## Accreditation

### Accreditation

Northeastern University has maintained its status as a member in good standing of the New England Commission of Higher Education, Inc. (NECHE), previously New England Association of Schools and Colleges (NEASC), since it was awarded its initial accreditation in 1940. The university was last reviewed by NECHE in 2018 and will be reviewed again in fall 2028.

Northeastern University possesses degree-granting authority in Massachusetts, under the auspices of the Massachusetts Board of Higher Education.

## Authorizations

### Campus Locations and Regulatory Agencies

In addition to accreditation by the New England Commission of Higher Education, Northeastern University is regulated by local authorities for its global campus network locations. These agencies are as follows:

- Arlington, Virginia
  - State Council of Higher Education for Virginia
- Charlotte, North Carolina
  - Board of Governors of the University of North Carolina
- Miami, Florida
  - Florida Commission for Independent Education
- Portland, Maine
  - Maine State Board of Education
- Oakland, California
  - Bureau for Private Postsecondary Education
- San Francisco, California
  - Bureau for Private Postsecondary Education
- San Jose, California
  - Bureau for Private Postsecondary Education
- Seattle, Washington
  - Washington Student Achievement Council
- Toronto, Ontario, Canada
  - Ministry of Colleges and Universities
- Vancouver, British Columbia, Canada
  - Ministry of Post-Secondary Education and Future Skills

### Required Disclosures

#### VIRGINIA

Northeastern has processes in place to ensure that student grievances are treated with respect and addressed in a fair and professional manner. Students can report concerns to the Office of Student Conduct and Conflict Resolution (<https://www.northeastern.edu/osccr/>) or the University Ombuds (<https://provost.northeastern.edu/ombuds/>). At the Arlington campus, students can contact the on-site student support specialist or the campus principal.

If a student's problem has not been resolved in pursuance of the Northeastern grievance policy, they may contact the State Council of Higher Education for Virginia. SCHEV representatives can be reached via telephone at (804) 225-2600; via fax at (804) 225-2604; at this website (<https://www.schev.edu/students/resources/student-complaints/>); or by mail at 101 N. 14th Street, 10th Floor, James Monroe Building, Richmond, VA 23219.

The Virginia State Approving Agency (SAA) is the approving authority of education and training programs for Virginia. Our office investigates complaints of GI Bill® beneficiaries. While most complaints should initially follow the school grievance policy, if the situation cannot be resolved at the school, the beneficiary should contact our office via email [saa@dvs.virginia.gov](mailto:saa@dvs.virginia.gov). *GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.*

#### NORTH CAROLINA

Northeastern has been evaluated by the University of North Carolina and is licensed to conduct higher education degree activity in the state. The university's guaranty bond for unearned prepaid tuition is on file with the Board of Governors of the University of North Carolina and the Office of the General Counsel at Northeastern. North Carolina students may view a copy of the Tuition Guaranty Bond by contacting Northeastern's Risk Services at 716 Columbus Avenue (Columbus Place), Suite 301 CP, Boston, MA 02120.

If students are unable to resolve a complaint offered by the Northeastern grievance procedures, they can submit a complaint through the online student complaint form at <https://studentcomplaints.northcarolina.edu/form> (<https://studentcomplaints.northcarolina.edu/form/>), or by mail to North Carolina Post-Secondary Education Complaints, 140 Friday Center Drive, Chapel Hill, NC 27517. <https://www.northcarolina.edu/post-secondary-education-complaints/>.

#### FLORIDA

Northeastern University—Miami is accredited by the New England Commission of Higher Education (NECHE) and is provisionally licensed in the state of Florida by the Commission on Independent Education (CIE). Additional information regarding the institution may be obtained by contacting the Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888) 224-6684.

The transferability of credits you earn at Northeastern is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Northeastern to determine if your credits or degree will transfer.

## CALIFORNIA

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education (<http://www.bppe.ca.gov>), 1747 N. Market Blvd., Ste. 225, Sacramento, CA 95834; P.O. Box 980818, West Sacramento, CA 95798-0818, (888) 370-7589, or by fax (916) 263-1897.

### **NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION**

The transferability of credits you earn at Northeastern is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Northeastern to determine if your credits or degree will transfer.

The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370-7589 or by visiting <https://osar.bppe.ca.gov/>.

## WASHINGTON

Northeastern is authorized by the Washington Student Achievement Council and meets the requirements and minimum educational standards established for degree-granting institutions under the Degree-Granting Institutions Act. This authorization is subject to periodic review and authorizes Northeastern to offer specific degree programs. The council may be contacted for a list of currently authorized programs. Authorization by the council does not carry with it an endorsement by the council of the institution or its programs. Any person desiring information about the requirements of the act or the applicability of those requirements to the institution may contact the council at P.O. Box 43430, Olympia, WA 98504-3430 or by email at [degreeauthorization@wsac.wa.gov](mailto:degreeauthorization@wsac.wa.gov).

The transferability of credits earned at Northeastern is at the discretion of the receiving college, university, or other educational institution. Students considering transferring to any institution should not assume that credits earned in any program of study at Northeastern will be accepted by the receiving institution. Similarly, the ability of a degree, certificate, diploma, or other academic credential earned at Northeastern to satisfy an admission requirement of another institution is at the discretion of the receiving institution. Accreditation does not guarantee credentials or credits earned at Northeastern will be accepted by or transferred to another institution. To minimize the risk of having to repeat coursework, students should contact the receiving institution in advance for evaluation and determination of transferability of credits and/or acceptability of degrees, diplomas, or certificates earned. The Washington Student Achievement Council has authority to investigate student complaints against specific schools. WSAC may not be able to investigate every student complaint. Visit <http://www.wsac.wa.gov/student-complaints> (<http://www.wsac.wa.gov/student-complaints/>) for information regarding the WSAC complaint process.

## ONTARIO

**Master of Science in Project Management** (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/project-management-ms/>)

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting July 28, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Regulatory Affairs** (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/regulatory-affairs-ms/>)

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting June 25, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Professional Studies in Analytics** (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/analytics-mps/>)

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting March 6, 2020. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Professional Studies in Informatics** (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/informatics-mps/>)

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting March 6, 2020. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Information Systems (<http://catalog.northeastern.edu/graduate/engineering/multidisciplinary/information-systems-msis/>)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting July 28, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Biotechnology (<http://catalog.northeastern.edu/graduate/science/chemistry-chemical-biology/biotechnology-ms/>)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting September 14, 2021. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Cyber-Physical Systems (<http://catalog.northeastern.edu/graduate/engineering/multidisciplinary/cyber-physical-systems-ms/>)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting January 18, 2023. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Bioinformatics (<http://catalog.northeastern.edu/graduate/science/biology/bioinformatics-ms/>)**

This institution has been granted consent by the Minister of Colleges and Universities to offer this degree program for a five-year term starting January 18, 2023. Prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**BRITISH COLUMBIA****Master of Science in Computer Science (<http://catalog.northeastern.edu/graduate/computer-information-science/computer-science/computer-science-mscs/>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective July 7, 2019, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Align—Master of Science in Computer Science (<http://catalog.northeastern.edu/graduate/computer-information-science/computer-science/computer-science-mscs/#alignprogramrequirements>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective July 7, 2019, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Data Analytics Engineering (<http://catalog.northeastern.edu/graduate/engineering/mechanical-industrial/data-analytics-engineering-ms/>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective November 29, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Science in Information Design and Data Visualization (<http://catalog.northeastern.edu/graduate/arts-media-design/art-design/information-design-data-visualization-ms/>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective October 28, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**Master of Professional Studies in Analytics (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/analytics-mps/>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective October 28, 2021, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**MASTER OF SCIENCE IN INFORMATION SYSTEMS (<http://catalog.northeastern.edu/graduate/engineering/multidisciplinary/information-systems-msis/>)**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective March 3, 2023, having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (e.g., acceptable to potential employers, professional licensing bodies, or other educational institutions).

**MASTER OF professional studies in digital media (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/digital-media-mps/>) (*including connect* (<http://catalog.northeastern.edu/graduate/professional-studies/masters-degree-programs/digital-media-mps-connect/>))**

This program is offered under the written consent of the Minister of Post-Secondary Education and Future Skills effective June 6, 2023 having undergone a quality assessment process and been found to meet the criteria established by the minister. Nevertheless, prospective

students are responsible for satisfying themselves that the program and the degree will be appropriate to their needs (for example, acceptable to potential employers, professional licensing bodies, or other educational institutions).

Distance Education/State Authorization Reciprocity Agreement Student Complaint Procedures (<https://www.northeastern.edu/graduate/wp-content/uploads/2020/07/25.-Student-Complaint-Procedure-with-links.pdf>)

## Major CIP Codes

The following is a list of Northeastern University majors for programs accepting new students during the 2023-2024 catalog year, along with each major's corresponding CIP code. "CIP" refers to the Classification of Instructional Programs published by the U.S. Department of Education's National Center for Education Statistics (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=56>).

Academic Program	Major Transcript Title	Major CIP Code
P-CERTG-3DAN: 3D Animation, Graduate Certificate	3-D Animation	100304
CERTG-ACFD: Accounting and Financial Decision Making, Graduate Certificate	Accntng Fin Decision Making	520899
MSA-ACCT: Accounting, MSA	Accounting	520301
P-CERTU-ACCT: Accounting, Undergraduate Certificate	Accounting	520301
P-CERTU-AACT: Advanced Accounting, Undergraduate Certificate	Advanced Accounting	520301
MS-AIMF: Advanced and Intelligent Manufacturing, MS	Advanced and Intelligent Mfg	143601
P-BS-AVMS: Advanced Manufacturing Systems, BS	Advanced Manufacturing Systems	150613
BA-AFMS: Africana Studies and Media and Screen Studies, BA	Africana St/Media Screen St	050201
BA-AFHS: Africana Studies and Human Services, BA	Africana Stud/Human Services	050201
BA-AFCS: Africana Studies, BA	Africana Studies	050201
BS-AFCS: Africana Studies, BS	Africana Studies	050201
BA-AFEN: Africana Studies and English, BA	Africana Studies/English	050201
BA-AFPS: Africana Studies and Political Science, BA	Africana Studies/Political Sci	050201
P-CERTG-AGPM: Agile Project Management, Graduate Certificate	Agile Project Management	520211
P-BS-ANLY: Analytics, BS	Analytics	110802
P-CERTU-ANLY: Analytics, Undergraduate Certificate	Analytics	110802
P-MPS-ANLY: Analytics, MPS	Analytics	110802
MS-AQMS: Applied Quantitative Methods and Social Analysis, MS	Appl Quant Methods Soc Anlys	450102
P-CERTG-APAN: Applied Analytics, Graduate Certificate	Applied Analytics	307101
MS-ABA: Applied Behavior Analysis, MS	Applied Behavior Analysis	422814
MS-AEPP: Applied Educational Psychology, MS	Applied Educational Psychology	422805
P-MPS-APLG: Applied Logistics, MPS	Applied Logistics	520203
P-MPS-APMI: Applied Machine Intelligence, MPS	Applied Machine Intelligence	521301
CERTG-AMTH: Applied Mathematics, Graduate Certificate	Applied Mathematics	270301
MS-AMTH: Applied Mathematics, MS	Applied Mathematics	270301
MS-APNR: Applied Nursing Research, MS	Applied Nursing Research	513808
P-MS-APNU: Applied Nutrition, MS	Applied Nutrition	301901
BS-APHY: Applied Physics, BS	Applied Physics	400801
MS-APEN: Applied Physics and Engineering, MS	Applied Physics/Engineering	400801
MS-APPS: Applied Psychology, MS	Applied Psychology	422813
BS-ARCS: Architectural Studies, BS	Architectural Studies	040801
BS-ARSD: Architectural Studies and Design, BS	Architectural Studies/Design	040803
BS-ARCH: Architecture, BS	Architecture	040902

MARCH-ARCH1: Master of Architecture—One-Year Program	Architecture	040902
MARCH-ARCH2: Master of Architecture—Two-Year Program	Architecture	040902
MARCH-ARCH3: Master of Architecture—Three-Year Program	Architecture	040902
MARCH-ARCH3A: Master of Architecture—Three-Year Program—Advanced Degree Entrance	Architecture	040902
BS-AENG: Architecture and English, BS	Architecture/ English	040201
BA-ARTS: Art, BA	Art	500702
MS-ARIN: Artificial Intelligence	Artificial Intelligence	110102
MS-AMCE: Arts Administration and Cultural Entrepreneurship, MS	Arts Adm Cultural Entrepren	501099
CERTG-ARAD: Arts Administration, Graduate Certificate	Arts Administration	501099
BS-ASLI: American Sign Language—English Interpreting, BS	ASL - English Interpreting	161601
BS-ASHU: American Sign Language and Human Services, BS	ASL / Human Services	161601
BS-ASLN: American Sign Language and Linguistics, BS	ASL / Linguistics	161601
BS-ASPS: American Sign Language and Psychology, BS	ASL / Psychology	161601
BS-ASTH: American Sign Language and Theatre, BS	ASL / Theatre	161601
BS-BNPH: Behavioral Neuroscience and Philosophy, BS	Behav Neuroscience/Philosophy	261501
BS-BENS: Behavioral Neuroscience, BS	Behavioral Neuroscience	261501
BS-BNDS: Behavioral Neuroscience and Design, BS	Behavioral Neuroscience/Design	261501
BS-BIOC: Biochemistry, BS	Biochemistry	260202
CERTG-BDBS: Biodefense and Biosecurity, Graduate Certificate	Biodefense and Biosecurity	261201
BSBIOE-BION: Bioengineering, BSBioE	Bioengineering	149999
MSBIOE-BION: Bioengineering, MSBioE	Bioengineering	149999
PHD-BION: Bioengineering, PhD	Bioengineering	149999
PHD-BION-A: Bioengineering, PhD—Advanced Entry	Bioengineering	149999
BSBIOE-BEBC: Bioengineering and Biochemistry, BSBioE	Bioengineering/Biochemistry	149999
CERTG-BINF: Bioinformatics, Graduate Certificate	Bioinformatics	261103
MS-BINF: Bioinformatics, MS	Bioinformatics	261103
P-BS-BIOS: Biological Science, BS	Biological Science	260101
BS-BIOL: Biology, BS	Biology	260101
MS-BIOL: Biology, MS	Biology	260101
PHD-BIOL: Biology, PhD	Biology	260101
PHD-BIOL-A: Biology, PhD-Advanced Entry	Biology	260101
BS-BENG: Biology and English, BS	Biology/English	269999
BS-BIMA: Biology and Mathematics, BS	Biology/Mathematics	260101
BS-BIPO: Biology and Political Science, BS	Biology/Political Science	269999
BS-BIMP: Biomedical Physics, BS	Biomedical Physics	260203
MS-BIOM: Biomedical Science, MS	Biomedical Science	260102
PHD-BIOM: Biomedical Science, PhD	Biomedical Science	260102
PHD-BIOM-A: Biomedical Science, PhD—Advanced Entry	Biomedical Science	260102

P-CERTG-BPRA: Biopharmaceutical Regulatory Affairs, Graduate Certificate	Biopharmaceutical Reg Affairs	512099
CERTG-BIAS: Biopharmaceutical Analytical Sciences, Graduate Certificate	Biopharm Analytical Sci	400599
P-CERTG-BPQI: International Biopharmaceutical Regulatory Affairs, Graduate Certificate	Biopharmacy Quality Intl	512099
CERTG-BIOT: Biotechnology, Graduate Certificate	Biotechnology	261201
MS-BIOT-SC: Biotechnology, MS	Biotechnology	261201
P-BS-BIOT: Biotechnology, BS	Biotechnology	261201
CERTG-BITE: Biotechnology Enterprise, Graduate Certificate	Biotechnology Enterprise	261201
CERTG-RESC: Biotechnology Regulatory Science, Graduate Certificate	Biotechnology Regulatory Sci	512004
CERTG-BLCE: Blockchain and Smart Contract Engineering, Graduate Certificate	Blockchain Smart Contr. Engr	140903
CERTG-BMGT: Brand Management, Graduate Certificate	Brand Management	521401
CERTG-TBWS: Broadband Wireless Systems, Graduate Certificate	Broadband Wireless Systems	110901
BS-BALW: Business Administration and Law, BS	Business Admin and Law	520101
BS-BACS: Business Administration and Communication Studies, BS	Business Admin/Comm Studies	520101
BS-BAPS: Business Administration and Psychology, BS	Business Admin/Psychology	520101
BS-BAPH: Business Administration and Public Health, BS	Business Admin/Public Health	520101
BSBA-BSAD: Bachelor of Science in Business Administration, BSBA	Business Administration	520101
CERTG-BSAD: Business Administration, Graduate Certificate	Business Administration	520101
CERTG-BSAD-O: Business Administration—Online Program, Graduate Certificate	Business Administration	520101
MBA-BSAD-E: Business Administration, MBA—Part-Time	Business Administration	520101
MBA-BSAD-F: Business Administration, MBA—Full-Time	Business Administration	520101
MBA-BSAD2-O: Business Administration, MBA—Online	Business Administration	520101
BS-BUDE: Business Administration and Design, BS	Business Administration/Design	520101
CERTG-BUSA: Business Analytics, Graduate Certificate	Business Analytics	521302
MS-BUSA: Business Analytics, MS	Business Analytics	521302
MS-BUSA-O: Business Analytics, MS—Online	Business Analytics	521302
CERTG-BLAW: Business Law, Graduate Certificate	Business Law	220205
CERTG-HECA: Business Management for Healthcare, Graduate Certificate	Business Mgmt for Healthcare	521099
MS-CGTH: Cell and Gene Therapies, MS	Cell and Gene Therapies	260806
BS-CMBI: Cell and Molecular Biology, BS	Cell and Molecular Biology	260406
BSCHE-CEBE: Chemical Engineering and Bioengineering, BSChE	Chem Engineer/Bioengineering	140701
BSCHE-CHOC: Chemical Engineering and Biochemistry, BSChE	Chem Engineering/ Biochemistry	140701
BSCHE-CHME: Chemical Engineering, BSChE	Chemical Engineering	140701
MSCHE-CHME: Chemical Engineering, MSChE	Chemical Engineering	140701
PHD-CHME: Chemical Engineering, PhD	Chemical Engineering	140701

PHD-CHME-A: Chemical Engineering, PhD—Advanced Entry	Chemical Engineering	140701
BSCHE-CHCS: Chemical Engineering and Computer Science, BSChE	Chemical Engineering/Comp Sci	140701
BSCHE-CEDS: Chemical Engineering and Data Science, BSChE	Chemical Engineering/Data Sci	140701
BSCHE-CEPH: Chemical Engineering and Physics, BSChE	Chemical Engineering/Physics	140701
BSCHE-CEEE: Chemical Engineering and Environmental Engineering, BSChE	Chemical Engr/Environ Engr	140701
BS-CHEM: Chemistry, BS	Chemistry	400501
MS-CHEM: Chemistry, MS	Chemistry	400501
PHD-CHEM: Chemistry, PhD	Chemistry	400501
PHD-CHEM-A: Chemistry, PhD-Advanced Entry	Chemistry	400501
PHD-CEEN: Civil and Environmental Engineering, PhD	Civil Environmental Engineer	140801
PHD-CEEN-A: Civil and Environmental Engineering, PhD—Advanced Entry	Civil Environmental Engineer	140801
BSCE-CEAS: Civil Engineering and Architectural Studies, BSCE	Civil Eng/Arch Studies	140801
BSCE-CIVE: Civil Engineering, BSCE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Construction Management, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Water, Environmental, and Coastal Systems, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Geotechnical/Geoenvironmental Engineering, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Structures, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Transportation, MSCivE	Civil Engineering	140801
MSCIVE-CIVE: Civil Engineering with Concentration in Data and Systems, MSCivE	Civil Engineering	140801
BSCE-CVCS: Civil Engineering and Computer Science, BSCE	Civil Engineering/Computer Sci	140801
CERTG-CLEN: Climate and Engineering, Graduate Certificate	Climate and Engineering	141401
MS-CLSE: Climate Science and Engineering, MS	Climate Sci and Engineering	141401
P-CERTG-CCAM: Cloud Computing Application and Management, Graduate Certificate	Cloud Computing App and Mgmt	110104
CERTG-CLSD: Cloud Software Development, Graduate Certificate	Cloud Software Development	110902
P-CERTG-CATH: Collegiate Athletics Administration, Graduate Certificate	Collegiate Athletics Admin	310504
BA-CMGR: Communication Studies and Graphic and Information Design, BA	Comm Stud/Graph Info Design	090101
BS-CMSL: Communication Studies and Speech-Language Pathology and Audiology	Comm Stud/Speech-Lang Path Aud	090101
BA-CMTH: Communication Studies and Theatre, BA	Comm Studies/Theatre	090199
P-MS-COED: Commerce and Economic Development, MS	Commerce Economic Developmnt	450603
BA-CMME: Communication and Media Studies, BA	Communication Media Studies	090199

BA-CMSO: Communication Studies and Sociology, BA	Communication Stud./Sociology	090199
BA-CMST: Communication Studies, BA	Communication Studies	090101
BS-CSBA: Computer Science and Business Administration, BS	Comp Sci/Business Admin	110101
BS-CSCP: Computer Science and Cognitive Psychology, BS	Comp Sci/Cognitive Psyc	110101
BS-CSES: Computer Science and Environmental and Sustainability Sciences, BS	Comp Sci/Environ and Sust Sci	110101
BS-CSMA: Computer Science and Mathematics, BS	Comp Sci/Mathematics	110101
BS-CSPP: Computer Science and Politics, Philosophy, and Economics, BS	Comp Sci/Politics, Phil Econ	110101
CERTG-COSS: Computational Social Science, Graduate Certificate	Computational Social Science	305202
BSCMPE-CMPE: Computer Engineering, BSCmpE	Computer Engineering	140901
PHD-CMPE: Computer Engineering, PhD	Computer Engineering	140901
PHD-CMPE-A: Computer Engineering, PhD-Advanced Entry	Computer Engineering	140901
BSCMPE-CMPH: Computer Engineering and Physics, BSCmpE	Computer Engineering/Physics	140901
BSCMPE-CECS: Computer Engineering and Computer Science, BSCmpE	Computer Engr/Computer Science	140901
BS-CSPO: Computer Science and Political Science, BS	Computer Sci./ Political Sci.	110101
BS-CSBN: Computer Science and Behavioral Neuroscience, BS	Computer Sci/Behavior Neurosci	110101
BS-CSCS: Computer Science and Communication Studies, BS	Computer Sci/Communication Stu	110101
BS-CSCJ: Computer Science and Criminal Justice, BS	Computer Sci/Criminal Justice	110101
BS-CGDV: Computer Science and Game Development, BS	Computer Sci/Game Development	110101
BS-CSMU-MUTE: Computer Science and Music with Concentration in Music Technology, BS	Computer Sci/Music	110101
BS-CSPL: Computer Science and Philosophy, BS	Computer Sci/Philosophy	110101
BS-CSPY: Computer Science and Physics, BS	Computer Sci/Physics	110101
BS-CSSO: Computer Science and Sociology, BS	Computer Sci/Sociology	110101
BACS-CSCI: Computer Science, BACS	Computer Science	110101
BSCS-CSCI: Computer Science, BSCS	Computer Science	110101
CERTG-CSCI: Computer Science, Graduate Certificate	Computer Science	110101
MSCS-CSCI: Computer Science, MSCS	Computer Science	110101
MSCS-CSCI-AL: Computer Science, MSCS—Align	Computer Science	110101
PHD-CSCI: Computer Science, PhD	Computer Science	110101
PHD-CSCI-A: Computer Science, PhD—Advanced Entry	Computer Science	110101
BS-CSBI: Computer Science and Biology, BS	Computer Science/Biology	110101
BS-CSDE: Computer Science and Design, BS	Computer Science/Design	110101
BS-CSEC: Computer Science and Economics, BS	Computer Science/Economics	110101
BS-CSEG: Computer Science and English, BS	Computer Science/English	110101
BS-CSHI: Computer Science and History, BS	Computer Science/History	110101
BS-CSJO: Computer Science and Journalism, BS	Computer Science/Journalism	110101
BS-CSLI: Computer Science and Linguistics, BS	Computer Science/Linguistics	110101
BS-CSME: Computer Science and Media Arts, BS	Computer Science/Media Arts	110101
BS-CSTH: Computer Science and Theatre, BS	Computer Science/Theatre	110101

BS-CPLW: Computing and Law, BS	Computing and Law	110101
P-CERTG-CONM: Construction Management, Graduate Certificate	Construction Management	460412
P-MS-CORC: Corporate and Organizational Communication, MS	Corporate Org Communication	090101
CERTG-COFN: Corporate Finance, Graduate Certificate	Corporate Finance	520801
CERTG-COIN: Corporate Innovation, Graduate Certificate	Corporate Innovation	520210
CERTG-CPRN: Corporate Renewal, Graduate Certificate	Corporate Renewal	520799
MSCP-COPS: Counseling Psychology, MSCP	Counseling Psychology	422803
PHD-COPS-MSE: Counseling Psychology, PhD	Counseling Psychology	422803
MS-CCMD: Creative Collaboration and Multidisciplinary Design, MS	Creatv Collab Multidisc Dsgn	501099

## Information for Entering Students

Graduate education at Northeastern University integrates the highest level of scholarship across disciplinary boundaries with significant research and experiential learning opportunities in Boston and around the world. Northeastern offers hundreds of graduate programs, ranging from doctoral and full-time master's programs to part-time programs and graduate certificates, including an array of innovative PhD and master's programs designed to prepare students for emerging new fields. Students are able to take courses on campus, online, or in hybrid formats. This multidimensional learning environment offers students the knowledge and experience to excel and the flexibility to create the educational experience that best meets their needs. Our graduates are well positioned to meet the diverse demands of careers in academia, industry, and the professions.

## Libraries

### Northeastern University Library

Website (<https://library.northeastern.edu>)

617.373.8778

The Northeastern University Library serves the entire Northeastern community—in Boston, Oakland, across the global campus network, and online. The Library provides collections and services supporting research and teaching across disciplines. Its collections are extensive, with a large proportion available digitally. The Library's collections include more than 1 million e-books; almost 500,000 print titles; more than 150,000 licensed e-journals; and more than 200,000 streaming audio and visual titles. Access to print and electronic materials is provided through Scholar OneSearch, the Library's discovery platform. The Library's Archives and Special Collections hold historical records and publications of Northeastern and unique materials preserving the history of Boston's social movements, public infrastructure, neighborhoods, and natural environments.

Services provided by the Library include both on-site and online research help, the latter including 24/7 live chat with a reference librarian; subject-specialist librarians who provide in-depth consultation and research support for each academic program at the university; and an interlibrary loan system for providing materials not readily available at Northeastern. The Library actively supports the unique needs of graduate students in research and publishing through services such as citation management workshops, research data support, and digital scholarship services.

The Snell Library building in Boston is open to all Northeastern students, faculty, and staff. Spaces in the building include areas for group work and quiet individual study, with more than 30 group study rooms with whiteboards and plug-in displays for collaborative group work. Individual study rooms are also available for graduate students. The Library supports a range of creative activities and includes studios for audio recording, video production, and 3D printing.

F. W. Olin Library in Oakland is open to all Northeastern students, faculty, and staff, as well as Mills College and Northeastern University alumni and community members. The Library offers a collection of 200,000 volumes and other media supporting the curricular needs of the programs on the Oakland campus. Spaces in the building include areas for quiet study and group work, including reservable study rooms, a seminar room, and the student lounge. F. W. Olin Library houses special collections in the Elinor Raas Heller Rare Book Room. Oakland special collections include early printed books, contemporary fine press and artists' books, and the Mills College Archive.

---

### School of Law Library

Website (<https://law.northeastern.edu/library/>)

617.373.3332

The School of Law Library, located on four floors in the Knowles Law Center, includes a comprehensive collection of U.S. legal materials in print and in electronic format. Of particular note is the library's collection in the areas of public interest law; international human rights law; and public health, death penalty issues, and progressive lawyering. More information can be found at the School of Law Library webpage (<https://law.northeastern.edu/library/>).

## Office of the University Registrar

The Office of the University Registrar provides an important link between the university's academic programs and policies and the student. It administers a number of specific services, including class scheduling, registration, record functions, verification of enrollment, reporting, and transcript services.

The Office of the University Registrar utilizes the Student Hub (<https://me.northeastern.edu/>) to provide students convenient access to information and services, including class schedules and registration, most recent grades, unofficial transcripts, and transcript and enrollment verification requests.

Office of the University Registrar website (<https://registrar.northeastern.edu/>)

registrar@northeastern.edu

617.373.2300

617.373.5351 (fax)

### **Maintenance of Student Records**

The Office of the University Registrar is responsible for ensuring appropriate maintenance and safekeeping of student records. The transcript, which is stored electronically and maintained indefinitely, is the holistic record of student attendance and degree progress. In the event that the university discontinues operations, the archive of student records would be maintained by:

Massachusetts Department of Higher Education

One Ashburton Place

Room 1401

Boston, MA 02108

## Center for Advancing Teaching and Learning Through Research

catlr@northeastern.edu

Website (<https://learning.northeastern.edu/>)

617.373.3157

617.373.7779 (fax)

The Center for Advancing Teaching and Learning Through Research provides professional development for all graduate students at Northeastern University in their roles as teaching assistants, instructors, and future faculty and professionals. We provide a range of opportunities for graduate students to develop effective teaching skills, including course design and communication. CATLR is committed to supporting your success at Northeastern and beyond, and we welcome you to:

- Participate in workshops and other events to learn about effective practices in teaching and course design and to adapt them for your own current or future use.
- Meet one-on-one with a CATLR consultant to discuss any aspect of teaching or preparing for the academic job market and postdoctoral careers, including developing course syllabi, teaching statements, teaching portfolios, and diversity statements.
- Invite a CATLR consultant to observe your class, recitation, lab, studio, or guest lecture and to meet with you afterward to share and discuss their observations in relation to your own goals and reflections.
- Learn more about our self-paced Future Faculty Program, designed for you to reflect on and prepare for the various dimensions of teaching in higher education.

All of CATLR's services are provided on a formative and confidential basis.

## Disability Resource Center

617.373.2675

617.373.7800 (fax)

Website (<http://www.northeastern.edu/drc/>)

Northeastern University and the Disability Resource Center are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that substantiates a disability and demonstrates a current significant limitation. Accommodations are provided based on an evaluation of the information provided by students, and their clinicians, on a case-by-case basis. These services are available for, but not limited to, students with the following diagnoses:

- Learning disabilities and/or ADHD
- Autism spectrum disorders
- Chronic or degenerative disorders
- Hearing loss
- Mobility impairments
- Psychiatric disorders
- Traumatic or acquired brain injury
- Vision impairments

Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. Visit the DRC website (<http://www.northeastern.edu/drc/>) for additional information or contact staff at 617.373.2675.

## Employer Engagement and Career Design

Website (<https://careers.northeastern.edu>)

103 Stearns Center  
617.373.2430  
[careers@northeastern.edu](mailto:careers@northeastern.edu)

Employer Engagement and Career Design serves a diverse and sustainable global network of learners, alumni, and employers, forming a powerful ecosystem that nurtures lifelong career design and partnerships by enabling learners to:

- Choose a major and explore career options that fit an individual's unique attributes
- Take advantage of experiential learning opportunities
- Make career decisions that will engage students and alumni in productive and fulfilling work
- Prepare for and conduct successful job searches
- Create meaningful and effective engagement with employers
- Contribute to meeting global and societal needs

We collaborate closely with the co-op community in all colleges and campuses across the global university while offering a dynamic framework of career design as lifelong learning with distinctive advising and programs to support learners at all stages of their journey. We are committed to supporting all learners and employer partners in eliminating biases and inequitable systems that stand in the way of achieving their goals and fostering an inclusive and just society.

## Public Safety

### Northeastern University Police Department

100 Columbus Place  
617.373.3333 (EMERGENCY—police, fire, medical)  
617.373.3934 (TTY emergency or nonemergency)  
617.373.2121 (nonemergency regular business)

Website (<https://nupd.northeastern.edu/>)

*Public Safety Division Administrative Offices*  
617.373.2696

*Personal Safety*  
617.373.2121

The Public Safety Division is committed to working with Northeastern University faculty, students, staff, and neighbors to build relationships and keep our campus thriving. Our work extends far beyond Boston, as we support learners in their academic and experiential endeavors around the world. The Public Safety Division is comprised of three sections: Police Department, Emergency Management, and International Safety.

The Northeastern University Police Department (<https://nupd.northeastern.edu/>) is a full-service and accredited police agency that comprises patrol and investigative divisions providing 24-hour service. NUPD has developed robust crime-detection and prevention strategies centered on technology and campus community engagement. Our well-trained officers are ready and willing to assist all members of our community.

A personal safety escort (<https://nupd.northeastern.edu/our-services/safety-escort-services/>) can be provided from one on-campus location to another, any time of day, whenever personal safety is a concern. You'll need to provide your name, Northeastern ID number, and location. Safety escorts usually arrive in 10 to 15 minutes. A special, nighttime off-campus escort service, called the RedEye, runs from dusk to dawn to transport students to their residence within two miles from the center of campus. Every night from 7 p.m. until 6 a.m., the RedEye van will pick students up at the Snell Library. In order to use this escort, you must book a ride in advance using the RedEye app, or you can book a ride at the RedEye dispatch center located at the Northeast Security office in the Ruggles Substation.

SafeZone (<https://nupd.northeastern.edu/safezone/>) is a mobile safety app that is unique to Northeastern. SafeZone is a smartphone app that any student or staff member can download and use for free. This app will connect you directly to the NUPD should you need our assistance or emergency support while you are on campus.

NUPD encourages you to not only familiarize yourself with all of the services provided by NUPD but to also utilize the services and safety-related tips provided. If you see something that does not look or feel right, NUPD encourages you to say something by contacting NUPD at 617.373.2121 or utilizing the SafeZone app.

#### **LOST AND FOUND ([HTTPS://NUPD.NORTHEASTERN.EDU/OUR-SERVICES/LOST-AND-FOUND/](https://nupd.northeastern.edu/our-services/lost-and-found/))**

If you have lost an item on Northeastern's Boston campus, call 617.373.3913. If your item has been turned in, we will contact you by telephone or email. If you have found an item on campus, return it to our headquarters located at 100 Columbus Place. If you suspect the item has been stolen, call the NUPD at 617.373.2121 to report the theft.

#### **UNIVERSITY EMERGENCY INFORMATION ([HTTP://WWW.NORTHEASTERN.EDU/EMERGENCY/](http://www.northeastern.edu/emergency/))**

617.373.2000 (snow emergencies)  
617.373.3333 (police, medical, or fire emergencies)

Northeastern is committed to providing members of its community with a safe and secure place in which to live, work, and study.

The university is prepared to respond to emergencies and urgent situations that require immediate action. A trained team of police officers, EMTs, health and counseling experts, student affairs and residential life staff, and other professionals form a coordinated group that is able to manage a wide range of potential situations.

NU Alert, emergency broadcast communication messages, are sent to the email addresses and telephone numbers students, faculty, and staff have provided the university. For more information on NU Alert and Emergency Planning, visit the NUPD website (<https://nupd.northeastern.edu/safety/emergency-planning/>).

## Health and Counseling

### 24-hour Mental Health Support

Mental health support is available at any time from any location through Find@Northeastern for all full-time degree-seeking students. Call 877.233.9477 (U.S.), 855.229.8797 (Canada), or +1.781.457.7777 (International) to connect with a mental health clinician who is there to listen, guide, and help. In addition, through Find@Northeastern, students have access to unlimited free counseling sessions with therapists in their local area, connection to specialized treatment providers, and free access to Headspace and SilverCloud. Learn more here (<https://www.northeastern.edu/uhcs/find-at-northeastern/>).

---

#### BOSTON

University Health and Counseling Services (<https://www.northeastern.edu/uhcs/>)  
 70 Forsyth Building, Suite 135, Boston MA 02115  
 617.373.2772  
[uhcs@northeastern.edu](mailto:uhcs@northeastern.edu)

University Health and Counseling Services provides medical and mental healthcare for students in Massachusetts. UHCS clinicians are board-certified and licensed practitioners who provide confidential assessment and treatment of medical and mental health concerns, as well as referrals to specialists in the local Boston area. Visit UHCS (<https://www.northeastern.edu/uhcs/>) for more information, including access to care, NUSHP, medical leave of absence, and timely health updates.

---

#### OAKLAND

Counseling and Psychological Services (<https://oakland.northeastern.edu/student-resources/health-and-wellness/counseling-and-psychological-services/>)  
 Cowell Building, Oakland, CA 94613  
 510.430.2111  
[oakland-counseling@northeastern.edu](mailto:oakland-counseling@northeastern.edu)

Counseling and Psychological Services provides mental health support for students on the Oakland campus. Located in the Cowell Building, CAPS offers brief therapy, groups, outreach services, and referrals to supportive resources. Visit CAPS (<https://oakland.northeastern.edu/student-resources/health-and-wellness/counseling-and-psychological-services/>) for more information, including additional mental health resources available through Find@Northeastern.

Student Health Center (<https://www.millscollege.clinic/>)  
 CPM 117, Oakland, CA 94613  
 510.431.1108

The Student Health Center provides on-campus confidential healthcare to students enrolled at Mills at Northeastern University. Services offered include primary and preventive care, basic treatment for illnesses and injuries, laboratory and pharmacy services, and referrals to specialty care and imaging services. The Student Health Center is an outpatient clinic staffed by a board-certified and licensed nurse practitioner and supported by a team that includes a board-certified physician.

## We Care

617.373.7591

wecare@northeastern.edu (we\_care@northeastern.edu)

Website (<http://www.northeastern.edu/wecare/>)

We Care assists students who are experiencing unexpected challenges to maintain their academic progress. The staff works with students to coordinate among university offices, to offer appropriate referrals, and to help develop viable options to support their continued success at the university. We Care also provides guidance to faculty and staff in identifying Northeastern resources and policies to help students succeed.

## Information for International Students

### Office of Global Services

Website (<http://www.northeastern.edu/ogs/>)

617.373.2310

617.373.8788 (fax)

The Office of Global Services provides advice and support services to over 20,000 international students and scholars who represent approximately 147 nations.

OGS serves as a "home away from home" for all international students and offers a wide array of **programs and services** to assist international students with their cultural adjustment, academic success, and professional growth. Throughout the year, OGS hosts cocurricular events that celebrate culture and the rich diversity of the campus. These events are encouraged as a way to gain familiarity with Northeastern University in a cross-cultural context while also facilitating the formation of friendships across cultures. OGS promotes meaningful interaction and intercultural understanding among citizens of all countries and their local peers, providing educational and cultural enrichment opportunities for all members of Northeastern. All students in the Northeastern community are welcome to participate in our events.

OGS provides **comprehensive immigration advising services** to assist international students in understanding the benefits and restrictions of being an international student, as governed by the federal immigration regulations set forth by the country of the student's study location within the Northeastern University Global Network. OGS advises students on the complexities of immigration compliance and interfaces with various government agencies.

During **international student orientation**, international students will receive an overview of the immigration compliance requirements along with information and resources to support academic success, student life, campus safety, and cultural adjustment.

During every required academic term, international students must maintain **full-time status and appropriate on-ground presence** at Northeastern to comply with federal immigration regulations. Note that timely registration for courses is especially important so that international students may remain in compliance with Northeastern's reporting requirements to the federal government about where they are studying. Because understanding federal regulations is complex and often nuanced, international students should consult with OGS if they have questions about their individual status.

OGS—United States (<https://international.northeastern.edu/ogs/student-support/global-campuses/canada/>)

Information for international students and scholars attending Northeastern in the United States, including I-20 (F-1) or DS-2019 (J-1) issuance, visa processing, general guidelines, orientation, events and programs, and support services. F-1 and J-1 students are encouraged to regularly review the guidelines on maintaining status (<https://international.northeastern.edu/ogs/current-students/understanding-visa-requirements/guidelines-on-maintaining-status/>).

OGS—Canada (<https://international.northeastern.edu/ogs/student-support/global-campuses/canada/>)

Information for international students attending the Northeastern program in Canada, including study permit compliance and extension, work eligibility, co-op work permit application, Post-Graduation Work Permit application, general guidelines, and support services.

Visa Immigration Compliance Team (<https://www.nulondon.ac.uk/study/international-students/visa/visasupport/>)—United Kingdom

The visa compliance team in London is committed to providing comprehensive support to international students throughout their CAS (Certificate of Acceptance for Studies) and UK student visa application processes. Their role encompasses assisting students in both pre- and postenrollment visa compliance activities.

The team also offers full support for an in-person enrollment on the first day at Northeastern University, London—which is a crucial process where the university verifies the information provided by international students and ensures their right to study in the UK. It is the university's responsibility to ensure that every international student possesses the correct visa to study in the UK. Once enrollment is successfully completed and all requested information is submitted, the visa compliance team issues a student ID card as a confirmation of the student's enrollment with Northeastern University, London.

The visa compliance team remains available throughout the student's enrollment life cycle to provide advice, guidance, and comprehensive support for any issues related to student visas. This includes addressing changes in program or any other matters related to visas or immigration, until the international student graduates.

## Information Technology Services

IT Services is the university's central group that provides technology services, solutions, and support to all Northeastern University students. Visit the Connect To Tech guide (<https://connect-to-tech.northeastern.edu/students/>) for information and key technology resources that are particularly helpful to students, including:

- Northeastern accounts
- Access to email
- Laptop recommendations and discounts
- Canvas learning management system
- Software such as Office 365 and Adobe Creative Cloud
- Frequently used websites and mobile apps

### Technology Support and IT Service Desk

Technology support is available 24/7 online or by phone and email. Walk-up support is available at the Tech Bar on the Boston and Oakland campuses. [G \(https://service.northeastern.edu/tech/?id=its\\_contact\\_us\)](https://service.northeastern.edu/tech/?id=its_contact_us)**et IT Support >**

[service.northeastern.edu/tech \(https://service.northeastern.edu/tech/\)](https://service.northeastern.edu/tech/)

617.373.HELP [4357]

[help@northeastern.edu](mailto:help@northeastern.edu)

Visit the Tech Service Portal (<https://service.northeastern.edu/tech/>) to search for how-tos and FAQs, borrow a laptop or other equipment, start a live chat, and search other resources.

Occasionally, interruptions to university systems, services, and tools can happen—when they do, get updates about them through Northeastern's IT status page (<https://its.northeastern.edu/status/>).

## Off Campus Engagement and Support

617.373.8480

[offcampus@northeastern.edu](mailto:offcampus@northeastern.edu)

Off Campus Engagement and Support and our Network Housing team at Northeastern University provide support and education related to off-campus housing, renters' rights information, and campus and community connection. We offer many resources, special programs, and events to help you find off-campus housing in Boston and across the Northeastern network; connect with roommates; stay involved on campus; and serve as a link to your peers, alumni, and community. For students on co-op, our Network Housing support offers leased housing options in popular co-op locations.

We also help you understand your rights and responsibilities as a renter, understand your lease, and how to navigate landlord issues. Peer Community Ambassadors plan programs and events for you, are here to answer all of your questions, and help you meet your neighbors.

Our extensive website offers a host of resources including an apartment search database (<http://aptsearch.northeastern.edu/>); information on neighborhoods and transportation; as well as Northeastern, City of Boston, and Network Housing resources and relocation services.

Off Campus Engagement and Support publishes an e-newsletter that provides valuable tips and information on upcoming programs and events both on campus and off campus. Individuals interested in receiving our newsletter can sign up here (<http://offcampus.sites.northeastern.edu/newsletter/>) or email us at [offcampus@northeastern.edu](mailto:offcampus@northeastern.edu).

For more information, visit Off Campus Engagement and Support (<http://offcampus.sites.northeastern.edu/>).

## Office of the University Registrar

The Office of the University Registrar provides an important link between the university's academic programs and policies and the student. It administers a number of specific services, including class scheduling, registration, record functions, verification of enrollment, reporting, and transcript services.

The Office of the University Registrar utilizes the Student Hub (<https://me.northeastern.edu/>) to provide students convenient access to information and services, including class schedules and registration, most recent grades, unofficial transcripts, and transcript and enrollment verification requests.

Office of the University Registrar website (<https://registrar.northeastern.edu/>)

registrar@northeastern.edu

617.373.2300

617.373.5351 (fax)

## Maintenance of Student Records

The Office of the University Registrar is responsible for ensuring appropriate maintenance and safekeeping of student records. The transcript, which is stored electronically and maintained indefinitely, is the holistic record of student attendance and degree progress. In the event that the university discontinues operations, the archive of student records would be maintained by:

Massachusetts Department of Higher Education

One Ashburton Place

Room 1401

Boston, MA 02108

## Financial Information

- Bill Payment (p. 32)
- Delivery of Services (p. 35)
- Financial Aid Assistance (p. 36)
- Student Refunds (p. 39)
- Tuition and Fees (p. 40)

## Bill Payment

### Student Financial Services

617.373.2270

617.373.8735 (fax)

studentaccounts@northeastern.edu

Full payment of tuition and other related charges is due prior to the start of the term as specified on the original bill. For questions related to the billing process, late fees, payment methods, tuition payment plan, and refunds, contact us at the phone number and email address provided above.

### E-Bill

Tuition bills are generated electronically and are available via the Student Hub. Once your billing statement is available, you will be notified via email.

Bills must be paid by the due date on the initial billing statement. If a bill has not been received by the first week of the semester, contact Student Accounts. Transcripts and other academic records will not be released until all financial obligations to the university have been met.

### Payment of Tuition

Full payment of tuition, fees, and other related charges are due prior to the start of each semester. Payments will be accepted for billable charges only. The university is not able to process payments for more than the balance due on the student's account.

Accepted methods of payment are:

- **Electronic check (e-check):** Payments can be made online via NUPay on the Student Hub and are processed the same day they are received by the university.
- **International payments using Flywire:** Northeastern University has partnered with Flywire to streamline the international wire payment process to the university. This service provides students and their families a safe, cost-effective, and convenient method of making payments to Northeastern in foreign currencies. To learn more about international payments through Flywire, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/payment-methods/>).
- **Monthly payment plan:** The monthly payment plan, administered through Flywire, allows students to divide their educational costs into smaller, more manageable installments. For additional information, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).
- **Supplemental loans:** There are a number of educational loan programs available to assist students in financing their education. Review options at the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>).

For additional information regarding available payment and financing options, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/billing-payments/>).

### Student Financial Responsibility Agreement

As compelled by federal law, all students who enroll in classes at Northeastern are required to complete and accept the Student Financial Responsibility Agreement (<https://studentfinance.northeastern.edu/billing-payments/sfra/>). This agreement must be completed once per academic year and is located on the Student Hub. Failure to complete the SFRA will result in a hold that prevents attendance.

### VA Education Benefits

In accordance with Title 38 USC 3679 (e), covered individuals utilizing Chapter 31 or Chapter 33 education benefits at Northeastern University will not have any penalty imposed on their account nor will they be required to take out additional funding due to pending or late payments from the Department of Veterans Affairs as long as the Dolce Center for the Advancement of Veterans and Servicemembers has a current Certificate of Eligibility or VRE Authorization on file AND a Request for VA Benefit Certification is submitted through the Student Hub (<https://me.northeastern.edu>) portal.

COEs must be submitted before the start of the student's first term but do not need to be resubmitted unless entitlement information changes. Students are also required to complete the Request for VA Benefit Certification form through the Student Hub (<https://me.northeastern.edu>) portal before the start of each term they wish to use VA benefits. Students may have a hold placed on the account if there is an outstanding balance after payment from the VA is received by Northeastern.

### Discrepancies in Your Bill

Discrepancies in your bill should be addressed in writing via email ([studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu)) to Student Financial Services. Include your name, Northeastern ID, account number, dollar amount in question, date of invoice, and any other information you believe is relevant.

If there is a discrepancy in your bill, pay the undisputed part of the bill to avoid responsibility for any late fees or financial holds.

## Late Fees

Late fees can be placed on accounts any time after the due date if the account remains fully or partially unpaid. The university reserves the right to assess late fees after the due date on the bill and monthly thereafter if any of the balance due remains unpaid. Late fees may be based on a percentage of the balance due.

If a student or payer wishes to dispute a late fee assessment, they must do so, in writing, to [studentaccounts@northeastern.edu](mailto:studentaccounts@northeastern.edu). Please be sure to include the student's name, Northeastern ID, and reason for the dispute in the email.

In cases where students default on financial obligations, the student is liable for the outstanding balance, collection costs, and any legal fees incurred by the university during the collection process.

## Tuition Paid Directly by Employers

When a third party pays tuition directly to the university, the student must provide the Office of Student Accounts with a purchase order or a written statement of intent to pay by the third party prior to the first week of classes. If there are stipulations associated with the payment agreement, such as a minimum grade level, then the student must either pay the university directly or enroll in one of the payment options.

Documents pertaining to a third-party agreement can be emailed to [thirdparty@northeastern.edu](mailto:thirdparty@northeastern.edu), faxed to 617.373.8735, or mailed to the address below:

Student Financial Services  
Northeastern University  
ATTN: Third-Party Billing  
354 Richards Hall  
360 Huntington Ave  
Boston, MA 02115

## Tuition Reimbursement

Many companies, embassies, and agencies directly reimburse students for their educational expenses upon successful completion of courses. In these situations, the student is responsible for paying the bill at the beginning of the semester or selecting another payment option. Tuition may not be left unpaid pending reimbursement by a third party. Check with your human resources department to see if you qualify.

If your company requires an official transcript to process the tuition reimbursement, you may request your transcript online (visit the Office of the University Registrar website (<https://registrar.northeastern.edu/article/transcript-requests/>) for additional information about the transcript request process). Transcripts should be requested prior to the due date on your initial billing statement. Should there be a balance due on your account after the due date, your account may be subject to holds and a transcript will not be available until the balance due is resolved.

## Tuition and Fees and Default Policy

Tuition rates, all fees, rules and regulations, courses, and course content are subject to revision by the president and the Board of Trustees at any time. In cases where the student defaults on their tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

## Northeastern University Student Health Plan (NUSHP)

### GENERAL INFORMATION

Since September 1989, Massachusetts law (M.G.L. c.15A, § 18) has required every full-time and part-time student enrolled in a certificate, diploma, or degree-granting program in a Massachusetts institution of higher learning to participate in a Student Health Plan or in a health benefit plan with comparable coverage.

The Northeastern University Student Health Plan defines a full-time student as having full-time student status and enrolled in any amount of credits of a full-time curriculum.

NUSHP defines a part-time student as having part-time student status and enrolled in at least 75% of credits of the full-time curriculum (CPS undergraduate students—9 credits, CPS graduate students—6 credits).

The health fee is assessed each term on a student's account based on these definitions unless the student has previously waived the health plan fee in the current academic year.

Students on co-op or on study abroad are considered active students and will be enrolled in and billed for NUSHP each year.

Students enrolled in prematriculation and online programs are not eligible for NUSHP.

### HEALTH INSURANCE WAIVER

Eligible students are automatically enrolled in NUSHP each academic year and may waive NUSHP via the Student Hub (<https://me.northeastern.edu>) once they have been billed for NUSHP. In addition, to be eligible to waive, comparable coverage must be effective from the beginning of the term the student meets Student Health Program requirements.

The burden of proof that the alternative insurance is adequate falls upon the student choosing to waive. By submitting the waiver form, the student will be accepting responsibility for all medical expenses incurred, and neither Northeastern University nor its Student Health Plan will be responsible for these expenses.

Northeastern reserves the right to verify that the student's insurance meets the criteria indicated. Disciplinary action may be taken if a student knowingly waives NUSHP without comparable coverage.

Visit the NUSHP website (<https://www.northeastern.edu/nushp/>) for waiver deadlines.

## Delivery of Services

Northeastern University assumes no liability for delay or failure to provide educational or other services or facilities due to causes beyond its reasonable control. Causes include, without limitation, power failure, fire, strikes by university employees or others, damage by natural elements, and acts of public authorities. The university will, however, exert reasonable efforts, when it judges them to be appropriate, to provide comparable services, facilities, or performance; but its inability or failure to do so shall not subject the university to liability.

In the event that Northeastern determines it must suspend or alter its operations in whole or in part due to epidemic, pandemic, other public health emergency, extreme weather, natural disaster, acts or threatened acts of terrorism or war, or any single act or combination of events beyond the university's control, Northeastern may suspend, reduce, terminate and/or modify its operations in whole or in part, which may or may not include offering online or other alternative learning options, in its discretion. In any such event, Northeastern is under no obligation to refund or credit any portion of tuition, fees, or other charges paid or owed, but it may do so in its discretion.

Northeastern reserves the sole right to promulgate and change rules and regulations and to make changes of any nature in its program; calendar; admissions policies, procedures, and standards; degree requirements; fees; and academic schedule whenever necessary or desirable, including, without limitation, changes in course content and class schedule, the cancellation of scheduled classes and other academic activities, and the substitution of alternatives for scheduled classes and other academic activities. In any such case, the university will give whatever notice is reasonably practical.

Northeastern will endeavor to make available to its students a fine education and a stimulating and congenial environment. However, the quality and rate of progress of an individual's academic career and professional advancement upon completion of a degree or program are largely dependent on the individual's own abilities, commitment, and effort. In many professions and occupations, there are also requirements imposed by federal and state statutes and regulatory agencies for certification or entry into a particular field. These requirements may change while a student is enrolled in a program and may vary from state to state or country to country. Although the university stands ready to help its students find out about requirements and changes in them, it is the student's responsibility to initiate the inquiry.

## Financial Aid Assistance

### Student Financial Services

617.373.5899 (Graduate)

617.373.2897 (College of Professional Studies)

sfs@northeastern.edu

studentfinance.northeastern.edu (<https://studentfinance.northeastern.edu/>)

Northeastern University is available to assist students in developing a plan for financing a Northeastern education. Through a variety of options—including federal financial aid, Northeastern's monthly payment plan, supplemental loans, and your own resources—a plan can be designed that will make your education costs affordable. Visit the Student Financial Services website (<https://studentfinance.northeastern.edu/>) or contact the office directly for additional information.

### How to Apply

To apply for federal financial aid programs, students must submit the Free Application for Federal Student Aid (<https://studentaid.gov/h/apply-for-aid/fafsa/>) and include Northeastern's FAFSA school code, 002199. Students are strongly encouraged to submit their FAFSA by the priority filing deadline of **March 1** to ensure they are considered for all available financial aid programs.

To electronically sign your FAFSA, you will need your FSA ID. If you do not have one or have forgotten your FSA ID, visit the Federal Student Aid website (<https://studentaid.gov/>) to obtain one before starting the FAFSA.

### Federal Financial Aid Eligibility

Students in the graduate colleges must meet the following criteria to be eligible for federal financial aid:

- Be enrolled in at least 4 credits per term for federal financial aid, unless you are on a co-op, clinical rotation, residency, or are enrolled in a full-time or part-time stand-alone course
- Be a U.S. citizen or eligible noncitizen
- Be matriculated in a degree-granting program

*Please note that students enrolled in graduate certificate programs are not eligible for federal financial aid.*

- Have received a high school diploma or GED
- Be registered with Selective Service (if required)
- Not be convicted of a drug-related crime in the last year
- Not be in default from previous student loans
- Maintain satisfactory academic progress (<https://studentfinance.northeastern.edu/policies-procedures/satisfactory-academic-progress/>)

### Awarding Timelines

New students are awarded on an ongoing basis throughout the spring after we have been notified that they have been accepted into their program.

Returning students are awarded throughout the summer.

For information regarding your financial aid application, log into the Student Hub.

### Typical Graduate Financial Aid Award

Eligible students who file the FAFSA will be automatically considered for the Federal Direct Unsubsidized Loan, provided that all eligibility requirements have been met. The maximum amount that a student may borrow per academic year in the Federal Direct Unsubsidized Loan program is \$20,500.

For more information about the Federal Direct Loan Program, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/applying-for-aid/graduate/types-of-aid/>).

### Graduate Assistantships and Scholarships

Graduate assistantships and awards are offered directly by the individual graduate schools or academic departments. Students seeking such assistance should contact their graduate school for eligibility criteria.

To review a description of available scholarships, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/applying-for-aid/graduate/types-of-aid/>).

### Health Professions Student Loans and Nursing Student Loans

These federal loan programs carry a 5% interest rate during repayment. You must demonstrate financial need and meet Northeastern's priority filing date for consideration, as funds are limited. Northeastern is the lender, and repayment is made directly to Northeastern.

To be eligible for the Federal Nursing Student Loan, students must be enrolled at least half-time in the Bouvé College of Health Sciences. These loans carry a nine-month grace period prior to repayment following graduation, withdrawal, or a drop below half-time status. Repayment on the loan is for a period of up to 10 years with a minimum \$40 monthly payment. The loan may be prepaid at any time without penalty.

To be eligible for the Health Professions Loan Program, applicants must be enrolled full-time in the School of Pharmacy in the Bouvé College of Health Sciences. Additionally, students who would like to be considered for the Health Professions Loan Program must include parent income information when completing the FAFSA. These loans carry a 12-month grace period. Repayment on the loan is for a period of up to 10 years with a minimum \$40 monthly payment. The loan may be prepaid at any time without penalty.

### Physician Assistant Loan

The Physician Assistant Loan is awarded to full-time students in the graduate physician assistant program who demonstrate financial need after filing the FAFSA. The interest rate is fixed at 7%. Northeastern is the lender, and repayment is made directly to Northeastern. The loan amounts range from \$1,000 to \$3,000, depending upon the student's financial need. Repayment begins one month after the student ceases to be enrolled full-time at Northeastern.

### Federal Direct Graduate PLUS Loan

Unlike Federal Direct Unsubsidized Loans, the Federal Direct Graduate PLUS Loan (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>) requires credit approval by the direct loan servicer.

Students have up to 25 years to repay the Federal Direct Graduate PLUS Loan. The Federal Direct Graduate PLUS Loan can be consolidated with Federal Direct Unsubsidized and Perkins loans upon graduation.

Graduate PLUS loans do not have a grace period. Repayment begins after a student is no longer enrolled at least half-time. Students who drop below half-time status and then reenroll above half-time status will need to request their loans be deferred again through their assigned direct loan servicer.

Graduate students who wish to apply for a Federal Direct Graduate PLUS Loan can do so online at [studentaid.gov](https://studentaid.gov) (<https://studentaid.gov/app/launchPLUS.action/?plusType=gradPlus>). For assistance with financial planning or determining the amount to apply for, please reach out to Student Financial Services.

### Supplemental Student Loans

There are a number of educational loan programs available to assist students in covering their expenses over and above any federal financial aid that may be awarded to them from Student Financial Services. Most private lenders have credit and income requirements that must be met before being approved for these programs. Additional information regarding private loans is available here (<https://studentfinance.northeastern.edu/billing-payments/financing-options/>). Student Financial Services recommends to students that, when researching the loan and lender that best meets their needs, they make sure they take into consideration the interest rate; quality of customer service; and origination, disbursement, and/or repayment fees.

## General Financial Policies and Procedures

### FINANCIAL AID POLICIES

Student Financial Services reserves the right to adjust a student's initial Offer of Financial Assistance based upon information brought to the office's attention subsequent to extension of the offer, including, but not limited to, increased or new institutional scholarships, outside scholarships, or revised family financial data.

### APPEAL/CHANGE IN CIRCUMSTANCES

If the student feels that the aid process does not accurately reflect their situation, or if family circumstances change during the year, the student should notify Student Financial Services for further evaluation. We may request additional documentation from you that might indicate a change in financial circumstances.

### CHANGE IN ENROLLMENT STATUS

Students must notify Student Financial Services about any change in planned period of enrollment, whether due to withdrawal from a class, a leave of absence, a change in co-op or academic division, or withdrawal from the university. Students should be aware that any change in enrollment status may result in a change in federal or institutional aid eligibility. It is the student's responsibility to notify Student Financial Services about any change in enrollment status and to ensure understanding of the ramifications of such changes. It is highly recommended that whenever possible, students discuss the impact of such changes with their financial aid counselor before making them.

### OUTSIDE SOURCES OF AID

Students must notify Student Financial Services of any aid received from outside sources, such as scholarships. Receipt of these sources may require an adjustment to a student's financial aid award.

### REAPPLICATION PROCESS

Students must reapply for financial aid each year by filing the FAFSA (<https://studentaid.gov/h/apply-for-aid/fafsa/>) online. To receive priority consideration for aid, the federal processor must receive the FAFSA by **April 1**.

### **SATISFACTORY ACADEMIC PROGRESS**

To continue receiving financial aid, graduate students must maintain the academic requirements for satisfactory progress set forth by their college. Refer to the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/satisfactory-academic-progress/>) for more information about how satisfactory progress impacts financial aid eligibility.

### **VERIFICATION**

If a student is selected for verification (<https://studentfinance.northeastern.edu/federal-verification-process/>), Student Financial Services may be required to collect additional documents, including tax returns and other financial documents, to verify the information provided on the FAFSA. Aid cannot be disbursed until this process is completed.

### **RETURN OF TITLE IV FUNDS**

Northeastern is required by federal statute to recalculate federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a term. Recalculation is based on the percentage of earned aid using the Federal Return of Title IV funds formula. Federal regulations require students to obtain at least one A, B, C, D, or S in at least one course for the term; students who receive all unsuccessful grades for a term (F, NE, W, I, U) may be considered unofficially withdrawn from the term and subject to an aid recalculation, including the possible loss of financial aid for that term.

## Student Refunds

### Refund Policies

Inquiries about credit balances should be directed to Student Accounts. Credit balances on a student's account will be automatically refunded.

Note the following exceptions:

- If the credit in your account is due to a Parent PLUS Loan, supplemental loan, and/or payment plan payment(s), the credit balance will be refunded to the bill payer on record unless a Refund Authorization form (<https://studentfinance.northeastern.edu/forms/>), stating that funds may be released directly to the student, is received from that borrower.
- If a credit card has been used to pay any portion of the amount due, the refund must be made first to that credit card. If the credit balance on the account exceeds the amount that was paid via credit card, these additional funds will be refunded by direct deposit or check.

For additional information regarding student refunds, including Frequently Asked Questions, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/student-refund-requests/>).

### Official Withdrawal Adjustments

Students who officially withdraw, either from a course or from the university, during an academic term will receive a tuition refund based on the policy specified below. Institutional funds awarded by Northeastern University will be adjusted based on the actual charges incurred during the semester. Funds from federal Title IV programs will be returned to the government according to federal regulations. The federal government Return of Funds Policy dictates that a student's eligibility for federal financial aid is determined by the number of days enrolled during the semester. The refund will be calculated from the day the student submits an official notification of withdrawal to the Office of the University Registrar.

Tuition credits are granted through the first five weeks of a semester or first four weeks of a half semester, based on the date of the official withdrawal processed by the Office of the University Registrar. Nonattendance does not constitute official withdrawal. Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the following schedule. (The end of week three corresponds with the last day to drop a class without a W grade.)

#### **DURING FULL SEMESTER**

During weeks one through three—100% refund

During the fourth week—60% refund

During the fifth week—40% refund

After the fifth week—No refund

#### **SUMMER HALF SEMESTERS AND COURSES OFFERED IN PART-OF-TERM FORMAT**

During weeks one through two—100% refund

During the third week—50% refund

During the fourth week—25% refund

After the fourth week—No refund

### Leave of Absence Tuition and Fee Adjustments

Please refer to Leaves of Absence and University Withdrawal (p. 57).

### Disability Resource Center Tuition Adjustments

Students who are registered with Northeastern's Disability Resource Center (<http://www.northeastern.edu/drc/>) and who are approved for a disability-related reduced course load may be eligible to petition the DRC for tuition adjustments directly related to their documented disability. Further information is available from the DRC.

### State-, Province-, and Country-Specific Refund Policies

For state-, province-, and country-specific refund information, visit the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/>).

## Tuition and Fees

*Please note: Courses taken outside of the student's home college may be billed at the per-credit rate of the college offering the course.*

### Bouvé College of Health Sciences

Graduate Program	Cost per Credit Hour
All graduate programs, excepting specific programs listed below.	\$1,815
• MS Applied Behavior Analysis	\$1,340
• BSN Nursing—Accelerated Program for Second-Degree Students (ABSN)	\$1,263
• DMSc Healthcare Leadership	\$1,000
• DNP Nurse Anesthesia (Clinical)	\$4,600 (in addition to tuition)
• DPT Physical Therapy—Postbaccalaureate Entry	\$20,100 (per semester)
• Graduate Certificate in Extreme Medicine	\$1,000
• MPH Public Health (Charlotte)	\$1,143
• MS Exercise Science	\$1,233
• MS Health Informatics	\$1,400
• MS Nursing—Direct Entry	\$21,750 (per semester)
• MS Nursing (Online)	\$975
• MS Physician Assistant	\$18,850 (per semester)
• MS Speech-Language Pathology	\$1,795
• PharmD Pharmacy—Direct Entry	\$31,000 (per semester)
• PharmD Pharmacy—Direct Entry, Clinical	\$15,395 (per semester)
• PharmD Pharmacy, Sixth Year (effective summer term 2014)	\$15,395 (per semester)

### COLLEGE OF ARTS, MEDIA AND DESIGN

Graduate Program	Cost per Credit Hour
All graduate programs (p. 109)	\$1,894

### COLLEGE OF ENGINEERING

Graduate Program	Cost per Credit Hour
All graduate programs (p. 334)	\$1,801

### COLLEGE OF PROFESSIONAL STUDIES

Graduate Program	Cost per Credit Hour
All graduate programs, except specific programs listed below.	\$850
• DLP Law and Policy (self-paced, 69 QH program; new students as of 7/1/20)	\$1,058
• Executive DLP Law and Policy (students entering prior to 7/1/19)	\$2,217

• Executive DLP Law and Policy (69 QH program; new students as of 7/1/20)	\$1,541
• EdD Education	\$1,008
• MEd Education; MAT Teaching (excluding MEd Higher Education Administration)	\$698
• MPS Analytics; MS Commerce and Economic Development; MPS Applied Machine Intelligence	\$960 (students entering before 7/1/20)
	\$1,016 (students entering 7/1/20–6/30/21)
	\$1,055 (students entering 7/1/21–6/30/22)
	\$1,116 (students entering 7/1/22–6/30/23)
• MPS Informatics and MPS Digital Media	\$933 (students entering before 7/1/20)
	\$986 (students entering 7/1/20–6/30/21)
	\$1,024 (students entering 7/1/21–6/30/22)
	\$1,084 (students entering 7/1/22–6/30/23)
• MS Global Studies and International Relations; MS Regulatory Affairs	\$874
• MSTC Technical Communication	\$874
• MEd Higher Education Administration	\$768
• Master's-level graduate courses for personal and professional enrichment (nondegree)	\$850

## COLLEGE OF SCIENCE

Graduate Program	Cost per Credit Hour
All graduate programs, except specific programs listed below.	\$1,791
• MS Biotechnology—Experiential	\$1,502
• MS Biotechnology—Toronto (Domestic)	\$672
• MS Biotechnology—Toronto (International)	\$1,021
• MS Bioinformatics—Toronto (Domestic)	\$928
• MS Bioinformatics—Toronto (International)	\$1,241
• MS Environmental Science and Policy	\$1,760
• MS Marine Biology	\$1,542

## COLLEGE OF SOCIAL SCIENCES AND HUMANITIES

Graduate Program	Cost per Credit Hour
All graduate programs, excepting specific programs listed below.	\$1,350
• MS Criminology and Criminal Justice	\$1,011
• MS Economics	\$1,483
• MPA Public Administration	\$985
• MPP Public Policy	\$946
• MS Security and Resilience Studies	\$946

• MA English	\$1,300
• MA History	\$1,300

**D'AMORE-MCKIM SCHOOL OF BUSINESS**

Graduate Program	Cost per Credit Hour
All graduate programs except specific programs listed below. Please also see the second table below for fees billed in addition to tuition for some programs.	\$1,755
• MBA Business Administration—Online	\$900 (students entering after 7/1/2022)
	\$1,640 (students entering before 6/30/2022)
• MS Management with concentrations in Digital Transformation in Healthcare or Healthcare Administration (online only)	\$800
• MSAMBA Accounting and Business Administration	\$72,150 (program rate)

Item	Fee
All campus-based, full-time graduate programs, except specific programs listed below.	\$1,600 billed in year 1 in two installments (\$800 each), fall and spring terms
• Business Administration, MBA—Full-Time	\$3,100 billed in year 1 in two installments (\$1,550 each), fall and spring terms
• Finance and Business Administration, MSFMBA	\$3,100 billed in year 1 in two installments (\$1,550 each), fall and spring terms
• Quantitative Finance and Business Administration, MSFMBA	\$3,100 billed in year 1 in two installments (\$1,550 each), fall and spring terms
• Law, JD / Business Administration, MBA	\$3,100 billed in year 1 in two installments (\$1,550 each), fall and spring terms
• LLM / Business Administration, MBA	\$3,100 billed in year 1 in two installments (\$1,550 each), fall and spring terms
• MS Management with concentration in Strategic Technology Leadership (hybrid only)	\$3,000 billed in year 1 in two installments (\$1,500 each), fall and spring terms
• MSA Accounting	\$0

**KHOURY COLLEGE OF COMPUTER SCIENCES**

Graduate Program	Cost per Credit Hour
All graduate programs, excepting specific programs listed below.	\$1,725
• MS Cybersecurity	\$1,625
• MS Data Science	\$1,793
• Graduate Certificate Data Analytics	\$1,793

**SCHOOL OF LAW**

Graduate Program	Cost per Credit Hour
All programs, excepting specific programs listed below.	\$60,408 (per academic year)
• JD Law, Part-Time Option (FlexJD)	\$45,300 (per academic year)
• LLM Law (On Ground)	\$60,408 (per academic year)
• LLM Law—Online	\$1,449
• MLS Legal Studies—Online	\$1,132

• MS Media Advocacy (interdisciplinary program with CAMD)	(Please see College of Arts, Media and Design above)
• Graduate certificates, Online	\$1,132

### DISSERTATION AND CONTINUATION

Graduate Program	Cost per Credit Hour
Master's or doctoral continuation fee (flat rate)	Equivalent to the college per-credit-hour rate listed above
Dissertation (flat rate)	Equivalent to 1.5 times the college per-credit-hour rate listed above

### FEES

Visit Fee Descriptions (<https://studentfinance.northeastern.edu/billing-payments/tuition-and-fees/fee-descriptions/>) for more details.

Item	Fee
Student Center Fee (per term, Boston campus only)	\$72, full-time
	\$10, part-time
College of Professional Studies Student Center Fee (per quarter, Boston campus only)	\$8.25
Student Recreation Fee (per term)	\$62, full-time
	\$30, part-time
College of Professional Studies Student Recreation Fee (per quarter, Boston campus only)	\$60
Student Activities Fee (per term, Boston campus only)	\$17
Residential Student Fee (per term)	\$35
Health and Counseling Fee	\$225
Health Plan Fee (yearly, optional) ( <a href="https://studenthealthplan.northeastern.edu">https://studenthealthplan.northeastern.edu</a> )	
Parking (per semester, optional) ( <a href="https://www.masparc.com/products/">https://www.masparc.com/products/</a> )	
International Student Fee	\$375

## Academic Policies and Procedures

### Universitywide Academic Policies and Procedures

- Accommodations for Students with Disabilities (p. 45)
- Attendance Requirements (p. 46)
- Campus Transfer and Campus Location Change (p. 47)
- Clearing an Academic Deficiency (p. 48)
- Code of Student Conduct (p. 49)
- Course Credit Guidelines (p. 50)
- Course Numbering System (p. 51)
- Family Educational Rights and Privacy Act (FERPA) (p. 52)
- Grade Change Policy (p. 54)
- Grade Table and GPA (p. 55)
- Leaves of Absence and University Withdrawal (p. 57)
- Personal Information (p. 60)
- Requesting and Clearing An Incomplete Grade (p. 61)
- Retaking Courses (p. 62)
- Student Bill of Academic Rights and Responsibilities (p. 63)
- Student Responsibility Statement (p. 66)
- Student Right-to-Know Act (p. 67)
- Substituting Courses (p. 68)
- University-Sponsored Travel (p. 69)

### GRADUATE ACADEMIC POLICIES AND PROCEDURES

- Academic Appeals Policies and Procedures (p. 70)
- Academic Calendars (p. 73)
- Academic Integrity Policy (p. 74)
- Audit Policy (p. 75)
- Cooperative Education (p. 76)
- Departmental Jurisdiction (p. 78)
- Dismissal from Class (p. 79)
- Dropping a Class (p. 80)
- Final Examinations and Related Policies on Other Exams (p. 81)
- Full-Time Status (p. 82)
- General Regulations (p. 83)
- Graduation Requirements (p. 87)
- Minimum Cumulative GPA (p. 88)
- Overload Conditions for Graduate Assistants (p. 89)
- Pass/Fail (Satisfactory/Unsatisfactory) Grading (p. 90)

### GRADUATE PROGRAM REGULATIONS AND REQUIREMENTS

- All Graduate Degree Programs (p. 91)
- Graduate Certificate Programs (p. 93)
- The Master's Degree (p. 94)
- PlusOne Degree Combinations (p. 95)
- Professional Doctorate Degree Programs (p. 96)
- Certificates of Advanced Graduate Study (p. 98)
- Doctor of Philosophy (PhD) Programs (p. 99)
- Interdisciplinary Graduate Degrees (p. 101)
- Definitions (p. 102)

## Accommodations for Students with Disabilities

617.373.2675

617.373.7800 (fax)

Website (<http://www.northeastern.edu/drc/>)

Northeastern University and the Disability Resource Center are committed to providing disability services that enable students who qualify under Section 504 of the Rehabilitation Act and the Americans with Disabilities Act Amendments Act to participate fully in the activities of the university. To receive accommodations through the DRC, students must provide appropriate documentation that substantiates a disability and demonstrates a current significant limitation. Accommodations are provided based on an evaluation of the information provided by students, and their clinicians, on a case-by-case basis. These services are available for, but not limited to, students with the following diagnoses:

- Learning disabilities and/or ADHD
- Autism spectrum disorders
- Chronic or degenerative disorders
- Hearing loss
- Mobility impairments
- Psychiatric disorders
- Traumatic or acquired brain injury
- Vision impairments

Students should provide documentation to the DRC at their earliest convenience to allow for sufficient time for review. After the documentation has been reviewed, a disability specialist will contact the student regarding appropriate next steps. Visit the DRC website (<http://www.northeastern.edu/drc/>) for additional information or contact staff at 617.373.2675.

## Attendance Requirements

Class participation is essential to success no matter the course format or its delivery. Individual instructors may have course-specific attendance policies. It is the student's responsibility to ascertain what each instructor requires. Failure to meet attendance requirements may force a student to drop the applicable courses. Students should not make conflicting commitments until the class schedules for each semester are final. Permission to make up work may be granted by instructors for reasonable cause. Requests must be made immediately upon a student's return to class. Laboratory work can be made up only during the hours of regularly scheduled instruction.

### Absence Because of University-Sponsored Activities

Participation in university-sponsored activities, where the students are representing their university, college, or department, may cause absences from class that qualify as excused absences. Excused absences, with appropriate prior arrangement, are not subject to penalty, and missed work may be satisfied through agreement between the student and the instructor. University-sponsored activities that may justify excused absences include athletic competition, performing arts events, and research or other presentations.

Students must discuss absence(s) with instructors at least two weeks in advance of the university-sponsored activity, or as soon as possible if the activity is at the beginning of the term or is the result of an unforeseen circumstance. Instructors may require a written statement from the administrator in charge of the activity. Instructors are expected to make reasonable accommodations for these class absences, including administration of makeup assignments and exams whenever possible. It is expected that students seeking an excused absence will develop a plan and timetable to make up the missed coursework with their instructor(s). Note, however, that the requirements of some courses or programs may preclude such accommodations.

### Absence Because of Religious Beliefs

Any student who is unable, because of their religious beliefs, to attend classes or to participate in any examination, study, or work requirement should be provided with an opportunity to make up such examination, study, or work requirement that they may have missed because of such absence on any particular day, provided that such makeup examination or work does not create an unreasonable burden upon the university. Students should make appropriate arrangements with the instructor in advance of the absence, preferably at least two weeks before the religious observance.

### Absence Because of Jury Duty

Members of the university community are expected to fulfill their obligations to serve on a jury if called upon. A student selected for jury duty should inform their instructors. They will provide a reasonable substitute or compensatory opportunities for any required work missed. A student with such an absence will not be penalized in any way.

### Absence Because of Military Deployment

See "Leave of Absence Due to Military Deployment (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/leaves-of-absence-withdrawal/#military>)."

### Other Absences

Unforeseen events or circumstances, including illness, may cause a student to be absent from class. Students must notify their instructors and academic advisor, as appropriate, as soon as possible to apprise them of the circumstances leading to their absence, as well as how much time will be missed. Students must work with their instructors to develop a plan, with a timetable, to make up missed coursework. Students cannot be required to provide medical documentation. (Faculty and students should note that the University Health and Counseling Services does not provide sick notes or medical excuses except for long-term illness.) Instructors are expected to make reasonable accommodations for warranted class absences, including administration of makeup assignments and exams, whenever possible.

### Extended Absences

A student who is absent from school for an extended period of time must inform their academic advisor by letter, email, or telephone. The expected length of the absence may determine whether the student should apply for a medical or emergency leave of absence (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/leaves-of-absence-withdrawal/#medical>). It is strongly recommended that the student contact their academic advisor to discuss potential next steps, which could include incomplete grades; withdrawal from classes; or, in the event of an extended absence due to a chronic medical condition or disability, consultation with the Disability Resource Center to explore potential accommodation.

### Nonattendance

Nonattendance does not constitute official course dropping or withdrawal, which means the student is fully responsible for the academic and financial consequences. Like all grades for courses attempted and/or completed, a grade earned due to nonattendance impacts a student's academic progression, an international student's visa eligibility, and a federal financial aid recipient's aid eligibility and award.

## Campus Transfer and Campus Location Change

### Campus Transfer

Students may request an official campus transfer from their school/college to complete their program. The program has to be approved by the school/college academically AND meet regulatory requirements (state/provincial licensure). If the student is an international student, the program has to be offered in compliance with F-1/study permit requirements at the requested new home campus location. International students should seek advice from the Office of Global Services (<https://international.northeastern.edu/ogs/>) before the final decision to transfer to another campus.

### Campus Location Change

Students may request a campus location change to a new campus (the host campus) for a period no longer than one academic year (two consecutive semesters or three consecutive quarter terms) and no more than 50% of a degree program. It must be approved by the school/college academically, and courses must be offered that allow the student to make normal academic progress in compliance with regulatory requirements. In order for international students to change a campus location, the academic program has to be offered in compliance with F-1/study permit requirements at the requested host campus location.

## Clearing an Academic Deficiency

An academic deficiency occurs when a student fails to complete a course with a satisfactory grade. The deficiency may occur because the student has failed the course or because the student has passed the course but with a grade that does not meet the minimum required by the student's program.

Students who have academic deficiencies may be required to clear them before progressing within the curriculum, especially if a given course is a prerequisite for future coursework. Deficiencies may affect the student's expected year of graduation.

With the approval of the appropriate program faculty and/or academic advisor, students can clear deficiencies in the following ways:

1. Retake the same course at one of Northeastern University's colleges, which will result in a "retake" grade (see "Retaking Courses" in this section of the catalog).
2. Substitute a comparable course at one of Northeastern's colleges, which will result in a "retake" grade (see "Substituting Courses" in this section of the catalog).
3. Under special circumstances, if the course is not currently offered at Northeastern, a student may be advised to take a preapproved course at another institution outside Northeastern. The original grade will remain on the student's Northeastern transcript and will still be used in the calculation of the GPA.

## Code of Student Conduct

The Code of Student Conduct can be found on the Office of Student Conduct and Conflict Resolution (<http://www.northeastern.edu/osccr/code-of-student-conduct/>).

## Course Credit Guidelines

### Guidelines for Assigning Credit to Courses

The primary standard for establishing course credit at Northeastern University is the semester/quarter hour, or Carnegie Unit, the standard used by the federal government. One hour of credit is awarded for a lecture/seminar class meeting 50 minutes each week during a 15-week semester or 12-week quarter and also requiring a minimum of two hours of outside preparation each week by the student. An hour of contact time in the rest of the document is based on this 50-minute session.

- 2 semester/quarter hours (100 minutes per week of instruction plus 4–6 hours homework, or equivalent)
- 3 semester/quarter hours (150 minutes per week of instruction plus 6–9 hours homework, or equivalent)
- 4 semester/quarter hours (200 minutes per week of instruction plus 8–12 hours homework, or equivalent)

The Office of the University Registrar (<https://registrar.northeastern.edu/>) maintains the official record for all courses. In the event of error in any publication, the academic record will reflect the correct semester/quarter hours applicable to any degree requirement.

On occasion, course titles change, while the course number remains the same. Despite such title changes, the course is still considered to be the same course. Students who have taken the course under the old title and then take the course again under the new title are considered to have repeated the course.

#### NOTE ABOUT HOMEWORK AND STUDENT PREPARATION FOR CLASS

The credit hour assumes a set proportion of two hours of student preparation or homework for every hour spent in class. Northeastern wishes to emphasize that the federal government has established this as the minimum amount of work expected, and assigning more work does not in itself justify an increase in the credit value of the course. We also wish to note that there is great variation in the amount of time each student will need to devote to each course or to a specific form of study (e.g., reading, writing, completing problem sets), and, therefore, it is not possible to enforce any exact accounting of student work outside of class.

#### CREDIT ASSIGNMENT PROCESS

Northeastern uses the Carnegie Unit to determine class meeting time requirements. The actual amount of academic work that goes into a single credit hour is calculated as follows:

- One lecture (taught) or seminar (discussion) credit hour represents one hour per week (50 minutes) of scheduled class/seminar time and two hours of student preparation time.
- One laboratory or studio credit hour represents one hour per week of lecture or discussion time plus one to two hours per week of scheduled supervised or independent work, or a total of three hours in the lab or studio.

#### DEFINED INSTRUCTIONAL METHODS

- Traditional: meets fully on ground in a physical location with instructor present
- Hybrid: meets majority on ground in a physical location with instructor present with some online instructional component
- Live cast: meets fully on ground in a physical location with the instructor in a different location teaching synchronously and supported by an instructional assistant in the physical location
- Online: meets fully online

#### FULL-TIME AND HALF-TIME EXPERIENCES

Academic experiences integral to curriculum and requiring registration (but not credit bearing) have the following required hours of participation:

- Full-time experiences: 32–40 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days
- Half-time experiences: 16–31.99 hours per week in a semester for a minimum of 11 weeks or 55 days, or in a quarter for 9 weeks or 45 days (to achieve full-time status, graduate students must take 3 or more academic credits and undergraduate students must take 4 or more academic credits)
- Summer 1 or Summer 2 semester: minimum of 5 weeks or 25 workdays
- Summer quarter: 6 weeks or 30 workdays

International students must confer with the Office of Global Services to determine CPT requirements as appropriate.

## Course Numbering System

0001–0999	<b>Orientation and basic</b> No degree credit
<b>Undergraduate</b>	
1000–1999	<b>Introductory level (first year)</b> Survey, foundation, and introductory courses, normally with no prerequisites and designed primarily for students with no prior background
2000–2999	<b>Intermediate level (sophomore/junior year)</b> Normally designed for sophomores and above but in some cases open to freshman majors in the department
3000–3999	<b>Upper-intermediate level (junior year)</b> Designed primarily as courses for juniors; prerequisites are normally required, and these courses are prerequisites for advanced courses
4000–4999	<b>Advanced level (senior year)</b> Designed primarily for juniors and seniors; also includes specialized courses such as research, capstone, and thesis
<b>Graduate</b>	
5000–5999	<b>First-level graduate</b> Courses primarily for graduate students and qualified undergraduate students with permission
6000–6999	<b>Second-level graduate</b> Generally for master's and clinical doctorate only
7000–7999	<b>Third-level graduate</b> Master's- and doctoral-level courses; includes master's thesis
8000–8999	<b>Clinical/research/readings</b> Includes comprehensive exam preparation
9000–9999	<b>Doctoral research and dissertation</b>

## Family Educational Rights and Privacy Act (FERPA)

### FERPA for Students—General Information

The Family Educational Rights and Privacy Act is a federal law that applies to educational institutions. Under FERPA, schools must allow students who are 18 years or over or attending a postsecondary institution:

- Access to their education records
- An opportunity to seek to have the records amended (see the *Student Handbook* for this procedure)
- Some control over the disclosure of information from the records

### FERPA General Guidance for Parental Disclosure

When a student turns 18 years of age or attends a postsecondary institution, the student, and not the parent, may access, seek to amend, and consent to disclosures of their education records.

If you are an undergraduate day student and you choose not to share information with your parents, Northeastern will, if asked, indicate that you have restricted access to your records.

### Release of Directory Information

The primary purpose of directory information is to allow Northeastern University to confirm attendance for employers, health insurance companies, and loan agencies. Northeastern may disclose appropriately designated “directory information” without written consent, unless you have advised the university to the contrary in accordance with the procedures below. If you choose not to release directory information, all communications with all third parties and agencies will need to be done through your written request to the university or in person.

As of June 30, 2016, Northeastern directory information includes:

- Student name
- Home address (city, state, country only)
- Major field of study
- College
- Class year
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Dates of attendance
- Degrees, honors, and awards received
- Most recent educational agency or institution attended
- Sports activity participation, showing weight/height of members of athletic teams
- Participation in officially recognized activities

If Northeastern currently has permission to release data and you do not want the university to disclose directory information without your prior written consent, you must notify the university. Instructions are available at the Office of the University Registrar (<https://registrar.northeastern.edu/article/family-educational-rights-privacy-act-ferpa/>).

### Notification of Rights under FERPA

FERPA affords students certain rights with respect to their education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, or head of the academic department (or appropriate official) written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student’s education record that the student believes is inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interest. A school official is defined as a person employed by the university in an administrative, supervisory, academic, or support staff position (including law enforcement unit and health staff); a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a person assisting another school official in performing their

tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA. At Northeastern, the Office of the University Registrar, 271 Huntington Avenue, administers FERPA.

### **Additional Information**

Additional information can be obtained at the U.S. Department of Education's website (<http://www.ed.gov/policy/gen/guid/fpco/ferpa/>) or by writing to:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202-5920

## Grade Change Policy

If a student has not graduated, a grade can be changed by a course instructor within 12 months of the end of the semester in which the grade was given.

If a student has graduated, or if more than 12 months have elapsed, a grade can only be changed by request of a course instructor with the approval of the college that offers the course.

If more than 24 months have elapsed, grades can no longer be changed.

If a course instructor is not available, course change requests may be initiated by the department or college that offers the course.

Colleges may place additional restrictions on how grades can be changed.

The grade change policy explains when a course instructor may change a student's grade to correct errors. This policy does not apply to incomplete grades or to student-initiated appeals to change grades. In particular, the grade change policy should not be used to allow a student to submit work after the completion of a class.

## Grade Table and GPA

### Grade Table

Grades are officially recorded by letters, evaluated as follows:

Letter Grade	Numerical Equivalent	Explanation
A	4.000	Outstanding achievement
A–	3.667	
B+	3.333	
B	3.000	Good achievement
B–	2.667	
C+	2.333	
C	2.000	Satisfactory achievement
C–	1.667	
D+	1.333	Undergraduate only
D	1.000	Undergraduate only/Poor achievement
D–	0.667	Undergraduate only
F	0.000	Failure
I		Incomplete
IP		In progress
CR		Credit (School of Law only)
HH		High Honor (School of Law only)
H		Honor (School of Law only)
P		Pass (School of Law only)
MP		Marginal Pass (School of Law only)
NE		Not enrolled
NG		Grade not reported by faculty
S		Satisfactory (pass/fail basis; counts toward total degree requirements)
U		Unsatisfactory (pass/fail basis)
X		Incomplete (pass/fail basis)
L		Audit (no credit given)
T		Transfer
W		Course withdrawal

An I, IP, or X grade shows that the student has not completed the course requirements.

The IP grade is intended for courses that extend over several terms. The time restrictions on the incomplete grade do not apply to the IP grade. While the IP grade is left unchanged, it is not included in computing the grade-point average. If the IP grade is never changed, the course does not count toward graduation requirements.

### Course Comments

The following notations may also appear on the student's transcript:

E	Course excluded from GPA
HON	Honors-level course
I	Course included in GPA

### GPA

Numerical equivalents for scholastic averages are weighted according to the number of hours the course carries. For example, suppose a student receives a grade of B in a course carrying 4 semester hours and a grade of A in a course carrying 1 semester hour. The weightings for these example courses are as follows:

<b>Grade</b>	<b>Numerical Equivalent</b>	<b>Semester Hours</b>	<b>Weight</b>
B	3.000	4	12
A	4.000	1	4
Totals:		5	16

The GPA for both courses would then be the total weight (16) divided by the total semester hours (5), or 3.200. Grades of I, IP, S, U, and X are not included in the calculation of the GPA. See Grade Table (p. 55) for a complete list of grades and numerical equivalents.

## Leaves of Absence and University Withdrawal

Students may request to take the following types of leaves of absence:

- Personal or Academic
- Medical or Emergency
- Military Deployment or Missionary Service

*Students in Prematriculation and Pathway programs (including N.U.in, Foundation Year, NU Immerse, Global Scholars, London Scholars, Global Pathways) do not fall under the leave of absence policy below. Students in these programs with emergent, medical, or personal circumstances that require a conversation about their ability to continue with their program of study should reach out to We Care ([https://studentlife.northeastern.edu/we-care/#\\_ga=2260687946268200191621858812-17152695181613325628](https://studentlife.northeastern.edu/we-care/#_ga=2260687946268200191621858812-17152695181613325628)) for further guidance.*

### General Leave of Absence Policy

Students who wish to take a leave of absence should complete a request through the Student Hub (<https://me.northeastern.edu>) (or via University Health and Counseling Services for a medical leave of absence, as described below) before the last day to drop without a W in a term. Please consult the Academic Calendar ([https://registrar.northeastern.edu/group/calendar/#\\_ga=222318140315109033061621260160-17152695181613325628](https://registrar.northeastern.edu/group/calendar/#_ga=222318140315109033061621260160-17152695181613325628)) for the last day to drop without a W in the term.

Students can request a leave until the last day to drop with a W in a term but should review the financial implications of withdrawing from courses on the Student Financial Services website (<https://studentfinance.northeastern.edu/policies-procedures/withdrawalleave-of-absence/>).

Students can take up to one year of leave.

Any leave of absence type, if approved, is subject to the following conditions:

- International students must make an appointment with the Office of Global Services (<https://international.northeastern.edu/ogs/>) to discuss leave of absence procedures in accordance with federal regulations.
- Students who do not return at the end of the leave will be withdrawn and must contact their college for reentry prior to the term start.
- Students must return to a university-sponsored activity that contributes toward the satisfaction of outstanding program requirements, such as registration for academic coursework.
- Students must be considered active in the period for which they are requesting a leave. Students are considered active when they are currently engaged in university-sponsored activity, such as academic coursework and co-op. If a student is withdrawn for personal reasons, the withdrawal can be reversed and a request for a leave of absence can only be processed if it is before the last day to drop without a W in a term. If the student has been administratively withdrawn, a request for leave of absence cannot be considered until the withdrawal is resolved.
- If a leave extends more than six months, students who have taken loans for education expenses may be required to begin repayment of those loans. Students who receive financial aid should meet with a financial aid counselor before going on a leave. Please see Return of Title IV Aid (<http://catalog.northeastern.edu/undergraduate/expenses/financial-aid/>) for the possible financial aid impact of a leave of absence.
- Students in university housing should refer to the Office of Housing and Residential Life for policy information.
- A student's enrollment status cannot include more than one academic year of consecutive nonclass enrollments. Students on leave for more than one year will be withdrawn from the university.
- If a student has taken multiple leaves, resulting in the postponement of expected graduation date of a calendar year, the next leave request will be processed as a withdrawal.
- While on leave, students are not allowed to take classes for credit toward their Northeastern University degree, either at Northeastern or at an outside institution.

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, the student should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

### LEAVE OF ABSENCE FOR INTERNATIONAL STUDENTS

International students must discuss maintenance of U.S. immigration status with an advisor at OGS before requesting any type of leave of absence.

### PERSONAL OR ACADEMIC LEAVE OF ABSENCE

Personal leaves of absence are general leaves of absence that do not meet the criteria of more specific leaves outlined in the catalog. Academic leaves are applied to a student record in the rare cases when a student has fulfilled the last remaining requirements abroad but final grades have been yet to be received at Northeastern; or are taking a leave of absence from Northeastern to pursue other academic work. A student interested in requesting a personal or academic leave of absence should speak with an academic advisor.

**MEDICAL OR EMERGENCY LEAVE OF ABSENCE**

Medical leave is an option available to those Northeastern students who develop a major medical condition that precludes class attendance, completion of requirements, and/or participation in co-op. Medical leave of absence requests must be initiated at UHCS (<https://www.northeastern.edu/uhrs/forms/medical-leave-of-absence/>).

Students on a medical leave will no longer have Husky Card access to the Marino Center, libraries, dining services, residence halls, and UHCS. If a student is in treatment at UHCS, they will be provided with referral resources for care in the community where they will reside during their medical leave. Students are not to be participating in student groups while on medical leave.

Emergency leaves may be granted when a student cannot continue attending class after the start of the term due to life-changing situations beyond the student's control. Students interested in requesting emergency leave are encouraged to contact We Care (<https://studentlife.northeastern.edu/wecare/>). Students can request an Emergency Leave of Absence via the Student Hub (<https://me.northeastern.edu>).

Students who have been granted a medical or emergency leave of absence due to extenuating circumstances may submit a Leave of Absence Refund Appeal Form ([https://service.northeastern.edu/sfs/?id=sc\\_cat\\_item&sys\\_id=50dc23cddb464150ebcdcafc13961951&sysparm\\_category=98921886db600d54ca10819b1396197e](https://service.northeastern.edu/sfs/?id=sc_cat_item&sys_id=50dc23cddb464150ebcdcafc13961951&sysparm_category=98921886db600d54ca10819b1396197e)) for financial consideration. If the appeal is approved, please note that housing and other fees will not be included in the appeal decision; refer to the Residence Hall and Dining License Agreement (<https://www.northeastern.edu/housing/license-agreement/>). Please only complete the Leave of Absence Refund Appeal Form if you have been approved for a medical or emergency leave of absence.

*Please note that any outstanding balance (including unpaid balances) for the academic term in which the leave is taken are still due to the university.*

Financial aid recipients must contact their financial aid counselor to understand the effects on aid received.

If the leave extends more than six months, students who have taken loans for education expenses may be required to start repayment of those loans.

Students enrolled in the Northeastern University Student Health Plan will remain enrolled in the plan for the plan year, ending August 31.

**LEAVE OF ABSENCE DUE TO MILITARY DEPLOYMENT OR MISSIONARY SERVICE**

When a student is called to active duty or missionary service, they must request the leave by filling out the proper request form through the Student Hub (<https://me.northeastern.edu>). Proof of official deployment or call to service paperwork will be required as an attachment when filling out the leave of absence request.

When a student is called during the term, the university will:

- Excuse tuition for that term. Any payment made will be credited to the student's account.
- Post a leave of absence for the term to hold a place for the student when they return.

If a student is called near the end of the term, the student and faculty members may determine that incomplete (I) grades are more appropriate. In this case, tuition will not be waived.

When a student returns to the university after completion, they will notify the college academic student services office if the leave was longer than one year; that office will in turn notify the Office of the University Registrar. The college academic student services office will assist the student with reentry and registration. If the leave was less than one year, the student should register for classes for the upcoming term prior to returning to campus.

International students who must take a leave of absence to engage in military service in their home country must also complete a form for leave of absence with OGS.

**RETURNING FROM A LEAVE OF ABSENCE**

Students on a leave of absence are considered active students and are able to register for classes in an upcoming term in a leave status. If a student is unable to register because they are inactive, they should contact their college for reentry at the time of registration for the return term. Students are expected to register for classes upon returning from a leave of absence.

Students who are withdrawn and are applying for Commencement may be reentered on a leave of absence, pending the college's approval, prior to the term in which they will graduate. International students returning from a leave of absence should contact OGS regarding the Student and Exchange Visitor Information System procedures three to four months prior to anticipated return date.

Students who wish to reenter the university following a medical leave must contact UHCS. Reentry from a medical leave requires receipt of all documentation delivered to UHCS approximately one month prior to the start of the term they wish to return. Once all documentation is received by UHCS, it will be reviewed and the student will be notified of the decision. Requests for reentry from medical leave must be completed no later than one week prior to the beginning of a term. Students must be enrolled in Northeastern classes for the term in which they wish to return from their medical leave of absence. More specific information about the reentry process can be found at the UHCS website (<https://www.northeastern.edu/uhrs/forms/medical-leave-of-absence/>).

**University Withdrawal**

Students seeking to withdraw from the university for any reason should meet with their academic advisor before completing the university withdrawal form online. Students should review the financial implications of withdrawing from all classes on the Student Financial Services website.

Students may be withdrawn from the university for financial, disciplinary, or academic reasons. Students looking to withdraw for medical reasons should reach out to UHCS ([mloa@northeastern.edu](mailto:mloa@northeastern.edu)) to review medical leave of absence.

## Personal Information

### **Change of Name**

Report all name changes to the Office of the University Registrar immediately. Official documentation of the name change is required.

### **Change of Address**

Report all address changes via the Student Hub (<https://me.northeastern.edu>). Both the permanent home address and the local address are required. International students must report any changes of local address or phone number via the Student Hub (<https://me.northeastern.edu>) within 10 days in order to ensure compliance with immigration regulations.

## Requesting and Clearing An Incomplete Grade

An incomplete grade may be reported by the instructor when a student has failed to complete a major component of a required course, such as homework, a quiz or final examination, a term paper, or a laboratory project. Students may make up an incomplete grade by satisfying the requirements of the instructor or, if the instructor is absent, the chair of the department. Be aware that instructors' policies on the granting of incomplete grades may vary and that the final decision on an incomplete grade is up to the instructor. Instructors may deny requests for an incomplete grade.

To request an incomplete grade, the student must obtain and complete in consultation with the instructor an Incomplete-Grade Contract (<https://registrar.northeastern.edu/article/incomplete-grade-contract/>) on which the precise agreement for clearing an incomplete grade is specified. The contract is then signed by the student, the instructor, and the student's academic advisor. Copies of the form are kept by the student, the instructor, and uploaded to the student's advising notes. The maximum time period for clearing an incomplete grade is restricted to 30 days from the end of the term in which the course was offered. Instructors may require a shorter due date before approving incomplete grade requests.

International students should consult with the Office of Global Services before requesting an incomplete grade to ensure that they will remain in compliance.

If the missing assignment(s) have not been submitted to the instructor within 30 days from the end of the term in which the course was offered, or the agreed upon due date, the grade entered will reflect the student's grade in the course for the work completed and the missing assignments receiving no credit toward the final grade. Changes in the final grade will be applied to the term in which the student was enrolled in the course. Any exception to this policy or extension of the deadline must be recommended by the college in which the course was offered and must be forwarded in writing to the Office of the University Registrar for implementation.

## Retaking Courses

When the appropriate course is available, students may retake a nonrepeatable course to earn a better grade. In all cases, the most recent grade earned in a course is the one used in calculating the overall grade-point average followed by the retake notation I, indicating the course grade is included in the overall GPA; however, previous grades remain on the transcript followed by the retake notation of E, signifying that that course grade has been excluded. Consult your academic advisor before retaking a course. Students are required to pay normal tuition for all retaken coursework.

When the course description for the student's registration term indicates that the course may be repeated up to a certain number of course completions, each completion of the course (up to the limit stated in the course description) will appear on the student's transcript, and the grade for each such completion will be used in the calculation of the student's overall GPA.

## Student Bill of Academic Rights and Responsibilities

*This bill was drafted by the Student Senate, the Vice President for Student Affairs, and members of the Faculty Senate. It was passed in the spring of 1992. It was then updated by the Student Body President, Vice President for Academic Affairs, and passed by the Student Senate in the Fall of 2017 and Faculty Senate in the Spring of 2018 for adoption in the Undergraduate Student Handbook (<http://www.northeastern.edu/osccr/code-of-student-conduct/>) for the 2018–2019 academic year.*

We, the students of Northeastern University, believe that a quality education is the paramount goal of all students. In order to fulfill this goal, the university recognizes certain rights and responsibilities, which follow below.<sup>1</sup> Northeastern University students recognize and accept that redress of complaints arising from these rights is limited to the procedures specified in “Student Academic Appeals Procedures”.<sup>2</sup>

### Course-Related Rights

#### ARTICLE 1

Students have the right to instructors who attend classes on time.

#### ARTICLE 2

Students have the right to receive grades and feedback in a timely manner, particularly in the case of sequentially related assignments. At least one summative assessment should be given and returned a week prior to the end of the withdrawal period. Students also have the right to view work they submit to satisfy course requirements after it is graded and receive their instructor's rationale for grades received on said work.

#### ARTICLE 3

Students have the right to adequate access to instructors. This includes instructors replying to communications from students in a timely manner, suggested to be within two business days, with the exception of during university recesses, as well as maintaining consistent office hours for in-person courses, occurring at the same time at least once a week. Instructors may change office hours by notifying students in a timely manner, suggested to be within two business days, barring extenuating circumstances.

#### ARTICLE 4

Students have the right to receive a course outline, which includes a fair and explicit grading policy, at the beginning of each course. Changes to the course outline that result in a deadline, assignment, major exam, or similar course event being introduced to or moved earlier in the schedule shall be communicated to students in a timely manner, suggested to be at least 10 business days prior to the new deadline.

#### ARTICLE 5

Students have the right to instructors who communicate the material pertaining to the course effectively in the English language except in the case of foreign language instruction.

#### ARTICLE 6

Students have the right to participate in and have access to Student Government Association teacher/course evaluations.

#### ARTICLE 7

Students have the right to have a list of all course materials that must be purchased. Possible substitutions for said course materials, (i.e., acceptable previous editions of textbooks, digital versions, library owned resources, etc.) should be made available to students at least a week prior to the start of the academic term.

#### ARTICLE 8

Students have the right to alternative grading arrangements if they are unable to attend a graded activity that takes place outside the scheduled class time.

### Rights to University Academic Services

#### ARTICLE 9

Students have the right to adequate access to effective academic services, including academic and co-op advising, as described in the student handbook and other university publications, provided by the university.

#### ARTICLE 10

Students have the right<sup>3</sup> to an environment conducive to learning and to faculty who respect students' academic freedom<sup>4</sup> in the classroom. When exercising academic freedom, students are expected to comply with all applicable university ethics, anti-harassment, and nondiscrimination policies.

#### ARTICLE 11

Students have the right to access university health resources provided by University Health and Counseling Services (<https://www.northeastern.edu/uhrs/>) (UHCS), and in accordance to Massachusetts State Law, to have access to a medical plan that they can purchase (Northeastern University Student Health Plan (<http://www.northeastern.edu/nushp/>)).

#### ARTICLE 12

Students have the right to access university resources provided by the university's Disability Resource Center in accordance with the Policy on Equal Opportunity ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)). Students have the right to pursue informal and formal grievances through the procedures outlined by the Disability Resource Center (<https://drc.sites.northeastern.edu/>).

## Scheduling Rights

### ARTICLE 13

Students have the right to final exam schedules in accordance with established university policy, including non-conflicting final exam schedules.

### ARTICLE 14

Students have the right to attend any course session held prior to the end of the add/drop period so long as permission from the instructor is obtained in advance and all duly registered students have proper access to seating and other course resources.

### ARTICLE 15

Students will not be penalized for excused absences, with the understanding that students may need to make up for the academic commitment from which they were excused. Reasons for an excused absence include religious, medical issues, jury duty, bereavement, and military service. See this catalog (<http://catalog.northeastern.edu/undergraduate/academic-policies-procedures/attendance-requirements/>) and other applicable policies ([http://gonu.com/sports/2013/7/15/SASS\\_0715134535.aspx?path=sass](http://gonu.com/sports/2013/7/15/SASS_0715134535.aspx?path=sass)) for the full attendance and excusal policy.

## General Academic Rights

### ARTICLE 16

Students have the right to be informed, in a timely fashion, of proposed action to be taken against them.

### ARTICLE 17

Students have the right to the redress of academic grievances through the processes provided by the university.

### ARTICLE 18

Students have the right to university support and resources, such as the Office of Global Services (<https://www.northeastern.edu/ogs/>), with regard to their visa status.

### ARTICLE 19

In accordance with the Northeastern University's Nondiscrimination Policy ([https://www.northeastern.edu/policies/pdfs/Policy\\_on\\_Equal\\_Opportunity.pdf](https://www.northeastern.edu/policies/pdfs/Policy_on_Equal_Opportunity.pdf)), students have the right to a learning environment free of discrimination or harassment, including as provided for in Northeastern University's Title IX Policy (<http://www.northeastern.edu/titleix/title-ix-policy-2/>).

### ARTICLE 20

Northeastern University's policy on student produced intellectual property can be found under *Copyrightable Materials* in the *Undergraduate Student Handbook*.

### ARTICLE 21

Students have the right of access to their academic and financial aid records and maintenance of the privacy of these records, as provided by the Family Educational Rights and Privacy Act.

## Student Responsibilities

### ARTICLE 1

Contribute to a climate of open inquiry and honesty in all aspects of the university's academic life. This includes reviewing, and becoming familiar with, the Academic Integrity Policy on the OSCCR website.

### ARTICLE 2

Commit sufficient time and effort for study and for use of library, studio, laboratory, and computational facilities, as appropriate for each course.

### ARTICLE 3

Contribute to the classroom/laboratory/studio learning environment through discussion and active participation.

### ARTICLE 4

Acquire the necessary prerequisites for full participation in each academic course.

### ARTICLE 5

Attend scheduled classes regularly and on time, and arrive to class prepared, having completed all the readings and other assignments.

### ARTICLE 6

Seek out faculty and teaching assistants outside of class time, to obtain help with problems encountered in a given course.

### ARTICLE 7

Respect the academic freedom<sup>4</sup> of each faculty member and student.

### ARTICLE 8

Assist the university in its various self-evaluations (e.g., TRACE, surveys) by responding honestly and conscientiously.

### ARTICLE 9

Maintain effective communication with the university by providing permanent and local address information to the university through a system designated by the university, and by reading university email on a frequent and consistent basis.

**ARTICLE 10**

Act as positive representatives and genuine ambassadors of the university when studying and working in domestic and international settings associated with Northeastern University.

**ARTICLE 11**

Complete an entry (including itinerary, accommodation information, and contact information) using 'My Travel Plans,' located via the Student Hub (<https://me.northeastern.edu>) or other system as required by the university, prior to all university-sponsored travel outside of Massachusetts, including but not limited to: Study Abroad, Dialogues of Civilization, Foreign Exchange Programs like BSIB, Alternative Spring Break, Engineers without Borders, Co-op Placements outside of Massachusetts, etc.

**ARTICLE 12**

Complete all required activities prior to attending classes for their entrance date (including alcohol education, violence prevention programming, required reading, etc.).

**ARTICLE 13**

Have in their possession at all times the officially approved and properly validated photo identification card.

Students who fail to comply with these responsibilities could lose certain student privileges as well as face possible disciplinary sanctions under the Code of Student Conduct.

- <sup>1</sup> The student rights, through their representatives in the Student Government Association (SGA), described in these sections arise from faculty and staff employment responsibilities and obligations to the university. Northeastern University students recognize and accept that it is the sole prerogative of the university to enforce these obligations and responsibilities and to determine whether and to what extent they are being carried out or violated in specific instances. Northeastern University students recognize and accept that their ability to effect redress of complaints arising from these rights is limited to the procedures specified in the current *Undergraduate Student Handbook*.
- <sup>2</sup> The articles shall be interpreted by the Office of the Provost in conjunction with the Office of the Vice President for Student Affairs, and shall be monitored by the Student Government Association. Further, should any student discover that they have been subject to any violation of the principles stated herein, the student should follow the appropriate complaint resolution procedure in the *Undergraduate Student Handbook* (<http://www.northeastern.edu/osccr/code-of-student-conduct/>). The Student Government Association, if requested by the student, will monitor the progress of any student academic grievances.
- <sup>3</sup> Because the university operates on a twelve-month calendar in an urban environment, many construction, remodeling, renovation, and repair projects must take place while the university is in session, and other potential distractions from the learning process arise from the surrounding urban environment on which it is dependent but over which it exerts little or no control. Thus, though the university is committed to maintaining an appropriate learning environment for its students, Northeastern University students recognize and accept, as part of their relationship with the university, that the conditions described above may cause occasional disturbances to that environment.
- <sup>4</sup> For more on academic freedom, please refer to the AAUP's definition (<https://www.aaup.org/report/1940-statement-principles-academic-freedom-and-tenure/>).

## Student Responsibility Statement

By accepting responsibility for their education, students enhance the development of their academic, social, and career goals. As a condition of enrollment, students are responsible for reviewing, understanding, and abiding by the university's policies, regulations, procedures, requirements, and deadlines as described in all official publications, including the university's Academic Catalog, Northeastern and college websites, and official university email communications, as applicable.

Students are responsible for meeting the degree requirements of their academic programs in all respects, including completeness and correctness of course selection, compliance with prerequisite and corequisite requirements, completion of program and degree requirements through regular, comprehensive review and understanding of the degree audit, and observance of all academic regulations and deadlines.

Students are expected to seek guidance from appropriate university representatives, such as departmental program advisors, academic advisors, co-op coordinators, and the Office of the University Registrar (<https://registrar.northeastern.edu/>), to confirm their compliance with all applicable academic expectations and requirements.

## Student Right-to-Know Act

For information about the Student Right-to-Know Act, visit the Office of the University Registrar's website. (<https://registrar.northeastern.edu/article/student-right-to-know-act/>)

## Substituting Courses

In some cases, it may not be possible to retake a course if a student wishes to do so. In unusual circumstances, students may petition to substitute one course for another they have already taken, as long as the subject matter of both courses is substantially alike. With the approval of the student's academic advisor and the agreement of the department that offered the first course taken, a grade received in the new course will be labeled "Substitute" on the transcript and will be treated in the grade-point-average calculation as a "retake" grade, as described above. The original grade will remain on the student's Northeastern University transcript. Students should consult with their academic advisor before enrolling in any proposed substitute course. Students are required to pay normal tuition charges for all substitute coursework.

## University-Sponsored Travel

Northeastern University is committed to the health, safety, and security of its students and all other members of the university community. As a global institution, our university members undertake university travel around the world in pursuit of teaching, research, consulting, service, cocurricular activities, and work intended to advance learning and the interests of the university. The university supports standards and expectations associated with travel that are designed to reduce personal and university risk.

To enhance the health and safety of our students, you are required to comply with the university travel policies and guidance when undertaking university travel. These include, but are not limited to:

- **Registering University Travel**—Students, faculty, and staff are required to enter their travel itineraries and other requested information into the travel registry. To access the registry, go to the Student Hub (<https://me.northeastern.edu/>) and navigate to My Travel Plans to register your travel.
- **Review Destination Risks and Take Steps to Reduce Risks Before and During Travel**—Review the country briefing for your destination found in the Travel Security portal (<https://travelsecurity.garda.com/checkMail/>) and travel health and safety advice issued by the U.S. Department of State, the U.S. Centers for Disease Control and Prevention, other government organizations, the host nation, international organizations, etc. Travelers will be reminded about these sources via an email following trip registration.
- **Connectivity**—All students traveling on university programs must carry a cell phone with international calling, SMS, and cellular data capabilities. Phones must be able to receive incoming and make outgoing phone calls without relying solely on data-calling or a Wi-Fi signal. Phone number must be updated in the Student Hub (<https://me.northeastern.edu/>) profile and My Travel Plans registry before travel.
- **Complete Travel Petitions or Waivers**—Visit the Travel Protocols page (<https://globalsafety.northeastern.edu/travel-protocols/>) to determine what forms travelers are required to complete before participating in off-campus programming. The page also explains how to obtain approval to travel to a destination designated as high risk by the university.
- **Reduce Your Travel Cyber-Risk and Exposure**—Review and comply with the Policy on Portable Devices for High Cybersecurity Risk Destinations (<https://cpb-us-w2.wpmucdn.com/sites.northeastern.edu/dist/b/620/files/2020/09/Policy-on-Computers-and-Mobile-Devices-for-International-Travel.pdf>).
- **Personal Health Insurance**—All travelers are required to have personal health insurance that provides coverage while participating on university trips. Insurance requirements and an explanation of the university-provided urgent and emergency program can be viewed on the insurance and global safety support network pages of the university's global safety (<https://globalsafety.northeastern.edu/>) website.
- **Attend Predeparture Orientation**—PDO provides travelers with information about resources, requirements, safety, and security while traveling. Contact your program office to enroll in an in-person or online training.
- **Register Side Trips**—Side trips are travel that takes place prior to, during the course of, and/or immediately following a scheduled program but is not part of the program. Travelers are required to notify the university and register side trips.

Students are responsible for familiarizing themselves with the university travel policies and are encouraged to visit the university's global safety (<https://globalsafety.northeastern.edu/>) website for guidance. If you have questions related to travel or travel support, please email [mytravelplans@northeastern.edu](mailto:mytravelplans@northeastern.edu). If you need assistance during university travel, please call the university's 24-hour travel assistance line at +1.857.214.5332.

## Academic Appeals Policies and Procedures

Northeastern University affirms that it is essential to provide an appeals mechanism to students who believe that they have been erroneously, capriciously, inappropriately, or otherwise unfairly treated.

If a student feels that they have been the victim of harassment or of discrimination prohibited by law or by university policy, and that this constitutes a substantive basis for the appeal, the appeal shall first be pursued and investigated through the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/>). In such cases, the appeal described in Step 2 below is submitted to the appropriate dean(s) and a copy provided to the OUEC. Following a resolution of the harassment/discrimination issues, any remaining academic issues will be addressed, at the request of the student, according to the academic appeals procedures described herein.

Note that these policies and procedures apply to graduate students only.

Individual college appeal procedures can be viewed within the college's section of this catalog.

### Academic Appeals

It is the policy of the university that all students shall be treated fairly with respect to evaluations made of their academic performance, standing, and progress. The university presumes that academic judgments by its faculty are fair, consistent, and objective. Students must understand that the substitution of a different academic judgment for that of the original evaluator is a serious intrusion upon academic prerogatives entrusted to the faculty and others involved in academic evaluations. Nonetheless, the university believes it is essential to provide an appeals mechanism to students who believe that they have been erroneously, capriciously, inappropriately, or otherwise unfairly treated in an academic or cooperative education determination. This includes claims of misinterpretation or inequitable application of any academic provision of the *Graduate Catalog* or *Faculty Handbook*.

Decisions concerning admission or readmission into a program, including dismissals, and matters related to co-op employment (other than grades received) cannot be appealed beyond the college level. While program dismissals cannot be appealed beyond the college level, underlying academic judgments that led to a dismissal can be appealed.

Before invoking the appeals procedures, students are always encouraged to speak informally to their instructors or academic advisors about any determination or grade about which they have questions. If students choose to pursue an appeal, the process is described in the appeals section that follows.

A student may appeal an academic determination by submitting a written statement that details the action or judgment and the basis for the appeal. All parties shall cooperate and act expeditiously in processing the appeal to completion. Appeals shall be filed in a timely manner such that they can be considered during the academic year of the student's home unit.

All appeals should be initiated and resolved in a timely manner in accordance with the detailed time limits provided in this document.

Although students are entitled to seek the advice of outside legal counsel, students may not be represented by a lawyer in the informal or formal academic appeal procedures. A student may consult with the provost or their designee at any point in this procedure for advice or assistance.

It is strongly recommended that international students consult as soon as possible with the Office of Global Services to determine the possibility of any repercussion that the timing of an appeal may have on their immigration status.

### Scientific or Research Misconduct

Scientific or research misconduct is defined as fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the academic and scientific community for proposing, conducting, or reporting research and does not include honest error or honest differences in interpretation or judgments of data. (Further information can be obtained from the U.S. Office of Research Integrity, Department of Health and Human Services (<https://ori.hhs.gov/>).) Possible incidences of misconduct are to be reported immediately to the provost or their designee, who will initiate the appropriate procedures. Findings of scientific or research misconduct cannot be appealed through the process below.

### Appeal of Final Grades and Outcomes of Other Academic Evaluative Processes

#### STEP 1. DISCUSS CONCERNS WITH INSTRUCTOR AND/OR ADMINISTRATOR

In many cases, students may choose to discuss their concerns with the faculty member who taught the course or a member of the qualifying exam committee. If after this conversation the student's concerns remain unresolved, or if the student is not comfortable discussing the issue with the instructor or other faculty member(s) involved, the student should request a meeting with the appropriate administrator (e.g., director, assistant or associate dean, chair, or group leader) to further discuss their concerns. If these initial attempts to address the issue fail to resolve the student's concerns, or the situation precludes a student from pursuing these steps, the student can initiate a formal appeal as follows. Note that this step should occur as soon as possible after the academic determination given the time frame for appeal statement submission described in Step 2.

#### STEP 2. PREPARE AN APPEAL STATEMENT

A student must initiate a formal appeal of an academic determination by submitting a written statement (the Statement) that specifies the details of the action or judgment that they seek to appeal. This Statement must start with a clear description of the basis for the appeal and should include: (1) basic facts about the situation leading to the appeal; (2) when the situation occurred; (3) who was involved; and (4) the resolution sought by the

student. All relevant supporting materials should be attached as addenda to the Statement. Appeals should avoid unsubstantiated, defamatory, or *ad hominem* accusations regarding the motivations of the faculty member or other persons involved in making the academic determination.

This Statement, and supporting materials, as submitted to and reviewed by the unit (i.e., college, school, department, or group responsible for reviewing the academic determination), will serve as the basis of the appeal throughout the appeals process, including at the university level.

Graduate students shall submit the Statement and all supporting materials to the college/school administrator specified in the college/school procedures.

The Statement must be submitted no later than 28 calendar days from the day when the academic determination is made available to the student. If a student wishes to dispute a grade in their final term, this must be done within 28 calendar days of degree conferral date.

### **STEP 3. COLLEGE/SCHOOL-LEVEL APPEAL**

A copy of this decision shall be sent to the college/school dean or their designee of the student's home college/school.

### **STEP 4. UNIVERSITY-LEVEL APPEAL**

If the student is not satisfied with the college/school's disposition of the matter, or if the appeal is not resolved within 35 calendar days after originally submitted to the college/school pursuant to Step 3, the student may further pursue the matter by requesting in writing within 10 calendar days of the notification from the college/school in Step 3 that the university convene the Academic Appeals Resolution Committee to review the issue. Students may obtain information on this process from the provost or their designee. This committee has been designated as the final authority on these matters.

#### **A. Academic Appeals Resolution Committee**

The Academic Appeals Resolution Committee shall be a standing committee consisting of the following:

- The provost or their designee, who shall be the chair of the committee, and nonvoting member.
- Three faculty members and one alternate faculty member (with the alternate serving in instances where there is a conflict of interest or when a member has to be replaced) all from different colleges appointed by the Faculty Senate Agenda Committee. Members will serve a one-year term with no term limits.
- If the appeal had at any point involved a matter of harassment/discrimination, the committee shall include a representative of the OUEC, who shall be a nonvoting member.

#### **B. Preliminary Matters**

Upon receiving an appeal, the committee shall obtain copies of all documentation related to the appeal from Steps 1, 2, and 3, including the procedures of the relevant unit and college/school. If the Academic Appeals Resolution Committee determines, by a majority vote, that the appeal is patently without substance or merit, it may dismiss the appeal.

#### **C. Investigation**

The Academic Appeals Resolution Committee shall investigate the matter under appeal by studying the relevant documents (the Statement, supporting documents, and additional accumulated documentation), interviewing the parties (especially the student and the involved faculty member), and taking any other action it deems appropriate. A resolution shall be rendered within 35 calendar days of appeal submission. At no time shall the committee be bound by rules of evidence but shall at all times conduct itself in a manner that is not arbitrary or capricious. The Academic Appeals Resolution Committee may, but is not required to, hold a hearing prior to resolving the issues. However, in all instances, the student and the involved faculty member shall have the right to appear separately and privately before the Academic Appeals Resolution Committee. The student shall have the right to have an advocate from the university community present during their testimony to the Academic Appeals Resolution Committee.

#### **D. Authority to Act**

The Academic Appeals Resolution Committee has been designated as the final authority on academic matters. At the conclusion of its investigation, the Academic Appeals Resolution Committee shall resolve, by majority vote, the issue by either upholding the finding of the college/school, in which case no further appeal is available, or granting such relief to the student as the Academic Appeals Resolution Committee deems appropriate. The Academic Appeals Resolution Committee shall not render a resolution that contradicts the prior findings or actions of the OUEC.

#### **E. Resolution**

All direct parties to the appeal, including but not limited to the student, the faculty member (or others involved in academic evaluations), the dean of the involved college(s), the Faculty Senate, and the registrar, shall be promptly informed in writing of the decisions and actions taken during this academic appeals procedure.

#### **F. Action**

The dean(s) or their designee in the involved college(s) shall take whatever action is necessary to implement fully the resolution of the Academic Appeals Resolution Committee.

#### **G. Appeal**

Once adjudicated, the matter is considered closed, and no further appeal can be instituted by the student or the involved faculty member with respect to the issue(s) raised at any level of the formal appeals resolutions procedures.

Step 1: Discuss concerns with instructor or appropriate administrator	Time frame: As soon as possible after academic determination (see note 1 below)
Step 2: Student prepares/submits appeals statement to unit or college/school	Time frame: Within 28 calendar days of academic determination
Step 3: Unit/college/school-level appeal process	Time frame: Decision notification within 35 calendar days of student appeal statement submission
Step 4: University-level appeal process	Time frame: Student submits within 10 calendar days of college/school decision; resolution rendered within 35 calendar days of appeal submission

Note 1: Step 1 should occur as soon as possible after the academic determination given the time frame for appeal statement submission described in Step 2.

## Academic Calendars

The graduate schools' programs are offered on a semester calendar consisting of 15 weeks. The College of Professional Studies graduate programs are offered on a quarter calendar consisting of 12 weeks.

### Quarter Programs

For student records that include quarter hours, the approved semester-hour conversion rate is (quarter hours) x 0.750. For example, a 4-credit quarter course is equivalent to a 3-credit semester course.

### Semester Programs

Traditional semester hours apply.

## Academic Integrity Policy

The university's complete Academic Integrity Policy (<http://www.northeastern.edu/osccr/academic-integrity-policy/>) is available through the Office of Student Conduct and Conflict Resolution.

## Audit Policy

Full-time Northeastern students may audit one class per term as an overload. In all colleges with the exception of the College of Professional Studies, there is no additional charge.

- Students are permitted to petition (<https://registrar.northeastern.edu/article/audit-policy/>) from the end of the course-add period to the end of the third week of classes.
- Permission is based on the availability of a seat in the class.
- Students must obtain advisor approval and meet the prerequisites and any other required approvals for the class.
- Instructor permission, as well as approval by the associate dean of the college offering the course, is required.
- The coursework required is at the discretion of the instructor.
- Once a student opts to audit a course, the audit status of the course cannot be changed.
- A signed Petition to Audit (<https://registrar.northeastern.edu/article/audit-policy/>) must be presented to the Office of the University Registrar during the designated audit-add period.
  - Students will not be registered for approved audited course(s) until after the add period is over for the intended term.
- Excluded courses are co-op, labs, language courses, any off-campus course, any online course, and any course required for the major or degree.
- Audits carry no academic credit.

## Cooperative Education

Website (<http://www.northeastern.edu/coop/>)

Cooperative education is the cornerstone of Northeastern University's experiential learning approach, in which on-campus study is enhanced by real-world experience through full-time employment at locations all over the world. Through co-op, students alternate periods of academic courses with periods of employment in positions related to their academic or career interests. This combination provides an integrated learning experience that enhances both in-class studies and career development.

### General Requirements

- Be a full-time student to participate in co-op.
- Complete all pre-co-op requirements as established by the college of the student.
- Make satisfactory progress toward degree completion, including grade-point average requirements as defined by the university, the colleges, and the major program curricula.
- Have accurate information about the co-op placement in the university's official co-op placement system, including specific start and end dates and meeting the minimum hour and day requirements.
- Not participate in co-op in the final term unless it is specified in the curriculum requirements of the program in the catalog.
- Resolve any previous disciplinary or academic probation issues, or have the cooperative education coordinator approve a plan to resolve these issues prior to applying for co-op jobs.
- Have any self-developed co-op approved by the cooperative education coordinator before accepting the position.
- Comply with any preemployment checks required by the employer, such as drug testing, credit checks, physical examinations, security clearance, and criminal record checks.
- Participate in Title IX training, as required.
- Complete any additional requirements (<https://careers.northeastern.edu/students/student-co-op/global-co-op/>) if participating in a global co-op.
- Work with the cooperative education coordinator if an Unsatisfactory (U) grade has been received for a past co-op to reestablish eligibility in accordance with the policies and requirements of the college.

### TRANSFER AND INTERNATIONAL STUDENTS:

- Transfer students from other universities must have met the same requirements in their major's co-op program as nontransfers and must have completed at least one semester of classes before starting co-op.
- International students must attend one academic year, or its equivalent, and obtain proper authorization from the Office of Global Services before engaging in co-op.

### Academic Requirements

1. **Be full-time while on co-op. Full-time status for co-op is defined as either:**
  - a. One full-time co-op job; 32–40 hours per week
  - b. Two simultaneous half-time co-op jobs; 16–31.99 hours each
  - c. One half-time co-op job; 16–31.99 hours with graduate students taking 3 or more academic credits or undergraduate students taking 6 or more academic credits
    - i. Undergraduate students on co-op in a summer 1 or summer 2 term may be registered for one half-time co-op without acquiring a second job or taking an accompanying class.
2. **Meet the minimum length requirements for an academic term:**
  - a. Semester full-term: minimum of 11 weeks or 55 workdays
  - b. Quarter full-term: minimum of 9 weeks or 45 workdays
  - c. Summer 1 or summer 2 term: minimum of 5 weeks or 25 workdays
3. **Receive a grade of Satisfactory or Unsatisfactory for the co-op experience.**

### Co-op Duration

Graduate Students Enrolled in Colleges Other than the College of Professional Studies:

- Students may be hired into co-op positions for periods of four to eight months in one of the following patterns:
  - Four months (spring, fall, or summer full terms)
  - Six months (spring term plus summer 1 term, or summer 2 term plus fall term)
  - Eight months (spring term plus summer full term, or summer full term plus fall term)
- In addition, students enrolled at a Canadian campus may be hired into co-op positions for periods of four to eight months, including continuous periods spanning the fall and spring semesters. In the case of such eight-month fall/spring term co-op assignments, students are required to enroll full-time in classes during the summer term immediately following the assignment. If a student only needs to take one additional

course to complete their program's requirements, they are only required to enroll in that one class in the summer term immediately following the assignment.

Graduate Students Enrolled in the College of Professional Studies:

- Students may be hired into co-op positions for periods of three months or six months.

### **Co-op Financial Planning**

- No tuition is charged while a student is on co-op only (students will pay room and board if they stay in university housing).
- If a student takes a credit-bearing class while on co-op, tuition will be charged at the per-credit rate.
- Students who wish to register for more than 4 credits while on full-time co-op must complete the Petition Registration form (<https://registrar.northeastern.edu/wp-content/uploads/sites/9/form-pet-reg-14.pdf>).
- Financial aid will be distributed to match the student's tuition bill and other allowable expenses.
- Students on co-op are required to maintain the same health insurance coverage (either through a private provider or through the university program) as they would while attending classes.

### **Registration for Co-op**

Students are registered for co-op based on a completed co-op record that meets the minimum hour and day requirements with accurate start and end dates in the university's official co-op database system. Students must be registered for the co-op work experience course by the end of the add period or alternately registered for classes if still searching for a job by this deadline. All co-op positions need to be approved by the university and entered as completed records in the official co-op database system by the last day to drop without a W for the respective semester.

### **Further Information**

For more detailed information about co-op policies and procedures, see the *Cooperative Education Student Handbook* on the Cooperative Education website (<https://www.northeastern.edu/coop/>).

## Departmental Jurisdiction

Certain departments of the university shall have the power to set down rules and regulations governing the operation of the departments' respective areas of responsibility. Such rules and regulations shall be in accord with the Student Bill of Academic Rights and Responsibilities (p. 63), as well as with the policies described in this document.

## Dismissal from Class

Students dismissed from classes for insubordination or other disciplinary reasons may not return without the approval of the college and the senior vice chancellor for student affairs.

## Dropping a Class

Not attending class does not constitute withdrawal. Students receiving a grade of W or NE in any course are responsible for the costs associated with that course. Students must drop courses using processes described below.

*Note: College of Professional Studies graduate students should consult the CPS graduate section of this catalog (p. 801) for class drop timelines specific to CPS graduate terms.*

### In Fall and Spring Semesters

- Through the third week of the semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the Student Hub (<https://me.northeastern.edu/>).
- Between the fourth week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the Student Hub. No financial adjustment is made for courses receiving a W grade.
- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment may affect financial aid, health insurance eligibility, and the maintenance of proper nonimmigrant visa status.

### In Summer Half Semesters

- Through the second week of the half semester, students may withdraw without any grade being posted to the transcript. Courses may be dropped via the Student Hub.
- Between the third week and the last day of classes, course withdrawals are indicated by a W on the student's record. Courses may be dropped via the Student Hub. No financial adjustment is made for courses receiving a W grade.
- After the last day of classes, no withdrawals are accepted for any reason. A letter grade for the course will be posted on the transcript.
- Dropping below full-time enrollment may affect financial aid.

## Final Examinations and Related Policies on Other Exams

All final examinations, term papers, or projects must be returned to the student or be retained by the department for a period of one year.

## Full-Time Status

*Notes: Full-time status may be defined differently for federal loan purposes. The criteria below apply to students enrolled in colleges other than the College of Professional Studies. Please consult the College of Professional Studies section of this catalog (p. 791) for criteria that apply to students in CPS.*

A graduate student is considered a full-time student if enrolled in a minimum of 8 semester/quarter hours of credit for the semester with the following considerations:

- Students who hold stipended graduate assistantships will be considered full-time if enrolled for a minimum of 6 semester hours of credit.
- Students for whom English is a second language, at the discretion of their departments, will be considered full-time if they are enrolled in a minimum of 8 semester hours or three courses, whichever is less.
- Students holding Dean's scholarships, Diversity fellowships, Double Husky awards, or being supported by Graduate Student Scholarships will be considered full-time if they are enrolled in a minimum of 8 semester hours.
- Students enrolled in Dissertation or Continuation are considered full-time.
- International students enrolled in graduate programs at Northeastern University must consult with the Office of Global Services (<http://www.northeastern.edu/ogs/>) on all matters regarding the maintenance of full-time status.

## General Regulations

Review the general regulations that follow as well as all other regulations or limitations included throughout this catalog. Your success at Northeastern University depends, in part, on understanding your rights and fulfilling your responsibilities.

### Legal Rights and Responsibilities

#### GRIEVANCE PROCEDURE—SEXUAL HARASSMENT

The university's complete Policy on Equal Opportunity is available at the University Policies site (<https://policies.northeastern.edu/policy107/>).

No employee, agent, supervisory personnel, or faculty member shall exercise their responsibilities or authority in such manner as to make submission to "sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature" as an explicit or implicit term or condition of evaluation, employment, admission, advancement, or reward within the university. Neither shall any employee, agent, supervisory personnel, or faculty member make submission to or rejection of such conduct the basis for employment or academic decisions affecting any employee or student. Neither shall any employee, agent, supervisory personnel, or faculty member conduct themselves with respect to verbal or physical behavior of a sexual nature where such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive work or classroom environment.

Though sexual harassment will not be tolerated, the university recognizes that it is difficult to regulate emotional relationships between consenting adults. However, a consensual relationship may be suspect in instances in which one of the individuals has authority over the other. Therefore, no faculty or employee involved romantically or sexually with a student may teach or supervise that person either individually or as part of a group in any activity connected to the university.

Any student, teaching assistant, employee, or faculty member who feels that they have been the victim of sexual harassment may bring the matter to the attention of the director of the Office for University Equity and Compliance. Copies of the sexual harassment grievance procedure can be obtained from the Office for University Equity and Compliance (<https://www.northeastern.edu/ouec/reporting-options/titleix-prohibited-offenses/>).

#### HAZING

The university's Policy Prohibiting Hazing can be found at the University Policies site (<https://policies.northeastern.edu/policy606/>).

Additionally, Chapter 269 of the Massachusetts General Laws also prohibits hazing and requires that the university publish the following statutory provisions applicable in Massachusetts:

Section 17. Whoever is a principal organizer or participant in the crime of hazing, as defined herein, shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or both such fine and imprisonment. The term hazing as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping; beating; branding; forced calisthenics; exposure to weather; forced consumption of any food, liquor, beverage, drug, or other substance; or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation. Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

Section 18. Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

Section 19. Each institution of secondary education and each public and private institution of postsecondary education shall issue to every student group, student team, or student organization that is part of such institution or is recognized by the institution or permitted by the institution to use its name and facilities or is known by the institution to exist as an unaffiliated student group, student team, or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution's compliance with the section's requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, teams, or organizations shall not constitute evidence of the institution's recognition or endorsement of said unaffiliated student groups, teams, or organizations.

Each such group, team, or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges, or applicants for membership. It shall be the duty of each such group, team, or organization, acting through its designated officer, to deliver annually to the institution an attested acknowledgement stating that such group, team, or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, team, or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen. Each institution of secondary education and each public or private institution of postsecondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full-time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of postsecondary education shall file, at least annually, a report with the regents of higher education and, in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams, or organizations and to notify each full-time student enrolled by it of the

provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of regents and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports and shall forthwith report to the attorney general any such institution that fails to make such report.

### **USE OF ALCOHOL AND DRUGS**

The unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited in or on any Northeastern property. Any university employee or student determined to have violated this policy may be subject to disciplinary action up to and including dismissal. The use of alcohol while on Northeastern property is prohibited except where specifically authorized by the university. No employee may report to work while under the influence of alcohol or illegal drugs. Violation of these regulations may be reason to require evaluation/treatment for substance abuse in coordination with the University Center for Counseling and Student Development and/or for disciplinary action up to and including dismissal. Northeastern works to provide a drug-free workplace for all university employees and students. The Center for Counseling and Student Development provides resources for treatment and referral for students and employees with substance abuse problems. Educational programs for students, employees, and managers are presented through Human Resources Management, the Office of Housing and Residential Life, the Office of Prevention and Education at Northeastern, and University Health and Counseling Services and cover the dangers of alcohol and drug abuse, the availability of assistance for counseling and rehabilitation, and penalties for violating university policies. To comply with federal law, the university requires that employees directly engaged in performance of a grant or contract must notify their employers of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after the conviction. The university must notify any federal contracting agency within 10 days of having received notice that an employee engaged in the performance of such contract has had a criminal drug statute conviction for a violation occurring in the workplace. The university will take appropriate action up to and including dismissal and/or require participation in an approved abuse assistance or rehabilitation program.

### **USE OF WEAPONS**

The use or possession on campus of firearms; explosive agents of any kind; as well as chemicals, mace, and tear gas, is specifically forbidden by the university Policy on Weapons on Campus (<https://policies.northeastern.edu/policy604/>). Violation of this university policy is cause for disciplinary action up to and including expulsion. In addition, it is worth noting that Massachusetts law states: "Whoever, not being a law enforcement officer and notwithstanding any license obtained by him under the provisions of chapter one hundred and forty, carries on his person a firearm as hereinafter defined, loaded or unloaded, in any building or on the grounds of any college or university without the written authorization of the board or officer in charge of said college or university shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year or both. For the purpose of this paragraph, 'firearm' shall mean any pistol, revolver, rifle, or smoothbore arm from which a shot, bullet, or pellet can be discharged by whatever means."

Massachusetts general law prohibits the possession of nunchaku or karate sticks; switchblades; knives; starter's pistols; ammunition; leather armbands or other clothing that has metallic spikes, points, or studs; or other dangerous weapons or articles. A student who possesses any articles for sporting purposes (for example, bow and arrows) should check with the University Police Department or the Department of Residential Life to determine whether such articles are among those prohibited by statute or university regulation. Northeastern also prohibits the possession of knives other than food utensils.

## **Policies and Procedures**

### **ANIMALS ON CAMPUS**

Pets are generally prohibited in university buildings but may be allowed in outdoor areas on university property. Pets do not include service animals or assistance animals, which may be permitted as accommodations for persons with disabilities in accordance with applicable federal and state laws. The full Policy on Animals on Campus is available at the University Policies site (<https://policies.northeastern.edu/policy610/>).

### **APPROPRIATE USE OF COMPUTER AND NETWORK RESOURCES POLICY**

The university Policy on Appropriate Use of Computer and Network Resources ([https://policies.northeastern.edu/policy700/#\\_ga=215664543514360587701691408242-3573326251685708090](https://policies.northeastern.edu/policy700/#_ga=215664543514360587701691408242-3573326251685708090)) is available from the Office of Information Security (<https://security.its.northeastern.edu/>).

### **BEHAVIOR ON CO-OP, ON EXTERNSHIPS, AND IN THE NEIGHBORHOOD**

As an urban institution, Northeastern is a part of the vibrant community and business life of the surrounding neighborhoods. Maintaining amicable and considerate relations between the university and local residents and businesses is essential to the continued cooperation of the university and its neighbors in civic projects and issues and to the furtherance of the university's broader mission to contribute to the general good of society. The university endeavors to foster conditions under which such beneficial relations exist. Consequently, the university must consider conduct on the part of members of the university community, whether on or off campus and whether isolated or continuing in nature, that is disruptive of these relations; that impairs, interferes with, or obstructs the lawful missions, processes, and functions of the university; or that is found by the university to be abhorrent or offensive to generally accepted standards of social behavior, as inimical to the university's interests.

The university's Code of Student Conduct governs student behavior on co-op, externships, and in the community surrounding the university. In addition, misbehavior in these settings may violate the law, policies of the co-op employer, or rules of the externship sponsor.

## **BICYCLES**

Wherever possible, students should use the bike racks available at various locations on campus. Bicycles should not be chained to fences, doors, trees, or other objects, and under no circumstances may bicycles be brought into any university building. The fire code dictates that all entrances, exits, corridors, and stairwells must be free and clear at all times. Bicycles found in violation of this code will be removed from the area.

## **CAMPUS ACCESS**

Northeastern is a private institution that retains the right to determine the policies and protocols regarding access to university property and premises and the use of campus facilities. Northeastern may, at its sole discretion, deny members of the public access at any time for any reason not prohibited by law, including but not limited to reasons related to university business, public safety, and/or to accommodate university or private events. Moreover, certain facilities, such as residence halls, are intended for use by residence hall residents only, and classrooms and laboratories are intended for use by members of the Northeastern academic community only. Access to such facilities is permitted only in accordance with applicable policies and directives. Certain of Northeastern's campuses maintain additional restrictions and procedures for campus access, which may be reviewed at the University Policies site (<https://policies.northeastern.edu/>) or on the campus's website. In all cases, the essential purposes of the university cannot be interrupted or disturbed by the access permitted to members of the public. The university reserves the right to rescind access privileges to any person who is violating or has violated university policy, protocol, procedure, practice, or applicable laws or regulations, regardless of whether the person is affiliated with the university.

## **COPYRIGHTABLE MATERIALS**

It is the general policy of the university that student papers or projects submitted in partial fulfillment of course requirements remain the property of the student authors.

This policy does not apply to:

1. "Work for hire" as defined by intellectual property laws
2. Work derived wholly or in part from other patented or copyrighted material
3. Work done as part of external grants or contracts in which the contracting documents or regulations define ownership
4. Work in which the university or its agents or employees contribute substantial time or resources
5. Work considered a thesis or dissertation

The university owns the copyright to any work created or developed by one or more students with the significant use of funds, space, facilities, equipment, materials, or other university resources. The university will not normally construe the payment of salary from unrestricted funds or the provision of office and library facilities as constituting significant use of funds, space, facilities, equipment, materials, or other resources of or administered by the university. Use of laboratory and/or computer facilities or assistance from one or more faculty or staff members to a student author specifically pertaining to the work constitutes significant use of university resources. In all cases, the provost or their designee shall make a good faith determination concerning significant use, which shall be final and binding on all parties.

In the case of a thesis generated by research performed in whole or in part by a student in the course of or pursuant to an agreement for sponsored research or other written agreement, including an agreement between the author(s) and the university, or utilizing equipment or facilities provided to the university under conditions that impose copyright restrictions, ownership or control shall be determined in accordance with such agreement or restrictions. In the absence of such agreement or restrictions, copyright ownership in such a thesis shall reside in the student. However, the student, as a condition of a degree award, must grant the university the royalty-free right to reproduce and publicly distribute copies of the thesis for limited and noncommercial purposes.

Where necessary to secure to the university an ownership of copyright, students shall assign such rights of copyright, or grant the specified rights of reproduction and distribution, to the university. The university reserves the right to employ, at its discretion, the materials or portions of any work created or developed in the course of an author's relationship with the university, or otherwise covered by the university Patent and Copyright Policy, for promotional, professional, or noncommercial purposes on a royalty-free basis. Certain courses taught at Northeastern involve students in individual or group assignments or projects involving the creation of materials, objects, or techniques that may be patentable or copyrightable. These courses generally require extraordinary levels of faculty organization and participation and/or substantial university resources.

1. Individual teachers or academic units may require that originals or copies of such papers or projects be retained either temporarily or permanently by the individual teacher or by the unit.
2. A thesis is a student work representing significant original or independent research and for which the student receives a substantial amount of credit toward a degree or certificate. Where there is a question concerning whether or not a student's work is a thesis, the provost or their designee shall make a good faith determination concerning same, which shall be final and binding on all parties.
3. Copies of the university patent and copyright policies are available from the Division of Research Development, 405 Lake Hall, 617.373.4587.

In accordance with university patent and copyright policies, in such courses the university is the owner of all rights in technology, computer programs, or other creative work that may be developed by the undergraduate or graduate student as part of the student's work in those courses. It is the university's intention, where applicable, to disclose and authorize the use of such technology, programs, or work to nonprofit organizations and to government agencies without a fee. The university may also have the opportunity to license such materials to a commercial enterprise, and in this event, it is the university's intention to share any revenue from such a license with student contributors in an amount determined in accordance with the then-existing university policy or plan. Students are informed early in the semester if the course in which they are enrolled falls within this category

and will be asked to sign a letter of agreement. Should the student decline to sign an agreement, they will be assigned to another course section—one in which such agreement is not required—or will be given alternative activities not involving such assignments or projects.

### **COPYRIGHTS AND PATENTS**

Any student who makes, as sole or joint inventor, an invention that involved significant use of university resources, including funds, space, facilities, equipment, or materials, or that is subject to terms of a sponsored research or other agreement between the university and another party, shall assign this invention and all associated applications and patents to the university or its designee unless the invention has been released to the inventor in accordance with the applicable provisions of the university patent policy. Any student, whether before or after terminating their association with the university, shall do whatever is necessary to enable the university or its designee to take out patents in any and all countries on such invention. The cost and expense of making such assignments and procuring such patents shall be borne by the university or its designee. When an invention is made by a student not involving significant use of funds, space, facilities, equipment, materials, or other resources of or administered by the university, the university will waive its rights, and the invention will be the exclusive property of the student, provided the student's rights in the invention are not altered by the terms of any financial aid received, including external sponsorship, scholarships, fellowships, traineeships, thesis expenses, or other assistance, whether or not administered by the university and provided the invention is not subject to third-party rights.

### **DEMONSTRATIONS**

The university supports as fundamental to the democratic process the rights of all members of the university community to express their views and to protest actions or opinions with which there is disagreement. A university is where individuals express diverse ideas and viewpoints in an atmosphere free of any physical force. The university insists that all demonstrations be peaceful and orderly and abide by university regulations.

- Demonstrators must not block corridors or entrances or use loud noise to disrupt a conference, meeting, or assembly.
- Demonstrations may not be conducted in faculty or administrative offices, classrooms, libraries, or study areas.
- Moving picket lines in university corridors are prohibited. (Protests may be registered by individuals or groups standing in a single line against a corridor wall, but corridors must be kept open at all times for the free passage of other members of the community.)

Students, faculty, or other members of the university community who violate these regulations will be subject to disciplinary action; violators also jeopardize their right to remain in the university community.

### **IDENTIFICATION CARDS**

All students must have in their possession at all times the officially approved and properly validated photo identification card. It will be necessary to show this card as a means of identification when using the library and campus recreational facilities, at athletic contests, at student elections, at University Health and Counseling Services, at Student Accounts, at the Office of the University Registrar, to campus police, and elsewhere around the university. An official photo identification card will be issued to new students during their initial orientation and registration periods. Replacements for lost cards can be obtained through Husky Card Services (<https://huskycard.sites.northeastern.edu/>). All members of the community should be prepared and willing to identify themselves and their guests upon request by authorized personnel.

### **JURY DUTY**

Northeastern expects students to fulfill their civic duties; the university cannot interfere in this process. Students who miss classes because of jury duty (<http://catalog.northeastern.edu/graduate/academic-policies-procedures/policies/>) must notify their professors in writing, explaining which classes will be missed on which days. The professors will work with students to make up missed assignments or exams. Upon completion of their jury duty, students must bring a copy of the documentation of their service to the appropriate professors. Students on co-op are expected to inform their supervisors if called to jury duty.

### **MEDIA AND PUBLIC APPEARANCES**

In all personal communications to newspapers or other media, as well as personal public appearances in which students identify themselves as members of the Northeastern community, it should be made clear that the opinions presented are a student's own and not necessarily those of the university. Students who appear on public programs as representatives of Northeastern must be particularly careful to avoid language or presentations that could be considered in bad taste or offensive.

### **SALES AND SOLICITATIONS**

The university's Policy on Non-Solicitation and Sales is available at the University Policies site (<https://policies.northeastern.edu/policy300/>).

### **SMOKING**

All locations, campuses, buildings, and outdoor areas owned and/or operated by the university are smoke free and tobacco free; details of the Policy on Tobacco and Smoke-Free Campus are at the University Policies site (<https://policies.northeastern.edu/policy607/>). The sale of cigarettes and other tobacco products is prohibited on campus. Smoking cessation information and programs are available. For further information, contact University Health and Counseling Services (<https://www.northeastern.edu/uahcs/>).

### **TAPE RECORDERS**

Students may not use tape recorders in the classroom without the instructor's consent. Students with disabilities who need a tape recorder in the classroom may make arrangements through the Disability Resource Center (<https://drc.sites.northeastern.edu/>).

### **TEXTBOOKS**

Students should purchase or have in their possession the assigned textbooks, problem books, manuals, and other supplies that may be necessary in a classroom or laboratory.

## Graduation Requirements

To be eligible to receive degrees, students must meet all academic requirements. They must also clear all financial and disciplinary deficiencies.

In addition, each program of study has specific academic requirements. These are specified for each program under the various schools and colleges in this catalog.

Students are expected to monitor their progress toward degree completion or certificate completion throughout their studies via their online degree audit, accessible via the Student Hub.

All eligible degree candidates must complete the graduation application by the applicable deadline. Before you apply to graduate through the Student Hub, we recommend you take the time to review your current program information, i.e., degree, major, and concentration.

## Minimum Cumulative GPA

Grades submitted to satisfy, in whole or in part, the requirements for any graduate degree or certificate of advanced study must yield a cumulative GPA of 3.000 or higher. This requirement may be supplemented by additional restrictions established by the graduate program or the college's graduate office such as, but not limited to, the maximum number of individual courses with grades below 3.000 that may be obtained without being required to withdraw or a minimum GPA in each semester.

Students falling below 3.000 are placed on academic probation. If the student remains on academic probation for two semesters, they may be terminated from the graduate program.

Not more than two courses or 6 semester hours of credit, whichever is greater, may be repeated to satisfy the requirements for the degree. The last grade earned in each of these repeated courses is counted in the calculation of the cumulative GPA.

More information regarding course grading and academic disputes may be found at Academic Appeals Policies and Procedures (p. 70).

## Overload Conditions for Graduate Assistants

Graduate assistants are expected to devote full-time effort to their studies and the duties of their award.

They are not permitted to hold any other job during the term of their assistantship; however, they may be offered limited extra work on campus. Graduate assistants who are not on F-1 or J-1 visas can be offered overload work that does not exceed an average of 6 hours a week or 90 hours a semester, for a total of 270 hours a year (or three semesters). As part of this work, graduate assistants may be hired to teach one 3-semester-hour course as an overload during the year (180 hours). The hours worked during the weeks between semesters are included in this total.

## Pass/Fail (Satisfactory/Unsatisfactory) Grading

The individual schools and colleges determine whether a course will be graded on a pass/fail basis.

## Regulations and Requirements for All Graduate Degree Programs

A copy of each graduate degree program as approved by the Board of Trustees and as officially amended is on file in the Office of the Provost. This record contains the goals, learning objectives, and all requirements for the program. All descriptions of the program in the university, college, and department publications must conform to this officially approved record.

Standards of admission are specific to certificate and degree programs and are found on each college's or offering unit's website.

### Admission Requirements

Prior to beginning a graduate program at Northeastern University, students must have met one of the following criteria:

1. Received a bachelor's degree or equivalent from an accredited college or university
2. Received a master's degree or equivalent degree from an accredited college or university
3. Received a first professional or equivalent degree from an accredited college or university
4. Been accepted into an approved bachelor's-to-graduate-degree program at Northeastern

### Transfer and Other Advanced Standing Credit

Transfer credits from other institutions (or other programs within the university) will only be accepted at the discretion of the student's destination academic unit and the associated college with the following constraints:

- For graduate certificate programs, a maximum of 3 semester hours or 4 quarter hours of credit earned at another institution may be accepted toward the credential being pursued at Northeastern, provided the credits meet the above-listed standards.
- For master's degree programs, a maximum of 30% of the credits required for the degree that are earned at another institution may be accepted toward the degree being pursued at Northeastern, provided the credits:
  1. Consist of work taken at the graduate level for graduate credit
  2. Carry grades of 3.000 or better
  3. Have been earned at an accredited institution
  4. Have not been used toward any baccalaureate or advanced degree or certificate at another institution

Advanced standing is based on criteria established by the offering school or college and implemented in coordination with the Office of the University Registrar. When applied, advanced standing reduces the total credits required to complete the primary program.

The combination of advanced standing and transfer credit shall not exceed 30% of the credits required for the degree. Credit for prior experiential or non-collegiate-sponsored learning is limited to 25% of the degree credits required for the degree.

Graduate course credits earned at Northeastern by undergraduate students enrolled in a PlusOne program will be applied toward both the undergraduate and graduate degrees as prescribed by the graduate program in which the student is enrolled, not to exceed 16 semester hours or 21 quarter hours. Transfer credit may not be applied to graduate degrees that are completed as part of a PlusOne program. Deviations from this limit shall be considered on a case-by-case basis by the University Graduate Curriculum Committee.

- Students may credit-share specified courses taken while in undergraduate status for both the bachelor's and PhD degrees. A student who departs from the program before receiving PhD candidacy may opt to use those courses toward a master's degree earned. However, such credit sharing cannot be used for more than two credentials, i.e., degrees and certificates. Please see above for limits on credit sharing between credentials.
- For doctoral programs, a maximum of 30% of the total semester hours of required coursework may be granted upon the recommendation of the admitting college's graduate committee.

Transfer credits must have been earned within five academic years of the date of matriculation in the Northeastern program to which they are to be applied.

Grades earned in courses to be applied as transfer credits are not counted as part of the overall grade-point average earned at Northeastern and are posted with a grade of T to the transcript.

### Provisional or Special Students

Students cannot be admitted under provisional conditions, i.e., requiring preparatory or remedial coursework that must be successfully completed for progression in the program. Special students are nondegree students taking courses, not to exceed 12 semester or 16 quarter hours, while not admitted to a specific program.

### Uniform Credit System

One credit hour of academic credit consists of three hours of work per week throughout the term, usually one hour of class contact and two hours of outside work. When students are registered for thesis credits, directed study, or internship, the appropriate number of credit hours will be determined

using the same method. Programs may vary the ratio of class time to preparation time depending on the learning outcomes and accreditation standards appropriate in their field(s).

A quarter hour is evaluated as three-quarters of a semester hour.

When students are registered for thesis credits, directed study, or internship, the appropriate number of credit hours will be determined using the same method.

Additional information on course and credit guidelines can be found here (p. 50).

### **Undergraduate Credit for Graduate Courses**

Undergraduate students who are juniors or seniors may enroll in graduate courses for credit toward their undergraduate degrees if they meet all prerequisites as determined by the graduate director and they receive permission from the instructor of the course and from the student's undergraduate academic advisor.

### **Time Limit for Course Credit**

Course credits earned in the program of graduate study, or accepted by transfer, are valid for a maximum of seven years unless the relevant graduate office grants an extension.

### **Academic Progression**

Grades submitted to satisfy, in whole or in part, the requirements for any graduate degree or certificate of advanced study must yield a cumulative GPA of 3.000 or higher. This requirement may be supplemented by additional restrictions established by the graduate office such as, but not limited to, the maximum number of individual courses with grades below 3.000 that may be obtained without being required to withdraw or a minimum GPA in each semester.

Students falling below 3.000 will be placed on academic probation. If the student remains on academic probation for two terms, they may be terminated from the graduate program. A PhD student will be considered to be on academic probation if their cumulative GPA falls below 3.000 and/or if they are not making acceptable research progress as defined by the college through an academic review process that occurs at least annually.

No more than two nonrepeatable courses may be retaken to satisfy the curricular requirements for the degree. A specific course may not be retaken more than once. The last grade earned in each of the retaken courses will be counted in the calculation of the cumulative GPA. Courses with a specified attribute of "repeatable" can be repeated up to the specified limit, and the earned grade in each occurrence of course completion will count toward the calculation of the cumulative GPA.

Any incomplete grades must be made up within one calendar year from the term in which the student took the class that resulted in the incomplete course grade.

### **Language Requirements**

The committee in charge of the degree program may establish a language requirement.

### **Required Training**

Graduate programs may require relevant training that all of the program's students must complete by deadlines communicated by the university or by the student's graduate program advisor.

## Regulations and Requirements for Graduate Certificate Programs

### Certificates That Appear on the Transcript

#### DEFINITION

A graduate certificate program is a program of study requiring at least three graduate courses and not fewer than 12 semester hours or 16 quarter hours of graduate credit. Successful completion of such a certificate program will be recorded on the student's transcript. Appropriate graduate credits taken as part of a graduate certificate program may be counted toward a graduate degree, at the discretion of the graduate degree program.

#### ADMISSION

All students admitted to a certificate program must satisfy the general requirements for admission as a graduate student and the requirements for the specific certificate program.

#### PROCEDURES FOR THE APPROVAL OF NEW CERTIFICATE PROGRAMS

New certificate programs are developed following the procedure outlined in the Guidelines for New Degree Programs found on the Office of the Provost website. (<https://provost.northeastern.edu/policies/>.html)

All new certificate programs require the approval of the University Graduate Curriculum Committee and notification of the Faculty Senate.

#### PROCEDURES FOR CERTIFICATE PROGRAM REVIEW

Certificate programs will be reviewed in the context of departmental reviews. Information about these reviews can be found on the Office of the Provost website. (<https://provost.northeastern.edu/policies/>)

#### GENERAL REGULATIONS

Except as indicated herein, certificate programs shall be subject to the same regulations and procedures as master's degree programs.

#### TRANSCRIPT NOTATION

Only approved degrees, certificates, and concentrations appear on the transcript.

## Regulations and Requirements for the Master's Degree

### Admissions Requirements

All students admitted to a master's program must satisfy the general requirements for admission as a graduate student and the requirements for the specific master's program. To be eligible for admission, with the exception of PlusOne students, applicants must have a bachelor's degree from an accredited college or university.

### Course Requirements

A candidate for the master's degree must satisfactorily complete an approved program conforming to the requirements of the graduate school and department or program in which the candidate is registered.

The requirements for the master's degree are a minimum of 30 semester hours beyond the bachelor's degree, except in the College of Professional Studies in which 45 quarter hours of graduate work are required. Undergraduate-level coursework will not be accepted to meet the requirements for the master's degree.

### Comprehensive Examination

The committee in charge of the degree program may require a final written or oral comprehensive examination(s) for partial fulfillment of degree requirements.

### Thesis

If a thesis is required in partial fulfillment of degree requirements, it must show independent work based, in part, on original material and must meet the approval of the student's thesis committee. The committee in charge of the degree program is responsible for providing instructions concerning preparation of the thesis.

The student must submit the thesis to ProQuest (or a university-sanctioned successor system) according to the time schedule provided by the relevant graduate office. Information on archiving a thesis is available in the relevant graduate office.

## Regulations and Requirements for PlusOne Degree Combinations

"PlusOne program" refers to any program in which students accelerate the attainment of the postbaccalaureate degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees.

### Credit Sharing

Not more than four graduate courses or 16 semester hours (or 21 quarter hours), whichever is greater, taken while a student is in undergraduate status and participating in an accelerated master's (so-called PlusOne) program at Northeastern University, may be used to satisfy the requirements for both the undergraduate and graduate degrees. Exceptions to this credit-sharing limit (due to significantly higher credit requirements for the graduate degree or other special provisions) must be approved through governance processes.

### Use of Master's-Level Credits Earned While in Undergraduate Status

Unless they have been accepted into and are enrolled in a designated PlusOne program before the undergraduate degree is conferred, students who took graduate classes to fulfill requirements toward an undergraduate degree at Northeastern may not use those credits later toward a master's degree. If the student took graduate classes resulting in credits beyond those used for the undergraduate degree program (were not used in undergraduate degree audit), those credits may be considered for use toward a subsequent degree program. If course credits are used toward both the undergraduate and graduate degrees in a PlusOne, they cannot be used for other credentials (e.g., a certificate).

Graduate course credits earned while a student was in undergraduate status and enrolled in a designated PlusOne program, used to fulfill requirements toward the undergraduate degree, and eligible to be applied toward the designated PlusOne master's degree program must be designated for such use within the subsequent three academic years after the student receives the bachelor's degree in which those credits were earned.

## Regulations and Requirements for Professional Doctorate Degree Programs

### Admissions Requirements

A student enrolled in a professional doctorate degree program must satisfy the general requirements for admission as a graduate student and the requirements for the specific professional doctorate degree program. To be eligible for admission, applicants must have a bachelor's degree from an accredited college or university.

### Academic Classification and Degree Candidacy

- Doctoral student: Students in this classification have been admitted to a doctoral program.
- Doctoral candidate: Each program in which the term candidacy is used shall have a policy defining candidacy. Students in this classification will have completed all departmental, college, and university requirements except for the dissertation (if applicable). These requirements vary by program but minimally include completion of approximately 30 semester hours or 45 quarter hours of acceptable graduate work beyond the bachelor's degree or possession of a previously earned master's degree that is acceptable to the department and certification by the graduate office. The requirements frequently include a comprehensive examination and/or a proposal defense.

### Academic Residency Requirement

In the context of a doctoral degree program, the residency requirement refers to either:

- A minimum number of credits or semesters that must be completed at the degree-granting institution
- A minimum duration during which the degree candidate must be enrolled full-time at the degree-granting institution

In those programs in which the term candidacy is used, after reaching candidacy, students must register for Dissertation for a minimum of two semesters in order to fulfill their formal residency requirement. Continuation status enrollment is for students who are postcandidacy, have completed all coursework and their residency requirement, and are actively engaged in completing a dissertation.

### Responsible Conduct of Research

All doctoral students for whom Responsible Conduct of Research training is required must complete training according to the university's Policy on Responsible Conduct of Research (<https://policies.northeastern.edu/policy500/>).

### Course Requirements

A candidate for the professional doctorate degree must satisfactorily complete an approved program conforming to the requirements of the graduate school and department or program in which the candidate is registered.

The requirements for the professional doctorate degree shall be determined by the program.

Undergraduate-level coursework will not be accepted to meet the requirements for the professional doctorate degree.

### Qualifying Examination(s)

In departments that require qualifying examinations, students must be notified in writing of the nature and regulations governing these examinations and of how their performance on the examinations will affect their normal progress toward the degree. The graduate office shall be made aware of the department regulations concerning such examinations.

### Dissertation Committee

For programs requiring the dissertation, the dissertation committee shall have at least three members, two of whom shall be from Northeastern University. The chair of the dissertation committee will be a faculty of Northeastern and will hold an appropriate terminal degree for the discipline. Exceptions to this policy may be granted by the dean of the relevant college (or their designee) based on the qualifications and experience of the faculty member who would serve as chair.

### Comprehensive Examination

For programs requiring a comprehensive examination, the committee in charge of the degree program may require a final written or oral comprehensive examination(s) for partial fulfillment of degree requirements.

### Thesis or Dissertation in Practice

If a thesis or dissertation in practice is required in partial fulfillment of degree requirements, it must show independent work based, in part, on original material and must meet the approval of the student's thesis committee. The committee in charge of the degree program is responsible for providing instructions concerning preparation of the thesis.

The student must submit the thesis to ProQuest (or a university-sanctioned successor system) according to the time schedule provided by the relevant graduate office. Information on archiving a thesis is available in the graduate office.

**Time Limitation for Achieving Candidacy and Degree Completion**

For programs in which the term candidacy is used, degree candidacy must be achieved within three years of entering the doctoral program. For all programs, the degree must be completed within seven years after entering the program. A student may request an extension of these time frames from the graduate office.

**Pursuit of an Academic Credential Outside Student's Major**

A student enrolled in a doctoral program may seek to pursue academic credentials (e.g., master's degree or certificate) outside of their major only if, prior to completing more than one-third of the required credits for that credential, they obtain the approval of their primary advisor, obtain the approval of the graduate office, and apply to and are accepted into the major offering that credential.

## Regulations and Requirements for the Certificate of Advanced Graduate Study

The Certificate of Advanced Graduate Study provides specialized study above the master's degree. It is a course of study that falls between the master's and doctoral degree and culminates in a graduate certificate.

### **Admissions Requirements**

An applicant for the CAGS must hold a master's degree in a related field from an accredited institution and must complete the admission procedure described in the material of the graduate schools. All students admitted to a CAGS program must satisfy the general requirements for admission as a graduate student and the requirements for the specific CAGS program.

### **Course Requirements**

A candidate for the CAGS must satisfactorily complete an approved program conforming to the requirements of the graduate school and department or program in which the candidate is registered. The candidate must complete a minimum of 24 semester hours or, in the case of the College of Professional Studies, 32 quarter hours of credit beyond the master's degree.

## Regulations and Requirements for Doctor of Philosophy (PhD) Programs

The formal requirements for the PhD degree are the following: completion of the coursework mandated by the individual degree program, fulfillment of the residency requirement, formal training in the Responsible Conduct of Research for students as appropriate, qualifying and/or comprehensive examination(s) or equivalent as required by the degree program, continuous registration, a final oral examination conducted by the student's PhD committee, and submission of a dissertation to the relevant graduate office and to ProQuest (or a university-sanctioned successor system) for archiving. The dissertation must be based on original and independent research.

---

### Admissions Requirements

All students admitted to a doctor of philosophy program must satisfy the general requirements for admission as a graduate student and the requirements for the specific PhD program.

### Academic Classification and Degree Candidacy

1. Doctoral student: Students in this classification have been admitted to a doctoral program.
2. Doctoral candidate: Every degree program shall have a policy defining candidacy. Students in this classification will have completed all departmental, college, and university requirements except for the dissertation. These requirements vary by program but minimally include completion of approximately 30 semester hours of acceptable graduate work beyond the bachelor's degree or possession of a previously earned master's degree that is acceptable to the admissions committee and certification by the graduate office. The requirements frequently include a comprehensive examination and/or a proposal defense.

### Academic Residency Requirement

In the context of a doctoral degree program, the residency requirement refers to either:

1. A minimum number of credits or semesters that must be completed through the degree-granting institution
2. A minimum duration during which the degree candidate must be enrolled full-time at the degree-granting institution

After reaching candidacy, students must register for Dissertation for a minimum of two consecutive semesters in order to fulfill their formal residency requirement. Continuation status enrollment is for students who are postcandidacy, have completed all coursework and their residency requirement, and are actively engaged in completing a dissertation.

### Responsible Conduct of Research

All doctoral students for whom Responsible Conduct of Research training is required must complete training according to the university's Policy on ([https://www.northeastern.edu/policies/Policy\\_on\\_Responsible\\_Conduct\\_of\\_Research.pdf](https://www.northeastern.edu/policies/Policy_on_Responsible_Conduct_of_Research.pdf)) Responsible Conduct of Research. ([https://www.northeastern.edu/policies/Policy\\_on\\_Responsible\\_Conduct\\_of\\_Research.pdf](https://www.northeastern.edu/policies/Policy_on_Responsible_Conduct_of_Research.pdf))

### Course Requirements

The program committee in charge of the degree program specifies the doctoral course requirements.

### Requirements for Candidacy

In programs that require qualifying examinations, students must be notified in writing of the nature and regulations governing these examinations and of how their performance on the examinations will affect their normal progress toward the degree. The graduate office shall be made aware of the program regulations concerning such examinations.

### Annual Review of Student Progress

Units shall define milestones for achieving satisfactory academic progress and shall establish a published process by which the academic progress of every PhD student will be evaluated through an annual review. A copy of each review shall be submitted to the student and the graduate office. If the annual academic review reports that a student is not making sufficient academic progress due to research performance, the PhD student will be placed on academic probation. After two consecutive semesters on academic probation, the student may be dismissed.

### PhD Dissertation Committee

The dissertation committee shall have at least three faculty members, two of whom shall be from Northeastern University. The chair of the dissertation committee (who is presumed to be the thesis advisor) will be a full-time tenured or tenure-track member of the faculty of Northeastern and will hold a PhD (or other research doctorate) or an appropriate terminal degree for the discipline. Colleges, the provost, or provost-designee may permit full-time faculty from other ranks: 1) on a case-by-case basis to serve in this role based on the research qualifications and experience of individual faculty members or 2) based on equivalent faculty definitions at locations operating under different faculty rank systems.

The PhD committee should be appointed early enough to advise in the formulation of the student's program and in refining the research topic for the dissertation. Within the constraints of the above criteria, the PhD program faculty will determine the process by which dissertation committees are established. The final list of dissertation committee members shall be reported to the college's associate dean for graduate education or administrative unit managing the degree program.

If a student's major advisor leaves Northeastern (including transition to emeritus status), that person may continue the research direction of the dissertation or thesis. However, a co-advisor must be appointed from the academic department or program. The student will then have two advisors, one an official member of the Northeastern faculty who will be available for research and administrative matters and the ex-Northeastern advisor. If a new major advisor is appointed, the former Northeastern faculty member may serve as an outside member of the committee.

### **Comprehensive Examination(s) and/or Proposal Defenses**

Degree programs may require a comprehensive examination(s) and/or an oral defense of the dissertation proposal as the final step before becoming a PhD candidate. The purpose of the comprehensive examination(s) is to test the knowledge and skills of the student in a particular area and their knowledge of recent research developments in the field. The administrative home unit for each PhD program shall establish the process by which comprehensive examination committees are established. Units may require an oral defense of the dissertation proposal in lieu of, or in addition to, a comprehensive examination.

### **Dissertation**

Candidates for the degree of Doctor of Philosophy must complete a dissertation that embodies the results of extended research and makes an original contribution to the field.

### **Oral Defense of the Dissertation**

An oral defense of the dissertation is required and must be held at least 14 calendar days before the degree conferral date. The defense shall be public and conducted with the committee members present either in person or via electronic means. After the public session, a private session may be held to examine material that is subject to a confidentiality agreement. Following the presentation, the candidate will field questions from the committee in public or private. In the case where neither the candidate nor the committee members are present in person on campus (i.e., the candidate and all committee members are connected only remotely via electronic means), there shall be a location established and technology enabled for public, in-person attendance of the defense by the university community and this accommodation made known to the university.

### **Submission of the Dissertation**

The student must submit the dissertation to ProQuest (or a university-sanctioned successor system) according to the time schedule provided by the relevant graduate office.

### **Time Limitation for Achieving Candidacy and Degree Completion**

Degree candidacy must be achieved within three years of entering the PhD program, and the PhD degree must be completed within seven years after entering the PhD program. A student may request an extension of these time frames from the graduate office.

### **Pursuit of an Academic Credential Outside Student's Major**

A student enrolled in a PhD program may seek to pursue academic credentials (e.g., master's degree or certificate) outside of their major only if, prior to completing more than one-third of the required credits for that credential, they obtain the approval of their primary advisor, obtain the approval of the graduate office, and apply to and are accepted into the major offering that credential.

## Regulations and Requirements for Interdisciplinary Graduate Degrees

Northeastern University offers both university- and college-approved interdisciplinary graduate programs for the student who wishes to pursue graduate studies in an area that substantially overlaps two or more units. The program will correspond in scope and depth to Northeastern's established degree standards but need not agree exactly with the regulations of individual units.

The general regulations and requirements for graduate programs apply to all interdisciplinary programs. Additional requirements are as follows.

Interdisciplinary degrees approved by the Board of Trustees and with curriculum listed in the Graduate Catalog will be administered by a unit designated by the provost. The unit may be within the Office of the Provost or within a college. Faculty oversight of these programs will be through a designated program committee or oversight group. For programs in colleges, the processes followed shall be determined by that unit. For degree programs administered through the Office of the Provost, a faculty group appointed by the provost will provide the faculty oversight.

## Definitions

- "College" refers to the College of Arts, Media and Design; the Bouvé College of Health Sciences; the D'Amore-McKim School of Business; the Khoury College of Computer Sciences; the College of Engineering; the College of Professional Studies; the College of Science; the College of Social Sciences and Humanities; the School of Law; and Mills College at Northeastern.
- "Graduate office" refers to either the designated graduate administration office in the a college (as defined above) or an equivalent academic and academic support office that exists outside a college that serves the functions of a college-based graduate office.
- "Graduate program" refers to all postbaccalaureate degree, nondegree, and certificate programs and packages of courses offered for graduate credit. Graduate programs shall not include programs or courses that are offered by the School of Law in support of the JD or LLM degree.

## PhD Programs

### Overview

Northeastern University offers the following PhD programs. The Experiential PhD (p. 107) page has additional information on doctoral programs that connect Northeastern to industry, government, and nonprofit partners.

### B

- Bioengineering, PhD (p. 349)
- Biology, PhD (p. 940)
- Biomedical Science, PhD (p. 694)

### C

- Chemical Engineering, PhD (p. 366)
- Chemistry, PhD (p. 953)
- Civil and Environmental Engineering, PhD (p. 382)
- Computer Engineering, PhD (p. 411)
- Computer Science, PhD (p. 267)
- Counseling Psychology, PhD (p. 634)
- Criminology and Justice Policy, PhD (p. 1052)
- Cybersecurity, PhD (p. 302)

### E

- Economics, PhD (p. 1060)
- Electrical Engineering, PhD (p. 419)
- English, PhD (p. 1067)

### H

- History, PhD (p. 1075)
- Human Behavior and Sustainability Sciences, PhD (p. 980)
- Human Movement and Rehabilitation Sciences, PhD (p. 620)

### I

- Industrial Engineering, PhD (p. 475)
- Interdisciplinary, PhD (p. 104)
- Interdisciplinary Design and Media, PhD (p. 147)
- Interdisciplinary Engineering, PhD (p. 357)

### M

- Marine and Environmental Sciences, PhD (p. 975)
- Mathematics, PhD (p. 991)
- Mechanical Engineering, PhD (p. 478)
- Medicinal Chemistry and Drug Discovery, PhD (p. 701)

### N

- Network Science, PhD (p. 273)
- Nursing, PhD (p. 669)

### P

- Personal Health Informatics, PhD (p. 314)
- Pharmaceuticals and Drug Delivery, PhD (p. 707)
- Pharmacology, PhD (p. 713)
- Physics, PhD (p. 1005)
- Political Science, PhD (p. 1082)
- Population Health, PhD (p. 646)
- Psychology, PhD (p. 1024)
- Public Policy, PhD (p. 1093)

**S**

- School Psychology, PhD (p. 636)
- Sociology, PhD (p. 1126)

**PhD Network**

The Northeastern University PhD Network is designed to build distinctive Experiential PhD (p. 107) opportunities and community among PhD students, providing students with support and resources universitywide to enhance their educational experience and career exploration.

At Northeastern, every PhD student has opportunities to acquire experience beyond traditional dissertation research. Exposure to and integration with our many industry and academic partners—through internships, fieldwork, and other collaborations—and in authentic settings—from laboratories, startup companies, and nonprofit institutions—lead to research with greater impact and broader career opportunities, both within and beyond academia. The PhD Network works with internal and external partners to grow and facilitate opportunities for PhD students.

Shared values unite PhD-centered activities at Northeastern:

- **Excellence with purpose:** All PhD programs combine academic rigor with societal impact, preparing critical thinkers to tackle the world's most challenging problems.
- **Innovative thinking:** Our education programs, mentoring activities, and research scholarship develop novel content and pathfinding approaches.
- **Crossing boundaries:** PhD students transcend disciplinary and international boundaries during their innovative educational journey.
- **Integrative education:** The integration of scholarship and research training with collaborative fieldwork and professional development provides a uniquely experiential education.
- **Inclusive diversity:** Students and faculty from diverse cultures and backgrounds drive excellence by bringing a wide range of perspectives to our distinctive programs.

Explore the PhD Network website (<https://phd.northeastern.edu/network/resources/>) to learn more about:

- Resources that support PhD students' educational, professional, and personal lives
- Events created especially for PhD students, both at Northeastern and through our partners
- Funding in support of fellowships, internships, and conference attendance

**Interdisciplinary PhD - Overview**

Offering an individually tailored program of study, the Northeastern University Interdisciplinary Doctor of Philosophy program enables students to draw from the disciplines supporting their fields of research and provides flexibility to train the next generation of transdisciplinary and multidisciplinary researchers who will be needed to tackle society's most pressing problems that cross disciplinary boundaries.

The graduate group, consisting of faculty from across Northeastern, provides the overarching faculty oversight to the curriculum that is expected to cross multiple Northeastern colleges. The Interdisciplinary PhD option will only be available when the desired research curriculum cannot be supported by one of Northeastern's existing PhD programs. This PhD program is administered by the Office of the Provost.

Minimum academic standards, oversight, requirements, and milestones related to this new PhD are described below.

**GRADUATE GROUP**

This refers to the faculty committee that will provide academic oversight for the PhD program as a whole.

**DISSERTATION COMMITTEE**

Established by the graduate group for each PhD student, the dissertation committee consists of at least three faculty qualified to supervise the student's research and establishes the curriculum requirements in support of the PhD student's anticipated dissertation research. There should be at least one dissertation committee member representing each discipline associated with the proposed PhD, and it is strongly encouraged that an external individual is added as a fourth member of the dissertation committee. This external member must be qualified to supervise and guide PhD-level research. The dissertation committee also establishes the milestone requirements, specifically the format for the qualifying exam at the time of admission. One member of the dissertation committee will serve as the committee chair. Cochairs are permitted and encouraged to guide research at the intersection of disciplines.

**AREA OF SPECIALIZATION**

Students select an area of specialization, supported by their approved coursework and research areas and denoted on the student's transcript. The area of specialization will be recommended by the dissertation committee. The graduate group will review these areas of specialization within the context of existing PhD specializations. The graduate group will make the final decision about the area of specialization for each student. Area of specialization should be established by the end of the first year of academic study.

**ADMISSION TO CANDIDACY**

The admission to candidacy recognizes the wide range of disciplines that may participate in in this degree. To reach candidacy, PhD students must demonstrate their research ability through the application and synthesis of skills and knowledge and their ability to pose questions and solve problems. Students should achieve candidacy by the end of the second year of study. The admission to candidacy will include an assessment about the candidate's ability to perform societally impactful research by an external evaluator. Students who require more than

18 months to meet the requirements for candidacy will need to petition the dissertation committee and the graduate group to request extended time. Candidacy will be achieved with the following:

- The qualifying examination subject areas will be established at the time of admission, which will be aligned with the student’s proposed research project. A representative from the graduate group will convene the dissertation committee for the qualifying exams. To assess the student’s ability to perform impactful research, it is strongly recommended that an evaluator outside Northeastern (and not a member of the dissertation committee) be included as an examiner. The qualifying examination will normally include a written exam, oral exam, response to a journal paper, and/or other format deemed acceptable by the dissertation committee for the involved disciplinary areas.
- Progression to candidacy may also require a research paper requirement. Any paper requirements will be communicated at admission.
- The committee may require a presentation from the student before making its recommendation.

**DISSERTATION PROSPECTUS/PROPOSAL**

After the student has achieved sufficient depth in a field of study, the student prepares a proposal for a PhD dissertation. This process should take place within a year of achieving candidacy. The dissertation proposal describes the proposed research, including the relevant background materials from literature. The proposal should clearly specify the research questions to be addressed, the methods to be used, and a schedule of milestones to completion. A representative from the graduate group will convene the dissertation committee for the dissertation proposal. The dissertation proposal must be approved by the dissertation committee. It is strongly encouraged that the dissertation committee include an individual qualified to guide the research from outside Northeastern. Upon approval of the written proposal, the student must present the proposed work orally in a public forum, followed by a closed-door oral examination from the dissertation committee. The dissertation committee will submit the dissertation proposal results to the representative from the graduate group who will review and communicate the results to the student. The student may take the dissertation proposal examination twice, at most.

**DISSERTATION DEFENSE**

The dissertation defense is held in accordance with the bylaws of the University Graduate Curriculum Committee of the Northeastern Faculty Senate. The defense is convened by a representative from the graduate group and is chaired by a Northeastern faculty member approved by the graduate group and outside the dissertation committee. The dissertation committee will include an external examiner who is an individual with expertise in the area of study but not affiliated with the Northeastern global campus system or previously involved with the student’s research. The defense chair will communicate the results to the PhD candidate.

**Interdisciplinary PhD - Bachelor's Degree Entry

**Core Requirements**

Code	Title	Hours
	Complete 30 semester hours of coursework in consultation with your dissertation committee.	30

The dissertation committee will provide oversight in coursework selection, provided that each student has training (via courses or experience) in prerequisite domain knowledge, research methods, and specific contexts. Students are required to enroll in a minimum of 30 semester hours of coursework approved by the dissertation committee. This coursework may include traditional courses, special topics courses, independent study, and discussant or other coursework taken via partner institution. The coursework should also include opportunities to develop the professional skills (such as communication, teaching, and leadership) required for the student’s field of research. Courses delivered at a partner outside Northeastern University may satisfy these course requirements provided an education or experiential PhD agreement exists with that organization. The dissertation committee will ensure that the 30 semester hours represent a balance of coursework across domain knowledge, research methods, application contexts, research integrity, colloquia, the research itself, and professional development. The dissertation committee should submit a plan of study to the graduate group during the first semester of a PhD student’s enrollment.

**Program Credit / GPA Requirements**

### Core Requirements

Code	Title	Hours
	Complete 12 semester hours of coursework in consultation with your dissertation committee.	12

The dissertation committee will provide oversight in coursework selection, provided that each student has training (via courses or experience) in prerequisite domain knowledge, research methods, and specific contexts. Students are required to enroll in a minimum of 12 semester hours of coursework approved by the dissertation committee. This coursework may include traditional courses, special topics courses, independent study, and discussant or other coursework taken via partner institution. The coursework should also include opportunities to develop the professional skills (such as communication, teaching, and leadership) required for the student's field of research. Courses delivered at a partner outside Northeastern University may satisfy these course requirements provided an education or experiential PhD agreement exists with that organization. The dissertation committee will ensure that the 12 semester hours represent a balance of coursework across domain knowledge, research methods, application contexts, research integrity, colloquia, the research itself, and professional development. The dissertation committee should submit a plan of study to the graduate group during the first semester of a PhD student's enrollment.

 Minimum 3.000 GPA required

## Experiential PhD

### Overview

The future of research will be collaborative. Researchers across academic institutions, industry, government, and other organizations will team up to solve complex real-world problems. Researchers will require technical proficiency as well as the ability to work with others, form teams, manage projects, and more—skills that go beyond the classroom. At Northeastern University, every PhD student and postdoctoral research associate has opportunities to acquire experiences beyond traditional research. Exposure to and integration with our many partners through unique programs in authentic settings from laboratories to startup companies to nonprofit institutions leads to greater impact and broader career opportunities, both within and beyond academia.

Northeastern's Experiential PhD programs offer such opportunities for current Northeastern PhD students and postdoctoral research associates and for full-time master's-level employees at companies, laboratories, and organizations who want to pursue a doctoral degree at Northeastern. The former occurs through the LEADERS program (p. 107), while the latter occurs through the Industry PhD program (p. 108). Traditional internships and sponsored research agreements are available to Northeastern students.

The LEADERS program is designed to enable researchers to develop professional skills through authentic career exploration opportunities at organizations in industry, government, and the nonprofit sector. Beyond the comfort zone of their own university research group, PhD students and postdoctoral research associates encounter new experiences that help shape their research perspective. They also bring fresh ideas and talent to their host organizations. Northeastern is one of the only universities in the world to offer students in all of its research-based doctoral-degree programs the option to learn and pursue research outside of their primary research group. These real-world placements are highly flexible and customizable, tailored to meet the needs of both Northeastern's PhD students and postdoctoral research associates and our institutional partners.

The Industry PhD is a first-of-its kind research-based doctoral program for full-time master's-level employees. Designed with input from external partners, employees pursue a research-based doctoral degree while maintaining their job and conducting research at the employer site. This enables employees to acquire new skills that will help them to advance in their careers and provides the organization with an opportunity to invest in their future leaders. By working closely with Northeastern faculty, employees will explore their research from a broader scientific perspective, enabling them to appreciate the research foundation of their day-to-day work and to pursue new areas of research for the company.

Experiential PhD programs offer robust benefits to both students and institutional partners. Students solve complex problems as part of their education and chart careers as future innovators. Our institutional partners receive many benefits as well, including:

- A deeper engagement in rapidly evolving fields of research
- Access to university facilities and senior faculty expertise
- Opportunities for senior leadership to mentor and copublish with students and to serve on their dissertation committees
- A chance to recruit emerging talent
- Opportunities to partner with Northeastern, an entrepreneurial research university known for its innovative collaborations with academia, government, and industry

### Experiential PhD Leadership, Graduate Certificate

At Northeastern University, PhD students enjoy a uniquely broad range of immersive opportunities to expand critical inquiry, learn, perform original research, and chart a path to professional success. Experiential PhD opportunities enable PhD students to step outside the comfort zone of their campus research group where students can pursue challenging, creative, customized assignments within industry, government, or the nonprofit sector that inform and enhance their pursuit of a research doctorate.

This Graduate Certificate in Experiential PhD Leadership aims to:

- **Challenge students to address complex problems** through experience within the context of real-world needs and challenges faced by industry, government, or nonprofit-sector organizations, broadening students' view of stakeholders and impact, shaping the very questions they raise and answer.
- **Equip students for a lifetime with the cultural agility, creativity, and professional skills**—public speaking and communications, meeting goals and expectations (e.g., project management for personal and professional purposes), teamwork, leadership, peer influence, leading from the middle—that they will need to translate their findings into impactful solutions.
- **Enrich every student's research group and, ultimately, fields of expertise** by fostering a collaborative, entrepreneurial, innovative approach to knowledge creation that expands their network far beyond academia to include intellectual and professional mentors and collaborators.

This graduate certificate designed for PhD students across all of Northeastern's research-based PhD programs provides students embarking on an experiential PhD with the preparation, project delivery, and guidance for contextual integration within the context of leadership development. All students pursuing this leadership certificate will be mentored by their sponsor supervisor and dissertation advisor(s).

Complete all courses and requirements listed below unless otherwise indicated.

A grade of B or higher is required in each course.

## Industry PhD

The Industry PhD is a first-of-its kind research-based doctoral program designed with input from external partners to provide a pathway for full-time master's-level employees. Designed with input from external partners, employees pursue a research-based doctoral degree while maintaining their job and conducting research at the employer site. This enables employees to acquire new skills that will help them to advance in their careers and provides the organization with an opportunity to invest in their future leaders. By working closely with Northeastern University faculty, employees will explore their research from a broader scientific perspective, enabling them to appreciate the research foundation of their day-to-day work and to pursue new areas of research for the company.

Experiential PhD programs offer robust benefits to both students and institutional partners. Students solve complex problems as part of their education and chart careers as future innovators. Our institutional partners receive many benefits as well, including:

- A deeper engagement in rapidly evolving fields of research
- Access to university facilities and senior faculty expertise
- Opportunities for senior leadership to mentor and copublish with students and to serve on their dissertation committees
- A chance to recruit emerging talent
- Opportunities to partner with Northeastern, an entrepreneurial research university known for its innovative collaborations with academia, government, and industry

The Industry PhD is applicable to any of our 35 doctoral programs. Applicants should follow the requirements of the program to which they are applying. In addition, the following Industry PhD terms (<https://phd.northeastern.edu/industry-and-experiential-phd-program/>) apply.

The College of Arts, Media and Design offers graduate programs that build on existing knowledge and establish innovative areas of inquiry and practice. We work with students to frame, research, and answer transformative questions. Together, we challenge, engage, and shape global cultures and marketplaces.

### Our Mission

We create a distinctive experiential education by leveraging emergent practices and scholarship in the arts, media, and design. Our unique combination of disciplines empowers innovative thinking and making. Our students become informed citizens and creative leaders with an entrepreneurial spirit.

### Graduate Studies in the College of Arts, Media and Design

Welcome to graduate studies at CAMD. We deliver an outstanding graduate education in traditional areas while exploring new approaches to this generation's transformative questions. Our graduate programs highlight intersectional approaches that bring together human, technological, and data literacies to push the boundaries of our disciplines.

We offer diverse program types to meet individual career and academic goals, including terminal degrees (Doctor of Philosophy, Master of Fine Arts, Master of Architecture); professional degrees (Master of Science, Master of Arts, Master of Design); PlusOne pathways; and Graduate Certificates. Our graduate degree programs are inherently interdisciplinary, led by research faculty across the departments of Art + Design, Architecture, Journalism, Music, and Theatre. Coursework incorporates a range of scholarly, applied, and experiential perspectives, complemented by lively community activities including lecture series, exhibitions, symposia, and more.

This is an exciting time to pursue advanced education and scholarship in creative fields. Never have the arts and culture been so clearly essential to our social, economic, and environmental future: From cultural outreach in underserved communities to designing ethical virtual environments for health and security; from green building innovation to cutting-edge journalism; from provocative performances and thought-provoking installations to incisive data visualizations that change how we view the world—our faculty and students are involved in a wealth of academic endeavors, creative enterprises, and professional experience.

Please use these resources to familiarize yourself with the diverse ranges of programs we offer. Don't hesitate to reach out to the graduate program faculty listed in your fields of interest, and be sure to visit CAMD's graduate programs website (<https://camd.northeastern.edu/graduate-students/>) often, where you'll find current news and links.

## Academic Policies and Procedures

- General Information (p. 111)
- Master's Degree Policies (p. 112)
- Graduate Student Classification (p. 113)

## General Information

Four units in the College of Arts, Media and Design offer programs at the graduate level:

- Architecture (p. 114)
- Art + Design (p. 125)
- Interdisciplinary (p. 146)
- Journalism (p. 141)

## Master's Degree Policies

The College of Arts, Media and Design graduate studies sets minimum standards for all students to fulfill. In addition, departments and programs may have requirements that exceed the standards outlined below. Finally, the CAMD Graduate Programs General Regulations booklet (found at the college's webpage (<https://camd.northeastern.edu/graduate-resources-policies/>)) further summarizes the expectations for student conduct, academic life, and the responsibilities of the students and the college to one another.

A candidate for the master's degree must complete a minimum of 30 semester hours of graduate-level coursework and such other study as may be required by the department in which the student is registered. To qualify for the degree, a minimum cumulative grade-point average of 3.000, equivalent to a grade of B, must be obtained. This average will be calculated each semester. A student who does not make satisfactory progress toward degree requirements, as specified by the individual department, may be terminated from the program.

To maintain current student status within CAMD, graduate students must make satisfactory progress in their degree, including working toward the graduation requirement of a GPA of 3.000 and the timely completion of coursework. See the university's policy on academic standing ("Minimum Cumulative GPA (p. 88)").

All students must be registered in the last semester of their program. Any student who does not attend Northeastern University for a period of one year will be required to apply for readmission.

### Electives

No more than 8 semester hours of electives may be taken outside of CAMD. Any additional non-CAMD elective hours will not count toward the degree.

### Graduate Student Scholarship

Students who are registered in degree programs are eligible for a CAMD Graduate Student Scholarship. Award recipients will receive an official award letter from CAMD graduate studies. Pay attention to this letter as it is an official contract that should be read carefully. The GSS is contingent on satisfactory academic progress toward the degree and meeting department-specific guidelines. Recipients must be in full-time status and be registered for a minimum of 8 semester hours. Note, however, that recipients remain eligible for the GSS in their final semester even if they are enrolled in less than 8 semester hours. Receipt of financial support administered by CAMD graduate studies requires that all students receiving awards must maintain a 3.000 cumulative GPA. Students whose cumulative GPA is below 3.000 will be placed on academic probationary status and are not eligible to receive the award while on probation. The GSS can be reactivated by raising the cumulative GPA to 3.000 in the subsequent semester; students who do not meet the minimum GPA requirement at the end of the next semester cannot receive additional probationary periods.

### Leave of Absence

Full-time students who are not involved in any academic endeavor for a period of time are required to petition the manager of student services, through their department, for a leave of absence (<http://catalog.northeastern.edu/graduate/academic-policies-procedures/policies/>) by completing the leave of absence petition through the Student Hub (<https://me.northeastern.edu>). CAMD graduate studies will not accept retroactive leave requests. Note that if a student is requesting a leave for medical reasons, students should contact University Health and Counseling Services (<http://www.northeastern.edu/uhrs/forms/>) at 617.373.2772. Leaves of absence generally are not approved for more than one calendar year at a time. International students must consult with an advisor at the Office of Global Services (<https://international.northeastern.edu/ogs/>) for proper guidance. Leaves of absence are not appropriate for master's degree students who are working on a thesis but are away from the Northeastern campus. Except in the case of medical leaves, being on an approved leave of absence does not extend the amount of time allowed for degree completion or the makeup of incomplete grades.

### Time Limitation

For the master's degree, course credits earned in the program of graduate study are valid for a maximum of seven years.

If students wish to apply for an extension of the time limit, they must submit a petition to their department of study. The petition must include a detailed plan for completion of all remaining degree requirements. In the case of time-limit extension requests for master's degree coursework, the department must certify that the content of each of the courses has not changed since the time the student completed the course. If deemed appropriate, the department will recommend approval of the extension to CAMD graduate studies.

### Changes in Requirements

The continuing development of CAMD graduate studies forces regular revision of curricula. When no hardship is imposed on the student because of changes and the facilities (e.g., equipment, technology, studios, etc.) of the college permits, the student is encouraged to meet the more recent program requirements. This requires application to change the catalog term of the student's program of study. To accomplish this, the student's advisor can assist the student with the process of applying to change catalog term. However, if it can be demonstrated that doing so imposes a substantial hardship, the requirements of the year in which the student matriculated will be applicable.

### Thesis

Theses are required in some programs and should demonstrate the individual's capacity to execute independent work based on original material. Registration for the thesis course is required. Theses must be approved by the departmental graduate committee and must receive a grade of B (3.000) or better to be accepted. Students who have not completed their thesis after having registered for the specified number of thesis credits must register and pay for Thesis Continuation.

## Graduate Student Classification

### Regular Student

Those students who are admitted to a degree program.

### Conditional Student

Students whose admissions files are missing documentation. A student who has not provided required documentation for admission by the due date for final grades for the student's first academic term will not be permitted to register for a future term.

### Special Student

Special students are enrolled on a part-time basis (no more than 6 semester hours per semester). Credit can be earned for a maximum of 12 semester hours over time. Students interested in taking more than 12 semester hours must make a formal application to the degree program through Northeastern University's online application portal ([https://app.applyyourself.com/AYApplicantLogin/fl\\_ApplicantConnectLogin.asp?id=neu-grad](https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=neu-grad)).

Special students who do not register for four consecutive semesters (excluding summer semester) will be subject to review and possible withdrawal by CAMD graduate studies.

### Student Status

For academic purposes, a graduate student is considered a full-time student if enrolled in a minimum of 8 semester hours of credit for the semester, with the following exceptions:

- A student is considered full time if enrolled in a full-time co-op (p. 76).
- Students enrolled in Dissertation or Continuation are considered full time.

*Note:* Full-time status may be defined differently for federal loan purposes. For information, contact Student Financial Services (<https://studentfinance.northeastern.edu/>), 617.373.5899.

## School of Architecture

Website (<https://camd.northeastern.edu/architecture/>)

### Daniel Adams, MArch

Associate Professor and Director of the School of Architecture

617.373.4637

da.adams@northeastern.edu

### Master of Architecture

Northeastern University offers a Master of Architecture degree accredited by the National Architectural Accrediting Board (<http://www.naab.org>).

The program leverages the school's outstanding faculty and pragmatically grounded curriculum. The physical and cultural context of Boston serves as a laboratory for the program's design studios and is design focused but with a different approach than many schools. We find opportunities for innovation within the real estate and construction industries and current policy debates—rather than outside them. This is how we intend to move architects to the center of the discussion about the future of our cities.

Students take courses in urban housing, practice-integrated design, and do original research on market-driven building types. The final degree project in the design studio offers an opportunity to leverage this research with real innovations in hybrid types, strategic alterations to existing ones, and to take on the challenge of finding prototypical solutions for systemic problems.

In addition to studio courses, graduate students take seminars in architectural theory and design strategy; and electives are available in real estate development, sustainable building techniques, urban landscape, and other topics. There is also a unique course that looks at case studies of architecture firms in practice, problem solving, and innovation. We seek to have students leave our program with a unique balance of technical, theoretical, and strategic tools to make a real difference in the profession.

### Master of Design for Sustainable Urban Environments

The Master of Design for Sustainable Urban Environments (MDes-SUEN) brings together the allied professional fields of environmental design, landscape architecture, and urban planning to offer advanced study and research opportunities in the design of ecologically and economically productive urban environments. The program seeks to supply graduates for the rapidly growing field of sustainable urbanism through a dynamic curricular mix of design, dialogue, and technical courses, enriched by diverse interdisciplinary electives.

The pedagogic and research focus of the MDes is the design, implementation, and management of sustainable urban environments from the scale of individual parcels to regional systems. Key topics include brownfield and waterfront revitalization, sustainable and secure pedestrian environments, urban habitat design and management, and green and blue infrastructure design and planning with an emphasis handling increased storm water and tidal influx in the urban landscape.

The MDes is a unique program of study in which urban landscape design, planning, and policy dovetail with environmental engineering, environmental science, art, and visualization. Boston's history of innovation in environmental design as well as its legacy of urban redevelopment provide a rich backdrop and laboratory of urban, infrastructural, and ecological prototypes that ideally position the program to creatively and critically explore local issues with global implications.

Contemporary urban theory includes a significant body of writing in the area of "Landscape-" and "Ecological-Urbanism," a critical discourse that looks at the full range of environmental strategies for urban sites with an emphasis on ecological thinking. The paradigm of sustainable environmental design is moving away from form-based planning toward dynamic ecosystem services. This program seeks to prepare students to be innovative and entrepreneurial designers able to combine economic, environmental, and social priorities to make next-generation public spaces and systems.

## Programs

### Master of Architecture (MArch)

- One-Year Program (p. 115)
- Two-Year Program (p. 116)
- Three-Year Program (p. 118)
- Three-Year Program—Advanced Degree Entrance (p. 120)

### Master of Design for Sustainable Urban Environments (MDes-SUEN)

- One-Year Program (p. 122)
- Two-Year Program (p. 123)

**Master of Architecture—One-Year Program**

This program gives eligible candidates the opportunity to get a NAAB-accredited (<http://www.naab.org>) Master of Architecture degree in one year.

Open to candidates with either a Bachelor of Science in Architecture from Northeastern University or a professional Bachelor of Architecture degree from an accredited North American program with at least one year of IDP-approved professional experience.

Students engage in a two-semester research and design project based on pertinent contemporary topics chosen by the graduate faculty, or students may propose an independent research and design project. Team research is conducted and compiled into online and physical research books. This body of compiled research then becomes the basis of the intellectual framework for the individual students' design projects. This final degree project parallels an in-depth two-semester professional practice sequence that analyzes all of the contingencies of successful architectural projects, including architectural offices and their project management strategies, real estate development criteria, and associated project finance.

**Program Requirements**

Complete all courses and requirements listed below unless otherwise indicated.

**Core Requirements**

## Master of Architecture—Two-Year Program

This program offers students who have earned a Bachelor of Science in Architecture from an institution other than Northeastern to engage in the urban-focused curriculum that is offered at the School of Architecture. Students are awarded a M.Arch degree, which is NAAB-accredited (<http://www.naab.org>).

### YEAR ONE

Options Studio offers topical content that best aligns with the research and practice expertise of the faculty, which provides students with the latest concepts in architectural design, theory, and research on a consistently updated and rotating basis. Students select their top choices of studio topics and instructors, giving them more flexibility in the areas for which they would like to focus their education. The Comprehensive Design Studio challenges the students to consider architectural connections at all scales, from the nut and bolt to the scale of the door or window to the scale of the whole building and the city. Additionally, students take classes in technology as well as architecture seminars.

### YEAR TWO

In the final year, students engage in a two-semester research and design project based on pertinent contemporary topics chosen by the graduate faculty, or students may propose an independent research and design project. Team research is conducted and compiled into online and physical research books. This body of compiled research then becomes the basis of the intellectual framework for the individual students' design projects. This final degree project parallels an in-depth two-semester professional practice sequence that analyzes all of the contingencies of successful architectural projects, including architectural offices and their project management strategies, real estate development criteria, and associated project finance.

## Master of Architecture—Three-Year Program

Open to candidates who do not have a Bachelor of Science in Architecture or equivalent.

Applicants from all disciplines are welcome. Those who have some architecture course work may be eligible for advanced placement.

The program requires three years of study. Students have the option to pursue a summer co-op opportunity managed by the university's co-op program.

After completing a first-year introductory curriculum, students in the three-year program merge into the two-year MArch curriculum. This is a NAAB-accredited (<http://www.naab.org>) degree program.

### YEAR ONE

In the first year, students take intensive studios, technology classes, and architectural history classes to immerse them in the studio culture of the school and to give them a strong foundation to begin the upper-level studios. The introductory graduate skills and design studios are specifically designed for the students in this program who do not have experience doing architectural drawing and designing. Students complete a series of projects that will give them an opportunity to develop the skills and the critical thinking needed in the graduate curriculum.

### YEAR TWO

The Option Studio offers topical content that best aligns with the research and practice expertise of the faculty, which provides students with the latest concepts in architectural design, theory, and research on a consistently updated and rotating basis. Students select their top choices of studio topics and instructors, giving them more flexibility in the areas for which they would like to focus their education. The Comprehensive Design Studio in the second semester challenges the students to consider architectural connections at all scales, from architectural detail, to architectural systems, to the whole building and its urban context.

### YEAR THREE

In the final year, students engage in a two-semester research and design project based on pertinent contemporary topics chosen by the graduate faculty, or students may propose an independent research and design project. Team research is conducted and compiled into online and physical research books. This body of compiled research then becomes the basis of the intellectual framework for the individual students' design projects. This final degree project parallels an in-depth two-semester professional practice sequence that analyzes all of the contingencies of successful architectural projects, including architectural offices and their project management strategies, real estate development criteria, and associated project finance.

## Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

### Core Requirements

Code	Title	Hours
<b>History</b>		
ARCH 2330	Architecture and the City in the Nineteenth Century	4
ARCH 2340	Modern Architecture	4
<b>Building, Design, and Environment</b>		
ARCH 2240	Architectonic Systems	4
ARCH 3450	Advanced Architectural Communication	4
ARCH 5210	Environmental Systems	4
ARCH 5220	Integrated Building Systems	4
ARCH 5230	Structural Systems	4
<b>Studio</b>		
ARCH 5115	Option Studio	6
ARCH 5120	Comprehensive Design Studio	6
ARCH 6100	Graduate Skills Studio	6
ARCH 6200	Graduate Studio 1: Architectural Design	6
<b>Professional Practice</b>		
ARCH 6430	Case Studies 1	4
ARCH 6440	Case Studies 2	4
<b>Topics and Seminars</b>		
ARCH 5310	Design Tactics and Operations	4

**Total Hours: 104**

Total credits for the three-year track may range from 96–104 depending on optional electives.

## Master of Architecture—Three-Year Program—Advanced Degree Entrance

Open to candidates who do not have a Bachelor of Science in Architecture or an equivalent degree.

Students with some background in architecture may be eligible for advanced placement into the program. Advanced placement will be determined by an applicant's transcript and portfolio.

After completing a first-year introductory curriculum, students in the three-year program merge into the two-year MArch curriculum. This is a NAAB-accredited (<http://www.naab.org/>) degree program.

**Only select courses in the first year of the program will be waived.** All waivers are at the discretion of the school and applicants will be required to provide documentation for any waivers (78–100 credits total based on waivers).

The minimum course work for all students in the first year of the program is:

- Two studio courses (minimum 10 credits total)
- Two graduate electives (minimum 8 credits total)

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

All advanced-entry students must complete a minimum of 10 semester hours per semester in the first year. Course waivers are determined by the faculty and students should consult with their advisor.

### Prerequisites

Courses listed below may be waived as determined by faculty advisor.

Code	Title	Hours
<b>History</b>		
ARCH 2330	Architecture and the City in the Nineteenth Century	4
ARCH 2340	Modern Architecture	4

**Total Hours: 104**

Total credits for the AP track may range from 78–104 depending on waivers and optional electives.

Note: Only courses in year one may be waived. Course waivers are at the discretion of the program director.

## Sustainable Urban Environments, MDes—One-Year Program

The one-year Master of Design for Sustainable Urban Environments (MDes-SUEN) is open to students holding an accredited, first-professional degree in landscape architecture, architecture, planning, or urban design. The 36-credit program offers a core sequence of advanced design research studios, proseminars, and urban ecology and technology workshops complemented by interdisciplinary electives.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Studio</b>		
SUEN 7130	Master's Research Studio: Design and the Resilient City	6
SUEN 7140	Master's Research Studio: Master's Project	6
<b>Proseminar</b>		
Complete 8 semester hours from the following (repeatable) courses:		8
SUEN 7320	Pro-Seminar: Issues in Designed Urban Environments	
SUEN 6340	Topics in Urban Environmental Design	
<b>Technology</b>		
SUEN 7230	Urban Ecologies and Technologies 1	4
SUEN 7240	Urban Ecologies and Technologies 2	4

#### Electives

Electives in other disciplines may be taken in consultation with your faculty adviser.

Code	Title	Hours
Complete 8 semester hours from the following subject areas:		8
SUEN, ARCH, LARC, PPUA, LPSC, and SBSY		

#### Program Credit/GPA Requirements

36 total semester hours required

Minimum 3.000 GPA required

#### Plan of Study

Year 1			
Fall	Hours	Spring	Hours
SUEN 7130		6 SUEN 7140 (or co-op*)	6
SUEN 7230		4 SUEN 7240	4
SUEN 7320 or 6340		4 SUEN 7320	4
Elective (required)		4 Elective (required)	4
		<b>18</b>	<b>18</b>

**Total Hours: 36**

\*Students may opt to do a graduate co-op. Co-op does not count toward degree credits.

**Sustainable Urban Environments, MDes—Two-Year Program**

The two-year Master of Design for Sustainable Urban Environments (MDes-SUEN) is open to students entering with a bachelor's degree in any field. The 64-credit program provides a full year of core skill sets including design; site analysis, implementation, and visualization; history/theory; and policy. This includes introduction to basic earthworks, water, and plants systems as well as the principles of landscape and urban ecology.

**Program Requirements**

Complete all courses and requirements listed below unless otherwise indicated.

**Core Requirements**

Code	Title	Hours
<b>Studio</b>		
SUEN 6110	Graduate Studio 1: Sustainable Urban Sites	6
SUEN 6120	Graduate Studio 2: Sustainable Urban Systems	6
SUEN 7130	Master's Research Studio: Design and the Resilient City	6
SUEN 7140	Master's Research Studio: Master's Project	6
<b>Cities: Design and Planning</b>		
SUEN 6310	Cities, Nature, and Design in Contemporary History and Theory	4
LPSC 7312	Cities, Sustainability, and Climate Change	4
<b>Proseminar</b>		
Complete 8 semester hours from the following (repeatable) courses:		8

## Art + Design

Website (<https://camd.northeastern.edu/graduate-overview/>)

### **Dietmar Offenhuber, PhD**

Chair

### **Julia Hechtman, MFA**

Associate Chair

617.373.4340

The graduate programs in the Department of Art + Design are designed to cultivate capacity and fluency in a range of disciplines and practices to create and deliver value and benefit for an increasingly connected and diverse world. Spanning many subjects, interests, and intentions across disparate fields and manifold practices of art, media, and design, our master's and certificate programs will challenge and inspire you to push the boundaries of cultural production and stewardship and social and civic impact. We strive to empower you to bring your ideas to life through design conversations, media making, and artistic expression and enjoy richly rewarding careers and lives.

## **Programs**

### **Master of Fine Arts (MFA)**

- Experience Design (p. 126)
- Information Design and Data Visualization (p. 128)

### **Master of Science (MS)**

- Experience Design (p. 131)
- Game Science and Design (p. 133)
- Information Design and Data Visualization (p. 135)
- Media Innovation and Data Communication (p. 144)

### **Graduate Certificate**

- Experience Design (p. 137)
- Game Experience Design (p. 138)
- Game Science (p. 139)
- Information Design and Visualization (p. 140)

## Experience Design, MFA

The Master of Fine Arts in Experience Design embraces research-driven design thinking for entrepreneurship, innovation, and other areas, preparing students to be vital contributors and leaders at the intersection of innovation and design.

Experience design is a holistic and integrative approach to design that utilizes investigation into the human experience in specific situations to improve its quality, given an understanding of human goals, needs, and desires. For example, in the context of healthcare, an experience designer does not focus on the design of any one technology product, information system, or physical space. Instead, the designer is charged with understanding and improving the overall sequence of events that impact the patient before and during a hospital stay as well as through follow-up care.

The experience design program moves beyond design thinking to produce outcomes that demonstrate the value of human-centered research and design methods. It draws on findings from a range of professional and scholarly disciplines (including business, psychology, human-computer interaction, engineering, cybernetics) to understand and shape specific situations. It extends across many industries and aspects of life: healthcare, technology, services, travel, education, entertainment, shopping, dining, and the nature of work itself.

Through examining how people behave in a real context in relation to emerging technologies, the Master of Fine Arts in Experience Design allows graduates from design and related disciplines (such as communications, computer science, business, architecture, art, journalism, humanities, and the social sciences) to gain knowledge and experience in the design competencies. To accomplish these goals, students study how to invoke cooperation, collaboration, and integration across disciplines and practices.

The Master of Fine Arts in Experience Design seeks to prepare students to be vital contributors and leaders of professional experience design teams where technological innovation intersects with design. Successful graduates should be able to analyze how people undergo real-world situations, enabling them to enrich experience by orchestrating new design-driven relationships. They will be equipped with the skills to identify shortcomings as well as opportunities for improved engagement between systems and elements—virtual or physical—with the humans who encounter them.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

## Information Design and Data Visualization, MFA

The Master of Fine Arts in Information Design and Data Visualization program uniquely combines design training and analytical methods with distinctive approaches to theoretical, visual, and technical aspects of visual communication. Successful graduates gain expertise in the visual and technological languages of data, applying modes of visual cognition, and using analytics tools to create interactive, data-driven communication and installations.

This design-centric program seeks to prepare graduates to collaborate across a variety of fields and settings, crossing the bridge between technology, public communication, and systems design. Successful graduates are prepared to be professional information designers and data visualization experts in design agencies, research institutions, industry, and public institutions, able to lead and collaborate in this dynamic and burgeoning interdisciplinary field of practice and research. Students also are well positioned to pursue PhDs and academic careers. Students have the unique advantage of studying at a major research university known for interdisciplinary collaboration located in Boston—a global center for technology, science, education, and culture—offering diverse opportunities for practice and research in information design and data visualization.

The MFA-IDDV curriculum includes studio courses and seminars in graphic, information, and interaction design; creative inquiry; research methodologies; data literacies; and visualization technologies. It integrates faculty instruction with visiting artists and researchers. The degree requires 60 credit hours over two academic years, with an option to engage in Northeastern's renowned co-op program. A thesis project, a written thesis, and an accompanying work exhibition in the thesis show are required.

Learn more about IDDV projects, students, and faculty at Information Design and Data Visualization (<http://northeastern.edu/visualization/>).

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

## Experience Design, MS

The Master of Science in Experience Design embraces research-driven design thinking for entrepreneurship, innovation, and other areas, preparing students to be vital contributors and leaders at the intersection of innovation and design.

Experience design is a holistic and integrative approach to design that utilizes investigation into the human experience in specific situations to improve its quality, given an understanding of human goals, needs, and desires. For example, in the context of healthcare, an experience designer does not focus on the design of any one technology product, information system, or physical space. Instead, the designer is charged with understanding and improving the overall sequence of events that impact the patient before and during a hospital stay as well as through follow-up care.

The experience design program moves beyond design thinking to produce outcomes that demonstrate the value of human-centered research and design methods. It draws on findings from a range of professional and scholarly disciplines (including business, psychology, human-computer interaction, engineering, cybernetics) to understand and shape specific situations. It extends across many industries and aspects of life: healthcare, technology, services, travel, education, entertainment, shopping, dining, and the nature of work itself.

Through examining how people behave in a real context in relation to emerging technologies, the Master of Science in Experience Design allows graduates from design and related disciplines (such as communications, computer science, business, architecture, art, journalism, humanities, and the social sciences) to gain knowledge and experience in the design competencies. To accomplish these goals, students study how to invoke cooperation, collaboration, and integration across disciplines and practices.

The Master of Science in Experience Design seeks to prepare students to be vital contributors and leaders of professional experience design teams where technological innovation intersects with design. Successful graduates should be able to analyze how people undergo real-world situations, enabling them to enrich experience by orchestrating new design-driven relationships. They will be equipped with the skills to identify shortcomings as well as opportunities for improved engagement between systems and elements—virtual or physical—with the humans who encounter them.

The MS degree is intended for graduate students from related fields—media, design, communications, data science, and more—who would like to acquire competencies in experience design to complement their skills and address their professional needs. Embedded in the course offering of our Master of Fine Arts in Experience Design (p. 126) program, students in the MS program will have the opportunity to join MFA students for activities such as attending guest lectures and workshops.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Electives

Code	Title	Hours
Complete two elective courses (4 credits each), such as these, in consultation with your advisor; multiple completions of ARTG 5000 may apply toward the elective requirement; other electives may be chosen in consultation with the program coordinator):		8

ARTG 5000	Topics in Design	
ARTG 5310	Visual Cognition	
ARTG 5320	Statistics for Design	
ARTG 5330	Visualization Technologies 1: Fundamentals	
ARTG 5640	Prototyping for Experience Design	
ARTG 5710	Design for Dignity	
ARTG 6110	Information Design Theory and Critical Thinking	
ARTG 6330	Information Design Mapping Strategies	
ARTG 6900	Special Topics in Design	
GSND 6320	Psychology of Play	
GSND 6340	Biometrics for Design	

### Program Credit/GPA Requirements

32 total semester hours required

Minimum 3.000 GPA required

### Plan of Study

Year 1			
Fall	Hours	Spring	Hours
ARTG 5120		4 ARTG 5610	4
ARTG 5600		4 ARTG 6310	4
ARTG 5620		4 ARTG 6600	4
Elective		4 Elective	4
		<b>16</b>	<b>16</b>

**Total Hours: 32**

\*Students may opt to do a graduate co-op. Co-op does not count toward credits required for the degree.

## Game Science and Design, MS

The **Master of Science (MS) in Game Science and Design** is a program that seeks to give students a comprehensive understanding of how successful game products are created in a player-centric environment. Successful graduates who wish to become professional game developers or game user research experts should be able to collaborate effectively in this dynamic and burgeoning field of practice and research. Focusing on the science of game development, students have an opportunity to learn the design and technological skills needed to build a game and develop a deep understanding of playability and analytics that makes products successful in an increasingly competitive marketplace.

The game industry has expanded to include social and mobile gaming; augmented and virtual reality; as well as games in health, education, and training. Rapid innovations are happening in player psychology, middleware, graphics and authoring tools, game mechanics, and artificial intelligence and narrative techniques. It has become an increasingly competitive space.

The selectiveness of the industry and the diversity of the skills required mean that students seeking entry need both broad and deep skills. As an emergent industry using diverse technology and collaborative practices, the game industry needs professionals with interdisciplinary skill sets who can blend knowledge about development with knowledge about evaluation methods and players' behavior and psychology.

Jointly offered by Northeastern's College of Arts, Media and Design and Khoury College of Computer Sciences (<https://www.khoury.northeastern.edu/>), the **Master of Science in Game Science and Design** is a one-of-a-kind interdisciplinary program that seeks to prepare students to meet this need by weaving together science and design. This is a two-year, 34-credit-hour program.

All admitted students will be assigned to an advisor who will help them select a pathway with a coherent set of electives depending on their career goals. The advisor will also monitor their progress through the master's degree.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Required Core</b>		
GSND 5110 and GSND 5111 and GSND 5112	Game Design and Analysis and Seminar for GSND 5110 and Recitation for GSND 5110	5
GSND 5122	Business Models in the Game Industry	1
GSND 5130 and GSND 5131	Mixed Research Methods for Games and Recitation for GSND 5130	4
<b>Thesis</b>		
GSND 6330 and GSND 6331	Player Experience and Recitation for GSND 6330	4
GSND 7990	Thesis	4

#### Electives

Code	Title	Hours
<b>Game Design or Development</b>		
Complete one of the following:		4
CS 5150	Game Artificial Intelligence	
CS 5850	Building Game Engines	
GSND 6000	Advanced Topics in Game Design	
GSND 6240	Exploratory Concept Design	
GSND 6250	Spatial and Temporal Design	
GSND 6460	Generative Game Design	
<b>Game User Research or Analytics</b>		
Complete one of the following:		4
CS 5340	Computer/Human Interaction	
GSND 6001	Advanced Topics in Game Science	
GSND 6320	Psychology of Play	
GSND 6340	Biometrics for Design	
GSND 6350	Data-Driven Player Modeling	

Code	Title	Hours
<b>Other Electives List</b>		
Complete any two of the previously listed courses or from the following (courses not listed below may be completed in consultation with your program coordinator).		8
If ARTG 5000 or GSND 6000 or GSND 6001 is completed more than once, the additional completions may be allowed toward the electives.		
Elective courses outside of CAMD are subject to availability and registration policy of the home college.		
ARTG 5000	Topics in Design	
ARTG 5130	Visual Communication for Information Design	
ARTG 5310	Visual Cognition	
ARTG 5330	Visualization Technologies 1: Fundamentals	
ARTG 5610	Design Systems	
ARTG 5640	Prototyping for Experience Design	
ARTG 6310	Design for Behavior and Experience	
CS 5520	Mobile Application Development	
CS 5610	Web Development	
DA 5020	Collecting, Storing, and Retrieving Data	
DA 5030	Introduction to Data Mining/Machine Learning	
GSND 6000	Advanced Topics in Game Design	
GSND 6001	Advanced Topics in Game Science	
INSH 5302	Information Design and Visual Analytics	
JRNL 6341	Telling Your Story with Data	

### Program Credit/GPA Requirements

34 total semester hours required

Minimum 3.000 GPA required

### Plan of Study

#### Sample Two Years, One Co-op (Optional) Plan of Study

Year 1					
Fall	Hours	Spring	Hours	Summer Full Semester	Hours
GSND 5110 and GSND 5111 and GSND 5112		5 Elective		4 Co-op (optional)	0
GSND 5130 and GSND 5131		4 Elective		4	
		<b>9</b>			<b>8</b>
<b>0</b>

Elective		4			
		<b>9</b>			<b>8</b>
<b>Total Hours: 34</b>					

Note: Co-op or Thesis Co-op is optional in consultation with faculty advisor.

## Information Design and Data Visualization, MS

The Master of Science in Information Design and Data Visualization is a two-semester research- and analysis-oriented program focusing on visual interfaces to communicate and explore digital information. Successful graduates may become professional information designers and data visualization experts able to collaborate effectively in this dynamic and burgeoning field of practice and research, prepared to work in data-driven areas including design, technology, business, health, education, and public institutions. The curriculum is designed to train students in design principles, critical inquiry, and the analytical and creative practices needed to assume leadership roles in an evolving interdisciplinary field. Coursework focuses on the translation of data and information into visual languages and the integration of theoretical, cognitive, and technical aspects of visualizations that engage a broad range of audiences. From this master's program, students have multiple options to expand their advanced studies along diverse avenues, including adding graduate certificates in related topics such as user analytics, data analytics, experience design, and cultural entrepreneurship; engaging in co-op opportunities; and applying to proceed academically into a terminal Master of Fine Arts degree.

To learn more visit the Information Design and Data Visualization (<https://camd.northeastern.edu/program/information-design-and-visualization/>) page.

### Program Requirements

Boston-based students complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
ARTG 5100	Information Design Studio 1: Principles	4
ARTG 5150 and ARTG 5151	Information Visualization Principles and Practices and Information Design Critique Seminar	4
ARTG 5310	Visual Cognition	4
ARTG 5320	Statistics for Design	4
ARTG 5330	Visualization Technologies 1: Fundamentals	4
ARTG 6100	Information Design Studio 2: Dynamic Mapping and Models	4
ARTG 6110	Information Design Theory and Critical Thinking	4

#### Elective

Thesis (ARTG 7890) is required in lieu of an elective for Vancouver-based students in consultation with program coordinator.

Code	Title	Hours
Complete one of the following:		4
ARTG 5000	Topics in Design	
ARTG 5110	Information Design History	
ARTG 5120	Research Methods for Design	
ARTG 5130	Visual Communication for Information Design	
ARTG 5430	Visualization Technologies 2: Advanced Practices	
ARTG 5710	Design for Dignity	
ARTG 6310	Design for Behavior and Experience	
ARTG 6330	Information Design Mapping Strategies	
ARTG 6555	Graphic Design Synthesis	
ARTG 7890	Thesis	

### Program Credit/GPA Requirements

32 total semester hours required

Minimum 3.000 GPA required

### Plan of Study

#### Sample Plans of Study

#### Two Semesters, No Co-op <sup>1</sup>

Year 1			
Fall	Hours	Spring	Hours
ARTG 5100		4 ARTG 5310	4
ARTG 5150 and ARTG 5151		4 ARTG 5330	4

ARTG 5320	4	ARTG 6100	4

		<b>16</b>	<b>16</b>

**Total Hours: 32**

<sup>1</sup> Summer co-op is optional in consultation with the program coordinator.

**Four Semesters, No Co-op <sup>2</sup>**

**Year 1**

<b>Fall</b>	<b>Hours</b>	<b>Spring</b>	<b>Hours</b>
ARTG 5100		4 ARTG 5310	4
ARTG 5320		4 ARTG 5150 and ARTG 5151	4
		<b>8</b>	<b>8</b>

**Year 2**

<b>Fall</b>	<b>Hours</b>	<b>Spring</b>	<b>Hours</b>
ARTG 5330		4 ARTG 6110	4
ARTG 6100		4 Elective	4
		<b>8</b>	<b>8</b>

**Total Hours: 32**

<sup>2</sup> Students can choose to do a co-op in the summer between year 1 and year 2.

## Experience Design, Graduate Certificate

The Graduate Certificate in Experience Design embraces research-driven design thinking for entrepreneurship, innovation, and other areas, preparing students to be vital contributors and leaders at the intersection of innovation and design.

Experience design is a holistic and integrative approach to design that utilizes investigation into the human experience in specific situations to improve its quality, given an understanding of human goals, needs, and desires. For example, in the context of healthcare, an experience designer does not focus on the design of any one technology product, information system, or physical space. Instead, the designer is charged with understanding and improving the overall sequence of events that impact the patient before and during a hospital stay as well as through follow-up care.

The Graduate Certificate in Experience Design moves beyond design thinking to produce outcomes that demonstrate the value of human-centered research and design methods. It draws on findings from a range of professional and scholarly disciplines (including business, psychology, human-computer interaction, engineering, cybernetics) to understand and shape specific situations. It extends across many industries and aspects of life: healthcare, technology, services, travel, education, entertainment, shopping, dining, and the nature of work itself.

Through examining how people behave in a *real* context in relation to emerging technologies, the Graduate Certificate in Experience Design allows working professionals or graduates from design and related disciplines (such as communications, computer science, business, architecture, art, journalism, humanities, and the social sciences) to gain knowledge and experience in the design competencies. To accomplish these goals, students need to learn how to invoke cooperation, collaboration, and integration across disciplines and practices.

The Graduate Certificate in Experience Design is designed to prepare students to be vital contributors and leaders of professional experience design teams where technological innovation intersects with design. Successful graduates will be able to analyze how people undergo real-world situations, enabling them to enrich experience by orchestrating new design-driven relationships. They will be equipped with the skills to identify shortcomings as well as opportunities for improved engagement between systems and elements—virtual or physical—with the humans who encounter them.

The certificate is intended for practitioners and graduate students from related fields—media, design, communications, data science, and more—who would like to acquire competencies in experience design to complement their skills and address their professional needs. Embedded in the course offering of our Master of Fine Arts in Experience Design (p. 126) program, students in the certificate program will have the opportunity to join MFA students for activities such as attending guest lectures and workshops.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
ARTG 5610	Design Systems	4
ARTG 5620	Notational Systems for Experience	4
ARTG 6310	Design for Behavior and Experience	4

#### Elective

Code	Title	Hours
Complete 4 semester hours of 5000- to 6000-level course work in the following subject area:		4
ARTG		

#### Program Credit/GPA Requirements

16 total semester hours required

Minimum 3.000 GPA required

## Game Experience Design, Graduate Certificate

The Graduate Certificate in Game Experience Design offers training in the skills, tools, and methods needed to design successful game products, including social and mobile gaming; augmented and virtual reality; as well as games for health, education, and science. Students gain hands-on experience in designing games under faculty with industry expertise in game design. Game design courses focus on innovation; societal impact; and player-centric, experiential design approaches. The Graduate Certificate in Game Experience Design is a one-year, 17-semester-hour program. Upon successful completion of the certificate, students can opt to apply to the Master of Science in Game Science and Design and, if accepted, transfer credits gained through the certificate.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
GSND 5110 and GSND 5111 and GSND 5112	Game Design and Analysis and Seminar for GSND 5110 and Recitation for GSND 5110	5
GSND 5130	Mixed Research Methods for Games	4

#### Electives

Code	Title	Hours
Complete 8 semester hours from the following (multiple completions of ARTG 5000 or GSND 6000 may apply to the elective requirement):		8
ARTG 5000	Topics in Design	
ARTG 5640	Prototyping for Experience Design	
GSND 6000	Advanced Topics in Game Design	
GSND 6240	Exploratory Concept Design	
GSND 6250	Spatial and Temporal Design	
GSND 6460	Generative Game Design	

#### Program Credit/GPA Requirements

17 total semester hours required  
Minimum 3.000 GPA required

## Game Science, Graduate Certificate

The Graduate Certificate in Game Science offers training in assessing, tracking, and analyzing player experience using game analytics methods and techniques, biometrics, and research methods including interviews and surveys. Students gain hands-on experience with these methods and techniques under faculty guidance with industry experts in game science. The game development process has shifted from “design, develop, release” to “design, develop, release, and continuously fine-tune based on user data.” Game science plays a critical role in this new process. The Graduate Certificate in Game Science is a one-year, 17-semester-hour program. Upon successful completion of the certificate, students can opt to apply to the Master of Science in Game Science and Design and, if accepted, transfer credits gained through the certificate.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Required Courses

Code	Title	Hours
GSND 5110 and GSND 5111 and GSND 5112	Game Design and Analysis and Seminar for GSND 5110 and Recitation for GSND 5110	5
GSND 5130	Mixed Research Methods for Games	4

#### Electives

Code	Title	Hours
Complete two of the following (multiple completions of ARTG 5000 or GSND 6001 may apply toward the elective requirement):		8
ARTG 5000	Topics in Design	
GSND 6001	Advanced Topics in Game Science	
GSND 6320	Psychology of Play	
GSND 6340	Biometrics for Design	
GSND 6350	Data-Driven Player Modeling	

### Program Credit/GPA Requirements

17 total semester hours required

Minimum 3.000 GPA required

## Information Design and Visualization, Graduate Certificate

The Graduate Certificate in Information Design and Visualization focuses on the data-driven analytical and visual design of information, preparing students to communicate visually while engaging advanced data analytics to produce meaningful information environments.

Successful graduates of the Certificate in Information Design and Visualization are professionals who are prepared to tackle new information communication challenges and communicate and collaborate with researchers in a variety of fields, as well as stakeholders and the public.

Throughout the course of the certificate, students master how to think visually, while also learning how to produce effective, meaningful visual information from various sources of data.

The certificate is intended for practitioners and graduate students from related fields—media, design, communications, data science, and more—who would like to acquire competencies in information design and data visualization to complement their skills and address their professional needs. Embedded in the course offering of our Master of Fine Arts in Information Design and Visualization (p. 128) program, students in the certificate program have the opportunity to join MFA students for activities such as attending guest lectures and workshops.

To learn more, visit the Information Design and Visualization (<https://camd.northeastern.edu/visualization/>) portal.

## School of Journalism

Website (<http://www.northeastern.edu/camd/journalism/>)

### **Jonathan Kaufman, MA**

Professor and Director

617.373.3236

Welcome to the graduate programs at Northeastern University's School of Journalism. Our school offers three degrees: a Master of Arts in Journalism, a Master of Science in Media Innovation and Data Communication, and a Master of Science in Media Advocacy.

The Master of Arts in Journalism degree is designed to merge traditional journalism with the latest technology. Students new to the field or those with experience can choose one of two tracks—professional journalism or media innovation—to prepare them for the challenges faced by legacy and new media in the digital age. The Master of Science in Media Innovation and Data Communication degree focuses on new forms of data-driven media practice, creative digital storytelling, and strategies for fostering innovation in media fields. The Master of Science in Media Advocacy degree is designed to teach strategic advocacy skills and prepare graduates to succeed as resilient, media-empowered citizens in a global society. Moreover, these programs offer students hands-on training in preparation for careers in reporting, editing, multimedia design and production, social media, and data journalism.

As part of Northeastern's College of Arts, Media and Design, our graduate students are also part of an interdisciplinary and creative community. Our core curriculum is supplemented by electives that take advantage of course offerings from within our college and from other colleges in the university. And with our experiential education opportunities and outstanding co-op program, students do not have to wait until after graduation to begin developing skills as reporters, media advocates, or public relations professionals.

It is our goal to help you put your passion into practice. To that end, our graduate programs afford students the opportunity to study in Boston with a small and dedicated faculty of specialists with years of experience and extensive contacts in the media world.

## **Programs**

### **Master of Arts (MA)**

- Journalism (p. 142)

### **Master of Science (MS)**

- Media Advocacy (p. 143)
- Media Innovation and Data Communication (p. 144)

## Journalism, MA

The School of Journalism offers a dynamic Master of Arts degree that seeks to prepare students for the challenges faced by media organizations in the digital age. The degree trains students to become rigorous, ethical, and creative news reporters, editors, and content producers, as well as social media managers and video/audio specialists.

Both students new to the field and those with some experience can choose courses tailored to help them thrive in particular subject areas, such as criminal justice or climate change, or around specific technologies, such as podcasting or data visualization. Our programs are designed to merge the skills of professional journalism with knowledge of the latest information technologies.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
JRNL 6200	Enterprise Reporting 1	4
JRNL 6201	Enterprise Reporting 2	4
JRNL 6202	Perspective on Journalism Ethics	4
JRNL 6340	Fundamentals of Digital Journalism	4

#### Electives

Code	Title	Hours
Complete 20 semester hours in the following range:		20
JRNL 5309 to JRNL 7976		

Courses from other disciplines may be taken in consultation with your faculty advisor.

No more than two courses outside of CAMD may be taken.

#### Program Credit/GPA Requirements

36 total semester hours required

Minimum 3.000 GPA required

#### Plan of Study

##### Sample Plan of Study: Two Years with Co-op in Summer 2

Year 1							
Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

**Total Hours: 37**

**Media Advocacy, MS**

The Master of Science in Media Advocacy places particular focus on developing direct and indirect advocacy skills: that is, to influence government decision makers directly and to change minds indirectly through shifting public opinion. The program uniquely combines grounding in governmental structures and the legal system with sophisticated training in the latest communication techniques including social media, web communications, and videography, as well as data analytics and data-driven storytelling. Successful graduates will be empowered to promote the public agenda of employers ranging from mission-driven organizations, such as the ACLU or the Sierra Club, to industry leaders, such as hospitals and technology companies, to lobbying and strategic communications groups and political consulting firms.

## Media Innovation and Data Communication, MS

The Master of Science will offer a distinctive approach to knowledge and innovation in media fields, an approach rooted in the rigor of professional journalism—with its emphasis on empowered knowledge acquisition, empirical verification, and storytelling in the public interest—but one keenly attuned to emerging, data-driven technologies and their potential. The program capitalizes on the revolution in data storytelling and computational methods in media work; the rapid evolution in video, animation, and augmented/virtual reality technologies; and social networks and digital analytics. Our graduates will be prepared to become leaders in media firms and outlets engaged with cutting-edge technologies and innovative digital startups, as well as a broad range of media and communications organizations across the rapidly evolving digital economy.

## Interdisciplinary Programs

Welcome to interdisciplinary graduate studies in the College of Arts, Media and Design. Here you'll find courses and programs that embrace shared dialogue and experiential learning across creative fields. These interdisciplinary doctoral programs, master's programs, and graduate certificates place collaboration at the core of their mission, integrating frameworks, methods, and practices to support students in developing truly innovative approaches and outcomes. Our interdisciplinary degree and certificate options provide a strong foundation of use-inspired, experientially informed coursework and research opportunities.

The PhD in Interdisciplinary Design and Media offers an innovative, globally aware, human-centered approach to advanced graduate study, focusing on practice-based research and scholarship applied to or conducted through making or creation.

The Master of Science in Creative Practice Leadership program brings together faculty, scholars, and practitioners across the performing arts, fine arts, and design fields to work with students to explore new forms of practice and leadership within contemporary culture. Students engage in a shared core, then develop a customized course of study, allowing focus on a breadth of issues.

The Master of Science in Arts Administration and Cultural Entrepreneurship and graduate certificate programs give students foundational to advanced training in the skills and techniques essential to leading arts and culture organizations today, combining the human literacies of collaboration and communication with the technical basis of arts organizational visioning, planning, and sustainable management.

The Master of Science in Urban Planning and Policy program is jointly offered between the college's School of Architecture and the School of Public Policy and Urban Affairs within the College of Social Sciences and Humanities. The curriculum provides a strong foundational knowledge base and allows specialization into the closely related areas of sustainable urban planning and contemporary approaches to urban policy for global cities.

### Programs

#### Doctor of Philosophy (PhD)

- Interdisciplinary Design and Media (p. 147)

#### Master of Science (MS)

- Arts Administration and Cultural Entrepreneurship (p. 152)
- Creative Practice Leadership (p. 156)
- Extended Realities
- Urban Planning and Policy (p. 163)

#### Graduate Certificate

- Arts Administration (p. 167)
- Cultural Entrepreneurship (p. 168)

## Interdisciplinary Design and Media, PhD

The PhD provides a rigorous, globally aware, practice-based, and human-centered approach to advanced scholarship. It aims to cultivate researcher-designers with a versatile repertoire of methods and a passion for applying those skills to the emerging epistemic perspective of integrated human, technological, and data frameworks within creative collaboration across disciplinary boundaries. The degree is designed to attract entrepreneurial self-starters who seek to break ground and invent new fields through hybrid and integrated approaches to knowledge creation.

The PhD emphasizes four pillars of excellence within a research culture:

- Engaging with the nature of human experience through innovative, interdisciplinary approaches to design
- Investigating new forms of digital media and data-driven communication across diverse disciplines
- Articulating how creativity can embrace connections between artistic practices, innovation, entrepreneurship, and research
- Connecting with changing forms of technology and media to foster shared experiences and exchange within local and global communities

The PhD is unique in its focus on practice-based research or scholarship applied to or conducted through making or creation. This is an emerging area that has been applied internationally to a wide range of creative fields and industries, many of which are represented within the College of Arts, Media and Design: music, theatre, design, studio art, games, architecture, journalism, and others. It differs from other forms of knowledge creation in that it rigorously cultivates the creation of artifacts as a mode of producing new knowledge, theories, and methodologies. Practice-based research integrates fields such as creativity and cognition or human-computer interaction to understand how practice operates, to enact that knowledge in practical applications, and to use the acts of creation themselves as a research methodology. PhD students will be encouraged to conduct their research in—and in some cases create—“living labs” embedded in real-world contexts and through on- and off-campus research partnerships.

The PhD degree program is composed of a common core and pathways of specialization. The core is centered around three areas: design research, which provides a methodology for understanding the ways design and media touch every aspect of daily life at every level of society; ethical practice, which engages with the humanistic concerns of design and cultural production; and experiential learning, which offers students the opportunity to produce research and conduct fieldwork with partner organizations.

Specialized pathways, customized according to the program of study as approved by the PhD advisors and vetted by external experts, include:

- Information design and visualization
- Design research
- Creative research

### Degree Requirements

#### POSTBACCALAUREATE ENTRY

The PhD degree requires completion of at least 48 semester credit hours beyond a bachelor's degree. Students who enter with an undergraduate degree will typically need five years to complete the program.

#### ADVANCED ENTRY

Students can petition for an advanced entry, which requires completion of at least 28 semester hours. Advanced entry requires an advanced degree (MS, MA, MFA, etc.) or extensive experience aligned with the research direction of the candidate. While students can qualify for advanced entry upon acceptance, the decision for students to continue in the advanced program is made after the first year, where they have to demonstrate that they do not need additional coursework and can complete the program in four years.

### Qualifying Examination

The qualifying exam is a written and/or oral examination in the primary and secondary research fields that ensures the student is intimately familiar with the relevant scholarly work in their area of concentration. The pedagogical role is not in the examination itself but in the rigorous preparation of the primary and secondary fields by the student, approved by the advisor. Prior to the qualifying exam, the student prepares a document that outlines the selected primary and secondary fields, provides an overview of the current state of research, and assembles a list of relevant literature that will serve as the basis for the examination. The emphasis of the examination (for example, short essays, a lecture presenting a scholarly argument) is to be useful for the dissertation research. Typically, the student takes the qualifying examination during the second year.

### Dissertation Proposal Defense

To ensure students complete satisfactory dissertations that are appropriate for their focus area(s), all students are required to submit and defend a dissertation proposal prior to advancing to candidacy. The dissertation proposal is a detailed document outlining the scholarly context, methods, arguments, and activities underpinning the dissertation. It will include a detailed research plan and timeline and is to be approved by the student's dissertation committee, which the student has to assemble in advance. The student then defends the accepted dissertation proposal in the context of the research seminar, inviting feedback from faculty and other students. The dissertation proposal defense is open to the entire CAMD PhD community and constitutes the last step before degree candidacy.

### Degree Candidacy

A student is considered a PhD degree candidate after:

- Successfully completing core and specialization courses with a minimum of a 3.000 cumulative GPA and no grades lower than a B in core courses
- Passing the qualifying exam
- Submitting and successfully defending the dissertation proposal

## Advising and Committee Formation

Each entering student will be assigned to a faculty advisor based on their interests who will guide students in completing their core requirements of their degree. Ideally, this person will also serve as their thesis committee chair, but they may transition to another committee chair as they transition into ABD status. As part of this process, in addition to their thesis committee chair, they will also be expected to identify two other readers representing their secondary and, if applicable, tertiary discipline areas. The advisory committee will be responsible for guiding the students through their individual research proposal process, helping them to develop a robust research methodology and clear plan for completion. The advisory committee will also be responsible for identifying an appropriate external expert to consult at key stages of degree progression. The advisors will also guide the students through the thesis project and its written component. Where applicable, committee members will also mentor and support the student through funded research.

## Dissertation Defense

Each student will, with the aid of their advisor and committee, define the final product. The research component will typically consist of empirical and/or theoretical scholarship created using a methodology appropriate for the topic and field that is fully integrated with the practice component. The synergy between creative practice and research can take the form of knowledge production through a variety of potential means: production of digital and physical artifacts, software and hardware applications, games, paintings, documentaries, comics, exhibitions, design projects or products, theatrical productions, musical compositions, performances, or other formats. The work will include a written dissertation that can also be paired with other modes of conveyance, such as a documentary, demonstration, performance, or exhibition. A key function of the dissertation will be to contextualize the practical work in contemporary scholarship and discourse, clearly articulating its rationale and contribution to the field. Over the course of their studies, students are expected to produce peer-reviewed submissions based on their work.

The dissertation defense follows a similar format to the proposal defense. Acceptable dissertation models may include long-form (book-style) dissertations, multiple publishable papers, a system build-evaluate model, or other creative formats enumerated above.

## Arts Administration and Cultural Entrepreneurship, MS

The arts and cultural industries are key drivers of each nation's economy, contributing more than \$730 billion annually in the United States alone. While the economic impact of the arts and cultural industries can be measured, their social impacts are often underestimated. Music, dance, visual art, and theatre are critical to how we perceive, interpret, and critique the world and people around us. The arts articulate our beliefs, politics, familial and community ties, and history.

Arts administrators are the bridge between creative practitioners and audiences and between arts institutions and supportive stakeholders. In today's digitally driven, highly competitive, and increasingly global economy, traditional institutions for visual and performing arts face critical sustainability challenges. Leaders in the arts must adopt the creative thinking and problem-solving skills of an entrepreneur in order to envision new models for creative practice, audience engagement, and funding.

The interdisciplinary Master of Science in Arts Administration and Cultural Entrepreneurship (AACE) prepares arts leaders to both convey the human necessity of creative expression and apply creative thinking to manage resources, inspire audience engagement, and sustain financial support. The arts, and audience opportunities to experience them, are more dynamic and diverse than ever before, flourishing in major arts institutions as well as nonhierarchical organizations, from artist-run spaces and community organizations to annual festivals and pop-up exhibitions. It is time for a transformation in leadership training that matches the ingenuity of today's most exciting experiments in music, dance, theatre, and the visual arts. Arts leaders must also be equipped with the administrative, analytical, and technological skill sets necessary to excel within the complex, interdependent arts ecosystem.

The AACE curriculum is designed to meet the changing needs of arts leaders, from administrators in arts institutions to creative practitioners and entrepreneurs eager to make their art startup a reality. The program focuses on leadership innovation in a range of performance, visual arts, and cultural organizations. As an intellectual and practical course of study that merges the expertise of academics, creative professionals, administrators, and entrepreneurs, the program's aim is to support sustainable creative practice.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Arts Administration Foundation</b>		
AACE 6000	Arts and Culture Organizational Leadership	3
AACE 6010	Planning for Arts and Cultural Organizations	3
AACE 6020	Experiential Study in Arts Administration	3
<b>Cultural Entrepreneurship Foundation</b>

## Creative Collaboration and Multidisciplinary Design, MS

### Overview

The Master of Science in Creative Collaboration and Multidisciplinary Design is an executive education degree rooted in the creative process as the main driver for adaptive thinking, dynamic communication, and empowering collaboration. In today's highly networked organizational structures, current and future leaders will need the skills to navigate the creative process, respond to shifting landscapes with agility, and articulate their vision through multiple modalities in ways that inspire, connect, and call others to action. This highly interactive, experiential degree will provide students with a combination of design skills and creativity techniques in a project-based learning environment to foster innovative leadership and empower communication. Graduates will leave with a flexible toolkit to nurture their individual creativity, adaptability in the face of rapid change, and skills to become well-rounded strategists and communicators.

## Creative Practice Leadership, MS

Admissions to this program have been suspended.

Website (<https://camd.northeastern.edu/program/creative-practice-leadership/>)

Through a series of four transdisciplinary core courses and four discipline-weighted, student-selected electives in the performing and visual arts, the MS Creative Practice Leadership offers a two-semester, intensive, Masters-level program of training in and exploration of new approaches to leadership in the fields of critical creative practice, cultural entrepreneurship, and innovation in the arts and entertainment industries. Grounded in a broadly interdisciplinary approach, the goal is to enable administrators and practitioners in the creative professions to become transformational leaders and change agents for a rapidly evolving cultural environment.

The MS Creative Practice Leadership engages administration, curation, advocacy and other forms of cultural communication and intermediation from the point of view that creative practice leadership must become more than an outwardly successful business or administrative exercise; rather, such leadership must re-examine past assumptions about, and envision new parameters for how, success is defined. The ethos underlying the design of courses in this program is that leadership in the arts and creative industries brings a responsibility to the progress, vitality and sustainability of the world that those creative enterprises seek to embrace, a responsibility that requires critical thinking and deeply thoughtful exploration, along with the skills necessary for implementation.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

## Extended Realities, MS

### Overview

The Master of Science in Extended Realities seeks to open the new technologies, methods, practices, and skills of extended realities (XR) to students. XR includes augmented, virtual, and mixed reality. XR technologies have seen explosive growth over the last decade of mixed reality.

This program is structured to allow students flexibility and specialization to choose a path that matches their interest. Students have the opportunity to focus on a single concentration area or a mix of course electives depending upon their professional background and aspirations. The College of Arts, Media and Design partners closely with Bouvé College of Health Sciences, the College of Engineering, the D'Amore McKim School of Business, and Khoury College of Computer Sciences to offer additional concentrations that provide breadth and depth of knowledge.

The Master of Science in Extended Realities welcomes students from a diverse range of backgrounds because of the applications of XR technology used in many disciplines and industries, including medicine, business, entertainment, architecture, and journalism.

Some concentrations may require a technical background and are noted in the requirements.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Extended Reality Core

Code	Title	Hours
<b>Required Courses</b>		
EXRE 5010 and EXRE 5011	Immersive Media: Extended Realities (XR) History, Theory, and Impact and Seminar for EXRE 5010	5
EXRE 5020	Developing Extended Realities (XR)	4
EXRE 5030	Designing Extended Realities (XR)	4
EXRE 6500	Extended Realities (XR) Studio	4
EXRE 7500 or EXRE 7990	Extended Realities (XR) Project Thesis	4
GSND 5122	Business Models in the Game Industry	1

#### Extended Reality Concentration Options

Complete one of the following options:

- Artificial Intelligence (p. 158)
- Data Visualization (p. 159)
- Entrepreneurship (p. 159)
- Experience Design (p. 159)
- Game Design (p. 159)
- Game Science (p. 160)
- Human Computer Interaction (p. 160)
- Human Movement Science (p. 160)
- Information Ethics (p. 160)
- Marketing (p. 161)
- Media Innovation and Advocacy (p. 161)
- Public History (p. 161)
- Wireless Networking (p. 161)
- XR Design (p. 162)
- XR Development (p. 162)

#### Program Credit/GPA Requirements

34 total semester hours required. Some concentrations may require more than 34 semester hours to complete.

Minimum 3.000 GPA required

#### ARTIFICIAL INTELLIGENCE CONCENTRATION

Code	Title	Hours
Requires a background in computer science.		
Complete three of the following:		12

CS 5097	Mixed Reality	
CS 5100	Foundations of Artificial Intelligence	
CS 6120	Natural Language Processing	
CS 6140	Machine Learning	

**DATA VISUALIZATION CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
ARTG 5150 and ARTG 5151	Information Visualization Principles and Practices and Information Design Critique Seminar	4
ARTG 5330	Visualization Technologies 1: Fundamentals	4
<b>Electives</b>		
Complete 4 semester hours from the following:		4
ARTG 5310	Visual Cognition	
ARTG 6110	Information Design Theory and Critical Thinking	
ARTG 6330	Information Design Mapping Strategies	

**ENTREPRENEURSHIP CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
INNO 6200	Enterprise Growth and Innovation	3
<b>Electives</b>		
Complete 9 semester hours from the following:		9
ENTR 6210	Managing Operations in Early Stage Ventures	
ENTR 6212	Business Planning for New Ventures	
ENTR 6214	Social Enterprise	
ENTR 6218	Business Model Design and Innovation	
ENTR 6240	Emerging and Disruptive Technologies	
ENTR 6241	Entrepreneurial Marketing and Selling	
ENTR 6250	Lean Design and Development	
ENTR 6300	Managing a Technology-Based Business	
GE 5030	Iterative Product Prototyping for Engineers	
INNO 6230	Platform Innovation	
MKTG 6214	New Product Development	

**EXPERIENCE DESIGN CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
ARTG 5610	Design Systems	4
ARTG 6310	Design for Behavior and Experience	4
<b>Electives</b>		
Complete 4 semester hours from the following:		4
ARTG 5600	Experience Design Studio 1: Principles	
ARTG 5620	Notational Systems for Experience	
ARTG 5640	Prototyping for Experience Design	

**GAME DESIGN CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
GSND 5110 and GSND 5111 and GSND 5112	Game Design and Analysis and Seminar for GSND 5110 and Recitation for GSND 5110	5
<b>Electives</b>		
Complete 8 semester hours from the following:		8
GSND 6000	Advanced Topics in Game Design	

GSND 6240	Exploratory Concept Design	
GSND 6250	Spatial and Temporal Design	

**GAME SCIENCE CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
GSND 5110 and GSND 5111 and GSND 5112	Game Design and Analysis and Seminar for GSND 5110 and Recitation for GSND 5110	5
<b>Electives</b>		
Complete at least 8 semester hours from the following:		8
GSND 6001	Advanced Topics in Game Science	
GSND 6330 and GSND 6331	Player Experience and Recitation for GSND 6330	
GSND 6340	Biometrics for Design	
GSND 6350	Data-Driven Player Modeling	

**HUMAN COMPUTER INTERACTION CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
CS 5340	Computer/Human Interaction	4
<b>Electives</b>		
Complete 8 semester hours from the following:		8
ARTG 5710	Design for Dignity	
CS 5097	Mixed Reality	
CS 5170	Artificial Intelligence for Human-Computer Interaction	
CS 6350	Empirical Research Methods	
CS 7390	Special Topics in Human-Centered Computing	
GSND 6340	Biometrics for Design	

**HUMAN MOVEMENT SCIENCE CONCENTRATION**

Code	Title	Hours
<b>Required Courses</b>		
PT 7001	Core Concepts in Rehabilitation Science and Research	3
PT 7005	Experimental Design and Applied Statistics	4
<b>Electives</b>		
Complete 7–8 semester hours from the following:		7-8
PT 5133	Kinesiology	
PT 5150	Motor Control, Development, and Learning	
PT 5321	Applications of Biomechanics in Human Function and Movement	
PT 5410	Functional Human Neuroanatomy	
PT 7010	Measurement and Analysis of Human Movement and Bioinstrumentation

## Urban Planning and Policy, MS

The Master of Science in Urban Planning and Policy program trains leaders interested in building just and sustainable solutions to today's critical urban problems. Students in the program develop the theoretical and analytical tools to understand contemporary challenges of social, racial, and environmental injustice in cities and urban regions. They develop professional tools to work effectively in the realms of planning, policy, politics, and advocacy to impact urban challenges, including affordable housing provision, equitable and sustainable economic growth, sustainable transportation, and climate change adaptation and mitigation. This innovative program combines the expertise in urban planning and policy analysis data analytics of the School of Public Policy and Urban Affairs with expertise in physical planning, design, and data visualization at the School of Architecture. The core curriculum of the program provides students with a solid foundation in essential skills and concepts, including techniques of effective community engagement, research design and statistics, economic analysis, legal foundations of urban planning and policy, and the history of urban development and urban planning. Students also have the opportunity to develop substantial expertise in a specialization area, including urban analytics, urban sustainability and resilience, urban design and physical planning, and urban development policy and planning.

The optional cooperative education experience (co-op) is available to eligible students. Cooperative education is central to both the Northeastern experience and to the College of Social Sciences and Humanities experiential liberal arts framework. Northeastern's signature co-op ecosystem provides qualified master's students with six-month work experiences in businesses, nonprofits, and government agencies in Boston and across the United States. Graduate students take their work from campus learning spaces, apply their knowledge outside of the classroom, and then bring knowledge and skills gained in community learning spaces back to our campus learning spaces during the cocurricular experiential integration course.

In addition to the co-op option, students in the program have opportunities to gain experience in the application of their knowledge and skills via internships, class projects, and a capstone research report. They graduate prepared for careers working for state and local government, federal agencies, community development corporations and other nonprofit organizations, research institutes, and as private-sector planning consultants.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
<b>Planning and Policy</b>		
PPUA 6201	The 21st-Century City: Urban Opportunities and Challenges in a Global Context	4
PPUA 6502	Economic Analysis for Policy and Planning	4
SUEN 6340	Topics in Urban Environmental Design	4
<b>Research Design</b>		
INSH 6300	Research Methods in the Social Sciences	4
<b>Quantitative Techniques</b>		
Students in the urban analytics focus area are encouraged to take INSH 5301.		
Choose one from the following:		4
INSH 5301	Introduction to Computational Statistics	
INSH 6500	Statistical Analysis	
<b>Planning Law</b>		
Choose one from the following:		2-4
LPSC 5201	Law and the City	
PPUA 5201	Urban Planning and the Law	
<b>Planning and Social Justice</b>		
Choose one from the following:		2-4
PPUA 5233	Contemporary Community Development	
PPUA 5235	Participatory Community Planning Methods	
PPUA 6219	Race, Justice, and Belonging in Planning Practice	

#### Focus Areas

Complete one of the following focus areas:

- Urban Design and Physical Planning (p. 164)
- Urban Analytics (p. 164)
- Sustainability and Resilience (p. 164)
- Urban Development Policy and Planning (p. 165)

**URBAN DESIGN AND PHYSICAL PLANNING**

### Optional Co-op Experience

Code	Title	Hours
Requires two consecutive semesters of Co-op Work Experience and Experiential Integration:		2
PPUA 6964 and INSH 6864	Co-op Work Experience and Experiential Integration	

### Program Credit/GPA Requirements

48 total semester hours required (50 with optional co-op)

Minimum 3.000 GPA required

## Arts Administration, Graduate Certificate

Today's arts sector is more vital and dynamic than ever, flourishing in both arts institutions and "non-hierarchical organizations," from artist-run spaces to community organizations. This context, paired with changes in the funding climate over the past 30 years, has generated a need to transform leadership training in the arts. Creative thinkers must be equipped with administrative, analytical, entrepreneurial, and technological skill sets to work within the complex, interdependent arts and cultural ecosystem.

The **Graduate Certificate in Arts Administration** offers an interdisciplinary graduate program focused on leadership innovation in performance, visual arts, cultural, and community organizations.

The Graduate Certificate in Arts Administration challenges students to create diverse, viable, and sustainable arts and culture projects and organizations; to use entrepreneurial practices in order to create transformation; to develop and deploy new arts and culture sector-focused business and analytic skills; and to design innovative planning and engagement strategies. Course and project work embeds experiential opportunities to explore and demonstrate transformational arts management approaches.

The required curriculum includes three core and one directed elective for a total of 12 credit hours. All courses can be completed online.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
AACE 6000	Arts and Culture Organizational Leadership	3
AACE 6010	Planning for Arts and Cultural Organizations	3
AACE 6020	Experiential Study in Arts Administration	3

#### Elective

Code	Title	Hours
Complete one of the following:		
AACE 6110	Information Technology for Arts and Cultural Organizations	3
AACE 6200	Programming and Community Engagement for Cultural Entrepreneurs	
AACE 6210	Building Value Through Cultural Enterprise (Building Value through Cultural Enterprise)	

### Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required

## Cultural Entrepreneurship, Graduate Certificate

Cultural entrepreneurs combine their passion for creative and cultural products and programs with creative, out-of-the-box thinking to forge the resilience of the arts sectors and the wider communities they serve. Cultural entrepreneurs employ innovative approaches to audience engagement – like a roving theater company, pop-up museum, or a smartphone app for artistic collaboration – to deliver artistic value to wide and diverse audiences and make a positive social, environmental, and economic impact. Today's cultural entrepreneurs operate in diverse professional environments, from consulting for organizational transformation to launching a creative startup. By understanding community impacts and activating a range of cultural and creative experiences, cultural entrepreneurs play a crucial role in ensuring the vitality of artistic engagement, advancing community goals, and strengthening society.

The **Graduate Certificate in Cultural Entrepreneurship** empowers students with a critical, creative perspective on arts programming and management and a myriad of creative management tools that harness new technologies for artistic engagement.

The Graduate Certificate in Cultural Entrepreneurship offers an interdisciplinary program to create diverse and viable projects and organizations for artistic experience and positive social impact. The program prepares students to become innovators in a range of artistic and cultural disciplines, from music, visual art, theater, and dance to community-building and transformation. The curriculum offers students the opportunity to identify opportunities for evolution in the arts and cultural sectors and to develop critical, creative practices; leadership acumen; and skill sets in arts management, strategic planning, and performance analysis to conceive and implement creative, cultural programming for community engagement and positive impact.

The program learning objectives provide students with opportunities to:

- Develop an understanding of methods and tools used to conceptualize, scope, pilot, evaluate, iterate and launch cultural entrepreneurship projects;
- Align creative practice and arts enterprise strategies with opportunities, challenges and resources to achieve desired impact;
- Apply communication, engagement and evaluation techniques to develop and sustain diverse audiences and stakeholder relationships;
- Engage in critical analysis of the work of peers and industry leaders by analyzing and contextualizing the quality, viability and sustainability of culturally-driven entrepreneurship.

The required curriculum includes three core courses and one directed elective for a total of 12 semester hours. All courses can be completed online.

### Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

#### Core Requirements

Code	Title	Hours
AACE 6200	Programming and Community Engagement for Cultural Entrepreneurs	3
AACE 6210	Building Value Through Cultural Enterprise (Building Value through Cultural Enterprise)	3
AACE 6220	Innovative Approaches to Audience Engagement (Experiential Study in Cultural Entrepreneurship)	3

#### Elective

Code	Title	Hours
Complete one of the following:		3
AACE 6000	Arts and Culture Organizational Leadership	
AACE 6010	Planning for Arts and Cultural Organizations	
AACE 6110	Information Technology for Arts and Cultural Organizations	
ENTR 6212	Business Planning for New Ventures

Website ([https://damore-mckim.northeastern.edu/?utm\\_medium=website&utm\\_source=catalog](https://damore-mckim.northeastern.edu/?utm_medium=website&utm_source=catalog))

**David De Cremer, PhD**, Dunton Family Dean

**Kate E. Klepper, MBA**, Associate Dean of Graduate Programs

Northeastern University's D'Amore-McKim School of Business has built and sustained a legacy of excellence for 100 years. Our graduate programs prepare leaders with a curriculum focused on technology, data analytics, and uniquely human skills like critical thinking, creativity, and an entrepreneurial mindset.

D'Amore-McKim is part of a thriving global network, attracting some of the best and brightest faculty across the business world. Many are founders of tech startups and respected management leaders, and our students benefit daily from their research and expertise.

Experience-fueled learning is at the heart of everything we do. Our students do more than master skills in their chosen business field. They put the knowledge gained from a demanding curriculum to work as they apply what they've learned to authentic business challenges. This educational model sets us apart.

## Master of Science

Northeastern University's D'Amore-McKim School of Business develops leaders and thinkers who will guide the future of work in an ever-evolving digital landscape. D'Amore-McKim master's degree programs help students build specialized expertise and gain a competitive advantage.

Our innovative master's programs—taught with D'Amore-McKim's focus on the tech economy—prepare students to excel in a data-driven business world. Students learn from our respected business faculty, many of whom are consultants, founders of tech start-ups, and respected management leaders. Students study alongside diverse classmates who share their passions and interests.

Students enroll in D'Amore-McKim's master's degrees for full-time or part-time study.

## Business Analytics, MS

Northeastern University D'Amore-McKim School of Business's Master of Science in Business Analytics ([https://damore-mckim.northeastern.edu/programs/ms-business-analytics/?utm\\_source=internal-referral&utm\\_medium=nu-catalog&utm\\_campaign=msba](https://damore-mckim.northeastern.edu/programs/ms-business-analytics/?utm_source=internal-referral&utm_medium=nu-catalog&utm_campaign=msba)) prepares students to lead in a business world driven by Big Data.

### Make Data-Driven Business Decisions

Students build the skills to know what data to analyze and understand how to leverage that data for strategic decision making. Classwork provides exposure to data mining, statistical and quantitative analysis, multivariate testing, and predictive modeling. Students explore how to build sales, enhance marketing, or strengthen a company's infrastructure.

### Integrate Classroom and Professional Experiences

Through in-class case studies and a capstone project, professors share real company data so that students apply their knowledge to actual business challenges. They gain unique perspectives as they learn from renowned experts who have led through times of rapid change. Through an optional graduate co-op, students translate ideas into action as they complete a project for an organization.

### Complete the Degree in as Few as 12 Months

Students complete seven courses throughout the first two semesters and an optional career management class developed by the Graduate Career Center advisor. Students may complete their final three courses over the summer term or can extend their studies and complete their program in the fall term.

Students enroll in this 30-semester-hour master's degree program for full-time study.

## Program Requirements

### Core Requirements

Code	Title	Hours
MISM 6200	Introduction to Business Analytics	3
MISM 6202	Foundations of Data Analysis for Business	3
MISM 6205	Data Wrangling for Business	3

## International Management, MS

Northeastern University D'Amore-McKim School of Business's Master of Science in International Management program is designed to prepare students to bridge local and international operations quickly and confidently.

### Develop a Global Mindset

Students have an opportunity to develop critical thinking skills to handle the challenges organizations and businesses face when operating across borders and cultures. Core courses focus on cultural agility, leadership, and workforce management. Students explore topics ranging from international trade to globalization of the world economy.

### Integrate Classroom and Professional Experiences

Students obtain real-world experiences that help them to gain a fresh perspective while using relevant skills. They apply their knowledge to actual business challenges through class projects.

Students can gain experience tackling real business issues faced by a company aligned with their career aspirations through the "Make Your Case" consulting program. Students build storytelling and case-writing skills while gaining inside exposure to their chosen industry.

Students may enroll in this 30-semester-hour master's degree program for full-time and part-time study.

Minimum 3.000 GPA required

## Management, MS

### Overview

Northeastern University's D'Amore-McKim School of Business MS in Management ([https://damore-mckim.northeastern.edu/programs/ms-x/?utm\\_source=internal-referral&utm\\_medium=nu-catalog&utm\\_campaign=msx](https://damore-mckim.northeastern.edu/programs/ms-x/?utm_source=internal-referral&utm_medium=nu-catalog&utm_campaign=msx)) program enables students to gain the business knowledge and specialized expertise needed in today's digitally driven economy.

Students enroll in this 30-semester-hour master's degree program for full-time, part-time, or hybrid study. There are four ways to earn this master's degree:

### MS in Management: Boston Campus

The MS program in management on our Boston campus allows students to personalize all aspects of their degree, including core coursework, to match their specific professional goals. Four core classes each represent a key domain: managing organizations, data-driven management, strategy and growth, and finance and operations. Students without a background in these areas have an opportunity to build foundational skills, and those with previous experience expand their knowledge in higher-level courses.

Students may focus their learning by selecting a market-aligned concentration. They'll personalize their program by selecting electives from the entire portfolio of graduate-level courses taught by D'Amore-McKim's industry-leading faculty. Or they may choose to take one elective from a diverse list of eligible graduate courses offered by other Northeastern colleges.

### MS in Management: Oakland Campus

#### CONCENTRATION IN ENTREPRENEURSHIP

The MS program in management on our Oakland campus helps students build the expertise and perspective to succeed in a new business venture. All students take the same entrepreneurship-focused core coursework fostering networking within the cohort. Students have an opportunity to learn to design winning competitive strategies, from product and service development to venture financing, business plans, go-to-market strategy, and managing high-performance teams. Students also complete a four-course concentration in entrepreneurship to deepen their learning.

By studying in the Bay Area, students have access to some of the most successful tech and social ventures, allowing them to build their network while gaining the tangible skills to launch their own enterprise.

### MS in Management: Online Only

#### CONCENTRATION IN DIGITAL TRANSFORMATION IN HEALTHCARE

#### CONCENTRATION IN HEALTHCARE ADMINISTRATION

The online MS program in management focuses on healthcare and leverages a unique partnership between Northeastern University and the Mayo Clinic College of Medicine and Science. Coursework provides a deep understanding of the technical skills, regulatory frameworks, and managerial competencies necessary to join the next generation of healthcare pioneers.

Students choose one of two concentrations: digital transformation in healthcare or healthcare administration. Digital transformation in healthcare is designed for current healthcare executives who want to leverage emerging technologies better. Healthcare administration offers business and healthcare knowledge tailored for those entering the industry.

### MS in Management: Online with On-Campus Residencies

#### CONCENTRATION IN STRATEGIC TECHNOLOGY LEADERSHIP

The MS program in management with a concentration in strategic technology leadership is designed to prepare executives and senior leaders to harness digital technology and innovation. They develop expertise in solving challenges with cutting-edge technologies and deepen their knowledge of strategies for managing technology adoption.

Students develop a project business plan under the guidance of a seasoned executive mentor. Classes are hybrid, with live online interactive courses and three in-person residencies in Boston or London.

### Program Requirements

#### Core Requirements

Code	Title	Hours
<b>Managing Organizations</b>		
In consultation with advisor, complete 3 graduate-level semester hours for which prerequisites have been met. Choose from the following:		
HRMG 6200	Managing People and Organizations	3
HRMG 6212	Creating an Innovative Organization	
HRMG 6223	Global Talent Management	
INTB 6226	Becoming a Global Leader	
MGMT 6213	Managing Ethics in the Workplace and Marketplace	
MGMT 6214	Negotiations	

MGMT 6225	Sustainability and Leadership	
MGMT 6226	Sustainability and the Business Environment	
<b>Data-Driven Management</b>		
In consultation with advisor, complete 3 graduate-level semester hours for which prerequisites have been met. Choose from the following:		3
ACCT 6200	Financial Reporting and Managerial Decision Making 1	
MISM 6200	Introduction to Business Analytics	
MISM 6202	Foundations of Data Analysis for Business	
MISM 6203	Business Analytics Methods	
MISM 6210	Information Visuals and Dashboards for Business	
MISM 6212	Data Mining and Machine Learning for Business	
MKTG 6200	Creating and Sustaining Customer Markets	
MKTG 6234	Marketing Analytics	
SCHM 6215	Supply Chain Analytics	
STRT 6210	Workforce Metrics and Analytics	
<b>Strategy and Growth</b>		
In consultation with advisor, complete 3 graduate-level semester hours for which prerequisites have been met. Choose from the following:		3
INNO 6200	Enterprise Growth and Innovation	
INNO 6222	Competing in Dynamic, Innovation-Driven Markets	
INNO 6225	Acquisitions, Alliances, and Growth	
INTB 6200	Managing the Global Enterprise	
MKTG 6216	Market Focused Strategy	
SCHM 6213	Global Supply Chain Strategy	
STRT 6200	Strategic Decision Making in a Changing Environment	
<b>Finance and Operations</b>		
In consultation with advisor, complete 3 graduate-level semester hours for which prerequisites have been met. Choose from the following:		3
FINA 6309	Foundations of Accounting and Finance	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	
SCHM 6201	Operations and Supply Chain Management	
SCHM 6214	Sourcing and Procurement	
SCHM 6221	Sustainability and Supply Chain Management	
SCHM 6223	Managing Healthcare Supply Chain Operations	

## Concentration Options

Students may complete one of the following concentrations. Not all concentrations are available at all locations; please refer to your advisor or admissions coach for the course availability each semester at your location. Courses taken to fulfill concentrations may be used toward the elective section below.

- Accounting Analytics (p. 177)
- Analytics (p. 177)
- Brand Management
- Business Management for Healthcare (p. 178)
- Corporate Finance
- Corporate Innovation
- Digital Transformation in Healthcare
- Entrepreneurship (p. 179)
- Healthcare Administration (p. 179)
- International Business (p. 180)
- Investments (p. 180)
- Leading People and Organizations (p. 180)
- Marketing (p. 181)
- Marketing Analytics (p. 181)
- Operations and Supply Chain Management (p. 181)

- Public Health (p. 182)
- Strategic Technology Leadership (p. 182)
- Sustainability and Business (p. 182)

## Electives

Code	Title	Hours
In consultation with advisor, complete 18 graduate-level semester hours for which prerequisites have been met. Choose from the following subject codes:		
ACCT, BUSN, ENTR, FINA, HRMG, INNO, INTB, MECN, MGMT, MKTG, MISM, SCHM, STRT		
In consultation with advisor, students may also select an interdisciplinary elective, for which prerequisites have been met, offered in partnership with other Northeastern University colleges. Choose from the following:		
AACE 6000	Arts and Culture Organizational Leadership	
ARTG 5150	Information Visualization Principles and Practices	
ARTG 5151	Information Design Critique Seminar	
ARTG 5330	Visualization Technologies 1: Fundamentals	
ARTG 5600	Experience Design Studio 1: Principles	
ARTG 5610	Design Systems	
ARTG 5620	Notational Systems for Experience	
ARTG 5640	Prototyping for Experience Design	
ARTG 6110	Information Design Theory and Critical Thinking	
ARTG 6310	Design for Behavior and Experience	
ARTG 6330	Information Design Mapping Strategies	
BINF 6200	Bioinformatics Programming	
BINF 6308	Bioinformatics Computational Methods 1	
BINF 6309	Bioinformatics Computational Methods 2	
BIOT 5120	Foundations in Biotechnology	
BIOT 5219	The Biotechnology Enterprise	
BIOT 5400	Scientific Information Management for Biotechnology Managers	
BIOT 5631	Cell Culture Processes for Biopharmaceutical Production	
BIOT 6214	Experimental Design and Biostatistics	
CS 5100	Foundations of Artificial Intelligence	
CS 5200	Database Management Systems	
CY 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
DS 5110	Introduction to Data Management and Processing	
ECON 5140	Applied Econometrics	
GE 5030	Iterative Product Prototyping for Engineers	
GE 5100	Product Development for Engineers	
GSND 5110	Game Design and Analysis	
GSND 6320	Psychology of Play	
GSND 6340	Biometrics for Design	
GSND 6350	Data-Driven Player Modeling	
HINF 5101	Introduction to Health Informatics and Health Information Systems	
HINF 5105	The American Healthcare System	
HINF 6202	Business of Healthcare Informatics	
HINF 6205	Creation and Application of Medical Knowledge	
IE 5617	Lean Concepts and Applications	
IE 5640	Data Mining for Engineering Applications	
IE 6200	Engineering Probability and Statistics	
IE 6600	Computation and Visualization for Analytics	
IE 7280	Statistical Methods in Engineering	
IE 7285	Statistical Quality Control	
IE 7374	Special Topics in Industrial Engineering	
INSH 5301	Introduction to Computational Statistics	
INSH 5302	Information Design and Visual Analytics	

JRNL 5311	Design for Storytelling
JRNL 5400	Media and Advocacy in Theory and Practice
JRNL 6305	Topics
JRNL 6340	Fundamentals of Digital Journalism
JRNL 6341	Telling Your Story with Data
ME 5645	Environmental Issues in Manufacturing and Product Use
PHIL 5001	Global Justice
PHIL 5005	Information Ethics
PHIL 5010	AI Ethics
PHTH 5232	Evaluating Healthcare Quality
PHTH 5234	Economic Perspectives on Health Policy

## Program Credit/GPA Requirements

30 total semester hours required

Minimum 3.000 GPA required

### CONCENTRATION IN ACCOUNTING ANALYTICS

Code	Title	Hours
<b>Required</b>		
MISM 6200	Introduction to Business Analytics	3
MISM 6202	Foundations of Data Analysis for Business	3
MISM 6205	Data Wrangling for Business	3
<b>Electives</b>		
In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:		9
ACCT 6203	Business Entity Taxation	
ACCT 6205	Auditing in a Big Data Environment	
ACCT 6207	Contemporary and Emerging Issues in Financial Reporting	
ACCT 6217	Corporate Governance, Ethics, and Financial Reporting	
ACCT 6231	Corporations and Shareholders	
ACCT 6235	Partners and Partnerships	
MISM 6210	Information Visuals and Dashboards for Business	

### CONCENTRATION IN ANALYTICS

<b>Required</b>		
MISM 6200	Introduction to Business Analytics	3
<b>Electives</b>		
In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following:		9
MISM 6202	Foundations of Data Analysis for Business	
MISM 6205 or MISM 6203	Data Wrangling for Business Business Analytics Methods	
MISM 6210	Information Visuals and Dashboards for Business	
MISM 6212	Data Mining and Machine Learning for Business	
MISM 6213	Business Information Design, Quality, and Strategy	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	
MKTG 6234	Marketing Analytics	
SCHM 6215	Supply Chain Analytics	
STRT 6210	Workforce Metrics and Analytics	

### CONCENTRATION IN BRAND MANAGEMENT

Code	Title	Hours
<b>Required</b>		
MKTG 6200	Creating and Sustaining Customer Markets	3

MKTG 6223	Brand and Advertising Management	3
-----------	----------------------------------	---

**Electives**

In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:	6
--	---

MKTG 6210	Marketing Research	
MKTG 6214	New Product Development	
MKTG 6218	Managing Customer Engagement in a Service World	
MKTG 6226	Consumer Behavior	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	

**CONCENTRATION IN BUSINESS MANAGEMENT FOR HEALTHCARE**

Code	Title	Hours
<b>Required</b>		
FINA 6220	Healthcare Finance	3
or SCHM 6223	Managing Healthcare Supply Chain Operations	
HINF 5105	The American Healthcare System	3
HRMG 6220	Health Organization Management	3
STRT 6220	Strategic Management for Healthcare Organizations	3

**Optional Electives**

Note: Electives are not required; the following course(s) are suggested beyond the concentration:

ENTR 6214	Social Enterprise	
FINA 6220	Healthcare Finance	
HINF 5101	Introduction to Health Informatics and Health Information Systems	
HINF 6202	Business of Healthcare Informatics	
HINF 6205	Creation and Application of Medical Knowledge	
MGMT 6214	Negotiations	
MKTG 6218	Managing Customer Engagement in a Service World	
MKTG 6226	Consumer Behavior	
PHTH 5232	Evaluating Healthcare Quality	
PHTH 5234	Economic Perspectives on Health Policy	
SCHM 6223	Managing Healthcare Supply Chain Operations	

**CONCENTRATION IN CORPORATE FINANCE**

Code	Title	Hours
<b>Required</b>		
FINA 6200	Value Creation through Financial Decision Making	3
FINA 6205	Financial Strategy	3

**Electives**

In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:	6
--	---

FINA 6204	International Financial Management	
FINA 6213	Investment Banking	
FINA 6214	Mergers and Acquisitions	
FINA 6215	Business Turnarounds	
FINA 6216	Valuation and Value Creation	
FINA 6260	Entrepreneurial Finance and Venture Capital	

**CONCENTRATION IN CORPORATE INNOVATION**

Code	Title	Hours
<b>Electives</b>		

In consultation with advisor, complete 12 graduate-level semester hours for which prerequisites have been met. Choose from the following:	12
---	----

ARTG 5610	Design Systems	
GE 5100	Product Development for Engineers	
HRMG 6212	Creating an Innovative Organization	
HRMG 6280	The Human Side of Innovation	

INNO 6200	Enterprise Growth and Innovation
INNO 6217	Lean Innovation
INNO 6222	Competing in Dynamic, Innovation-Driven Markets
INNO 6225	Acquisitions, Alliances, and Growth
MGMT 6280	Innovation for Next-Generation Products and Systems

### CONCENTRATION IN DIGITAL TRANSFORMATION IN HEALTHCARE

Code	Title	Hours
------	-------	-------

To earn the Concentration in Digital Transformation in Healthcare, students must complete the following four core courses of the core curriculum of this program:

MISM 6200	Introduction to Business Analytics
MGMT 6213	Managing Ethics in the Workplace and Marketplace
SCHM 6223	Managing Healthcare Supply Chain Operations
STRT 6220	Strategic Management for Healthcare Organizations

#### Required

HINF 5101	Introduction to Health Informatics and Health Information Systems	3
HINF 6404	Patient Engagement Informatics and Analytics	3
INNO 6200	Enterprise Growth and Innovation	3
MGSC 6281	Service Innovation and Management	3

#### Electives

In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:

FINA 6220	Healthcare Finance	6
or FINA 6309	Foundations of Accounting and Finance	
HINF 5105	The American Healthcare System	
HRMG 6220	Health Organization Management	
MISM 6210	Information Visuals and Dashboards for Business	
MISM 6212	Data Mining and Machine Learning for Business	

### CONCENTRATION IN ENTREPRENEURSHIP

Code	Title	Hours
------	-------	-------

#### Electives

In consultation with advisor, complete 12 graduate-level semester hours for which prerequisites have been met. Choose from the following:

ENTR 6210	Managing Operations in Early Stage Ventures	12
ENTR 6212	Business Planning for New Ventures	
ENTR 6214	Social Enterprise	
ENTR 6218	Business Model Design and Innovation	
ENTR 6219	Financing Ventures from Early Stage to Exit	
ENTR 6240	Emerging and Disruptive Technologies	
ENTR 6241	Entrepreneurial Marketing and Selling	
ENTR 6250	Lean Design and Development	
ENTR 6340	The Technical Entrepreneur as Leader	
FINA 6260	Entrepreneurial Finance and Venture Capital	
GE 5030	Iterative Product Prototyping for Engineers	
INNO 6230	Platform Innovation	
MKTG 6214	New Product Development	

### CONCENTRATION IN HEALTHCARE ADMINISTRATION

Code	Title	Hours
------	-------	-------

To earn the Concentration in Healthcare Administration, students must complete the following four core courses of the core curriculum of this program:

FINA 6309	Foundations of Accounting and Finance
or SCHM 6223	Managing Healthcare Supply Chain Operations
MISM 6200	Introduction to Business Analytics
MGMT 6213	Managing Ethics in the Workplace and Marketplace

STRT 6220	Strategic Management for Healthcare Organizations	
<b>Required</b>		
HRMG 6200	Managing People and Organizations	3
HRMG 6223	Global Talent Management	3
INNO 6200	Enterprise Growth and Innovation	3
MGMT 6214	Negotiations	2-3
<b>Electives</b>		
In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:		6
FINA 6309	Foundations of Accounting and Finance (If not taken towards concentration core)	
HINF 5101	Introduction to Health Informatics and Health Information Systems	
HINF 5105	The American Healthcare System	
HINF 6404	Patient Engagement Informatics and Analytics	
HRMG 6220	Health Organization Management	
HRMG 6230	Leading a Diverse and Inclusive Organization	
MGSC 6281	Service Innovation and Management	
MISM 6210	Information Visuals and Dashboards for Business	
MISM 6212	Data Mining and Machine Learning for Business	
SCHM 6223	Managing Healthcare Supply Chain Operations (If not taken towards concentration core)	
STRT 6210	Workforce Metrics and Analytics	

**CONCENTRATION IN INTERNATIONAL BUSINESS**

Code	Title	Hours
<b>Required</b>		
INTB 6200	Managing the Global Enterprise	3
<b>Electives</b>		
In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following:		9
INTB 6212	Cultural Aspects of International Business	
INTB 6226	Becoming a Global Leader	
INTB 6230	Global Field Study	
INTB 6249	Digitization of International Business	

**CONCENTRATION IN INVESTMENTS**

Code	Title	Hours
<b>Required</b>		
FINA 6200	Value Creation through Financial Decision Making	3
FINA 6203	Investment Analysis	3
<b>Electives</b>		
In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:		6
FINA 6211	Financial Risk Management	
FINA 6212	Fixed Income Securities and Risk	
FINA 6213	Investment Banking	
FINA 6217	Real Estate Finance and Investment	
FINA 6219	Portfolio Management	

**CONCENTRATION IN LEADING PEOPLE AND ORGANIZATIONS**

Code	Title	Hours
<b>Required</b>		
HRMG 6200	Managing People and Organizations	3
<b>Electives</b>		
In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following:		9
HRMG 6212	Creating an Innovative Organization	

HRMG 6218	Great Companies
HRMG 6220	Health Organization Management
HRMG 6223	Global Talent Management
MGMT 6214	Negotiations
STRT 6210	Workforce Metrics and Analytics

**CONCENTRATION IN MARKETING**

Code	Title	Hours
<b>Required</b>		
MKTG 6200	Creating and Sustaining Customer Markets	3
<b>Electives</b>		
In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following:		9
MKTG 6210	Marketing Research	
MKTG 6212	International Marketing	
MKTG 6214	New Product Development	
MKTG 6216	Market Focused Strategy	
MKTG 6218	Managing Customer Engagement in a Service World	
MKTG 6222	Digital Marketing	
MKTG 6223	Brand and Advertising Management	
MKTG 6224	B2B and Strategic Sales	
MKTG 6226	Consumer Behavior	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	
MKTG 6234	Marketing Analytics	

**CONCENTRATION IN MARKETING ANALYTICS**

Code	Title	Hours
<b>Required</b>		
MKTG 6200	Creating and Sustaining Customer Markets	3
MKTG 6234	Marketing Analytics	3
<b>Electives</b>		
In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:		6
MKTG 6210	Marketing Research	
MKTG 6216	Market Focused Strategy	
MKTG 6222	Digital Marketing	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	

**CONCENTRATION IN OPERATIONS AND SUPPLY CHAIN MANAGEMENT**

Code	Title	Hours
<b>Required</b>		
SCHM 6201	Operations and Supply Chain Management	3
SCHM 6213	Global Supply Chain Strategy	3
<b>Electives</b>		
In consultation with advisor, complete 6 graduate-level semester hours for which prerequisites have been met. Choose from the following:		6
SCHM 6211	Logistics and Transportation Management	
SCHM 6214	Sourcing and Procurement	
SCHM 6215	Supply Chain Analytics	
SCHM 6221	Sustainability and Supply Chain Management	
SCHM 6223	Managing Healthcare Supply Chain Operations	
SCHM 6224	Demand Planning and Forecasting	

**CONCENTRATION IN PUBLIC HEALTH**

Code	Title	Hours
PHTH 5120	Race, Ethnicity, and Health in the United States	3
PHTH 5212	Public Health Administration and Policy	3
PHTH 5214	Environmental Health	3
PHTH 6208	Urban Community Health Assessment	3

**CONCENTRATION IN STRATEGIC TECHNOLOGY LEADERSHIP**

Code	Title	Hours
------	-------	-------

To earn the Concentration in Strategic Technology Leadership, students must complete the following four core courses of the core curriculum of this program:

INNO 6222	Competing in Dynamic, Innovation-Driven Markets	
INTB 6226	Becoming a Global Leader	
MISM 6212	Data Mining and Machine Learning for Business	
MKTG 6230	Driving Marketing Performance: Measure, Analyze, Profit	

**Required**

Complete the following course twice: 6

INNO 6250	Integrated and Applied Technology Leadership Project	3
-----------	--	---

Complete the following:

INNO 6240	Strategic Disruption Residency 1	1
INNO 6241	Strategic Disruption Residency 2	1
INNO 6242	Strategic Disruption Residency 3	1

**Electives**

In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following: 9

ACCT, BUSN, ENTR, FINA, HRMG, INNO, INTB, MECN, MGMT, MKTG, MISM, SCHM, or STRT

Students may also select preapproved interdisciplinary electives, for which prerequisites have been met, offered in partnership with other Northeastern University colleges.

**CONCENTRATION IN SUSTAINABILITY AND BUSINESS**

Code	Title	Hours
------	-------	-------

**Required**

MECN 6200	Global Competition and Market Dominance	3
-----------	---	---

**Electives**

In consultation with advisor, complete 9 graduate-level semester hours for which prerequisites have been met. Choose from the following: 9

ENTR 6214	Social Enterprise	
ENTR 6216	Global Social Entrepreneurship and Innovation	
INTB 6217	Creating Sustainable Competitive Advantage through Global Innovation	
MECN 6205	Sustainability and the Economics of Markets	
MGMT 6225	Sustainability and Leadership	
MGMT 6226	Sustainability and the Business Environment	
SCHM 6221	Sustainability and Supply Chain Management

		<b>4</b>			

**Total Hours: 30**

<sup>1</sup> Students will take courses online but will be required to attend an on-campus residency in Boston and/or London.

## Accounting, MSA

Northeastern University D'Amore-McKim School of Business's Master of Science in Accounting is designed to prepare students for a career in the rapidly evolving accounting industry.

### Build Deep Accounting Expertise

Students build on their undergraduate accounting major and have an opportunity to gain the knowledge, skills, and credit hours needed to pursue CPA licensure and launch their careers in just seven months. Classwork deepens their expertise through advanced accounting topics, management best practices, and data analytics skills. The Board of Public Accountancy in Massachusetts has approved the program curriculum.

### Select a Track

Students may specialize in either audit or tax, guiding them toward the career that best suits their goals. The audit track offers intense exposure to ethics, auditing research, and forensic accounting. The tax track explores the intricacies of the tax industry so that students may gain a comprehensive understanding of taxation at all levels, from local to international.

### Integrate Classroom and Professional Experiences

Students have opportunities to obtain real-world experiences that help them gain a fresh perspective while using relevant skills. They apply their knowledge to actual business challenges through class projects. Students gain unique perspectives as they learn from industry-leading faculty with years of practice as both PhDs and CPAs at Big 4 and other public accounting firms.

Students enroll in this 30-semester-hour master's degree program for full-time study.
