Massage Therapy Program

Course Name: Massage Therapy Program

Course Duration: 600 hours

Program Description

The program consists of 252 hours of technical and 348 hours of practical instructions for 600 total hours as shown in the program syllabus. The number of instruction hours meet and exceed the curriculum guidelines of the CAMTC. Full-time students taking 40 hours of training per week are expected to finish the program in 4 months. Part-time students taking 24 hours of training per week are expected to complete the program in 6 months.

Program Objectives

The Massage Therapy Program is designed for those individuals who seek to help others through meaningful manipulation of the soft-tissue muscles of the body to alleviate pain and stress, rehabilitate injuries, and to help improve overall wellness of the clients.

Instructional Methods

The program embodies rigorous theory instructions and comprehensive practical training. The Massage Therapy Program does not offer instructions through online or distance learning. Theory instructions are taught by an instructor physically present in class to explain topics of massage therapy by lectures and demonstrations. Practical trainings are hands-on learning by students practice on a fellow student under close supervision of the instructor onsite. The student to teacher ratio is kept to 25 to 1 so students will benefit from close supervision by the instructor to acquire the knowledge and master the finesse of massage therapy.

Learning Outcome

Upon successful completion of the Massage Therapy Program, the graduate will have a good understanding of the anatomy and physiology of the body, be prepared to take the MBLEX or CAMTC certification examination, and will have acquired the knowledge, skills and professional attitude to perform different massage modalities with confidence for gainful employment or establish one's own massage therapy business.

CAMTC Certification

- Attendance and/or graduation from a California Massage Therapy Council approved school does not guarantee certification by CAMTC. Graduates of the Massage Therapy Program desired to obtain certification by CAMTC must meet all requirements as listed in California Business and Professions Code Section 4600 et. Seq.
- California Business and Professions Code section 4611 makes it an unfair business practice for anyone not certified by CAMTC to use the titles: Licensed, Certified, Certified Massage Therapist, Certified Massage Practitioner, CMT, or CMP.

- A student or any member of the public with questions that have not been satisfactorily answered by the school or who would like to file a complaint about this school may contact the California Massage Therapy Council at: One Capitol Mall, Suite 800, Sacramento, CA 95814, www.camtc.org. phone (916) 669-5336, or fax (916) 669-5337.

Distance Learning

Temple City Beauty College offers students in Cosmetology, Esthetician, and manicure programs to take technical instructions via the internet. Technical instruction means didactic instruction by qualified faculty through lectures, demonstrations, classroom participations, or examinations. Technical instruction has been traditionally taught by an instructor with students present in the classroom or workshop. We offer students the option to take part of or all the required hours of technical instruction through online learning. Students take part in online instruction must attend classes at a distance **in real time** with students physically present in the class. In addition to seeing demonstrations and listening to lectures by the instructor, online students have the capability to ask questions. Likewise, the instructor may converse with the off-site students via the internet. The instructor takes roll calls to record the student's attendance.
