WELCOME TO AMERICAN MEDICAL SCIENCES CENTER

It is our pleasure to introduce you to American Medical Sciences Center. Our goal is to focus on career training for an applicant's successful professional and academic future. We will always strive to present the most up-to-date learning materials in order to give our graduates the necessary tools for placement in the workforce.

STATEMENT OF HISTORY AND OWNERSHIP

American Medical Sciences Center, is a private educational California corporation, was acquired in March of 1996. Institutional approval from the Bureau for Private Postsecondary and Vocational Education was received pursuant to California educational Code 94915 and granted in May 1997. Mr. Vardan Karagezian owns the 100% of American Medical Sciences Center. The owner possesses a Master's Degree in Electronic Technology and Medical Cybernetics and has more than 20 years of experience in the field of Sonography and ultrasound.

MISSION STATEMENT

The Mission of American Medical Sciences Center is to provide innovative, quality programs that are sound in concept, implemented by a highly skilled faculty and designed to serve the needs of students to achieve their educational, professional and personal goals. Our values center on a commitment to a diverse student body and in turn the field of health care and the communities we serve. The final goal of the AMSC College is to empower its students to succeed in obtaining an entry to mid-level positions and to advance within the healthcare Industry by maintaining strong long-term employment.

OBJECTIVES

Education and training at American Medical Sciences Center are directed toward preparing students to:

- Develop technical skills, knowledge and understanding of their application;
- Develop professional attitudes and behaviors related to study and work habits;
- Develop interpersonal communication skills, self-discipline and confidence;
- Utilize modern equipment;
- Provide the most reliable job placement assistance to our graduates;
- Render continuous active participation in national, state, and legal professional organizations;
- Continue to develop courses to meet the changes in the modern technology.

LEGAL CONTROL

American Medical Sciences Center is a private postsecondary institution. It is organized and operated as a California corporation known as the American Medical Sciences Center. The College is in compliance with all local, state, and federal laws and regulations. AMSC does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, or has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et s

STATEMENT OF NON-DISCRIMINATION

AMSC does not discriminate on the basis of sex, age, physical handicap, race, or religion in its admissions to or treatment in its programs including training, placement and employment. The institution's Associate Director is the coordinator of Title IX, the Educational Amendments Act of 1972, which prohibit discrimination on the basis of sex in any education program or activity receiving Student financial assistance.

APPROVAL DISCLOSURE STATEMENT

The American Medical Sciences Center is a corporation operating in California from March 1996. The College has no pending petition in bankruptcy, is not operating as a debtor. This institution has received licensed to operate by the Bureau for Private Postsecondary Education (BPPE) pursuant to California Educational Code 94915 in 1997. An approval to operate signifies that an institution is in compliance with state standards as set forth in the Private Postsecondary Education Act. The American Medical Sciences Center is nationally accredited by the Accrediting Bureau of Health Education Schools and recognized by the United States Department of Education (USDE). This organization has received approval by the Student and Exchange Visitor Program (SEVP) authorized under Department of Homeland Security (DHS) and Department of State as an institution of higher learning for non-immigrant students visa. Students who successfully complete a course of study are awarded an appropriate diploma or degree. This college voluntarily undergoes periodic accrediting evaluations by teams of qualified examiners including subject experts and specialists in occupational education and private school administration. Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to:

INSTRUCTIONAL FACILITIES

American Medical Sciences Center, holds all its classes at 225 West Broadway, Suite 410, Glendale, CA, near the 134 freeway and easily accessible by several surface streets. More than 5,500 square feet of classroom, laboratory and office spaces are available. Each classroom and laboratory contains sufficient equipment and supplies to meet the needs of each curriculum and student. The building is equipped with heating and air conditioning systems. Entrances and exits are conveniently located so that the building can be cleared quickly and safely in an emergency. The programs are committed to preparing students to take on the responsibilities of health care providers, who will provide quality patient care, contribute to their profession and dedicate themselves, as professionals, to life-long learning. The objectives are to provide the didactic and clinical skills needed to enable the student to perform the nationwide examination requirements published or supported by nationally recognized professional organizations. The combined lecture and lab classrooms can accommodate 12 to 24 students. Our campus is equipped with appropriate instructional equipment comparable to the labor market, job demands in their chosen fields of study. All enrolled students may access the library during the regular hours of operation. The hours of library operation are 9:00 am to 5:00 pm Monday through Friday. Also, AMSC is a part of virtual library called LIRN.

DIAGNOSTIC MEDICAL SONOGRAPHY PROGRAMS EQUIPMENTS

The Programs has lecture classrooms and laboratory rooms equipped with 17 ultrasound machines. 4“ACUSON SEQUOIA 512”, 8 “GE_ F8” and 5 “DC 40” with multi-frequency Transvaginal probes, and more than 19 computers TV(s), video projectors, video sceneries, books, active obstetrical phantom, anatomical charts, white board, chairs and tables. Additionally, there are a variety of models and phantoms.

TUITION POLICY

Tuition is the major part of the cost of study and is agreed upon at the time of enrollment. The Enrollment Agreement reflects the tuition, other fees that may be applicable, and the terms of the agreement. Some part of the tuition is due and payable on the first day of class unless other arrangements have been made with the Administration. It is expected that the agreed upon terms will be honored by each student; i.e. payments will be made consistently and on time. Late fee(s) may apply to tuition payments made passed the deadline.

REGULATIONS

In attempt to reduce carbon footprint, at AMSC, during the enrollment and orientation, students are guided to electronic catalog at AMSC website and encouraged to review it prior to enrollment. General rules and regulations for AMSC concerning attendance, which are applicable to all students of the college, can be found in this Catalog. Students must be aware of all college's rules and regulations; i.e. student conduct, dress code, attendance, make-up hours, etc. Students should be aware that criteria for admission and/or graduation might differ depending upon the individual program. Students are responsible for familiarizing themselves with all rules and regulations.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The practices and procedures employed by the American Medical Sciences Center comply with the confidentiality and record availability laws of the Family Educational Rights and Privacy Act of 1974 and the Buckley Amendment. Students, parents of minors and guardians of "tax dependent" students have the right to inspect and challenge the information contained within the records for these students. Confidentiality of student and staff records is strictly protected. The college complies with Title IX of the 1972 Education Amendments, Equal Opportunity Act of 1972 (Title VII of the Civil Rights Act of 1964), Section 504, Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1993. Student information is not available to anyone without (a) a written request or release from the student, (b) a court order or appropriate government agency requirements.

STUDENT RIGHTS/GRIEVANCE PROCEDURE

Most problems or complaints that students may have with the college or its administration can be resolved through a personal meeting with the college staff. Grievances must go through chain of command; 1) college personnel, 2) Director of Programs, 3) College Associate Director/Director. The chain of command will make every reasonable effort to resolve a grievance to the satisfaction of the student. Answers to grievances will be given no more than ten days after submission of grievance. The written complaint should contain (1) the nature of the problem(s), (2) approximate date(s) that the problem(s) occurred, (3) name(s) of the individual(s) involved in the problem(s) staff and/or other students, (4) copies of important information regarding the problem(s), (5) evidence demonstrating that the institution's complaint procedure was followed prior to this point in time.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's Internet web site www.bppe.ca.gov

OCCUPATIONS TO WHICH THE COURSE OF INSTRUCTION LEAD

The Students who graduate from the DMS courses are qualified to apply for positions as Ultrasound Technologists, who perform the procedures related to General Sonography, including Vascular and Echocardiographic procedures. AMSC graduates may apply for the following certification granting organizations;

- American Registry of Radiologic Technologists (ARRT),
- American Registry for Diagnostic Medical Sonography (ARDMS)
- Cardiovascular Credentialing International (CCI)

ENROLLMENT AGREEMENT

No student may attend class without a valid student enrollment agreement. However, all tuition and other charges for the time the student was in attendance, under a valid enrollment agreement, will be honored as due or owing. The Enrollment Agreement protects the students from tuition increases for the period covered by the Agreement. It is the student's responsibility to maintain a current and valid Enrollment Agreement with the college.

DESCRIPTION OF FACULTY AND QUALIFICATIONS

Each faculty member employed by the American Medical Sciences Center must be a qualified educator. The instructor must have the necessary education in the field in which she/he is conducting instruction; i.e. possess three years of education or experience or both which will qualify the candidate for hiring consideration.

GRADUATION REQUIREMENTS

Graduation from all programs of study is accomplished by satisfactory completion of all course requirements, maintaining satisfactory attendance and a minimum grades point. Upon graduation, a student will receive a diploma in his/her program of study.

SCHOLASTIC LEVEL EXAM POLICY

The American Medical Sciences Center administers the Scholastic Level Exam test to all its students. The test is designed to measure the student's ability to be successfully trained to perform the tasks associated with the occupations to which the program of instruction is represented to lead. All students must take and pass this test. If a prospective student fails a test, a retest will be given in seven days (only two attempts are permitted within six months). The test is administered in accordance with the test's instructions, rules and time limits.

STUDENT SERVICES

The College assists students by providing them with access to programs outside the classroom. Students are provided with tutoring, career advising and placement assistance. Additional academic advising is available to all students at the college by the instructors. Students are also referred to community professionals for personal, non-academic counseling.

TECHNICAL SUPPORT

Technical support is available Monday through Friday, 9am-5pm PST. For assistance please contact: Gloria Assatryan at info@amsc.edu or Narek Parlakyan at narek@amsc.edu or call (818) 240-6900.

CLASS SIZE

Lecture classes will not exceed a ratio of one instructor/lecture to 25 students. Laboratory classes will have a ratio of one instructor to 13 students.

SCHEDULE OF CLASSES

American Medical Sciences Center classes start frequency is based on the amount of desired students interested in them (at least 13) for all programs.

COPYRIGHT POLICY

The AMSC College will comply with United States copyright law (title 17, U.S. Code) including sections relating to educational and library use. Downloading or distributing copyrighted material, e.g. documents, books, programs, videos, text, etc., without permission from the rightful owner violates the United States Copyright Act. The person using the reproduction equipment is liable for any infringement. American Medical Sciences Center will respect all copyright rights including:

- The rights of students in all material they create in and for college,
- The rights instructors have in material they created prior to being employed at the college and in material created while employed at the college.

PROGRAMS DELIVERIES

Residential / Blended

HANDICAPPED FACILITIES

The American Medical Sciences Center does provide access and accommodations for the disabled.

HOURS OF OPERATION

Monday through Friday 9:00am-6:00pm Saturdays 10:00am-1:00pm

AMSC CALENDAR

AMSC observes the following holidays during which the college will be closed:

NEW YEAR DAYS	-January	01, 02, 03
MARTIN LUTHER KING DAY	-January	18
PRESIDENT'S DAY	-February	15
ARMENIAN GENOCIDE DAY	-April	24
MEMORIAL DAY	-May	31
INDEPENDENCE DAY	-July	04, 05
LABOR DAY	-September	06
COLUMBUS DAY	-October	11
VETERANS DAY	-November	11
THANKSGIVING DAYS	-November	25 & 26
CHRISTMAS VACATION	December 23, 2021--January 03, 2022	

CLASSROOM RESPONSIBILITY

Each student is responsible for the condition of his or her classroom during the class time. Misuse of equipment will not be tolerated and may result in the student's dismissal and include billing for the damages caused on purpose. However, any accidents or breakdowns must be reported immediately. Students must understand that the condition of the classroom and equipment exists for their convenience and training; therefore, it is in the student's best interest to maintain both in good condition.

PERSONAL PROPERTY

Students are responsible for their books, uniforms and other personal items. AMSC is not responsible for any person's lost or stolen items.

CHANGE OF PERSONAL INFORMATION

Each student is responsible to notify the college of his or her new name, address, phone number, employment information (if applicable) and emergency contact person.

STUDENT RECORDS

Official records are maintained for each student from the time of enrollment. Records must be maintained for a minimum of five (5) years after the end of the institution's most recent fiscal year during which the students were last enrolled. However, student transcripts are maintained permanently.

ENGLISH AS A SECOND LANGUAGE

The American Medical Sciences Center does not provide English as a Second Language programs. No portion of a program's delivered in a language other than English.

HEALTH CARE SERVICES

AMSC does not provide health care services on the premises. Any medical emergency should be reported to the front desk immediately. These reports will be transmitted to the police, fire or emergency medical providers.

PLACEMENT SERVICES

AMSC maintains job placement assistance and will make every effort to supply employment leads to all graduates. The college receives many calls from employers requesting its graduates for career openings. **However, no guarantees are made concerning job placement** as an inducement to enroll, nor can promises be made that placement is assured upon graduation.

PAYMENT PLANS

The following payment plans apply to all students. The non-refundable \$75 registration fee is due on or before the first day of class, along with the down payment agreed to at the point of enrollment. The balance for the remaining charges of the program of study is paid in equal monthly installments during the student's enrollment period. Scheduled tuition payments will be billed monthly and mailed directly to the student's attention. Once the loan is obtained, the student has the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If any part of the tuition has been paid by the student, he/she is entitled to a refund of the moneys not paid from federal student financial aid program funds.

ADMISSIONS POLICY

As a prospective student, you must review this catalog before signing an enrollment agreement. You are also encouraged to check the College Performance Fact Sheet, which must be provided before signing an enrollment agreement. All applicants are required to complete an application form, take and pass the institution's test, which attempts to measure the applicant's aptitude to meet the educational program for which they have applied, and complete an oral interview with the admission representative of the college. AMSC does not discriminate against an applicant based on sex, religion, race, ethnic origin, age, natural origin, or handicap. A handicapped applicant will be assessed according to his or her ability to perform the essential functions required of a graduate of any particular program of study, with or without reasonable accommodations. AMSC reserves the right to refuse admission to any applicant who does not meet the institution's established criteria for admission. Prior to enrollment, any material circumstance that may adversely impact an applicant's ability to complete a program or gain employment in the field for which they are trained (e.g., criminal record, credentialing requirements for employment, etc.) are disclosed to a student, thereby ensuring the future complications in starting the training or securing job in the medical field. AMSC does not accept Ability-to-Benefit (ATB) students. The general provisions for admission to the AMSC in all programs are as follows;

RESIDENTIAL EDUCATION

ADMISSIONS REQUIREMENTS

The general provisions for admission to the AMSC in all programs are as follows:

- Be at least 17 years of age.
- Have earned a high school diploma or its equivalent, or completed an Associate level degree or higher. (presented within 90 days from the start)*
- Have an interview with an Admissions Representative.
- Present a valid government picture ID.
- Pass the Wonderlic Scholastic Level Examination (SLEQ)
- Must take part in mandatory school orientation.
- Pass a physical examination which indicates that the student is physically able to perform as a student.
- Willingness and ability to assimilate new knowledge. Working with various people on group tasks and meeting people with different backgrounds, studying abroad, or hosting an international student. Ability to collaborate, social skills, and leadership ability.

ADMISSIONS PROCEDURES

The following procedures are established for admission to AMSC;

- The prospective student is encouraged to visit AMSC website for the latest catalog.
- The applicant will make an appointment with an admissions representative.**
- Before meeting with the admission representative, the applicant will;
 - i) Complete an admissions application.
 - ii) Meet financial aid officer for qualification purposes
 - iii) Take the admissions entrance SLE or SLEQ test. The student will be considered for admission if a passing score is achieved at 16 or better.

**If in doubt, the presented high school diploma or transcripts are verified through various processes: calling the high school to verify the document's validity or searching through the list of High Schools on NCES or Federal School Code List as another source. Also, we have been working with UNIVERSAL TRANSLATION & EVALUATION SERVICES located in Sherman Oaks, CA, to ensure that foreign-graduated students' diplomas are correctly evaluated to be equivalent to U.S. High School graduation.*

***The interview will include disclosure of the completion and placement rates, a tour of the facility, and a discussion of the applicant's professional, educational, personal goals and appropriate skills(through distance education). The applicant will be asked to submit the necessary documentation for enrollment purposes*

DISTANCE EDUCATION

ADMISSIONS REQUIREMENTS

The curricula for the distance education offerings are comparable in academic rigor to educational offerings on the ground.

- Be at least 17 years of age.
- Have earned a high school diploma or its equivalent, or completed an Associate level degree or higher. (presented within 90 days from the start)*
- The applicant will make a distance meeting appointment with an admissions representative
- Present a valid government picture ID.
- Be present during an online orientation, inclusive of distance education readiness assessment, verifying hardware, software, and computer literacy requirements, and confirming the ability to be successful in a virtual classroom environment.
- Pass the Wonderlic Scholastic Level Examination (SLEQ)
- Pass a physical examination which indicates that the student is physically able to perform as a student.
- Willingness and ability to assimilate new knowledge. Working with various people on group tasks and meeting people with different backgrounds. Ability to collaborate, social skills, and leadership ability.
- The Distance Education enrollment process is conducted exclusively online and via phone conversations.

ADMISSIONS PROCEDURES

The following procedures are established for admission to AMSC;

- The prospective student is encouraged to visit AMSC website for the latest catalog.
- The applicant will make a distance meeting appointment with an admissions representative
- Before meeting with the admission representative, the applicant will;
 - i) Complete an admissions application.
 - ii) Meet financial aid officer for qualification purposes
 - iii) Take the admissions entrance SLE or SLEQ test. The student will be considered for admission if a passing score is achieved at 16 or better.

ASSIGNMENTS POLICY

Submitting all assigned work in each course is critical for successfully completing distance education courses. Assignments are due at the time and date specified in the assignment. Anything graded within a course is due by 11:59 PM PT and is one (1) day late if submitted at 12:00: AM PT the following day.

AMSC College assumes that students enrolled in our programs delivered via synchronized, blended (i.e., a combination of distance education and residential) instruction are located in the state of California. As of the printing date of this catalog, we don't accept any out-of-state students. All students, upon enrollment, must know that we conduct synchronized online classes, and at least twice per week, they have to take part in laboratory training at our Glendale campus.

PHYSICAL AND COGNITIVE TASKS

In addition to the general admissions standards described above, all programs require candidates to have particular physical and cognitive tasks in order to meet the technical standards of the profession:

- Sufficient motor functions to perform basic life support, transfer and position patients, position and operate health care equipment, and the capability to manipulate multiple objects simultaneously.
- Sufficient sensory and observation abilities in order to differentiate subtle variations in color, shape, and texture, observe patients from a distance or close at hand, hear audio and see visual alarms, and read various forms of documentation.
- Applicants must be able to perform the essential functions of the profession and meet the standards of the curriculum.

TECHNICAL TASKS

COMPUTER SKILLS

- Ability to use web browsers, various search engines, and library databases
- Ability to enter Uniform Resource Locators (URLs)
- Ability to download and save files from the Internet, install software, and use virus protection
- Be able to complete online forms; participate in discussion boards, chats, and messengers o Be able to cut or copy and paste, use spell-check, and save files in different formats.
- Be familiar with web-based email, including sending and receiving attachments
- Ability to manage files and folders (save, name, copy, move, backup, rename, delete, check properties)

TECHNICAL SPECIFICS

- Computer with at least 100MB free space, 2GB RAM, and 16 Bit sound card o Access to Internet Service – Broadband (cable/DSL recommended)
- Printer
- Keyboard, mouse/trackpad, speakers, and microphone o Internal or external webcam o Monitor that will display 1024 x 768 or 1280x720 minimum resolution, with 32-bit color graphics

SOFTWARE SPECIFICS

- Windows 8 or above, or Mac 10.10 or above
- Google Chrome 30, Firefox 25.0, Safari 6, or Internet Explorer 10.
- Java, JavaScript, and cookies must be enabled in the browser.
- Pop-up blocking software may need to be disabled
- PDF reader - Adobe Acrobat Reader DC (free download at <https://get.adobe.com/reader>) o Adobe Flash Player, the latest version (free download at <https://get.adobe.com/flashplayer>)
- Microsoft Word, or word processing software that can save files in the .doc or .docx format. OpenOffice is acceptable: free software is available at <http://www.openoffice.org>, and it is required to save files in .doc or .rtf format.

LIBRARY/RESOURCE CENTER

Educational materials and resources are available to all currently enrolled students via LIRN online library. During the mandatory orientation process, students are provided with written instructions and credentials (e.g., username, password, etc.) on how to access/check out the online library resources. Students can access the LIRN library twenty-four hours per day, seven days per week. The Librarian's contact information and office hours are 9:00 am to 5:00pm. Students are required to utilize the library for research and certain assigned coursework. In addition, each program has a resource center containing materials related to the course(s), including hard copies of the educational materials used in each program.

FINANCIAL AID ELIGIBILITY REQUIREMENTS

The AMSC is eligible to participate in the Federal Student Aid (FSA) programs. Prior to enrolling at the AMSC, all applicants are encouraged to explore the availability of financial aid program. The financial aid officer provides financial aid information and application assistance to ensure that students clearly understand their eligibility status. The free application for Federal Student Aid (FSA) asks a series of questions that will determine your eligibility and dependency status. The eligibility requirements include:

- Being a U.S. citizen or permanent resident in the United States.
- Being enrolled in an eligible program.
- Having a valid social security number
- Making satisfactory academic progress
- Being registered for the draft with Selective Service, if you are a male who is at least 18.
- Not be currently enrolled in high school
- Not having previously received a bachelor's degree (FSEOG AND FEDERAL Pell programs)
- Students who want to receive aid from FSEOG must first be eligible for the Pell Grant. Then, the amount of his/her award will be based on the timely submission of the FAFSA form, financial need, availability of FSEOG funding, and Expected Family Contribution (EFC). Students with remaining needs are awarded FSEOG funds based on the Colleges annual award amount.

CYBER SECURITY POLICY

The American Medical Sciences Center (AMSC) maintains an electronic environment that includes a network, telephones, voicemail, and computers for faculty, staff, and students. There were no occurrences of data breaches at AMSC. Our Title IV financial aid information is managed by the third party (RGM) through on line database platform with secure network assurances from the third-party servicer guaranteeing the security of the information, and the company is certified by the U. S. Department of Education. AMSC currently implements strong security policies and ongoing monitoring for the data management systems databases and processes that support all aspects of the administration of Federal Student Aid policies. AMSC strongly follows industry standards and best practices in securing PII and managing information systems. Those standards and practices include:

- Assessing the risk and magnitude of harm that could result from unauthorized access, use, disclosure, disruption, modification, or destruction of information or information systems;
- Determining the levels of information security appropriate to protect information and information systems;
- Implementing policies and procedures to reduce risks to an acceptable level cost-effectively;
- Regularly testing and evaluating information security controls and techniques to ensure effective implementation and improvement of such rules and methods.

All AMSC applicants' information is protected from access by or disclosure to unauthorized personnel and functioning under various federal and state laws and authorities, including

- HEA;
- The Family Educational Rights and Privacy Act (FERPA)
- The Privacy Act of 1974, as amended
- The Gramm-Leach-Bliley Act
- State data breach and privacy Law

AMSC's standards and practice includes collaborating with RGM third-party servicer and utilizing the guidelines of "US- CERT" and other organization dedicated to the protection of information systems and sensitive data. AMSC maintains passwords on all of its computers and thereby minimizing the risk of unwanted access, security breach or vulnerability of the information stored. In the event of unauthorized disclosure or an actual or suspected breach of applicant information or other sensitive information (such as PII) AMSC will immediately notify FSA at CPSSAIG@ed.gov. FERPA and GLB require the college to protect students' PII. AMSC ensures that any screens displaying PII and printouts containing PII are kept secure.

THE STUDENT TUITION RECOVERY FUND (STRF)

A qualifying institution shall include the following statement on both its enrollment agreement and institution catalog: “The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF, and you are not required to pay the STRF assessment if you are not a California resident or are not enrolled in a residency program.”

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the college. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225

Sacramento, CA 95834, (916)574-8900. To be eligible for STRF, you must be a California resident or be enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following;

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or the location of the institution or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or another monetary award by an arbitrator or court based on a violation of this chapter by an institution or representative of an institution but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and has an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF. A student whose loan is revived by a loan holder or debt collector after a period of non-collecting may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.”

CAMPUS SECURITY

AMSC is concerned with the security of its students and staff. Campus security is administered in accordance with the law. The college has adopted and implemented Section 668.48 of Public Law 101-542, "The Student Right-to-Know and Campus Security Act" effective September 1, 1992. The following procedure will be followed to protect campus security:

- *The staff is trained to be aware of any unusual occurrences/behaviors on or around the campus grounds. Also, the staff is trained in notifying proper authorities.*
- *Certified instructors monitor all classrooms.*
- *The College Director, or his designee, secures the building each evening and covers that all students, faculty, and staff have properly exited the building.*

Campus training/awareness is provided to each new student and to newly hired employees during their orientation session. During this orientation session, the following information regarding crime prevention is provided and discussed:

- *Each student and employee of the college is responsible for his or her personal belongings.*
- *Any infraction of the regulation relating to Public Law 101-542 must be reported to the proper college personnel immediately.*
- *All students and employees are responsible for conducting themselves as professionals at all times while on campus and/or while attending college functions.*
- *Students are provided with college rules and regulations during orientation, and employees receive an employee handbook.*
- *Any student or employee who is found in possession of, using, or selling alcoholic beverages and/or illegal drugs on campus will be suspended or terminated from college.*
- *All students and employees are provided with information regarding the 'Drug Free' status of the college campus during orientation.*

Any criminal action or emergency situation must immediately be reported to the front desk. Any such reports will be transmitted to the appropriate persons, such as the Director, fire department, police, emergency medical services, etc. Unescorted persons have no access to any part of the AMSC facility beyond the reception area except already enrolled students or faculty. The following steps will be taken in the event of a criminal action or other emergencies:

- *The College Director, or designated individual in his/her absence, is the first person to be notified in case of criminal activity or other types of emergencies occurring on campus. The second contact person would be the Associate Director of the college.*
- *The college will immediately notify the proper law authorities. A written statement from the victim will be obtained.*
- *The college will abide by all legal requirements set forth by law enforcement.*
- *Medical and follow-up treatment services will be made available to the victim if required.*

The physical facility goes through periodic inspection as required by the State of California/county as well as the city agencies.

- *Students are provided with safety instructions at the time of enrollment.*
- *Fire department visits on a regular basis and fire escape routes are posted.*
- *CALOSHA requirements are followed.*

Earthquake procedures are routinely reviewed with staff and students.

SEXUAL MISCONDUCT/TITLE IX POLICY AND PROCEDURE

Students who report sexual misconduct/Title IX violations will be advised of all options available to them as outlined in this policy. AMSC officials will respect the student's right to confidentiality to the extent permitted under college and legal regulations.

STATEMENT AND INTENT OF POLICY

Under Title IX, and as a standard for the Student Code of Conduct, American Medical Sciences Center will not tolerate and prohibits sexual assault and all forms of sexual misconduct, including intimate partner violence, stalking, dating violence, sexual violence, sexual harassment, and domestic violence offenses. These acts are also against California State Law.

In publishing this policy, the College does not intend to substitute or supersede related civil and/or criminal law. It should be clearly understood that there is a fundamental difference between the nature and purpose of student discipline and criminal law. California State Law considers gross sexual assault and unlawful sexual contact to be serious crimes that are punishable by imprisonment in jail and/or probation. It also involves the creation of a criminal record and may include a monetary fine. All students, faculty, and staff, as well as members of the public participating in College activities, have the right to an environment free from sexual or physical intimidation that would prevent a reasonable person from attaining educational goals or living and working in a safe environment.

If there is reason to believe that AMSC campus regulations prohibiting sexual misconduct in any form have been violated, on campus, off campus, in person, and even online, the administration will pursue disciplinary action through the appropriate College procedures. This includes any online postings or other electronic communication, including cyber-bullying, cyber-stalking, cyber-harassment, etc., occurring completely outside of the College's control (e.g., not on college networks, websites, or between college email accounts). Regardless of where the violation occurred, the College discipline process will be conducted consistently in the same manner. AMSC complies with its obligation to investigate and resolve reports of all forms of sexual misconduct regardless of whether a formal complaint is filed. This policy is intended to provide more detailed information about how AMSC handles these matters and is not intended to replace the AMSC Student Code of Conduct or AMSC Sexual Harassment Policy.

DEFINITION OF VARIOUS TERMS OF SEXUAL MISCONDUCT

A. Sexual Assault:

Sexual assault is a general term that covers a range of crimes. For the purposes of this statement by the College, "sexual assault" includes, but is not limited to, rape, acquaintance rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat of sexual assault. Rape is generally defined as forced or nonconsensual sexual intercourse. Nonconsensual sexual intercourse may take many forms including, but not limited to, rape by a stranger, or an acquaintance, while on a date; rape by multiple perpetrators (often referred to as "gang rape"); and may occur both on and off campus. Rape may be accomplished by fear, threats of harm, and/or actual physical force. Rape may also include situations in which penetration is accomplished when the victim is unable to give consent or is prevented from resisting due to being intoxicated, drugged, unconscious, or asleep. It also includes various types of unwanted sexual touching or penetration without consent. Sexual assault includes forced sodomy (anal intercourse), forced oral copulation (oral-genital contact), rape by a foreign object (including a finger), and sexual battery, the unwanted touching of an intimate part of another person for the purpose of sexual arousal.

B. Intimate partner violence:

This term is defined to mean any physical, sexual, or psychological harm against an individual by a current or former partner or spouse of the individual. It would include rape, acquaintance rape, stalking, dating violence, sexual violence, or domestic violence. Sexual Harassment:

Sexual harassment is a form of sex discrimination and a violation of Title VII of the Civil Rights Act of 1964 and Title IX of the Educational Amendments of 1972. Sexual harassment has two key categories: quid pro quo (loosely translated as “this for that”) and hostile environment. Often sexual harassment involves relationships of unequal power and contains elements of coercion, as when compliance with requests for sexual favors becomes a criterion for granting work, study, or grading benefits. However, sexual harassment may also involve relationships among equals, as when repeated sexual advances or demeaning verbal behaviors have a harmful effect on a person’s ability to study or work in an academic setting. In compliance with federal and state law, AMSC defines sexual harassment as follows: “Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when: Submission to such conduct is made either explicitly or implicitly as a term or condition of instruction, employment, or participation in other College activity; Submission to or rejection of such conduct by an individual is used as a basis for evaluation in making academic or personnel decisions affecting an individual; or Such conduct has the purpose or effect of unreasonably interfering with an individual’s performance or creating an intimidating, hostile, or offensive College environment.”

C. Sexual Exploitation:

Sexual Exploitation occurs when a person takes non-consensual, unfair, or abusive sexual advantage of another for his/her own advantage or benefit; or to benefit or advantage anyone other than the one being exploited. Examples of sexual exploitation include, but are not limited to, prostituting another student, non-consensual video or audio-taping of sexual activity, presentation or unauthorized viewing of such recordings, going beyond the boundaries of consent (such as letting your friends watch you having consensual sex without the knowledge or consent of your sexual partner), and knowingly transmitting an STD or HIV to another student.

D. Consent:

“Affirmative consent” means affirmative, conscious, and voluntary agreement to engage in sexual activity. It is given by both parties to sexual activity. Moreover, it is the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent. Any consent that is given is invalid when the exchange involves unwanted physical force, coercion, intimidation, and/or threats. If an individual is mentally or physically incapacitated or impaired such that one cannot understand the fact, nature or extent of the sexual situation, and the incapacitation or impairment is known or should be known to a reasonable person, there is no consent.

E. Sexual violence:

A term that is used to refer to physical, sexual acts perpetrated against a person’s will or where a person is incapable of giving consent due to the victim’s use of drugs or alcohol. An individual also may be unable to give consent due to an intellectual or other disability.

F. Stranger rape:

Rape perpetrated by someone unknown.

G. Acquaintance rape:

The most prevalent form of sexual assault on a College campus is between two people who know each other. The acquaintance may be a date, partner, or someone has known casually from a residence hall, class, club, or through mutual friends.

H. Bystander intervention:

A course of action that may be carried out by an individual to prevent harm or intervene where there is a risk. or an act of violence.

WHAT TO DO IF YOU ARE A VICTIM OF SEXUAL MISCONDUCT

Any individual who is a victim of sexual misconduct is strongly encouraged to reach out immediately to someone s/he trusts, such as a family member, friend and/or campus counselor, for support. Experiencing sexual misconduct is not only difficult but can be very confusing. There are resources available on and off campus to the victim to provide the support s/he needs and help cope with the difficulties. Recognizing that victim's response to sexual misconduct may differ, if you have been physically assaulted or raped, there are other important steps you can take right away:

- Go to a safe place.
- Do not hesitate. If on campus, contact appropriate authorities, and if during off hours, call 911.
- Call a friend, a campus advocate, a family member, or someone else you trust, and ask her or him to stay with you.
- It is important for the victim to preserve the evidence if s/he intends to pursue criminal charges. Do not shower, bathe, douche, or brush his/her teeth, and save all clothing worn at the time of the assault. Put each item of clothing in a separate paper bag. Do not use plastic bags. Do not disturb anything in the area where the assault occurred.
- Go immediately to see medical personnel at the local hospital emergency department. If you suspect that you may have been given a rape drug, ask the hospital or clinic where you receive medical care to take a urine sample. The urine sample should be preserved as evidence. Rape drugs, such as Rohypnol and GHB, are more likely to be detected in urine than in blood.
- If you have not seen the medical personnel at the time of the complaint, you are immediately advised to do so. The College will provide transportation to the hospital if needed.
- Write down as much as you can remember about the circumstances of the assault, including a description of the assailant.
- Talk with a counselor who is trained to assist rape victims about the emotional and physical impacts of the assault. You can call a hotline, a rape crisis center, or a counseling agency to find someone who understands the trauma of rape and knows how to help.

REPORTING

AMSC strongly encourages individuals to report all incidents and violations of this nature to the Office of Associate Director, law enforcement officials, and/or a College official in order for these incidents to be properly addressed and for victims to avail themselves of all the services and rights to which they are entitled. Any member of the AMSC community can file a report with the Office of Associate Directory. At AMSC, all AMSC's faculty and staff*, except for the counselor, are designated as 'responsible employees.' This means that if a student or any member of AMSC community reveals potential sexual misconduct/Title IX violations to any AMSC staff or faculty, it is the responsibility of that staff or faculty to report the incident immediately to the Associate Director/Title IX Deputy Coordinator who will then take appropriate actions. If a student wishes to discuss the incident in complete confidence, s/he should report to Associate Director. In addition, it is the victim's right to notify law enforcement and to be assisted by College officials in doing so. Thus, it is the victim's right to decide whether or not to involve law enforcement. Declining the involvement of law enforcement does not prevent the victim from receiving assistance from the College. A victim also has the right to use the College's procedures in addition to filing a criminal complaint. Regardless of whether or not a student decides to report an incident, AMSC strongly encourages students to at least meet with our campus counselor. All conversations with AMSC's Counseling Services are held strictly confidential.

REPORTING TIMEFRAME:

Any individual may file a complaint of sexual misconduct at any time. Early reporting is encouraged to preserve evidence if necessary and provide the victim with information regarding rights, options, and resources available to them by this policy and federal/state laws. However, all complaints will be taken seriously and investigated no matter how much time has passed since the incident.

REPORTING OPTIONS:

1. Official Reporting All AMSC students are strongly encouraged to make an official report of any incident of sexual misconduct to the Office of Associate Director, whether the incident occurred on or off campus.

All AMSC's staff and faculty (except for the staff of Counseling Service), including resident assistants, are required to promptly report to the Office of Associate Director information they have about possible sexual harassment or sexual misconduct, including but not limited to sexual assault, domestic or dating violence, and stalking. The complaint/report can be filed directly to Associate Director via a written statement or an appointment. Once a complaint/report has been submitted, the Associate Director will conduct intake interviews and fact-finding interviews with appropriate parties. Each complaint will be investigated promptly and appropriate corrective actions will be taken.

2. Confidential Disclosure

AMSC also offers confidential reporting through Counseling Services to

- 1) Weigh options and associated risks,
- 2) Discuss possible next steps, and
- 3) Obtain information about available resources and services.

No one is expected or required to pursue a specific course of action with this option.

Medical Amnesty Clause: The AMSC Administration offers immunity (Amnesty) to students who may have violated the Code of Conduct's Alcohol or Drug Policy at the same time of the incident when he or she became a victim of or is reporting sexual misconduct. Therefore, no alcohol or drug violations are applied to a student who reports that he or she was under the influence of alcohol and/or drugs at the time of sexual misconduct.

The purpose of this clause is to encourage reporting. Victims or bystanders (witnesses) should not let his or her use of alcohol or drugs be a deterrent to reporting an incident. When conducting the investigation, the College's primary focus will be on addressing the sexual misconduct violation and not on alcohol/drug violations that may be discovered or disclosed. However, the College may provide referrals to counseling and may require educational options rather than disciplinary sanctions in such cases.

Bystander Intervention: The same above-mentioned reporting options are available for bystanders as well. These are safe and positive options for bystanders who intervened during an incident in order to prevent harm when there was a risk or an act of violence. AMSC strongly encourages bystanders to step up on behalf of another person's well-being and safety.

Contact Information: LA County Sex Crime Division

RIGHTS OF THE PERSON ACCUSED OF SEXUAL MISCONDUCT

The student accused of sexual misconduct (the respondent) may be assured that:

- All sexual misconduct cases will be treated seriously.
- The respondent will be treated with dignity and respect and in a non-judgmental manner.
- The respondent will be advised of on- and off-campus organizations and services that may be of assistance.
- College personnel will cooperate in investigating the case fully for legal and Student Conduct & Resolution process.
- The respondent will be informed of available counseling and psychological services.
- Respondents are informed that he/she is entitled to be accompanied to any related meeting or proceeding by an advisor of their choice, knowing that the victim also is provided with the same opportunity to have others present during any proceeding.
- Respondents are informed that he/she is entitled to receive, in writing, the final results of the Conduct & process within one business day of the such outcome being reached.

VICTIM'S RIGHTS PROVISIONS

It is AMSC's responsibility to assure students who report an incident of sexual misconduct that:

- Victims will have the opportunity to request prompt proceedings, and a fair and impartial investigation and resolution will occur
- College officials will treat the incident seriously, and the incident will be investigated and adjudicated by appropriate College officials.
- Proceedings shall be conducted by officials trained on sexual assault and other intimate partner violence issues. And shall use the preponderance of the evidence standard (which is "more likely than not" and the standard used by civil courts in the United States).
- Victims will be treated with dignity and respect and in a non-judgmental manner.
- College officials will inform victims of their option to notify appropriate law enforcement authorities, including on-campus security and local police, and offer assistance in notifying proper authorities when an individual discloses an incident of sexual misconduct.
- College personnel will not discourage anyone from reporting nor encourage them to underreport or report the incident as a lesser crime.
- College personnel will cooperate in obtaining, securing, and maintaining evidence (including a medical examination) necessary in legal/criminal proceedings.
- College officials will prohibit retaliation and will not only take steps to prevent retaliation but also take strong responsive action if it occurs. They will also follow up with complaints to determine whether any retaliation or new incidents of harassment have occurred.
- Victims will be provided with information on available services for mental health, victim advocacy, legal assistance, and other available community resources on and off campus.
- Victims can obtain no contact/restraining orders to prevent unnecessary or unwanted contact or proximity to an alleged perpetrator when reasonably available.
- Victims will be afforded the opportunity to request immediate off-campus housing relocation or other steps to prevent unnecessary or unwanted contact or proximity to an alleged perpetrator when reasonably available.
- Victims are informed that he/she is entitled to be accompanied to any related meeting or proceeding by an advisor of their choice, knowing that the respondent also has the same opportunity to have others present during any proceeding.
- Victims are informed that he/she is entitled to receive, in writing, the final results of the Conduct & Resolution process within one business day of the such outcome being reached.

DISCIPLINARY PROCEDURE

It is the victim's right to notify law enforcement and to be assisted by College officials in doing so. Thus, it is the victim's right to decide whether or not to involve law enforcement. Declining the involvement of law enforcement does not prevent the victim from receiving assistance from the College. A victim also has the right to use the College's procedures in addition to filing a criminal complaint.

A student accused of sexual misconduct may be prosecuted under the California Criminal Justice System and disciplined through AMSC Student Conduct & process. Even if the criminal justice authorities choose not to prosecute, the accused may be subject to College disciplinary action. College Student Conduct & Resolution process, should be considered distinct and independent of any and all criminal procedures. Student Conduct & Resolution process may precede, occur simultaneously, or follow court action. If College's Student Conduct process follows court action, the court proceedings and/or verdict may be considered in the Student Conduct & process. The process shall be conducted by officials trained in all forms of sexual misconduct. Moreover, they shall use the preponderance of the evidence standard (which is "more likely than not" and the standard used by civil courts in the United States). When necessary, temporary action may be taken by the College by suspending or restricting the accused or officially requesting no contact between the complainant and the respondent. Any of these measures may result in the accused student's restricted access to the College and/or participation in College events, such as attendance at classes.

A. Disciplinary Action:

Any student found by the Office of Associate Director to have committed sexual misconduct may be subject to severe disciplinary sanctions, including suspension or dismissal from the College. For information regarding the range of possible sanctions that may be imposed following an institutional disciplinary procedure, please refer to the AMSC's Student Conduct Policy found in the College Catalog or College website. The College recognizes that violations of sexual misconduct are not the fault of the individual filing the complaint. The College intends to encourage the report of sexual misconduct, and therefore the College generally does not intend to hold complainants accountable for student code of conduct violations that may have occurred along with violations of sexual misconduct. The College will use discretion to ensure the rights of the complainant are preserved.

B. Appeals: Both victim/complainant and the accused student have a right to an appeal. Please refer to the Appeal Process in AMSC's College Catalog.

CONDUCT POLICY

DRES's CODE AND BEHAVIOR-AMSC do not permit tank tops, blouses, or shirts that expose the midsection, shorts, sandals, torn jeans, and any clothing that is generally considered unsuitable in the workplace. All students are expected to adhere to the general rules with regard to dress code and any specific dress code regulation that a certain department may have as a result of the type of training offered.

EMERGENCY PROCEDURES- An emergency is to be reported to any staff member or the front desk immediately. In the case of a fire, all students are to evacuate the building as calmly and orderly as possible since this will be the fastest way to get out of the building. In case of an earthquake, students and staff are to take shelter under a desk or a table until it is safe to exit the building.

GROUNDS FOR DISCIPLINARY ACTION- Unsatisfactory academic or attendance performance, frequent tardiness or early leaving, unprofessional behavior and/or conduct that disrupts the learning process is grounds for disciplinary action.

ILLEGAL DRUGS- The use or sale of non-prescription drugs, including but not limited to marijuana, cocaine, and any stimulants and or depressants, will not be tolerated on the college campus or at any institution-sponsored functions off the premises. Any student believed to be under the influence or in possession of a non-prescribed drug will be dismissed from attending classes pending investigation of the matter. All students receive and sign the AMSC "Drug Information Supplement" and are responsible for abiding by the material written in it.

FOOD AND DRINKS- No food and drinks (with the exception of water) are allowed in the classroom unless so designated by the Administration.

SMOKING-AMSC maintains a smoke-free environment. Smoking is only permitted in the designated areas outside the college premises. No smoking is permitted in front of the main entrance to the college.

PERSONAL CALLS AND VISITS- Students are not allowed to use college phones for personal use. The front desk will only take messages for the student to whom a call is made, and such messages will be delivered to the student at break time unless it is an emergency. Visitors are also welcome only if a prior arrangement has been made and the visit will not interfere with class time. In addition, since childcare services are not provided on AMSC premises, students, staff, and guests are discouraged from bringing young children into the facility.

HARASSMENT- The study environment at AMSC will not be impeded or intimidated by hostile or offensive verbal or physical actions based on race, sex, age, color, religion, physical limitation, ethnic background, national origin, or the like.

SEXUAL HARASSMENT- The American Medical Sciences Center will not tolerate any sexual harassment by students or staff. The college defines sexual harassment as sexual advances made, either verbal or physical. The institution will not tolerate any hostile or intimidating conduct that interferes with a healthy educational environment or work performance.

DISCIPLINARY PROCEDURES - All disciplinary matters are reviewed by the Administration. The Administrative reviews may include written statements from students and staff and interviews with the parties involved. Decisions by the Administration may result in dismissal, probation, or other appropriate action.

DISMISSAL - After thorough investigation and discussion with regard to academic or conduct issues, AMSC reserves the right to dismiss any student for whom the continuation of his or her attendance would be a detriment to the student himself/herself, fellow students, and or the college.

Housing- Non-residential. AMSC has no dormitory facilities under its control and does not provide any housing accommodations to its students. AMSC has no responsibility to find or assist a student in finding housing. Below is the housing cost and range reasonably near the institution's facilities.

1 BEDROOM	2 BEDROOM	DISTANCE FROM AMSC
\$1,800.00-\$2,000.00	\$2,300.00-\$2,500.00	2-4 Miles

ATTENDANCE POLICY

Attendance is mandatory, and records are maintained daily in the form of sign-in sheets. Students are expected to arrive at the classroom and clinical site precisely at the starting time. The AMSC has the following regulations governing attendance.

- Any student wishing to take a leave of absence due to unavoidable absence of more than 7 days must request in writing. Leaves of absence are granted at the discretion of the Institution's Administration and will not be granted for more than 150% of the length of the program.
- A student who has been terminated from the program for violation of the attendance policy has the right to appeal in writing to the institution per the Student Rights/Grievance Policy guidelines.
- There will be a 10 % test score reduction for tests taken after the scheduled time/date.
- Students are required to attend class and clinical for the entire day to receive attendance credit for the day.
- At the end of a term, a student who has missed scheduled class/clinical hours will be placed on attendance probation beginning with the next term.

ABSENCES - Students not present in the classroom (online/residential) or at the clinical site at the start of class or clinical experience will be considered absent for the day, forfeit any unscheduled quizzes for the absent day, and will be required to make up the theory/clinical hours. The absence will be considered excused under the circumstances described below: serious illness substantiated by doctor's notes, death, or birth in the immediate family. All other absences will be considered as unexcused unless solid reasons are presented in writing verifying mitigating circumstances. Students are advised to notify college officials of their absence.

- Excused absences are absences that cannot be avoided and are supported by documentation. Examples would include but not be limited to emergency medical treatment, communicable illness, temporary disability, court appearances, and family emergencies. The determination of an absence as excused is at the discretion of the Director or Associate Director. Students should note the following:
 - i) 2 excused absences in a month- no points deducted if it is excused- Points will be deducted if not excused-MUST submit a LIRN/SCANNING assignment to catch up (A minimum grade of C is necessary for the assignment to be valid).*
 - ii) 3rd absence in the same month- points will be deducted- MUST submit a LIRN assignment to catch up (A minimum grade of C is necessary for the assignment to be valid)*
 - iii) 4th absence in the same month- Call from administration to warn about next absence putting on probation (Risk of being dropped). (A minimum. Grade of C is necessary for the assignment to be valid)*
- All absences must be made up (**whether excused or not**) within one week from the day of absence before a student can progress to the next module. Methods of make-up hours will include independent study assignments that approximate the number of theory hours missed. Clinical hours will be made up in the skills lab at the discretion of the DMS Program Director and will be equal to the number of hours missed. Absences occurring in the last term must be made up before the student is eligible for graduation.
- While on attendance probation, students may not have any unexcused absences in the term. Any student on attendance probation who incurs any unexcused absences from scheduled class/clinical hours has violated the terms of probation and may be terminated from the program.

TARDINESS/LEAVING EARLY- Tardiness is discouraged since it is disruptive to both the instructor and the students. Excessive tardiness may result in probation. There is, however, a 10-minute grace period before a student is marked tardy. Three tardiness constitute one absence. Students leaving early will be considered as "left early". Frequent "Left early" without legitimate reasons may also be a cause for probation.

UNSATISFACTORY ATTENDANCE - Students with 14 consecutive absences of calendar days will automatically be withdrawn from their program of study. This policy is based on the attendance requirements set forth by the BPPE and followed by the college.

SKIPPING CLASSES-Such action will be considered as an unexcused absence and may cause the student's grade to drop.

MAKE-UP HOURS AND/OR ASSIGNMENT - Any missed class time or assignment may require physical make-up time in campus. Students are responsible for making the necessary arrangements with the appropriate college personnel to complete make-up time or assignments

(LOA) - The duration of the leave of absence may be granted for up to 90 days. Requests for leave must be submitted in writing to the Institution's Associate Director and must include an anticipated return date and be signed by the student. Students who fail to return from a LOA will be considered dismissed as of the last class day of attendance. As of the same date, the loan repayment process will be initiated. Any refund due will be made within thirty (30) calendar days from the end of an approved leave of absence. The Institution's Associate Director may grant more than one leaves of absence and/or waive satisfactory interim standards for circumstances of poor health, family crisis, or other significant occurrences outside the control of the student. It must be demonstrated by the student that the circumstances had or will have an adverse impact on the student's satisfactory progress in the academic program. Students will not be assessed additional tuition charges while on their Leave of absence. No waivers will be provided for graduation requirements. Time for an approved leave of absence will not be included in the calculation of a student's maximum program length.

ATTENDANCE - The college attendance policy is a minimum of 90% attendance during the course of study, which is calculated on a monthly basis. Graduates must successfully complete all courses of the program with a minimum grade of 70% and all other curriculum requirements for their course of study. Graduation is acknowledged by awarding a B.S./AAS./ degree in Diagnostic Medical Sonography. Breach of the institution's,22 will result in attendance probation. Students placed on attendance probation will have 30 days to bring their cumulative attendance back up to 90. Final exit interview for externship grades may differ from board SPI exam final grades. If applicable, students may receive Federal Financial Aid while on probation. If this is not achieved at the conclusion of the probationary term, the student may have his/her probationary period continued for an additional 30-day term, or may be placed on active suspension for another 30 days. If during this period, the student fails to comply with the opportunity given, he or she will then be terminated.

TUITION REFUND POLICY

The college realizes that under certain circumstances, an enrolled student may not be able to continue his or her educational training. Accordingly, the college has a policy for equitable tuition adjustment. Records are maintained on tuition refunds and enrollment cancellations. Governmental or accrediting agency data is included if applicable. The refund policy of the college is published in the catalog and on the Enrollment Agreement. Both documents clearly state the obligations of the college and the student in cases of cancellation or withdrawal. For students who cancel their contracts prior to class starts, all refunds due will be made within thirty (30) days of the first day of class or the date of cancellation. For enrolled students, all refunds due will be made based on the last date of attendance and are paid within thirty (30) days from the documented withdrawal date. For students who unofficially withdraw, the last date of attendance is taken as a date of academically related activity, which will serve as a date of withdrawal. If the student fails to attend college for more than 14 consecutive days, the college will consider the student a drop and automatically withdraw him/her from the program.

RETURN OF TITLE IV FUNDS - If the student has received Title IV student financial assistance funds, a "Return of Title IV Aid" calculation is used to determine the amount of Title IV funds a recipient is allowed to retain towards their educational costs. If you obtained a loan, you are obligated to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received federal student financial aid, the student is entitled to a refund of the money not paid from federal student financial aid funds. The Percentage of Title IV Aid earned is calculated by determining the scheduled calendar days completed in the payment period divided by the total calendar days in the payment period. Excluded are scheduled breaks of 5 days or more and days that the student was on an approved leave of absence. If this amount is greater than 60%, the earned percentage is 100%. The amount of Title IV Aid Earned by the student is the Percentage of Title IV Aid earned times the total Title IV Aid disbursed plus the Title IV Aid that could have been disbursed for the payment period. All credit balances over \$1.00 will be issued to students within 30 days after the credit balance occurs.

REJECTION OF AN APPLICANT BY THE COLLEGE - Should the college reject an applicant's admission for any reason; the applicant will be entitled to a refund of monies paid

UNSATISFACTORY PROGRESS OR ACADEMIC

The students are expected to maintain Satisfactory Academic Progress (SAP) to remain in the program. SAP is cumulative, applied to all students equally, and measured throughout each term of the program regarding both classroom and clinical performance. The college employs the following procedure for unsatisfactory progress cases: If a student's grade point average is unsatisfactory for a calendar month or module, the student is counseled. If a grade point average is unsatisfactory for an additional month or module, the student will be placed on academic probation and be given a maximum of two months to bring their cumulative grade point average to 70% or be terminated from the course of study. Unless all modules are satisfactorily completed, the student will not be considered graduated. Should mitigating circumstances be present, the student will be placed on probation for a maximum of one month and be given a last opportunity to comply with the 70% grade point average or terminate. The institution does not offer non-credit or remedial courses. The policy applies to all Title IV and non-Title IV recipients and treats all students the same. Should a student need to repeat a course/class due to non-credit, non-punitive, or remedial reasons, it will be allowed and counted as a course/class attempted, and the higher grade will be calculated in computing the grade point average.

INCOMPLETE GRADES - Incomplete grades will revert to failing grades if not completed prior to graduation or prior to the commencement of any externship training, if applicable.

- **Qualitative – Cumulative Grade Point Average;**

A Student must meet minimum cumulative GPA requirements at specific points throughout the program. Only those credits are required in the student's program of study and used in CGPA calculation.

- **Quantitative – Rate of Progress;**

A student must maintain the minimum ROP requirements at specific points throughout the program. The rate of progress percentage is calculated as shown below. Only those credits or hours required in the student's program of study, including transfer credits, are used in the ROP calculation. In order for a student to be considered to be making academic progress, both SAP standards will be reviewed at the end of each payment period or subject completion, and the student must be progressing in accordance Satisfactory Academic Progress policy

PROCESS-Students who are placed on a probation and or termination status for failure to maintain satisfactory academic progress (SAP) may appeal. A written statement describing the extenuating circumstances must be submitted to the Associate Director. The Associate Director will determine the date of re-entry if applicable. A student will be notified in writing within 10 days of the appeal determination. All appeal determinations are final. Reinstatement or continuation of financial aid will only be granted for extraordinary circumstances. If the appeal is approved, the student will be placed on "Extended Probation" status for a period of 4 weeks. Students who do not meet minimum Satisfactory Academic Progress standards by the end of the Extended Probationary period will be terminated. A student is allowed one appeal.

RE-ENTRIES - Students must go through re-entry procedures from an inactive/withdrawn status. Students on a dismissed or terminated status may appeal to the administration in writing for re-entry consideration. If the administration approves the appeal, i.e., the administration within five business (5) days determined that there were mitigating circumstances or valid reasons were presented by the student, then the student could re-enter his or her program, and lost time would be added to the initial scheduled graduation date.

MAXIMUM TIME FRAME - All students must complete their programs of study within one and one-half times the period specified on their enrollment agreement. To ensure quantitative progress within each program, the college will assess such progress at midpoints of the academic year. At such time, the college will be able to determine whether the student can successfully complete the program within the established timeframes. The FAO evaluates student academic progress at the end of each payment period. Once the student is identified as an SAP failing student, the RGM (third party servicing company) system generates an automatic warning that is emailed to the student by the FAO.

SUBJECT WITHDRAWALS - The College does not allow subject withdrawals in a program of study.

COURSE REPETITIONS - Should a student need to repeat a course/class due to non-credit, non-punitive, or remedial reasons, it will be allowed and counted as a course/class attempted and the higher grade will be calculated in computing the grade point average.

PROBATION - Is a status that may result due to an academic, financial or conduct problem-requiring correction. The student on probation will be permitted to attend classes. She/he must remedy the condition for probation within a specified time period. Failing to do so may result in a continuation of probation, suspension, or dismissal. AMSC College follows the SAP guidelines, and automatic warnings are sent to students once the system (third-party services RGM) identifies the attendance or SAP issues.

BRUSH-UP CLASSES - The College provides brush-up classes for three months to graduates to improve their already existing skills. Students can always let the college know that they need to come back for brush-up skills.

TRANSFERRING STUDENTS

CREDIT FOR PREVIOUS EDUCATION/WORK - The institution publishes and follows a policy for transfer of credit that requires consideration of credit from other institutions accredited by an agency recognized by the United States Department of Education (USDE) or the Council for Higher Education Accreditation (CHEA). AMSC does not allow credit for advanced placement or experiential learners.

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION - The transferability of credits you earn at AMSC College is at the complete discretion of the institution to which you may seek to transfer. Acceptance of the diploma or degree you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the diploma or degree that you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending AMSC College to determine if your diploma or degree will transfer. AMSC makes no guarantees of the transferability of credits you earn. Students transferring from other colleges or schools to AMSC must take a test prior to any credit transfer. A score of 70% or better is required for each such exam in order to receive credit for that particular course or module. The student's training period will be reduced proportionately but not to exceed 30% of the course content. Tuition will be prorated based on the number of credits accepted due to the transfer. Students who are granted such credit may have their tuition reduced on a pro-rata basis.

FROM ONE PROGRAM TO ANOTHER - Should a student wish to transfer from one program to another, she/he must notify the administration with a written notice. There are no charges for a transfer based on the program of study. Transferring Students must take a test prior to any credit transfer. A score of 70% or better is required for each such exam in order to receive credit for that particular course or module. The student's training period will be reduced proportionately but not to exceed 30% of the course content. Students who are granted such credit may have their tuition reduced on a pro-rata basis.

TRANSFERRING PROCEDURES- Official Transcripts must be sent directly from the other institutions or the armed forces to AMSC College for review and evaluation.

- If requested, prospective students may be required to supply course descriptions, syllabi, or other supporting materials as proof of the equivalency for any course in question.
The Program Director or the College Director will conduct the transfer evaluations. An evaluation sheet is completed during the review of the documentation.
- If a student wishes to appeal the determination of credits granted, they may do so in writing and by supplying any other supporting documentation for their claim (The death of a relative, an injury or illness of the student, or other special circumstances). The College Director will review the additional information and has the final authority to grant or deny any transfer credits. The student will be notified of the results of an evaluation that impacts the student's eligibility for title IV, HEA program funds.
- Units you earn in AMSC programs, in most cases, will not be transferable to any other college or university. For example, if you entered our college as a freshman, you will still be a freshman if you enter another college or university at some time in the future, even though you earned units here at our institution.

CANCELLATION: CANCELLATION / WITHDRAWALS POLICY

A cancellation clause allows a student, at a minimum, to cancel within seven business days of signing an enrollment agreement, with a full refund of all monies paid. Subsequent to this seven-day cancellation period, an applicant requesting cancellation prior to the start of classes are entitled to a refund of all monies paid less a registration fee of 10 percent of the contract price or \$100, whichever is less. Institutions may require notice of cancellation to be given by certified or registered mail, provided this requirement is stated in the enrollment agreement. The institutional statement defines a student's last day of attendance as the last day a student had academically related activity and the date of withdrawal. A description of the procedures a student must follow to withdraw officially.

WITHDRAWALS:

OFFICIAL WITHDRAWAL

- A student will automatically be withdrawn from the program for the following reasons:
- Failure to return from an approved leave of absence on the scheduled return date.
- Failure to maintain satisfactory progress for two consecutive modules.
- Failure to fulfill financial agreements.
- Failing any course in the program twice during the one enrollment period

UNOFFICIAL WITHDRAWAL

- If the student fails to attend college for more than 14 consecutive days, the college will consider the student a drop and automatically withdraw him/her from the program.

REFUND:

The student is obligated to pay only for educational services rendered and for unreturned books or equipment. Items of extra expense to a student, such as instructional supplies or equipment, tools, student activities, laboratory fees, service charges, rentals, credentialing fees, deposits, and all other charges, need not be considered in tuition refund computations when they are separately shown in the enrollment agreement, or in other data furnished to a student before enrollment.

IF THE AMOUNT THAT IS OWED IS MORE THAN THE AMOUNT THAT HAS ALREADY BEEN PAID, STUDENTS WILL HAVE TO MAKE ARRANGEMENTS TO SATISFY THE BALANCE.

Any controversy or claim arising out of or relating to AMSC and students Agreement, or the breach thereof, not addressed by California Law or Regulation, shall be settled by arbitration in accordance with the Commercial Rules of the American Arbitration Association, and judgment upon the award rendered by the Arbitrator(s) may be entered in any court having Jurisdiction, except for non-payment of tuition and fees which shall be settled through a small claims court action. The refund shall be the amount they paid for instruction multiplied by a fraction, the numerator of which is the number of clock hours of instruction which they have not received but for which they have paid, and the denominator of which is the total number of clock hours of instruction for which they have paid. No refund is due after the student completes 60% of the program. If they obtain books or equipment, as specified in the enrollment agreement as a separate charge and return them in good condition within 30 days following the date of their withdrawal, the college shall refund the charge for the books or equipment paid by them. If they fail to return books or equipment in good condition within the 30-day period, the college may offset against the refund the documented cost for books or equipment exceeding the prorated refund amount. For a list of these costs, see the list on the front of the enrollment agreement.

SAMPLE REFUND CALCULATION

Assume that a student, upon enrollment in a 400-hour course, pays \$2000.00 for tuition, \$75.00 for registration and \$150.00 (documented cost to college) for equipment as specified in the Enrollment Agreement and withdraws after completing 100 hours without returning the equipment he/she obtained. The pro rata refund to the student would be \$1,500 based on the calculation stated below.

Tuition Paid 100%	Refund 10%	Refund 25%	Refund 50%	No refund Beyond 60%
\$2,000	\$200.00	\$500.00	\$1,000	\$0.00

VISA PROCEDURES

AMSC is approved by the Student and Exchange Visitor Program (SEVP) authorized under the Department of Homeland Security (DHS) and the Department of State as an institution of higher learning for non-immigrant M-1 visa students. Students attending another institution in the United States on an M-1 visa may enroll in AMSC by completing the admissions process and filing Form I-539. It is also possible for prospective students in the United States on some other type of visa to apply to the Immigration and Naturalization Service for a change to an M-1 visa. Most classes of nonimmigrants can begin studying while their application is pending. The exceptions are currently in B-1, B-2, or F-2 status. These nonimmigrants cannot begin a program of study prior to the approval of their change of status. Before international students may be considered for admission, they must:

- Complete the application form; enclose a \$75.00 processing fee.
- Provide evidence of completion of high school or equivalent diploma.
- Take the admissions entrance SLE test with a score of at least 21

Applicants not currently in the U.S. may demonstrate proficiency in reading, writing, and speaking English in several ways and should include the documentation with their application.

- a TOFEL score of at least 450 or
- High school or college transcripts documenting English language skills or
- Completion of an appropriate English as a Second Language (ESL) course or
- Other equivalent verification of communication skills.

I-20 CERTIFICATION

After the application process has been completed and all relevant materials have been submitted, the file is reviewed by the admissions committee. If the student fully meets the criteria for admission and has adequate funds to meet the expenses of the program of study, the AMSC obtains specific biographical and financial information about the student, which will be necessary to issue a Form I-20, "Certificate of Eligibility for Nonimmigrant Student." Applicants will be notified in a timely manner and will be mailed a Certificate of Eligibility (I-20) along with further information regarding registration and helpful visa information.

APPLYING FOR A STUDENT F-1 VISA

Prospective nonimmigrant students who are not in the U.S. must apply to the local U.S. consulate for an F-1 visa. This requires a visa interview. The student must bring several items to the interview. The consular officer will need to verify the student's I-20 record electronically in order to process the student visa application. The potential student must pay a SEVIS I-901 fee to the Department of Homeland Security prior to applying for a visa and may prove payment of the fee through the internet at <http://www.fmjfee.com> with a credit card and printed receipt as evidence that the fee has been paid. For this case, you need the information from your I-20 form to fill out Form I-901. All applicants should be prepared to provide:

- Form I-20, signed by the Designated College Official (DSO);
- Receipt as evidence that the fee for Form I-901 has been paid;
- Diploma of completion of high school or the equivalent;
- Scores from standardized SLE tests and documentation of English language skills;
- Program Outline with starting and ending date
- Financial evidence that shows the student or parents who are sponsoring have sufficient funds;
- Completed Form(s) for the Application for Nonimmigrant Visa;
- Valid Passport for travel and admission to the United States with a validity date at least six months beyond the applicant's intended period of stay in the United States;

BACHELOR OF HEALTH SCIENCES IN DIAGNOSTIC MEDICAL SONOGRAPHY PROGRAMS

Total Clock Hours (3,010.00); Total Weeks (109.06); Semester Credit Hours (130.00) In Class Clock Hours per week (25.00); In Class Clock Hours per Day (5.00) D.O.T. CODE 078.364-010; CIP CODE 51-09 10

PROGRAM OBJECTIVES -The objective is to provide the didactic and clinical skills needed to enable the student to perform the Sonographic examination requirements published or supported by nationally recognized professional organizations. Theory content and clinical experience focus on ultrasound studies in the General Learning Concentration. The curriculum consists of classroom, laboratory, library research, and clinical practical experience. Program outcomes for a Bachelor of Health Sciences in Diagnostic Medical Sonography include;

- *Competently perform as an entry-level sonographer in the cognitive (knowledge), psychomotor (skills) and affective (behavior) learning domains for Diagnostic Medical Sonography.*
- *Demonstrate ethical and professional behavior through sonographic practice congruent with standards of practice. Interact effectively with individuals in a manner that reflects caring and acknowledges the holistic nature of individuals.*
- *Demonstrate competence in performing sonographic examinations, including history taking; machine adjustment and operation; and acquisition of ultrasound imaging and other sonographic performance.*

PROFESSIONAL DUTIES - Graduates will function as an integral part of the diagnostic medical imaging team, providing patient services efficiently and in a professional, sensitive manner. Duties may include ultrasound scans of the abdominopelvic, superficial structural, gynecological, and echo-vascular parts.

GRADUATION REQUIREMENTS - The college attendance policy is a minimum of 90% attendance during the course of study, which is calculated on a monthly basis. Students must perform the clinical portion of their training in an approved medical facility and receive a satisfactory evaluation. Graduates must successfully complete all courses of the program with a minimum grade of 70% and all other curriculum requirements for their course of study. Graduation is acknowledged by awarding a B.S. degree in Diagnostic Medical Sonography which further allows them to take the ARDMS, ARRT, and CCI, tests.

CREDIT/CLOCK HOUR CONVERSIONS

For DMS programs of study, the conversion from clock hours to credit hours is as follows:

15 Lecture Clock Hours	=1.0 Semester Credit Hour	1 Lecture Clock Hours	=0.066 Semester Credit Hour
30 Laboratory Clock Hours	=1.0 Semester Credit Hour	1 Laboratory Clock Hours	=0.033 Semester Credit Hour
45 Externship Clock Hours	=1.0 Semester Credit Hour	1 Externship Clock Hours	=0.022 Semester Credit Hour

OUTSIDE HOURS

The credit hours include outside hours regardless of recognition.

Minimum course-by-course outside hours is calculated by using the following formula;

- For one (1) hour of classroom or direct faculty instruction, a minimum of two (2) hours of outside preparation.
- For one (1) hour of laboratory or direct faculty instruction, a minimum of one (1) hours of outside preparation.

EVALUATION METHODOLOGY

COMPONENT	FORMULA
Attendance	10%
Class Participation and Professionalism	10%
Quizzes	10%
Home/Outside work	10%
Course Final Tests	60%
Totals	100%

ADMISSION REQUIREMENTS FOR BRIDGE STATUS

Bridge status may be granted to those applicants who are currently credentialed in sonography programs and who have met general admission requirements.

GRADUATED STUDENTS FROM ACCREDITED INSTITUTION

Successful completion of the curriculum requirements will be required of applicants who have:

- Earned a Certificate/Diploma and completed at least 60.0 semester or equivalent credit hours in sonography programs from Nationally Accredited Institutions and corroborate from the American Registry of Diagnostic Medical Sonography (ARDMS) or the American Registry of Radiologic Technologists (ARRT) Sonography Primary Pathway Certifications
- Earned a Certificate/Diploma in Sonography program from the Nationally Accredited Institution, and additionally possess an associate degree from a regionally accredited institution.
- Completed at least 60.0 semester credits hours in Sonography Programs from a Nationally Accredited Institution and a minimum of 5 years experience in Abdominal, Vascular, and Cardiac Sonography.

GRADUATED STUDENTS FROM AMSC COLLEGE

SPECIFIC COURSEWORK (GENERAL LEARNING CONCENTRATION)

For a bachelor's degree (General Concentration) specific coursework in sonography will be accepted from graduates of AMSC College Diagnostic Medical Sonography Academic Associate degree program. As Bachelor of Health Sciences in Diagnostic Medical Sonography, graduates must successfully complete the following additional courses of the program with a minimum grade of 70% and all other curriculum requirements for their course of study.

If a student has graduated from the Associate degree program of the American Medical Sciences Center and wishes to enroll in the DMS BHS program, a student can waive the externship component of the bachelor's degree program if the student possesses active registration with ARDMS/ARRT/CCI and has been employed for at least two years in the ultrasound field, prior to applying for the bachelor's degree at AMSC college. Charges for the externship component of the bachelor's degree program will be waived, and credits for the externship component will automatically be granted. The completion of the program for these students will be considered the last day prior to the externship component start date.

The objective is to provide the didactic and clinical skills needed to enable the student to perform the Sonographic examination requirements published or supported by nationally recognized professional organizations. Theory content and clinical experience focus on ultrasound studies in the General Learning Concentration. The curriculum consists of classroom, laboratory, library research, and clinical practice experience. Core courses are categorized as General Learning Concentration Tract (e.g., Abdominal, OB/GYN) for a bachelor of science degree in Diagnostic Medical Sonography, include; entry-level Ultrasound Vascular Technology and Echocardiography. Graduates must successfully complete all courses of the program with a minimum grade of 70% and all other curriculum requirements for their course of study. Students must perform the clinical portion of their training in an approved medical facility and receive a satisfactory evaluation. Graduation is acknowledged by awarding a B.S. degree in Diagnostic Medical Sonography which further allows them to take the ARDMS, ARRT, CCI, tests. Program outcomes for a Bachelor of Health Sciences in Diagnostic Medical Sonography include;

- Competently perform as an entry-level sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for Diagnostic Medical Sonography.
- Correlate current research to ensure best-practice delivery of specialty-specific, quality patient care, and services.
- Cooperate with referring physicians and other healthcare professionals in collecting and documenting complete and accurate data.
- Demonstrate competence in performing sonographic examinations, including history taking, machine adjustment, and operation, and acquisition of ultrasound imaging and other sonographic performance.
- Demonstrate ethical and professional behavior through sonographic practice congruent with standards of practice. Interact effectively with individuals in a manner that reflects caring and acknowledges the holistic nature of individuals.

PROGRAM PERFORMANCE FACT SHEET*

As a prospective student, you are encouraged to review this catalog before signing an enrollment agreement. You are also encouraged to review Program Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement. **Graduation Rates**

PROGRAM AGENDA

GENERAL EDUCATION COURSES (NON-CORE COURSES)

General Education pre-requisite courses within a Diagnostic Medical Sonography program is intended to create a well-rounded individual with good general knowledge of several areas outside the specific major field of the graduate. At American Medical Sciences Center, the general education component is made up of the following courses:

- BSDMS-1.1 COMMUNICATIONS SKILLS, BASIC MATHEMATICS, FUNDAMENTAL PHYSICS
- BSDMS-1.2 GENERAL ANATOMY, PHYSIOLOGY, PATHOLOGY
- BSDMS-1.3 MEDICAL TERMINOLOGY, CAREER, AND PROFESSIONAL DEVELOPMENT
- BSDMS-1.4 MEDICAL ETHICS, MEDICAL LAW, SONOGRAPHERS SAFETY AND PATIENT CARE
- BSDMS-1.5 ULTRASOUND PHYSICS I (UPPER-LEVEL COURSE)
- BSDMS-1.6 ULTRASOUND PHYSICS II (UPPER-LEVEL COURSE)
- BSDMS-1.7 APPLIED ULTRASOUND SCIENCES I (INSTRUMENTATION AND MODES)
- BSDMS-1.8 APPLIED ULTRASOUND SCIENCES II (SCANNING TECHNIQUE AND PROCEDURES)
- BSDMS-1.9 APPLIED ULTRASOUND SCIENCES III (TECHNICAL IMAGE AND PRODUCTION)

GENERAL SONOGRAPHY LEARNING CONCENTRATION COURSES (CORE COURSES)

In this module, students will gain an understanding of the normal anatomy, anatomic variants, normal physiology, and pathological conditions of the organs of the abdominal-pelvic cavity. At American Medical Sciences Center, the General Sonography component is made up of the following courses:

- BSDMS-2.1 ULTRASOUND PHYSICS III "DOPPLER"
- BSDMS-2.2 ULTRASOUND PHYSICS IV "INSTRUMENTATION"
- BSDMS-2.3 ULTRASOUND PHYSICS V ARTIFACTS, BIOEFFECTS, QUALITY ASSURANCE, SAFETY
- BSDMS-2.4 ABDOMINAL VASCULATURE AND PERITONEAL CAVITIES
- BSDMS-2.5 LIVER
- BSDMS-2.6 GALLBLADDER AND BILIARY TREE
- BSDMS-2.7 PANCREAS
- BSDMS-2.8 SPLEEN
- BSDMS-2.9 URINARY TRACT AND ADRENAL GLANDS
- BSDMS-2.10 MALE GENITAL STRUCTURES
- BSDMS-2.11 SPINAL CORD AND MUSCULOSKELETAL STRUCTURES
- BSDMS-2.12 NECK AND SURROUNDED STRUCTURES
- BSDMS-2.13 ANTERIOR ABDOMINAL WALL, TISSUES, AND GASTROINTESTINAL TRACT
- BSDMS-2.14 NON-CARDIAC CHEST, PLEURAL CAVITY
- BSDMS-2.15 GYNECOLOGICAL SONOGRAPHY
- BSDMS-2.16 OBSTETRICAL SONOGRAPHY
- BSDMS-2.17 BREAST SONOGRAPHY

VASCULAR SONOGRAPHY MINOR COURSES (CORE COURSES)

This module will provide the student with theoretical and practical knowledge of the vascular system, including anatomy, normal anatomic variants, physiology, and pathologic conditions. Classroom instruction will be coordinated with laboratory activities.

- BSDMS-3.1 CEREBROVASCULAR AND UPPER EXTREMITY VASCULAR SONOGRAPHY
- BSDMS-3.2 LOWER EXTREMITY VASCULAR SONOGRAPHY

CARDIAC SONOGRAPHY MINOR COURSES (CORE COURSES)

In this module, students will gain an understanding of the normal anatomy, anatomic variants, normal physiology and pathological conditions of the heart. At American Medical Sciences Center, the Cardiac Sonography component is made up of the following courses:

- BSDMS-4.1 CARDIAC FUNDAMENTALS AND PRINCIPLES OF CARDIAC PHARMACOLOGY
- BSDMS-4.2 CARDIAC PATHOLOGICAL MECHANISM AND NON-INVASIVE DIAGNOSTIC TESTS
- BSDMS-4.3 HEMODYNAMIC AND PRACTICAL APPLICATION
- BSDMS-4.4 DISEASE STATE IDENTIFICATION

EXTERNSHIP (CORE COURSES)

Students participate in a clinical externship where they will gain hands-on training. The program provides students with actual hands-on experience in diagnostic care to patients of all ages and stages of disease in doctor/imaging clinics.

- BSDMS-5.1 CLINICAL EXTERNSHIP

COURSE DESCRIPTIONS

**AA to BS Bridgeprogram*

Distance Part of Program

COURSE TITLE: COMMUNICATIONS SKILLS,
BASIC MATHEMATICS,FUNDAMENTAL PHYSICS

COURSE NUMBER: BSDMS-1.1

PREREQUISITE: NONE

LECTURE HOURS: 48.00

LABORATORY HOURS: 00.00

TOTAL IN CLASS HOURS: 48.00

OUTSIDE CLOCK HOURS: 96.00

TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✗ Types of communications
- ✗ History and Discuss Pre-Post Procedure
- ✗ Diverse Populations
- ✗ Arithmetic and Algebraic Functions
- ✗ Principles of General and Acoustic Physics
- ✗ Principles of Hemodynamics and Doppler
- ✗ Knowledge of components utilized in Sonography

In this course, the students learn the fundamentals of basic communication concepts, the purpose of informing, of expressing feelings, of imagining/influencing, and meeting social expectations. This course familiarizes the students with an understanding of the types of communication (Verbal, Nonverbal/interpersonal, Formal and Informal, Written, and Visual). This course is designed to provide students with an understanding of the general principles and theories underlying basic mathematics and fundamental physics. This course builds on arithmetic concepts, including whole numbers, decimals, fractions, and metric measurements. Emphasis is placed on critical thinking and problem-solving skills. Also, the course is designed to provide students for Fundamentals Physics with an understanding of forces, momentum, energy, and other concepts.

COURSE TITLE: GENERAL ANATOMY,
PHYSIOLOGY, PATHOLOGY

COURSE NUMBER: BSDMS-1.2

PREREQUISITE: BSDMS-1.1

LECTURE HOURS: 90.00

LABORATORY HOURS: 00.00

TOTAL IN CLASS HOURS: 90.00

OUTSIDE CLOCK HOURS: 180.00

TOTAL CREDITS HOURS: 6.0

SUBJECTS;

- ✗ Cardiopulmonary, Cardiovascular systems
- ✗ Central Nervous system
- ✗ Gastrointestinal system
- ✗ Musculoskeletal system
- ✗ Reproductive systems
- ✗ Urinary system
- ✗ Endocrine system
- ✗ Reticuloendothelial system
- ✗ Skin and Integumentary system

The students will be introduced to the fundamentals of chemistry and human anatomy, physiology, and pathophysiology. The course includes the ability to recognize and identify all major body systems and understand the primary physiological reactions of the human body. This course will give the student a complete understanding of the pathological processes that may affect the all human body.

COURSE TITLE: MEDICAL TERMINOLOGY,
CAREER, AND PROFESSIONAL DEVELOPMENT

COURSE NUMBER: BSDMS-1.3

PREREQUISITE: BSDMS-1.2

LECTURE HOURS: 48.00

LABORATORY HOURS: 00.00

TOTAL IN CLASS HOURS: 48.00

OUTSIDE CLOCK HOURS: 96.00

TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✗ Medical Abbreviations, Signs, and Symbols
- ✗ Combining Forms, Prefixes, and Suffixes
- ✗ Specific Medical Sonographic Terminology
- ✗ Process of Certification, Credentialing
- ✗ Career Pathways within the field of DMS
- ✗ Effective Resume Writing
- ✗ Conduct employment searches, Interview Skills
- ✗ Continuing Education Requirements

This course is designed to provide a comprehensive foundation for basic medical terminology to be used in healthcare careers. It Includes Greek and Latin word roots, prefixes, suffixes, combining forms, special endings, plural forms, abbreviations, and symbols. Terminology emphasis is placed on body structures, anatomical systems, pathologies, medical procedures, medical specialties, and common terms and abbreviations used in health care. The course introduces concepts and applications of reading, writing, and interpreting common medical formats. The course demonstrates knowledge of the careers in sonography and professional development. Students are introduced to professional organizations, certifications and credentialing, continuing education, essentials for employment, interviewing, and employment search

COURSE TITLE: MEDICAL ETHICS, MEDICAL LAW,

SUBJECTS:

SONOGRAPHERS SAFETY AND PATIENTS CARE

COURSE NUMBER: BSDMS-1.4

PREREQUISITE: NONE

LECTURE HOURS: 48.00

LABORATORY HOURS: 00.00

TOTAL IN CLASS HOURS: 48.00

OUTSIDE CLOCK HOURS: 96.00

TOTAL CREDITS HOURS: 3.0

- ⊗ Ethical Decision, HIPAA Compliance
- ⊗ Professional Codes of Conduct and Scope of Practice
- ⊗ Patient Bill of Rights
- ⊗ Protective Equipment Requirements
- ⊗ Strategies for Dealing with Difficult Patients
- ⊗ Principles of Emotional and Psychological Support
- ⊗ Patient Safety, Infection Control, Transportation
- ⊗ Manage Emergency Situations

This course familiarizes the students with an understanding of the specific laws and regulations that impact the healthcare environment, patient bill of rights, fundamental medical ethical decision-making, patient confidentiality pertinent legal principles. This course is designed to develop the student’s ability to communicate effectively. The students demonstrate knowledge and understanding of ergonomics, physical stress factors, and repetitive stress injuries. This sequence will provide the student with a sonographer–patient interaction, principles of emotional and psychological support, patient safety practices, infection control, universal precautions, emergency situations and procedures, patient transfer, and transportation.

COURSE TITLE: ULTRASOUND PHYSICS-I

SUBJECTS:

COURSE NUMBER: BSDMS-1.5

PREREQUISITE: BSDMS-1.1

LECTURE HOURS: 56.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS: 56.00

OUTSIDE CLOCK HOURS: 112.0

TOTAL CREDITS HOURS: 3.5

- ⊗ Ultrasound Physical Principles
- ⊗ Continuous Waves
- ⊗ Pulse Waves
- ⊗ Intensities, Attenuations
- ⊗ Sound Production, Transmission and Reflection
- ⊗ Impedances, Wave Angle Interactions

This course will provide the student with a theoretical understanding of the principles of ultrasound physics as it applies to diagnostic medical imaging. The course material will focus on the physical principles of sound energy, sound production, transmission, and reflection. This course provides an introduction to and an overview of the principles of ultrasound physics as it applies to diagnostic medical imaging. Emphasis will be placed on the physical principles of sound waves and their categorization.

COURSE TITLE: ULTRASOUND PHYSICS-II

SUBJECTS:

COURSE NUMBER: BSDMS-1.6

PREREQUISITE: BSDMS-1.5

LECTURE HOURS: 48.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS: 48.00

OUTSIDE CLOCK HOURS: 96.0

TOTAL CREDITS HOURS: 3.0

- ⊗ Transducers Architectures,
- ⊗ Matching Layer
- ⊗ Piezoeffects
- ⊗ Damping Materials
- ⊗ Beam Formers (Near, far zones)
- ⊗ Type of Transducers
- ⊗ Set Up Ultrasound System
- ⊗ Problems and Solution

The course material will focus on the physical principles of sound energy, transducer architecture, sound production, and beam structural design. This module teaches the student the developmental concept of sonographic appearance, architectures of modern technology scan heads, and potential artifacts.

This course provides an introduction to and an overview of the principles of ultrasound transducers as it applies to diagnostic medical imaging. Emphasis will be placed on physical principles of construction, beam former, and transducer applications.

COURSES TITLE: APPLIED ULTRASOUND
SCIENCES I (INSTRUMENTATION AND MODES)
COURSE NUMBER: BSDMS -1.7(a)*
PREREQUISITE: NONE
LECTURE HOURS: 20.00
LABORATORY HOURS: 52.00
TOTAL CLOCK HOURS : 72.00
OUTSIDE CLOCK HOURS: 92.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:
☒ Image Optimization Techniques
☒ 2D-Modes
☒ M-Modes
☒ Duplex Imaging

The course establishes knowledge of the careers in sonography as healthcare professionals who utilize medical ultrasound in various settings to gather sonographic data to aid in the diagnosis of a variety of medical conditions and diseases.

COURSES TITLE: APPLIED ULTRASOUND
SCIENCES II (INSTRUMENTATION AND MODES)
COURSE NUMBER: BSDMS -1.7(b)*
PREREQUISITE: - BSDMS -1.7(a)
LECTURE HOURS: 32.00
LABORATORY HOURS: 00.00
TOTAL CLOCK HOURS : 32.00
OUTSIDE CLOCK HOURS: 64.00
TOTAL CREDITS HOURS: 2.0

SUBJECTS:
☒ Harmonic imaging characteristics
☒ Doppler-Modes (Spectral, Color, Power)
☒ Duplex Imaging Strain, Electrography)

Classroom instruction will be coordinated with certain instrumental activities, including appropriate adjustments to M-mode, color flow, and spectral trace. This course provides an introduction to and an overview of the principles of the Doppler shift as it applies to diagnostic medical imaging.

COURSES TITLE: APPLIED ULTRASOUND SCIENCES II
(SCANNING TECHNIQUE AND PROCEDURES)
COURSE NUMBER: BSDMS -1.8*
PREREQUISITE: BSDMS -1.7 (a),(b)
LECTURE HOURS: 52.00
LABORATORY HOURS: 52.00
TOTAL CLOCK HOURS : 104.00
OUTSIDE CLOCK HOURS: 156.0
TOTAL CREDITS HOURS: 5.0

SUBJECTS:
☒ Scanning methods and planes
☒ Purpose and functions
☒ Transducers selection
☒ Ergonomics and supports tools
☒ Acknowledge of Examination Procedures
☒ Type of examination (pre-sets)

The students will be able to adjust Brightness and Motion-modes and control to regulate Color Flow, Spectral, and Power Doppler instruments. Also, they will be able to demonstrate knowledge of examination procedures for appropriate protocols, including Abdominal, OB/GYN, Cardiac, and Vascular examinations.

COURSE TITLE: APPLIED ULTRASOUND SCIENCES III
(TECHNICAL IMAGE AND PRODUCTION)
COURSE NUMBER: BSDMS -1.9*
PREREQUISITE: BSDMS -1.8
LECTURE HOURS: 52.00
LABORATORY HOURS: 52.00
TOTAL CLOCK HOURS : 104.00
OUTSIDE CLOCK HOURS: 156.00
TOTAL CREDITS HOURS: 5.0

SUBJECTS:
☒ Scanning Techniques
☒ Controls to Optimize Brightness Image Production
☒ Controls to Optimize Hemodynamic Image Production
☒ Measurements and Calculations
☒ Significance of Bioeffects (ALARA),
☒ Significance Safety, Maintaining
☒ Report Writing

The students will be able to adjust and Control Brightness Motion- Doppler modes, regulate color flow, and Spectral instruments. This course familiarizes the students with an understanding of the measurements. **34**

COURSE TITLE: ULTRASOUND PHYSICS- III
(DOPPLER)

COURSE NUMBER: BSDMS -2.1

PREREQUISITE: BSDMS -1.6

LECTURE HOURS: 56.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS : 56.00

OUTSIDE CLOCK HOURS: 112.00

TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Doppler Effect
- ☒ Doppler Equations
- ☒ Doppler Technologies and Components,
- ☒ Doppler and Duplex Applications
- ☒ Doppler and Duplex Instruments
- ☒ Principles of Hemodynamics
- ☒ Physical Principles of the Vascular System
- ☒ Energy, Pressure, Flow Resistance
- ☒ Normal, Abnormal Doppler Characterizations

In this course, the students learn the fundamentals of Doppler physics. This course teaches the student the developmental concept of Sonographic appearance, including spectral and color Doppler instruments. Classroom instruction will be coordinated with certain instrumental activities, including appropriate adjustments to M-mode, color flow, and spectral trace. This course provides an introduction to and an overview of the principles of the Doppler shift as it applies to diagnostic medical imaging. Emphasis will be placed on the physical principles of artifacts and their categorization.

COURSE TITLE: ULTRASOUND PHYSICS- IV
(INSTRUMENTATION)

COURSE NUMBER: BSDMS -2.2

PREREQUISITE: BSDMS -2.1

LECTURE HOURS: 56.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS : 56.00

OUTSIDE CLOCK HOURS: 112.00

TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ System's Construction
- ☒ System's Vital Components
- ☒ Receiver Functions
- ☒ Pre and Post Processing
- ☒ Image Storage and Monitors
- ☒ Display Modes

This course familiarizes the students with an understanding of fundamental instrumentations, including but not limited to receiver functions, pre and post-processing, and imaging modes. This course is designed to develop the student's ability to knobology, including physical principles of Overall gain, Time gain, Compensation, depth, Focusing, and 2-D grayscale controls. This course will provide the student with a theoretical and concrete knowledge of all components of the ultrasound machine.

COURSE TITLE: ULTRASOUND PHYSICS- V
(ARTIFACTS, BIO., QUALITY ASSURANCE, SAFETY)

COURSE NUMBER: BSDMS -2.3

PREREQUISITE: BSDMS -2.2

LECTURE HOURS: 48.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS : 48.00

OUTSIDE CLOCK HOURS: 96.00

TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ☒ Ultrasound Imaging Artifacts (All Groups)
- ☒ Ensure and Implement Quality Assurance
- ☒ Bioeffects
- ☒ Safety Principle
- ☒ Specific Vascular Physical Principles
- ☒ Plethysmographs
- ☒ Image Documentations

This course will prepare the student to recognize Sonographic Artifacts, Performance and Safety, Bioeffects, also specific vascular physical principles, Plethysmography, Ohm's Law, methods of measuring electrical resistance, and advanced Hemodynamics. This course will provide the student with a theoretical and practical knowledge of the artifacts and ensure and implement quality assurance by maintaining image documentation, performance, and safety. Specific topics to be covered include a statistical profile.

COURSE TITLE ABDOMINAL VASCULATURE
AND PERITONEAL CAVITIES

SUBJECTS: (Course Description cont.)

COURSE NUMBER: BSDMS -2.4
PREREQUISITE: BSDMS -1.3
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 96.00
OUTSIDE CLOCK HOURS: 144.0
TOTAL CREDITS HOURS: 4.5

- ☒ Abdominal Cavities
- ☒ Anatomy of the Abdominal Vascular System
- ☒ Physiology and Pathophysiology
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques and Clinical Indications

The course provides students with an understanding of the peritoneal cavity and potential spaces in the pelvic cavity where fluid collections and pathologies may be located. Also, this course will give the student a comprehensive understanding of the pathological processes that may affect the abdominal vascular organs. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. Classroom instruction will be coordinated with practical activities. Graduates will be able to recognize and identify the normal sonographic appearance, understand theoretical findings in performing invasive (Lymph node biopsy), interventional, and therapeutic procedures, apply the appropriate scanning protocol, techniques, and measurements in correlation with history and physical examination, imaging and laboratory findings and Primary/Differential Diagnosis.

COURSE TITLE: LIVER
COURSE NUMBER: BSDMS -2.5
PREREQUISITE: BSDMS -2.4
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 96.00
OUTSIDE CLOCK HOURS: 144.0
TOTAL CREDITS HOURS: 4.5

- SUBJECTS:**
- ☒ Gastrointestinal Organs
 - ☒ Cross-Sectional Anatomy
 - ☒ Anatomy of the Liver (Segmental, Inter-Intra Vessels)
 - ☒ Physiology and Pathophysiology (Laboratory Findings)
 - ☒ Normal and Abnormal Conditions
 - ☒ Sonographic Anatomical Structures and Appearance.
 - ☒ Imaging Techniques and Clinical Indications

This course will introduce the student to ultrasound imaging of the abdominal gastrointestinal organs. It includes a comprehensive anatomical review of the Liver, the cross-sectional anatomy of these structures, and their appearance. This course will give the student a complete understanding of the pathological processes that may affect the Liver. Classroom instruction will be coordinated with practical activities. Graduates will be able to recognize theoretical findings in performing invasive (Liver biopsy), interventional, and therapeutic procedures, appropriate scanning protocol, techniques, and measurements in correlation with history and physical examination. Also, graduates will be able to identify imaging, laboratory findings, and differential diagnosis.

COURSE TITLE: GALLBLADDER, BILIARY TREE
COURSE NUMBER: BSDMS-2.6
PREREQUISITE: BSDMS-2.5
LECTURE HOURS: 40.00
LABORATORY HOURS: 40.00
TOTAL IN CLASS HOURS: 80.00
OUTSIDE CLOCK HOURS: 120.00
TOTAL CREDITS HOURS: 3.5

- SUBJECTS:**
- ☒ Anatomical Structures, Physiology, Pathology
 - ☒ Specific Diseases of the Gallbladder
 - ☒ Specific Diseases of the Biliary System
 - ☒ Normal and Abnormal Conditions
 - ☒ Sonographic Anatomical Structures and Appearance.
 - ☒ Imaging Techniques and Clinical Indications
 - ☒ Report Writing

This class introduces normal anatomy, anatomic variants, physiology and pathologic conditions, and ultrasound evaluation of the Gallbladder. This course will give the student a complete understanding of the pathological processes that may affect the Gallbladder. The cross-sectional anatomy of this structure and its appearance on the sonogram will also be discussed. Instruction will be coordinated with practical activities. Graduates will be able to recognize findings in performing appropriate scanning protocols, techniques, and measurements in correlation.

COURSE TITLE	PANCREAS	SUBJECTS:	(Course Description cont.)
COURSE NUMBER:	BSDMS-2.7	☒Anatomy of the Pancreas	
PREREQUISITE:	BSDMS-2.6	☒Cross-Sectional Relationship of the Pancreas	
LECTURE HOURS:	40.00	☒Physiology and Pathophysiology	
LABORATORY HOURS:	40.00	☒Clinical and laboratory findings	
TOTAL CLOCK HOURS :	80.00	☒Specific Disease Processes of The Pancreas.	
OUTSIDE CLOCK HOURS:	120.0	☒ Sonographic Anatomical Structures and Appearance.	
TOTAL CREDITS HOURS:	3.5	☒Imaging Techniques and Clinical Indications	

This course will prepare students to acquire knowledge of the location, anatomy, physiology, and pathology of the Pancreas. This course studies basic structures viewed in sectional anatomy. This course will give the student a comprehensive understanding of the pathological processes that may affect these organs. This course will prepare the student to recognize the pathological processes of the endocrine system, imaging and laboratory findings, and Primary/Differential Diagnosis. Graduates will be able to recognize and identify the normal and abnormal sonographic appearances and patterns of degenerative, infectious inflammatory, and neoplastic pathologies. Also, the students will apply the appropriate scanning protocol, techniques, and measurements in correlation with history and physical examination.

COURSE TITLE:	SPLEEN	SUBJECTS:	
COURSE NUMBER:	BSDMS-2.8	☒Anatomy of the Spleen	
PREREQUISITE:	BSDMS-2.7	☒Cross-Sectional Relationship of the Spleen	
LECTURE HOURS:	32.00	☒Physiology and Pathophysiology	
LABORATORY HOURS:	32.00	☒Clinical and laboratory findings	
TOTAL CLOCK HOURS :	64.00	☒Specific Disease Processes of The Spleen.	
OUTSIDE CLOCK HOURS:	96.0	☒ Sonographic Anatomical Structures and Appearance.	
TOTAL CREDITS HOURS:	3.0	☒Imaging Techniques and Clinical Indications	
		☒Report Writing	

This course studies structures viewed in sectional anatomy and will prepare students to acquire the knowledge of the location, anatomy, physiology, and pathology of the Spleen. This course will give the student a comprehensive understanding of the pathological processes that may affect these organs. Graduates will be able to recognize and identify the normal sonographic appearance, variants, and findings in performing invasive, interventional, and therapeutic procedures, including lymph node biopsy. The course teaches and demonstrates knowledge of the sonographic appearance patterns of pathologies in Inflammatory, traumatic, infectious, and other specific pathologies.

COURSE TITLE:	URINARY TRACT, ADRENAL GLANDS	SUBJECTS:	
COURSE NUMBER:	BSDMS-2.9	☒Anatomy, Physiology, Pathology of the Urinary Tract	
PREREQUISITE:	BSDMS-2.8	☒Anatomy, Physiology, Pathology of the Adrenal Glands	
LECTURE HOURS:	48.00	☒Cross-Sectional Relationship Sonographic Appearances	
LABORATORY HOURS:	48.00	☒Clinical, lab. Findings Associated with achAbnormality	
TOTAL IN CLASS HOURS:	96.00	☒Imaging Techniques Clinical Indications	
OUTSIDE CLOCK HOURS:	144.00	☒Report Writing	
TOTAL CREDITS HOURS:	4.5		

This course will provide the student with theoretical and practical knowledge of the urinary tract, including anatomy, normal anatomic variants, physiology, and pathologic conditions of the Kidney(s), Adrenal Glands, and Urinary Bladder. This course includes a discussion of the various exam protocols for ultrasound evaluation of the urinary organs. Classroom instruction will be coordinated with practical activities. Graduates will be able to recognize and identify the normal sonographic appearance, variants, and findings in performing appropriate imaging, and apply the appropriate scanning protocol, techniques, and measurements in correlation .

COURSE TITLE: MALE GENITALSTRUCTURES
COURSE NUMBER: BSDMS-2.10
PREREQUISITE: BSDMS-2.9
LECTURE HOURS: 36.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS : 72.00
OUTSIDE CLOCK HOURS: 108.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ✎Anatomy, Physiology, Pathology_of the MGS
- ✎Cross-Sectional Relationships
- ✎Clinical and Laboratory Findings
- ✎Specific Disease Processes of The MGS
- ✎Sonographic Anatomical Structures and Appearance.
- ✎Imaging Techniques and Clinical Indications
- ✎Report Writing

This course will provide the student with a theoretical and practical knowledge of the genital and superficial organs, including anatomy, variants, physiology, and pathologic conditions of the male genital organs(Scrotum, Prostate). This course includes a discussion of the various exam protocols for ultrasound evaluation of the genitourinary organs. Students will be able to recognize and identify the normal sonographic appearance of the Scrotal sac, including testes, epididymis, spermatic cord, prostate, and seminal vesicles; graduates will be apply the appropriate scanning protocol, techniques, and measurements in correlation with the patient history, laboratory, and diagnosis information The participates will be Identify sonographic appearance patterns of the congenital, inflammatory, neoplastic pathologies, and imaging of the **Male GenitalStructures**.

COURSE TITLE: SPINAL CORD AND MUSCULOSKELETAL STRUCTURES
COURSE NUMBER: BSDMS-2.11*
PREREQUISITE: NONE
LECTURE HOURS: 32.00
LABORATORY HOURS: 32.00
TOTAL CLOCK HOURS : 64.00
OUTSIDE CLOCK HOURS: 96.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✎Location, Anatomy, Physiology
- ✎Structure(s) Evaluation of musculoskeletal system
- ✎Probe Options for Scanning Musculoskeletal System
- ✎Medical Terms use Musculoskeletal System
- ✎List the suggested patient position
- ✎Sonographic Appearance and Name the survey steps
- ✎Order and exact location to take sonographic images
- ✎Report Writing

This course will provide the student with theoretical and practical knowledge of the Spinal cord and Musculoskeletal system and the terms used to describe it. This course teaches to evaluate the structures in the musculoskeletal system Anatomy, Physiology, Pathology, and Sonographic Appearance. The course consists of the Subscapularis Muscle and Tendon (aid in internal rotation of the shoulder), Supraspinatus Muscle and Tendon (aid abduction of the shoulder), Infraspinatus Muscle and Tendon (aid external rotation of the shoulder), Teres Minor Muscle and Tendon. Classroom instruction will be coordinated with laboratory activities.

COURSE TITLE: NECK AND SURROUND

STRUCTURES
COURSE NUMBER: BSDMS-2.12*
COURSE NUMBER: BSDMS-2.11
PREREQUISITE: NONE
LECTURE HOURS: 32.00
LABORATORY HOURS: 32.00
TOTAL CLOCK HOURS : 64.00
OUTSIDE CLOCK HOURS: 96.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✎Location, Anatomy, Physiology, Pathology
- ✎Structure(s) Evaluation of musculoskeletal system
- ✎Cross-Sectional Relationship
- ✎ Surround Structures; Thyroid, Parathyroid
- ✎Clinical and Laboratory Findings
- ✎Imaging Techniques and Clinical Indications
- ✎Sonographic Appearance of the Neck
- ✎Sonographic Appearance of the Thyroid, Parathyroid
- ✎Report Writing

This course will provide the student with theoretical and practical knowledge of the Neck and Surround Structures, including anatomy, normal anatomic variants, physiology, and pathologic conditions. The course includes a discussion of the various exam protocols of ultrasound evaluation of the neck and teaches normal anatomy, anatomic variants, normal physiology, and pathological conditions of the Thyroid and Parathyroid. The course focuses on developing the student’s ability to scan the neck accurately and surrounding structures, including thyroid and parathyroid glands.

COURSE TITLE: ANTERIOR ABDOMINAL WALL TISSUES AND GASTROINTESTINAL TRACT
COURSE NUMBER: BSDMS-2.13*
PREREQUISITE: BSDMS-2.12
LECTURE HOURS: 32.00
LABORATORY HOURS: 32.00
TOTAL CLOCK HOURS : 64.00
OUTSIDE CLOCK HOURS: 96.0
TOTAL CREDITS HOURS: 3.0

SUBJECTS:
 ✎ Anatomy, Physiology, and Pathology
 ✎ Cross-Sectional Relationships
 ✎ Clinical Indications
 ✎ Sonographic Anatomical Structures and Appearances.
 ✎ Clinical and Laboratory Findings
 ✎ Imaging Techniques and Clinical Indications
 ✎ Anatomy, Physiology, Pathology of the gastrointestinal tract includes Appendix

This course will introduce the student to ultrasound imaging of the abdominal wall and tissues. The Course provides students with an understanding of the peritoneal cavity and potential spaces, the structure of the anterior abdominal wall tissues, and the Gastrointestinal Tract. Also, this course will give the student a comprehensive understanding of the pathological processes that may affect the anterior abdominal wall (Hernias, Neoplasms, and others). The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. Classroom instruction will be coordinated with practical activities.

COURSE TITLE: NON-CARDIAC CHEST, PLEURAL CAVITY
COURSE NUMBER: BSDMS-2.14*
PREREQUISITE: BSDMS-2.13
LECTURE HOURS: 32.00
LABORATORY HOURS: 32.00
TOTAL CLOCK HOURS : 64.00
OUTSIDE CLOCK HOURS: 96.0
TOTAL CREDITS HOURS: 3.0

SUBJECTS:
 ✎ Anatomy, Physiology, and Pathology of the Pleural Cavity
 ✎ Cross-Sectional Relationship of the Pleural Cavity
 ✎ Sonographic Anatomical Structures and Appearances.
 ✎ Clinical and Laboratory Findings
 ✎ Imaging Techniques and Clinical Indications
 ✎ Report Writing

This course will introduce the student to ultrasound imaging of the non-cardiac chest, pleural cavity, and gastrointestinal organs. The Course provides students with an understanding of the cross-sectional anatomy of these structures and their appearance on the sonogram. The comprehensive anatomical evaluation includes Appendix. This course will give the student a complete understanding of the pathological processes that may affect the Chest, Pleural Cavity, and Gastrointestinal organs. Classroom instruction will be coordinated with certain practical activities. Lab activities are designed to develop the student's scanning skills. Graduates will be able to recognize and identify the normal sonographic appearance, variants, and findings in performing invasive, interventional, and therapeutic procedures.

COURSE TITLE: GYNECOLOGICAL SONOGRAPHY
COURSE NUMBER: BSDMS-2.15
PREREQUISITE: NONE
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL IN CLASS HOURS: 96.00
OUTSIDE CLOCK HOURS: 144.00
TOTAL CREDITS HOURS: 4.5

SUBJECTS:
 ✎ Anatomy and Physiology of the Female Pelvis Uterus, Vagina, Ovaries, Adnexa
 ✎ Pelvic musculature, Peritoneal spaces, Pelvic vasculature
 ✎ Pathology of the Female Pelvis
 ✎ Clinical Findings Associated with each Abnormality
 ✎ Cross-Sectional Relationship Sonographic Appearances
 ✎ Imaging Techniques Clinical Indications
 ✎ Report Writing

The course teaches and demonstrates knowledge of the normal anatomy, anatomic variants, normal physiology and pathological conditions of the female pelvis. This course will prepare the students to perform sonograms of the female pelvis. It includes a comprehensive anatomical review of the female reproductive organs. This course is designed to provide students with an understanding of the potential complicating conditions of the gravid female pelvis, including uterine and ovarian location, size, and vascular changes. Classroom instruction will be coordinated with practical activities.

COURSE TITLE: OBSTETRICALSONOGRAPHY
COURSE NUMBER: BSDMS-2.16
PREREQUISITE: BSDMS-2.15
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 96.00
OUTSIDE CLOCK HOURS: 144.0
TOTAL CREDITS HOURS: 4.5

SUBJECTS:
☒ Normal Trimesters, Placenta, Amniotic Fluid
☒ Fetal Anatomy, Physiology, and Fetal Circulation
☒ Clinical and Laboratory Findings
☒ Pertinent assessment and measurement of fetal structures
☒ Sonographic Anatomical Structures and Appearance
☒ Imaging Techniques and Clinical Indications
☒ Biometric Measurements
☒ Report Writing.

The course teaches and demonstrates knowledge of the normal trimesters and anatomic variants, including but not limited to the Placenta, Amniotic Fluid, and Fetal Circulation. It includes a comprehensive anatomical review of the clinical indications. This course will give the student a complete understanding of pathological processes. The students learn to identify the various physiological indications of well-being or distress during appropriate stages of pregnancy, including cardiovascular, gastrointestinal, skeletal, genital, urinary, and other biophysical profiles. The course demonstrates knowledge of Biometrical measurements and appropriate procedures (Amniocentesis, Umbilical cord sampling/transfusion.

COURSE TITLE: BREAST SONOGRAPHY
COURSE NUMBER: BSDMS-2.17
PREREQUISITE: NONE
LECTURE HOURS: 32.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 80.00
OUTSIDE CLOCK HOURS: 112.0
TOTAL CREDITS HOURS: 3.

SUBJECTS:
☒ Anatomy, Physiology, and Pathology of the Breast
☒ Cross-Sectional Relationship of the Breast
☒ Clinical and Laboratory Findings
☒ Sonographic Anatomical Structures and Appearance.
☒ Imaging Techniques and Clinical Indications
☒ Report Writing

This course will provide the student with theoretical and practical knowledge of the Breast. This course includes a discussion of the various exam protocols of ultrasound evaluation and teaches normal anatomy, physiology, and pathological conditions of the Organ. Graduates will be able to apply the appropriate scanning protocol, techniques, and measurements in correlation with the following clinical information: a) History and physical examination, b) Other imaging and laboratory findings c) Primary / Differential Diagnosis. The course focuses on the development of the student's ability to scan accurately. Graduates will be able to recognize and identify normal and abnormal sonographic appearances.

COURSE TITLE: CEREBROVASCULAR ANDUPPER
EXTREMITY VASCULAR SONOGRAPHY
COURSE NUMBER: BSDMS-3.1
PREREQUISITE: NONE
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL IN CLASS HOURS: 96.00
OUTSIDE CLOCK HOURS: 144.00
TOTAL CREDITS HOURS: 4.5

SUBJECTS:
☒ Normal, abnormal Structures. Cross-Sectional Anatomy
☒ Cerebellum, Cerebrum Brain Stem
☒ Clinical Indications of the Sonographic Appearance
☒ Normal and Abnormal Conditions
☒ Imaging Techniques, including Doppler Flow Pattern
☒ Report Writing

The course familiarizes the students with an understanding of transcranial cerebrovascular Systems. This course will prepare the student to recognize the pathological processes of the cerebrovascular vascular system. The accent is placed on the ability to recognize and identify Cervical/Neck scanning techniques. The student learns to identify and perform extracranial carotid and vertebral artery exams using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. Students learn to perform calculation measurements, including ICA/CCA, Peak systolic/End Diastolic Velocities, and Middle Cerebral, Anterior Cerebral, Posterior Cerebral, and Vertebral Basilar Arteries. Also, Emphasis is placed on the ability to recognize and identify the upper extremities' vascular systems. It includes a brief anatomical review of the systemic arteries and veins.

COURSE TITLE: LOWER EXTREMITY
VASCULAR SONOGRAPHY

COURSE NUMBER: BSDMS-3.2

PREREQUISITE: BSDMS-3.1

LECTURE HOURS: 32.00

LABORATORY HOURS: 48.00

TOTAL CLOCK HOURS: 80.00

OUTSIDE CLOCK HOURS: 112.00

TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Cross-Sectional Relationship of the Lower extremity
- ☒ Physiology and Pathophysiology
- ☒ Clinical and laboratory findings
- ☒ Specific Disease Processes of the Lower extremity
- ☒ Sonographic Anatomical Structures and Appearance.
- ☒ Imaging Techniques and Clinical Indications
- ☒ Report Writing

This course is designed for students to gain knowledge in ultrasound imaging of the lower extremity. It includes a brief anatomical review of the systemic arteries and systemic veins. Students learn to perform Segmental Pressure, Segmental Plethysmography, and Duplex scanning of native arteries and veins of the lower extremities, including but not limited to a false aneurysm and arteriovenous fistula identification. This course will prepare the student to recognize the pathological processes of the lower vascular system

COURSE TITLE: CARDIAC FUNDAMENTALS
AND PRINCIPLES OF CARDIAC PHARMACOLOGY

COURSE NUMBER: BSDMS-4.1

PREREQUISITE: NONE

LECTURE HOURS: 24.00

LABORATORY HOURS: 24.00

TOTAL CLOCK HOURS: 48.00

OUTSIDE CLOCK HOURS: 72.00

TOTAL CREDITS HOURS: 2.0

SUBJECTS:

- ☒ Medical Cardiac Terminology
- ☒ Cardiac Anatomy and Physiology
- ☒ Echocardiology and Imaging Techniques
- ☒ Principles of Cardiac pharmacology
- ☒ Cardiac Specific Drugs
- ☒ Drugs used for Cardiac Emergency
- ☒ Report Writing

The purpose of this course is to explore in detail the construction and dynamics of the cardiovascular system. Topics include cardiac medical terminology and the metric conversions required in cardiac therapy, as well as cardiopulmonary anatomical and physiological considerations, cardiac pumping action, and Echocardiology. A student learns its systemic and pulmonary circulations, basic principles of cardiac pharmacology, and specific drugs. Classroom instruction will be coordinated with certain laboratory activities.

COURSE TITLE: CARDIAC PATHOLOGICAL
MECHANISM AND NON-INVASIVE DIAGNOSTIC TESTS

COURSE NUMBER: BSDMS-4.2

PREREQUISITE: BSDMS-4.1

LECTURE HOURS: 24.00

LABORATORY HOURS: 24.00

TOTAL CLOCK HOURS : 48.00

OUTSIDE CLOCK HOURS: 72.00

TOTAL CREDITS HOURS: 2.0

SUBJECTS:

- ☒ Structural Anatomy
- ☒ Sonographic Cross-Sectional Anatomy
- ☒ Pathology / Pathophysiology
- ☒ Clinical Indications and Therapeutic Measures
- ☒ Abnormal Conditions and Congenital Diseases
- ☒ Imaging Techniques, Doppler Flow Pattern
- ☒ Test Procedures and Data Correlation

The course teaches and demonstrates knowledge of cardiac structural anatomy. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. This course will prepare the student to recognize pathological processes and therapeutic measures. The student learns to identify and perform exams using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. The class teaches the student the basic concept of sonographic appearance, patient position during sonographic examinations, and interpretation of sonographic characteristics.

COURSE TITLE: HEMODYNAMICS AND PRACTICAL APPLICATION

COURSE NUMBER: BSDMS-4.3
PREREQUISITE: BSDMS-4.2
LECTURE HOURS: 24.00
LABORATORY HOURS: 24.00
TOTAL CLOCK HOURS: 48.00
OUTSIDE CLOCK HOURS: 72.00
TOTAL CREDITS HOURS: 2.0

SUBJECTS:

- ✎ Principles of Flow
- ✎ Measurements and normal values
- ✎ Physical Considerations
- ✎ M-mode and 2D Echocardiography
- ✎ Assessment Techniques (Objective, Subjective)
- ✎ Imaging Techniques, Doppler Flow Pattern
- ✎ Test Procedures, Data Correlation
- ✎ Report Writing

The purpose of this course is to explore in detail the construction and dynamics of the cardiovascular system. The student learns to identify and perform Cardiac Atrial and Ventricular Hemodynamics using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. Students learn to perform M-mode and 2Dimensional Echocardiography. Emphasis is placed on the ability to recognize and identify test procedures requirements and data correlation. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed.

COURSE TITLE: DISEASE STATE IDENTIFICATION

COURSE NUMBER: BSDMS-4.4
PREREQUISITE: BSDMS-4.3
LECTURE HOURS: 24.00
LABORATORY HOURS: 24.00
TOTAL CLOCK HOURS: 48.00
OUTSIDE CLOCK HOURS: 72.00
TOTAL CREDITS HOURS: 2.0

SUBJECTS:

- ✎ Anatomy of the Spleen
- ✎ Cross-Sectional Relationship of the Spleen
- ✎ Physiology and Pathophysiology
- ✎ Clinical and laboratory findings
- ✎ Specific Disease Processes of The Spleen.
- ✎ Sonographic Anatomical Structures and Appearance.
- ✎ Imaging Techniques and Clinical Indications
- ✎ Report Writing

This course will prepare the student to recognize the pathological processes of the cardiovascular system. The following topics will be discussed: Ischemic Heart and Coronary Artery Diseases, Myocardial and Pericardial Diseases, Infective Endocarditis and Rheumatic Heart Diseases, Acquired Valvular Heart disease, Heart failure, Thrombi and Aneurysms, Pulmonary Heart Disease, Murmurs, and congenital abnormalities and Prosthetic Valves. A thorough understanding of normal cardiovascular anatomy and physiology is mandatory in order to comprehend these advanced topics.

COURSE TITLE: CLINICAL EXTERNSHIP

COURSE NUMBER: BSDMS-5.1 (a), (b), (c)
PREREQUISITE: BSDMS-1.1-4.4
CLINICAL CLOCK HOURS 720.00
TOTAL CREDITS HOURS: 16.00
PREREQUISITE: DISTANCE BSDMS-1.1-4.4
CLINICAL CLOCK HOURS 720.00(360 Residential)
TOTAL CREDITS HOURS: 16.00
PREREQUISITE (BRIDGE*) BSDMS-1.7-1.9
BSDMS 2.11-2.14
CLINICAL CLOCK HOURS 240.00
TOTAL CREDITS HOURS: 5.00

SUBJECTS:

- ✎ Hands-on Training
- ✎ Manual Analyses
- ✎ Automated Analyses,
- ✎ Monitoring and Control Procedures
- ✎ Test Procedures, Data Correlation
- ✎ Evaluation and Reporting

The clinical part of the program provides students with actual hands-on experience providing diagnostic care to patients of all ages and stages of disease in doctor/imaging clinics affiliated with the American Medical Sciences Center. This series of courses allows students to observe and perform the role of the laboratory professional in the clinical setting. There are four different rotations each student must complete. They are in Echocardiographic, Vascular, Abdominal, and Gynecological/Obstetrical Studies.

ASSOCIATE OF APPLIED SCIENCE IN DIAGNOSTIC MEDICAL SONOGRAPHY PROGRAM

Total Clock Hours (2,290.00); Total Weeks (104.00); Semester Credit Hours (101.00) In Class Clock Hours per week (20.00); In Class Clock Hours per Day (4.00) **D.O.T. CODE 078.364-010; CIP CODE 51-0910**

PROGRAM OBJECTIVES -The objective is to provide the didactic and clinical skills needed to enable the student to perform the Sonographic examination requirements published or supported by nationally recognized professional organizations. AMSC graduates may apply for the following certification-granting organizations; the American Registry of Radiologic Technologists (ARRT), the American Registry for Diagnostic Medical Sonography (ARDMS), and Cardiovascular Credentialing International (CCI). Candidates should consult the ARRT website (www.ARRT.ORG) for a downloadable copy of their handbook and application. Program outcomes for an Associate of applied sciences in Diagnostic Medical Sonography include;

- Competently perform as an entry-level sonographer in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for Diagnostic Medical Sonography.
- Demonstrate ethical and professional behavior through sonographic practice congruent with standards of practice. Interact effectively with individuals in a manner that reflects caring and acknowledges the holistic nature of individuals.
- Demonstrate competence in performing sonographic examinations, including history taking; machine adjustment and operation; and acquisition of ultrasound imaging and other sonographic performance.

PROFESSIONAL DUTIES - Graduates will function as an integral part of the diagnostic medical imaging team, providing patient services efficiently and in a professional, sensitive manner. Duties may include ultrasound scans of abdominopelvic, superficial structural, gynecological, and echo-vascular parts.

GRADUATION REQUIREMENTS - The college attendance policy is a minimum of 90% attendance during the course of study, which is calculated on a monthly basis. Students must perform the clinical portion of their training in an approved medical facility and receive a satisfactory evaluation. Graduates must successfully complete all courses of the program with a minimum grade of 70% and all other curriculum requirements for their course of study.

CREDIT/CLOCK HOUR CONVERSIONS

For DMS programs of study, the conversion from clock hours to credit hours is as follows:

15 Lecture Clock Hours =1.0 Semester Credit Hour 1 Lecture Clock Hours =0.066 Semester Credit Hour
 30 Laboratory Clock Hours =1.0 Semester Credit Hour 1 Laboratory Clock Hours=0.033 Semester Credit Hour
 45 Externship Clock Hour s=1.0 Semester Credit Hour 1 Externship Clock Hour s=0.022 Semester Credit Hour

OUTSIDE HOURS LEARNING

The credit hours include outside hours regardless of recognition. Semester Credit Hours are the 7.5 outside hours for each credit hour of lecture/laboratory. Credits for outside hours are awarded based on home work as well as reading and additional review materials to be completed on a weekly basis. Outside credit hours are calculated based on Accrediting Bureau of Health Education Schools (ABHES) guidelines.

EVALUATION METHODOLOGY

COMPONENT	FORMULA
Attendance	10%
Class Participation and Professionalism	10%
Quizzes	10%
Home/Outside work	10%
Course Final Tests	60%
Totals	100%

PROGRAM AGENDA

GENERAL EDUCATION PRE-REQUISITE COURSES (NON-CORE COURSES)

General Education pre-requisite courses within a Diagnostic Medical Sonography diploma program is intended to create a well-rounded individual with good general knowledge of several areas outside the specific major field of the graduate. At American Medical Sciences Center, the general education component is made up of the following courses:

- DMS-1.1 MEDICAL TERMINOLOGY, CAREER, AND PROFESSIONAL DEVELOPMENT
- DMS-1.2 MEDICAL ETHICS, MEDICAL LAW, COMMUNICATIONS SKILLS, SONOGRAPHY SAFETY, PATIENT CARE
- DMS-1.3 ALGEBRA, BASIC MATHEMATICS, PHYSICS
- DMS-1.4 GENERAL ANATOMY, PHYSIOLOGY, PATHOLOGY

ABDOMINAL ULTRASOUND (CORE COURSES)

In this module, students will gain an understanding of the normal anatomy, anatomic variants, normal physiology, and pathological conditions of the organs of the abdominal-pelvic cavity. At American Medical Sciences Center, the General Ultrasound component is made up of the following courses:

- DMS-2.1 ULTRASOUND PHYSICS-I
- DMS-2.2 ABDOMINAL VASCULATURE PERITONEAL CAVITY DMS-2.3 LIVER
- DMS-2.4 ULTRASOUND PHYSICS-II
- DMS-2.5 GALLBLADDER, BILIARY TREE DMS-2.6 PANCREAS
- DMS-2.7 SPLEEN

UROGENITAL ULTRASOUND (CORE COURSES)

This module will provide the student with a theoretical and practical knowledge of the genital and superficial organs, including anatomy, normal anatomic variants, physiology and pathologic conditions of the Reproductive organs (Scrotum, Prostate), and anatomy, physiology, and pathological conditions of the superficial structures. Also, the module focuses on the development of the student's ability to scan the Thyroid and Parathyroid glands accurately. Classroom instruction will be coordinated with laboratory activities.

- DMS-3.1 ULTRASOUND PHYSICS-III
- DMS-3.2 UROGENITAL TRACT
- DMS-3.3 MALE GENITAL AND SUPERFICIAL STRUCTURE

OBSTETRICAL AND GYNECOLOGICAL ULTRASOUND (CORE COURSES)

In this module, students will gain an understanding of the normal anatomy, anatomic variants, normal physiology, and pathological conditions of the organs of the abdominal-pelvic cavity. In this module, students will gain an understanding of the normal breast structures, including clinical indications, pathological conditions of the organs, imaging techniques, and report writing. At American Medical Sciences Center, the Obstetrical and Gynecological Ultrasound component is made up of:

- DMS-4.1 ULTRASOUND PHYSICS-IV
- DMS-4.2 GYNECOLOGY
- DMS-4.3 OBSTETRICS
- DMS-4.4 BREAST

VASCULAR TECHNOLOGY

This module is designed for students to gain knowledge in ultrasound imaging of the upper and lower extremity. It includes a brief anatomical review of the systemic arteries and systemic veins. The students will be able to identify extra and intra cranial Cerebra-Vascular systems. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. Classroom instruction will be coordinated with practical activities.

- DMS-5.1 ULTRASOUND PHYSICS-V
- DMS-5.2 CEREBRAL AND UPPER EXTREMITY VESSELS DMS-5.3 ABDOMINAL VESSELS
- DMS-5.4 LOWER EXTREMITY VESSELS

CARDIAC ULTRASOUND

The purpose of this module is to explore in detail the construction and dynamics of the cardiovascular system. Topics include anatomical and physiological considerations, cardiac pumping action and its regulation, basic hemodynamics, and systemic and pulmonary circulation. Classroom instruction will be coordinated with certain lab activities.

- DMS-6.1 CARDIAC FUNDAMENTALS, PRINCIPLES OF CARDIAC PHARMACOLOGY
- DMS-6.2 PATHOLOGICAL MECHANISM AND NON-INVASIVE DIAGNOSTIC TESTS
- DMS-6.3 HEMODYNAMICS AND PRACTICAL APPLICATIONS
- DMS-6.4 DISEASE STATE IDENTIFICATION

CLINICAL

Students participate in a clinical externship where they will gain hands-on training. The program provides students with actual hands-on experience in diagnostic care to patients of all ages and stages of disease in doctor/imaging clinics.

- DMS-7.1 EXTERNSHIPS

COURSE TITLE: MEDICAL TERMINOLOGY, CAREER AND PROFESSIONAL DEVELOPMENT

COURSE NUMBER: DMS-1.1
PREREQUISITE: NONE
LECTURE HOURS: 48.00
LABORATORY HOURS: 00.00
TOTAL IN CLASS HOURS: 48.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✎ Structure of medical words (roots, prefixes, suffixes)
- ✎ Medical abbreviations, signs, symbols
- ✎ Sonography specific terminology
- ✎ Reading, writing, spelling and pronunciation
- ✎ Careers in sonography
- ✎ Professional development.

This course is designed to provide a comprehensive foundation for basic medical terminology to be used in healthcare careers. It Includes Greek and Latin word roots, prefixes, suffixes, combining forms, special endings, plural forms, abbreviations, and symbols. The course introduces concepts and applications of reading, writing, and interpreting common medical formats. The course demonstrates knowledge of the careers in sonography and professional development. Students are introduced to professional organizations, certifications and credentialing, continuing education, memberships, essentials for employment, interviewing, and employment search.

COURSE TITLE: MEDICAL ETHICS, MEDICAL LAW, COMMUNICATIONS SKILLS, SONOGRAPHIC SAFETY, PATIENT CARE

COURSE NUMBER: DMS-1.2
PREREQUISITE: NONE
LECTURE HOURS: 48.00
LABORATORY HOURS: 00.00
TOTAL IN CLASS HOURS: 48.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✎ Ethical decision-making
- ✎ Legal principles
- ✎ Patient bill of right
- ✎ Patient communications
- ✎ Staff communications, telecommunications
- ✎ Writing technical reports
- ✎ Legal issues of patient confidentiality

This course familiarizes the students with an understanding of the specific laws and regulations that impact the healthcare environment, patient bill of rights, fundamental medical ethical decision-making, patient confidentiality pertinent legal principles. Emphasis is placed on the basic elements of workplace effectiveness. The students demonstrate knowledge and understanding of ergonomics, physical stress factors, and repetitive stress injuries. This sequence will provide the student with a Sonographer – Patient interaction, Patient safety practices, Infection control, universal precautions, principles of emotional and psychological support, patient transfer, and transportation.

COURSE TITLE: ALGEBRA, BASIC MATHEMATICS, PHYSICS

COURSE NUMBER: DMS-1.3
PREREQUISITE: NONE
LECTURE HOURS: 48.00
LABORATORY HOURS: 00.00
TOTAL IN CLASS HOURS: 48.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS ;

- ✎ Basic Algebra, calculations, metric conversions
- ✎ Linear equations and inequalities
- ✎ Principles of motion work and heat
- ✎ Principles of acoustic and light waves
- ✎ Principles of Ultrasound Physics
- ✎ Sound production and propagation
- ✎ Transducer architecture and selection
- ✎ Bio-effects, Artifacts, and safety

This course is designed to provide students with an understanding of the general principles and theories underlying algebra, mathematics, and fundamental physics. This course builds on the principles of linear equations, graphing, functions, rational expressions, radicals, and systems of equations. Emphasis is placed on critical thinking and problem-solving skills. This course is designed to provide students with an understanding of the general principles and theories underlying Ultrasound Physics.

COURSE TITLE: GENERAL ANATOMY,
PHYSIOLOGY, PATHOLOGY

COURSE NUMBER: DMS-1.4

PREREQUISITE: NONE

LECTURE HOURS: 90.00

LABORATORY HOURS: 00.00

TOTAL IN CLASS HOURS: 90.00

OUTSIDE CLOCK HOURS: 45.00

TOTAL CREDITS HOURS: 6.0

SUBJECTS:

- ☒ Cardiopulmonary/cardiovascular systems
- ☒ Central Nervous system
- ☒ Gastrointestinal system
- ☒ Musculoskeletal system
- ☒ Reproductive systems
- ☒ Urinary system
- ☒ Endocrine system
- ☒ Hematopoietic system
- ☒ Immune system

The students will be introduced to the fundamentals of chemistry and human anatomy, physiology, and pathophysiology. The course includes the ability to recognize and identify all major body systems and understand the primary physiological reactions of the human body.

COURSE TITLE: ULTRASOUND PHYSICS-I

COURSE NUMBER: DMS-2.1

PREREQUISITE: DMS-1.3

LECTURE HOURS: 56.00

LABORATORY HOURS: 00.00

TOTAL CLOCK HOURS : 56.00

OUTSIDE CLOCK HOURS: 28.00

TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Continuous Wave
- ☒ Pulse Wave
- ☒ Sound Attenuation
- ☒ Sound Intensity
- ☒ Impedances and Angles

This course will provide the student with a theoretical understanding of the principles of ultrasound physics as it applies to diagnostic medical imaging. The course material will focus on the physical principles of sound energy, sound production, transmission, and reflection. This course provides an introduction to and an overview of the principles of ultrasound physics as it applies to diagnostic medical imaging. Emphasis will be placed on the physical principles of sound waves and their categorization.

COURSE TITLE: ABDOMINAL

VASCULATURE, PERITONEAL CAVITY

COURSE NUMBER: DMS-2.2

PREREQUISITE: DMS-1.4

LECTURE HOURS: 48.00

LABORATORY HOURS: 48.00

TOTAL CLOCK HOURS: 96.00

OUTSIDE CLOCK HOURS: 36.00

TOTAL CREDITS HOURS: 4.5

SUBJECTS:

- ☒ Abdominal Cavities
- ☒ Abdominal Vascular System
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques
- ☒ Report Writing

This course will introduce the student to ultrasound imaging of the abdominal vascular system. It includes a brief anatomical review of the systemic arteries, systemic veins, and portal veins.

The course provides students with an understanding of the peritoneal cavity and potential spaces in the pelvic-pelvic cavity where fluid collections and pathologies may be located. Also, this course will give the student a comprehensive understanding of the pathological processes that may affect the abdominal vascular organs. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. Classroom instruction will be coordinated with practical activities.

COURSE TITLE: LIVER
COURSE NUMBER: DMS-2.3
PREREQUISITE: DMS-2.2
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 96.00
OUTSIDE CLOCK HOURS: 36.00
TOTAL CREDITS HOURS: 4.5

SUBJECTS:

- ✎ Gastrointestinal Organs
- ✎ Anatomy of the Liver
- ✎ Physiology and Pathophysiology
- ✎ The vascular system of the Liver
- ✎ Cross-Sectional Anatomy
- ✎ Clinical Indications
- ✎ Normal Conditions and Abnormal Conditions
- ✎ Abnormal Conditions Imaging Techniques
- ✎ Imaging Techniques Report Writing
- ✎ Report Writing

This course will introduce the student to ultrasound imaging of the abdominal gastrointestinal organs. It includes a comprehensive anatomical review of the Liver, the cross-sectional anatomy of these structures, and their appearance on the sonogram. Classroom instruction will be coordinated with practical activities. This course will give the student a complete understanding of the pathological processes that may affect the Liver.

COURSE TITLE: ULTRASOUND PHYSICS-II
COURSE NUMBER: DMS-2.4
PREREQUISITE: DMS-2.1
LECTURE HOURS: 48.00
LABORATORY HOURS: 00.00
TOTAL CLOCK HOURS: 48.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✎ Transducers Architectures,
- ✎ Matching Layer
- ✎ Piezoeffects
- ✎ Damping Materials
- ✎ Beam formers (Near and far zones)
- ✎ Type of transducers
- ✎ Set up ultrasound system
- ✎ Problems and Solution

The course material will focus on the physical principles of sound energy, transducer architecture, sound production, and beam structural design. This module teaches the student the developmental concept of sonographic appearance, architectures of modern technology scan heads, and potential artifacts. This course provides an introduction to and an overview of the principles of ultrasound transducers as it applies to diagnostic medical imaging. Emphasis will be placed on physical principles construction, beam former, and transducer application.

COURSES TITLE: GALLBLADDER AND BILIARY TREE
COURSE NUMBER: DMS-2.5
PREREQUISITE: DMS-2.3
LECTURE HOURS: 40.00
LABORATORY HOURS: 40.00
TOTAL CLOCK HOURS: 80.00
OUTSIDE CLOCK HOURS: 30.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ✎ Anatomy of the Gallbladder, Biliary Tree
- ✎ Physiology and Pathophysiology
- ✎ Cross-Sectional Anatomy
- ✎ Clinical Indications
- ✎ Normal and Abnormal Conditions
- ✎ Imaging Techniques
- ✎ Report Writing

This course introduces the normal anatomy, anatomic variants, physiology and pathologic conditions, and ultrasound evaluation of the Gallbladder. This course will give the student a complete understanding of the pathological processes that may affect the Gallbladder. The cross-sectional anatomy of this structure and its appearance on the sonogram will also be discussed. Instruction will be coordinated with practical activities. **48**

COURSE TITLE: PANCREAS

COURSE NUMBER: DMS-2.6
PREREQUISITE: DMS-2.5
LECTURE HOURS: 40.00
LABORATORY HOURS: 40.00
TOTAL CLOCK HOURS: 80.00
OUTSIDE CLOCK HOURS: 30.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Anatomy of the Pancreas
- ☒ Physiology and Pathophysiology
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques
- ☒ Report Writing

This course will prepare students to acquire knowledge the location, anatomy, physiology and pathology of the Pancreas. This course studies basic structures viewed in sectional anatomy. This course will give the student a comprehensive understanding of the pathological processes that may affect these organs. This module also provides the development of skills in scanning techniques. This course will prepare the student to recognize the pathological processes of the endocrine system.

COURSE TITLE: SPLEEN

COURSE NUMBER: DMS-2.7
PREREQUISITE: DMS-2.6
LECTURE HOURS: 32.00
LABORATORY HOURS: 32.00
TOTAL CLOCK HOURS: 64.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ☒ Anatomy of the Spleen
- ☒ Physiology and Pathophysiology
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques
- ☒ Report Writing

This course will prepare students to acquire knowledge of the location, anatomy, physiology, and pathology of the Spleen. This course studies basic structures viewed in sectional anatomy. This course will give the student a comprehensive understanding of the pathological processes that may affect these organs. This module also provides the development of skills in scanning techniques. This course will prepare the student to recognize the pathological processes of the hematopoietic system. This course will give the student a complete understanding of the pathological processes that may affect the Spleen.

COURSE TITLE: ULTRASOUND PHYSICS-III

COURSE NUMBER: DMS-3.1
PREREQUISITE: DMS-2.4
LECTURE HOURS: 56.00
LABORATORY HOURS: 00.00
TOTAL CLOCK HOURS : 56.00
OUTSIDE CLOCK HOURS: 28.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Doppler Effect
- ☒ Doppler Equations and Hemodynamics
- ☒ Circulatory System
- ☒ Critical Stenosis
- ☒ Energy, Pressure, Flow resistance
- ☒ Spectral Instruments

In this course, the students learn the fundamentals of Doppler physics. This course teaches the student the developmental concept of Sonographic appearance, including spectral and color Doppler instruments. Classroom instruction will be coordinated with certain instrumental activities, including appropriate adjustments to M-mode, color flow, and spectral trace. This course provides an introduction to and an overview of the principles of the Doppler shift as it applies to diagnostic medical imaging. Emphasis will be placed on the physical principles of artifacts and their categorization.

COURSE TITLE: URINARY TRACT

COURSE NUMBER: DMS-3.2
PREREQUISITE: DMS-2.7
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 96.00
OUTSIDE CLOCK HOURS: 36.00
TOTAL CREDITS HOURS: 4.5

SUBJECTS:

- ☒ Organ's Anatomy
- ☒ Physiology and Pathophysiology
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques
- ☒ Report Writing

This course will provide the student with theoretical and practical knowledge of the urinary tract, including anatomy, normal anatomic variants, physiology, and pathologic conditions of the Kidney(s), Adrenal Glands, and Urinary Bladder. This course includes a discussion of the various exam protocols of ultrasound evaluation of the urinary organs. Classroom instruction will be coordinated with practical activities.

COURSE TITLE: MALE GENITAL AND SUPERFICIAL STRUCTURE

COURSE NUMBER: DMS-3.3
PREREQUISITE: DMS-3.2
LECTURE HOURS: 36.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS : 72.000
OUTSIDE CLOCK HOURS: 28.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ Organ's Anatomy
- ☒ Physiology and Pathophysiology
- ☒ Cross-Sectional Anatomy
- ☒ Clinical Indications
- ☒ Normal and Abnormal Conditions
- ☒ Imaging Techniques
- ☒ Report Writing

This course teaches normal anatomy, anatomic variants, normal physiology, and pathological conditions of superficial structures. The course focuses on the development of the student's ability to scan the Thyroid and Parathyroid glands accurately. Classroom instruction will be coordinated with laboratory activities. This course will provide the student with a theoretical and practical knowledge of the genital and superficial organs, including anatomy, normal anatomic variants, physiology, and pathologic conditions of the Reproductive organs (Scrotum, Prostate).

COURSE TITLE: ULTRASOUND PHYSICS-IV

COURSE NUMBER: DMS-4.1
PREREQUISITE: DMS-3.1
LECTURE HOURS: 56.00
LABORATORY HOURS: 00.00
TOTAL CLOCK HOURS : 56.00
OUTSIDE CLOCK HOURS: 28.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ☒ System's Construction
- ☒ System's Vital Components
- ☒ Receiver Functions
- ☒ Pre and Post Processing
- ☒ Image Storage and Monitors
- ☒ Display Modes

This course familiarizes the students with an understanding of fundamental instrumentations, including but not limited to receiver functions, pre and post-processing, and imaging modes. This course is designed to develop the student's ability to knobology, including physical principles of Overall gain, Time gain, Compensation, depth, Focusing, and 2-D grayscale controls. This course will provide the student with a theoretical and concrete knowledge of all components of an ultrasound machine.

COURSE TITLE:	GYNECOLOGY	SUBJECTS:
COURSE NUMBER:	DMS-42	☒ Anatomy of the Female Pelvis
PREREQUISITE:	NONE	☒ Physiology and Pathology of the Female Pelvis
LECTURE HOURS:	48.00	☒ Cross-Sectional Anatomy,
LABORATORY HOURS:	48.00	☒ Clinical Indications
TOTAL CLOCK HOURS:	96.00	☒ Normal and Abnormal Conditions
OUTSIDE CLOCK HOURS:	36.00	☒ Imaging Techniques, Doppler Flow Pattern
TOTAL CREDITS HOURS:	4.5	☒ Report Writing

The course teaches and demonstrates knowledge of the normal anatomy, anatomic variants, normal physiology, and pathological conditions of the female pelvis. This course will prepare the students to perform sonograms of the female pelvis. It includes a comprehensive anatomical review of the female reproductive organs. This course is designed to provide students with an understanding of the potential complicating conditions of the gravid female pelvis, including uterine and ovarian location, size, and vascular changes. Classroom instruction will be coordinated with practical activities.

COURSE TITLE	OBSTETRICS	SUBJECTS:
COURSE NUMBER:	DMS-43	☒ Normal Trimesters, Placenta, Amniotic Fluid,
PREREQUISITE:	DMS-42	☒ Fetal Anatomy
LECTURE HOURS:	48.00	☒ Fetal Circulation
LABORATORY HOURS:	48.00	☒ Clinical Indications (Gestational Age, Well-Being)
TOTAL CLOCK HOURS :	96.00	☒ Complications-Maternal and fetal
OUTSIDE CLOCK HOURS:	36.00	☒ Fetal Abnormalities
TOTAL CREDITS HOURS:	4.5	☒ Imaging Techniques, Doppler Flow Pattern
		☒ Report Writing

The course teaches and demonstrates knowledge of the normal trimesters and anatomic variants, including but not limited to the Placenta, Amniotic Fluid, and Fetal Circulation. It includes a comprehensive anatomical review of the clinical indications. This course will give the student a complete understanding of pathological processes. Vascular Changes, associated cysts of early pregnancy, fluid collections, and their appearance on the sonogram will also be discussed. The students learn to identify the various physiological indications of well-being or distress during appropriate stages of pregnancy, including cardiovascular, gastrointestinal, skeletal, genital, urinary, and other biophysical profiles.

COURSE TITLE:	BREAST	SUBJECTS:
COURSE NUMBER:	DMS-44	☒ Structures and Cross-Sectional Anatomy
PREREQUISITE:	DMS-43	☒ Clinical Indications
LECTURE HOURS:	32.00	☒ Normal and Abnormal Conditions
LABORATORY HOURS:	48.00	☒ Imaging Techniques,
TOTAL CLOCK HOURS :	96.00	☒ Doppler Flow Pattern
OUTSIDE CLOCK HOURS:	36.00	☒ Report Writing
TOTAL CREDITS HOURS:	3.5	

This course will introduce the student to ultrasound imaging of the normal and abnormal anatomy and physiological indications of the Breast. The course teaches and demonstrates knowledge of normal structures and cross-sectional anatomy and their appearance on display. The students learn to identify the various physiological indications during appropriate stages of pregnancy Classroom instruction will be coordinated with laboratory activities.

COURSE TITLE: ULTRASOUND PHYSICS V
COURSE NUMBER: DMS-5.1
PREREQUISITE: DMS-4.1
LECTURE HOURS: 48.00
LABORATORY HOURS: 00.00
TOTAL CLOCK HOURS: 48.00
OUTSIDE CLOCK HOURS: 24.00
TOTAL CREDITS HOURS: 3.0

SUBJECTS:

- ✗ Physical Principles of the Vascular System
- ✗ Plethysmography
- ✗ Ohm's Law
- ✗ Doppler Flow Pattern
- ✗ Artifacts
- ✗ Performance and Safety
- ✗ Statistical profile

This course will prepare the student to recognize the specific vascular physical principles, Plethysmography, Ohm's Law, methods of measuring electrical resistance, and advanced Hemodynamics. This course will provide the student with theoretical and practical knowledge of Artifacts, Performance, and Safety. Specific topics to be covered include a diagnostic statistical profile.

COURSES TITLE: CEREBRAL AND
UPPER EXTREMITY VESSELS
COURSE NUMBER: DMS-5.2
PREREQUISITE: None
LECTURE HOURS: 48.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS : 80.00
OUTSIDE CLOCK HOURS: 28.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ✗ Structural Anatomy
- ✗ Cross-Sectional Anatomy
- ✗ Clinical Indications
- ✗ Normal and Abnormal Conditions
- ✗ Imaging Techniques,
- ✗ Doppler Flow Pattern
- ✗ Report Writing

This course familiarizes the students with an understanding of Transcranial Cerebrovascular Systems. This course will prepare the student to recognize the pathological processes of the cerebrovascular vascular system. Emphasis is placed on the ability to recognize and identify Cervical/Neck scanning techniques. The student learns to identify and perform extracranial carotid and vertebral artery exams using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. Emphasis is placed on the ability to recognize and identify the upper extremities' vascular systems. It includes a brief anatomical review of the systemic arteries and systemic veins.

COURSE TITLE: ABDOMINAL VESSELS
COURSE NUMBER: DMS-5.3
PREREQUISITE: DMS-5.2
LECTURE HOURS: 16.00
LABORATORY HOURS: 24.00
TOTAL CLOCK HOURS : 40.00
OUTSIDE CLOCK HOURS: 14.00
TOTAL CREDITS HOURS: 1.5

SUBJECTS:

- ✗ Structural Anatomy
- ✗ Cross-Sectional Anatomy
- ✗ Clinical Indications
- ✗ Normal and Abnormal Conditions
- ✗ Imaging Techniques, Doppler Flow Pattern
- ✗ Report Writing

This course will introduce the student to ultrasound imaging of the abdominal vascular system. It includes a brief anatomical review of the arteries, veins, and portal system. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. This course will prepare the student to recognize pathological processes. Students learn to perform duplex scanning of native arteries and veins of the abdominal vessels. Emphasis will be placed on visceral vessels using PW, CW, and Color Doppler instruments with spectral analysis.

COURSE TITLE: LOWEREXTREMITYVESSELS

COURSE NUMBER: DMS-5.4
PREREQUISITE: DMS-5.3
LECTURE HOURS: 32.00
LABORATORY HOURS: 48.00
TOTAL CLOCK HOURS: 80.00
OUTSIDE CLOCK HOURS: 28.00
TOTAL CREDITS HOURS: 3.5

SUBJECTS:

- ✕ Structural Anatomy
- ✕ Cross-Sectional Anatomy
- ✕ Clinical Indications
- ✕ Normal and Abnormal Conditions
- ✕ Imaging Techniques,
- ✕ Doppler Flow Pattern
- ✕ Report Writing

This course is designed for students to gain knowledge in ultrasound imaging of the lower extremity. It includes a brief anatomical review of the systemic arteries and systemic veins. Students learn to perform Segmental Pressure, Plethysmography, and Duplex scanning of native arteries and veins of the lower extremities, including but not limited to the false aneurysm and arteriovenous fistula identification. This course will prepare the student to recognize the pathological processes of the lower vascular system.

COURSE TITLE: CARDIACFUNDAMENTALS,
PRINCIPLES OF CARDIAC PHARMACOLOGY

COURSE NUMBER: DMS-6.1
PREREQUISITE: None
LECTURE HOURS: 24.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS : 60.00
OUTSIDE CLOCK HOURS: 21.00
TOTAL CREDITS HOURS: 2.5

SUBJECTS:

- ✕ Medical Terminology
- ✕ Cardiac Anatomy and Physiology
- ✕ Electro cardiology
- ✕ Principles of Cardiac pharmacology
- ✕ ADME of Cardiac-Specific Drugs
- ✕ Drugs used for Cardiac Emergency
- ✕ Imaging Techniques,

The purpose of this course is to explore in detail the construction and dynamics of the cardiovascular system. Topics include cardiac medical terminology and the metric conversions required in cardiac therapy, as well as cardiopulmonary anatomical and physiological considerations, cardiac pumping action and electrocardiography. Student learns its systemic and pulmonary circulations, basic principles of cardiac pharmacology and specific drugs. Classroom instruction will be coordinated with certain laboratory activities.

COURSE TITLE: PATHOLOGICAL
MECHANISM AND NON-INVASIVE
DIAGNOSTIC TESTS **COURSE NUMBER:**

DMS-6.2
PREREQUISITE: DMS-6.1
LECTURE HOURS: 24.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS: 60.00
OUTSIDE CLOCK HOURS: 21.00
TOTAL CREDITS HOURS: 2.5

SUBJECTS:

- ✕ Structural Anatomy
- ✕ Sonographic Cross-Sectional Anatomy
- ✕ Pathology/Pathophysiology
- ✕ Clinical Indications and Therapeutic Measures
- ✕ Abnormal Conditions and Congenital Diseases
- ✕ Imaging Techniques,
- ✕ Doppler Flow Pattern
- ✕ Test Procedures and Data Correlation

The course teaches and demonstrates knowledge of cardiac structural anatomy. The cross-sectional anatomy of these structures and their appearance on the sonogram will also be discussed. This course will prepare the student to recognize pathological processes and therapeutic measures. The student learns to identify and perform exams using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. The class teaches the student the basic concept of Sonographic appearance, patient position during Sonographic examinations, and interpretation of Sonographic characteristics.

COURSE TITLE: HEMODYNAMICS AND PRACTICAL APPLICATION

COURSE NUMBER: DMS-6.3
PREREQUISITE: DMS-6.2
LECTURE HOURS: 24.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS : 60.00
OUTSIDE CLOCK HOURS: 21.00
TOTAL CREDITS HOURS: 2.5

SUBJECTS:

- ✘ Principles of Flow
- ✘ Measurements and normal values
- ✘ Physical Considerations
- ✘ M-mode and 2-D Echocardiography
- ✘ Assessment Techniques (Objective, Subjective)
- ✘ Imaging Techniques, Doppler Flow Pattern
- ✘ Test Procedures and Data Correlation
- ✘ Report Writing

The purpose of this course is to explore in detail the construction and dynamics of the cardiovascular system. The student learns to identify and perform Cardiac Atrial and Ventricular Hemodynamics using duplex imaging, Duplex PW Doppler, and Color Doppler with spectral analysis. Students learn to perform M-mode and 2-Dimensional Echocardiography.

COURSE TITLE: DISEASE STATE IDENTIFICATION

COURSE NUMBER: DMS-6.4
PREREQUISITE: DMS-6.3
LECTURE HOURS: 24.00
LABORATORY HOURS: 36.00
TOTAL CLOCK HOURS: 60.00
OUTSIDE CLOCK HOURS: 21.00
TOTAL CREDITS HOURS: 2.5

SUBJECTS:

- ✘ Ischemic Heart and Coronary Artery Diseases
- ✘ Diseases of the Myocardium
- ✘ Acquired Valvular Disease
- ✘ Thrombi and Aneurysms
- ✘ Congenital Heart Disease
- ✘ Prosthetics Valve

This course will prepare the student to recognize the pathological processes of the cardiovascular system. The following topics will be discussed: Ischemic Heart and Coronary Artery, Myocardial and Pericardial, Valvular, and other Heart Diseases. A thorough understanding of normal cardiovascular anatomy and physiology is mandatory in order to comprehend these advanced topics.

COURSE TITLE EXTERNSHIPS
COURSE NUMBER: DMS-7.1
PREREQUISITE: ALL
LECTURE HOURS 00.00
RESIDENTIAL PRACTICAL HOURS 480.00
DISTANCE PRACTICAL HOURS 480.00
DISTANCE 240.0
RESIDENTIAL 240.0
TOTAL CREDITS HOURS 10.5

SUBJECTS:

- ✘ Hands-on Training
- ✘ Manual Analyses
- ✘ Automated Analyses,
- ✘ Monitoring and Control Procedures
- ✘ Evaluation and Reporting

Students participate in a clinical externship where they will gain hands-on training. The clinical part of the program provides students with actual hands-on experience providing diagnostic care to patients of all ages and stages of disease in doctor/imaging clinics affiliated with the American Medical Sciences Center.

DESCRIPTION OF POSITIONS AND RESPONSIBILITIES

NAME	TITLES	POSITIONS	JOB DUTIES AND RESPONSIBILITIES
VARDAN KARAGEZIAN	Director	The Director of the college is the chief executive officer of the company.	➤ Establishes a system for all administrative functions of the college. Secures proper staffing of administrative personnel. Maintains liaison with accrediting and approval agencies. Meets regularly with management personnel.
HAIK ANTONYAN	Associate Director	The Associate Director (AD) of the college is the enforcement officer of the company. All matters of the day-to-day operations of the college fall within the scope of the AD	➤ Coordinates and supervises all staff to ensure effective and efficient processing of students through the learning process. Oversees administrative and management functions related to all departments. Maintains liaison with all accrediting and approval agencies.
NORMA CERANO	Financial Aid Officer	The Financial Aid Officer reports to the College Director and performs duties focused on the college's financial aid tasks.	➤ Assists in the processes the documentation of new enrollments and the satisfactory progress of current students; engages in student's financial aid and offers administrative assistance when needed and/or requested.
GLORIA ASSATRIAN	Student Services	Student Services is responsible for providing information and guidance to students; assisting students through their problems and selecting suitable solutions and courses of action; evaluating student needs, providing vital referrals and authorizing services; coordinating and administering programs, events, and projects	➤ The student services supervisor facilitates student involvement in campus life, advocating the needs of individual students and groups of students to College administrators. Providing a wide variety of professional services and activities to assist students in making successful progress toward their degree objectives; providing learning experiences that supplement those in the classroom; and assisting and encouraging students by providing a variety of referrals as well as coordinating services.
ANNA NAZARIAN	Registrar	The student Registrar is responsible for coordinating student services as well as the institution's SAP-related educational/administrative services.	➤ Synchronizes and administers all academic progress to ensure effective and efficient handling of students through the learning process. Helps the students and administration have the flawless processing of the student paperwork and coordinate the timely receipt of funding-related documentation with the FA officer.
PAULINE ELIA	Job Placement officer	Placement Officer will conduct training and placement activities for graduating students and assists students in gaining meaningful employment in jobs applicable to their field of study for all Associate and Bachelor's Degree programs. Assists students with resume development, interviewing skills, proper demeanor, and support for successful job placement outcomes.	➤ The placement officer develops Career Services relationships with local employers through in-person visits and correspondence, secures employment for a predetermined number of student graduates, Coordinates career job fair events; conducts employer site visits to campus; promotes program visits to students and faculty; greets employers, assists with set-up as needed, and debriefs with employers to assess satisfaction and discuss improvements needed to improve the hiring process.
DEZIRE KHOSRAVI	DMS Program Director, Instructor	The Program Director is the chief program development officer of the Program. The Director is also responsible for conducting one or more classes or components of the institution's educational services.	➤ Establishes an academic system for all professional functions of the college. Recommendation of Resources to support the program, Curriculum development and periodic revision, selection, supervision, assignment, and evaluation of faculty Demonstrate evidence of professional growth and periodic assessment and recommendation for modification of faculties and equipment.
SMBAT MIKELYAN	DMS Program Clinical Coordinator, Instructor	The clinical coordinator and Instructor are responsible for coordinating clinical services and serve as a liaison between the externship sites and students. Assisting students to gain and keep employment.	➤ Clinical Coordinator coordinates and supervises, and monitors all externship's efficient processing of students through the learning process. ➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. H/she must maintain the enforcement of all curriculum-related activities as required by College policies.
ARELI DIAZ	Admission Specialist (DE)	The admissions Specialist will analyze the qualifications of prospective students utilizing established College admissions standards and criteria. Will make appointments, conduct DE orientations, and Review unusual circumstances with the college Associate Director as appropriate. Work closely with Registrar, FA Officer, and staff.	➤ The admissions Specialist will provide outreach and recruitment activities, enrollment, as well as counseling services, and administrative support for residential as well as Distance Education students. The position requires participation in hiring events and activities while providing quality customer service to all students we serve, including prospective students, applicants, current students, departmental staff, faculty, and other groups.
SMBAT MIKAELIAN	DMS Program; Instructor	The Instructor is responsible for conducting one or more classes or components of the institution's educational services	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. She must maintain the enforcement of all curriculum-related activities as required by College policies.
LIANA HAKOBYAN	DMS Program; Instructor	The Instructor is responsible for conducting one or more classes or components of the institution's educational services.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
VIET T. LE	DMS Program; Instructor	The Instructor is responsible for conducting one or more classes or components of the institution's educational services.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
GRIGOR GALADZHIAN	DMS Program; Instructor	The Instructor is responsible for conducting one or more classes or components of the institution's educational services.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
ALISA ANTONYAN	DMS Program; Instructor	The Instructor is responsible for conducting one or more classes or components of the institution's educational services	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. She must maintain the enforcement of all curriculum-related activities as required by College policies.
GOR SHAMIRYAN	DMS Program; Instructor,	The Instructor is responsible for conducting one or more classes or components of the educational services	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
JONAS JOAQUIN	General Education Instructor	The Instructor is responsible for teaching one or more classes or components of the general education services.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
LOU ANN ARMSTRONG	DMS Program; Instructor,	The Instructor is responsible for teaching one or more classes or components of the general educational modules.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
ALYSSA M. FREDERICK	DMS Program; Instructor,	The Instructor is responsible for teaching one or more classes or components of the general educational modules.	➤ Instructors are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. He must maintain the enforcement of all curriculum-related activities as required by College policies.
HOMEYRA DELKASH	Instructor Assistant	The Instructor's Assistant help instructors for conducting one or more classes or components of the educational services	Assistant are required to engage in activities that demonstrate a pattern of academic, professional, and/or technical achievement. She must maintain the enforcement of all curriculum-related activities as required by College policies.
ANNA MARTIROSYAN	Librarian	A librarian's job duties consist of knowing public and academic sources, keeping up-to-date on technology, and helping clients navigate their searches.	➤ The Librarian is dedicated to assisting students in gaining the knowledge and skills needed to locate high-quality, relevant information. The librarian participates in documented professional growth activities.

GRIGOR GALADZHY Instructor

CATALOG EFFECTIVE DATES

This catalog is updated annually and is in effect from January 01, 2023 to December 31, 2023. Special care is given to ensure the information in our catalog publication is an accurate description of programs, policies, procedures, facilities, personnel, and other matters relevant to the operation of American Medical Sciences Center (AMSC). There are times when the catalog requirements may be updated/changed. However, students' education plans will not change and will adhere to the catalog which was in effect at the time the student began his/her education at the Institution. American Medical Sciences Center will authorize substitutions for discontinued courses where appropriate (course updates or updates due to Federal/State Regulations).

ACCURACY STATEMENT

American Medical Sciences Center (AMSC) has made every effort to make this catalog accurate and may, without notice, change general information, courses, or programs offered. The reasons for change may include student enrollment, level of funding, or other issues decided by the institution. American Medical Sciences Center also reserves the right to add, change, or cancel any rules, regulations, policies, and procedures as provided by law.
